Chapter 151

Running on the street, Su Xiao and the Titan which was made by Eren getting closer.

Suddenly there was a black shadow in front, Su Xiao stopped immediately and stared at the figure wearing a black hood.

“Brother, do you want to buy some good products?”

The voice of the man with hood was a bit filthy, giving Su Xiao a feeling of ‘brother, do you want to buy a CD?’

“I do not buy, don’t block my way.”

He did not know the person’s background, Su Xiao was ready to move forward.

“Don’t be nervous, I am the Black Yacht Chamber of Commerce. I don’t know if you have heard it.”

Su Xiao, he did hear Black Yacht Chamber of Commerce, a group of workers who dared to take risks specialized in doing business in the derivative world.

Su Xiao held the sword and rushed forward, he smashed on the man with a hood. The man with the hood did not escape.

“Ding.”

A crisp sound came.

[You are attacking a neutral worker, the other party has lost 1 point of absolute armor, and the absolute armor has 5 points remaining.]

Yes, this guy was indeed a worker of Black Yacht Chamber of Commerce. It was said that this group of merchants has spent a lot of money developing a kind of energy armor. There were 6 points of absolute armor, but after wearing this armor, they could not attack the enemy.

The reason why the Black Yacht Chamber of Commerce was a group of workers took risks because these merchants often appeared in the derivative world and sold the goods or supplies to the contractor at a high price.

The contractors called them ‘black merchants’, but normal contractors would not kill them.

Black Yacht Chamber of Commerce had a rule that all contractors who killed their members would never be traded with once they discovered them.

This was not the most important thing. These merchants would make circular orders in the reincarnation paradise. They would want the contractor and show the person’s number in public. It was said that they had wanted a contractor who was Lv.9 and offered 180,000 paradise coins for him!

The end of the contractor could be imagined.

After being cut down by Su Xiao, this black merchant was not mad at all. This was the way they prove their identity.

”Guest, do you want to buy equipment, items, or supplies?”

The attitude of the black merchant became enthusiastic.

Su Xiao pondered for a few seconds, the titan that Eren turned into should not die soon. He wanted to see if the black merchant has a thing.

“Do you have a skill scroll for the ‘3D Maneuver Gear’? The higher the level would be better.”

When he heard Su Xiao’s words, the black merchant’s eyes widen at sights.

“Guests, of course, entering the titan world need to carry that thing, the value of the skill scroll for ‘3D Maneuver Gear’ in the reincarnation paradise was not too high, but the number was scarce, now the price in the Titan world will double.”

The black merchant found through the storage space and took out a white quality scroll.

[3D Maneuver Gear is proficient lv.10. (temporary skills, it will disappear after leaving the world)

Quality: white

Type: Skill scroll (Temporary)

Rating: 10

Introduction: After using this scroll, you can master the ‘3D Maneuver Gear’, because it is a temporary skill scroll, this skill disappears after leaving the world.

.....

This was a scroll of ‘proficiency level’, the technical ability was divided into basic, proficiency, specialization, master and so on.

The ‘proficiency level’ was much better than the ‘base level’, and the skills acquired after using the scroll was lv.10.

Even so, this scroll was only a white quality with a score of 10, and the temporary attributes made the value of this scroll greatly reduce.

It could only use in only one world. If it is in a reincarnation park, the value of this scroll does not exceed 500 paradise coins, but the price of this scroll in the Titan world was not easy to estimate.

Su Xiao was looking for it in the trading market before he knew that he would enter the titan world. This thing was too rare for him to find.

“How much?”

“10,000 park coins.”

It was a black merchant, turning prices for twenty times.

Su Xiao did not have 10,000 paradise coins, but this scroll was very valuable in the titan world.

If he is proficient in using the '3D Maneuver Gear', his power of dealing with the Titans will increase by at least 30% or even more.

"I guess the guests do not have so many paradise coins, this is a very normal situation in the derivative world, we also accept exchange goods."

The black merchant stopped talking and waited for Su Xiao to make a choice.

Su Xiao didn't want to be wanted now, and even if he killed the black merchant, he couldn't get a scarlet card. Reincarnation paradise had reminded before after the contractors died would not drop the scarlet card in this world.

When Su Xiao thought of the scarlet card in his mind, there was a scarlet card in his storage space. He just opened the poor character of one scarlet card, so he did not open another one.

Taking out the scarlet card, Su Xiao wanted to exchange this thing.

"Scarlet card, I am embarrassed with this, the value of the scarlet card is too random..."

"This is the sorcerer's scarlet card."

The black merchant's eyes widen at sights.

"Guest, can I identify it? It doesn't need to transfer ownership of the item."

Su Xiao threw a scarlet card, the black merchant took out an item like a card reader and brushed it with a scarlet card.

"It is indeed the Scarlet Card of the sorcerer, it's also from Ice sorcerer which was rare, plus 1000 paradise coins."

Su Xiao directly put the scarlet card back and stopped looking at the black merchant.

"Guest, wait, I just joked, let's exchange, deal."

The speed for the black merchant to change attitudes was very speechless. Su Xiao did not talk nonsense with him, and immediately used the '3D Maneuver Gear' reel.

[You have mastered the '3D Maneuver Gear' lv.10, this skill will be forgotten after leaving the world.]

[This passive skill can be used after obtaining the '3D Maneuver Gear'.]

Su Xiao had a lot of memory appearing in his mind, the structure, use, and maintenance of the 3D Maneuver Gear.

The sudden extra memory made Su Xiao feel uncomfortable for two seconds, but he quickly recovered. He now had a vague feeling that he could use it skillfully if he gets a '3D Maneuver Gear'.

Temporary skills and permanent skills were not the same. Permanent skills were gradually mastered and always remembered in the brain to form an instinct.

Temporary skills were a bunch of memories that flew into the brain, making people feel a little dizzy.

“Guest, do you want to buy a set of ‘3D Maneuver Gear, it’s only 300 paradise coins.”

Su Xiao shook his head. Only a fool would buy it. The 3D Maneuver Gear of the titan world was very easy to get. Just wait for the titan to invade the city completely, and then he could take a set from the dead soldiers.

Su Xiao looked at the titans which invaded the city at the entrance behind. The original people would fight to meet these titans in a short time. The complicated situation would be better for him to be lazy. He was a lonely fighter. The more chaos inside the wall would be better, the order was pursued by those adventurous groups.

No one defended front was expected. Even if Su Xiao has been holding the battle line, blood roses and dust will find ways to avoid the hole from being blocked. Instead of keeping making efforts, it would be better to think of another way.

If he doesn’t want to master the general information of each zone, Su Xiao will not guard it for one day.

Walking through the building, Su Xiao quickly arrived near the titan who Eren turned into.

“Roar!”

The ‘Eren Beast’ screamed, and a wave of air spread out.

Eren turned into a Titan about 15 meters tall, his muscles rose all over his body, no lips, his mouth spread to the ear to reveal two rows of flat teeth, a pair of sharp ears like an elf.

Some people called this the elf titan. Actually, this Titan was called the attack titan. The overall quality of the nine titans was relatively better.

It was not as sensitive as a female titan, nor has the defense of an armored titan, nor the power of a colossal titan.

But this kind of Titan had a kind of belief. To pursue freedom and continually run, to fight for freedom, it belonged to the type that was not strong but good at adapting.

“Roar!”

Another roar, Eren turned into a titan for the first time, he was apparently irrational, and Mikasa was gliding in front of Eren with a ‘3D Maneuver Gear’.

Looking at the hateful expression, this girl was absolutely going to smash Eren’s neck and cut the stomach of the titan and rescue ‘Eren’ inside.

If this kind of thing happens, Mikasa will definitely be desperate after knowing the truth, because she killed Eren by herself.

Su Xiao also counted on the 'Eren Beast' to help him move the stone. After that, Eren dying would not matter. He had a mission called "shocking sky and waves". The task only could increase the completion rate by killing the protagonist.

Chapter 152

"Go die, you damn titan."

Mikasa was gliding in the air, the rope of 3D Maneuver Gear was nailed to the shoulder of Eren, after spraying a gas at the back waist, Mikasa rushed to the back neck of 'Eren Beast', which was the body of Eren. If she cuts off his back neck, it would be equivalent to cutting the head of Eren.

Titan Eren glanced and slapped Mikasa. Eren did not recognize Mikasa at this time. He had only one idea in his heart, that is, killing all the Titans.

This kind of attack Mikasa could easily escape, but the sequel of hangover appeared. Mikasa adjusted the direction of her body. After the gas injected, the Mikasa bumped into the chimney on the roof with high speed.

Boom.

Mikasa fell on the roof with stun, the sloping roof caused Mikasa to roll down. This house was more than ten meters high. If Mikasa falls, she will injure heavily.

A figure with yellow hair rushed out, the person caught Mikasa's arm, it was Armin.

The two fell on a roof, because the blade in her hand, Mikasa's leg had a deep wound.

"Mikasa, are you okay?"

"Nothing, there must be something wrong with what we drank yesterday."

Mikasa was dizzy because of bumping into the roof, her white face was stained with dust.

Boom, bang.

Eren didn't look at Mikasa and Armin, walking in the direction of the Wall. Rose, there were many titans.

