

## **R. Paradise 121**

Chapter 121

The four contractors who were captured looked at each other and immediately nodded quickly.

“I am willing, willing, as long as you can save us.”

“Sir, should we send a contract?”

An ugly young man rubbed his hands and showed a brown-nosing smile on his face.

“The contract?”

Su Xiao smiled.

As soon as he saw Su Xiao smiled, the contractor was relieved, but he did not know that Su Xiao's smile did not mean that he was happy.

“I am a very fair person, she has 5,000 paradise coins to buy her life, you will be the same.”

The four contractors changed their faces and struggled in their minds. Should they immediately pay money for their lives, or they used the 20,000 paradise coins to negotiate with Su Xiao?

To be exact, the four people didn't have 5000 park coins at all, they prepared to replace money with equipment.

“You are Xi lolo, right?”

Su Xiao looked at Xi lolo, and she nodded.

“Blindfold the four's eyes and tie their hands.”

Hearing Su Xiao's request, Xi lolo was a bit hesitating.

“If they resist..., boss, I am weak.”

“You just do it, I will deal with them if they resist.”

Soon, the four contractors were blindfolded, their hands were tied behind their backs, squatted in a row.

Su Xiao found a chair and sat behind the four people. The rest of people in the room looked at him doubtfully.

The broken ELF appeared Su Xiao's hand, the surface of the large revolver reflected the faint red light.

“Give you three seconds to consider.”

The four blindfolded contractors didn't understand, what is the meaning of three seconds per person.

“One, two.”

“Wait, even if you threaten us, we will not compromise, unless we sign a contract, what can we do if you kill us after we give you the coins?”

The rightmost contractor spoke very fast.

“Three.”

Su Xiao pointed the contractor’s hindbrain by broken ELF and pulled the trigger.

“Boom.”

A bullet formed by kagune was taken out of the gun, after flying in the air for a very short time, it entered the contractor’s hindbrain.

Crack, the contractor’s brain was broken by one shot, and the blood was splashed on the contractor’s faces.

“Ah! Ah!”

The three contractors made meaningless screams, and a contractor whose mental quality was not that good surprisingly got up and fled.

“Boom.”

The contractor who was escaping fell to the ground, and a fist-sized hole appeared in the position of his heart from the back.

The reason why this revolver was called the broken ELF was that the kagune bullet will burst after it entered the enemy’s body.

Although it sacrificed some penetration, the lethality was stronger.

The remaining two contractors knew that the other two companions had died, they got the hint from a temporary adventure group.

Su Xiao did not really understand the four’s behaviors. Since they had already been defeated, they had to bear the consequences of defeat. There were roughly two options.

The first was to fight with the enemy, even if you die, you will die with dignity.

The second was to choose to surrender. Since you choose to surrender, you must bear the loss of defeat. If you talk about any nonsense, you will directly be divided back into the first one.

“Don’t shoot, don’t shoot, let’s talk.”

“Yes, even...”

The words of the two contractors had not been finished yet. Su Xiao fired two shots and killed the two down.

It seemed that these people had not much money. After giving 5000 paradise coins or equivalent items, they may not be able to survive in the reincarnation park.

After Su Xiao shot and killed the first person, the remaining three were definitely dead. Whether they handed the paradise coins or not, Su Xiao would not let them go.

After he fired the first shot, they became enemy, Su Xiao would not do such silly things to let the enemy go.

Xi lolo saw the whole process, gradually retreated to the corner, the look on Su Xiao's face was the same as a big devil.

At this time, Xi lolo was devastated. Just entering the derivative world, she then witnessed Su Xiao fought with Kamishiro Rize and gecko alone. The result was one was dead, another one fled.

After that Xi lol was afraid because Su Xiao was not in the same camp with her.

In the torment, Xi lolo finally survived to the end of the derivative world, and then something let her more devastate appeared, the leader of her camp surprisingly allied with the contractor of enemy camp?

Xi lolo who was hiding in the corner looked extraordinarily poor, looking at the starry sky at a 45° angle as if she will transform into a salted fish.

“How can this become possible? I have never heard of anyone who has allied with the enemy camp BOSS. It's shameless.”

Xi lolo's eyes were full of tears, she felt extremely confused.

Su Xiao did not care about Xi lolo's complicated mood, his main task (3) had been completed.

[Congratulations to the hunter, you have completed the main line (3), you are qualified for the return, the time for staying in this world rest for 5 minutes.]

[Beep, we have detected that the hunter has accepted the 'hidden task: source', the return time is delayed, and the delay time will postpone for 5 days. During this period, the hunter can return to the reincarnation park at any time. If the 'hidden task: source' is not completed and choose to return, The 'hidden task: source' will fail.]

In this way, Su Xiao only needed to complete the hidden task to return.

.....

The time back to two minutes ago, outside of the CCG branch building in the 20th district, a sneaky figure jumped out of the CCG branch building under the night.

The figure was wearing a black robe and a hood didn't know what did he chew.

“At the end of the arrangement, these spiritual bombs will be enough to blow up this branch. Haha, I can harvest at least 10,000 paradise coins this time, no, it will be more than 20,000 paradise coins.”

After the black man stayed away from CCG's branch, he took off his hood and revealed a withered face. If the guy is an actor of a zombie movie, he will not need makeup.

“Brother, I will become big figure one day, so bless me, protect me in my body, hehe.”

The zombie's face made a strange smile because the black substance he chewed in the mouth, black saliva flowed out of the wound on his face, the wound was dry, it will not be possible to heal, the zombie's face was caused by a great change.

The night wind blew the wide cuffs of the zombie's face, and on the dry arm of the zombie's face, there were two reincarnation notifications appeared suddenly.

The contractor could only have one mark, but the zombie's face had two, and the two marks' numbers were connected.

That was zombie face brother's mark, they were twin brothers, their talent skills were very cool, was the same talent, called 'heart reflected heart.'

In the world of the 'Fullmetal Alchemist', the zombie face and his brother were caught by an alchemist.

The direction of the alchemist's research was fusing the human body. In the eyes of the alchemist, if he refines the two people, the ultimate human will be stronger.

Moreover, the alchemist's research had been recognized by the state. If it succeeds, a powerful warrior will be born. If he refines more than a dozen people, once they succeed, the ordinary person will have the hope to fight with the alchemist.

Therefore, the zombie face and his brother were refined and it eventually failed, zombie face luckily survived.

Although his appearance became weird, he had gained two reincarnation marks. But after that, the character of zombie's face became gradually distorted, killing children, killing a family in the derivative world, only saving women for playing with them, which was the thing he often did.

Two reincarnation marks appeared on one person's body, which means that the zombie face could receive two same tasks at the same time. The chance of getting treasure boxes by killing the enemy doubled and the reward for opening the treasure chests doubled because he represented two people.

Whatever you got, you also need to lose, the refinement made zombie face's body almost necrotic. If he wants to repair it, he will need to pay a high price. His strength, agility, physics, and charming attributes could not be strengthened. The only thing that could be strengthened is intelligence.

However, after strengthening intelligence, zombie's face tragically found out that he did not have the talent to become a sorcerer, he could not perceive which the sorcerer was's the basic magical element, so he found another way, he purchased the skill to make spiritual bombs which could also express his intelligence attributes.

The double reincarnation marks made the reincarnation park noticed zombie face, zombie face randomly destroyed in the real world and the derivative world making the reincarnation paradise decided to remove this instability factor, so he was filled out on the hunting list.

Zombie's face was hidden in a dirty corner. His smell was not really sensitive, so he did not care much about the stinky smell around. He waited for more people to enter in the 20th district and detonated the spiritual bombs.

Or zombie's face was waiting for Su Xiao to come to the 20th district. The 20th district was the key point of the original plot. Many contractors liked to look for tasks here, or go to the Antique coffee shop to attach to the original characters.

At this time, the zombie face's body suddenly became stiff, he looked at the front incredibly.

“The main mission has failed? How is it possible! Those dumbs are dead? I have worked hard to lay out the bombs was just to find the opportunity to blow up the contractor of the CCG camp. This is impossible, impossible!”

Zombie face's emotions were out of control suddenly, waving his arms in front randomly.

Crack, dense cracks appeared on zombie face's hands, and a cold voice appeared in his ear.

[Detecting the '12470 (12471) contractor's main line task failed, Began to execute forcibly.]

[Drip, checked that the '12470 (12471) contractor had a double reincarnation marks, and the speed of execution forcibly was doubled.]

Crack, crack, zombie face's whole body wall began to crack, revealing some dry muscle tissue.

“Brother, I am here to accompany you, damn reincarnation paradise, I had long known that you want me to die, I thought that this simple derivative world is welfare originally, But it's a fucking trap.”

Zombie's face became calm down before he died in the few seconds. He had to die long ago in the hands of the alchemist with a burned face.

Crack, zombie face's body was broken, turned into dust and annihilated in the air, the body, the soul and so on all disappeared.

In fact, completing the hunting mission, you didn't have to kill the target by yourself. As long as you gave a reason to reincarnation paradise for executing the target, the reincarnation paradise will immediately execute the offender.

## Chapter 122

In the Aogiri tree's stronghold, Su Xiao became confused because of the tips reincarnation paradise gave.

[Hint: The hunter successfully kills the offender, and the hunting mission is completed.]

[This hunting is completed by the hunter assists to the reincarnation paradise. In view of the first time, for the hunter to complete the hunting mission, we will give the full reward.]

[You get the Bronze honored medal x1.]

[Because the hunter receives the 'Bronze honored medal', the honor store will open after the hunter return to the reincarnation paradise (Location: Hunter's exclusive room)

[Bronze honored medal]

Introduction: You can redeem items in the honor store.

.....

A series of hints made Su Xiao confused, hunting task was completed? What is the perceived range in one kilometer? What exactly did the offender look like?

Scratching his head, though Su Xiao did not understand, the current situation became completely clear.

The main task and the hunting task were completed. He could return at any time, but he must complete the 'hidden task: source' first if this hidden task failed, he would have his attributes reduced.

