Chapter 2351: Welcome to the end of the world (Part 18)

“Get in the car.” He saw that she didn’t move, so he looked over, meeting her beautiful eyes.

Perhaps the angle of the sun was just right so that it fell perfectly on her beautiful face. At that moment, he was a bit stunned as his heart couldn’t help beating faster.

[Ding, affection has increased by ten. Mission completion rate is now 20%.]

“You.”

The system’s notification pulled her thoughts that had gone into outer space back into reality.

When their eyes met, there was an indescribable sense of panic.

“I.” Qian Si Nai looked into her eyes and felt that his thoughts had been discovered. This feeling wasn’t good, so he couldn’t think properly.

A few years later, Qian Si Nai said, “Get in the car first, the sun is strong. Don’t.....get sunburned.”

.....

After saying this, he immediately had an urge to step on the accelerator pedal.

He didn’t understand himself, just why did he say all this nonsense!

It was winter in December! Moreover, it was three days before the apocalypse. Although the sun seemed bright, it definitely couldn’t give anyone a sunburn!

Luo Qing Chen trembled before revealing an understanding smile, “Right, right, right! You saw what I was worried about, I forgot to wear sunscreen.....”

Actually she didn’t know what she was saying. When her voice fell, her expression became serious again as she planned on covering up her nonsense.

She quickly opened the car door and sat in the passenger seat, putting on her seatbelt. After clearing her throat, she said, “Classmate Qian, let’s go!”

Qian Si Nai looked at her and narrowed his beautiful eyes, strangely feeling excited.

He never thought that after his nervous nonsense, she would follow up with her own nonsense.

There was a feeling of tacit understanding as something started to bloom between the two of them.

The Maserati stopped in front of a villa. Luo Qing Chen knitted her brows, feeling that the place that Qian Si Nai brought her felt strangely sacred, while also strangely dangerous.

These two feelings didn’t conflict because the style of this building really was strange.

A navy blue perimeter with a mysterious aura.

“Young master.” An old man came over with a key card in his hand, “The old master is waiting for you in the study.”

“Un! Got it!” Qian Si Nai looked at Luo Qing Chen and said in a commanding tone, “Grandfather is different from normal people, you can be silent when you meet him later.”

Luo Qing Chen gave a nod.

She naturally didn’t expect Qian Si Nai to bring her home and meet his elders!

Wasn’t this a bit too fast? Could it be that before the end of the world, she had captured the male lead’s heart with her beauty?

[Is the host awake? It’s only 20% affection, what have you captured?]

Can you shut up?

She had to admit that since her unprofessional system took over her secondary storage space, it became very challenging!

Although she knew that Qian Si Nai was only in the exploratory stage with her and it couldn’t be considered love, couldn’t she be narcissistic from time to time?

The inside of the villa was quite different from the outside. There were bright lights that made one feel safe.

Luo Qing Chen never said a thing as she followed Qian Si Nai. She didn’t understand, why did he bring her home?

His grandfather must be a very powerful person.

After all, if Qian Si Nai knew about the end of the world, his grandfather must have known a long time ago.

Chapter 2352: Welcome to the end of the world (Part 19)

In the study on the second floor, the light changed from a warm colour to a cold colour.

Qian Si Nai knocked on the door and said, “Grandfather, I’m back.”

“Kacha.” The door automatically opened and Qian Suan Zi’s deep and heavy voice came from inside, “Welcome miss Luo, you truly are beautiful.”

This was clearly a greeting, but she felt her heart suddenly jump to her throat.

She was very clear that she was nervous.

This veiled person not only knew about the end of the world, he also knew her name.

Qian Si Nai hadn’t contacted anyone along the way. This meant that it was impossible for Qian Si Nai to tell his grandfather her name.

Moreover, his slightly knitted brows and surprised look were enough to show that he was very surprised.

“Grandfather.....”

“Perhaps I shouldn’t call you miss Luo, but I should call you a space creator Power User.”

When Qian Suan Zi said this, Luo Qing Chen knitted her brows even more.

She had obtained her powers before the end of the world with the help of the system, this wasn’t related to this world at all.

But Qian Si Nai’s grandfather could already tell that she had awakened her power.....

“Grandfather, I feel that she could be our ally.” Qian Si Nai came in, but his right hand indicated to Luo Qing Chen to not come in for now.

He was filled with respect and admiration for his grandfather because this elder was strong enough. The Qian Family’s last constellation master, Qian Suan Zi.

