

## R. Paradise 141

### Chapter 141

The Wall. Rose was broken, three rocks that were kicked off destroyed the towns severely.

“What’s wrong with this? What happened?”

A farmer with a hoe looked at the ruins a few meters away with horror, there was a house which was not spacious but could keep out wind and rain, but now there was only a large piece of gravel and broken wood, there was his home.

“It’s impossible, it’s impossible.”

The farmer stepped on the ruins and madly used his hands to dig the ruins under his feet. Even if his hands were injured and had unguis incarnates, the farmer still wanted to find his wife and daughter under the ruins.

Not to mention that the ruins were massive, his family may already die, even if the farmer found them.

This scene constantly appeared in the Wall. Rose, humans’ stabile lives were instantly broken.

“Do those titans come again? Just like five years ago.”

A survivor, who survived from the accident of the Wall. Maria broke five years ago, staring at the big hole on the wall with shock, only the outdoor of Wall. Maria was broken last time, it was completely broken after Armored Titan broke through the inner door.

This time, the colossal titan surprisingly kicked the Wall. Rose directly and kicked out of three holes in the Wall. Rose. The situation was somewhat abnormal.

After the Wall. Rose was broken, the civilians lived inside of the wall subconsciously fled toward the inner place, Wall. Sina.

But Wall. Sina was the area for aristocrats, the most central part of the three walls, and the range around the Wall. Sina was much smaller than the range around the Wall. Rose. Accommodating these people was impossible. They could not even live there normally, it was even more impossible to let these civilians survive.

The crowd ran beside Su Xiao, Su Xiao glanced at the three holes in the Wall. Rose, and sighed in his mind. This colossal titan was a bit powerful and may be stronger than the titan in the original plot.

At this time, Su Xiao was hesitant, all three holes needed to be defended, but which direction should he defend?

Su Xiao did not need to worry about his question, the reincarnation park had arranged.

[The attack and defense mission begins, the first zone on the east side, the second zone on the west side, and the third zone on the south side.]

[Determining the strength of all contractors..., in the arrangement..., the hunter was assigned to the battle zone: the third zone.]

[The arrangement of the battle zone had been completed, please rush to the third zone within five minutes.]

Su Xiao looked at the hole in front, the third zone was in front of him.

One zone was on his left side, the second zone was on the right side, the third zone was in the center, the rear was not broken.

Rushing to the three zones, Su Xiao saw the titan's figure in the far distance, the three titans had entered the wall, the height was about five meters, seven meters, and ten meters.

Fortunately, the three titans stopped after entering the Wall. Rose, they were attacked by fierce firepower.

Boom.

A rocket boom exploded on the seven-meter titan's face, the fire surged and the smoke surrounded.

This must be the attack of the contractor. The rocket artillery did not exist in the world of inside the wall, they at most had advanced artillery.

Su Xiao who was running looked at the titan who was bombed, the smoke dissipated, the face of the seven-meter titan disfigured, the teeth and skulls exposed, and the entire jaw was blown out.

If the normal creature suffers from this kind of injury, it must be dead. But the titan was different. The titan had only one fatal point. The small area with one meter wide and ten centimeters long in the back neck. In addition to attacking there, the injuries in other places could be recovered.

Sure enough, the seven-meter titan's head surrounded by the steam gradually recovered, it seemed to can completely restore in a minute or two.

Bang, bang?

There was a slight vibration on the ground, which was the walking sound of the titan.

After the three titans invaded inside of the wall, the fourth titan appeared. It was a titan up to 12 meters. When passing through the hole of the city wall, the titan even had to bow down to enter, which showed that its body was huge.

The Titans would only be more and more, now the four Titans were only the spearhead.

There was some good news. Although the four titans entered the wall, their paces of walking stopped immediately, and the body was still slanting. It seemed to be attacked by the contractors.

After Su Xiao arrived in the third zone, he found that there were more than 30 contractors gathered here, and there were still contractors came gradually.

“All contractors, please pay attention, I am the deputy head of Lycoris radiata adventure group bloody rose.”

A slender lady with long hair shouted and attracted the attention of all contractors.

Bloody Rose was a code name, no one would use the real name in the reincarnation park.

Bloody rose put her long burgundy red hair on the shoulder, a delicate deep yellow leather armor wrapped her petite body, holding a long-barreled gun on her hand, the long barreled gun was covered with spiral lines, this was a blue quality weapon.

The shout was very loud, and the contractors who were about to rush to the Titans stopped.

“We don’t have much time, please listen to me. There are now three zones. Don’t worry about the situation in the first zone. Our Lycoris radiate adventurous group has already defended there. As for the second zone, it is guarded by the Fraternity. I think everyone has heard them.

In this derivative world, there are two permanent adventurous groups, one is the Fraternity, and the other one is Lycoris radiate.

There is no problem in the first zone and the second zone. The most troublesome one is the third zone. Therefore, our head Icy luna sent me to help you for defending the third zone.”

When they heard the words of the bloody rose, more than 30 contractors were silent for a while.

“I have heard of Lycoris radiate adventurous group, which is an adventurous group composed entirely of female contractors. It is said to be very strong.”

“I, I would follow Miss bloody rose.”

“As long as the task can be completed, I would follow anyone.”

Under the leadership of several contractors, other contractors also agreed.

“Miss bloody rose, please make orders, how do we arrange the formation.”

After most of the contractors made the statements, bloody rose’s red lips slightly tilted.

Although the contractors were here to discuss countermeasures, the four titans did not break through the line of defense. Several contractors dragged the Titans. It seemed that these people had been persuaded by bloody rose to help her to gain time.

“Everyone, you can tell me about your advantages. I will arrange the formation according to your fighting styles.”

After a few words from bloody rose, she had become the leader of the third zone, but the contractors were not stupid, although they said they would follow bloody rose, they actually had their own purposes.

“My name is a bull, my strength is great, I am very resistant.”

One of the middle-aged men holding the shield walked out of the crowd. The big man was strong. At first glance, he was a pachyderm type.

Bloody rose’s eyes widen the sights after seeing the bull. This kind of wild tank was not common.

“You’re bull, right? Lycoris radiate adventurous group welcomes you.”

After that bloody rose patted bull's shoulder, the slender fingertips swept through his neck.

Bull swallowed and glanced at the bloody rose's nice figure.

Is this woman a fairy?

“The handsome guy standing on the side, introduce your advantage.”

Su Xiao scowled and replied after he thought in mind fast:

“Byakuya, long-range gunman.”

The broken Elf appeared in his hand, the flashing green light made Su Xiao's identity of gunman very credible.

“Oh, I will arrange you later.”

Bloody rose lost interest in Su Xiao and didn't even look at him anymore.

Su Xiao was also happy. The situation was unclear. He had to observe it before deciding what to do.

Chapter 142

The contractors did not use detect equipment or skills on each other. It was a naked provocation, it would likely cause a fight.

Under the inquiry of bloody rose, the contractors talked about their advantages in turn, bloody rose would be very enthusiastic if she found the contractor was good at a close fight, and a sorcerer called dust with a green quality staff was the main target of bloody rose.

That wink which could not be distinguished for intentional or unintentional let everyone knew the importance of the sorcerer to bloody rose.

However, the sorcerer did not care about that but stood silently in the crowd.

“This hunk, you must be good at a close fight, right?”

Bloody rose stood in front of a muscular man, the muscular man was shirtless, the muscles in his upper body were sharp and angular, and the white teeth seemed to be shining that appeared when he was laughing.

“Miss, I am a gunman.”

The muscular man took out a shotgun and put several professional shooting positions.

The contrast between his tough, muscular looks and his flamboyant moves made Su Xiao sick to his stomach.

Bloody rose's mouth twitched trying to keep the charming smile in her face.

“It's not good to use a poor white gun as a gunman.”

The sight of bloody rose became a little dangerous.

The muscular man sighed and showed the attributes of the gun to bloody rose.

“Oh, you're really a gunman, but it's a pity having these muscles.”

The muscular man's arm bowed in front of the lower abdomen, posing in the posture of the bodybuilder.

"I am a fitness instructor, these muscles are just appearance."

Soon, all the contractor's advantages were known by bloody rose, and some contractors also wanted to be gunmen, but they were all found out by bloody rose and given two choices.

The first was to be expelled from the third zone so that their mission completion would be zero, the mission would fail, and the second was to meet the titan in front and fight close to the titan.

Those contractors chose the second option, no one wanted to fail the task.

According to the advantages of the contractors, bloody rose helped the contractors to arrange their combat positions one by one.

Su Xiao was now a 'gunman' and was naturally placed in a backward position.

Including contractors who came after, there was a total of 43 contractors gathered in the third zone, including 12 for a close fight and 31 for a remote fight.

Most of these contractors for the close fight were forcibly found out. Otherwise, the number of contractors for the remote fight would be more, showing how low the proportion of contractors for a close fight in the reincarnation park.

"Everyone listens to the order, the people for a close fight are responsible for dragging the titan, the people for long-range fight use full firepower, start the war."

Bloody rose screamed and rushed to the titan Su Xiao was somewhat speechless in a dozen meters away. What was this command mode? Was this woman really a deputy's head? There was a PY transaction.

The hunk who was somewhat helpless was not far away from Su Xiao.

"Hey friends, my name is Enthus, we're both 'gunman', we have to take care of each other."

Muscleman grinned at Su Xiao.

"Ahhh."

Su Xiao subconsciously stepped back. This guy was definitely not a gunman he thought in mind. Otherwise, he would swallow the broken Elf.

