

## R. Paradise 201

### Chapter 201: Cold

[Time is up, the derivative world: Akame Ga Kill is opened, there is no abnormality in this world, the space coordinates are stable, the power of time and space consumes 0.018 ounces.]

[According to the power of time is consumed, the lowest evaluation for contractors needs to reach D+ level in this world.]

Su Xiao stood in the same place, he had given up resistance.

Boom, the feeling of being hit by a stick on the back of his head appeared.

After transmitting for several times, Su Xiao was used to this feeling.

When he regained consciousness, Su Xiao was already in the world of snow and ice, the cold wind was blowing through the snow. He subconsciously shivered.

The snow flew in the sky, the cold wind penetrated the bone like a knife. At this time, the temperature was at least 40 degrees below zero.

Even Su Xiao couldn't stay for too long at this temperature, the cold wind was eroding his body heat.

“It's f\*\*king... cold.”

The trembling sound came not far away, Su Xiao looked at the side. There were more than a dozen contractors nearby.

“Stay...close to me, I am a fire sorcerer....”

An old man with a sorcerer robe lifted his staff while trembling.

Huh.

The fireball, which was as big as a washbowl appeared, dozens of contractors rushed over like hungry dogs that saw food.

“We're finally getting warmer.”

“Is the system trying to freeze us? Thank you, man.”

A strong man curled himself up with both hands, this guy was covered with metal armor, his cold resistance was very low.

“We're poor people who are struggling to survive. You're welcome.”

The old sorcerer smiled very kindly, he also put his hand on the strong man's shoulders while he was talking.

“The guy over there, don't you want to come?”

The old sorcerer greeted Su Xiao.

“Thank you, no need.”

Su Xiao did not feel kindness on the person. Instead, he felt he was ‘the same kind people’.

“Then see you next time, we don’t bother each other.”

The old sorcerer still smiled gently, Su Xiao noticed different information in that smile.

‘Do not bother each other, do not interfere with each other.’

Looking at the contractors far away, Su Xiao put his hands in front of his mouth and breathed hot air. The place he entered the derivative world was very unfriendly. It was actually frost soil.

[Entering the world: Akame Ga Kill]

World difficulty: LV.8. Extremely difficult.

The source of the world: 0%, (It will grow when the hunter explores or communicates with the characters in the current world, it will be calculated with the difficulty of the tasks when the world is settled, and form the final score.)

World instruction: forty-eight pieces of Teigu, the changes of the empire, Jaegers, Night Raid, human experiments, the decaying empire of thousand years.

The collision of the sword and the knife, the confrontation of the Teigu, the choice of good and evil, the cycle of killing and peace.

Teigu: About a thousand years ago, in order to maintain long-term dominion, the first emperor of the empire raised enormous money and power beyond imagination, and gathered the top craftsmen all over the world to use the super dangerous items as the materials, the rare metals such as Orichalcos and a large number of lost secret techniques to develop forty-eight pieces of unreplicable weapons which called Teigu.

Main mission: Supreme Teigu.

Hunting mission: Cleaning up offender No. 113?? Contractor.

When the hunter comes near the offender within one kilometer, the hunting function will be automatically turned on.

Warning: Do not mention anything about the ‘reincarnation paradise’ in this world. If the warning is invalid, you will be executed forcibly!

Tip: It is detected that the hunter does not master the language in this world, you will consume 100 paradise coins to master the language of this world automatically.

The world start!

.....

Su Xiao saw the ‘No. 113?? Offender’ of the hunting mission’, he felt not good.

“Reincarnation paradise, what is going on?”

Su Xiao's question was related to the hunting mission, the reincarnation paradise immediately replied.

[The official number of the offender is 113?? It has any errors, the hunting function is detecting..., the hunting function is normal, please actively complete the hunting task.]

Su Xiao scowled, there was such a special number, there must be something.

Su Xiao looked at the mainline task.

[Main line mission: Supreme Teigu]

Difficulty level: Lv.8

Mission instruction: getting the key to the supreme Teigu.

Mission information: Emperor's power is the strongest emperor, and the current holder is the imperial emperor.

Mission period: 30 natural days.

Mission reward: 4 points of the attribute, 12,000 paradise coins.

Mission penalty: full attribute-3.

.....

Su Xiao tightened his collar. He still didn't know where he was. How to complete the main task still had to be researched.

Su Xiao tended to join the empire side. From the original plot, if he joins to the night raid, it will be not easy to get the key of 'Supreme Teigu.'

If he follows the normal process, he will have the opportunity to get the key after defeating the little emperor, and it just has a chance.

Would the night raid let him take the key of 'Supreme Teigu'? The answer was no, they would be likely to fight with him.

Su Xiao was not a regular person. He intended to get into the Empire camp. Although the Empire camp would ultimately lose, this result was irreversible, this was public opinion.

There would not have many contractors to join the Empire camp, but there would be many of them to join the night raid camp. The power of the revolutionary army in the original plot was stronger than the empire, more than 70% of the ministers in the Empire were recruited by the revolutionary army.

Su Xiao was ready to sneak into the top position of the empire, finding an opportunity to approach the little emperor, and directly getting the key.

The competition for the main mission was fierce, the key was only one, the contractors were a lot.

"Interesting, all contractors grab a key, then see who would be faster, but I am more used to cut other people's hands."

He shivered in the cold wind again. Su Xiao took out a compass which was he purchased in the trading market. It was said that it was useful in many derivative worlds.

After distinguishing the direction, Su Xiao went to the south. If he guesses right, the current position is in the extreme north, the direction of the empire is in the south.

Crack, crack...

Su Xiao left a line of footprints on the thick snow, the figure gradually disappeared into the blizzard.

The mission period was one month, Akame Ga Kill world was obviously different from the titan world.

Walking in the blizzard, Su Xiao began to feel weak after traveling for an hour and even felt dizzy, this was a symptom of losing excessive body heat.

Taking some food contained high calories to get his strength back, Su Xiao continued to move forward.

Reincarnation paradise would not send him to this for no reason.

After traveling for about two hours, Su Xiao felt that the temperature slightly improved. The current temperature was about 30 degrees below zero, it was still freezing, but there was no danger of being frozen at any time.

Huh.

A strong wind blew, large pieces of snow flew all over the sky.

Su Xiao blocked his hand in front. He vaguely saw a high building in the distance in the blizzard.

[You have entered the edge area in the extreme north.]

The hint of the reincarnation paradise appeared, Su Xiao became excited and walked quickly to the edge area.

After walking toward, Su Xiao discovered that what he had seen before was not a towering building, but a city wall.

The wall was built by black stone stood in the blizzard, the surface of the wall was pitted, it looked like it had not been renovated for hundreds of years.

From this wall, he could see how decayed the empire was, the borderline was not even repaired. This wall was responsible for blocking the alien from the north.

“Don’t know what’s the timing right now. It is not difficult to join the Empire camp at that time.”

Su Xiao walked close to the city wall under the blizzard.

Chapter 202: Fighting as they met

Edge area in the extreme north.

This fortress was the important way of the northern border of the empire. Both sides of the fortress were jokul that were not melted all year round. The rock wall was steep, the jokul could not be boarded in many ways except for flying.

The harsh climate in the extreme north led the place was lack of resources. People living in the extreme north could only live by hunting. The customs passed down from generation to generation led the people here were fierce, everyone was a soldier.

The extreme north originally belonged to the empire, the high tax of the Empire led to the extreme north to leave the empire's control.

The people in the extreme north who struggled on the food could not afford that kind of tax, it was inevitable that they left.

The empire, which was located in the most prosperous position in the center of the mainland, certainly could not tolerate this thing, sending the army to suppress the extreme north.

In the empire's view, the extreme north was only a remote place. As long as hundreds of thousands of troops were sent, they could easily kill them and also shock other aliens.

Would the people in extreme north who were hunting for a living all year round have weak combat power? Of course not.

The two hundred thousand soldiers the empire sent collapsed in a month, the war between thirty thousand and two hundred thousand seemed ridiculous, but the extreme north got a great victory.

After the war, a key figure appeared in the extreme north: Numa Seika, known as the alien prince of the extreme north, had never lost with a Long Spear. He was a figure like a totem in the extreme north, was also the leader of the extreme north army.

The two hundred thousand armies that empire sent only seventy thousand survived, the rest of them would stay in this frozen land forever.

The empire had never had this kind of loss for hundreds of years. The small emperor of the empire who was underage was furious and sent five hundred thousand soldiers and the trump card of the empire.

At this time, the five hundred thousand soldiers of the empire settled in the 'the fortress in the extreme north,' but the situation was not as optimistic as they expected.

The soldiers from the empire who were accustomed to a warm climate lost a lot of members before the war after they had reached the extreme north.

