Chapter 2331: Side story: First sight for the rest of my life (Part 1)

I'm willing to become the mist and rain to be by your side, watching over your peaceful life and never having to worry about a thing. ——Mo Ye.

I am a fortune teller, a person that can see yin and yang, seeing the past and calculating the future.

No matter what happens when it comes to destiny, it can't be changed.

To put it simply, there were some things that could be said and some that couldn't.

I'm one of those where whether it could be said or not, I wouldn't say anything!

To me, everyone had their own destiny. Since it was destiny and had already been engraved in the astrolabe, it couldn't be easily changed.

If it was changed, even if you were safe in this life, you would pay a painful price in the next life.

Not worth it, not worth it.....

I thought that no one would be able to change my mind, but then I realized how ridiculous that was.

You Ran's tragic death made me decide to seek justice for him.

But to kill a person was changing your destiny, so the best way was to not let this person know who killed them even after they died.

I used the condition of calculating when the Luo Dynasty's princess would wake up to have an opportunity to enter the palace as a winemaker.

But life was unpredictable. Even as a fortune teller, there were many things that I couldn't calculate.

For example.....I never would have believed it in the past, but I believed in the future that I would die to protect my love.

I never thought that I would have anything to do with the princess of the Luo Dynasty. I thought that I would leave the palace and return to the sect after Feng Ling Er died.

After all, the death of my senior brother had made Master Abyss very sad.

But I never noticed that I was a bit unwilling to leave.....

It wasn't love at first sight and it wasn't love that developed over a long time. She was like a beam of sunlight that entered my world in a dazzling manner.

Even if I was a bit cold, it couldn't dampen her enthusiasm.

So when I went to the Splendid Moon Hall later, I would remember her. I was afraid that she would misunderstand, but she still misunderstood in the end.

Her body wasn't that good in the beginning since it was definitely weak after sleeping for fourteen years.

But without knowing why, she liked running around in the snow and liked drinking wine.....

If it was about love, it should be when she directly asked: Do you like Feng Ling Er?

Actually, I wanted to tell her: I don't like her!

How could I like Feng Ling Er! I wanted to kill her, kill her in a painful manner to take revenge for my senior brother!

But she didn't know and I couldn't tell her.....

She fainted twice and I carried her back. I liked having her lean on me feeling assured, along with the faint scent that entered my mouth which would remove the impurities from my body.

But I never would have thought that she would go to the Splendid Moon Hall.。

Feng Ling Er was her aunt, but I could always tell that the way she looked at her wasn't respectful, but rather filled with hostility.

She didn't like Feng Ling Er and I could see that from her eyes.

Without knowing why, after learning this, there was a strange sense of peace in my mind.

The guilt of killing her relative became much smaller.

But that girl really made one worry. She actually wanted to drink the poisoned wine that I was giving Feng Ling Er!

How could I let her drink poisoned wine? Even if the poison was weak and it didn't matter if she drank it once or twice.

It was still poison. I wasn't willing to let her drink it, not even a single sip.....

When I took the wine cup from her, I could see her aggrieved look and I felt a sense of suffocation.

She said that I wasn't willing, but I.....was speechless.

Chapter 2332: Side story: First sight for the rest of my life (Part 2)

I saw her leave angrily and I wanted to chase after her at that moment.

But I knew that I couldn't!

After working so hard, I could kill Feng Ling Er without anyone noticing after just a bit longer, so I couldn't give up halfway.

That was the promise that I made to my senior brother.

But that excellent little girl, even if I didn't chase her, that didn't mean that others wouldn't.

When I saw Murong Nan, other than being unhappy, I was more afraid!

Afraid that she would like him because of his warmth, afraid that she would like him because of his enthusiasm, afraid that she.....

Suddenly wouldn't like me anymore!

That moment that we met in the imperial gardens, when I saw Murong Nan standing there protecting her, I suddenly realized that I was caught up in more emotions than I had thought.

Actually, I also hoped that one day I could stand at her side protecting her without worrying about anything.

It was a good thing that her royal father loved her very much. When the two sides quarreled, the emperor stood on her side without any hesitation.

Without another word, he sent Feng Ling Er to the cold palace.

Actually, I was happy because she was a step closer to death in the cold palace.

That night, I brewed a pot of peach blossom wine and sat under the empty tree beside her.

