

R. Paradise 181

Chapter 181

At night, inside of the wall Maria.

In a church of a small town.

The church was about a few tens of square meters, the seats inside were kicked broke as firewood, a pile of bonfires rose inside the church.

Several people sat around the fire, Su Xiao, Annie, Reiner, and Bertolt Hoover.

In the corner of the church, Eren and Ymir were weak and leaned on the wall. Eren had regained his consciousness at this time. But the injury caused him to be without the strength to become a titan. He could not even get up. At this time, Eren was staring these four people with hatred.

Eren had tried to blame before, but under Su Xiao's 'careful persuasion', Eren chose to shut up, at most he would not have the danger of being kicked to death.

Compared to Eren, Ymir was much calmer, Ymir, who looked somewhat decadent, leaned on the wall.

The treatment of the two was not the worst, the worst one was Christa Lenz, this stupid girl.

Christa Lenz did not have the power of a titan. She could not be controlled by breaking her limbs. If they cut her arms, this stupid girl will become disabled. So Christa Lenz was tied tightly and threw to the corner.

“How long until you recover your strength?”

Su Xiao looked at Annie and Reiner. Although the two hurried on their journey, the female titan was not good at endurance, the main force of hurry on their journey was still Reiner.

”Up to five hours, we can set off in the midnight, we can travel faster without the interruption of titans.”

The time Reiner gave made Su Xiao made satisfied. Now they have to leave the wall as soon as possible. If more than a thousand members of the Survey Corps chased, the four of them were probably not able to resist.

Su Xiao turned over the roast wild pig on the fire, which was caught on the way.

There was no pollution in the world inside of the wall, the Titans would not prey on the beasts. The ecological environment here was very good.

The wild boar was roasted, the outer skin became browned and crispy, and the oil dropped in the fire made it smell charred.

This kind of wild pig can be sprinkled with some salt, other spices will cover up the flavor of the flesh itself, and the farmed pigs need spices to cover up the smell of the meat.

Annie swallowed secretly, she had stayed in the wall for a few years, now she saw the meat, the expectation flashed in her beautiful blue pupils.

“Byakuya, when will it okay to eat, I'm starving.”

Reiner came somewhat anxious after waiting but did not hide his expectation. He also had not eaten meat for a long time.

“It can be eaten now.”

Su Xiao’s palm flipped, a delicate dagger appeared.

The wild boar meat was distributed to three people. Su Xiao used a dagger to cut a crispy cover and ate it.

The wild boar meat was crispy, and the smell of the meat was filled their mouths.

Annie got to the softest pork loin, although she ate elegantly, she could eliminate food at a fast rate.

“Hey! You guys are too cruel, you not only giving me a meal but eating with satisfaction in front of me.”

Ymir sneered and no longer looked at the four people. The hunger in her stomach was torturing her, Eren did the same movement as her.

In addition to the drinking water which could ensure the life, the two were not given any food, helping the enemy to restore their physical strengths was extremely a stupid thing.

Reiner, who was enjoying dinner, suddenly stopped and walked up to Ymir after hesitating.

“You suddenly have consciences? I say that, although you looked not good, you will not...”

Ymir stopped her words suddenly, because Reiner did not pay attention to her, but brought the silly sweet girl Christa Lenz up, and pulled the white cloth on Christa Lenz’s mouth.

“Christa Lenz, eat some meat.”

Reiner tore a piece of meat and handed it to Christa Lenz’s mouth. Christa Lenz hesitated for two seconds and ate it.

Seeing this scene, Reiner smiled with a gentle smile.

It didn’t take long for Christa Lenz to eat a large piece of meat, but she still looked a little scared.

“Thank you... thank you.”

Christa Lenz thanked him with little voices.

“Speaking about this, from the appearance of the Titans yesterday, we have been running around. So sleepy, but fortunately, the hole of the wall is blocked, I should take a break.

After doing so much, the treatment after joining the Survey Corps must be good, and it should be no problem to promote.”

Reiner sat in front of Christa Lenz and began to murmur.

Eren, Ymir, and Christa Lenz, including Annie, were stunned, they didn’t understand what Reiner was saying.

Blocking the city wall? Joining the Survey Corps? Promote?

The wall was destroyed by Renner and others. When the matter reached this situation, he surprisingly wanted to join the Survey Corps.

Bertolt Hoover sat next to the bonfire and held his legs, he helplessly looked at Reiner.

“Reiner!”

Su Xiao shouted Reiner’s current mental state was very wrong.

“What happened, Byakuya. Right!”

Reiner seemed to think of something suddenly, both hands patted on his legs and continued to say:

“You are a member of the Survey Corps. When I join the Survey Corps, you must take care of me. As a soldier, my performance is already excellent. Well, it is excellent.”

After Eren and Ymir heard his words, they felt a chill running down their spines, Christa Lenz carefully moved backward.

“That... Mr. Reiner, what are you talking about?”

Ymir looked at Reiner with stun.

“Well? What do you mean, shouldn’t I be promoted?”

Reiner chuckled and looked relaxed. It seemed that he was still a member of the training corps. Now he just talked with his peers.

“Reiner!”

Su Xiao sounded a bit angry.

“What happened? Byakuya, why did you stand up, tomorrow...”

“You are not a soldier at all, you are a warrior! Marley warrior!”

Su Xiao’s words made Reiner irritated strongly.

Reiner gradually recalled all kinds of things inside of the wall. He began to have pupil constriction, and his shoulders kept shaking.

After a few seconds, Reiner became calm.

“So this is ah.”

Reiner raised his trembling hands and pressed his hands on his face.

“Ha? What do you mean?”

Eren’s gaze was still full of hatred, but the sight looked at Reiner was somewhat different from before.

“I seem to understand what is going on.”

Ymir looked at Reiner with certain.

“If I guess right, he lives in the wall for a long time had already let him integrate into the training corps fully.

He used to be a warrior who was trying to destroy the city wall. Because he was pretending to be a soldier for a long time, now he can't tell whether he is a soldier or a warrior.

No, it may be the guilty in his mind is hard to bear. He has another personality in his mind. One is Reiner, who is a soldier, the responsibility is to defend the city wall, and the other is Reiner, a warrior, who is committed to destroying the city wall.

The contradict thought to let him get Schizophrenia and to tamper with his own memory. This situation just happened should not happen for the first time, it can be seen from Bertolt Hoover's speechless expressions.

It's so good that it can do to this extent, both... “

Ymir said more and more, but she did not notice Reiner's expressions gradually distorted under his hands.

“Shut your mouth up.”

Reiner's voice was low and a little scary.

Ymir shut up immediately after seeing Reiner's trembled pupil.

“Sorry, I'm over the top.”

Ymir was very acquainted, if she dares to continue saying, Reiner may kill her.

It could be seen from the sneer from Ymir's face, her apology was not sincere.

“Interesting, if you go back to Marley....”

Ymir was more interested in looking at Reiner, the smile on her face had a unique charm.

“Shut up, or I will cut off your tongue.”

Su Xiao's voice was not big and looked at Ymir aside. Ymir immediately bowed her head and closed her mouth. The smile on her face also disappeared. She knew clearly that this man was essentially different from Reiner. Although this man looked calm, he was a hundred times more dangerous than Reiner.

Su Xiao looked at Reiner, whose shoulders were shaking, this guy's mental state was getting more and more unstable.

The relationship between the team members was now complicated.

‘Bertolt Hoover’ loved ‘Annie.’

‘Reiner’ loved ‘Christa Lenz’.

‘Ymir’ also loved ‘Christa Lenz’.

Reiner had a mental illness, this kind of people generally not very good to interact with.

Bertolt Hoover lacked opinions, he could be commonly said as soft eggplant.

Annie looked strong, but her mind was fragile. It could be known when she cried in front of Su Xiao that her mind was actually very fragile.

Christa Lenz was a stupid girl, this girl was easy to deal with, tying her would be fine.

Ymir loved to talk nonsense, and she was shrewd, if she dares to talk something, Su Xiao does not mind to cut off her tongue.

Eren in the team was the easiest to deal with, if he doesn't obey, he will be punched by Su Xiao.

Su Xiao suddenly had some headaches. The relationship between these people was not as simple as the love triangle.

They must leave the range of wall Maria as soon as possible. Otherwise, these teenagers with different personalities may have some problems. If he kills two of them, he will be in trouble.

And the basement of Eren's house, Su Xiao must go there, it was likely to get a lot of benefits there.

Su Xiao threw the key in his hand, he couldn't help but expect it.

Chapter 182

On the endless grassland, the breeze flew, the whole grassland rustled like a green ocean.

A hare was hiding in the green grass, the two long ears swayed from time to time, bowing its head and eating the sprout of the green grass.

The hare's head suddenly lifted up, it looked around with a panic, hurriedly fleeing after feeling the vibration on the ground.

Boom, boom, boom.

A figure more than ten meters high passed by, the grass was stepped leaving big footprints.

Su Xiao sat on female titan's shoulder, he yawned because of being bored.

They had already traveled for seven hours, Annie and Rainer alternately carried several people on their backs, occasionally taking a break.

"Yeah."

Reiner sat up and stretched his body, he was tired enough to fall asleep on the female titan's shoulder.

"What time is it?"

Rainer's sight was not clear, he had bloodshot eyes.

"8 am."

"Is there anything left from what we had yesterday, using the power of the titan continuously is very exhausting."

Su Xiao took out a piece of barbecue and handed it to Reiner, and took out a bottle of water.

“Turn to you after eating these, you were sleeping while Annie held herself with all of her strength.”

