Chapter 2371: Welcome to the end of the world (Part 38)

Luo Qing Chen could guess what Chen Bing wanted to say. She narrowed her eyes and put her hands in her pocket, "There are all those zombies outside, we can't go through the main entrance."

"Don't take the main entrance, don't take the main entrance....." The old wife looked at the old man and shook their head before saying, "There's a side door that leads directly to the upstairs apartments, we can go there....."

Chen Bing said with a nod, "I know where it is! Big sister can also use that to enter the department store."

The five year old little boy could feel her hesitation and gave the lollipop in his hand to her, "Thank you, big sister."

Luo Qing Chen was surprised. She looked at the little child, but she didn't take the lollipop as she said to the old man, "Please lead the way."

They did take a side road and there were no zombies there. When they came to the security gate, the old man stopped and said, "We just came here and turned back. It's too dark inside, so we.....didn't dare go in."

Chen Bing knitted his brows, "Yi, isn't this the east door? If we go from here, it'll take a long time to get to our houses!"

"Yes, yes!" The old man's eyes trembled as he said, "There are too many monsters in other places....."

Luo Qing Chen waved her right hand and a faint glow appeared around the Exquisite Ring on her head before she headed in.

Chen Bing followed beside her as the two elderly and child followed behind.

They were right, this passage really was dark. It should be related to the circuit breaker failing, so they couldn't see anything at all.

But the scent of blood in the air became thicker and thicker.....

When Luo Qing Chen felt that something was off, there was a sharp sound behind them before the sound of an iron door being locked rang out.

When she turned around, the old couple and the child were already far away from the iron door.

Luo Qing Chen knitted her brows as she raised the brightness of the Exquisite Ring to the max. She looked into the deepest parts and found that the passage was blocked.

There were zombies on both sides.....

With this extreme light that appeared, the zombies didn't react as they just stood there in place.

Chen Bing was shocked as he looked at the old couple behind the iron gate, "You.....What are you doing?"

“Sorry, Bing Bing.....” The old man said while running away, “There’s only one path to the west and if we want to go around, we will meet the monsters in front.....Only if there’s noise on your side will the monsters be drawn away and we can go back.....”

As soon as his voice fell, he took out a small stereo from his pocket and turned on the square dancing music, putting it at max volume. He put it outside the door, but it was in a place that they couldn’t reach.

Luo Qing Chen gave a cold laugh as her eyes turned cold.

Despicable humans.....

For their own safety, they didn’t hesitate to act weak to turn other people into bait.

She finally understood how two old people and a child were able to find her without being noticed by zombies.

Perhaps it wasn’t just them that were used as bait.

“Now you understand.....” Luo Qing Chen coldly looked at Chen Bing beside her, “In the end of the world.....there are no friends.”

Even if they were neighbours for many years, they could still do these kinds of things when it came to their own lives.

But they didn’t feel guilty at all.....

Because they only cared.....about their own lives!

Chapter 2372: Welcome to the end of the world (Part 39)

“Sorry.....it was all my fault.....” Chen Bing bit his lips, but he still stood in front of Luo Qing Chen, “I’ll fight those zombies with you!”

Luo Qing Chen looked at the zombies that were gradually adapting to the light and gave a cold laugh, “I’m afraid.....you’re not qualified.”

“Ding, ling, ding, ling.” Her phone rang again.

Luo Qing Chen didn’t hang up this time and picked up, “Partner, it’s your turn to be useful.”

There were too many zombies here. She didn’t know how many were in the left and right passages, but there were already fifty to sixty zombies that could be seen.

If she was alone and in a normal condition, then it wouldn’t be a problem.

But she could feel that her body wasn’t right. The temperature of her hand was already double what it normally was.

“Tell me your location!” A cold voice with a bit of worry came from the other side of the call.

She.....could hear it.

“Century Square.”

As soon as her voice fell, the zombie closest to her charged in her direction.

She jumped out and wanted to take care of it like normal, but the speed of the zombie was twice the speed of the zombies she met before. He dodged aside and avoided her attack.

“Damn!” She bit her lip. She raised the army knife as she said to Chen Bing, “Go check the iron gate, see if there’s a way to open it.”

Chen Bing quickly moved over to the iron gate and pushed with all his strength before saying, “It won’t work, it’s locked from the outside.”

“Humph!” She narrowed her cold eyes as she said, “Your neighbours really are ruthless.”