“You don’t need to be this nervous.” His voice was as calm as a pool of stagnant water as he slowly said, “Miss Luo has such a powerful ability, naturally we would want to become allies. This old man’s feet aren’t good, so please come in.”

This was Luo Qing Chen’s first time seeing Qian Suan Zi. There were countless star charts in his room, marking the distance between stars and the direct connection between constellations.

It was beautiful, almost as if you closed your eyes and opened them again, you would be standing in the vast universe.

Over the next half an hour, Qian Suan Zi told her about the Qian Family’s mission and the end of the world.

Although it was a simple summary, it was much more than what Qian Si Nai had told her!

The Qian Family started six hundred years ago, specializing in the study of the change in the stars, the distance between stars, and the lifespan of stars.

They could infer the occurrences of disasters because of the changes in these things.

For example, the end of the world.

A year ago, Qian Suan Zi found that two asteroids parallel to their star system started to shrink.

This meant that their quality started to change.

He already guessed that something big was about to happen in this world.

It wasn’t until three months ago that he confirmed that the world would be ending.

December 31st, 2150.

Even if it was three months ago, he knew that he couldn’t do much. He could only collect supplies to save more people when the end of the world came.

Because he didn't know if humans would defend cities in the end, he could only set up resource centers in the big cities of each province in case of emergencies.

Qian Suan Zi naturally knew that there would be Power Users after learning about the end of the world.

But he never thought that there would be a Power User who awoke her abilities before the end of the world.

Moreover, it was one of the rarest, the space creation ability.

This girl had to be an ally, or if she was pulled in by someone else, it would be a disaster!

Chapter 2353: Welcome to the end of the world (Part 20)

After meeting Qian Suan Zi, Luo Qing Chen entered an alliance with Qian Si Nai's family.

Perhaps it was too much to say it was an alliance, they were just partners for the end of the world.

Qian Suan Zi was considered quite friendly when facing this end of the world partner.

Qian Si Nai took her to the Qian Family's secure base and let her choose some suitable weapons.

Swiss army knives, gas grenades, wireless headphones, and such, all kinds of things that would be seen only in army bases were all here.

"Just take whatever you want." Qian Si Nai revealed a faint smile, "After you finish here, I'll drive you to the wholesale market."

"Wholesale market?" Luo Qing Chen's eyes trembled, "Do you still need to buy something?"

Luo Qing Chen thought that since Qian Si Nai had already spent three months preparing, was he still not prepared?

"I've already bought most of my things." He calmly looked at her and said, "But the things that you bought from just the supermarkets are far from being enough."

Actually, he had already noticed her in the classroom that day.

That faint confident smile, it was as if she was looking down on those ignorant people like a god.

He thought that she was different from others and might even know that the end of the world was coming.

He secretly sent someone to find that she indeed didn't go to school, but rather went to various supermarkets and stores.

Every time the large truck was filled, she would go to another place.

But what surprised him was that when she drove the van to the next place and opened the trunk, everything inside had disappeared.

Actually, he had already pretty much bought all the medicine that he needed, but he still went to buy some emergency medicine that day.

It was just to meet near the factory.

Yes, it wasn't an accidental encounter, but rather a premeditated encounter.

Of course, Luo Qing Chen didn't know this.

"Ding." When she came out of the inner room, Luo Qing Chen didn't take too much, but she didn't take too little.

If the end of the world wasn't coming, she would have felt awkward taking this much stuff on her first visit to someone else's home!

But the situation was urgent and she had already made a deal! There was no need to be courteous!

[Does the host think that the male lead has already benefited from meeting you!]

Why are you talking this much in this world? Are you excited before the end of the world comes?

[.....] The system stuck up its non-existent finger in an aggrieved manner and stopped speaking!

"What did you take?" Qian Si Nai saw her coming out empty handed and there was a faint glow that appeared in his cold eyes, "It seems that classmate Luo is owing me more and more."

"Why does classmate Qian keep saying that I owe something....." Luo Qing Chen looked into his eyes and cleared her throat, "When the end of the world comes, naturally you'll find a place to use me."

The space creator ability, it was definitely considered one of the peak SSS rank abilities. There were very few abilities that were on the same level as it.

"Is classmate Luo certain that what you give me will be the same as what I'm giving you now?" Qian Si Nai had a touch of gentleness in his eyes. These words clearly were unpleasant, but when it came out of his mouth, it felt like they were 'comrade in arms'.

