Chapter 2391: Welcome to the end of the world (Part 58)

Luo Qing Chen gave a shrug and said with a calm look, "We've already left the Century Square, so you can go wherever you want. There's no need to follow me."

In an instant, the people who had been peacefully standing in the back suddenly retorted.

"Please auntie, you can leave if you want. Can you not talk so much....."

"Right! If you want to die, don't drag us down with you, alright? I still haven't gone home yet!"

"Me too.....My mom is waiting for me at home! I have to go back quickly."

.....

Actually, Luo Qing Chen knew what these people were thinking. They were hoping that she as a Power User could escort them to a safe place!

To be fair, were their brains empty?

"I don't feel that there's anything wrong with what she said." Luo Qing Chen looked at Bai Da Shan who was desperately trying to make calls to the side.

He deeply knitted his brows as his deep eyes had an unreal look in them.

Luo Qing Chen naturally knew that he wanted to get away from her. She had just sent Ye Qing Huan to hell, but then he had to follow her.

Why?

Because there were zombies all around, he would only die faster if he left them.

"Thank you.....Thank you, miss Luo."

-

There was a small clinic not that far away. The glass doors weren't broken and there was just a simple notice on it.

On a trip in Hokkaido for a week, temporarily closed.

It was no wonder this store looked so different from the other stores filled with broken glass and blood, it looked very clean.

Luo Qing Chen raised her right hand and wanted to use her fire power to burn the lock, but it wasn't any use.

This lock.....seemed fire resistant.

Qian Si Nai came to her side and slowly took the lock from her hand. He took out a needle from an unknown place and inserted it into the lock. With two quick movements, the lock fell off.

“You.....this lockpicking.....wasn’t it a bit too casual!” Luo Qing Chen gave a shrug as she looked at Qian Si Nai with a look of admiration.

He pushed the door open in an indifferent manner, “It’s open.”

Why does it seem like his modest words gave people an awkward feeling!

Speaking of this, she slowly understood Qian Si Nai as a person based on what happened just now.

He seemed cold on the surface, but he was strangely black bellied.

When Luo Qing Chen did things, he didn’t feel that it was too much, rather he looked at her with a gaze of deep meaning and approved of her actions.

Un! There was definitely a little devil in his heart!

Entering the room, people’s legs started to relax. The average temperature difference was around twenty to thirty degrees.

The cold in the end of the world was very strange. It didn’t rain, it didn’t snow, it didn’t hail, there was just pure cold.

This kind of cold couldn’t be evaporated, so the temperature would keep dropping.

“Gulu, gulu.” A stomach started to gurgle.

Everyone looked in the direction of the sound, it was an eight year old girl.

The mother had a black bag in her hand that had food that she had scavenged from the supermarket.

“Yue Yue, are you hungry?” The woman took a small biscuit from the bag, “Eat a bit first. When we find your little brother, we’ll eat together, alright?”

The girl swallowed a mouthful of saliva before shaking her head, “No! Yue Yue isn’t hungry! Let’s eat together when we find little brother!”

The woman hesitated, but she still put the biscuit away.

Their family cared more about sons than daughters. She had so little food, she didn’t know how long it would last.

In any case, she should find her son first.

Chapter 2392: Welcome to the end of the world (Part 59)

The little girl didn’t say anything. She just silently sat in the corner holding her stomach and burying her head in her arms.

Luo Qing Chen knitted her brows. She wanted to say something, but the sound of a bag being ripped open attracted her attention.

This sound came from a man who had torn open some bread.

He was eating it in large mouthfuls along with the mineral water he had gotten from the supermarket.

It was just simply dry food and normally people who ate meat and fish looked down on this kind of dry food.

But at this moment, everyone couldn't help giving a gulp.

You might not feel hungry when you are stressed, but once you relax, the desire to eat comes back.

This was why some people who survived earthquakes for several hours wouldn't be able to hold on to the hospital.

Bai Lian Xin bit her lip. She touched her empty stomach and her heart was filled with regret.

Why didn't she get anything at the supermarket just now? If she gave some to others at this time, would she be their goddess?

But then everyone took out some food from their bags and started to eat.

Only Bai Lian Xin didn't have any! She didn't even have a bottle of water!

"Classmate Qian." Bai Lian Xin thought about it before slowly saying, "Can you give me some food? When we get to a safe place, I'll return it to you....."