To buy themselves some more time, they had been this decisive.

Two people that were at the end of their life, just what were they doing.....

“Sorry.....” Chen Bing lowered his head and gave a deep sigh, “It should be for their grandchild.....”

Actually, although he couldn’t accept their behaviour, he could understand it.

“If you don’t have the most basic conscience as a person, there’s no meaning in living in this world.” While saying this, there were several zombies that charged in her direction.

These zombies were stronger than the ones in the hospital. She took a small step as the army knife in her hand slid across the head of a zombie, revealing a blue energy core.

“As expected.....” She knitted her brows, “They are all second grade zombies here.”

The zombies were evolving this quickly, it should be because there were too many people at the department store.

The more fresh blood they drained, the faster their energy core grew.

“Shua, shua, shua, shua, shua.” In the blink of an eye, the zombies that rushed at her quickly fell to the ground.

But then there was another batch of zombies that rushed at her.

She knitted her brows. Her face was pale and there were drops of cold sweat falling from her forehead.

Why, why did she feel like she was suffocating?

She felt like she couldn’t raise her knife and the scene in front of her was turning blurry.

The zombies were only a few centimeters away from her.

The surrounding temperature dropped and a layer of ice appeared around her.

The zombies that were attacking her had turned to ice as they made cracking sounds.

All the ice fell to the ground as several blue energy cores were left floating in the air.

A cold hand touched her forehead as Qian Si Nai's beautiful face appeared in front of her.

He slightly knitted his brows as he said, "You're about to awaken."

Chapter 2373: Welcome to the end of the world (Part 40)

[Ding, affection has increased by ten. Mission completion rate is now 50%.]

Luo Qing Chen shook her head and said, "It's that hot?"

She felt that her fever had already reached a certain point, but she had to hold on no matter what.

"Each awakening is different and the symptoms will vary." Qian Si Nai's cold eyes had a trace of warmth.

There was a strange throbbing in my heart that couldn't be described.

"So....." She raised her clear eyes to look at him, "What did you feel?"

"Ice powers will make you feel cold." Qian Si Nai knitted his brows, "But my period was very short and yours is this long....."

It wasn't that he wasn't worried without reason since his awakening had only taken a few minutes.

But based on her appearance, it should have lasted a while.

"That's right." She raised her hand to touch her head, "I should have awakened a fire power."

The previous host's first awakened power was the first power and her second ability was the space creation power awakened in the cold lab.

In less than two days, doctor Lin Wan Sheng had already taken out her energy core.....

Perhaps her fire power not awakening for so long had to do with the fact that she awakened her space creating powers before the end of the world.

"It should be related to the fact that you awakened your space creation powers too early." Qian Si Nai's beautiful eyes had a shimmer in them as he softly said, "Let's go back to the villa first! My car is outside."

"No." She narrowed her eyes as a trace of coldness appeared in them, "I want to go to the supermarket on the third floor."

"You want to save someone?" Qian Si Nai had a bit of doubt as he looked in her eyes.

This girl in front of him always gave him a cold feeling, he never would have thought that she would want to save someone.

"Save?" Luo Qing Chen pursed her lips before saying with a taunting tone, "Some people aren't worth saving, but they aren't qualified to die a quick death either."

The previous host's tragic life, how could the ones who harmed her turn into zombies that easily.

Let alone the fact that it wasn't certain that Bai Lian Xin wasn't a Power User, she might have just not awakened her power yet.

If she didn't save them in the supermarket, that didn't mean that others wouldn't save them.

Since she was redoing her life, then she would write the script herself this time.

"Alright." Qian Si Nai could naturally understand something from her tone and he said with a smile, "Go and meet those who can't die that easily."

"I think that you will be very surprised." Luo Qing Chen revealed a playful smile, "Because you'll also recognize a certain someone."

-

At the entrance of the large supermarket of the third floor of the Century Square.

She had come to this supermarket years ago. People had been buying New Year's goods and there was a festive song that was playing, which created a happy atmosphere.

But now.

The visibility was low and the only light source was the faint light from outside the window.

The end of the world didn't mean that sunlight disappeared.

After the red rain, although the sky had fallen under a brief darkness, there was still day and night after the rain stopped.

"Zi, zi.....Zi, zi....." The lights on the ceiling flickered, creating light from time to time which made it feel even more strange.

