

## R. Paradise 171

Chapter 171

Su Xiao's firm attitude made Icy Lunar look awkward.

The enemy presented and directly attacked them with no nonsense. Now the reconciliation was broke was also expected.

The shrewd woman whispered to Icy Lunar and said:

“Sister, how can we do? This guy is stronger than the man with a revolver, we can at least delay the man with a revolver for a while, but now...”

Icy Lunar was also aware of the current situation. If it continues, even if Lycoris radiata adventurous group is not killed, there will escape in disorder, they will die quicker when the formation disperses.

And the injury on her shoulder was heavy, her entire left arm was numb.

“Candy, close to me.”

The sorcerer in the crowd hesitated a while and rushed forward with small steps.

Icy Lunar grabbed candy and kissed her under Su Xiao's strange sight.

Candy's face turned red, but she did not escape, her body had green light emerge.

The thing that made people more shocked appeared. After candy and Icy Lunar kissed for a few seconds, the wounds of Icy Lunar's shoulders healed at a speed that was visible by naked eye.

This kind of attracting treatment, perhaps only the soft girl like candy could learn if it was replaced by a man who was touching his feet? The scene was too beautiful to imagine.

The end of the deep kiss, Candy who was blushing returned to the crowd.

Su Xiao put his hand on the wound in the lower abdomen, the blood hole which was as big as the fist had healed more than half.

“Good, continue.”

Su Xiao rushed to the women of Lycoris radiata.

“He comes! Don't disperse the formation.”

Icy Lunar was holding the double rapiers in the forefront, blood rose was aside to help her.

The controlling department and main force of Lycoris radiata were all killed, only Icy Lunar could block in front.

But Lycoris radiata had been used to the close fighter stood behind the main force, and the controlling department stood behind the close fighter after that was sorcerer and remote fighter.

This type of formation was very useful in dealing with the plot creatures, but it seemed to be a bit rigid to against Su Xiao.

The main force could not fight with him, and the controlling department was also useless to him, only Icy Lunar with rich combat experiences could stop Su Xiao for a while.

Because the contractors of the controlling department all died, Su Xiao rushed forward smoothly. After escaping some remote attacks, he directly fought with Icy Lunar.

Icy Lunar immediately held the double rapiers in her hand tightly, she was ready to face Su Xiao.

A blue shadow that was as fast as a thunder rushed from the front, Icy Lunar was bitter in her mind, the speed of the person's sword was too fast.

After learning the lesson, Icy Lunar did not resist Su Xiao's attack. Instead, she used a single sword to greet Su Xiao's attack, another rapier stabbed to Su Xiao's throat.

Su Xiao did not see the rapier that was about to stab him but slammed into Icy Lunar with all force.

Ding.

The powerful attack came, Icy Lunar body stepped back with struggle, the attack of the other hand deviated and stabbed through Su Xiao's ear.

Although Icy Lunar could change three forms, after a preliminary observation, Su Xiao found that her rapier skills were not strong.

Icy Lunar was not strong in strength attribute, the agility was not too high, as long as he was not stabbed by her, there were no problems.

The current state of Icy Lunar was somewhat similar to force blader. The knife skills had no attacking power, but the attached state of the double sword was very abnormal.

After he fought with Icy Lunar, Su Xiao left without nostalgia, a lot of bullets and mana skills hit him, an arcane ball hit on his body.

Su Xiao was hit back and retreated a few steps, the magic surged on his body surface, the magic intention to erode his body, but because of the devil physique, those magic dissipated after continuing for a few seconds.

The pain of being eroded by magic did not stop Su Xiao's footsteps. After avoiding a lot of attacks, Su Xiao rushed forward, but Icy Lunar blocked in front of him.

Su Xiao frowned tightly, if he has been entangled by Icy Lunar, he may be killed.

**“Since you want to die like this, I will help you.”**

Su Xiao breathed calmly and focused his attention on the surface of the dragon flash, he began to perceive the energy of Qing Gang Yin on the surface of the dragon flash.

Perceiving the surge, release, and convergence of that energy.

Su Xiao's eyes suddenly sharpened, dragon flash in his hand suddenly shined a blue light, the blue arc surged heavily.

Bizz, biz.

Dragon flash seemed to turn into a lightning blade, the energy of the surface of the Qing Gang Yin was many times stronger than before.

Su Xiao's mana value dropped like a stream of water, consuming at 30 points per second.

There was no much time. Su Xiao rushed to the front of Icy Lunar in two steps. A strong force was transmitted from the foot into the arm, the sword that was too dazzling to be seen in his hand cut to Icy Lunar.

After Icy Lunar noticed the horrible whistling, the cold sweat instantly wetted the fitting clothes.

I must not be hit by this sword, or I will die, at least I cannot be hit in the current form.

The double rapiers in Icy Lunar's hand immediately deformed and turned into a slender staff, a row of cyan gems were on the staff.

“Wind king's anger.”

Icy Lunar raised the staff with one hand and an extremely strong impact spread out to the surrounding area. A large stone with a diameter of one meter was blown like a bubble.

Several crescent-shaped wind blades shoot outwards from the center of Icy Lunar, a dense of attacks.

Su Xiao's body shape of rushing forward was obviously slowing down, but he did not retreat. He will be killed if he does not kill Icy Lunar. Icy Lunar was a person in the last controlling department of Lycoris radiata.

Dragon flash with arc surged cut incessantly in front, the wind blades disappeared like snow touched the fired iron, they suddenly dispersed.

Brush, brush,

The wind blade flew over Su Xiao's cheek and neck, two deep wounds appeared, but Su Xiao did not care, he had already rushed to the front of Icy Lunar.

“This is impossible.”

Icy Lunar found that Su Xiao was rushing to the front and back of the silver teeth, and how stubborn this guy was.

The long sword turned into a chain, and the wind passes, and the dust passes.

Puchi!

Dragon flash cut over Icy Lunar's chest, Su Xiao passed by Icy Lunar.

Icy Lunar fell into the ground with a bang, a large piece of blood stained the ground beneath her.

“How could real damage be so... strong!”

Icy Lunar's body became completely soft, she almost entered a state of death. In the state of death, did not say to resist, she could not even stand up.

If Icy Lunar is not switched to the 'wind king mode', she will have been killed by one sword.

The indescribable pain was eroding Icy Lunar's nerves. Large energy of Qing Gang Yin ran in Icy Lunar's body. Fortunately, the energy in her body had been exhausted. Otherwise, she will die faster.

Icy Lunar was actually very lucky. Her 'wind king mode' was not a sorcerer skill. Otherwise, the Qing Gang Yin energy that went straight to the brain would burn her brain.

The arc on the dragon flash decreased and gradually returned to normal frequency.

What he had just used was not some kind of skill, it was the knowledge of the portion that energy could cover on weapons he learned with Uchiha Sasuke.

The principle was to increase the output frequency of Qing Gang Yin to the limit, which originally consumed 3 mana values per minute would become 30 points per second.

This did not mean that the real damage of Qing Gang Yin would increase by several times. After the previous tests, it had increased by about six times, causing 96 points of true damage.

However, mobilizing a lot of Qing Gang Yin's energy had a great burden on the body. Su Xiao could hold up to five seconds at most.

A total of 150 mana values were consumed so that Su Xiao felt that the energy in the body had disappeared a lot. Fortunately, he had a lot of mana now.

## Chapter 172

checking the remaining mana, there were more than 200 mana values which were enough to support this battle.

When he guarded the hole in the third zone yesterday, his talent ability 'devil psychic' had reached the upper limit and gained a total of 100 mana values, so his current mana values were 403 points.

What was the concept of 403 points of mana values, if he removes the equipment bonus, he will need 40 points of intelligence attributes to achieve?

Although Su Xiao's mana values were a lot, the shadow of the law also consumed a lot.

This was the most suitable career for him chosen by reincarnation paradise, they did not waste his talent, and his hunter identity, him inheriting the shadow of the law was reasonable.

Suddenly ignoring the weak feeling in the body, Su Xiao rushed to Icy Lunar.

Icy Lunar almost died, Su Xiao must first solve her first.

But Su Xiao just rushed out in two steps, the overwhelming bullets and skills forced him back.

"Head, how are you?"

Blood rose rushed to the front of Icy Lunar with red eyes, Blood rose's hand trembled after touching Icy Lunar's body.

At this time, Icy Lunar's body was slightly trembling, the pain of Qing Gang Yin had not faded away.

Blood rose carried Icy Lunar and quickly ran to the crowd of Lycoris radiata. The women of Lycoris radiata spontaneously protected Icy Lunar inside.

“Candy, help heal her.”

Candy nodded and released several skills for Icy Lunar.

The jade green light wrapped Icy Lunar inside, the light was attached to the wound with a few tens of centimeters long in Icy Lunar’s chest.

What made candy and Blood rose could not imagine happen, light blue energy suddenly appeared in Icy Lunar’s body, the light blue energy was extremely fierce. After it combined with the jade green light, the jade green light disappeared.

Candy did not believe and used two recovery skills again, but she still got the same result.

“Treating skills was... useless.”

Candy stood in the same place, Icy Lunar continues to lose blood, she would die in less than two minutes.

This was not the worst situation. Su Xiao had already rushed forward with his sword in a short distance.

In the scene of the tiger among a flock of sheep appeared again, Su Xiao quickly rushed into the crowd of Lycoris radiata and smashed the members of Lycoris radiata.

Blood was splashed, and the screams were incessant.

Kill a person in ten steps? No, it was killing ten people in one step.