"Why is he interested in me? It's just a good opportunity to attack us, and it is impossible for him not to find us at this distance. What is going on?"

Intelligent and immature Armin looked at the titan who was Eren with doubts.

Eren was still moving forward. His pace was not fast, but he could go far in every step, he would be in contact with the general titan in less than two minutes.

When the ordinary titans saw Eren, they abnormally ignored the civilians and began to surround Eren collectively.

There were about five ordinary titans nearby, and the highest one was 14 meters high.

There was no pre-war provocation and any communications. The titan Eren and ordinary titan directly had the most tragic killing after meeting each other.

Although Eren had no subjective consciousness, he could remember the ability to fight subconsciously.

Putting out the boxer's starting action, Eren hit a straight fist to the titan's head.

Boom.

A huge head was directly attacked to fly away, Eren's movements continued. He bit in the back neck of the titan, after biting hard, the titan slammed into the ground.

"How is this going?"

Mikasa and Armin were staring at the scene in front of them stunned, the Titan was actually attacking the Titans, which subverted their recognition.

Su Xiao observed Eren and Titans' battle in an alley. Just now, Eren's attack was so fierce a frontal attack must be avoided.

Fortunately, the titan's body was huge, and he was not fast.

The new problems appeared, how could he let Eren move the huge stone, and now Eren's mental state was very unstable, but Su Xiao had long considered it, now he only needed to wait for developments.

When the titan invaded the wall, Su Xiao did not believe that the corps inside the wall would sit idly by.

Recruits of the training corps appeared in the vicinity of the roof incessantly. These recruits were surrounded by the Titans when they saw them.

"Armin, Mikasa, what is going on here? Why did the titan invade the wall, did not the head say that there is no problem?"

A group of people from the training corps that were with Mikasa came to the vicinity of the two.

Armin did not know how to explain it. They guarded firmly yesterday, but the front line was broken early today.

At this time, a figure flashed in Armin's mind. The man holding a long sword to kill the Titans in a crushing posture, did that person lose?

The recruits of the training corps could not defend the Titans, but it was not long after a female investigation team member with glasses arrived.

"The most terrible thing happened, those bastards in the Military police regiment."

Hange Zoe stamped her feet with anger, she was originally sent to the second zone defense line, but she immediately came to the rescue after discovering that other zones were broken.

Although Hange Zoe's combat power was not as strong as Levi·Ackerman, she knew more about the titan. She had studied the Titans for many years and had a love for the titan which almost could be called crazy.

Of course, she loved to research the body structure of the Titans.

“Well, there are too many titans, unless the investigation corps dispatched on a large scale, what...”

Hange Zoe’s body was stiff, she saw the ‘Eren Beast’ was fighting the Titans.

“What is going on here, the Titan is attacking the titan? No, I must capture this Kiko shu, I must.”

Hange Zoe’s cheeks were flushed as if she had forgotten that the Wall. Rose was broken.

“You and I will catch Kiko shu together.”

Hange Zoe asked a dozen members of the training corps and approached Eren with great momentum.

On the street near the battlefield, Su Xiao quickly rushed to a certain direction.

“Help, who can help me?”

The whispered crying for help reached Su Xiao’s ear, his pace was faster.

A member of the training corps who had been bitten off most of his shoulders lay on the ground. Too much blood was under his body. After seeing Su Xiao, the soldier laughed with a cry.

“Save me, my injury is not heavy.”

Su Xiao squatted in front of the soldier, checking and thinking for a while.

“Are you a doctor? Please save me.”

Crack.

Su Xiao untied the buckle of the person’s ‘3D Maneuver Gear’, after several untiring belts, he took off the person’s ‘3D Maneuver Gear’.

After closing his eyes for a while to memorize, Su Xiao skillfully put the 3D Maneuver Gear’ on both sides of the waist.

There were two sword handles attached to the ‘3D Maneuver Gear’. There was a rope at the end of the sword sheaths. Each sheath had a trigger looked like a handguard. One was to control the jet gas, and the other was to eject or tighten the metal rope.

Su Xiao did not intend to use the blade attached to the ‘3D Maneuver Gear’. This thing was not sharp enough and was easy to damage.

Taking out some tools from the storage space, Su Xiao simply modified the sword sheaths attached to the ‘3D Maneuver Gear’, first tied the two sword sheaths together, removed the unused decoration, and saw off the trigger in one of the sheaths.

In this way, Su Xiao could control the ‘3D Maneuver Gear’ with one hand, the short trigger controlled the gas injection, and the long one controlled metal rope, it would be easy to distinguish.

“You, what are you doing, why don’t you save me, are you not a doctor?”

The wounded person who fell to the ground found that Su Xiao did not save him, but using his '3D Maneuver Gear', and he screamed at Su Xiao.

“You will die, I suggest you leave your words with blood.”

After that, Su Xiao held the dragon flash in his right hand and held the sword sheath of the '3D Maneuver Gear' in his left hand.

Ding.

The anchor of the front part of the metal rope was nailed into the outer wall of a high building. Su Xiao rushed for a few steps, pressing the gas injection to control the trigger.

Snigger.

A thrust force came from the back waist, Su Xiao immediately tightened the metal rope, his body rushed to the sky.

Su Xiao was gliding in the air could not help but smile, this actually felt great.

Using the '3D Maneuver Gear' to reach the roof with a dozen meters high, Su Xiao rushed a few steps, the metal hook lock popped out again, and the gas was sprayed.

Su Xiao walked at the top of buildings with a high speed, the strong wind was blowing his face, his short hair was blown up.

He spent most of his time gliding. After the gliding ended, he ran a few steps on the roof and then glided again with the '3D Maneuver Gear'.

His current speed had increased by at least 30% or even more.

The feeling of this kind of high-speed gliding was very refreshing, not long after Su Xiao had liked this thing.

The principle of this thing was basically 'spiderman by injection'.

After Su Xiao rushed near Eren, he found that the original characters Hange Zoe and Mikasa, Armin and others were fighting with Eren.

Because of the high-intensity exercise, Mikasa's hangover reaction had relieved a lot, and she no longer was hit by 'Eren Beast'.

Mikasa had discovered that this titan in front had a pair of eyes that were exactly the same as Eren, and that it had occasional flashes of light in the dark green eyes sometimes the same as Eren.

Chapter 153

Roar!

The Titan that Eren turned into screamed loudly, his fists swayed at Hange Zoe and Mikasa.

Boom, bang.

The surrounding buildings collapsed, and the smoke and dust rose.

It could be seen that Eren did not want to fight against the people surrounded him. His goal was the ordinary Titans in the distance.

“Try to trap him, be careful not to entangle the ropes of the 3D Maneuver Gear’.”

Hange Zoe screamed. As the captain of the second team of the investigation corps, if she wants to cut off Eren’s back neck is not tricky, Eren was the first time to change and was not familiar with controlling the Titan.

However, Han Ji Zoe wanted to capture Eren who was alive, and there was no teammate in her investigation corps. Armin and other recruits obviously did not help a lot the battle.

Several people were fighting with Eren. They couldn’t move Eren. Eren couldn’t catch a few people who used the ‘3D Maneuver Gear’ to glide, so Eren let off his anger to the surrounding buildings.

Su Xiao sideways escaped the flying tiles and jumped to a high point to have a better view of the situation of the entire Wall. Rose.

In front of the hole in the direction of the first zone, the figure moved. From time to time, there was a silvery white light that shined. No Titan figure was seen, indicating that the defensive line in the first zone was stable.

It was the same for the second zone, Fraternity did not let any Titans get into the wall.

Looking at the third zone, the third zone had become the main entrance of the Titans. The ordinary Titans gradually spread within the Wall. Rose and they could completely occupy the third zone at most one morning.

However, before the third zone was occupied, the first and second zone would be affected. Su Xiao did not believe that they would sit idly by. If they intervened, they would delay the time for the third zone to be occupied, he would have more time to act.

Checking the task options of reincarnation brand, the attack and defense task had now turned red.

[the Third zone have been captured 13%, please set up a defense line as soon as possible.]

The situation was very ‘optimistic’, as long as the occupation of the third zone was below 80%, there was hope for rescue.

Looking at a few people who were fighting with Eren, Su Xiao frowned, the speed was too slow, he wanted Eren to control the Titan initially, at least let the other person turn into the titan for two or three times, twice was the least, for the first time to change, it was unlikely for him to recover his mind.

And seeing Eren’s vivid appearance now, he would not disarm the Titan mode for a while.

After confirming that there were no contractors around, Su Xiao used the ‘3D Maneuver Gear’ to quickly approach Eren.

Snigger.

The hook shot off, and the gas was injected. After a few seconds, Su Xiao arrived nearby.

“Well? Byakuya.”

Hange Zoe saw that Su Xiao temporarily gave up fighting with Eren and used the ‘3D Maneuver Gear’ to come near Su Xiao.

Both feet fell on the roof, Hange Zoe rushed for two steps to stable her body focus after putting off the hook.

“Why are you here, are not you in prison, what is the taste of the food in prison, haha.”

It seemed that the identity of the reincarnation paradise gave Su Xiao was familiar with Hange Zoe, and Hange Zoe patted Su Xiao on his shoulder with passions, it seemed like they were ‘good brothers.