Serious frostbite and heavy cold were like a death god that took their lives.

Although the medical treatments of the empire were developed, it was not popularized because the emperor was fatuous. Only the people with a high position in the empire could enjoy excellent medical Treatment.

Because of the existence of Teigu, the empire did not care about the hot weapons, so the wars still used cold weapons today. Of course, this also had a relationship with the useless emperor.

In the eyes of higher-ups of the empire, soldiers were just pieces that could be thrown after using, it was very inappropriate to give them expensive hot weapons.

The army of five hundred thousand soldiers rushed to the extreme north, the combat power they could play no more than two hundred thousand. This number was still decreasing with time passing.

On the wall of the edge area in the extreme north, a group of soldiers with white winter clothes routinely patrolled.

“This stupid place is so cold. When can I go back?”

A soldier tightened the winter clothes, but even the thicker winter clothes could not block the cold wind in the extreme north.

“Let’s finish it faster, go back to get warmer, the entire wall has been checked, no miss.”

Another soldier spoke, this was a team of more than a dozen people.

“It seems like someone is standing under the fortress.”

A soldier stood on the edge of the wall and looked down.

“The alien in the extreme north?”

“The snow is too much. I can’t see it.”

“He’s not like an alien. Have you seen an alien with the unlined garment? This guy is surprisingly not frozen to death, he should not be weak, let’s ask more people to check.”

Several soldiers asked the others and rushed to the gates. They did not dare to relax because they had a very strict general.

The gates opened and dozens of soldiers with long weapons rushed out of the fortress.

“Who is it?”

A soldier screamed.

The blizzard blew harshly, in this cold temperature, the person with the unlined garment breathed out white air.

“I don’t know if the fortress in the extreme north is still recruiting people. I am a traveler.”

The person had short black hair and a long sword on his waist. Although the long sword was not gorgeous, you could tell that it was not a normal product at first glance.

The small leader among the soldiers pondered for a few seconds.

“Let’s catch him first. He may be a spy from the extreme north army. Now it is wartime, we must not relax.”

The small leader screamed, hundreds of soldiers surged toward, the feet stepped on the snow made sounds.

Su Xiao who was surrounded by the group frowned, the reincarnation park did not provide identity this time, so he could only cover by the identity of the traveler.

Su Xiao had already thought of a status that was similar to his temperament, he would wait until he saw the leaders of these soldiers.

“Sure enough, joining the Empire camp is not that simple.”

Dragon flash was taken out, and Su Xiao was ready to fight with the empire army.

“Wait!”

A female voice came, all the soldiers’ movements stopped, their bodies were subconsciously stiff.

A figure with a white military uniform came from the blizzard, the style of the military uniform was very special, abnormally sexy, this was a tall woman, with a blue hair spread over her back to her waist, the strong wind blew the blue hair, The woman dressed like that in the extreme north, looking from the dressing the women should be a female general.

“What happened?”

The general’s tone was not so good, it seemed that she had encountered unpleasant things before.

“General Esdeath, I may have discovered the spy of the extreme north army.”

The little leader looked respectful and lowered his hand.

“A spy?”

Esdeath looked at Su Xiao.

“Well...it should be, I just doubt it, after all, it is wartime.”

The small leader told her the previous situation and did not contain personal emotions.

“Well done, although we regained the fortress, we can’t relax.”

“Thank you for your praise, general.”

Getting the praise from Esdeath, the little leader was happy and retreated to the side respectfully.

“So, what should we do with you this spy of the extreme north army?”

Esdeath looked at Su Xiao with anger and pulled out the fine sword at the waist.

“If I say that I am not a spy, you will not believe me no matter what.”

“Ha.”

Esdeath rushed toward with a sword, the figure was extremely fast.

Su Xiao’s sights were sharp, he raised his hand and put dragon flash in front of him.

Ding.

The sparkles splashed high, the long sword and the fine sword intersected, the falling snow was blown away by force.

“Interesting, you actually blocked it.”

Esdeath's lips were tilted, the ice flame seemed to be burning in her eyes. She was a Sadism queen who would be very excited after meeting strong enemies.

“So, can you block this?”

Esdeath had a row of ice blades in front of her without warning. The ice blades stretched rapidly and stabbed toward Su Xiao.

Su Xiao was now fighting with Esdeath, the sudden appearance of the ice blade didn't surprise him much.

Su Xiao's battle experience was so rich that he had already reacted at the moment when the ice blade just appeared.

He moved aside, dragon flash in his hand moved which both blocking Esdeath's sword and crushing those ice blades by the blade point.

After a sound, the ice blades cracked open, the ice was splashing.

Su Xiao lifted his foot to kick a large amount of snow to cover Esdeath's sight, and sided to kick Esdeath's waist.

Boom.

Su Xiao felt his calf was numb, he kicked on a hard object.

Crack.

The ice wall that appeared suddenly had a large crack, which made Esdeath's expression slightly changed.

“This power...”

Esdeath was even more excited, she was eager to fight against a strong enemy, now she met one.

At this time, a sharp blade broke through the snow, the sharp edge made Esdeath not dare to look down.

She had to attack. Otherwise, she would be at a disadvantage, or she may even die.

After making a judgment in her mind, Esdeath pulled up an ice wall which was half-meter thick.

The ice wall rose, but Su Xiao's blade did not stop.

Crack.

The ice wall which was half-meter thick was cut off directly, Esdeath had taken the opportunity to retreat.

Esdeath folded her hands, and her fingertips shone white light.

“Weisschnabel.”

Dozens of white ice thorns appeared around Esdeath, these ice thorns were abnormally sharp.

Chapter 203

“Although I don’t know where are you from, you’re a good subordinate.”

Esdeath waved her arms, and dozens of ice thorns rushed forward rapidly.

Su Xiao’s pupils contracted slightly as he began to capture the tracks of those ice thorns.

Dragon flash in his hands cut incessantly, the ice thorns that flew to him were smashed constantly.

Su Xiao felt that Esdeath was very strong. She was stronger than any enemy he had ever fought. She had a lot of nonsense during battle. If they fight seriously, the two are likely to die together. He had a way to deal with the skill of freezing space.

Looking at Esdeath in front of him, Su Xiao suddenly thought that if he wanted to promote quickly in the empire to approach the little emperor, Esdeath was a good opportunity.

“You win, I am your subordinate now.”

Su Xiao’s words made Esdeath stunned.

“Are you kidding me? This kind of combat can’t satisfy me.”

Esdeath was obviously somewhat unhappy.

“It doesn’t matter if there is an army attack in the rear?”

“An army?”

Esdeath stopped the action which was ready to rush forward, she just loved to kill, not irrational.

Su Xiao was half-squatting and inserted his finger into the snow.

“One, three, five, or so.”

When Esdeath heard Su Xiao’s words, she smiled.

“Five people are an army. Even if 5,000 people come, it doesn’t matter. That’s a bad excuse, I suddenly don’t want to accept you as my subordinate.”

Su Xiao looked up at Esdeath.

“If it is 50,000?”

Esdeath looked sideways at the aide-de-camp.

“Is there any news from the enemy?”

The aide-de-camp immediately shook his head.

“General, the spy in front, has no news... “

Boom, bang.

The ground was still slightly trembling, a large piece of black figures came in front could be seen vaguely through the blizzard in the distance.

“Return to the fortress.”

Esdeath immediately took the man back to the fortress.

“You come as well.”

After that, Esdeath rushed up to the wall.

Su Xiao put up the dragon flash and followed a lot of soldiers. According to the information in the original book, joining Esdeath ‘s army was a good choice.

Although Esdeath was a female general with nice body shape, she had a tendency to abuse and torture the enemies, but Esdeath had a high reputation in the military.

The money that the empire rewarded to Esdeath was used to reward the soldiers by her. She had meals with the ordinary soldiers, as usual, she had no habit of receiving private attention.

The army under Esdeath was not the same as others in the empire. She never accepted bribes, she had a good relationship with the civilians. Her reputation in the empire was extremely high.

If Esdeath raises the flag to rebel, the success rate will be over 90% or even higher.

Excluding the habit of torturing the enemies and loving to kill these two points, Esdeath was the field commander with top talent.

The decaying empire could support until now, the great reason was relying on the troops contained hundreds of thousands of members under Esdeath. Of course, it could not rule out that the empire got many Teigu.

.....

The huge sound gradually approached from the distance, several rows of soldiers have already stood on the city wall at this time. Some of these soldiers were sick. Although their spirits were dropping, they will still fight to the last breath.

“How could so many enemies appear? Is the information wrong?”

Esdeath stood on the wall and stared far away.

The shadows that were rushing in the distance gradually approached. After seeing the shadow clearly, the soldiers on the wall screamed.

“Snow wolves, didn’t these dangerous species go extinct?”