Reiner nodded and bit the meat listlessly.

“You seem to have never slept for one day and one night, don’t you rest?”

“For the time being, I still can’t rest.”

Although Su Xiao cooperated with several people, he did not fully trust them, the perceptions of Reiner and others were not strong.

“You’re indeed an empire’s warrior. It seems that I have been lazy in recent years, Annie stop.”

After Reiner ate the food, he shouted and the female titan Annie stopped.

They completed the alternation skillfully, after 50 seconds, Annie who was tired sat on the armored titan Reiner’s shoulder.

“Does it really make sense to travel like this? Will the Survey Corps really catch up?”

Annie looked at Su Xiao with doubts.

“If I kidnap a very important person in the Marley Empire and then destroyed the borderline, and I fled with a few spies inside of the wall, do you think how much military power the Empire would send?”

Su Xiao’s description made Annie speechless, this was an endless hatred.

Don’t say that the Survey Corps, even the royal family sending the Military police regiment would not be strange.

“So we have to leave ‘Paratitivu’ as soon as possible.”

Paratitivu was an island that everyone knew now. Although it was an island, the area was definitely not small. Otherwise, the Marley Empire would not covet the resources there.

Reiner walked slower than Annie, but Reiner was better at endurance.

About three hours later, a town could be seen vaguely, Eren, who was fixed on the armored titan’s shoulder, was obviously restless.

“This is... hometown.”

Eren sounded choked up, although it was only five years later, the city became ruins.

There were trees in the town could be seen faintly. Most of the houses collapsed because of no one inhabited for a long time. From a distance, they could see the hole on the wall that was kicked out by ‘Bertolt Hoover’.

“We finally arrived.”

Su Xiao overlooked the town below, there were thousands of houses in the town, it was impossible to find Eren's home by luck.

"I finally got here, finally..."

Bertolt Hoover got up and looked down at the town below, he was a bit guilty because the place was attacked by him.

"Bertolt Hoover ."

Eren whispered, and Bertolt Hoover's body trembled.

"I will kill you one day, I swear."

Eren didn't shout but remained very calm. This tone made Bertolt Hoover somewhat fearful.

"If you can... kill me then do it, I had already had the consciousness of sacrifice when I lifted that foot five years ago."

'Bertolt Hoover', who had always been indecisive, his tone became firm.

"Byakuya, you took the key is to enter the basement of my house, right? Although I don't know where you get this information, I can't believe you can find my home in many houses."

Eren looked up at Su Xiao with a plastic smile.

The experience along the way made Eren become mature, the betrayal of his classmates, the great changes inside of the wall made Eren accelerate to grow up.

"I don't need you to find the way."

Su Xiao was not ready to torture and ask Eren, he had his own way.

He began to recall the details in Animation quickly.

The colossal titan kicked the wall break, the young Eren ran in the direction of his home, the mother was crushed by the house.

Su Xiao's thoughts turned sharply. When Eren's mother was crushed by the house, the titan had not yet entered the city. The only reason why the house collapsed was the stone that the colossal titan kicked to fly when he broke the wall.

Looking around in the town, four or five big stones came into sight.

"Reiner, look over there, as we discussed before if we can't find Eren's home in two hours, give up."

The armored titan, Reiner, walked toward the direction that Su Xiao pointed and soon arrived in front of a large stone.

The big stone was surrounded by grass, the whole big stone was set in a wooden house.

"Not here, go over there."

Reiner began to move around the town, passing one stone after another, but each stone was different from the scene in Su Xiao's memory.

"The last one."

Su Xiao looked at the big stone in the town closest to the city wall. That was the last hope.

The armored titan moves a step, Su Xiao's sight quietly swept toward Eren.

Although Eren was trying to keep calm, the action that looked up from time to time revealed his intentions, this boy was still too young.

"It can't be wrong, that's it."

Su Xiao could be sure.

"You bastard!"

Eren roared and tried to struggle, but he injured seriously. He only drank a small amount of water every night, which made him weak extremely.

The footsteps of the armored titan Reiner stopped, Su Xiao carefully observed the surrounding terrain.

A collapsed house, a boulder crushed the roof and a half of the female body in the nearby grass.

This was the home of Eren, the beginning of the plot.

"Reiner, open this roof."

Reiner did not think too much, the two big hands opened the roof easily like an excavator and continued to dig down.

Soon, Reiner cleaned up the collapsed house, a black hole appeared, there was a step leading to the basement.

Below was the basement of Eren's house, this place was an important turning point in the original plot, Su Xiao could not help but look forward.

Reiner released the titan mode and took Eren to the front of the steps. Bertolt Hoover carried at Ymir. Annie brought Christa Lenz. The treatment of this silly sweet girl was different.

"Is this? I heard you mention it many times before."

Rainer looked at Eren in his hand.

"Reiner, can I ask you something as we were companions?"

"say it."

"Help me to collect the bones over there, that is my mother's bones."

Reiner did not hesitate to step forward, took off his shirt and wrapped the half of bones, and tied his shirt on Eren's body.

“Don’t thank me, I have known that my crime deserves more than death. I knew it five years ago.”

After finishing, Reiner ran for a few steps to keep up with Su Xiao’s pace.

Su Xiao held the flashlight in his left hand and took the key that Eren carried in the right hand and walked down the steps.

This key that Eren’s father asked Eren to conserve and it should have a key role.

Su Xiao took the lead, Annie and others followed, the expressions of several people were a little nervous.

Su Xiao easily walked in the forefront, the basement was unlikely to be dangerous.

The downward steps were not long, a wooden door appeared in front.

Standing in front of the wooden door, Su Xiao looked at the key in his hand and looked at the old wooden door.

Su Xiao suddenly lifted his foot and smashed it, the wooden door was smashed with a crack. The basement appeared in sight.

Su Xiao looked at the key in his hand and threw the key back to Eren behind him. The Key was useless, then the key slammed into the ground.

Eren’s expression was like doubting his life, he some unbelievably looked at the key that he kept for five years. The door that the key could open was opened by a kick.

Chapter 183

Su Xiao took the lead into the basement, the entire basement was made of wood.

The furniture in the basement was very simple. There were a wooden desk and a chair. There were wooden cabinets on both sides of the wall. There were several wooden boxes placed next to the wooden cabinets. There were a lot of bottles and jars in the wooden boxes.

Su Xiao began to look for valuable things in the basement and picked up a few slightly yellowed papers. The above were various calculation formulas, he could see the words of reconciliation and division vaguely.

Su Xiao continued to search until he picked up a test tube in a wooden box.

[You get (the bone marrow of the attack Titan).]

The bone marrow of the attack titan.

Quality: Green

Type: Experimental items

Rating: 17 (Note: The green score is 10 to 30.)

Introduction: The bone marrow of the attack titan, extracting the bone marrow

would reduce the life of the person who had the power of the titan, the research cost extremely high, deep research is not recommended.

Price: 3% of the source of the world.

.....

After seeing the attributes of this test tube, Su Xiao was stunned, he first saw the items that could be sold as the source of the world.

It is very unlikely to get the power of 'attack titan' through these bone marrows, this thing may not sell at a high price.

The power of the titan was not very popular in the reincarnation paradise. It was not that it was not strong, but wanting to acquire this kind of power. The price you paid was far more than the return.

It could be seen from the remarks from the reincarnation park. The biggest use of this thing was to sell for the source of the world, Su Xiao chose to sell it.

[Get 3% of the source of the world, and now you have 3% of the source of the world.]

This was a good start, Su Xiao began to look for other things by turning cabinets upside down.

[Titan's life drawing sheet]

[T-shaped titan's anatomy]

[Aitmis report]

[The bone marrow of the ancient titan]

.

.....

A lot of items are placed in front of Su Xiao. The quality of these things was good, but these were not useful in real function. There was a characteristic that could be sold as a source of the world.

Su Xiao felt that this was a reward from the reincarnation park to enter this basement. He sold all the items.

[Get 2% of the source of the world, and now you have 5% of the source of the world.]

[Get 1% of the source of the world, and now you have 6% of the source of the world.]

.....

[Get 6% of the source of the world, and now you have 14% of the source of the world.]

The price of the bone marrows of the ancient titan sold by Su Xiao was very high, and it surprisingly had 6% of the source of the world.

His gaze can't help but look at Eren, now the power of the ancient titan was in his body.

This idea was vetoed by Su Xiao when it first appeared. No matter how he thought the titan's bone marrow was not so easy to extract, it may take complicated steps.

Entering the basement to obtain a total of 14% of the source of the world, this had already made Su Xiao satisfied, the source of the world represented the attribute points, the much more.

The basement became messy because Su Xiao turned the cabinets and boxes upside down, Annie and others stood at the door stunned, they all could not understand Su Xiao's behaviors.

The only neat thing in the basement was the desk, Su Xiao took out the chair from the desk and sat at the desk.

On the desk, there was the ink bottle which had dried up, the scale and so on. Eren's father, Grisha Yeager, was not only a doctor but also a researcher of titans.

Opening the drawer of the desk and three diaries were placed inside.

Su Xiao took out his diary, Reiner and others all gathered up. They also wondered what was written in the diary.

Opening the first diary, the first page of the diary was full of mottled blood, this was Eren's father 'Grisha Yeager's diary.

The contents of the diary were as follows:

'Today is my eight-year-old birthday. My father bought a cake. But the cake has too much cream. I don't like it, but I have to pretend to be very happy. It's my father's mind, but my sister ate a lot, and the cream was stained on her little nose, my sister is happy, so it's fine.'