I've never been to this place before, I felt it was strangely familiar.

She asked me: Now that Feng Ling Er was like this, would I still go see her?

Actually, I almost blurted out the truth at that moment.

But in the end, I still held back!

Such a simple girl was not suited for learning about these cruel matters.

Whether it was You Ran or Feng Ling Er, I didn't want her to know.

She was forever suited to being in the castle, never being disturbed by anything.

I wasn't willing to be the one that disturbed her, so I had her wait ten days for me.

When Feng Ling Er died, I would tell her the truth.

But I was bound to pay a price for brutally killing someone.

Feng Ling Er became a vengeful ghost, that was the price that I never expected.

The fortune teller could see yin and yang and I personally killed Feng Ling Er, so I immediately knew about her becoming a vengeful spirit.

Master told me that matters needed to come full circle.

When I asked what to do, he said that it needed a life.

Actually, I didn't need to ask to know that he was talking about her life, but I definitely wasn't willing.

I didn't keep the promise of ten days. All kinds of strange things kept happening around her, especially when the yin qi was strong. These things kept getting more and more frequent.

I was always by her side, calculating her danger, but I couldn't stop Feng Ling Er.

When I was thinking about what to do, she went to the crematorium.

I knew that she was putting herself in danger to make me show myself.

She really was a stubborn girl who didn't think about the consequences.

After she fainted that night, I used the techniques of the fortune teller to separate my soul from my body.

In other words, I died that night.

But Feng Ling Er didn't know and she also didn't know.

Feng Ling Er thought that she had succeeded, wanting to switch identities on the night of the full moon.

What a joke, it truly was ridiculous. With me here, how could she even be hurt? But I wasn't able to remain at her side.

She really looked good in her wedding dress, with a bit of blush and lipstick.

I thought that the underworld would be my destination, but I wasn't willing to only see each other in the next life.

Because I couldn't wait for the next life.

Because I wanted to be with her in this life!

Chapter 2333: Side story: First sight for the rest of my life (Part 3)

Master told me that in all the worlds, other than at the end, there were parallel worlds.

Going back a thousand years was my destiny and it would end with my separation from her.

But I wasn't born to believe in destiny.

Because I was a fortune teller, I could let myself be damned, but I couldn't live without her.

A thousand years, the only thing I could do was let her come here.

Although the hopes were slim, I still prepared everything. When I first saw Lin Ying, I felt that there was something different with this girl.

The fate of this soul was that this girl was supposed to die early, but her fate was the same as hers.

I felt that she would condense the soul to let her come.

Actually, waiting was very painful, but I could see fragments in my dreams while waiting.

The fragments were real, like they truly existed.

The understanding empress and the emperor who deeply loved the empress. There was a misunderstanding between them and although they never said it, one could feel the deep bitterness between the two of them.

Every time the empress poisoned him, she would shed tears. Every time the emperor drank the poison, he would look at her with a loving look.

The scenes in the dream were very blurry and I couldn't see the faces, but I felt a strange pain in my heart.

There was one line that I remembered firmly.

It was said by the emperor.

"After I'm gone, you have to take care of yourself. You should eat what you want and don't force yourself to eat when you're full. Don't be afraid, I've taken care of everything here, including the guards that they worry about the most."

He still said.

"I'm about to die, I know that."

I didn't know what happened between them, but I knew that this dream kept appearing in these seven years.

Repeating again and again, constantly lingering.

I waited for seven years, but I never thought that my divination would be wrong.

I calculated the day Lin Ying would die.

I didn't care at all how she died, but her big sister cared very much. I did feel a bit of regret for Lin Ying over this matter, so I never cared about how her big sister acted.

But I never thought that the person Lin Jiao wanted to hurt was her.....

When we met again, the sky was covered by the clouds. She was wearing a white dress with the familiar looking Phoenix Dance Sword in hand.

I felt my brain turn blank as if I was hit by lightning.

My back was stiff and my heart kept shaking.

It was like breathing and then suffocating.

She calmly looked at me with a beautiful glimmer in her eyes.

I kept feeling like we had gone back to our first meeting, standing there in the snow like this.

The breeze blew through her clothes and her hair.

Everything seemed to freeze at that moment, as if there was no one else but me and her.

When I went forward to hug her at that moment, there was steady warmth that entered my heart which confirmed to me that she was back.

No matter what method she used, she was still back.

