

Read I am a quadrillionaire chapter 2771

I am a quadrillionaire chapter 2771-David was concentrating on maintaining the operation of the formation.

Restoring Pebbles' body was a huge matter, so he must stay alert and not allow any accidents to happen.

Suddenly, a strange and colossal energy appeared, stunning David.

He immediately guessed the identity of this person.

Only one person could crush him in Leila in terms of loftiness, and that was Heavenly Overlord Lufian.

He wanted to wait until Pebbles restored her body before looking for Lufian, but unexpectedly, the other party came directly to them.

Moreover, he even came at such a critical moment.

Before David could come to his senses, Lufian's voice rang in his ears.

"Who are you? Why are you here?"

David followed the sound and looked over.

Unnoticed by him, a man had appeared not far away, staring at him.

He was indeed a powerful Heavenly Overlord.

David was concentrating on keeping the formation running so he could get close quietly.

Only a Heavenly Overlord could do this.

At the first sight of Lufian, David knew he was no match for him.

He could only defeat Lufian by using his clones, even if he tried all his means.

There seemed to be only half a step between the partial Heavenly Overlord and the real Heavenly Overlord, but there was a huge difference.

Except for the amazing and heaven-defying secret technique of Cloning, there were probably very few methods in the entire universe that could bridge this gap.

“You are Lufian, one of the five Leila rulers, right?” David did not answer but asked instead.

“Let me ask you again, who are you? Why are you here?” Lufian asked again.

“It doesn’t matter who I am! As for why I’m here, can’t you see? Of course, I’m restoring Elora’s body for her.”

“That’s my place! What qualifications do you have to be here?”

David chuckled suddenly. Just as he was about to answer, a voice interrupted them.

“Lufian, don’t be reckless. Now is the most critical time for Elora’s restoration.

Once an accident occurs and the restoration fails, Elora’s soul will be severely damaged again. The consequences will be more serious than the last

time. I believe you don’t want that to happen either.”

Sylvio was the one speaking.

The moment Lufian arrived, he knew this would be troublesome.

If he was not careful, Elora’s restoration might fail again.

Lufian, whose dual souls had been fused, was no longer the Lufian they knew.

He was very prone to rage now.

He even wanted to kill Sylvio to get Elora’s whereabouts.

From then on, Sylvio knew that Lufian had utterly changed.

When Lufian saw a strange man taking his place and restoring Elora’s body, he clearly could not accept this.

Perhaps he was already on the verge of going berserk.

To prevent Lufian from going berserk, Sylvio could only mention Elora. She was the only person he cared about.

Sure enough, after hearing Sylvio's words, Lufian looked away from David and turned to look at the planet where Elora was.

It was as if he could see Elora recovering her physical body. Silence.

I am a quadrillionaire chapter 2772-Total silence.

Lufian did not say anything.

Instead, he just stood there silently.

Sylvio thought he had persuaded Lufian, so he seized the time and tried to speed up the operation.

He hoped to restore Elora's physical body as soon as possible.

Valentin and Drogo did not dare to say anything.

Heavenly Overlord Lufian was putting too much pressure on them.

In addition, Lufian was very self-centered after going berserk, so they were extremely nervous.

After a moment of silence, Lufian asked. "Sylvio, you're helping Elora reshape her body, but instead of looking for me, you found a strange boy to do this. What

is the meaning of this? Have you excluded me from the five Leila rulers?"

"Lufian, don't get me wrong! We can't delay Elora's restoration. We don't know where you were, so we can only find someone to take your place! I didn't mean

to exclude you. You will always be one of the five Leila rulers," Sylvio explained quickly.

He did not dare irritate Lufian now.

Who would stop him if he went berserk?

David did say that he could deal with Lufian, but Sylvio was not entirely convinced.

How would Heavenly Overlord Lufian be so easy to deal with?

Even if David had some means to counterattack Zwei Arithmetics, Sylvio did not dare to put all his hopes on David.

It would be best if Lufian did not go berserk and waited for Elora to complete her restoration.

If Elora was here, she might be able to persuade Lufian.

“Really? Why do I feel that’s not the case? Is this guy the opportunity you said Elora would encounter? You didn’t tell me Elora’s whereabouts and refused to

let me go find her because you were afraid that I would know there is some special relationship between the boy and Elora, right?” Lufian asked calmly.

Upon hearing what Lufian said, a clap of thunder went off in Sylvio’s brain.

He felt as if his head was about to break open.

How was this possible?