Her voice was very soft and she acted very weak, wanting to win Qian Si Nai's sympathy.

Actually, food was secondary. What was most important was getting Qian Si Nai to remember her!

Her actions in the supermarket should have left a bad impression on this young man, but she felt that Luo Qing Chen's actions were more disgusting, alright?

She was a murderer that was extremely cruel.

So she thought that Qian Si Nai didn't have a good impression of Luo Qing Chen.

They were just the only ones with power, so they had to rely on each other.

"Food?" Qian Si Nai narrowed his eyes before saying with a smile, "You asked me if I could take you alone in the supermarket, didn't I already give you an answer?"

"Si!" Bai Lian Xin's face turned pale again.

She never would have thought that Qian Si Nai would say what she had secretly told him in front of everyone like this.

Without knowing why, she felt a strange sense of fear as cold sweat fell drop by drop from her forehead.

But she pretended to be calm. She definitely couldn't let Luo Qing Chen see her fear!

"Yes! I forgot!" Bai Lian Xin pretended to be shy as she said, "But the question is different from the one right now, so the answer shouldn't be the same! I remember classmate Qian that your future wife didn't like you being alone with others."

Bai Lian Xin didn't forget to look at Luo Qing Chen when she said this and sure enough, there was a slight jolt from her as she drank water.

Although she couldn't see her expression, she could tell that Luo Qing Chen must be very surprised!

Ha, ha! She couldn't help revealing a happy smile! This feeling of angering someone really was satisfying!

It was impossible to say that Luo Qing Chen didn't care about Bai Lian Xin's words. After all, she only had 70% affection and while it seemed to go smoothly, using her own power and charm to take the male lead's heart and reaching the peak of life.

But Qian Si Nai suddenly had a wife. Could it be that he, he, he.....was married?

Chapter 2393: Welcome to the end of the world (Part 60)

"Si!" The crowd took a cold breath as they watched this excitement and several dozen pairs of eyes fell onto Qian Si Nai.

There was shock, there was unhappiness, and there was.....an evil look!

The evil look naturally came from Bai Lian Xin. Luo Qing Chen could see from the corner of her eyes that she had a hard to hide smile as she looked at her.

Bai Lian Xin wasn't a fool, she naturally knew that she had to get rid of Luo Qing Chen.

But they still weren't in a safe place yet, so even if she knew that there was a time bomb by her side, she could only let that bomb stay.

But Qian Si Nai was a wild card in this game.

Bai Lian Xin thought that if she couldn't catch Qian Si Nai's eyes, then it wasn't a bad choice to turn them against each other.

At the supermarket, she could clearly tell that Luo Qing Chen was looking at them when she went to talk to Qian Si Nai.

When she heard Qian Si Nai's answer, not only did she not feel depressed, she felt a bit of strange happiness.

If he had someone he liked, then Luo Qing Chen was just someone he was playing with!

That was all!

"Yes!" Qian Si Nai looked up with a sparkle in those deep eyes, "Is there a problem?"

"No.....Nothing." Bai Lian Xin pretended to be nervous as she shook her head, but she was filled with happiness. She lowered her head and pretended to be guilty as she said, "Will this step on your privacy if I say this? If it does, I'll apologize first, alright?"

It was this pitiful appearance that made everyone's impression of Bai Lian Xin change a bit, but she never knew that her 'act' would never enter Qian Si Nai's eyes.

"I'm not unhappy, but....." Qian Si Nai's deep eyes flickered when he heard this before he suddenly looked at Luo Qing Chen, "My future wife might be unhappy."

Luo Qing Chen was currently talking to the system since she still hadn't come back to her senses from the possibility of a wife.

When everyone's eyes fell onto her, she felt that there was a glowing halo that appeared around her again.

The heroine halo!

"What are you looking at me for?" She turned her eyes to Qian Si Nai who was closest to her and blinked again and again.

Qian Si Nai's eyes were very gentle and she suddenly seemed to know what he meant by that.

"So.....are you unhappy?"

This seemed like a very normal question based on the words, but when this sentence was used in this context, this simple question became a very loaded question.

"Wa!"

There were cheers that rang out around her, but she felt that she was being tricked by Qian Si Nai at this moment.

Was he just asking a question or was he confessing?

Of course, other than Luo Qing Chen, the most shocked person was Bai Lian Xin.