In just a few seconds, Su Xiao smashed a bloody road in the crowd of Lycoris radiata. He was six meters away from Icy Lunar, and Blood rose. Lycoris radiata had already lost fifteen people from the beginning of the battle.

Five meters, a total of 20 people from Lycoris radiata were lost.

Four meters, a total of 27 people from Lycoris radiata were lost.

Three meters, a total of 30 people from Lycoris radiata were lost.

After more than half of people were killed and injured, members of Lycoris radiata escaped in disorder.

“You bastard!”

A female contractor with a ponytail rushed to Su Xiao, Su Xiao immediately gave up other people and met the female contractor with a ponytail, she was the violator in the Lycoris radiata adventurous group.

The female contractor with a ponytail rushed forward, and the black mist surged in her body, this kind of black mist made people feel ominous.

All the contractors touched the black mist, their skins immediately dried up. After discovering this, the misty black woman quickly shrank the smoke.

“Icy Lunar, thank you for accepting and taking care of this kind of heresy like me, thank you, thank you, thank you.”

The black mist women did not look like a human at this time. The whole body was surrounded in black mist, only the human form could be seen vaguely, but the bloody red pupils were particularly conspicuous. It was a pair of demonic cat pupils.

“What is this? What kind of creature?”

Blood rose stared at the black mist woman with stun. She never knew that there was such a contractor in the group.

“Do not go?”

Icy Lunar in the state of death whispered, the nearby blood rose did not hear it clearly, but the black mist woman in the distance heard it.

“No, you can't handle him.”

The black mist woman shook her head, although she could not see the black mist woman's expression, Su Xiao felt that the person was laughing.

“I shouldn't join you. The heresy like me will only bring trouble to others, but I am really happy with the sisters.”

The black mist woman turned her head and looked at the women of the Lycoris radiata. The eyes were full of sentimental attachment.

The black mist woman suddenly looked directly at Su Xiao, her eyes were full of uncovered hatred.

“You guys are killers with full of blood on your hands, what mistakes did I do...”

The black mist women's voice disappeared suddenly when she hadn't finished her words, but it could be seen that the black mist woman's mouth still opened and closed.

“Well? Interesting, it seems that you know something.”

Su Xiao felt that the person may recognize his hunter identity and must be killed as soon as possible. Once the identity of the hunter is exposed, he will be targeted by each of the derivative worlds in the future.

The black mist women mouth opened and closed for a long time, and still, no sound appeared.

“Damn, I even have no qualifications for speaking.”

The black mist woman stamped her feet, a shallow hole appeared on the ground under her feet.

“Nothing you want me to say? You're the 'son' of this reincarnation park!”

The black mist women looked at Su Xiao with banter.

“....”

Su Xiao only looked at the black mist woman in silence. Some secrets were hidden by the reincarnation paradise. He was still too weak now. It was not a good thing to know too much.

With not strong strength and exploring truth all day long, it was waiting for death in Su Xiao's view.

As for the 'son' of reincarnation paradise, it was entirely bullshit, the risk that the hunters bear was dozens of times more than the ordinary contractor, there were some privileges in the reincarnation paradise, but he would be treated completely equal in the derivative world.

The task gave a hint, and he needed to look for it in all the world. After finding the target, he may find that the enemy was very strong. Was this really the treatment of 'son'? it was totally not.

“It's a cold guy, it's normal, ordinary people...”

The words of the black mist woman were blocked again. It could be seen from the appearance of the black mist woman who was gnashing her teeth in anger. She must be yelling.

“Forget it, let's fight for life.”

After finishing her words, the black mist woman rushed to Su Xiao, the speed was not fast, but the footsteps were extremely heavy. The power attribute of these women must be terrible.

Su Xiao gazed at the black mist woman.

The black mist woman rushed to the front of Su Xiao and punched his head, and the fist wrapped in black mist brought a fist wind.

Su Xiao turned his head to avoid this punch, he immediately felt a little numb on his cheek.

Huh?

The strong and violent fist wind blew Su Xiao's black hair, a blood mark appeared on his cheek.

Being beaten by this punch his head would be directly broken!

Su Xiao sidled, a bullet of sniper entered the ground under his feet.

The long sword was raised, the blade crossed the body of the black mist woman, he did not have the feeling to touch the physical item.

“Huh.”

The black mist woman groaned, and the black mist surged over her body.

“You really can hurt me, huh? Damn.”

The black mist woman retreated for a few steps, Su Xiao just wanted to catch up and felt a few bullets hit.

Boom, boom, boom...

Su Xiao escaped a few bullets, leaving some blood on the way.

“I can only try my best.”

The black mist women arms hugged in front, and the black mist spread. The black mist was distorted in the air and quickly approached Su Xiao.

Su Xiao once again retreated, but a small piece of black mist stained his shoulder.

Bizz, biz, biz.

The skin dried up in the moment of touching the black mist, signs of drying up also had a tendency to spread throughout the arm.

Cutting a piece of flesh on his shoulder, the flesh turned into dust in the air.

Su Xiao looked at the injury on the shoulder. Although he lost a piece of flesh, he did not hurt the internal muscles, it was just a flesh wound.

The black mist was surging, the figure of the black mist female reappeared.

It seemed that being a complete black mist was a great burden to the black mist woman, the black mist woman breathed heavily.

“It doesn’t work, damn monster.”

The firm sight flashed over black mist female’s cat pupils.

Chapter 173

The situation on the battlefield became strange, the women of Lycoris radiata gathered, the black mist woman and Su Xiao looked at each other.

“I’m not your opponent.”

The black mist woman clenched her fists tightly, the fist wrapped in the black mist was full of strong strength, but even if the strength was stronger, it was pale in Su Xiao’s speed and sword skills.

It was useless when the power was strong but could not hit the target.

“Wait, you will die sooner or later, I will wait for you in hell if the hell exists.”

The black mist woman laughed, and there were two magical circles in the bloody cat pupils.

“Jo(+hnMa\*cGinnis.”

The black mist woman shouted like a psychic, and the black mist on her body gradually changed and became a magical circle which was similar to her pupils.

Su Xiao subconsciously felt not right. It was not a dangerous feeling. He vaguely felt the power of space was emerging.

This feeling was very similar when reincarnation paradise transmitted him, but the fluctuations were weak.

Su Xiao decisively gave up the black mist woman and rushed to the members of the Lycoris radiata.

When they discovered that Su Xiao came and the women of Lycoris radiata subconsciously retreated for two steps. They were all shocked by Su Xiao. This was human nature.

Su Xiao killed them like cutting vegetables and fruits. He didn’t need a second attack.

The goal of Su Xiao was not them, but Icy Lunar.

Su Xiao rushed to the front of Icy Lunar in a few steps, blood rose stood in front of Icy Lunar.

The gun shadow flashed incessantly, Su Xiao’s simple and unadorned sword smashed on the long gun. Blood rose bit her silver teeth tightly, barely resisting Su Xiao’s attack.

Just like even the long gun danced was fancy, it was also broken by Su Xiao's one sword.

Blood rose was good at strength, her strength was only one point lower than Su Xiao. Her blue quality rifle was also abnormally strong, so the blood rose blocked against Su Xiao.

The attack was blocked, Su Xiao was not surprised. He lifted his foot and pointed it at blood rose's belly.

Boom.

Blood rose spit out a large amount of blood with screams, her kidneys were kicked, and the intestines broke.

When blood rose flew in the air, Su Xiao cut blood rose's throat.

Blood rose subconsciously used her arm to block in front.

Snigger.

One arm and a half of the chin were also cut to fly, blood rose's throat was split by one third.

The throat was cut to one third was not a fatal injury, if her artery and veins are not cut off, she will not die for a short time.

Although blood rose was seriously injured, she extended Icy Lunar's life for two seconds.

Su Xiao looked at Icy Lunar lying on the ground. Icy Lunar did not lose consciousness at this time. She could not be seen from her black and white pupils.

**"Badman, don't hurt my sister."**

A short figure lied on Icy Lunar, the sorcerer called Candy, who was afraid of death but actually came forward.

Candy lied on Icy Lunar and backed to Su Xiao, which was no different from sending her life to die.

**"Dark Elegy."**

In the distance, the body of the black mist women had only the head left, and all other parts were turned into black mist.

Boom!

Su Xiao only felt a huge force coming from the side. He was hit to fly away, and his ears were humming.

Su Xiao hit into a residential building, the walls on the first floor of the house were collapsed, and smoke was rising.

**"See you, Icy Lunar, no, it is goodbye."**

The black mist woman had only her head left at this time, there was a large-scale circle with five meters in diameter in front of her. The magical circle was covered with mysterious black lines.

The black mist was lingering on the magical circle, there were occasionally some phantoms of fierce ghosts appearing on the magical circle.

The black light flashed, the women of Lycoris radiata with shocked appeared in the magical circle.

“This is the reward for saving my life, Icy Lunar.”

The black mist woman dissipated after leaving this sentence, at the same time the magical circle was completely activated.

Boom.

Several black iron pillars appeared in the six corners of the circle.

Crack, crack.

A large crack appeared in the space near the magical circle, Icy Lunar and other people suddenly disappeared in place.

The random large transmission circle, which was the ability that black mist women sacrifice her life to make.

If you want to run away from the ‘derivative world’, the contractors at this stage can never do it. It was not a question of space. Unless you can get some kind of items from the reincarnation paradise, you need to be strong to the limit.

Su Xiao walked out of the dusty building, he patted the dust on his hair and glanced around.

The women of Lycoris radiata had disappeared, but the hunting task had been completed.