"If I remember correctly, you are Byakuya, right? Don't worry, my sexual orientation is normal, I prefer the type there."

Enthus pointed at bloody rose in the distance.

Su Xiao laughed and did not say anything, the woman must be a thorny rose, with poison, he began to observe the contractors in the first row, if there are only the four titans now, these contractors will

be able to deal with it, but if there are more than ten titans, whether the contractors can resist will be unknown.

However, considering that bloody rose had a blue weapon, the short-term defense should be no problem.

These were not really important, Su Xiao had heard Lycoris radiate adventurous group which bloody rose said before.

Before he killed the black white in the last world, black white once said such a sentence, 'Lycoris radiata adventurous group will not let you go.'

In other words, the queen, black white, and leaves may all be members of Lycoris radiata adventurous group.

Some people had just mentioned that there were only women in Lycoris radiate adventurous group, and that should not be wrong.

As Lycoris radiate adventurous group that could independently defend a district, the strength should be strong, he may be cautious in the future.

It was also a coincidence that the two adventurous groups that Su Xiao had contacted had come to the titan world.

Or it was unfortunate, his comprehensive evaluation of clearance in the last two worlds was too high, so the difficulty of the world he entered was higher than his rank, and he also had the identity of the hunter to 'add to the difficulty'.

In Su Xiao's pondering, the team of close fight in more than ten meters away had made contact with the titan.

The titan's figure was too large, many contractors wanted to attack the Titans' Achilles tendon to let the titan fall to the ground, then jump to the Titans' back to attack its back neck.

The contractors did not have the black technology of '3D Maneuver Gear', they could only use this stupid method.

The target of contractors to attack in the distance was the Titans' eyes or thighs.

First thing was to blind it, then cut down, and finally attack the neck.

It sounded simple, but the actual operation was difficult.

"Let's go!"

A large group of contractors rushed to the feet of the Titans and was about to be close to the Titans.

The wild tank who was called bull was at the forefront, he stared at the Titans' legs.

The shout from contractors caught the attention of the titan, which was a ten-meter titan.

The titan bowed his head and looked dumb, it was like an idiot bowed down to see many contractors.

The pace of the contractors suddenly stopped, the power just disappeared.

“Is this a titan?”

A contractor with a machete swallowed, and cold sweat fell off from the forehead.

Unlike watching anime, standing in front of a titan were completely two different feelings.

The huge body, the dull expression, the flat teeth which were as big as a basin, and the big fat belly.

What was the feeling of biting by the flat teeth which were as big as a basin? What was more, after being swallowed into the big belly which was full of blood.

“Don’t wait for death, rush with me.”

Bloody rose rushed to the front, the long barreled gun in her hand rotated for a few times, dancing out.

Gun flower.

After many contractors hesitated for a while, they finally rushed forward.

The contractors for the close fight had rushed up, Su Xiao, who was a gunman in the distance, could not just look.

Boom, boom, boom...

After shooting six times by the broken Elf in his hand, six bullets formed by the kagune passed through the air, arousing the layers of the airwaves and inserting into the titan’s cheeks.

Crack, crack, crack...

Several holes which were as big as fists appeared on the titan’s face. One of the six bullets hit the titan’s eyes, the situation was good judged by the fortunate shoot. The luck was quite good.

The broken Elf would automatically generate bullets, which took two minutes, so Su Xiao lit a cigarette and sat on the big stone to wait for bullets generated.

Ahhh! Boom.

A big shout and the subsequent gunshot made Su Xiao stunned, looking aside, it was Enthos on the side, this guy would shout every time when he shot, the power was stronger than those of those contractors for a close fight.

Seeing this scene, Su Xiao was speechless, this guy fooled around was too exaggerated.

Unlike Enthos fooled around, the sorcery called dust had elements surging around, and a fireball which was as big as fist continued to expand in mid-air, and soon became a big fireball with a diameter of two meters.

Hui?

.

The fireball flew quickly with the tail flame and directly hit the head of the ten-meter titan.

With a crack sound, the flame wrapped the titan’s head and exploded. The titan swayed like being drunk and fell to the ground.

Those contractors for close fight saw the dead titan and showed a respective sight to the dust.

He killed a 10-meter titan in a second, this sorcerer was not weak, his intelligence property should at least be 20 points.

Bloody rose charmingly smiled and looked at the dust with a little different sight. The sorcerer who fought so hard at the beginning was rare.

Chapter 143

The ten-meter titan fell, and the other three titans were dragged, the situation was good.

Under the siege of close and remote fights, two of the Titans were quickly killed, only the twelve-meter titan left.

The contractors for close fight surrounded the twelve-meter giants who walked around dumbly in a circle, but wherever it went, the contractors there would all retreat.

After the dust attack, these contractors were no longer close to the titan but attracting the attention of the titan and handing over the heavy responsibility of killing the enemy to dust.

Bloody rose did not stop this situation, she was even in the crowd, although the long barreled was waved dazzlingly, she did not actually attack.

Dust used three skills without expressions, the elements were surging, and dust was ready to use the fourth skill.

Su Xiao raised his hand and fired two shots. The firepower of the contractors near him was much stronger. Most of the gunmen swept with semi-automatic rifles and hit out several holes on the titan's head.

“Tornado.”

Dust waved his staff, a tornado whistled to the 12-meter giant.

The shrieking wind was whistling, the surrounding gravel and hay were all caught in it. The original transparent tornado turned gray-black.

This tornado which moved forward fast surprised those contractors for a close fight who jumped aside immediately.

The tornado wrapped the twelve-meter titan, a tornado became blood red in fewer seconds, the strong wind faded, and the titan who was already attacked severely fell down.

Although titan had muscles, blood and internal organs in its body, the titan would not leave a body after death, it would be gasified in a few minutes, disappearing without a trace.

The four titans were cleaned up, the hole of the wall did not have titans nearby for the time being.

Su Xiao had some doubts, it was too easy.

[Announcement: The attack and defense battle of the trial stage in the third zone have been completed, titans will formally attack after five minutes.]

The sudden announcement made contractors in the third zone worry. The four titans just let them be familiar with the derivative world. They were not strong enemies. This is just a test.

[Because all trail stages in all zones have been completed in specified time, the attack and defense contribution values will be calculated.]

[First place: Adam, the attack and defense contribution value of 56.]

[Second name: Icy Luna, the attack and defense contribution value is 50.]

[Third place: dust, attack, and defense contribution value 48.]

.....

[When the attack and defense war was won, the top five contractors will be given an additional reward.]

[The reward for the first place: soul crystal (small) x5.]

[The reward for the second place: random one piece of blue equipment.]

[The reward for the third place: random one piece of green equipment.]

[The reward for the fourth place: 3000 paradise coins.]

[The reward for the fifth place: 1000 paradise coins.]

.....

Su Xiao scowled, killing titans could get the attack and defense contribution values, and the reward for the first place was extremely attractive.

However, the nail that sticks up mostly gets hammered down, it was not yet time to get the contribution values. Now there were the heads of the two adventurous groups, and the sorcerer called dust in the same region he stayed on the list.

The attack and defense war temporarily rested for five minutes. Those contractors for the close fight came from far distances, most of them were coming for dust.

“Dust, hello, I am bull, I can cover you when you use skills.”

The only wild tank bull in the third zone did not seem silly. He just exchanged love glances with bloody rose, now making statements to dust.

“Mr. Dust, your staff, is a green boutique, right? the power is too strong.”

In the flattery of the contractors, dust got up and patted the dust that did not exist on the robes.

“Everyone, I am a new member of the Fraternity. Our boss asked me to help you. I prefer practical actions more than words.”

After a few simple words, more than 30 contractors stood near dust, and the remaining contractors hesitated from choosing sides.

They must choose one from Lycoris radiata or Fraternity. Otherwise, they would be isolated.

Although they were organized by bloody rose previously, the performance was very poor in the battle. They only put down a five-meter titan, and the titan was finally killed by dust.

Less than two minutes, there was no one in bloody rose's side, dust was promoted to the leader of the third zone, the rights changed too quickly, which made people unprepared.

“Byakuya, don't you want to go to show your loyalty, I want to do so, a powerful sorcerer, he is reliable.”

Enthus played the shotgun in his hand, looking like to show his loyalty.

“I'm not interested in that.”

Su Xiao spits out a cloud of smog and thought about how long these contractors could last.

“Oh? You were abandoned, or our three 'the regal isolationist' ally.”

Bloody rose shook her thin waist and sat on gravel near Su Xiao.

“Don't you care that I'm the gunman?”

Su Xiao lifted the revolver in his hand, bloody rose looked at Su Xiao for a moment, and finally shook her head.

“What about you, bro? Only we two ally it would work nicely?”

Enthus's corner of his eyes twitched, looking at bloody rose like a faint smile.

“That's great, let's ally.”

When the two discussed how to ally, Su Xiao heard the sound of air jets from a distance.

The three figures were running at high speed in a roof which was few hundred meters away, wearing the military uniforms which only existed in the Titans' world, white bottoming shirts, dark yellow tops only cover to the chest, white trousers, and deep yellow boots reached to knees.

The biggest feature of these three people was the '3D Maneuver Gear' on both sides of their waists. It was two metal boxes with one hundred and ten centimeters long. There was a barrel of high-compressed gas at the bottom of the metal box, which could be used for acceleration. It allowed people to slide in the air farther and faster.

Two hilts were linked to the '3D Maneuver Gear', and a blade with one meter long was on the hilt, which could be replaced at any time, and the hilt could also control the gas injection.

This strange weapon was the main means for the original people to deal with the Titans. The blade with about one meter was similar to the paper cutter, it put a lot, it was extremely sharp but easy to wear

.

