#### Chapter 491: Power user military commander's number one agent (Part 23)

Un, a good love triangle between brothers.

Luo Qing Chen gave a long 'oh' sound before her lips curled and she opened the door with her right hand.

Du Jiu Sheng mimicked her action and grabbed her wrist, pulling her back into the car. His eyes were filled with love as he said, "But I never liked her."

Luo Qing Chen was stunned. She saw the same black mark on his slightly red ears.

So Du Jiu Sheng was the male lead of this world.

Based on this stage, if the system was here, the affection should be quite high right now!

Thinking of this, she couldn't help feeling happy. She turned and said, "Then what do you like about me?"

This question she asked seemed very relaxed, but she was quite nervous.

This was the question that every girl wanted to know, why the man who loved her loved her.

Du Jiu Sheng revealed a slightly surprised look. It was like he had never thought of this question and didn't know how to respond.

Perhaps it was the first moment of life and death.

Perhaps it was when he wanted to bring her home.

Or perhaps it was sharing life and death on the Magpie Bridge during the Qixi Festival.

In short, it was like there was a giant stone sinking in his heart that surpassed all his rationality.

Luo Qing Chen saw that he hadn't answered and stayed there holding her down, she couldn't help saying, "Sir head can slowly think about it, I'm not in a rush to hear the answer."

After saying this, she pointed at the watch on his right wrist and said, "If we don't leave now, we'll be late."

"Un....." He gave a nod and opened the door for her.

—

In a building filled with soldiers wearing camouflage and a few scientists wearing large white lab coats.

Du Jiu Sheng sat at the head seat and Luo Qing Chen sat at his side.

"Head, our guesses were wrong!" One of the officers Xu Zhan handed him some information, "We thought that the virus testing site was for studying viruses, but it wasn't."

Du Jiu Sheng looked over it briefly before knitting his brows. He slightly pursed his lips and said, "Professor Shen's meaning is that mister X is conducting human experiments."

"Yes.....Yes." Professor Shen's voice was trembling a bit. He knew that he was in a very dangerous situation right now, if it wasn't for the fact that he ran fast, he would have been killed like the other researchers!

"According to what you said, if mister X succeeds, he will kill you all to silence you?" Du Jiu Sheng's words were filled with might, with each word being filled with power!

"Yes....." Professor Shen took a deep breath and said, "We came to the lab like normal the day after we succeeded and continued our experiments. But because I had a stomach ache, I went to use the washroom. I never thought that there would be an explosion in our lab. I was very afraid, so I left the base as quickly as possible."

"Human experiments....." Luo Qing Chen slightly knit her brows as she looked at professor Shen, "What do they become? Puppets?"

"Yes!" Professor Shen continued, "Once the virus injection is combined with the brain chip, those people will no longer have their own consciousness. Mister X can use computers to control them and unless their hearts stop, they will do everything they can to complete their missions."

Luo Qing Chen trembled after hearing this. Mister X wasn't just willing to train agents.

Agents were human at all, they had their own ideas and could betray him.

Those people injected with the virus and the chip would never betray him!

**Chapter 492: Power user military commander's number one agent (Part 24)**

In the end, they decided to act in seven days since it would be the day of Zhi Qing's death anniversary.

Mister X would definitely go visit her, so taking the Destiny Life Map when he wasn't at the base gave them the greatest chance of success.

That night, they took a plane back to C Country, as the various teams finished their final preparations.

When she entered the ancient castle, the two sisters greeted her with a smile as they prepared clothes for her.

Luo Qing Chen looked flattered and Du Jiu Sheng's mood wasn't bad, so he personally made two dishes.

"You really think it's the best time to act in seven days?" Luo Qing Chen ate the dishes on the table as she asked this, "He is such a smart person, why wouldn't he know this?"

"Of course he knows." Du Jiu Sheng put a piece of braised pork rib in her bowl as he said, "But if we don't go, he'll look for us. Instead of waiting, it is better to attack."

The so-called best defense is a good offense.

After dinner, she took a shower and stood on the balcony. There was a dark look in her eyes.

She was suddenly a bit confused, worried, and afraid.....

