

R. Paradise 261

Chapter 261: 261

Su Xiao started playing puzzle games while waiting for Lucky Flame's upgrade to end.

Bob was sitting peacefully. They sat there waiting for about half an hour.

After half an hour, Su Xiao noticed that the Lucky Flame changed shape.

[You obtained destiny redemption + 7]

destiny redemption + 7

Origin: Reincarnation Paradise

Quality: Blue

Category: Jewelry

Durability: 56/56

Requirement: Luck Attribute lower than 5

Equipment effect 1: destiny captures (passive). Capturing or defeating a Destiny lifeform will activate the Destiny Redemption.

Note: Currently 0%, no lifeform was redeemed.

Equipment effect 2: The strength of destiny (Active), emits the destiny that the destiny redemption' in skill took, the holder luck attribute + 3 (+ 7 effect increases 1 point), the effect continues for 2 minutes(+7 effect increases 1 minute of duration), if no lifeform is redeemed, you will pay 800 Paradise Coins to replace the destiny, achieves the same use effect.

Tip: Cooldown time of Strength of Destiny (Active) is 5 natural days. (+7 effect reduced 2 days)

Rating: 70

Introduction: Luck goddess is smiling.

Price: 15,200 Paradise Coins.

...

Lucky flame turned into Destiny Redemption. It's good that its nature didn't change, only the quality, as lucky flames add +2 to luck while Destiny redemption adds 3 and also the time of the effect is 2 minutes.

Compared to the 15-second Lucky flames provided, 2 minutes was a lot better.

The requirement changed, as he needed to capture or kill someone for him to be able to activate it for free, but he still can use 800 Paradise coins, and he will get the same effect.

Now, with the change, he can open more than one treasure chest at once.

“Here, the seafood you ordered.”

The gentle cook was standing in the dining hall while looking at Su Xiao.

“This puzzle game is good. I went through half already.”

The cook, Xià lüè, was surprised.

“I played that puzzle for half a year, and I didn’t get where you are now, do you have any advice.”

“I just occasionally play.”

Su Xiao told the truth, and he played when he had time away from fights.

“Really, maybe that’s why I’m not a contractor, my IQ may be too low.”

Xià lüè went back to the kitchen, looking somewhat angry at herself.

After eating, Su Xiao went to the Arena to fight.

...

After four hours, Su Xiao was fighting the ranked 50th fighter, who wasn’t weak, but he still lost to Su Xiao in the end.

[79 Winning streaks]

When the notification sounded, and appeared on top of Su Xiao’s head, the surrounding spectators were in an uproar.

“How is it possible to win 79 times without losing any, does anyone knows the background of this guy?”

“No one could defeat him; it’s one-sided.”

The audience cheered as Su Xiao disappeared from the stage.

[The fight had finished, you won!]

[You were promoted to rank 32]

[Continue to the next match {Yes} {No}]

The winning streak caused his rank to jump fast to rank 32.

His opponent now sent him a message.

“I lost fair and square, what is your advice about my close combat? Do I increase strength and agility?”

This time, he fought against a close combat fighter using hummers.

The reply, Su Xiao send two words: “Opportunity assurance.”

Su Xiao chose to continue the match as he wanted to get to the top ten, which wasn’t easy.

“The president told me to pay attention to this person who is getting higher on the rank with quickly.”

Many people were wearing a uniform as with swords with overlapping design.

“If I remember correctly, this guy was rank 163, and now he is already in the top 100?”

“It’s impossible to be this quick.”

Several people whispered.

“I heard that a moment ago he won his 79th match and directly gotten to rank 32...”

“What!”

Several people were in disbelief.

“We must inform the president.”

Several people started contacting the president of their group’s president.

The groups seek the high ranked competitors to join their group, and if one of the top 50 ranked competitors joined their group, they would have special treatment.

However, not all competitors would actually join as they are always solo.

Many guild leaders rushed to the arena quickly wearing their duty outfit. One of them was a beautiful woman wearing high heels. She was famous in the Reincarnation Paradise with the name Mei Ji.

“Attractiveness should take this done.”

Mei Ji walked as she spoke sexily; several people swallowed their saliva as their lower abdomens felt hot.

“President, the price of this information is...”

“200 Paradise Coins.”

Mei Ji traded with the one who gave her the information. The guy’s mouth opened and closed.

“Are you unsatisfied? You aren’t the who first discovered this guy.”

“How is that possible.”

The president gave him a smile.

It was said that Mei Ji was in many relations with large scale group captains. That’s why most of them fear her.

“That’s right, and you aren’t the first.”

Mei Ji moved her slender waist as she walked toward the Arena.

Chapter 262: Gratitude and Grudge.

In the rest cabin, Su Xiao sat on the chair wearily.

[First order, Rank: 21. 84 Winning Streak.]

As he continued fighting, he faced someone who was hard to deal with. It was a magician who uses just a small fireball technique.

Primary skills like fireball shouldn't be that strong, but his fireball was a bit special, sometimes it's small, sometimes it big and sometimes, he releases two at the same time or five.

If Su Xiao wasn't good at dealing with magicians, he would've lost.

In the Reincarnation Paradise, there is no lack of powerful people.

After fighting several times, his control over his strength after the upgrade improved.

[Next match is in Queue, please wait.]

This happened most of the times now because his rank was close to the top; there are fewer matches for him. It would take at least half an hour to find a match now.

He suspected that if he was in the top ten, he would at least wait an hour if not two.

After beating dozens of competitors, Su Xiao noticed some rules for the arena. It's not how fast you defeat your opponent that promotes your rank; it's the strategy and all aspect for a fight.

After waiting for an hour, Su Xiao canceled the match queue, but suddenly a prompt appeared in front of him.

[Prompt: Rank 163333 Competitor initiating a challenge to you.]

Su Xiao directly declined the challenge as the rank of his opponent was in the six figures which didn't interest Su Xiao.

The challenge appeared again.

[Prompt: Rank 163333 Competitor initiating a challenge to you.]

Su Xiao's brows wrinkled as he once again declined.

[Prompt: Rank 163333 Competitor initiating a challenge to you.]

And again, he declined.

[Prompt: Rank 163333 Competitor initiating a challenge to you.]

Su Xiao's eyes were cold as he accepted and directly teleported to the arena.

The stage was without many audiences as the challenger seemed to forbid an audience.

Su Xiao looked in the arena, and he found a woman with an exposed attire standing in front of him.

“Hello, I'm...”

Without waiting for the woman to talk, he directly flashed toward her.

Without even pulling out his sword, his hands were placed on her neck, cutting the supply of oxygen to her brain.

“...”

Su Xiao directly snapped her neck.

Kacha!

The Body of the woman directly turned into light.

“Challenging me three times which I declined them all, and you still want to continue, if this was a derivative world, I would've fed you to the dog.”

Her body dissipated with only a few words remaining, Guild's president: Mei Ji.

In the rest cabin, Mei Ji appeared and was panting, and her body was shaking.

Although she knew she wouldn't die in the arena, the aura of that man was terrifying.

“He dares to treat me like this.”

Mei Ji gritted her teeth as her appearance turned fierce.

“The code Name of that Guy is Byakuya, his name in the derivate world is also Byakuya.”

