

R. Paradise 241

Chapter 241

Su Xiao did not sneak into the palace, and he instead got into the palace directly.

The situation in the capital city was now chaotic. As a member of the special department the Jaegers under Esdeath, he could certainly enter the palace freely.

Walking in the palace, several guards passed by from time to time, the atmosphere in the palace was tenser than in the capital city.

The bigwigs knew what happened. Now that the capital city was surrounded, the palace was the safest place undoubtedly.

Some of the bigwigs with luxurious clothes appeared in the palace, some of them even brought their families came and their own guards followed by. This showed how chaotic the capital city's management was.

The little emperor did not care about the important things. The minister thought about controlling the empire every day. Esdeath only cared about the wars that happened anywhere. These three people were the empire's right-center.

The power holders in the highest position were like this, and the following officials were even worse.

Su Xiao checked the situation inside the palace. He had already gotten the map of the palace.

After entering the palace, it was a spacious flagstone road which was tens of meters wide, and there were some administrative side halls on both sides of the road. These halls were workplaces for middle-level officials to handle public affairs.

Walking along the spacious road forward was Guangtianmen. The guards of Guangtianmen were different from those in the main entrance of the palace. The guards here were stricter.

It took a long time to sneak into the Guangtianmen of the palace. Su Xiao directly showed his the identity of the Jaegers, the guards of Guangtianmen let him enter.

After passing through Guangtianmen, it was still a spacious flagstone road, and there were also a large number of side halls on both sides.

Walking on the flagstone road, there were more guards passed by, and these guards were all armed.

“Byakuya.”

A familiar voice came, Su Xiao looked sideways, it was actually Wave, how could he be here.

“Hey.”

Su Xiao responded, he rarely spoke when he pretended to be an assassin.

“Why are you here?”

Wave looked listless, and the thing that happened in the morning stimulated him a lot.

“I don’t have things to do, so come to the palace to guard, the war begins, here is the enemy’s assassination unit’s main target.”

Su Xiao’s tone was gentle. He usually patrolled everywhere. He called it to patrol. Actually, he was observing the terrains.

“I got it, and I was sent by General Esdeath to keep the peace. That’s it, and I’m going to patrol.”

“Ok.”

The two men passed by, and Wave stopped after walking for a few steps.

“Right, we can patrol together; your perception is strong.”

“No, I am used to working alone.”

Wave scratched his head; he laughed and went away after being refused.

Su Xiao continued to move forward, and a majestic palace appeared in front of him.

Here is the Huangxu Temple, which was the place to hold court usually. Because the little emperor ignored the affairs of state, there was already ‘half ruined’.

The entire Huangxu Temple was unusually desolate. There were no officials except the guards. This was originally the power center of the empire.

There were not many guards in Huangxu Temple, Su Xiao easily passed through the Huangxu Temple.

The rear of the Huangxu Temple was still a big road. The guards here were a lot; the little emperor’s loyal bedchamber was in front.

It was already 11 o’clock at night, and there were a lot of guards holding torches in front in front of the little emperor’s royal bedchamber.

The location of the royal bedchamber was in the behind middle the palace, Su Xiao had already gone deep into the palace.

Under the night, Su Xiao quietly came to the roof of the royal bedchamber and began to perceive which room of the palace had people inside.

There were not many rooms in the royal bedchamber, but the size of each room was not small.

Su Xiao walked lightly on the roof and began to perceive the little emperor in the royal bedchamber.

After moving a few times, Su Xiao felt the little emperor’s position in the royal bedchamber.

He gently moved the tiles on the roof of the royal bedchamber, and a dark ceiling came into his sight.

Su Xiao scowled. The architectural style of this palace was similar to ancient times, but the situation was somewhat different.

Jumping into the interval of the ceiling, Su Xiao used the dagger to open one piece of the ceiling and looked downward.

“Your majesty...”

Charming chuckles came.

This was a quaint room with a teenager inside and a group of women!

The teenager was the little emperor, and those women were princesses and beauties found by ministers.

These women were beautiful. Otherwise, they may not be princesses.

At this time, the little emperor was having sex with one, and other women were on the sidelines to serve him, the scene was abnormally fragrant.

Su Xiao finally knew why the little emperor looked weak. There were so many women in his room every night, and the little emperor was only fifteen years old. Because of the luxurious living conditions in the palace, he could be alive. If the nutrition can't keep up with his spending, this small guy may have died a long time ago.

The little emperor had a minister who had an evil intent around, no wonder he lived like this.

Su Xiao checked whether there were guards in the room. Obviously, the little emperor was having sex, and it was impossible for guards to be in the room, not to mention there were a group of women in the room.

The room was filled with a slight smell of sandalwood, which should be a kind of medicine to make them high.

Su Xiao's goal was the little emperor, but there were too many women around him, so it was not a good time to attack.

Patience was essential to making something, and Su Xiao sat on the ceiling to wait. He did not believe that the little emperor could do all night.

Sure enough, at around 12 o'clock in the evening, the little emperor lay on the bed, which was a dozen meters wide, he was exhausted.

The revolutionary army attacked the outside of the capital city, but the little emperor did not have a sense of crisis. This was only because of the minister's words: 'General Esdeath will beat the enemies back.'

This was what the prime minister comforted the little emperor. The little emperor always believed what the prime minister said.

In fact, in essence, the little emperor was just a fatuous prince instead of a tyrant. This was just a poor naïve boy.

The door was pushed open, and the fat minister entered the room.

“Go out.”

The minister's voice was not high. The women got up and put on their clothes, and they didn't care about their bodies being seen by the minister. Many of these women were princesses.

Su Xiao, who was on the ceiling, was surprised. After seeing the little emperor's pale green hair, he felt that the little emperor's hair color began to be extraordinarily oily, it was just like the prairie version of green.

"Your majesty, drink this."

The minister took out a test tube and fed the little emperor the light yellow drug. The little emperor recovered a bit after drinking the liquid.

"I'm tired today, leave one more bottle of secret drug."

The minister smiled in his eyes and nodded. He took a light yellow test tube from his arms and placed it next to the little emperor's pillow.

"Take rest first, your majesty, and I will go now."

"Ok."

The little emperor responded powerlessly, lying on the bed without any moves.

The minister stood talk and walked out of the royal bedchamber, and he was calculating when the little emperor would become useless.

The minister did not want to kill the little emperor, and he only wanted him to be addicted completely to the amour.

The age of the little emperor was too young, he was obviously not interested in wine, and his luxurious life made him not much greedy for his appetite, so the minister chose to use women.

It seemed that the minister's plan had succeeded. If he did not have his secrete medicine to take care of the little emperor, the little emperor would have died on women.

Chapter 242

The palace became gradually quiet, leaving only the little emperor's breath.

Su Xiao jumped out from the layer of the ceilings, the whole person partly squatted on the ground silently, his long trench coat was on the ground.

Walking slowly in the room, Su Xiao noiselessly stepped on the big bed, which was ten meters wide.

The little emperor slept deeply, and he was too tired.

Guards must be outside the palace, and he needed to kidnap the little emperor first.

I was taking out a medicine bottle, which was as big as a thumb and placing the medicine bottle in front of the little emperor's nose. Su Xiao gently fanned the medicine bottle with his hand.

After a few seconds, the little emperor's head sided, his saliva even drooled over.

This was not an anesthetic, but a Hypnotic with super strong effect. If people drink it directly, not talking about the little emperor, even an elephant will fall asleep deeply.

Su Xiao didn't want to use an anesthetic to the little emperor. This boy was too weak, and he will get troubles if he dies.

He picked up the little emperor, a pile of clothes nearby and the test tube on the pillow. Su Xiao came under the hole of the ceiling and jumped up to the ceiling.

He came to the roof of the royal bedchamber with the little emperor, Su Xiao ran quickly to the position on the roof that he had selected.

It seemed that kidnapping the little emperor was very easy, but Su Xiao just went through the strictest level in the palace as the identity of the jaegers.

His strength only lower than Esdeath, the two had not officially fought. Their strength could be up to forty and sixty percent, Great General Budo had forty percent, and Esdeath had sixty percent. This showed Great General Budo's strength.

Great General Budo was old-fashioned, he was the royal escort controlled the palace, and he put his whole heart to serve the empire, he even treated the minister badly, so he was called "a stick in the mud" by Esdeath and the prime minister.

