Chapter 1611: Being a popular singer: Hello sir major! (Part 25)

"Just who.....are you?" His voice was very cold, but there was a trace of unknown warmth in it as well.

Luo Qing Chen could tell that he doubted her identity, but she couldn't explain it no matter what.

"It isn't important who I am, the important thing is....." Luo Qing Chen looked at the dark red sky in the distance and the smoke that slowly rose, "The place that you're going definitely needs me."

"Impossible." Shi Yi Bei immediately replied. He looked at her with a serious look, "You are indeed very excellent, I can't even guess how good you are, but even so, it's impossible for me to bring you where I'm going."

There was a faint mist in his eyes, as if he felt a bit guilty about speaking to her in such a strong tone.

But he had to be decisive for her safety.

Luo Qing Chen just looked at Shi Yi Bei who was standing there in the ten centimeter thick snow and felt an emotion that was hard to describe.

Because of him and because of all the soldiers who protected their countries.

"Major Shi, please listen carefully before deciding whether to take me or not." Luo Qing Chen narrowed her eyes, but there was a trace of worry in them, "The White Cliff United Nations is a divided country that is poor and underdeveloped."

After saying this, she looked at the date on her phone, "At this point, to use a bomb that is worth several millions, there is only one possibility, a terrorist attack."

Luo Qing Chen could see a look of disbelief in Shi Yi Bei's eyes and this look had a gentleness to it.

"Si, si, Fan calling in, Fan calling in. All the Silver Soul Troops soldiers have gathered, please give your orders." The red dot of the walkie talkie lit up and Yu Xing Fan's voice came out.

Shi Yi Bei didn't reply and just looked at her as he knitted his brows, "You really.....are very special."

"Ke, ke....." Luo Qing Chen said with a faint smile, "Give me a walkie talkie! If you need a cold name, you can just call me god Luo!"

Actually if the male lead didn't have this identity, with her personality, she would rather not care about the things around her.

But if it was Shi Yi Bei, she was willing to be by his side and be an envoy that protected the flowers!

After experiencing so much, she knew that not everyone was invincible. Each person had their weakness and had times they needed to be protected.

When she protected him when he needed to be protected, wouldn't that be a wonderful thing?

But she didn't know that Shi Yi Bei would say something else.

"Even if you are mysterious and special....." He focused on her with his deep eyes, "I won't bring you."

As soon as his voice fell, he said to the walkie talkie, "Received!"

"Shi Yi Bei, you....." Luo Qing Chen pursed her lips, "So how do you want to safely send us away?"

"Relax, I will make arrangements as soon as possible." His tone was very determined and his right hand softly patted her head, "Don't worry."

When he said this, he was suddenly a bit nervous, strangely nervous.

"Major Shi should know that the first target of a terrorist attack shouldn't be the tone." She bit her lip and said, "It should be the airport."

Shi Yi Bei tightly knitted his brows. The heavy snow fell onto his shoulders, but it didn't chill his heart.

Because what this girl was worried about was the same thing he was worried about!

Chapter 1612: Being a popular singer: Hello sir major! (Part 26)

For the first time, she felt a strange tremor in her heart. This was her first time not feeling cold standing in the snow in negative ten degree weather, rather there was a warmth that filled her heart.

The two walked one in front and one behind to the gathering field. Each soldier was standing at attention with a large military backpack in front of them.

It was half past four in the morning and in the cold wind with snow, they weren't qualified to tremble.

Luo Qing Chen couldn't help looking at the sky in the distance, the redness from the explosion still hadn't faded yet.

At this moment, there was a feeling of darkness before the dawn.

"Flying Dragon Regiment's Silver Soul Troop, listen to my orders, at attention!" Shi Yi Bei's eyes were cold with the aura of a soldier being carried in the tone of his voice.

Seeing this kind of Shi Yi Bei, it was hard for her to imagine. When they were at the shooting range yesterday afternoon, he had had such a gentle smile.