Mei Ji contacted her old friend as her fierce aura vanished as she started wearing makeup.

A man wearing a full golden body armor appeared in the video call.

This guy was one of the few that held his position in the top ten of the Arena.

“God-King Boss, Someone bullied me.”

Mei Ji charmingly said to the man while complaining about the injustice.

“Mei Ji, who was it?”

The man's voice was loud and clear.

“A fellow named Byakuya.”

“Byakuya? I heard about him.”

The man pondered for a long time before he remembered that this person. He was the one who was invited to the Phantom Troupe which was sworn enemy with the God-King adventure Group (guild).

After pondering a little, then he knew he wouldn't be able to do anything to one that interested that crazy group.

“I will see what I can do later, and I have things to do.”

The boss closed the call, and Mei Ji stood in her place, shocked.

“This... What's the meaning of this?”

Mei Ji gripped her fist tightly.

“He slept with me, and now he doesn't want to help me?”

Mei Ji knew that she couldn't offend the God-King.

“This matter didn't end.”

Mei Ji contacted her friends one after the other, but when they heard he was ranked 21, all of them tactfully rejected.

After ten minutes, Mei Ji didn't have anyone else to contact. She was clear that only the God-King can help her vent her anger.

Mei Ji was dead set on making Su Xiao suffer and wanted to teach him a lesson.

At first, her goal was to make Su Xiao join some group so she could take some benefits. If he joined successfully, she would at least receive 10,000 Paradise Coins.

“It seems like I can only as that person...”

Mei Ji didn't really want to do this, because, she once accompanied this person for an evening, and the injuries she received were healed by over 1,000 Paradise Coins.

Mei Ji hesitated a little before clenching her fist and contacted him.

...

Su Xiao knew that if he doesn't provoke people, people won't provoke him, at least when he is strong enough that is.

But it seems that most Gratitude and Grudges from other people in the reincarnation paradise didn't exist at all, it's all about the benefits.

In the rest cabin, Su Xiao just sat down many people were still competing against each other.

After a bit, he left the Arena and checked the Paradise coins he had. He was left with 11947 Paradise coins.

His first choice was to power up his equipment, and the second is the trial field with Mirror images.

Su Xiao thought a little and decided to directly go for the Trial Field as he didn't want to lose money if the upgrade failed.

It has been a long time since he last summoned a Mirror Image.

Chapter 263: 263

[Welcome to the Trial Field, Please Select a mode.]

[Auxiliary Mode / Actual Combat Mode]

Su Xiao chose the Auxiliary Mode.

[You chose the Auxiliary Mode, please select the rank of the Mirror Image]

[Preliminary Mirror Image] 100 Paradise Coins every hour.

[Intermediate mirror image] 1,000 Paradise Coins Every hour.

[High-level mirror image] 10,000 Paradise Coins every hour.

Su Xiao hesitated a little, the Intermediate Mirror Image. He only had 11,947 Paradise coins, and if he used the high level one, only 1,947 Paradise coins would remain.

However, Su Xiao can probably get 4,700 Paradise coins from the remaining 1,947 if he sells bombs.

Finally, he chose the High-level Mirror Image.

He already felt his swordsmanship facing a bottleneck, and he urgently needed to breakthrough.

“Summon... High-level Mirror Image.”

[You have chosen summon high-level mirror image, in random summon...]

[Mirror Image Chosen, Summoning Dracule Mihawk!]

Su Xiao looked dumbly in his place, and he accidentally summoned Mihawk, the High-level mirror image is really outstanding.

Light gathered as Mihawk’s figure appeared clearer and clearer.

On his back, there was a very long black sword, and it was One Piece’s strongest sword.

As he opened his eyes, you can see the deep yellow color with an eagle’s pupil. No wonder he is named Eagle eye.

“Your foundations are solid; you need sword skills.”

Mihawk opened his mouth as he examined Su Xiao.

“Do you have a hobby of Meditation?”

Su Xiao was astonished by how Mihawk knew everything about him with a look.

“I meditate every day.”

“Then this will be easier.”

Mihawk drew his sword.

“I’m very familiar with the theory, but I can make your body remember the things I want to teach.”

Mihawk’s voice fell as he moved so fast that Su Xiao couldn’t react and his chest was slashed open. Blood splashed.

Su Xiao’s body fell down.

He was very depressed, and he spent 10,000 Paradise coins to summon Mihawk not to be cut like a vegetable.

Su Xiao fell down, and after a few seconds, his wound healed as he stood again.

“Did you feel anything?”

Su Xiao hesitated, compared to Mihawks speed, strength, and everything, he seemed like a baby.

“Feeling...”

Su Xiao felt some words on the tip of his tongue, but he couldn't get his hand on it. As if there was something stopping him.

“Is it the condition?”

Su Xiao looked at Mihawk.

“No, it's your own understanding, why did you take the sword for the first time?”

“I... For revenge.”

Mihawk arrived in front of Su Xiao's body.

“Revenge is good, but you need faith, you shouldn't wave your sword with only your muscles, you won't achieve anything like that...”

One hour isn't long, Mihawk didn't train Su Xiao in any style or technique, but he kept emphasizing that he shouldn't swing his sword just with pure brute force.

As Mohawks Mirror Image vanished, Su Xiao fell to the ground.

“Faith... The rhythm of all things... The sword can do what you feel...”

Su Xiao grasped Dragon flash in his hand and unconsciously slashed.

“It's not right, in a fight, I can't always use brute force.”

Su Xiao once again swung his sword as he sat on the ground. He tried to duplicate the movement of Mihawks blade.

Time moved unknowingly until an alarm clock sounded.

“It's already 2:00 Am.”

Su Xiao was about to leave the Trial Field when a few hints appeared.

[Sword Mastery has been upgraded to lv.12]

[Sword Mastery has been upgraded to lv.13]

[Sword Mastery has been upgraded to lv.14]

His sword mastery directly rose by three levels.

“Is this the effect of summoning a high-level image mirror?”

Su Xiao was very puzzled. Although he spent 10,000 Paradise coins, it shouldn't have that much effect.

It seems like his body was carving for Swordsmanship was awakened.

He gained three levels in sword mastery which was really a huge gain for him.

Su Xiao directly examined the change in the sword mastery skill.

Sword Mastery: lv.14.(7Passive)

Skill Effects: increase Attack Power by 40%, and sword class skills.

Every 10 levels add a new ability.

The rhythm of all things (intermediate): This ability can't be enhanced by the Reincarnation paradise, user can only increase it himself.

...

Not only did he gain 3 levels, but he also upgraded the rhythm of all things to the intermediate level.

Su Xiao's swordsmanship previously depended on brute force, and now he was different.

After Dragon Flash's upgrade to Purple Quality, Su Xiao's swordsmanship increased as well, which will prove a great help.

Su Xiao adjusted his condition and held Dragon Flashes hilt.

Deng!

A silver thread formed in the air as he waved his sword for one second then disappeared.

“Is this feeling? Tobu Zangeki?”

Su Xiao was elated, and maybe when his sword mastery reaches level 20, he would be able to use Tobu Zankeki. That will make his mid-range skills increase by leaps and bounds.

And Su Xiao's three main attributes will soon reach 30, which means he will be getting a new skill from the Shadow of the law occupation.