Luo Qing Chen put her hands into her pockets and looked at him with narrowed eyes, "Classmate Qian, are you sure you want to offend me! My personality isn't that good. Once too much is owed, the party that is being owed will be anxious. I might just run away!"

Chapter 2354: Welcome to the end of the world (Part 21)

Qian Si Nai was surprised, clearly not expecting Luo Qing Chen to say this.

It clearly sounded like she was being irresponsible, but he felt that it was strangely cute!

[Ding, affection has increased by ten. Mission completion rate is now 30%.]

The moment that his affection silently increased, Luo Qing Chen secretly felt happy.

Could it be that Qian Si Nai really wasn't afraid that she would run away?

Ha, ha, ha, ha, ha! Thinking about it like this, she didn't know why she felt very happy.

"Classmate Luo's current behaviour could be described with a single idiom." Qian Si Nai narrowed his eyes as he had the same smile on his face.

"What?"

"Tearing down bridges."

He turned to leave his back for her after saying this. She didn't know but Qian Si Nai who was indifferent to everything had a hard to hide smile on his face.

He was filled with admiration for this girl in front of him.

It wasn't because of her awakened power, but because of her proud smile. It was like a faint light that entered his heart that had been as calm as water, creating shallow ripples one by one.

-

Sitting in the passenger seat of Qian Si Nai's Maserati, she enjoyed the breeze by the river.

He brought her to many wholesalers to collect resources. It was very good to have connections, the things collected in just a few minutes were more than what she had spent so much time to get.

Luo Qing Chen was very satisfied with how generous Qian Si Nai was.

"I've really bothered you today." She put her cheek on her hand and leaned against the window, looking over at Qian Si Nai.

He really was good looking. That fair skinned and chiseled features. Especially the side of his face, she felt that under the faint moonlight, she could see his clear and dense lashes which made him look especially handsome.

"It's fine, I've written it all down in the little book in my heart." Qian Si Nai slightly narrowed his eyes as he turned the wheel.

The night was a bit dark and she couldn't see Qian Si Nai's face clearly, but there should have been a touch of arrogance in those gentle eyes.

Although she was very speechless about what he said!

"Classmate Qian doesn't seem like someone who cares this much....."

"I am this kind of person." Qian Si Nai stopped in front of the hotel and turned to look at her, "You have to know that in the end of the world, you'll die faster if you don't care....."

His eyes were very serious as if he was using this method to give her a warning.

She looked into his dark as ink eyes and couldn't help giving a nod.

Qian Si Nai looked at her as the sparkle in his eyes flickered. Seeing her obedient appearance made him unconsciously raise his hand to softly pat her head, "Good....."

[Ding, affection has increased by ten. Mission completion rate is now 40%.]

The air around seemed to freeze at that moment.

The bright moonlight fell onto them through the window as their eyes met.

Without knowing how long passed, Qian Si Nai was the first to come back to his senses. He took back his hand and put them in his pocket as his face turned a bit red.

Luo Qing Chen sat up and touched her ears with her right hand out of habit during this awkward situation.

It was as if there was a pink feeling in the air around them before the end of the world came.

"I.....I'll go up first."

"Alright."

"Un! Bye bye!"

When she opened the door, he suddenly grabbed her hand, "I'll pick you up on December 31st, come to the secure base first."

He didn't know why he said this, but he already couldn't control.....that feeling of wanting to protect her.....

Chapter 2355: Welcome to the end of the world (Part 22)

December 31st, 2150, at eight in the morning, negative eight degrees celsius.

Although it was late winter, the weather wasn't that cold.

Luo Qing Chen made one final check of her secondary storage space which still had three hundred spaces left.

Once the end of the world came, there would be few useful resources.

Other than the few resources that could be snatched, there were only the energy cores of zombies and Power Users.

"Big sister, where are we going next?" Luo Qing Mian crossed his hands as he pursed his lips, looking a bit nervous.

Mother Luo not far away said, "What is with you two? What's happening that you're not even going to class!"

Her tone wasn't very good, but it could be understood.

After all she was a woman who raised two children alone and there was the Bai Family matter that happened recently.

She was already very nervous since her newborn son was still in the Bai Family and would remain there forever.

“Miss Lin Xiu Juan.” Luo Qing Chen closed her eyes and said the previous host’s mother’s full name.