For this reason, there were six blades inside of '3D Maneuver Gear' for replacement.

3D Maneuver Gear could be regarded as the black technology of the titan's world. It was first nailed to the building with the attached hook and then tightened the hook to let the body pull forward.

As long as they could master the 3D Maneuver Gear, they could do the actions like flying in the town with high buildings, so as to fight with titans.

Of course, even if there was no high building, they could nail the hook to titan's body, but the risk was higher, a newcomer would die easily.

Looking at the three people came at high speed, Su Xiao's eyes were bigger, he recognized the identity of the three.

The original protagonist Eren Yeager, the super popular female character Mikasa Ackerman, the immature think tank Armin Arlert.

The three important characters in the original plot appeared some of the contractors looked at them with curiosity.

“There is a gap here too? Damn.”

Eren Yeager just landed and rushed to the hole, he looked panicked. Although he was passionate, he was too impulsive.

“Eren, calm down, we are not sure whether there are any Titans, don't get close there now.”

Mikasa Ackerman stopped Eren, Eren was still unwilling, he wanted to go to the hole to find out.

“Mikasa is right, but we should understand the current situation, and there are prisoners in prison, they must do anything.”

Armin was somewhat alert to look at Su Xiao and others.

“Shit, if they dare to do anything, I will put them back to prison. As a member of the Survey Corps was surprisingly imprisoned. It really discredited the Survey Corps.”

When he heard Eren's words, Su Xiao guessed the identities the reincarnation paradise gave the contractors.

The former Survey Corps members who were arrested for crimes were now atoning for their crimes for doing good services.

This identity did not stand up under close scrutiny, but under the balance mechanism of the reincarnation paradise, even if Su Xiao and others took out the rocket to bomb the Titans, the original people would not doubt.

Chapter 144

“The protagonist of the Titans' world is on the scene, nice.”

Enthus smiled and looked at Eren and others, he seemed to want to talk to them, he looked hesitant, but some people were faster.

A contractor came to Armin and gently smiled.

“Hello, I am Kevin, we are responsible...”

Kevin did not choose to talk with Eren or Mikasa but chose Armin who was easier to chat with.

“Well, I got it.”

Armin simply responded and stopped, it seemed that he had no interest in talking to Kevin.

Kevin was mildly rebuffed, after that he smiled with embarrassment and looked at Eren.

“Why do you look at me, I won’t believe what you, a prisoner says.”

Well, he was blamed before he spoke. Kevin’s eyes flashed in anger, his 10 points of charm were useless in front of the three.

Finally, he looked at Mikasa, Kevin shook his head and sighed, if he makes this girl angry, she may kill him, so he walked away and stood near dust.

“Sure enough, it seems that we can normally communicate after the attack and defense mission is completed.”

Dust whispered and finally gave up the plan in mind.

Su Xiao was nearby.

“Enthus, if the battle line can’t keep, will you shoot?”

Bloody rose whispered close to Enthus’s ears.

“Well? What are you talking about? I have already shot now.”

Enthus looked at bloody rose strangely and raised the shotgun in his hand.

“I can barely believe it before, but it is different now, the head of our team contacted me and conveyed some information to me.

The leader of the corps Levi·Ackerman had arrived in the first zone to support them. The second zone had the madwoman Hanji Zoe and many members of the Survey Corps.

However, the third zone had sent us three recruits from the training corps. Although the fighting power of Mikasa was strong, it was not comparable to the two experienced members of the Survey Corps. ”

Bloody rose said till this and stopped, she looked at Enthus with burning eyes.

“Dust is very strong, I admit. I understand my strength. This kind of camp is not enough compared with an adventurous group. Reincarnation paradise will not make this kind of mistake. Another hidden strong person, which is you, right?”

“Oh? There are other contractors.”

“Ha? Those guys are coming for death.”

Enthus silently fiddled with the shotgun, which seemed that the gun was his treasure.

“Not me, my fighting power is really not strong.”

Bloody rose squinted her eyes and tided her lips, and didn't know what she was thinking about.

[Time is up, the Titans are starting to attack.]

The hint of the reincarnation paradise appeared while Su Xiao felt a slight vibration on the ground.

Boom, boom, boom...

Titans were approaching, the numbers were a lot.

A contractor was good at agile ran to the front of the hole, and his legs were soft after seeing the number of titans outside the city wall.

“Dust boss, the thing is not good, there are a large number of titans outside the city wall.”

“How much specifically?”

“The number.. is hard to count.”

With a whistle, all the contractors got up and ran to the hole. After seeing the dense titans, everyone had the idea of turning around and fleeing.

Not far from the wall, there were dozens of titans moving forward. Although the Titans' paces were not fast, they could walk for a few meters away every step, and they would reach the vicinity of the hole in less than a minute.

“Everyone stays alert, keeps the original formation.”

Dust screamed and stood in the back with a staff.

“Wait.”

Bloody rose suddenly spoke, dust frowned and looked at her.

“Bull, you are responsible for defending the hole. You must not let the Titans break-in. So we only need to deal with one or two titans every time. You, you, and you are responsible for the left and right sides of bull. If bull makes mistakes, you need to cover them immediately.

The remote gunmen are divided into three columns for shooting in turns, each column pays attention to change bullets, the long-range firepower must not stop.”

A series of arrangements from bloody rose made many contractors stunned, all contractors looked at dust.

The face of dust was not very good, the position of the leader he just won was unstable.

But bloody rose's tactics were perfect, he had to do that unless he wanted the defense line to be broken.

“Do as she said.”

After dust gnashed the teeth and said this sentence, he looked at bloody rose with anger.

”Mr. Dust'? Am I wrong?”

Bloody rose charmingly smiled. As a deputy head of Lycoris radiatar, how could she not be good with strategies? The newcomer dust of Fraternity is still too young.

After all the contractors were in place, the Titans came from the hole, and the first one to contact with the Titans was bull.

The titan did not have a standard attack action, it could just bite or scratch.

A big hand which was as big as nether grabbed to bull, bull's face changed greatly and immediately wanted to retreat.

“You can't retire, you must die if you retreat.”

Dust shouted a big fireball was thrown out.

Bang, the titan in the hole, was burnt into coke, the body gradually vaporized, and the titan in the rear entered the hole.

Boom, boom, boom, boom...

All kinds of firearms sounded like a blast, the Titans' movements were blocked. Most titans were killed before going out of the hole.

After seeing this scene, Eren and others looked at the many contractors unbelievably.

“These prisoners are so strong.”

“We should be more cautious.”

Mikasa looked at many contractors, she squinted her eyes in the dark.

“They may not be able to defend for long, we have to think about countermeasures.”

Armin saw the drawbacks of the contractors. If the people in front of the hole dies, the Titans will all rush into the wall. Once they needed to deal with many titans at the same time, the contractors would be defeated.

The fight continued, titans fell in the hole, forming a pile of bones on the ground. The Titans' bones gasified much faster than the muscles.

The contractors were defending the hole by their all efforts, and the bull shield in the foremost was somewhat distorted.

Now bull had only one idea, that was to run, he almost could not hold.

A titan's hand pop out at the hole, grabbing bull, bull shouted and jumped out, the titan's hand was too fast.

“No, it's Kiko Shu.”

The contractors for close fight rushed forward. Kiko Shu was a kind of titan, but the behavior was unpredictable. Kiko Shu was different from the ordinary titan. Its four limbs stepped on the ground and climbed quickly.

Boom, boom.

Kiko Shu smashed down two contractors and successfully broke through the defense of the hole.

There was a lot of difference between Kiko Shu and the ordinary titans. The ordinary titan looked dumb. They generally walked forward slowly, it was easy to estimate their behaviors.

Kiko Shu was different. They had all kind of ways, such as rotating, jumping and so on. They could approach the enemy in a charming posture. Some Kiko Shu even climbed horizontally like a crab.

“Quick, stop the titan.”

Dust stared with anger, if the battle line was broken, it would be all over.

Whistle?, the sound of the jet came, Mikasa and others rushed to the Kiko Shu.

3D Maneuver Gear made Mikasa glided in the air, she held a sharp knife in both hands, and she cut in the back neck of Kiko Shu after rotating her body in the air.

After the flesh of its neck flies, Kiko Shu fell to the ground, and the steam rose.

But this Kiko Shu was just dead, there were five Kiko Shu got out in the hole. The contractors had no time to defend.

The five Kiko Shu disrupted the formation of the contractors in an instant, the contractors threw their helmets and fled immediately, several ordinary titans emerged from the hole.

“It’s over.”

Bloody rose and dusty face were extremely awful. The task of the 20-day time limit, the battle line was broke less than one hour, not mention to block the hole.

“Hey, Byakuya, the task will fail if you do not fight.”

Enthus put away the shotgun and dropped a silver necklace around his neck, a palm-sized silver cross hanging on the necklace.

“Vitality.”

“Courage.”

“Faith.”

The three glories of different colors spread on Enthus’s body.

[You have been blessed with a ‘Vitality glory’: The speed of recovering life value increased by 50%.]

[You have been blessed with ‘Courage glory’: strength +4.]

[You have been blessed with the ‘Faith glory’: abnormal resistance increased by 20%.]

Enthus was surprisingly a ‘carebear’, simply glories he had three.

The contractors who were blessed by the glories were stunned, they were the first to see such strong glories.

[You have been blessed with 'Victory Shouting', all attributes +2, the effect lasts for 30 minutes.]

“Byakuya, is my sincerity enough?”