[The hunter has cleared the 16770 offenders, and the killing mission has been completed (2/3).]

“They can escape in this situation, I will kill you all sooner or later.”

Su Xiao sat on a pile of ruins, he felt the sense of fatigue.

He took out the last [Golden Fried Rice] in the storage space, Su Xiao was eating slowly.

The enchantment that Lycoris radiata adventurous group built disappeared and the contractors around did not dare to approach.

At this time, those contractors saw Su Xiao with fear, he was too strong, he fought with more than 50 people and still almost destroyed their team.

“What, do you want to fight with me?”

Su Xiao looked at those contractors around, dragon flash was in front of him, the sword was still stained with some blood.

The contractors quickly shook their heads.

“Don’t... don’t misunderstand, we don’t mean that. Don’t come over, if you come I will run.”

Those contractors subconsciously retreated, the horrible scene of Lycoris radiata was still vivid, the bodies on the ground were the lesson of blood.

Adam winked at the members, the members of Fraternity quickly retreated, they did not even look at Su Xiao, if this guy suddenly rushed up, it would be terrible.

Su Xiao's horrifying sword skills that cutting the contractors like cutting the fruits and vegetables made Adam feel numb.

Adam secretly estimated in mind that if the Fraternity fights against Su Xiao, they might not be much better than Lycoris radiata.

Most contractors chose to leave, but a small number of contractors were tentatively close to Su Xiao.

They were not trying to fight with Su Xiao. There were not contractors at all. They were workers who were protected by Lycoris radiata adventurous group.

As a strong, adventurous group, Lycoris radiata recruited some workers every time they entered the derivative world.

Now that Lycoris radiata had been killed away, these workers who had paid the paradise coins had lost their protection. This was a very dangerous situation.

"Mr.contractor, I don't know if you're interested..."

A worker dressed as a businessman tentatively asked a question.

"Not interested, If you want to find someone to protect and go to ask the Fraternity."

Su Xiao ate [golden fried rice], took out a cigarette to ignite, the feeling of smoking cigarettes after killing people is so good. It could dilute the bloody smell on the body.

He was not interested in taking these cumbersome people, although he could earn money, he needed to sign contracts, this would lead him to be controlled in the subsequent actions.

Compared with the income from the workers, Su Xiao was more optimistic about the gains in the derivative world.

Su Xiao found a nearby house without people. After entering the house, he placed some simple traps at the window and the door to use as a warning.

Su Xiao went to the wooden bed in the house with struggle and lied on the wooden bed.

"Oh? They are actually scared away."

Su Xiao smiled when he was lying on a bed, he just ran out of his strong power, if there is no such an offender, he will not be so tired, the person's ability is too strange.

He felt a strong sense of weakness when he contacted with the black mist, and his life values fell like a stream.

After fighting with Lycoris radiata, Su Xiao knew one thing, he was strong against the contractors!

Especially the ability of Qing Gang Yin, it was very useful when fighting against contractors.

However, Su Xiao was not blindly arrogant and believed that he was the strongest in the derivative world, the development direction of Lycoris radiata adventurous group and his was different.

The Lycoris radiata adventurous group was more inclined to deal with plot creatures, and his focus was on dealing with contractors.

This did not mean that Su Xiao could not deal with the plot creature, the female titan was smashed by him, it was only relatively speaking.

With the heart eyes to perceive the environment, Su Xiao's breathe gradually calmed, he now needed a rest.

## Chapter 174

Boom!

A loud noise came, Su Xiao, who slept slightly, suddenly sat up.

He quickly got up and came to the window, the sky was getting darker, several bonfires were raised in the town. The previous loud noise was Military police regiment strengthened the boulder in front of the hole.

Su Xiao sighed and sat back to the bed and began to check his injuries.

His main injury position was his lower abdomen and chest. These two injuries were respectively pierced by bullets of sniper rifle and rapiers. Fortunately, his vitality was 12 points. Otherwise, the injuries would cause him to enter a state of death.

At this point, the two places recovered a lot. The new muscle tissue could be seen in the wound. [C-type battlefield syringe] was no wonder a green grade recovery item, which would restore most of his injuries in less than five hours.

Even the position of flesh that had been cut on the shoulder produced a layer of meat that would be healed in less than two days.

Su Xiao found the oil lamp and ignited it in the dimly lit room, there was no such thing as electricity in the world inside of the wall.

After the oil lamp burned, a strange smell spread in the room, the flame inside the glass cover swayed, the lamp oil was not much.

The room shined yellow, the rough wooden furniture, he could see the bare stone on the wall, and muddy ground under his feet. The ground was very wet, and the life inside of the wall was very difficult.

Su Xiao sat on the bed and took out suture needles, surgical blades, bandages, medical alcohol and other items from the storage space.

First use the medical alcohol to sterilize surgical blades, suture needles, etc.

Su Xiao pressed on the shirtless upper body by fingers and quickly felt the foreign materials inside the muscle. It was a bullet that had been hit into his body.

Because the wound had recovered, these bullets were left in the body.

Su Xiao took a deep breath, injuring in the battle and taking out the bullets now were two concepts. In the battle, he was prepared to get injured, and at most he will pass after feeling pain and numb.

It was like two people fight. It didn't feel too painful when you fight, but you would cry when you deal with the wound.

People would secrete adrenaline when they fought, adrenaline could make people feel excited and temporarily relieve pain.

Cutting a wound with a surgical blade and the tweezers explored inside the wound.

Su Xiao's sights were black, this feeling was so surprising.

Boom?

A bullet stained with blood was placed on the wooden table, he had six bullets in his body.

Although it sounded cool to leave a few bullets in the body to memorize, it was a stupid behavior. When the bullet was wrapped in muscle, it would cause the muscle to break more easily. The battle was part of Su Xiao's daily life, so he needed to remove the bullets as soon as possible.

Half an hour later, Su Xiao sweated all over his face and leaned on the bed. The bullets were all removed, the wound was stitched up and bandaged, his shirtless upper body was almost full of bandages.

“The next time I will kill those gunners.”

After relieving his breath, Su Xiao opened the task list from the mark. The reincarnation paradise had already issued the 'return qualification' task. He never had time to check.

[Main mission: the source of the world.]

Difficulty level: Lv.5

Mission Description: Get more than 15% of the world's sources.

Mission information: All means can be used to obtain the source of the world.

Mission period: 16 natural days.

Mission Reward: Return Qualification

Mission punishment: forcibly executed.

.....

The returned task of the titan world appeared very early, much earlier than the ghouls' world.

Su Xiao had a feeling that the previous 'attack and defense mission' was reincarnation paradise's way to let them adapt to this task. In the 'attack and defense mission', the reincarnation paradise had a tendency to force contractors to cooperate.

He could not get the source of the world without completing the 'attack and defense mission'.

This large-scale task Su Xiao also experienced in the first time, with hundreds of contractors and heavy rewards.

.....

The world outside the wall, in a desolate place.

The women of Lycoris radiata cuddled together, the joy atmosphere disappeared, everyone's face was full of bitterness.

There was a tent near the women. Some people came in and out of the tent from time to time. The contractors who came in and out wore medical gloves on their hands, and the gloves were stained with blood.

“Candy, how is the head?”

The sight of the shrewd women was full of fatigue, her heart was full of frustration, their team of more than 50 members was almost destroyed by a person, this was an unbelievable thing.

“When the injuries of the head stabilized. Although she's almost dead, the head has only one fatal wound. Rose's injury was harder to deal with.”

The shrewd woman got up and walked into the tent. When she entered the tent, she smelled a strong bloody smell.

Icy Lunar was pale and lying on a blanket. She seemed to sleep deeply, she sank into unconsciousness deeply.

“Morphine, inject me another morphine.”

A hoarse voice came, it was a blood rose, seeing blood rose now, the shrewd woman felt her throat was dry, her bladder tightened.

Blood rose pressed on the throat by one hand, the injury at the throat had somewhat recovered, but she was still slowly losing blood.

Because one arm was cut off and the chin was smashed, blood rose had been wrapped into a rice dumpling.

Just one sword, the injury of it was so terrible, the shrewd woman prayed not to meet the monster again.

“Where's the recovering drugs, we bought 20,000 paradise coins worth of recovering medicines before we entered the world.”

The shrewd woman's question made the bee's head low down, the bee was not injured because she was a sniper.

Holding a sniper rifle in her arms, the bee sighed.

“The drugs are used by the head, this barely kept the head's life. The energy in the head's body is so fierce that it excludes foreign drugs.”

“What, and rose sister?”

“This is what rose sister meant. We want to use for her, but she refuses?”

The bee looked at the blood rose, and her sights were full of admiration.

“Rose sister, my mana values have recovered, I will help you recover for your injury now.”

Candy’s eyes were full of tears.

“Help... head... recover first, I... temporarily... will not die.”

Although the blood rose to pain to almost had consciousness, her mind was still firm.

“Nothing, the head’s injuries are stable.”

When the candy was talking, her hand emerged a jade green light, and this jade green glow was full of vitality.

The eyes of the candy also turned into jade green, which was her strongest recovery skill.

The blood rose’s injuries recovered at a rate that was visible by the naked eye, the white chin’s chin grew again, but the broken arm did not grow.

“Huh? I think that I have to lose a kidney all the time.”

Blood rose’s words let the candy speechless, wasn’t the injury of throat more urgent?

“How is the head’s injury?”

“The body’s injury has recovered, but she is not awake.”

“So?”

Blood rose to put her hand on Icy Lunar’s pale cheeks and sighed.

“I’ll kill the bastard sooner or later, absolutely!”