She had explained everything that she should and could explain over the past two days.

Although she didn’t tell her mother that the end of the world was coming, she did tell her that the world would be reshuffled soon.

Whether they were rich or poor, they would be reshuffled.

But even so, her mother still couldn’t understand what the two of them were doing.

“Big sister.....”

“You.....Xiao Qing, why are you talking to mom like this?” Lin Xiu Juan looked at her with a very shocked look.

Luo Qing Chen took a deep breath before saying without a trace of emotion in her eyes, “Our family being bullied by the Bai Family is because of your own bad behaviour, so you’re at fault.”

Lin Xiu Juan looked at her and felt that her daughter was very different today. Like she had become another person.

“Xiao Qing, just what do you want to say?”

“I’ve already told you, the world is about to change.” Luo Qing Chen looked up and said in a cold voice, “The Bai Family might not survive, so you shouldn’t get too involved. As for me.....I won’t take revenge, but I won’t pay grievances with favour.”

It was because of how cold her voice was that Lin Xuan Jian who was in thought didn’t say a word.

-

At noon.

The people who paid attention would notice that the sun at noon was different from usual.

The sun that hadn’t been seen in a long time suddenly appeared and the appearance of the sun changed a bit.

There was a golden outer ring of light that dimmed bit by bit.

Luo Qing Chen went downstairs to get takeout for her mother and little brother. The dishes were very good because after tonight, this kind of delicious food would only remain in their memories.

“Di, di.”

The phone rang and Luo Qing Chen looked down to see that it was a text from Qian Si Nai.

(Why haven’t you come to the safe zone yet?)

Luo Qing Chen thought about it before quickly typing a few words.

(I'm staying at the hotel for now. My little brother can't see, so I'm not assured.)

She felt that although Qian Suan Zi was powerful, he was also a bit strange.

She didn't think that it was so strange that he would create safe zones and resource depots in each city to let more people live.

But when she thought about it later, she felt that there was one thing that confused her.

Since Qian Suan Zi was that smart and had connections, why didn't he inform the top government officials to isolate the people who were exposed to the rain?

Although there was no guarantee that a fish wouldn't slip through the net, it would at least minimize the damage.

Chapter 2356: Welcome to the end of the world (Part 23)

In her memories, the end of the world spread very quickly.

Although she didn't know when A City fell, she was certain that it fell.

She never even heard of anyone stepping up to become the leader of the zombie resistance.

Only doctors who wanted to study zombies and Power Users.

In the parallel world, where had Qian Suan Zi gone? If he was still there, the virus wouldn't have spread that quickly.

-

At eleven at night.

The entire A City was filled with a festive air as every family prepared for the New Years with colourful light. Only Luo Qing Chen stood on the roof of the hotel with a black umbrella and a glass of red wine.

Qian Si Nai had sent her three texts, but she didn't reply.

The calls.....also didn't connect.....

(Grandfather can protect your little brother. ——Qian Si Nai.)

(Actually, I already know what my ability is, if I'm not a Power User, I will..... ——Qian Si Nai.)

The final text message was something that he wrote and deleted again and again. The words 'I can't protect you' couldn't be written in the end.

(I will only stay in the safe zone temporarily, are you really not coming? ——Qian Si Nai.)

This was his first time that he had such a relationship, feeling a bit helpless and concerned!

She didn't seem that bright or attractive, but a single look had deeply imprinted her in his mind and she didn't disappear for a long time.

He suddenly felt a bit worried when the end of the world was about to come.

His grandfather couldn't calculate if he was a Power User or not, so he could only prepare for the worse.

If he wasn't, he couldn't be touched by the red rain and he couldn't be bitten by the zombies.

A normal person bitten by the zombies will turn into a zombie between one minute to ten hours. Only Power Users weren't afraid of being bitten by zombies.

So he couldn't go out, but his heart was already filled with worry.

He was very worried.....

Even if the other side was a space creator Power User, he was still worried. Although the first grade zombies that appeared in the beginning of the end of the world weren't that fast or strong, it was still several times greater than that of a normal person.

If Luo Qing Chen didn't awaken any powers other than space creator, she would be in danger.

The only difference between a normal person in the end of the world was.....being a portable storage.

Plus she had a mother and a blind little brother.

Luo Qing Chen didn't reply because for one, she was thinking of Qian Suan Zi and two, because she wanted to live again. She wanted to experience this world that the previous host regretted so much by herself.