Regarding the hunting mission, Su Xiao was not confused anymore, and he had some clues.

If his main task (3) fails, he will be forcibly executed. It could be seen that the contractors of the ghoulish camp will face the same fate if their main task (3) fails. The offender should be executed forcibly because his main task failed.

It could be seen that the reincarnation paradise must not like those who offended the rules, and will kill them when it had opportunities.

Su Xiao looked up at Xi lolo in the corner, the sight was clearly saying, 'Why are you still alive?'

Pay attention to Su Xiao's sight, Xi lolo stood up her back straight and took out a parchment full of cracks.

"I have this, the work must have! Even if the main task fails, I will not be forcibly executed, but there are no clearance rewards, the workers will contribute silently to the reincarnation paradise so they can redeem the 'mission failure exemption ticket', 4000 paradise coins per paper, I will not deceive you."

Su Xiao's eyes widen at the sight, the ticket that could exempt from the main line task punishment? This was a good thing.

"You cannot use that, only workers could use 'Mission failure exemption ticket'.

This is our exclusive benefit."

Su Xiao finally understood, workers only needed to survive as long as the task finished. It will be good if they are able to complete the main task. If they fail to complete, they will lose at most 4,000 park coins.

Xi lolo looked for someone to protect her and also took out 5000 paradise coins to buy her life, and now she had ticket worth of 4000 park coins. How many paradise coins did she have?

Workers in the derivative world = richer + the top goal of kidnapping.

It seemed that the profit of doing business in the reincarnation paradise was not small, but unfortunately, the time he stayed in the reincarnation paradise was not long, and he needed to use that precious time to improve his strength.

Between winning the currency and improving his strength, Su Xiao will choose to improve his strength.

"Goodbye, boss, I gained my life again."

Xi lolo's body gradually became transparent, and a space crack appeared behind her, then Xi lolo disappeared.

This amazing scene, except for Su Xiao, the other people in the room were unaware of.

Now Su Xiao could return as long as he completed the 'hidden task: the source'.

The stresses were swept away, Su Xiao suddenly felt relaxed.

"Byakuya, the thing I promised you have been already done, now it is time to leave."

Arima Kisho spoke, even if Arima Kisho doesn't speak, Su Xiao will take the initiative to ask.

"Takatsuki Sen, how are those things prepared?"

Arima Kisho looked at Takatuki Sen.

"It's already prepared, most of them come from China, the United States, and Germany. Although they cost a lot of money, they are very advanced."

The dialogue between the two made Su Xiao confused, Takatsuki Sen did not explain, and took them to the lower level of the stronghold.

Five people came to the front of the basement in the stronghold, many ghouls were guarded in front of the basement. These ghouls' equipment were exaggerated, and some of them even carried the RPG rocket launcher.

"Aogiri tree has this kind of weapons, why do not you take them to fight with CCG."

Su Xiao spoke out the doubts in his mind.

"We don't dare."

Takatsuki Sen's answer made Su Xiao stunned.

"we used these a few years ago, but after we were bombarded by a small missile, we did not use these anymore. We don't use large-scale hot weapons, CCG will not use it as well. This is the rule between us."

Su Xiao got it, they were afraid because of being bombarded by missiles. Sometimes he had sympathy for Aogiri tree. They had to deal with passionate Investigators on the bright side, there were some occasional attacks from the V organization or the military on the dark side, the extent of their misfortune was extremely high.

Five people entered the basement, the incandescent lights turned on, the scene Su Xiao saw made him have some doubts about whether he entered an arsenal.

There were a lot of various munitions on the walls of the basement. There were hundreds of long and short firearms, heavy machine guns, assault rifles, light and heavy sniper rifles and so on.

On a container in the center of the room, there were various explosives. After seeing these explosives, Su Xiao's eyes could not remove.

His shooting skill was 'too accurate', he basically could not shot at the target every time, so he preferred the big power bombs more, throwing out a powerful top machine bomb for a long time.

“Choose it casually, once we have these weapons, it will make it easier for us after getting inside, at least we do not need to worry about the threat from primitive ghouls.”

When Takatsuki Sen was talking, she had picked up a heavy machine gun and carried it behind. She thought for a while and picked up two handguns in the holster on her calf, and then began to carry a large number of belts and pistol clips.

Arima Kisho and the priest also began to choose various firearms. Arata Kirishima stood at the door with embarrassment, as if he could not use firearms.

Su Xiao took an olive green bag which was long and kept throwing the bombs inside, though he put a lot into the bag, he still did not fill up the bag.

After his hand reached into the bag, he put a few bombs in the bag and put one of them into the storage space. He had a different purpose from Arima Kisho who wanted to destroy the 'source,' and he wanted to get the 'source'.

Soon, the bag was filled, Su Xiao's waist hung with more than a dozen bombs for using conveniently.

Takatsuki Sen frowned and looked at the big bag in Su Xiao's hand.

“You don't use guns?”

“My shooting skill, how could I say, it will shoot randomly after the distance is tens of meters.”

Takatsuki Sen did not speak anymore. After everyone selected their firearms, they took on a van and went straight to the 24th district.

The van was very bumpy, Su Xiao was somewhat frustrated.

After arriving at the 24th district, the van did not drive to the underground entrance, but to a desolate place.

In the vicinity of a large stone which was a few meters in diameter, a dark hole appeared.

Needless to say, this must be the entrance that Aogiri tree digs to the underground passage leading to the 24th district.

Entering it, under the guide from Takatsuki Sen, five people rushed to the center city.

It should take a few hours to get there originally. After a clear route, the five people arrived in front of the entrance to the underground central city in just two hours.

Looking down at the entrance, there were many common ordinary ghouls in the center city, the well was blown up, primitive ghouls were killed by Su Xiao and Arima Kisho, and these ordinary ghouls returned to their homes.

Su Xiao was hesitant. What could they do if ghouls in the center city rush up, but he suddenly relieves after feeling the heavy weight of the bag in his hands?

He could just kill them by bombs. What's more, he had Takatsuki Sen, the king of the ghouls beside him. If she can't control these ghouls, she will be better to go to hit a piece of tofu to die.

Five people entered the central city, Su Xiao and Arima Kisho immediately cause a large group of ghouls' panic.

Different from the imagination, these ghouls did not have any idea to fight, they were just afraid because most of their companions were killed by Arima Kisho in the accumulation of time.

Takatsuki Sen looked at the group of ghouls who had escaped, her sight had some sadness.

“Go, let's go to the steel passage, even if the top of the well is blown up, we can reach the middle of the well there, we have to go deep into 'hell'.”

Five people came to a steel building in the central city. After Gao Xiaoquan pressed a few buttons on the wall of the room, the sound of mechanical operation sounded in the room, and a steel channel with a diagonally downward direction appeared on the ground in the center of the room.

Five people stood in front of the steel passage, they had to go deep into the unknown depth and entered an extremely dangerous area.

The five people came differently, and their personality was also very different.

Su Xiao: he was lazy usually, but he could hurt the enemy's key point using the sword in the battle, once he could cut off the enemy's head, he will not miss the chance.

Takatsuki Sen: She was lively and emotional in the human state, but will become a killer and brutal after transforming into kakuja state.

Arima Kisho: He did not have an expression on his face most of the time, because the remaining life of the semi-human body physique was not much.

Arata Kirishima: Positive, warm man, he will be harmonious to whoever he spoke, the strength was unknown.

The priest: He usually smiled, the intention was unknown. Although he looked like a loving old man, he was actually shrewd.

Su Xiao glanced around the four people, his eyes were flashing, he was thinking about the true purpose of these guys.

Among them, there were three people who need to be kept watch at most. The degree of prevention was that Arima Kisho was the third, the second was the priest, and the first one was Arata Kirishima!

A ghouls who had been imprisoned by CCG for many years as a 'kakuhou grower', will his mental state still be positive? This was very doubtful.

Those five people became a team may have five purposes. This was very interesting. Who will be the ultimate winner?

Su Xiao will bet his life, he bet himself to win.

Chapter 123

“Before we set off, I have a suggestion, but I don’t know whether you will accept it.”

Standing in front of the steel passage, the priest rarely gave an opinion. Su Xiao slightly narrowed his eyes. Will the shrewd priest finally show his purpose? Su Xiao thought in mind.

Several people were silent, waiting for the priest’s words.

” then I will say.”

The priest’s attitude was modest, the smile that kept on his face made people wonder what he was thinking.

“The strength of the four is unquestionable, but we will in deeply dangerous after we entered deeper underground. Since we formed a team, we should choose the leader, so that the combat efficiency will be greatly improved, we can also avoid the internal conflicts.”

When it came to that, the priest smiled at everyone.

“Good advice, but we have to listen to everyone’s opinion if we choose the leader, how about oral voting? It can save time.”

Arata Kirishima stopped, showing a sunny smile.

“Ok.”

“Agree.”

“I do not mind.”

Arima Kisho and Takatsuki Sen were taking the lead in making a statement. Su Xiao thought everyone could be the leader. If he is right, he will definitely lose because there are two people who will not choose him accounted in a large proportion.

“Then let’s start the oral voting. Let me first. I choose Arima Kisho.”

Arata Kirishima was the first to choose, Arima Kisho saved him after all, so the choice seemed normal.

“I choose Donato Porupora.”

Arima Kisho chose the priest with an unclear intention.

“I choose myself.”

After Takatsuki Sen selected, she chuckled. It was already the fact that Arima Kisho will become the captain. In her opinion, the priest and Su Xiao will definitely choose Arima Kisho.

“I voted for Takatsuki Sen.”

“I chose Takatsuki Sen.”

Su Xiao and the priest spoke at the same time, and the other three were stunned.

Takatsuki Sen was a little confused, the two men did not choose Arima Kisho.

Su Xiao and the priest looked at each other, Su Xiao sighed: “A cunning person is a cunning person.”

Before Su Xiao voted, the priest had voted, Takatsuki Sen had voted, and Arima Kisho had voted.