The old-fashioned Great General Budo had always followed the ancestor's preaching, and he believed that the military commander could not interfere with the affairs of the state, so he hadn't interfered to the prime minister and Esdeath's behaviors.

Great General Budo was the Teigu user, and his Teigu was Thunder God's Rage: Adramelech. It was the elemental Teigu which was as same as Esdeath's Teigu. It was capable of manipulating lightning.

If Great General Budo is in the palace, the little emperor's loyal bedchamber will be covered with static electricity nets. It would be impossible to sneak in.

Now Great General Budo had already rushed to the city wall of the capital city.

This was also the reason why Su Xiao had not sneaked into the palace. He did not know where the contractors in the night raid camp were. The contractors in the empire camp were under Great General Budo's commands.

Nowadays, Great General Budo stood in the front line; those contractors had no choices but still needed to stay in the front line reluctantly.

Of course, the contractor would not stay in the front line honestly, but it took time to return to the palace.

Su Xiao came to a place where no one around. He entered an empty hall, which was used to store invaluable things and did not need to be guarded.

He found out an oil lamp with a broken enclosure and ignited it. Su Xiao triggered the reel of the thread on his left wrist and put the line two meters long out.

I am wrapping the line around the little emperor's neck so that Su Xiao could cut off his head at any time.

Su Xiao pinched little emperor's philtrum brutally, and the little emperor groaned a few times, his eyes opened after his eyes twitching.

"What? Where it is?"

The little emperor looked around in confusion.

"Where is the starting key of the Supreme Teigu?"

Su Xiao stood in the dark side, and the dim oil lamp illuminated his pupils; the black pupils were obvious in the darkness.

"Who are you talking about? You this thief dare."

The little emperor immediately realized what happened, and he felt a slight pricking from the neck when he just wanted to yell.

"Keeping yelling, I will cut you a finger when you yell once, of course, the toes will not be forgotten."

The little emperor struggled in his mind for a while, and finally did not choose to yell, the sharpness on the neck made the little emperor understand that his head would be cut at any time.

"Thief, even if you get the starting key of the Supreme Teigu, it will be useless, I can give you money, and immediately disappear in front of my sight."

Although the little emperor fainted, he still had some emperor's momentum from residents' worships, but he was somewhat weak in front of the prime minister and Esdeath.

"Money? Ha, the 'money' I want, you can't give me. You like women very much, right? Take me to get the starting key of Supreme Teigu. Otherwise, you won't be interested in women in the future."

Su Xiao took out a dagger in his hand. Now he had no time. He had no time to torture the little emperor mentally. The effect of threatening him directly would be better.

"Wait, I promise you, don't... don't be close to me."

The little emperor subconsciously retreated, but there was a pricking came from the neck.

The line was tied on the little emperor's neck, and the other end was linked to the reel on Su Xiao's wrist. This situation was somewhat similar to a walking dog.

"Put on the dress and lead the way in front."

Su Xiao threw the little emperor's clothes to him, walking in the palace in pajamas would be suspected.

"When you meet the guards, you can choose to ask for help. I will kill you and then escape from the guards."

The little emperor who was wearing formal clothes looked disdain. He was ready to call for help when he met powerful guards.

Dressing clothes tidily, the little emperor walked in front of Su Xiao, the two walked out of the hall one after the other.

The line was hard to detect; at this time, Su Xiao was like the little emperor's guard.

Getting out of the hall, the moonlight shined on Su Xiao's face, and the little emperor was stiff after his head sided.

“You are the General Esdeath's subordinate, why do you do this?”

The little emperor looked somewhat desperate. He had seen Su Xiao fought. The person was not boasting. After killing him, he had the ability to flee.

“Don't talk nonsense, and you just need to take me to find the starting key of the Supreme Teigu. I will let you go after getting the key.”

Su Xiao looked at the little emperor with smiles. He finally didn't have to pretend to be the shitty assassin, and he did not need to pretend to be mean.

“Ok... okay.”

The little emperor obviously admitted the misfortunate.

“By the way, if you don't follow what I ask, I will kill the prime minister after killing you.”

These words obviously touched the little emperor's raw nerve, and the prime minister was his most intimate person.

What a naïve teenage sadly.

“The starting key for the Supreme Teigu is for you, you can't hurt the prime minister, and you have to let me go.”

The little emperor gnashed his teeth, the little emperor's face in the moonlight began to be ferocious.

The reason that the little emperor promised to take the starting key of the Supreme Teigu was that the starting key of the Supreme Teigu required the royal blood relationship. It was useless for other people to take the key. Making a new key only took one or two years. Can be used again. The key was not the main point, and the Supreme Teigu was the one could not be copied.

“That's right, don't waste time, go!”

The little emperor reluctantly walked in front, and the position was the center of the palace, the starting key of the Supreme Teigu was near the Supreme Teigu.

The so-called Supreme Teigu, in fact, was somewhat similar to a very large robot, the overall height was hundreds of meters.

The Supreme Teigu couldn't move, it usually hid in the palace, the lower part was underground after the royal family members activated the Supreme Teigu, the Supreme Teigu would break out from the ground.

The immovable Supreme Teigu was like a large fort that could emit a very strong laser. The range could cover the entire capital city. The powerful laser could raze the capital city to the ground in five minutes.

The Supreme Teigu was the pinnacle of imperial alchemy technology. The empire's alchemy technology was abnormally prosperous and disappeared for unknown reasons later.

Chapter 243:

The little emperor walked in front of Su Xiao, and the two walked into the palace at an appropriate speed. A thin wire like a hair was tied on the little emperor's neck. The feeling of his life was controlled by other people made the little emperor look awful.

“Your face is too rigid.”

Su Xiao whispered, the little emperor took a deep breath and tried to stay calm.

Looking at the little emperor walking in front, Su Xiao was somewhat relieved. This boy was as green as grass and did not understand the complexity of the people.

Su Xiao held a test tube which was ten centimeters in his hand. The test tube was filled with pale yellow liquid. This was the one that prime minister gave to the little emperor, and he took it away.

[Royal secret medicine]

Quality: blue

Type: restoration

Effect 1: restore 80% of life value after drinking.

Effect 2: strength +3, agility +2, physical strength +10 within 5 minutes after drinking, the damage of body function will be restored to a small extent.

Rating: 62 (Note: blue items scored from 31 to 70. The higher the score, the more precious the item will be.)

Description: the unique secret medicine of the royal family, the formulation only the royal family had.

.....

Su Xiao was speechless after seeing the property of [Royal Secret Medicine]. The little emperor may drink this powerful medicine every day, but only to restore...

He sighed to think it wasted in mind, Su Xiao urged the little emperor to walk faster.

“You have another purpose of approaching General Esdeath, right? Was it because of Esdeath's beauty? By the way, you looked like a couple.”

After the little emperor passed through the initial nerves and fear, he began to test Su Xiao's purpose.

“Who knows?”

There were no guards nearby, Su Xiao also wanted to test whether the little emperor had other intentions.

“How far is it?”

“We’ll arrive soon, there are a lot of guards there, and it’s useless for you to get the starting key of the Supreme Teigu. Only I can activate Supreme Teigu. If you want me to help, you activate the Supreme Teigu, kill me. I will not do that.”

Su Xiao chuckled.

“No, I just have to hand over the key, give me the key, I will let you go, we will both have no loss.”

The little emperor turned to look at Su Xiao and seemed to think of something.

“You are the man from the revolutionary army? Do you want to prevent me from using the Supreme Teigu? It turned out to be the case.”

The little emperor was completely relieved at this time. The prime minister told him before that Esdeath could stop the revolutionary army, so it was not necessary to activate the Supreme Teigu.

The little emperor breathed a sigh of relief in his mind.

“It’s okay to give you that, it’s just a key. It is nothing compared to me and the prime minister’s lives.”

The pace of the little emperor had obviously accelerated.

“I admire your heroic behavior of killing the assassin in the hall. Or you can join the empire. I will let you be the leader of the assassination unit of the empire. How is this, it is more promising than staying in the revolutionary army.”

Su Xiao was more interested in looking at the little emperor, and this kid actually wanted to subvert him.

“Is the hall in front?”

A large hall that was not that tall with a lot of guards stood in front, and there were at least a few hundred guards around the large hall.