She would rewrite that tragic ending.

At 11:59:50.

She could see the Century Square from where she was standing. The dense crowd was waving light sticks, waiting for the passing of the new year and the sound of the bells.

[Ten, nine, eight, seven, six, five, four, three, two, one.....]

The loud countdown came from not far away before it was followed with laughter and upbeat music.

There were fireworks launched into the sky and the pitch dark sky turned purple and red.

"Dong, dong, dong." The large screen on the other side jumped from December 31st, 2150 to January 1st, 2151 and cheers rang out.

"Di, da, di, da, di, da." There were drops of rain that fell onto her umbrella as the moon in the sky gradually turned red.

Luo Qing Chen narrowed her eyes and slowly raised her cup of wine. After chugging the entire glass, she pursed her red lips and said, "Welcome to the end of the world."

Chapter 2357: Welcome to the end of the world (Part 24)

That night, the rain fell for the entire night and there was the scent of chemicals that filled the air.

The passing of the year had turned from a banquet to a hell on earth.

The next morning, the sun didn't rise.

When Luo Qing Chen went to the hotel again, the screen opposite of her turned from a countdown to a news broadcast.

"Breaking news: The global temperature has quickly risen and the red rain continues to fall. The relevant departments are already responding to this."

"Major hospitals have given an urgent warning for all people with high fevers to come to the hospital. It's suspected that there's chemical pollution in the red rain....."

"There are many rumours today. Some people are saying that the ozone layer was destroyed, some people are saying that greenhouse gases have reached a critical power, there are even some people saying that the end of the world is here.....Those rumours must stop. If anyone continues to spread these rumours, they will definitely be punished by the law!"

"In the past few hours, there have been many people who have gone to the supermarket to buy food! The state calls on the people to remain safe and not panic....."

.....

The news came from various channels. Some people recognized that danger was coming and some people were enjoying the final luxuries left in the world.

After a few more hours, the people with high fevers in the hospital would become zombies. After all, everyone had seen zombie movies and it was easy for people to think of the end of the world in this situation.

The people who went to the supermarket to stock up were considered smart.

In the end of the world, being smart gives you more chances to survive.

When she went back to the hotel room, Luo Qing Chen had a bag of food that she was going to give to her mother and her little brother.

But when she opened the door, she only saw her mother and her little brother was gone.

"Where's Qing Mian?" Luo Qing Chen had a bit of panic in her eyes.

Although it had already stopped raining, the red rain was filled with viruses and it was unknown if Luo Qing Mian was a Power User or not.

If he wasn't, once he was infected and had a fever, it was very possible that he would become a zombie like in his previous life.

"Xiao Qing, you're finally back! Mom was worried to death!" Lin Xiu Juan nervously grabbed her hand, "Qing Mian seemed to have received a call from his classmate asking him to go to the hospital to help."

“He went to the hospital?” Luo Qing Chen almost screamed out as her hands couldn’t help start trembling.

Damn! What was her little brother doing!

“Yes! It seems like the school flower of his school was drenched in the rain and called their friends.....”

Before Lin Xiu Juan could finish, Luo Qing Chen picked up an umbrella while cutting her off, “Mom, listen to me and live by yourself here for now. No matter who calls, you can’t go out! The end of the world is coming. I didn’t tell you before because you wouldn’t have believed me.”

She knitted her brows and her left hand pulled at the window, revealing the dark red and eerie sky.

Lin Xiu Juan was surprised. Luo Qing Chen didn’t give her time to react as she said, “Now, I think that you should believe me!”

“The end.....the end of the world.....”

“Stay here and wait for me to bring little brother back.” Luo Qing Chen pointed at the large bag on the table, “If you get hungry, you can eat that first. Don’t walk around by yourself.”

Lin Xiu Juan looked into Luo Qing Chen’s eyes and felt that she had changed.

She was no longer as weak as before. Her eyes were scrunched and there was a trace of a chill in them.

Chapter 2358: Welcome to the end of the world (Part 25)

After coming out of the hotel, although it was a bit cold, there was still a bright red glow in the sky.

The hotel had already set up a blockade and since the morning, there were only exits and no entries.

If her memory wasn’t wrong, this place would be safe for the time being.

After walking down a small alley, she reached a main street.

There was the sound of horns honking that hit her ears. Luo Qing Chen narrowed her eyes and pulled up her windbreaker.

Although she had bought many beautiful clothes, she had already changed into light clothing after the end of the world.