A lot of wolves were in their sights, the wolf’s hair was white, the size was as big as a tiger, the white tusk was exposed while they run, they seemed fierce.

“It turned out to be like this. It seems that the extreme north army has reached a consensus with this cunning beast.”

Esdeath whispered, she was born in the northern border area, she knew something about the situation here.

“General, will we fight?”

Esdeath ‘s aide-de-camp asked.

“No need, I was wondering how the extreme north army suddenly dared to invade. It seems that the beast has given the extreme north army confidence.”

Esdeath was more interested in watching the many giant wolves below.

“You follow me.”

Esdeath looked at Su Xiao.

Su Xiao hesitated for a few seconds and nodded. This should be some kind of test. Joining the empire camp was not as simple as imagination. His transmission location was too shitty.

Esdeath asked the aide-de-camp for a few words, the aide-de-camp was a little stunned, and said in a hurry:

“General, this person’s background is unknown, it is too risky.”

“It’s okay, as long as he is strong, my army will accept it. If he has intentions, he will be thrown into the fire after being peeled.”

Esdeath turned to look at Su Xiao, the gaze seemed to be studying where to cut first.

Su Xiao was motionless.

After watching Su Xiao for a while, Esdeath rushed for a few steps and jumped from the wall of a dozen meters high.

As soon as she landed, she made an ice layer under her feet. After she stepped on the ice layer, she landed smoothly.

Esdeath tapped on the snowfield with one hand.

Boom.

A layer of firm ice was spreading instantly, the giant wolves that were running all stopped and turned into ice sculptures.

Seeing this scene didn’t surprise Su Xiao, Esdeath ‘s development direction was to fight the army, he was to kill powerful individuals.

Su Xiao also jumped from the wall and stood on the ice. A cold air gradually rose, the temperature here was lower.

The extremely cold weather in the north was very suitable for Esdeath to fight, the combat power of killing tens of thousands of enemies by one attack was shocking enough.

“Let’s go.”

Esdeath got up and walked to the distance, and Su Xiao also went along.

Su Xiao, who walked through ice sculptures formed by giant wolves, had doubts. Where would Esdeath go? These giant wolves obviously had purposes.

“You just did not do your best, right?”

Esdeath suddenly spoke, Su Xiao guessed that she wanted to investigate his background, after all, his background was unknown, if he does not talk about the details, the plan of sneaking will basically fail.

Fortunately, Su Xiao thought about a lot of things, he had already simulated the background, experiences, and so on earlier.

“About 70%.”

Esdeath was in front, Su Xiao was behind, the two walked and talked.

“Seventy percent? It seems that I have looked down on you a little. The guys like you will not come out suddenly. If you want to join my army, you should tell me your background and name.”

“Ok.”

“My name is Byakuya, I’m from Paxson from the Eastern Empire. I have recently been a killer and a mercenary. I have been trained in the eastern organization. And served in the military for a few years later, I was mainly responsible for: assassinating important people, destruction after the war, killing the enemy’s leader and so on. I served in the army for five years, then the army was ready to kill me, that’s it.”

Esdeath frowned, she thought that Su Xiao’s origins were somewhat complicated. He had been a killer and staying in an assassination unit in the army.

“Why did your army give up on you?”

“I know too many secrets. And my country has already won, they no longer need me.”

Esdeath was thinking whether Su Xiao’s words were credible. Although Su Xiao’s origins were somewhat complicated, Su Xiao’s strength was high, strong people were suspected without complicated origins.

“What is your purpose for coming to the extreme north?”

“I was going to rely on the Numa Seika of the extreme north army, but I feel that the guy was useful, so I want to rely on the more powerful empire.”

Su Xiao’s words were simple and clear, Esdeath did not take the initiative to ask questions. He never said one more. This was the style that the people in the assassination unit spoke. Su Xiao was trying to simulate.

“What purpose will you have after joining the empire? Or what ideas do you have?”

Esdeath asked the last question.

“Ideas? The purpose I was trained is to kill people, give me money, status, and then I will kill.”

When she heard that Su Xiao’s somewhat straight answer, Esdeath was satisfied. She felt that this time, she was lucky. A ‘homeless’ former member of the assassination unit, this kind of people would be very popular in any chaotic country. What they could do was that soldiers could never do.

Chapter 204: Super dangerous species

“Your words are reliable for a while, you will be a soldier in the empire after doing one thing with me.

But! If I find that you have any purposes, I will kill you personally. ”

Esdeath spread cold airs.

“Oh.”

Su Xiao’s answer was very plain, it seemed that he had been used to stay in dangers.

At this time, Su Xiao sighed in his mind, it turned out that being arrogant was so tiring, but this was the fastest way to join the empire.

Su Xiao also found one thing. Some female characters in the anime were somewhat different from his previous understanding. It was like Esdeath in front of him. She was a madwoman who was a sadist and aggressive. The level of fierceness was not lower than Su Xiao. It was a dream to let this kind of woman follow his words.

He may be able to kill Esdeath, it was impossible to let her be his subordinate.

Once he joined the Empire camp and met those female characters like Leone and Akame from night raid, they would basically fight for life. This was the difference between the positions.

Wanting to date with girls in the Akame Ga Kill world was a dream. Those beauties like Esdeath and Akame were the generals or killers that national machine training. They all had their own beliefs. It was a daydream to change their beliefs.

Crack, crack, Su Xiao and Esdeath walked in the snowfield.

“Don’t you be curious about where we are going?”

Esdeath looked at Su Xiao sideways.

“I’m not curious.”

If other people pretend to be a member of assassination unit, they may be found out by Esdeath, but Su Xiao, who was full of bloody smell, was suitable with the temperament of the assassination unit.

“Good quality, which country’s assassination troop trained you?”

Su Xiao didn’t speak, but Esdeath in front smiled.

“If you don’t want to say this, then my previous words will be invalid, you can’t join the empire.”

Esdeath's beautiful pupils flashed.

“Ok, then forget it.”

Su Xiao's footsteps stopped and turned around to go in the opposite direction.

“Just kidding, don't be so serious.”

Esdeath stood in the same place, but Su Xiao's footsteps did not stop.

In fact, the assassination unit was similar to the spy in the real world. As an assassination unit, nothing could be said. This was the iron law from the past to now. Su Xiao, who stayed in the underground world before, knew this.

“It's still the same as I said before, help me do one thing, then you are the member of the assassination unit in the empire, my direct subordinate.”

This time Su Xiao's footsteps stopped.

“Ok.”

Su Xiao breathed a sigh of relief, sounding out was everywhere, he should be careful in the future.

The two walked in the snowfield, the cold wind was freezing, but Esdeath looked, as usual, it seemed that her Teigu could ignore the cold climate.

Su Xiao walked behind silently, unless Esdeath asked, otherwise he would not take the initiative to speak, saying too many words may reveal flaws, it would be troublesome to be caught, Esdeath was not a reasonable person, although now the situation looked harmonious, once he got caught, he would die.

“Don't you want to know our destination?”

Esdeath took the initiative to speak, this casual chat hid a cause to kill.

“I don't want, but it's best to get to the destination within three hours. Otherwise, the cold climate will cause my combat effectiveness to drop.”

Su Xiao thought in mind quickly, Esdeath might take him to a very dangerous place.

“It doesn't take so long, it can be reached in half an hour. I used to live in the extreme north when I was a child. There is a kind of super dangerous species called 'Fenrir'. The giant wolves were its descendants. If I guess right that the extreme north army has reached a consensus with the dangerous species, now we have to remove him.”

After listening to Esdeath's words, Su Xiao was a little upset.

The dangerous species in Akame Ga Kill world were not weak, and super dangerous species were the best among them. Some strength of the super dangerous species even exceeded Esdeath and naturally could use elements of nature.

Super dangerous species were similar to Warcraft. The body was powerful. Most of the abilities were manipulating the elements of the natural world. Some could breathe fire, some could control the ice, some of them were so energetic that even if they were killed, the muscles could survive for hundreds of years.

The reason why the Teigu had supernatural ability was because of these super dangerous species.

This trip was dangerous but with high benefits. With Esdeath's character, there were only two possibilities for Su Xiao to come together.

First, the super dangerous species Fenrir was too strong, Esdeath could not fight alone.

Second, Esdeath was testing Su Xiao, not only to test his identity but also to test his purpose.

Su Xiao suspected both, which made him feel a bit upset, the monsters that Esdeath could not fight alone, then he may not be able to fight.

“We arrived.”

After walking in the snowfield for half an hour, the two came to a cave. The cave was at least ten meters high, inside of the cave was dark, the cold wind blew into the cave to make sounds.

”Can you perceive the situation inside?”

Esdeath pulled out the thin sword from her waist and looked straight into the cave seriously.