If the priest votes himself, the priest may become the captain, which is the situation what Su Xiao did not want to see, so he could only choose between Arima Kisho and Takatsuki Sen.

The intention of Arima Kisho was unknown, he surprisingly voted for the priest. The intention of Takatsuki Sen could be confirmed that was revenge. So Su Xiao voted for Takatsuki Sen.

The priest, the cunning person, did not reveal his purpose, he surprisingly also voted for Takatsuki Sen.

At the end of the voting, Takatsuki Sen became the captain with a stunned expression. Since the captain had been elected, they were about to start the action.

Takatsuki Sen was most familiar with the route, and as the host of the central city, she was now the captain. She naturally took the lead and entered the steel passage first.

After that was Arima Kisho, the priest and so on, and Su Xiao entered the steel passage at the end.

Ghouls' had kagune on their backs which could defend against the enemy's attack from the back, but he was a human, he did not want anyone walking behind him.

The slope of the steel channel was not small, the surface was full of green moss, they did not need to walk at all, just tilt their bodies to keep the body balance and slid down.

Hiss, hiss.

In addition to the sound of sliding sound on the steel passage, there was silence, Su Xiao took out dragon flash. If there was an accident, he could use the dragon flash to defend.

The steel passages were getting steeper and steeper, the speed of sliding was accelerating, the entire steel passage twisted and turned, Takatsuki Sen in front held a flashlight with strong light.

“How long have we slid?”

Arima Kisho spoke.

“Five minutes, you have to be careful after ten minutes. If you can't stop, you will fall into the well, and you will die.”

Su Xiao was shocked when he heard the conversation between the two. His speed of sliding was not slow now. This speed surprisingly had to last for 15 minutes.

And listen to the meaning of the two, the steel channel directly connected to the well, if he accidentally slides directly into the well, he will die.

Now they were like drifting in a river. The end of the river was a deep abyss. What is more terrible was the river was oblique. It was really exciting.

Sliding for eight minutes, ten minutes, fifteen minutes!

“Everyone finds ways to stop.”

Takatsuki Sen in front shouted.

“Hey, Arima Kisho, you kick my waist.”

“Sorry, I cannot open Quinque in time.”

Su Xiao in the end inserted dragon flash into the metal layer of the channel, fires splashed. He stopped after sliding for a few meters.

The priest and Arata Kirishima stopped using their kagune.

The priest was koukaku ghouls and kakuhou on his back shoulder, the kagune's appearance was a sharp cone.

Arata Kirishima was also a koukaku ghouls, but his kagune was a bit strange. The Kagune wrapped up Arata Kirishima's hands which formed two blue-black claws.

Seeing Arata Kirishima's kagune, Su Xiao frowned, he had killed many ghouls, but he had never seen the kagune in this kind texture, this kind of kagune let Su Xiao immediately think of the Quinque Shi, except for the color was slightly different the two had no difference.

”Takatsuki Sen, how far does the metal channel goes?”

The strong flashlight shined towards the end of the passage.

“There are more than one hundred meters, the time is calculated accurately.”

They used their means to move slowly, and Takatsuki Sen first reached to the end of the passage.

“Oh, this is really exciting, I'm going to jump.”

Takatsuki Sen was at the forefront, Su Xiao at the end of the team could not see what happened.

After a heavy thud, Takatsuki Sen's sound came.

“No problem, it looked just like before.”

After a while, another sound came, it was Arima Kisho.

“jumping in the wrong direction will definitely kill you.”

It was Arata Kirishima's voice.

Another heavy thud, the priest behind Arata Kirishima approached forward.

From Su Xiao's point of view, he could only see Arata Kirishima jumped into the darkness, and a heavy thud came.

After the turn of the priest jumped, Su Xiao finally saw what happened.

This steel passage linked the well's wall, and the edge was a bottomless well. If he falls down, he will need the ability to fly. Otherwise, he will definitely die.

On the wall of the wall opposite to the steel passage, there was a row of downwardly iron stairs spread, the iron stairs were fixed on the wall of the well, was about a half meter wide.

What the priest was doing now was to jump out of the steel passage, jumped through the well with a dozen meters wide, and grabbed the iron stairs that was only a half meter wide.

The difficulty was not small, any mistake will cause death!

The priest, who was always smiling, could not smile at this time.

“Byakuya, can you help me to demonstrate first?”

“I am afraid of height.”

If the priest does not jump, Su Xiao does not mind to kick him, he is behind him, it will be very convenient.

“Okay then.”

The priest took a deep breath and jumped out in a few steps.

The heavy thud. The priest succeeded in grabbing the iron stairs in the opposite side.

Now it came to Su Xiao, he put up the dragon flash. He first took a deep breath and looked at the bottomless well. If there is a person who is afraid of height, the person will have the situations of powerlessness, dizziness, and contraction of the bladder.

Su Xiao could not fly, if he makes mistakes, he will become a piece of muddy flesh.

However, he felt that the height of the bottomless well was enough for his time to return.

Su Xiao stepped back for a few steps, squatting, exerting strength under his feet, the moss on the steel passage was slippery, which undoubtedly increased the difficulty of jumping.

He quickly rushed forward, only the rusty iron ladder left in his eyes, and then jumping by full strength.

Jumping in midair, Su Xiao vaguely had the illusion of flying, stretching his arms forward and grasping the iron stairs precisely.

Bump, bump!

Through the time for corrosion, the rusty iron stairs became very fragile, the iron stairs were broken.

Chapter 124

The body fell, Su Xiao immediately threw away the broken iron stairs in his hand.

At this time, if your mental quality is too low, you will immediately close your eyes, but Su Xiao's eyes opened, looking in front.

his palm hooked, Su Xiao tried to hook forward, a feeling of touching an object appeared, his palm immediately gripped closely.

Crack

The iron stairs that he caught was bent because it was pulled, his right arm was in pain because it was pulled, the strength of falling changed.

With a bump sound came, Su Xiao's whole body hit on the iron stairs.

The crisis was over, Su Xiao rolled his eyes. The iron stairs he just grabbed was actually broken. It was unlucky.

As for whether someone had made some traps. Su Xiao immediately denied because he had not gone deep into the underground and it was not the time to infight.

Looking down, the others had climbed down far, maybe they heard the sound, and the four people looked up.

No greetings, no one even talked, and the four men looked down and continued to climb down.

Su Xiao did not care about the four's attitude. Everyone had their own purposes. It was normal for them to leave when their teammates had troubles.

However, they should continue to cooperate for a period of time, the five people needed each other's strength.

A long climb began, Su Xiao had forgotten how long did he go down, a half hour? One hour?.

After a long time, the strong flashlight came up, and Takatsuki Sen had arrived at the bottom of the well.

When Su Xiao stepped on the ground, he only felt his arms sore, and he took out a strong flashlight to observe the surrounding.

The bottom of the well was very empty. Occasionally, they could see half of the pile of bones buried in the soil. It should be some primitive ghouls who climbed up fell down to die. After that, the top of the well was blown up, some soil was dropped to bury the bones.

On the side wall in the well, a metal door with several meters in diameter appeared. The metal door was rusted and had four kinds of patterns at the center.

A weird fish with a fat head and a thin tail, a snake, opened mouth, an exquisite crown, and a row of English letters CCE.

Four patterns were caved in the center of the metal door. Su Xiao went up and found that the four patterns could move, there were dozens of small slides under those patterns.

Arima Kisho went forward and moved the crown pattern to the top, CCE was below, followed by a strange fish, the fourth was the snake.

Bang, the metal door swayed and opened slowly.

Crown, CCE, fish, snake, what did this sequence represent, the CCE among seemed to have relationships with CCG.

There were too few clues, and now these things could not be connected.

Entering into the metal door, Su Xiao found that there was a different place inside of the door.

An underground space appeared. This underground space was at least ten meters high, and there was no end. The top planted flowers that could glow, making the underground space not dark.

There was a sparse stone forest in front, a large group of primitive ghouls gathered in the stone forest suddenly.

The sound of opening the metal door made some primitive ghouls look at the five people. Except for Su Xiao, everyone else raised all kinds of firearms in their hands.

The primitive ghouls were shocked to form a chain reaction. In the beginning, only a few dozen primitive ghouls were rushed forward, but these primitive ghouls' roars attracted the other primitive ghouls' attention in the distance.

**“Roar!”**

Innumerable roars came after primitive ghouls saw five people, they seemed to be violent, rushing to them with their limbs stepped on the ground.

**“Bump, bump, bump...”**

A few people did not think too much, they pulled the trigger gradually. Su Xiao took out a bomb and threw it after.

**“Boom!”**

The explosion sound came far in the wide and empty underground space, and some of the primitive ghouls were blown up and flew high.

With strong firepower and the geographical advantage of the metal door, several people stopped the attacks of thousands of primitive ghouls and killed primitive ghouls in large numbers.

The bomb Su Xiao threw attracted primitive ghouls who were far away.

The fire never stopped, the explosion sounded in succession. The fight reached the climax when they just entered the underground space.

The smoke rose, and the smell of gunpowder simulated the olfactory nerves.

Perhaps they had known that this will happen, Arima Kisho and others had brought a lot of bullets, the dense bullets almost formed a barrage.

**“Boom, boom, bump, bump.”**

The firepower lasted for 5 minutes, a large piece of primitive ghouls' bodies was piled up not far away.

After being attacked by this kind of firepower, the number of primitive ghouls decreased rapidly, no longer after, no new primitive ghouls appeared.

Sure enough, the powerful hot weapon was the best way to deal with the ghouls.

Arima Kisho threw away the firearms that had their gun barrels' became red. All bullets were almost exhausted, there were only three bombs in Su Xiao bag.

“The effect is good, it's fortunate that we have prepared.”

Takatsuki Sen also threw away the gun in her hand. After this battle, she could only rely on kagune and Quinque.

As for why did not she carry more bullets or bring members of Aogiri tree, it was because of the ten meters gap between the steel passages and iron stairs.

The steel passage was not that wide so the large equipment could not be brought there. If the strength is not enough, the person will not be able to jump over a gap more than ten meters wide. Even if you jump over it, you may not be able to catch the iron stairs.