What was mister X's final goal? Was it to revive Zhi Qing.....or was it to create puppet tools for murder.....

Everything was confusing and she couldn't figure anything out.

When she was seriously considering this, a towel fell onto her head.

Du Jiu Sheng rubbed her head as he said in a soft voice, "What are you thinking?"

"Ah?" She turned around and revealed a smile as she saw him put a glass of milk to her lips, "Are you sure it isn't drugged this time?"

Du Jiu Sheng didn't say anything and just softly took her hand. He walked into the room and forced her to sit down in front of the vanity mirror by pressing down on her shoulder.

He took a hair dryer from beside the table and said, "Relax, since I know you can smell it, I certainly wouldn't use that method anymore!"

"Hu, hu, hu, hu."

When she wanted to say something, the sound of the hair dryer rang out.

Du Jiu Sheng softly helped her dry her hair. With the warm wind blowing by her ear and drinking the milk, her eyelids began to droop.

He saw that she was getting sleepy, so he carefully carried her onto her bed after helping her dry her hair.

He turned off the lights and closed the door.

The whole villa was silent for half the night until there was a high power warning from outside the door. Luo Zi Jun had brought a bunch of newly developed puppets to Du Jiu Sheng's villa.

Luo Qing Chen immediately woke up and planned to head to the study.

But she never would have thought that all her doors and windows were 'locked'.

No, perhaps it couldn't be considered locked.

There was a special power that was protecting. This was....special abilities.

She couldn't go out and help at all. She quickly opened the curtains as fast as possible and saw that there was a black clothed youth standing in the distance.

This was her first time seeing Du Jiu Sheng wearing black. In the dark night, he walked towards the puppets that Luo Zi Jun had brought.

Luo Zi Jun seemed to swagger into the villa, not showing any signs of fear.

Compared to last time when she snuck in to steal the Destiny Life Map, it was completely different.

It was because she had witnessed the power of these people back at base! These puppets wearing bulletproof vests seemed like they were invincible.

That was because not the slightest bit of pain could affect them.

They moved very quickly, like their seal burst every time they saw an enemy and their battle index exploded!

At that time, she had volunteered to bring them into battle for mister X.

She never thought that mister X would agree so quickly.

### **Quick Transmigration Female Lead: Male God, Never Stopping**

#### **Chapter 493: Power user military commander's number one agent (Part 25)**

"Du Jiu Sheng?" Luo Zi Jun raised a brow, as she looked at this black clothed youth who didn't even have a gun with disdain, "He seems quite weak. There might not even be a need for this puppet army, I could probably take care of you alone."

Mister X had actually put in this much effort to fight this normal person, even developing a puppet army controlled by virus chips. Against this kind of person, wasn't this too much?

In her eyes, even a Zuo Yu Chen could easily defeat the person in front of her.

"No wonder Xiao Qing is the shadow organization's number one agent." Du Jiu Sheng spread his hand, slightly moving the blue ring that was on his right hand. There was a look of killing intent in his eyes as he said with a faint smile, "The others really can't even compare to a tenth of her."

"He, he, he." Luo Zi Jun gave a very arrogant cold laugh before looking at Du Jiu Sheng and saying through gritted teeth, "You haven't even seen my strength to make this judgement, don't die without even knowing what happened."

"I'm referring to....." He paused and said, "Beauty."

"You....." Luo Zi Jun knew that the person in front of her was shaming her.

Based on what? Whether it was the good or bad side, everyone stood on Luo Qing Chen's side! Why did everyone like her whenever they saw her!

She was the one with skills, she was the one that was qualified to be the strongest agent!

"Do you know why this important job fell onto a nameless junior like you?" Du Jiu Sheng narrowed his eyes and said in a cold voice, "It's because he's using you to test my abilities."

Murong Xi must want to know how long his puppet army could hold him back to let him have confidence in finding the Destiny Life Map.

"No!" Luo Zi Jun gritted her teeth and she looked at Du Jiu Sheng with bloodshot eyes, "I want you to know who is the strongest agent today!"

As soon as her voice fell, she pressed the red button on the watch on her right hand.