How could Lufian analyze this in such detail?

How could Lufian stay so calm after fusing with his violent personality?

“L-Lufian, don’t overthink! There is no such thing! You’re just making random guesses,” Sylvio said in a panic.

However, his words did not sound convincing at all.

Any normal person could see that Sylvio was clearly panicking.

Otherwise, he would not stutter.

“Sylvio, you don’t need to explain anymore. The moment I saw this kid, everything became clear at once. No wonder Elora changed so much since she came back after her soul was damaged. She even showed rejection towards

me, as though she wanted me to stay far away from him. She was not like that before; she was trying to accept me. If I continue working on her, it won't be long

before we are together. Unfortunately, everything changed when she returned after the Robotias and the Soul Devourers attack," Lufian said.

"Lufian, stop overthinking. After Elora restores her body, you can ask her these questions in person, and she will explain." Sylvio was still making his last effort.

"Do I still need to ask? Your expression has already said everything. Sylvio, you have been covering up for Elora this entire time. I don't understand. We have

known each other for a long time, right? Am I no better than a strange kid in your heart?"

"It's not what you think! Lufian, can we talk after Elora's restoration? We can resolve all the sore spots in your heart."

"Sylvio, I just want to tell you one thing now!" Lufian said suddenly.

"What is it?" Sylvio could sense something bad was happening.

"If Leila is destroyed, and countless creatures are extinct or displaced, it will be all your fault. If you didn't help Elora lie, none of this would happen. Sylvio, you

will become Leila's sinner," Lufian said in a murderous voice.

He was trying his best to suppress the anger in his heart.

I am a quadrillionaire chapter 2773-"Lufian, don't mess around! We can wait until after Elora's restoration, okay? If you mess around now, it will cause Elora's restoration to fail!" Sylvio shouted.

"Don't worry! I know for sure that Elora's restoration will not fail this time!" Lufian replied coldly.

Then he turned and walked towards David.

“Boy, I don’t know who you are, but no one can touch my things! Whoever touches them will die!” Lufian said as he walked.

“Lufian, although Elora and I are not in the kind of relationship you think, I disagree with what you say! Elora is a person, not your thing. She has her own

thoughts and is free to do whatever she wants. No one has the right to interfere with that. No one!” David replied.

“Really? Then, I will kill you now and take Elora away! Even if I can’t win her heart, I still want to get her body! I want her to watch you die in my hands.”

“You can’t!” David was not afraid at all.

“I’m so curious as to who gave you the courage to say this to a Heavenly Overlord?”

“My own strength, of course!”

The conversation between the two made the other people’s hearts leap to their throats.

Sylvio, Valentin, and Drogo knew what would happen next.

The only thing they could do was to work hard to maintain the operation of the formation.

At this time, Elora was at the critical moment of her restoration. She could hear the sounds outside but could not do a thing.

She could only pray that David could survive his fight with Lufian.

“Very good! Then, show me where your confidence comes from.”

The moment he finished saying that, Lufian rushed towards David.

Just as he approached David, a figure suddenly appeared out of thin air.

Lufian did not hesitate and slammed into it with all his strength.

Anyone who dared to stand in front of him would die.

Bang!

The loud noise alerted everyone.

They witnessed a figure being propelled, transformed into a point of light, and vanishing into the void. This demonstrated the immense force of Lufian's impact.

However, Lufian was also forced to stop.

His eyes were locked on the person he crashed into.

This person was not weak. When he got hit, he did not disintegrate but just flew away. Even Sylvio's strength might be inferior to that person.

When have so many strong people suddenly appeared in Leila?

The figure that was knocked away by Lufian suddenly reappeared and stood in front of David, confronting Lufian.

Lufian's eyes narrowed.

He looked exactly like that kid.

Not only that, but the energy they exuded was also the same.

What's happening?

Why did these two look alike and even have the same energy?

Were they twins?

Even if they were twins, they could not have the same energy, right?

Sylvio, Valentin, and Drogo were also mesmerized.

When they saw 'another David', all three were puzzled.

They also had no idea why there were two Davids.

Even Elora did not know that David had a clone, let alone them.

"Is this your trump card?" Lufian looked at David.

“You can say that.” David smiled and answered.

“It’s just an ant! Do you think he can protect you? What a joke!” Lufian showed a sinister expression.

“If one can’t, how about a few more?” David asked.

As he said that, more figures appeared from thin air. Including the one Lufian knocked away, ten clones were now protecting David.