What's more, during the trip, insufficient strength may drag others down.

Arima Kisho led them to walk into the stone forest. Arima Kisho seemed to know the route and go straight to the east.

When they passed by a column which was erected, Su Xiao pressed on the column by one hand, rustle, some gravel fell. This place may have existed for many years.

“Compared to the last time I went here, this time is really smooth, sure enough, the weapons that human invented are even more terrible.”

The priest sighed, the old guy has surprisingly come here, listening to his tone, he didn't come here smoothly last time.

”It's not difficult to pass here. The next level will be hell, a hot region.”

Takatsuki Sen looked serious as if she recalled some bad memories.

After walking for about ten minutes, everyone walked out of the stone forest. Su Xiao obviously felt that the temperature began to rise, his forehead had already sweated.

As they gradually moved forward, Su Xiao found that the glowing vines on the top began to wither, and the number decreased.

Although the illuminating vines began to be less, the surroundings were not dark, and a dark red ray came from a far distance.

The temperature was getting higher and higher, Su Xiao even felt stuffy, he simply took off his shirt and threw away the windbreaker covered by rust and green moss.

Taking out a bottle of the fresh water, Su Xiao drank it all, after that he found that the other people were looking at him.

“I didn't expect that Byakuya brought drinking water. How about sharing with me?”

It seemed that the priest also felt hot, the old face was full of sweat. They carried too many bullets and no space to bring water.

“I only brought a bottle, and I drank all of it.”

After that, Su Xiao also threw away the bag in his hand, the temperature around was getting higher and higher. If the bombs in the bag explode, it will be ridiculous.

After walking for a few minutes, the underground space was getting narrower, only a few tens meters left.

After getting here, Su Xiao finally understood why it was so hot, there was a lava lake in front of them.

The dark red lava was blinding their eyes and shined, there were some bubbles coming out from time to time.

Su Xiao was sweating all over his body. If he stays for a while, he will be in danger of dehydration.

The lava lake blocked their roads. The meaning of Arima Kisho was obvious. Continue to move forward. How could they pass this lava lake?

Using kagune to resist? Don't dream about it, lava could burn kagune in three seconds, ghouls were very weak when they were in front of the great power of nature.

After scanning around, Su Xiao seemed to find a route.

“We are not passing from there, right?”

Su Xiao pointed at a steep cliff beside the lava lake. There was a stone road with 20 centimeters wide on the cliff. The stone road was narrow but very neat. It seemed to be cut out by someone.

There were a few iron pipes could be seen on the cliff. There should be a bridge here. The bridge had disappeared because the lava had eroded it for a long time, leaving only 20-centimeter wide stone road and several iron pipes.

“Two years ago, the bridge was still there. It seems that we're unfortunate. The opposite stone platform should be our ultimate goal. I have searched for other locations, there is no other way.”

Arima Kisho pointed to a stone platform in dozens of meters away. The area of the stone platform was not small, and it looked at least a few hundred meters. Because of the position, Su Xiao stayed, Su Xiao could not see what was on the stone platform.

“I'm captain, let me do it first.”

Takatsuki Sen climbed up the cliff first, climbing for a dozen meters high, and stepped on the stone road that was only 20 centimeters wide. Her posture at this time was backed by the stone wall as she moved forward.

The lava was about ten meters below, the hot temperature made Takatsuki Sen hardly open her eyes, and her face became red immediately.

As the original team sequence, Arima Kisho was the second person to climb the cliff, after were the priest and Arata Kirishima, and then was Su Xiao.

When Su Xiao was leaning against the stone wall, and his foot stepped on only a narrow road with 20 centimeters wide, he finally understood what Takatsuki Sen meant the 'hot hell'.

If his vitality was below 10 points, he might have fainted because of the temperature.

This was more exciting than jumping into the well before, one mistake and he will fall into the lava. Su Xiao could make sure that the lava below could burn him into a charred body in two seconds.

Chapter 125

Su Xiao's body stayed close to the cliff, he side-stepped gradually forward.

Looking at the other four people, the four people were staring at the lava lake as if there was something horrible inside.

Although the current position was dangerous, it will not be too dangerous, if they are cautious. So, these four guys may have something that they didn't tell him about.

Su Xiao was no longer keeping an eye on his feet and began to pay attention to the lava lake below.

Fizz.

An explosion which was as big as a washbasin appeared in the lava lake, and the lavas splattered high.

Fizz, Fizz.

The splashing lava hit on the priest's leg, a black smoke floated, the barbecue smell spread.

The priest gritted his teeth because of the pain but did make any sound.

Su Xiao frowned tightly, Is there something in the lava lake?

"Mr. priest, are you okay?"

Arata Kirishima looked at the priest with worry, but his voice was small.

The priest's face changed dramatically, and he stared straight at Arata Kirishima.

"No problem, the hearing of that thing is sensitive."

The voice of Arata Kirishima just stopped, there were bubbles appeared in the lava lake.

Rumble.

The lava surged as if a giant creature floated up in the lava lake. The other four people except for Su Xiao stopped at the same place and were close to the cliff.

Seeing this scene, Su Xiao's eyes were cold, these guys had something that they did not tell him. Thinking for a while, he also leaned on the cliff and even slowed down his breath.

Boom.

The lava in the lava lake rose up to the sky and splashed more than ten meters.

The several small pieces of lava splashed on five people's bodies, Su Xiao immediately closed his eyes and put his face aside.

Fizz.

A few small pieces of lava splashed on him after the lava touched the skin, his flesh was instantly burnt.

Su Xiao did not move and grit on his teeth to endure, because he saw that Arata Kirishima's entire leg was covered with lava, but he still did not move.

Although the whole leg was covered by lava, Arata Kirishima looked same as usual.

The lava slipped, Arata Kirishima's legs were wrapped in a layer of kagune which was hurt. This guy wrapped his legs by kagune.

After the lava rose, a dark red object floated in the center of the lava lake, sphere, four or five meters wide, similar to the color of the lava, but this thing was not lava.

Su Xiao carefully observed that the color of the thing was brighter than the lava.

Lava surged, several tentacles emerged in the lava around the spherical object.

This thing was like an octopus, why was the octopus in the lava? This was unscientific.

How did that creature survive in the horrible temperature of the lava, perhaps it was not a creature?

Su Xiao didn't want to know what it was. He only knew that the strength of the thing was terrible. The priest, Takatsuki Sen, etc. were motionless and looked at the unknown objects in the lava.

Su Xiao stopped breathing, he was in the farthest distance from the thing, if that thing attacks them, the first unlucky person will not be him.

The 'octopus monster' was swimming in the lava lake. It seemed that he had no vision. It could only perceive the sound and discover the position of everyone.

In addition to the sound of lava surging around there was silence, it was about ten minutes later, the 'Octopus monster' did not notice anything and slowly sank into the lava lake.

“Sigh.”

Everyone heaved a sigh of relief, Takatsuki Sen in the first one of the team, angrily staring at Arata Kirishima.

Arata Kirishima felt very sorry, his wired-ranged burns made Takatuki Sen hard to blame him.

Takatsuki Sen continued to move forward, the other three did the same.

Su Xiao began to move slowly after noticing other four people's actions. His footsteps were very light, and his eyes stared at the lava lake.

Didn't know whether the sound that Arata Kirishima just made is intentional or unintentional, perhaps only he knew it.

Ten minutes later, the five people with slow pace finally arrived at the platform on the opposite side.

Su Xiao stepped on the ground walked quickly and tried to stay away from the Lava Lake, not only him but also the others.

About a hundred meters away, Su Xiao checked the burns on his body, all were flesh wounds which were not serious.

“Arata Kirishima, are you not going to give us an explanation?”

Takatsuki Sen’s red eyes emerged.

She even had intentions to kill him, it seemed that she cared about the things that just happened.

It was reasonable, the four were almost killed by Arata Kirishima’s actions.

Su Xiao did not speak, he just stood far away from the crowd, in case he will not be splattered blood on his whole body because of their infighting.

“Miss Takatsuki Sen, I apologize for the incident. I didn’t expect the hearing of the monster to be so acute.”

Arata Kirishima looked guilty, and he seemed to be willing to accept any punishments.

“You…….”

Takatsuki Sen just wanted to speak but was interrupted by Arima Kisho.

“Forget it.”

Arima Kisho’s meaning was obvious, even if Arata Kirishima had another purpose, they could not infight now.

“It is true that mistakes are inevitable. We are a team now, don’t hold a grudge.”

The priest also came to mediate the dispute.

Su Xiao stood in the distance looked at the situation smiled coldly in his mind, a team? These four guys had been here before, no one reminded him not to make any sounds in the way to the lava lake, there was a horrible unknown monster in the lava lake.

This so-called team, after coming here, had collapsed halfway, their minds and actions were not consistent.

This stone platform several hundred meters in diameter should be the destination. The moment when the ‘source’ was found, it will be the time the team disbanded completely.

By then, no one could be believed.

“Since we have arrived here, let’s talk about it. Where is the ‘source’? Let’s destroy it.”

Takatsuki Sen spoke.

The priest and other three people looked at each other and seemed to guess each other’s thoughts.

“I only arrived at the lava lake, I have not been here before.”

“Me too.”

“I have never been here.”

The three men expressed their opinions, and they all said that they had not been there.

“If the situation is like this, then let’s look for it separately.”

During Takatuki Sen’s speaking, she is going aside.

“I disagree.”

Su Xiao spoke. The four people’s sights turned around.

“The efficiency of searching separately will indeed increase. But what can we do if we meet the enemy we can’t fight? How can you be sure that there are no enemies on this stone platform?”

Su Xiao’s opinion was very fair. Actually, he was worried that others will find the ‘source’ and destroyed it. The Hidden task will fail, and 3 points of each attribute will be deducted, then he will be very poor.

“I agree with Byakuya’s opinion.”

Arata Kirishima supported Su Xiao.

“I agree.”

The priest spoke.

“If it is like that, let’s look for it together.”