The puppets injected with viruses and chips pulled out their guns and every person's eyes were filled with killing intent.

"All of you shoot him down for me!" Her voice was very heavy, as she spat out each word filled with rage through gritted teeth.

All the puppets raised their guns and shot without any mercy.

"No!" Luo Qing Chen's heart skipped a beat and even her breathing stopped.

She knew that Du Jiu Sheng wasn't a simple man and she knew that he had powers that normal people didn't have.

But he was using his body to face several dozen guns, she couldn't help feeling worried for him.

The man underneath seemed like he could hear her cries, but Luo Zi Jun couldn't.

He used a barrier to cut her off, ensuring that she wouldn't be in any danger.

"Peng, peng, peng." When the puppets pulled their triggers, Du Jiu Sheng's lips curled into a faint smile. He raised his right hand and the bullets that were about to leave the guns were stopped by a layer of ice.

The surrounding temperature dropped and the night sky was filled with a chill.

Luo Zi Jun saw this and she was frozen in place. She looked at the scene that didn't seem to be from this world in disbelief.

She shook her head as she trembled and said, "Im.....Impossible....."

"If I wasn't afraid of disturbing Xiao Qing's sleep, I wouldn't use this method." There was a sparkle in his deep eyes as he looked at Luo Zi Jun and said, "I think that she doesn't want me to keep you alive."

After saying this, he took the pistol from his waist with his right hand and accurately aimed at Luo Zi Jun.

### **[Quick Transmigration Female Lead: Male God, Never Stopping](#)**

#### **Chapter 494: Power user military commander's number one agent (Part 26)**

"No.....It isn't like this!" She held her chest in a panic as she said, "I want to see my big sister, I am her little sister. I was being controlled by mister X, I had no choice but to come steal the Destiny Life Map!"

Du Jiu Sheng was a bit surprised. So there were things that could change faster than flipping a page.

He softly turned his blue ring and the protective energy around Luo Qing Chen's room disappeared.

She jumped right out of the window and with a beautiful flip, perfectly landed on the ground.

Du Jiu Sheng knit his brows and said with a pampering look in his eyes, "Slow down."

She felt her head turn blank in that moment and she didn't even think as she threw herself into his embrace, as her arms tightened around him.

She was suddenly a bit afraid, truly afraid. She was afraid of loss and she was afraid she wouldn't be able to say she loved him.

She hadn't even said the word love yet and she almost lost him.....

"Can you go slower, there are stairs?" Du Jiu Sheng gently patted her head and said, "I'll wait, don't be in a rush!"

His voice was very soft, touching her ears and penetrating her defenses, reaching the depth of her heart.

It was a burst of warmth.

Luo Zi Jun wanted to escape when she saw this, but the moment she slightly moved her foot, Luo Qing Chen's cold voice slowly came out, "Where does my good little sister want to go?"

Luo Zi Jun took a deep breath and her face turned pale.

She knew that she was in a very bad situation. It was like if she said a single wrong word, she would lose her life.

She turned to look at Luo Qing Chen and her eyes were filled with tears as she said in a choked up voice, "Big sister, I was forced to do it! You know that if you defect, mister X wouldn't let me off! He gave the order to kill me, but I didn't, I really didn't....."

Luo Qing Chen narrowed her eyes to look at the act who was covering her mouth as her tears kept flowing down.

"It's fine if you want to keep your life." She coldly looked at Luo Zi Jun and said, "You just need to do one thing and I'll let you go. Moreover, you've already done this thing many times, so it should be easy for you!"

"I will defect." Luo Zi Jun's eyes lit up as she excitedly said, "I will bring back information in the future....."

"Kneel." Her voice was filled with might as she said this word with an extremely cold voice.

She was very clear what kind of person Luo Zi Jun was.

The previous host had done so many things for her, but she had died by her hands.

This debt, how could it be settled with just a single kneeling.....

"You...." She gritted her teeth and stared right at her, like her eyes were about to shoot out flames.

"What? You don't want to kneel?" She took the gun from Du Jiu Sheng and pointed at her as she said, "Then say goodbye to this world!"

She slowly began to pull the trigger.

