Chapter 61: Luck vs Catastrophe

A middle-aged man walked out of the carriage. Tyler tried to look at him but his eyes were burning just by looking at him.

"Found You."

Tyler moved a little to the side. The middle aged man's head moved to the side. Tyler moved to another side, the middle aged man tilted his head towards him again.

Tyler's eyes widened.

"He is here for you." Mana said.

"Who are you?" Tyler asked.

"I have been searching for you for years. Why did you decide to practise immortality? Can't you just stay as mortal and die?" The middle-aged man shook his head.

"Oh I forgot to introduce myself. My name is Feng Feiyan from the Feng Family. My duty is just to turn you back as a Mortal." He said as he took a white flute.

"So, You are here for my sect disciple." Suddenly someone spoke. It was Daoist Frozen Heaven, behind him Fairy Fierce Cloud and Eternal Sect Master.

Feng Feiyan just glanced at them and said, "I only have business with him. I hope you won't try to meddle in my affairs."

Feng Feiyan then emitted a terrifying pressure. But suddenly a big formation started, the elders all stood in a point and activated the formation. Feng Feiyan felt that his power was suppressed even more. He glanced at the formation in disdain.

"Why are you interested in a Qi Refining Realm Cultivator? Esteemed immortal" Eternal Sect Master asked.

'Immortal?' Tyler thought. How the heck was he provoked and Immortal? Also, do Immortals exist in this world?

"I have no time to chit chat." Feng Feiyan snapped his finger. Two golden colour puppets appeared before them and punched them.

"CAREFUL." He shouted and used defence technique. But they were still sent flying. At this time the people in the arena were teleported to another area by the spirit of the secret realm.

Everyone was teleported, Except for Tyler, Lan Couples, Ling Tian, Yumina, Ella, Priscilla and Yu Meixue who are near the Immortal Feng Feiyan. Feng Feiyan interfered with teleportation around him.

"Tyler uses the mode and escapes. He is here for you." Mana suddenly said.

"Mode: Ghost" Tyler said. He turned transparent. He also Activated teleportation talisman. When he was about to disappear along with everyone. Suddenly Mana got pulled out by Feng Feiyan. She turned into a ball of light and got trapped in his hand.

His Ghost Mode was interrupted.

"Hmmm... A Ghost Spirit. But low level" The middle-aged man shook his head.

"Mana!" Tyler was terrified he wanted to move and save Mana but couldn't.

"Don't worry about Mana." Suddenly Tyler heard a voice. It was Mana's voice. Tyler looked at the ball confused, the ball was immediately crushed.

"Nooooo!" Tyler cried. He was about to move forward, Priscilla and Yu Meixue held him back.

"Nice, I like that look on your face." Feng Feiyan grinned.

Daoist Frozen Heaven, Fairy Fierce Cloud and Eternal Sect Master appeared again. They were caught off-guard. Cultivation of an Immortal who descends to the lower world always gets restricted. They won't even be able to use Space power properly. But that doesn't mean they are meat on a chopping board.

Fairy Fierce Cloud swung her hand. Feng Feiyan suddenly felt he was trapped in a billions of thunder clouds. She also made sure a group of white clouds surrounded Tyler and others to ensure their safety.

Daoist Frozen Heaven suddenly made a move. He made some seals and attacked Feng Feiyan with an Beam. Feng Feiyan was instantly frozen into the Ice statue along with his two puppets. Eternal Sect Master took a chain and it expanded and coiled around the ice statues.

"We got him." Eternal Sect Master said. Immortals from the upper realm are walking treasure. As long as they can contain him, they will be able to get his treasures, knowledge.

"Is that all you have got? Weak... too weak." Feng Feiyan's voice resonated and the chains that restricted him got shattered along with the ice. His puppets also easily escaped the confinement.

Feng Feiyan looked at Tyler White, "You are just a normal Qi refining Realm. But three strongest Cultivators in this world are trying to protect you. What an abnormal luck. I can see that someone planted that luck in you."

Tyler was flabbergasted. He always thought of his luck as a problem.

"I would love to see how much your luck can save you from this catastrophe." Feng Feiyan said. He just simply swiped his hand. Three so-called powerful people were blasted away easily.

Feng Feiyan looked at them in disdain. They looked back at him with fear. Nothing can stop him.

Feng Feiyan then summoned a mirror out of nowhere. He placed it before Tyler. Soon an image appeared on the mirror.

"Greetings Elder." A man with a powerful presence bowed from the other side of the mirror.

"Notify the young lady. I caught him." Feng Feiyan said.

The man nodded and closed his eyes. Then he opened his eyes.

"Princess is on the way." The man said.

Feng Feiyan knows it will take some time, so he turns back to Tyler. He glanced at everyone. All of them felt like an Ant before them.

"Why are you doing this?" Tyler calmed himself and asked.

"Hmm... You really don't have memories of those things. Then why did you choose the surname White?" Instead of answering he posted a question back.

"I don't remember. Someone called me that when I was young." Tyler said. He recalled the young man who called him by that name and showed him how to live.

"Hmm... I wonder who that is." He wanted to be divine but he knows he couldn't because of a particular curse the Feng Family was unable to do many things when it is related to Tyler.

