Chapter 51: Ling Tian, Yumina and Ella

"Good Girl." Tyler smiled at the girl with a pink hair-clip.

"Can you guess who I am?" Tyler asked that girl again.

"Senior must be the proctor who watches the participants." She said, Tyler just smiled and didn't reply. This girl is a little dumb?

The girl with the pink hair-clip name is Yumina. The tomboy, petite girl name is Ella and the leader of the Team name is Ling Tian.

Three of them cupped their hands to Tyler and introduced themselves. They noticed the fight, 6 of them teaming against two people. They were a little confused about the situation.

Yumina noticed that the man and girl who are fighting against six of them are from the same team, so where is the last teammate? Her eyes turned towards Tyler with suspicion.

Tyler noticed her expression and was surprised because this girl was able to analyse the situation faster. She might seem a little dumb but she is probably the smartest one in the team.

"Sigh... They killed their teammate. Because those two went into a frenzy and attacked all of them." Tyler sighed.

Ling Tian's eyes lit up and said, "Then all we have to do is help those two and attack those six. We can easily defeat them. Since those two already lost a member we will emerge as the winner."

Ling Tian unsheathed his sword. He lunged forward. Ella didn't say anything; she just followed him with a giant hammer.

"Wait-" Yumina tried to stop them. But they already left. Yumina looked at Tyler suspiciously before going after them. She is worried about her friends.

"Don't worry we will help you." Ling Tian shouted as he lunged forward at the fire user.

"Why did you shout? Idiot. I was trying to sneak attack them." Ella, The petite girl with a large hammer flew above the six of them. She hammered the ground with a big swing. The ground broke. They were scattered easily by the impact.

Ling Tian sword emitted fire. Ling Tian also has fire elemental spirit root. This terrain was advantageous for him. He clashed with the fire user equally to be more specific he has the upper hand.

"He is so strong." Tyler mumbled.

Yumina has two gauntlets in her hand.

"Is she a fist user?" Tyler thought.

She didn't go near the enemy, instead she took a safe distance and pointed her gauntlet towards the opponents. The gauntlet glowed brightly and shot energy bullets towards the enemies.

"What a balanced team. And that yumina she is gathering the Qi at her gauntlet and launching it towards the enemy. Genius." Tyler said.

A man couldn't take anymore energy attacks. He suddenly went berserk and ran towards Yumina.

"Yumina!" Ling Tian shouted and was about to help her but was blocked by the fire user.

"Your opponent is me." The Fire user said as he attacked fiercely.

Yumina beautifully dodged the attacks. But still that guy raised his rod and swung furiously in her direction.

Clang

Lan Xuero beautifully blocked the attack with the Sword. Even Yumina was charmed by her for a second.

"Thank You." Yumina smiled at her.

Due to the help of this new trio. They were able to turn the tide easily.

Tyler who was about to change into dragon mode. Turned back into normal.

"Haha... You wanna fight? Dream on." Mana mocked Tyler.

Tyler sighed and looked up. He is still pouring water towards the lava. He gathered all the steam using spiritual energy and confined them above.

"It looks like a cloud." Tyler smiled. At Least he got a fake sky effect to look up. In this cruel world only self help is the best help. Random thoughts were going into his mind while looking at the false cloud.

Ling Tian used the sword to flash left and right. He is a swift sword user.

"That guy looks familiar." Tyler thought but he couldn't remember where they met.

The battle took place for a while. One of the guys fell. He lost consciousness.

"Nooo!" His Teammates screamed. They lost their will to fight. They took the unconscious man and left. They went a little further away hoping to see if they could wake him up.

<< The Last round is gonna end soon. >>

Hearing the announcement the battle sped up. Now the situation turned 3 vs 5. Lan couples and Ling Tian team have the upper hand.

They easily destroyed the three of them. They were now lying unconscious.

"Now we defeated these two. We have avenged your fallen teammate." Ling Tian smiled handsomely and said.

Yumina held him by the collar and said, "Wait, something is wrong. there is no announcement of the winner."

Lan couples were equally confused. What fallen teammate? They looked at Tyler who was sitting in daze and sighed in relief.

Yumina noticed their gaze and looked at Tyler while gritting her teeth.

"He lied to us. He is the third teammate." Ella sighed and said.

Even Ling Tian also understood the point. He is looking at Tyler with a betrayed expression. Suddenly two figures appeared behind Tyler. They are Lan Couples.

In front of the Lava, above the boulder Tyler is sitting and looking at them. Behind him a man and a woman with saber and sword are standing handsomely.

"How dare you deceive us." Ling Tian asked. He is a straightforward person.

Tyler grinned, "The biggest culprit is not the person who deceives, it's the person who gets deceived."

"You are Tyler White from Ligma Country." Ling Tian blurred; he finally remembered where he met him before.

Lan Xuero laughed.