"Dong!" In the silent night, there was a heavy kneeling sound that filled her heart with pleasure.

For a while, Luo Qing Chen didn't say a thing.

Du Jiu Sheng had been looking at her the entire time, like he hadn't seen enough yet.

After a while, Luo Zi Jun impatiently said through gritted teeth, "I've already kneeled, can I leave now?"

“If I said you can’t, what can you do?” She looked at her with a faint smile and said, “I never said that I was someone who kept my words. If I don’t let you go, what will you do?”

Against this kind of person, was there a need to be reasonable?

[Quick Transmigration Female Lead: Male God, Never Stopping](#)

**Chapter 495: Power user military commander’s number one agent (Part 27)**

“Luo Qing Chen, you.....” Luo Zi Jun tightly clenched her fist and swallowed all her anger, “Big sister, why won’t you let me go? Could it be that you’re doing this because big brother Yu Chen likes me?”

When she said this, she inadvertently looked at Du Jiu Sheng, but she never saw a single look of panic in his dark eyes.

Damn, what kind of god was this person.

He had almost no weaknesses.....

“Zuo Yu Chen?” Luo Qing Chen gave a laugh of disdain as she said while shaking her head, “My eyes aren’t as bad as yours.”

She disdained giving the man Luo Zi Jun liked even a single glance.

“Good, Luo Qing Chen! You’re not planning on letting me go today.” She gritted her teeth and slowly stood up to look at her, “Then you can go to hell with me!”

As soon as her voice fell, she pressed the black button on her watch and the eleven puppets behind her began to shake.

“Ha, ha, ha, ha!” Luo Zi Jun’s strange laughter filled the silent night as she laughed while saying, “Ten tons of explosives, how will you escape?”

Damn, mister X had actually installed a detonation device in each of these puppets.

He truly was ruthless.

Du Jiu Sheng raised a brow and pulled Luo Qing Chen behind him. There was a stream of ice that came from his ring that formed a giant icicle.

He raised his hands and the icicle split apart, forming eleven icicles. They accurately attacked the hearts of the puppets!

“Ah, ah!” The cries of pain came all at once.

This scene not only stunned Luo Zi Jun, it even stunned Luo Qing Chen!

Du Jiu Sheng’s special ability was controlling Profound Ice?

Luo Zi Jun trembled as she retreated backwards and she muttered, “You....You’re not human....You’re not human.....”

Ice kept forming, pointing in Luo Zi Jun’s direction, just waiting for Luo Qing Chen to speak.

“Ha, ha, ha, ha!” Luo Zi Jun laughed into the sky, “So what, do you think they wouldn’t explode if they died?”

“You think I would be afraid of them exploding?” Du Jiu Sheng gave a cold snort. The cold look in his eyes seemed like it could freeze a person. His eyes narrowed in the moment of the explosion and the entire ancient castle was surrounded by blue ice, like a giant cover of ice.

“Hong!”

“Xiu!”

“Peng!”

Three different forms of energy exploded at the same time, with the large explosion destroying half of the ice cover.

She couldn’t see outside, but she could smell a strong burning scent.

Du Jiu Sheng by her side had his brows knit. When he was using his icicles to attack Luo Zi Jun—

He heard the sounds of.....gunshot.

The blue ring was taken back and the ice cover collapsed.

What entered their sights was the scene of blood and flesh ripped apart. The puppets had been torn apart by the explosion, leaving not a single complete piece of flesh.

Du Jiu Sheng looked at the dark river by his villa and knit his brows.

Luo Qing Chen looked at the scattered corpses before turning to see Du Jiu Sheng knitting his brows. She knew that her guess was right.

“Someone shot just now?” Luo Qing Chen looked at the icicles knocked to the ground by bullets and said with a frown, “Zuo Yu Chen?”

Luo Zi Jun didn’t have friends in the shadow organization and agents didn’t interact with each other. Adding in the fact that she looked down on many people, there was no one who would save her.

The only one who would save her was Zuo Yu Chen who had a relationship with her before.....

“I’m not too sure.” Du Jiu Sheng took her hand as he said, “But I’m certain it was definitely a sniper.”