She looked at Qian Si Nai with eyes of disbelief and her lips trembled as she stuttered, "You.....What are you saying?"

It had to be said, Qian Si Nai really was a special person. In a normal situation, it would be her who would have to personally berate the supporting female lead.

But Qian Si Nai gave her a feeling of 'you don't need to say anything, let me take care of the supporting female lead'!

Moreover, he could even openly trap her like this! This was simply killing two birds with one stone!

Chapter 2394: Welcome to the end of the world (Part 61)

If it wasn't for the end of the world, Luo Qing Chen would have loudly clapped her hands before saying 666 to Qian Si Nai.

Qian Si Nai saw that she wasn't saying anything, so he slightly curled his lips. There was a dangerous cold glow in his eyes as he looked at Bai Lian Xin, "It seems like my future wife isn't happy."

The temperature inside of the room suddenly dropped.

Bai Lian Xin gave a shiver as she lowered her head in a panic.

She tightly gripped her fists as her heart was filled with unwillingness.

She never would have thought that the 'future wife' Qian Si Nai spoke of was Luo Qing Chen!

If it was like this, wasn't all her previous efforts for nothing?

This sudden drop in temperature even made Luo Qing Chen who had awakened a fire power feel a bit uncomfortable.

She gave a chuckle and said, "Classmate Qian, are you sure that you're asking me?"

"No." He decisively shook his head and looked at her with his eyes that were as clear as water, "I'm confessing to you now?"

Qian Si Nai thought that she would be scared and then hesitate before speaking or making a decision.

He never thought that she would narrow her eyes and gave a casual shrug before saying, "Alright! I accept your confession."

[Ding, affection has increased by ten. Mission completion rate is now 80%.]

With a 'guang dang' sound, the sound of a water bottle falling to the ground was everyone stunned by this.

This kind of direct confession and acceptance, it really was their first time seeing it.

Other than Bai Lian Xin who didn't dare look up and Bai Da Shan who was still trying to make calls, everyone else couldn't help clapping for them.

Actually, although Luo Qing Chen seemed very calm on the surface, when she confirmed that Qian Si Nai's future wife was referring to her, her heart was like a raging river.

It was a lie to say that she wasn't nervous, but she had to remain calm at this moment!

After a few seconds, Qian Si Nai seemed to have reacted with the joy of his successful confession.

He suddenly realized that the girl in front of him was similar to him. No matter what kind of shocking thing happened, she would keep her emotion in her heart and would act calm no matter how desperate it was.

"Thank you for accepting!" He raised his hand and patted her head, "Take care of me for the rest of the end of the world."

"No problem." Luo Qing Chen said with a faint smile, "I'll take care of you!"

"There's no need." Qian Si Nai's lips curled into a faint smile, "The word protecting should be on me."

.....

The two weren't talking that loudly, but everyone in this small space could hear them.

But whether it was Luo Qing Chen or Qian Si Nai, they didn't care about anyone else watching.

After all, in the end of the world, the person who could show happiness for their love could die the next second.

This world suddenly seemed much more real to her.

No need to care about others and there was no need to care about restraining morals. Whether she saved people or not, it was enough that she was happy.

“Wa, wu, wu, wu, wu, wu.” While this store was filled with a rosy atmosphere, the crying of a little baby suddenly rang out.

Chapter 2395: Welcome to the end of the world (Part 62)

Holding him was an eighteen year old girl named Mu Jin. When they left the supermarket, she had taken the initiative to ask Luo Qing Chen to take care of this child.

The reason was, she had a newly born younger brother who had been bitten to death by a zombie. Her mother had died under the sharp fangs of that zombie trying to save her little brother.

She no longer had any relatives in this world and she didn't know where to go, but she understood that if she asked Luo Qing Chen to take care of her little brother, if she would take her away or not.

When there was a place to stay, she would leave.

Luo Qing Chen agreed to her request because she felt that this girl was very sincere.

In the end of the world, people all wanted to live. She was a Power User, so it would be normal that people would want to stay by her side to go to the safe zone.

But at least she wouldn't take them away for nothing.

This Mu Jin girl using this method of exchange made her feel very comfortable.

So she was willing to take her away, even taking her to the safe zone.