“It seems that you refused, it is a pity, here is it.”

The little emperor walked calmly toward the large hall, the guards in front of the main hall rushed to the front, and all squatted on the ground.

“Welcome, my majesty.”

The guards’ voices were neat and loud.

“Well, open the ancestral hall.”

This large hall was the ancestral hall of the palace, which enshrined the spirit tablet of the first emperor.

“This... my majesty, does prime minister know about it?”

The head of the guard in front of the ancestral hall looked awkward.

What a ridiculous thing. The emperor needed the prime minister's approval to enter the ancestral hall, which was enshrined the ancestors.

"Well, I told the prime minister before, now it is too late, he is sleeping."

The lies of the little emperor were not very clever.

"My majesty... I am afraid..."

The guard captain was not ready to let him enter.

"How dare you, he misses his father and can't sleep at night, and you surprisingly stop him from entering to the ancestral hall to worship the emperor's spirit tablet."

Su Xiao spoke, he could not let the little emperor continue to say this.

The guard captain was not stupid.

"Who are you?"

The guard leader with the whole body of the red armor spoke unfriendly, but he did not immediately show it. The palace had too many bigwigs.

"The jaegers."

Su Xiao showed the identification of the jaegers.

The captain of the guard was shocked, and his eyes showed panic and confusion.

"It turned out to be a General Esdeath's subordinate, a family, a family."

The guard captain began to wink at Su Xiao.

"Leave, as your behavior today, I can directly kill you."

Su Xiao's voice was cold, and the dragon flash slowly got out of the sheath.

"The friends in the assassination unit calm down, I don't mean that. It's, of course, okay for your majesty to enter the ancestral hall. But he went in there with the prime minister every time. I am afraid that he will be dangerous in the ancestral hall."

The head of the guard's face was full of obsequious smiles, but he already cursed in his mind.

The little emperor was naive, but he was not stupid. He had already vaguely felt that something is wrong. He could not enter the ancestral hall when the prime minister was not with him. He was an emperor.

The little emperor thought after thinking became wrong, but he didn't know where the problem was. But didn't know why he had an idea in his mind. If there is no prime minister, no one will listen to him.

“Get out!!”

The little emperor suddenly screamed, which scared the guard captain a lot.

Not to mention the guard captain, Su Xiao was also shocked.

“Someone come, arrest him.”

The little emperor’s face looked cold, and Su Xiao’s muscle on the left arm was tight, he was ready to cut off the little emperor’s head at any time.

The little emperor did not let people arrest Su Xiao, and his finger pointed at the guard leader.

The surrounding guards who squatted were motionless on the ground.

“Are you deaf, arrest him to the prison.”

Still, no one moved, the ancestral hall at night was in a strange silence.

The guard captain on the ground was already in a cold sweat. He noticed that something was wrong. It was very wrong. The little emperor was angry, but his men did not move. This may make the little emperor aware that his power had been taken away.

The guard captain whispered to the vice-captain next to him: “Idiot, arrest me.”

The vice-captain aside was stunned and immediately thought of something.

“My majesty? Do you want me to arrest Captain Mark? I was somewhat panic, so I didn’t hear your order. Clearly, it’s my fault.”

The vice-captain looked up at the little emperor.

“Yes, arrest him.”

The little emperor was happy in his mind.

“Yes, sir, my majesty.”

The vice-captain got up, and the other guards knew what was going on, they arrested the guard captain directly.

“My majesty, I’m stupid, please forgive me. I am too worried about your safety, and please forgive me.”

The guard captain immediately asked for mercy.

“Wait, is it true?”

“It’s true, my majesty, do you still remember? I also guarded your loyal bedchamber five years ago, and when you almost fell, it was me to hold up you, my majesty.”

The bodyguard captain talked in a tearful voice and showed regret on his face.

Su Xiao saw this scene, and he thought that this man was really good at acting.

“Uhhh, is there such a thing?”

The little emperor was a little embarrassed.

“That... then forget it, don't do it next time.”

Was it not allowed next time? Was this what the emperor should say?

The guard captain was stunned, and the vice-captain was also stunned. Even Su Xiao was stunned. What was this emperor? If he doesn't subjugate the nation, he will be sorry for the name of fatuous emperor.

“Thank you...my majesty.”

The guard captain who was blowing nose and lowering his head, the disdain fleshed away through his sight.

Chapter 244

With the thing just happened, no one dared to stop the little emperor this time. The little emperor almost immediately realized that his power had been taken away. If this incident caused the little emperor to perceive that his power had disappeared, the guards present would die.

Su Xiao passed through the guard captain, he stopped.

“If you don't want to die, you are better to wait outside. This is the two's meaning. The capital city is in a bad situation. The Supreme Teigu will be activated at any time.”

When he heard Su Xiao's words, the guard captain's pupils constricted, he recalled Su Xiao's previous behaviors and the identity of the jaegers.

The guard captain was nervous in his mind. He was almost dead. The little emperor and the jaegers came here at night. There was only one possibility. The war was urgent and needed to activate to the Supreme Teigu.

The guard captain guarded the ancestral hall, and of course, he knew what was inside.

“Thank you, brother, and I almost lost my head.”

“Tonight, as long as the little emperor does not mention it, I will pretend it doesn't happen.”

The guard captain smiled and took out a piece of gold.

“Brothers, I'm appreciated your hardworking.”

Su Xiao's face is not very good looking.

“What do you mean?”

“Right, right, look at my bad memory.”

The guard captain quickly put up a smile. The people in the palace knew that the men of Esdeath did not accept bribes. Last time was because the situation in the red light district was special, he had to receive hush money. Otherwise, Su Xiao would not accept the bag of gems.

“Let’s go to the red light district for a drink tomorrow, then...”

The guard captain showed a smile that the man knew.

“Well, guard it outside, we will go out soon.”

“I got it, brother.”

Su Xiao walked forward, the little emperor had already walked out a dozen meters away, and the line had also released more than ten meters.

Su Xiao was close to the emperor while taking back the line with the reel, Su Xiao walked three meters behind the little emperor.

After Su Xiao left, the guard captain looked gloomy.

“Shit, the shitty jaegers, a group of murderous madmen.”

Today’s thing made the guard captain more and angrier, and he looked at the vice-captain fiercely.

Snapped!

A heavy slap in the vice captain’s face, the guard captain’s strength was not small, and the vice-captain was turned around for two times by the attack, he was fainted and leaned over to spit out the blood, we could also see the teeth in the blood.

“Senseless, stupid dog, is your head full of shit? As the situation just happened, what you did is to want to make me die?”

The guard captain kicked on the vice captain’s face. The vice-captain has smashed three meters away and rolled on the ground for several laps.

“I will kill you today to feed dogs...”

The guard captain pulled out the knife at the waist and pretended to kill the vice-captain.

“Cousin, it’s my fault, forgive me.”

The vice captain’s cheek had swollen heavily.

The guard captain’s hand which was holding knife trembled because of the anger. If it was not his cousin, the vice-captain tomorrow would be replaced.

“Go to deal with injuries, get out, I feel angry when I see you.”

The guard captain was in a snit; other guards around him were afraid; they did not even move.

.....

In the ancestral hall, Su Xiao became not that worried after perceiving the farce outside.

It was just a quick-witted. He did not expect that the little emperor’s power was exploited to such an extent. He knew that only the emperor could activate the Supreme Teigu.

This may be it was the reason why the little emperor could live to this day.

“You are Byakuya, right?”

The little emperor who walked in front looked upset.

“Yes.”

“Am I a majestic emperor?”

It seemed that the little emperor did notice something.

“No.”

The little emperor was overjoyed and turned to look at Su Xiao.

“You are a fatuous emperor.”

“Fatuous emperor...”

The little emperor looked at the spiritual positions placed beside him, and there were his ancestors.

The empire was a small tribe. The tribe lived on farming. The ancestors of the little emperor cut his teeth on a small tribe. The farming life provided the tribe a stable food, and the size of the tribe gradually expanded.

With extraordinary wisdom and courage, the ancestors of the little emperor built a small country.

This country still lived on farming, and its development rate was not slow. Two hundred years later, this small country became a medium-sized country.

Four hundred years later, this medium-sized country overcame the most abundant location with the best environment on the mainland and established an empire there.