“Not bad, where is the head of the team, and other brothers of other investigative corps?”

“I’m angry when it comes to that. Those doglegs of Military police regiment. They not only act as watchdogs themselves but also force us to do the same thing with them.”

Hange Zoe’s masticatory muscles stick out, it seemed that she was very dissatisfied with Military police regiment’s ways.

“Don’t say this first, I see that Kiko Shu, that Kiko shu is amazing. It will attack other Titans, it may be a special kind, or it may be infected with a certain virus. In short, let’s capture it first, I will research to know why does it attack other Titans.

If it is a special kind, the effect will not big, but if it is infected with a certain virus or bacteria, once we extract that kind of thing, we can use the Titan to fight against the Titan.”

Hange Zoe was no wonder an expert in the study of Titans. The first consideration was Eren’s fighting value after seeing Eren.

“The meaning is to capture him, I understand.”

Su Xiao showed up was to speed up the process. The big stone two hundred meters away was waiting for the ‘Eren Beast’ to take.

But if Eren removed the Titan mode and recognized him, he will immediately smash Eren’s head.

“Let’s go! We finally have a reliable partner. Although these recruits are excellent, their experiences are too less.”

Puff, puff?

The ‘3D Maneuver Gear’ made a sound of bursting jets, Su Xiao and Hange Zoe rushed to Eren.

“You step back and go to the side to watch the scene.”

Hange Zoe screamed and made Armin and others who were fighting tragically confused.

After seeing Su Xiao moved forward fast, Mikasa’s eyes were full of anger. Although Mikasa wanted to rush to the front and fought with Su Xiao desperately, the situation was not allowed.

Mikasa and Armin landed on a roof. At this time, there were many members of the training corps fighting with Eren, a female newcomer was standing near Mikasa.

The female newcomer had long yellow hair which was bind and her one side of cheeks, and one eye was blocked by the long bangs. The tall figure and the indifferent expression on her face. She was Annie Leonhart, really. She was a female Titan, the task for hiding inside the wall was to destroy the 'wall of God' and kill all the humans in the wall.

Annie was not a qualified spy. She always showed indifference to anything, it commonly called as aloof.

But Annie did not know that if she wants to be a qualified spy, she needs to be integrated into the crowd, just like her spy companion, Reiner Braun, but the Amor Titan: Reiner Braun got involved too deeply, and finally became schizophrenic.

When Annie found out that Eren had turned into the titan, she immediately came, whether it was the name of Eren 'Yeager' or the attack titan's power that Eren used, which made Annie care.

"Is he..."

Annie murmured, her eyes stared on Eren as if she wanted to find something in Eren.

"Do these two people really have no problem? We have the right people can't deal with this Kiko Shu."

Jean Kirschstein looked at Su Xiao and another one, who was rushing forward.

"I don't know, but I can finally take a break, I'm so hungry."

Gourmand Sasha Braus holding her stomach, she wanted to eat something more than fighting with Titans.

Puff.

A large amount of gas was injected, Su Xiao rushed directly into Eren in mid-air.

"He rushed straightly over there, is he looking for death?"

Several people in the training corps looked at Su Xiao with surprise. In their perspectives, Su Xiao was going for death.

Eren's huge arms waved to Su Xiao, Su Xiao used the '3D Maneuver Gear' to change direction in the air, just to escape Eren's attack.

"I will attract its attention, you are responsible for making him lose his mobility."

Hange Zoe yelled and rushed to the front of Eren, Eren was immediately attracted.

Su Xiao nailed the hook of the '3D Maneuver Gear' on the back of Eren, and the body swung through an arc in the air and swayed to the position of Eren's tendon of his hind leg.

He held dragon flash in right hand tightly, dragon flash cut through a semicircle in the air.

Snigger.

A large piece of blood rushed out, and the blade had no difficulty in cutting the thigh's tendon.

The tendon of his left thigh was cut off, and Eren immediately fell forward.

Looking at this scene, Su Xiao immediately put back the hook and began to fall freely.

With the bang, Eren fell to the ground, a lot of houses collapsed, on the wounds in his thighs appeared smoke, and the wounds recovered quickly.

Su Xiao stood on the side of Eren's body after landing, the dragon flash in his hand smashed continuously, rushing from Eren's foot to his head, slamming without stopping, Eren body was full crossing scars in less than three seconds.

The 'Eren Beast' wriggled on the ground and wanted to stand up, but the body tissues were cut off a lot, and it could not be recovered for a while.

Su Xiao also cut Eren's entire left arm and jumped on Eren's back.

The people of the training corps on the roof had already stunned, the Titan that they had no way to deal with, fell down in less than a minute under the hands of Survey Corps.

"Is this Survey Corps?"

Annie's face was not so good, as she slowly walked toward the crowd.

Chapter 154

The steam lingered, Su Xiao and Hange Zoe stood on Eren's back.

"If there is no large hook lock device, we can't control this guy, and it looks like he will recover soon."

Hange Zoe looked worried.

"Expel, all expelled."

The whispered sound was very small, which made Hange Zoe somewhat stunned.

"Have you heard it, it seems like someone is talking."

"Ah, I heard it very clearly, the position was in the back neck."

Su Xiao came to Eren's back neck and stabbed into the back neck of the 'Eren Beast.

Roar!!

"Eren Beast' made a big scream, and the body began to sway around. Hange Zoe staggered for a few steps was almost taken down from Eren's back.

"Don't kill him."

Seeing Su Xiao's move, Hange Zoe yelled anxiously.

Su Xiao was not going to kill Eren. The 'Eren Beast' was not in danger before it lifts the big stone.

Feeling the slight vibration in dragon flash, Su Xiao knew that the sword stabbed too deep, it might have stabbed Eren's body.

He didn't know exactly where was Eren, but listening to the scream of the 'Eren Beast', it should be very painful.

Su Xiao pulled out some of the dragon flashes and used both hands to pull the sword down.

Tear off?

More than a meter long wound appeared, Su Xiao saw Eren's body.

Eren was wrapped in bright red muscle tissues, and his eyes closed like he was asleep.

Su Xiao plunged his upper body into the titan's body and grabbed Eren's shoulder with one hand.

After the upper body plunged into the titan's body, a burning feeling came from all around, the temperature in the titan's body was at least 70 degrees.

After grabbing Eren's shoulder, Su Xiao pulled out with force, but his hand was slippery, the muscles wrapped in Eren were very slippery.

The high temperature continued to burn Su Xiao, his eyes locked on Eren's hair, there which was not wrapped by muscles.

Grabbing Eren's hair, Su Xiao dragged him outward.

Crack, crack.

Several strips of muscles were pulled off, Su Xiao shouted and dragged Eren's entire body out.

The breeze blew on his cheek, the burning sensation faded. Su Xiao was sweating all over his body.

"This is...."

Hange Zoe quickly stepped forward and glanced at Eren's body like X-rays.

If there is a dissecting table, Su Xiao suspects that the woman will immediately dissect Eren.

Su Xiao began to remain silent. If he says some secrets of the titan world would be suspected, he knew it would be fine. There was no need to make talk.

The plot characters were not fools. If Su Xiao tells a lot of secrets, he will not know whether those plot characters will believe in him, the royal family will try their best to chase him.

Now it was only necessary to properly promote the development of the situation. Even if Su Xiao does nothing now, Hange Zoe will continue her plan unintentionally.

"Eren!"

Mikasa rushed down the roof with a '3D Maneuver Gear' and rushed to Su Xiao in a few steps.

Today, Mikasa suffered hardships, she changed her mood from great joy to great sorrow too fast, so that this teenage girl was physically and mentally exhausted.

After rushing to the vicinity of Eren, the scene that Mikasa saw made her happiness disappeared, and she looked down.

“Let go.”

The voice of Mikasa was a bit cold. At this time, Su Xiao was holding Eren’s hair. Eren was fainting, and his body was half on the ground.

“You know what you are talking about.”

The sight which was more chilly and violent than Mikasa appeared, Mikasa was at best calmer, she just killed people when she was young, and Su Xiao had forgotten how many ghouls he had killed in the ghouls’ world, his eyes were dozens of times more horrible than Mikasa.

Seeing Su Xiao’s gaze, Mikasa immediately pulled out two sharp knives, she was like a scared little leopard.

“You are called Mikasa Ackerman, right? The way of Byakuya is correct. Now we have to take this person away.

Who can guarantee that the titan just was not controlled by him, no, the titan just was controlled by him.”

Looking at the body of a titan which had been gasified, Hange Zoe said with certainty.

“Mikasa calms down, the situation is too strange now, Eren he... he may...”

Armin quickly pulled Mikasa, but Mikasa still stared at Su Xiao.

“let Loose Eren’s hair, even if you want to control him, don’t grab his hair.”

Su Xiao nodded and grabbed Eren’s back neck with his backhand.

“I must kill this bastard.”

Mikasa whispered, she felt helpless, the situation began to develop in a bad direction, and according to Mikasa’s estimates, if she fights with that man, she is most likely wasn’t the man’s opponent.

The Wall. Rose was broken, the strange drink, Eren was eaten by the titan, then turned into a titan, Survey Corps intervened, the entanglement of things, let Mikasa ‘lost’ a lot of her brain cells.

“That, I have something to say.”