“Little brother, be good.....Don't cry, don't cry.....” Mu Jin patted the back of the little baby as she said in an anxious voice, “Big sister Qing Chen, is he hungry? Why is he crying this much.....”

Luo Qing Chen knitted her brows and revealed a puzzled look.

She really didn't understand the profound question of why babies cried.....

Qian Si Nai slowly stood up and came to the baby to have a look before saying, “First give him something to eat, but I don't think that it's because he's hungry.”

“Why?” Luo Qing Chen blinked in confusion as she asked this question.

Qian Si Nai looked at the sky outside and couldn't help knitting his brows, “Grandfather said that in the end of the world, babies were the most sensitive because they were connected to the two worlds. I had a look and it was a precursor to him awakening his powers.”

As soon as his voice fell, Bai Da Shan who had been looking down suddenly looked up with a sharp glow in his eyes.

If his son was a Power User, wouldn't he be able to sit back and relax in the end of the world?

This was a good piece of news for him, but.....he had to think of a way to take back his son.

However, Bai Lian Xin who had her head down the entire time had an unwilling look!

Why! They both had Bai Da Shans' blood, so why was she not a Power User and the baby boy was?

Why was it that in the end of the world, all her halos had disappeared! The aloof her, the one who had been called a goddess by her classmates had actually ended up like this.

It was all Luo Qing Chen.....If it wasn't for Luo Qing Chen, she would definitely get Qian Si Nai's heart.

Even in the end of the world, she would have been a princess that everyone envied!

Damn! That Luo Qing Chen really deserved to die!

"So he's about to awaken his powers?"

"It shouldn't be that quick." Qian Si Nai slowly came to the door and looked at the empty street with knitted brows. He said in a soft voice, "His crying might be because danger is coming."

"Danger is coming?" Luo Qing Chen was surprised before asking, "What does that mean?"

Not only Luo Qing Chen, when Qian Si Nai said this, everyone in the building became nervous.

When there were so many zombies in the supermarket, this handsome and noble young man always had a calm look.

But now that there was clearly nothing around them, this young man was knitting his brows.

Qian Si Nai narrowed his eyes and said, "Don't you feel that it's a bit too quiet around here?"

Chapter 2396: Welcome to the end of the world (Part 63)

Qian Si Nai's words made everyone take a cold breath, but then they immediately reacted to his words.

It really.....was a bit too quiet.

If it was a coincidence that they didn't bump into any zombies on the way, that didn't mean that there wouldn't be a single one that passed after all this time.

Other than the wind, there were no sounds outside.

"You mean....." Luo Qing Chen stood up and put her hands in her pocket, "This is a special area?"

"Un!" Qian Si Nai looked up slightly with his beautiful eyes, "I think so."

"So this is the safe zone?" The auntie from earlier asked in a slightly excited voice, "Zombies can't get in here, right?"

Luo Qing Chen didn't even want to answer this stupid question!

Could it be that the blood they saw was just chicken blood? Can they even use their brains!

"If you have to explain it, then this place is more dangerous than any other place." Luo Qing Chen narrowed her cold eyes, "There used to be zombies here, but now that there isn't a single zombie, it means that there's something more terrifying than the zombies in this place."

"Correct!" Qian Si Nai didn't forget to look at Luo Qing Chen with a look of admiration, "As expected of my future wife."

It had to be said that classmate Qian's ability to show affection surpassed that of normal people.

Even in a situation that he considered dangerous, he could still show his love so naturally.

"Ke, ke." Luo Qing Chen cleared her throat and touched her right ear out of habit, "Did your grandfather tell you about any other beings other than zombies and Power Users in the end of the world?"

"There are many other beings. Mutated plants, mutated animals....." Qian Si Nai paused before saying, "But logically speaking, even if they appeared in the early days of the end of the world, they wouldn't be much stronger than the zombies."

He narrowed his eyes as a complicated look appeared in them.

Luo Qing Chen could see from his eyes that he should have had some clue.

"Your guess is....."

"Intermediate grade zombies." Qian Si Nai narrowed his eyes and said in a doubtful voice, "But this is the early stage of the end of the world with few Power Users, so why would there be an intermediate grade zombie?"

"The intermediate grade zombie you're referring to is a zombie above grade three and below grade seven, right?"

"Right."

"They are here?" Luo Qing Chen was surprised. Although she was a Power User that had her own system, she wasn't sure if she could beat those intermediate grade zombies.