I wasn't actually a good person, I've done many shameful things for my happiness.

But it didn't matter. As long as I could be with her in this life, even falling into hell forever was something that I had no regrets about.

There was one phrase that I wanted to take back.

If there is a next life, please remember me.....

[Ding, congratulations on bringing a soul fragment into the Lead God Space. 37/100]

Chapter 2334: Welcome to the end of the world (Part 1)

[Welcome back host!]

Luo Qing Chen was stunned, she still didn't know how she returned to the Chaos Space.

After confirming that she was back, she slowly came back to her senses!

"Un, how did I come back?"

[Does the host want to see what happened before you died?]

Luo Qing Chen thought about it before shaking her head, "No."

She vaguely remembered being ill and her illness was very serious.

Perhaps it was because it took a large toll on her to keep passing through time that her body had never been good.

Her body kept getting worse as she aged and it was almost impossible not to catch a cold.

Even if Mo Ye was careful, he couldn't stop her from getting sick.

As long as she was sick, she wouldn't get better for ten to fifteen days. He didn't even go to court to stay with her until she gradually got better.

But she became sick more and more and each time lasted longer.

Until the end, just drinking a bit of cold water meant getting a fever.

Mo Ye told her that it was all his fault.

If he didn't go against destiny, she wouldn't be punished like this.

Actually, he wished that the punishment would fall on him and not the person he loved the most.

The heavens must know that her life was millions of times more important to him than his own, so they were this cruel to punish her.

[Why does the host look very unhappy?]

The system's words cut through her thoughts. She rolled her eyes and said, "Can you be happy after dying?"

[The host left this life without any pain, so there's no need to worry that much. The ending was good.]

Actually, the system was right. The ending was good, so she wasn't that unhappy.

But Mo Ye must be very sad that she left first.

Mo Ye's personality was different from the other male leads, he was a gentle man with an endless patience.

He put everything in his heart and unless he was about to die, he definitely wouldn't let her emotions be affected in any way.

Even when she was dying, Mo Ye didn't let her worry and had a smile every day.

Actually she knew that when he held her, he would always be trembling.

She shook her head and let out a long sigh, "Continue!"

“The stats are all so high this time!” Luo Qing Chen pursed her lips and said, “Could it be that this is an idol world?”

She suddenly felt a spotlight fall on her when she thought this. She couldn’t forget about the feeling of singing and dancing with a mic on stage.

[.....The host might be very disappointed!]

“?!” Luo Qing Chen blinked and said, “What is that? Why do I have a bad feeling!”

[Currently importing memories, please accept them, host!]

Chapter 2335: Welcome to the end of the world (Part 2)

Un! She wasn’t dizzy at all, just a bit scared!

Luo Qing Chen, who had just received the memories, stated that this really was an uplifting story.

Or it could be said that this was a world that she had never experienced before, an apocalypse.

Apocalypse! Apocalypse! Apocalypse!

The scenes in her memories were very bloody. From first grade zombies to ninth grade zombies, from D Rank Power Users to S Rank Power Users.

Each scene was so fresh in her memories.

But the excitement was just excitement. The previous host’s life wasn’t as good as she imagined. Whether it was in the end of the world or in the previous world, the previous host’s life was as a clown that depended on others.

But after the world ended, she became one of the first group of Power Users to awaken.

And she was an awakener with dual powers!

In the memories of the previous host, until the moment that she died, there were only three dual awakeners in the end of the world and she was one of them.

Moreover, she was the only female one!

But that was later. The first part was the experience of the previous host.

She was a very poor child with no hidden identity, she was just poor.

But she excelled in studies and character, so she entered the Royal Academy with a high scholarship each year.

The previous host's father died early, her mother supported their family alone, and her little brother was blind.

He was a clean looking youth that had everything that a young man should have.

If he closed his eyes and the breeze blew past, he could dazzle thousands of girls.

It was a pity that he was blind.

The previous host's mother worked as a temporary worker at a rich family to support their family. However, when the rich man was drunk, he forced himself on her mother.

This perfectly made it that she became pregnant.

Since the rich man only had a single daughter, he really wanted a son.

It was worth mentioning that the daughter was the supporting female lead Bai Lian Xin.

Although the previous host's mother's status was low, for this child, for their house's inheritance, the elders decided to keep the previous host's mother as the Bai Family's second concubine.