Five hundred years later, the empire entered the most prosperous era. That emperor was wise and ambitious, and he began to use all his power to hunt super dangerous species.

After more than 300 thousand troops were killed and wounded, the empire got some materials from super-hazardous species' bodies.

The empire spent an incredible amount of money to collect all kinds of precious materials and forced all the craftsmen in the country to gather and start selecting.

They selected 120 craftsmen from 30 thousand craftsmen. Finally, these were top blacksmiths, contemporary alchemists and outstanding people in

organ surgery among these craftsmen.

In this way, the empire had created forty-eight Teigu with all its power. Some Teigu were used by the army, and some were suitable for individual combat, some were focused on defense, there were good at also long-range firepower.

If someone gathers forty-eight pieces of Teigu and finds the users, he will find out that these Teigu can form a perfect team, has the ability to attack and defend, it also has the ability to kill the enemy in a large range, and even has the responsibility to assassinate the enemy leader's Teigu.

These forty-eight pieces of Teigu became the foundation of the entire empire. Forty-eight pieces of Teigu were called the 'Royal Guards,' and the enemy called them rabies.

There was no city where the Royal Guards couldn't break, and the people lived in places that rabies passed through were in the great misery.

In those two hundred years, the other large countries around were living in fear, and they were afraid that rabies attacked their capital when they just woke up.

But the good situation did not last long, winning battles incessantly and the rich land made the royal family of the empire begin to be arrogant.

After the empire established for five hundred years, they lost seven pieces of Teigu.

After the millennium, there were only fourteen pieces of Teigu left, and their country was surrounded by strong enemies, civil wars kept happening.

More than ten pieces of Teigu were lost when the little emperor ruled the country, and this situation became better until Esdeath appeared.

Esdeath's appearance could maintain the empire's situation made it exist longer.

One generation planted the trees in whose shade another generation rested, but the little emperor was not resting but eating the tree.

"I am a fatuous emperor..."

The little emperor walked in front listlessly, and soon the two came to the deepest part of the ancestral hall.

On a stone platform with sophisticated carve, a golden key floated in the air. This was the starting key of the Supreme Teigu. The key point for Su Xiao to complete the main task.

Su Xiao went to take the key, but he suddenly stopped in two steps, he looked good.

"What's going on?"

Su Xiao grabbed the little emperor, and the little emperor was shocked.

"The key is in front of you, are you ready to break a promise?"

Observing the little emperor's expression, he had more than 80% could sure that he did not lie; it was not his plan had faults.

A lot of footsteps came around, Su Xiao was surrounded, there was a thick wall behind him, he had no place to escape.

There were at least a few hundred people came, maybe more, but they couldn't all enter the ancestral hall. The person who led surprisingly was Esdeath, followed by was Will.

"Byakuya, why are you and your majesty here?"

Esdeath's voice was cold and looked angry. Will in the behind stared straight at Su Xiao.

Su Xiao now could be sure that his plan must have some problems at a certain point, he started to recall quickly.

After he completely recalled all the actions, he found there was no fault.

“I am protecting his majesty.”

“Yes.. yes.”

The little emperor quickly answered because he felt something was tightening around his neck.

“Byakuya, tell me your real purpose.”

Esdeath pointed at Su Xiao with the sword on her hand.

This time Su Xiao could be sure that he had been exposed, but he did not know how was he exposed.

“How do you find out?”

Su Xiao looked at Esdeath and Will.

“When we got out from the forest, General Esdeath asked you, “Have you seen Kurome?” You said that you didn’t see it.

But... why do you have Kurome’s unique fragrance on your hand? ”

Will clenched his fist, gnashed his teeth, and asked him, “Did you kill Kurome?”

Su Xiao realized what was going on. He neglected one thing. Will’s nose was very sensitive. This was the information that he didn’t know before, whether he got through the animation or real contact.

Esdeath may have placed a large number of informers in the palace. She did not alarm him previously, because Esdeath knew that, not in the special terrain, Su Xiao could escape even if he did not fight.

“Esdeath... General, tell you a secret, actually, I am not an assassin.”

Su Xiao smiled and looked at Esdeath, Esdeath was stunned, her pupils contracted slightly. She never saw Su Xiao smiled. She always thought that Su Xiao didn’t have a laugh this kind of expression.

After seeing Su Xiao’s smile, Will was even more desperate.

Su Xiao, who was smiling, gave people more dangerous feeling than when he had no expressions.

Chapter 245

“You can laugh. I always think that this kind of expression will not appear on your face.”

Esdeath remained calm after the initial surprise.

“I used to... trust you very much.”

Esdeath whispered.

“Ah, I know.”

Su Xiao’s voice was gentle and the two looked at each other.

“Since we are not in the same team, then today we need to fight for a result.”

Esdeath’s tone was cold, the cold air around her body, the ice formed on the ground under her feet.

Su Xiao held the little emperor by one hand, the other hand picked up the key floating in the air, the hint of the reincarnation appeared.

[Main line task: Teigu. Supreme power (completed)]

Difficulty level: Lv.8

Mission Description: Getting the starting key of the Teigu. Supreme power.

Mission information: Teigu. the supreme power is the strongest Teigu, the current owner is the little emperor of the empire.

Mission period: 30 natural days.

Mission Reward: 4 points of the attribute, 12,000 Paradise coins.

Mission penalty: full attribute deducts 3 points.

.....

[Yes / No complete mainline task: Teigu. supreme power]

After the selection was completed, the starting key of the Tegiu supreme power was broken in Su Xiao’s hands, this scene made everyone in the scene stunned.

“How come...this, you damn asshole!”

An angry roar came, the obese prime minister ran out of the crowd, the prime minister scrunched his face.

The revolutionary army had surrounded the capital city, and the Supreme Teigu became the last card in the prime minister’s hands.

“Esdeath, don’t you say no problems? What is going on?”

The prime minister’s emotion was out of control, he yelled at Esdeath.

“Fat-ass, shut up.”

Esdeath looked coldly at the prime minister, the prime minister’s body trembled. He suddenly thought of that the female general had ordered to bury hundreds of thousands of alive people.

The prime minister whispered: “What should we do now? We will be all done without the Supreme Teigu.”

“At most, we will be killed by the revolutionary army. You are too afraid of death, prime minister.”

Esdeath did not take death too seriously.

“What? Don’t you have the confidence to beat the revolutionary army back?”

“Are you kidding? Nearly two million troops of the revolutionary army surrounded the capital city. If you have the ability to break through from the two million people, you can escape.”

The prime minister’s face gradually paled, he did not want to die, he also wanted to control the empire to become an emperor.

“It’s all about you bastard, I’m going to kill you.”

The prime minister pointed to Su Xiao.

“Oh? Are you sure?”

Su Xiao had a meaning of smile in his sight, he was very interested in killing the prime minister.

“You.....”

The minister’s face turned red and took two steps forward.

“If he wants to kill you, he will be likely to succeed, so hide behind like a pig.”

Esdeath suddenly spoke, the prime minister’s footstep stopped, he looked at Su Xiao with fear. He began to observe Su Xiao again.

Surrounded by the strongest general of the empire and tens of thousands of troops, but he did not change his expression, this kind of momentum made the prime minister sigh.

“Prime minister, it’s so nice that you are fine, think some ways to save me quickly, I was kidnapped.”

The little emperor looked at the prime minister joyfully.

“My majesty?”

The prime minister looked at the little emperor with a faint smile on his face.

“I was worried about you before...”

The little emperor hadn’t finished his words, he was interrupted by the prime minister.

“Jerk.”

“What?”

The little emperor looked at the prime minister with surprise.

“What can you do after the Supreme Teigu can’t be activated, you waste me so many secret drugs.”

The prime minister who was disdainful looked at the little emperor with dissatisfaction.

“What?”

The little emperor could not understand the situation at the moment. The prime minister surprisingly said that he was a jerk and was still preparing to abandon him. Is this the prime minister still the one that had been taking care of him?

“My majesty, you are useless now, go to die with this thief, I have no patience to act with you.”

The prime minister’s words made the little emperor desperate.

“Prime minister... Have you been using me? This must be a joke, right?”

The little emperor looked silly, the prime minister did not even look at him this time.

When the revolutionary army attacked, the Supreme Teigu could not be activated, it meant that the little emperor was useless, the prime minister was going to escape.

