Chapter 211: Very weak man

“General Esdeath, the suppression in the extreme north is very excellent, I will give you a ton of gold for the reward.”

The little emperor spoke. This was a very majestic sentence. It changed the feeling when the little emperor spoke it. The slightly childish voice had no sense of majesty. It was like the students in the primary school were reading the text.

“Thank you, your majesty, I will reward those soldiers who are heroic to kill the enemies. Since I have already returned, the ‘Night Raid’ that affects your life, I will annihilate it.”

Esdeath talked to the little emperor and claimed herself as me, not as the subordinate.

Su Xiao looked at the minister besides the little emperor and Esdeath. The empire might be controlled by these two people.

“Thank you so much, I appreciate your assistance, except for...”

The little emperor was talking, Su Xiao’s sights suddenly sharpened.

“Enemies come.”

Su Xiao looked at Esdeath.

“Are you sure?”

“Yes.”

“Kill it!”

Su Xiao rushed to the side of the main hall.

“This is?”

The little emperor was stunned, the minister on the side was also puzzled.

“That is my subordinate. He found that there are enemies in the palace, it may be the members of ‘Night Raid’.”

Esdeath no longer half squatted but stood up.

Two minutes later.

Boom.

A body full of blood was thrown from the side of the hall and stopped at Esdeath’s feet after rolling for a few times.

Su Xiao's figure came out from the side of the hall, his body was stained with some blood. He carried a dragon flash which was stained with blood on his right hand and held a broken gun in his left hand.

This body was a contractor, Su Xiao had long perceived the person. He did not pay attention to it. It was normal to have other contractors in the empire camp.

But this guy pointed his gun at Su Xiao's head for more than a dozen seconds. He was clearly aimed at Su Xiao.

With a growing sense of danger, Su Xiao could judge that the person was using a certain skill to prepare to kill him by one attack.

Su Xiao could not endure this, he decisively violently rushed to the front of the guy and killed him.

With Su Xiao's perception, aiming at him in this close distance was simply looking for death.

“Is this the person's gun?”

Esdeath knew that Su Xiao did not use guns, at least she did not see Su Xiao used it.

“Yes, I thought that he was the guard of the palace, but he aimed at a certain position for a too long time, he pointed the gun at the emperor. This is not what the guard should do.”

Esdeath pondered for a while.

“My majesty, is this the guard in the palace?”

“This.....”

The little emperor looked to the minister for help, it could be seen how the little emperor relied on the minister from this scene.

“Hey, anyone?”

The minister shouted loudly, several guards immediately rushed into the hall.

“Is this person a guard?”

The minister's question was quickly answered.

He was a guard, not a guard of the main hall, but a low-level guard of the palace gate.

It was obviously nothing to talk about that this kind of guard took the gun into the hall.

“Sure enough, there will be no weak soldiers under the strong generals, anyone comes, give him gold.”

Under the minister's order, the guards carried on a plate of gold.

Esdeath looked very distant, the minister's behavior was obviously to headhunt.

“Minister, this is my subordinate, I will reward him in person.”

Hearing Esdeath's somewhat unfriendly tone, the minister smiled apologetically.

“I got so confused and somewhat scared by the assassin, general Esdeath doesn't mind it.”

The minister was an old, cunning person. He knew he couldn't be hostile to Esdeath. Otherwise, they would both be hurt.

“In this case, we will go back first, I will deal with the matter of 'Night Raid'.”

Esdeath pretended to leave.

“Wait a minute, as for dealing with 'Night Raid', I have a good idea.”

The minister picked up a piece of meat which was not fully cooked and put them into the mouth. As he chewed, a trace of blood slipped from the minister's mouth.

“I'm here to listen, sincerely.”

Esdeath also did not want to be hostile with the minister, the minister began to describe his plan.

The Minister's plan was very simple, let Esdeath's men assassinate some “disobedient” officials near the imperial capital. After assassinating the officials, they would say 'Night Raid' did this, that is, the night raid would never tolerate this thing happened so that the night raid would expose.

The plan seems a bit silly, but it was not realistically.

The minister's goal was not the night raid, but those 'disobedient' officials. He just wanted to use Esdeath to exclude them.

“Of course, General Esdeath will not do things in vain. This military spending this season will increase by 30%.”

The minister was indeed an old cunning person. He knew that Esdeath did not love money, and he simply helped Esdeath to expand the arms.

“This case? That's good.”

Esdeath promised, the minister smiled joyfully, and the little emperor sat with some bored.

The national events were basically decided in this way. The little emperor did have no power. After all, he could control the Teigu, the little emperor had no intentions to manage.

“My majesty, how about those last night, I prepare something for you tonight again...”

The minister looked at the little emperor with an indecent smile, the little emperor blushed, his eyes were full of expectations.

As a fatuous ruler, the little emperor would love women's charms under the minister's guidance, but the little emperor was too young, at most fourteen or five years old.

Su Xiao suspected that the reason why the little emperor was thin was that the nutrition could not keep up as how much he spent.

The minister and the little emperor walked behind the hall, Esdeath looked at the three beasts and Su Xiao.

“You handle this, but I have other ideas.”

Several people walked outside the main hall. After leaving the main hall, the three beasts were ordered to assassinate the ‘obedient’ official. Su Xiao did not go together. Esdeath arranged it intentionally.

.....

The next day, in the imperial capital’s countryside, the night raid’s headquarters.

“Now let’s talk about the reasons for calling everyone.”

The head of the night raid, Najenda, sat in front of a dozen people. Najenda was a woman with one eye, one arm, and white hair. The broken arm was replaced by a blackish green metal arm. The blind eye was covered with a black eye patch.

There were several main forces of night raid in front of Najenda. There were still some new people around them. These were contractors with strong strength.

Najenda rose a piece of paper with the night raid’s logo for everyone to see.

“There are several murders in imperial capital last night. The victims were all Imperial officials who tended to rely on us. They were still hesitating, and this was left on the spot.”

Several people in the night raid were silent for a while.

“This is obviously shifting the blame on us. Only the minister will do this kind of thing. No one will do that except for him.”

Bulat, the strongest force of the night raid spoke. His strength in the night raid absolutely ranked in the top three. The Teigu was the “Demon Armor: Incursio “, the armored Teigu, Teigu’s usual appearance was a sword. It could transform to armor in the battle.

“This is indeed the case. At first, the people did not believe that we did it, but now they believe it.”

Najenda talked with a heavy tone.

“Why?”

The newcomer of the night raid Tatsumi said, he was a rural boy from the border of the Empire. He had justice in his mind and wanted to join the empire camp. After witnessing the darkness of the emperor, he joined the night raid by chance.

According to the original information, Tatsumi may not be the protagonist, the protagonist of Akame Ga Kill world may be another person.

Chapter 212

“Those people that pretend to be us had killed a lot of powerful guards, so the ordinary people begin to doubt us. We ‘Night Raid’ still needs to recruit talents

around, this absolutely can't be tolerated." Najenda held a black cigarette in her hand, she looked somewhat helplessness.

"This is obviously a bait which wants to attract us."

Bulat spoke, when several people of night raid talked, the contractors around them were silent, they could only listen, they were not the official members of the night raid.

"It is indeed a bait."

Najenda nodded and continue to talk after thinking for a while:

"Under the premise of knowing this, I have something to say to you.

The officials who are now murdered were good officials who had power, resisted the minister, and worried about the country and the people. This kind of talent needs establishing a new empire by our revolutionary army. We can no longer lose nice talents in the future. What do you think?"

Najenda did not directly issue orders but used the way of discussion.

When Tatsumi heard this situation and spoke first, after a speech which was full of a sense of justice, Najenda stood up.

"Ok, let them know what the result of using our name is, let's teach them the rules of the killer.

Two officials may be attacked next, so we have to work separately."

Najenda began to arrange the plan, Bulat and Tatsumi were a team, another team were Akame and Lubbock.

Both Akame and Lubbock were members of the night raid. Both of them were Teigu users, especially the Akame's Teigu, which was famous in the imperial capital.

One Cut Killer: Murasame, if you're injured by this sword, you'll die.

Even said so, Murasame's One Cut Killer was not a rule. Instead, the sword was attached with a kind of poison. After being stabbed by Murasame, the poison would invade the body to achieve the effect of one cut killer which was similar to the principle of Su Xiao's Qing gang Yin.

Najenda pondered for a while after ordering, looking at Leone.

Leone was a beauty with blond hair and big breast. Unlike women's weakness, she looked chubby, but her body was not fat. The skeleton was very large, which made people think her body shape was good.

Leone Teigu was 'Animal King: Lionelle', after using it, it could make the Leone become an animal, greatly improving her physical quality, smell, sensory and so on would be strengthened, after the transformation, Leone still looked like a human, there were ears on the head, hands became half beast which was two furry hands.

"Leone, you will go to investigate Esdeath's actions, she has returned to the imperial capital."

Najenda was worried, only she knew how terrible Esdeath was.

“OK, I am also curious about what kind of woman she is.”

Leone was straight, she had begun to consider whether assassinate Esdeath in her mind.