Of course, it was only second concubine in name and she had a lower status than even the servants of the Bai Family.

After all, Bai Da Shan had a proper first wife, Ye Qing Huan.

Bai Lian Xin was Bai Da Shan and Ye Qing Huan's daughter.

She was a princess that was pampered by the family, naturally becoming spoiled. She was the darling of the family, the Snow White of fairy tales.

Oh, no, it was more accurate to call her the evil queen.

Because she really wasn't a good person!

The previous host's mother suffered mostly from this eighteen year old girl when she was in the Bai Family.

There were times that words were more painful than actual physical harm.

Bai Lian Xin was this kind of person, every word that she said was so sharp.

But for the child that hadn't been born yet, the previous host's mother could only endure.

When the Bai Family's child was born, the previous host's mother thought that all the torture was over.

But she never thought that the hour after the child was born, the previous host's mother was kicked out of the hospital.

At the same time, she was kicked out of the Bai Family!

The previous host accepted all this humiliation since there was nothing she could do in this society.

The younger brother from the same mother and a different father that she never met was adopted by Ye Qing Huan the next day and became Bai Da Shan's son.

For the Bai Family, the previous host's mother was nothing more than a surrogate.

Yes!

It was just a job!

Chapter 2336: Welcome to the end of the world (Part 3)

After the matter was over, Bai Da Shan gave the previous host's mother a hundred thousand yuan as payment for giving birth.

And he wanted her to take this hundred thousand to leave A City forever.

The previous host's mother didn't want to, she said that she could have nothing to do with the Bai Family, but she couldn't leave A City.

After all, she had her daughter and son. One had been admitted to the Royal Academy by her own talent and the other had been admitted to the International Conservatory of Music with his talent in music.

No matter what, she couldn't leave this city and not take responsibility for her two children.

Bai Da Shan was afraid that the previous host's mother would cause trouble, so he kept sending people to mess up the place they were renting.

Until they moved to a suburb ten kilometers outside of A City, Bai Da Shan finally let them off.

But that didn't mean that the previous host had a peaceful life!

Since she and Bai Lian Xin were in the same school, she would always be targeted. Her homework went missing and her shoes were hidden, but these were small things.

The bigger thing was that Bai Lian Shan sent people to bully the previous host's little brother, Luo Qian Mian.

The previous host's little brother was a gentle and introverted person. In order to not worry his big sister, he never said a word about being bullied!

But even so, the previous host never felt any hatred.

Society was like this, having money meant that you could do what you want. Life was like this, no one could blame anyone.

But.....her kindness couldn't be exchanged for the gratitude of the Bai Family.

Rather.....there was a bone chilling coldness.

On December 31st, 2150.

This celebratory New Years became everyone's nightmare.

There was a dark red rain that fell from the sky, condensing into lumps that didn't disappear for a long time.

This rain fell all night and only stopped when dawn came.

But the sky that should have lit up was no longer bright.

Those that had been drenched by the red rain all night had fevers and no matter what kind of medicine they were given, it wouldn't go away.

At first, the health and medical department stated that this persistent fever was caused by a viral infection. After all, the world in 2250 was an industrialized world.

Food and land was already in short supply and industrialized land kept expanding, so the pollution in nature kept increasing.

Although the dark red rain didn't make people feel worried, the dark sky did make people panic a bit.

But the temperature didn't drop and there was no hail, so everyone didn't seem to care as much after a day passed.

Students still went to class and workers still went to work.

They were very excited since being able to go to school at night was a very rare thing.

But.....this strangeness only lasted two days.

On the third day, the people in the hospital with the persistent fevers suddenly started to change.

Their bodies stiffened, their eyes turned red, their teeth were exposed, their skin turned thin, their blood vessels popped out, and they became much stronger.....

The people with these high fevers changed incomparably quick as their movements became mechanical, as if their brains couldn't think at all.

Moreover.....they longed for blood.....

The hospital was where the end of the world happened first.

Those people with high fevers turned into zombies within a few hours. Whenever they met someone that they knew or didn't know, they only had a single reaction!

Bite! Bite! Bite!

They had no humanity, there was only blood in their eyes.

The appearance of the zombie meant that the world would enter a new chapter and a new realm.

Righteous, evil, good, and bad! There was righteous and there was evil, there was good and there was bad!