“General Esdeath, after solving this thief, let’s try to leave the capital city, the era that we ruled may be over.”

The prime minister sighed, the key of the Supreme Teigu broke made him somewhat inappropriate.

“You want to leave and you can find ways, I will stay and fight with the revolutionary army.”

Esdeath did not deny that the thing that they ruled the empire. This was also the truth. The prime minister managed the internal affairs of the empire. Esdeath was responsible to go on an expedition. The big issues were discussed by the two.

“You.....”

The little emperor now fully understood that he has always been used, and his most esteemed prime minister and the general were the true rulers of this country.

“Someone come, arrest them both.”

The little emperor shouted, but the hundreds of soldiers around him did not move.

“Arrest us? I am your closest prime minister, I take care of you when you were a child, hahaha.”

The prime minister looked at the little emperor between tears and laughs, this person surprisingly wanted to order his men.

“You don’t have to care about the little emperor when you’re attacking. He is useless.”

“Yes, sir.”

Unlike the little emperor’s order, most of the soldiers in the ancestral hall answered in the unit after the prime minister ordered, the rest were Esdeath’s subordinates.

Su Xiao did not care what the prime minister and the little emperor said. He was checking reincarnation Paradise’s hint.

[The main task reward has been put in the brand, detect that the hunter has completed the main line task, begin to publish returning task.]

[Main task 2: positioning the coordinate]

Difficulty level: Lv.4

Mission Description: Arriving at a specific location in the derivative world and laying out the coordinates, the coordinate positioner has been put in the hunter's storage space.

Mission Information: coordinate positioner is a precious resource. If it is lost by the hunter, the hunter will need to pay 100,000 Paradise coins. If the Paradise coins are insufficient, we will forcibly collect the hunter's equipment and items as the same value.

Mission period: 10 natural days

Mission Reward: returning qualification

Mission penalty: forcibly execute

.....

The returning task finally appeared. He did not know the reason why the reincarnation Paradise let Su Xiao arranged the coordinates. The position to lay out coordinates was extremely weird, the place even outside the capital city, and not close to the capital city.

Su Xiao could not escape now, the only way was to kill out a road, but Esdeath, Will and tens of thousands of soldiers, the chance to kill out a road was very low.

This was a stalemate, it was also a lesson. In the future, he must pay attention to the details, if he has the future.

What a painful lesson that he needed to wash his hands after touching a woman's body.

“Hahaha.”

Su Xiao suddenly laughed. He was very careful when he was in the extreme north, and finally, he has exposed only because of the fragrance on Kurome's body.

“Why are you laughing?”

Did not know why Esdeath also smiled.

“I lied to you, the prime minister and hundreds of thousands of soldiers, but finally I am exposed by Will's nose, this is...the speechless result.”

Su Xiao did not regret it. It was like this in the derivative world. Both success and failure were there, he may be able to kill out a road.

“Let's fight seriously if you win my life will be yours, Esdeath.”

“I think in the same way, I finally realize why I trust you. We are the same people.”

Esdeath looked very excited.

Chapter 246:

The battle was about to start, and only one of them can come out alive.

But even if Su Xiao defeated Esdeath one on one, she still had an entire army behind her.

She didn't even think about going against him one on one. She wasn't a knight or a Samurai.

"If I can catch you alive, it will be perfect. I will let you enjoy all my methods of torture."

Esdeath's Sadism appeared as Su Xiao wasn't one of her men now, he was her enemy.

Su Xiao stayed silent as he charged forward with Dragon Flash.

Perhaps this was his last fight.

"No need to fight."

A slight whisper from the little emperor interrupted them.

"What?"

Su Xiao looked at the little emperor with doubt.

"Bring me out. I want revenge!"

The little emperor gnashed his teeth, and his face was unusually fierce.

"I don't even know whether I will survive this or not. Why would I bring you with me?"

"No, we might have a chance, listen..."

The little emperor whispered in Su Xiao's ear while the soldiers surrounded them.

"Is there such a thing? Doesn't the prime minister know?"

Su Xiao saw hope in this.

"I discovered this when I first touched the key of the Supreme Teigu. I didn't care about before, so I didn't tell anyone."

"You finally did something wise."

Su Xiao stabbed his sword on the ground, leaving a mark on it.

"What is he doing? Is he mad?"

The prime minister looked at Su Xiao with doubts.

"No, Byakuya is not mad, can it be..."

Esdeath hurried toward Su Xiao.

Su Xiao glanced at Esdeath, who was pushing the soldiers moving toward him, then looked at the minister and said.

“Prime minister, thank you for saying nonsense that made the little emperor desperate enough to come up with this idea.”

Su Xiao directly stumped his foot on the ground as hard as he could.

Boom!

The floor directly cracked, and a large piece fell down.

A large round hole appeared in the ground. Anyone could tell that this was a man-made hole.

It was dark and deep. Su Xiao directly fell down with the little emperor in his hands.

“Don’t think about escaping.”

Esdeath jumped into the hole. This sadistic woman general would not give up.

Just as she jumped, Su Xiao directly pointed a strange weapon at her.

“Is this... a gun?”

Bong! Bang! Bang! ...

While falling, Su Xiao shot six times at Esdeath.

A thin layer of ice was formed in front of Esdeath, blocking all the bullets.

Ding, ding...

Because she was in the air without any form of support, Esdeath was directly pushed back out of the hole by the force generated from the bullets.

Esdeath directly landed on her feet and stood beside the hole, no longer jumping down after Su Xiao.

“Goodbye.”

Something appeared in the hands of the falling Su Xiao. He directly threw it toward Esdeath, who stretched her hand and caught it.

Looking at it, Esdeath saw the assassination unit’s token. A word was engraved on the back of the token. The word was Byakuya, which was slashed with a sword.

“So, it turns out Byakuya was just a fake name.”

Esdeath held the token in her hand and thought about the time when she first met Su Xiao.

‘You won. I am your subordinate now.’

This is what Su Xiao said when he fought Esdeath for the first time.

“Don’t think you can escape like this.”

Esdeath’s killing intent surged as she directly jumped down again.

“Esdeath, wait...”

The prime minister hadn’t finished his words, Esdeath had already jumped into the hole.

“Is this woman mad? Isn't she going to protect us from the Rebels?”

The prime minister trembled angrily, a figure walked past the prime minister, and also jumped into the hole. That person was Will!

.....

Su Xiao's speed was getting faster and faster as he fell down, with this speed, he would definitely die if he touched the ground.

He directly untied the wire from the little emperor's neck, he put it on the handle of Dragon Flash and quickly tossed it into the wall.

Ding!

Dragon Flash embedded into the wall as Su Xiao tightened his grasp on the wire prepared for the jolt.

As the length of the wire was reached, the fall momentum directly pulled out Dragon Flash out of the wall, while Su Xiao's speed slowed down.

Su Xiao repeated this whenever his speed increased as he fell down.

After a while, Su Xiao reached the ground.

Boom.

As Su Xiao landed, the ground under him cracked.

“Are... Are we safe?”

The little emperor's voice trembled, so did his body.

Their surrounding was dark, which made Su Xiao take out a flashlight to look around. Around them, many doors appeared, they were about five meters tall, and each had a number above them, from 1 to 13.

[You arrived at the hidden ground of the derivative world: 'Birumark alchemy trial ground.]

['Birumark alchemy trial ground is a high-risk location, please move with caution.]

[Warning: 'Birumark alchemy trial ground' contains poisonous alchemy gas, you will lose 5 points of Hp per second.]

[Hint: The hunter can spend Paradise coins to generate the air filter device, the cost is 100 Paradise coins per hour, yes/ no generate the air filter device.]

Su Xiao's face changed as his Hp was dropping like water. He felt his body burning, but the gas didn't contain any kind of smell, it was colorless, and odorless, which was the most dangerous.

“Give me the gas mask.”

An invisible shield was generated around Su Xiao by the Reincarnation Paradise. This thing costs 100 Paradise coins per hour. If Su Xiao stays here for a few days, he will go bankrupt.

Although he was out of danger currently, there is an unknown gas around him that could kill him and people who are after his life.

“Go this way.”

The little emperor suddenly spoke, Su Xiao looked at the little emperor with surprise.

“Why didn’t you die?”

“Ha? Why should I die?”