The bee’s cold sound came.

“Is it? It is very difficult.”

The sound of the blood rose was very calm, which made the candy and the shrewd girl quite surprised.

“Rose sister, don’t you want to kill the man with the sword?”

The candy asked with fear.

“Of course! He killed so many sisters, but he is only an enemy. Do you remember what the results did the female contractor who was defeated have?”

Blood rose’s words made candy face pale, the female contractor defeated would be killed after being humiliated, especially they were as beautiful as the women of *Lycoris radiata*.

“In my opinion, the guy is just a simple enemy. Although his strength is terrible, I hate him very much, but I am more willing to fight with this enemy than other male contractors. He will only kill us and will not humiliate us.

Also, the guy is called Byakuya.”

Although blood rose was a woman, but she was a warrior, a persist warrior, can die, could never bear the humiliation.

“I hope that I won’t meet the man with a sword in the future. The sight he looks at me reminds me of the experience of encountering a lion in the wild before entering the reincarnation paradise.”

If Candy has the list of fear in her mind, Su Xiao will definitely be in the first place, below was the man with a revolver.

Although Lycoris radiata escaped, they were still in the Titan world, there was still the possibility to encounter Su Xiao.

If they encounter him again, there is the only possibility of the group was destroyed, making the group took a long time, the destroying group was only a moment.

.....

In the house inside the wall, Su Xiao was holding a blue treasure chest in his hand. This treasure chest would surely open out a blue state.

Su Xiao took a deep breath, he was very much looking forward to this treasure chest, the value of blue equipment was very high, so far he had only one piece of blue equipment, that was, the dragon flash.

Although it could open a piece of blue equipment, the scores may not be high. Between the 31 to 70 scores, if the score is 31, it is the chief. If the score is 70, he will earn a lot.

“It must be 70, no, 60 is also OK, 50 I also can accept.”

The treasure chest opened slowly, a blue light appeared.

Chapter 175

Blue light flashed, and a black metal bracer appeared in So Xiao’s hand.

This metal bracer was worn in the left arm, the overall structure was precise, it could protect the fingers, palms and most of the arms inside.

There was an opened mechanism at the bracer of the arm, Su Xiao tried to press it.

Pop?.

A few strands of steam ejected from inside of the bracer, the overall bracer was open, Su Xiao put his left arm into the bracer, and the bracer closed immediately.

Poof, buzz?

Inside the bracer seemed to have a small furnace, several red stripes appeared on the surface of the bracer.

Su Xiao tried to move his fingers, he did not feel difficult to move, the entire metal of the bracer was very thin, the overall weight was no more than a kilo.

From the outside to see this black metal bracer was very beautiful, Su Xiao satisfied with the nod, the score of such an equipment score should not be low.

Origin: Reincarnation paradise

Equipment effect: honor, the recovery rate of Hp increased by 30%.

Price: 4900 paradise coins

.....

Su Xiao looked very calm, although the score of this blue equipment was only 31, its value was not low.

It could be seen from the introduction that this was one of the components of the set. If eight pieces of the equipment are gathered, the attributes will change dramatically.

Su Xiao knew his own luck. It was impossible for him to get the other pieces. But if someone gets more than five pieces, he could definitely make the other person protect his life, and give out a super high price.

Especially for the occupation of the knight, these eight pieces of the equipment could become an exclusive set.

Trying to use the left arm to block. This was good to defend.

He could not use a shield that kind of heavy things in his fighting style. This bracer looked strong, and it could block attacks in crucial times.

And this bracer looked very handsome.

“Hey, handsome is useless.”

Su Xiao hit the wooden table by his left arm, the wooden table suddenly broke.

Trying to hold the sword with his left hand, there was no feeling of discomfort, this was the only comfort, but Su Xiao has generally held the sword with his right hand, it was not bad to wear this thing on his left arm.

“Huh.”

Su Xiao took a deep breath, Su Xiao decided to open the higher value treasure chest after the ‘Lucky Flame’ to cooldown time ended.

The cooldown time of ‘Lucky Flame’ was very long. Ten natural days had yet to pass. When staying in the real world, the storage spaces would be locked, and the cooldown time of ‘Lucky Flame’ would be locked.

Su Xiao was sitting on the wooden bed, the sense of fatigue had been reduced a lot.

Getting out of the house, the sky outside was dark.

Su Xiao hesitated for a while, now there was no entry point, he would return to the Survey Corps first.

The three fishes he was fishing were not hooked, he needed to be exposed to the bright side so that the three fishes could see the ‘fish bait’.

After asking the civilians who passed by, Su Xiao came to a stone building in the town.

The stone building had four floors, the outer walls were covered with green moss, and one side of the wall was covered with a large number of vines.

The stone building was a bit old, and the windows were foggy.

This old stone building was the headquarters of the Survey Corps, which was somewhat disgusting compared to the headquarters of the Military police regiment on the other side of the town.

“It seems that the life of Survey Corps in the wall is not very good, huh? It’s expected.”

The will of the king of the first generation was to let the civilians live inside of the wall all the time, but human beings always wanted the freedom, even if they have tampered the memories, they still wanted to explore the world outside the wall.

The king of the first generation also knew that civilians could not be imprisoned, and the Survey Corps was born.

The establishment of the ‘Survey Corps’ by the king of the first generation was not to investigate outside of the wall. This was just a hope for the civilians. If there is hope, they will not be desperate. If there is hope, they will not resist.

Look, we have sent people to investigate outside of the wall, but it was too dangerous outside of the wall, you should live safely in the wall.

The true meaning of the Survey Corps was not to explore the world, but to give civilians a mental comfort.

The small island world inside of the wall was vast, the Survey Corps had not yet reached the ocean.

Perhaps the moment the Survey Corps knew the truth, it was the moment when the royal family killed them.

For this reason, the position of the Survey Corps in the wall was not high, and some right of the high level that Survey Corps was not able to contact.

Su Xiao was stopped when he just entered the headquarters of the Survey Corps. He did not wear the uniform of the Survey Corps.

“Civilians can’t enter... It seems you look familiar.”

The dim light in the headquarters made the guard unable to see Su Xiao’s appearance.

“The member of the Survey Corps Byakuya.”

The guard suddenly realized.

“I said his familiar, it’s Byakuya, the head was still looking for you previously.”

The guard just took Su Xiao and went inside of the headquarters.

“Quick, the temporary meeting has already begun.”

Su Xiao was puzzled, Erwin was looking for him? And what does the temporary meeting mean?

After going to the third floor of the headquarters, Su Xiao knew what did the temporary meeting mean. It turned out to be a dinner.

Around a square wooden dining table, Erwin sat in the first place, Levi, Hange Zoe and others were there, and Eren was sleeping in his seat.

“Find a seat and sit down.”

Erwin gestured to Su Xiao to have dinner together.

Su Xiao did not speak after sitting down. A plate of food like a potato was put in front of him. The soup was deep yellow, and a basket of bread was placed in the middle of the table.

Picking up the spoon and eating the potato, Su Xiao frowned.

The taste was very light, except for a little salt, no other seasonings, and this was not a potato, it was the root of a plant, the taste was rough, just like eating a sugar cane.

Su Xiao didn’t want to eat anymore. He was very polite that he didn’t spit it out. As a Chinese, he passed on the food culture for a thousand years. This thing made him ‘have no luck to enjoy.’

Looking at Levi and others eating with appetites, Su Xiao couldn’t help but think that after being trapped inside of the wall, they almost became the royal family’s livestock.

The civilians inside the wall worked hard every day, but some civilians could not even satisfy their basic demands.

Looking at the royal family, it could be described as a sumptuous food and luxurious clothing, life was almost no worse than the real aristocracy, although there was no law of the virgin right, but if the royal family wants any woman, the woman could not resist, the Military police regiment exists for this purpose.

Did the king of the first generation move to this place for the sake of the people's peaceful life and establish a city wall?

Su Xiao thought it was not at all. The king of the first generation should feel that the Marley people would win sooner or later. It was better to bring some people to flee during the period of having the power and let those people serve him and his descendants.

It was obvious that the king of the first generation succeeded, although the civilians inside of the wall were like pigs and dogs, the royal family was still the royal family.

As for the slogan of avoiding wars, Su Xiao never believed that the outer world had developed airships and cannons. If it was not for the king of the first generation's power of ancient titan, the Marley had already killed him.

This made Su Xiao think that if he reveals that the royal family has lost the power of the ancient titan, what will happen? The scenes must be wonderful.

“Cough, Byakuya, what is going on with the female titan you fought during the day?”

Erwin's words interrupted Su Xiao's thoughts, and everyone looked at Su Xiao.

If these people know Su Xiao's thoughts at this time, they will definitely fight with Su Xiao.

Chapter 176

“The female titan is similar to the existence of ‘Eren Yeager’.”

Su Xiao's words surprised several people present.

Levi had fought with the armored titan, these things were not necessary to be hidden.

“Is it another wise titan? Counting Eren, four appeared.”

Levi wiped his mouth after eating, he frowned when he saw the unmoving food in front of Su Xiao.

“Don't waste food.”

“I have no appetite.”

“If you have no appetite, you still need to finish it.”

“Oh?”

Levi looked at Su Xiao with anger, and he felt that the person was slightly hostile.

“Oh, these two people have started again.”

Hange Zoe touched her forehead with one hand, she looked like having a headache.

“How, after a few days of staying in prison, you become a picky eater?”

Although Levi sneered at him in words, Su Xiao did not feel too strong hostility, which made him feel very strange. The situation only happened when his predecessor may have friendships with Levi but have fought after.