"Deng, deng, deng!" All the neat footsteps sounded and there were deep footprints in the snow.

"Your orders are to go to the town that is ten miles away from the White Cliff base. The town might have already been invaded by militants, so the first priority is to secure the safety of the locals!" Shi Yi Bei looked up with cold eyes, "This is my order as a superior and from me personally, no one is allowed to get hurt and will come back safely!"

"Yes, captain!" All the soldiers quickly brought their right hand to their temple to salute, "Salute!"

"Corporal Yu, arrange for everyone to get in the car and the military doctors will also go along."

"Report, sergeant Su is already prepared." A girl's voice came from not far away. Luo Qing Chen narrowed her eyes to see Su Cheng Yin coming over with a large medicine kit.

"Good, get in the car!" Shi Yi Bei nodded, "It'll be hard for you this time!"

“Salute!” Shi Yi Bei looked up with a proud look, “Soldiers are never afraid to cry.”

When Su Cheng Yin said this, her eyes weren’t looking at Shi Yi Bei, but rather the sky in the distance.

Luo Qing Chen felt strangely different about her at this time. It was probably because the girl who was in love had already been thrown behind.

“Major Shi.....” Shirley shrank into a ball and hesitantly called out at Shi Yi Bei, “What is going on.....We.....”

“When the sun rises, we will request the country to send a helicopter over to safely bring you back.....” Shi Yi Bei looked at them and said, “Very sorry, I’m afraid the filming of the program will no longer be allowed.”

As soon as his voice fell, he raised his right hand to cover the lens of the camera, “This is no longer a place you’re allowed to be involved in.”

After saying this, he didn’t forget to look at Luo Qing Chen with a complex look in his deep eyes.

“Then.....Then if you all go, won’t it be dangerous for us to stay here.....” Xiao Xiao swallowed a mouthful of saliva before speaking in a trembling voice.

“You can be assured, a group of soldiers will be left in the base to protect you all.” Shi Yi Bei looked at them and said, “Once the sun rises, you’ll be sent back to our country.”

“Good, good, good! Thank you, major.....” Shirley and Xiao Xiao said at the same time.

“That.” But then, Tian Xin called out to Shi Yi Bei. She stood straight and gave a salute, “Can I participate in the rescue operation?”

Everyone’s eyes were on Tian Xin. She gave a very standard military salute that made everyone feel that she was a soldier.

“It seems like I still can’t really understand your circle.” Shi Yi Bei narrowed his eyes and said in a cold voice, “This isn’t acting and we can’t let you mess around.”

Chapter 1613: Being a popular singer: Hello sir major! (Part 27)

This operation was considered an S class operation even for the Silver Soul Troop, they weren’t even confident on how many people would be saved and how many would be injured.

The enemies they were facing were clearly armed terrorists, so it would be very dangerous facing these people.

Since people that didn’t fear death were always a bomb that could explode at any minute.

“Don’t you know about domains?” Luo Qing Chen shook her head at Tian Xin before looking at Shi Yi Bei, “But since major Shi doesn’t agree to us serving our country, then why must we keep asking?”

“I.....” Shi Yi Bei knew from Luo Qing Chen’s tone that she was angry at him.

There was a strange feeling of disappointment. It was like someone who was close to you suddenly moving ten feet away.

But he had to do this. In this environment, she and her friends couldn't stay here.

"Captain, everyone is in the vehicles and prepared to move out." Yu Xing Fan came over and gave a salute, "Please give your orders."

"Set out."

When Shi Yi Bei said this word, he was looking at her. When he turned, his eyes were filled with unwillingness.

Luo Qing Chen felt a strange sense of loneliness watching her back.

It couldn't be said nor understood.

[Ding, 500 exchange points has been taken. Successfully exchanged for one military combat jeep (armed with the most powerful military supplies).]

Luo Qing Chen changed into a green military uniform in the empty snow field and put a bunch of guns into the compartment. Among them was the 98K, the best sniper rifle in the world and plenty of ammo to go with it.