There wasn't anyone around and it was so quiet that even the sound of a pin dropping could be heard.

Chapter 2374: Welcome to the end of the world (Part 41)

It seemed like she was arriving at a different time than the previous host.

Because of Luo Qing Mian, she had wasted quite a bit of time.

The chaos should have already passed, but.....Century Square was filled with zombies, so could Bai Lian Xin's group escape?

He, he, she didn't believe it!

Qian Si Nai brought the flashlight to its brightest setting and used it to look around.

Luo Qing Chen casually took out a standing spotlight from her personal storage space and put it on the table.

The surrounding area lit up.

She narrowed her eyes and saw a few people curled up by a shelf not far away.

It wasn't just a few, but rather more than a dozen.

Other than the Bai Family, there were others who had been lucky enough not to be bitten by zombies.

Bai Lian Xin immediately saw her and revealed a look of disgust. She pointed at her and said, "Hey, Luo Qing Chen, what is the meaning of this? Do you want to attract the zombies?"

Qian Si Nai knitted his brows and looked in that direction.

He finally understood what Luo Qing Chen meant by he would recognize someone!

It turned out that it was their classmate Bai Lian Xin.

The people around panicked because of this suddenly light as they all started speaking.

"Right! What are you doing? Are you not afraid of the zombies coming over?"

"Damn! It can't be that you were bitten by a zombie so you want us to die with you, right!"

"Right, right, right! Look at how bad her face looks, she must have been bitten by a zombie! Why don't we take advantage of the fact that she hasn't turned yet to first——"

As soon as her voice fell, the forty year old woman made a slashing gesture at her neck.

It had to be said, she looked like a housewife based on her clothes.

But in the end of the world, killing someone had become a normal thing for her.

It turned out that laws weren't binding and people's hearts.....

"He, he." She put her hands in her pockets and narrowed her eyes to look over these people. She said with a cold laugh, "Don't you know that sound will attract zombies the most?"

Everyone heard this and immediately closed their mouths.

They had been talking a bit too loud and there were more than just a few zombies wandering the supermarket.

They could hear the sounds, but the sounds also stopped. It was a good thing that the zombies hadn't found a target yet.

One of them had already entered through the revolving door.

The forty year old woman saw the zombie moving towards Luo Qing Chen and her eyes popped out, but she covered her mouth without saying a thing.

She didn't want to tell Luo Qing Chen that there was a zombie approaching because she didn't want it affecting her.

Although there were zombies outside of the supermarket, because of the revolving door and the fact that zombies couldn't open the door, they had been in a relatively safe position.

Then there was the fact that although the supermarket was a mess, there was still plenty for them to eat.

Luo Qing Chen and Qian Si Nai naturally immediately felt the zombie moving towards them. It was moving slowly at first, but when it smelled the blood, it suddenly started rushing forward.

Qian Si Nai narrowed his cold eyes. He gave a cold snort and raised his left hand as the temperature around him started to drop.

The eyeballs popped out as the rotten zombie turned to ice, falling to the ground as pieces of ice.

A blue energy core appeared in the air. At that moment, Qian Si Nai was like a glowing saviour that was shining bright.

Chapter 2375: Welcome to the end of the world (Part 42)

“You.....You.....” Bai Lian Xin almost jumped up as her eyes started glowing.

Her fierce appearance subsided and she awkwardly lowered her head, “This mister, are you a.....Power User?”

Even if she didn’t see zombie movies, she still saw movies. The appearance of Power Users after the appearance of zombies was natural.

The world needed to be balanced. The youth’s smooth act with the drop in temperature around them, she was certain that he was a Power User.

God! Such a handsome man and he had abilities, wasn’t he the best knight for her in the end of the world?

Qian Si Nai’s eyes swept over her with an ice cold chill.

He naturally knew Bai Lian Xin. This person who was a queen at school, maybe it was because he pretended to be an otaku, so she never talked to him before.

Or perhaps she felt that he wasn’t worthy of her talking to him.

“So what?” Qian Si Nai looked over at Luo Qing Chen’s worsening condition and he knitted his brows even more.

This shouldn’t be right! Normally speaking, it would only take a few minutes to awaken one’s power, but Luo Qing Chen’s awakening was taking too long.

Actually, it wasn’t just Qian Si Nai, Luo Qing Chen could feel all her strength fading bit by bit.