He was not weak, so the predecessor which was arranged for him by the reincarnation paradise would not be weak.

Hostile but not hateful, is he his competitor?

Su Xiao shook his head, it was impossible for Levi's characters.

"Your mouth is as sharp as your height. I heard that you become taller recently."

Su Xiao said calmly, he saw blue veins stood out on Levi's forehead.

"Stop it, if you want to fight, you can fight in an open space, do not destroy the facilities at the headquarters."

Erwin spoke, Levi no longer spoke, Hange Zoe brought the food that was in front of Su Xiao to herself and ate the food in a few bites.

Su Xiao secretly admired, she could eat such a terrible thing with appetites.

"Nonsense will stop here, the next step is the countermeasures of the future. I suspect that the three wise titans are members of the training corps."

Erwin spoke made people shocked, Su Xiao admired his IQ.

"Head, do you have any evidence for this?"

"The time when the wall was attacked."

Erwin took out a few yellow papers.

"This is the first time the wall was attacked. After that, the 104th recruiting of the training corps was completed, but it was somewhat unreasonable because it passed two years, the wall was broken in the second time, which was the day of the 104th's graduation."

Everyone's eyes were shining, the timing of the second time was too coincidental, the training corps was just close to the wall.

Su Xiao had some headaches. The 'three wise titans' were too silly, the time they chose to attack the wall was too stupid.

"My... my classmates? It's impossible."

Eren couldn't believe, he memorized those faces in his mind.

"Do you have any clues?"

Erwin handed the documents to Eren, although Eren could become a Titan, Eren was absolutely credible.

"This... probably... no, they are very good people, although some of them are more isolated."

"Isolated?"

Levi captured the word 'isolated' sensitively.

"I...."

Crack.

The legs of Hange Zoe's chair were suddenly broken, Hange Zoe's body leaned back and kicked the table in front of her, the table was sudden in a mess.

The table slammed over, and Eren in front screamed, his body subconsciously leaned back, and Eren's chair fell back.

Boom.

Eren's back head hit on the ground, he hugged his head and screamed, a trace of blood spilled along with his fingers.

The two figures rushed to Eren at the same time, Su Xiao and Levi.

Su Xiao locked Eren's throat like a guillotine, and Levi pressed Eren's body.

"Eren Yeager, calm down."

Erwin yelled, if Eren becomes a titan now, it will be bad.

"Forgive...forgive me."

Eren rolled his eyes because of being choked by Su Xiao, his hands clapped to the ground to surrender.

"Do it lighter."

Levi said in a hurry, Su Xiao properly released his arm, but Eren had already rolled his eyes.

"Huh, it seems that your speed has not slowed down after you stayed in prison for a few days."

Levi released Eren and Su Xiao also let him go.

Eren's body fell down softly as he fainted due Su Xiao's attack.

"Sorry, sorry, I'm just a little excited."

Hange Zoe looked guilty, she vaguely felt that she had just reached a certain moment.

Su Xiao took a sigh of relief. If Annie was known, the other two were not far from being found out.

Erwin rushed to Eren and checked Eren's breath.

They had to subdue Eren in the situation just happened. Once Eren became a titan here, everyone in the room would die or be disabled.

"The 'seat' of the headquarters seems to have to be replaced, arranging Eren Yeager to rest, Levi is responsible for monitoring him."

Couldn't see Erwin's emotions now, he glanced at the people around and left.

“It’s awful, we make mistakes.”

Hange Zoe scratched her head and kicked the broken leg of the chair. The chair took out far away, and there was another trace of damage.

“I’m going to rest, I’m so sleepy.”

Su Xiao left and yawned and walked down to the dormitory.

The dormitory of the Survey Corps was a common sleep quarter. Su Xiao found a clean bed and lay down, his hands were scratching his head, and crossed his legs.

At this time, only Su Xiao was in the dormitory, other members of Survey Corps were dealing with the matters after the war.

Clop, clop, clop....

The footsteps approached, Su Xiao turned his head and looked. It was Hange Zoe.

“This is a male dormitory. Who are you preparing to sneak attack?”

“Ha ha ha, of course not.”

Hange Zoe laughed directly and sat on the bed next to Su Xiao.

“I just came to ask the information of the female titan.”

Su Xiao and Han Ji Zoe talked about it. Most parts of the questions were about the female titan.

“Byakuya, where did you go after the war, you had such a heavy injury?”

“To observe the traces of fighting with the female titan. As for the injury, it was the injuries that fighting with the female titan previously.”

Hange Zoe nodded.

“Well, where did you get the bracer, it’s pretty handsome.”

Su Xiao’s eyes slightly closed.

“Are you asking me?”

“Don’t mind it, don’t mind it, it’s the concern from the partners, I have always crushed on you, ha ha ha.”

Hange Zoe waved and laughed.

“I picked up in an abandoned house.”

“Is it?”

Hanji Zoe lowered her head, and there was too much hidden in her eyes.

“Hey? Byakuya, we have fought together and been through a lot of things.”

“What? You came in the middle of the night only to say this?”

“Ha ha ha, nothing, I’m just a little emotional.”

Hange Zoe got up after she hesitated for a while, she left the male dormitory.

Su Xiao looked at the back of Hange Zoe, his brain started to run fast.

He was suspected, he contacted with the Titans a lot, and the accident just let the Survey Corps begin to doubt him.

At least Erwin and Hange Zoe have begun to suspect, he did not clear whether Levi suspected him or not for the time being.

Even if Su Xiao was suspected, he would not regret it, if he did not do so, Eren would seriously destroy his plan.

Whether he was suspected, Su Xiao did not care, he did not even care about the identity of Survey Corps’ member.

The Survey Corps was too poor, there was no future for joining the Survey Corps.

As for the freedom that Survey Corps presented, it had nothing to do with Su Xiao. He was not coming to save the civilians inside the wall.

“Come to find me, you three fools, you can’t hide anymore.”

Su Xiao blamed it on Annie, Reiner Braun, and Bertolt Hoover who were the three stupidest spies that Su Xiao had seen.

Perceiving the alertness around Su Xiao began to take a nap, he needed to take time to rest, he may not have a rest in the next few days.

Chapter 177

Su Xiao left the Survey Corps early the next morning, he said he needed to deal with things after the war.

Although he was now suspected, Su Xiao’s behaviors had always been loyal to the Survey Corps before and had great contributions to block the hole.

Walking fast on the street, and he could see the bodies wrapped in white cloth on the street. The hot weather would make these bodies rotten quicker. If they don’t deal with it as soon as possible, the plague will break out within a week.

Su Xiao’s goal was to the gathering place of the training corps. After the discussion last night, the Survey Corps decided to gather the members of the training corps in the period of 104th.

In a playground, a large number of members of the training corps were gathered together. Mikasa, Armin, and others were inside.

Su Xiao glanced at the people on the playground, he did not see Annie, Reiner Braun, and Bertolt Hoover.

It seemed that his previous words worked, the three hid. This was good news.

One thing Su Xiao could confirm, the three would definitely return to the inside of the wall, they had not completed the mission.

If they hide it for a short period, they won't be suspicious. The dead body after the war had not been processed yet, the three would be temporarily counted as the casualties.

Su Xiao left the playground and began to wander on the streets in the town. He also deliberately inserted the dragon flash on his waist, making his identity more recognizable.

After wandering for three hours, Su Xiao's pupils suddenly sharpened, someone was following him.

After seeing the general appearance of the stalker, Su Xiao's footsteps began to speed up.

He began to intentionally walk in the direction of fewer people until he walked into an alley.

"Go out, if you're a warrior, don't be sneaky."

Su Xiao shouted with a low voice, there was no movement around.

"At this time, I think of something. If I didn't rescue you from the siege yesterday, you are now a wanted criminal inside of the wall. It is a dream to return to the 'hometown'."

Su Xiao's words finally touched the stalker's nerves, and two figures with gray hoods blocked at the alley exit.

"Who are you."

"The companion to support, the experimental warrior outside the formation."

"Experimental warrior?"

The strong one of the figures spoke.

"You think that ordinary humans can be as strong as I am. I don't heavily attack Annie. She can't continue to spy inside the wall. She was directly exposed to me. If it changes to other people, all three of you will die."

Reiner Braun took off his hood, he was a little excited.

"Are you really a companion, I have been too long..."

"Don't come over, are you still a Marley? There're so many years passed, are you still the young deputy warrior?"

"Absolutely!"

Reiner Braun made a military salute different from the inside of the wall, his body stood straightly, and his sights were firm.

Reiner Braun's body was muscular, a short yellow hair, the whole person, looked mature and stable, his father was from Marley, his mother was from Eldian, his true identity was the armored titan.

"Reiner Braun, can we really believe in him?"

'Bertolt Hoover' was next to Reiner Braun spoke, Bertolt Hoover was thinner than Reiner Braun, and he seemed to be listless because his sleeping position was strange, he was often ridiculed in the training corps.

His true identity was the colossal titan.

Bertolt Hoover was a more unqualified spy. He had no opinion on his work, he was often indecisive and forgetting his mission happened occasionally.

"Things happen till this, he knows our identity from the beginning also understands Marley, and even knows that I am a position of the deputy warrior, he is temporarily credible."

Reiner Braun walked to the front of Su Xiao and carefully looked at Su Xiao's face.

"What is your warrior number?"

"TK·317."

Su Xiao made a number according to the information obtained from the original plot, TK was the Marley language.

"Your number is on the front?"

"There are very few experimental warriors. There're about 7,000 people in the same period of me, and only 3 people survived."