Armin stood up, her thinking was clear. She prepared to mix up something.

“continue.”

Hange Zoe signaled that Armin to continue.

“How do you deal with Eren? Even if Eren is in the titan’s body, it is not sure that Eren has become a titan. Before this, Byakuya-san said, Eren was swallowed by the titan. This is the fact that he witnessed.

According to my guess, Eren was swallowed by the titan and used the weapon to climb out of the titan’s stomach. Then he lost his way in the titan’s body, so Eren arrived at the giant’s back neck position, but after Eren broke through a lot of muscles in titan’s body, he was exhausted and

eventually trapped in the titan's back neck. The titan had a strong resilience, so Eren was trapped there. ”

After Armin's explanation, the recruits around her understood. After all, it is too ridiculous that human beings could become titans.

“The explanation is barely plausible, but there are two points. First, Eren is not swallowed by this titan. It is the five-meter titan.

Second, being trapped in the muscles will suffocate, Eren is trapped for about a half hour, do you think that he looks suffocated?”

Su Xiao's two sentences overturned Armin's speech. It was obvious that Armin was trying to save Eren. If it is developed according to the current situation, Eren is taken to the dissection table for granted.

Mikasa looked awkward. Just now Armin's words were almost all believed by everyone, this guy?

“Byakuya's words make sense. In short, this guy is sent to be judged by the head of the team. Whoever blocks us will follow the 'Against Military Secret Act' to deal with. By the way, Byakuya was sent to prison because he killed people.”

Hange Zoe signaled Su Xiao to keep up, and the two rushed to the inner Wall. Sina.

“Armin, let's go together, if the situation is not right, then let's grab Eren forcibly.”

After Mikasa and Armin followed, but will the thing develop in a good direction after they go to the Wall. Sina.

The answer was obvious, no, because there was Su Xiao.

Soon, Su Xiao and Hange Zoe rushed to the wall. Sina and they saw a row of cannons standing on the wall. Sina.

“Stop, the wall. Sina is a restricted area.”

Military police regiment on the wall raised a single-shot rifle in his hand.

“I am Hange Zoe, the Survey Corps, this is also a former member of the Survey Corps.”

Members of Military police regiment signaled that the two should wait. After reporting the head of Military police regiment, they signaled to the people on the wall to put down their guns.

Su Xiao took Eren to the wall and immediately saw two people coming forward.

Head of Survey Corps: Erwin Smith

Head of Military police regiment: Nile Dawk

Chapter 155

Hange Zoe greeted and explained the situation with Erwin Smith, the head of Survey Corps.

“So the Eren Yeager of the training corps can become a titan?”

“Yes, but after becoming a titan, he has a tendency to attack humans, but he is more interested in titans than humans.”

Erwin Smith looked at Eren, who was already in a coma, he was thinking.

Keywords such as ‘Human becomes a titan, attacking humans’ were stimulating to the side of Nile Dawk, the head of Military police regiment.

“Is what you said true?”

Nile Dawk grimly stared at Hange Zoe.

“Ah, it is true.”

Hange Zoe responded to Nair Dirk casually.

“This person must be handed over to Military police regiment to deal with.”

After talking, Nile Dawk walked forward, he wanted to grab Eren from Su Xiao.

Su Xiao’s hand moved, Nile Dawk did not capture anything.

“What is the meaning of this, prisoner. Come! Take him!”

Nile Dawk shouted loudly, and members of Military police regiment swarmed up, aiming at Su Xiao with guns.

Su Xiao glanced around, even if with Nile Dawk, he could kill these people in a minute. These people had no bloody smell, which meant they have never fought for a long time. Undisciplined people.

“Byakuya, calm down.”

Erwin Smith used his eyes to indicate Hange Zoe, Hange Zoe ran to Su Xiao a few steps, grabbed Su Xiao’s arm with one hand, and her face was a little nervous. It seemed that Su Xiao had killed people in front of her before.

“You have killed three members of Military police regiment. If you kill again, the head can’t protect you.”

Hange Zoe whispered at Su Xiao’s side.

Su Xiao scowled, the identity assigned to him by the reincarnation paradise was generally clear.

A former member of the Survey Corps was sentenced to death for killing three members of Military police regiment. Before the death penalty, the wall. Rose was broken. He was thrown into the battlefield to atone for his crimes by doing good deeds.

To find out his identity, Su Xiao had more confidence in the plan afterward. The identity of the former member in the survey corps was very good.

However, he noticed that Hange Zoe’s hand was tightly grasped his. Su Xiao felt that his identity’s temper reincarnation paradise arranged should not be very good, so he could not show too much deviation.

“What do you mean, Erwin Smith, are you going to protect this prisoner?”

“No, I want to treat him like a member of the survey corps.”

“What! Are you provoking Military police regiment?”

Nile Dawk was furious.

“According to yesterday’s battlefield report, Byakuya was almost alone blocking the hole in the city wall. According to the law, anyone who makes a huge contribution to human will be forgiven, even if the person does wrong in his or her behavior, and the person will have the opportunity to atone the crime by doing good deeds.

According to the performance of Byakuya yesterday, he protected the safety of many civilians, and what did the three members of Military police regiment who were killed by Byakuya do, you should know. The victim’s husband always wanted to litigate with the commander-in-chief, but he is blocked because of ‘various reasons’.”

Erwin Smith looked indifferent and did things without emotions.

Nile Dawk’s face changed one after another, what did his three subordinates do, he was clear, but for the reputations of Military police regiment, he could never admit that the female victim’s miserable appearance was seen by Nile Dawk. But it is the body that he sent people to destroy.

Su Xiao’s past killed three members of Military police regiment and should be executed directly under normal circumstances. There would be no chance of imprisonment.

Su Xiao scowled, the identity that the reincarnation paradise had arranged for him became more interesting.

“Cut, do not mention this matter, I will not say anything about this guy’s identity, but Eren Yeager must be handed over to Military police regiment.”

Nile Dawk chose to give in one step back.

The sound of jet injection of the ‘3D Maneuver Gear’ came, and Mikasa and Armin arrived.

“Head, two members of the training corps, want to climb the wall.”

Nile Dawk’s subordinates came to report to him.

“Training Corps? Let them leave, this is not where they can come.”

Nile Dawk meant to sent Mikasa and Armin away.

“Head, the two men, are the fellows of Eren Yeager, and the three are trained together in the training corps.”

Su Xiao spoke at this moment, Erwin nodded, indicating that Su Xiao stood in the team of the survey corps, and patted on Su Xiao’s shoulder, whispered a sentence, ‘It’s way too unfair to you, if the wall is not broken, he can be free for two days’.”

“Nile, the two people are the same period students of Eren Yeager, and they should know Eren Yeager.”

Nile Dawk was hesitant after listening to Erwin Smith.

“That? Let them come since Eren Yeager can become a titan, they are also suspect.”

Mikasa and Armin were put on the wall.

After seeing the Survey Corps and Military police regiment on the wall, the two stood aside honestly. Both of them knew that if they dared to mess up things here, they would only hurt Eren, they should be patient and see the development of the situation.

“Continue our discussion before, whether Eren Yeager is handed over to your Military police regiment, or our Survey Corps.”

“Of course, he is handed over to Military police regiment. The area in which your survey corps is responsible is outside the wall. Eren Yeager is the person who is the training corps, so it should be handled by us from any angle.”

The words of Nile Dawk were not unreasonable, and the power of Military police regiment the wall was much larger than that of the survey corps.

The first one was the scoundrel, and the other was to investigate outside of the wall with full efforts and try to open up the land for humans.

“God, I will hear you quarreling in far away.”

A strong old man with a white beard was coming in the distance, followed by several guards.

“Commander-in-Chief Darius.”

“Commander-in-Chief Darius.”

Whether it is the survey corps or Military police regiment, after seeing the old man, they bowed, one hand fisted on the chest, and another hand on the back.

After seeing the old man, Nile Dawk's eyes showed an undetectable disappointment, his advantage was gone.

The old man named Darius Zackley, the supreme commander of all the corps in the wall, was a person who cared for the people and felt disgusted with the current royal family. He knew some truths in the wall, but he could not help.

“Tell me about the things.”

After Darius Zackley spoke, a soldier moved to a chair, and the survey corps and Military police regiment in front stood in two rows.

Darius Zackley understood all the things and pondered.

“The soldier is called Byakuya, right? I have tried your case and put Eren Yeager in the middle. Then there is a temporary court, which is the case of Eren Yeager.”

Darius Zackley’s tone was not harsh but majestic.

“Commander-in-Chief, I object.”

Erwin Smith raised his hand.

Darius Zackley looked at Erwin Smith and mentioned him to continue.

“If the intelligence is correct, Eren Yeager may become a titan at any time after waking up, so I object to letting Eren Yeager leave Byakuya by three meters, and Byakuya is fully capable of subduing Eren Yeager. Even if it’s the situation that Eren Yeager turned into a titan.”

Darius Zackley nodded, Erwin Smith considered comprehensively.

“Well, then Byakuya stand in the middle together. If Eren Yeager has any abnormalities, you can execute him, I am giving you this right now.”

Su Xiao held Eren standing in the middle of the two rows of people, the opposite was Darius Zackley.