### [\*\*Quick Transmigration Female Lead: Male God, Never Stopping\*\*](#)

#### **Chapter 496: Power user military commander’s number one agent (Part 28)**

Xiao Xi and Xiao Bei were in charge of cleaning up after the explosion. Because Du Jiu Sheng’s villa was in a remote place, the explosion hadn’t caused any casualties.

But Luo Zi Jun should have been saved by someone.

Was Zuo Yu Chen really that infatuated that he would save Luo Zi Jun? This was something that she was quite puzzled over.

At that moment, if they didn’t fall into the dark river, they would have lost their lives.

Du Jiu Sheng saw her tightly knit brows and came over to softly pat her head. He handed her a hot chocolate and said, "What are you thinking?"

"Does sir head have something to explain?" Luo Qing Chen changed the topic. There was a faint trace of concentration as she looked into his star like eyes.

"This is the reason why Murong Xi and I can't kill each other." Du Jiu Sheng slowly said, "Our master was a power user from another planet. When he landed on this planet, he had two pills with him. By chance, he gave one to both me and Murong Xi, as well as giving us a ring each, taking us in as disciples."

He wanted to tell her this earlier, but he was afraid she wouldn't be able to accept it.

After all, he and Murong Xi were power users if it sounded good and aliens if it sounded bad.

People who stood in black and white weren't accepted in this world.....

"So it's like this." Luo Qing Chen took a sip of the hot chocolate and said, "So the blue ring is the treasure powering your abilities?"

"Un." He nodded. He was a bit surprised seeing her accept this before continuing to say, "Murong Xi also has one, his is red!"

"Then if you don't have the ring, you can't use your ability?" In her eyes, this ring didn't seem that different from the Exquisite Ring.

Du Jiu Sheng raised his right hand with a faint laugh and waved it. After that, the ring disappeared.

"I understand!" She pursed her lips and said, "It will follow you for your entire life."

His ring was different from her Exquisite Ring, it was a treasure that couldn't be taken off and had no need to be taken off.

He was a bit surprised. Seeing that she wasn't surprised at all, he couldn't help saying, "I thought that you would be very surprised....."

"I'm not!" Luo Qing Chen blurted out with a shrug, "I also had one before....."

"What?" Du Jiu Sheng was shocked as his deep eyes looked at her, "You also had....."

"Oh!" She said with a smile, "I had a ring that was similar before, it had the ability of a taser. I used to carry it when I became an agent at first to prevent accidents from happening."

She thought that she was speaking nonsense in this serious situation, but she found that after she said it, it seemed quite feasible!

When Du Jiu Sheng heard this, he knit his brows. It was clear he didn't completely believe her.

She quickly changed the topic, "All your attacks and defenses are ice based, then mister X.....which is your senior brother Murong Xi, what kind of abilities does he have?"

"Nether Flames." His cold eyes narrowed as he said, "Now that he has developed that puppet army, I'm afraid my men aren't a match for his puppets. As for me, I only have a fifty percent chance of beating him."

Luo Qing Chen knit her brows as she looked at him and said, “Since he has cultivated a puppet army, why does he still want the Destiny Life Map?”

In her eyes, mister X already had everything that he wanted. Whether he had the Destiny Life Map or not wasn't that important to him!

“He wants to revive Zhi Qing.” Du Jiu Sheng paused before saying, “The Destiny Life Map is much stronger than we imagined.”

### **Quick Transmigration Female Lead: Male God, Never Stopping**

#### **Chapter 497: Power user military commander's number one agent (Part 29)**

At the same time, on the border of the C Country.

Zuo Yu Cheng was carrying the dying Luo Zi Jun into a helicopter.

There was a patch of blood on her abdomen that looked shocking.

The reason why he had disobeyed mister X's orders to save Luo Zi Jun was because she was pregnant with his child.

But now, he couldn't even save the child!

Most of Luo Zi Jun's body was scorched and there was an unpleasant smell coming from her.

She kept twitching and blood slowly poured out of her seven orifices.....

“Yu.....Big brother Yu Chen.....” She slowly reached her burnt hand towards Zuo Yu Chen and said, “You....must avenge me and our child!”