“Just like this, move...”

Just when Najenda was about to order, a contractor spoke.

“Boss, I don’t know if I can give you some advice.”

The contractor wore a pair of wire-rimmed glasses talked, his tone was soft.

This contractor was Ivan. This was, of course, a pseudonym. Ivan was the representative of the contractors. He did not have the strongest strength, but he had the highest charm attributes.

“Ivan, talk about your opinion.”

The benefits of high charm appeared, he could be easy to communicate with Najenda. This kind of person had a neutral attitude.

”Thank you for the boss. I had some suggestions for the plan, just some suggestions.”

Ivan continued to talk after finishing his thoughts.

“This is the case. Since Mr. Bulat and Ms. Akame are to be divided into two teams, one of them may fail to get them. I have a method for remote contact, which was an advanced technology stolen in the imperial capital.

If any team of the two teams encounters an enemy with strong strength, they can immediately contact another team and the headquarters, so that they can get support in time.”

During the talk, Ivan took out three intercoms, the intercoms occasionally flashed through the green lights, indicating that this was green equipment.

Najenda looked curious, she soon understood the value of this thing immediately after testing it.

”Good, this will reduce the risk of action.”

Najenda gave the intercoms to Akame and Bulat.

The reason why the contractors did this was to try to maintain the strength of the night raid. Bulat with strong power in the original book, was killed at this time.

“The action begins.”

Najenda gave a command, everyone in the night raid moved. Among them, Leone was the most active, and she was very curious about how the famous general Esdeath looked like.

After the night raid all left, the contractors began to discuss.

“How do you think what will happen to this action?”

“I don’t know, Teigu in the Akame Ga Kill world is too dangerous. I am not prepared to fight against them, especially the horrible woman in the empire camp.”

“Try to protect the power of the night raid, so that the rate of winning will be higher in the final battle. As for the key... it can only depend on our abilities.”

The contractors nodded to agree, a contractor sitting in the corner had not spoken, just playing the tarot cards in his hands.

“The friend there, don’t you discuss countermeasures with us?”

Ivan smiled and walked forward, which looked like a leader of the contractors.

“There is nothing to discuss. Compared to solving the power of the imperial capital, I would like to kill you first. I am not targeting anyone. I just want to say that everyone present is trash.”

The tarot card flew, the man sitting in the corner raised his arm. At this time, a tattoo appeared on his backhand. It was a black number 11.

All the contractors were horrified when they saw this tattoo of a black number, they seemed to see a beast.

“Brigade...ah!!”

The screams came, the night raid that had left was not aware of it. Didn’t know when there was a layer of enchantment around the room.

Three minutes later, the man playing the tarot card on his hand walked out of the room. The other contractors in the room had disappeared without a trace, there was no blood on the ground.

.....

Imperial capital, the block of the central street.

The streets were bustling, crowds walked through the central street, there were all kinds of shops on the street. A woman with a blue hair sat on the seat near the street, a woman enjoyed an ice cream in her hand.

”Don’t you eat? This thing tastes very good.”

The woman was Esdeath, she walked alone on the street today as bait and wanted to attract members of the night raid.

No answer appeared, Esdeath glanced around.

“You’re so distant, I’ve been hanging around for a morning, no one will come.”

Esdeath found that no one answered her, but she could not perceive his position as well, and she could only give up.

In the distance, a robust figure jumped across the roof, she was Leone who had already become a beast.

Leone became a woman with yellow hair and beast ears after using Teigu, a pair of the furry beast ear made her look very cute.

Shhh.

Leone jumped on a roof and limited her breath then looked down.

“Is she Esdeath?”

Leone, who was originally confident bit her teeth tightly, she seemed to see terrible creatures.

“This feeling, the killing is so dense that makes me numb, I am too naive, I surprisingly want to assassinate this kind of person.”

Leone was very sensitive after transforming to the beast, she decided to retreat, she has no desire to fight with this kind of enemy, if they fight, she will definitely die.

Just as Leone was preparing to retreat, a man with a long sword went to Esdeath and said something to Esdeath, after that the man looked in her direction.

Leone felt numb in her whole body at that moment, the horrible gaze made her unforgettable.

Escape! She must escape immediately, or she will die.

Leone did not care about exposing, she stepped on the tiles of the roof, and fled in the opposite direction. Leone, who was running away, still felt a palpitation, she seemed to be aimed.

On the street, Su Xiao looked at Leone, who fled far away, with no expression on his face.

“She escaped.”

Esdeath ate the ice cream in her hand and looked at Su Xiao.

“She can’t escape.”

Su Xiao pulled out the dragon flash from the waist, he was going to meet the night raid to see their strengths.

“After killing the kitty, remember to support the three beasts, ‘Night Raid’ seems to act now.”

“Oh.”

Su Xiao’s figure disappeared on the street.

Chapter 213

In the forest in the imperial capital’s countryside, a figure walked quickly through the trees.

“I can’t escape from the direction of the headquarters. Otherwise, I will expose everyone.”

Leone’s footsteps stopped, the two beasts moved, after distinguishing the direction, she ran to the swamps in the deep part of the forest.

“If you dare to come, then come, you monster.”

Leone bit her silver teeth tightly, she had been running for two hours, but the sense of threat was still there.

After Leone ran out for two minutes, Su Xiao arrived at the location where Leone was.

He could only roughly perceive Leone's direction, Leone ran away in a hurry, she had no time to cover up the traces.

Judging from the footprints and broken branches, he could judge her specific position.

After confirming the direction that Leone went, Su Xiao quickly followed. He knew that the enemy had discovered him. Now they were in the relationship between prey and hunter.

The final result depended on between the prey and a hunter, which one was more sophisticated.

Gradually moving forward, Su Xiao felt that the air became wet and the smell of rotten vegetation in the forest was dense.

The feeling under his feet was soft, Su Xiao stepped into a swamp.

“This is... the swamp?”

Pulling his leg out of the mire, he became cautious.

The swamp was a very dangerous place. The general swamp was okay. Even if he accidentally falls into it, he has a way to get out, but if it is mire, it will be dangerous.

The kind of swamp could swallow people in less than five seconds. He struggled seriously would die faster. Because the water contained a lot of mud, swimming in mire was also a delusion.

No matter how skillful the survival master, after falling into the mire, he would attack himself to avoid the pain of suffocation.

Some people may wonder why they go to the swamp even if they know how dangerous it is.

If the swamp can be seen with the naked eye, it will not be dangerous. Most swamps have a layer of dry soil on the surface, which is formed by the sunlight.

Sometimes the wind blew the leaves onto the swamp to form a natural trap.

Su Xiao took a branch on the tree which was five or six meters long, the branch was roughly as thick as the arm.

Holding the branch with one hand, Su Xiao did not pay attention to the swamp.

If you traveled in a swamp, the best way is to find a long branch, so that if you fall into the swamp, you can grab it to get out of the swamp.

Although it was a bit funny to hold a long branch in the left hand and a knife in the right hand, it was nothing compared to life.

Under his foot was soft, Su Xiao's leg fell into the swamp.

After stepping into the swamp, Su Xiao clearly felt the suction of the mud in the swamp.

Dragon flash was stabbed into the ground, Su Xiao leaned his body and pulled his legs out of the swamp, but his shoes stayed in the swamp forever, his right leg was covered with mud.

Su Xiao looked unhappy, the enemy chose this battlefield was a bit shitty.

“Don’t be caught by me, or I will throw you into the swamp to die.”

Continue to track the enemy’s traces, after about half an hour, a row of footprints with mud came into his view.

The enemy also fell into the swamp, she seemed to fell with her whole body.

Su Xiao was happy in his mind, you also have this situation he thought.

After leaving a row of single footprints with mud, Su Xiao’s feet felt soft again.

With a snigger, Su Xiao’s half body was in the swamp, it was mire.

“Fuck.”

A minute later, Su Xiao struggled to get out of the swamp, his face looked not good, this time he would leave two rows of footprints with mud.

The tracking continued, ten minutes later, a red signal shell fired in front.

Boom.

The red signal shell exploded, leaving red dust in the air.

“Asking for help?”

Su Xiao quickly rushed to the direction of the signal shell was fired. He saw the enemy two minutes later, but he could not see the enemy’s appearance. The enemy’s whole body was covered with mud.

“Did I kill your relatives or friends?”

After meeting, Leone asked directly.

“No.”

Su Xiao threw away the wooden stick in his hand. If he responded cautiously, Leone couldn’t make any troubles. He restrained Leone this type of close fight.

Leone bit her sharp teeth tightly, which appeared after becoming the beast.

“Since I haven’t killed your relatives and friends, why do you keep chasing me, we run around the imperial capital for two rounds, hundreds of kilometers away, just because I stared at you?”

Leone’s pair of furry animal claws cracked, her identity was not exposed in the imperial capital, she thought Su Xiao did not recognize her.