He shook his head and looked at Tyler, "I am also curious why someone planted Luck in you. Well it doesn't matter. I wonder if that luck can even stop me."

He took a step forward, a spatial crack appeared and he was thrown into space.

"Finally we did it." Eternal Sect Master sighed in relief. A great calamity just ended. The two puppets stood there motionless. Daoist Frozen Heaven arrived near Tyler and others. While the other two flew towards the mirror and the puppet to check.

"Greetings Sect Master." They all bowed.

Daoist Frozen Heaven nodded and looked at Tyler, "Don't worry. Our sect will never even give up a servant disciple to others."

Tyler felt warm. He suddenly thought of Mana which turned his emotion into sadness.

Others couldn't believe what just happened. Suddenly the two puppets moved, its hand pierced through eternal heaven sect master's chest.

Fairy Fierce Cloud escaped and landed near Tyler and others.

A spatial crack appeared, Feng Feiyan appeared again. Eternal Sect Master was gravely injured; he also moved behind Daoist Frozen Heaven and others.

"Are you ok?" Daoist Frozen Heaven asked.

The Eternal Sect Master nodded, "I won't die."

"Tsk... Seriously. That spatial crack opened using the secret realm really caught me off-guard. 90% chance I could have avoided it, but your abnormal luck." Feng Feiyan shook his head.

Suddenly he sensed something, he turned around and knelt down before the mirror. Everyone was shocked, because even the immortal was kneeling down before someone.

A young girl's silhouette appeared in the mirror. Tyler and others couldn't even see her face. Same goes for Daoist Frozen Heaven, Fairy Fierce Cloud and Eternal Sect Master.

Behind her many people appeared. They were sitting in a row like watching a show.

"Proceed." The Princess said.

"Yes ... Young lady- Princess Feng." He nodded and got up.

"Hmph... Ants... Remember to bow down in front of the princess." He shouted and emitted a pressure. Everyone knelt down except for Tyler, Lan Couples, Ling Tian team, Priscilla and Yu Meixue.

"Oh... Due to the remnants of spatial crack my pressure didn't reach you." Feng Feiyan said.

"I can sense great luck on him." The Princess said.

Feng Feiyan was eager to prove himself before the princess. So he swiped his hand in the air, the spatial cracks disappeared. He walked towards Tyler slowly.

Everyone felt heavy pressure.

"Now I want to see how your luck will save you." Feng Feiyan said.

Suddenly music appeared all over the world.

Feng Feiyan : (@_@)

Every creature in the world looked up in the sky. Even the princess looked curiously.

[HELLO to everyone in this world... Hello Zi World.... Out of three thousand world's, this time your planet is so Lucky.]

Feng Feiyan looked at Tyler. Tyler was even more shocked. No matter how many times that person tries to move closer to him something unexpected happens. He is now more afraid of his abnormal luck.

[Do you 'atom and molecules' know that there are Three Thousand worlds in the lower realm? And I already appeared in many worlds. This is the first time I am appearing here]

The voice was speaking in a different language but everyone in the world could understand it.

"I think I heard of this before. The real Cultivation cc." The Princess said.

Chapter 62: Cultivation CC

Many Many centuries ago, Qi mysteriously appeared in all three thousand worlds. The plants and animals began to transform naturally, and were able to adapt to Qi. Only humans and other races were unable to adapt to the environment. They were not able to hunt. Many countries were obliterated by plants and monsters.

One day, immortals appeared on these planets from the upper realm. They taught people how to cultivate and they taught them how to make pills, talisman, formation, weapons.

Then they will select the best of the best in each category on each planet and send them to the upper world. After many years those immortals left. But the tradition remained. The immortal also left a spirit called CiCi. That spirit's responsibility is to visit each planet and find the best of the Random categories and send them to the upper world.

<< Welcome to Cultivation CC. Every century, we conduct a meticulous selection process where we randomly choose one planet from the vast array of three thousand worlds in the lower realm. Our mission is to identify and select the finest individuals in each designated category from these worlds. Those who are chosen will be granted the extraordinary opportunity to ascend to the higher realm.

In our selection process, the categories are divided as follows: categories assigned odd numbers pertain to the cultivation realm, where we seek individuals who are best among that realm. In contrast, categories assigned even numbers pertain to the random category where they are best at the specific category. This dual approach ensures a comprehensive and fair evaluation of the best talents across different domains. >>

Feng Feiyan was dumbfounded.

<< Let me warn you first. If you try to obstruct the cultivation cc you will be punished. >>

<< The First category is the strongest Qi Refining Realm Cultivator. We use extreme Karma to calculate and select the result. So don't worry.>>

<< The Candidates are - Kong from Western golden Forest >>

An image of a monkey appeared in the sky. The monkey is sleeping in a big pot of fruit wine without even knowing that the whole world is looking at him.

One of the monks in the western continent said, "Go to Western Golden Forest and bring this monkey. We should take it as our disciple, If it is not selected."

<< - Pearly from Mermaid clan. >>

It showed a beautiful girl with a half fish body sitting on a mermaid. She looked surprised while looking above. It looks like she is also watching the cultivation cc.