After all, skirts weren’t that good for fighting.

Along the way, she was a bit anxious. It wasn’t about the end of the world, but rather about her mother and little brother.

Actually, her mother was a very good person.

Whether it was for her or Luo Qing Mian, she did her best to take care of her, but there was one bad thing about her.

It was that she was always patient with the Bai Family. It was unknown what kind of drug Bai Da Shan fed her to make her endure them that much.....

Also her little brother. She had clearly told him that the end of the world was about to come.

Luo Qing Mian was different from her mother, he clearly knew that the end of the world was coming. What was so important that he could still ignore all the danger that he knew about and go out!

Moreover, he was blind!

There was no way to take a car, but it was a good thing that the hospital wasn't far from the hotel. Luo Qing Chen was able to quickly walk over to the hospital.

"I'm here, where are you?" She called Luo Qing Mian again.

"Big sister, didn't I say that you shouldn't come?" Luo Qing Mian's voice was a bit worried as he softly said, "I can deal with this, you can go back to the hotel!"

"Luo Qing Mian, tell me where you are!" She felt that the anger in her heart was about to explode.

Luo Qing Mian on the other side was stunned before saying in a heavy voice, "I'm in room 1021 on the third floor."

Then there was the dial tone that came from the other side.

Luo Qing Chen looked at the phone and knew that time was running out.

She guessed that the first batch of zombies were about to appear soon.

She quickly came to room 1021 where there were many boys gathered. Luo Qing Mian was standing not far away holding his phone.

He could hear Luo Qing Chen's familiar footsteps and slowly said, "Big sister....."

Luo Qing Chen narrowed her eyes as she looked around. This was a VIP room and the one sitting in the bed was the Royal Conservatory's school flower Xia Ruan.

Snow white skin, long wavy curly hair, a beautiful face, and faint makeup.

There were five boys around her and the previous host's memories included these five. They were her little brother's good friends.

"Ruan Ruan had a fever this morning, so I rushed over when she called me." One of the boys said, "I promised a fair competition, so that's what I did."

Xia Ruan heard this, but her expression didn't change at all. She pursed her lips and gave a soft cough, "I'm fine, you can all leave now!"

Although her tone sounded soft and she looked very weak, Luo Qing Chen could see the pride in her eyes.

She should enjoy the feeling of being surrounded by boys.

The eyes wouldn't lie and Luo Qing Chen was certain that her thoughts were right.

But when she heard Luo Qing Mian call out 'big sister', her expression changed slightly.

It was a slightly displeased look.....

Chapter 2359: Welcome to the end of the world (Part 26)

"Un." Luo Qing Chen gave a nod before coming to Luo Qing Mian's side, "I'm here to pick you up, mom is very worried."

She didn't look at Xia Ruan sitting on the bed and just gave the four boy a slight nod out of courtesy.

This beauty suddenly appearing made the eyes of the four boys light up. Actually, they had never met before, the previous host had just seen a picture of all five of them together before.

That was why the four of them were in her memories.

"You.....You are Qing Mian's big sister?" One of the boys said.

"Great beauty!" Another boy nudged Luo Qing Mian's waist with his elbow, "Qing Mian, you had such a beautiful big sister, why did you never let us meet her?"

"This beauty is your big sister! She seems more like a little sister!"

.....

Boys would always tease beautiful girls. That didn't mean that they had bad intentions, they just thought that you were beautiful and wanted to praise you.

But in front of the 'school flower', praising another girl like this naturally made Xia Ruan who always thought she was the most important feel unhappy.

Then there was that four of the Royal Conservatory's 'Five Swordsman' had already fallen for her, there was only Luo Qing Mian who didn't.

Although he was blind and couldn't see her beauty, she wasn't blind and could see his handsomeness.

There were many people at school who gave Luo Qing Mian love letters and he had always calmly refused.

This man made girls even more eager to conquer him. After all, what you couldn't get always stirred you.

The more you couldn't get something, the more you wanted it.

"Ke, ke." She cleared her throat and said, "This big sister is Qing Mian's real big sister?"

Her voice was very soft and when she spoke, she stroked her wavy hair.

Actually, she didn't have a high fever, just a low fever. There was no need for so many people to visit her, but she had secretly spread the news of her being sick.

Luo Qing Chen looked over to see the slight provocation in her eyes. She knitted her brows to say, "Un."