The hate in her heart already surpassed all her senses, there was only hatred left in her world.

Hatred for Luo Qing Chen, hate for taking away her and her beloved person's child, hate for taking all her honour and glory!

Based on what, they were sisters from the same parents!

Based on what could everyone at the base look at Luo Qing Chen with respect while looking down on her!

Did Luo Qing Chen know how hard she worked?

“Don't talk for now, mister X will definitely have a way when we return to base!” He knit his brows as he felt a bit guilty towards Luo Zi Jun.

During that explosion, although he had carried her into the river, he had turned her body towards the explosion.

At the shadow organization base.

Mister X had his back to them and his voice was extremely cold. He didn't even spare a glance to Luo Zi Jun who was almost dead on the ground.

Zuo Yu Chen knelt on the ground and said, “Zi Jun can be considered to have done everything she could, I hope that mister X can save her life.”

“Yi?” Mister X’s voice filled with a bit of surprise, “I am the boss of a terrorist organization and not some doctor in a hospital, do you not even understand that?”

There were several loud sounds behind him and the surrounding temperature slowly raised.

Zuo Yu Chen was scared as he quickly knelt.

“Sorry mister X, I’ll bring her away.” His voice was trembling. He knew that the words he said had already crossed the line.

After a while, mister X said with a cold snort, “If you inject her with the virus and the chip, perhaps she could live on as a puppet. After all, the bodies of the puppets are more than ten times stronger than normal people.”

Zuo Yu Chen’s eyes lit up. Perhaps what mister X said was the final life line, but was she willing to become a puppet?

“I want.....” The dying person on the ground grabbed Zuo Yu Chen’s clothes and said, “I want....to be.....”

“Thank you mister X.” As soon as his voice fell, he picked up Luo Zi Jun on the ground and headed to the testing site.

Mister X said with a cold laugh, “A bunch of trash. If it wasn’t for the fact that Zuo Yu Chen is the best sniper of the organization, his behaviour just now would have cost him his life.”

The four agents that followed him said, “Mister X is right.”

An hour later, mister X completely changed his thoughts.

That was because Luo Zi Jun had mutated.

When she was about to die, Zuo Yu Chen injected the virus into her and caused her to become the shadow organization’s first mutated puppet.

Mister X was overjoyed, as he personally inserted the best chip into her brain.

At that moment, Luo Zi Jun’s eyes completely turned blood red.

“Ha, ha!” Mister X gave a joyful laugh before saying, “It seems like things really do come naturally. From now on, Luo Zi Jun is my shadow organization’s number one agent!”

“Yes, mister X!” Luo Zi Jun’s mechanical voice came out. There was killing intent in her eyes as her lips unknowingly curled.

At this moment, there was only one word in her mind: Kill!

[\*\*Quick Transmigration Female Lead: Male God, Never Stopping\*\*](#)

**Chapter 498: Power user military commander’s number one agent (Part 30)**

Seven days later.

Before setting off, Du Jiu Sheng put the other half of the Destiny Life Map on her.

Luo Qing Chen was very shocked. His trust in her had already reached this step.

He had protected this half of the Destiny Life Map for this long and he was willing to hand it to her....

But could she really protect this Destiny Life Map?

"I'm not afraid if there were no power users in this world." She knit her brows as she held the half of the Destiny Life Map, "But if there are power users, I definitely can't protect this thing."

"Truly a foolish Xiao Qing." Du Jiu Sheng gently patted her head and said, "I'm not letting you protect it. If I lose, it will save your life."

Luo Qing Chen heard this and her heart became cold. The words Du Jiu Sheng said unconsciously made her feel afraid.

She took a deep breath and said, "What....What does that mean?"

"If I die." His eyes filled with a pampering look as he said, "You can give it to Murong Xi."

"What?" She was shocked as she looked at him with wide eyes of disbelief.

"Fool!" His slender fingers came up and flicked her head as he said, "If I can't beat Murong Xi, this half of the Destiny Life Map would fall into his hands eventually. If you personally deliver it to him, he won't take your life because he never owes anyone a favour."

