I am a quadrillionaire chapter 2879-“Leave one of the Super Sky Demons to me. You and Eros can deal with the other one.”

The moment David finished saying that, he got the Evil- Splitting Sword, and his whole temperament changed drastically.

He seemed to fuse with the Evil-Splitting Sword and become a decisive and sharp-edged weapon.

The Evil-Splitting Sword, combined with the energy emanating from David, caused even the Almighty standing next to him to take a few steps back unconsciously.

After they came back to their senses, they blushed and stared at David in disbelief.

They were experienced Almighties, yet they were actually shocked by a newcomer. How could this be possible?

At this time, everyone’s eyes were focused on David, including Blaze and Eros.

As peak Origin Realms, the two felt it more deeply than others.

After David and the sword in his hand merged, they formed an extremely terrifying force that even made Blaze and Eros feel a strong threat.

One must know that they were the strongest in the Metaverse.

So, what did this mean?

It showed that David has what it took to deal with the Super Sky Demons.

Blaze and Eros had surprise looks in their eyes at the same time.

David was indeed someone who could enter Origin Realm under the blockade of the curse. This temperament alone was not comparable to the ordinary Almighty.

Based on the strength David was showing now, there might be hope.

However, they had to plan this carefully to surprise the Sky Demons.

“Hahaha! Very good! Very good! David. You surprised me! It seems that God doesn’t want to eradicate the Metaverse yet!” Blaze laughed.

David’s sudden revealed strength was indeed beyond his expectations.

He thought he would need to fight to the death this time.

Unexpectedly, a young genius like David appeared and rekindled Blaze’s hope at this critical moment.

“I told you! If he can break through Origin Realm under the curse, how can he be measured by the standards of an ordinary Origin Realm Almighty? David is still so young. If he can survive this disaster, he has a bright future. But what a pity! What a pity!” Eros sighed and shook his head.

Everyone knew what he meant by that.

If it were not for the Sky Demons, with David’s powerful talent, he might have a chance to surpass Origin Realm.

However, with the Sky Demons blocking the way, it would be hard to say whether he could leave the Metaverse alive.

Even if he could block the Sky Demons’ attack this time, what about the next time?

Once the Sky Demons were freed up after dealing with other problems, there would be no hope for the Metaverse.

After all, the Sky Demons were too powerful, and their numbers were in double digits.

Only Blaze and Eros could compete with the Super Sky Demons in the Metaverse. However, they were still seriously injured. Even if David was added, they still could not deal with so many Super Sky Demons.

“Eros, don’t speak like that. Why have we endured from a team of thousands of Almighties to now, with less than a hundred of us left? Isn’t it all for that tiny glimmer of hope? And now, that hope has manifested in David! Let’s repel this wave of the Sky Demons first, and then we can discuss how to break the curse and send David out. I believe that if the curse didn’t bind him, he would

undoubtedly thrive. It won't be too late for him to return and rescue us when the time comes," Blaze said with utmost seriousness.

"Yes, yes. I was confused just now. David is our only hope now!"

Suddenly, several loud noises were heard in the sky.

Boom! Boom! Boom!

Although the Sky Demons had sealed the Metaverse, Blaze led people to set up an array to seal the opponents.

However, it was very difficult for them to break through the Sky Demons' seal, but on the contrary, it would be very easy for the Sky Demons to break through their array.

One of the reasons was the strength of the array. The other reason was the gap in strength between the two sides.

The Almightyes, who had just entered mid-Origin Realm, had created several defensive arrays after being hit by the Super Sky Demon, and now they had all been broken.

"The Sky Demons are coming! Everyone, get ready! David, don't take action yet. Eros and I will create an opportunity for you. When the time comes, you have to attack one of the Super Sky Demons with all your strength to seriously injure him so we'll have a chance," Blaze ordered.

I am a quadrillionaire chapter 2880-Got it!" David replied loudly.

Although he was a little dissatisfied, he still agreed with the other party's plan.

This was a good time to see how strong the Super Sky Demon was and make sure it would be appropriate to summon some of his clones.

"Go!"

Blaze took the lead, jumping up from the ground and shooting into the sky.

The rest of the Almightyes followed, with David hiding among them.

At this time, countless huge black shadows descended from the sky, and two Super Sky Demons were in the lead.

“Surrender! Otherwise, you will die!” The ferocious-looking Super Sky Demon opened his terrifying mouth.

“F*ck you!” Blaze yelled.

They originally lived a peaceful life in the Metaverse and were at peace with the surrounding universe.

However, these scoundrels showed up and sealed the Metaverse. Then, the Origin Realm Almightyies died one after another to protect their homeland.

From more than a thousand people, the number of the Almightyies dropped sharply to less than a hundred. Among them, many of them were Blaze’s friends.

Blaze had to witness his friends sacrifice their lives for their homeland, so he was dying to tear the Sky Demons into pieces.

Boom!

As soon as the two sides came into contact, violent collisions sounded.

The extraterritorial battlefield was a special place as it was not within the Metaverse.

The space here was very strong. Otherwise, it would not be able to withstand the collision of the Almightyies.

The Sky Demons were huge, and they could destroy everything in their path with every attack.

Humans appeared very weak before them, but fortunately, humans were flexible, so they could not be easily attacked.

David wandered the battlefield, his eyes fixed on the Super Sky Demons fighting Blaze and Eros.

He could clearly feel that the two seniors were a little out of their depth, and Super Sky Demons did not seem to be using their full strength but were just teasing the two.

While waiting for the opportunity, David quietly approached an ordinary Sky Demon. Then, he poured his Origin Power into his Evil-Splitting Sword before swinging it at the Sky Demon's neck.

A red light flashed, and the Sky Demon's head instantly separated from his body.

Decapitation was not fatal to the Sky Demons. They could recover after consuming some energy.

Generally speaking, it would take at least three fatal attacks to truly kill a Sky Demon.

However, this time was different. A mysterious force was preventing the Sky Demon from recovering, and he could not recover even after exhausting his energy.

A corpse the size of a mountain fell to the ground.

David managed to get his first kill.

Then, he stood in the air and looked at the Evil-Splitting Sword in his hand.

He thought to himself, 'The Sky Demons are just so-so.' Little did he know that the Sky Demons were a type of monster, and the Evil Splitting Sword was designed to defeat all monsters in the world, so it could be said that the Evil-Splitting Sword was the Sky Demons' nemesis.

Coupled with David's strong Origin Power, killing ordinary Sky Demons would be completely effortless.

The man fighting the Sky Demons was also standing in the air without moving.

He looked at David blankly.

He could kill the Sky Demon with just a wave of his sword, and the Sky Demon did not even have a chance to recover.

After a successful kill, David continued to move through the battlefield.

With his strength combined with the Evil-Splitting Sword, he was like a tiger among sheep.

Soon, he completed two kills, three kills, four kills...
