I am a quadrillionaire chapter 2757 -David lived in another tower in the forbidden land of the Elves.

He was free now, waiting patiently for the Elves' sacrificial ceremony so he could leave after fulfilling his promise.

When he was bored, he would go back to The Spirit Cage.

Everything was running normally, and his lavish points were also growing.

Whether he was there or not, it did not matter.

So he left again.

Soon, he opened the system panel and looked at his lavish points.

8,723,658 points.

Ten million points were getting closer and closer. Now, he only needed a little over 1 million points.

Once his lavish points reached 10 million, David could upgrade his Body and become a Heavenly Overlord.

In addition to his Cloning, there would be dozens of Heavenly Overlords. It would be so terrifying just to think about it.

99.99 percent of the level 9 civilizations in the universe would tremble under his power.

Just as David was deep in thought.

Beep! Beep!

The communication device rang.

He opened it and took a look.

He saw a message from Sylvio.

The content was very simple.

[David, have you arrived in Leila? The preparations have been completed.

Elora's body is almost restored, and we need your help. Come quickly!]

David quickly replied after reading it.

[Sylvio, I'm already here! I'm on Five Continent, so please wait a moment. I'll be here soon.]

After a while, Sylvio replied.

[Okay! We are waiting for you!]

David stood up and prepared to say goodbye to Isa and Evie.

It seemed that he would not be able to attend the sacrificial ceremony.

Elora's restoration was a big deal, so he had to rush there as soon as possible to ensure that nothing went wrong.

They had failed the first time, so they must not fail again.

Otherwise, the damage to Elora's soul would be more serious.

Just when David was about to leave, there was a knock on the door.

Knock, knock, knock!

"Who is it?" David asked.

"David, are you free? I need your help with something," Evie said outside the door.

"Evie, wait a moment! I'll be right there."

David walked over and opened the door. Then, he spotted Evie standing outside the door, looking charming.

"What's the matter?" David asked.

"David, the heirs of all the major forces have gathered together to put pressure on us, and my mother wants you to help scare them," Evie replied.

Since he was also living in the forbidden area, David certainly knew that many people were gathering outside now.

He thought they were going to perform some kind of ceremony before the sacrificial ceremony!

It turned out they were looking for trouble.

David thought about it and decided that since he was about to leave, he should use this opportunity to let Leila's major forces know that the Elves had a

powerful backer, so they would not dare to provoke them.

This would also save him a lot of trouble in the future.

Otherwise, the Elves would get endless troubles, and he could not just sit idly by.

"Okay, let's go together!" David agreed.

"Thank you, David!" Evie chirped happily.

She was worried that David would say no.

"Silly girl, why are you thanking me? I promised your mother that I would protect the Elves as long as I am here. If you have anything else in the future, just tell

me, and I will help you as soon as possible."

"Yes, I understand, David!" Evie smiled.

Outside the Elves' forbidden area, time passed little by little.

I am a quadrillionaire chapter 2758-The heirs of the major forces were slowly running out of patience.

They were usually the ones being waited for; when had they ever waited for others?

"Queen Isa, what is the meaning of this? What are you planning? If you don't explain, we will break in. If we do, don't blame us for not giving you face and

trespassing on your forbidden land.”

‘Yeah! We’ve been waiting for so long. How long do we have to wait? Do you know that it’s always others who wait for us, but now, a weak force like you is making so many people wait? Who do you think you are?’

Isa was silent.

Mostly, it was because she did not know what to say, so she could only remain silent.

Since Isa said nothing, the heirs were even more dissatisfied.

When had they ever been treated like this?

“Since you’re not giving us face, we won’t give you face either. Everyone, barge in now! I want to see what’s different about the Elves’ forbidden area and why

they don’t let us in.”

“Let’s go! Let’s break into the forbidden area and take their women!”

When they mentioned the Elven women, they looked like they had been shot with adrenaline as they moved closer to the forbidden area.

The scene became increasingly chaotic and was about to get out of control.

Suddenly, a huge and suffocating energy appeared and enveloped everyone.

“Hiss!”

Everyone inhaled sharply, only to feel their whole bodies tremble, and a cold air rushed straight to their heads.

The footsteps approaching the forbidden area also stopped.

Some weak ones were so frightened that they lost control of their bladders.

David appeared next to Isa, wearing a silver mask.