After all, she was only a C Grade Power User.

Based on the grading of the end of the world, she couldn't beat those intermediate grade zombies.

"Relax! I will protect you."

As soon as Qian Si Nai's voice fell, there was a strong gust of wind that appeared outside.

The wind was filled with a red glow that made the entire area fill with a dangerous aura.

Wasn't this timing just too good? She and Qian Si Nai had just finished talking and something happened outside.

If it wasn't for her knowing that zombies couldn't understand humans, she would have even thought that the 'enemy' hadn't attacked because they had heard what they were talking about.

"Ah, ah, ah!" The crowd who had been waiting all moved back.

The glass door shattered to pieces and the wind suddenly came in.

Luo Qing Chen raised her right hand to protect Mu Jin and the baby with the Exquisite Ring. When she turned back, Qian Si Nai was already rushing out the door!

Chapter 2397: Welcome to the end of the world (Part 64)

The wind blue as a strong killing intent covered them.

Luo Qing Chen narrowed her eyes to look at Qian Si Nai standing in the wind. He had knitted his brows as he was covered in a layer of blue light that had fragments of light falling off from him.

In this beautiful scene, they had to face endless danger.

"Be careful." Luo Qing Chen moved in his direction step by step, trying to hear every sound around her.

Although the 'unidentified creature' hadn't appeared yet, she could sense the powerful aura around her.

This aura was one that could suppress the world, giving people a suffocated feeling.

Qian Si Nai closed his eyes and perked his ears. The air around him was dry, so he couldn't create ice from the moisture in the air.

But as a dual power user of ice and water, if his control of his power was perfect, he could create water before turning it to ice.

It had to be said, when Luo Qing Chen was a bit worried about Qian Si Nai, he had already used his water abilities to quickly form ice.

"Kacha, kacha." There was the crisp sound of water being turned to ice.

The surrounding temperature warmed a bit and it wasn't as cold as before.

When Luo Qing Chen's heart fell, there was a lightning quick figure that charged past Qian Si Nai.

All of the ice formed attacked this figure, but not a single one hit it.

Luo Qing Chen and Qian Si Nai looked at each other with knitted brows.

The other side was very powerful and it definitely wasn't just one of them. Although Qian Si Nai didn't use his full power, he still used around 80% of his power.

But he couldn't even touch the hem of this 'enemy's' clothes.

The ice shattered and there was a beam of light that came from the dark red sky, falling right onto the 'enemy', revealing them.

Qian Si Nai trembled when he saw this. After being in a state of disbelief for a few seconds, he muttered, "How is this possible....."

"What are you saying?"

"Don't come over here!"

He roared out as his dark eyes suddenly had a bloodshot look in them.

Even Luo Qing Chen was a bit scared at this moment.

This was her first time seeing Qian Si Nai like this. Whether it was that appearance in school, or that calm and mysterious appearance he had when he first met her, or when he stood beside her in a black bellied manner.....

There wasn't a single moment where she panicked.

There was a strange fear in her heart, feeling that they would be separated by life and death before they could love each other.

When she had this thought, she quickly rushed in Qian Si Nai's direction.

Although she didn't know what Qian Si Nai saw, they were at least the two most outstanding Power Users in the end of the world, so there shouldn't be an enemy they couldn't deal with.

But before Luo Qing Chen could approach, there was a thick ice wall that appeared in front of her.

"Be good, don't come over." Qian Si Nai had a decisive look in his deep eyes as he entered a state of high vigilance.

If it was an 'enemy' that he could deal with, he would have silently stood by her side like in the supermarket. He would have watched her dazzling appearance with a bit of black belly like he was her knight.

But when he felt this dangerous aura, he definitely couldn't let her approach, not even a single step!

What was his, Qian Si Nai's personality!

Chapter 2398: Welcome to the end of the world (Part 65)

When the ice wall appeared in front of her, she could see his deep eyes filled with determination.

He really didn't want her participating in this battle, which also showed that the enemy was strong.

If he was strong enough to kill them, why didn't he show himself!

When these doubts filled her mind, there were several sharp beams of golden light that flew at Qian Si Nai.

The other side was very quick. Normal people wouldn't be able to see them, but she could.

"Zombies?"

Their entire body was covered in armour and there were small pieces of golden red flesh that fell from their faces.