“There should be a creature, I'm not sure.”

Su Xiao perceived the situation in the cave. The creature in the cave was somewhat strange. The creature could sometimes be perceived and sometimes could not.

”You can only perceive these?”

“It is four meters high and about seven meters long. The vital signs are not obvious. It is very likely to be dormant. If I deal with the creature alone, I will probably have 40% of the confidence to win.”

Thought Su Xiao said this, but if Esdeath really let him deal with it alone, he would leave immediately, Esdeath was testing him, he was also testing Esdeath.

Even if he could not join the Empire camp, he could also consider joining the night raid, at most the progress of the task was slower.

“Isn't the vital signs obvious? It shouldn't be wrong. Cover me when I fight with it.”

Esdeath took the lead into the cave, and Su Xiao followed.

The development of the situation was smoother than he expected, Esdeath did not ask him to fight. Then he must be sincere. After all, no one was stupid.

“Wait.”

Su Xiao asked Esdeath, and she turned with doubts.

“If my perception is correct, the creature is sleeping, the way you approach is too direct. According to the creature’s strength, I recommend a sneak attack.”

“Sneak attack?”

“Yes, I will sneak in first, and you support me immediately after the battle.”

Esdeath pondered for a while.

“Do you have confidences?”

“I have.”

Su Xiao’s direct answer made Esdeath no longer hesitate.

“As long as there is a sound comes out of the hole, I can support it in five seconds.”

Su Xiao took a breath, now it was the time to ‘show his loyalty’. Doing something would be easier than talking sweet talk to gain trust.

Dragon flash appeared in his hand, Su Xiao’s breath gradually slowed down, the heartbeat began to slow down as well.

The breath was completely gained back, Su Xiao walked slowly into the hole, and his feet stepped on the snowfield without making any sound.

Esdeath eyes widened after witnessing the scene, he was definitely a top assassin, she believed in Su Xiao’s origin even more.

Dived into the cave for dozens of meters, there was a large space in front of him, a white-haired giant wolf curled up to sleep on the ground.

Although this giant wolf was sleeping, the feeling it gave Su Xiao was very dangerous. It made his hair stand up.

Limiting the breath to the limit, Su Xiao quietly walked in front of the giant wolf. This giant wolf was the super dangerous species named ‘Fenrir’.

The dragon flash was rose high, and the blade flashed through the cold light. Su Xiao’s muscles tightened, he tried his best to smash the sword down.

Puchi.

Blood splashed, and a wolf ear which was as big as a palm was cut off.

Woof.

Fenrir jumped up with a scream like a puppy that was suddenly kicked.

The giant wolf Fenrir had already woken up, the beast’s pupils started at Su Xiao with anger, a threatening to groan from his throat came, the eyes of the wolf revealed confusion and anger.

Fenrir was awakened at the moment that the dragon flash cut down, this super dangerous species was not easy to deal with.

The giant wolf Fenrir was four meters tall and about seven meters long. The hairs on the whole body were like snow, the sharp claws reflect the metal light.

Su Xiao's sword was on Fenrir's head. His goal was to cut its head, but the giant wolf's speed was so fast that it made him fear.

The rushing running sound came from the rear, Esdeath arrived.

Chapter 205: The terrible speed

After the sound of rushing footsteps came, Esdeath arrived, and the cave fell into silence.

“I missed; this giant wolf is very fast.”

Su Xiao's attacking speed was not slow, but even so, the giant wolf Fenrir dodged at the most dangerous moment.

“How fast is it?”

Esdeath and Su Xiao fought before, she knew how fast Su Xiao's sword was.

“It's so fast that he left afterimages.”

Esdeath's pupils shrank.

“Really? Fenrir's previous...”

Huh, the strong wind was blowing, Esdeath blue long hair was blown up, the giant wolf Fenrir had appeared in front of Esdeath.

A wolf claw wrapped in cyan energy lifted up, fine wind blade emerged around the wolf's claw.

Boom.

An explosion came, Esdeath was hit flying by the giant wolf Fenrir.

It was too fast, Esdeath didn't even have time to react.

Seeing this scene, Su Xiao's eyes pumped, the speed of the beast was more abnormal than he expected.

Huh.

The same wind breaking sound came, Su Xiao subconsciously put dragon flash in front of him, with the blade facing outward.

Boom.

Su Xiao was also hit flying as well, the blood was splashed on Su Xiao's clothes. The giant wolf Fenrir was hit by the dragon flash's blade. The wolf's claw was cut open a wound, and the blood stained the white hair.

Su Xiao was hit seriously by this claw, the dangerous species Fenrir was a little terrible.

“Cough, cough.”

There was a feeling of heaviness came from his chest, he got up under the uncomfortableness. The reaction speed reward that he got from the 20 points in agility just appeared. If it wasn't for it, he wouldn't be able to react at all.

Huh, the unique wind breaking sound appeared again, Su Xiao subconsciously put dragon flash in front of him horizontally.

A furry claw stopped in front of the blade.

Huh, Fenrir disappeared in the cave, becoming a cyan afterimage.

Crack, crack, crack.

The frozen crisp sound appeared. Su Xiao glanced at it and found that an ice wall blocked the exit of the cave. It became a chamber.

This woman was cruel, blocking the hole meant that they had to fight to the death.

The figure covered by cold air cam, Su Xiao could feel that this was Esdeath.

“This can't work, I will attract Fenrir's attention, you attack it.”

“No problem, this giant wolf's defense is not strong, the appropriate timing is up to two swords.”

The giant wolf Fenrir belonged to the kind of dangerous species that had extreme fast speed but lacked defense.

This type of dangerous species was not easy to deal with, just a mistake could let you die.

“White Ice Plain.”

Esdeath stamped her feet, and a thin layer of ice spread quickly around. This layer of thin ice could not harm the enemy, the surface of ice formed was exceptionally smooth.

Boom.

A loud sound came, a large piece of gravel splashed, the giant wolf Fenrir surprisingly hit the rock wall.

Fenrir which was hitting the rock wall looked a little stupid, shaking its head and trying to stand up, but the smooth ice under his feet let its limbs to open outwards. This majestic giant wolf lied on the ice with a very funny look.

“This one is very creative, but I can't move as well.”

Su Xiao's posture was a bit weird. The dragon flash was stabbed into the ice, his hands held dragon flash tightly, he continued to slip.

“I will release the ice under your feet later, I will consume the breast's strength and wait for the opportunity.”

Esdeath stabilized her body with a weird pose, the look of this sadism queen was also very funny.

Although it was a bit funny, this did limit the speed of the giant wolf Fenrir.

The giant wolf Fenrir's IQ was not low, the claws of the limbs stretched out, the shiny claws were stabbed into the ice.

Even so, Fenrir's speed was not fast, at most, the speed was like an ordinary person walking.

The original killing scene had changed, Esdeath with the weird post walking and Fenrir would fall down after two steps.

Su Xiao tried to control his emotions and remained cold. He just almost laughed.

Excluding the fun, Esdeath's was a good strategist. If not for such a creative way, they will face extremely fierce killing.

“The beast is a beast, it can never be compared with human's IQ.”

Fenrir wanted to be close to Esdeath, the speed advantage of Fenrir disappeared, it could not get close to Esdeath in short time.

Esdeath attacked with ice ability before closing to Fenrir, Fenrir was hit, retreated and the balance of the victory began to shift.

Puchi, Puchi, Puchi.

The three ice thorns deeply immersed in Fenrir's body. After the giant wolf was stabbed to retreat, the hot blood dripped on the ice and quickly condensed.

It was totally stabbed by eight ice thorns, Fenrir could almost not hold it. The ice on the way was stained with blood.

Su Xiao only attacked once, now the battle was going to end.

Howl!!

A howl spread, although Fenrir was a wolf, Su Xiao felt that this giant wolf was as smart as humans.

When the Fenrir's physical strength was about to be extracted, the giant wolf looked at the rock wall, the wolf's eyes flashed through the sight that only intelligent creature had.

Su Xiao felt something wrong, this giant wolf may fightback before dying.

Sure enough, Fenrir barely used his limbs to prop up his body, he stabbed his claws into the ice and jumped to the rock wall.

Fenrir's claws pierced into the rock wall and the whole body was hung on the rock wall.

Esdeath also found it wrong, she immediately removed the ice on the ground and quickly rushed to Fenrir.

At the moment when the ice layer was removed, Su Xiao pulled out the dragon flash, and also rushed to Fenrir.

Fenrir did not pay attention to Su Xiao, it climbed to the high position of the rock wall with claws rapidly.

The entire cave was at least 20 meters high, Fenrir climbs to the highest point in just a few seconds.

