I am a quadrillionaire chapter 2881-The Sky Demons sent out two Super Sky Demons this time, hoping to annihilate the Almightyies in one fell swoop and completely take over the Metaverse.

They had spent a long time weakening the Metaverse.

They reduced the Almightyies from more than a thousand to less than a hundred.

This was the moment they were waiting for.

Those Almightyies who had survived were all the elite of the elites. Even the lowest strength among them were at midOrigin Realm. Therefore, it was easy to kill them.

Hence, that was why the Sky Demons dispatched two Super Sky Demons to kill them with one blow.

At first, neither Super Sky Demons paid much attention to the Metaverse.

After all, the only two peak Almightyies were seriously injured and were no match for them.

As long as they dealt with Blaze and Eros, it would be much easier for them to deal with the mid and late Almightyies.

However, as time passed, the two Super Sky Demons gradually realized something was wrong. The Sky Demons they brought with them were constantly disappearing.

It had just been a while, and dozens of Sky Demon corpses were falling to the ground.

They all died of the same cause, beheading.

The two Super Sky Demons were so angry that they stopped holding back.

Boom! Boom!

Blaze and Eros were pushed underground at the same time by a huge blow.

Just when the Super Sky Demons were about to pursue them and give them a fatal blow, a red light flashed across them. Both Super Sky Demons sensed a strong crisis and evaded in time.

However, this attack came too fast, so they were not able to completely avoid it.

Blood splashed everywhere!

One of them had a broken arm, and the other one had a broken wing.

The two Super Sky Demons looked up to the sky and let out a roar.

They never thought that they would be hurt in the weakest universe.

Although this injury was nothing to the Sky Demons, it was a huge insult to the Super Sky Demons.

David held the Evil-Splitting Sword and confronted the two Super Sky Demons in the air.

He lamented to himself, 'They are Super Sky Demons indeed. I didn't think they'd avoid my sneak attack.'

'But that's what makes it interesting.'

'Otherwise, this victory would be too boring. I won't even need to summon my clones.' As the Super Sky Demons roared, both sides stopped fighting and returned to their respective camps.

All the Almightyes of the Metaverse stood behind David.

At this time, they were completely impressed by David.

If David had not helped them secretly just now, a lot of them would have been seriously injured or even killed.

However, the Almightyes were still alive and had only sustained minor injuries.

Blaze and Eros rushed up and landed next to David, blood dripping from the corners of their mouths.

They were seriously injured, so they were no longer as powerful as they were at their peak. If the Super Sky Demons attacked them seriously, they could not fight back.

Seeing that the two Super Sky Demons across from them had only suffered broken arms and broken wings, their hearts sank.

They were well aware of the Sky Demons' strength. This was nothing at all, and they would recover quickly.

David's sneak attack failed to seriously injure one of them, so the rest of the battle might be challenging.

"Who are you? I don't think I remember you in the Metaverse!" A Super Sky Demon asked, staring at David.

"How can you understand the secrets of the Metaverse thoroughly? I'll give you two choices. You can lift the seal and apologize to the martyrs of the Metaverse on your knees, or you can die," David said expressionlessly.

As soon as he stated that, the whole place fell into silence.

Both the Sky Demons and the Almightyes of the Metaverse were looking directly at David.

Everyone knew that the Sky Demons had sealed the Metaverse for countless epochs. Not even a mosquito could fly out.

To put it bluntly, the Metaverse was completely at the mercy of the Sky Demons.
