

R. Paradise 271

Chapter 271: 271

Seeing this, the tow contractors were terrified by the instant kill.

“Return. Otherwise, this will be your fate.”

They didn’t realize the current situation, and if the world coordinate were destroyed, then all contractors would stay in his world.

This isn’t something pleasant, without the protection of the Reincarnation paradise, they won’t survive the world, no one could live, and possibly, they will find a nuclear bomb on their heads.

But some contractors didn’t seem to understand this.

The two contractors directly went back.

Seeing the undisciplined wanderers on the screen, Su Xiao had a headache. He cannot let them do as they please.

If it was another world, he wouldn’t care, but he can’t directly participate in the war, and he must depend on the contractors.

Su Xiao hesitated a little before directly ordering in the chat channel.

“God-king, Brother’s society, Silver Flash, each of you send your vice-captain toward the fourth war zone.”

Once these words appeared, the three people hesitated, and finally, they decided to comply.

God king’s leader sent a female contractor, Adam sent his vice-captain, and Silver Flash went herself, which surprised Su Xiao.

“Sir Arbiter, I will go personally toward the fourth zone. You can add my vice-captain into the war chat channel for anything in the third war zone.”

Su Xiao hesitated a little before nodding.

“Ok.”

He directly added the vice-captain; it was the one who was eating the metal bar from before.

“Ha, now I’m like a captain, you can be relieved Captain.”

“Stupid person.”

Silver Flash directly moved toward the fourth war zone. After several minutes, she convinced the Contractors to work with her, as this was a life and death situation. Her being strong and famous in the Reincarnation Paradise helped.

The front line stabilized, and the first wave of parasites was repelled, Leaving behind corpses all over the place.

The burning scent was all over the place as the earth was scorched with red plastered all over it from the blood.

Seeing this, Su Xiao relaxed.

[Arbiter can't interfere with the battlefield, this is the first warning, after the fifth, the Arbiter status will be stripped from the Hunter and a penalty. (Rule number 1578)]

Su Xiao smiled at this, after five times, he would no longer be the Arbiter and can participate in the war as well.

Although he can't enter the war directly, he still can provide critical information using the loophole in the rule.

[the First wave successfully ended, Because of the Arbiter's help, rewarding Soul Crystal (small) x 2]

Su Xiao's eyes brightened; the reward was good.

He suspected that Reincarnation Paradise was encouraging his behavior.

It must be known that the Reincarnation Paradise wants to capture this world, and this would bring many benefits.

“This is getting more and more interesting.”

Su Xiao looked at the time left for the first coordinate to be captured, and it seems an hour has passed, and now there was still 10 hours 53 minutes left.

Su Xiao was thinking about the next world coordinate. The danger he would face would be at least ten times the current contractors are facing in his mission.

The contractors were resting, and after ten minutes, the earth vibrated once more.

“Don't make a mistake!”

God-king's leader wasn't as calm as before, and the spaceship was being raided again.

The first attack was only to prob, and this one was a true attack.

“We must win brothers; our development depends on this battlefield.”

God-king's leader angrily roared as he drew out his sword and stood in front of the rest.

All of the guilds were the same, and although the fourth war zone was filled with wanderers, they didn't dare to backdown.

The parasite shouted as they plunged on the contractors; they didn't fear death. The contractors continued to fight, and defended firmly, more and more parasites fell.

The war was continuing, the shouts, the blood, the sounds of the metal, everything was there.

The main tank of the god-king stood there motionless, and he was called Jork, a Russian fighter who grew up in a cold area.

Jork didn't move at all, no matter how many parasites attacked, he stood firmly without wavering.

Rays of light surrounded him as he roared, and sound waves moved throughout the battlefield. The parasite gone wild and didn't attack anyone other than him.

Most tanks had a crowd control skill that makes them guardians on the battlefield, and they hold everyone who threatens their teammates.

Jork faces many more parasites, while the pressure was reduced from his guild's members.

Similar scenes appeared in the other two war zones, but the fourth one was different.