Su Xiao threw Eren on the ground, he took the knife stood behind Eren. Now he controlled Eren’s life and death. He could kill Eren publicly when he had any changes.

He looked at Mikasa and Armin aside.

Armin’s eyes were pleading, his hands were close together, and his appearance was very pitiful. Mikasa sided and no longer looked at Su Xiao. At this time, it was the most stupid way to express hatred towards Su Xiao.

The situation was unexpectedly smooth, the appearance of Dalris Zachary was undoubtedly good news.

But Su Xiao’s heart had a doubt. Where did Enthus go?

.....

In a house in the wall. Rose, Enthus climbed on the bed with great efforts, full of blood, but no obvious injuries.

“Byakuya, if you have a little conscience, then come to see me with some fruits, Eren became a Titan too fast.”

After talking, Entuhs coughed blood, but the green light in his hand surged, he started healing himself.

The plan was not without a slight deviation. Before Enthus carried the titan that swallowed Eren, he had not yet gone far, Eren became a titan, and Enthus was hit heavily.

Chapter 156

“Now it is time to decide which corps should deal with Eren Yeager, both of you, please state your proposals, Military police regiment first.”

Darius Zackley sat in the middle of the two Corps, he was not angry but looked powerful.

“Ha?” Nile Dawk coughed and took a step forward.

“The commander-in-chief..., the judge, the thing is that Eren Yeager can become a titan, which is very serious. If it is in the past, we will study it first.

Considering the current situation, If Eren Yeager is handed over to us, the Military police regiment will immediately execute Eren Yeager to rule out this unstable factor, that’s all. ”

After declaring the proposal, Nile Dawk took a step back. This was actually his personal opinion. The Military police regiment did what he said. Except for the orders from the royal family or the commander-in-chief, Nile Dawk would ignore them.

“The next one is Survey Corps.”

Darius Zackley gestured to Erwin Smith to speak their proposal.

“The Judge, I suggest that letting Eren Yeager be handed over to us. If humans can become titans, there will be a new threat different from the Titans.

Assume, the following description is only my personal guess. ”

Erwin Smith, who had always been cautious, taking a deep breath, it seemed that it was a very serious guess.

“First of all, we have determined that Eren Yeager has become a titan before, so we can’t rule out the uniqueness of this ability. Does look Eren Yeager like this in the usual?”

Erwin Smith looked at Su Xiao, Su Xiao nodded.

“There is another possibility, what if other humans in the wall that can become titans, or that they are now hiding next to us, ready to cause devastating damage to humans.”

After Erwin Smith expressed his conjecture, everyone else took a breath.

Eren Yeager was in front of him, the titan could become a human had been basically confirmed, there were witnesses of the members in the Corps.

“So in order to investigate whether there are other people in the wall that can become titans, the Survey Corps decided to detain Eren Yeager first and have him controlled by the Survey Corps.

Of course, this depended on the performance of Eren Yeager after he is awake if he can control the titan he became, have conscious and be loyal to humanity, it may be able to consider controlling him to help humans fight,

The ability to become a titan is either randomly assigned, or it may be an accident. We don't know about the titan, that's all. ”

Erwin Smith's remarks were very persuasive. First, it showed that if human beings could become a threat to titans.

At this point, Erwin inferred it accurately, there were indeed 'wisdom titans' who sneaked into the wall.

Erwin Smith meant to hold Eren first, and then decide whether Eren was loyal to humans or wanted to destroy humans.

If he is loyal to humans, they can use him to repel the Titans, if not, slice him to do the study.

This was similar to Su Xiao's plan. The city wall was almost broken, and the danger was near. The Survey Corps would try to block the gap.

At least with Su Xiao's understanding, the Survey Corps was wholeheartedly thinking about humanity.

“So...”

Darius Zackley pretended to ponder.

In fact, after he understood the cause of the matter, he had decided which Corps he should assign Eren to stay. The temporary court was only a form, the authoritarian parenting would cause dissatisfaction of a certain corps.

“I decided to...”

Darius Zackley had not finished his words, founding that Eren was waking up, and he suddenly stopped what he said.

Eren looked up in confusion and glanced around in blank.

After seeing the situation around, Eren immediately thought of getting up, but he suddenly felt a force on the back and pressed him firmly to the ground.

“What is going on here, why am I here, let me go.”

Su Xiao stepped on Eren's back with one leg. If Eren dared to get up, he would be hit severely, and Su Xiao's previous plan would fail.

“If you don't want to die, you have to stay here honestly.”

Su Xiao's words didn't play any role, Eren still struggled to get free, Su Xiao forced on his feet, Eren screamed in horror.

Just imagine what will you feel when you just got up and suddenly be stepped on your back and hit hard.

Eren was very innocent now, he still didn't know what happened.

“Eren Yeager, do you remember what you did after becoming a titan, do you control the titan in battle?”

Darius Zackley stared at Eren, Eren's next words would affect his judgment.

“What? Did I become a titan? This kind of thing is not funny at all, who is this old man?”

Eren obviously had never seen the commander-in-chief of 'Darius Zackley'. In the world inside of the wall which had backwardness technology, the highest position Eren only had seen was the head of the Survey Corps, this kind of person like 'Darius Zackley', He had no chance to contact with him.

The portrait of the person Eren had indeed seen before, but the portrait was too abstract?

“The old man?”

Su Xiao was speechless, Eren this child was a bit idiot.

“This is the commander-in-chief, Darius Zackley. He is in charge of all the corps. You should pay attention to what you say. Otherwise, I will shoot you now.”

Nile Dawk stared at Eren with a bad look.

“The commander-in-chief of all the Corps?”

Eren swallowed.

“Eren Yeager, answer my previous question.”

“I don't know what becomes a titan, I am a human, how can I become a titan, this must be a joke.”

Eren was somewhat uncooperative, this kind of conversation was meaningless.

“Give me a minute.”

Su Xiao looked at Darius Zackley, and Darius Zackley sighed.

“Don't be too rude, I have tried your case.”

Su Xiao nodded, lifted his feet and let go of Eren who was on the ground, grabbed his shoulder and picked him up.

“First you can only listen, there is no right for you to speak.”

Eren wanted to talk right away. Su Xiao lifted his knees to hit Eren's lower abdomen. Eren bent down and spat out an acid regurgitation.

“Hey! What are you doing, he may become a titan, don't stimulate him like this.”

Nile Dawk screamed and quickly receded.

“Oh? According to the previous situation, this guy turned out to be a 'Kiko shu' with fifteen meters, even if he has some fighting instincts, I can solve him in five minutes.

Continuing our previous conversation, you can only listen but not speak. ”

Eren nodded immediately, he was not stupid, he would be hit when he spoke.

“This attitude will be correct. The fact that you can become a titan has been confirmed. It is what I saw with my own eyes. Considering that you do not believe me, there are other witnesses.

Su Xiao turned to look at Armin and Mikasa.

“Say what you see, if you still want him to live.”

Mikasa’s teeth were bitten tightly, she looked down. Armin found that the situation was not right and said quickly:

“Eren, you probably turned into a titan before, we rescued you in the titan’s back neck, and, you remember how did you swallow by the titan...”

“I only have one minute, you just need to confirm that he becomes a titan.”

Su Xiao interrupted Armin’s words and looked at Eren.

“You can become a titan. I will give you five seconds to accept this.”

Eren nodded dumbly, but immediately shook his head. At this time, Eren had only one thought in his mind. The man with a long sword in front of him was terrible.

“Five seconds past, and now you must accept the fact that you can become a titan.”

It would take a long time for Eren to accept that he could become a titan, so Su Xiao used the simplest and most rude method.

First, hit him and let him accept the fact forcibly, and finally was to have recognition of a friend.

Eren’s sight was a little dull, the fact that he could become a titan made his young mind seriously wounded.

“You can continue to interrogate.”

Su Xiao put Eren on the ground and continued to step on him. He was also helpless. If he doesn’t do this, the timid guys of the Military police regiment won’t put down their guns. Once the situation is tense, it would stimulate other people’s nerves. If they accidentally kill an official, his plan will be postponed.

Chapter 157

Although Su Xiao’s actions were somewhat rude but effective, Eren had initially accepted the thing that he could become a titan.

“Eren Yeager, do you remember the scene of becoming a Titan, what you were thinking about at the time.”

Eren was pressed to the ground and pondered for a while.

“I don’t remember, I only remember I ate meat last night... I fell asleep after dinner, I fell asleep deeply. I woke up in a dark place, but last night I seemed to be chocked in the ‘dream’. I feel that my neck is almost broke and will die soon, but now I don’t feel anything wrong with my neck.

I have been in a very dark place, I’m very tired. ”

Eren was still in a state of confusion, so his language organized not really good, everyone present frowned.

He ate meat and dreamed, the most amazing thing was that there are people in the dream want to kill him.

“The judge, I now suspect that Eren Yeager has a problem with his mind and he must be executed immediately.”

Nile Dawk suddenly spoke to infer that Eren was mentally ill.

If this accusation is confirmed, Eren will be executed.

Dong..., dong..., dong...

Darius Zackley tapped the handrail of the chair. He also saw that Eren’s condition was very bad. According to his understanding, Eren should have some memories, the situation is very weird.

The commander-in-chief was the commander of all the corps and understood the catch inside of the wall.