Reiner Braun had left the 'Marley Empire' for a too long time, he did not understand Su Xiao's words mostly.

"Is the technology of the empire already reached this level? It is really gratifying."

Su Xiao patted on Reiner Braun's shoulder passionately.

"How long is the duration of the titan's power?"

Reiner Braun looked serious, but the trust to Su Xiao rose again.

"It's only a few years away now, the task is still far away to be finished, but why did you help the people inside of the wall to block the hole?"

Reiner Braun problem was very difficult to respond, if Su Xiao's answer was not good, all the efforts before would be in vain.

"Because I found out that the power of the ancient titan is not in the body of the royal family inside of the wall."

Su Xiao's words made 'Reiner Braun and 'Bertolt Hoover' stunned.

"How is it possible, that..."

"The power of the ancient titan is on Eren's body. I can confirm this, I feel it."

Reiner Braun and Bertolt Hoover looked at each other with joy in their eyes.

If they get the power of the ancient titan, they don't need to break the wall anymore, and they could directly grab the power of the ancient titan, and then the 'Marley Empire' would attack soon.

"How can you perceive it?"

"The tactical value that I was created was to perceive the power of the titan. There are two kinds of titan power in Eren's body, namely, 'the power of the attack on Titan' and 'the power of the ancient titan'.

How about Jiku, I had not been able to contact him."

Su Xiao spoke out hot gossip again and talked another companion of the three men of Reiner, the beast titan Jiku.

This time, Reiner Braun believed in Su Xiao more.

"Jiku is outside the wall, we haven't contacted him for a long time."

"Is it, now we need to consider the plan afterward carefully, do not think about breaking the city wall, the efficiency is too slow, I am more optimistic about capturing Eren away than breaking the wall.

By the way, if the timing is right, we can almost capture 'Christa Lenz', the head ordered it before."  
"

This time, not only Reiner Braun but Bertolt Hoover also came forward kindly, as Su Xiao knew all about their plans.

"How is your hometown now, did it change a lot?"

"A lot, but the war with the Middle East Alliance is continuing, and resources are getting scarcer."

The Middle East Alliance was a powerful force in Reiner Braun's hometown and was now having war with the Marley Empire.

"Sigh?" Reiner Braun sighed and continued to talk:

"We have to speed up the action. The resources here are very abundant. The coal mines and iron mines outside of the wall have not been mined."

Su Xiao used the known information to chat with Reiner Braun and Bertolt Hoover. Su Xiao took the initiative to speak and tried to avoid mentioning the situation he did not know.

The more Su Xiao talked, Reiner Braun and Bertolt Hoover were friendlier to Su Xiao, the doubts in their minds had already vanished.

"We cannot wait much, is Annie outside of the wall?"

"Yes, Annie has exposed her identity in front of you, so she temporarily hides outside of the wall."

“Very good, now we are missing an opportunity, Reiner, you find a way to contact Annie, you two don’t keep hiding, pretend like you’re injured.”

Reiner Braun and Bertolt Hoover listened carefully.

“If you do fast, the plan will succeed easily. Let’s go to contact Annie now when the time comes?”

“As soon as possible, this afternoon, I can feel that Eren is gradually awakening the power of the ancient titan.”

Both of them nodded after Su Xiao confirmed the plan.

“Reiner, I know that you’re good with Eren, don’t be emotional.”

“Ok... okay.”

After finishing his words, ‘Reiner Braun’ and ‘Bertolt Hoover’ left the alley, the two revealed pleasant expressions on their faces.

Looking at the back of the two men, Su Xiao gradually smiled.

“The world outside of the wall? I’m really looking forward to it.”

Su Xiao also left the alley, he had to prepare for some things.

Chapter 178

The blazing sun on the sky, rows of members of the training corps stood under the strong sunlight.

“Now start to roll call.”

Erwin held a list in his hand and started to roll call it.

The members of the training corps were very puzzled, they were a little dizzy under the sunlight.

The ‘Reiner Braun’ and ‘Bertolt Hoover’ standing in the row were inevitably nervous, they did not look at Su Xiao.

“Eren Yeager.”

“I’m here.”

“Mikasa Ackerman.”

“I’m here.”

five minutes later.

“Annie Leonhart.”

“...”

“Is she dead?”

“The body was not found for a while.”

Erwin’s eyes slightly closed and he continued to roll call.

Boom!

A loud noise suddenly came in the direction of the city wall, everyone was shocked, and their sights were attracted by the sound.

“Not good, titans are attacking the huge stones which blocked the hole, gather, quickly!”

Erwin shouted, and the members of the Survey Corps gathered and rushed to the wall.

Erwin took Eren when he left, Eren couldn't leave Erwin's sight.

Su Xiao scowled. This could not hinder his plan. Erwin was very smart, but the intelligence gap between them was too great. Su Xiao won this game.

The Survey Corps quickly rushed to the vicinity of the huge stone. When they arrived near the huge stone, they found that the boulder was only slightly moved.

“Up on the city wall.”

Erwin took people to stay on the wall.

Su Xiao was injured because his body was full of bandages, so he did not have to move as the Survey Corps.

After discovering that Erwin and others boarded on the city wall, they winked at Reiner Braun and Bertolt Hoover. The two followed Su Xiao to the wall.

Mikasa and Armin also rushed behind, Eren was there, so they will not let him alone.

The Survey Corps now only unilaterally suspected and was not qualified to control the actions of the training corps.

The Survey Corps at most in the name of the investigation to patrol and did not have the right to arrest members of the training corps.

Everyone boarded the wall, and the Survey Corps had already patrolled along the edge of the wall.

There was no titan appeared outside of the wall, the titan who attacked the boulder seemed to disappear suddenly.

Su Xiao followed in the team of Survey Corps. The heads of the team included Erwin, Hange Zoe, and others. Levi was surprisingly not there, which made Su Xiao think it was unbelievable.

After patrolling around, the Survey Corps and training Corps gathered.

Mikasa and Armin came near Eren.

“If you don't discover anything, you can't treat it lightly. Everyone patrols freely.”

After Erwin commanded, everyone gradually dispersed.

“What the hell is going on, titans are attacking before.”

Armin scratched his chin and walked forward slowly.

“Who knows?”

Mikasa casually answered she seemed to be somewhat spaced out.

Boom? A sound of a clap of thunder.

The sunny day suddenly turned into an overcast day, the sky was black, and the thunders were rumbling incessantly.

Su Xiao had been observing Eren’s movements.

“Eren.”

Reiner Braun suddenly spoke, Su Xiao frowned tightly, this guy’s mental state was a bit weird, but Su Xiao could not speak and talk to Lena Reiner now.

After Armin, Mikasa and others walked for a distance, Reiner Braun spoke.

“Can I talk to you? I have something I want to tell you.”

Eren turned to look at Reiner Braun, he was confused, but it could be seen some fears from the depth of his pupils, it seemed that he was afraid what Reiner Braun would say.

“A few years ago we started to destroy the walls and attacked humans. I am an armored titan, this guy is a colossal titan.”

Reiner pointed to Bertolt Hoover, these words made Bertolt Hoover’s face turned white.

“What are you talking about?”

Eren looked at Reiner Braun with shock.

“What are you talking about, Reiner, have you forgotten our previous plans?”

Bertolt Hoover spoke with a tremble and looked at Su Xiao with panic.

At this time, Su Xiao looked down. He felt very weird. The plan was going too smoothly. The actions that people left were affected, especially Mikasa.

“Our goal is to eliminate humans.”

Reiner Braun broke free from Bertolt Hoover’s arms.

“But there is no need now, Eren, as long as you go with us, we don’t have to destroy the city walls. Do you understand?”

Reiner Braun looked forward to looking at Eren. Eren had a good relationship with him. He usually played the role of a brother, and in fact, Reiner Braun had already admitted that Eren was his brother in his mind.

In Reiner Braun’s opinion, Eren would go with him, he firmly believed!

Reiner Braun’s schizophrenia became more serious.

“I don’t understand it at all.”

Eren’s pupil was shaking, he didn’t want to accept the facts.

“Just go with us, although it is very sudden, let’s go now.”

“Now? Where are we going?”

Reiner Braun pondered for a while.

“I can’t say it now, but there is our hometown, how about it, Eren? This deal is good, as long as you go with us, we will not destroy the city walls, and no one will die.”

Eren didn’t answer, just looking up at the sky, he remembered the temporary meeting organized by the head of the Survey Corps last night.

.....

Moving the time to nine hours ago.

Inside the underground base of Survey Corps’ headquarter.

Numbers of torches were placed on the wall to illuminate the base after the animal fat was burned created a smell of scorching suffused the base.

Eren woke up slowly, the two faces that he saw immediately made him very surprised.

“Mikasa, Armin.”

The three reunited again, Eren could not help but be happy.

“Eren, continue your previous topic.”

Erwin, Levi, Hange Zoe, and others were aside several members of the Survey Corps nearby.

“Head, don’t you tell Byakuya?”

Hange Zoe asked tentatively.

“No, the Byakuya is now ‘very tired,’ let him ‘rest’.”

Erwin looked at Eren.

Eren was asked a lot of questions with stun, Erwin mainly asked Eren about the ‘reclusive character’ he mentioned before.

Annie was suspected, but the Survey Corps only suspected, they did not have evidence.

“Head, I got the documents. This is the human relations of the 104th training corps.”

Erwin looked at the documents and suddenly stopped when he turned to a page, which wrote that Annie Leonhart, Reiner Braun, and Bertolt Hoover came from the same place.