After climbing to the top, Fenrir stared at Esdeath with hatred, the human who hurt him most. Cyan energy wrapped Fenrir's whole body, this giant wolf became powerful and mysterious. Shh.

Fenrir jumped down from the rock wall, and the whole body flew like a cannonball to Esdeath.

In Su Xiao's sight, Fenrir directly turned into an afterimage, when he found Fenrir, Fenrir had already appeared in front of Esdeath.

The ice surged around Esdeath, Fenrir was ten times faster than the speed of the ice produced.

Dozens of claws flashed in an instant, Esdeath had a few bloodflowers on her body, Fenrir not only moved fast but also attacked quickly.

The wolf claws madly attacked; a cyan claw moved toward Esdeath's throat. Once the claw hit Esdeath, she would at least be disabled.

Crack, crack, crack.

The ice layer finally spread on Esdeath's body, Esdeath was frozen into an ice sculpture.

Crack, crack.

Fenrir was still scratching, the ice was splashing.

Just as Fenrir scratched energetically, he suddenly felt a pricking in its throat, and then its body flew away uncontrollably.

Ding!

A long sword pierced Fenrir's throat and nailed Fenrir to the rock wall, the wolf body was hung in the air.

The severe pain made Fenrir struggle, the blood puffed made dragon flash red, after being stabbed through the throat by the sharp dragon flash, he would die faster if he struggled.

Su Xiao also kept the action of throwing dragon flash.

Chapter 206: Too honest

[You killed (elite creature) Fenrir.]

[Fenrir is an elite creature, gaining 2.6% of the source of the world, and now has a total of 2.6% of the source of the world.]

[Your talent 'Psychic' activated, permanently adding 15 points of mana values, and the current mana values are 488 points.]

Fenrir died in a struggle, a blue treasure chest fell to the ground, Su Xiao quickly stepped forward to put away the treasure chest and pulled out the dragon flash.

The ice layer on Esdeath's body gradually dissipated, the blood dripped down through Esdeath's arms.

"Beautiful attack."

Esdeath chest was moving up and down strongly, the battle with Fenrir lasted less than five minutes, but it was abnormally dangerous.

Esdeath's silver-grey dress of military uniform was scratched out a large crack, her dress was very sexy. After this fierce killing, she had serious baring accident.

Esdeath pulled the clothes up by her trembling arms, hiding the two-thirds part of baring accident.

“What did you see?”

“General, you have baring accident.”

Su Xiao's straightforwardness made Esdeath's blue veins stood out her temples but thinking of Su Xiao's training in the assassination unit. Esdeath sighed helplessly. She was now the chief, Su Xiao, who was the assassin. Of course, he had to answer the facts he witnessed, no matter what he saw.

“If you dare to tell others, I will cut your tongue.”

“I won't tell others, but the general, you have a baring accident again.”

“Shut up.”

Esdeath mouth twitched. If Su Xiao's identity is not a cold and ruthless assassin by cruel training, Esdeath may kill him.

“Give me the clothes.”

Su Xiao took off his shirt and threw it to Esdeath.

“Help me bandage the wound, I lost too much blood.”

Esdeath was weak and leaned on the rock wall, Fenrir's claws hurt her a lot.

Su Xiao took out a bandage in his clothes. This made Esdeath somewhat surprised.

“Do you carry this with you?”

Su Xiao took a bandage and walked in front of Esdeath.

“Yes, there was a companion who died by losing too much blood in front of me. I still don't want to die, so I carry bandages with me.”

Su Xiao just bullshits, these bandages were taken out from the storage space.

It was inevitable that Esdeath had baring accidents while dealing with the wounds. Su Xiao looked all of her, but Esdeath didn't say anything. She lost too much blood, she would die if the wounds were not dealt as soon as possible. She was a woman but also a warrior.

This was the weakness of Teigu users, although their abilities were strong, the physical qualities were not excellent.

Of course, this was only relative. According to Su Xiao's suspicion, Esdeath's every attribute should not be worse than him, or even higher.

Cleaning the wounds, suturing, and bandaging, Su Xiao's movements were skillful, he was often injured.

“Thank you for that attack, no... that is your duty. You just saved my life. You will replace Jerome as my adjutant. Jerome is no longer suitable for fighting, going to the logistics department of empire will be good, it's very suitable for retiring.”

Although Esdeath was cruel to the enemy, she was very generous and concerned about her subordinates.

As long as subordinates were approved by Esdeath, she would not treat them with her sadist character.

In the original book, Esdeath's subordinate let a lot of people from the night raid go recklessly, he was only a little penalized by Esdeath.

[The hunter has joined the Empire camp, the current position as an adjutant.]

[Hint: Since the hunter is the first one joined the Empire camp, we reward 1% of the sources of the world, now you have a total of 3.6% the sources of the world.]

Su Xiao looked as usual, but he was relieved in mind.

Being Esdeath's adjutant was a high position, but it was not present that Esdeath fully believed in him.

Su Xiao was an outside assassin from other countries. Esdeath wanted him next to her. She could play a role as a monitor. It was human nature, Su Xiao would do this as well.

Trust could not be built in one night, which required a process.

Helping Esdeath to bandage the wounds, Esdeath draped Su Xiao's coat and leaned against the rock wall.

“I want to sleep for a while, wake me up after three hours.”

After that, Esdeath closed her eyes, the breathing became lighter, Esdeath could sleep under this kind of cold climate.

Although Esdeath blocked the exit of the cave with an ice wall, the temperature in the cave was not high, Su Xiao needed to keep his body temperature.

He came to Fenrir's body, Su Xiao looked at the fur of this giant wolf, the heat insulation of this thing must be good.

After peeling off the wolf skin, Su Xiao came to the ice wall that blocked the cave. The dragon flash cut out a hole on the ice wall, Su Xiao took the wolf skin and walked out of the cave.

Esdeath's eyes slightly opened, she found that Su Xiao left and did not say anything, just continued to rest.

Coming to the outside of the cave was a world of ice and snow, Su Xiao cleaned the white wolf skin by snow, and put the side with hair on the body, the speed of losing body temperature decreased significantly.

This was not enough, Su Xiao began to search nearby.

Twenty minutes later, Su Xiao, whose head was covered with snowflakes, returned to the cave. At this time, he held a pile of wood in his arms. He found a dead wood nearby and smashed the dead wood to get relatively dry wood.

After five minutes, a bonfire rose, and the temperature in the cave gradually increased.

Two hours later, Esdeath woke up, her injuries recovered, she was still weak because of losing a lot of blood.

Didn't know when it was already warm in the cave. A smell of meat came, Esdeath sat up with doubts.

“Is it Fenrir's meat?”

Su Xiao was turning a few pieces of meat on the fire.

“No, I've tried Fenrir's meat, it's course, and it contains some toxic, this is cony meat.”

Su Xiao shared the barbecue with Esdeath and then silently ate it. He had not drunk water after entering the derivative world.

Roasted cony meat was not delicious, the meat was very tough, and it was difficult to bite.

After dinner, Esdeath tried to stand up and noticed that her body was almost recovered and left the cave with Su Xiao.

Outside of the cave was still cold and whistling, Esdeath, whose body was full of bandages, and Su Xiao, who was wearing a wolf skin, looked particularly interesting.

After half an hour, the two returned to the extreme north fortress. This time Su Xiao's identity was different.

After Esdeath whispered a few words with the former adjutant, the 50-year-old adjutant's eye turned a little red.

“General...I.”

The old adjutant wanted to say something, but Esdeath waved.

“Just retiring in the empire, no one dares to provoke my subordinates in the empire.”

Esdeath was not arrogant, this was indeed true.

The situation of the empire was somewhat complicated. Although the little emperor in the palace had real powers, he lost his parents when he was a child and was brought up by the minister of the former king.

The minister began to brainwash the little emperor when he was a little. Today the little emperor listened to whatever the minister said. The minister raised the young emperor as the puppet.

It was no longer a small emperor to rule the empire, but the minister.

Although the minister was not very good looking, he was fat, but his IQ was very high.

The parents of the little emperor were poisoned by the minister. After more than ten years, the minister had a lot of real power. If there was no existence of the supreme Teigu, the little emperor would have been killed.

The Supreme Teigu must be started by the people with royal blood. Otherwise, it would be a pile of iron.

If the minister was afraid of someone in the emperor's side, that person must be Esdeath.

#### Chapter 207: Sneaking In

Three days later, in the fortress of the extreme north, inside a stone house.

Outside was a world full snow and ice, inside of the stone room was warm like spring, from the window, a female general was saying something, behind the female general was a map.

“The east and south lines must be attacked at the same time. Kaili and Hadi, you handle these two places.”

Esdeath was arranging tomorrow's strategy, her injuries had almost recovered.

“Yes.”

The two leaders accepted the order, their faces were full of confidence.

