I am a quadrillionarire chapter 2783-"Lu an, as I've said, you can't kill me!" David said as he stepped back.

At this time, more than ten clones appeared around him.

As long as Lu an continued to advance, more clones would step forward to stop

him.

he detonated the clones.

David's mind power.

inevitably tire over time.

and aws would appear in the coordination.

After all, Lu an was a Heavenly Overlord.

They only created super cial injuries on him.

Overlord and the real Heavenly Overlord.

Eventually, he would only be able to control fewer clones.

Lu an glared at David.

He could easily catch and cut David into pieces if the clones were not in his way.

Not even his soul could escape then.

However, with these clones blocking, he could not catch him.

While Lu an was stunned, dozens of clones caught up and surrounded him.

The two sides faced each other again.

If he got rid of David's main form, the clones would no longer exist.

Lu an was guring out how to get closer to David's main form.

David was stalling for time, waiting for Sylvio and the others to get away before

He knew that it would be dif cult to hurt Lu an if he continued ghting like this.

Over time, he might lose.

Although he could restore his blood essence with the divine tree sap, controlling

so many partial Heavenly Overlord clones at the same time was a burden on

Even if his mind power was much stronger than ordinary people's, he would

Once his mind was exhausted, he could not control the clones so accurately,

So, when it came to a protracted war, David might be unable to match Lu an.

Since going berserk, his strength was even better than before.

The defense power of a Heavenly Overlord's body alone was astonishingly high.

So far, he had received thousands of hits from partial Heavenly Overlord clones,

but they had not breached his defense.

David had to admit that a Heavenly Overlord was terrifyingly powerful.

No wonder there was an unbridgeable gap between the partial Heavenly

Up till now, Lu an had killed at least hundreds of partial Heavenly Overlord

clones after he went berserk.

Moreover, the clones were not afraid of death.

He did this while the clones were cooperating seamlessly.

many people.

After all, when everyone had their own independent thoughts, who would be

Ordinary partial Heavenly Overlord might not even achieve this with twice as

willing to risk their own life to create opportunities for others?

Without Cloning, or even if his Cloning was just at Level 5, he would not be able to resist Lu an after he went berserk.

Today, David nally understood the power of a Heavenly Overlord.

"David, you are very powerful! A partial Heavenly Overlord like you can make a Heavenly Overlord like me helpless. You will have a place in Leila or other level

9 civilizations in the universe," Lu an said solemnly.

"Thank you for the compliment! Lu an, since you can't kill me and I can't kill you,

it's just a waste of time for us to continue ghting, so let's just end this right here.

You can leave Leila and explore the world outside – that's the real stage for a

Heavenly Overlord like you. I am not strong enough, so how about I stay here to protect Leila?" David suggested.

He had changed his mind temporarily.

If Lu an were willing to retreat, he would just end this battle right now.

ghting either.

He felt that, even if he detonated his clones, he still might not kill Lu an.

David did not want to continue

So, they may as well give it up.

his Body to Heavenly Overlord Rank.

As for whether Lu an would make a comeback in the future?

There was absolutely no need to worry about this issue.

It would not take long for David to collect 10 million lavish points and upgrade

With cloning added, he need not be afraid of Lu an.

different from the clones of a Heavenly Overlord.

The combat power of the clones of a partial Heavenly Overlord was very

Even with Lu an berserk, David was con dent he could take him down quickly.