Solo contractors don't develop toward the Tank direction, because they need good attack to complete missions and good skills as well. But the front line was still holding on as Silver Flash kept the front lines safe.

She was doing the job of the attacker and defender at the same time. She changes between a shield and a long blade as she held her ground.

Su Xiao saw this and felt relieved, and there shouldn't be another issue again for the next few hours.

But this won't be that smooth, and this was the space battlefield.

Su Xiao watched this and felt disappointed, if he could participate in the war, these Parasites would be like chicken under his sword.

"It seems like it was because of that."

Su Xiao guessed correctly. Most likely, he was the Arbiter because he didn't complete the hunting mission in the last Derivative world.

The offender of the previous world hid really too well, and Su Xiao didn't find him. He went to practically all over the places, but he didn't encounter him.

Shaking his head, Su Xiao no longer thought about these things, he had to find a way to win the war now.

When he was still observing everything, he sensed a lifeform approaching him.

[The Enemy's Arbiter is Approaching]

Su Xiao's mouth cracked as a full smile bloomed on his face, he can't participate in the war, but what will happen if he kills the Arbiter of the enemy?

Perhaps the other party wanted to kill him as well, although the Arbiter must not break the rules, if the rules permit it, there shouldn't be a problem.

Chapter 272: 272

A strong wind carrying a fishy smell hit Su Xiao's sensitive nose, suddenly, a variation of a mouse jumped out. This mouse had the size of a cat and a mouth full of sharp teeth. All its hair was missing, and it had gray skin.

Due to the nuclear radiation, many species evolved, and the Kara native's place was full of such radiation.

The animals that survived the Nuclear bombs evolved, you can see a frog in the size of a house, and a Rhinoceros several stories tall.

The lifeforms were fierce and could cause disasters.

The most precious thing for them is water and food.

Su Xiao rode on Bob's back as he saw the unusual lifeforms in his way.

A lifeform with a head of a lizard, two meters high body full of silver scales, and a big mouth and yellow pupil was seen. This was a Tuka. Most of the people of Kara talked in the Tuka language, and 99% of them had black scales, the ones with silver scales are like aristocrats.

“Gu It Gaa Ku Hi... (unknown language.)”

The Tuka shouted loudly, and Su Xiao didn't understand a word it said. He asked the Reincarnation Paradise, but it seemed the Reincarnation Paradise didn't provide any translation.

“This is the Kara Native.”

The Tuka couldn't understand Su Xiao as well, so he started to use gestures.

Su Xiao was stunned. What is this?

Since the exchange failed, he can only use plan be, Kill him. Simple and crude.

Although violence isn't the best option, it's the quickest.

Jumping down from Bob's back, Su Xiao walked toward the Tuka slowly.

“Ta Du Du, Tuka!”

The Tuka angry roared as he raised the antenna-like things on his head.

Su Xiao's footsteps halted.

[You were attacked by a Kinetic Attack, judging the Intelligence attribute. If the judgment fails, you will faint.]

[Judgment passed, you're immune to Mental Manipulation.]

Although he was immune, he still felt muddleheaded. He drew Dragon flash from his waist.

Discovering that Su Xiao wasn't affected by the attack, the Tuka opened his mouth widely.

Su Xiao's footsteps moved quickly. It didn't take long for him to be 3 meters away from him.

The Tuka opened his eyes wide, blood-like threads moved inside them without him moving at all, Su Xiao felt like he was hit by a hammer in the face as blood gushed out of his nose.

This was another attack, Su Xiao's HP was almost emptied.

The Lizard Headed lifeform didn't want Su Xiao beside its body, so it directly jumped away.

Bang!

Deep Footprints were left where it stood before.

Su Xiao staggered, as blood gushed out from ten tiny wounds on his body.

“Yii!”

A loud cry was released from the Tuka.

Su Xiao dropped to the ground as he tried to suppress the pain while coldly staring at the Tuka.

“Spirit attribute is unlocked when the intelligence reaches 30, no wonder I was made the Arbiter.”

Su Xiao clenched his fist, and the armguard’s special feature was used.