After thinking for about ten seconds, Darius Zackley’s eyes flashed a sharp light.

Seeing this kind of sight, Su Xiao vexed to think something bad may happen, this cunning old person may do something.

“After listening to the statements of the two Corps, and the current state of Eren Yeager, the court sentenced Eren Yeager will be handed over to Military police regiment.”

As a result of this sentence, some people were happy, some were sad.

Nile Dawk was, of course, happy, this guy was full of surprises, in his opinion, Eren was very likely to be handed over to the Survey Corps.

“Come, execute Eren Yeager immediately, Byakuya, soldier, you also cooperate with Eren Yeager’s execution.”

It seemed that Nile Dawk was very afraid of Eren, he also asked Su Xiao to come.

“You guys.”

Mikasa in the distance was expressionless, she had made a decision in her mind.

Mikasa directly pulled out two sharp knives and rushed forward, if Eren is controlled by the Military police regiment, he will die.

Armin stood in the same place, it seemed that she had not accepted the fact that Eren would be executed. After seeing Mikasa rushing forward, Armin also rushed forward, but intelligent Armin did not pull out the weapon.

“Get out!”

Mikasa jumped up, the two sharp knives in her hand slammed into Su Xiao’s back. Su Xiao’s body sided to escape, and he did not choose to fight against Mikasa. He already understood the intention of Darius Zackley.

“Line up and kill these three traitors!”

Nile Dawk waved with one hand and a row of a gun aimed at the Eren and the other two people.

“Open fire!”

After the announcement of Nile Dawk, two people smiled on the battlefield, namely Darius Zackley and Su Xiao.

“This old man is cunning.”

Su Xiao jumped aside, just to avoid the shooting angle of the Military police regiment, he was not far from Eren. He would have to show up later, he was ready to cooperate with this play.

Boom, boom, boom...

With several rounds plumbs fired up, the speed of old-fashioned single-shot rifle was not too fast.

Eren’s head was almost broken, what the situation was now, all kind of thoughts flashed through his mind.

Was he going to die, would Mikasa and Armin be hit hard because of him?

No, he must not let this happen.

Eren raised his arms subconsciously, he bit under the thumb, the blood spilled.

Boom!

Golden lightning fell from the sky, a strong impact spread out all around, and the smoke and dust rose.

Su Xiao put the dragon flash into the ground to keep his body stable, and the members of the Survey Corps also used various means. These people all went through battles.

The worst was the Military police regiment. These people only bullied poor people inside of the wall, they even gave up daily training. Thus hundreds of members in Military police regiment were blown down of the wall and screamed poorly and incessantly because they had not fought for a long time.

The biting cold wind blew through, Su Xiao arose one hand in front of him, seeing a huge skeleton in the shining golden light in front.

The skeleton protected Mikasa and Armin, Eren’s figure disappeared. It should be at the back neck of the titan skeleton.

“Ti...titan.”

Nile Dawk 's teeth trembled, and he stepped back.

The impact receded, a titan skeleton with sparkles and steam appeared on the wall.

Eren had just become a titan, so this time was very incomplete, the titan's skull was exposed, only one eye was produced, showing the horror and terror.

“Open fire, destroy this monster.”

Nile Dawk screamed hysterically, the voice was a little bit changed.

Members of the Military police regiment hurriedly began to change bullets, and some them even dropped cartridge bags to the ground.

Boom..., boom.

The scattered gunshots came because the hand which held the gun shook too serious, a bullet flew even near Su Xiao.

Members of the Military police regiment were like a mouse saw a car after seeing the titan. This was different from the appearance that they bullied citizens usually. The titan will really kill them, they don't know where the courage comes to execute Eren.

“Military police regiment stop firing.”

Darius Zackley screamed loudly, but there was not useful, Military police regiment was fully frightened.

“Nile Dawk, should the Military police regiment reorganize, right?”

The words of Darius Zackley were like a basin of cold water pouring on the head of Nile Dawk, Nile Dawk's body trembled.

“Ceasefire, are you guys deaf?”

Nile Dawk even kicked his subordinates to stop them, the scene was barely controlled.

Crack?

The skeleton that Eren born turned his head and looked at the people present.

Members of this Military police regiment could no longer bear the pressure of their mind, they instantly separate away.

Titan Eren's arm was lifted up, and when everyone thought that Eren was going to attack, Eren surprisingly blocked the titan's arm in the chest.

Now the titan Eren had only the upper body, so the position of the chest was where Mikasa Armin stayed.

Darius Zackley surprisingly sighed and stood up. He was sitting firmly when Eren became a titan, his mental quality was very strong.

”He has a sense of protecting his companion surprisingly.”

Erwin Smith, the head of the Survey Corps, was stunned and he seemed to see something possible.

“Eren Yeager, can you hear me?”

The titan that Eren turned into was motionless, he had no strength to continue moving.

At this time, Eren in the titan’s body suddenly awake, he was kneeling on the neck of the titan.

Eren was shocked and struggled immediately. As Eren struggled, the small number of muscles at the back neck breakdown, Eren’s upper body was exposed to the air, and the lower body was wrapped in the muscles of the titan.

“What is this?”

Looking at the hindbrain bones that wrapped a small number of muscles in front of him, there was a lot of memory appeared in Eren’s brain.

“You must keep this key near you.”

“Be sure to remember when you see the key, you have to go back to the basement of the home.”

“Because of injecting this kind of medicine, you will lose your short term memories, so I can’t explain it to you now. Remember, you must take back the Wall. Maria and then reach the basement. You will use this power someday.”

He saw his father was tearful in his memory, his father took a needle and a transparent medicine inside the needle.

“Their memories will teach you how to use this power, Eren, as long as you can reach the basement, you can find the truth! Forgive me, I did this helplessly, I have no time.”

The memories in Eren’s mind ended, and the memories after were too dull and fantastic. He vaguely remembered that he became a brainless titan and swallowed something.

Although Eren’s last memory was vague, it was true, he just did not remember it.

The truth was that when Eren was ten years old, his father injected him with a titan potion and turned Eren into a brainless titan.

When Eren became a brainless titan, he immediately had the desire to swallow humans, and his father stood in front of him.

So Eren swallowed his father, inheriting the power of two titans and returned to a human, his father was also willing to do this.

After inheriting the power of the titan, he only had thirteen years to live. His father’s thirteen years would soon reach the deadline.

‘The brainless titan’ could become human after swallowing the ‘intelligent titan’ and inherit the power of the intelligent titan.

This was why ordinary titans did not need food, but swallowing humans. The instinct of the brainless titans could swallow the intelligent titans and let them become humans.

There were thousands of brainless titans, and there were only nine intelligent titans. The rate was really low.

After Eren swallowed his father, he inherited the power of the 'attack titan' and the power of another, the strongest titan.

Chapter 158

“Help!”

Eren struggled on the titan's back neck, but he was powerless, so he couldn't break free of the muscles wrapped him.

“It's a magical scene.”

Hange Zoe touched the titan's skeleton slightly and looked at Eren, who was struggling in the titan's back neck, she seemed to watch a treasure.

“It is necessary to get Eren to do research, and it is worthwhile to die.”

“Yes, I must get it.”

Erwin also leaned forward and looked up at Eren in midair.

Ding, a crack sound came, the titan's rib was cut off, Mikasa rushed out of the titan's bones.

“Eren!”

Mikasa used the '3D Maneuver Gear' to approach Eren and helped Eren break free of those muscles.

“Head, if Eren Yeager is loyal to humans, then he might become a titan and lift a big stone and block the hole that was kicked by the titan.”

The timing was just right, Su Xiao gave advice.

“This idea may be feasible, it is necessary to see whether Eren Yeager is loyal to humans.”

Erwin did not immediately agree, Su Xiao did not persuade again, it would only be counterproductive, and it would be suspected, it would be fine if Erwin had this idea.

Eren was got rid of the titan's body, and the titan's bone began to gasify.

The steam lingered, and the surrounding became white.

“All back.”

In this white steam, everyone stepped back a dozen meters, forming a group outside of the steam with higher visibility, looking inside of the steam in the alert.

The titan that Eren turned into was too strange. No one knew whether the steam was poisonous. The members of the Survey Corps were so cautious. They were always in dangers, as this caution let them survive outside of the city which was dangerous.

“Mikasa, I need to leave here.”

Eren suddenly spoke in the steam.

“Hey?”

Mikasa was a bit shocked.

“I remember, I do have the ability to become a titan, and this ability was given by my dad. I can't remember the things after that, but I have to go back to the basement, and I will know the truth of titans as long as I get there. The truth can save thousands of humans.”

Eren's breathing was very fast, but he had already passed the initial panic.

“Back to the wall. Maria? Can we do it? there are many titans.”

Armin considered it thoroughly, but he did not refuse the idea of leaving, because Eren was about to be executed.

“I can do it, I have a feeling? I can control the power of this titan. Now, this skeleton is only a part. If I use all my strength, I can become the fifteen meters titan, probably...can.”

The three men looked at each other and eventually nodded.

“Go, go.”

“Oh? Are you ready to be deserters? Stay here and do jobs.”

Su Xiao's figure with the dragon flash appeared in the steam. He heard Eren's words, now the plan went to the most critical part.