“Big sister, let’s go back!” Luo Qing Mian took Luo Qing Chen’s wrist, “Don’t be angry.....”

He could feel Luo Qing Chen’s anger from the phone earlier. In fact, he had rarely seen his big sister being angry.

She had always been weak and anger had almost never appeared in her life.

But it was like she had completely changed today.....There was a slight domineering that people couldn’t help looking up at her.....

“Big sister, I really troubled Qing Mian. I’m fine, he only came all this way because he was worried about me.” Xia Ruan’s voice was sweet as she had a smile on her face, but her eyes were sharp as she looked at Luo Qing Chen, “It’s all my fault. Don’t be angry, big sister.”

As soon as her voice fell, she didn’t forget to give two coughs to show how weak she was.

The boys heard this and they all turned their gaze from Luo Qing Chen to her.

“No trouble! No trouble! Ruan Ruan, you are our princess!”

“That’s right, it’s most important that you take care of your illness!”

“Isn’t it? When I called Qing Mian, he was worried about you the entire time.....”

.....

Luo Qing Mian slightly knitted his brows, “I would be worried as long as they’re a friend.”

He didn’t know why he said this, but he wanted to distance himself from other girls in front of his big sister.

Even if there was no relationship at all!

Chapter 2360: Welcome to the end of the world (Part 27)

Xia Ruan’s expression changed. It was clear that she was unhappy, but she couldn’t show it. She could only say with a smile, “It seems like big sister is very strict, Qing Mian is this afraid of you.”

She suddenly knew why even though she did her best to put on an act in front of Luo Qing Mian, she never got any response.

It turned out that there was such a beautiful big sister at all.

But logically speaking, how could a blind man care about beauty.....

“I’m not.....”

Luo Qing Mian knitted his brows to explain, but Luo Qing Chen cut him off.

“It’s good that you know.”

Actually, she had seen many little white flowers and she could tell if it was an act with a single glance.

Although this girl Xia Ruan seemed very polite on the surface, always calling her 'big sister', it was clear that this was a girl that always wanted attention to be on herself.

She wasn't willing to give anyone else a little bit.

This girl had a common problem. As long as she saw a beauty, she would unconsciously want to compare and want to take everyone's attention.

Her cold words made the atmosphere in the room very awkward. Although the boys didn't see Xia Ruan's hostility towards Luo Qing Chen, they could clearly see Luo Qing Chen's hostility towards Xia Ruan.

One of the boys took the lead to break up this awkward atmosphere, "Qing Mian, you and your big sister can leave first! The four of us will take care of Xia Ruan, you don't have to worry."

"Alright." Luo Qing Mian gave a nod before walking forward.

He didn't even say goodbye to Xia Ruan as his brows had been knit the entire time.

Actually, he hated himself at a certain point. His family was like this, his mother was weak, his big sister was weak, and he was also weak.

Just like today, he clearly knew that the world was ending and there was a virus that was being spread by the rainwater outside.

But when his friend called, he couldn't refuse.

The friend said in the phone: Ruan Ruan wants the Five Swordsmen to go together, you can't go against the wishes of our goddess.

He didn't hate Xia Ruan, but he also didn't like her.

He knew that his four friends liked Xia Ruan, but he didn't like her. Even not long ago when Xia Ruan confessed to him, he had directly rejected her.

Of course, he never told anyone about this.

"Qing Mian." When he came to the door, Xia Ruan looked up with a faint mist in her eyes as she called out to him, "Is it because your big sister is strict that you rejected me?"

When Xia Ruan said these words, the other four all looked at Luo Qing Mian.

Surprise, confusion, and even jealousy.

"Ruan Ruan, you.....you like Qing Mian?" One of them named Gu Ying looked at Luo Qing Mian in disbelief before saying with a cold laugh, "Why do you like a blind man?"

Gu Ying was a rich second generation covered in brand items.

Such an ugly word was said from one of the so-called Five Swordsmen.

Luo Qing Mian knitted his brows and didn't say anything.

Actually, there was an indescribable feeling in his heart. It turned out that in the eyes of his 'brother', he was a blind man not worthy of the school flower.

"I haven't received a confession yet, Xia Ruan is just joking."

"I'm not joking!" Xia Ruan looked at Luo Qing Chen before her eyes fell onto Luo Qing Mian and she bit her lips as she said, "I like you! I want big sister to bear witness! I like Luo Qing Mian, even if the world was to end!"