The little emperor looked at Su Xiao with doubts.

Su Xiao could tell that the little emperor’s vitality didn’t exceed 10 points, but here he is, breathing the alchemy poison as if it was normal air.

It was very likely that the little emperor was immune to the alchemy poison.

‘Birummark alchemy trial ground’ was built by the first emperor. The royal family is probably immune to the alchemy poison.

The empire’s alchemy was abnormally developed at one point in history, but it disappeared without a trace after some time later. The Royal family are probably responsible for that.

Su Xiao needs to find the way out of here now.

This place was full of poison, which meant that even Esdeath or anyone with her could come here. A dangerous place meant two things. First, you could die here, second, the place held many secrets and many treasures. Secret equals danger. Danger equals benefits. Benefit equals power.

Su Xiao directly walked in the direction pointed at by the little emperor. As the ‘Birummark alchemy trial ground’ was built by the Royal family, any member of that family should have a way around the trial ground.

Chapter 247: Angry bird

Su Xiao walked vigilantly ahead in the stone passage.

After entering the hidden location of Birummak Alchemy Trial Ground, he was a little uneasy. He felt as if something dangerous was around him all the time.

His flashlight brightened their way, as the little emperor closely followed Su Xiao. After all, his life depended on him.

Su Xiao also needed the little emperor, for now. So, he let him follow behind him.

“Have you been here before?”

“Never before.”

“Then how do you know which direction we should go?”

“Intuition, it’s weird. I know that this was the only safe passage while the other ones would definitely kill us.”

Su Xiao no longer cared as he started concentrating.

[You are inside another area of the Birummak Alchemy Trial Ground. The Poison's density increased. We recommend using a stronger air filter as the current one is about to be destroyed. This will cost you 150 Paradise coins per hour.]

Su Xiao's footsteps faltered as he almost fell. The Reincarnation Paradise is robbing him.

“Activate it.”

The shield around Su Xiao was strengthened, and the little sweetness in the air disappeared.

[You were poisoned, you HP will decrease by 10 points for second for 5 seconds.]

It only took Su Xiao a few seconds to be poisoned, and his Hp started dropping.

This was just outside of the Actual Trial Ground. Without meeting any enemy, and He lost half of his HP.

After a while, Su Xiao took out Bobtney's core.

He didn't know whether Bob would be affected by the Alchemy poison or not as he is a production of alchemy.

As Bob appeared, he happily moved around Su Xiao.

Su Xiao checked Bob's status only to find a small sentence.

[Due to poison, 1 true damage is dealt every second.]

Bob wasn't immune to the Alchemy poison, but the damage was small, and with the Ice Goddess Halo, the damage won't be effective at all.

Bob didn't like the sweetness in the air but didn't complain.

With the healing ability of the Halo, Su Xiao's HP climbed up constantly, and any trace of being poisoned disappeared.

“This is your Teigo. I didn't see anyone like this in the empire.”

The little emperor moved his hand, wanting to caress Bob's head.

Bark! Bark!

Bob barked threateningly, and the usual good dog display disappeared when it wasn't Su Xiao.

If the emperor moved forward, his arm would be taken by the Sharp Fangs in Bob's mouth.

“What a fierce Teigo.”

The little guy retreated when wolf-like characters appeared in Bob's eyes.

“Bob, be alert!”

Upon hearing Su Xiao's order, Bob ran and wagged his tail at Su Xiao while rubbing his head on the former's legs.

Su Xiao started walking once again with Dragon Flash in his hand, and Bob following from behind.

After some time, they saw a light at the end of the passage, as they reached it, Su Xiao put away the Flashlight and moved forward.

Su Xiao stopped with a light breeze coming across his cheek as he looked at the scene in front of him with amazement.

Here, in an underground cave, there were trees and leaves that came off due to the wind.

Stepping on the soft grass, he felt that instead of going down into the earth, he just stepped into another land completely different. It was beautiful scenery.

The grass moved along with the breeze creating gentle waves, making it seem like a green ocean.

“There is such a place under the Palace? This is incredible.”

The little guy stood still.

“How is the ecological system being balanced in this place?”

Su Xiao looked up to see birds flying. They were shaped like sparrows.

They had a gorgeous blue feather, but somehow, Su Xiao felt creeped out.

A dozen or so birds hovered above his head. They glided down toward his head quite fast. Strangely, the birds looked only at Su Xiao. They didn't seem to notice the little guy.

As he came down, Su Xiao directly slashed it with his sword. Suddenly his eyes widened as he felt the bird's resistance.

Since entering the Rhythm of All Things state, Su Xiao didn't encounter such a situation before, the bird's body was harder than it seemed.

Su Xiao exerted more strength, cutting the bird in half, which each passed by one side.

Boom!

A strong noise came from behind him, Su Xiao directly looking behind only to see two holes made on the ground by each half of the bird.

It was astonishing. If such a blow hit Su Xiao, his body would have two additional holes.

The death of one of the birds angered the others, which made them collectively swipe down toward Su Xiao with their pointed beaks.

Su Xiao directly stepped back, avoiding the birds.

Bang! Bang! Bang!

The ground was filled with holes as the grass flew into the sky while the birds continued their assault.

Su Xiao could handle a few dozens of these birds, but if they were in hundreds, he would only be waiting for his horrible death.

After a few moments, Su Xiao waited for the birds to re-emerge from the ground, but nothing happened.

Coming closer, Su Xiao found a few blood stains on the holes and concluded that the birds' attacks were suicidal, as they would die by the impact.

Su Xiao sighed in relief. Just as he stepped into this area, there was so much danger.

Bark Bark!

Bob barked while looking at the distance. When Su Xiao turned to look, he was stunned.

“How could there be so many of them.”

Su Xiao directly grabbed the little emperor, jumped on Bob's back, and ordered him to use the Speed Charge skill.

Speed Charge (Active): After activating this skill, Bob's movement speed increases by 100% while consuming 10 Mana points per minute. Bob can still carry Heavy objects without any speed reduction.

“Bob, run!” (T/N: Run Bth, Ruuuuun!)

Bob dashed forward without hesitation with Su Xiao and the little emperor on his back.

As he looked back, Su Xiao saw a few hundreds of these birds moving toward them.

One hundred were enough to turn Su Xiao literally into a Sieve. One thousand would leave nothing of his body.

Fortunately, Bob was fast. He stuck his tongue out while looking behind to see the birds.

“Don't look behind, concentrate on running.”

Su Xiao almost facepalmed at the Dog's provocation and hit his head as he ordered.

“Be careful of the tree.”

Su, Xiao shouted.

Bob was rushing toward an old-looking tree that was more than ten meters wide. Hearing Su Xiao's shout, Bob directly tried to avoid it.

Bob avoided it by twenty centimeters at Most, but as he did, both he and Su Xiao heard a loud sound.

Boom!

Su Xiao felt the little emperor's body shake a little, the latter's head was bumped into the tree, making his eyes roll back as he fainted.

Chapter 248: Gather

Bob just ran desperately from the flock of birds behind him.

Thousands of birds screeching made Su Xiao feel irritated.

Although Bob was silly sometimes, he ran pretty fast. You can say that even while the birds were flying after him, they couldn't catch up at all.

After ten minutes, the birds were no longer in sight. They got rid of them finally.

They came in front of a pool, the water inside it was very clear and the bottom was visible from above.

Although the pool was clear, Su Xiao dared not touch the water in the pool. He already learned his lesson from the previous encounter with the birds.

Every creature in this place wanted to kill him. All outsiders were enemies.

The little emperor was thrown to the ground by Su Xiao, who shouted at him.

“Hey, wake up.”

He kicked the little emperor who had no reactions as if he died.

“Bob, wake him up.”

Bobtney cheerfully ran to the little emperor, bit his leg. After that, he directly started shaking his head, waking the emperor from his sweat dreams.

“Ahhhh!!”

Releasing a scream that seemed worthy to be put in a horror movie, the little emperor woke up as Bob threw him to the ground.

“Ahhh.”

After screaming for a while, the little emperor calmed down and was really angry.

“You.....”

The little emperor shut up after he just spoke. He saw Su Xiao smiling sweetly at him.

“Do you want to say anything?”

“No, no.”

“Which direction should we go now?”

Su Xiao could only depend on the little emperor’s instinct, or else he would probably die in this trial ground.