[TL Note: Kar 98K might have been good a long time ago, but now the best sniper is a Barrett M82.....]

Tian Xin came down from the second floor of the temporary residence and looked at her in disbelief.

"You.....You.....This car....."

"Tell me your story and I might consider taking you." Luo Qing Chen played with the keys in her right hand as she crossed her arms, leaning against the jeep.

Tian Xin was frozen for a while before shaking her head and suddenly saying, "My father was a soldier."

Luo Qing Chen had a trace of surprise in her eyes.

She did think that Tian Xin had joined this show for another reason, but she never thought that it was for this.

Luo Qing Chen heard her story along the way.

Tian Xin had only seen her father twice since being born. The first was when she was born and the second was when her mother died.

At her mother's funeral, she didn't even recognize her own father. She had just passed by them, she didn't know who the other side was.

When she left, her grandmother told her that the person who offered the flower was her father.

"It stands to reason that you should hate him, so why did you come to this place?" Luo Qing Chen drove the car as she asked this in a confused voice.

"I did hate him at first." Tian Xin said while changing into the camouflage military uniform, "But after seeing the letters he wrote to my mother, I couldn't hate him."

According to Tian Xin, her father missed her very much. He missed her more than any person in the world, but his identity was special, so the further away, the safer they were.

"My father should have saved many people....." Tian Xin looked at her and asked, "Don't you.....think?"

It was like she was looking for an answer, one that she had been looking for for her entire life.

"He didn't just save many people." Luo Qing Chen looked at her rear view mirror, "He also defended our country."

Chapter 1614: Being a popular singer: Hello sir major! (Part 28)

The jeep stopped a kilometer away from the city and Luo Qing Chen drove it to the top of a snowy mountain before covering it up.

"Do you know how to shoo?" Luo Qing Chen opened the trunk of the jeep, "Choose one?"

"My god!" Tian Xin almost called out as she felt a feeling of her blood boiling come over her.

Pistol, rifles, submachine guns, machine guns, snipers.....all kinds of guns were available.

Luo Qing Chen took out a military backpack and put a series of things like bullets, water, gas mask, rations, and other supplies into it.

Since the medicine box was in her storage space, it saved her quite a bit of trouble.

"I must tell you that what major Shi said wasn't wrong." Luo Qing Chen also put the Kar 98K on her back and a revolver on her waist as she tied up her hair, "This isn't a script, even ordinary soldiers aren't qualified to be here."

Her expression was very serious, her path in life was her own choice.

Although she didn't want to give Tian Xin regrets, she didn't want anything to happen to her.

"I can't use a sniper." Tian Xin took a deep breath and took out a machine gun from the trunk, "I'll just use an S12K!"

The machine gun was a close range gun with very powerful close range speed, so they wouldn't be able to fight back at all.

The flaw was that it had a short range and very high recoil.

"It's good that you like it." Luo Qing Chen patted her on the back, "Put on some kevlar."

"I already did."

"Un, then follow me." Luo Qing Chen looked at where the sparks were filling the sky and slightly knitted her brows, "As long as we don't run into the main force, I can protect you."

Although her words had been heavy before, since she brought her here, she would be responsible for her.

At the same time, the Silver Soul Troop's soldiers were engaging in a large scale gun fight with the militants.

Since the other side had over a hundred children as hostages, Shi Yi Bei couldn't charge in!

"Fan calling, Fan calling." Yu Xing Fan and Su Cheng Yin were in the clock tower, watching the enemy from the highest position.

This beautiful Rock City had turned into hell in just a single night.

Blood and corpses scattered all over.

"Received, please speak."

"The children should be detained in the church. The circuits have already been cut off by the militants, so we can't see clearly."

"Good, keep monitoring!"

Shi Yi Bei slightly knitted his brows. He had a simple conversation with the local troops in English and had a good idea for why the militants bombed this place.

Oil.