“Leone, the main member of ‘NightRaid’, Teigu is the ‘K Animal King: Lionelle’, was born in a slum, she stole for a living when she was a child. At the age of fourteen, she studied with an old monk of the ‘Huangju Temple’. At the age of

sixteen, she got the Teigu. At the age of 17, she joined the Revolutionary Army. At the age of 18, she became a member of the 'NightRaid' through selection."

Su Xiao smiled.

"What else do you want to know?"

Leone looked at Su Xiao with a stunned expression, she even didn't remember some of the information.

Before entering Akame Ga Kill world, Su Xiao checked all the information he had searched before, not to mention the information, even if he was clear about Leone's BWH.

"In this case, we can only fight."

Leone wiped the mud on her face. Her sight was like an angered lion.

"It's not that you die or I die, you must die, oh, finally I can speak freely."

Su Xiao was upset these two days. Although he was not talkative, after pretending an assassin, the sentences he said the most were 'um', 'ok', 'I know'.

After relaxing, Su Xiao stopped talking, the light blue arc was on the surface of the dragon flash.

After strengthening the dragon flash, he hadn't fought with others with full power. He did not make any effort at that time with Esdes. And he only cut two knives with the giant wolf. The two did not show the sharpness of the dragon flash.

The blade screamed, Su Xiao stepped on the ground under his feet, the withered leaves on the ground splashed. In less than two seconds, he had appeared in front of Leone.

Su Xiao's agile attribute was 24 points. This speed was not fast in Leone's sight after she became the beast, but Su Xiao did not rely on speed and strength to deal with strong enemies. He was better at using skill, and knife kills to battle, strength, and agility was the foundation.

The long sword broke the air, the blue light flowed, Leone subconsciously attacked the long sword with her hands, which was the way she used to.

Leone, who became a beast, her claws became very hard, even if some Teigu could not break it.

The sound of breaking the air came, the sharp edge of the dragon flash seemed to cut through the air.

When the claws were about to close with dragon flash, Leone felt a prickle from the claws.

The instinct of the beast told her that she might have to lose the furry hand if she continued.

But now it was too late to go back, Leone could only keep defending.

When the dragon flash's blade touched Leone's claw, the hardened film of Leone's claws was suddenly cut through the two contacted. Puchi.

The red blood floated in the air, the half of the furry hands was conspicuous in the blood.

The half hand landed with a crack, Leone took a few steps back while holding the broken palm.

"How can it be... so sharp."

Pap, pap.

Blood dripped on the withered leaves, the forest was quiet.

Chapter 214

“It’s too weak, it seems that the plan had to make some changes.”

Su Xiao spoke, he had previously wanted to use the night raid to delay the assassination of the empire. But from the combat power that Leone performed, in addition to Akame, even if others fight Esdese together, they may not win.

He would not judge the development from the original plot after a lot of contractors entered the derivative world, it would be stupid to follow the original plot to work, such as the former cold fish.

The plot of the titan world and the ghouls’ world had been stirred up by Su Xiao. After he entered the derivative world, this would be a brand new world, the butterfly effect would embody directly.

“The Teigu is good, I got it.”

Su Xiao rushed to Leone.

Leone condemned in mind, where did the powerful monster emerge?

“Meaning, the lion will never die.”

Leone screamed, the degree of animalization increased significantly, her blonde hair became longer, and the claws became sharper.

Unexpected things happened, Leone’s half hand that was cut off was gradually regenerating.

When Leone used the skill, Su Xiao had already rushed to the front of Leone.

The long sword cut from top to bottom.

Puchi.

Blood surged, a lot of blood poured out from Leone’s chest, splashing in front of Su Xiao, blood was constantly out of shape.

This sword cut on Leone’s chest, the wound spread from the shoulder to the waist.

Leone only wore a bra, this attack directly made her naked.

After a sword cut out, Su Xiao did not stop, the second sword was ready to cut down.

Leone was not weak. After using the ultimate, power suddenly grew a lot.

“Go to hell!”

Leone hit a straight fist to Su Xiao’s face, the wind pressure came to the face. If he was hit by this punch, he would have almost died.

Huh.

The first wind was close to Su Xiao’s ear, his hair was blown up by the wind.

She did not attack him, Leone subconsciously took back her fist, but Su Xiao would not let her easily retreat.

The long sword cut in front, a cold light reflected into Leone's sight.

Puchi.

After that, her arm was numb, Leonard could no longer feel her right arm.

A white arm flew up, one attack cut an arm, Leone's physical defense was weak in front of the dragon flash.

After a few steps back, Leone stopped bleeding at the position of the broken arm, but there was no sign of regeneration.

Su Xiao looked at Leone and roughly understood the ability of 'lion never to die'.

Small parts of the broken limb could be regenerated, but the broken legs or arms could not be regenerated, but the recovery ability was greatly improved.

For example, the wound in Leone's chest, at this time, it had been sealed and stopped bleeding, it could be healed in a few minutes.

Su Xiao took out the [Hawana's eyes] to detect Leone's properties.

Hawana's eyes floated in the air, the red light rushed out to wrap Leone and began to detect her.

[Comparing the intelligence properties of both parties..., the comparison is completed, hunter's intelligence is 2.4 times higher than the enemy, the enemy's data will be obtained.]

The information was as follows:

Name: Leone (in the status of Lion King)

Health: 72%.

Mana Value: 21/100

Strength: 30

Agility: 26

Vitality: 28

Intelligence: 10

Charm: 12

Skill 1: Lion King (active): After using it, the user will turn into a lion, power +15, agility +8, Vitality +10, reduce 80% injuries.

Skill 2: Beast instinct (passive): The ability of sense of smell, hearing, and perception is greatly improved (this will be activated passively when using the Lion King)

Skill 3: the lion will never die (active). After using it, it will greatly improve the resilience and restore a small part of a severed limb.

Skill 4: Stealing Lv.4 (active), stealing items without others' awareness.

Skill 5: Close combat Lv.6 (passive): Improve close fight's skills.

.....

From attributes, Leone was stronger than Su Xiao.

The attribute was very important to Su Xiao, that was the basis of everything, but the high attribute did not mean strength.

Su Xiao's sword specialization was Lv.11, skills such as Qing Gang Yin, Heart Eye, and Extreme Blade would enhance combat effectiveness.

Although his attributes were not stronger than her, Su Xiao's skill ability was stronger. Only knife specialization of Lv.11 Leone's fighting technique could not be compared with him.

After reading the information of Leone, Su Xiao was ready to end the battle. He had been guarding against the enemy just in case she had another skill.

The one-sided battle began, Leone would not die in a short time with super strong resilience, but she often on the edge of death.

Crack.

An old tree which was half meter thick was cut off, the broken part was as smooth as the mirror. After Leone saw this scene, her pupils shrank to like a needle. If the sword was on the neck, it would be her head falling down instead of the tree.

The old tree fell to the ground, and a lot of withered leaves were blown up.

Three minutes later.

The crossing scars appeared on Leone's body. She had already forgotten how many times she was cut. Each wound was deep to the bone, and a piece of her furry ears was smashed.

“Huh.”

Leone gasped heavily, she had become a blood man, a small piece of blood under her feet was seen in less than three seconds.

“Finally...come?”

Leone's body fell softly, even if her resilience was strong, she could not bear the wounds.

Leone did not fall directly to the ground, her body stopped in the air like a puppet.

Su Xiao frowned, he did not perceive any abnormality around him.

Shhhh.

The rush of wire shrinkage came, Leona's body was quickly dragged to far distance.

“This is, Dimensional Formation: Shambhala?”

Su Xiao quickly chased Leone, she had no power to fight, only one attack and he could kill her.

Dimensional Formation: Shambhala was a kind of Teigu, the user named Lubbock, was a member of the night raid.

Dimensional Formation: Shambhala belonged to the item Teigu, the whole was a bobbin. The bobbin was wrapped with super dangerous species' body hair. The strength of the body hair exceeded all known metals, the user could flexibly manipulate the body hair of these dangerous species.

I say that it's the body hair, Dimensional Formation: Shambhala was more like a high-strength nichrome wire, it contained softness, sharpness, and strength.

Su Xiao, who was chasing, was puzzled. How did Lubbock arrange these silk threads? He didn't even notice it.

An idea suddenly appeared in his mind, this silk thread could make hind the perception! This is, after all, a super dangerous body's organization, it was not surprising to have this ability.

Su Xiao was shocked to think of this.

At this time, a feeling made his flesh creep appeared.

If he keeps going, he will die!

Su Xiao's footsteps stopped suddenly, an unnoticeable cold light flashed a few centimeters in front of him.

He checked by the dragon flash.

Ding.

A slight crisp sound came, there was a silk thread that was extremely difficult to detect in front of him. If he hit the silk thread at speed just now, this sharp line would cut off his neck.

Obviously, Lubbock accurately calculated Su Xiao's height, running speed, and the direction he chased.

According to Su Xiao's understanding, it was not surprising that Lubbock had such intelligence.

Leone had disappeared in his perception, Su Xiao gave up the meaningless pursuit, understanding the general strength of the night raid was enough, there were some enemies waiting for him.

Chapter 215

Outside the forest, next to a small stream.