'Sister is dead,...a large piece of ink..., the damn Marley let the dogs bite her to die, just because we walked out of the isolated area, we just wanted to see the airship.'

'Large piece of ink...'

'Those animals,

Animals, animals, animals, animals, animals... '

'My sister's death was all my fault. I invite her to see the airship. My mother only cried silently. Dad even flattered those Marley officers. He didn't care about his daughter's death. I hate him, hate, hate, hate. '

'The broken page that was pulled down... '

'The broken page that was pulled down... '

'I am eighteen years old, now I am mature, and I understand that as long as we are still under the control of the Marley people, we, the Eldians, cannot be free.'

'The broken page that was pulled down... '

'There was such an organization, the 'Eldia Restorationists' was my destination, I am very fortunate to join the restorationists.'

'The broken page that was pulled down... '

‘It’s incredible. The member of restorationists Owl turned out to be the government staff of Marley. I finally understood why the restorationists would always escape dangers from a crisis, and I really hope to see ‘Owl.’

‘The broken page that was pulled down... ’

‘Today I met a woman named Dina Fritz, she is beautiful, my heartbeats are accelerating, what’s going on with this strange feeling?’

‘Dina Fritz is actually the royal family of Eldia. It’s really surprising news.’

‘The broken page that was pulled down... ’

‘I’m married to Dina, not for the organization, we just love each other. ‘

.....

Su Xiao saw the diary written here and looked at Eren.

“This is....”

“Eren’s father’s wife? That’s Eren’s mother?”

Several people were surprised to see Eren, Eren’s family was actually from the Marley Empire.

“My... my mother was not Dina Fritz.”

Eren murmured.

“Maybe that’s your father’s ex-wife, men have a problem of preferring new things to old one.”

Ymir started talking nonsense.

Although Eren’s limbs were cut off, his sights were very dangerous.

Su Xiao continued to check the diary.

‘I will remember this day forever, I have a son! I decided to name him Zeke Yeager. ’

‘The broken page that was pulled down... ’

‘The power of the titan in the thirteenth year is coming. The time for changing the host is coming. Zeke is 7 years old this year. I have used the thoughts of the restorationists to educate Zeke for many years. I decided to let Zeke go to the selection. Although only can live for 20 years is somewhat cruel. But this is the glory for the Eldia’s revival.’

‘The broken page that was pulled down... ’

‘I can’t believe that my 7-year-old son, Zeke, actually sold us and sold his biological parents. The Marley soldiers have already come outside.’

‘A large piece of blood stains.’

The content of the first diary was over. It recorded the experience of ‘Grisa Yeager’ from childhood to youth. The papers that were torn down should be useless content, which made it easier to read.

Su Xiao opened the second diary.

The content was as follows:

‘I don’t know if I am fortunate or unfortunate. I haven’t been turned into a brainless titan. ‘Owl’ saved me, but Dina has become a brainless titan and has been exiled to Paratitivu forever. This is the old method that Marley punished ‘Eldians’.

,

‘I finally know the identity of Owl. He was actually one of the two soldiers who caught my sister and me when I was young. It was the time when my sister and I went to see the airship. Without him, my sister wouldn’t have died, but why didn’t I hate him?’

‘Owl’s name is Eren Kruger. He has the power of the attack titan. Today he passed on this power to me. I swallowed him after becoming a brainless titan. This is obviously revenge, but why am I so sad, I will always remember your name, Eren Kruger.’

‘Owl told me the truth about ‘Paratitivu’, the so-called king of the first generation actually signed a non-war contract with the power of the ancient titan in his body, never fighting the Marley empire, the guy’s head must have problems, this stupid pig, the Marley people have begun to covet ‘resources of Paratitivu’.

‘The broken page that was pulled down...’

‘I successfully sneaked into the wall, the knowledge that I learned in the restorationists made it easy to sneak into the wall.’

‘The outbreak of the plague let me build prestige inside the wall. Should I find a woman to get married, which would be safer.’

‘The broken page that was pulled down...’

‘I met a woman at the hotel today. Her name is Carla Yeager. I should probably pursue her. I want to fall in love with her.’

‘Second marriage, which reminds me of Dina, is she still okay? It may be a blessing to become a brainless titan in this desperate world.’

‘I have a second son, I decided to name him Eren Yeager, yes, this name is to commemorate ‘Owl’ Eren Kruger who was already dead.’

‘Eren, the father will not instill any thoughts on you. Although you are not as smart as your brother, you are happier than him. It was my fault before. It was not my son, Zeke betrayed me, from the very beginning, I betrayed Zeke, I am sorry, I am not a good father.’

.....

Read till here, everyone looked at Eren.

Eren’s world view had been strongly impacted. He was not only a second child but also had a mother, perhaps aunt? However, it was more intimate to call her Dixie.

Chapter 184

The content of the second diary was about to end, Su Xiao opened the third diary.

The third diary was a message from Grisha Yeager after the wall Maria was broken. It detailed the origins of the Titans and the history of the war of the ‘Eldia Empire’. These contents Su Xiao all understood.

Su Xiao threw three diaries aside. After reading these diaries, he knew more about the Marley Empire.

Now the Eldians were not in a good position in the Marley Empire, but they were much better than living inside of the walls.

After Su Xiao threw the diaries, a photo was dropped from the gap of the diary.

This photo was a group of three people, including Eren’s father Grisha Yeager, ex-wife Dina Fritz, and young Zeke Yeager.

As it could be seen from this photo, this family of three was very happy. Grisha Yeager wore a good suit. From the background, it could be seen that this family was not poor.

“Is my father... the royal family of the Marley Empire? This expensive clothing...”

Eren looked at the photos on the wooden table with stun.

“Royal family?”

Reiner talked with ridicule.

“This is just what the people in the middle stage of the Marley Empire wear. Don’t compare our empire with the inside of the walls.

Even if the empire had wars for years, the residents were still very rich.”

Bertolt Hoover was also proud as he straightened his back.

Su Xiao ignored the conversations of several people, he continued to look for something on a desk.

Although these three diaries were valuable, these gains did not match the origins of this basement.

Three minutes later, Su Xiao turned the desk upside down and still had no other gains.

”Is there only these things?”

Su Xiao put the drawer out and put on the wooden table and began to look at the interior of the wooden table, still nothing.

Just as Su Xiao was about to give up, he suddenly found that the drawers on the wooden table were weird.

Compared to the overall width of the drawers, the depth of the interior of the drawers was somewhat shallow, the interior of the drawers was engraved with some symbols, which seemed to be a reminder to someone. It could not be seen clearly if they did not look it carefully.

It was the reminder of Grisha Yeager to Eren!

Su Xiao knocked on the inside of the drawers.

Thump, thump, thump.

It's empty.

Su Xiao took out the dagger to tilt the bottom of the drawer. With a crack, the bottom of the drawer was lifted, and a blue light appeared in the interlayer of the drawer.

Su Xiao's sight widened and put his hand into the interlayer of the drawer.

“What is inside?”

Annie's curiosity was attracted, several other people were very curious about the things in the interlayer of the drawer. In the basement, several people had a feeling of a treasure hunt.

“I didn't find anything.”

Su Xiao took the drawer and broke it. The drawer was slammed into a pile of broken wood.

“I thought there is a secret, it is really disappointing, you will not secretly take it for yourself, right?”

Ymir started talking nonsense again.

“There's nothing in this basement, let's withdraw.”

Su Xiao walked calmly toward the ground, at this time a test tube that occasionally flashed blue light was in his storage space.

[Titan refined extract] (semi-finished product)

Quality: blue

Type: Experimental drugs

Rating: 60 (Note: Blue items scored from 31 to 70. The higher the score, the more precious the item.)

Description: This medicine could be completed after returning to the reincarnation paradise, which cost 13,000 park coins.

After completing, you will gain strength +2, Agility +2, Vitality +2, intelligence +2 after injection.

Price: 8% of the source of the world.

.....

Su Xiao would not sell this blue medicine. It could be completed by spending 13,000 paradise coins. After injecting it, he could add 8 points of attributes.

Su Xiao was a bit grateful, he seriously searched the basement, otherwise, he would lose a lot.

Entering the basement this time, Su Xiao harvested 14% of the sources of the world and obtained a bottle of blue-quality medicine with extremely high value, which was a huge harvest.

The returning task required a total of 15% of the sources of the world, and Su Xiao was about to complete the returning task.

Going out of the basement, under the bright sunshine, the warm breeze gently flew by their cheeks.

This made Su Xiao feel better.

The hole of the wall Maria was in front after Reiner turned into an armored titan, the few men sat on the titan's shoulder and continued on their way.

The armored titan walked to the hole of the city wall. As long as they came out of this hole, no one could find them. At that time, they would be like a fish that returned to the sea.

We finally come here again; we can go back home.”

Bertolt Hoover sighed, and the happiness on his face was not hidden.

After the armored titan got out of the hole about ten meters high, Su Xiao pupil suddenly constricted.

He suddenly jumped from the armored titan's shoulder and looked through the hole of the wall Maria.

“They indeed do their best.”

Su Xiao pointed to the ground by his index finger, a subtle vibration came.

“What happened?”

Bertolt Hoover looked at Su Xiao with doubts.

“If I guess right, the Survey Corps arrived.”

Su Xiao thought of a possibility. If the situation is really like that, he will not care whether the Survey Corps come.

“What?”

Bertolt Hoover was shocked and immediately jumped from the armored titan's shoulder.

“I didn't see it... it's impossible.”

Bertolt Hoover looked far away incredibly, a large piece of cavalry looked dark in the distance was approaching quickly.

