

I'm A Quadrillionaire Chapter 949

Chapter 949

Chapter 949,

“Alright, since you can call the shots for your family, you will give one of the remaining Milky Way Battleships in your possession to Earth. Then, you will make a post online using your family’s name stating that you will never take action against Earth again. After that, we’ll be even,” David thought about it and said.

This was the compromise.

If the Tuffin family posted online that they would never take action against Earth and gave Earth one of their ships, then David could end this here.

He would also stop making things hard for the Tuffin Family.

After all, Adan was right.

Both sides would lose if this continued.

David had to think of the tens of billions of earthlings.

He did not want to be all alone like Adan said.

If that happened, what would it matter even if he was the strongest in the universe?

Furthermore, the Tuffin family was one of the eight prominent families of the Milky Way Empire, so they should be able to keep a promise.

Nowadays, the Internet was so advanced.

Once they posted this, the entire Milky Way would know about it.

At the very least, they would not go back on their promise in the short-term. As for whether they would in the future, David did not care.

He had successfully bought time so that he would not need to be scared of the Tuffin family anymore before he got another breakthrough

“No way! No way in hell! I will not agree to any of your requests. The Milky Way Battleship is an important military tactical weapon of the Milky Way Empire. We only have three after so many years of accumulation. You’ve already destroyed one, so how can we give you another one? As for posting that online in the name of my family name, that’s even more impossible! As one of the eight prominent families of the Milky Way Empire, we will never submit to an indigenous living planet even if we’re annihilated. How will we still be able to face others if we do that?” Adan rejected loudly.

“Adan, of course, the ship and your dignity are important, but I believe a Cosmos Ranker is more important to the family. Have you thought this through?” David said in a cold voice.

“Are you sure you want to become mortal enemies with the Tuffin family? Are you sure you want to fight until one of us dies? Are you going to turn a blind eye to those people behind you? Are you going to ignore the tens of billions of earthlings?” Adan asked nervously.

He could feel David’s murderous intent growing more intense.

David might strike at any second.

It would be tough for him to escape even if he were to fight a peak Cosmos Ranker with two top combat skills alone, let alone while carrying two burdens with him.

One was the new head of the younger generation of the Tuffin family, while the other one was his granddaughter.

He could not give up on either of them.

“I am doing this because I care about them. Think about it. After all, I can never trust what you say, Adan. You people only care about interest, so who knows if you will change your mind the moment you turn around? So, you must fulfill both requirements. If not, you will all die here. Think about it, I’ll give you some time.” David stopped talking after that.

He was waiting for Adan’s answer.

However, his body was prepared.

If Adan said no, he would directly kill him.

Meanwhile, Nine and Lone were shaking.

'This aborigine is too strong.

'He can even destroy the Milky Way Battleship with one punch.

'Furthermore, he's so young.

'How scary!

'How could this person appear in a remote area of the Milky Way?

'This is unbelievable.

'Can we escape today?'

Nine and Lone looked at Adan.

At this moment, Adan was also struggling internally.

If he disagreed, he might lose his life today.

Chapter 950

Chapter 950 Even with all the means, it would be difficult to escape.

After all, the two were two realms apart.

Adan's opponent also had two top combat skills, one offensive and one defensive.

As for agreeing to David's request?

That was simply impossible.

The Tuffin family would not allow him to do so.

Who did not know that the Grandmaster of the Tuffin family valued dignity more than anything else?

If Adan did what David asked, how would the Tuffin family maintain their foothold in the Milky Way?

Grandmaster would be the first one to criticize him.

'What should I do?

Adan was very anxious.

When he noticed David's eyes getting increasingly impatient, he knew that the other party could not wait to strike anymore.

Therefore, he said quickly, "Even if I want to promise you this, I have to go back first, right?"

"You don't have to go back. You can let that woman go back," David said.

"No! I will make them stay here. Only when I go back can I explain the events to my eldest brother in detail. Don't worry, one of them is the head of the younger generation of the Tuffin family, and the other is my granddaughter. The family won't give up on them."

After Adan finished speaking, Nine and lone started protesting.

They did not want to stay here.

"Lord Adan, I don't want to stay here."

"Grandpa, I don't want to stay here either."

The two said nervously at the same time.

"Don't worry, I will go back and convince Orson to resolve this matter peacefully. It would be unwise for the Tuffin family to have an enemy with unlimited potential," Adan comforted.

In reality, he had already sentenced the two to death in his heart by leaving them here.

He had no choice.

It would be better for the two to die than for him.

He would just seek revenge for them in the future.

However, he would not give these aborigines a chance the next time he came here.

"Very well. However, before that, you have to post the announcement online under your family name," David said, taking a step back.

"This place is so far away from the heart of the Milky Way, so how will I post it? I can only make the post after I go back," Adan replied.

“You can. The Internet on Earth is already connected to the Milky Way’s internet. If you post it here, everyone across the Milky Way will see it, including your family.”

Adan was shocked.

It seemed that a powerhouse had undoubtedly come to Earth.

They even built an Internet system that could connect to the Milky Way. This was not something any ordinary folk could do.

This earthling should have gotten his inheritance from them, and that was why he was so strong.

“... I still have to go back to discuss it with my family.”

After Adan said that, he looked at David guiltily.

Clearly, he himself felt that he was unreliable.

Indeed, David replied with a half-smile, “Adan, you never wanted to accept those requests in the first place, right? Since you decided to leave them here, you’ve already abandoned them in your heart. As expected of a big family. I finally see with my own eyes that you are even willing to abandon the head of the younger generation and your own granddaughter. I have to admire your cruelty, and I have to concede defeat in this regard.”

One and Nine looked at Adan at the same time.

They wanted to know whether David was telling the truth.

“Nine, One, don’t listen to his nonsense. He wants to drive a wedge between us...”

Before Adan could finish, David interrupted him, “What a joke! Drive a wedge between you? Your lives are in my hands, so do you think I need to do so?”
