I am a quadrillionaire chapter 2859-Sylvio was the first to approach, and he suddenly felt something was wrong with his body.

He thought to himself, 'Huh? What's happening?'

'Why is my vitality slipping away?' Sylvio quickly checked the condition of his body carefully.

He was right, and his vitality was indeed slipping away.

Although it was very slow, he could still barely resist it since he was a partial Heavenly Overlord.

On the contrary, anyone below Overlord Realm would lose their vitality very quickly.

Of course, ordinary people would lose their vitality and die in an instant.

When did this place appear in Leila?

How was it formed?

Sylvio was shocked when he remembered Lufian was just a short distance ahead.

'Was it Lufian?' While Sylvio was wondering, he heard a familiar voice.

"Sylvio, long time no see!"

Sylvio was startled and turned to the sound. Then, he saw Lufian walking towards him step by step.

Yet, what surprised him was that Lufian had his eyes closed.

Did the battle with David cause permanent damage to his eyes?

"Lufian, did you do all this?" Sylvio took a deep breath and tried to stay calm.

“So what if it is? So what if it’s not? Sylvio. Didn’t I ask all of you to come? Why are you the only one? Where’s Elora?”

“Where’s David?” Lufian did not answer Sylvio’s question.

His targets were Elora and David.

Sylvio was just a dispensable character who could be easily crushed to death.

“David and Elora have left Leila and are not coming back. Lufian, what are you trying to do?” Sylvio asked under tremendous pressure.

He understood the consequences of what he said.

It might anger the Lufian, and he might kill Sylvio on the spot.

However, Sylvio had no choice.