After a short period of thinking, Su Xiao decided to come up with his ability. If he doesn't fight, the defense line will break soon, it will be troublesome. Bloody rose and dust can't keep the battle line at all.

“Nice sincerity.”

Su Xiao put away the broken Elf, dragon flash appeared in his hand, the power suddenly changed.

“It's this guy.”

Bloody rose shot away to the titan's back neck, the ordinary titan fell down. Her main attribute was strength and the agility as a support, she could not keep up with the strange speed of Kiko Shu.

Su Xiao glanced around, and immediately locked a Kiko Shu, he quickly ran toward Kiko Shu.

Kiko Shu also saw Su Xiao, his limbs stepped on the ground and rushed to Su Xiao.

The two quickly approached each other, Su Xiao's body rushed forward jumped to the side, just to avoid the big mouth of Kiko Shu.

Dragon flash cut through the air and smashed the back neck of Kiko Shu.

Snigger.

A huge head flew, Kiko Shu's head was cut off by Su Xiao's one sword attack.

Su Xiao was a bit stunned. Dragon flash was like cutting a piece of tofu to cut on Kiko Shu. There was no resistance on the muscles and bones of Kiko Shu.

Although Kiko Shu was dead, the body was still rushing forward, Su Xiao stepped on the back of Kiko Shu, after accelerating for a few steps, he jumped to the other Kiko Shu.

The cold light appeared in the sight of the Kiko Shu.

Snigger.

Two swords, two Kiko Shu fell down.

Fizz?

The hot blood fell on Su Xiao's backhand. He stood on the back of Kiko Shu which was gasifying. The whole person stood in the steam, the cold light in sight was extra obvious. He was looking for the next target.

“I finally know why the paradise will assign new recruits. It has already arranged a person with the level of the leader in the adventure group for us.”

Bloody rose stared at Su Xiao, there was a light in her sight. She just made a mistake.

Chapter 145

After Su Xiao solved the two Kiko Shu, the pressure on the battle line slowed down noticeably.

“Who dares to escape, I will kill it.”

Su Xiao screamed and let the contractors who wanted to withdraw strategically stopped.

Some contractors were obviously angry, but after seeing Kiko shu's corpses under Su Xiao's feet, they immediately hid their anger.

“Now we are a grasshopper on the rope, as long as we actively defend, it must be no problem.”

After bloody rose communicated with the contractors, Su Xiao quickly rushed to the third Kiko shu. He didn't really care whether most of the contractors escape, he would not fail with the mission. He had another purpose.

However, it was still necessary to solve these titans who had broken into the wall.

Compared with the ordinary titans, Su Xiao felt that Kiko shu were easier to deal with.

Although the speed of Kiko shu was very fast, these Kiko shu had a habit of preferring to swallow or bite humans.

It was the action of bowing that made Su Xiao easily kill Kiko shu.

But not all of them did this, for example, the one in front of him was special.

When he rushed to the third Kiko shu, it also noticed Su Xiao.

Kiko shu stared at Su Xiao with dull sight. The original slow pace became quicker, the two legs with three or four meters long ran fast, and the upper body swayed from side to side as if it was very happy.

Boom, boom, boom.

The ground had loud sounds, and large buildings' remains were kicked flying.

Su Xiao held the sword in the same place. This Kiko shu was different from the previous one. It belonged to the type of that walked like humans. Cutting its neck was difficult.

The roar came to his ear, a big muddy foot stepped down.

Su Xiao jumped to the left slightly to evade.

Bang.

The gravel splashed, Kiko shu's step made a light hole on the ground.

A strong wind blew Su Xiao's short hair, his cheeks pumped. If he is stepped on, he will die. Don't talk about the 12 points of vitality. Even if he has 20 points, he will be stepped into a pile of meat.

He could never be stepped or bitten, or he will die.

Su Xiao made judgments in mind and stabled his body, a slash of sword light crossed, Kiko shu's leg was cut off.

Kiko shu's attack power was indeed strong, but the defense was not very strong. At least for Su Xiao, the titan's body could not stop his attack.

The sword specialization had improved two levels, dragon flash had promoted to a blue weapon, and the enhancement of various attributes of his body made him grow a lot.

A small leg was cut off, Kiko shu's huge body fell forward.

Boom.

The large and somewhat complete building was crushed, Kiko shu lied on the ground, it seemed that he tried to stand up.

Su Xiao rushed for a few steps and jumped on the back of Kiko shu, stepping on the back of Kiko shu, he was like stepping on a piece of somewhat hard plastic.

He quickly arrived at the position of back neck, a sword, two swords, the flesh of the back neck was smashed, a large piece of steam rose.

Su Xiao incessantly cut three Kiko shu, he was not breathless, it looked very easy for him.

After cutting the back legs and then smashing the back neck, under the perception of the heart-eye skills, Kiko shu had flaws all over its body, the two Kiko shu were dead under his sword in five minutes.

The benefit of the sword made the contractors present stunned.

Under the negotiation of bloody rose with bull and other contractors, they all came to the hole reluctantly and blocked the titan at the hole again.

After incessantly five Kiko shu appeared, Titans' attack outside of the city wall was significantly weakened.

[Your talent 'psychic' is launched, permanently adding 10 points of mana, and the current mana is 313 points.]

[Your talent 'Psychic' is launched, permanently adding 8 points of mana, and the current mana is 321 points.]

.....

[Your talent 'Psychic' is launched, permanently adding 9 points of mana, and the current mana is 349 points.]

Entering the new derivative world, Su Xiao's talent ability could also take the mana.

It may be that the more mana values which took this time, Su Xiao obviously felt that some kind of energy was growing in his body.

Su Xiao checked on Kiko shu's body, looking for a long time to find a white treasure chest, which made him somewhat helpless.

The chances of the ordinary titan dropping the treasure chest were not high, the chance of killing Kiko shu should be higher than the ordinary titan. Even so, the chances of killing Kiko shu to get treasure cases were not high.

However, with the experience of killing hundreds of ghouls could not get treasure cases, Su Xiao had become accustomed to it. He had no feelings at the moment, and even wanted to 'kill the individual' in this 'red letter day,' but now there was no reason.

“Bloody rose, it had nothing to do with you for me to leave the front line, at most I fail the mission.”

A dark-skinned man who was carrying a wooden spear, standing in front of bloody rose, who was a real African.

Contractors with various skin colors in the reincarnation were common.

“No one will be willing to fail the mission. There is that powerful person, there is no problem to hold the battle line.”

The reason why bloody rose was trying to let this black man stay was not that how strong the person's strength is, but she didn't want to lose power in their defense. If the contractors are in danger and leave, the defensive line will break.

“Byakuya, come help me to persuade him.”

Bloody rose secretly gave Byakuya a wink, probably was to let Su Xiao come to help.

The black man tilted his lips with disdain. In fact, he knew that they had hope. Compared with the reward of the main task, he would be rewarded more by fighting alone. He relied on the main task and clearance values to become stronger. He had other ways to become stronger, there were some ways to break the rules, he was profitable by himself, the other contractors of the entire derivative world were unlucky.

Su Xiao heard the greeting of bloody rose and walked slowly after two seconds of thinking in the same place.

“What? You want to leave the third districts? The consequences are very serious.”

Su Xiao stood in front of the black man with a gentle smile.

Bloody rose stood aside, she frowned tightly, she wanted Su Xiao to persuade him, but Su Xiao's current move was not attached to her imagination.

“Where I go is my freedom, you control...”

The black man had not finished his words, the horror appeared in the eyes.

Snigger!

A head with a shocked expression flew up, the black person even did not know why Su Xiao killed him till he died, just because he refused to stay in the war zone?

Large blood splashed on bloody rose's face, now this rose was indeed stained with blood.

Bloody rose was stunned and looked at Su Xiao unbelievably.

“Why do you kill him?”

“Well? I reminded him that the consequences of leaving are very serious.”

Bloody rose no longer spoke, she looked at the back of Su Xiao with full of alert. This kind of powerful person who killed people when they could not communicate was very dangerous.

Was Su Xiao killing people when they could not communicate? Of course not.

[The hunter had cleared the No. 14030 offender and now the hunting mission has been completed (1/3).]

The black man was an offender. From the experience of the last world, the actions of the offenders were generally secret, the whole process would not be with other contractors. This time, he appeared in the war zone making Su Xiao somewhat surprised. After the unknown purpose was reached, he would flee immediately.

The black man offender obviously wanted to act alone, if he let him go, it will be endless.

If the black man made trouble during the attack and defense tasks, it would be trouble, so Su Xiao took a shot to avoid the troubles.

Chapter 146

The black man contractor that was killed made all the contractors surprised. The looks toward Su Xiao changed.

Dust saw this scene and was surprisingly relieved.

The situation in the third zone was already chaotic. He and bloody rose were all in a group, it was not good enough to compare who had more advantages.

Su Xiao's powerful fighting force made dust alert, he was worried that the third group appeared.

However, after seeing Su Xiao's 'fierce' character, dust was completely relieved.

The Titan's attacks were still going on. Bull in the foremost began to be timid after seeing Kiko shu's horror, other contractors for a close fight were suffering.

Once the wild tank bull had retired, they will suffer.

Boom.

The two five-meter titans squeezed into the hole at the same time. The two titans were obviously crowded through the hole at the same time. But the Titans did not fear the pain. After grinding several pieces of skin on the coarse stone wall in the hole, two five-meter titans attacked bull.

This action scared bull a lot, he clenched to the shield and retreated, the two five-meter titans entered inside of the wall.

“Bull, what are you doing...”