“There is nothing impossible. The Survey Corps has more horses for each person. If they are on a non-stop journey, they can check the ‘the titan’s forest’ and go straight here.

We want to leave the wall Maria in the shortest time. This is our only way.”

Even if Su Xiao knew that he would be caught up by the Survey Corps, he would come here, the basement of Eren’s house could not be given up.

“Go, get ready to start fleeing.”

Su Xiao and Bertolt Hoover returned to the armored titan’s shoulder, the armored titan ran at full speed after identifying the direction.

“Eren!”

A shout came in the back, listening to the voice, it was Mikasa.

Eren was stunned after hearing this sound. “Mikasa? Is it...”

Eren’s eyes were shining, the Survey Corps came!

“How did they catch it, we hurry on our way at full strength.”

Bertolt Hoover looked nervous, the seven or eight hundred members of the Survey Corps gave him a lot of pressure.

Annie’s fist tightened, if they’re caught up, everything will be over.

Unlike the two nervous people, Su Xiao looked relaxed and sat on the armored titan’s shoulder.

“Although I don’t know why you are so confident, it seems that we are going to be saved.”

Ymir looked at Su Xiao with a smile.

“Oh? Are you sure?”

Su Xiao’s calm attitude made Ymir frowned.

“Continuously traveling around the day and night, it is useless for Survey Corps to have more people.

I don’t believe that they have the fighting power after traveling for a day and night.”

Su Xiao took out the telescope and observed the Survey Corps pursuing behind.

The head of the group, Erwin, was exhausted and had dark circles around his eyes. The dry and cracked lips represented that they did not carry much food and fresh water.

Su Xiao’s mouth tilted up, a regiment of the few hundred people could not solve the problem of food by hunting.

Looking at the horses of the Survey Corps, now everyone was riding a horse as some shared horses.

After traveling with high intensity, the horse's lips appeared white foam vaguely. These horses had not been drinking for a long time.

“Reiner, can you persist for four hours?”

The armored titan Reiner nodded, now he had no need to retain his physical strength. If he runs to collapse can insist for four hours, it will be no problem.

“Since you have sent the head for thousands of meters, then I will accept it with politeness.”

In Su Xiao's hands, there was a revolver with a slender gun barrel. The Survey Corps had no long-range attack ability, but he did.

Chapter 185: Live targets

“Reiner, slow down.”

Su Xiao observed the people of the Survey Corps through a telescope. He was deciding who to shoot.

After considering shortly, Su Xiao chose the target to shoot.

The speed of the armored titan Reiner had slowed down. This scene inspired the Survey Corps.

“Continue to pursue, these traitors are already tired.”

“They killed more than 200 our people, and we must pull out their tendons and tear their skin off after we catch them.”

“No, send them to the cells in the north and let them live a life worse than death.”

The people of the Survey Corps were in a chasing frenzy and the pursuing of a day and night made them physically and mentally exhausted.

“Head, are you ready to fight?”

Hange Zoe was riding close to Erwin.

“Get ready to fight, it seems that they can't run anymore.”

Erwin looked calm but didn't know why he was a little worried.

On the armored titan's shoulder, Su Xiao's legs were slightly opened and stood on the armored titan's shoulder, he held broken elf in the right hand.

His shooting method was not good. Under this distance, it was impossible to point a target to shoot. The skill 'gaze shooting' attached to the broken elf could.

Su Xiao used 'gaze shooting'. The left hand wrapped black bracer hung naturally flat, the right hand held guns and aimed.

A red circle appeared in his sight, the red circle was gradually lessening. When the red circle reduced to the size of the needle's light, it meant that the target was locked. The time was five seconds.

The red circle gradually narrowed, Su Xiao's muscles of the arm which held gun gradually tightened.

Five, four, three, two, one, locked successfully.

The killing moment had arrived!

Boom, boom, boom...

Su Xiao continuously pulled the trigger of the broken elf, the six bullets rushed out of the gun.

Six bullets cut through the air, breaking open airwaves in the air.

The six bullets flew to the Survey Corps at a high speed, all the members of the Survey Corps were still rushing forward. They did not know the weapons like guns.

Snigger, snigger...

The sound of bullets came into the meat came, Hange Zoe, who was riding a horse, was splashed with blood.

“Blood? This is...”

Hange Zoe saw the unforgettable scene after she turned her head. The head of the Survey Corps, Erwin, had five blood holes which were as big as the fist in the upper body and the entire head had disappeared.

“Head?”

The blood ran down through Hange Zoe's cheek, Erwin's body slammed down from the horse.

“Head!”

“Head Erwin!”

The formation of the Survey Corps was immediately chaotic, their head died, he died under the 'unknown' attack.

Seeing this scene, Su Xiao relieved, the first target of the shooting was of course Erwin.

As long as Erwin died, the Survey Corps would have no one to lead. The Survey Corps though had many captains, no one could replace Erwin, and other people would not follow their orders.

If he chooses to shoot Levi or Mikasa, he can't guarantee that the one bullet can kill one person. Even killing these two people will only make the Survey Corps lose their combat power. It had no crucial effect.

The horse team of the Survey Corps obviously scattered, some members of the Survey Corps even stopped chasing and went down to check Erwin's body.

“What should we do, Levi?”

Hange Zoe asked urgently.

“You become the head.”

Levi looked down.

“Me?”

“yes, you.”

“Can I do it?”

Levi stared at Hange Zoe.

“No, you have to do it, or those guys will run away soon.”

Levi’s fighting power was strong, but he could not command.

“Understood, now I am the head, everyone should not stop and continue to pursue.”

At this moment, Hange Zoe could only do it forcibly.

“But the head, he...”

The suspects immediately appeared, although Hange Zoe’s reputation in the Survey Corps was not low, she could not replace Erwin.

“Now she is the head. Do you have any opinions?”

Levi said quietly.

“No, but.”

“Shut up! I ask Hange Zoe to be the head. ” Another captain, ‘Mike Zacharias’, spoke, his power was only lower than Levi.

The Survey Corps became stabilized, but internal conflicts appeared quietly.

“Don’t stop, continue to pursue.”

The team continued to move forward, dozens of members of the Survey Corps did not move. They drove the horse to Erwin’s body.

“These stubborn guys.”

Hange Zoe whipped the horse’s bottom hard, the large team of the Survey Corps moved forward again, Su Xiao and others had already run far.

Su Xiao had been watching this scene with a telescope.

“Hange Zoe, the next one is you.”

The broken elf took two minutes to fill in the bullets, and the cooling time was 24 hours.

Su Xiao checked the tips given by the reincarnation paradise.

[You killed the head of the Survey Corps, ‘Erwin Smith’.]

[‘Erwin Smith’ is a key figure in the story. You have gained 2.1% of the source of the world and now have a total of 16.1% of the source of the world.]

Killing Erwin made him gain 2.1% of the source of the world, Su Xiao suspected that Erwin should drop the treasure chest.

The reincarnation paradise was not a game. The treasure chest that was dropped needed him to take in person, so the treasure chest could only be given up.

After two minutes, Su Xiao pointed the gun at the Survey Corps behind.

Now the Survey Corps was the target, it was not a word awesome could describe.

Boom.

Su Xiao shot, a member of the Survey Corps dropped down from the horse, Su Xiao shot on the shoulder of the member of the Survey Corps, the bullet of the broken elf burst, and the horrible wound appeared.

This was not a fatal injury, the member of the Survey Corps was not likely to live. After he fell, there were hundreds of horses waiting to step on him.

Three seconds later, the member of the Survey Corps was stepped into a pile of rotten meat and made two companions fall down.

this gun was ‘shooting where he aimed?’ His goal was Hange Zoe, and the target that he hit was five meters away from Hange Zoe.

Deeply taking a breath, Su Xiao stabilized the muzzle, the pupil gradually contracted and highly concentrated.

Boom.

It was another shot. The gun was obviously better than the one just shot. The bullet flew directly through Hange Zoe’s side and hit the member of the Survey Corps behind her.

Boom.

Boom.

.....

Su Xiao shot several times, although he did not injure Hange Zoe, he found some good feeling in the shooting.

Su Xiao’s current physical quality and his strong perception, he found that it was not difficult to hit the target.

The broken elf could generate 6 bullets in two minutes, which meant that 180 bullets could be generated in one hour. Reiner could run for four hours incessantly, it meant it could generate 720 bullets in four hours.

Even after Reiner ran out of the strength, Annie could turn into a female titan to replace him.

The female titan was probably able to run for more than two hours with full strength so that Su Xiao had more than six hours of safe shooting time, and the broken elves could generate thousands of bullets.

What was the concept of thousands of bullets? If Su Xiao can ensure that three bullets hit one person, the Survey Corps will be killed more than half.

Raising the broken elf, Su Xiao pulled the trigger, and a member of the Survey Corps fell.

He had a feeling of getting more and more accurate. The rate of shooting the target just now had a relationship with Survey Corps' dense population.

After shooting hundreds of bullets incessantly, Su Xiao's shooting method should grow a lot, hundreds of live targets were helping him practice his shooting.

Chapter 186

The armored titan ran at full speed, a large number of members of Survey Corps chased in the rear, the clops were connected.

Su Xiao stood on the armored titan's shoulder, lifting the guns, adjusting the angle, breathing smoothly, and shooting.

Boom.

The bullets left the gun.

Ding.

The crisp sound of the metal collision came.

This could count as hitting an enemy, but the enemy did not fall.