Although Su Xiao wanted to return to the Arena and try his skills, he was tired.

Su Xiao returned to his room to rest, as he sat down and slept. After a while, a message appeared in front of him.

“Request completed.”

He was clear what this meant, yes, the bullhead collar was repaired.

Su Xiao was really weirded out by the dream he just had, a moment ago he was holding a pan to fight, and this was a mission issued by the Reincarnation Paradise...

After wearing his clothes, Su Xiao left the room.

The bald old man was very effective, the agreement was for him to get the equipment tomorrow, but the old man finished early.

After 20 minutes, Su Xiao reached the store, and he still felt weird while looking at the old guy because he had no hair at all.

Entering the shop, he found the old man arguing with two contractors.

“7,000 Paradise coins are too much, I purchased the material for 30,000 Paradise coins, and at most I will pay 5,000 Paradise coins for the forging.”

Su Xiao stood by the side as the old man had his guests. As they say, first come first served.

The bald old man said: “7,000 Paradise coins, no bargain. Did you not understand that when I said it.”

The old man’s manners were good, and he threw back the material to the contractor.

“You...”

The contractor’s lips trembled as he opened his mouth.

“Iron hammer, cursing at people is not good; communication is a must...”

A middle-aged man wearing eyeglasses started making a speech as he looked at the bald old man. On the old man’s forehead, blue veins appeared.

The bald old man couldn’t endure it as he angrily roared: “Shut it!!”

“Iron Hammer, you’re already old, don’t be angry or you will hurt your liver...”

Chapter 264

After half an hour, the old man’s angry roar turned somewhat hoarse.

“What, 6,000 Paradise coins is good.”

The eyeglasses man smiled as he looked at the old man, no matter how much the old man scolded him, he still smiled.

“You... Good, 1,000 Paradise coins are cheap to get you to stop.”

The old man sighed and looked at Su Xiao.

“I still have things to do, wait for a bit.”

The bald old man moved toward the store. The eyeglasses guy looked at Su Xiao.

“Hello Friend, I’m called eyeglasses.”

Su Xiao didn’t speak. This fellow speaks too much. Moreover, it seems like he can take scolding very well, with his chatterbox ability, ten Su Xiao won’t be his match.

“You shouldn’t ignore people and stay alone, you know, friends are always good in this world.”

Su Xiao didn’t respond.

“Lone fellow.”

The Eyeglasses guy gave up and left the store with his friend.

Shortly after, the bald old man came out.

“Look, I helped you repair it and added a hook-like option which can help you in climbing walls.”

Su Xiao received the Bull head collar, and examined it, he was satisfied by what he saw.

“Good.”

Su Xiao attempted to use the hood, and directly a small hook straight shot out of his arm and was attached to the wall.

This was a really good option.

He tried to have the hook back and directly, the hood de-attached from the wall and returned to his hand with a ding sound.

“There are two types installed in it, the first one as you tried now, it is to climb walls and the like, the second shoot the hook at an opponent and it isn’t easily dodged.”

The bald old man instructed Su Xiao about the usage of the new options which amazed Su Xiao, and the old man was very creative.

“Are you satisfied?”

“Very satisfied.”

The old man smiled as he was happy, although his temperament wasn’t good, praises made him happy.

“Then make sure to come to me next time again.”

After Su Xiao studied the transformation of the bull head collar which he had to say was very good.

“You’re always welcome here.”

After greeting the old man, Su Xiao left, and his goal is the Arena.

Su Xiao wanted to get in the top 20 before he returns to the real world.

After entering the arena, Su Xiao waited in the rest cabinet.

[There is no match found currently, please wait.]

Su Xiao was waiting while playing puzzle games.

The difficulty of the puzzle games he’s playing was really too hard.

[Match successfully found, Because of the 84 winning streak, the next opponent’s rank is 13]

Su Xiao felt himself getting teleported and heard the cheers from all around the arena.

“Finally, a fight of the top-ranked, I have waited for three hours.”

“A close fighter and a ranged one, and I’m cheering for the close one.”

“I’m cheering for the ranged fighter.”

In the audience, people started talking.

“Half mechanical transformation?”

A scarlet red mask and metal arms, which did indeed seem like half mechanical.

“Use a bow and arrow.”

Su Xiao heads a mechanical sound as if it was a special effect of the mask the person was wearing. His match was against a young girl using Bow and Arrow, an emerald green hair, with pointy ears, Su Xiao guessed that this should be a girl who had an elf sort of occupation or race.

“If I defeat you, I rise to the top 10, and I already have a 21 winning streak.”

The young elf girl said she seemed delicate and not older than 18.

“21 winning streaks?”

“What’s wrong, are you surprised? This is a symbol of strength.”

The elf girl raised her fair chin as she spoke.

“What a coincidence, I also have a winning streak.”

Su Xiao was extremely happy, and he finally met someone with a winning streak that he could end now, which will help him rising his rank very much.

Now, this elf girl had a 21-winning streak. Perhaps if he defeats her, he can get to the top 10 directly.

With his strength, getting in the top ten was somewhat impossible, it required two to three derivative worlds before he could do it.

But now, this was his opportunity.

[Three... Two... One... Fight starts!]

As the fight started, the shield around Su Xiao vanished, and he can now act as he wants.

Su Xiao didn’t choose to summon Bob, and he didn’t have that kind of time.

He directly rushed toward her while Dragon Flash appeared in his hand while opening Qing Gang Yin directly.

The young elf directly drew her bow and quickly fired a few arrows at Su Xiao.

The speed of arrow was something he can’t dodge at a close distance. The maximum distance he can dodge is 3 meters, more than that he won’t be able to dodge.

When he was about five meters away from his enemy, the elf girl wasn’t flustered as her index finger and thumb were placed on her mouth.

A whistling sound could be heard, and a black leopard appeared by her side.

“Little black, constrain him.”

The black leopard was at a tiger’s size, but he was intelligent as well. He directly plunges toward Su Xiao as the Elf girl directly withdrew.

The black leopard attacked Su Xiao, but the latter didn't dodge as a shield directly formed around him. Su Xiao actually used Mikasa's mind skill.

As the leopard's claw reached Su Xiao, the shield absorbed the attack, but the leopard continued his attack, and the shield was about to break.

Su Xiao didn't stand. Still, he held his sword and directly slashed, after Dragon Flash's upgrade, the sharpness was up to the roof, and this time he wanted to know how sharp it was.

The sword cut into the leopard without any resistance at all, as if he was cutting through tofu.

The black leopard directly fell down as his body was cut in half and twitched for a few times and vanished.

The audience screamed at how formidable Su Xiao's slash was.

The sword radiated a dangerous feeling.

After slashing the leopard, Su Xiao didn't stop as he rushed toward the elf girl.

The young elf jumped as she drew her bow and aimed at Su Xiao's chest, she directly shot.

The arrow moved at an insane speed as it directly passed through Su Xiao's chest, but although injured, he still slashed.

Dragon flash cut the bow along with the elf's hand as a small arm fell to the ground.

Su Xiao staggered two steps before he firmly stood in his place.

The fight was only 10 seconds long till now, but it so breathtaking.

Screams were heard from all over the audience as the fight was just too exciting.

"You lost."

Su Xiao breathed steadily as he looked at the elf.