A handsome young man with green hair and a green trench coat opened his eyes.

"He surprisingly detected the line, what a terrible perception."

Lubbock began to take back the silk threads, after pulling back Leone, who was covered with a knife marks all over her body, Lubbock was angry.

"This bastard!"

After discovering that Leona's upper body was already naked, Lubbock quickly took off his trench coat. Although he usually showed hornily, he would never take advantage of Leone at this time.

"This kind of bleeding, it is not good."

Lubbock, who did not understand medical skills, was anxious, but he had no choice.

“No...nothing.”

Leone woke up, the resilience of Teigu Lion King was not for decorations.

“Leone, big sister, you...”

Seeing Lubbock was anxious, Leone smiled.

“It’s already lucky to be alive after losing an arm under the man’s sword.”

Leone raised the arm that was cut off, now there was only a small piece left on her arm.

“How can I forget such an important thing? We are a combination of ‘being alive after big trouble’.”

Lubbock picked up the broken arm on the side. This was what he took back with the silk thread. Dimensional Formation: Shambhala could control the silk thread to suture the broken arm, with Leone recovery ability was a perfect combination, the injury of a broken arm and a broken leg could fully recoverable.

“You’re indeed my good partner.”

Leone smiled reluctantly, she remembered the previous battle, she was like a brainless beast, she was unable to fight back under the sharp sword.

After helping Leone to suture the cut off an arm, Lubbock got up.

“Big sister, you take a break for a while. The bastard hurts you so much. I have to go to meet him.”

The smile on Lubbock’s face was to comfort Leone, but in fact, he was furious in his mind.

But Lubbock felt that his pants were caught.

“Big sister...”

“Don’t go, you will die, it doesn’t matter if I was heavily injured. Just; I beg you, don’t go, don’t go.”

The man tracked me for several kilometers, no matter how you escape, you couldn’t escape, you will be done after being locked. It was completely desperate. ”

Lubbock lowed his head.

“But.....”

“Unless all of our members besiege him, we can’t win without paying a heavy price.”

Leone grabbed Lubbock’s pants tightly.

“I know.”

In Lubbock’s mind, he was unwilling, but he could not leave under Leone’s petition.

“Where is Akame? Is not she in a team with you?”

“We found your signal and then move separately. She went to support Bulat, they met an enemy, Esdeath’s subordinates the three beasts.”

“That’s it? Then I can be relieved...”

Leone suddenly thought of something, and she struggled to sit up under the pain.

“I met the man when I was looking for Esdeath. The man had said something to Esdeath, it shows that the man has a relationship with Esdeath.

The three beasts are Esdeath’s men, so this action was directed by Esdeath. ”

Leone thought fast in her mind, but someone thought faster than her.

“Is that guy an Esdeath’s subordinate? If all these are ordered by Esdeath, then will he support the side of the luxury cruise?”

It’s not very likely, he will be! ”

Lubbock and Leone look at each other.

”How many people we have on the luxury cruise of the imperial capital’s port?”

Leone looked at Lubbock.

“There are Bulat, Tatsumi, Akame, and Mine.”

“Mine also went?”

“Well, the boss is worried, so she asked more people.”

“With Mine’s long-range support, it should be fine...”

Leone still was worried and wanted to stand up.

“Hey, hello, big sister, don’t act recklessly. It’s not too far from the headquarters. I will send you back to the headquarters and go to support.”

Lubbock tried to stop her but was pushed away by Leone.

“Don’t let me be a drag on you, I know my physical state. Support you is impossible. If I go there, I will only be a drag to you. You will go to support them immediately. I can return to the headquarters alone.”

Lubbock nodded after thinking for a few seconds, if he refuses again, it will be insulting Leone.

“I know, this is a signal. If the retreat is not going smoothly, you must ask for help.”

“Well, I won’t do what I can’t do.”

Lubbock left and turned back in three steps, After Lubbock left, Leone, slammed into the ground.

With a sound of ugh, Leone spat out blood.

Lifting the trembling hand, Leone saw a light blue arc flashing in the wound of the palm.

“What the hell is this, electricity?”

The pain from all over the body made Leone almost faint again, Leone climbed on the tree with her claws and gasped heavily on the trunk.

The energy of Qing Gang Yin was not good to deal with. If Leone dares to dismiss the Lion King state, she will definitely be ‘chilling’ to let she doubt her life.

.....

A port outside the imperial capital, a giant luxury cruise gradually pulled in to the shore.

The luxury cruise had been in a mess, the bodies of the three beasts were lined up, Tatsumi was supporting injured Bulat with his hand.

“It finally pulls in to the shore. Fortunately, we have support from Mine. Otherwise, we will be dangerous.”

Bulat almost died, breathed a sigh of relief. The man who had died in the original book survived this battle because of the support of his teammates.

Mine was a dynamic girl with a pair of pink pigtails, her pink dress was very eye-catching.

It could be seen from the clothes that Mine was not a close fighter, she was a sniper and gunner.

Yes, she was the sniper and gunner, her Teigu was somewhat special.

Roman Artillery: Pumpkin, the gun-shaped Teigu, it could not fire a physical bullet, but transporting the spiritual energy into an impact, it said an impact, in Su Xiao’s view, it was more like a laser.

The more dangerous the user’s situation is, the stronger the power of Roman Artillery: Pumpkin had. If she is closed by the enemy, Roman Artillery: Pumpkin was not the gun, but a cannon, a laser cannon, it could continue to fire and sweep it horizontally.

With the support of Mine’s Roman Artillery: Pumpkin, Bulat solved the three beasts with the strength of Teigu and his own power.

Although there were strengths and weaknesses between Teigu, the strength of the Teigu users also represented how the extent that Teigu could be used.

The luxury cruise slowly pulled in to the shore, Akame and Mine, who was waiting for a long time on the shore, came to meet them.

“The firepower is in time, Mine.”

Bulat, who escaped from the death, smiled, although his body was strong, he had the feeling of being gay, Leone always suspected that Bulat was gay.

“Uh, it’s still... okay, I am a genius for shooting.”

Mine’s body trembled, Bulat’s smile made her shoulders shake.

“Have you collected Teigu?”

Akame spoke, Akame was a girl with black long straight hair, her red eyes were the origin of her name Akame, although Akame was a killer, she was usually silly and cute.

”The collection is complete, a total of three, the harvest this time is not small.”

“Then let’s withdraw quickly. Just now, Lubbock came to the news that some enemies will soon come.”

They walked toward the port.

“You take away Teigu after killing, they want to go, it’s not good, right?”

A figure came from outside the port, the person came with a sword, the blade was straight, there was blood on it.

Su Xiao glanced at the few people present, he quickly locked in Akame. This was the opponent he was about to fight. Others were either injured or remote fighter or were not strong.

Chapter 216

In Akame Ga Kill world, there were few people that Su Xiao wanted to fight with the most, namely, Esdeath, Akame, and Kurome.

The three all had strong sword skills. Fighting with masters with the same fighting style could make his sword skills grow faster.

Dragon flash in his hand waved fabulously, Su Xiao walked slowly to Akame and others.

“Mine, keep the distance to cover me, Tatsumi, Bulat first withdraw.”

Akame spoke and slowly walked to Su Xiao.

Mine did not hesitate to run for a distance, Tatsumi somewhat hesitated, but after seeing Bulat who seriously injured, he decided to leave first.

After Su Xiao noticed the few people’s actions, he had a black grenade in his hand.

[High-strength bomb (white)], Su Xiao got this from the ghouls’ world, he had never used it.

After the ring of the bomb was pulled out and thrown to a few people, Su Xiao immediately held the ear by one hand and closed his eyes.

Boom!

A boom came, the power of the bomb was not big, but it would produce strong light, loud noise, high-strength infrasonic.

The strong light could cause the enemy’s blind for a short period. The loud noise could make the enemy have ringing in his ears, and the high-strength infrasonic would interfere with the enemy’s nervous system.

Akame and others obviously don’t know what bomb was, except for Mine in the distance, other people were influenced.

Akame was struggled to stand, she put Murasame in front of her to avoid being attacked.

At this time, Akame saw a lot of after images and had ringing in her ears, a top-heavy feeling came.

Puchi.

Boom!

The sound of the limbs being cut off and the gunshots came at the same time.

“Brother...brother?”

It was Tatsumi’s voice, Akame was very anxious in her mind, what happened exactly?

When Akame’s sight became clear, the scene she saw made her angry in her mind, but she just looked down with no expressions.

Bulat’s arm, along with the majority of his shoulder was cut off.

Tatsumi’s chest had a deep scar, which was so deep that his bones could be seen. If Mine did not fire strongly to cover them, the two would have already died under the sword attack.

“Ruin.”

Akame rushed up with a low roar, Su Xiao was highly concentrated.

The Teigu ‘One Cut Killer: Murasame ‘ that Akame had, was said to kill by one attack. Su Xiao did not know whether this killing by one attack would be effective to the contractors.

Judging from the original plot, Murasame’s poison was effective on Esdeath, so it would be likely to be effective on him.

He could not be injured, even if a slight flesh wound.

