I am a quadrillionaire chapter 2760-“Better to be safe than sorry. We can't afford to bet on this.”

“I don't believe this! He's just a partial Overlord! The Tawney family has three partial Overlord grandmasters.”

‘The grandmasters are not here. If something happens, they can't come in time to save us.’

“But I don't believe he dares to do anything to me!”

The other youngsters turned their attention to the young man.

Then they also looked at their protectors.

They saw their protectors shaking their heads, indicating that they should not do anything rashly.

It was because the old people could feel a fear deep inside their hearts from the masked man's energy.

They did not want to fight such a person as they were not on the same level.

At this moment, David spoke again.

“I know you're guessing who I am. Since I'm the Elves' support, let me introduce myself so you'll know who is behind the Elves. Listen closely.”

David's tone changed when he said this, and his voice, laced with his mind power, penetrated everyone's hearts.

“I am Emperor David, the sixth Overlord other than the five Leila rulers. If anyone thinks they can challenge me, please provoke the Elves. I don't mind teaching you and the force behind you an unforgettable lesson!”

Boom!

After David said the last word, a loud crash came from the sky.

Everyone clutched their chess and looked blankly at the masked man on the tower.

Overlord?

That person was an Overlord?

Weren't the five Leila rulers the only Overlords?

Since when was there another Overlord?

The young man who was still trying to convince his protector was stunned.

He was shaking uncontrollably.

He was scared!

He looked at his protector and asked with a shaking voice, "G-Grandpa Pompeo, is he telling the truth?"

The old man called Grandpa Pompeo nodded seriously.

In that instant, he did feel a power that was much stronger than the grandmaster's power.

The old man who had met an Overlord from afar knew that this person was undoubtedly an Overlord.

Talented individuals were hiding in Leila. There was even another Overlord.

He looked very young too.

It was unknown which Overlord cultivated him.

Aside from the five Leila rulers, no other force could cultivate an Overlord.

After getting his protector's affirmative answer, the young man stopped hiding the fear in his heart. His body went limp, and he collapsed to the ground.

If Grandpa Pompeo had not stopped him, he would have talked back to an Overlord.

If he offended an Overlord, even the three partial Overlords in his family could not save him.

As for the other heirs on one side, they were also terrified.

There was a moment when they also wanted to say something to be in the limelight and increase their prestige.

Thankfully, they did not!

If not, they would not even know how they died.

Most people at the scene figured that partial Overlord and Overlord were not that different. They were too weak to feel it.

Both partial Overlords and Overlords could immediately suppress them.

Only the protectors who had got into contact with partial Overlords could feel some difference.

They were naturally very stressed when facing an Overlord.

The crowd did not doubt anything David said.

Ever since the five Leila rulers appeared in Leila, no one dared to call themselves Emperor anymore unless they were indeed an Overlord.

If not, they would simply be asking for death.