“Tomorrow the ‘Tonta's fortress’ will be the main attack point, then I will lead people to attack the main entrance, Byakuya, you sneak into the enemy's fortress tonight, waiting for the opportunity to assassinate Numa Seka.”

Su Xiao nodded, and Esdeath continued to arrange the strategy.

Su Xiao thought in his mind, this war would not last for a long time. Esdeath's Teigu ‘Demon's extract’ was very strong in the war, the army was only a cover. The main force was only Esdeath.

At the end of this war, Esdeath would definitely return to the capital of the empire. He was now Esdeath's adjutant, he had more than 80% of chance to return together.

In the army, there was not only Su Xiao, an adjutant, but he also did not show his commanding power, Esdeath might not leave him in the army.

It was the most important thing to end the war and return to the capital of the empire as soon as possible. Some contractors messed up, now the capital of the empire should be chaotic.

The combat meeting soon ended, Su Xiao was left alone with Esdeath.

“This is the information of Numa Seka. This person easy to deal with. He does not like females and lives simple, but he has a weakness that is he likes to drink.”

Men in the extreme north, no one didn't like to drink alcohol, which was caused by the cold weather.

“He will usually drink after 10 p.m., but it is not difficult to assassinate him at night. You can do it as you see fit.”

“Ok.”

The meaning of Esdeath was obvious, finding ways to kill Numa Seka.

Boom, a purse was thrown at the conference table.

“There is a map here. Wey suit, high-calorie foods, and some tools that require when you sneak in, two signal shells, red means the mission fails requires rescue, green means you have succeeded, but you’re trapped in the enemy’s camp. “

Esdeath arranged well, Su Xiao was now one of her own, so Esdeath’s sadism attribute had disappeared.

“Ok.”

Su, Xiao just nodded.

“You’re really distant, come back soon, remember, you are now the assassin of the army, not the dead.”

“Ok.”

Su Xiao took out the winter clothes from the bag, the winter clothes were fit. It should be made by some dangerous species fur, which was excellent in cold resistance and was convenient to move.

“Come back soon.”

Esdeath concerned about her subordinates.

“Ok.”

Su Xiao left the conference room. After he left, Esdeath found a signal shell at the conference table. It was the red signal shell that represented the failure of the action.

“He only accepts success but not a failure? This time, I really find the right person. He is strong, had a cold character, and doesn’t concern about other things besides the order. Which country trains this kind of excellent person.”

Esdeath sat at the conference table and handed on her chin with one hand, the other was playing the red signal shell.

“Take him back to the capital of the empire after the war, this kind of person is not suitable for the military.”

Boom.

Esdeath put the red signal shell on the table. If someone unpacks the signal, the person will find out that the signal is empty!

The action of assassination failed was equal to death. How could they be rescued?

.....

In the blizzard which was whistling, Su Xiao took a map and walked in the snowfield.

At this time there was no other person nearby. Su Xiao moved some stiff cheeks. It was not easy to face people without expressions. He felt that he could not even laugh.

“The shitty assassination.”

Su Xiao blamed, the three days of being arrogant ‘greatly’ could be described as being physically and mentally exhausted, he would not pretend to be an assassin next time.

“Numa Seka of tonite’s fortress?”

Looking at a portrait in hand carefully, that was a young man in the portrait.

.....

On the low wall of Tonta’s fortress.

“Have you heard? They sent military power again. They have 500,000 this time.”

The extreme north army standing on the wall said, there were some concerns in the person’s sight.

“Shit, that will be useless. They sent 200,000 last time, and it was useless.”

“They just come for feeding the wolves, those assholes in the empire deserve to die.”

A burst of laughter came, the extreme north army seemed to be disdainful to the empire army.

“It’s almost the time, why has the person who relieves the guard not come?”

A soldier began to be impatient.

“Who said no, the guys of the ‘Calibats’ have become more and more arrogant recently, they just win for few times and become very cocky.”

“I will go to ask them quicker.”

“I go with you.”

Several soldiers left, an older soldier shook his head. He didn’t want to offend people.

“Young people...oh!”

A groan, an old soldier fell down softly, Su Xiao turned over the wall, throwing the old soldier into the snow outside the city wall, he disappeared into the town of the fortress.

The night was dark, the strong winds in the extreme north rarely stopped, but the falling snowflakes never stopped.

There was no electricity in the town of the fortress, everyone rested early after making loves, the town was abnormally quiet.

Su Xiao walked through the building, he tried to find a remote location.

“The twenty-third on the left and seventy-three on the right.”

Su Xiao confirmed where did Numa Seka live, he quickly aimed at a stone house.

The stone house was not tall compared with other buildings in the fortress, the stone house could at least block the cold wind.

There was no guard in front of the door, Numa Seka himself was the strongest force in the extreme north, he did not need guards.

Su Xiao was close to the stone house with tiny sounds and perceived the situation inside the house. A young man was drinking in the room alone. The man in the room was Numa Seka.

“Martha, I will get my revenge for you, very soon.”

Numa Seka in the room was obviously drinking, looking from his face this alcohol was nothing to him.

Su Xiao waited outside the house. Now the timing was not good. He was not prepared to kill him forcibly. If the alarms too many people, he may be left here today.

As time went by, it was about one a.m., the temperature outside the house in the extreme north was even colder.

Numa Seka had fallen asleep, Su Xiao wouldn't even be discovered by the super dangerous species after his breath became slow, don't mention Numa Seka.

Slowly walked to the front of the door, Su Xiao held a test tube in his hand, the test tube contained off-white liquid.

Pouring the liquid into the gap below the door. The liquid vaporized quickly, an unintentional smoke spread out.

Su Xiao took out a gas mask and put it on his face. He was also uncomfortable after inhaling this thing.

Waiting for ten minutes at the door, Su Xiao pushed the door and got into the stone house.

A heat wave came, Numa Seka, the alien prince, was lying on the bed, his body was slightly trembling.

“How could it be like...this?”

At this time, the alien prince even could not speak clearly. Did not even think of getting up and fighting.

“Nothing is Impossible.”

The dragon flashes across on Numa Seka's neck and the blade cut down.

Puchi.

A head was cut off, the alien prince was majestic in extreme north was easily killed.

Chapter 208: Weird

[You killed Numa Seka]

[Numa Seka is a key character in the extreme north, gaining 1.1% of the sources of the world, and now you have a total of 4.7% sources of the world.]

[Your talent 'Psychic' is activated, permanently adding 14 points of mana values, and the current mana values are 502 points.]

The Psychic added 14 points of mana values, which meant that Numa Seka's strength was not weak, which showed how terrible an assassin who was good at assassination was.

Assassinating the enemy's leader before the war, the death of the leader would have a devastating shock to morals.

A blue treasure chest appeared on Numa Seka's body. Su Xiao had good luck recently, or the enemies he had recently contacted were very strong.

Put away the blue treasure chest and Numa Seka's head. After three minutes, Su Xiao left the town of the fortress. Two hours later, Su Xiao returned to the fortress of the empire.

After two hours and ten minutes, Numa Seka's head was placed in front of Esdeath, which took six hours and four minutes.

Killing people in the dust, getting out of the white blade.

Esdeath had already slept, she intentionally came back after hearing that Su Xiao had come back.

"The head of Numa Seka?"

Su Xiao's efficiency made Esdeath somewhat unbelievable. She originally planned to assassinate Numa Seka during the war. There were more opportunities at that time.

Esdeath opened the bag which was stained by the blood, a skull rolled on the wooden table.

The other generals who were present screamed, they were not afraid of the skull but were somewhat shocked by Numa Seka's death.

"Great, without Numa Seka's leading, let's see how these aliens in the extreme north resist."

"Tomorrow we will be able to defeat these aliens."

The atmosphere in the room was warm, some of the generals who ruled out Su Xiao gave him looks of approval.

"Is there an accident in action, or have the enemies found you?"

Esdeath was very calm, but she could not hide the smile near the corner of her mouth, it seemed that she was very satisfied with Su Xiao's efficiency.

"At least until the time I left, the extreme north army did not find it. I only killed Numa Seka during the whole process. I seriously injured a soldier that was

guarding the wall. The soldier was thrown into the snow pile after I broke his spine, he will not be discovered for a short time. ”

The generals looked at each other, they had a new understanding of Su Xiao’s action.

“It is good!”

Esdeath clapped the wooden table and stood up.

“The soldiers have been resting for more than six hours, gather the whole army, and immediately attack the enemy’s fortress.”

Esdeath commanded, all the generals got up and took the lead. This was a great opportunity.

The night raids and the death of the leader were buried beneath the waves for the extreme north army.

“You work hard, you don’t have to participate in the war. Go back to sleep and get ready to return to the capital of the empire with me tomorrow.”

