I am a quadrillionarire chapter 2780-'Twenty is not enough! I'll give you more!" After saying that, more clones appeared one after another around him. This was the blood essence that David prepared in advance. Now that Flora's restoration was complete, there was no need to hide. Lu an would go berserk next and use his most potent ghting ability. If he did not use all his strength, determining the result would be very hard. When summoning the clone, David held the Evil-Splitting Sword in his hand. He wanted to see if the Evil-Splitting Sword, which could slice anything in the world, could cut Lu an. As the last clone was summoned, all 81 Level 6 were present. This was the rst time David had summoned so many clones since he learned Level 6 Cloning. Including his main form, there were 82 partial Heavenly Overlords in total. Ordinary Heavenly Overlords would take a detour if they saw such a huge force. However, after going berserk, Lu an was no ordinary Heavenly Overlord.

After Lu an went berserk, his strength was greatly improved, and his sanity was slowly swallowed up.

Now, no matter how many enemies there were, he just wanted to tear

## everything in front of him.

The two used their strongest methods, causing Sylvio and the others to rethink

everything they knew. Their minds went blank.

Everyone knew that his strength would increase greatly after Lu an went

berserk, and he would be far more powerful.

However, what about David?

It was ne that he had the strength of a partial Heavenly Overlord.

He also could summon a total of 81 clones to help him ght!

81 partial Heavenly Overlords!

What was it like?

Facing so many partial Heavenly Overlords, even a Heavenly Overlord would

have a hard time.

They thought that 20 clones was the limit.

Unexpectedly, David summoned 61 more. He was clearly trying to kill Lu an.

Regardless of whether David could defeat Lu an, as long as he fought Lu an

head-on and got out alive, it would be considered a success.

As a partial Heavenly Overlord, he would be the rst person to return alive after

ghting a Heavenly Overlord.

After Sylvio came to his senses, a burst of ecstasy led his heart.

Dozens of partial Heavenly Overlords might pose a threat to Lu an.

Leila was saved!

As expected, God did not abandon Leila.

Zwei Arithmetics was right.

Everything had a silver lining, and David was Leila's lifeline.

"Sylvio, take Elora away rst and let her strengthen her body. Leave this to me! I

will drive Lu an out of Leila and not

allow him to cause any damage," David shouted.

"David, be careful! Lu an is the Heavenly Overlord, after all. After going berserk,

he will not be easy to deal with," Sylvio replied.

"Don't worry! No matter how strong Lu an is, as long as he doesn't surpass

Overlord Realm, I still have a way to deal with him."

"Okay! David, we'll take Elora away rst. You should be careful and escape if

you can't take it anymore."

While the two were talking...

"Ah! Go to hell!" Lu an looked up to the sky and roared angrily.

Immediately, he rushed toward David and the dozens of clones in front of him

with overwhelming power.

"Go!" David also shouted.

Then, he controlled dozens of clones to retreat further into the void.

Even partial Heavenly Overlord Sylvio would nd it dif cult to withstand the

aftermath of the ensuing battle because David was likely to detonate his partial

Heavenly Overlord clones.

**,** 

Therefore, he would try to move the battle eld as far away as possible so that

Elora and the others were not as affected.

Sylvio saw David leaving and naturally understood what he was thinking.

So, he immediately arrived on the planet with Valentin and Drogo.