There was oil underground here and in just Rock City, it was worth several billion dollars.

After the bombing, there were many places that had oil seeping out already.

"My subordinates have told me that they have moved to the church. Protect that place first and save the people."

"Major Shi, we haven't received any orders from our superiors and cannot act." A soldier looked at him with a difficult look, "We can only stay here and wait for a rescue!"

Shi Yi Bei's deep eyes had a sharp look when he heard this, looking at the moustached soldier, "You are a soldier, you should be protecting the citizens of the city and not waiting for a government rescue!"

Chapter 1615: Being a popular singer: Hello sir major! (Part 29)

"Sorry major Shi." The moustached leader didn't move at all and just repeated in the same mechanical words, "This is the orders from above, our army won't move that rashly!"

Shi Yi Bei felt the insignificance of a small country.

When people were born, god gave them the same building blocks.

But some people committed crimes while some were kind. There were some.....who did nothing when they remained in their military posts.

Shi Yi Bei looked downstairs through the window and saw that the soldiers in the lines were all from the Silver Soul Troop.

As for the soldiers of the city, they couldn't compare to the citizens that had been gathered.

"I understand." Shi Yi Bei narrowed his cold eyes and gave a cold snort, "As people who protect the citizens, we won't set up a defensive position here."

As soon as Shi Yi Bei's voice fell, the other side panicked and quickly asked, "You....Where are you planning to go?"

Suddenly there was a bit of regret, he chose to save them in the end.

This group of soldiers who had no role to play.

He could understand the weak retreat of these people, but he couldn't understand how these soldiers could let the citizens face the rain of bullets and still say that they can't act 'rashly'.

A joke! This was simply a joke!

In the streets of Rock City, other than corpses, there were gazes filled with despair.

This sudden war had taken their smiles and hope, filling them with endless pain.

"God Bei calling, god Bei calling!" Shi Yi Bei took the walkie talkie to give his orders, "All troops listen, the S class guards will move to the center of the city and create a one kilometer wide perimeter. If the militants try breaking out, kill them all!"

"Yes!" Voices came from the walkie talkie one by one, as if they were waiting for this order from Shi Yi Bei.

At this time, Su Cheng Yin and Yu Xing Fan in the bell tower had been locked onto by the red dots of snipers five hundred yards away.

With a 'peng' sound, a bullet hit Yu Xing Fan in the shoulder.

"Ah, un." With a grunt, he quickly pressed down Su Cheng Yin's head and shouted, "Get down!"

"Peng, peng, peng." There were another three shots as a sniper on the roof of the church not far away shot with his MK14, looking over everything with his 4x red dot scope.

The man cursed as he looked into his scope again, but he couldn't find anyone anymore.

The first shot definitely hit, but it wasn't a headshot.

It seems like five hundred yards was his limit. He clearly aimed for the head, but he hit the shoulder.

"Yu Xing Fan.....You.....Are you ok?" Su Cheng Yin's face turned pale as she saw the blood gushing out.

Being hit by a sniper was different from being hit by a pistol, the injury from a sniper was armour piercing. Even if he was wearing a bulletproof vest, he could still be killed with a single shot.

"Did something happen?" There was an ear shattering gunshot on the other side and Shi Yi Bei knitted his brows, "Fan, please respond."

“Ke.....Un.....Fan has received.” Yu Xing Fan waved his hand, “Not far ahead.....on the roof of the church, there should be a sniper.....”

“He is injured. The bullet isn’t in his body, but the bleeding has to be stopped quickly.” Su Cheng Yin said while panting, “The sniper is very good, his distance should be over four hundred yards.”

Chapter 1616: Being a popular singer: Hello sir major! (Part 30)

“Received! Think of a way to leave that place. Snipers that have a range of over four hundred yards are all famous in the country and the world, they should be famous.” Shi Yi Bei knitted his brows, “We are now moving to the center of Rock City, be careful.”