All forces went against each other and no matter how weak the resistance was, there was mutual growth and restraint.

The day after the zombies appeared, the first batch of Power Users had awakened!

Chapter 2337: Welcome to the end of the world (Part 4)

The previous host was a first generation Power User, the first power awakened was a fire based power.

After the fall of the hospital, the number of zombies multiplied and people started to frantically snatch supplies. The supermarket became the second palace to be occupied.

It was a coincidence that the previous host met the Bai Family who were escaping at the nearby supermarket.

Bai Da Shan, Ye Qing Huan, and their daughter Bai Lian Xin.

They stood on the moral high ground and stated that the previous host had to be filial, taking them to a safe place. As well as help them by getting food, water, and other necessities for them.

The kind (brainless) previous host actually agreed to their moral (unreasonable) request and escorted them to a safe villa.

Although the zombies in the beginning of the apocalypse were a bit weak, the previous host's powers were also weak. Adding in the fact that Power Users weren't used to fighting zombies, the previous host had been injured on the way to the villa.

Once you became a Power User, you couldn't become a zombie. So you wouldn't turn even after being bitten by a zombie.

But that didn't mean that it didn't hurt.....

The previous host endured the pain and brought supplies to the villa, but she was ordered by Bai Da Shan to keep guard for them.

It was the same reason, your same mother, different father, little brother was just born and if you don't protect us, you are just a nuisance!

In the end, the previous host agreed while gritting her teeth.

The Bai Family slept on a warm bed eating steam and drinking juice, enjoying the best treatment in the end of the world.

As for her mother and her blind little brother, they could only sit in the cold wind and eat the 'goodwill' bread that the Bai Family gave them.

But even with this kindness, it wasn't the same treatment that was returned, but rather a stronger pain.

In the end of the world, anyone with a brain could sort out their thoughts and take leadership in this new world.

Among them, scientists accounted for a large part of this.

After all, they had studied and simulated the end of the world before the world ended.

Compared to normal people, they could accept things like this much quicker.

Doctor Lin Wan Sheng was the first to establish a study group in the end of the world. Not only did he research zombies, he also researched.....Power Users.

Zombies were easy to get, but Power Users were much harder.

Anyone that was willing to catch Power Users would receive the protection of the Academy of Science and would live in a special secure villa set up for them.

The villa had high tech equipment that would keep out the zombies and would provide for all their needs.

After Bai Da Shan learned of this, he didn't even think about it as he decided to send the previous host in for experimentation in exchange for being able to stay in this secure villa.

That night, the moon was dark as blood. Bai Da Shan called the previous host to the study of the villa and talked about family affairs before using a stun stick to knock out the previous host from behind.

When the previous host woke up, she was already in a lab in the Academy of Science.

Her naked body was placed on an ice cold bed and her limbs were all bound by chains.

Her mind was blank at that moment and she couldn't understand what had happened.

She didn't even think that it was the Bai Family who harmed her and thought that zombies had invaded the villa.

But after a few seconds, seeing the doctor in the white coat, she knew that it wasn't the zombies, but rather Bai Da Shan who was a beast in human skin.

In order to make the experiment complete, Lin Wan Sheng had the zombies bite the previous host's mother and little brother, turning them into zombies!

Power Users and zombies were similar, so it was more accurate to study them both!

Chapter 2338: Welcome to the end of the world (Part 5)

The previous host was locked up like this for three days. After being tortured and humiliated, her head was cut open to reveal her energy core.

The energy core of C Rank Power Users released a light blue glow.

That's right! The previous host was stronger than normal power users. She had jumped a grade when she awakened, going past the D Rank and becoming a C Rank Power User.

It was a pity that she was killed by Bai Da Shan before she could use her powers to change the lives of herself and her family in the end of the world.

This deep hatred and regret had brought the previous host's obsessions to the bronze mirror in the Chaos Space.

That was why the host Luo Qing Chen appeared.

Bringing her back to seven days before the previous host died, which was before the end of the world happened.

Luo Qing Chen blinked before looking at the clock in the center of the classroom. The date displayed was December 27th, 2150.

In the memories of the previous host, the male lead Qian Si Nai and the male supporting lead Hua Cai Jin rarely appeared and there were no interactions.

The supporting male lead Hua Cai Jin was the son of the richest man in A City. With fair skin, golden hair, and a wicked smile, there were many girls around him, but never a girlfriend. He was the male god of Bai Lian Xin's heart.