Esdeath got up and left, it seemed that the war had been already won.

After everyone in the room left, on Su Xiao’s mouth appeared an undetectable smile.

The work had finally paid off, he would return to the capital of an empire with a high position, the plan went well.

Back to the bedroom, there was only one bed, a closet, which looked a bit rudimentary.

The army with fifty thousand stationed at the extreme north’s fortress, having a single room was already a VIP, Esdeath was his neighbor.

An exquisite lighter appeared in his hand, Su Xiao checked the cooldown time of the lucky flame.

After enhancing to + 7, the cooldown time of the lucky flame was greatly reduced, some embarrassing problems appeared. He did not have 600 points of park coins to use the lucky flame.

Looking at the only 157 points of park coins, Su Xiao felt helpless.

Two blue treasure chests could only be opened one. First, it was very possible to get the paradise coins after opening the treasure chest.

After hesitating for a while, Su Xiao decided to open the treasure chest that Numa Seka dropped. The huge Fenrir’s power was stronger, the value of its treasure chest would be higher.

[You opened the treasure chest (blue) and got the following items]

[Get 2700 paradise coins]

.....

Seeing the attribute of [Icefield Prince Token] Su Xiao was a bit surprised, this thing he may not be able to use it at all.

He looked at his charm attribute that had three points and looked at the 15 points of charm attributes that the Icefield Prince Token required.

“Trash.”

He threw the token on the bed, Su Xiao looked into another treasure chest.

In fact, [Icefield Prince Token] was not rubbish. This thing was very valuable for summoners. There were not many summoners in the reincarnation paradise, it was difficult to sell.

Crack, the lighter cover of Lucky Flame popped open, a light blue flame appeared.

Lucky Flame was different from before. In the past, it was +1 luck. Now it was strengthened to +7 and grew to +2 luck.

Lighting up the smoke, opening the box, the action went smoothly, the flash he imagined did not appear.

What was strange was that the treasure chest had neither flashed nor normal opened process.

In the past, when the treasure chest was opened, the items would automatically fall into the hand, but the treasure chest was opened, nothing appeared in hand, even no hint

“Could it be...”

Su Xiao’s face looked bad, he thought of a situation which was unlucky to the extreme.

That was the treasure chest empty.

Using the lucky flame, the treasure chest itself was still blue quality, the two added together actually became empty boxes? This made Su Xiao somewhat unacceptable.

But he noticed a strange scene. After opening, the treasure chest did not disappear. The opened treasure chest seemed to make Su Xiao angry.

At this time, a cyan light surged from the treasure chest, a shadow of wolf head rushed out of the treasure chest.

Howl!!

A howl was spread, Su Xiao was sitting on the bed, this sudden change made him shocked, he immediately turned back, dragon flash appeared in the hands.

Su Xiao accepted the empty box, but the treasure box also had a f\*\*king trap?

Dragon flashed blocked in front of him, Su Xiao stared at the treasure chest vigilantly.

The howl spread very far away. What was strange was that no one rushed into the room. This showed that the howl only he could hear.

In the treasure chest was the illusion of the giant wolf Fenrir. At this time, this giant wolf was staring at Su Xiao with hatred, it waved its claws but could not escape from the treasure chest.

Boom.

The treasure chest shook, a black hole was formed in the center, the illusion of Fenrir was instantly sucked into the black hole.

The strange phenomenon disappeared, the blue treasure chest gradually turned into light particles, an egg-sized meatball fell on the bed.

Using the dragon for flashing to touch meatball, the meatball did not react, Su Xiao tried to touch it with the fingers, the properties of the meatball appeared.

[Fenrir’s soul]

Origin: Akame Ga Kill

Quality:???

Types:???

Score:???

Introduction: the soul is a rare strategic material, it can be sold to the reincarnation paradise.

Price: 20000 paradise coins, soul crystal (small) × 4.

.....

Su Xiao scowled, with the style of the reincarnation paradise, the price of this thing was definitely more than 20,000 park coins + soul crystal.

But what was the soul, maybe it could enhance attributes after eating it?

Hesitating for a long time, Su Xiao did not dare to eat it, this thing had neither expiration date nor safety certification, if he dies after eating, he can only think he's unlucky.

Chapter 209: Victory

Su Xiao laid in the bedroom, there were noisy running sounds, horns and so on came from outside, the army of the empire was assembling.

The war already had results before the war began, the empire would win.

Not talking about that the leader of the extreme north army was dead. Esdeath's Teigu 'demon's extract' could not be blocked by the extreme north army.

Teigu was a very magical thing that could help users to control the ice, water flow and so on, some Teigu were simply weapons with special abilities, such as killing by one hit, abnormal sharpness and so on.

Teigu could be a ring, a knife, a sword, an armor and so on.

Teigu could not be used by everyone, Teigu would choose the host who was matched with it, the ability of Teigu would still exist after the host died, waiting for the next host.

Teigu could be divided into several major categories.

The first one was edible or could drink like a demon's extract, which could only be used once. The ability of these Teigu was generally strong.

The second type was weapons. This kind of Teigu had a wide variety of forms, it could use in knife, gun, sword and so on, and had various abilities.

The third one was more magical. It was a biological Teigu. This Teigu may be a humanoid creature, or it may be a dog or a bear.

Each of the three Teigu had its own advantages and disadvantages. In general, the one time Teigu was still stronger.

Su Xiao recalled various Teigu's appearance and abilities in mind, he would face the Teigu users in the future.

When he thought about the information of Teigu, the horn for gathering came from outside of the fortress.

**“Are they finally going to attack? What is the situation now?”**

It was too early to think about it. The most important thing was to rest. After five minutes, Su Xiao fell asleep deeply. After returning to the empire, he was not so comfortable. He was like walking deeply into the enemy's camp.

.....

The next morning, the cold wind blew through.

Inside tonta's fortress.

At this time, tonta's fortress was completely different from last night. A large piece of ice appeared in the fortress, the house was frozen, people in extreme north were frozen to death were everywhere on the ground. The entire fortress had become a world of ice.

An empire soldier rushed out of the fortress, his heart tightened when he went through the snowfield.

The scene on the snowfield could only be described as terrible, a large number of prisoners of war were stabbed on the sticks, the sticks stood in the snowfield.

Looking at it, there were at least thousands of sticks with humans on it, the scene behind the sticks was even crueler.

After the war broke out last night, the extreme north army suddenly collapsed, without the command of the leader and Esdeath's strong ice ability made the battlefield become a shamble.

the extreme north army surrendered at five in the morning.

The tonta of the fortress stationed at the army of 30,000 people and 70,000 to 80,000 civilians. Didn't underestimate these 70,000 to 80,000 civilians. They were also soldiers at a crucial moment.

After all these people surrendered, Esdeath issued an order.

Kill, didn't leave anyone of them! killing them in a cruel way, using the blood of the extreme north army to shock other unstable aliens around the empire.

The massacre began at six o'clock and ended before seven o'clock.

Nearly 100,000 people were killed less than an hour. Some of their bodies were piled up, some were made into 'snowmen,' and some were stabbed by sticks.

The news was transferred to the other small units scattered around the extreme north army at 9:00 in the morning. The troops of the extreme north army began to flee and fled to the colder and deeper place of the extreme north.

At eleven o'clock in the morning, they could not see any people of extreme north within a few kilometers of the fortress in the extreme north. These people were scared a lot.

The empire army withdrew to the fortress of extreme north around 12 o'clock. Around 1 pm, more than 300,000 soldiers took the lead to return to the empire.

Around two o'clock, more than 100,000 empire soldiers who were not injured also began to leave, leaving only less than 50,000 in the fortress of the extreme north.

The reason why did they retreat so fast was because the marching war required a lot of money. The army provision that the 500,000 soldiers ate every day was a terrible number, these foods were shipped, the cost was higher, there were other expenses. Such as medical, drugs, armors, weapons, pensions for people who were dead, and others.

If 500,000 people guard the fortress, the current saving of the empire treasury would be in arrears of soldiers' pay in half of the year, the economy of the empire would be greatly declined within a year.

It would be enough to have 50,000 people to guard in the fortress. In the past, there were only a few thousand people to guard in the fortress of the extreme north.

It was too difficult to transport supplies to the extreme north, the empire had been reducing the number of border guards.

It was no wonder that the empire would eventually perish, reducing the number of border guards was a fantastic way to wait for death.

The current empire was like a rotten tree so you could see who had the courage to kick it.

.....

On the way that the empire army back, most of the soldiers were walking, which led to the overall speed slowing down.

Su Xiao was sitting on a bumpy horse's back. He never rode a horse. He didn't think that it was so difficult to master.

How could an assassin not ride a horse, so he should ride even he could not.