Takatsuki Sen, the so-called captain, also knew that she could not command anyone present, she still had to obey the majority.

A few people walked deeper into the stone platform. They did not go far and vaguely found that there was a building with an altar in the deepest part of the stone platform.

After entering, Su Xiao found that there was a column in the center of the circular altar. There was a three-meter-high body with armor stood next to it. The armor was surprisingly complete, its fingers and other parts were all there. If there is not empty in its eye, they will believe this is an iron man.

The column was a half meter thick and one meter high. The surface was engraved with a weird fish with a fat head and thin tail, a fist-sized crystal was placed at the top of the column.

The crystal was reddish, and the surface had some cracks. A reddish mist floated out of the cracks of the crystal, slowly rose, and eventually disappeared into the upper stone layer, it was possibly floating to the ground surface.

[Hint: The hunter is within 20 meters of the ‘source’, please get the ‘source’ as soon as possible.]

This reddish crystal was the ‘source’!

Not only did Su Xiao find that red crystals were the ‘source’, but Arima Kisho and others also thought of it.

“We seem to find the ‘source’.”

The priest stared at the source, he did not disguise the greed in his sights.

Boom!

Stone platform suddenly vibrated, the five people immediately became alert. But nothing happened after ten or more seconds.

Next, to the column, everyone neglected the armor's eyes hole gradually shined red. It was the color which was caused after Rc cell activated.

“Intruder, die!”

The armor talked.

Chapter 126

The sound of the armor was very dull and somewhat stiff.

The sudden speaking sound made Su Xiao stunned, he looked at the armor, he immediately noticed the bloody red in the eyes of the armor.

“What is this.”

Takatsuki Sen looked at the armor with shock.

In everyone's doubtful sights, the armor trembled and its arm gradually approached to the 'source'.

Crack, crack.

The stridulation of the steel came out, and the armor's big arm made of steel grabbed the 'source', the armor's face opened, it seemed to want to swallow the 'source'.

“Stop it.”

Arata Kirishima screamed, he rushed at the forefront, Takatsuki Sen and Arima Kisho followed.

Su Xiao and the priest were in the same place. Su Xiao did not move because he felt that the armor was very dangerous. He even had a creepy feeling.

The armor's steel palm opened, the 'source' fell into the armor's face.

Boom.

The armor's closed, and the steel armor stood in the same place stiffly.

Arata Kirishima rushed to the forefront, his hands were covered with kagune to form two claws, the lividity sharp flashed faint light, which was extremely sharp.

Arata Kirishima threw himself in front and grabbed the head of the armor with one hand.

Boom, the claws cut crossed the surface of the armor which made a sound of the blade cut across glasses. The head of the armor was not damaged, but Arata Kirishima made it fly far away.

After the armor landed, it rolled a few times, it seemed to become a dead object.

Fizz!

A light red flame rose on the surface of the armor, and the armor was like a flame warrior.

The armor slowly stood up, its appearance changed greatly. If the armor was like a dead object, then the whole armor seemed to be alive now.

There was a vague red light inside of the armor, and the armor seemed to be filled with a kind of gelatinous substance.

“Ha....”

The armor rose up his hand and breathed out red mist, held his fists tightly. The ground under its feet had fine cracks.

The armor just clenched its hands.

Su Xiao looked at the armor in front of him. A cold air rose from his foot and went straight to the top of his head. He suddenly had the urge to turn around and flee.

“Who am I.”

The armor said these words one by one, Arata Kirishima and other people who were rushing to the armor stopped, they also felt the horror of the armor.

After a few seconds, the armor seemed to remember something.

.”Well? Experimental product No.3? There were an even better one, No.4.”

The armor first looked at Takatsuki Sen, then looked at Arata Kirishima.”

“No.4 will still be more delicious.”

After the armor said this sentence, its foot stepped hard on the ground.

Bang.

The stone chips splashed, and a large hole about one meter in diameter appeared in the position where the armor just stood. The armor had disappeared.

“How could it be possible.”

Arata Kirishima’s pupils tightened and jumped back with all his strength because the armor had already appeared in front of him.

It hadn’t waited for Arata Kirishima to jump out. The armor had already passed an afterimage and appeared in front of Arata Kirishima again. The red-eye hole seemed to stare at Arata Kirishima.

The armor’s arm which was as thick as thighs lifted up, and punched Arata Kirishima’s head. The big punch surprisingly caused an afterimage.

Clap!

Arata Kirishima’s head burst like a watermelon, red and white liquid splashed.

Arata Kirishima was killed in seconds!

After the other four people saw this scene, they felt pressure. What is this armor, it surprisingly was terrible like this.

The armor lowered its body, his palms easily penetrated into Arata Kirishima’s chest, just as easy as piercing the tofu.

Puchi! Puchi!

Arata Kirishima's body gradually dried up and eventually became a dried body without a head.

"Delicious, hahaha."

The armor made a dull smirk and looked at Su Xiao and others.

At this time, no one needed to be reminded, the priest and other people immediately approached Su Xiao, the four stood side by side in a row, staring at the armor.

This thing was too horrible, if they don't cooperate, they will have no chance.

Su Xiao opened [Basic Detection] to obtain information of the armor.

[The mana value had been consumed by 10 points. The basic detection is used successfully, and the following information is obtained.]

Name: Mars (the first ghoul in history)

Strength: 30 (the ultimate in this world)

Agility: 24

Vitality: 26

Intelligence: 15

Charm: 10

Skill 1, first generation of the ghoul (passive): strength +15, agility +10.

Skill 2, Radiation of Source (Passive): Hp recovery rate increased by 200%.

Skill 3, primary Rc cell carrier (passive): no fatal weakness, immune spiritual control skills.

Skill 4, elite (passive) had expired.

Skill 5, absorbing originality (active): After using this skill, you can absorb Rc cells in ghouls' body, and restore the HP according to the amount of Rc cell which was absorbed.

Skill 6, shocking the ground (active): slam down on the ground severely to form a high-strength shock wave, causing dizziness and oscillation to the enemy.

Skill 7, ???

.....

After seeing this armor which was also the information of Mars, Su Xiao took a cold breath.

The python with blood eyes he encountered before also had 30 points of strength, but there was an essential difference between the two. The bloody eyes could have high strength was because of its huge body.

The one in front was only three meters high had such high power, the agility and Vitality were not low, even the full attributes were double figures.

Just after the armor moved, it caused afterimages, although this was related to Su Xiao's dynamic vision which wasn't strong enough.

"Let's cooperate honestly. Otherwise, we will all die."

Takatsuki Sen's kagune in her body surged were transformed into a kakuja state.

"This is also my idea. Don't know what the creature is this thing. After it 'lives', the vitality of Rc cells in my body begins to decrease."

The priest's false smile which kept hanging on his face disappeared, he stared at it seriously.

"After starting the fight, you try to hold him. I am responsible for going back."

Su Xiao could only cooperate with the three people at this time. Otherwise, there was no possibility to win.

Takatsuki Sen stood in the forefront. She is more defensive in kakuja state. Arima Kisho looked for opportunities on the side. The priest was next to Takatsuki Sen. Su Xiao was responsible for finding opportunities to give Mars a heavy attack.

"Who allowed you to step into it, do you have permission from Boken Marquis?"

Mars spoke, but what he said made everyone was stunned in the room.

Boken Marquis? What generation did this guy live in, no, this guy in front was not human, but the armor made him maintain the human form?

"It seems that you mice from enemy country broke in, and want to steal our holy fish."

Mars murmured for a while, this guy's head should not be very good, he even did not remember himself before.

"Go."

Takatsuki Sen rushed to Mars, and Arima Kisho aside pressed the Quinque box in his hand, and a sword-shaped Quinque appeared.

The sword-shaped Quinque had a very fine tip, but the sword was as thick as an arm, and the handle was long.

This was the SSS-class Quinque fukuro, the strongest Quinque made by CCG.

The priest found that after two people prepared to fight, he rushed forward without hesitating. He could not have other thoughts now. They may not be the monster's opponent in front of them even if they cooperate. Arata Kirishima who was killed in seconds gave them a lesson of blood. If they don't want to die, they can only temporarily abandon their purposes and cooperate.

Su Xiao did not rush forward with the three people. He ran to the side, and the trace he ran was a semicircle, intending to run behind Mars.

This was a very wise choice. If all four people fight with Mars in front, it will be a stupid choice.

Chapter 127

The first one contacted with Mars was Takatsuki Sen, with the tragedy that happened Arata Kirishima, Takatsuki Sen was extra cautious.

At this time, Takatsuki Sen's kakuja form was different from the past. The prominent kagune on the back and the two kagune swords on the arms disappeared. Instead, the kagune looked like a shield on Takatsuki Sen's arm. She gave up all the kagune for the attack and only focused on the defense.

The appearance of kagune depended on the imagination of ghouls, but there were very few ghouls who could do this. Takatsuki Sen as an SSS class who certainly could do this.

The thick arm shield with one meter in diameter was in front of her, she obviously set her mind.

Mars snorted coldly, a straight punch hit to Takatsuki Sen's arm shield. This punch could be said to be a strong force, bringing a sobering fist wind.

Boom.

Everyone felt shaking under the foot.

Mars's fist wrapped in steel was like a hammer, hitting on the Takatsuki Sen's arm shield.

Takatsuki Sen's arm shield was full of cracks that were like a spider web, and the iron fist was deep inside of her shield.

Takatsuki Sen in the kakuja shell felt a huge force coming, and the outer kakuja shell was even distorted. her legs were deeply immersed in the stone platform, and the gravel splashed.

The power of the punch directly penetrated Takatsuki Sen's shield and twisted the entire kakuja shell.

If this punch hits on a human's body, it will definitely turn it into 'juice.'

Su Xiao who ran back saw this scene, his eyelids jumped instantly, he decided in mind secretly, he will not be attacked by Mars, never.

Although Takatsuki Sen was badly beaten by this punch, she was still able to defend Mars's attack from the front. Arata Kirishima was killed by an attack in seconds, so this was an amazing thing.