“Well, over there.”

The little emperor pointed to the left.

“What is this sound?”

The little emperor looked around.

Hearing the strange sound which seemed like bubbles, Su Xiao directly looked at the pool.

After looking at it, Su Xiao suddenly released that this wasn’t a pool at all. They were transparent creatures that resided here in this hole.

Countless bug-like transparent creatures crawled out of the hole. They seemed just like a stream of water.

Su Xiao jumped directly onto Bobtney's back and grabbed the little emperor.

They continue to escape, he had no idea how to fight with that kind of transparent bugs, and there were too many of them.

Seeing Su Xiao wanted to escape, the bugs directly regathered together.

Bobtney started running. Su Xiao turned to look toward the pool, and directly, his eyes twitched.

A transparent giant snake and a dozen meters thick, hundreds of meters long appeared. This snake was composed of these bugs.

The giant snake moved quickly on the grass toward the running dog.

Sizzle.

As soon as the snake touched the grass, it made it turn black with a weird odor oozing from it.

The snake just kept moving forward. It didn't matter if a tree or a rock was in front of it; it just crushed them.

Each time it crashed into something, the snake would wrap it around its body.

The trees which were wrapped were decomposed directly, leaving nothing of it after a few seconds.

Wherever the transparent giant snake passed, no matter whether they were trees or stones, all of them turned into nothing.

This thing was very corrosive, but the trees were not corroded, they were eaten, they were eaten by countless transparent insects in a short time.

Su Xiao took out a scanning device. He was going to check the transparent giant snake's information, which could make him understand more about it.

[Comparing the intelligence of both parties... The comparison is completed; your intelligence attribute is 12 times greater than your target, 100% to obtain your target's stats.]

The information is as follows:

Name: gathering insects

Type: alchemistic creature (semi-finished product)

HP: 100%.

Mana: 20

Strength: 5

Agility: 20

Vitality: ???

Intelligence: 2

Charm: -5

Skill 1: the gathering (Currently used): The gathering insect consists of 170,000 individuals.

The consciousness of these creatures will be unified after gathering.

Skill 2: the evil of corrosion (passive): corrode any creature, object, etc., causing 90 points of damage to per second.

Skill 3: tens of thousands of bites (passive): bite any creature, object, etc., causing 50 points of damage per second.

Skill 4: Secondary immortality (passive): Each individual gathering insect has the ability to split, except for eliminating all 170,000 individual insects. The gathering insect will regain its original quantity within one month.

.....

Directly Su Xiao concluded, these things can't be destroyed by the current him.

Even if Esdeath came, her ice ability can't completely eliminate the gathering insects all at once.

The best course of action is to escape as far as he could.

After the gathering insects pursued Su Xiao for a while, they lost interest and turned back to the direction of the huge hole.

Su Xiao did not stop, staying away from the gathering insects would be better.

Su Xiao wanted to leave the 'Birummark alchemy trial ground' as soon as possible. It could be seen from the first two creatures, the creatures here were much stronger than him.

But now the future was still unknown because he had to listen to the little emperor for directions.

Su Xiao tried to use the omnipotent compass for directions, but it was turning faster than the fan.

Moving for ten minutes, Su Xiao found himself in front of a big stone tablet with a few words inscribed on it, but he couldn't understand any of it.

"People... who are... not from the royal family...the forbidden land."

The little emperor tried to read it, but he only recognized a few words after he looked at it for a long time.

"What was written on it?"

"That's what I can recognize. Others I can't recognize. I had learned this kind of language when I was very little. After many years, I almost can't remember."

The little emperor shrugged.

Su Xiao jumped from Bobtney's back.

"Bob, tear him."

Su Xiao smiled coldly, the little emperor's lies were too obvious.

Bobtney rushed to the little emperor. He stared at the little emperor's throat.

“Wait, I've saved your life, I'll tell you, I'll tell you.”

The little emperor surrendered.

Su Xiao lit a cigarette.

“First, you didn't save me because you wanted, you just did it for yourself. Second, if I didn't take you away, the prime minister and Esdeath would've killed you. Third, you are now my captive, when we get out of here, I will let you leave.

Do you know what's going on now? If you don't remember the language, I can let Bobtney remind you. “

Bobtney was circling around the little emperor. It seemed that it was thinking about which part of the little emperor to eat first.

“I got it.”

The little emperor knew that there was no way out.

“What was written on it?”

“Well, let me look at it carefully.”

The little emperor began to read it carefully.

”Here is called ‘Birummark alchemy trial ground’, which was once the empire's alchemy trial ground. There are many alchemists working here to make alchemistic creatures and objects. Only the royal family members and alchemists can freely enter here. The location here is the outer layer of the trial ground, the center of this place can be reached moving east Uhhh. ”

The little emperor looked at the stone tablet with surprise.

“What?”

“There was an exit here, the emergency exit to the capital city's suburb, we need to keep going to the east. After we passed through the center of the ‘Birummark alchemy trial ground’, we will reach the exit, that's it.”

Su Xiao finally felt relieved. He was afraid that it was a dead-end and he trapped here.

If that was the case, Su Xiao would try to go back to the surface and fight against the army instead of rotting here.

The only good news now was that there was an exit here. The bad news would be, if the outer layer was already so dangerous, how much more dangerous the center could be?

Chapter 249

The breeze blew on the grass was extremely quiet.

Bobtney, which was carrying Su Xiao, ran for nearly two hours.

“Bob, stop.”

Su Xiao looked at their surroundings. He saw green grass around. He could see some trees before. Now there was only grassland around them.

“What happened?”

The little emperor who was held with one hand by Su Xiao in the air asked. Except for Su Xiao, Bob wouldn't allow anyone to ride on his back. He would just turn around and bite, no matter who it was. So the only option for the little emperor was to be held by Su Xiao above the dog's body.

“There is something weird here.”

.”Are there any dangerous creatures?”

“No, we may be lost.”

Su Xiao jumped from Bobtney's back and pulled out an iron stick from the grass not far away, which he had previously put there.

“How can we get lost? We are moving forward, aren't we?”

The little emperor looked around, and the scene was roughly the same, an endless area of green grass.

“Bob, run forward.”

Su Xiao stood in the same place and let Bobtney run straight.

It was normal at first before the route started to shift.

Bob would, from time to time, turn his head and look back at Su Xiao to keep a straight line from him.

After Bobtney ran a few hundred meters, Su Xiao could only see it vaguely. The strangest thing happened, Bob appeared from behind Su Xiao as if he ran in a circle around them.

Su Xiao guessed correctly. They were going in a circle all along.

This can't be sensed if there was nothing marking their place, but with him standing still and letting Bob run alone, it was clear now.

This is pretty hard to deal with. It seemed like it was built to confuse any creature's sense of direction.

Su Xiao could tell that this was caused by visually, and if they wanted to move straight ahead, they would end up going in a circle.

He won't be able to solve this quickly unless his perception covers the entire grassland.

Since he can't tell the direction, he would just go without aim.

This place confuses the sense of direction of creatures, but it wasn't a maze.

Su Xiao directly got on Bob's back and gestured for him to move forward.

Now, after going twice in a circle, Su Xiao kept inserting sticks on the ground as markers.

After running aimlessly around in circles for a dozen times, there were dozens of markers on the ground.

There were a few markers going in a straight line, while others were scattered randomly.

“Bob, continue.”

Su Xiao took out the pen and paper from his inventory. He first drew a circle on the paper and used the pen to point out some black points on the paper.

The circling began, after running for a few dozen circles later, Bob was getting impatient as he knew they were running in circles.

“The first 30 meters forward, then 50 meters left, then 10 meters right, no, it’s 15 meters right...”

Su Xiao racked his brain to find the right route. Although he looked calm, he had ‘cursed’ the designer of the grass area countless times.

The designer was a perfectionist, changing direction with a different number of steps each time, which made it even more difficult to calculate.

“Bob, move thirty meters forward first.”

Bobtney turned to look at Su Xiao. The dog was confused. It seemed to ask: ‘Boss, how far are 30 meters?’

Su Xiao sighed, he somewhat overestimated Bob’s intelligence, Bobtney was a smart creature, but its intelligence was somewhat poor, commonly known as a stupid dog.

“Just move forward, you stop immediately when I ask you to stop, you can’t move one more step.”