If it wasn’t for her strong willpower and firm determination, she would have already fainted.

Bai Lian Xin felt very uncomfortable when she heard Qian Si Nai’s ice cold response.

Even if it was the end of the world, her status was still countless times higher than Luo Qing Chen, this ‘daughter of the nanny’.

Why should a handsome guy with abilities protect her while she was hiding in the dark shelves, being wary of danger.

No, she couldn't accept it!

In her eyes, she was countless times more beautiful than Luo Qing Chen. If she used her beauty, she could get the handsome guy in a matter of minutes.

"My tone wasn't good just now, don't blame me, sir!" Bai Lian Xin crossed her arms and showed the appearance of a weak girl, "Actually, I'm classmates with Qing Chen. Mister, if possible, can you bring us with you?"

Her voice was gentle, a delicate kind of gentleness. In this silent atmosphere, one couldn't help feeling a strange sense of fakeness.

Bai Lian Xin thought that if a beautiful girl like her begged him, he would be happy to agree.

Qian Si Nai narrowed his cold eyes and revealed a faint smile as he said in a taunting voice, "I'm also classmates with her."

Bai Lian Xin trembled when she heard this and then was frozen on the spot.

Classmate? How was this possible? If there was such a handsome guy in their class, she would have already flirted with him, alright?

Would it be Luo Qing Chen's turn?

"Ha, ha....." She said with a smile, "Are you middle school or high school classmates! Qing Chen and I are....."

"We're classmates."

Bai Lian Xin felt a heavy stone fall on her head as she couldn't react at all.

"You.....You are....."

"Classmate Bai Lian Xin doesn't remember me at all." The youth firmly stood at Luo Qing Chen's side as he slowly looked up and gave a cold laugh, "I am Qian Si Nai."

"What?" Bai Lian Xin almost screamed this out as her eyes filled with disbelief.

Wasn't Qian Si Nai an otaku with a mushroom haircut, black rimmed glasses, and a face full of acne?

Chapter 2376: Welcome to the end of the world (Part 43)

How could this youth in the trench coat who was giving off a noble aura possible by Qian Si Nai?

"Are you kidding me!" Bai Lian Xin blinked in a panic, "I usually focus on my studies and might not have noticed you.....so don't be angry!"

The final words made Luo Qing Chen feel disgusted.

It was impossible that Bai Lian Xin never noticed Qian Si Nai before. Although this person was low key, people who didn't have a noble aura at school were outcasts.

Once they became an outcast, naturally everyone remembered them.

Even someone was weak as the previous host remembered Qian Si Nai, not to mention Bai Lian Xin.

"I don't need you to notice me." He narrowed his cold eyes and released a chill that froze everyone around him.

But he was the only Power User among these people. Now that the supermarket was surrounded by zombies, they wanted to rely on his powers to get out of here.

Seeing that the other side was acting this coldly, Bai Lian Xin couldn't sit still.

It seemed like this man named Qian Si Nai didn't like the 'soft' approach, only using the 'hard' approach would make him notice her.

"Actually, it doesn't matter if you care or not." She gave two coughs before raising her head to say, "But classmate Qian, what you are doing can easily affect the safety of other people."

Qian Si Nai looked at her with cold eyes and there was a layer of frost that covered the surrounding shelves.

Bai Lian Xin took a cold breath. She bit her lip before clenching her fist and pointing at the pale faced Luo Qing Chen beside him, "Although Qing Chen and I are classmates, she's clearly been bitten by a zombie. Classmate Qian, don't you think that it's too dangerous for her to be here?"

"Xin Xin is right!" Bai Da Shan followed up, "This student, how about you have her leave! Anyway, people die all over during the end of the world, letting more people live is a good thing. Luo Qing Chen, you should think of your little brother."

The little brother that Bai Da Shan mentioned was his and mother Luo's son. The son that had been adopted by someone else as soon as he had been born!

As soon as his voice fell, Ye Qing Huan crossed her eyes and looked at Qian Si Nai, "Xin Xin is right. Although you are a Power User, you can't ignore the safety of others like this. Not to mention that we know what this person is. Her mother is just a nanny without money or position. This is the end of the world, it doesn't matter if you die."

It had to be said that Ye Qing Huan's words completely filled Luo Qing Chen's heart with flames of rage. She coldly looked at Ye Qing Huan.