'There are Mermaids in this world.' This is what many people thought.

<< - Ahmad from Hallal Hall>>

The Image shows a man with a beard. He is dressed in a white thobe. On his head, he is wearing a red and white chequered keffiyeh, also known as a ghutra or shemagh, which is secured with an agal, a black cord. He looked at the sky and smiled.

<< Ling Tian from Clear Sky School >>

Now it shows Ling Tian. People who attended the competition were dumbfounded. The strongest one is actually nearby. Ling Tian couldn't help but smile.

"I can guess who is the last one." Feng Feiyan sighed.

<< Tyler White from Frozen Heart Sect >>

Tyler was surprised. He really didn't expect to be in the list. Suddenly five slides with the candidate's face appeared.

<< The Strongest Qi Refining Realm Cultivator in the world is Tyler White. >>

Tyler's live video is shown in the sky.

<< Congratulations, you are given 5 points. You can use these points to bring additional people with you. 1 point for mortals, 2 points for a Qi Refining Realm, 3 points for Foundation Building Realm, 4 points for Golden Core Realm, 5 points for Nascent Soul Realm and that's all. Those who above that realm are not allowed.>>

Tyler was speechless. He didn't expect things would change like this.

<< You have five minutes to choose.>>

"Like hell you are going." Tyler heard a voice near him. He doesn't know when Feng Feiyan appeared near him.

Feng Feiyan slightly tapped on Tyler's Chest. Tyler vomited blood as he knelt down. His spiritual energy is rapidly decreasing along with his realm.

8th stage of Qi Refining Realm

7th stage of Qi Refining Realm

.

.

1st Stage of Qi Refining Realm

Then Tyler's mind went blank, he lost all of his Cultivation and turned into mortal.

Feng Feiyan coughed out blood, "Tsk that curse."

"Smart." The Princess praised Feng Feiyan. The group of people behind her cheered like watching a show.

There is a curse placed on Feng Family. They were unable to locate Tyler. They are not allowed to injure Tyler.

Feng Feiyan was able to manage the backlash. Everyone in the world saw how the Genius was reduced into mortal within the second, they were horrified.

Suddenly a big rumble happened in the sky.

<< Those who challenge the Cultivation CC are punished. >>

A lightning bolt appeared and went straight to Feng Feiyan's head. It disappeared inside him.

"Aaahhhh." Feng Feiyan screamed. The lightning bolt went into havoc inside his body. He felt weak and fell down. He quickly stuffed some pills.

<< Sorry for the delay. Since Tyler White is not eligible anymore, the winner has been changed. >>

<< Ling Tian from Clear Sky School. >>

Ling Tian's face appeared in the sky. Yumina slightly touched Ling Tian's shoulder because he was slightly frustrated. According to the cultivation cc he is weaker than Tyler. He is not happy getting this opportunity this way.

<< You will get five points. Choose the people whom you want to ascend.>>

"I am taking these two girls with me." Ling Tian quickly said without any hesitation.

Yumina and Ella smiled as they held his hand from both sides. Ling Tian smiled back and looked at Tyler with complicated emotion.

<< If you want you can tell people something before leaving.>>

"Can we bring Tyler with me? He is just mortal, right?" Yumina asked the question.

Ling Tian doesn't like this idea.

<< You can. Ling Tian still has one point left>>

"If you try to select him. I will cripple you too." A voice appeared from the side. Ling Tian and others were scared because Feng Feiyan was standing beside them.

"Don't worry, Esteemed Immortal. We won't help him." Ling Tian pulled Yumina and Ella , then said.

Soon a beam of light appeared and Ling Tian and others were pulled into it. They disappeared. Many people in the world looked at them with envy. A chance to go to the upper world is what many people in the lower world are yearning for.

<< Next category is random.... Best Formation Master >>

<< The candidates are >>

Just like that, Cultivation CC continued. Tyler was still in a weak state held by Yu Meixue and Priscilla. He lost his Ghost Spirit, He lost his Cultivation but Tyler's eyes didn't dim. He is looking at the Feng Feiyan's face as well as the people in the mirror.

He has no idea why this is happening. Why are they hellbent on making things difficult for him?

"You must be wondering why we were targeting you." Feng Feiyan said. Then his mouth curved into disdain.

"Well I don't know about that. But I am sure that you guys are afraid of me." Tyler said.

"Afraid ? Of you?" Feng Feiyan mockingly smiled.

"Oh then why did you abolish my Cultivation? Isn't it because you guys are scared? Am I wrong? Why would an immortal have to suffer like this just to cripple his Cultivation?" Tyler said. Since they are enemies no need to be polite.

"Also, Who is that bitch?" Tyler pointed at the mirror.

The people behind her were stunned. Feng Feiyan was raging in anger, a fierce pressure descended like he was about to kill everyone. The pressure touched Tyler. Feng Feiyan got backlash again.

"Dammit. I will tear those mouths of yours." Feng Feiyan screamed.

"Stop it. Uncle Feng. " A crisp clear voice resonated. Feng Feiyan stopped his actions.