The elf girl stubbornly raised her head.

"I didn't lose, and you just cut an arm, I have..."

Zi!!

A metallic cutting sound was heard, and the elf's complexion changed.

"You're... Ruthless."

A line appeared on the girl's neck.

After a bit, her head was cut.

[85 winning streaks!]

The audience was in silence, and they didn't know what happened.

[You won!]

[You ended a 21 winning streak, your rank rose to 9.]

[Since you reach the top ten, you were rewarded with Son of heaven medal.]

Chapter 265: 265

A golden Medal appeared in Su Xiao's hand, the medal was palm-sized and glittering the number nine.

[Arena's son of heaven]

Origin: Reincarnation Paradise

Category: Medal.

Durability: N/A

Equipment Requirement: DNA Binding, exclusive item

Equipment effect: Son of heaven (passive): Stamina +2, charm +2

Grade: N/A

Introduction: The ninth Medal, with every rank upgrade the medal will be upgraded as well.

Price: N/A

...

The attributes of this medal were good, and it added 2 points for each stamina and Charm.

His charm finally reached the value of a normal person.

[Equip the Arena's Son of heaven {Yes} {No}]

After accepting to equip the medal, another hint appeared.

[Please choose where it should be equipped.]

Su Xiao stared at this as he wasn't clear about where he can equip the medal. This was the first time he got a medal type equipment.

After asking the Reincarnation Paradise, Su Xiao directly equipped it under his collar bone in his right chest position.

[The position was chosen...]

Now he had a number on his chest, that number was nine.

After obtained his first reward from the Arena, Su Xiao left the field as he decided that he will come here only to warm up from now on, as he would wait too much for the queue from now on.

Just as he left, Su Xiao saw some woman leisurely walking toward him.

"Handsome fellow, can we chat, the previous matter should be forgotten, I'm sorry I was somewhat offensive before."

Mei Ji giggled at him, of course, the matter about forgetting what happened is a lie, as she didn't contact that person who likes to hurt women to forget.

"No problem, I'm going for a meal, you can join me if you want."

Su Xiao started walking toward the dining hall of Xià lüè. Su Xiao was struggling not to hit that person's smiling face, but he was still wary of her.

The Arena had an unspoken rule, except for normal challenges, initiating challenges to harass other is not good. Although people in the Arena won't die, the pain is real.

After arriving at the dining hall, Xià lüè knew that the guest was Su Xia, if not for him, she would go out for business as he was almost the only patron in this restaurant. Now that he had the glutton, Bob, she will be able to earn a good amount just from him alone.

“You like to eat in this place?”

Mei Ji sat opposite to him as she braced her chin and revealed a bit of flesh.

Xià lüè carried two juice cups and looked at Mei Ji.

Xià lüè looked more attractive than her, but her charm was toward the professional type, not the one Mei Ji had.

Xià lüè charm was for the effort she makes for living, but Mei Ji is just asking a man for favor.

This place isn't the civilized world; it's a jungle where the strong eats the weak.

“Showing off the fox.”

Xià lüè said in a low voice.

“Always getting good people to eat here, yeah, the certain person deceived many before...”

Mei Ji and Xià lüè seemed to be acquainted, which was unexpected.

Xià lüè was red as she remembered the time she first entered the Reincarnation Paradise.

“Enjoy.”

After that, Xià lüè returned to the kitchen.

“Handsome fellow, I apologize again for before, I didn't think you were that ruthless in the arena, I just initiated the challenge to contact you, because it's secure there.”

Su Xiao looked at Mei Ji.

“I don't care about that matter anymore.”

She initiated the challenge many times which got him really angry, but mediating a grudge isn't bad, he didn't need to be calculating about minor matters. Otherwise, he would be set up by his enemies.

Mei Ji Smiled.

“That’s good, and I will take liberty asking, I didn’t hear of such a ruthless person in the major guilds, have you joined a small one? Or are you acting alone? Did any guild sent you an invitation?”

Mei Ji finally revealed her goal, and she wanted to introduce Su Xiao to a guild.

Mei Ji held the juice cup in her hand as she brought it to her lips.

“Temporarily I didn’t join any guild, as for invitations... Phantom Troupe did invite me.”

Actually, Su Xiao didn’t think that Phantom Troupe was a guild, it’s like an organization with members that are practically strong.

“Pu, cough...”

Mei Ji just spat her juice out and coughed.

“You... You are the one that was invited by Carl and the person who rejected?”

Mei Ji’s forehead was full of cold sweat, and her face was red as coughed.

“Probably.”

Obtaining Su Xiao’s reply, Mei Ji swallowed her saliva.

“Sorry for the disturbance, from now on, if you want anything, you can contact me through the Arena, I will go first, I still have things to do.”

Mei Ji hastily left while canceling anything she planned before.

Provoking the Phantom troupe is like courting death. The people in Phantom Troupe are monsters, lunatics, and mentally unstable people. Maniacs, homicidal and psychopaths, these are the people gathered in the Phantom Troupe.

Getting invited means you are like them, Looking at Mei Ji leaving in a hurry, Su Xiao felt that this person wouldn’t disturb him again.

After the items from the derivative world were processed, Su Xiao was passing the time leisurely in the Reincarnation Paradise. He was either practicing with the sword or strolling.

With his mana regeneration, he will gain 10 mana per hours, after he returned from the real world, his mana would be fully restored.

Opening a stall in the market, Su Xiao started making Intermediate Force bombs.

Each one costs 100 Paradise coins to make, with all his mana, Su Xiao was able to make 19 bombs.

He put a bomb for 350 Paradise coins, which wasn’t that high or low either.

After two hours, the 19 bombs were sold. Obviously, these bombs sell well.

After manufacturing 19 bombs one after the other, the experience for the skill was now 20/20.

Spending 500 Paradise coins, Su Xiao upgraded the Alchemy bomb manufacturing to lv.3. There was no change in skill, and the intermediate force bomb was the highest he could make now.

After 19 bombs were sold, he obtained 6,500 Paradise coins, now the net gain from the bombs was 4,750 Paradise coins, reducing the 500 from the upgrade, now he had 6,023 Paradise coins.

The bombs were a good way to make a profit it seems, but he had limited Mana regeneration . Probably, he can only make 20 Bombs in 3 days' time.

Moreover, the bombs could only be made in the Reincarnation Paradise. Otherwise, he won't have the materials to make them.

Somewhat, he was hoping to get materials in the world he is going to next.

Chapter 266

(New Arc)

[The hunter's time in the Reincarnation Paradise had ended.]

[Hunter will soon be teleported to the real world, please don't break any rules set by the Reincarnation Paradise]

[The Reincarnation Paradise will send a warning if these rules were broken if the warning was ignored, then the hunter would directly be executed.]

...

[Transmission starts. Destination: Real World]

Su Xiao's eyes were unfocused for a second before he found himself in his villa.

As he returned to the real world, Su Xiao relaxed as he went out to the garden.

He was always law-abiding in the real world, and that's until he started his revenge.

“Hide, don't let me catch your track.”

He was enjoying the sea breeze and the warm sunlight, an old woman passed by in front of his house as it directly opens toward the beach.

This woman was carrying a plastic bag in her hand as she was cleaning the beach.