“Orange has received it!” Su Cheng Yin said this while using gauze that she carried to stop Yu Xing Fan’s bleeding, but when she got up slightly, there were three more shots.

“Peng, peng, peng!”

“Don’t move, don’t stop the blood.” Yu Xing Fan’s right hand tightly held her head, “You.....Climb towards the wall and stick to it to get to the door before leaving.”

“No, I can’t leave you here alone. Not to mention that you’re injured.” Su Cheng Yin decisively shook her head, “If you want to crawl, I’ll cover you first!”

Seeing his goddess care about him this much, Yu Xing Fan was strangely happy.

It was only in the moments of life and death that one could receive attention from the people they cared about.

“My hand is injured, I can’t crawl. The captain has given the order to attack, it’s impossible for them to save us quickly.” Yu Xing Fan looked up and said, “I’m afraid that he will shoot through the wall with the sniper later and both of us.....will die.....”

Su Cheng Yin was stunned as a few stray tears appeared in her eyes.

At that moment, she wanted to hear that man say in the walkie talkie: I will save you now.

Even if it couldn’t be real, hearing would sound that warm.

“But.....”

“No buts.....” Yu Xing Fan raised his left hand covered in blood and wiped away the tears on her cheeks, “Relax, I won’t die.”

—

At the same time, Luo Qing Chen entered the main city from the small road with a revolver in her right hand and binoculars in her left.

“Peng!” There was a deafening gunshot.

“Ah!” Tian Xin’s scream came after before she quickly covered her mouth, “Sorry.....Sorry.....”

Luo Qing Chen slightly knitted her brows and quickly used her binoculars to find where the shot came from.

She bit her lip and murmured, "It should be a MK14. The distance is a bit far, it's at least four hundred yards."

"You can even tell this." Tian Xin was at a loss by Luo Qing Chen's perfect deduction.

In this dark night, when she saw her face, she wouldn't have thought that this was the singer who had performed countless concerts.

Rather.....she was like a unique killer.

"Every sniper has a different sound, they have different trajectories, recoil, and bullet drop." Luo Qing Chen knitted her brows as she looked through her binoculars, "Found them, they're on the roof of the church."

She looked in the same direction as the sniper and locked onto the clock tower.

"There should be people up there."

"Where?"

"The clock tower over there. We're going over now, you follow me."

Luo Qing Chen took the Kar 98K off her back and revealed a faint smile, "With the Kar 98K sniper in this world, the MK14 won't be ranked first."

They quickly climbed to the top of the clock tower and they heard gunshots from time to time. Luo Qing Chen poked her head in and saw Yu Xing Fan and Su Cheng Yin.

Of course, they also heard her and Tian Xin's footsteps. Although they were on the ground, they were already aiming their pistols at the door.

"Ai, it's you two."

Su Cheng Yin was the first to hear her voice and she called out, "Luo.....Luo Qing Chen."

The red light on the walkie talkie on the ground lit up as Shi Yi Bei's nervous and shocked voice came from it.

"What did you say?"

Chapter 1617: Being a popular singer: Hello sir major! (Part 31)

Standing amidst the corpses, Shi Yi Bei felt his back turn stiff and the walkie talkie in his hand almost fell into the snow.

At this moment, it felt like his heart was beating fast and his ears were buzzing.

This feeling was one that he had never felt since he had been born.

[Ding, affection has increased by ten. Mission completion rate is now 50%.]

He wasn't too clear on why he didn't dare believe.

"Captain, we have found the shelter and can break in at any time." The squadron leader Lu Bo beside him said this to him.

Shi Yi Bei's deep eyes had a dim glow and only after a while did he come back to his senses, "What did you just say?"

Lu Bo revealed a look of disbelief as he said, "Captain, are you alright? Are you injured?"

In Lu Bo's eyes, he had never seen Shi Yi Bei be distracted during combat before.

This was his first time seeing this since entering the Silver Soul Troop.