"Dogs barking at pedestrians, doesn't mean we have to bark back at them." The Princess said.

"I don't understand why an Immortal is afraid of this Dog? Even afraid of telling the reason? Is your face is ugly? Why is it covered by light?"

"Insolent. Our Princess is the one number Beauty in Feng Grotto Heaven." one of the youngsters behind the princess shouted. Princess Feng touched her head with palm.

"So you guys are from Feng Grotto Heaven." Tyler mumbled.

The people were dumbfounded. Princess flicked her finger and the guy who revealed the location was sent flying.

"So what if you know about our place? Can you even cultivate again?" Princess Feng said. She looked at Feng Feiyan and said, "Uncle, just stay in the mortal world for the next 200 years. Wait for him to turn into ashes. If he gets any opportunity, just snatch it."

"As you command Princess." Feng Feiyan bowed.

He looked at Tyler and was dumbfounded. Because Tyler is looking at him eagerly.

"What are you looking at?" Feng Feiyan asked.

"According to the pattern, if you say those magic words, I will get another chance to escape." Tyler said seriously.

"What? Magic words? Don't count on your abnormal luck. Let's see how you can escape this time." Feng Feiyan said.

Tyler smiled. Feng Feiyan said those words.

Feng Feiyan was dumbfounded again. Because everytime something happened when he said those words.

Suddenly a spatial crack appeared. Feng Feiyan easily dodged it with disdain. He looked at Daoist Frozen Heaven and others.

"You guys are still tryin-" Before he could speak one of his puppets punched his face and launched him into the space crack. Another puppet flew to the space crack to save him.

Chapter 63: Tyler's Serendipity: Explained

In the boundless expanse of the universe, within a cluster of twinkling stars, there existed a galaxy where planets and moons were meticulously arranged like chess pieces on an enormous chessboard. This galaxy was the domain of an immensely powerful and enigmatic figure.

At the heart of this galaxy resided a colossal Neutron Star. It radiated an intense and brilliant light, yet curiously, the nearby planet orbiting it appeared unaffected by its fiery presence.

This planet was a marvel of natural diversity, experiencing all four seasons in their full splendour. It boasted every kind of weather imaginable, from gentle spring rains to harsh winter storms. Four magnificent heavenly gates stood guard over this planet, each leading to vast, hollow spaces of unimaginable scale. These gates towered to incomprehensible heights, reaching far beyond the ordinary limits of vision. Beyond the southern gate lay a radiant realm, a bright world adorned with clouds in every hue of the rainbow, a sight of surreal beauty.

Amidst this celestial wonder, a grey-haired elderly man sat before an enormous chessboard, its surface gleaming under the starlight. He was deeply engrossed in a game of chess, a game he played against himself. His fingers deftly manipulated the black and white pieces, moving them with deliberate precision. The piece he held between his fingertips seemed to shift in colour, sometimes appearing dark, sometimes white, and occasionally displaying a curious blend of both. The transformation of the chess piece was subtle yet constant, symbolizing the intricate balance and perpetual flux of a certain person.

He looked at the chess piece and said, "Great Fortune comes with Misfortune. As long as you walk past the Misfortune, only fortune awaits you."

"I already did everything I can. From now on I won't help you until you form Nascent Soul Realm. " The elderly man said. Behind him stood seven disciples who were glowing with luck.

"Master... Is he also an experiment?" One of the disciples asked.

"He is not. Fu Yun. Did you choose a person?" The elderly man said.

After contemplating for a while, Fu Yun cupped his fists towards his master and directly asked, "I wonder who will Master recommend for me to devour to seize his cultivation level as well as luck to break through to the Heaven Immortal Realm!"

"The person I recommend is this one..."

The chess piece in his fingertips suddenly turned grey from half-white and half-black.

Fu Yun was startled, "This person? He is just an insignificant ant from the mortal world. He somehow got lucky because of a piece never melting ice you placed it on mortal realm. He is not worth it. Moreover, his current cultivation level is so weak. Even you have to personally interfere for him to learn the basics of Cosmic Chess Domain"

The Basis of Cosmic Chess Domain is the Chess Spell that Tyler learned in Ghost Village.

"It's your choice. He is like a small seed where I snatched it from another place and planted it in this small world. The Never Melting Ice success rate is too low. But he still succeed in first try. This shows that this person has a fate to attract a lot of luck." The elderly man said.

"Doesn't that chess piece look weak? Is he gonna die?" One of the disciples asked. She looks extremely gorgeous with a devilish smile on her face.

"He may or may not. It's up to his luck. I am not gonna help him any longer. But if he survives this. I can guarantee you that he is the best candidate to devour." The elderly man said.

His disciples were interested. Especially the one with a devilish smile. Unlike others her way of devouring luck is a bit special. She is planning to snatch it once she has a chance.

The Elderly Man smiled slightly. Just as he planned he Piqued his disciples interest on Tyler White.

Tyler did not know that an Immortal Emperor was targeting him. Neither did he know that his entire life, from the time he was born until his death in the future, was all planned.

The only thing that both people don't know about is the Copper Pot, which actually changed Tyler's Life.