Tyler's mouth twitched, "Can we stop talking about the country name."

"You know him?" Ella asked. But Yumina is looking at the left with a blushing face, it looks like she also remembered who that is.

Ella is confused because she became friends with these two only when she started Cultivating. So she had no idea what happened between Tyler and her friends. Looking for an opportunity to strike, Ella held her hammer tightly. But both Lan Couples are not showing any opening.

"Ling Tian is so strong and those two girls are no joke. We don't think we can beat them Junior brother." Meanwhile Lan Yi and Lan Xuero are communicating via group voice transmission.

It's using one person's spiritual consciousness as a hub point to connect with. Multiple spiritual senses to communicate in groups.

In the frozen Heart Sect there is a compulsory subject just to study about spiritual sense or Spiritual consciousness.

While Tyler and Lan Couples were talking in group transmission, Ling Tian couldn't stand still. He unsheathed his sword and lunged forward.

"Wait Tian." Yumina shouted again. She sighed and followed him. Ella also moved swiftly while holding the giant hammer.

Tyler smiled and looked up. Yumina noticed his behaviour and looked up. She saw massive ice floating in the ceiling.

Yumina quickly used her gauntlet to shoot before Ling Tian's path, making him stop. But they were too close to lava.

The Ice dropped above the Lava. Tyler and Lan Couples quickly went to the escape route that Tyler noticed before.

The minute the ice touches the hot lava, it creates a steam explosion. This is because the steam is created faster than it can escape. The explosion created a lot of pressure and caused the lava to explode.

Tyler didn't try to kill them; he is pretty sure they were able to avoid it. Just as he expected they avoided it but not easily. They were pushed back by a sudden explosion.

Tyler recalled how he almost turned into a meat patty when he was searching the formation of this Cultivation world in an inactive volcano. At that time his spiritual roots upgraded and turned everything around him into ice and blasted him to the ceiling.

Luck was really on his side to fly straight into the formation. Suddenly Tyler felt a little bitter thinking about his abnormal luck.

When the lava was about to hit them. Ella hammered the ground with her hammer and a wall appeared around them enclosing them. They escaped the lava burst.

Ella is panting heavily because it is not easy to use that move. She almost used all of her energy reserves.

Yumina held Ella and looked at Ling Tian with blaming eyes. Ling Tian scratched his head and apologised.

Yumina looked around. Tyler and others already left. She sighed in relief. Because it is the best time for them to attack.

Wait...

With a person like Tyler White on that side, will they give up this chance?

"Beware of ambush-" Before she could finish her words. The ground they are standing on turned black.

Suddenly they felt a sharp, stabbing, throbbing pain in their temples that lasted for a few seconds.

"It's a consciousness attack." Ling Tian said. He was able to handle it.

Yumina felt a little dizzy. She couldn't even reply to anything. Ella is worse, she fainted.

Lan couples and Tyler emerged again and surrounded the Ling Tian Team.

"Checkmate," Tyler said. He used a Chess Spell and followed it with an Ice needles attack.

<<Congratulations to Team White42 on winning Round 3. You have successfully passed session 1>>

Chapter 52: Ten years ago

Tyler is studying some of the most expensive books he bought from this secret realm in his room.

'Tips on How to make Teleportation Formation success'

'Basics of Teleportation Formation'

'How to make Teleportation Formation as Intermediate Formation Master'

He became more interested in these teleportation formations.

"What was that spell you used at the end? Junior brother?" Priscilla asked.

"Huh? How did you know?" Tyler placed the book and looked at Priscilla.

Priscilla showed her token. It is a visitor token. With this she can spectate any competition live. Tyler's token also has that function. He just noticed that.

"My Spell name is Ice needles. It's a mental attack that can stun the enemies for a few seconds." Tyler said. Few seconds is not a small matter. It can overturn the whole outcome of the battle. Anything can happen to the enemies when they get stunned for a few seconds.

Tyler's eyes brightened and said, "Can we go and spectate the Formation Competition?"

'It's booring', Priscilla wanted to say. But Since Tyler is showing interest in those she decided to tag along.

Both Tyler and Priscilla returned after a while.

She dragged Tyler along with Lan Couples for shopping.

"I heard that the losers of the first session might have a chance to come back in the final session. They were thrown into the forest full of beasts. The group that survives it has a chance to get back in the game." Lan Yi said.

"Which means we might see those three again." Lan Xuero said.

"Ah... You mean that boy who excluded the righteous aura." Priscilla said. She saw how that team got toyed by Tyler. It was fun to watch.

"If I remember correctly his name is Ling Tian. And I forgot the girl with the pink hair-clip name." Tyler said.

"You know them?" Priscilla asked.

Tyler nodded. He began to tell them how he met them before.

CheckMate

Ling Tian is trying to meditate but that voice is still lingering in his head. He is now in a cave with his teammates.

Yumina Noticed him and laughed, "are you still sulking about your loss?"