When she was about to say something, Qian Si Nai said with a cold laugh, "In the end of the world, the most worthless things are human lives. Why should I care for your safety?"

Everyone heard this and was stunned. Only Bai Lian Xin roared out in an unwilling voice, "Classmate Qian, you can say that. It's not like you don't know our Bai Family's position in A City, our lives are

naturally worth more than other people's. If you're willing to bring us to the safe area, our Bai Family won't treat you poorly. We can give you whatever you want....."

Before Bai Lian Xin could finish, Qian Si Nai cut her off, "I'm not willing."

With a direct refusal, he looked at the six zombies that came in through the revolving door not far away, "Also, the zombies behind you will tell you whether the lives of your 'Bai Family' are worth anything."

Chapter 2377: Welcome to the end of the world (Part 44)

Everyone's face turned pale when they heard this. There was the scent of blood that filled the air.

There were several zombies that came through the revolving door looking for prey. They were very sensitive to light.

Although they couldn't adapt to light right away, once they did, it was easier for them to attack prey where there was light.

Bai Lian Xin felt a chill run down her back as her body couldn't stop trembling.

She couldn't die, she definitely couldn't die.....

Qian Si Nai stood not far away with his hands in his pocket, not looking nervous at all.

It seemed like he wasn't planning on taking care of these zombies at all.

"Xin Xin....." Ye Qing Huan behind her called her daughter's name in a soft voice. She waved her right hand for her to squat down.

One didn't expect that this action would attract the attention of the zombies!

The six zombies heard this and quickly charged in Bai Lian Xin's direction.

She just stood there in place with clenched fists as an evil thought filled her mind.

In an instant, she acted on her thoughts without another word.

"Ah!" She screamed out as she ran in Luo Qing Chen's direction, catching her off guard. When she touched her, she suddenly flew in Qian Si Nai's direction.

Then she firmly held him.

The zombies quickly located the source of the sound and attacked in Luo Qing Chen's direction.

"Qing Chen." Qian Si Nai called out her name, but the smart Bai Lian Xin grabbed his right hand that was about to use his power.

He pushed Bai Lian Xin and wanted to use his powers to freeze the zombies.

The zombies already surrounded Luo Qing Chen. She could feel the blood all over her body burning and her breathing was unstable.

Her body that was powerless suddenly filled with strength. The zombies that were charging at her even stopped a few centimeters away from her.

All the people let out a sigh of relief watching this person who 'might have already been bitten'.

They shrank back into the shelves and all thought of a single idiom.

It's not your business.

Bai Lian Xin who had been pushed to the ground curled her lips as she thought: Weren't you arrogant? Didn't you look down on the world? She was just a nanny's daughter, who could play with her? Even if it was the end of the world, she, Bai Lian Xin was the princess.

And she, Luo Qing Chen.....would always be food for zombies. She was only worthy of being food.

Qian Si Nai rushed to her side with frost appearing around him. There was only a few wicks of flame that appeared around her.

When he raised his hand to deal with the zombies, the zombies that had grouped up suddenly burst into flames.

The zombies were instantly turned to ashes and scattered in the wind, leaving a few blue energy cores.

Everyone's breath stopped and no one dared to say a word.

Bai Lian Xin who was on the ground had a pale face. Although Luo Qing Chen lowered her head and her face couldn't be seen, she could clearly feel the power that was coming from her.

A suffocating kind of power.....

"Humph!" There was an arrogant snort that rang out. Luo Qing Chen slowly looked up and waved her right hand, causing red flames to appear that received the energy cores floating in the air.

She gave a cold laugh as her face that had been pale turned red again and there was a strawberry blush that filled her lips.

Chapter 2378: Welcome to the end of the world (Part 45)

"Congratulations on awakening fire powers." Qian Si Nai revealed a smile as his eyes filled with admiration.

But he also felt a bit annoyed.....

When she was still in a bad state with a high fever, he could secretly hold her hand.

Now that she had awakened her fire power, he no longer had that chance.

"It's a pity that classmate Qian couldn't save the beauty." She pursed her lips and looked at Bai Lian Xin on the ground with a cold smile.

Her eyes had been filled with panic in the beginning, but those feelings quickly disappeared when she faced Luo Qing Chen.

She knew that she had awakened a power and was a Power User.

But that didn't mean that she should be afraid of her. Luo Qing Chen was a weak person that could be slaughtered at any time in her eyes.