Zi World

Eastern Zi Continent

<< The powerful Nascent Soul Realm Cultivator in the world is Fairy Ember Fox >>

Soon Fair Ember Fox along with her senior sister were taken away.

The only people who don't care about the announcement are Tyler and others in the arena.

The whole place is filled with silence. The people in the mirror were dumbfounded. They looked at Tyler in disbelief.

Tyler looked up in the sky. After Feng Feiyan got ambushed. He felt something left him. It's kind of a feeling that he doesn't understand. But he felt relieved for some reason.

Princess Feng noticed something.

"Your presence looks different now." Princess Feng said.

Yu Meixue moved and attacked the mirror. But even with a full fledged attack, she was not able to leave a single scratch on it.

The Princess shook her head in amusement. For her, It's like watching monkeys in the zoo.

"I don't like her." Priscilla said.

Tyler nodded and looked at the puppet, "Huh... Hello . Can you break that mirror?"

The puppet looked at Tyler and disappeared. It appeared near the mirror and punched. The mirror shook but that's all. He threw more punches.

Cracks began to appear in the corner. The princess didn't even care. She is just sitting and watching.

Suddenly the puppet stopped and arrived near Tyler and others. A hand pierced its body from its back.

"Because of you I lost Two puppets." Feng Feiyan's powerful aura raged. Priscilla, Yu Meixue and Lan Couples were instantly knocked down.

Tyler is still standing because Feng Feiyan is already miserable, got cursed and thrown into a void for a couple of times. Feng Feiyan fully aware of the dire consequences if he tries to touch Tyler again.

"I know... You will try to save him." Feng Feiyan mocked the puppet, "I didn't expect there is still a will hiding inside you. Looks like I have to refine you more."

"Uncle Feng. Make sure to confine him in a mortal city. Just don't let him leave. Put a Formation and make sure that he can't even sense a single spiritual energy." The princess said.

Tyler sighed. He understood that his abnormal luck was gone. Because this time nothing happened when Feng Feiyan got closer.

"I want to see- " Feng Feiyan stopped the sentence in the middle. He looked left and right. Also in the sky. He is not sure when another misfortune strikes him again.

"Looks like he ran out of luck." One of the person in the mirror said,

Suddenly Feng Feiyan guarded himself. Even the princess and others were confused. Because Tyler White is laughing. He is laughing like an evil villain.

At the same time, Tyler sensed that his dragon 'Zuzia' wanted him to release her. It also wanted to fight. But Tyler doesn't even have a single bit of Qi in his body. So he ignored it.

"Why are you laughing?" Feng Feiyan asked warily. He couldn't even use his divine sense because of lots of restrictions in his body. It is not easy for an immortal to wander in a mortal world. Most of the techniques were lost in time Or else Feng Feiyan might be able to easily locate Tyler just when he arrived.

"Didn't you guys notice what the final category is?" When Tyler said that Everyone looked at the sky. They didn't notice it. Princess already noticed the category. So she was even confused. Why is he happy for this category?

Right now, The cultivation cc is introducing the candidates.

<< Sea King from the chaotic sea. The next candidate is Tyler White from the Eastern Zi Continent>>

The live video of Tyler White appeared on the sky.

"What is that? Why does your name appear again?" Feng Feiyan was confused. He threw the puppet away and caught Tyler with a strong grip. Tyler is a mere mortal now. He couldn't even escape.

"Uncle Feng, Don't touch him." Princess shouted.

The curse activated for hurting him. At the same time

<< Since you interrupted the selection again and provoked the dignity of Cultivation cc. Accept the 10x punishment.>>

Bolt of lightning appeared from the sky and entered into Feng Feiyan's body. The live is still going on and everyone can see Feng Feiyan getting punished.

He rolled on the ground. His internal organs were shaking.

Suddenly the puppet which was on the verge of breaking apart turned around and pinned Feng Feiyan to the ground.

"What ? What is the category?" Feng Feiyan felt mad. He has never been humiliated like this. The whole world is watching his disgrace. He wanted to destroy this whole world.

"Listen carefully." Tyler said.

Everyone looked up. The ones inside the Arena like Priscilla, Yu Meixue, Lan Couples and Sect Masters didn't notice it. So they looked at the sky.

What is Tyler best at ? To get in the Top 5 in the world.

Chapter 64: The Rich Cultivator

While Tyler was trapped in the Arena. Another category was announced which Piqued interest of all the people in the world. Wealth is something that everyone would love to have.

<< The Richest Being in the world.>>

<< The first candidate is Northern Fairy from North pole Palace. The next one is Monkey King from Mountain Rain Forest>>

It showed a beautiful woman and giant monkey respectively.

<< The third one is Tiger King from the Endless Darkheart Thicket >>

"Didn't you guys notice what the final category is?" Tyler said. He is already paying attention to the announcement.

<< Sea King from the chaotic sea. The next candidate is Tyler White from the Eastern Zi Continent>>

"What ? What is the category?" Feng Feiyan, who got cursed, punished and was crushed under his own puppet, asked.

"Listen carefully." Tyler replied.

Everyone looked up. The ones inside the Arena like Priscilla, Yu Meixue, Lan Couples and Sect Masters didn't notice it. So they looked at the sky.