Su Xiao used his waist and bottom to put the strength to ride the horse forcibly. The first horse he rode fell to the ground after 30 minutes of traveling, its mouth spat white foam, the abdomen kept twitching which was because he slammed too hard made the horse suffer.

The fate of the second horse was much better, it had not had the sign of spitting foam from its mouth.

This horse was fine, but Su Xiao was not good. It was a very tiring thing to ride barely. His bottom was very painful now, the position below the chest was sore.

“General, how long until we return to the empire?”

Su Xiao took the initiative to ask Esdeath rarely.

“Well?”

Esdeath was surprised.

“About two days or so.”

Su Xiao's face looked worse.

“You can't ride a horse, right?”

He was discovered, this point Su Xiao was also very helpless.

“Yep.”

“Why?”

“I hate this hairy beast, which makes me very uncomfortable.”

Esdeath was surprised, she may not have thought that Su Xiao 'this cold person' would hate something.

“Have not your previous organization taught you how to ride a horse?”

“They taught, but I killed the horse.”

This time, Esdeath was not calm.

“Killing the horse? What’s the consequence?”

“I was lifted and whipped for two hundred times. I almost died.”

Esdeath chuckled and looked at Su Xiao with amazement.

“What happened to this in the end?”

“I practiced running, and finally ran faster than the horse, the endurance was not worse than the horse.”

Esdeath once again chuckled, other officers near com also laughed.

“Running faster than horses. What kind of subordinates did I get? If you don’t like to ride the horse, why do you ride the horse now?”

Su Xiao knew that he could not escape this problem, he gave an unexpected answer.

“If the assassin can’t ride a horse will be suspected.”

If ten sentences are a lie, the lie will be exposed sooner or later, but if there are a few truths in the ten sentences, then the lies would be treated as truth.

“Don’t force yourself. Go to sit on the back of the supply wagon, your horse is spitting foam again.”

The war horse under Su Xiao turned its head, the innocent gaze seemed to accuse Su Xiao.

“Thank you, general.”

Jumping off from the horse, Su Xiao walked with a limp to the supply wagon, he finally got rid of it and succeeded in deceiving them.

Chapter 210: Imperial capital

After the army marched south for two days, the temperature gradually increased.

The empire was in the fall, the weather of the early autumn was not hot, the cool breeze blowing from time to time made people feel refreshed.

Their current position was in front of the imperial capital.

Finally arrived, the imperial capital was the main battlefield.

Gradually closing to the imperial capital, they occasionally encountered traders on the main road, these traders immediately rushed cart to give way after seeing the troop, their heads drooped, and did not dare to look directly at the army.

After seeing the female general with blue hair at the head of the team, the traders were obviously surprised.

“General Esdeath is back. Isn’t she going to the battlefield of the extreme north?”

“Don’t tell me.....”

A trader did not dare to talk more.

“Don’t talk nonsense, look at the momentum of the army. Does this look like defeat? It is clear that they won.”

“But that scale of battle will finish at least for a year and a half, right?”

Merchants whispered the previous fears and resentments had vanished.

If the imperial capital has an army that is supported by civilians, it must be this one.

The direction of the army was not going to the imperial capital, but the military camp outside the imperial capital. The news of having a great victory in the extreme north had been sent back. There were three generals in front of the military camp waited for Esdeath to return. The three of them were Esdeath’s henchmen. The three were all Teigu users, the three were called the three beasts.

They were an old man, a muscular man, a cute girl?

He dressed like a butler, named Liver, was the former general of the empire. He was imprisoned by offending the mogul and was rescued by Esdeath. His loyalty was extremely high. His Teigu was ‘Water Dragon Possession: Black Marlin’, the ring-shaped Teigu, It could control any liquid.

The strong man named Daidara, the battle madman, his Teigu named ‘Double-Bladed Axe: Belvaac’, two-bladed axes were usually one, it could be disassembled from the middle, after the ax was out, as long as the ax still had the power, it would track the enemy.

The last ‘girl’ dressed like a cute girl named Nyau. Although this guy dressed like a cute girl, he was not a cute girl but a man cross-dressing.

Nyau’s Teigu was ‘Military Music Dream: Scream’. This kind of Teigu was a flute, it sounded different music to manipulate the enemy’s emotions and physical state, it was an assistant Teigu.

The three men stood in front of the military camp at the moment, after seeing Esdeath’s figure, the three immediately greeted in front.

“General, how was your journey? Subordinates had prepared a feast for you.”

The old man Liver spoke, he bowed while talking, with one hand on the chest, white gloves on the hand and the clothes made him look like a butler. He was the captain of the three beasts.

“The banquet is not needed now. I will take you to meet the little emperor, but first I want to introduce you to a coworker.”

The three beasts were somewhat confused.

“Coworker? Is the general recruiting the talent in the extreme north?”

“Well, this time I was getting a treasure, he’s an assassin of another country.”

After hearing Esdeath’s words, the old man Liver slightly frowned, the background of a member of the assassination unit were generally complicated.

But Liver would not say anything, this was Esdeath’s willingness, he would not defy.

“Tell you in advance, your coworker is the top member of the assassination unit. I used to fight with him. If only talking about the ability to fight alone, his strength may not be weaker than me.”

The three beasts were shocked and looked at Esdeath with stun.

“Strength... was not weaker than the general?”

Cute girl Nyau swallowed, his voice was neutral.

“Byakuya.”

Esdeath shouted to the army behind, the three beasts' eyes stared in that direction.

A black-haired man with a long sword at the waist came, the man's body was not strong, but it gave people a sharp feeling.

“This is your coworker in the future, Byakuya.”

Esdeath looked at Su Xiao.

“The three are also my men.”

“Ok.”

Su Xiao responded, he already recognized the three.

The three was called the three beasts. Although the strength of them was not weak, they would die in one of the following tasks. The strongest man died at the fastest speed, he was killed less than five minutes.

“Pay attention to your tone to talk to the general.”

The old man Liver spoke, his sight was not friendly.

“Don't care about this. Byakuya's character is like this. The members of the top assassination unit are flawed. He is the most normal one.”

“I offended general.”

Liver bowed again.

Su Xiao didn't care about Liver's tone. Why should he care about a guy who would soon die?

“It's getting late, let's go see the emperor.”

Four people took on a cart to the imperial capital. The imperial capital's area was not small. It was a large city. The whole city was an echelon form, the higher the position would be more prosperous.

The center of the imperial capital was the palace, the palace could be called the city of the imperial capital. It could be seen how large the palace was.

The entire palace was a plump round, the final building with upward layers, the highest point was even hundreds of meters.

The carriages passed through the imperial capital. There were many people on the streets of the imperial city. They dressed well. This was the capital of a country. Economic prosperity was reasonable.

The sun hung on the sky listlessly, the whole imperial capital was covered by dim sunshine, the time was six o'clock in the evening.

The carriage drove to the front of the palace, this should be guarded heavily. But the guards in front of the door saw the sign on the carriage, they simply let them go after asking a question, they did not even need Esdeath to show up.

The scope of the palace was not small, the carriage arrived in front of the palace after driving a while.

This made Su Xiao a bit strange. This was the palace, how could the generals drive the carriage to the front of the hall? They should get off the car outside of the palace and walk to the hall would be right.

It seemed that the little emperor was more useless than he imagined, at least Esdeath did not care much about the little emperor.

Getting off the cart and entering the hall. The hall was very majestic. The floor was covered with red carpet. There was a seat made of gold on the inner side. The seat was in a higher position, which was emperor's seat.

A body with 13 or 14 years old was sitting in the seat, this was the little emperor.

The little emperor was thin, giving a feeling of malnutrition. A purple dress was neither fish nor fowl, which looked a little girly.

Although he was an emperor, he had no sense of majesty, Su Xiao felt that he was a very weak boy.

Esdeath walked into the hall with Su Xiao and others, they walked for a few meters in front of the little emperor and then kneeled to the ground.

If it says Esdeath partly kneels, it will be better to say that she partly squats on the ground, the leg which was kneeled did not land. This posture showed many problems.

Looking at the little emperor, his expression had not changed, it seemed that this was normal.

Su Xiao did the same thing, he partly squats, he would never kneel.

At this time, he had already considered whether he would capture the little emperor, this teenager was definitely a pushover.

An old man with a fat body and beard stood next to the little emperor.

A middle-aged old man's beard was white, the skin did not have wrinkles because his body was fat, having nice life made the old man look not old, if his hair is not white, people will believe that he is a middle-aged man.

This fat old man was the minister and controlled the little emperor.

The minister held a plate of meat in his hand and stood next to the little emperor with a big belly. The meat he held was eaten by himself, not for the little emperor.

After the initial observation, Su Xiao decided to give up. He was not sure whether the key was on the little emperor's body. He needed to consider for a long time.
