

I am a quadrillionaire chapter 2764-The demand was small, so no one would take risks to look for it.

However, since David needed it, Isa thought deeply about whether the Elves had such treasures.

Eventually, Isa remembered.

In another forbidden area was a huge sacred tree called the World Tree by the Elves.

A small groove was inside the sacred tree, and a drop of sacred sap would be formed every year.

The Elves had never fully understood the function of the sacred sap.

Apart from producing blood quickly, it did not seem to have any other effect.

In other words, it could be used as a healing elixir.

If an injury resulted in excessive blood loss, taking a drop would replenish blood immediately.

The Elves refused to believe that the sacred sap could only be used to heal wounds.

However, they firmly believed that the things produced by the sacred tree must be great treasures. Hence, they collected them.

After so many years, they had accumulated a lot.

If it could replenish ordinary blood, could it also replenish blood essence?

Isa had never taken the sacred tree sap, so she did not know its specific effects.

"Master David, we have a sacred tree sap that can instantly restore ordinary blood. However, you will need to find out if it can also replenish blood essence."

Isa decided to take it out and give it a try.

She did not want to miss the opportunity to help David.

"Really?" David asked in surprise.

He was just asking casually, so he did not expect the Elves to have it.

"Yes, but I can't guarantee its effectiveness!" Isa warned.

"Ms. Isa, take it out and let me try. After that, we will know," David asked impatiently.

Since he learned Cloning, he had also consumed much of his blood essence.

Although it had no effect on his body for the time being, he would definitely need more blood essence when he fought Lu'an. If it affects his body, it would be a

problem.

It would be best to replenish the blood essence before fighting Lu'an.

"Please wait, Master David. I'll get it right away!"

She turned to Evie and said, "Evie, please stay with Master David. I will come back as soon as I can."

"Yes, Mother!" Evie replied.

Isa left to get the sacred sap, leaving only David and Evie.

"David, you promised me that you will come to the Elven Forest again when you have time. Don't go back on your word." Evie looked at David with reluctance in

her eyes.

After David rescued her in The Spirit Cage, she had already developed a slight affection for David.

However, she was the Elven Princess, so she had to bury her feelings deep in her heart and dared not express them.

Now that David's true identity was exposed, and Evie knew about their gap, she hid her feelings even deeper.

"Don't worry, Evie! The Elven Forest is such a beautiful place. After taking care of everything, I will live here for a while. Don't get annoyed then," David joked

with a smile.

"I won't, David! If you come back, the entire clan will warmly welcome you. You are our great benefactor, and we can't thank you enough, so how will I get

annoyed with you?" Evie explained quickly.

"I'm just kidding!"

"It's a deal then!"

"Yes! It's a deal!"