What is Tyler best at ? To get in the Top 5 in the world.

"He won't be able to move, right?" Tyler asked as the puppet nodded.

Tyler sighed in relief. He walked towards Feng Feiyan.

<< The Richest Being in the World is Tyler White. >>

Soon everyone in the world looked at Tyler curiously. In the sky, the live video of Tyler started when he started walking towards the Immortal.

"What are you trying to do? You mortal can't even hurt me." Feng Feiyan mocked him.

Tyler : "WomP WOmP"

Feng Feiyan: "..."

"Physical Damage is not possible, But Emotional Damage."

Everyone in the world jaw dropped on the floor. In front of all living beings in the world he placed his foot on Immortal's head. The puppet also binded Feng Feiyan's mouth so that he couldn't shout.

A Mortal stomping an Immortal.

For the coming centuries, this scene will be portrayed in many poems, stories and History.

Tyler turned to the mirror, his eyes burning. But he still looked at the Princess and said, "Mark my words. I don't know who you are? What grudges we have. But You already gave me a reason. One day I will come to your Grotto Heaven or whatever it is and make you people Regret."

Tyler turned around, Tears almost flowed out. He is so weak he isn't even able to stare at her properly.

"I am waiting. " The Princess simply replied.

She then turned to Feng Feiyan who looked so miserable.

"You are a total disgrace Feng Feiyan." The Princess said with a cold voice. She didn't even call him 'uncle' this time.

Feng Feiyan cried.

"Your only task is to find him and cripple him again. If you do that. I will destroy this whole planet for you?" She said it was like destroying a sand castle from the beach. She then made a motion in hand and the whole planet started to shake. She stopped it.

Hope began to appear in Feng Feiyan's eyes.

Tyler and others were dumbfounded, they were surprised and terrified by this unknown Princess power. If she is so powerful, why can't she kill Tyler from faraway. Many questions appeared in Tyler's mind.

"Use the Talisman in your soul and escape." The Princess said. Feng Feiyan nodded and he disappeared. He is not even in their Galaxy now.

The Puppet looked at Tyler one last time and disintegrated.

"If your Cultivation reaches a certain height. The curse won't work. So be careful." The Princess said. The mirror also disintegrated into nothing.

<< Congratulations. You are selected to go to Upper Realm.>>

<< Since you got interrupted last time. I will give you 16 points.>>

<< Congratulations, you are given 10 points. You can use these points to bring additional people with you. 1 point for mortals, 2 points for a Qi Refining Realm, 3 points for Foundation Building Realm, 4 points for Golden Core Realm, 5 points for Nascent Soul Realm and that's all. Those who above that realm are not allowed. >>

Tyler looked at Lan couples - 4 points, He looked at Priscilla 7 points. He gave Yu Meixue 16 points. He lacks 6 more points.

"Don't worry about me. You can just take those three with you." Yu Meixue said. Going to the upper world is a dream for every Cultivation.

"Can I get Six more points?" Tyler asked.

<< Oh I can. But in the special category you will receive a lot of currency from that world. So that you can start as Rich there. If you don't want that then I can->>

"I don't want it."

<< Alright. You get additional 6 points.>>

The spirit Cici didn't speak anything and went straight to the point.

"I chose these Four people beside me."

Yu Meixue was touched. She felt that debt is only growing.

<< The Whole world is watching you can say anything to them.>>

"Howard, I know you are watching this. This is the final goodbye I guess. Lisa, Take care of him. Also congratulations ." Tyler said. He paid for some channels to get information about his apprentice.

Inside the mortal world, which is isolated by ancient formation. Howard, who is carrying a little kid about four years old, is looking at the sky in Tears. Lisa patted his back.

"To all my managers. You can keep the white Auction hall. It is all yours."

Manager Marco, Manager Mei, Madam Zi and all other managers were jumping in Joy.

He then looked at Sect Master Daoist Frozen Heaven.

"Under my mansion there are millions of spirit stones." Tyler threw out information like throwing a bomb.

"Low grade ?" Daoist Frozen Heaven asked.

"Mid grade." Tyler shook his head and causally threw another bomb.

Millions of Mid grade Spirit stones. That is something even a lot for a Top Sect like Frozen Heart Sect.

"Find my apprentice from the mortal world. And take care of his family."

"I promise. If any of his descendants have aptitude for Cultivation, I will take them as my apprentice."
Daoist Frozen Heaven patted his chest and gave his word.

"Also Give ten thousand mid grade spirit stones to Gibbs from Soaring Cloud Sect." Tyler said.

In Another part of Eternal Secret Realm. The Elder slapped Damon and said, "From now on I will support Gibbs on becoming Hall master."

Damon just looked up in the sky and sighed. He is utterly defeated.

A Beam of light appeared. Tyler, Priscilla, Yu Meixue, Lan Xuero and Lan Yi were pulled up. They looked at the world with emotions.

"If one day we become so strong. We can come back." Yu Meixue said.

Others smiled as they disappeared.

Tyler and others were flying in a void passage. They are covered with a light which protects them from the vacuum.