Bob began to move forward, sometimes it turned left, sometimes it turned to the right, and occasionally it took a few steps back.

“This is the direction, keep running.”

Bobtney ran wildly. The view changed, it was no longer a grass area.

They succeeded.

The surrounding scenes were finally no longer the same; some trees appeared.

[You have entered the center of ‘Birummark alchemy trial ground’, alchemy poison begins to change.]

[You are eroded by ‘Sdrolo’ alchemy poison, strength-10, agility-10, physical strength-10, and 7 points of real damage per second.]

[do you want to turn on a high-level air filter? it costs 300 Paradise coins per hour.]

Su Xiao felt his body getting heavier from the poison.

“Activate it.”

Although he was reluctant, he had to use the air filter, or else he'd die.

After half an hour, the grass started to disappear as walls appeared from the sides forming a tunnel which was getting narrower.

In the end, they were in a cave. The cave was about ten meters high, and the plants on the ground were withered.

A heavy smell directly attacked them, which made Su Xiao order Bob to move further ahead.

After entering the cave, heavy footsteps were heard behind them, and suddenly they heard some strange voices. So Bob directly hid in a crack inside the cave.

“Gabahaha... (unknown language).”

“Tutu... (unknown language).”

This should be some kind of language. Su Xiao couldn't understand it at all. He just took a peek to see what's going on.

He could see a group of people about one meter tall, their bodies were thin, the skins were dark yellow, their eyes protruded, the ears were sharp. They looked like humans.

There were five strange creatures. Although they were only about one meter high, they were powerful. Each strange creature held an iron box with three meters high in their hand. The iron box contained black stones.

Su Xiao immediately recognized the stones. It was coal. These creatures were very likely to have intelligence. Were they alchemists? Their appearance didn't give that feeling.

“They seem to be dangerous species: crypt people, but the crypts people don't have such great strength.”

The little emperor recognized the origins of strange creatures.

“Crypt man? A kind of human?”

“No, the crypt people are between humans and beasts. They have an independent language. They usually live on the west side of the mainland. They are numbered in the few hundred thousand. They often rob nearby villages. They also have the habit of eating people. To be exact, they will eat any kind of creature. If they are too hungry, their weak companions are also treated as food for an emergency.”

The little emperor knew a lot about dangerous species.

During the conversation between the two, the crypt people had entered the cave.

Su Xiao was very concerned about the destination of those crypt people. He began to track several crypt people, Bob and the little emperor followed Su Xiao.

These crypt people were familiar with the terrain of the cave. Moving forward in the cave for about ten minutes, the crypt people entered another area.

Boom.

As Su Xiao looked at this new area, he saw some heavy machinery all around the place.

These large machines were steel structures with some metal catheters attached to them, and the other end was attached to the rock wall.

At the center of the area, a ten meters high furnace was working, all the coal transported by the crypt people was put into the furnace.

The temperature of the area was very high. There were hundreds of crypt people around the large pieces of machinery working. Their naked upper bodies were covered with oily sweat. The dark yellow skins were covered with dirt.

Snap!

A crisp sound of a whip came, several tall crypt people were standing on the steel machinery, holding the long whip to supervise the crypt people below working.

These crypt people looked like guards who were about one meter and a half tall, they wore simple armor, their skins were light cyan, and their big eyes were extremely fierce.

When crypt people heard the whip sound, they trembled and started working harder to move coals, maintain the machines, etc.

Chapter 250:

There were mechanical engines all over the place, and from time to time, they ejected steam.

“Ahhh!”

A scream came from a crypt man who was burned by the steam, and blisters formed all over his skin as he fell to the ground.

The people retreated as while roaring as they seemed dissatisfied by this incident.

“&”é”&&é’ ... (Unknown Language)”

The crypt guards pointed at the man and said something.

Suddenly one of the crypt man went toward the burned one, then checked him up before shaking his head which meant there was no hope for him.

The guards held the man and threw him into the steam.

“Ahhhh!”

A heart-breaking scream came, and then nothing could be heard anymore.

After a few minutes, a hook appeared in the hand of the guard before he took the semi-cooked man out from the steam.

The crypt people seemed like they hadn’t eaten in a long time and their mouth water looking at the cooked one.

“&é”(&... (Unknown Language)”

The guard shouted as he stood in his place. As he jumped up more than ten meters toward the cooked man.

Before sitting down and taking an arm and slowly started eating it.

After the guards finished eating, the people swarmed the cooked man and started eating as well. After a while, nothing was left of him.

This scene fell into Su Xiao eyes; that jump was not normal.

“Ugh...”

The little emperor vomited with a pale face.

“Now... what should we do... These guys are bad news.”

The little emperor looked at them with fear.

Su Xiao knew that it wouldn't be wise to fight these crypts. If it was outside, it wouldn't matter, but here, it was like he was trapped in a poison hole.

Su Xiao took out a red test tube before tossing it into an open space.

The test tube moved slowly before breaking on a large machine.

A reddish mist floated in the air, getting diluted slowly.

Su Xiao took three gas masks before giving one to the little emperor and one to Bob.

Seeing Bob with a mask on his face, Su Xiao almost laughed.

Waiting for the gas to fill the place as he put the mask on.

This item was purchased from Reincarnation Paradise, it wasn't that expensive, and it was excellent.

This wasn't a normal Anesthetic, and it was ten times more damaging than one, it permanently damages the nervous system, and the only requirement is a semi-enclosed space, and its price was only 50 Paradise coins.

After about ten minutes, Su Xiao's brows wrinkled. The poison resistance of these crypts was astonishing. Generally, it took three minutes for the anesthetic to take action, but ten has passed, and no effect was shown.

After half an hour, a crypt man finally fell down and started twitching like a fish out of water.

This was like a chain reaction as more started showing the same symptoms. This made the guards angry as they picked up a whip and hit the fallen crypts faces. After a few hits, the crypts were broken.

After a few minutes, the guards felt that something was wrong.

Its body swayed for a while before stabilizing without showing any sign of falling down.

The guard finally shouted to get the attention of the crypts and other guards.

The other guards finally noticed that most of the crypts fell down on the ground, leaving only the four guards.

Seeing this, Su Xiao Walked out from his hiding place as he wanted to pass these guard.

“Tuta.”

The guard shouted; he threw away the whip as he picked a long hammer from his waist that was covered with dried blood.

The Guards rushed toward Su Xiao.

This time, Su Xiao guessed what the guard said, Tuta would probably mean enemy.

“Bob, take two away, just drag for time.”

The dog directly greeted the guards before running very fast, then as he was about to hit them, he made a 90° turn and moved away.

The guards were angry, and three of them followed after Bob, who was good news for Su Xiao.

The Guards seemed to to be affected by the drug as they weren't moving efficiently, but it wasn't that obvious.

A crypt Guard looked at Su Xiao as he licked his black teeth as he wanted to eat Su Xiao.

The Guard rushed at Su Xiao and slammed his one-meter long hammer at him.

The wind brushed against Su Xiao's face as he barely avoided it while holding Dragon Flash in his hand.

Boom!

The hammer hit the ground, creating a large pit on the ground.

If this hit Dragon Flash, even if it didn't break, Su Xiao most likely won't be able to keep it in his hand.

Su Xiao used [Hawk's Eye] to view the attributes of the guard.

Name: Crypt guards (in chemical poisoning)

Type: Alchemy

Health: 86%.

Mana value: 100

Strength: 30

Agility: 22

Vitality: 30

Intelligence: 10

Charm: 2

Skill 1: Hammer skill (active), pull out the hammer with full force, and cause damage to the enemies hitting three times and causing bone-breaking effect, consuming 30 mana.

Su Xiao's pupil constricted as he viewed the information from the Guard.

His attributes were high; his Strength and Vitality are as high as 30 as well.

The Guard didn't have a large body, and he had 30 points in strength, which means his explosive strength was something else.

Su Xiao was vigilant not from this, but from the 30 Vitality because he was very tenacious it seems.

Avoiding the hammer by a hair, Su Xiao's hands gripped Dragon Flash as he walked sideways and slashed the Guard in his chest.

Wouch!

The Sword was thrust into the Guards's chest, but it could only penetrate a few centimeters before it met with resistance.

Su Xiao took his sword back as the crypt guard didn't care about his injury as he slammed his hammer again.