This was the safest option that he could think of, life and death would happen in a moment.

And he was most afraid that he wouldn't be able to protect her.

"No, I won't!" Luo Qing Chen threw the half of the Destiny Life Map into his hands and shook her head, "I won't, you will win, right?"

She didn't like saying goodbye. It was like after this day, he would leave her.

"Relax." Du Jiu Sheng saw her red eyes and said in a pained voice, "Of course I will do my best because I don't want to give you to someone else."

If he died, the person who married her would not be him.

Even if it was just this though, he wanted to win, he wanted to live.

The grudge between him and Murong Xi could still be delayed, but now that he had developed these puppets, if he didn't destroy his base and his research lab, the consequences would be hard to imagine.

She looked at his focused eyes and gave a slight nod.

This was her first time feeling that she was helpless without the system, she couldn't even exchange for any skills to help him defeat the enemy.

"Actually, I don't want to let you go." He took her hand and opened the door to the villa as he said in a soft voice, "But I know you'll definitely come. I've thought about it and I can't feel assured leaving you here alone, so I might as well keep you by my side."

His voice was very gentle. There were no gorgeous words, there were no deeper meanings.

But listening carefully, it was so touching.

At that moment, her tears almost came out. She quickly pointed at the hibiscus flowers by the garden and said, "It's so pretty, I'll go pick two of them."

Actually she just wanted to use this chance to quickly wipe the tears from her eyes.

She believed that they would win. Even if the enemy was much stronger than she imagined, she was still filled with confidence in him!

Everyone said that evil couldn't prevail over good!

Mister X.

No, Murong Xi! She was facing a power user as a mortal for the first time, but she wasn't as worried as before, as long as the man beside her tightly held her hands.

### [Quick Transmigration Female Lead: Male God, Never Stopping](#)

#### **Chapter 499: Power user military commander's number one agent (Part 31)**

Their helicopters landed near the shadow organization's base. With her and Du Jiu Sheng, there were a total of thirty six people.

Each one was an elite in the military and had prepared for many years to surround this terrorist organization.

Only this year did they finally locate the shadow organization's base. They would completely wipe them out this time.

Xu Zhan who was one of the best soldiers other than Du Jiu Sheng would be leading a team through the back door.

And Du Jiu Sheng would be entering the virus testing site through the forbidden military zone!

They relied on their senses as soldiers to dodge the barb wire and mines the entire way. When they opened the back door to the virus testing site, Du Jiu Sheng looked at Luo Qing Chen and that look made her heart tremble.

She bit her lip and asked in a calm voice, "We will win.....right?"

"Un." He said with a nod, "I definitely will not let you die."

They moved with soft steps. This was Luo Qing Chen's first time at this testing site, but it was a good thing that professor Shen had drawn a map, so they were unobstructed the entire way.

When it went too smoothly, it made her feel nervous.

Could it be that mister X wasn't at the base since he was paying a visit to Zhi Qing's grave?

When she was about to express her doubts, the dark virus testing area suddenly lit up.

There were close to fifty puppets not far away and what they held were not guns, but rather stun batons.

Luo Zi Jun hadn't gone to the ancient castle for nothing. At least mister X knew that when using these puppets to deal with Du Jiu Sheng, it was no use using guns.

"The game has just begun. Junior brother should play properly, I will be on the top floor waiting for you." Mister X's voice suddenly came from the upper right corner with a strange tone to it.

The fifty people were puppets made from the elderly, women, and children. Even with the virus and the chip, they weren't really that strong. After a round of fighting, although several soldiers had been injured, they still quickly took care of them.

"The injured people will stay behind to look after each other, the rest will come with me to the second floor." Du Jiu Sheng turned around and gave these concise orders to his subordinate.

For a long time, there was silence in the air.

The wounded soldiers all looked at each other before looking at him, "Commander, we can still fight!"

"On the battlefield, military command is king!" Du Jiu Sheng had the majesty of a commander, as he said word for word, "If I want you to stay, you will stay."

After saying this, he headed up the stairs.

The reason he had them stay was not because he doubted their abilities, but because he understood Murong Xi very well.

