

Read I am a quadrillionaire chapter 2661

I am a quadrillionaire chapter 2661-Captain Himmel charged toward David to try to save the Madam and the Young Master.

The other guards followed suit.

Nothing must happen to the Madam and the Young Master.

Otherwise, it would be the end for everyone.

When they approached David, they were suddenly blocked by an invisible shield.

No matter how hard they tried, they could not break through.

They failed despite multiple attempts.

After attempting various methods to break through, everyone began to look at David in fear.

They couldn't comprehend the nature of this ability.

It was powerful enough to block so many people.

Even their captain, the strongest among them, could not do anything.

"Who are you, David?!" Captain Himmel asked loudly.

"I'm just someone who found it too boring traveling on my own and wanted someone to chat with. Then I ran into you all I guess this is considered fate! I'll help you escort

Madam Chandler and Zion to the Imperial Capital. The rest of you should find other ways to get there yourselves!

Goodbye!!!"

David was done talking.

Captain Himmel and the dozens of guards could only watch.

A space tunnel appeared in front of David.

He took Leticia and Zion and entered the tunnel.

After that, the space tunnel vanished.

The sky became normal again.

Captain Himmel and the others could move again.

They were standing in shock. They stared in the direction David left with their masters, overwhelmed by what happened. They were astounded to the core.

“Cap... Captain! How... How did he... he do that? Did... Did he vanish into thin air? This is ridiculous? Was that some sort of magic trick?” a guard stammered.

‘That... That was a... A space tunnel. Legend... legend has it that only super powerhouses who have achieved Eternal Realm can do that,’ Captain Himmel replied in disbelief.

It was evident that he was more knowledgeable than the others.

Planet Brechen was only a level 4 civilization living planet at the very edge of the Boundless Galaxy.

However, it was still recognized by the Boundless Galaxy.

That was why anyone of power on Planet Brechen would know a little about the Boundless Galaxy.

They would also know that the most powerful people in the Boundless Galaxy were those who had achieved the Eternal Realm, and they could create a tear in space and time.

“Eternal Realm? How powerful is that?” Someone asked.

“That would be the most powerful presence in the entire Boundless Galaxy. It’s someone who is already at the peak and able to tear through space. That person would be able to travel through high-dimensional space, which is much faster than any other method of traveling. He would be able to reach the Imperial Capital from here almost instantly,” Captain Himmel continued explaining.

‘That’s... That’s really powerful. That would mean that rascal, David Lidell, is a Eternal Realm super...’

Before the guard could finish his sentence, Captain Himmel smacked him on the head. A crisp thud could be heard from the smack.

Smack!!!

“Cap... Captain, why did you hit me?” The guard was incredulous.

“I would freaking beat you to death! How dare you talk about Mr. David that way? You’re even calling him a rascal? If you’re asking for death, don’t drag us along with you. Mr. David can turn you to dust with just a breath,” Captain Himmel immediately scolded.

“But... But didn’t you call him rascal too? Nothing happened to you,” the guard mumbled.

“I... I... I...” Captain Himmel stammered for a long time, unable to explain himself.

He was breaking out in cold sweat too.

The fear within him was immense.