Eren had been able to control the power of the titan initially, at least he had already realized that he could become a titan, this was a good start.

Now Eren only needed to show loyalty to humans.

“You guy...”

Mikasa was somewhat desperate. She had the confidence to leave alone, but if she brings weak Eren, they cannot escape.

The girl was still too confident, Su Xiao only showed the ability to kill the titan, his sword was actually more suitable for killing people, even under Su Xiao's blockade, she can't escape herself.

Under Su Xiao's sword skills, Mikasa only could rub on the ground, she only learned how to deal with the Titans.

“Shut up and listen to me, there is no time, the people of Military police regiment will get close when the steam disperse.”

Su Xiao walked in front of the three men, Mikasa and Armin were alerts, and Eren took a step back. This boy was afraid of Su Xiao. After all, he was stepped on by Su Xiao for a long time.

“Do you now admit that you can become a titan?”

Eren hesitated and finally nodded.

“Good, then listen carefully to my next words, Eren shut up for a while, your ability to express yourself is too bad.”

Eren wanted to explain, but didn't know what to say.

“Armin, it is not bad that Eren can become a titan. As long as he can become loyal to humans, he can be alive.”

Remember the big stone that was kicked out from the three holes on the wall. If Eren can lift the big stone and block the hole, he will become the hero who saved thousands of people.

Eren, you should know most about the feeling of displacement. Now the civilians in the wall. Rose is like this, just like you five years ago, you can save them, as long as you lift those rocks to block the hole.”

Su Xiao's voice was not very loud, but the three listened clearly.

”Can I save thousands of people who are as displaced as me?”

Eren looked at his hands and couldn't help but smile.

“Ah, you can.”

Su Xiao was induced.

“Eren doesn't believe him, this guy is a jerk who is full of lies.”

Eren seemed to have not heard Mikasa's words. The opportunity to save thousands of people had already attracted Eren. He was, after all, a very fair boy.

“Mikasa, maybe this method is indeed possible, and we can't go now.”

Armin did not believe Su Xiao's words, but Su Xiao's suggestion, he believed it.

“You really think about humans? You don't even reject me like this monster, but let me save more people.”

Eren stared at Su Xiao, Su Xiao's cheeks plumped, was this silly boy grateful to him?

After hearing the words of Eren, Mikasa's sight became black and closed her eyes in desperation.

At the moment, there was an idea in Mikasa's mind, 'that is, Eren is stupid, this guy is a bad guy'.

“Remember, don't make any sound from your stupid mouth at a critical moment, let's make it better.”

Su Xiao returned to the steam, the steam was about to scatter.

“Eren, what do we do.”

Armin asked Eren for advice.

“Of course find ways to convince them that if I can save the civilians in the wall. Rose, it doesn't matter if I die.”

“Eren.”

Mikasa screamed in a hurry.

“It's decided in this way. Armin will come to negotiate, and I will find a way to prove myself.”

The steam was completely dispersed, Eren and others were greeted with guns. The people of the Military police regiment pushed back several cannons after they ran away. The cannons had been filled and could be fired at all times.

“Raise your hand and lie on the floor.”

Nile Dawk stepped forward powerfully, he decided to kill Eren and others with cannons directly, and now Eren had been handed over to Military police regiment.

“Nile Dawk, step back.”

Darius Zackley's voice came.

“Commander-in-chief, you just...”

“The judgment has changed. Now Eren Yeager has been transferred to the Survey Corps.”

Darius Zackley stared at Eren, This was an opportunity for humans.

“But commander-in-chief...”

Nile Dawk's words had not been finished and found a few people around.

Su Xiao, Erwin, and Hange Zoe were half-surrounded and approached Nile Dawk.

“You... what do you mean, do you want to betray the kingdom?”

Nile Dawk was little flustered, the situation on the wall began to exceed his control.

“Now it is the time of war. I have the right to deny certain opinions of the royal family. From now on, the Military police regiment will enter the first-level to prepare for war and prepare to meet the Titans.”

The words of Darius Zackley made Nile Dawk stunned.

“We are going to meet the Titans, how is this possible?”

“Oh? The Military police regiment is not responsible for guarding inside of walls, right?”

Su Xiao's words made Nile Dawk speechless, and Nile Dawk looked down. The situation was not good now. The commander-in-chief of Darius Zackley was obviously on the side of the Survey Corps.

Nile Dawk was still using his past experience to judge the current situation, thinking that Darius Zackley would be constrained by the royal family.

But he didn't think about that the wall. Rose was broken, if they keep intriguing, the human will be extinct in a short time.

Even the royal family would remain silent now because they didn't want to die, they had lost the biggest killer, the killer was hidden in Eren, but the royal family was still unknown.

“Eren Yeager, how much you can be loyal to humans, now show it to me, it is about your life and death.”

Darius Zackley stared at Eren, if Eren can't show his loyalty, Eren will really die.

The wall was broken, and the war was urgent.

Su Xiao winked at Armin, which means start your performance. If you don't perform well, I will kill you.

Chapter 159

Armin looked at the people present, these were the big shots he usually could not see.

Turning his head and looking at Eren and Mikasa, the sights of both of them were very calm, they trusted Armin. Armin did not know why he suddenly felt like crying.

Eren nodded to Armin and gestured to Armin.

Armin took a deep breath and looked up.

Looking directly at the people in front of him, Armin respected the military ceremony and forced his fist to the chest.

“The heads of the corps and the commander-in-chief, I have something to say, instead of Eren Yeager, we are fellows who grew up together, and if he threatens humans, then I have the same suspicion.”

Darius Zackley frowned and looked a little displeased. Eren should speak by himself, not someone else.

Recalling Eren's chaotic thinking, uncoordinated words, and poor physical state, Darius Zackley finally nodded.

“Eren Yeager, can he represent your wishes?”

“He can.”

Eren's answer was quick and agile, Darius Zachary did not say anything.

Armin organized his thoughts and spoke.

“We are soldiers who have already given our hearts to the revival of mankind. If we can give up our lives for this, we will not hesitate to do with no complaint.”

But if you can combine the strength of soldiers today with Eren Yeager's titan power, it is not impossible to recapture the entire city.

After Eren Yeager turned into a titan, he was fifteen meters. According to the power he had shown before, raising the stone in the town completely within the range of his tolerance.

So even if we are going to die today, seeing the honor of humans, let us gloriously die! ”

Armin completed the above statement in shouting, which was simple and impactful.

Don't say about Darius Zackley, even the jerks of the Military police regiment were somewhat tempted, after all, their families were in the wall. Rose.

Su Xiao smiled and looked at Armin. This guy had a lot of speech skills. It was not impossible to become a head of the Survey Corps in the future.

“It's a wonderful statement, Eren Yeager, this is what you mean, right?”

Darius Zackley clenched his fists, and as long as he could take back the wall. Rose, he would not hesitate to take some risks. Once the wall. Rose was completely destroyed, humans would lose a lot of lands, and in less than a week, the number of humans will at least drop by 80%, the situation of people eat people would be normal.

Exchanging kids for eating was not just a phrase. In the era of famine, it was a pile of meat in the pot.

“The head of the Survey Corps, Erwin Smith, I am now commanding you to use Eren Yeager's titan power to get the wall. Rose back. Can you do it?”

Darius Zackley's momentum at this time was extremely strong.

“It is not clear whether it can be done, but before the Survey Corps is killed, it will be the mission of the Survey Corps.”

“It is good!”

Darius Zackley looked at Su Xiao.

“Byakuya soldier, if Eren Yeager betrayed humans after becoming a titan, can you execute him in the first place?”

“No problem, he used to be dragged out of the titan body by me. It is easier to kill him than catching him when he's alive.”

Su Xiao's clear answer made Darius Zackley more confident in the next move.

“But now there are three holes in the hole, whether we should block the hole that is being held or block the hole that has been broken.”

Darius Zackley was hesitant, blocking the hole that was held would speed up the progress to keep the wall. Rose. However, the hole that had been broken also need to be dealt in urgent, but it was difficult to block and would be affected by the titan.

The most crucial moment came. If Su Xiao does not say anything at this time, he is likely to do things for other people.

“The commander-in-chief, I used to guard the hole that had been broken, but because of the large number of people left, the hole eventually fell.”

The hole was very wrong, it was bigger than the other two holes, and the wall in the hole was cracked.

If you do not establish a support point as soon as possible, there may have a landslide in the nearby wall. “

This heavy news made everyone around felt awkward. What was the concept of the collapse of the wall? If the collapse in the hole causes the entire wall to collapse, then the humans will be killed.

“Is the message accurate?”

“It’s accurate, I personally went to the inner wall to see that there was one scar for fifty cm, four scars for thirty cm, and twenty scars for ten cm.”

There were indeed cracks in the hole. Su Xiao believed that each of the three holes had, but only he physically guarded in front of the hole.

Although Hange Zoe was also on the front line, she was fighting with the ‘3D Maneuver Gear’. It was unlikely for her to enter the hole to check the inner wall. Even if she had seen, Su Xiao had more terrible manners.

“Hange, what happened to the hole you defended before.”

Erwin would not only listen to Su Xiao’s words, although Su Xiao was now a member of the Survey Corps.

