

## R. Paradise 23

### Chapter 23

The suggestion disappeared, and the room was silent.

“Oh, I don’t believe I will be trapped here till death.”

Su Xiao sat down and began to fight with the reincarnation paradise.

He now understands one thing, that is, the “World Tree Ring” in the storage space is a very precious item.

From the rating of [World Tree Rings] which was ??? It could be seen that the reincarnation paradise seemed to be unwilling to show the value of this item.

[Please hunter, sell the world tree ring so that the reincarnation can absorb the power of the world.]

The notification appeared again, Su Xiao thought about it and asked:

“Take me to the world of derivation, what purpose do you have, and what is this ring?”

Surprisingly, the reincarnation paradise actually gave him the answer.

[Reincarnation and hunters are ‘symbiotic’ relationships, and hunters or other contractors enter the derivative world to explore and gain the world’s source. The reincarnation paradise needs the power of the world to upgrade and maintain the normal operation.]

[The world tree ring contains a lot of power of the world, please sell immediately.]

[The following contents cannot be viewed due to insufficient permissions.]

....

Although there were not many tips given by the reincarnation paradise, Su Xiao understood the most crucial thing.

The reason why the reincarnation paradise sent him to the world of the derivative was that it wanted to gain the power of the world through him.

This so-called power of the world should be extracted through the source of the world so the reincarnation paradise will give him corresponding rewards according to the amount of source of the world.

Reincarnation paradise was supposed to follow specific rules. Otherwise, they will not let him sell [World Tree Rings] but will impose it forcibly.

The identity of a hunter showed one thing, that is, the reincarnation paradise could not directly execute the hunter under normal circumstances.

If he doesn’t break the reincarnation regulations in the reincarnation paradise, the reincarnation paradise could not punish him, not only him but also for other contractors, so there was the existence of hunters.

The so-called hunter was the contractor who deals with those ‘violations’ in the derivative world, but they had not violated the reincarnation paradise regulations.

For example, a contractor discovered the holes in the regulations of reincarnation paradise and used it for getting profit.

At this time, it was the moment when Su Xiao appeared.

Needless to say, those ‘violated’ contractors should be strong and very cunning.

Su Xiao was still sitting on the ground, practicing with his sword as if nothing the matter.

He had a bold idea to extort the paradise.

Although it seemed to take a lot of risks, as a hunter, the reincarnation paradise will not do anything to him.

Su Xiao was betting on whether the identity of a hunter was important. If it is not important, then he had experienced the world with nightmare difficulty was useless.

Time passed by, and finally, two hours later, a notification from reincarnation paradise appeared in front of him.

[Special Task: Choice]

Difficulty level:???

Mission introduction: Hand over [World Tree Rings] to the reincarnation paradise.

Mission information: None

Mission period: five minutes.

Mission reward: a high-level inheritance will be given out.

....

Su Xiao smiled. It seemed that his hunter’s identity had a higher position than he imagined. The reincarnation paradise surprisingly released a task.

After considering it, Su Xiao chose to accept this task.

For the cold and ruthless reincarnation paradise, Su Xiao had a plan in his mind, and he will survive in the reincarnation paradise in the future.

[Special tasks: Choice, completed, ready to issue rewards, please prepare for it.]

Prepare? It seemed that this reward was that not simple.

After the reincarnation paradise just gave a notification, a light appeared in the room and wrapped Su Xiao.

Su Xiao sat in the same place and did not move. He looked at the front and lost his sight. There was blue light flashed in his eyes from time to time.

At this moment, Su Xiao’s consciousness had come to a large hall.

The hall was so large that it could not even see its end.

Su Xiao glanced around and found six statues with hundreds of meters high in front of him. It was a human statue, but it was magnified many times.

“Inheritors..., come on.”

A majestic voice came, Su Xiao’s body was tight, and the sound surprisingly came from one of the statues in front of him.

“The original agreement was at the moment of doing it.”

Another statue talked, the approach of Su Xiao as if caused a regular show, these six statues talked incessantly.

“You are the last inheritor, and our inheritance will end with you.”

“We should disappear in the long river of time.”

“Those stupid magicians destroyed the balance between the world and matter. The so-called magic disturbed the rules.”

“Stupid magicians, even if my body is destroyed, my consciousness will last forever.”

Su Xiao stood in the same place, he felt numb, and those speaking statues in front of him were far more powerful than he imagined.

And these statues were not creatures, but only some of the consciousness left by their strong existences.

“Destruction, birth, destruction, and recovery are all in the sanctuary of birth.”

“Inheritors, remember the names you and I share, we are the shadow of the law, the natural enemies of all magicians!”

At the same time, the six statues opened their eyes and looked at Su Xiao. He felt the violent energy pouring into his body. After that, he turned around and screamed in his ears.

....

“Hoo, hoo, hoo...”

Su Xiao woke up in the room, breathing hard.

He was still in an exclusive room, and the previous scene seemed to be illusory.

[End of reward, exclusive room activated.]

After the reincarnation paradise notified, a door appeared on one of the walls in the exclusive room, which meant he can finally go out.

However, Su Xiao had not taken care of this. He felt that the body was full of energy, and this energy will make him explode.

“What..is going on.”

Su Xiao had been unable to speak usually, and the energy in the body was rapidly changing his body.

The blood flowed at high speed, and the unknown energy was not destroying his body but strengthening his body in an unusually violent way.

The cells in the body had changed. The most apparent change was his hair. The black hair became faintly white, but the difference was minimal and very difficult to detect.

Su Xiao fell down on the ground. He felt that he could not hold on, if it still continued, he would soon die.

[Detected that the hunter's life characteristics are abnormal, ready to start the recovery function, this function will consume the paradise coins you had, do you want to start recovery: Yes/No.]

The sound of the reincarnation paradise at this moment was no longer cold in Su Xiao's ears, it was just like the sound of angels.

“Start...”

The pain was full of his body and was gradually swallowing his consciousness.

Su Xiao's voice just fell, the green light wrapped him, and his paradise coins began to decrease rapidly.

In less than five seconds, the recovery function consumes thousands of paradise coins.

After a dozen seconds, the energy in his body disappeared, the energy was all absorbed by Su Xiao's body, and the recovery function was also ended at the same time.

Su Xiao sat up and tried to move his body. He immediately found an abnormality.

“This is?”

He looked at his hands in disbelief. After absorbing the energy, he seemed to become stronger.

No, it is a lot stronger.

However, this kind of strength was not through the help of the reincarnation paradise, so the reincarnation paradise did not give him a hint.

Opening the [Status], Su Xiao was stunned in his place.

The reward exchanged from this world tree ring was far more amazing than he imagined.