A contractor for a close fight whose eyes turned red, now the main tank had withdrawn, those contractors for the close fight went into crisis.

Two huge hands grabbed to two contractors. One of them quickly retreated, and the other one retired slower. The whole person was caught in the hands of the titan.

Crack, crack.

The crispness of the broken bones came one after another, the contractor couldn't even scream, the long-handled ax in his hand fell.

The titan looked at the contractor in his hand, loosening its hand, he threw the contractor into his mouth like throwing a jelly bean, followed by was a terrible chewing sound.

This scene caused many contractors' scalps numb, the first casualty appeared for the first time in the battle line, and the contractor was chewed alive.

The minds of the contractors for close fight began to waver, after seeing those contractors for long distance fight were comfortable, these people were even more unbalanced in their minds.

Why do those people hide in the distance, they have to face the Titans in front?

But these people had forgotten that they chose it by themselves, any consequences must be responsible for themselves.

“You are the weakest tank I have ever seen.”

Su Xiao walked by bull. Compared to the queen he had fought against, bull was not as good as shit. The Queen did not retreat for a step back until she died. There was a kind of gut that she did not want to hurt her teammates. The Queen did it. Before she fell, Su Xiao did not hurt her teammates.

“You....”

Bull just wanted to argue for a few words, but after seeing Su Xiao, bull's body trembled and turned his head to stop talking.

Because the situation was dangerous, Su Xiao had no choice but to stand up. Since he had already exposed his strength, he was ready to fight for the first prize of the attack and defense war.

The reward for the first place was five soul crystals (small), with the five soul crystals (small) Su Xiao's sword specialization could be upgraded to level ten.

Su Xiao walked slowly to the front of the hole, cutting off a titan's calf with one sword strike. The Titan fell forward, he escaped the titan's huge body and cut open the titan's back neck with another strike.

Now, this hole was a good terrain, Su Xiao could easily deal with two titans at the same time.

But if the number of titans exceeded ten, Su Xiao should be cautious. Ten titans could circle a wall and surround him, then he could only find ways to escape.

If the number of titans exceeded twenty, there were Kiko shu among them, Su Xiao would be likely to die.

He had an innate disadvantage against the Titans, and the position of titan's back neck was too high unless he could learn to use the '3D Maneuver Gear'.

However, it was not easy to learn to use the '3D Maneuver Gear'. He did not have enough time.

After Su Xiao blocked the hole, the other contractors also cleared the two five-meter titans.

The attack and defense war officially began from now.

Su Xiao blocked the hole in front, bloody rose was near Su Xiao. When Su Xiao rested, dust in the distance was responsible for the firepower, and Enthus added the restoration to everyone.

The contractors for close fight looked at each other, now the battle line stabilized. They became spectators.

A contractor for close fight silently took out a white quality gun and fired a few shots at the titan of the hole. Other close fight contractors also imitated.

Bloody rose looked at the back of Su Xiao who fought with titans, she looked somewhat concerned.

The stronger now was there, but this stronger was somewhat 'not good with communications'.

After defending for the battle line for an hour, Su Xiao went back as the wave ended.

“It's your turn.”

Su Xiao looked at bloody rose, there were too many contractors present. He rested immediately after feeling tired, in case he needed it.

“Roger that.”

Bloody rose did not hesitate to fight, she stabbed incessantly by the long-barreled gun in her hand, jabbing the titan's legs to be rotten. After she stabbed for a dozen times, the titan fell, she began to attack the titan's back neck.

With Su Xiao's previous demonstration, bloody rose also found a way to deal with the titan, but compared to Su Xiao, the speed she killed the titan was much slower.

Su Xiao used one strike to cut off the leg, another one to cut off the neck, flat and neat, he could also rest for a while when the titan gasified.

Sitting on the ruins of a house, Su Xiao took out the fresh water and drank it.

“It seems that I'm right. You're the strongest in the third zone.”

Enthus came over, this guy was covered by glory, giving people a feeling of vitality.

Enthus was the most relaxed person on the battlefield. He only needed to release various buffs.

Although it looked glorious, he actually did not have much fighting power.

“I'm surprised that you didn't join any certain adventurous group. With your buff skills, no adventurous group will reject you.”

Enthus smiled bitterly.

“My adventurous group... disappeared, I can't fight side by side with those brothers, I won't join any adventurous group, never.”

“Oh?”

Su Xiao did not ask about Enthus's story. He was not interested in other's privacy. It was an annoying action.

“That said, how do we block this hole, the big stone I have seen before, unless the power attribute reaches 30 points or more, otherwise even if we can lift it, we will not be able to go far.”

What Enthus said was very reasonable. The attack and defense task was not to block the Titans, but also to find a way to block the hole.

There were three holes. In Su Xiao's view, since he had been assigned to the third zone, he could complete the attack and defense task when he blocked the hole in the third zone.

After completing the attack and defense task, he would be able to explore the Titans' world and execute hunting tasks, so the sooner he completes the task, the better.

“Enthus, you don't need to fight, so you have a lot of time, so...”

After Su Xiao whispered for a few words to Enthus, Enthus was shocked.

“This...”

Enthus looked at the protagonist of the plot Eren.

“Our appearance has destroyed the story, so there is no need to think about continuing the story. If Eren does not become a titan. No one can lift that big stone. I don't believe that the strength of the heads in the other two zones can reach 30 points. Above, even if they achieved it, will they help us?

I will not force you to do this, you can decide by yourself.”

After Su Xiao's words, Enthus was silent.

“Other contractors will have opinions.”

“Who has opinions I will kill them.”

“Strong strength can lead to having a bad temper. I followed this game. When did it start?”

“At night, now there are so many people, the Titans can't act at night. More than 80% of these people will not stay here.”

Chapter 147

The defense of the battle line was still going on. Under the alternate defense of Su Xiao and bloody rose, several titans were fought back.

After bloody rose killed a titan, the titan gradually turned into a large piece of steam, and a halo of green light emerged in the steam.

“Green treasure chest.”

The contractors in the distance grasped in admiration, their eyes were full of greed.

“Today is bad luck, only one green treasure chest was dropped by killing so many titans.”

After bloody rose picked up the treasure chest, a sentence made Su Xiao somewhat speechless.

“This is normal.”

Bloody rose looked at Su Xiao very strangely.

“How could it be normal? I can’t count how many titans you killed today. I also killed some. As for the normal situation, it could drop five or six green treasure chests, but now only one.”

Su Xiao coughed, if the number of titans he killed was removed, the dropping rate of the treasure chest was indeed normal.

“This treasure chest is obtained by me to kill the titan, but I will not have it alone. Everyone present can share.”

After bloody rose, Su Xiao, dust and Enthus winked at each other.

The other contractors hearing this sentence was very happy. They could surprisingly share it. At this time, the way they looked at bloody rose changed obviously.

This woman was good at drawing people’s hearts, Su Xiao was very interested in how this woman would do, she talked basically bullshit, first do not talk about whether he agrees or not, dust and Enthus would not agree.

Those contractors did not do anything, there were no contributions besides shooting randomly. The Titans could not be killed by guns.

The sky was slightly dark, the titan’s attacks gradually weakened. By about 7 pm, the titan’s attacks completely stopped.

Titans would only be active during the day, they would be very quiet at night, no longer attacking humans.

The first day of the attack and defense war ended, all the contractors were relieved.

[night fell, the attacks of the Titans stopped, the attack and defense contribution value will be calculated.]

[First place: Byakuya, the contribution values of attack and defense were 1650.]

[Second place: Icy Luna, the contribution values of attack and defense were 1630.]

[Third place: Adam, the contribution values of attack and defense were 1619.]

[Fourth place: dust, the contribution values of attack and defense were 315.]

[5th place: bloody rose, the contribution values of attack and defense were 268.]

.....

Su Xiao's ranking was directly rushed from the original 120 to the first, showing how many titans he had killed during the day.

The speed of which he killed the Titans was very fast, he usually solved the titan by two attacks.

.....

In the first zone, a pile of bonfires was lighted, firewood was sizzling, some flying insects were surrounded by bonfires. From time to time, flying insects were burnt by the flames and fell into the bonfire.

There were dozens of female contractors sitting around the campfire, and the fire illuminates their faces, it could be regarded as a hundred flowers bloom.

“Sister, someone surprisingly takes out your first place, who is this guy?”

“We tried to let the sister kill the Titans in the daytime, and I noticed the ranking of all the contractors before, and his ranking was out of one hundred.”

A female contractor wearing a black-framed glasses bit her nails. She was the brain of Lycoris radiata adventurous group, she was loyal to assist the head Icy luna, but she was the top cynical woman.

“Cynical sister, don't count those, now the most important thing is to make the sister become the first, the sister needs those soul crystals.”

A female contractor with a cigarette was frowning. She was wearing a jungle combat uniform and carried at least six long and short guns.

“Don't be so close to me, the smell of gunpowder on your body will affect my thinking, and secondhand smoke contains...in general it affects the brain.”

The cynical woman blamed for a while no one knew what she murmured.

“Rose has just reported to me, it is a very strong contractor, and one thing makes me care.”

The woman who was wearing a white female sorcerer robe, the woman's appearance could be described as gorgeous, her sound was soft, but there was a sense of coldness, she was the head of Lycoris radiata adventurous group: Icy luna.

“The contractor is a male, aged at about 20 years old. The main weapon is a sword. The combat experience is extremely abundant. He once shot and killed a contractor who is not weak with one attack, Rose said that the man should not use an extensive range of skills, he only depends on the sword in the battle.”

Icy Luna frowned and looked at cynical woman with bright eyes.