Su Xiao held dragon flash tightly, he walked to Akame.

After the two men were close to each other, they did not talk nonsense, every attack was aimed at each other’s vital part.

Crack, crack, crack.

There was a piece of sword net in front of the two, the bright knife light crossed, the blade crashed, sparkles splattered, the tragic close fight started.

Ding.

Blocking the attack from Akame, dragon flash in Su Xiao’s hand moved to the side and led the Murasame to the side.

Crack.

The blades against each other and the sharp sound passed far.

Akame’s combat experience was very rich, she immediately took a step back and cut toward Su Xiao with the sword held by both hands.

Ding.

This attack could be said as huge power, Su Xiao blocked with dragon flash in front, and avoid this attack firmly.

After the initial fighting, Su Xiao felt that Akame's physical quality was similar to him, her combat experience was very rich, but her sword skill was weaker than him.

Qing Gang Yin opened, the light blue arc surged around the surface of dragon flash.

“Electricity?”

Akame found that this situation and immediately retreated, electricity could be conducted.

After retreating for a few steps, Akame found her arm was not numb.

“It's not electricity.”

Akame rushed forward again.

Ding, ding, ding.

The two both had nice sword skills, so the time of battle would not last long and would have a result soon.

The dragon flash in his hand cut in high speed, Su Xiao's pupil gradually shrank, he was looking for Akame's flaws.

Murasame cut through the side of Su Xiao's body, the sharp blade was swept over his shoulder closely. If he was reckless, he would have died. Nothing was more exciting than this.

The feeling of fighting with the enemy in person was completely different from seeing through the animation. The enemy's sword cut through with whistling sound, the pace under the feet during the fight, the gradual consumption of energy. The feeling of holding dragon flash in hand and the vibration when the swords collided.

The fight continued, but at this point, a feeling of being aimed at appeared.

It was Mine!

Su Xiao slashed to suppress Akame with full power and turned his back to kick on Akame's soft abdomen.

Boom.

Akame put Murasame in front horizontally, the feet were pulled out far away. She had a certain disagreeable feeling in her stomach, she was somewhat wanted to vomit.

Shhh.

An orange laser shot at Su Xiao's head, Su Xiao immediately turned his head, the orange laser swept across his ear, the scorching heat passed to his cheek.

Su Xiao looked at Mine in the distance. His first goal was her. But Mine ran too far, he could only choose Bulat helplessly.

As for killing Akame at first, Su Xiao never thought about it. Not that he didn't want to kill her, he couldn't kill her.

If Akame can't be so easily killed, she will not become the trump card of the night raid.

And Su Xiao also had an idea which was compared with Tatsumi, Akame may be the real protagonist.

“Brother, are you okay?”

Tatsumi and Bulat sat not far away, both of them were seriously injured.

“Nothing, just an arm, Akame may not be able to hold on.”

Bulat spoke out a thing that made them surprised.

“How is it possible, these two people's powers are roughly the same.”

“No, that guy is a little afraid of the Murasame. Now that he is used to it, Tatsumi, hold me up.”

Bulat barely stood up and took out a small syringe in his clothes.

“What is this? Brother.”

“A stimulant.”

Bulat injected the stimulant into his body and tore off the clothes which wrapped the wound on the shoulder carelessly.

“Demon Armor: Incursio.”

A short sword was inserted to the ground, Bulat was wrapped in an iron-grey armor suddenly, which was full body armor.

A long gun appeared in Bulat's hands, Bulat's footsteps became stable.

“Brother... you...”

“The drug works, I can probably fight for five minutes.”

The slab under Bulat's feet broke, and Bulat rushed to them.

Ding.

Akame blocked Su Xiao's sword, there was a sore came from her arm. The enemy's sword skill was stronger than hers. Akame discovered this very early.

A tall figure rushed into the battle. One arm with a long spear, he swept the long spear to force Su Xiao to retreat.

“Bulat? You...”

“Nothing, I can support you for five minutes. It is not a problem to solve the enemy in front of Mine's power.”

“You used that kind of medicine?”

“Yep.”

Akame's eyes became dim, the stimulant would cause irreversible damage to the body and greatly reduced his life.

“Don't care about these, my current combat power is only half of what I used to be, now I can only cover you.”

Bulat and Akame greeted each other and rushed to Su Xiao.

At the same time, facing Akame and Bulat, Su Xiao also felt pressure, not to mention there was Mine in distant.

“I can only use that.”

Su Xiao took a deep breath, the blue light flashed on dragon flash in his hand, the mana values reduced at a rate of 30 points per second.

Holding the sword with one hand to meet the enemy, Su Xiao's muscles of the right arm slightly rose.

“Akame, let's retreat.”

Bulat immediately noticed that the situation was wrong, the pose of rushing forward stopped immediately, even if they were close to Su Xiao.

The feeling that Su Xiao gave Bulat now was sharp, sharp to the extreme, it seemed that any defense would be meaningless under this sword.

Bulat subconsciously blocked in front of Akame and raised the long spear in his hand.

Crack.

The long sword cut down, a blue light shadow still stopped in the air, Su Xiao jumped back.

“Bulat, are you okay...”

Crap.

A body that had been smashed from the upper body into two sections fell to the ground, the blood was poured out at this time.

“The first one.”

Su Xiao looked at Akame, this was the second one.

Chapter 217: Heart

[You killed Bulat]

[Bulat is a key figure in the plot, gaining 3.6% of the source of the world, and now you have a total of 8.3% of the source of the world.]

[Your talent 'Psychic' is activated, permanently adding 15 points of mana values, and the current mana values are 517 points.]

.....

“Bulat brother.”

Tatsumi was struggled to get up and rushed to Bulat's body after screaming.

He just ran after a few steps, Tatsumi was stopped by one person.

“Calm down, Tatsumi .”

The voice of Akame was somewhat low. Although the companion was dead in front of her, the enemy was still there. Even if she was angry, she must remain calm.

“How can I be calm?”

Tatsumi struggled hard and the blood on his body stained on Akame's sleeves.

“Calm down, Tatsumi.”

Akame's voice became serious, if Tatsumi rushes forward this time, he will be looking for death.

Su Xiao picked up the key that Bulat fell. The two had no hatred. Bulat injected the stimulant under injuries to cover companion. He was a respectable opponent. The two were just in different positions, even if he does not kill him, he will also kill Su Xiao.

The Empire and the Revolutionary army were deadly enemies. This could not be solved by negotiation.

Between killing people or being killed, Su Xiao chose to kill people, he was not a saint, any hostile creatures provoked him, he would treat them with the sharp sword in his hand.

Bulat's strength was not weak, so he dropped a blue treasure chest, there are three Teigu in the package behind Bulat, he took all away.

When these Teigus in his hands, even if they were in the terminal, he would have never done the stupid things like handing it to the empire.

The battle was still going on, even if he wants to leave, the night raid will not agree.

“Tatsumi, have you calmed down?”

Akame supported Tatsumi.

“Yes.”

Tatsumi looked down, this is the first time he experienced his companion died after joining the night raid.

At this time, Tatsumi was still somewhat naive. He believed that the night raid was fighting for justice. The night raid was the assassination of the revolutionary army. They did those dirty and 'tiring' works, how could they not die.

The revolutionary army was indeed good, but the night raid must be evil, although the members of them all believed in the justice, the assassination was the assassination.

The duty of the assassination was to help the country kill people, no matter how the people they killed evil, they were still killing people.

“Contacting BOSS with this, tell them we need support, we may encounter a guy who is as scary as Esdeath.”

Akame gave the intercom to Tatsumi, Tatsumi nodded listlessly.

“Although it is a bit naive to say this, the hatred of my companions must be paid back today.”

Akame held the sword with both hands and stood opposite Su Xiao.

“If you can kill me then come, I have the consciousness of being killed when I take the sword to cut others.”

Su Xiao never thought that he was a good person. He knew that he was a rascal. He could kill others. Others could kill him as well, but it depended on who was stronger.

Su Xiao and Akame rushed toward each other at the same time.

Ding, ding, ding.

The sound of weapons collided came incessantly.

The long knife smashed out silver silk threads in front, the sparkles splashed.

Su Xiao’s strategy was the main attack. He highly concentrated on capturing the enemy’s flaws at any time, and Akame was work for the passive defense. When Su Xiao made mistakes, she would cut a knife.

The enemy’s tiny mistakes would be Akame’s opportunity to kill the enemy. Murasame ‘s ability was so shameless.

Mine in the distance did not continue shooting. She understood that it was more useful to distract the enemy than shooting indiscriminately.

Murasame cut in front, Su Xiao attitudinized to put dragon flash in front of him horizontally.

Ding.

The anti-vibration passed from the handle to the palm. Su Xiao did not defend with full force. Instead, he shifted the blade downward along with Akame’s attack.

Akame prepared for receiving the anti-vibration from the collision of weapons, she had begun to make powers in her hands. What Akame did not expect was that her knife continued cutting down surprisingly.

This sudden change made Akame stand unstably, the posture she had been made deformed, the body staggered forward for a few steps.