Yumina found it so cute. Boys always act tough, but deep down they are still children. Yumina laughed at him.

"Do you still remember Tyler White? He really became a Cultivator." Ling Tian said. He almost forgot about him but didn't expect to meet him here.

10 years ago.

It was even before Tyler started Cultivating.

A village in the country Si. G ma. (ལ(ò_ó~)ཏ) *cough* Sigma Country.

Some kids around 10 to 12 are playing hide and seek in the forest.

"Yumina, you will be the seeker." A boy said.

"Why me?" The 10 year old Yumina pouted.

"Because you are the worst seeker. You can't even find your dad until now." The kid laughed at his joke. Every kid looked at him with a deadpan expression.

"Haha ha ha... Ha?" That kid stopped laughing awkwardly.

Soon he was selected as a seeker. He closed his eyes and started to count.

Meanwhile the kids left that side of the forest and went in another direction. They decided to let that cheeky kid play by himself.

Yumina is still in tears because of his words.

"We can't stop her crying. Any other ways?" said one kid.

"We can only summon him." replied another kid.

Yumina suddenly stopped crying. She glared angrily at her friends who gave her a back teasing look. Everyone knows Yumina is closer to one boy, Ling Tian.

Ling Tian was a mysterious boy in the village. 8 years ago he was found in the middle of the forest by an elderly man. According to him, Ling Tian was guarded by two powerful beasts that the elderly man had never seen before. The beasts quickly disappeared when they saw him leaving behind the baby.

Even though he is a kid of their same age. He is faster than them, stronger than them and also has lots of stamina. He is straightforward and always cares about friends. The only one he is afraid of is Yumina. Other than his grandfather who adopted him, Yumina is the only person in the village that Ling Tian listens to.

They started playing hide and seek again. Yumina always likes to hide near the waterfall. She has never been caught by them except Ling Tian.

The kids looked at the sky and realised that it was almost dawn. The kids couldn't find Yumina even when the sky was about to dark. They searched for her while shouting her name.

Ling Tian who just returned from the nearby village saw the villagers searching for Yumina. He dropped everything he was carrying and ran towards the waterfall. Only Ling Tian knows how much Yumina loves water. Either it's a lake or river. She loves it so much.

"Yumina" Ling Tian reached the waterfall. He saw a middle-aged man pinning down the little Yumina, touching her stomach and kissing.

"Get Lost pervert!!!" Ling Tian dashed forward towards that man. The man easily dodged it and used his other hand to slightly knock down the little boy.

Ling Tian lost consciousness. When he woke up he saw the Little Yumina. She is fully wet and she is stroking his head while crying.

"Where is the pervert?" Ling Tian asked. He got a smack from Yumina.

"Don't call him that. His name is Mr.Tyler White. He saved my life when I was drowning. If it was not for his help, I would have died." Yumina said.

Ling Tian was dumbfounded because Yumina was blushing while talking about him.

"Hehe... Looks like I accidentally gave my first kiss." Yumina noticed Ling Tian is jealous so decided to tease him. Ling Tian blushed when he heard the word 'kiss'

"T-that's not a kiss. " Ling Tian hurriedly said.

"He was so handsome. When I grow up I will marry him." Yumina blurted out

"He seems too old. He might already be a Grandpa when you grow old" Ling Tian said.

Tyler, who is not far away from them, almost stumbled. Is this how Kids these days have conversations?

Generation Gap? Tyler sighed. He is already in his 30s... If he was properly married in his 20s he would already have Kids at this age. He lost his youth in pursuit of cultivation.

Tyler decided to show up before the kids. Like Hen protecting the chick, Little Tian protected Little Yumina when Tyler showed up.

Little Yumina smacked his head and bowed towards Tyler then smiled, "Thank you for saving me."

Tyler sighed and looked at them. They have no idea what is about to happen to their village because of him.

With Yumina's help Tyler was able to stay in the village easily. Yumina lost her mom when she was young and her father left her to start a new life. She was taken care of by her old grandfather.

Tyler researched the old temple in the village. He was trying to find something. Tyler didn't talk with those Kids that much. After a week of staying, officials of the country visited their village and ordered them to evacuate the village.

There is an old castle beneath the village which was discovered by Tyler. After the minister hired him for the job.

Yumina and Ling Tian were at a loss. Especially Yumina, because she is the reason Tyler was able to stay in the village easily. Before that the Villagers didn't welcome him that much.

The villagers lost their home and land. They couldn't go against the law. Ling Tian and Yumina decided to confront Tyler, "You deceived us."

"I am just doing my job." Tyler simply replied. He also feels a little guilty about the village. But even if he didn't do anything, someone will do it. It is inevitable.

Tyler doesn't know what to say, but he decided to teach them a life lesson.

He grinned and said, "The biggest culprit is not the person who deceives, it's the person who gets deceived."