In this world, she was only a clown that couldn't even hold her shoes. In the end of the world, even after she awakened a power, she could only protect her!

"It seems like Qing Chen's luck is quite good." Bai Lian Xin slowly stood up and patted the dust from her body. Then she said with an arrogant look, "Since you've awakened a power, you can bring us back to the villa. When we get back to the villa, we'll naturally give you money."

It's clear that she was asking for help, but Bai Lian Xin gave people an aloof feeling.

The surrounding people thought that although this person who awakened a power was Bai Lian Xin's classmate, she should have been her follower at school.

Bai Lian Xin seemed like a rich young miss, having the aura of a protagonist!

The flatterers started to please Bai Lian Xin. After all, the Power User was her follower, so it was easy for them to leave Century Square and return to safety.

"Beauty, can you take us with you? I just gave you the most secure position....."

"Actually, I've seen young miss Bai before! It said that you're the most beautiful school flower in A City in the magazines! Can you take us with you later?"

"Young miss, let's go together! If your follower can't protect you from the zombies, I will protect you."

.....

There were all kinds of flattering voices that rang out.

Qian Si Nai standing beside her knitted his brows as the temperature started to drop.

It had to be said that it was a good thing that she awakened fire powers. She could maintain the temperature in a meter space around her, otherwise she might catch a cold if she stayed with Qian Si Nai.

Other than that, seeing Bai Lian Xin and that group talking amongst themselves, she felt that they were very funny.

These people really knew how to play, were they certain that they wanted to act like this?

You don't die if you don't do this, otherwise why would you cry?

"Money?" Luo Qing Chen looked up at Bai Lian Xin with cold eyes and said with a smile, "In this restructured world, do you think that money has any worth?"

In the end of the world, they had returned to primitive society to a certain extent.

Before things like money started to circulate, most times people used goods to barter.

For example, a blanket for some rice or a hole for some beef.

So 'money' was the most worthless currency in the end of the world. It was a pity that Bai Lian Xin was still proud because she thought that she was rich, that she was a queen!

Bai Lian Xin never thought that Luo Qing Chen would ask this and she faintly had a feeling that she would leave without her.

After all, she knew what she had done just now! She thought that she could use money to make Luo Qing Chen give in since she was a poor person, so money should have had a great allure to her.

It was a pity that she didn't buy it.

Chapter 2379: Welcome to the end of the world (Part 46)

Bai Lian Xin bit her lip as she turned and said, "Luo Qing Chen, you should know that when you bring us away, you'll also be bringing your little brother away."

She suddenly raised her right hand and pointed at the little boy, "That is.....the seed that your mother gave birth to."

Actually, Bai Lian Xin wanted to say 'despicable', but she couldn't say it.

After all, if Luo Qing Chen's brain short circuited and didn't take her away, that would be a disaster.

Luo Qing Chen knitted her brows. This scene was so familiar, she felt like it had happened before.

The Bai Family had stood up high in terms of morality and said that the previous host had to bring them to the safe zone.

The previous host had encountered many zombies and desperately protected them alone.

But what did she get in the end?

Sacrificed to Lin Wan Sheng and used to study her abilities?

What a joke, it really was laughable. This time, even if she couldn't rewrite the ending, she wouldn't waste her trip to this world.

"You want me to take you away?" Her eyes were cold and her flaming red lips were even colder.

Bai Lian Xin's heart skipped a beat. Hearing Luo Qing Chen's cold voice, her hair stood on end and her back was covered in a cold sweat.

But no matter how flustered she was, she wouldn't let herself show it.

She just raised her head to look at Luo Qing Chen as she said, "Isn't that how it's supposed to be? Your mother ate our food and lived in our house, we were so kind enough to adopt her son under my mother's name so he could live a rich life! We've done all this for you, shouldn't you know how to repay kindness after your powers awakened?"

He, he.....

Seeing her say this kind of nonsense, she never thought that she would be this confident.

The people around all praised her.

“The rich young miss has such a good heart! It’s a pity that people have different lives, how good it would be if I could meet such a good young miss.”

“I’ve seen many rich people, but it’s my first time seeing such a kind young miss!”

“You’re right, classmate Bai is known for being generous in our school. During the last earthquake, she donated quite a bit of money to the affected area.....”

.....

There was another blast of words, but it was a pity that in Luo Qing Chen’s eyes, these people were idiots.