The pollution to the Marine environment was getting more and more serious these days, and it was getting harder for fishers to catch some seafood.

Time passed in a flash as four days passed, Su Xiao adjusted his spirit as he was about to greet his next derivative world, which still had some time to come.

But a red prompt suddenly appeared in front of Su Xiao.

[Hunter, please note, Reincarnation Paradise will carry on the urgent mission.]

[The time for rest from the derivative world didn't end, this is an urgent mission that Hunter can't reject]

[Warning: Don't disclose your identity as a Hunter of the Reincarnation Paradise anywhere.]

[Warning: Don't disclose your identity as a Hunter of the Reincarnation Paradise anywhere.]

[Warning: Don't disclose your identity as a Hunter of the Reincarnation Paradise anywhere.]

Three consecutive red warnings appeared which made Su Xiao vigilant.

[In samsara Era year 4576249, March, 5. The Reincarnation Paradise declared war (some tribe of hostile forces in the void), and because of the initial rule 31st, the Reincarnation Paradise can't execute them forcefully. The Reincarnation Paradise will dispatch contractors to go in battle.]

[Space battlefield opened!]

[This is a D level battlefield (extremely difficult), Hunter should be vigilant]

[In this battlefield, the hunter won't receive any main missions, the mission would change in the battlefield accordingly, and the contractor's missions would be different.]

[Prompt: Hunter, please don't injure other contractors, as contractors won't be able to provoke or threaten the hunter.]

[Issuing Hunting Mission ahead of time, there is no offender in the Battlefield, hunting mission changed.]

[Hunting mission (special): Suppress the Riot!]

Mission Introduction: After entering the Battlefield, the Hunter would have neutral status in space warfare and will sweep all Offenders.

Mission status: The hunter is neutral, because of the particularity of the void Battlefield, Reincarnation Paradise will execute functions to consume resources forcefully, Hunter will be responsible for peacekeeping, adjusting the battlefield, and killing both sides of offenders.

[Neutral status will activate when Hunter enters the Void battlefield.]

[Ding, The Reincarnation Paradise, and hostile forces made the treaty, maximum jurisdiction of a neutral party in the battlefield.]

[Entrusting the neutral status...]

On the back of Su Xiao's hand, flames appeared suddenly, and when they vanished, a black sickle suddenly appeared above a balancer design, this meant keeping the balance and being Fair.

Su Xiao examined the imprint, and this should be the symbol of the neutral party. He sneered, the jurisdiction was a little big, certain special mission on the battlefield. Only a fool would believe that the Reincarnation Paradise would be fair to an enemy.

Perhaps the meaning of being a hunter will manifest this time.

Su Xiao had long since he discovered the great strength of the Reincarnation Paradise, but there are certain rules of conduct and rules were omnipotent.

[The neutral status was given]

[Tip: The Space transmission would take some time, the hunter can prepare ahead of time.]

[Hunter will return to the Reincarnation paradise in one minute]

[00:59,00. 00:58...]

...

Su Xiao was thinking deeply about this. It was a mission that he couldn't refuse, moreover, his role was to kill offending parties who violate the rules...

The time he will spend this time shouldn't belong; after all, it was a war.

The prompts before made Su Xiao understand that the Void is really dangerous. With the last words from the reincarnation Paradise, he could tell that it's not that it couldn't kill them directly, it's just that it had its own rules. But there is another possibility that the Reincarnation Paradise was like a system with no individual controlling it, which is why it can't bypass the rules.

Su Xiao was partial to the latter theory, and if it was a person controlling it, the Reincarnation Paradise wouldn't send contractors to the war, although contractors aren't weak, they would be weaker than Su Xiao.

Su Xiao was clear that he will be busy in this world, very busy.

What may hinder him a little is the rule of the war if it didn't allow a wide-area attack.

Which is unlikely, because the Reincarnation Paradise could have a method that absorbed energy from dying people, and killing them off with a nuclear bomb won't leave anything.

He didn't enter the battlefield yet, so all of these are just theories.

After the transmission was done, Su Xiao's consciousness returned to his body as he sat in his exclusive room. A hint from the Reincarnation Paradise appeared.

[The battle will start in three hours, The hunter needs to buy supplies as soon as possible]

Three hours to prepare, after Su Xiao left the room, he immediately noticed the changes in the Reincarnation Paradise.

The white sky was now Red which means war is near.

Su Xiao directly went to the market and was shocked by the number of people and stalls. As he moved, he suddenly saw a strange title in front of a stall.

“Potions! Initial price, nobody asked you to buy!”

“Bullets, bombs, lower than the market price by 20%, nobody asked you to buy, my neighbor is cheaper.”

“Five blue equipment! nobody asked you to buy it!”

In the market, many contractors gathered, but most of them were still in the real world, which means those here are the ones who will participate in the war.

Su Xiao examined various stalls, and the prices were lowered by at least 30% than usual.

Are the workers really that generous? It shouldn't be, nobody asked you to buy is clearly written everywhere. It seems like the Reincarnation Paradise ordered the workers not to raise prices in a time of war.

So the workers didn't dare do it, or their worker status would be stripped.

Even the choice of not selling items isn't possible, and this was forced Quest to the workers.

Chapter 267

Strolling in the market, Su Xiao saw a familiar figure, and it was Xià lüè.

She was selling some food, like lobster, beef, cabbage, and other things.

Su Xiao didn't know whether to laugh or cry, Xià lüè was regarding this as a food market.

“What's wrong, you didn't open the restaurant and changed to opening a stall?”

Su Xiao went toward her stall and said.

“Well, Byakuya...”

Xià lüè sighed.

“Even if you want to participate in the war, the stall didn't have anything worth it for the war, and the stall would cost much more than what you're selling.”

Xià lüè's face was helpless as she looked at Su Xiao with bitterness.

“I know, but the Reincarnation Paradise made it, so all workers will put all their items in the stall with a very low price.”

Su Xiao understood what was going on. The workers wouldn't really agree to sell items for a low price, they didn't care about the war as they won't be participating, so the Reincarnation Paradise made it a rule.

“We'll chat later, and I will go buy some Potions or things that restore health.”

After saying goodbye to Xià lüè, Su Xiao directly went to a stall nearby.

[Alchemy secret medicine] x 1, rapidly restore 18% HP.

[The chocolate of delicacy] x 3, slowly restores 60% HP.

[Imperial family secret medicine] x 1, rapidly restores 80% Hp, after drinking it, it adds +3 in strength, +2 Agility, +10 Stamina for 5 minutes.

...

Although there are many potions, Su Xiao decided to buy a bottle that could restore his health rapidly.

In the market right now, the prices were very low.

Su Xiao was a hunter. Naturally, he had the right to buy many items.

[Victory Potion]

Origin: Reincarnation Paradise.

Quality: Blue

Type: Health Potion.

Effect: Restore 70% Hp instantly, recover the body from any poison or curse (the Highest abnormal state that can be removed is Lv.10)

Rating: 60

Introduction: Victory is in hand, Drink it and go to war.

...

A blue quality potion was only for 6,000 Paradise coins, Su Xiao thought he was seeing things.

The potion not only could instantly recover 70% of HP, but it also negates curses and poisons.

After buying it, he noticed another vendor.