Everything is so dark. They couldn't even see anything other than themselves. They didn't even feel like moving. Then a portal appeared and they were thrown out into another Void.

Suddenly shining stars began to appear. Tyler and others don't know that those dots are individual Galaxies.

Then a portal appeared and they were pulled into it.

They were thrown into the Void passage again. A spatial crack appeared with Green Light. A Young Boy who is wearing a different dress they have never seen before appeared before them.

"Oh.. This is The Ancient Method of Artificial Ascension." The Young Boy said via spiritual consciousness. He didn't even have a protective layer like them. He was able to travel in the void easily. Unlike them who were fixed in the position unable to move. He was moving like fish circling around them. On his shoulder a girl the size of a palm is sitting. She has cute Green butterfly wings.

Tyler and others were flabbergasted.

"Who are you?" Tyler asked using voice transmission.

"Oh.. Sorry Tyler. I can't say that. But the Past Me will meet the future you. Or should I say the past me already met the future You?" Everyone was confused.

The little fairy on his shoulder pinched his cheeks.

"Oh sorry, Eve." The Boy laughed awkwardly.

"Say cheese." He took a cellphone and snapped a selfie.

Again Everyone was dumbfounded.

The Boy kept his mobile and looked at another portal.

"It's time huh."

"Time for what?" Tyler asked.

"I hope the Timeline won't change that much." The Boy didn't reply instead just mumbled.

When they were about to enter the portal. Another Spatial Crack appeared. A powerful light of destruction appeared. It is locked on Priscilla, Yu Meixue and Lan Couples except Tyler. They felt like death was approaching. Even their souls will get obliterated.

"Switch." The Young Boy said.

That Light of destruction turned into flowers and fell on them. The feeling of death also vanished.

"Who are You?" A voice appeared in the spatial crack. It is the voice of the Princess.

A sparrow appeared on the mysterious Boy's hand and he looked at the spatial crack.

Glitch

Whole Universe glitched. No one noticed except the Boy.

"If I interfere more, the Timeline will change huh." He said internally. Then the sparrow vanished. He simply waved his hand and closed the spatial crack.

He turned to Tyler and others then said, "According to the original Timeline, You guys are Dead and Tyler is the only one who survived. To not change the Timeline, do as follows."

Before they could even understand what was happening, the Boy pointed at their head. A Lot of information appeared in their mind.

Then he snapped his finger. Tyler and others were scattered and thrown away into the portal.

The Mysterious Boy is floating in the void while thinking deeply.

"What are you thinking?" The pixie in his shoulder asked.

"I forgot to ask Tyler If I could borrow his copper pot for sometime. Well anyways... Doesn't matter. That thing only works when -" He opened a spatial passage and disappeared while talking.

Chapter 65: Offshoot Tale

Chapter 1 : Howard and Lisa

This happened after Tyler left in the pursuit of cultivation.

"So what are you gonna do? Mr. Howard?" Lisa asked.

Howard blushed. He doesn't know how to have a conversation with a girl.

First thing Howard did was to enter Tyler's study. He always loves to read every book Tyler collects. He saw some of the books were missing. He thought Tyler took them with him. So he doesn't care. What he doesn't know is that Tyler took the book that contains little information about the copper pot. Whether they are true or not, he doesn't want anyone to find out about it.

Lisa stayed with Howard, took care of his basic needs. Even after a month Howard is still felt shy speaking to Lisa

"Nope. It annoys me more." Lisa said.

"I am sorry." Howard Apologised.

"Not good. We should do that. After that you won't feel shy facing Girls anymore." Lisa said seriously.

"Is there a way?"

Lisa nodded and dragged him in the room.

Next day, Howard became like a puppy following Lisa everyday. Even Lisa regretting it a little bit. Just like that, years passed.

One day

"I'm not very good with words. But all I know is that I love you. If you allow me, I will take care of you for the rest of my life. Will you marry me?" Howard said that.

"Can you give me a day to consider?" Lisa asked.

Howard nodded hopefully. The worst she can say is 'No' right?

Next day Lisa is nowhere to be found. She left a Letter that she is gonna travel to the place she was born.

Howard was dumbfounded.

"So that's why she asked for some time. That's right, she needed time to pack her things." Howard mumbled to himself.

Howard was heartbroken. He didn't even know what he did wrong. He unknowingly walked around the city searching for her. Even though he knows that she left, he unconsciously searched for her. The months passed. One day, the doctor in the city came to find Howard. The doctor felt guilty and said something.

Howard's face turned serious. He immediately hired a carriage and left the city. He went to a village.

He walked towards a house with hesitation. After mustering his courage he knocked the door.

Lisa opened the door. Lisa was frozen in shock. But Howard's eyes were on her stomach which was bulging.

"H- Howard , I - ..."

"Am I not a worthy father? Why did you leave me?" Howard asked, he was on the verge of crying.

"I was a prostitute before meeting Mr. Tyler. I don't want an innocent boy like you to marry a dirty girl like me. Please leave" She said and was about to close the door.

But Howard used his hand to block it, "Ouch."

"Are you ok? Howard!" Lisa panicked.

"Master always says this. Past doesn't matter." Howard said.