Members of the Survey Corps would not be passively beaten. After Su Xiao shot more than a dozen members of the Survey Corps, these guys untied the '3D Maneuver Gear' on both sides of the waist and closed the two '3D Maneuver Gear' to block in front which formed a shield that barely blocked the upper body.

Although there was a danger of falling from the horse, it could save lives.

Even so, the Survey Corps had a large team of nearly 800 people, now there were only about 600 left.

He could not easily shoot the members of the Survey Corps, but Su Xiao was not silly, if he could not shoot people then he would shoot the horses.

In the situation where the horses fell down, the members of the Survey Corps will be seriously injured if they are not dead, and they could not continue to pursue.

The second force of the Survey Corps, 'Mike Zacharias', left the team because of this, the guy broke one leg.

After armored titan ran for more than an hour, Su Xiao shot more than 200 bullets.

The broken elf in his hand turned hot, the durability was reduced by one-sixth.

Su Xiao's shooting method had obviously improved a lot. Compared with the human's body, the horse's body was obviously much larger.

Boom, boom, boom...

After shooting six bullets incessantly, the broken elf spin for a few times in Su Xiao's hand, he was getting better and better.

Six shots to make four horses fell, those members who fell off the horses were either injured or fainted, none of them caught up.

It was absolutely horrible to fall from horses which were running at full speed. Even if you are not stepped by your rear companions, it will be inevitable to break a few bones.

Su Xiao waited for the broken elf to fill the bullets, Annie and others were no longer nervous.

Seeing from the current situation, it was impossible for the Survey Corps to catch up with them.

As long as they didn't run into the forest, the Survey Corps' '3D Maneuver Gear' was a pile of useless iron.

Two minutes later, the bullets were filled, Su Xiao shot six bullets. This time, three horses fell, but a member's head was shot, unfortunately.

Waiting again.

Su Xiao here felt nice as the sun is shining over him, but the side of Survey Corps will be overcast.

"This is absolutely impossible, we have to find a way."

The blue veins stood out on Levi's temples. He had never been so upset. If he is defeated, he will not say anything, but now he had no chance to approach.

"How about throwing 3D Maneuver Gear away? It will be faster."

Petra Ral proposed, but she immediately vetoed her own opinion. This was a very stupid way.

Throwing away the '3D Maneuver Gear', even if they catch up with the enemy, how can they fight the titan?

"If some people throw away the '3D Maneuver Gear' and catch up with them, the following team will have a chance."

Hange Zoe made a choice in the dilemma.

"This can't work."

Levi immediately vetoed.

"Why?"

Hange Zoe looked at Levi with doubts.

"If the head is still alive, this is a viable method. If it is our two orders, there will be problems within the Survey Corps."

Hange Zoe blamed reluctantly, what Levi said made sense.

Untied the '3D Maneuver Gear' and rushed forward was waiting for the death. If she issues such an order, it will definitely have problems.

Hange Zoe looked at Su Xiao with hatred, the choice of the person killed their leader first was too evil, resulting in the Survey Corp could only use 5% to 10% of the total combat power.

The chasing was still going on. Su Xiao could only shoot six bullets in two minutes.

After two hours of chasing, the Survey Corps had only 500 people left.

The successive shooting made Su Xiao's shooting skills more and more accurate. Now he could shoot four horses with six bullets averagely.

After the broken elf filled the bullets,

Su Xiao pointed the gun at Hange Zoe.

The feeling of lacking confidence in the 'shot where he aimed' had disappeared. Su Xiao was not a shooter, but he had mastered the basic shooting skills.

The 21 points of power attribute made his arm steady as a rock. The 17 points of agility made the speed of his nerve reflection extremely sharp, and the 17 points of intelligence attribute and heart eyes made his perception increased a lot.

The support from these 'hardware' and shooting practice in high intensity, his current shooting method could at least not miss the target.

As for hurting the target every time, it was a dream.

He breathed calmly, the broken elf which became very hot made Su Xiao understand that it was impossible to shoot thousands of times. His body could support, but the broken elf could not hold it.

Boom.

After the bullet was fired, the light red bullet flew over Hange Zoe.

Feeling the broken hair of her sideburns and the burning sensation from the bullet, Hange Zoe shrank her head subconsciously.

Boom.

Another shot.

Huh, this bullet flew over the left side of the horse under Hange Zoe, the well-trained horse did not respond, as long as it was not hit, it would not stop running.

Boom.

The third shot.

The ding sound, the bullet hit the '3D Maneuver Gear' in front of Hange Zoe, the kinetic energy attached to the bullet made Hanji Zoe's body begin to lean back, but her legs tightly clamped the horse's belly.

Boom.

The fourth shot.

Snigger, blood splashed on Hange Zoe's lower abdomen, there was a bloody hole which was as big as a fist in her lower abdomen.

“Ahhhh!!”

Hange Zoe yelled, her legs clamped the horse's belly tightly, she looked like that even she died, she would die on the horse's back.

Boom.

The fifth shot.

The horse under Hange Zoe screamed, the horse rolled forward. The whole horse slammed to the ground after it leaped a half loop in the air.

Hange Zoe, the head of the Survey Corps, detached from chasing team of the Survey Corps.

This situation caused a chain effect, more than half of the members of the Survey Corps tightened the reins and stopped chasing.

Hange Zoe, the head of the team, was defeated they did not want to keep chasing.

This was just an excuse. They became the targets for two hours, the endurance of these people had reached the edge of collapse.

They were not afraid of fighting with titans, they were not even afraid of death, but this kind of fights where they could not resist made them very unwilling.

The titan's footsteps did not slow down at all, they will die if they continue.

From the 800 people initially to only about 100 left now.

It was not that the strength of the Survey Corps is weak. It has been running for a day and night to let the horsepower reach to the limit. These horses could persist until now was good.

Most of the remaining 100 people had begun to hesitate, the Levi in front was their last spiritual support.

Su Xiao also noticed Levi, who was rushing to the forefront. He didn't shoot immediately. He was waiting for the broken elf to fill six bullets.

Chapter 187: Horrible expression

After pursuing for three hours.

Su Xiao still held the broken elf and continued to shoot. There were only a few dozen people left in the Survey Corps.

The members of the Survey Corps were very miserable, leaving only a few dozen people from the original 800.

This was the price of chasing without strength. It was not that Erin was stupid to cause this scene to appear, but Su Xiao's surprise attack on the 'wall Rose' was too sudden.

From Reiner being exposed to kidnapping him and fleeing, the Survey Corps did not have time to prepare.

The current situation was only a chain effect, Su Xiao just took the preemptive opportunity.

Survey Corps chose to face the situation when the people and horses were exhausted. If they don't chase, they'll feel unwilling. It was an infinite loop.

On armored titan's shoulder, Su Xiao tried to touch the broken elf's barrel with his hand.

Shhh.

It was very hot, if he continues to shoot for a while, the broken elf may break.

A maximum for the shooting was dozens of bullets, broken elf must not be able to hold if he shoots more. The barrel was too hot.

Su Xiao's sights gradually sharpened, the muzzle was aimed at Levi.

Boom.

Without hesitation, it was a shot.

Levi's horse screamed, and a bloody hole in the chest of the horse appeared. The whole horse fell down with Levi.

Levi was quick in movements, he tried to adjust his figure in the air.

Levi landed with a boom and squatted to the ground after rolling for a few loops on the ground.

Although Levi looked unrestrained, he felt faintly painful, he immediately got up and wanted to chase with another horse. The pain in the joint made Levi stagger for two steps.

A shot hitting Levi's horse made Su Xiao very surprised. He aimed at Levi's trunk.

Sure enough, wanting to be a sharpshooter was just a dream.

However, Su Xiao, who is away from the level of 'shot where he aimed,' was already very satisfied. The previous shooting skill was really embarrassing.

Levi falling from the horse represented the Survey Corps collapsed, members of the Survey Corps stopped chasing.

There was no meaning to chase. The enemy's means were too 'shameless'.

Although the Survey Corps stopped chasing, the figure was still going on, she was Mikasa.

After discovering that there was only Mikasa left, Su Xiao put the broken elf away.

The Survey Corps was still nearby so the armored titan could not stop. If they run out for a distance and Mikasa dares to keep chasing, she will fall into the snare.

Moving the right hand which was a bit numb, Su Xiao sat on the armored titan's shoulder.

Looking at the remaining time of the main task, there were 12 days and 17 hours, which made him feel a little worried.

He did not know how big 'Paratitivu' was, but it should not be small from the world inside of the wall. He could only look forward that 'Paratitivu' was not far from 'Marley Empire'.

Su Xiao had some concerns whether he could arrive at the Marley Empire in the time limit of the main mission.

If it is not the pattern inside of the wall is too small, there is no potential to dig, Su Xiao will not cooperate with Reiner and others.

Several organizations in the world inside of the wall were the training corps, Survey Corps, Stationed Corps, Military police regiment, and the strongest royal family.

He did not consider Several corps. The gains from joining these corps were not great.

As for the royal family, Su Xiao even did not want to join. In his opinion, the royal family inside of the wall was not a good choice as well. It was ten times more dangerous to join the forces than to join the CCG in the last world.

So Su Xiao thought of the world outside the wall, the Marley Empire was a good choice, there were Reiner and others who could help him.

And the basement of Eren's house, even if he can't reach the Marley Empire, there won't be much loss.

If there are no Reiner and others leading the way, trying to find the basement of Eren's house was found a moon in the sea, which is the main reason for Su Xiao to cooperate with Reiner and others.

What's more, Reiner and others were still a kind of insurance. Now Su Xiao had gathered the six inheritors of the power of titans that Su Xiao intended to gather when the plan failed he could get the final benefit.