"Qian Si Nai, I saw it." Luo Qing Chen bit her lip and yelled at him through the ice wall, "They're zombies!"

"I know." Qian Si Nai said while fighting, "But they aren't the low grade zombies from the early period."

Luo Qing Chen knitted her brows and wanted to use her fire powers to burn the ice wall in front of her.

But the ice was ice and even when fire hit it, it wouldn't melt at once.

"Don't come over, I will be distracted." Drops of sweat fell from Qian Si Nai's forehead.

He was using all his strength to resist, but he couldn't suppress this 'enemy'.

In the end, there was too much of a difference in grade.....

When a golden beam of light penetrated his shoulder, blood splashed all over and there was a sweet taste in his mouth as he spat out blood.

"Qian Si Nai!" Luo Qing Chen called out in surprise. She ignored everything and took out the Phoenix Dance Sword from her storage space, slashing the ice wall in front of her.

Jumping out, she blocked the attacks of the 'armoured zombies'.

"Are you alright?" It was because she was facing the enemies that she could clearly see the appearance of these 'armoured zombies'.

The flesh on their bodies fell like they had been melted and there was nothing else other than sharp teeth on their faces.....

"Un....." Qian Si Nai said with a grunt, "Just a small injury."

"Whether it's big or small....." Luo Qing Chen paused before throwing out the medicine box from her storage space to the ground, "First take care of your injury. Although you are already a Power User, their blood is a weapon that will weaken your powers."

"Stop causing trouble!" Qian Si Nai held his shoulder as he looked at her facing the zombies alone with knitted brows.

She raised her right hand to stop his lips and said in a playful voice, "Don't worry, I'll protect you!"

"....."

Qian Si Nai had said the same words to her when the battle began, but now it was her saying these words to Qian Si Nai.

This feeling was very good. She liked the feeling of joining forces to fight stronger enemies.

After all, in her mind, when no one was weak, that was a strong couple!

As soon as her voice fell, she turned with narrowed eyes. The hilt of the Phoenix Dance Sword burned as a red glow appeared on the blade.

There were nine 'armoured zombies' around her. Luo Qing Chen didn't know their grade, but she knew that these zombies were much stronger than low grade zombies.

Whether it was in terms of speed, strength, or intelligence, these zombies had several times the normal value.

She slowly raised the Phoenix Dance Sword as a cold glow flickered in those beautiful eyes, "For humans, don't use small moves if you can face them head on because the result will either be your death or my death."

"I'll add one last thing." She revealed a confident smile, "I won't die."

Chapter 2399: Welcome to the end of the world (Part 66)

"Hong long." As soon as her voice fell, there was a dazzling bolt of red lightning that flashed in the sky.

The wind started picking up as the ears of the 'armoured zombies' lit up with a red light.

As if.....someone was controlling them, giving them orders.

Then eight of the zombies suddenly disappeared, only leaving the 'armoured zombie' standing in the middle.

They moved so fast that they disappeared in an instant.

"It seems like your 'brothers' don't want you anymore." Luo Qing Chen gave a shrug before saying with a smile, "Going from one against nine to one on one, I feel a bit embarrassed."

Actually, this provocation was just for herself. After all, in the end of the world, a sudden powerful enemy would make one feel strangely excited.

First, challenging the impossible was her principle and second.....high grade zombies would give her higher grade energy cores.

Of course, that was based on the condition that she could kill the enemy.

Luo Qing Chen's confident heart suddenly became nervous.

Although she didn't show it, she could feel the cold sweat that appeared on her back.

It was a low and mechanical voice that rang in her ear that responded to her provocation.

"I alone am enough to take care of you."

God! This zombie could understand what she was saying and could respond to it.

How was this possible! Zombies were new creatures, even if they could learn languages, how could it be this fast! How was this possible.....

Before Luo Qing Chen could react, the armoured zombie was already charging at her.

It had a strange forehead that had chunks of rotten flesh falling off. There was a golden glow on its neck and its bloody teeth were very sharp.

It wasn't the same as the normal teeth of zombies, it was twice as long as the teeth of humans which looked terrifying.

Luo Qing Chen saw it attacking and moved slightly to the right to dodge its attack.

It had to be said, this ugly zombie really was fast. If she had hesitated for a second, her neck might have been bitten by its teeth.