"Lu Bo, you lead the breakthrough team. I.....I'll go to the clock tower." Shi Yi Bei raised his Tac-50 and said into the walkie talkie, "I'm coming over now, no one make a rash move."

When these words came out of Yu Xing Fan's walkie talkie in the clock tower, the eyes of Su Cheng Yin on the ground suddenly dimmed.

What orders, what breakthrough.....She suddenly feels so sad thinking about it.

Facts proved that if Luo Qing Chen was here, even if it was a storm of bullets or a field of mines, Shi Yi Bei would come.

"Peng, peng." There were another two shots as the bullets hit the concrete wall she was leaning against, with a strong killing intent filling the air.

Luo Qing Chen narrowed her eyes to look at Tian Xin behind her, "Just stand there and don't come out."

"Ah?" Tian Xin was surprised as her voice trembled slightly, "What about you....."

Actually, since coming out of the White Cliff base, she felt a strange sense of security following Luo Qing Chen here.

Whether it was driving the jeep at first or the movie scenes that appeared after coming here, she had been in a state of disbelief the entire time.

There was a dazzling glow over her that deeply attracted people's eyes to her.

It was very strange and very beautiful.....

Therefore, the first thing she thought about at this moment was her safety.

"Me?" Luo Qing Chen gave a shrug when she heard this and she adjusted the Kar 98K in her hands as she said with a faint smile, "Go to the frontline and snipe the strongest enemy!"

"What?" Tian Xin was scared by this. Could it be that she planned.....on going out?

"Luo Qing Chen, don't come over!" Yu Xing Fan gritted his teeth as his face was as pale as paper without a trace of blood. His cold sweat dripped down bead by bead.

Although Su Cheng Yin beside her was very prejudiced against Luo Qing Chen, in this situation of life and death, she still said what she should say as a soldier.

Even though there was a faint trace of taunting in her voice.

“Don’t come over here, he isn’t an enemy that you can compare to with your skills.” Su Cheng Yin slightly knitted her brows and said with pursed lips, “Just wait for the major to come and leave this place.”

Even if Luo Qing Chen wasn’t pleasing to the eyes, this wasn’t a place that a normal citizen like her should come to.

“Ke, ke.” Luo Qing Chen gave a faint smile, “It’s a pity that the more I shouldn’t be here, the more I want to come. What should I do?”

“Stop playing around.” Shi Yi Bei’s anxious voice came from the walkie talkie after a bit of status, as well as the sounds of gunfire filling the air.

Chapter 1618: Being a popular singer: Hello sir major! (Part 32)

“Peng, peng!” The person on the church fired another two shots. It seemed like the other side was getting a bit impatient, so his aim was getting worse.

Luo Qing Chen did a three hundred and sixty degree turn before landing where Yu Xing Fan was.

“Ah!” Tian Xin who was standing behind her couldn’t help calling out as her heart jumped to her throat.

“Damn.....” Luo Qing Chen muttered. She wasn’t scared of the other side, but she was scared by Tian Xin.

She suddenly felt that it was the wrong choice bringing her here.

She wouldn’t be so soft hearted even if people had stories in the future.

“What are you doing!” Yu Xing Fan endured the pain and angrily shouted, “Do you not want your life?”

At the same time, Luo Qing Chen set up the Kar 98K as quickly as possible and aimed through the red dot sight, seeing the enemy’s figure through the 4x scope.

Brown skin, golden hair, and only nine fingers.

The other side seemed to have seen her through his scope as well and looked quite excited.

The sounds of gunshots filled the air, but they all hit the concrete wall.

Luo Qing Chen’s final adjustment brought the red dot sight onto the enemy’s head.

At this distance, it would be hard to survive even with a second grade bulletproof helmet.

Of course, she didn’t forget to add before shooting, “Major Shi, I want to ask, if I kill him, would that be considered murder!”

“Luo Qing Chen!” There was the gentle major’s shout that came from the walkie talkie.

She could even hear the sounds of Shi Yi Bei climbing up the stairs.