In his stall, there was a blue quality firearm with a rating that reached 63, and it was being sold for 25,000 Paradise coins.

“This gun is good.”

Su Xiao said, and the vendor seemed desperate.

“What a pity, I don’t have that many coins right now.”

The vendor sighed in relief.

These type of prices are rarely seen, it would only appear maybe when there is a war.

Su Xiao suddenly realized that this battlefield would be purgatory for most people.

Su Xiao was somewhat curious about his Neutral status and duty.

Moving to the edge of the Reincarnation Paradise, there was a space ship.

Su Xiao met some contractors along the way, and the contractors were moving in a different direction, so he guessed that there was more than one space ship.

Arriving at the edge, saw a huge space ship, with at least a few hundred meters. It was covered with black iron, various types of weapon, and a big engine could be seen at the rear.

The space ship’s cabin opened, and a hundred contractor was inside.

These contractors had four different design in their attire, the badges of their respective Guild.

A badge that seemed like a samsara imprint, they were the wanderers.

Approaching the space ship, Su Xiao’s clothes directly change to the wanderer’s attire.

“Come, wanderer, We are the God kings.”

A middle-aged man wearing a golden armor said, he had a small beard, and if he was right, then this was the person was kept his rank at the top of the Arena several times.

“I don’t think so.”

A Caucasian opened his mouth, his eyes were blue, and after seeing Su Xiao, his eyes shook.

“Byakuya.”

Hearing someone calling his name, Su Xiao looked around.

“Adam.”

It was Adam, and it seems like the Brother’s society was recruited as well in this war.

The brother’s society had a dozen people who were inside the Space ship.

“You know each other?”

The Golden armored guy opened his mouth and asked, Adam, nodded.

“God-Kings, it seems like your luck has ended, this person is strong.”

Adam mentioned this and thought it was a bad idea afterward.

“Well.”

After this, the God-King returned to normal as he said: “Hello, I’m the boss of the God-King guild. I will be the boss in this space ship.”

Su Xiao gripped the God King’s hand that was extended.

“I’m called Byakuya.”

The situation was unknown, so maybe they would know something.

“Are you not interested in Joining the God King’s guild?”

Su Xiao understood why there were three guilds in here, and it seems like they want to invite people to their guilds.

The contractors participating in the war aren’t weak, so they can directly recruit them.

“I don’t want to join any guild for now.”

Su Xiao turned down the invitation, as God-King nodded with a smile and didn’t try again.

In the nearby space ship, many contractors were gathered as they chatted. Su Xiao was on the ladder to the Spaceship as he was playing a puzzle game trying to solve it, and Bob was beside him.

More and more contractors arrived, they went out to purchase some commodity, and after they returned, the space ship was already full.

After one hour, the hint from the Reincarnation Paradise appeared.

[All contractors enter the space ship, the door will be closed after ten minutes, after 15 Minutes, the Space ship will move.]

[The space ship is a safe area for the Contractors, no one can be attacked inside.]

Wouch!!

The Space Ship engine started with buzzes as contractors entered.

Su Xiao held a tablet as he went to enter the Cabin.

Chapter 268

The space cabin was not small, after all, the entire space ship was several hundred meters, and there were two big rows of seats that Su Xiao chose one and chose in.

The Seat had a metal structure and many functions, for example, there was the urgent oxygen supply and other functions.

The number of chairs was sufficient, and all contractors sat down.

There were several groups inside the cabin, the first one would be God King's guild, with 70-80 people, 20 of them should be healers, the front-liners had the saint knight's occupation.

The second group is the brother's society, their captain was a magician, and he wasn't weak at all.

The third-party was unknown to him, it's captain was a woman with a black hood, the hood has some golden line and only her chin was revealed.

This group had more than 60 people, with them was a man at least two meter's high who was eating metals and in his hand was a large shield.

The fourth group was the wanderer's, which had all kind of people.

[The cabin's door has been closed. Contractors, please tie your seat belt as the Space Ship will move in three minutes]

Bang, the cabin's door closed, the heart of the contractors tightened.

Several green safely belt appeared behind the seats, after firmly tying his belt, Su Xiao just waited.

“This broken Space ship...”

Scowled someone by Su Xiao's side. The latter looked back and gawked.

“Five fireballs?”

The magician with the yellow robe recognized Su Xiao.

“Are you?”

“We have met at the Arena.”

Su Xiao actually met this guy several days ago.

“Strange, how do you know my code name in the Reincarnation Paradise?”

Su Xiao was speechless, and this guy actually called himself Five fireballs.

He wasn't weak, but his appearance didn't give the same feeling. His face was that of a 60 years old man, if you carefully look, he is no more than 30 years old.

Su Xiao looked at the five fireballs, and he felt that he looked just like One Piece's Admiral, Kizaru.

“Friend, are you also a wanderer.”

Five fireballs looked at him with a smile, Su Xiao felt that he really looked like Kizaru.

“Right.”

Five fireballs chatted with Su Xiao, and this was the first time in a war for both of them.

The Spaceship under them seemed to vibrate slightly, Su Xiao felt the space ship takes off.

[The space ship is accelerating, the speed is 673, Preparing the Spaceship to enter a wormhole...]

[Contractors, please sit tight on your chair.]

Su Xiao didn't care about the hint, as the seat under him kept vibrating. Some of the contractors started to shout.

After half an hour, the vibration was reduced. Finally, it returned to normal.

[Announcement: We'll reach our destination in about 8 hours and 35 minutes.]

[The battlefield is level D, the maximum time to stay there are 8 days]

[Contractors may act freely inside the Cabin, entering the cockpit is forbidden.]

Su Xiao untied his seat belt, 8 hours wasn't a short time. Some of the groups gathered together as they started playing and gambling Paradise coins.

“Everybody, We are opening a gambling house, anyone is welcome to join.”

The contractor in the group of the huge man said the guild was named, Flash gold.

The God kings and Brother Society avoided the Flash Gold guild.

Being able to join the war meant no one here was weak.

Su Xiao sat on his chair, cross-legged with, and looked at his tablet. He was relaxed because what will come will come anyway. If one was afraid or anxious, it would hurt the spirit.

Among the people here, not all of them are suited to become contractors.

Bang, the Space ship shook, all contractors raised their heads.

[The space ship is entering the Derivative World's barrier...]

The familiar transmission feeling appeared again, Su Xiao sobered up as the space ship teleported a short distance.

The space ship shook as it seemed to land.

[Entering the Derivative world: Parasite!]

Timeline: 30 Years after than the plot time. (this world didn't have space coordinate, unable to set up world coordinate, unable to carry on the timeline reset)

World difficulty: Lv10 (extremely difficult)

World's source: 0% (After the Space war end, the world's source would be the reward)

World introduction: the Year 2013, a meteorite hit the earth, and many small life forms came out.

These life forms are thumb-sized, their bodies are like snakes; they survive in the sea, some lucky enough to wander on land.

After arriving at the land, they instinctively enter the body of the nearest life form and travel to the brain to completely assimilate it while destroying the host's identity in the process.

The lively metropolis became their hunting field, and no one can realize the difference between.

After a while, some Parasites completely controlled the government.

The Parasites aren't strong, and they could be killed by normal weapons.