Takatsuki Sen who was somewhat dizzy concentrated, the big mouth on kakuja's outer shell opened widely and bit on Mars's arm.

The red flames on Mars's body surged, he seemed to be somewhat dissatisfied for not killing Takatsuki Sen in one punch.

"The fighter No.3 have been improved? there were biracial signs, a nice work."

Mars looked at Takatsuki Sen as if he was looking at an item.

"But the empire prohibits the holy warriors from eating each other. If you lose your mind, you are not qualified to be called holy, so go die!"

Mars's other iron fist rose up and wanted to punch Takatsuki Sen's head.

Takatsuki Sen was not fighting alone, there was also the priest and Arima Kisho besides her.

Arima Kisho rushed to the side of Mars silently, used the Quinque 'fukuro' thorn into Mars's chest directly, that was almost the position of the 'source'.

The priest's angle of attack was more direct, the sharp-shaded kagune pointed to the gap in the waist of Mars's armor.

When the two attacked Mars, Su Xiao had already circled behind Mars, Qing Gang Yin opened, dragon flash in his hand shined with a pale blue arc toward Mars's neck.

There were several precise links in the armor of Mars' neck, his defensible ability must be weak.

Takatsuki Sen dragged Mars from the front, Arima Kisho and the priest were on both sides of Mars. Su Xiao went straight to take off the enemy's head.

Mars, who was in the center of the four people, was not afraid at all. He lifted his one leg and stepped on the stone platform. It was Mars's skill 'Shocking the ground'.

Boom!

The entire stone platform was shocked.

A shock wave spread out to the surrounding area. Su Xiao who felt dizzy was holding the sword to stab at the enemy, there were large pieces of white dots in front of him. This may be the situation of seeing stars.

Not only Su Xiao but also other people, their attacks were all interrupted.

The three people who kept the attack posture had no big deal, but Takatsuki Sen would be in the big dander. She was biting Mars's arm.

Mars's steel hand-held the neck of kakuja's shell and twisted it.

Puchi!

A lot of blood was splashed on Mars' black armor, Takatsuki Sen's kakuja shell was directly taken off. He was not finished. Mars threw away the head and reached into to kakuja shell's chest and wanted to take out something.

The big steel hand stirred in the kakuja shell for a while and dragged outward heavily.

Fizz.

Takatsuki Sen was surprisingly dragged out of the kakuja shell, Takatsuki Sen who was short was caught by her long hair in the air.

The ghoul's outer shell fell into the ground.

The pain made Takatuki Sen awake from the dizziness. After seeing the steel man in front of her, Takatsuki Sen became desperate.

On the side, Arima Kisho and the priest were drunk, their bodies were shaking from side to side, and they walked haltingly, Takatsuki Sen who noticed that this scene was completely desperate.

"It seems that there are some values to do research, the body can be maintained."

Mars held Takatuki Sen in front, and the thumb and index finger, on the other hand, twisted Takatuki Sen's head, he seemed to be trying to crush Takatsuki Sen's head.

The giant power from both sides of her cheek made Takatuki Sen resist by all her strength.

The kakuja shell's head was even unscrewed by Mars, not to mention Takatsuki Sen's body.

At this time, Takatsuki Sen was like a chicken, weak and helpless.

Just as Takatsuki Sen's head was about to be crushed, a white sword light reflected into Takatuki Sen's eyes.

Takatsuki Sen swore that she never was pleased with seeing a sword like this time. If she doesn't die this time, she must get a good sword.

Su Xiao had a higher intelligence attribute and the time of dizziness was shorter.

He jumped silently behind Mars, holding his sword in both hands and stabbing Mars's back neck.

There was a gap in the back of Mars' neck, and the blade of dragon flash was not wide which was able to pierce into it.

The long sword entered inside of the armor, Su Xiao's sword stopped in about ten centimeters. Dragon flash was like stabbing into a colloidal substance, and every inch ahead became difficult to pierce.

Mars mourned, after releasing Takatsuki Sen, his two big hands grabbed to the back of his neck.

This action made Su Xiao heavily shocked, Takatsuki Sen was like a chicken in Mars's hands, he will be smashed if he is caught

.

Su Xiao's feet stepped on Mars's back and jumped high, his body was in the air and smoothly landed a distance away from Mars.

Not catching Su Xiao made Mars a bit angry, the red flames on his body rose.

Mars's red eye swept around and stared at the priest.

When the priest just wanted to retreat, his arms were grabbed by Mars.

Crack.

“Ah!”

The bones of the priest's arm were instantly shattered, but the priest was not a normal person, his kagune immediately moved toward Mars's head.

Before it hits him, Mars had already put out the force and pulled his arm to throw the priest away.

The priest suddenly felt the sky was circling and his body flew at high speed.

Su Xiao, who had just got rid of Mars' attack, his eyes widely opened after seeing this scene, Mars actually threw the priest as a weapon at him.

Su Xiao wanted to avoid, the priest was already about to hit him.

Boom.

Su Xiao was hit and sent flying to slam on the rock wall behind him. Su Xiao felt that his whole person would almost fall apart. Although he was dizzy because of the attack, Su Xiao still jumped up from the ground and adjusted his position.

The pain came from the back. Blood rushed in his mouth, and he almost fainted from hitting the wall.

Su Xiao found that Mars did not rush to him which let him sigh of the relief.

Mars was too strong. If there are no gaps in the armor that he can attack the opponent's body from, they will have no hope to win.

The priest on the side also stood up with an arm hanging softly.

Arima Kisho and Takatsuki Sen also came slowly, it will be impossible to defeat the monster in front of them alone.

“Hey.”

Su Xiao shouted to attract the attention of Mars. The other three were shocked. This guy is crazy, they thought in mind.

Su Xiao suddenly had one more thing in his hand and stared at Mars.

“How about giving you this thing, and let us go? This is our country's ‘treasure’.”

During the conversation, Su Xiao threw out something in his hand. The other three people were puzzled when they saw the thing in the midair, the guy surprisingly hid one.

Mars caught the thing that Su Xiao threw, and checked the thing that Su Xiao called ‘treasure’, he did not recognize this thing.

“What is this weird thing?”

It could be guessed from Mars's words that he had existed for many years, so he certainly did not recognize the thing in his hands.

Not any modern person will closely look at thing like Mars.

Su Xiao had a detonator in his hand in the distance.

“This is a treasure, pay attention to see its texture.”

After that, Su Xiao pressed the detonator in his hand.

Chapter 128

After Su Xiao pressed the detonator, the green light of the bomb in Mars's hand lighted up.

Boom.

A strong shock wave went straight into the Mars's face, the heavy smoke rose, a wave of air blew, Su Xiao's single arm blocked in front of him as he looked ahead.

Even if it was an SSS class ghoul, it would be smashed by this bomb in the kind of close distance, but Mars may not die. This guy's physical strength was too high, Su Xiao even did not receive a prompt of killing the enemy successfully.

The smoke dissipated, Mars in the center of the explosion appeared. At this time, Mars's arm was blown up, and the whole body armor was blown out of a large piece of black. Some links at the armor were damaged, there even was a piece of the armor's face dented because of the bomb, it looked extra funny.

“You are...”

Mars stared at Su Xiao with anger, he seemed to want to blame him. But the aristocratic education that he received from childhood had already penetrated into Mars.

In the end, Mars did not say anything but directly rushed to Su Xiao at a horrible speed.

With the explosion just now, Arima Kisho and Takatsuki Sen came near Su Xiao.

“Let's go together. Otherwise, we will all die.”

Su Xiao held the sword and rushed at Mars. Fighting with an enemy who had a strong power and speed like Mars, evading will only lead to death.

The other three people also understood that they should put out all their strength this time, so they rushed forward with Su Xiao.

The effect of the explosion just now was remarkable. The health point on the top of Mars had been deducted by a half.

Su Xiao was the first to rush in front of Mars. He now felt the feeling that Takatsuki Sen felt. The pressure of staying in front of the steel man was too big. Although the person only wore a layer of steel armor, it seemed that the armor was filled molten iron. It was heavy, sturdy and fierce.

Mars tried to catch Su Xiao's head by his hands. Su Xiao only felt a black shadow in front of him. He could not see it was the hand at all, he could put his head back by full strength. If he was caught, he would be killed.

Who knew that Mars was cheating him, the big hand suddenly changed direction and grabbed Su Xiao's shoulder.

This time, Su Xiao did not escape the attack, after that, his shoulder felt tight and numb, a little part of his body was unconscious.

Crack.

Su Xiao's shoulder was smashed, and his left arm hung down softly.

Stepping on the ground heavily, Su Xiao did not care about the pain from the shoulder, he strove back for a few steps using his full power.

With a sound of a snigger, a piece of flesh on his shoulder was dragged out, the blood instantly invaded Su Xiao's chest.

Cold sweat filled his forehead, Mars was the strongest enemy Su Xiao had ever fought against. This was without doubts.

After Su Xiao retreated temporarily, Arima Kisho and others rushed to Mars. All kinds of attacks hit on Mars' armor and made different kinds of sounds.

They were not weak, Mars was backed a few steps, some blood fell around him.

Of course, Arima Kisho and others would not miss this opportunity. They all use their strongest means to attack. Fires splashed, several people fought with Mars constrainedly.

Su Xiao did not lose the ability to fight, his right hand could still hold the sword, he will continue to fight if he is still alive.

With the opportunity of three people dragging Mars, Su Xiao gradually walked behind Mars, because of the first experience. Su Xiao came up with a feasible plan and did not depend on other people.

After being attacked by three men's several attacks, Mars gradually became impatient.

“Are you guys cockroaches?”

Mars roared, ignoring the attacks of the three men and rushing to the priest.

At this time, the priest must have a sentence he needed to speak, but he did not have time to speak.

Mars used his hand like a sword, passed through as an afterward and cut straight into the priest's chest, and lifted the priest up, the gelatinous material in Mars' armor became active.

“Ahhhh, save me.”