“There is no obvious crack on the outside of the wall. I’m not clear with the inside of the hole. I didn’t go in there, but I conjecture that there will not have too serious cracks. I suggest blocking the hole that had already broken, stopping the titan from continuing to get into the city. Now the civilians are seriously injured.”

It was obvious that Hange Zoe was shocked by Su Xiao’s words. If there is a wall construction expert, the person would definitely found out problems with Su Xiao’s words.

But Su Xiao was sure that there was no such expert. The royal family would never allow such experts to appear because the three walls were not artificially built.

“I determined, first block the entrance that was guarded by Byakuya before, and then continue to block the other two holes.”

After Darius Zackley ordered, Su Xiao relieved in mind, his plan had achieved 50%.

The reason why he could do this was not that he had wisdom or had lots of plans, but he has seized the general trend.

After Eren's titan identity was exposed, as long as the high-level positions which in the wall were not stupid, they would use Eren's power. The current situation was too critical.

“All personnel of the Survey corps listened to orders and prepared to start the large-scale cleanup titans in the wall and prepare to let Eren Yeager carry the stone.

Eren Yeager, can you become a titan now? ”

Erwin was now appointed as a frontline commander, and he immediately took on a heavy burden.

“It seems not. I am very tired now. It takes at least an hour to rest.”

Eren had mastered the power of the Titans. After inheriting the power of the Titans, it would also inherit some memories of the users of the previous generations of titans. These memories were the manner of using titan power.

“Give you two hours to take a break, during this period we can clean up the Titans in the wall, Byakuya, Eren Yeager is handed over to you, you can make a decision at the crucial moment.”

In fact, the best candidate was Levi, Erwin believed in Levi, but Levi was not there, Erwin could only choose Su Xiao.

“No problem.”

Su Xiao sat on the wall and looked at the town where the smoke was everywhere.

Now he only needed to be optimistic about ‘Eren Beast’. He felt that he was not far from completing the ‘attack and defense mission’. For him, the Titan world just started after completing the attack and defense tasks. It was just beginning, and now it was inconvenient to be bound by the task.

He had a bold idea afterward, once it succeeds, the benefit would be a lot.

Su Xiao took out some chocolate and handed it to Eren, which could make Eren recover as soon as possible.

“Eating it can speed up physical recovery. If you can't move the stone after two hours, you can close your eyes and die.”

Eren hesitated to pick up the chocolate. Now his life was in Su Xiao's hands, he did not think that Su Xiao will poison him.

Biting the chocolate, Eren didn't look good.

“It's sweet and bitter, it has a strange smell, it's not yummy, and it's the same color as the dirt.”

“Don't talk nonsense, if you dare to spit it out, I will feed you dirt directly.”

After Erwin ordered, the members of the Survey Corps were divided into ten teams and jumped from the wall.

The members of the Survey corps had about 1,000 people, and it was with the fewest but most powerful corps in the wall.

Looking at the Survey Corps quickly rushing toward the brainless titans, Eren had prospects in his eyes. His dream was to become a member of the Survey Corps and kill the titans outside the wall.

The Survey Corps on the wall left let Armin was not sure. This clever teenager had already seen who are enemies or friends.

“Is it really okay to stay here?”

Armin glanced around, the hatred gaze of the Military police regiment made him have no more confidence.

“No problem, who dares to destroy actions will be the enemy of humans.”

Su Xiao sat on the edge of the city wall and looked at the wall. Rose in the distance. The sun gradually rose behind the wall. Rose and the golden yellow sun shined beautifully.

Su Xiao lit a cigarette and looked at the beautiful scene in the distance with a smile.

“That? Byakuya-san.”

The sound that destroyed his feeling appeared, it was Eren.

“What?”

Eren hesitantly said:

“Byakuya-san, although I can grasp the power of the Titans initially, I can't have the conscious after becoming a titan. I don't know if I can remember to lift the big stone.”

Eren talked about his concerns.

“No problem, I will help you recover your mind.”

Su Xiao knew that Eren had no conscious after turning into a titan, but he had a way.

Eren subconsciously retreated.

“Can you tell me what will you do?”

“You will not want to know.”

Su Xiao spits out a plume of blue smoke. Now he just needed to wait. The Survey Corps had begun to clean up the Titans.

Time passed quickly, two hours passed quickly, the action time was up.

“Let's go.”

Su Xiao took the lead to jump down the wall. Eren and the two people behind also followed, their goal was the big stone.

At this time, Su Xiao had three signal guns on in his waist. Red represented the failure of the mission, green represented success, and yellow represented the smooth progress of the plan and began to build the defensive line.

Five minutes later, four people arrived near the boulder.

The boulder was black with an oval shape, the diameter was about ten meters. The weight was not easy to estimate.

Members of the Survey Corps guarded near the big stone. After Su Xiao and others arrived, these people began to spread around and cleaned up the titans wandering on the path.

The fame of the Survey Corps was not blown out. In the past two hours, about 70% of the Titans in the wall had been cleaned up, but they had some casualties, dozens of people died.

“Good, now you can become a titan.”

Su Xiao looked at Eren, and Eren stood in front of the boulder and looked up.

“Can I really lift this stone?”

“Don’t talk nonsense, become a titan quickly.”

If Eren has a mistake at the crucial moment, Su Xiao will use a special way to help him become a titan.

Eren nodded and raised his palm and bit it under his thumb.

Crack.

Blood ran down from Eren’s mouth, and nothing happened.

“It hurts.”

Eren’s palm trembled, it seemed that he thought of something and then took the courage to bite again.

Crack, crack, crack.

After biting for four or five times, Eren’s mouth was full of blood, but he still did not become a titan.

“It... It seems that I can’t become a titan.”

Eren had some confusion in his eyes, he looked at Su Xiao for help.

“Imagine if you can’t become a titan, Mikasa and Armin will die.”

The dragon flash appeared in hand, Eren needed some stimulation now.

“Hey??”

Eren looked at Su Xiao strangely.

“I am not kidding. The members of Survey Corps will die or injure every minute, giving you 30 seconds to work hard. If you are not successful, I will help you.”

Eren swallowed.

“Wait for me....”

“Forget it, I have no patience.”

Su Xiao’s lazy look disappeared and suddenly rushed to the side of Mikasa and Armin.

The two men did not even pull out their weapons. They saw Su Xiao who suddenly rushed, Mikasa first responded.

Keeping her arms in front of her, Su Xiao’s speed was too fast. She was now too late to pull the weapon.

Boom.

Su Xiao’s quickly side kicked on Mikasa’s lower abdomen. Mikasa was not a weak woman. Su Xiao clearly felt that this attack was on Mikasa’s abdominal muscles.

Mikasa was a beautiful soldier with six abdominal muscles.

The lower abdomen was suddenly attacked, Mikasa could not help but bow her body.

Su Xiao quickly closed to Mikasa, grabbed Mikasa’s shoulder with one hand, and his knees slammed into Mikasa’s chest hard.

Boom.

Mikasa was almost faint because of the attack, the left chest was numb, her body fell down softly.

Armin was already numb on the side but immediately guessed why Su Xiao attacked them.

She must escape, or she will die.

Boom, bum, pom, Armin fell to the ground.

The scene on the roof made Eren in front of the huge stone a bit shocked.

“What are you doing and why do you attack them?”

Eren wanted to rush to the roof.

“If you dare to leave that boulder for more than three meters, I will cut off her head.”

Su Xiao stepped on Armin’s chest, the dragon flash was pointed in front of his neck. Armin knew Su Xiao’s intention. This was to force Eren to become a titan.

If Eren can’t become a titan, his head will be cut off.

Armin guessed correctly if Eren can’t become a titan, Su Xiao will cut off to his head.

“Give you five seconds to become a titan. Otherwise, I will kill Armin, the next one is Mikasa.”

“Fives.”

“Four.”

“Three.”

“Two.”

“One.”

“I’m really sorry.”

After Su Xiao lifted the dragon flash, he was ready to cut off Armin’s head. If it still cannot work, he will continue to cut off Mikasa’s head.

There was not much time left now. After the large-scale dispatch of the Survey Corps, other contractors would surely notice, then there may have some changes at that time.

The blade fell, Eren’s expression became fierce.

“No!!”

Boom!

Golden lightning fell from the sky, and the violent impact spread to the surroundings.

The blade touched Armin’s neck and stopped. The skin just touched by the dragon flash slightly, a trace of blood appeared on Armin’s neck.

“Hey, you’re lucky.”

Su Xiao let Armin go, Armin breathed heavily. The man was not acting at the moment. The person really wanted to kill him. he could be sure.

Looking at Eren who had become a titan, Su Xiao sighed, people, are strong because of pressure. With a bitter smile, how did he feel the words that had two meanings?

“So?, Eren Beast quickly lift the big stone for me, the feeling of constraining was so uncomfortable.”

Su Xiao was basically liberated after completing the attack and defense tasks. He would make a big move afterward.

Roar!

The Eren became a titan screamed, the dark green eyes looked at Su Xiao and waved up!

Boom.

The house was broken, the bricks and tiles were splashed, the roof that Su Xiao stayed was hit by Eren.

“You’re somewhat not cooperative, then I will help you wake up.”

Su Xiao's sights became dangerous, and his eyes fixed on Eren beast's back neck.