The main question now was how far the Marley Empire was.

Su Xiao sighed in his mind, he had a feeling that the Titan world was not suitable to dig vaguely.

The duration of the task was too short, and the number of tasks was less.

The scope of the derivative world was so broad to let people speechless, the distributions between the forces were far away, there was no way to travel quickly.

This derivative world was like the reincarnation paradise wanted him to familiarize with the small and medium wars.

Temporarily forgetting all kinds of thoughts in his mind, these things would be concluded later.

The speed of the armored titan gradually slowed down, but Mikasa behind was not close, her horse also gradually slowed down.

Five minutes later, the horse under Mikasa gradually stopped, even if Mikasa whipped it, the horse still stood in the same place.

The horse was squatting to the ground, the foam appeared in its mouth. The undulations of the horse's belly were getting slower and slower. Finally, the horse stopped breathing and died.

Mikasa looked at Eren, who was gradually going far away. Her sights began to dim.

Mikasa squatted on the grass, her arms hung down powerlessly, she had tried her best to pursue, but Eren was still going far away.

“Eren!”

Mikasa shouted.

Su Xiao sided to look at Mikasa, the winner took it all. The person lost this game, and she was lucky not to lose her life.

After being chased for three and a half hours, Su Xiao got rid of the Survey Corps. Although the Survey Corps looked very miserable, the real casualties were not great.

Because he could not accurately shoot, Su Xiao chose to shoot horses, but it was not known how many members of the Survey Corps could return to the wall.

The armored titan, Reiner, ran for an hour and then stopped. At this time, the armored titan began to vaporize.

After Reiner released titan mode, red marks appeared on both sides of his cheeks, which was a feature of physical strength overdraft.

“We finally get rid of the Survey Corps.”

Reiner lied on the grass without strength, Bertolt Hoover stepped forward to give some water to Reiner.

Su Xiao sat silently on the ground to think about something, thinking about two minutes later he went to Reiner.

“Reiner, how long it will take to return to the empire from here?”

Su Xiao this question seemed careless was related to the lives of several people.

“At our current speed..”

Reiner seriously pondered.

“It will take about three days to leave Paratitivu. After that, we will travel on the sea for eight or nine days back to the empire. We hid a boat at the seaside when we came, so don't worry about crossing the sea.”

Reiner barely sat up.

“You don't know the way back, how did you come?”

The doubts appeared in Reiner mind.

Su Xiao calculated that the time limit of the mainline mission was more than 12 days in his mind. It could take about 12 days to reach the Marley Empire. There were still eight or nine days of traveling on the way. If the weather at sea is not good, time will be longer.

His heart gradually sank, the most fearful thing happened. The titan world was really not suitable for development. It was indeed a reincarnation paradise's way to make him adapt the small and medium wars.

“I almost have a headache.”

Su Xiao lightly pressed his forehead.

“Byakuya, you haven’t answered my question yet.”

Reiner’s tone became serious. Su Xiao was not a spy with them, so they would not fully believe in Su Xiao.

“Ah, that question....”

Su Xiao’s body was getting tighter. He actually had a good excuse. Just say that he came by airship, but it was not necessary now.

“I have never told you a secret message.”

Su Xiao spoke to see Eren and other captives and indicated Reiner and the other three people were close.

Reiner and Bertolt Hoover looked at each other. Because of Su Xiao’s previous performance, the two men approached Su Xiao, but Annie stood in the same place and did not move. This may be a woman’s intuition.

“I am not actually a person from the Marley Empire.”

Su Xiao smiled, his eyes flashed a cold light, the dragon flash appeared in his hand!

When Reiner saw Su Xiao’s expression, his pupils tightened, and his face was full of fears.

Chapter 188: Ferocious

“Quickly spread out...”

Reiner screamed with a distorted expression, at the same time put his thumb into the entrance, ready to bite his fingers to turn into a titan.

The bright knife light passed through, Reiner lost consciousness after his sight turned black.

Puchi.

A lot of blood splashed on ‘Bertolt Hoover ’s body, and Bertolt Hoover’s mouth opened, his expression was astonished.

After Su Xiao killed Reiner, the action kept going, and he turned his back to cut through the head of ‘Bertolt Hoover’.

Bertolt Hoover had lost his life before turning into the colossal titan. His body fell down softly.

Su Xiao’s movements kept going, he threw off the blood on the blade, the blood glazed on the green grass. He rushed to Eren in two steps.

“What is this...”

Puchi.

Eren’s half of head was cut off, he slammed down and lost his life.

Su Xiao looked at Annie, Ymir and Christa Lenz.

At the moment, Annie was frightened. Su Xiao’s attitude changed too fast. He just helped them to get rid of the Survey Corps previously. At this moment, he suddenly turned to kill them with a knife.

Su Xiao rushed to Annie, only Annie need to fight on this battlefield.

Reiner was unable to resist because he was too weak, Bertolt Hoover had no opportunity to respond.

The first to kill Eren to prevent any unknown things, Annie's distance was a little far away, she was not close to Su Xiao previously.

Su Xiao leaned and rushed forward, he was already in front of Annie in a sudden.

In this very short time, Annie bit on her white index finger.

Boom!

Golden lightning fell, and the impact force came.

In Su Xiao's sight, he was emotionless. He had fought with Annie before, he could easily kill her.

A huge foot stepped on, Su Xiao jumped over to escape the foot.

Boom!

The soil and the burrs splashed, the knife light appeared.

Puchi.

The toes of the two titans were smashed, and the female titan staggered for a few steps.

Annie now finally understood that they were cheated, but why did this man do this?

Annie tried to recall the scenes on the way in her mind. She suddenly thought of Su Xiao's moves of overturning cabinets in the basement of Eren's house.

This man wanted to find the basement of Eren's house through them.

Annie was right, Su Xiao cooperated with them was to find the basement.

There were not many places could get benefit in titan world, the basement was a good choice.

The humans in the Titan world were not too strong, so the plot of the whole world developed around the wisdom titans.

Su Xiao gathered most of the Titans inside of the wall by arrangements and helped them get out of the wall.

It was a good thing to be able to arrive at the Marley Empire. If he can't reach the Marley Empire, he'll use these titans to make up for the loss.

There were nine wise titans in the titan world. After the arrangements, Su Xiao gathered a total of five wise titans, another one came actively, a total of six wise titans.

After successfully escaping from the Survey Corps and knowing that he could not reach the Marley Empire, Su Xiao chose to kill the inheritors of the power of titans directly.

Crack, Boom.

Su Xiao and the female titans fought together, the soil on the grassland splashed, and the sound came far away.

One of titan's arms was thrown outwards, Annie's situation was in danger.

Ymir witnessed this scene, she had high intelligence and knew that all of this was done by the man.

Ymir looked around, she saw a small puddle in the grass not far away.

She climbed to the front of the puddle with struggle, Ymir did not care how turbid the water in the puddle, she put her head into the puddle and began to drink.

Ymir, who had not been drinking water for a long time, drank a lot of dirty water, and she obviously felt the strength of her body recovered.

Trying to stand up, Ymir walked slowly to Christa Lenz.

“Christa Lenz listened to me, I will let Annie take you to go first, goodbye.”

Christa Lenz who was tied understood what happened, tears welled up her eyes, and she kept shaking her head.

Ymir shouted after deeply breathing.

“Annie, you take Christa Lenz to go first, I can help you delay this monster.”

The female titan who was fighting with Su Xiao looked at Ymir sideways.

Just a side move, the female titan was almost had a leg cut off by Su Xiao.

Annie only hesitated for less than a second and nodded. Ymir's face was filled with joy and bit her palm.

Boom!

Another titan figure appeared, Ymir surprisingly had the physical strength to become a titan.

Ymir, who had become a jaw titan, was about seven meters tall. Because of the lack of physical strength, the jaw titan had not even formed the skin. The whole body had only muscles and skeletons, there were no arms.

When the jaw titan appeared, she rushed to Su Xiao, the big mouth full of fangs biting at Su Xiao, and the female titan took the opportunity to flee away from the battle and grab the Christa Lenz on the ground.

“Quick... escape.”

The hoarse voice came from the jaw titan's mouth, this titan could surprisingly speak.

Su Xiao held the dragon flash tightly in his hand, the long knife whistled, he cut broke the titan's calf by one knife.

With the appearance of the jaw titan, it could be seen that she could not last long and did not pay attention to her.

Because of this, Ymir did not take Christa Lenz to escape, she could not run too far.

Annie knew how terrible the sword in Su Xiao's hand was. After catching Christa Lenz, the female titan turned and ran.

“Don’t even think about escaping.”

Su Xiao’s electrifying burst of speed was faster than the female titan, he could stop the female titan before she ran.

A few steps rushed to the feet of the female titan, the female titan just ran five or six meters away, the body’s inertia had not been raised.

Su Xiao held a sword in one hand and aimed at the female titan’s Achilles tendon.

“Pooh!”

A loud spitting sound came from behind which made Su Xiao’s flesh creep, the action of waving his sword stopped and tried to move sideways.

Shh.

A white object flew across his ear, the kinetic energy of this thing was not worse than the bomb, whizzing and flew out of Su Xiao’s sight.

Su Xiao escaped an unknown attack, but the female titans had run out for a few meters away with Christa Lenz.

The most important thing was that the female titan had already run up, now with his speed, he won’t be able to catch up.

Turning his head and looking behind, the jaw titan climbed on the grass, she had no strength to continue to move.