“Little black, what do you think.”

Cynical woman rolled her eyes, the whole group only Icy luna dared to call her little black.

“I will retreat if you call me little black again.”

Cynical woman looked at Icy luna with anger.

“Well, I don’t call you little black, talk about your thoughts, little black.”

The female contractors around her secretly smiled, cynical woman sighed and said with a serious look:

“If Rose sister thinks he was very strong, then the strength may not be weaker than yours, with a sword..., a sword to kill the contractor who is not weak..., no large-scale skills and he is still very strong....”

Cynical woman bit her nails, the fire reflected in her pupils, the fire swayed in the pupils incessantly.

“Sister, we’re better not to provoke the man, remember the pervert in the Genei ryodan adventurous group, that one uses the revolver.

If I’m right, they might in a developed direction, and the guy uses a sword might be stronger to an extreme, Rose sister couldn’t see his full strength.

If we are in PVE mode, these two guys are in PVP mode, they’re stronger in killing the contractor than to kill the creatures in the derivative world.”

After the cynical woman’s words, the other women in Lycoris radiata were shocked.

The man with the revolver left them with too much influence, the speed of shooting was so fast that each bullet could break the shield, the defense lost meaning under those Mithril bullets, and the attack occasionally contained real damage which made them almost desperate.

“Hey, hey, hey, cynical girl, don’t make it so terrible, I almost died last time. Now you said that I met a stronger guy? I want to jump into the river.”

A petite woman shrank her body. The last time she encountered a revolver man, she was the main attacking target of that guy. If she did not have their leader’s cover, and the Queen held a shield to cover a shot, she would already be dead.

“Little black, that is a bit too exaggerated. The man can’t be compared with the monsters of Gen’ei ryodan, the world is in a peaceful model. Killing contractors can’t get a scarlet card so the possibility of fighting each other may not be big.”

Icy luna comforted her members and sent a letter to cynical woman, ‘Don’t fight the momentum’.

The cynical woman sighed, which may be the reason why she could not be the head of the team. Although she was randomly clever, she did not consider the feeling of the weaker members.

In the eyes of the cynical woman, everything must be prepared. If she is the head of the team, she will never recruit weak members. It was a sin to be weak.

The loyalty of the cynical woman was only dedicated to Icy luna.

.....

Second zone. It was also a pile of campfires.

From far away, you could smell a smell of barbecue and liquor volatilized.

A group of shirtless men was sitting around the fire and drinking, eating meat, these men occasionally laughed together, some of the arm around, the atmosphere was very warm.

Some of the contractors who were obviously newcomers, after seeing the laughing seniors around them, could not help but smile. In the cruel reincarnation paradise, they could be lucky to join the Fraternity.

This was a fraternity. As long as they entered the group, they were brothers, being alive together, they will also die together, they never enrolled speculated people.

“Boss, come and have a drink together.”

A drunken man with a red face came to Adam, a smell of alcohol full of his body, and handed over to Adam a bottle of liquor which had a half left in his hand.

Adam was checking the record of the battle. He was not angry when he was interrupted by the man. Instead, he took the half bottle of liquor in the hands of the big man and drunk, the liquor dripped on his chin. He did not express any repulsion.

“Strong, how about the infusion of Rc cells, do you still have the idea of wanting to eat human flesh?”

Adam’s tone was calm, but from the action of drinking, Adam was also a heroic person, but it was not obvious to find out from his appearance.

“Where did you get the two things, the effects are very good, I have now returned to normal taste, but there is some urge to eat people, it should be completely disappearing soon.”

Strong’s shirtless upper body was covered with reddish lines, he occasionally picked up the meat in his hand and ate it. It seemed that he had not eaten barbecue for a long time.

“It’s a coincidence that the person who sold me things also entered the Titans’ world. Now he is in the third zone with little dust, but the friend is not very friendly. I hope that little dust is fine. Although little dust is arrogant, he is a good man, and he never shows arrogance in the group.”

Adam sighed, he was vaguely worried about dust.

“Don’t worry, boss, if the guy dares to hurt the dust, our whole group will go to fight with him. He is better to kill us all.”

Strong laughed and drank a few drinks hard.

Chapter 148

Clap.

A Mars appeared from the fire since firewood was burnt, gradually annihilating in the air.

”This is the harvest today, a green treasure chest and three white treasure chests.”

Bloody rose sat on the side of the bonfire in front of the campfire, with four treasure chests in front.

Su Xiao was not interested in these four treasure chests. He was only curious about how bloody roses would distribute. It could not only win over other contractors but also benefit the main defense.

“You can also see the situation during the day. Whoever contributes more and contributes less is clear to everyone.”

There were only four treasure chests that could be described as wolves more and meatless. In this case, you could divide the paradise coins, equipment, and items to the main defensive forces.”

Bloody rose glanced around, it seemed to be asking people for their opinions.

A contractor was going to speak finally chose to stay silent by being pulled by his companions.

In addition to Su Xiao and other three people, there were thirty-nine contractors present. These four treasure chests would at most also have more than 1,000 paradise coins. They were not enough to be evenly divided.

This was actually a ‘consolation prize’, which made these contractors feel better. After all, they consumed a lot of bullets which were also purchased by paradise coins.

The treasure chests were opened, it was not surprising that four treasure chests had a total of 1,600 paradise coins. In addition to the paradise coins, two pieces of equipment and three materials were also obtained.

[Love leg bones]

Origin: Attack on Titan

Quality: Green

Category: Weapons (blunt)

Durability: 23/23

Attack power: 10~17

Equipment demands: the strength attribute should be 10 points or more.

Equipment effect: smashing attack of the love (active), using the whole-body power to destroy the enemy, the damage is determined according to the strength attribute.

Rate: 16

Introduction: Fanny, I love you, please make my leg bones as a weapon after I die, so that I can continue to accompany you. If you encounter bad people, use me to hit him, including your future husband.

Price: 1900 paradise coins.

.....

[Skull Shield (White Shield)]

[Muku no Kyojin's bone (White Material)]

[High intensive nails (white material)] × 2

.....

Obviously, the most valuable was [Love Legs Bone], the white shield was also good, followed by the [Muku no Kyojin's bone].

Su Xiao glanced for few times and lost interest, turning his eyes to the bloody rose which meant to start your performance.

Bloody rose was a bit bitter at this time, although she could be sure that a few people didn't care about these items, it would be very troublesome if the distribution is not good.

"What about this? We will distribute by the 'attack and defense contribution value'."

"Ah?."

Dust laughed coldly.

"I will give you the shield, I just want Muku no Kyojin's bone."

Bloody rose's face was not very good, green equipment was for Su Xiao had been assured, dust also admitted silently, if they make this boss angry, who will guard the front? Bloody rose was still okay for a while, it was absolutely impossible to guard it for a long time. It was a dream to guard for the whole day.

[Muku no Kyojin's bone] Although the score was under the shield, this thing was valuable to the team. If you are lucky enough to find out the structure, you will make a lot of cannon fodder in every time you enter the derivative world.

Bloody rose picked up [Love Legs Bone] and handed it to Su Xiao. After Su Xiao took it, he did not look at it and collected to the storage space. This thing had nothing to do but sell.

After bloody rose and dust negotiated for a while, [Muku no Kyojin's bone] eventually went to bloody rose, no one knew what the two talked about.

Enthus laughed and said nothing. The carebear was glorious in the battle, everyone was shocked, but the position after the battle plummeted.

"Since the distribution is over, I'm going to leave now. I will come back on time tomorrow morning."

Bloody rose stood up and asked the contractor led by her to go with her. She should try to make these people avoid contact with dust, although these contractors were not too strong, they were also combatting power.

Now the contractors who supported bloody rose were similar to the contractors who supported dust, the performance of bloody rose in defense, and her excellent command ability so that these contractors re-supported her.

“I have to go back to the boss, see you.”

After dust left, there were only Su Xiao, and Enthus left by the campfire. As for the three people of Eren and the other two people who were more than ten meters away, no contractors paid attention to them. The identity of the prisoner had stopped communicating with the protagonist, especially Eren who hatred evil people.

“It’s about the same as you expected. When do you start?”

There was a strange light in the eyes of Enthus.

“Get ready now.”

Su Xiao took out all kinds of food in the savings space, the marinated barbecue, a barbecue grill, and even a few large lobsters of forty or fifty centimeters long.

“How many paradise coins have you spent, such large lobsters are rare in the park.”

“About 80 paradise coins.”

“Richman?”

Su Xiao would choose better food when conditions permitted, and he knew how to cook as he lost his parents very early. He needed to know a lot by living alone. He did not have the protection and teaching of his parents in his teens. The environment he stayed let him felt the evil of the world, he knew better than everyone, what kind of extent could people be evil.

In that environment, it had been very good that he didn’t become a perverted murderer.

The dagger rotated in hand, the lobster and other seafood were processed. After some charcoal fire was made in the campfire, Su Xiao began to cook food.

Fizz?

The barbecue was quickly grilled with coke butter, and the unique smell of the lobster came out.

Enthus saw that Su Xiao’s skillful technique was somewhat sluggish, this guy killed people pathetically surprisingly cooked the food, and it smelled good.

The aroma of the barbecue attracts three pairs of sparkling eyes.

Eren stared at the strings of barbecues in Su Xiao’s hands. The scorched flavor of the barbecue continued to stimulate his sense of smell and taste. Eren even wanted to rush to grab the barbecue and eat it.

The life on the walls was very difficult. After their home was destroyed five years ago, Eren had never eaten meat. Only the nobility or officials in the wall could enjoy the meat.