The priest's body dried up in a speed which could be seen by the naked eye, as the kagune cone instantly turned into dust.

Mars was absorbing the Rc cells in the priest's body, and the health points on his head were quickly recovering.

Su Xiao, who was behind Mars, was a little depressed, the result they fought for a lot of time completely disappeared.

Although Arima Kisho and Takatsuki Sen were attacking Mars by risking their lives, the damage caused was not as fast as the speed of which Mars recovered.

Seeing this scene, Su Xiao's eyes turned black.

Why didn't they smash the priest? That would be more effective.

Takatsuki Sen did not expect this, and Arima Kisho had a relationship with the priest.

Deeply breathing, Su Xiao was ready to execute his plan and began to fight with his life on the line.

If the task is done successfully, he will become rich, and if it fails, he will die or flee back to the reincarnation paradise and bear the painful punishment of deducting 3 points of all attributes.

Su Xiao bit dragon flashes in his mouth, taking out 'bomb' which was like a grenade.

Using the thumb to pull out the pull ring, Su Xiao threw the 'bomb' to Mars.

This was not a bomb. The bomb could not cause fatal damage to Mars. It had not killed Mars at such a close distance, don't mention throwing it near his feet.

"Ding, ding."

The 'bomb' rolled down to Mars's feet, with a sound, a large piece of white mist spread, Takatsuki Sen and others were covered by the white mist.

Takatsuki Sen who had just covered by the white mist, her kagune immediately became fragments, her body became powerless.

"Rc cells inhibit gas."

Takatsuki Sen, the priest who was raised in the air, and even Arima Kisho was affected.

Not only the three, but Mars was also affected, the red light in the armor was dim, the health point on the head turned gray, and various attributes dropped drastically. Because Mars was also a ghoul.

After throwing 'Rc cell inhibit gas', Su Xiao opened the skill of the ring of [evil roar]: roaring, he was now injured too much, the injury on his shoulder stimulated his pain nerves, causing the half body somewhat numb, it was necessary to use the roaring skill to ignore the pain.

After starting the skill, Su Xiao's pain disappeared, he rushed forward with a sword in one hand.

He rushed to Mars's in a few steps, Mars who moved slowly only could throw the priest away.

Su Xiao stepped up, the arc on the dragon flash was very bright, the muscles on his arm were slightly raised.

Using a bomb to destroy Mars's armor, Rc cells inhibit gas weaken the Rc cells in Mars's body, using the roaring skills to ignore the pain and give out the strongest attack.

Weaken the enemy, strengthen ourselves, and give the enemy a full attack. This was Su Xiao's plan, simple, rude, but effective.

This sword could not kill the enemy would mean that Su Xiao could only wait for death or choose to return. The cost of returning was too heavy. All attributes would be deducted by 3 points which will make Su Xiao's strength greatly fell back.

The blade cut through the air to form a light blue arc.

Clink!

The sword was screaming, and the blood was burning.

A sword cut through, Mars's head flew high.

It's done!

Mars's head was cut, Takatsuki Sen and others were staring at the scene. The three relieved when they saw Mars's head was cut.

The three people relaxed, Su Xiao was not relaxed, Mars was still not dead, at least he did not get the killing hint.

The blade rotated in his hand. Su Xiao changed the direction to hold the sword from the forehand to the backhand. If you can see the muscle in his right arm, you can see that the muscles in his forearm and rear arm have somewhat broken.

However, under the effect of the 'Roaring' skill, he temporarily ignored these.

Dragon flash cut through Mars's broken neck into its body. Under the influence of 'Rc cell inhibit gas', dragon flash directly cut in the majority of his body.

Su Xiao rode on Mars's shoulder and used the sword to stir the colloidal substance in Mars's body. He obviously felt that dragon flash cut off some hard organs.

Mars's headless body trembled randomly like epilepsy.

"Is this guy mad?"

Takatsuki Sen looked at Su Xiao, who was holding the sword to stir the enemy's organs. She subconsciously stepped back for two steps. She was afraid that Su Xiao would rush to her. At this time, Su Xiao was indeed a bit cruel.

After stirring for a few seconds, Su Xiao apparently noticed that Mars' body was soft and fell down with him.

[You killed: the first ghoul in history, Mars.]

[Because Mars was the originator of the ghouls' world, you gained 10% of the world's source, and now you have a total of 39.3% of the world's source.]

After the death of Mars, a blue treasure case floated on the body of Mars.

Su Xiao immediately put away dragon flash, picked up the blue treasure chest, after that he did not stagnate. With the right hand which could still work, put into Mars's body. Soon he touched a solid crystal and pulled out his arm. He was holding the 'source'.

[You have obtained 'source', yes/no to complete 'hidden task: source'.]

Su Xiao chose to complete, there was not much time now. The priest who had dried up had the intention to get close, but he was somewhat afraid of the surrounding 'Rc cells inhibit gas'.

[You have completed 'hidden task: source', get 2 attribute points, soul crystal (small) x3.]

The 'source' in Su Xiao's hands disappeared. This time, not only the priest but even Arima Kisho and Takatsuki Sen had slightly killing intentions in their eyes.

"Return."

Su Xiao whispered the surrounding space began to surge, the feeling of hitting by a stick on his head came, the scene turned black, his time derivative world ended.

Chapter 129

[Transfer completed, the hunter returns to the exclusive room.]

[Exclusive room is an absolute security point, except for the hunter, no one will be allowed to enter.]

[The hunter returns to the reincarnation paradise, we'll begin calculating the derivative world awards.]

Derivative world: Tokyo ghouls.

Difficulty: Lv.3 (difficult).

The world's source: 39.3%

The number of completed tasks: 5. (mainline task x3, achievement task: street sweeper, hidden task: source.)

Comprehensive evaluation: S-. (Note: The score is E-to S+. The comprehensive evaluation is based on the sum of the world's source and the number of completed tasks.)

Start collecting the source of the world...

The source of the world was collected and starting calculating rewards.

Earning rewards: 15 points of attribute point, 19000 paradise coins.

The overall rating was S-, the hunter level +3, it will be upgraded to Lv.5. (The level will be increased based on the comprehensive evaluation.)

The hunter level had reached Lv.5, and the storage space had increased to five cubic meters.

The calculation was completed, the reward had been automatically deposited into the hunter's mark.

Detecting that the hunter had completed the hunting mission and won the Aogiri honored medal. The honor store opened. Location: In the exclusive room of the hunter, the hunter should explore their functions himself.

.....

Su Xiao sat on the ground in the exclusive room to check the clearance evaluation.

Compared with the one piece world, he had gained a lot in the ghouls' world. The 15 points of attribute points could make Su Xiao's three main attributes stronger. The soul crystal that had obtained in the hidden task could make him further develop the Shadow of the Law.

[Detected that the hunter's vital sign was unstable will start the recovery if the hunter accepts.]

Su Xiao wanted to choose to recover the injury of the shoulder, the remainder of the reincarnation paradises appeared again.

[Drip, it is detected that the hunter has opened the honor store, and the reincarnation paradise recommends that the hunter actively uses the honor store.]

Su Xiao was a bit surprised, the recovery function he chose had not started but already ended. Fortunately, it didn't consume any paradise coins.

Although Su Xiao wanted to calculate his harvest in the ghouls' world, it was even more important to restore his injuries now.

A large number of bones on his left shoulder were smashed, and his right arm's muscles broke, so his arms now softly hung down, as if he became a disabled person.

“Fuck.”

Su Xiao struggled to stand up and came to the front of the screen that just appeared in the room.

The screen was on the wall with several lines of text. This was the honor store.

[Welcome to the honor store.]

[Because the hunter uses the honor store for the first time, please read the following regulations.]

1. Items in the honor store could only be redeemed with the honor medals.
2. the items redeemed from the honor store are locked items, it could not be traded with other contractors.
3. The hunter is forbidden to mention the existence of the honor store to anyone. Otherwise, you will be executed by the reincarnation paradise.
4. There were fewer goods in the honor store, which are limited supplies.
5. the exchange will not be refunded.

.....

Seeing a large row of the dense regulations, Su Xiao scowled, the rules of this honor store were really a lot.

Trying to manipulate the honor store by minds, the honor store had some changes.

[Because the hunters only hold the Aogiri honored medal, only the following items could be redeemed.]

Soul crystal (small) × 1.

Price: An Aogiri honored medal.

.....

Honored Recovery medicine.

Effect: Restoring 100% life value after use.

Price: An Aogiri honored medal.

.....

Cell-level recovery function (once)

Effect: After exchanging, cell-level recovery could be performed, it would restore the injury, clear hidden potential diseases, and organ recovery.

Price: An Aogiri honored medal.

.....

There were not many things in the honor store, only three items, but these items were very practical.

Needless to say, the use of soul crystal, the honored recovery medicine could be called amazing, and the final one cell-level recovery function may be the reason for the reincarnation paradise

stopping the recovery function, reincarnation paradise wanted to let him choose this recovery function.

Su Xiao hesitated for a while. Although the first two items were attractive, now he was in a semi-disabled state, it was the most important to restore his injuries.

Choosing the cell-level recovery function, the Aogiri honored medal in Su Xiao's storage space disappeared, and a glaring light appeared on his head, wrapping his whole body.

[Drip, detecting the state of the hunter..., the test is completed.]

[Recovery key point, left shoulder's bones and nearby muscle groups, lungs, right arm's muscle groups.]

[Recovery begins.]

After the reminder of the reincarnation paradise, Su Xiao felt a sound of bang around him, and those lights rushed into him fast, he was a little faint.

He vaguely felt that the light passed through every part of his body, some of the cells with no vitality decomposed after exposure to strong light, and then viable cells appeared.

The most obvious change was the lungs, the strong light gathered together and turned into a clear stream, flushing his lungs over and over again, flushing out some black substances in the lungs.

Because of smoking for a long time, his lungs were somewhat dark and gradually turned pink under clear stream's flushing.

Recovery, cleaning, and newborn, the three situations circulated in Su Xiao's body.

After a long time, the strong feeling disappeared and Su Xiao's injuries completely recovered.