There was one fang disappeared in the jaw titan’s mouth, the attack was a tooth spat out after holding it in her mouth.

Is this a power of the jaw titan?

The power of that tooth should not be underestimated, it was no better to be hit by that tooth than by a bomb.

Shhh.

The steam rose and the jaw titan’s body rapidly vaporized. Ymir climbed out of the wreckage of the titan.

“Cough, cough, hahaha.”

Ymir lay on the ground and laughed. Su Xiao walked to the front of Ymir.

“Reiner and Annie are really stupid. If it’s me, I will not believe you, no matter how much you know about Marley or know their mission.”

Ymir had given up on resistance.

“Ha, do you still think that their mental states are normal? They need a ‘hometown’ too much, and I have prepared a lot of ways to convince them to believe in me, but I haven’t used it.

Look at your smart intelligence and give you a time for the last word. ”

Su Xiao put the dragon flash on Ymir’s neck.

Ymir looked calm, and there was no fear in her eyes.

“I’m satisfied that Christa Lenz can leave, there is no last word, I am defeated by you this kind of guy with horrible power and full of plans, I have nothing to say.”

“You have integrities.”

Dragon flash cutover Ymir’s neck. After ten seconds, Ymir died because of excessive blood loss.

After several bodies appeared on the grassland, three of the four men dropped treasure chests.

One blue, two green.

Chapter 189: Invitation from the adventurous group.

Su Xiao put away the three treasure chests. There were a lot of tips from the reincarnation paradise. He didn’t check it because he had been fighting with Annie. Now he had time to check.

[You kill ‘Reiner Braun’ (the inheritor of the power of the armored titan), gaining 4.2% of the source of the world, and now you have a total of 20.6% of the source of the world

[You kill ‘Bertolt Hoover’ (the inheritor of the power of the colossal titan), gaining 4.1% of the source of the world, and now you have 24.8% of the source of the world.]

[You kill ‘Eren Yeager’ (the inheritor of the power of attack on titan), gaining 9.6% of the source of the world, and now you have 34.4% of the source of the world.]

[You kill ‘Ymir’ (the inheritor of the power of the jaw titan), gaining 4.9% of the source of the world, and now you have 38.9% of the source of the world.]

.....

[Because more than half of ‘the inheritor of the power of the titan’ was killed at the same time, the power of the titan appeared the phenomenon of chaos.]

[The ancient titan(initial) rebirthed..., drop..., did not find a suitable carrier, the power of the Titans collapsed.]

[Warning: The rules of the titan world have collapsed.]

[Warning: The rules of the titan world have collapsed.]

[Warning: The rules of the titan world have collapsed.]

[This derivative world will reset the time, the timeline reset.]

[Derivative world collapse, hunter, please leaves as soon as possible.]

.....

This series of tips made Su Xiao a little surprised. He had a feeling that he played the titan world to make it break.

Boom!

A loud noise came from behind, Su Xiao looked behind, he could see a large number of buildings' wreckages rising into the sky.

“There... the world inside of the wall?”

Crack, crack.

The ground under Su Xiao's feet began to crack, the surrounding grasses and trees quickly withered.

In less than five minutes, the grassland where Su Xiao was located had become a desert.

The sky was black, the rumbling of the thunders, and several horrible lightning flashed across the dark clouds.

Shhhh.

A fireball slid down rapidly from the sky, a long tail flame and slammed to the ground with a bang.

The island where the world inside of the wall located instantly broke into pieces, the seawater overflowed from the gaps of the island.

”Is this resetting the world? Why does it feel like the end of the world?”

Su Xiao felt that the ground under his feet was constantly shaking. Fortunately, he had completed the returning condition and could return at any time. He was ready to see what would happen in the titan world.

Crack, crack...

Suddenly there was a large crack in the sky, Su Xiao looked up.

At this time, there was a magic circle made by space cracks in the sky of the titan world. The whole magic circle was boundless. Perhaps this magic circle covered the entire titan world.

[Warning: The power of space-time is about to invade, the hunter need to leave immediately, and the survival rate of the hunter in the invasion of the power of the space-time is 0%.]

After receiving the hint of the reincarnation park, Su Xiao no longer looked around, but now it was important to escape.

“Return.”

A force of time-space covered Su Xiao, this familiar feeling made him subconsciously hold his back head.

Boom.

Su Xiao cursed angrily in his mind, then fell asleep deeply.

Reincarnation paradise could destroy the world. Was it impossible to change the way of transmission?

Su Xiao was full of resentment unconsciously. When he recovered his consciousness, he was already in the exclusive space. He returned to the reincarnation paradise.

[Transmission is completed, the hunter returns to the exclusive room.]

[Exclusive room is an absolute security point, except for the hunter, no one is allowed to enter]

[The hunter returns to the reincarnation paradise. starting to calculate the rewards of the derivative world.]

Derivative World: The attacking titan.

Difficulty: Lv.7 (difficult).

The source of the world: 38.9%

Number of completed tasks: 2. (attack and defense mission × 1, main mission × 1)

Comprehensive evaluation: A+. (Note: The score is E-to S+. The comprehensive evaluation is based on the sum of the sources of the world and the number of completed tasks.)

Start collecting the source of the world...

The source of the world was collected, and the rewards were settled.

Earn rewards: 12 points of the attribute points (including the attribute points obtained in the derivative world), 12,000 paradise coins.

The overall rating was A+, the hunter level increased 2 levels, you upgraded to Lv.7. (The rating was increased based on the comprehensive evaluation.)

The hunter level had reached Lv.7, and the storage space had increased to seven cubic meters.

The settlement was completed, the reward had been automatically deposited into the hunter's brand.

Checking the completion of the hunting task, of course, the completion (2/3), reward the bronze honored medal × 2 which could exchange items in the honor store.

.....

After seeing the various rewards, Su Xiao got up and walked to the bed. The whole body fell on the bed. After ten meters, he fell asleep.

In the titan world, Su Xiao could be said as he was physically and mentally exhausted.

Although he did not encounter the enemy with horrible power, he thought for a long time.

The Titan world was a world that made Su Xiao familiar with the battlefield mission. The time limit of the mission was not counted, and the map was so large that people could spit blood.

What was even more speechless was that the task in titan world could be received very few. In addition to the two missions released by the reincarnation paradise, Su Xiao did not discover other tasks.

In addition to the royal family inside of the wall, he had been in contact with other important figures, and the protagonist of the plot was more like a pendant never left him.

Even so, he still did not receive any tasks, which showed how many tasks in the titan world.

In such a speechless world, Su Xiao also played it with new tricks.

Su Xiao's idea was to join Reiner and others to the Marley Empire. Even if they can't reach the Marley Empire, they will pass through the basement of Eren's house.

Even if Eren's basement had nothing to gain, Su Xiao could kill the inheritors of powers of several titans who got out of the city with him.

There were powers of the nine titans, he gathered six, which showed how many brain cells he used.

.....

Ten hours later, Su Xiao woke up, a strong sense of hunger came. After washing up, Su Xiao left the exclusive space.

In a restaurant opened by a worker.

The restaurant was not large, it had only three dining tables, but the restaurant was warm by decorations and the overall warm colors gave a sense of relaxation.

“Sorry to keep you waiting so long.”

A 20-year-old cook walked out of the kitchen with a few plates of the food which were carefully cooked.

The cook was not high, but the figure was good, although she was not beautiful, she gave a feeling of looking more and more pleasing.

The name of the cook was Xia, there was only one word. Su Xiao always ate food in this restaurant when he was in the reincarnation park.

“You just get out of the derivative world? You're full of the smell of blood.”

Sitting in the opposite of Su Xiao, her hands were holding her chin.

Su Xiao had visited this place many times, so the two were familiar.

“Well, the derivative world collapses, so get out earlier.”

Su Xiao picked up a piece of bacon and chewed it in the mouth. Xia's cooking skills were very high. Because the location of the store was remote, there were not many guests here. That's why Su Xiao came often.

“Collapse? How does the derivative world collapse, what did you do in the derivative world?”

Xia looked at Su Xiao with full of surprise.

“Sorry, Sorry, I should not ask about things in the derivative world.”

Xia apologized, asking the actions of the contractor in the derivative world was a taboo.

“I killed a lot of important characters, I'm also surprised that the derivative world collapsed.”

Su Xiao put a bowl of fried sauces noodles in front, and Xia began to tell about her experience in the derivative world.

“I told you that the ghouls in the ghouls’ world are all monsters. If you get there, you can’t be careless. I used to go to the ghouls’ world, and I was almost eaten by an A-class ghou. These guys are powerful and inhuman. ”

Xia showed an expression that the experience still haunted her.

“Oh? Thank you for your reminder.”

Su Xiao secretly said that he may not be able to enter the ghouls’ world, where he had killed through.

Finishing the food on the table, Su Xiao lit a cigarette to indicate to check out.

“A total of 16 paradise coins, give me 15 paradise coins will be fine, you are a regular customer.”

Su Xiao traded 20 paradise coins to Xia. Although she was a bit talkative, she was very kind.

“This....”

Xia wanted to refuse, Su Xiao leaned on the chair and waved his hand.

At this time, the door of the restaurant was pushed open, a contractor with a suit came into the restaurant.

The contractor’s pace was steady, probably he was twenty years old, with a calm smile on his face.

“Hello, Mr. Byakuya, my name is Carl, there is something I want to talk to you.”

Carl sat in the opposite to Su Xiao, holding a pair of tarot cards in his hand to play.

Carl’s strength was not weak, Su Xiao rarely felt pressure from other contractors, this Carl gave him a very bad feeling.