This was the gap between the sword skills, the master fought, any slight deviation was fatal, not to mention staggering for a few steps forward.

Su Xiao accurately seized the opportunity, he first sided to be as far as possible away from Murasame, he did not want to fail miserably in a very easy task.

And put dragon flash on the left side horizontally to defend the possible attacks that Akame would use. Su Xiao's body lowed down, the right leg swept Akame's side calf.

Boom.

Akame immediately felt the pain from the side of her left calf, her entire left leg was numb.

Su Xiao's attack did not end here. His body leaned forward, he was almost close to Akame's body, just like the couple hugged each other.

But Su Xiao, the gentleman, was a bit rude, he lifted his knees to slam into Akame's lower abdomen.

Boom.

Akame's body uncontrollably bent, and spat out the gastric acid, her sights became black.

At this point, Akame knew it was finished, she may never have the chance to fight back, she would even die.

It was as same as Akame's imagination, after Akame's body bent forward, Su Xiao's left arm raised, his elbow slammed down with full strength.

Boom.

His elbow's hard bones slammed on Akame's back rib. After her chest was attacked, there was a dull sound came. This time, what Akame spat out was not the gastric acid, but red blood.

Her back ribs behind were broken, Akame could feel it.

This terrible three combo attacks made Akame unable to control her body and slammed down to the ground.

It was not only the sword that could kill people. After being close, Su Xiao's whole body was a weapon.

Akame fell down, Su Xiao would not miss this kind of great opportunity, he would not talk nonsense after the enemy fell to the ground, he usually directly cut with a sword, if he wants to talk something, he will talk to the enemy's body.

Su Xiao stared at Akame's white neck, but she was very smart. She left Murasame behind her, just in case her head would not be attacked. From this point, we could see how rich Akame's fighting experience was.

Only hesitated less than a second, Su Xiao changed to stab from the cut, he stabbed to Akame's head directly.

Ding.

The long sword was deeply inserted into the ground, dragon flash stabbed along Akame's cheeks, the blade cut out a wound on Akame's cheeks.

For a moment of life or death situation, Akame broke out with a terrible desire to survive.

Time was no more left, Su Xiao felt that Mine's attack from a distance was coming soon.

He decisively gave up to cut her head, Su Xiao second sword stabbed to the trunk which was a larger part, Akame was absolutely unable to escape.

Puchi.

Dragon flash cut through Akame's left chest and even inserted into the ground. This was where the heart was. Su Xiao had killed many people and was good at judging the position of the heart.

Although Akame was beautiful, the purpose of the two was to kill each other in any way, without cards in their sleeves.

Akame's body twitched, her eyes gradually dimmed.

The way that Su Xiao held his sword changed from one hand to both hands, the long knife cut sideways so that Akame's heart could be completely cut through.

Puchi, blood surged.

Tatsumi and Mine saw this scene, both of them were a little stunned, their pupils gradually constricted, they seemed to be unable to believe what happened in front of them.

“How can this be possible?”

Tatsumi murmured stupidly.

A hot orange laser aimed at Su Xiao's chest, but Su Xiao could only escape helplessly.

The second one had been solved, now he only needed to complete the finishing touches.

Mine began to shoot at Su Xiao madly, he tried his best to avoid it. This kind of shooting in his perception could not injure him.

He shook the blood on the blade, Su Xiao waited for Akame to die while escaping the shooting.

Her heart was pierced, but she would not die immediately. The character died immediately after his heart was pierced in the movie was fake. After the heart was pierced, the blood circulation function would be destroyed. Because the oxygen in the blood could not be transmitted to all parts of the body, people would suffer from shock and die in short time which was from ten seconds to a few minutes, this depended on the size of the wound in the heart.

Five seconds, eight seconds, ten seconds.

Ten seconds later, Akame stood up surprisingly, Su Xiao was shocked. Was this the ability of Murasame?

No, he had studied the sword Murasame in detail. Although this knife had a way to make people temporarily stronger, it could not immune death.

Akame held the wound on the left chest and breathed the air heavily, which was clearly recovering strength.

“This is... her heart is on the right side?”

Su Xiao was somewhat unbelievable. Some people had a heart on the right side, but the probability was one per million, or even one per tens of millions, which was less than the chance of winning money from the lottery.

Su Xiao obviously hit the jackpot, but he was not happy, the enemy was not dead.

Sure enough, the lucky protagonist could not die easily, the other people in the night raid in the original plot all died, or almost die, only Akame did not die.

Chapter 218: Runaway in all directions

“Cough, cough.”

Akame leaned forward and coughed and spat out blood incessantly.

The severe pain from the energy of the body being burned caused her to tremble, but Akame did not make any sound.

Tatsumi in the distance wanted to rush forward to help, but when he had a movement to move, an orange laser entered the ground in front of his feet, the hole which was as thick as the finger appeared, the cyan smoke appeared.

The meaning of Mine was very obvious. Don't go for the death, the enemy that Akame could not fight head to head you could not even fight.

The state of Akame was very pessimistic now. Her many parts of the bones in the body broke, and the chest was pierced.

“9,7,3,7,9.”

Akame screamed out a serial number, which was obviously a sign.

Tatsumi just joined the night raid and was not familiar with this sign, but Mine understood.

Three orange lasers were shot to the front of Tatsumi, the three orange lasers gradually approached Tatsumi which meant to retreat.

Akame pulled the injured body and began to retreat gradually, Mine's firepower disappeared. Tatsumi also understood the general matter and began to retreat slowly.

Akame stared at Su Xiao and looked forward that Su Xiao to chase her.

Su Xiao looked at Akame, the next one was Mine in the distance. Finally, he looked at Tatsumi. The three men retreated from three directions. He could only chase one person.

“Do they use this way helplessly?”

Su Xiao suddenly rushed to a person at full speed.

His goal was Tatsumi! He did not believe that Akame would give up on rescuing him.

Akane bit her silver teeth tightly, the enemy was a hundred times more cunning than her imagination, she could only give up the original strategy.

At this time, Tatsumi understood that he became a burden.

After understanding this, Tatsumi's chest was like pressing by a big stone. His eyes were gradually firm, the boy gradually matured.

Tatsumi looked at Su Xiao, who was rushing to him with a fast pace and looked at the bottomless river in three meters away.

He Jumped, Tatsumi jumped into the river from the port, which needed a lot of courage, you had to know that Tatsumi's entire chest had been cut open. Even if he did not drown, he might die from a bacterial infection.

Tatsumi fell into the water with a thump.

“What a courage, boy.”

Su Xiao's direction of running changed to Mine's direction.

In the distance, it was a thump again, Mine also jumped into the river. Although Mine was not old, she was an experienced assassin.

Su Xiao's footsteps stopped, it wasted that these members of the night raid did not participate in scuba diving.

“As you wish.”

Su Xiao chased Akame this time. Akame turned to run after finding Tatsumi and Mine Jumped into the river. She ran faster than the rabbit.

If there is no blood along the way, Su Xiao will suspect whether the girl is injured, she ran too fast, and Akame knew the terrain of the emperor well.

Su Xiao was somewhat hesitant on the way, he was thinking whether he should continue chasing.

He had been chasing the enemy from the noon till now sunset. Today, he was not like fighting with the enemies but participating in the sports day.

First marathon (chasing Leone)

Then long jump in the swamp (jumping through visible swamps)

He also served as an audience of the diving(seeing Tatsumi and Mine to jump into the river)

Now there was a new marathon again(chasing Akame)

The direction that Akame escaped was the interior of the imperial capital. The environment inside the imperial capital was complex, which was more suitable for her to flee. Leone chose the forest was because of the influence of the Teigu Animal King: Lionelle, the beast preferred nature.

A bloody girl was running ahead, and a man with a sword chased after her.

This scene scared the residents in the imperial city, some residents notified the guards in the imperial capital.

Of course, it was not allowed to chase and kill people in the imperial capital. A large number of guards set out.

They did not stop Akame in front, but stop Su Xiao in half an hour.

“Stop, put your sword down, you murderer.”

A guard captain raised a gun with a strange shape, the guards in the imperial capital would have firearms.

“I’m a member of the assassination unit to do my works.”

Su Xiao showed the identification of the assassination unit.

“Boss, sorry.”

After Su Xiao showed the identification of the assassination unit, the attitude of the guard captain changed greatly.

“I am chasing a member of Night Raid, immediately inform you, general commander, blocking every exit of the imperial capital. She is an 18-year-old girl with a sword, black clothes, and has wounds on her body, do not allow any suspicious people to enter or leave the imperial capital.”

“Yes, sir!”

The guard captain stood up straight and was already sweating all over his face.

These guards were arrogant in front of the civilians, but they would become obedient sheep in front of the assassination unit.

The assassination unit was generally managed by the royal family or individual generals. They had the right to do it now and fix it later. Even if they kill people in the street, people could only admit the truth, their families were not even compensated.

This was the imperial capital. The right was everything. People had the right could trample on others’ dignity and minds.

Such an empire was destroyed was no more reasonable.