“Three people? Three different ‘wise titans’, Armin, are these three people familiar with each other during training?”

Erwin’s question made Armin silent.

“Reiner Braun and Bertolt Hoover are generally inseparable, Annie... I have never seen her talk to these two people.”

“They never talked?”

“Well, at least I have never seen Annie talk to these two people.”

Erwin was thinking silently.

“So? I want to ask, you just mentioned Mr. Byakuya, he...”

Eren tentatively asked.

“I don’t know now, but I have a feeling that he is pushing everything from beginning to end.

FNomatter it is arresting you, interrogating, or blocking the hole of the city wall, he had never been so active before.

The current situation is too complicated. We are not trying to suspect Byakuya. So far his actions are loyal to humans. This is only to be prudent.”

In fact, Erwin never believed Su Xiao, Su Xiao also noticed this, so he never thought about staying in the Survey Corps.

“Eren, you can become a titan, so keep your eyes on the three people in the future.”

The meeting ended here, it had to say that Erwin’s ability was terrible.

.....

Time went back on track, on the wall.

Reiner Braun patted on Eren’s shoulder. This was their normal movement, but Eren’s body trembled at this time.

“Reiner, you must be too tired, how can you start talking nonsense, right? Bertolt Hoover.”

Bertolt Hoover was very nervous.

“Yes, Reiner is really tired, he is talking nonsense.”

Bertolt Hoover, who was not determined in his mind, sweating all over his face.

Eren showed an unwilling smile.

“Right, Reiner, what you just said was too outrageous, as if I should say ‘Okay, let’s go.’”

Eren finished his words, and he found that Reiner Braun was staring at him with stun.

“Yeah? It turned out to be like this. What am I thinking about? We should just follow the plan, right? Did I become crazy?”

Rainer Brown lowered his head, and his lips kept shaking.

The strong wind whistled, and the flagpole on the wall was blown off.

Boom, clatter, clatter.

The flagpole fell along the city wall to the ground.

“It just that I stayed here for too long. I have lived with a group of idiots for three years. At that time, we were only children, we didn’t know anything, maybe it’s because we had a sense of mission or orders.

I don’t know what the right choice is, but I... “

Reiner Braun pulled off the bandage on his body, the steams gradually appeared in the wound, and the wound recovered quickly.

“As a soldier, I want to take this responsibility until I die.”

Reiner Braun’s voice was low, he was no longer confused, the sparkles were floating on his body, Reiner Braun’s injuries completely recovered.

“Reiner Braun! Do you want to wear it? Just here! Now!”

Bertolt Hoover screamed for a few times, a long-term depression broke out now.

“Ah, let’s fight for a result here. Although the plan is ruined, this is our ultimate goal.”

Reiner Braun walked quickly to Eren, Eren had been scared to be stunned.

“Hugh!”

A beauty with black hairs appeared behind Eren, the pupils flashed coldly. It was Mikasa.

Mikasa held the sharp sword and rushed to Reiner Braun and Bertolt Hoover.

Snigger, snigger

After two attacks, Reiner Braun and Bertolt Hoover were seriously injured. One of Reiner Braun’s arms was cut off, Bertolt Hoover was even worse. Half of his throat was cut open.

“Uhhh!!”

A shrill scream came behind Mikasa, when she heard the familiar voice, Mikasa immediately turned her head, the scene she saw made she shocked and angry, and her whole body was trembling uncontrollably.

Eren was hurt terribly by Su Xiao’s three attacks, Su Xiao held Eren’s back neck and caught him in his hand.

Crack!

Eren’s cervical vertebrae were smashed, his body hung down softly, his eyes were dull, the consciousness was in a state of confusion, and he completely lost the control of his body.

“Let’s go, I got the goal.”

“I got it!”

“Yes!”

Reiner Braun and Bertolt Hoover shouted at the same time.

“No!”

Mikasa screamed shrilly, tears went out from her eyes, she thought that Eren had been killed.

Su Xiao just looked at her coldly and stopped paying attention to her.

Two golden lightning fell on the wall, the impacts spread to the side.

At this time, a large number of members of the Survey Corps came over in all directions, including Levi.

“Reiner, swallow him.”

Su Xiao threw Eren into Reiner’s mouth, who had turned into an armored titan. The armored titan swallowed Eren directly and waved a hand to ask Su Xiao to stand on his shoulder.

After Su Xiao used the ‘3D Maneuver Gear’ to reach the shoulders of armored titan, the armored titan immediately put his big hands on his shoulder.

Puff!

Some noisy puff came, the colossal titan who turned on the wall blew out hot steam. Because of the limited space, the colossal titan only had an upper body.

Mikasa and the members of the Survey Corps screamed and retreated.

Because of the protection of Reiner, Su Xiao did not hurt by the hot steam, Reiner controlled the armored titan to jump directly down the wall.

At the same time, the colossal titan also moved, Bertolt Hoover, broke out from the back neck of the colossal titan, using the 3D ‘Maneuver Gear’ to reach the armored titan’s shoulder.

The colossal titan’s upper body with thirty-meter height began to fall down, the target was the people on the wall.

Bang.

A large piece of steam surged on the wall, the loud noise could be heard within a kilometer.

Su Xiao stood on the armored titan’s shoulder, and the armored titan was running quickly. He had already seen that the Survey Corps acted weird, he had never received news from the ambush on the wall, which meant that he had been treated as a suspect.

It was fortunate that the Survey Corps had not been completely destroyed. The falling attack of the colossal titan was not easy to escape.

Chapter 179

Boom, bomb, bomb.

The armored titan quickly ran away to get away from the wall.

Su Xiao stood on armored titan's bumpy shoulder, his sights fixed on the wall which was covered by the steam.

“Reiner, something is coming, watch out.”

A figure rushed out of the steam, it was a titan about seven meters.

Bertolt Hoover looked at the Titan rushing out of the steam, his sights were complex.

“Is it Maruseru? No, Maruseru has been swallowed up by the brainless titan, is it...”

Bertolt Hoover recognized the identity of the titan, which was the power that their companion who had died, the jaw titan.

Now that they were far from the city wall, Su Xiao was not worried that the Survey Corps would catch up.

There were no horses outside of the wall. It would take at least a few hours for the Survey Corps to lift the horses from inside of the wall to the outside. It was impossible for them to catch up with Su Xiao by their own feet.

“Jaw titan? Don't worry about it, go ahead.”

Reiner Braun, who turned into the armored titan, hesitated for a while and finally nodded and continued to go forward.

The armored titan ran ahead, Su Xiao and Bertolt Hoover stood on the armored titan's shoulder, and jaw titan chased behind.

The body type of jaw titan was about 7 meters, he looked fierce, had long hands and short legs, he ran like a beast with limbs. The most conspicuous was the shiny canine teeth. The Occlusal force of the canine teeth must be terrible.

The location of Su Xiao and others was in the wall Maria which was broken. The range of the wall Maria was very wide. It took a long journey to go straight through the range of the wall Maria.

The armored titan, Reiner Braun, did not have the endurance to run for a long time, he needed to find a place to rest on the way.

“Reiner, let's go to the Titan's Forest.”

Bertolt Hoover suggested.

The Titan's Forest was a dense and profuse forest, located in the wall Maria, the trees there were usually a few meters high, people could rest on the tall trees to prevent the attacks from the brainless titans.

“We can't go to the Titan's Forest.”

Su Xiao refused.

“Why?”

Bertolt Hoover looked at Su Xiao with doubts. After being refused by Su Xiao, Bertolt Hoover immediately hesitated.

“The goal is too obvious. The Survey Corps will think of the titan’s forest at the first time after lifting the horses.”

Su Xiao tried to remember the terrain inside of the wall Maria.

“Do you remember the location of Eren’s hometown?”

Su Xiao looked at Bertolt Hoover.

“I vaguely remember some, we have to leave the wall Maria as soon as possible. That is the only way we have to pass.”

“We will meet with Annie first, then go straight there. If Reiner Braun runs out of strength, Annie will carry us, we can’t go to the Titans’ Forest.”

Su Xiao, who knew the original plot clearly, Reiner and others took rest in the Titans’ Forest before the Survey Corps found them, then Eren was taken away.

He would never make this kind of mistake.

Reiner Braun who turned in the titan nodded to agree Su Xiao’s opinion, and Bertolt Hoover, who had no opinions, immediately agreed as well.

Roar!

Suddenly the armored titan suddenly roared, which made Su Xiao somewhat confused, but his doubts were quickly lifted. He saw the female titan who was running from a distance.

The female titan ran near the armored titan immediately removed the titan mode. Annie used the ‘3D Maneuver Gear’ to jump on the armored titan’s shoulder.

Annie was still cold, she subconsciously kept a distance from Su Xiao.

“Is this person really worthy of trust?”

Annie showed up made Bertolt Hoover very excited, Bertolt Hoover had always secretly loved Annie, but his weak character did not dare to show this.

“He’s very... very credible, Annie... you are okay recently?”

Bertolt Hoover became stammered, and Annie just nodded.

Su Xiao, who was sitting on the armored titan’s shoulder, smoked and after looking at Bertolt Hoover, he looked at Annie again.

Su Xiao’s EQ was not low and immediately found out that Bertolt Hoover’s love to Annie, but Su Xiao felt that this guy had no chance at all, Annie treated him at most like a companion.

Pursuing a woman with the attitude of pursuing the goddess would never succeed.

“How long will he run with us?”

Annie raised her white chin and looked at the jaw titan behind.

“The current position is not safe enough, Rainer, talk to him after ten minutes. I feel he is not hostile.”