"He, he, he, he!" There was a cold laugh that rang out. Luo Qing Chen saw its bloody mouth moving to say, "Not bad! You have some skills! But that doesn't change the ending, you will all die.....you will all die....."

As soon as its voice fell, there was another red bolt of lightning in the sky before the deafening sound of thunder roared out.

Luo Qing Chen was dressed in black with her long hair fluttering in the wind. She tightly held the Phoenix Dance Sword, not daring to let her focus scatter even by a bit.

The lightning fell down right in her direction, creating a deep gap in the ground that was three meters wide.

Luo Qing Chen looked up a bit and felt strangely nervous.

Qian Si Nai who had finished bandaging his wound stood by her side and looked over to say, "How about we make a bet?"

"What bet?"

"If we win, you'll promise me one thing. If we lose, I'll promise you one thing."

"No." Luo Qing Chen decisively shook her head, rejecting this seemingly 'fair', but was actually an unfair bet.

If she lost, so what if she had ten thousand promises? Could she cut in line to report to the King of Hell!?

"Then what if it was the other way?" Qian Si Nai said with a chuckle, "If we lose, you'll promise one one thing and if we win, it'll be the opposite."

Chapter 2400: Welcome to the end of the world (Part 67)

Why did Qian Si Nai seemed obsessed with this 'bet'? Why did he have to make a bet to fight the monsters with peace of mind?

"Ok!" Luo Qing Chen gave a shrug, "Deal!"

She might lose against nine 'armoured zombies', but how could she lose to just one?

"If my guesses are correct." Qian Si Nai calculated with his right hand, "These should be high grade zombies."

As for why high grade zombies would appear in the beginning of the end of the world, this was something he was very confused by.

But they shouldn't be other creatures, they should be zombies.

If you had to classify this zombie, it was impossible that they were freely advanced zombies, but rather cultivated intelligent zombies.

But that was impossible.....These zombies shouldn't exist in just a few days.

"High.....grade?" Luo Qing Chen knitted her brows and said, "So what grade are they? Seven?"

"No." Qian Si Nai shook his head, "They should be.....ninth grade zombies!"

Although he was very unwilling to admit it, the glow of the zombie's attack should be the colour of its energy core.

A gold glow meant a gold energy core, which should be a ninth grade zombie.

"Ke, ke." Luo Qing Chen felt like she almost couldn't breathe. Was it possible for a C Rank Power User like her to fight a ninth grade zombie?

"Does the bet just now still count?"

"Of course!" Although Qian Si Nai was filled with nervousness, he still said with a faint smile, "A gentleman keeps his words."

"Oh!" Luo Qing Chen's look of 'inquiry' turned into a 'calm' look. She replied without any emotions, "What else is there to say, let's fight then!"

As soon as her voice fell, she brandished the Phoenix Dance Sword and charged at the zombie.

Qian Si Nai followed closely, using the ice walls to attack while also using them to protect Luo Qing Chen.

After around thirty rounds, Luo Qing Chen and Qian Si Nai were covered in wounds.

The ninth grade zombie that Qian Si Nai talked about really was powerful. It could move intelligently and it could stop the two of them with its strength, but the power of its body.....

This 'armoured zombie's' body wasn't weak at all. Each of its attacks were quick and accurate.

Luo Qing Chen's face was a bit pale as she pursed her lips. She supported herself with the Phoenix Dance Sword in her right hand and panted as she looked at Qian Si Nai to say, "This won't work, it'll slowly wear us down!"

If there was a battle power to never feel tired, then they would be invulnerable and invincible.

"You leave first, I'll follow up." Qian Si Nai said with slightly knitted brows, "Go find my grandfather and tell him about this situation....."

“I don’t want to.” Luo Qing Chen was very decisive as she seriously looked at him to say, “I won’t leave you here.”

[Ding, affection has increased by ten. Mission completion rate is now 90%.]

A long time later, when Qian Si Nai recalled these words, his chest would feel strangely warm.

In this situation, the girl he cared about said such brave words, how touching that was.

“Ha, ha, ha, ha.” There was another terrifying mechanical laugh before golden beams of light flew out at them.

The beams of light were very large and dense, so they couldn’t take a hit from them even in top shape, let alone when they were almost worn down by the enemy.

“Be careful.” Qian Si Nai turned and hugged her without hesitation, using his body to block the beams of light from the zombie.