Luo Qing Chen took a look at Hua Cai Jin as the sunlight outside slowly fell onto his handsome face.

He really was a beautiful man who lived up to his name, like he had just stepped out of a painting.

He could feel that someone was looking at him and turned to meet Luo Qing Chen's eyes.

After being surprised, he revealed a faint smile that was like the sun.

Luo Qing Chen was also surprised and after blinking twice, she coldly turned her head. Her right hand started tapping the desk out of habit.

After observing Hua Cai Jin, she had a strange feeling when she saw Qian Si Nai.

A thick mushroom head, dark framed glasses, dark skin, and a face covered in pimples.....

In all thirty eight worlds, this was the most sorry looking male lead ever!

Qian Si Nai was a nouveau riche's son. He was admitted to the Royal Academy not because of his talent, but rather because he had a lot of money.

The previous host's knowledge of Qian Si Nai was limited to this and she didn't know anything else.

Her eyes stayed on Qian Si Nai for a long time and she only came back to her senses after the bell rang.

But what really brought her back to her senses wasn't the bell, but rather Bai Lian Xin's sharp voice.

"Ai! That commoner, didn't you secretly look at young master Jin in class!" She crossed her hands and had her eyes up in the sky.

Humph! She was always paying attention to Hua Cai Jin! This commoner who had no status and was worse than her in everything actually dared to secretly look at her male god!

What made her angry was that Hua Cai Jin had even smiled at her!

Right! It was a smile! That beautiful smile should belong to her, how could it belong to anyone else!

Luo Qing Chen heard this and her eyes swept over Bai Lian Xin. That pink fluffy skirt, the long wavy hair, the hairpin that was like a crown, and the heavy makeup, she didn't look like a student that was around eighteen to nineteen.

She was like one of those fake girls on the internet!

But one thing that Bai Lian Xin could be praised for was her observation skills.

"I didn't secretly look." Luo Qing Chen narrowed her eyes as she released a chill.

"He, he." Bai Lian Xin gave two disdainful laughs, "I clearly saw....."

"Ke, ke....." Luo Qing Chen cut her off by clearing her throat, "I was openly looking."

Chapter 2339: Welcome to the end of the world (Part 6)

"Si!" Everyone took a cold breath. Bai Lian Xin liking Hua Cai Jin was something that the entire class and the entire school knew.

"The commoner likes the school hunk! It can't be that it'll be a fairy tale of a prince and Cinderella, right!"

"Stop! Young master Jin is so handsome! He is a beautiful man!"

"Right, right! Aiya, I don't want him to belong to anyone!"

"Shh! Be quiet! We don't have any hopes of being with someone that young miss Bai likes!"

.....

The surrounding gossip entered her ears. Everyone was talking to one another, as if defining Hua Cai Jin as their male god and the object of their admiration.

The voice over in Luo Qing Chen's heart: Although the male lead in this world can't compare to him, isn't her family's little brother Jiu Sheng a thousand times more handsome?

Oh, no! It's ten thousand times!

The Bai Family had quite the status in A City, so even if people had ideas about Hua Cai Jin, they didn't dare openly admit it.

Everyone could only bury their admiration deep in their hearts!

"Luo Qing Chen, do you not want to live anymore?" Bai Lian Xin was clearly annoyed by her words and raised her right hand to slap her!

Although there weren't many commoners in A City's Royal Academy, that didn't mean that there was only Luo Qing Chen alone.

Although she looked down on these poor people without any status, that didn't mean that she had the free time to target all of them.

The reason she targeted Luo Qing Chen was because her shameless mother had given birth to a child that shouldn't have appeared in the Bai Family.

Although Bai Da Shan had kicked the mother out of the Bai Family after the child was born, her mother had adopted the boy.....

That child would forever remain in the Bai Family!

Based on what? That should have been a child born in the slum, how could he share the love of her father and all the wealth and status of the Bai Family!

She wasn't willing, but she couldn't do anything to that child!

The anger bottled in her heart and she couldn't vent it, so she could only vent it on Luo Qing Chen from time to time.

It wasn't just once or twice that she caused trouble for her. This commoner was weak and she never resisted which really was very satisfying for her!

But without knowing why, she had suddenly.....changed!

The weak Luo Qing Chen in her eyes had actually caught her hand without a word and pushed her.