This was just a game to him and he was enjoying this process, so the difficulty would increase with every level.

But at least they had a chance.

If they didn't attack and waited for Murong Xi, the ones being injured wouldn't just be soldiers, but rather normal citizens.

When they entered the second floor, they saw the puppets on the other side.

The puppets here were different from the first floor, they were all strong men and some of them seemed to even have received training.

Luo Qing Chen gave a cold snort and flew out, stabbing the first person's heart with the dagger in her hand without hesitation. She moved very quickly and before mister X could give an order, she took care of the five people in the first row.

Hand rising and blade falling. The blood splattered across her white cheeks, but her eyes were ice cold.

There was mister X's voice that came from the upper right corner, "Truly worthy of the number one agent that I carefully cultivated. I really want to see how strong you will be after I turn you into a puppet."

### **Chapter 500: Power user military commander's number one agent (Part 32)**

After that, with a cold laugh, he gave the order.

The puppets that were silent as corpses charged forward like they had been injected with steroids.

Du Jiu Sheng slightly knit her brows and quickly moved to her side, coming up behind her.

He moved very fast, quickly shooting three bullets that hit the hearts of puppets, instantly taking their lives.

The soldiers behind him took out their pistols and began charging the puppets without care for their own lives.

But when the first shot didn't hit a heart, they didn't stop moving and kept charging while splattering out blood.

After half an hour, the second floor was filled with corpses, which included four soldiers.

The four of them had been clawed to death by the puppets. It turned out that mister X had installed iron claws on the puppets for this floor.

Other than her and Du Jiu Sheng, all the other soldiers had been injured to some degree.

Luo Qing Chen looked at Du Jiu Sheng and said, "There are only three floors to this lab, you can just escort us here."

She knew that the soldiers had used all their strength. If they had charged in without them and had Du Jiu Sheng use his powers, they might not have gotten here unharmed.

"Commander."

"Un." He nodded before looking at them and saying, "You can bring Xiao Qing back to the first floor."

"I'm not going." Luo Qing Chen looked up with unrelenting eyes at Du Jiu Sheng, "Other than mister X, there are definitely other people on the third floor. You concentrate on him, I'll take care of the rest."

Zuo Yu Chen hadn't appeared yet.

He wanted to show off in front of mister X that much, he would definitely go all out in this battle between good and evil.

Du Jiu Sheng knit his brows, but he said with a sigh after a while, "Alright! But you have to be careful!"

"I've been an agent for eighteen years, I'm tired of hearing these words." She looked at the remaining soldiers and said, "Head to the first floor?"

Du Jiu Sheng gave them a nod and they lifted up the corpse of the four soldiers before slowly heading down.

They kept hesitating, as they wanted to stay and head forward with the commander.

But, orders were king on the battlefield!

“Du Jiu Sheng.” Seeing the final soldier disappear down the stairs, she took soft steps forward as she placed a kiss on his cool lips, “I don’t want to hear you say be careful or stuff like that....I want to hear.....”

Du Jiu Sheng’s entire body froze. There was confusion and happiness mixed together in his heart, stirring it up from the depths of his heart.

He knew that he should push her away, there was definitely a camera here. If Murong Xi knew that she was his weakness, he would do everything to kill her.....

After a while, he still didn’t give her an answer. He just stood there in a daze with knit brows.

Luo Qing Chen looked down in a disappointed manner and said with pursed lips, “You really don’t have anything to say to me?”

He was very clear on what she wanted to hear.

He saw the hand holding his clothes slowly come down and his emotions completely took over his sensibility in that moment.

His right hand came up to tightly hold her and his gentle voice slowly rang in her ears, “You are the only person who I, Du Jiu Sheng have loved in this life.”

As soon as his voice fell, the voice in the upper right corner sounded again.

Mister X’s voice was filled with resentment, “If you even loved Zhi Qing a bit back then, she wouldn’t have died! Du Jiu Sheng, why didn’t you love her! I am willing to silently guard her, but she couldn’t survive her illness because of your cruel rejection.....Du Jiu Sheng, you don’t deserve to speak of love.....I will definitely let the person you love be buried with Zhi Qing!”