Tyler then took two tokens from his pocket and threw it to them. They caught it reflexively.

"Do you kids know what Cultivators are?" Tyler asked.

"Cultivators? Like Cultivating Land?" Yumina asked.

"Nope. Cultivating Qi. Immortals, Handsomely flying in the sky on the sword." Tyler smiled when he saw the kids' eyes brighten.

"They had eyes on this village. So it is inevitable." Tyler said.

"Nowadays Cultivators disappeared into thin air. This is one of the gifts I got from the minister. According to him, the people from Cultivation world might contact you if you hold this. Take this as an apology." Tyler waved his hand and left.

He really didn't regret giving them away until he found the copper pot. It took a lot of effort to find the Cultivators later.

"What about you?" Yumina asked.

"I always wanted to cultivate. But I don't have any talent to cultivate. If there is a chance for me to cultivate, I will definitely grasp it." Tyler said as he left.

"He really grasped his chance." Ling Tian mumbled. It's been ten years. It is because of Tyler they were able to enter this wonderful life. But Ling Tian really doesn't like Tyler that much. He is more irritated after getting deceived by him again.

"I nearly forgot about those kids. Looks like they are geniuses." Tyler said while Priscilla and Lan Couples listened.

Fate is really a wonderful thing. Tyler and Ling Tian don't know that they both stepped into the path of cultivation in same day. They both reached the first stage of Qi Refining Realm on the same day.

Chapter 53: Tyler's speed run cultivation

"Junior Brother, we have received the reward." Lan Xuero happily knocked Tyler's room and said.

Tyler opened the door and saw the lan couples with a bottle in their hand. Tyler invited them in. Nobody knows when Priscilla appeared, she also joined them.

Lan Xuero placed three glass bottles on the table. Tyler saw the name tags on it. He took the one with Tyler written on it. Tyler felt a little chill in his hand.

These are Rewards for passing the first session. One can get lots of resources by competing in Cultivation cc.

"Ice Foundation Building Pill." Tyler recognised the pill.

"This Pill is the same as Foundation Pill but Ice flavour" Priscilla said.

"Flavour? Haha." Tyler laughed. Ice Foundation Building Pill can help Ice element Cultivators to breakthrough Foundation Building Realms easily.

Lan Xuero and Lan Yi got Sword and Saber pills respectively. Those pills have sword, saber intent inside which is very helpful for them.

"Can I use the pill now?" Tyler asked. He is just at the seventh level of Qi Refining Realm. He is curious if he can consume the Pill and raise his strength. He heard of this pill but it is exclusive only to some sect. Even Frozen Heart Sect doesn't have this pill.

Tyler already stocked some Foundation Building Pill. But he never used it. But seeing this Pill, Mana told him to consume it.

Priscilla thought for a moment and said, "If you wanna consume it. Then wait, I will bring someone to help."

She got up and left.

Western Zi Continent.

Inside the Secret Realm of Vajra Buddhist Sect, the middle-aged man is playing his flute. The melody was good and it melted everyone's heart. They didn't notice that with the flute sound he can confuse their thoughts and emotions and make his own puppet.

But these cultivators from the lower realms are low level materials for him, so he decided not to use his skills on them.

Suddenly someone knocked on the door. A sect elder entered inside the hall. Everyone snapped out of daze. They are feeling lingering fear. They couldn't even remember what happened for the past few minutes.

The middle aged man ignored them and turned to the sect elder, "What is the matter? If it is not important, don't mind if I kill you."

The sect elder shivered in fear. Then he took a token and activated its function, a projection appeared. Inside the projection Tyler White who looked like he is in thirties is sitting on a Rock and spectating the fight.

"Hahahahaha. Finally! I found You." His voice is full of murderous intent. The people in that hall looked at Tyler's picture. He is the reason why this abomination came to this planet. Some felt pity for Tyler, while others felt happy because this abomination will go away.

"His name is Tyler White. An Outer Disciple of the Frozen Heart Sect. He is at the Seventh Stage of Qi Refining Realm. He is now in Eternal Sect's Secret Realm. It is located in the Eastern Zi Continent." The elder told all his details.

"White... Is it a coincidence that he has the same surname? Impossible! His memories from the past have been completely destroyed." The middle aged man mumbled.

One of the puppets beside the middle-aged man suddenly eyes' reflected Tyler's Image. Its Eyelids twitched a little before turning back into emotionless puppets. The middle-aged man didn't notice.

After an incense stick of time, Priscilla returned with Yu Meixue.

Everyone Greeted her. Yu Meixue nodded. Tyler took a Tea packet from his storage and boiled it.

The aroma of the tea permeated the air. Everyone in the room caught a whiff of it too. Even Yu Meixue's eyes lit up. She loves to drink tea and she knows what Tea is. She feels a little ashamed drinking this Tea for free.