He released the hook-like thread toward the Tuka, directly impaling it in its body, leaving pale green bloodstains.

Su Xiao was ruthless. He held firmly on the thread because in the current situation if he didn’t kill that guy, he will die.

The Tuka Hissed It made an effort to move and shake off the threat. It didn’t want to fight Su Xiao in a close fight. Not while he was seriously injured like this.

Su Xiao coldly smiled, the Intelligence of the opposing party was high, very high.

Rushing directly wasn’t his style; he directly used Mikasa’s mind on his opponent, so he can’t be caught by surprise.

Su Xiao grabbed Dragon Flash and directly moved toward the entangled lizard man.

The blade passed by the Tuka’s throat.

As it passed, Su Xiao’s movement didn’t stop, and he saw the Tuka struggle as it seemed not enough to kill it; its Stamina (Vitality) wasn’t low.

Pressing Dragon Flash, Su Xiao tried directly to cut open its throat.

Buzz.

Su Xiao stepped back twice, he was attacked by a Psychic attack again, and Dragon Flash’s newly obtainability, ‘Fight a Bloody Battle’ was activated.

Supreme Cutting Edge Effect 2: Fight a Bloody battle (passive): When user’s Hp drop below 50%, Stamina (vitality) increase by 4 (+6 increases the effect by 1), when Hp drop below 30%, Stamina (vitality) increase by 6 (+6 increases the effect by 1), when Hp drop below 20%, Stamina (vitality) increase by 12 (+6 increases the effect by 2). (the effect can’t be imposed, and it lasts for 5 minutes.)

Su Xiao’s Vitality increased by 12 points; in other words, his Hp was lower than 20%.

The sudden rise in vitality made his body fell full of it, He felt clear once again, and the buzzing stopped.

Vitality was a good thing, and he will strengthen it as soon as he returns to the Reincarnation paradise.

Taking advantage of this time, The Tuka withdrew, his eyes were stretching open to the limit, he was trying to use another attack on Su Xiao.

The spot where the Dragon Flash stabbed made it shiver and its silver scales were rising up.

The Tuka was strong, but Su Xiao was stronger.

As soon as it wanted to release its attack, it found two eyes looking coldly at it.

Su Xiao stood in the same place, his hand tightened on the thread as they made weird noises, and smoke rose from them.

The sudden tightening of the wires interrupted the Tuka's attack, and a long blade appeared in front of it.

Puchi!

Dragon flash passed through the Tuka's neck into its chest cavity, blood flew in the air, but surprisingly, it wasn't cut in half.

Under the Qing Gang Yan's effect, the Tuka's face was full of pain. But there is something else in its eyes.

The Tuka knew it was dying.

“Strong... respect...”

He talked in human language and only said these two words.

Su Xiao suddenly knew that this wasn't right, from its eyes, he knew that it wanted to perish together with him.

The Tuka's pupil started to expand, and finally, it's entire eyes were yellow.

Su Xiao felt danger. He directly put a leg on Dragon Flash and ruthlessly stepped on it.

Puchi!

Pale Green blood spurted on Su Xiao, he cut it in two, and the threat disappeared.

Su Xiao and the enemies Arbiter were fighting for so long, but the Reincarnation Paradise didn't give any warning, which means that the Arbiters can fight, and it's not against the rule.

The Tuka's died, and a silver crystal stone fell down from its corpse.

Su Xiao picked it and knew that this was similar to a treasure chest.

The Tuka was strong. Moreover, Su Xiao was curious about this unusual Treasure Chest.

[You Obtained, the Tuka's Holding.]

[Your talent is activated, increase 15 Mana points permanently, you have 628 Mana points]

Chapter 273: 273

Su Xiao looked at the examination screen. Contractors were still fighting a bloody battle. On the corner, there was a number, which was 285/289.

289 represents the number of all the contractors who came here, and 285 represent the number of the ones who are alive, which means, in two hours, four contractors died.

This wasn't good news, if 4 died in two hours, then it could become 50 when this end and the protection of the next two places won't be any better.

The contractor's strength would be reduced as the number decrease, and if only 100 stayed alive, they would only be able to defend one side.