His purpose was to let all the forces in Leila know that there was a powerful backer behind the Elves, so it would not matter if he showed his face or not.

He would keep a low profile whenever possible so that he would not be recognized.

The people from the major forces focused their attention on the masked man next to Isa.

They could clearly feel that the terrifying energy that enveloped them was emanating from this person.

What a terrifying strength!

David stood there motionless, but he caused the scene to plunge into silence. It was so quiet that one could hear a pin drop.

This was the deterrence of a powerhouse.

The people who were yelling about breaking into the forbidden area did not dare to say anything anymore.

They hid quietly and thought, 'You can't see me! You can't see me! You can't see me!'

Outside the forbidden area, there were a few young people at the back of the crowd.

From their outfit, one could see that they had extraordinary statuses and they were not on the same level as the people in front.

They did not stand in the crowd with the others. Instead, they stayed at the back of the crowd to look at the people in front of them quietly.

The people at the back all had an older person following them.

Anyone with some knowledge would know that the old people were the protector of those youngsters. One should not underestimate their power.

The moment David appeared, they were all stunned.

The youngsters were still indifferent at first, but when they heard their protectors' voices, they were utterly stunned.

Then, they were looking at David with disbelief in their eyes.

Even though David was wearing a mask, they could tell from David's size that he was not too old.

The mask could hide his face but not his body.

Some people with a good eye could even guess David's age range from his size.

Just now, the protectors behind the youngsters had passed on the message to their masters.

Their tone was solemn.

"Master, keep a low profile. This person is as strong as the grandmaster, so we can't underestimate him!"

I am a quadrillionaire chapter 2759-Outside the Elves' forbidden area, time seemed to have stopped.

Just now, it was still lively, but now it was silent.

The people from the major forces focused on the masked man in the tower.

They didn't even dare to breathe too loudly. Fear gripped them, including the heirs from the top ten forces of Leila.

They understood what their protectors said.

Stronger than the grandmaster?

Even though they had a lot of grandmasters in their forces, the only grandmaster acknowledged was one at partial Overlord Rank.

This meant that the masked man was a partial Overlord.

The heirs looked at each other and finally understood why the Elves dared to treat them like this.

One had to know that over half of Leila's forces were here.

They had powerful support.

However, it would be completely different if the Elves had a partial Overlord behind them.

However, this is not that simple.

Perhaps something was hiding behind this!

Even if the Elves had a partial Overlord as their support, they should not offend so many forces at the same time.

Where was the problem?

The heirs of the top ten forces in Leila were examining David curiously.

It was unknown what they were thinking.

Even if they were intimidated by David's power, they did not show any fear.

The top ten forces in Leila all had a partial Overlord each.

The top three forces even had a few of them.

The only people that could scare them were the five Leila rulers.

Time passed slowly, and everyone held their breaths, not daring to make a sound.

After about ten minutes, David finally said, "Who still wants to barge into the forbidden area? Come out and let me see you."

No one at the scene dared to say anything.

As for the culprits, they had already curled up in a corner, shaking.

"No one dares to do it anymore, huh? Then, let me say a few words."

After he said that, David looked around and continued,"

From this day on, I will be protecting the Elves. Anyone who dares to hurt the Elves without good reason will be going against me. If that happens, don't blame

me for being cruel when I drop by your house. I can't promise what will happen if I do that."

The scene was still silent.

Everyone finally understood why the Elves dared to offend so many forces at the same time.

At the back of the crowd, one of the youngsters wanted to stand out and was about to come forward to say something.

He was just a partial Overlord. Who did he think he was?

He had three partial Overlord grandmasters! Did that guy think he would be scared?

However, before he could say anything, the old man behind him grabbed his shoulder.

The young man turned around and looked at his protector in confusion.

Then he saw the old man shaking his head.

"Grandpa Pompeo, you always taught me that I have to face any challenges and not back down as it will cause traumas and it will be bad for my cultivation,"

the young man whispered.

"Master, we don't know this person's strength, so keeping a low profile is better.

If we infuriate him, we might not be his match, and we can't even run," the old man advised.

He knew his master's character.

Another heir in the family had always suppressed him. Now that he finally got a chance to come out, he wanted to stand out to release the anger in his heart.

"Grandpa Pompeo, do you think he dares to do anything to me?"