"What a great fragrance!" Priscilla said. The Lan Couples were also surprised by the strong fragrance of the tea.

"Nice smell. Make me a cup too Junior Brother." Priscilla said.

"Everyone can have it." Tyler smiled.

Yu Meixue wanted to say something but she stopped when she saw that Tyler didn't mind serving this Tea to everyone.

Soon everyone drank a cup of tea and felt the abundant spiritual energy. The tea was smooth and gentle, and it instantly refreshed their whole body.

"J-Junior brother, what Tea is this?" Lan Xuero asked.

"Red Azure Tea." The one who answered is Yu Meixue. Priscilla almost dropped the cup but she held it tightly like a precious treasure. What a joke? A packet of Red Azure Tea costs 9000 to 10,000 spirit stones. It is the most expensive Tea in the world.

Priscilla felt a little inferior. Tyler's wealth is too dazzling. Lan couples were too shocked to say anything. They felt refreshed. Their minds become clear. This made them delighted. Instinctively they wanted to practise some sword and saber arts. So they bid their farewell and went to the courtyard to train.

"If you consume the Foundation Building Pill, Your body won't be able to handle the sudden surge of energy and explode." Yu Meixue went straight to the point.

Tyler listened carefully. Yu Meixue then took a sip of Tea and continued, "I will help you stabilise while you consume the Pill. Don't worry with my assistance, it won't be a problem."

Tyler sat in the middle of the room. He took out the pill. It felt cold in his hands. He placed it in his mouth. In an instant, the cold feeling spread in his mouth as the pill dissolved. The coolness travelled down his throat and spread throughout his entire body. He suddenly felt cold all over as though it was winter. The coolness rushed to his mind. It opened up his thoughts, and countless sparks of impulses collided in his mind. He felt clear and empty.

But suddenly the energy produced by the pill became chaotic. He felt like a balloon that was filled with an excessive amount of Air and was about to explode. He couldn't control the chaotic energy that was travelling through his meridians.

He suddenly felt a warm hand on his back. The chaotic energy got steadier and gathered towards the palm.

"Circulate the energy." He heard Yu Meixue's voice and followed her instructions. This time it was easier for him to control the energy throughout the meridian.

On a whim, Tyler activated his Lake View Art . The chilly sensation rushed to his Meridians in an instant.

Tyler's energy is rising steadily without any side effects because of Yu Meixue's help.

His Cultivation broke and reached the 8th stage of Qi Refining Realm. He also felt more understanding about Ice properties. He felt he could use his ultimate dodging move easily.

"He made a breakthrough." Priscilla exclaimed.

"Shh. It's not over." Yu Meixue said.

Priscilla looked at Tyler in confusion. She could feel that the Qi inside Tyler's body is still rising. She is worried if his cultivation becomes unstable if this continues.

"Don't worry. He just needs to consolidate his cultivation for a day." Yu Meixue said as she guessed Priscilla's worry. Priscilla blushed and looked away.

The Spirit energy inside Tyler's body circulated faster as his momentum rose.

9th Stage of Qi Refining Realm.

"He made a breakthrough again?" Priscilla was dumbfounded. She only read about double breakthroughs in stories. Also heard some rumours about it. It is an extremely rare occurrence. This is the first time she is seeing it.

"We underestimated this Pill. It still has more energy left." Yu Meixue said. If this continues he might reach perfection of Qi Refining Realm which will make his cultivation extremely unstable.

Having cultivation unstable is common. But if it goes to an extreme level it might take months or years to consolidate. Tyler might have to skip cultivation cc.

But suddenly an unexpected thing happened. Tyler's body turned red and bright red scales began to appear on his body. Priscilla is shocked by this transformation, it is the first time seeing this.

Yu Meixue looked at his transformation curiously. She heard about it in Jade Valley City. This is the first time she is seeing this.

All the remaining Qi in his body is absorbed to his scale. His scale became slightly dark red. Giving a monstrous vibe.

Tyler felt he got even stronger. He really wished to try his new strength. He slowly opened his eyes. His body turned back into normal.

He stood up and thanked her.

"Consolidate first, we will talk later." Yu Meixue turned around and left quickly.

Tyler was confused why it feels like senior sister Yu Meixue is running away. He looked at Priscilla who was closing her face with her hand and peeking through the gaps of the finger.

"So Big..." She mumbled and left quickly.

Tyler lowered his head. He saw his dress had been totally torn by the energy burst. Maybe due to excessive Energy, A certain part of the body is standing tall.

Tyler touched his forehead. He really doesn't know how to face Yu Meixue. He blushed in shame.

"Yub It is Big." He also doesn't know when Mana appears before him and watches it with intense stares. He grabbed her and shoved her back to his body.

Chapter 54: Arrival of Top Sects; Tyler's Abnormal Luck strikes Again

Losers' bracket is the category where the people who lost in the first session are competing. Tyler had some time so he decided to watch it.

