

I am a quadrillionaire chapter 2794-After he went berserk, his combat power was close to peak Heavenly Overlord

Rank.

If David fought with such a peerless powerhouse, the consequences would be very serious if he was not careful.

David did not dare let Lu an get close to him.

His advantage lay in the number of clones, and he would win in quantity if he did not have the quality.

Fortunately, it was successful.

Although he did not win, he did not lose either. This was the best ending.

He did not have any physical injuries, but his mind power was in shambles.

After detonating dozens of clones, David's mind power was seriously damaged.

Now, he just wanted to sleep and take a good rest.

However, not here.

Who could guarantee that Lu an would not come back?

David dragged his tired body and left.

As he walked, he summarized the gains and losses of this battle.

"Gosh, I was too careless," David sighed helplessly.

Who would have thought that just after Lu an stepped into Heavenly Overlord

Rank, his combat power would reach peak Heavenly Overlord?

David never expected this.

Otherwise, he would never ght him as a partial Heavenly Overlord.

Now, he must nd a way to break through to Heavenly Overlord Rank.

He needed more than one million lavish points to break through now.

However, it would be easy with David's current status.

He just needed to say the word, whether in Leila or the Spirit Cage.

He did not need to worry about exposing himself anymore.

So what if he exposed himself?

What if he did not?

Who else could harm him?

This battle was so tough only because he looked down on Lu an.

He originally thought that he was the only one who could do leapfrog

challenges, but it turned out that Lu an could do it too.

He could abruptly improve his strength close to peak

Heavenly Overlord Rank.

At the same time, David was also lucky.

It was good that he had a lot of different methods. Otherwise, he might have

died in Lu an's hands.

He could become stronger, but in the end, he lost because of his carelessness.

It would be such a waste if he died and affected the other living creatures in

Leila.

David would not be so stupid next time.

He would improve his strength after he had a good rest.

Improving his Body to Heavenly Overlord Rank was no longer his goal.

He must raise it to the limit, which was raising both his Mind and Body to

Heavenly level 10. Then, he must also level up his Cloning.

This was the limit David could reach so far.

As for how he would get his lavish points, he only needed to say the word.