“Gurgles.”

The sound of swallowing saliva came to Eren's ear, Eren turned his head and found that was his friend Armin.

It was a terrible thing to eat bread or potatoes as a main meal for teens.

At this point, even Mikasa's eyes were shining, like a little wolf which had been hungry for a long time. The idea of Mikasa was a bit special. She was thinking about how to grab it.

Greed was one of the seven sins. Was that so easy to control? The greed in the seven sins were even above the 'sexual' desire.

"Eren, where are these people getting meats from, and what kind of strange bugs? It smells good."

Armin, who grew up in the wall, had never seen a creature like lobster.

"Ah? Yes?"

Eren stared straight ahead and probably didn't hear what Armin was saying.

"Soldiers of the training corps, you have worked hard. Would you like to have dinner together? Please don't worry, this is the beast that my companion has hunt outside the wall. It is completely legal."

Enthus made an invitation.

What a sad word 'legal' from his mouth. After the Wall. Maria was broken, it was illegal to eat meat privately. The meats had to be turned over to Military police regiment to exchange the food, if they are found that they eat meats privately, they will be detained.

Was it ridiculous to eat meat and be arrested? No, it was sad.

However, there was an exception, that is, the Survey Corps could eat meat, Survey Corps often went out, it was normal to hunt and have something special to eat.

"Okay, okay."

Eren couldn't help but stand up and follow Armin. Mikasa hesitated. She felt that the man with the knife was very dangerous. The other person even gave her the feeling of chilling when fighting, but Eren had stepped forward. She could not let Eren go alone.

Soon the three sat around the fire and watched the barbecue in Su Xiao's hand.

Several strings of barbecue were handed to Eren and others, and the three did not eat, just looking at Su Xiao.

Su Xiao scowled, the three were still a little vigilant, simply he picked up a string of barbecue to eat first.

Um? The meats were cooked for a too long time, it was a bit overcooked.

Seeing that Su Xiao had eaten, Eren and Armin also began to eat a lot. After chewing on two, Eren's eyes widened.

He had never eaten such delicious food!

Eren couldn't even eat meat in the wall, let alone a variety of spices. The barbeque of the street from China instantly captured the stomach of three people.

“Don't worry, there's a lot of food here, this is a drink, and the taste is very good.”

Su Xiao took out a few bottles of wine with low alcohol content and handed it to Eren and others. After a sip, they were addicted by this slightly spicy sweet 'fruit drink'.

“How many degrees?”

Enthus' letter appeared through the imprint, the two were close, they could pass the letter without knowing each other's number.

“8 %, the taste of the wine is not strong, it contains a small amount of caffeine, they should never drink alcohol, it's enough.”

Enthus thumbed up secretly.

Su Xiao looked at Eren, who was eating with happiness, the fire reflected in Su Xiao's face.

If things don't go well, this will be Eren's last meal.

Chapter 149

At 4 o'clock the next morning, in the Wall. Rose.

The breeze blew, there was a cloud of smoke occasionally rising in the chimney of the house, and the civilians inside of the wall started a new day with fear.

Although the Wall. Rose had three-hole, it was guarded by the contractors, Titans did not rush into the wall. The nobles of the innermost layer of Wall. Sina could not put civilians inside of this layer, inner the Wall. Rose, the old town zone would only open in the most dangerous time.

Once there was opened, it could only consume the food saved by the royal family. Before the Titans rushed into the Wall. Rose, the royal family would not choose to let civilians enter there.

The civilians in the Wall. Rose could only return to their homes and started a new day under the threat of titans.

This bright morning did not sweep away the gloom in civilians' hearts. The shadow of the Titans covered everyone's mind. When would they break in?

Although it was very dangerous, life should continue.

At this time, on the Wall. Sina in the inner layer of the Wall. Rose, Military police regiment was stationed on the wall. They were wearing '3D Maneuver Gear' but holding an old gun.

This old gun could not deal with the Titans, but it could be effective against humans, or Military police regiment who did not want to fight with the Titans. They just needed to 'monitor' the Survey Corps that was forced to stay on the wall.

As the head of the gendarmerie regiment, Nile Dawk, had even more power in the wall than some nobles. He was the most obedient subordinate of the royal family.

Nile Dawk carried a single-shot rifle, glancing deliberately to the head of the Survey Corps, Erwin Smith.

He and Erwin were friends of the training corps. After completing the training, the two chose different paths. In the same period, Erwin graduated with the grade of first prize chose to join the Survey Corps, and he chose the Military police regiment.

The Survey Corps was committed to investigating outside the wall and constantly exploring the truth of the world. Because they often fought with titans, the death rate was extremely high, so few people join.

The Military police regiment was to guard the royal family and clean up the 'unstable factors' in the wall. For example, some scholars who invent advanced science and technology, or sects who propose free thoughts, whether it was right or wrong, as long as they were hostile to the royal family, they were their enemies.

Nile Dawk and Erwin had been friends for a long time, but today their positions were opposite.

“Erwin, you don't have to think about the hole in the wall. Let Levi·Ackerman and Hange Zoe take the small investigation team to support it. It is already my biggest grace.

Now that the Wall. Rose was broken, protecting the security of the royal family was the first priority for the Military police regiment.

If the situation is urgent, the Military police regiment will only evacuate the civilians to the old underground city.”

The Wall. Rose was broken. In fact, the first one should be rushing forward was Military police regiment. Their responsibility was to protect the safety inside of the walls and maintain law and order within the walls.

But a command made everything change. The aristocrats and the royal family in the Wall. Sina jointly ordered that all members of the Military police regiment should station on the Wall. Sina, and let the Military police regiment tied up the Survey Corps so that the Survey Corps could station together on the wall.

It seemed that the royal family also knew that the Military police regiment that had never dealt with the Titans could not fight against the Titans. The Survey Corps was different. The Survey Corps was going out all year round. Fighting with the Titans was commonplace.

For this reason, the Wall. Rose was broken, and the main force of defense became the contractors. The Survey Corps had only a few people, and only sending three recruits to the third zone.

The truth was that no one could be sent to the third zone. Apart from the soldiers of the Survey Corps who dared to face the Titans, more than 2,000 members of the Military police regiment could not find a person who was willing to monitor those prisoners.

If the entire people from Survey Corps are on the battlefield, the Military police regiment will be very embarrassed. Finally, Eren and others passed by to see this scene. Eren was angry when he saw the weak members of the Military police regiment and took the initiative to do this task.

The training corps was neither the Survey Corps or the Military police regiment, it was the best to send three people there and force the three to join Military police regiment.

The sun gradually rose, and a ray of sunshine appeared on the ground level, which indicated that a new round of attacks by the Titans was about to begin.

Su Xiao woke up very early, and in this environment, he just slept slightly.

Enthus on the side had also woken up.

“Do you want to do it? That’s the son of the face. If you accidentally kill him, the consequences will be very serious.”

“You don’t have to worry about it, you just need to let Mikasa and Armin continue to sleep, no problem?”

“No problem, I can stabilize their emotions and block their perception.”

After Su Xiao and Enthus whispered a few words, the two slowly approached the Eren.

At this time, the three people sat back to back in a group and slept deeply, which was because the fruit wine with a low alcohol content that the three people drank worked last night.

The alcohol contained in the fruit wine was actually nothing, but the small amount of caffeine in it could cause a serious hangover.

The reason why alcohol could make people drunk was that alcohol could penetrate human cells more effectively and squeeze out part of the water inside the cells, causing drunkenness.

This was the reason why people thirst after being drunk.

Caffeine made this phenomenon even worse, so some fruit wines had a very low alcohol content, but they could also make people drunk. For example, some wines called ‘wine for losing the virgin’ contained caffeine.

Now Eren and the other two were in this state, their heads were dizzy, and their bodies were powerless.

“Peace.”

Enthus’s hands emerged a group of light, and the light gradually spread to the three’s bodies.

“You can do it, as long as you don’t attack Mikasa and Armin, they won’t wake up.”

Maintaining this skill was a bit of a struggle for the Enthus. This kind of skill to hide perception was a basic skill for every sorcerer.

Su Xiao closed to Eren and other people, he gently pinched Mikasa’s white cheeks. After a few seconds, Mikasa just frowned but didn’t wake up.

Su Xiao was relieved, he choked Eren’s neck by one hand and picked him up to press on the ground.

The pain of suffocation made Eren struggle, his eyes widely opened, but Su Xiao had already hidden Eren's eyes by another hand.

Eren grabbed Su Xiao's arm with both hands and stepped on the ground with his feet intended to prop up his upper body. Found this situation, Su Xiao pressed Eren's lower abdomen by his knees.

Crack, crack?

Making power by palms, the tiny sound caused by the bones was broke, Enthus aside looked at this scene, scowling incessantly.

"Hey, hey, don't kill him."

"Don't worry, I will control it."

After thirty seconds, Eren's tongue was out. Normal people usually could shout when their throats were chocked, but Su Xiao choked him too tight, Eren's bones of the spine were slightly damaged.

After Eren was completely fainting, Su Xiao walked out of the wall with Eren body on his hand.

Enthus looked at Su Xiao's back and shook his head. Other contractors liked the protagonist who could communicate or interact. But Su Xiao did not.

Su Xiao looked for a titan with four meters high outside the wall. The titan became vital because the sky was getting brighter. After seeing Su Xiao, its mouth wide opened.

Su Xiao rushed forward, throwing Eren who was fainting into the titan's mouth, kicking the titan's jaw, and the titan's mouth closed.

puchi.

Eren's leg was bitten, and the titan swallowed Eren directly with a snigger.

