

I am a quadrillionaire chapter 2593

I am a quadrillionaire chapter 2593-“Okay, go now,” Pebbles urged.

“Yes, Miss.” the guard answered and turned to Sylvio.

The old man appeared familiar, but he couldn't recall where he had seen him before.

Nevertheless, his status was too humble to consider that the elderly man before him was Sylvio, the legendary leader of the five Leila rulers.

“Sir, please go ahead,” the guard gestured, inviting him to proceed.

“Lead the way!”

The guard went ahead with Sylvio following behind him.

The two turned a few corners, walked through several corridors, and arrived in front of a warehouse.

There were no guards.

This was somewhat beyond Sylvio's expectations.

Then, the guard opened the warehouse and gestured for Sylvio to go in.

“Please go in, Sir. This is the treasure room. The treasures that the master collected for Miss Pebbles are all here.”

“Thank you for your hard work!”

Sylvio walked into the warehouse as he spoke.

He surmised that there might not be anything of value here since there were no guards present.

When he entered the warehouse, he was stunned.

Gosh!

Countless treasures of heaven and earth, and countless elixirs filled the entire warehouse.

Perhaps more than half of the treasures in the entire Amber City were here!

How generous!

Of course, these things were nothing to Sylvio.

If he wanted something, he just needed to say the word and all the forces in The Spirit Cage would send it to him.

With these elixirs, the medicine to heal the wounds of Elora's soul should be produced after a little processing.

Then, Sylvio got busy in the warehouse.

Elora must recover her memory as soon as possible so that he can discuss Lufian's matter with her.

As Sylvio was preparing the medicine, Pebbles continued standing guard outside David's door.

Earth.

David opened his eyes, panting heavily.

His whole body was soaked in sweat.

The feeling of upgrading his Mind from Ancient level 10 to Heavenly level 10 was truly indescribable.

Even with David's tenacious willpower, it was still a bit overwhelming.

Fortunately, it was over.

After enduring so much pain, the result was great.

His Mind had broken through from Ancient level 10 to Heavenly level 10.

When it came to mind power, perhaps the only individual in Leila who could rival him was Lufian, who had fused his dual souls and attained the rank of Heavenly Overlord.

Not even Sylvio could compete. His mind power still remained at partial Heavenly Overlord Rank.

It was only one step from Heavenly Overlord Rank, but the difference was huge.

After the breakthrough, David took a few breaths and checked his body.

He turned on the system.

[Body: Ancient level 10 (You may upgrade one level using 10 million lavish points)

[Mind: Heavenly level 10 (You may upgrade using 1 million lavish points)

[Combat: partial Heavenly Overlord

[Lavish points: 38964

[Special skill: Cloning (level 6)]

His Mind had reached Heavenly level 10.

His combat power remained unchanged. He remained a partial Heavenly Overlord.

Only after his Body reached Heavenly Overlord Rank would his combat power change accordingly.

After consuming 10 million lavish points, there were still less than 40 thousand points left.