“What’s up?”

Su Xiao frowned tightly, the person not only knew his fake name but also knew where he was.

“I want to invite you to join the “Phantom adventurous group”, you don’t have to refuse immediately, the rules of the brigade were different from the ordinary adventurous group.

The adventurous group had a maximum of 13 people, each of the 13 people would not enter the same world every time when they experience the derivative world.

Moreover, there was no subordinate relationship in the adventurous group. There were only 13 numbers. The less the number, the stronger the strength. You don’t have to follow anyone’s orders, because the adventurous group did not have the title of the head.

Even if you become enemies with your companions in the adventurous group, you can declare war before you fight, others will not stop, we will only watch it.”

After listening to Carl’s introduction, Su Xiao scowled. He felt familiar with this Adventurous Phantom group.

“Yes, similar to the phantom troupe of the Hunter World, the adventurous group is our inspiration, but compared to the hunter world’s troupe, our adventurous group is more relaxed, it is a good idea to bring a group of monsters together.”

Carl smiled happier.

Su Xiao pondered for a while, he considered the true and false in the person’s words.

”Why do you invite me to join?”

“Because your strength is sufficient, the adventurous group will share some information and enjoy the skills of the adventurous group.

But..., although you can kill Lycoris radiata adventurous group alone, this does not mean that you can join us directly, you will go to the arena to fight and make sure the position, after that adventurous group, welcomes you to join.”

Carl no longer spoke, waiting for Su Xiao’s response.

“I will consider it and give you a reply within three days.”

Chapter 190: Physical and mental relaxation.

Carl left a tarot card and some information from the ‘Phantom adventurous group’ left.

Su Xiao did not touch the tarot card, just picked up the information of the Adventurous Phantom group.

There were no such rules for the Adventurous Phantom group. Basically, he could enjoy the adventurous group skills and numbers after joining the group.

Information sharing made Su Xiao very concerned. When he received the information, he also needed to pay for information.

“It’s a really good team, but unfortunately.”

Su Xiao dropped the information. He did not intend to join the adventurous group for the time being. The reason was very simple. He was a hunter, Carl’s strength has not been weak. He now at most had sixty percentage to defeat Carl.

He keenly captured the magic surged on his body, he was good at dealing with the Sorcerer.

Carl, a powerful sorcerer, his rank was eleventh in the adventurous group, which showed how strong others were.

Ordinary contractors would be happy to join the adventurous group, but he should be cautious.

He would not join at least until he was strong enough to a certain extent.

If you want to join this kind of adventurous group without limiting your freedom and the head of the team, and the group level is not low, your strength should be strong.

Su Xiao was prepared to consider joining after his strength reached to the top seven of the adventurous group, which was more secure.

It was not that he was timid, the place like reincarnation paradise full of dangers and he never knew what people thought. Only his own strength was true.

Moreover, Su Xiao had always believed that there was no free lunch in the world, not even talked about reincarnation paradise where the weak were the prey of the stronger. He was looking for an opportunity to investigate what the organization the adventurous group was.

Su Xiao picked up the tarot card on the table and gave a message to Carl. The message was very simple.

‘I’m used to being alone, I won’t join, for the time being, thank you for your invitation.’

Su Xiao sighed of relief and leaned on the seat.

The hunter was destined to be alone, this identity brought convenience and costs.

Su Xiao saw the regulations of the reincarnation paradise when he first entered the reincarnation paradise. The second one was:

[What you have to pay for what you get.]

Taking out the dragon flash, Su Xiao looked at the blade of the dragon flash carefully, perhaps only this knife would accompany him until he reached the end of life, or cut open the chains of fate.

“What are you thinking?”

Xia took a glass of orange juice and looked at Su Xiao with her big eyes.

“Nothing, thinking about life.”

“Ha.”

Xia chuckled.

“You haven’t even born, what’re you thinking about life, but it’s rare to see a good person like you.”

Su Xiao stunned, looking at Xia with surprise.

“I? Good guy?”

Su Xiao pointed at himself.

“Yeah, you always come to my restaurant, of course, you’re good people.”

Xia lightly touched her hair in front of the forehead and put her hair behind her ear.

Do you kill a lot of people in the derivative world?”

“A lot.”

Su Xiao spits out a cyan smoke and flicked ash in the ashtray handed by Xia.

“How many?”

Xiao was curious.

“Probably .”

Su Xiao extended two fingers.

“Twenty?”

Su Xiao did not speak.

“Hey, you won’t kill more than two hundred people.”

Xia looked at Su Xiao, who seemed to be looking at strange creatures.

“Maybe more.”

Xia looked at Su Xiao with stun.

“No... it won’t be two thousand.” “Almost.”

Su Xiao was calm, and Xia was already stunned.

“That..., don’t you feel guilty?”

“Yes, but one day I may die too. Good and evil are given to judge by the Gods, I will accomplish a goal before I see them.”

Su Xiao’s face was still calm, but the long-term killing made him a little tired. He never revealed too many feelings, it would be found weakness by the enemy.

“Although I am not as strong as you, It seems that I live a lot easier than you, take it... don’t thank me.”

Xia handed a tablet which was as big as a palm, there was a puzzle solving game.

”Try it, it will relieve stress.”

Su Xiao picked up the tablet, this was a puzzle solving survival game, the quality of the painting was exquisite extremely, if it’s in the earth, it will be better than any game.

Trying to play for a while, Su Xiao scowled, this thing was very interesting, the content was a person wanted to survive in the original forest, passed through dilemmas, searched for food and so on.

“Thank you.”

Su Xiao got up and prepared to leave when he walked to the door and stopped.

“If we enter the same derivative world in the future, I will protect you.”

Xia was surprised to see Su Xiao.

“The difficulty of the derivative world I entered was a bit high, and it has recently risen to Lv.5, which may make you have troubles.”

In the world above Lv.3, there would be a person who was stronger than human beings, so the Xia with Lv.5 was not low among the workers.

“Oh? Then we may not be able to meet. If we meet, I will protect you.”

Su Xiao left the restaurant.

He hadn't chatted with people for a long time. After he left the derivative world, he had made efforts to become stronger, and life in the real world was boring as well.

People had their own thoughts in the derivative world, and in the real world, he needed to avoid discovering by the state apparatus.

Su Xiao felt that this could not work. If he continues this way, he may have problems. The human was not a machine. He had been tensed then he may have mental problems. The consequences were unimaginable.

It was impossible to relax in the reincarnation paradise, then he must find a way to relax in the real world.

Su Xiao thought of a solution, but now the first thing was to deal with the benefits in the derivative world.

He would strengthen the attribute points first, and then dealt with other matters.

Ten minutes later, Su Xiao arrived at the property enhanced hall, and the hint appeared after entering the property enhanced warehouse.

[Welcome to use the property enhanced warehouse, please pay 100 paradise coins, the start-up fee.]

Su Xiao's current attributes appeared in front.

Strength: 20 (original 21 has been reduced by equipment bonus)

Agility: 17

Physical strength: 10 (original 12 has been reduced by equipment bonus)

Intelligence: 17

Charm: 3

[Hunter can freely assign attribute points: 12 points]

[Drop, the main attribute of the hunter is detected as strength, agility, intelligence, please upgrade these three attributes first.]

Su Xiao pondered how to assign attribute points. He was prepared to balance the three main attributes. He strengthened strength was for the reward after arriving 20 points previously.

In the end, his distribution results were: strength +2, Agility +5, and intelligence +5.

[The attribute distribution is completed, the strengthening starts, the strengthening will be accompanied by a huge pain. Yes/No use of anesthesia function, this function is free.]

He did not use the anesthesia function, as usual, the property enhanced warehouse began to operate after the assignment was confirmed.

The pain came from all over the body, Su Xiao's muscles and bones began to increase.

Although he had been experienced twice, cold sweat still came from the forehead.

Ten minutes later, Su Xiao was somewhat powerless to rely on the property enhanced warehouse. The strengthening did not end there. He also got a bottle of medicine in the titan world.

Taking out the medicine and the remainder of the reincarnation paradise appeared.

[Titan refined extract (semi-finished product), yes/no cost 13,000 points of paradise coins to complete.

Su Xiao looked at the existing paradise coins, a total of 21,247 paradise coins, which was his income in the Titan world, he had more than a thousand remaining before he entered the titan world.

Choosing a repair, the [Titan refined extract (semi-finished product)] in his hand floating.

More than a dozen sophisticated robotic arms explored from the inner wall of the property enhanced warehouse and began to complete the bottle of medicine.

The robotic arms quickly moved, and occasionally added some ingredients to the bottle of medicine. After half an hour, the completion was finished. A metal syringe appeared in Su Xiao's hands.

[Titan refined extract]

Quality: blue

Type: enhanced medicine

Effect: strength +2, agility +2, physical strength +2, intelligence +2 after injecting.

Rating: 67 (Note: Blue items scored from 31 to 70.)

Description: The mysterious medicine after refining, it would affect after injection, no side effects detected by the reincarnation paradise, it required to inject in the muscles.

Price: 13400 paradiscecoins.

.....

The score of [Titan refined extract] increased a lot after completing, as for the price, Su Xiao directly ignored.

Piercing the syringe into the arm and the light red liquid was pushed into the muscles, the effect was faster than the last time he used the enhanced drug.

Su Xiao's muscles gradually tightened, an unspeakable feeling appeared. In general, he was getting stronger.

The feeling of becoming stronger quickly faded, which made him an addict. Su Xiao opened his personal information, his attributes had changed a lot.