The guards in the imperial capital were quickly mobilized, the entrances and exits were blocked. It was not a trivial matter for the members of the night raid to sneak into the imperial capital.

Walking into an alley, Su Xiao squatted and found a pool of blood on the ground.

He put the finger on the blood, the blood was still warm. This showed that Akame just left, he was very close to Akame.

There were some white clothes scattered around, which were stained with large pieces of blood. This should be Akame tore her clothes to wrap her wounds.

Su Xiao chuckled, after stabbing dragon flash into Akame’s chest, he cut out the wound obliquely.

Although this kind of wound was not long, it is extremely difficult to bandage, not to mention that Akame was a woman, the injury to the chest was more difficult to bandage.

Followed by the blood Su Xiao chased her in the imperial capital, Akame was like a wounded reindeer ran in the imperial capital.

“Let’s me see how long you can persist after losing a lot of blood.”

Followed by the blood on the ground, after twenty minutes, Su Xiao found that the surrounding buildings were ruined, and he occasionally could see some drunken men on the street.

Here was the slum, the most chaotic and poorest place in the imperial capital.

If a beautiful woman dares to walk alone in the streets of a slum, she may be taken away, and the next day, she will appear in the red light street not far away.

The extent of chaos here was far more than the imagination. The women were taken away was not the most terrible thing. The drunkards on the street were the poorest people. They may still sleep on the dirty street today, and lied on the bench tomorrow morning, what waiting for them was a crazy human experiment.

Su Xiao walked through a dark alley first and came to a bustling street after a short time.

At this time, the sky is dark.

This street's key color was pink or red lights.

The two sides of the street were mainly spire buildings with two or three floors. The roof was covered with glasses, several rounds or square lanterns hanging in front of the building.

The gentle music was intertwined with the laughter on the street, many men and women cuddled intimately together.

On attic of the street side, he could see some women faintly with exposed clothes and slender pipes in their hands. These women looked at the pedestrians below and seemed to look for the sexy buddy tonight or the rich guy.

Su Xiao came to the red light district of the imperial capital, which was the most bustling place in the slum.

Su Xiao not only came to the red light district but also took the knife into the red light district. The blood on the clothes indicated that he had just murdered someone.

This scared the guests of the red light district a lot, several couples who cuddled together ran away.

Su Xiao entered the red light district with a sword which affected the interests of some people. Some people could not see it without any action immediately.

Chapter 219: Horrible assassination unit

A group of black men came forward, the front was a fat man whose face was oil wearing luxurious clothes.

“Who are you, get out of the red light district quickly, tell you that even if you have hatred, you can't do it here. Do you know it's whose business is? Get out immediately, it's really disappointing tonight, the shitty guards actually block the street which was affecting my business.”

Fat man's attitude was arrogant, he pointed to Su Xiao's nose with fingers, his ten fingers with a variety of rings, it seemed that he made a lot of money from women.

The knife light flashed, a fat head flew up.

If others are kind to Su Xiao, Su Xiao will be polite to them, if others come up and point to his nose, he will let the person's head move.

“Ahhhh!!”

A scream of a woman came.

“Assassination unit works, other people leave here.”

Those black men who were still laughing suddenly trembled. They were only the local ruffians of the slum, and the assassination unit was especially to kill people for the empire. The two were not able to compare.

“Yes, yes, sir, we will leave immediately.”

“Fast... run fast.”

Even if these local ruffians wear more luxurious clothes, a neat black suit could not change their nature of bullying the weak, fearing the strong.

When the murder happened on the street, those whoremongers instantly left. They were here for fun, not for death.

The bustling red light district became a ghost street in less than two minutes.

Su Xiao searched for the blood on the streets, but the blood began to turn scarce.

He gave up on searching for the blood, Su Xiao had a strange feeling previously, as if he could perceive Akame's position.

It had to be known that there were many people in the red light district, it was very difficult to find Akame after she concealed herself. Akame was once the killer trained by the empire's assassination unit. Her skill was very strong. Otherwise, Su Xiao would not pursue the blood to find her, compared to Akame. Leone was easy to find.

Among many people, he was able to vaguely perceive Akame, as if something was in Akame's body?

Don't think too much, he just fought with Akame...

With constant pursuing, this feeling was getting stronger and stronger, he could still feel that the things that belonged to him in the Akame's body gradually dissipated.

Su Xiao suddenly had a thought in his brain, the energy of Qing Gang Yin!

The energy of Qing Gang Yin was transformed from the mana values through special methods. The mana values were from his body. The energy of Qing Gang Yin was also the energy in his body. In the final analysis, this was his thing. It was normal to have a vague feeling.

He stood on the street and closed his eyes, the panic fleeing and screams around were gradually ignored, perception, the subtle to extreme perception.

The building with three floors in three hundred meters away, Akame was there.

Su Xiao rushed to the building, there were a large number of executioners on the red light district.

Although these people wore different clothes, they were all murderers and had seen blood.

If ordinary people see this scene, their legs will feel like jellies, Su Xiao just looked at these regular enemies sideways.

“Which assassination unit you stay, I am the minister’s nephew, that is, the boss of the red light district, my friend, tell me where you are come from, just in case the ‘family’ to hurt each other.”

The man was a middle-aged man with dark skin. The middle-aged man had a pair of cunning bird eyes. His bags under his eyes were very heavy. He obviously was squeezed out the body and mind by the debauchery life.

“Three.”

After hearing Su Xiao’s answer, the minister’s nephew changed his face, the third assassination unit was Esdeath’s direct assassination unit.

“Haha, we’re family, my name is Carlos. If you need women in the future, just come to find me. There are women with any body shape and any age.”

Carlos’s attitude turned greatly, the gloom on his face had disappeared.

“Now I have work to do, see you.”

Su Xiao walked quickly to the building where Akame stayed.

Carlos saw this scene and felt heart-wrenching.

“Wait.”

Su Xiao looked at Carlos sideways.

“You can’t check here, even Esdeath’s assassination unit can’t do this, unless Esdeath comes, the red light district is the minister’s business, I just here for running errands, don’t make my troubles.”

Carlos’s attitude was very determined.

“You want to prevent me from arresting the member of Night raid?”

Carlos’s arm which took out suddenly stopped, even if he was the minister’s nephew, he did not dare to stop arresting the members of the Night Raid. Moreover, he was only one of the seventeen the minister’s nephews.

“Brother, don’t talk jokes.”

Carlos winked at the men behind him, a bag of gems soon appeared in Carlos’s hand.

“Brother had helped us to maintain the peace of the red light district, it is the fee for the hard working.”

Carlos quietly handed a bag of gems which could let civilians lived without worries for more than a few decades.

Su Xiao took over the gems, it would cause more troubles without receiving it. This was actually the hush money. The scene in the room may not be good.

Entering the three-floor building, Su Xiao went straight to the innermost room of the first floor. The Qing Gang Yin's energy in the Akame body had dissipated. He could only lock her position a minute ago.

Although the identity of the assassination unit brought a lot of conveniences, there were also inconvenienced.

Just like if Su Xiao does not have the identity of the assassination unit, he will not talk nonsense with Carlos.

Before going to the front of the room, Su Xiao opened the door.

A purple smoke floated out of the room, the smoke had a unique aroma.

The Psychedelic drugs, Su Xiao, immediately judged it.

Stopping to breathe and walking into the room, this was an empty room which was two hundred meters long, there was nothing else in the room, only women sat on the floor, at least dozens of women.

These women lied on the yellow floor with loose clothes and silly smiles on their faces.

Using addictive, Psychedelic drugs to control women was a common way in the red light district.

“Hahahahaha.”

A woman who was not in a clear state hugged Su Xiao's leg, her body exposed, and the smile on her face was stupid.

The purple smoke floated in the room made the sight blur, Akame may be mixed in these women.

“Open the window and turn on the light.”

Su Xiao observed around vigilantly, Carlos immediately let his men do it.

The room was bright, the night wind blew the purple smoke away, Su Xiao stood in the same place with a knife, he was ready to face Akame who was escaping suddenly.

Fresh air was filled with the room, the women in the room gradually came to their senses.

“What is going on is time up?”

“Ha, so fast, I haven't been comfortable enough.”

These women who were laughing sat up, and no one was listless.

“Get up, make a row.”

Carlos shouted, these women were very afraid of Carlos, they stood in a row direction.

Su Xiao looked at these women's faces in turn. He couldn't just see if they had blood on their bodies. Akame could change to these women's clothes.

Su Xiao, who was holding a sharp sword, obviously made these women a little scared, their bodies shrank, and their heads lowered down.

Five minutes later, Su Xiao checked all these women's faces, he did not find Akame.

This made him somewhat confused. Did Akame run away from the window?

Looking at the three windows of the room, no abnormalities were found on the window. Su Xiao looked at the surrounding walls.

“You all get out.”

The women in the room went out incessantly, and Carlos's men also went out.

“Brother from the assassination unit would you like to give up tonight? Can I find a woman for you to relax? Today is a new batch, absolutely clean.”

“No need, you also can go.”