The knife light flashed, Su Xiao, who was holding the dragon flash, smashed the titan into a stick and quickly took out the iron chain to tie the titan firmly.

Enthus also ran out of the wall at this time.

"The protagonist is not dead, right?"

"Not dead, get him away as soon as possible, hide it, it is better to be closer to the third zone."

Enthus nodded, he picked up the titan and walked into inside the city hard. The reason why did Su Xiao choose the four-meter titan was because Enthus could easily transport it, so he also intentionally deducted the Titan's weight.

After Enthus left, Su Xiao nodded, the two signed the contract, so he was not afraid of Enthus to kill Eren unless he wanted to be buried with Eren.

Su Xiao started to pick up the broken leg on the ground. After looking for the titan and hurting it hard, he dragged the titan's body and waited silently at the hole.

Less than an hour later, the vitality of the titan almost completely recovered. Su Xiao heard the voice of the contractors in the distance when his perception was fully open, some contractors returned.

Su Xiao threw the titan in his hand to the vicinity of Mikasa and another one with full strength, and at the same time threw the broken leg. At this time, the hiding sense skills on Mikasa and another one were removed.

Bang.

A loud noise awakened Mikasa and Armin, the two wanted to stand up immediately, but they felt powerless.

“Eren, Armin, are you okay?”

“No, nothing.”

“...”

“Eren?”

Armin glanced around, except for the titan who gradually stood up and Armin, she didn't see Eren. Mikasa suddenly saw a broken leg, and she was familiar with this broken leg.

Mikasa's pupil constriction was fast, and her mouth was slightly open.

“Eren??”

That was Eren's leg, Mikasa recognized it.

Not far away, there was 'some blood appeared' near Su Xiao's mouth, looking at the direction that Enthus left, now he only needed to wait.

As for the suspicions of Mikasa and Armin, he did not care too much, as long as he did not leave the evidence to 'killing' Eren, he would be fine.

Chapter 150

“Eren!!!”

A sad female scream spread far away with vaguely crying sound.

Blood rose that led the contractors back to the third zone just heard this scream.

“Something happened, hurry up.”

They walked faster, after arriving in the third zone, they saw that Mikasa who was holding a broken leg was crying.

The contractors were all stunned, but after seeing Su Xiao standing next to the body of a titan, blood rose vaguely thought of something, this guy must have done something.

Did this guy kill the protagonist? No, the paradise did not give any hints, and Eren this lucky guy would not die so easily.

“It's early now, as for the current light source, titans are unlikely to be active, what is going on?”

A contractor's eyes widen at sight after seeing Mikasa who was crying, He wanted to go forward and check the situation. If he can let Mikasa like him, he will make a big profit.

But the contractor was pulled by blood rose when he was about to walking forward.

“What?”

The contractor was somewhat impatient. He only supported blood rose but did not follow her commands.

“Idiot, look over there.”

Blood rose to lift her chin up and signaled the contractor to look at the direction of Su Xiao.

The contractor turned his head, after seeing the cold eyes surrounded by the steam, he had no desire to move forward.

That gaze seemed to say, who dared to will die!

“It seems that someone is trying to block the hole, but this method is really bold.”

Blood rose was not stupid, she had roughly known Su Xiao's plan.

Although the steps of the plan were not complicated, it needed a lot of courage, if it failed, he will be wanted by the corps in the wall, and will be hunting down by Mikasa.

“We can pretend that we did not see anything, this plan is good for us.”

Although blood rose said so, she had already begun to consider how to destroy Su Xiao's plan. The reward of the attack and defense value for the first prize only belonged to Lycoris radiata, others could not take it.

Blood rose carefully looked at the body of the titan, she did not find the human's body, it seemed that she guessed Su Xiao's plan correctly.

Eren disappeared, and Enthus also disappeared. This must be something.

But even if she knows it, it will still be useless. Blood rose could not ask Su Xiao, not to mention the difference in strength. The remainder of Icy lunar last night she was still remembered.

Boom, boom.

The titans outside the wall were fully active and began to rush to the hole tirelessly.

“Byakuya brother, the attack and defense war begins again.”

Blood rose euphemistically gestured Su Xiao to guard the hole.

Su Xiao did not move, just sitting on a ruin.

“I was attacked by the titan hard, so we can only depend on you to defend the hole.”

After that Su Xiao took out some jerky, he was eating slowly.

The contractors changed their expressions if he does not guard the hold, what should they do? Don't be kidding.

“Don't think about making Enthus heal my injury, because the distribution was uneven yesterday, he had left the third zone.”

The reason why Su Xiao did not continue to guard the hole was to improve the success rate of the plan.

Even if Eren who was in the titan's belly really became a titan, and raised a huge stone to block the hole, who could guarantee that Eren would definitely block the hole of the third zone? Instead of the first zone or the second zone.

Although Su Xiao let Enthus hind the titan who ate Eren in the vicinity of the third zone, this was not safe enough.

But what if the Titans rush into the third zone? Anyone would choose to block the hole which was rushed in by titans first.

Also, Su Xiao had an advantage in this aspect. He dared to let the defense line fell, but the other two heads would never dare to do this.

The contractors who defended the hole after the hole was fallen would be very dangerous. The life or death of the contractors has nothing to do with Su Xiao, but those heads would not abandon their members, at least not on the surface.

“Mikasa.”

Su Xiao called Mikasa, and Mikasa immediately raised her head, her tearful eyes stared at Su Xiao, it seemed that she wanted to kill him.

“What did you let us drink yesterday!”

Mikasa shouted, which made the contractors present very strange, they did not complete the attack and defense tasks, how could this guy communicate with Eren and others.

Su Xiao killed too many titans yesterday, and Eren was extremely hateful to the Titans as well. Otherwise, even the barbecue was delicious, Eren would never eat it.

“What did you drink? Fruit drink.”

Su Xiao's tone was indifferent, he did not care about Mikasa's questions.

“It's impossible, I will kill you, I will kill you for Eren.”

Eren's 'death' had caused Mikasa to lose her calm.

“But, I also drank it?”

Mikasa's body was stiff. This was true. This man also drank. Why didn't he have any reaction? Is it poison?

Just thinking in a flash, Mikasa left this thing behind, she had an instinct, these things all made by this bastard in front of her.

“By the way, this titan did not swallow Eren. There were two titans hit us. The titan who swallowed Eren went to chase my ‘companion’, the one who had dinner together last night.

According to my experience during the investigation Corps, there was hope for rescue after being swallowed in an hour. Although Eren’s leg was bitten, he was swallowed when he was alive.

The titan’s swallowing action would cause its abdomen full of air, and the Titan’s ‘gastric acid’ was not very corrosive. Most people chose to commit suicide in the titan’s body only because of fear.

How long do you think Eren can last? Ten minutes or a half hour? In the dark stomach.”

Su Xiao’s words were like the devil’s whisper surrounded by Mikasa’s ears.

“Eren is not dead yet?”

Mikasa felt unbelievable, the two sharp swords in her hands were aimed at Su Xiao, it seemed that she would rush to Su Xiao at any time.

“Mikasa, even if there is a little hope that I will go to save Eren, and...”

After Armin who was full of tears in his eyes had not finished his words, they heard a loud noise from a distance.

Bang!

Golden lightning fell from the sky to the ground, a fifteen-meter titan appeared in the Wall. Rose.

One of the nine titans, the Titans, appeared the current inheritor: Eren.

Su Xiao was smiling, the plan partially succeed.

“Did that titan swallow Eren?”

After Mikasa saw the titan which suddenly appeared, she was mad. The jet holes in the back of 3D Maneuver Gear spewed gas, Mikasa jumped onto the roof and rushed to the titan.

Looking at this scene, Su Xiao was somewhat stunned. Will Mikasa not cut Eren? It was very likely to happen. If his back neck is smashed, Eren will die. Then his whole efforts will be useless, ‘pouring blood’ and inductions were very hard.

“Fuck.”

Su Xiao ran to the direction of Eren, but compared to the speed of the ‘3D Maneuver Gear’, his speed was slower, he could only run on the ground, but also face various road conditions and obstacles.

“Hey, you....”

Blood rose was dumbfounded, he left? What should they do with the defensive line?

“Blood rose, you shouted in the morning.”

Dust arrived with other contractors.

“There.”

Blood rose pointed to the back of Su Xiao.

“What? What about the front line.”

Dust saw Su Xiao who was leaving, his sight became black, the strong person was willful.

“Two choices, trying your best to guard it or letting it go, as long as the third zone is not completely occupied by the Titans, our mission will not be judged to fail.”

Blood rose spoke and looked at Dust.

“Of course let it go.”

“I won't keep guarding it.”

No one was stupid. The current situation was not good for Lycoris radiata and Fraternity. The two would not continue to defend. At most, they failed the mission. The two had their own adventurous groups. Even if the mission fails, it will not be in danger.

Blood rose and dust 'returned home' each other, leaving more than 30 contractors, their adventurous groups of the two would protect them, but these contractors could only depend on themselves.

“Would we guard it?”

A contractor spoke, other contractors gave the person the sighs of caring. Now, of course, they would leave, who would stay there for dying. Didn't see the heads of the third zone left?

Su Xiao quickly ran on the street and planned the next countermeasures.

In the previous world, he was assigned to a camp only by himself, the world was less difficult, so he could kill the ghouls' world all the way.

But the titan world was different. Although he was much stronger than the past, there were two adventurous groups in the titan world. He should be cautious.

First of all, he must complete the attack and defense task. Otherwise, he would not be able to get the precious soul crystal (small).