Taking a deep breath, Su Xiao had never felt the air was so fresh, the various organs became extremely energetic under the repair of the cell level.

Trying to move his arms, his arms were as flexible as usual, as if he had never been hurt.

Su Xiao felt like he was wearing a layer of 'iron clothes', now the 'iron clothes' had disappeared, the ears were clear, eyes were bright, the whole body was relaxed.

This Aogiri honored medal used completely, Su Xiao never felt so good.

When he came to the bathroom, Su Xiao washed away the blood on his body, sitting on the bed with a bare upper body, and began to sum up the harvest in the ghouls' world.

First, he got 15 points of attributes, 32,127 paradise coins.

These paradise coins were the sum of the treasure chest, completing mission and clearance in the derivative world.

Getting more than 30,000 paradise coins made Su Xiao smile. He should spend these paradise coins later and try to improve his strength.

Next was the equipment he got in the world.

The evil spirit roar (green), obtained from gecko's treasure chest, wearing.

Lucky Flame (green, boutique), obtained by flash.

Silk bra (white), obtained by opening the queen's scarlet card.

Crush Elf (green, boutique), obtained in the CCG Temporary branch.

The Quinque of sword genre was not named (green), obtained from the ghouls' shelter.

The total was five equipment, silk bra (white) will be sold, the other four were useful, these could not be sold.

After counting the equipment, Su Xiao began to count the materials and consumables.

kakuhou (SS) x1, kakuhou (S level) x1, kakuhou (A level) x2, kakuhou (B level) x1.

Type C Battlefield Syringe (recovers 30% of life value)

Destiny coin

Scarlet card (cold fish)

Soul Crystal (small) x3

Blue treasure chest x1

The above was all the benefits that Su Xiao got in the ghouls' world.

Sitting on the bed, Su Xiao put everything in front of him and began to think about how to deal with these things.

Useful equipment and materials would be left behind, and other things would be sold in the market to exchange for paradise coins. The paradise coins were the currency in the reincarnation paradise. It was convenient to do anything after getting paradise coins.

But now the first thing was to open the blue treasure chest.

Compared with Kaneki Ken, Mars's strength was much stronger, Su Xiao was looking forward to this treasure chest.

After picking up the treasure chest, Su Xiao did not open it immediately, but took a cigarette and picked up the Lucky flame lighter.

Choosing to consume 500 paradise coins to launch Lucky flame's skill.

The cover of the Lucky flame lighter opened and a cyan flame appeared.

He lit the cigarette and took a deep breath. Su Xiao opened the blue treasure chest, and the dazzling blue light came out from the treasure chest.

It flashed!

Chapter 130

The resplendent blue light made Su Xiao turned over his head after blue light faded. Su Xiao had several items in his hand.

[You get the 'primary Rc cell stock solution'.]

[You get 'primitive absorption' (skill scroll).]

[You get the soul crystal(small) x2.]

.....

Primary Rc cell stock solution

Quality: blue

Type: a genre of blood relationship item (rare item)

Effect: After use, there is a 90% chance to become a first-generation ghoul, and there is a 10% chance to fail. After the failure, the primary Rc cells will be automatically decomposed in the body and enhance the attributes slightly.

Rating: 50 (Note: Blue items rate from 30 to 70, the higher the rate, the more precious the item.)

Introduction: The first difficulty in becoming a ghoul was to overcome 'eating meat'.

.....

Original absorption

Quality: blue

Type: a genre of skill scroll.

Effect: When launching this skill, you need to contact the enemy's body to determine the physical attributes. If the judgment is passed, absorbing 5% of the enemy's life values every second to recover yourself. The recovery amount is 50% of the absorption.

Note: The amount of recovery is determined by the enemy's physical strength. If the enemy has 10 points of physical strength, you have 20 points of physical strength, it will restore the amount according to the percentage of 10 points of the physical strength, instead of the percentage of your life value.

Pre-conditions: Need the blood relationship of ghouls (above than the second generation)

Rating: 39 (Note: Blue items rate from 30 to 70, the higher the rate, the more precious the item.)

Introduction: This? Is this suck stars magic?

.....

Su Xiao's mood at this time could not be described as happy.

“Sure enough, things like the unlucky hand doesn't exist at all.”

The cyan smoke drifted in front of Su Xiao, the effect of the lucky flame disappeared, and a certain aura appeared again?

Although the value of the item was not low, Su Xiao gradually frowned.

[The original Rc cell stock solution] was the item of blood relationship that he had never obtained. From Mars, he could see the power of this thing.

However, Su Xiao had a feeling that this thing should be a 'simple version', which could not be as powerful as Mars.

And Su Xiao could not use this thing. Needless to say that he rejected to eat people. It was still unclear whether the [original Rc cell stock solution] had confliction with the shadow of the law.

He could only choose careers. It will be better not to combine them. This was a bloody lesson from the predecessors.

Once there was a man who successfully learned mind reading in the hunter world. This was undoubtedly an enviable thing. It was not difficult to develop and had great potential. It was also very strong in the middle and late stages.

When the man was wandering in the trading market, he found a kind of high-level flesh, and the high-level flesh could enhance Hp.

In the man's perspective, the enhancement of life value may enhance the mind, so he transplanted the flesh, but not until the transplant succeeded, the man who was on the way to the operation was dead. It was said that the man was very 'peaceful' when he left. His eyes exploded out.

Without certain conditions, Su Xiao will never use [primary Rc cell stock solution].

As for the skill scroll [Original Absorption], even if Su Xiao wanted, he could not use it, the preconditions did not match.

Su Xiao deliberately used this scroll, the reincarnation paradise only reminded him that the preconditions were insufficient, did not say that he could not learn it because of the devil physique.

As same as Su Xiao's conjecture, he just could not learn mana skills, and other skills could be learned normally.

Putting the two blue items he just got in front of him, he began to pick and choose among the items in front of him, sorting out the items left behind and the items that needed to be sold.

Soul Crystal (small) x5, this must be left behind.

Type C battlefield syringes, scarlet cards (cold fish), evil spirits roaring, lucky flame, Crushing Elf and Quinque of knife genre were unnamed, all of which needed to be left behind.

The remaining items were:

kakuhou (SS) x1, kakuhou( S grade) x1, kakuhou (A grade) x2, kakuhou (B grade) x1.

Destiny coin

Silk Bra

Primary Rc cell stock solution

Original absorption

These things need to be sold.

Su Xiao wanted to turn these items into paradise coins, and then strengthened, unlocked or upgraded the skills of the shadow of the law.

He had three days to do all this, there were a lot of things to do, but time was kind of plenty.

Putting on clothes at random, Su Xiao put all the items away and walked out of the exclusive room and entered the reincarnation paradise.

When he just opened the door, there were endless selling sounds, arguments.

“The latest information, guides from the variety of derivative worlds.”

“Say again, how many paradise coins is this thing?”

“The price is two thousand if you don’t want to buy, get out, don’t waste my time.”

Su Xiao walked through the noisy crowds, he did not stop at the booths on both sides of the street. These booths had nothing good, and the prices were so high that most of them were deceiving newcomer.

Good things won’t be sold here, they will all gather on the trading plaza. There had many people, and workers’ booths could balance the price, there would not have the situation that the normal thing had a high price.

If the contractor gets a piece of equipment worth 500 paradise coins, he may sell it for 5,000 paradise coins, but the workers are different. They raise the price to 550 or 600 paradise coins at most, taking the route of small profits but more sells.

This undoubtedly promoted the circulation of goods, allowing contractors to have chances to have more equipment or items, and the speed of becoming stronger will accelerate and form a benign circle.

It was no wonder that the reincarnation paradise gave workers some privileges. They were stable the currency’s value in the reincarnation paradise, making the currency to circulate faster.

After passing through various buildings, Su Xiao arrived at the Trading Square.

The Trading Plaza was endless. There were crowds of people, and the stalls were neatly arranged. A person was sitting in or behind the booth, or a few options floated on the booth. It was a function when no person in the booth, which was opened by the contractors who return to the real world. They put the equipment here and waited for a sale.

Although this function was convenient, they should pay 5% of the fee after the transaction, so contractors who had plenty of time will not do it.

Su Xiao came here to sell things. He had arranged the things he had to do in three days.

First, he needed to change the things that he would not use into paradise coins, then strengthen the attributes, opens the new skills of Qing Gang Yin, and then go to the trial field to be familiar with his body which became stronger. Summoning a Mirror who has mastered at sword skills.

There were a lot of things, Su Xiao had to do it in a hurry.

Walking to the front of a booth, after paying the booth fee of 10 paradise coins, he began to fill in the price of the items for sale.

[The original generation of Rc cell stock], [original absorption], [destiny coin] These three items shined blue light and placed a pile of kakuhou next to them randomly.

[Silk Bra] This piece of equipment was thrown aside, in many blue and green items, it became worthless.

Su Xiao gave the

[original Rc cell stock solution]

and [original absorption] a high price. Those who wanted to buy these two items will bargain, and the possibility of a direct deal was not great.

As for the [Destiny Coin], Su Xiao hesitated for a while. The price of something brought bad luck to others was still not too high. In the end, he priced at 3000 paradise coins. This was a blue item after all.

And that pile of kakuhou, Su Xiao sold at 60% of the price of the same weapon in the same rate, the price was very fair, he did not want to waste time on one or two hundred paradise coins and people, he did not have that time.

After the name of the 'Boutique' was given to the stall, the booth was opened.

In less than a minute, several people stopped in front of the Su Xiao booth. The three blue items made them slobber, but they didn't have money.

"Man, can you sell this bottle of [original Rc cell stock] for 10,000 paradise coins?"

A newcomer contractor asked weakly.

"Ha?"

There was some laughter around, and the newcomer stepped back with embarrassment.

"Ten thousand was too little, it will start from 50,000 paradise coins."

Su Xiao did not go to laugh at him. Everyone had been weak. If the person bargains, he will be the guest, he will not sell because the offer is low, but he will never laugh at his guests.