"Having to continuously fight for a day, being unable to even take a rest or idle around in between, and all these beasts and people are enemies... This is quite a harsh competition, huh" Tyler mumbled he was glad that he was able to pass the first session.

He is teleported to a row of seats and many people are sitting around. It's like a huge theatre. Everyone is watching a giant screen where it shows the competition. There is a small screen near him where he can choose to watch whatever the participants he wanted to watch.

Tyler just watched a few matches including Ling Tian's team match before he left. The one thing he noticed is that Ling Tian is strong. His speed is his strength. Pretty sure he can Dodge Tyler's attack. Tyler was thinking of a way to counter him if they faced each other in the Final session.

Tyler went back to his room and looked at the couple of Ice Foundation Pills in this storage. He thought of selling these, but when he heard that these are exclusive to Eternal Sect. He decided against it. Since he already copied it, he might offer these to his subordinates as a reward.

Tyler went back to meditation. He is further consolidating his realm. This time he will definitely gonna fight.

After finding the news about Tyler, The middle-aged man didn't even waste a second along with his two puppets he quickly flew towards the Eastern Zi Continent.

When his carriage is flying in the middle of the sea. Suddenly a spatial crack appeared and he got swallowed inside.

"A secret Realm?" The middle-aged man said. He quickly analysed the secret realm. He has to be careful and find the node that leads to Zi world. If he accidentally broke the secret realm he might get sucked into the void. Though he won't die, the void is too big he might not be able to return to the land for few thousand years.

"Why is this happening?" He found it odd that he didn't even detect the spatial crack. It formed just as he crossed that area which makes a hilarious coincidence.

He used small divination to see some clues. He spat out of blood. His soul felt like burning a little.

"That curse again. I can't make divination against that little bastard. So the reason I got stuck here is because of Tyler White? If I remember correctly, when I was about to go to the Eastern Zi Continent, a sea monster attacked me and made me take Western Zi Continent route." The Middle-aged man talked to the puppets. Even though they won't respond, it became a habit for him.

"What kind of Luck do you have Tyler? It even made someone as powerful as me to stop for a few days." The middle-aged man mumbled and put those thoughts away. Luck is a very important fact to achieve immortality. It is a mysterious topic that he doesn't want to dwell on.

It will take a few days for Middle-aged Man to exist in the secret realm. He sighed and took a small device that looked like a small radar. He activated it by pressing a button.

The Radar flickered as it showed multiple node points. The middle-aged sighed that it will definitely take a few more days. He can still afford to wait. So he continued with checking the space nodes one by one.

..... ◆ ● ◆

Two days later in Eternal sect's Secret Realm

There was an incomparably huge area around a huge battle Arena, where seats were set up for the people that would be watching the battle.

A large number of figures flew over from different directions. The cultivation of every person was more astonishing than the last, but in this Eternal Secret Realm, they had all restricted their auras, and were even flying at a particularly slow pace. When they arrived at the seating area, these people landed carefully and took their seats. Of course, it was definitely not like they could enter just any seat that they wanted; the seating order was exceptionally strict. They took the seat which their tokens guided them to.

The seats are arranged in their Cultivation wise. The Qi Realm Cultivators are in the lower seat, the Foundation Building Realm Cultivators are in the upper seat and the Golden Core is above that.

There are also VIP seats which are reserved for the Top Sects across the continent.

The Foundation Building Realm first session ended yesterday. Today the arena is filled with a lot of Foundation Building Realms. Those who failed just decided to watch the Final session of Qi Refining Realm. It was when all the Top sects had arrived that the place finally started to become a bit lively. They were greeting, probing, or flattering each other. Those who were hostile to each other, although they absolutely didn't dare to start anything funny in this place, they still gave cold looks and ridiculed each other.

"Haha, this old man has come late, and made everyone wait so long." Amidst the swirling cloud and mist, the figure of an old person suddenly emerged out of the blue. He was in quite simple and plain grey clothes, and looked kind and amiable. There was a faint, breezy smile on his face, as he gradually descended from the sky. He is the Sect Master of Eternal Sect.

"We Pay Respect to the Eternal Sect Master." The Cultivators bowed.

"I saw you waiting for a while before you made an entrance." Another Laughter echoed, A middle-aged man with a pointed Goatee beard appeared.

"Frozen Heart Sect's Sect Master Frozen Heaven has arrived. Welcome my Friend Daoist Frozen Heaven", The Eternal Sect Master laughed and announced his arrival.

"So Two old fogies are here." A woman's voice resonated.

"Soaring Cloud Sect's Sect Master Fairy Fierce Cloud is also here." The Eternal Sect Master laughed again. It's been many years since he met them. He is naturally happy to see old friends. He then looked at the side. Both Frozen Heaven and Fierce Cloud are looking at each other. There seems to be invisible spark erupts as their gaze met. Both of them have been Rivals since young.