Su Xiao did not order Rainer. Now he and Reiner Braun and others were criminals, they did not have a subordinate relationship.

The blind high self-esteem would cause others to resent, this was inconsistent with Su Xiao's later plan. If he wants to go to the Marley Empire, his current false identity will be broken after arriving Marley Empire.

Reiner Braun thought for a while and nodded. In the spy team, Reiner Braun was the captain.

He continued to move forward, after ten minutes, it seemed a village appeared vaguely. The village was attacked by titans, the houses collapsed a lot, and the grass was overgrown with weeds.

The armored titan stopped in front of the village, the jaw titan behind quickly caught up.

The jaw titan was not good at running long distances. He lied on the ground after stopping, lying flat on the ground like a wild wolf after running fast.

Reiner did not release the titan mode just in case, Su Xiao was the representative to negotiate, Bertolt Hoover was decisive, Annie was not good at communication.

Su Xiao jumped from the armored titan's shoulder and went toward jaw titan with dragon flash.

The reason why he dared to cooperate with Reiner Braun and others was that he was not afraid of fighting with the Titans. Even if the three men attacked him together, he could find a chance to escape.

If Su Xiao does not have this kind strength he had, Reiner Braun and others will not easily cooperate with him, no one is willing to bring someone useless along.

“Remove the titan mode.”

Su Xiao stood in front of the jaw titan with dragon flash. From a person's attitude, the person was not hostile.

“Pip.”

The jaw titan spat out a woman with blond hairs from the mouth. The muscles on the back neck of the jaw titan open, a woman with a training corps clothing broke away from jaw titan's body, jaw titan quickly vaporized.

The woman was about one meter seven and her skin color was tan with a black ponytail.

“Ymir?”

Ani also jumped from the armored titan's shoulder.

“Annie, Reiner, Bertolt Hoover, I knew that's you.”

Ymir glanced at Su Xiao and other, she was also an Eren's classmate of the training corps.

Su Xiao was shocked when he heard the name Ymir. After memorizing initially, he remembered who the woman in front was.

The Ymir in front was 'fake', she was not the titan ancestor Ymir, the woman's background was very complicated, but not dangerous.

Speaking of this Ymir, It had to say from seventy years ago.

Ymir had not had a name for seventy years ago. At that time, she was a little girl wandering inside the 'Eldian shelter' in the Marley Empire. She was like a street cat even could not full her stomach.

But the one thing was a bit special, she was an Eldian.

A local cult organization saw this point and took the wandering Ymir in and named her Ymir, falsely claiming that she was the ancestor goddess. To deceive those believers.

Ymir grew up in the worship of cult believers. In her teens, the cult was discovered by the Marley government, Ymir and many believers were arrested.

## Chapter 180

After Ymir was arrested, she admitted that she was Ymir in the eyes of many believers, and wanted to save those believers.

The Marley government did not care about them at all, the government even punished them without going through the court. They directly subjected Yumir and the believers with a titan injection, turning them into brainless titans.

This was the punishment to the Eldians after they committed a crime. Turning into a brainless titan could be said that is worse than death. Although they had self-awareness, they could not control the Titans' bodies, they just could wander like ghosts.

Marley Empire did not waste those eldians by turning them into brainless titans, the government sent them to the island where the walls were located.

It was why there were inexhaustible titans who could not be killed to that extent outside of the wall.

After Ymir became a titan, she wandered for sixty years. Under the coincidence, he swallowed one of a companion of Reiner and others, she obtained the power of the jaw titan and restored her body. At that time, Ymir still had a body of ten years old.

After restoring her body, Ymir decided to live for herself and do what she wanted to do.

But because there were too many brainless titans outside of the wall, Ymir could not cross the ocean as well. She could only sneak into the wall and had been stealing for a living until Ymir met a woman who changed her life, though Ymir was also a woman, she fell in love with the woman.

.....

Su Xiao looked at Ymir after he finished his memories.

He was clear about the person's background, he also guessed the reason why did she person come.

"You come to surrender?"

“Of course, of course.”

Ymir’s character was candid, although she sometimes spoke sharply, she was kindhearted, but under cover of her bitter words, she often made people think she was hard to make friends.

And Ymir sexual orientation was different, so she generally treated men with bad attitudes.

“Cough, cough...”

A serious cough came, Ymir had brought the woman she had spotted out before.

In Su Xiao angle, he could only see that the woman with blond hairs and her body was short.

“Christa Lenz, wake up.”

Ymir sounded very anxious.

“Cough, cough.”

Christa Lenz coughed for a few times, she glanced around emotionlessly after waking up.

“Ymir? How can I be here?”

After Ymir turned into a titan during the chaos, she immediately swallowed Christa Lenz and jumped from the wall.

Christa Lenz’s external identity was only a member of the training corps, but she had other identities.

She was a child of a member of the royal family and a servant. She was born without marriage and led her to be excluded by the royal family.

But Christa Lenz had the blood of the royal family, who was qualified to be the king inside of the wall, the king had the right to control everything.

Don’t think that anyone could be the king inside of the wall, the power of the ancient titan could not be played fully without the blood relationship of the royal family.

“Christa Lenz?”

Annie stepped forward and carefully looked at Christa Lenz, whose face was full of titan’s saliva.

“Today must be our day. We not only catch Eren, Christa Lenz actually come to us actively.”

Bertolt Hoover was happy, their mission had been completed, and now they only needed to return to the Marley Empire.

“Ymir, what the hell is going on?”

Christa Lenz, a stupid sweet girl, was very confused, she was swallowed for no reason and now appeared here.

Ymir held at Christa Lenz shoulder and began to whisper with Christa Lenz about the current situation.

Ymir was born in the Marley Empire and now knew the identities of the three men, so she has already guessed the situation now.

“Is it clear? Christa Lenz, there is no hope in the world inside of the wall. Now, these four spies are ready to return to Marley. This means that their purpose has been achieved. The world inside of the wall had already been very unsafe. If we want to continue living, we can only go to Marley Empire.”

Christa Lenz stayed in place and could not accept the situation at the moment.

“This... then what should I do, what about the companions inside of the wall.”

Christa Lenz hesitated.

Christa Lenz was a very inconsistent girl. She always thought about others, or she had no goal to live. The unfortunate childhood experience made her want to be a useful person.

It will not be a matter if she dies.

“Are you finished?”

Su Xiao looked at Ymir coldly, this kind of gaze made Ymir shocked.

“What do you mean?”

“A sudden surrender.”

Su Xiao directly rushed forward with a knife, Ymir was shocked.

“Reiner, subdue her together.”

Su Xiao shouted, Annie and Bertolt Hoover on the side were stunned, while the armored titan, Reiner, rushed ahead directly.

“I am not hostile.”

Su Xiao did not pay attention to Ymir explanation and cut into Ymir chest.

Puchi!

Blood splattered, a deep wound was cut in the chest of Ymir, it seemed to be seen the heart was beating vaguely.

“You bastard!”

Boom

Golden lightning fell, Su Xiao raised the left hand with black metal bracer in front of him, the attack was temporarily forced back.

Although Ymir forced Su Xiao back, the armored titan rushed forward.

The armored titan raised his arms and hammered on the jaw titan which just formed.

Boom.

Large pieces of skeletal muscle splashed.

The impact stopped, Su Xiao, rushed forward for a few steps, holding his sword to cut the calf of the titan.

.....

Five minutes later, Ymir, whose arms were cut off, lying on the ground and gasped heavily. The steam rose in the wound of the broken arm. Losing heavy energy made Ymir unable to recover her arms, not to mention to become a titan.

Su Xiao brought up Ymir on the ground and threw Ymir away. The armored titan's mouth opened wide, he bit on Ymir's body with a crack.

Ymir screamed shrilly.

The armored titan, Reiner, was not trying to kill Ymir. This was to aggravate her injuries and prevent her from becoming a titan in a short time.

Su Xiao did not accept Ymir 'investment' with reasons. Ymir was indecisive in the original book, she helped Reiner and others for a while and then helped the Survey Corps.

For this unstable factor, Su Xiao would not give the person a chance to betray, he would just injure her and took it away.

“So, it's time to you.”

Su Xiao held the knife with one hand slowly and approached Christa Lenz.

“Wait a minute, I..., that...”

Christa Lenz, the stupid sweet girl, was a little bit nervous, the situation in front of her was too complicated. Her unwise brain could not work.

A huge figure blocked in front of Su Xiao, the armored titan Reiner.

“Reiner, it seems that this woman has something for you.”

Su Xiao pondered for a while, now he could not fight with Reiner and others.

Puff.

Reiner came out from the back neck of the armored titan, and there were some muscles around his body.

“Tie her up will be fine, don't hurt her, please Byakuya.”

Su Xiao put away the dragon flash and rushed for a few steps to the front of Christa Lenz, this time Reiner did not stop him.

Christa Lenz was trained by the training corps, so she had some ability to resist. He could fight against Su Xiao, Christa Lenz was knocked down when she was making a fighting position.

”Sobbing.”

Christa Lenz, who was tied into a rice dumpling by a rope, her mouth was blocked by a white cloth, she struggled with tears in her eyes.

The stupid sweet girl was carried by Annie, several people jumped on Reiner 's shoulder and moved on.

Ymir and Christa Lenz were completely unexpected. Ymir was a somewhat smart ass and thought that the same identities of Marley would let Reiner and others accept her.

On the way, the armored titan was tired, it changed with Annie and kept going.

They did not stop, it was impossible for the Survey Corps to catch up them.