Carlos coughed with the embarrassment and turned to walk out of the room. He did not dare to offend Su Xiao.

Carlos could become the boss of the red light district, indicating that he was a stupid person. After Su Xiao showed his identity, he never showed hostility.

Su Xiao searched carefully in the room, Akame fled under his sight, which made him somewhat reluctant.

Just as Su Xiao checked the room for more than ten times and was about to give up, he suddenly found a faint red trace on skirting at the corner of the floor.

The finger lightly tapped on the red trace, it was blood!

Chapter 220: The blueprint of revising Teigu

Su Xiao's eyes suddenly sharpened, Akame had definitely come here.

He carefully checked the nearby walls, and there were no signs of being damaged. Su Xiao tapped the floor by dragon flash's handle.

Dong, dong, dong.

Under the floor was an empty space, judging from the sound that the space was not small.

The dragon flash in the hands quickly reversed, Su Xiao directly stabbed down by backhand, it was not enough, Su Xiao pulled out the sword and stabbed for a few more times.

Pulling out the dragon flash, he did not find the blood on the tip of the sword, Su Xiao slammed to the floor by his feet.

With a crack, the floor caved in revealing a hole, inside the hole, was dark.

Taking out the strong flashlight and lightening downward, Su Xiao found that this was a tunnel. Akame definitely escaped from it.

“Can the guards of the imperial capital be more stupid, imperial capital has almost become night raid’s nest.”

Su Xiao blamed with a low voice, Akame escaped into this kind of tunnel for the second time, it could be seen that the guards of the imperial capital were so useless, they even did not find out there was a dug-out tunnel under their capital.

Expanding the hole, Su Xiao turned and jumped into the tunnel.

A moldy smell came, Su Xiao used the strong flashlight to lighten his way forward, there was only one way in the underground passage.

The underground passage was not deep, probably five or six meters underground, from the tunnel’s extent of damage, it should exist in very early years, the night raid accidentally discovered it.

The whole tunnel was somewhat similar to the mine ground. The boards supported the soil horizons above and sides. You could see some metal frames sometime. If the metal frames do not support the tunnel, it may have already collapsed. The entire tunnel seemed like it will collapse at any time. It needed to take some courage to get into it.

Although it looked shabby, the mechanics in the tunnel was perfect. Even if the boards were basically rotted, the tunnel would not collapse in a short time. After he was sure that the tunnel was firm, he began to move slowly.

He gained something after pursuing Akame, and he developed an ability accidentally.

After the energy of Qing Gang Yin invaded the enemy’s body, he could sense the enemy’s position within a certain distance.

The energy of Qing Gang Yin was like a coordinate, and he was the only one who could perceive the coordinate.

This ability was very good for pursuing people. As long as the enemy was injured, the enemy could not escape in a short time.

The reason why he let Akame escape for such a long time this time was pure because Su Xiao was not familiar with imperial capital’s terrains.

After traveling in the underground passage for a while, Su Xiao found a pool of blood on the ground. There was also the underwear near the blood. Looking at the left side of the underwear, there was a broken hole, and this underwear was left by Akame.

He walked quickly in the tunnel, after about ten minutes later, there was a crossroad in front of Su Xiao.

There was no clue this time, and he needed to choose one of them, choosing the right one he could catch up with Akame, otherwise just miss the opportunity.

People would subconsciously choose the right side when they were in front of the crossroad, which had clues.

Most people used their right hand to write, and they would raise their right hand first when they wanted to do something. Su Xiao used the right hand to hold a sword after being habituated to do this for a long time, and people would habitually choose the right side.

Anyway, it depended on the luck, and he chose the right side.

After entering the right side of the crossroad, Su Xiao knew that it was a wrong choice after half an hour. This was a dead end.

It was not that Su Xiao's inference was incorrect, but that Akame had come to this underground passage before, she had known that the right side was a dead end.

The soil horizons collapsed became an earth hummock. Su Xiao could only return. Just as he turned around, he vaguely saw a metallic color on the collapsed earth hummock.

He tried to use the dragon flash to thorn that position, a crisp sound came, how could a metal door in this abandoned tunnel?

Su Xiao had entered this road for half an hour, and even if he returns at full speed, it will take more than ten minutes, Akame could run far away after more than forty minutes.

This metal door indeed made Su Xiao curious, and it was not just a curiosity, some secret locations in the derivative worlds may have good things. Even some contractor sorted out these locations into a set of information. The price of the information was 15,000 paradise coins, which was called the Encyclopedia of the secret places.

He took out a white-quality shield from the storage space, Su Xiao used it as a shovel to start digging.

He obtained this shield in the Titan world, it scored only 3, and it was damaged, the repairing cost was enough to buy a new one, it was that kind of item that it was useless but unable to give it up.

A few minutes later, Su Xiao cleaned the soil in front of the metal door, the red rusty metal door appeared.

A sign could be seen at the center of the metal door, which was the flag of the empire.

The way to open this rusty metal door could only use brute force, Su Xiao held the knife with both hands and pooled all his power to cut it out.

Ding.

A huge reaction force came, Su Xiao's hands were a little numb because of it, but only a gap which was two centimeters deep appeared on the metal door.

As dragon flash's sharpness now, it was not exaggerated to cut metal as cutting mud, but it did not work on this metal door. In the current situation, he needed to spend some efforts to cut open the metal door.

This did not make Su Xiao disappointed, instead of excited him, what did the door so strong mean? Of course, there were treasures inside.

Killing Akame could get a treasure chest. Whether he could get a good thing after opening it depended on his luck, he was not really lucky though.

But exploring this kind of secret places was different. The value of the item in the secret places was fixed. It did not depend on the luck. Just like the warehouse in One piece world he got dragon flash, it was a small-sized secret place.

There were still many this kind of examples. In the shaft of the underground central city of the 24th district in the ghouls' world, it was a medium-sized secret place, the basement of Eren's house in the Titan world, which was also a small-sized secret place.

Of course, the word "secret place" was created by the contractors. These places also could be called as treasure houses, but the word "secret place" was more widely known.

Ding, ding, ding.

Su Xiao began to compete with the metal door, and now dragon flash was extremely strong; this level of cutting would not damage its durability.

An hour later, Su Xiao, who was sweating, leaned against the wall in the underground passage, drinking the water quickly, today's experience could be called fantasy.

From chasing the enemy to hunting the treasure, the change of the style was so fast that people felt stunned.

Finally, he made efforts for a long time, the metal door was cut out and a hole which was barely able to let people enter appeared.

The strong flashlight shined inside. Inside the metal, the door was a long corridor. The corridor was also a civil structure. The boards supported the surrounding mound.

Su Xiao entered from the hole of the metal door. Unlike the turbid air in the tunnel, the air inside the metal door was much fresher. There should be exhaust orifices here, and people could stay for a long time.

After entering the metal door, Su Xiao walked abnormally cautiously to explore the corridor.

There was also a door at the end of the corridor, but it was a wooden door, Su Xiao directly kicked off it.

Boom.

The wood splashed, the wooden door was smashed, a small room appeared in his sight.

Crack, crack.

The sound of machines operating came, a green smoke blew out from the room.

[Warning: Hunter is eroded by 'Kaniat poison gas' and suffers 5 points of the real damage per second.]

The prickly feeling came from all over his skins, and his eyes felt burning.

Su Xiao quickly steps a few steps away from the scope of poison gas.

He lightened the room with the flashlight, Su Xiao saw a metal test bench with test tubes and other objects on it. There was a skeleton in front of the test bench.

There were not only a large number of experimental objects on the test bench, but also an item looked like parchment in the center.

The parchment was about half a meter long, and the gorgeous purple light occasionally flashed on it.

Su Xiao took a deep breath and rushed into the lab. When he stepped into the lab, Su Xiao's life value fell like a stream of water. He would die after at most thirty seconds.

After rushing into the room, he grabbed the parchment and turned to run out of the room quickly.

The prickly feeling came from all over the body, Su Xiao took out the restorative product [energetic springhead] and drank it directly. The prickly feeling of the body then disappeared.

“Huh, huh.”

Clenching the delicate parchment, Su Xiao gasped heavily.

“This time... I seem to earn a lot.”

Seeing the hint of the reincarnation paradise, Su Xiao looked happy.

[You got it (the blueprint of revising Teigu).]

The blueprint of revising Teigu.

Origin: Akame Ga Kill

Quality: purple

Genre: Drawing.

Required items to compose:

1. Main material: a kind of biological Teigu and a spirit of super dangerous species.
2. Sub-materials: Five pieces of any Teigu item.

Tip: The matching degree of ‘biological Teigu’ and ‘the spirit of super dangerous species’ must exceed more than 60%. (For example, a Teigu of the humanoid creature can't be combined with a beast's spirit.)

Tip: The number that Teigu item needed at least five items, the drawing could be added to at most seven items.

Tip: The amount of ‘sub-materials Teigu’ will determine the success rate and the quality of Teigu, which was obtained after success.

Rating: 89

Introduction: This design is made by the craftsman, who was the first one to make the Teigu. His dream is to create the strongest Teigu.