Eternal Sect Master, Frozen Heart Sect Master and Soaring Cloud Sect Master are the people who are about to reach the Immortal realm. Once they make a breakthrough they will ascend to the upper world. Because of that no one even tried to laugh at them. The strong ones can make fun of themselves. But weaker ones should never show reaction and could pretend that they heard nothing.

They all landed on the Main Seating Area. Some other sect also entered the Arena. They also brought their elders and disciples from their sect.

Among the elders and disciples, there are also some people who attracted many people's attention.

One of them is the seductive woman who was wearing a red, skintight dress and it outlined her alluring curves. Especially under the dress, there were two straight, snow-white legs, and it could be said that they were perfect. Not only was her body attractive, her appearance was also extremely lovely. With round eyes, red lips, and an oval face.

If Tyler was here he knows that she is the Fairy Ember Fox from Pure Blossom Sect. The one who snatched the dragon egg from him. She is pretty popular right now, because her strength soared highly after using the dragon egg she got from Tyler.

And at the side of Soaring Cloud Sect, there are Gibbs, Damon and some sect elders and disciples are present. Gibbs is the guy who guided Tyler into the cultivation world. He wanted to recruit Tyler into his sect but it was ruined by Damon who used his Uncle's name to interfere.

"Uncle, some of our Soaring Cloud Sect Disciples have reached the final session. They will definitely reach the Top 10." Damon said proudly because the one who reached the finals is the one he recruited. He sent a proactive glance to Gibbs. Gibbs ignored him.

Priscilla tagged along with Yu Meixue and arrived at the sect Area Side. She is gonna watch the whole battle of her Junior brother. Tyler bragged that he is gonna show off a little bit till he reaches Top 10.

Yu Meixue greeted the elders. And she sat beside Priscilla. Other Disciples do not dare to sit with her.

Ling Tian along with Yumina and Ella is waiting patiently. They successfully passed the Loser bracket. Now they will definitely give it their all and not get deceived like before. Ling Tian especially wants to punch Tyler's face. He is looking forward to the final session.

Meanwhile Tyler is panicking in the waiting Area because his Dragon Zuzia Suddenly disappeared.

Notes : Fairy Fierce Cloud, Daoist Frozen Heaven are just their Daoist title, not real name.

Chapter 55: The Final Preliminaries

Tyler and Lan Couples were teleported into an ancient arena. They looked around, but they couldn't find anyone. Tyler looked at the Dragon Tattoo on his shoulder. According to Mana this is Zuzia, she awakened a new ability and went to sleep. It might take some years to wake up.

A projection appeared before them. They saw their three Faces appearing on the screen. It is connected by two lines to the other two teams.

<< Welcome to the Final session of preliminaries of Qi Refining Realm >>

<< The competition is simple. You will be given two choices.

-Select a team and reject another. Just like you are seeing their team in your options. Your team is also included in their options.

- If you select a Team and the opponent also selects you, You both will fight.

- If you select a Team, that team rejects you, and the other team selects you. The opponent team is selected in Random.

- If Both Teams rejected you, And the other Team selected their opponent. You can skip a level.

- If you don't select a team within the given time , we will select randomly and you will be banned from selection for the next few rounds.

Just like that, defeat the opponents and try to reach the Top.

All the best >>

The options appeared before them. Tyler randomly selected a Team. The opponent team also selected them.

"Look, that's junior brother Tyler." Priscilla shouted.

Her shout attracted the nearby disciples. There are a lot of grids on the screen showing the fight. As long as one wants to watch something, It will project a small screen in front of them to watch.

"Aren't those Immortal Couples?" One of the Frozen Heart disciples said.

"That guy is so lucky, they will probably carry him to the Top ten." Another disciple replied.

Priscilla smiled when she heard that. According to her Junior brother he is going to show off in this round.

The Competition started. The opponents got teleported into the arena. There is a line between two teams. A powerful barrier is blocking them both. They looked up and saw the countdown. 50, 49, 48...

Tyler observed them. However, judging from their aura and spirit, they were not on the same level as Ling Tian. Tyler unconsciously compared them to Ling Tian.

What Tyler doesn't know is that Ling Tian had gone through it all. He ventured out of the sect in search of adventure. He had faced life and death. Ling Tian never stopped improving himself. He was full of determination and perseverance. He had experienced more than anyone at his age.

"Hey look. That woman looks good. How about I pin her down, while you guys take care of those two." One of the guys on the opposing team said. They can clearly hear each other. Looks like 50 secs is for trash talking.

Lan couples looked at him with cold eyes. That guy is gathering all the attention, while the other two are activating their spell. Their plan is to catch them off guard.

3, 2, 1...

Before even anyone could react, Tyler lunged forward. He went past the Guy who spoke nasty words. He arrived at the two people. The two people were taken back by the speed. But they reacted as they tried to dodge.