After 90% of the parasites died, some researchers said that if they studied them, the average human lifespan would extend to 200 to 350 years.

Seven years later, the parasite became the world's most precious space, and each one has valued over 50 million dollars.

Ten years later, a disaster arrived at the earth, a huge spaceship arrived, and millions of aliens started invading earth.

The meteorite was launched by them, and the goal was to find a world with oxygen.

Some of the countries tried to resist the invasion, but the Kara star's people wanted to kill all earthlings and three years later, 60% of humanity died, Europe was seized by them, and the majority of humans migrated to Asia. In seven years, humans were expected to perish.

This time, humans were angry, and they all stood up in front of the aliens. The alliance was founded.

The time-consuming war started, but humans were helpless, and finally, they decided to use nuclear bombs.

Humans decided that even if they destroy Earth, they won't let these aliens take it.

The nuclear was started; they almost became conventional weapons; this was also the only strong enough weapon against the aliens.

The Nuclear bombs made the aliens dread, and stopped invading as some lands became full with radiation.

With the technology the human snatched, 17 years later, human started to fight back against the Kara people.

The war continued, the huge population of human was rising again.

After the Kara people wanted to surrender their territory, the humans refused their treaties, and they expected that ten years from now, the kara people would disappear from the earth. And they did, the kara clan perished.

[warning: Space battlefield is about to start.]

[the time now is the mainland of Asia, a radiation zone, the Kara army will soon raid this place, Contractors should prepare in advance and secure the spaceship]

[The world coordinate will be produced in 12 hours, there should be three coordinates produced; after that, the parasite's world would be reset.]

After a series of prompts, Su Xiao was shocked by this strange Derivative world, but, he found a metallic pipe in his inventory, as he looked at it, this appeared.

[world coordinate production installment]

This meant that after the coordinate was produced, the world would belong to the reincarnation Paradise, and for each one, they should defend it until 12 hours passed.

The coordinate production needs to end for the world to reset and Reincarnation Paradise would be able to teleport contractors here without the need of spaceship directly.

Su Xiao was happy, although the mission was somewhat dangerous, his gains would be much greater, he cannot directly participate in the war directly, but he can set up the coordinates.

The other contractors stepped out of the spaceship, some received mission and directly hurried to complete them, after one minute, only Su Xiao was left in the Spaceship, as he started to change clothes.

Chapter 269

Su Xiao was originally wearing white-style clothing, which is a scattered costume and is now changing rapidly.

The color of white clothing began to change, gradually turning black, and the hem grew into a black trench coat.

A mask that covers his entire face appeared. This mask is half black and white, with a black scythe pattern in the white part on the left and a white balance in the black part on the right. There is white on black and black in the white.

The black sickle represents the ruling, and the white balance represents justice.

The space battlefield is opened, and the role of the hunters is truly reflected.

[The neutral rank has been activated, and the hunter will act as the arbiter (Ruler)!]

[The view of the battlefield is open, this function is exclusive to the world.]

A translucent screen floats around Su Xiao, and the screen is neatly divided into four pieces, which are the four directions of the spacecraft. Su Xiao can enlarge these pictures.

[Check that the hunters carry biological emperors, can be used as vehicles, whether to carry out camouflage, this feature is free.]

Su Xiao, immediately choose camouflage.

Bubtny was summoned, and his appearance began to change. From the original black and white color, it became dark, and two heads were born on both sides of the neck.

Hell dogs!

Bubtny's appearance is just disguise, and his ability has not changed. In Su Xiao's perspective, Bobtny is still the original appearance. Only in the perspective of the contractor is the Hell three-headed dog. This is a sultry one.

Su Xiao's dress is also the same. It's not a casual dress, but his original clothes. In the eyes of the contractor, he is a ruler wearing a black trench coat with a mask.

Su Xiao rides on the back of Bobtney and appears on the arbiter of the Hell three-headed dog.

Su Xiao brows a pick, this is completely a flower shelf, no additional ability, or use his original ability to fight.

Oh~.

The back door of the spacecraft was opened, and Su Xiao walked out of the spaceship with Bobtney.

Underneath is a piece of blackened waste soil. The grass is not born within a hundred miles. The ground is full of charred plants. This is a spectacle that often appears when bombed by nuclear bombs.

Su Xiao can't help but feel a little afraid. He won't suddenly fly a nuclear bomb on his head.

A malicious appearance from the world of derivation, looking at it, Su Xiao suddenly felt that everything in the eyes was very clear.

The scorched plant branches on the ground seem to be pointing at him, and the entire derivative world is ruled out.

Hey! Go out! Go out!

This is the will of the entire derivative world, Su Xiao became an outsider, an unwelcome outsider.

If there is no repression of the reincarnation, it is possible to stage a realistic version of the death, and anything wants to kill him.

Su Xiao understood the purpose of this visit and arranged the 'world coordinates' to seize the ownership of this derivative world. This is also his purpose given to him by reincarnation Paradise!

Viewing the task list, two tasks appear.

War mission: world coordinates (0/2)

Difficulty level: Lv.10.

Mission Description: Set up two world coordinates, the contractor will protect the coordinates within 12 hours of security.

Mission information: There are three world coordinates, one for the spacecraft, and the other two coordinates to be placed by the hunter to the specified location.

Mission period: 5 natural days.

Mission reward: 8 attribute points.

Mission Punishment: World coordinates are destroyed, hunters will stay in the 'parasitic beast' world forever, and will be expelled from this derivative world.

.....

Hunting mission (special): Suppressing the riots.

Difficulty level: Lv.9

Mission Description: Avoid contractors who want to fight you. If they didn't heed the warning, the hunter could kill the contractor.

Mission Information: The ruling is a high-level capability in the world. The establishment of enchantment will be trapped by the arbitrators, and no one else may intervene to fight.

Mission period: 5 natural days.

Mission reward: 30% of the world's source.

Mission penalty: if more than 50% of the contractors are retreating or dead, the hunter will have a full attribute -10.

.....

Su Xiao began to sort out the task of this trip. The first is to set the coordinates. After he sets the coordinates, he will not have to take care of it. The contractor will protect the coordinates, and the contractor has the corresponding tasks.

The second is the supervision in the war to avoid deserters in the war.

Although these two tasks seem easy, they are actually dangerous.

Let me first set up the coordinates. The first coordinate is not set by him, and the second coordinate is 30 kilometers away from here, the third is farther.

The situation of this wasteland is unknown. The world is Lv.10. It is dangerous at any time, and he is one person. Without assistance, he has to rely on himself.

As for the identity of the arbiter, Su Xiao already understands that he should be cautious when deciding his contractors. These contractors must also keep the 'world coordinates'. If too much die, it will be troublesome.

As for the enemy's violations, then without asking, he can directly kill, no warning to be sent, his ultimate goal is the victory of the war.

Since Su Xiao's arbitrator of the battlefield is also the superintendent of the contractor's side, this must be the hands and feet of the reincarnation Paradise to ensure the victory of the war.

Reincarnation Paradise will act within the rules, and now the layout is within the rules, which may be one of the reasons for the reincarnation Paradise to train hunters.

Bubtny ran slowly on the waste soil, and the surrounding radiation made it very uncomfortable.

Su Xiao's Stamina attributes had 14 points, which allows him to stay in the radiation zone for a long time.