In this atmosphere, both Yu Xing Fan and Su Cheng Yin were so nervous that they held their breaths.

Tian Xin's entire body was trembling. While she took a deep breath, she pressed the record button on her phone.

Without knowing why, she suddenly believed in Luo Qing Chen, believed that she would win this battle in a beautiful manner.

If she didn't record this at this time, it would be too much of a waste.

She believed that if Xiao Jiu was also here, she would do the same thing.

"Major Shi, I'll take it as agreement if you don't reply! I don't want to go to jail!" Luo Qing Chen narrowed her eyes and pulled the trigger without any hesitation.

The dark skinned blond enemy also pulled the trigger at the same instant, but the bullet passed by her military uniform without cutting the skin.

Then there was a fatal scream as the enemy was hit in the head by her Kar 98K shot and fell to the ground.

Of course, she couldn't hear this scream, but she could see the enemy falling down in her 4x scope.

"All suppressed." To be safe, she scanned the other spots before putting down the gun after confirming there was no one else there.

Turning around, when she was about to help Yu Xing Fan up, there was someone who came through the door. Without any thinking, he suddenly pulled her right hand and brought her into a warm embrace.

The sunrise slowly came up over the snowy mountains behind them and the light fell onto them.

"It can't be I'm.....going to jail, right!" This warm embrace made her unable to stop her face from turning red.

[Ding, affection has increased by ten. Mission completion rate is now 60%.]

Su Cheng Yin rubbed her eyes. Even if there were a thousand words in her heart, she couldn't say a single one.

Although Luo Qing Chen was great, she didn't feel that she lost to her.

The silence was because Shi Yi Bei's sudden hug had caught her off guard.

Chapter 1619: Being a popular singer: Hello sir major! (Part 33)

Three seconds later, Shi Yi Bei seemed to have thought of something. He immediately took the position Luo Qing Chen had been in and aimed the Tac-50 in his hand at the roof of the church in front of him. After confirming that the other side had been suppressed, he turned around and looked at Luo Qing Chen with a strict expression.

“Do you not know that this is very dangerous?” His eyes were a bit worried along with a bit of helplessness. He wanted to yell, but he was a bit reluctant.....

This complicated emotion was one that he had never felt in his twenty years.

“Un! I know it’s dangerous.” Luo Qing Chen gave a simple nod before saying with a faint smile, “But I think it’s more dangerous for them.”

“Pu.” Tian Xin standing at the door couldn’t help laughing.

Just what kind of confidence could let Luo Qing Chen say this.

“I really.....” Shi Yi Bei tightly knitted his brows before letting out a long sigh, “Don’t know how to handle you.”

Su Cheng Yin who had been on the ground had already started wrapping up Yu Xing Fan. Yu Xing Fan looked at Luo Qing Chen in shock and said, “Was that really not luck? It really is hard to believe.”

After being in the army for so many years, he had seen many powerful people, but he had never seen a star who had never had military training have such powerful skills.

If he didn’t see it, he wouldn’t have believed it.

“Let me see your luck, alright?” Luo Qing Chen rolled her eyes at him, “That was four hundred yards, you’re actually talking about luck!”

“I.....” Yu Xing Fan was speechless, he couldn’t say what he wanted to say.

“Although my effective range shouldn’t just be this.” Luo Qing Chen revealed a faint smile, “But at this distance, I’m 100% certain that I can get a headshot!”

As soon as her voice fell, she put her hands into her uniform and looked at Shi Yi Bei, “If my guess isn’t wrong, your troop should be heading in the direction of the church.”

Shi Yi Bei looked at her and raised his right hand to pat her back as he said in a calm voice, “It’s a good thing you know to wear kevlar.”

“If I was hit by him, the bulletproof vest wouldn’t have saved me.” Luo Qing Chen looked at her watch before shrugging, “There’s not much time left, we should move!”

When she was planning on heading forward, Shi Yi Bei suddenly pulled her back and looked at her with a serious gaze, “Without you.”