But Tyler stomped his feet, ice formed below their legs and trapped them for a second.

"Brain Freeze," Tyler said slowly. It's actually the 'ice needles attack'. But he changed the name for some reason. The opponents felt their mind go blank. When they snapped out of it. All they saw was a fist covered with red energy before them.

Bang Bang

Tyler gave two consecutive punches. Both of them were sent flying while leaving a trail of blood. Everything happened within a few moments. The guy who spoke nasty words turned his head and looked at Tyler. His Jaw almost dropped to the ground.

He suddenly felt two presence behind him. He slowly turned around, he saw Lan Couples standing behind him.

"I sur-" Before he could say anything. Lan Xuero's sword hilt broke his jaw. Lan Yi swepted his legs with the saber and that guy fell down.

He tried to raise his head, but Lan Xuero's foot stomped his head to the ground.

Bang Bang Bang

She repeatedly stomped her foot. The Guy who wanted to Pin her down got pinned instead.

That Guy lost his consciousness as he was teleported out.

<< The Winner >>

Those words appeared before them. But the Lan Couples ignored it and looked at Tyler. They were also stunned by Tyler's sudden outburst.

"Junior Brother, what was that?" Lan Xuero asked.

"Hehe. if you're not fast. I will be stealing the prey." Tyler said and continued, "Now you understand how it feels not to be able to fight?"

Both Lan Couples looked at him in silence. They were not shocked by this. They were shocked by his Cultivation level. When did he reach the 9th stage of Qi Refining Realm? They suddenly thought of that ice foundation building pill. They quickly understood what happened.

Only person like Tyler would dare to do things like this. Because Foundation Building Pills are not easy to get for the Cultivators at their level. So Normally everyone will try to save their pill till they are about to break through the foundation building realm.

But for Tyler, he is rich. He probably stocked up more. They were half right. He just copied some more.

Disciples from the Frozen Heart Sect were dumbfounded.

"What was that?"

"Who is that disciple?"

"Did you look at his footwork? It seems like a mix of Phantom stride and Dragon Soar from our sect. One is used to build momentum to move forward fastly, while the other is used to dodge an attack." Another disciple carefully analysed the situation.

Priscilla smiled sweetly when she saw everyone praising Tyler. She was also a bit shocked by seeing his sudden outburst. She never expected Tyler to be this powerful. He defeated two ninth stages of Qi Refining Realm in a few seconds of time.

Yu Meixue was also watching his match and mumbled, "Show off."

The Frozen Heart Sect is one of the biggest righteousness sects. So they don't have to worry about showing off Talent brings trouble. One can get many resources easily as long as they make more achievements.

'Tyler is probably noted by some elders, who know they might probably try to recruit him in their hall.'
Yu Meixue thought

The tree graph appeared. It showed Tyler moving on to the next round and the other team got eliminated. As for selecting new teams. It didn't show anything.

Other matches are still going on. They were able to rest up a little. Tyler summoned a small screen and wanted to watch Long Tian's match. But it didn't open.

"It looks like they already finished their match." Ling Tian said. He did the same and tried to watch Tyler's fight.

After some time. It showed two teams again. Tyler and the Lan Couples randomly selected the one with a man and 2 women. The countdown started again. This time, they got teleported to their opponents.

They appeared in a different type of arena. Tyler and Lan Couples observed them as their opponents did the same.

"Harem?" Lan Xuero mumbled.

"Reverse Harem?" At the same time the opposite male mumbled. Both of them looked at each other. Others felt like they saw sparks colliding in the mid air.

Soon the countdown ended. Tyler quickly appeared before the Three. It was easier to catch them off guard for him because enemies are sticking together.

But they were not like people from before, they easily dodged the attack. Tyler's mouth twitched. He chased after one of the girls.

Lan Xuero appeared before the man as she swung her sword. Lan Yi attacked another girl.

Tyler sighed. He couldn't fight 3 on 1 now. Because they were scattered. He easily dodged the incoming spear attacks. He froze her legs and used 'Brain Freeze'. But instead of punching he grabbed her by the neck and lifted her. He easily captured her.

"Why are these people weak?" Tyler mumbled. The girl who got captured, mouth twitched. What do you mean by weak? You are just abnormally strong. That girl thought.

He saw the opponents using a lot of spells and attacks as Lan Couples were able to parry them easily with different moves. Lan Xuero was so strong, she was just at 8th stage of Qi Refining Realm but was able to attack the 9th stage of Qi refining realm easily.

He was not so surprised because they are just a stage higher, doesn't mean they are invincible.

Tyler was in deep thought. Unlike them he had only a few sets of moves and attacks. He decided to learn more spells and moves after returning to the sect.

The other two people noticed their companion's defeat. So they panicked a little. Because of that they made slight mistakes where the Lan Couples took the opportunity to finish them easily.

<< The Winner >>