There is a pungent, sour taste in the air, Su Xiao brows wrinkled. This is the taste of formaldehyde, Kara people release a large amount of formaldehyde, in order to create the air suitable for their survival.

The appearance of the Kara people makes Su Xiao very confused. There is no Kara Star in the original parasite world, and the reincarnation Paradise will not let the derivative world develop to such an extent.

Perhaps this time the enemy is the Kara people. Are they the original people of this derivative world, or are they a void creature? This is not good judgment.

Su Xiao is actually better at what the derivative world is. He has always believed that the derivative world is made by reincarnation Paradise.

But now it seems that this is not the case. The derivative world may be robbed by the reincarnation Paradise. The derivative world itself exists, and there will be no reset timeline. It will always be played normally. The reset timeline is the reincarnation Paradise's Ability.

After capturing this derivative world and then receiving rewards, Su Xiao's goal is simple.

The task cycle is too short, the time to set up the world coordinates is barely enough, he will be very busy all the time, there may be no time to sleep, let alone to develop the secrets of the derivative world.

Su Xiao is not depressed. If this task goes well, his strength will be improved a lot, and then he should enter some derivative worlds of medium-force.

Combing the thoughts, Su Xiao looks at the screen floating around, that is the picture of the spacecraft in four directions.

His position at this time is the edge of the battlefield. The battlefield has a small range. There are ten kilometers in the longitudinal direction and only half a kilometer in the horizontal direction. The shape is rectangular, and the spacecraft is docked at one end of the battlefield.

The contractor is not allowed to leave this range, but Su Xiao can leave, and he will have to make the world coordinates in one step.

The spacecraft is surrounded by contractors and divided into four groups of defensive spaceships. The god-kings, the brother's society, and the flash gold are guarded by each other. The rear of the spacecraft is guarded by dozens of scattered people, and the intensity of the attack is minimal.

Chapter 270: 270

The spaceship was protected by the God-king guild, and they were the main force. Only 8 minutes have elapsed and still 11 hours 52 minutes to go.

The earth suddenly started to vibrate, and shadows clashed in the distance.

“Come!”

The god-king leader shouted loudly as he saw the shadow.

“Human? Humans want to match us.”

The main tank spoke.

“No, these are parasites, the parasites are the best cannon fodders of the kara natives, read the hint next time.”

The leader of the god-king guild directly announced the information, and the rest held their breaths.

[Parasite Beast]

HP: 100%

Mana: 30

Strength: 15

Agility: 15

Stamina: 12

Intelligence: 3

Charm: 2

Skill: Fighting Machine (passive): Don't feel pain, HP +50.

...

Finally, they were about to crash against the cannon fodders of the kara natives.

Although the Parasites aren't strong, there were many of them, and they raided from four sides.

The Parasites can change shape as they use their bodies as a weapon; their strength is also nothing to laugh at.

“Hold Firm in the front!”

The god-king guild leader directly ordered.

“Roar!”

The parasite clashed against the first line of defense.

Boom!

The long-distance fighter of God king's guild directly attacked.

They didn't move as the parasites fell one after the other on the battlefield.

“Prepare!”

The leader waved.

Bang!

Dust flew as the cannons fired at the parasite, and mage opened fire.

Mana filled the place as the parasites were blown to pieces as blood sprinkled all over the place.

Su Xiao saw this through the screen and was somewhat surprised. The development of guilds was different from a solo fighter.

The brother's society situation was similar, this was the first attack, and if they couldn't do as much, they won't be able to defend in this war.

What gave him a headache were the wanderers, they were strong individually, but they weren't working together with the others.

[The war system is opening...]

[The system is now open.]

Su Xiao saw a list of people that he could speak freely along with his title.

Arbiter! (Black Font)

God-king (White Font)

Adam (White Font)

Silver Flash (White Font)

Other Than Su Xiao, each person had the number of kills the guild made.

In the war system, there were Su Xiao and the three guild's leaders.

"God-King, how is your side." Adam talked.

"Good, we don't have any issue, but defending for 12 hours won't be easy."

God's king's leader chuckled as his guild killed the enemies.

"Young sister Silver flash, what about you?"

Adam sighed as he knew that in this war, God-king would be the most guild getting benefits out of them all.

"Arbiter?"

A voice sounded, that voice belonged to a woman, and it held a hint of seduction from the tone.

"What is Arbiter?"

Adam looked at the name curiously. The head of that person was covered with a mask, and just looking at it made Adam feel fear.

"Adam, Silver Flash, both of you shouldn't provoke the Arbiter in the battlefield, he came to me before and directly warned me."

The voice of the god-king leader was serious, before he could continue, something happened.

"Defend, you can live. If the defensive line is broken, you die."

Su Xiao opened his mouth and transmitted, and it was not voiced, it was just a line in black that was written in the channel.

"Well, this Arbiter is something else, when we lose, we're unable to run."

Silver Flash chuckled with a probing tone.

“Young Sister Silver Flash don’t say that Sir Arbiter, sorry, Silver Flash doesn’t understand the rules of the battlefield.”

God king’s cold sweat flowed.

Silver Flash was a leader of a guild, but she didn’t seem to have any moral integrity.

“Arbiter, Ruling... We won’t be able to escape.”

Adam guessed right; the Arbiter will prevent them from escaping.

Su Xiao rode on Bob and wandered the battlefield, contractors can’t attack him, but he wasn’t sure about the parasites. When he passed some of them, they seemed hesitant before running away.

Su Xiao fixed his eyes on the screen and held Dragon Flash in his hand.

“Bob, pursue.”

On the screen, there were three red points that run away, and three contractors tried to run.

Bob directly used his acceleration skill and quickly moved.

Su Xiao was wearing a black windproof coat and a black and white mask on his face.

“Entering the war, drawback.”

Su Xiao’s voice was ice-cold; he changed his voice as a protective measure, as he must protect himself when he enters another world.

“You... Who are you?”

The contractor stood in his place as he held the sniper rifle in his hand and aimed at Su Xiao.

As he aimed at Su Xiao, his face changed as he looked at his companions and asked.

“Arbiter? What is that?”

Su Xiao rode on Bob, as he approached the three contractors. The three contractors directly received massive red warnings.

“Wait, Drawback immediately.”

It seems like the contractors received the Reincarnation Paradise’s hint; they knew what the Arbiter is.

“Sir Arbiter, we can’t return back like this.”

The contractors looked at the battlefield and swallowed their saliva.

“That direction.”

Su Xiao pointed at God’s king’s direction, the parasites were cleaned, and the three of them can return there easily.

“Yes, yes, we will go now.”

Two of the contractors directly went back, while the other didn't move as he was seeking an escape route.

Su Xiao knew that the contractor didn't want to go back, even after seeing the warning.

He directly jumped down from bob's back and charged at him. The contractor directly aimed his gun at Su Xiao.

The ruling ability was directly activated, the earth scorched as the other two were directly far away.

Bang!

The gun was shot, and at the same time, with a flash, Su Xiao's sword directly met the contractor.

With a sweep, he returned the sword back into the sheath slowly.

Pang!

As soon as the sword returned, the contractor fell to the ground.

One strike one kill, the purple weapon along with sword mastery Lv.14, were terrifying.