Without knowing what was happening yet, they were ‘kneeling and licking’ like this. They really were idiots.

“Pa, pa, pa.” She raised her hands and clapped for Bai Lian Xin before revealing an ice cold smile, “My mother was a nanny in your family, but after she was r*ped by your father Bai Da Shan, she gave birth to this half brother.”

The words that Luo Qing Chen said made the people who were ‘praising’ Bai Lian Xin shrink their heads back and close their mouths.

Bai Lian Xin’s face turned red as her eyes filled with rage! She thought that Luo Qing Chen wouldn’t say this. It was her mother, even if she did have an affair with her father.

The past Luo Qing Chen never mentioned this before. Even when she was kicked out of the hospital, she didn’t resist at all.

But now she said it without holding back at all!

“Shut up!” Bai Da Shan stood up and looked at Luo Qing Chen with a strict look, speaking in a powerful voice, “The world really is ending and you’re still full of nonsense.”

“You are right about something.” Luo Qing Chen replied right away with a cold smile, “Now that the world is ending, you should put away your self righteousness. After all.....”

She raised her right hand and the hot flames surrounded her fingertips!

Chapter 2380: Welcome to the end of the world (Part 47)

These people really were stupid. Didn’t they know that things like money and status weren’t worth a single thing in the end of the world?

Only Power Users could stand at the peak of this apocalypse.

Bai Da Shan and Bai Lian Xin were different. Bai Lian Xin was acting, but Bai Da Shan was natural.

Bai Da Shan could naturally feel the hostility that was coming from Luo Qing Chen, but who was Bai Da Shan? How could he let Luo Qing Chen, this junior without any status step over his head?

Let alone that he still had a trump card in his hand, which was the baby boy in Ye Qing Huan's hands.

No matter what, this boy was Luo Qing Chen's half brother. He believed that such a weak family wouldn't not save this child.

"Humph, if you don't want to take us away, that's fine." Bai Da Shan looked at her with sharp eyes as he gave a cold snort, "Then your little brother will die at the hands of the zombies!"

"My little brother?" Luo Qing Chen casually put her hands in her pocket and leaned against the wall as her eyes filled with coldness.

She revealed a cold smile as she said, "I only have one little brother and he's in a very safe place."

"You....." Bai Da Shan was speechless. He almost couldn't breathe from his anger as his face turned red.

"Ze, ze, ze." Luo Qing Chen gave a shrug before saying, "Oh, right! I still haven't refuted what young miss Bai Lian Xin said before. That baby is innocent, but please remember, you chased my mother out of the hospital two days after she gave birth and I haven't even seen this child yet. How is he worthy of.....being my little brother?"

It wasn't that she was ruthless, but each person had their own fate.

If she was to give up her revenge on the Bai Family because of this half brother, she really couldn't do it.

It was fine to call her selfish or cruel, but at this moment, she would rather let the child die with them than to let them threaten her.

The previous host's tragic fate was still on her mind, she definitely wouldn't make the same mistakes!

[Ding, affection has increased by ten. Mission completion rate is now 60%.]

?!

But she never thought that Qian Si Nai would give her affection at this time!

Could it be that the little brother male lead liked black bellied girls? This wave of affection really caught her off guard.

Luo Qing Chen unconsciously turned to look at him, but she never expected to meet his deep as ink eyes.

She could tell that there was a different emotion in those eyes.

It was appreciation, or rather admiration.....

Of course, while they were in a good mood, Bai Da Shan's face was popping with veins over what Luo Qing Chen had said.

He could naturally tell that Luo Qing Chen was shaming him! But what he didn't understand was why such a weak nanny's family had suddenly become so strong.

"You.....You evil thing! You actually dare to say such outrageous words!" After processing for a while, Bai Da Shan finally said these words.

Luo Qing Chen narrowed her eyes, "Am I close with you? This uncle, if you've studied Chinese before, you can go study in the kindergarten next door during the end of the world. That way you would understand the word 'outrageous'."

"Luo Qing Chen." Bai Lian Xin couldn't listen to her slanderous words anymore and roared out in rage, "Are you that incredible? Isn't it just some powers? You make it seem like we can't get out of here without you! He, he!"

Luo Qing Chen raised her right hand and the Exquisite Ring released a faint light that shattered the glass of the revolving doors.

She said with a smile, "I was waiting for these words."