"So it is ok for a girl to enjoy her youth lavishly with her body and find a good guy to marry after she had all her fun?" Lisa asked.

"What are you saying? You are not like that. Master said,

Past doesn't matter. It doesn't mean I don't care about the past. It means don't stay in the past. You just have to move on." Howard said.

Lisa took a deep breath and said, "Alright. Then promise me one thing. If we ever have a fight in future. You should never mention my past out of anger. Also marry a second wife, to make me feel less guilty."

Howard was dumbfounded. Master was right. Girls are complicated.

Chapter 2 : The Sword called 'Swift'

After getting Token from Tyler, Ling Tian and Yumina left the village after reaching a certain age.

They showed the Token to the government officer where they were taken to the minister. The officers didn't dare to snatch the tokens from the kids because if someone did that their generations might get obliterated.

Ling Tian and Yumina were taken to the disciple selection. They were selected to a second rated sect called Clear Sky School.

After reaching the second stage of Qi Refining Realm. Ling Tian and Yumina went to a blood bat cave for Mission. Their mission was to collect a type of Nitric acid from the cave.

Ling Tian and Yumina were surrounded by many bats. They had no choice but to escape. Ling Tian, who was running , suddenly stopped.

"What happened?" Yumina asked.

"Someone needs help." Ling Tian said as he ran towards another way.

"Wait..." She was baffled for a second and ran behind him.

Soon they reached towards a girl who was stuck between a pile of rocks. Ling Tian and Yumina helped her out. The girl was a little wary of Ling Tian even though he saved her.

But soon she let her guard down when he carried her in his back, while also confronting the bats.

She hesitated for a moment and said, "Go to the left. Then right."

Just like that she led them.

"Isn't it opposite the entrance?" Yumina asked in suspicion.

"Trust me. There is a good thing inside." She said,

"I trust you." Ling Tian said.

The girl blushed. Seeing that Yumina shook her head. This idiot again started rizzing girls unconsciously.

Soon they reached a concealed cave. It is not easy for anyone to notice.

Ling Tian saw a sword.

It's a one-handed light sword which is best for fast attacks and manoeuvrability.

The blade appears slender and pointed, resembling a rapier or a small longsword.

"A Rapier?" Ling Tian grabbed the sword.

Rapiers are known for their thrusting attacks.

Before the girl could say anything he pulled the sword from the ground.

She was so shocked her jaw almost dropped to the ground. The sword is the one which injured her. When she tried to pull, it backlashed at her. At first she was planning to sell the information about the sword and make money. She wanted to share this information to these two. But didn't expect Ling Tian to actually pull the sword.

Ling Tian fell into silence. The amount of information is entering his mind. He is accepting sword skills, movement skills, Cultivation art and other types of inheritance.

Yumina and that girl looked at each other in surprise.

"Hello I am Yumina. This is Ling Tian." Yumina smiled.

The girl blushed at her beautiful smile and said, "I- I am Ella."

"Dyamn, This sword is so Toxic. I will call you Swifty."

Chapter - 3: Yumina's weapon.

Yumina doesn't like close combat that much. She uses a bow and arrow. But she also felt they were so slow.

So she strapped her hand with two crossbows and used her Spiritual sense to control it. Though it was creative. It was not effective at all. The crossbows are heavy. The lighter ones are not lethal. She has reloaded again.

One day she went on a mission with her best friends Long Tian and Ella. She saw how Ella used her giant hammer to kill the enemies easily. She also observed how Ling Tian easily subdued his enemies swiftly.

"I really have to change my weapon." Yumina sighed as she mumbled.

For a year. She tried different types of possibilities to make a weapon. The fireworks gave her inspiration.

She then took a cylindrical shaped metallic tube and placed it in her hand. She then tried to launch energy out of it.

She failed many times. She was able to create energy balls. But was unable to launch it. Then she used the method of fireworks. She blasted a small energy which repelled the energy ball without blasting it.

She almost lost her hand while experimenting. She also used a small formation launcher to make it even simpler.

After that she replaced the tubes with Gauntlets that looked like an actual weapon. The gauntlets look like a giant tiger head roaring.

She was called a genius for inventing a weapon like this. But sadly she didn't leave any records on how to make this weapon and left for the higher world.

The writer closed the book. She is writing books about all the ascenders.

"Next is this book." She took another book, 'The Mortal who stomped the Immortal.'

Chapter - 4 : Princess

"Do you think you can escape?" The princess said as she slowly walked towards the balcony. Magic Circles appeared around her, her beautiful forefinger stroked the air.

A spatial crack appeared.

"Since I can't touch you because of that curse. I will kill everyone around you." She said as she launched a palm attack locking on four people who are with Tyler.

She was watching it with a confident smile.

"Switch."

Her attack disappeared and was replaced with flowers. The princess' smile crumbled.

"Who are You?" The princess asked. A mysterious young boy saved them all.

Suddenly she felt a death threat. Like she will get destroyed in a second. She never felt like this before. But the feeling suddenly disappeared. The spatial gate got closed forcefully by the other party.

She sighed in relief. She might have accidentally offended a big shot who is wandering the void. She thought.