She almost lost her balance and fell to the ground!

Luo Qing Chen narrowed her cold eyes and her clear as water eyes were ice cold as she looked at her, "You can't say if I can live or not."

The tragic death of the past life was still in her mind. The hatred of the previous host was like a ball of flames that gathered in the deepest part of her heart, never dissipating.

The Bai Family, she was eager to burn them all to ashes.

"Good, good, good! Very good!" Bai Lian Xin gritted her teeth and looked at her with venomous eyes, "You pushed me, don't even think about staying in this school! I want to let you see if I can decide or not!"

After this, she roared out at the two students behind her, "Go to the office and tell the teacher that there's a commoner that dares to hit people in our class, who is disturbing the school atmosphere——"

Then Bai Lian Xin said the following sentence word for word, making it incomparably clear!

Please! Expel! Her!

"Un." Luo Qing Chen looked up with a faint cold smile on her lips, "Go ahead! But you will only be making an empty trip."

Chapter 2340: Welcome to the end of the world (Part 7)

Bai Lian Xin naturally didn't understand what Luo Qing Chen meant, but seeing that she wasn't afraid at all, her eyes became even more angry.

"He, he." She gave a shrug and said with a cold laugh, "Don't you believe that you will be expelled? Luo Qing Chen, you shouldn't be too confident. Money is king in this world. I'll leave these words here, I will definitely....."

"Ze, ze, ze." Luo Qing Chen touched her ear and interrupted her angry words, "Aren't you annoying? If you want to expel me, that depends on if I give you a chance."

She just casually packed up the things on her desk and zipped up her backpack before putting it on her back, "The future is uncertain."

Bai Lian Xin was completely stunned and even the two followers who had been heading to the office stopped moving.

What was going on with Luo Qing Chen? Did she go crazy?

It was hard enough to get into the Royal Academy with the disdain of the rich people, could it be that she was giving it up that easily?

"You....." Bai Lian Xin didn't know how to threaten her. Her face was red as her eyes popped out, not being able to say a thing.

Hua Cai Jin was leaning on the wall with his hands in his pocket. He calmly looked at Luo Qing Chen before saying with a faint smile, "Lian Xin, we're all classmates, how about we forget about this! It's just a small matter."

Bai Lian Xin's body that was trembling from rage suddenly shuddered. She never expected Hua Cai Jin to speak up and it was for Luo Qing Chen!

"Young master Jin....." She bit her lip, but at least she regained her face. That situation just now really made it hard for her to back down.

Hua Cai Jin's remarks made her who was speechless finally have something to say.

"You commoner who doesn't know good from bad, this young miss will let you go on account of young master Jin!" Bai Lian Xin curled her lips as she looked at Luo Qing Chen with eyes filled with disdain, "But the next time you do this, I definitely won't forgive you."

As soon as her voice fell, she didn't forget to hold her head high to get back all the momentum that she had just lost.

"Ha, ha, ha!" Luo Qing Chen gave three stiff laughs before looking at Bai Lian Xin, "Ai, this classmate, do you really take yourself as a judge from a novel! These words are like that of an idiot, do I need you to spare me? What are you sparing me for?"

To be fair! Facing someone head on was what she did best!

Seeing Bai Lian Xin's face turning blue and white, she felt very happy.

“Luo Qing Chen!” She almost shrieked before pointing at her nose, “You just wait! I definitely.....definitely won’t let you off!”

Bai Lian Xin never thought that she would be bullied by Luo Qing Chen one day and have her face stepped on like this! What kind of shame was this!

In her eyes, she was the aloof princess, the queen with true power! This lowly commoner like Luo Qing Chen could only be bullied by her!

But today, this shameless commoner had humiliated her in front of all her classmates, including her male god Hua Cai Jin!

She definitely wouldn’t let her off!

“Oh.” She gave an uncaring shrug, “I like seeing you hate me, but can’t get rid of me. Moreover, you’ll never be able to get rid of me!”

“Luo Qing Chen, I’m telling you——” Bai Lian Xin slapped the table and said, “Your name definitely won’t appear on the class list next year!”

She definitely wouldn’t let Luo Qing Chen stay in the Royal Academy.

She had already reached the door, but she had stopped because of Bai Lian Xin’s words.

“None of our names will appear.” She said with a cold laugh.