Even if her shooting was good, he couldn’t just let her go.

“Why?” Luo Qing Chen knitted her brows, feeling a bit unhappy!

After all, she had killed a sniper that was very powerful in their eyes, but she still didn’t receive Shi Yi Bei’s approval.

Why could Yu Xing Fan and Su Cheng Yin who were inferior to her in her eyes stand at his side on the frontlines?

"I'm not willing." Shi Yi Bei looked at her with a sparkle in his deep eyes.

He was no longer surprised by her abilities, he was completely shocked.

It was like she was so dazzling that when she appeared by him, he could only see her.

He couldn't help approaching, he couldn't help smiling, he couldn't help secretly watching.....

With these thoughts, he couldn't let her be put in any danger.

Him protecting her was something he should and would do and he wasn't willing to let her protect him.

Not one bit!

Chapter 1620: Being a popular singer: Hello sir major! (Part 34)

"Shi Yi Bei!" Luo Qing Chen's face turned red from his words.

She wanted to say something, but he pulled her down the stairs.

Yu Xing Fan's group followed behind and there were gunshots all around that made people feel nervous.

"This place isn't a safe zone, I will protect you to the center of the town, Lu Bo has already set up a safe zone there." He looked at Yu Xing Fan, "You can't charge in with your injuries."

"I can still....."

"No need." Shi Yi Bei shook his head, "I gave a more important task for you."

Center of the city.

Luo Qing Chen saw the corpses covering the ground and the streets filled with injured, she suddenly felt that she really didn't need to go to the church with Shi Yi Bei.

This place should need her more.

"Keep her here. No matter what method you use, don't let her leave this safe zone." Shi Yi Bei looked at her and said seriously word for word, "It isn't that I don't believe in your abilities, but....."

"I got it." She looked at him with a faint smile, "I won't go, but it isn't you stopping me."

"....." This person who was red with anger suddenly became this obedient, it really caught him off guard.

"This obedient?" He looked at her as he spoke in a gentle tone with a trace of pampering.

No one dared to look at her since major Shi had never talked to anyone in this tone before.

"I think that this place needs me more." Luo Qing Chen looked at Su Cheng Yin, "Aren't you a military doctor? What are you standing in a daze for, save people!"

Because this area wasn't a safe zone before, they thought that the casualties would be this serious. There were only two other military doctors other than Su Cheng Yin and they weren't that skilled.

Su Cheng Yin just rolled her eyes without saying anything. One, she had saved her not that long ago and two, she was right.

In terms of shooting and medical skills, she was better with the latter.

But why would Luo Qing Chen say that this place needed her more?

"Calling god Bei, calling god Bei, we have already surrounded the church and are waiting for instructions, over!"

"Received. The squadron leader and I will rush over now, over!"

As soon as his voice fell, Shi Yi Bei slowly brought down the walkie talkie and turned to look at Luo Qing Chen, "You stay here, I'll be back soon."

"Un." Luo Qing Chen gave a nod, "Can you give me a walkie talkie? If there's any danger, you can call me."

This place needed her more, she didn't need to insist on following him. She believed that Shi Yi Bei could deal with those militants!

"Here." He pulled out a walkie talkie from his military backpack for her, "But there is some distance from the church, so if something happens, you shouldn't be able to save me."

Shi Yi Bei's words in the second half were relaxed, like he wanted her to relax.

"What if I know magic!" Luo Qing Chen said with a proud look, "I might have special powers!"

"Ai, the person who said to save people, come over and help!" Su Cheng Yin couldn't keep listening as she said in a cold voice, "Just put aside your special powers for now, alright?"

Luo Qing Chen rolled her eyes. Seeing the wounded in pain, she was too lazy to argue with Su Cheng Yin and waved her hand at Shi Yi Bei, "Come back safely."

"Un." He nodded. When he turned around, he turned back to look at her, "When I come back, I have something to tell you."