Su Xiao was worried about this, because the Tuka or the Kara Native didn't make an appearance yet, as well as the humans who are still alive, the Kara Natives were very advanced as they operate a space ship...

The possibility wasn't strong because there are still humans in this world.

Su Xiao directly asked Reincarnation Paradise about whether the Humans in this world are allies or enemies.

The answer he received was, 'Humans don't know about the Reincarnation Paradise Existence. Only the Kara Native are the enemies.'

Su Xiao started thinking about the situation.

First, only the Kara Natives are the enemies, they realized the existence of the Reincarnation Paradise, and they wanted to revolt.

If the Reincarnation Paradise captures this world, then the Kara Natives would drift in space.

The Reincarnation Paradise won't allow the time of this world to develop until the Kara Natives arrive, and the Kara Natives would only be able to do what the Reincarnation Paradise organize.

Perhaps, the Otherworlds are just means for the Contractors to get stronger and help the Reincarnation paradise capture more worlds.

Why must the Reincarnation Paradise capture other worlds, this was unknown for now.

As the matter was cleared, the Kara Native are the enemies, but humans from this world aren't if they could ally with them, they could help. After all, the contractors are Humans, after all.

In this world, there are three big influences, and one is the Reincarnation Paradise's representatives, the second is the Kara Natives, the third are the Humans.

Su Xiao started to make plans.

He must defend the world coordinates first. Next, he will contact the Humans for an alliance. Lucky for him, the place they were in right now was Asia, which is the domain of humans.

However, this was a radiation zone, so Humans won't appear here.

But can he contact the human alliance? Su Xiao hesitated whether he should go there himself or not, there weren't any contractors who are running right now, even if they wanted, they can't as they were encircled by the Parasites.

Su Xiao looked at the Charm attribute, which now was 5 points. It won't be easy to talk to them with a measly 5 points in charm, should he make Bob act cute?

Su Xiao's charm attribute is very low, and there should be someone who has a charm related special skill within the contractors.

The contractors escaping can be dealt with by the Arbiter, which meant him or the enemy's arbiter.

Looking at the far away corpse, Su Xiao smiled. The enemies don't have an Arbiter, because he just killed him, leaving him as the only Arbiter.

“That... if used correctly, can be an opportunity.”

Su Xiao can still use three indirect interferences without losing his right as an Arbiter. So he directly wrote on the channel.

‘Battlefield command: Get three Contractors with charm above 20 from any guild; three people are needed, the guilds may send out strong people to protect them.

A maximum number of people: 6.

Time: 2 Days.

Goal: Contact the Human alliance and obtain their support.

Note: The ones who will leave for the mission aren't considered as deserters by the Arbiter alliance. This is proven by Reincarnation Paradise.

The person Speaking: The Arbiter!

...

After getting what he wanted, he nodded and sent it out. Only people from the guild can take the mission because if wanderers were to take it, they might escape. The three captains won't be silly as to send untrusty people for this, so the guild members are best for this mission.

Three people with charm skills to convince the human alliance and the other three to ensure the safety of the first three.

The two days are just considering that it would be a long journey and the time needed for the negotiation.

As for the Arbiter alliance, he was the lone member who just made the name.

No one can question it as he was the Arbiter, and if an alliance was made by the Arbiter, then it is easy to call it Arbiter Alliance.

Su Xiao directly issued the mission.

The three leaders won't be able to send the contractors yet as they were still fighting and barely could cope up.

At this time, the war was stable, Su Xiao held the Tuka holding in his hand.

[Open the Tuka Holding {Yes} {No}]

Su Xiao grabbed the Destiny Redemption and lit a cigarette. The Destiny Redemption was 60% full.

The cooldown time for the Destiny Redemption was five days, the same time for the war.

Su Xiao directly opened the Tuka Holding, and as it broke, several items appeared in front of him.

[You obtained Soul Crystal (Medium) x 1]

[You obtained Spiritual Impact (Skill scroll)]

[You obtained Montella Ore x 1]

...

[Soul Crystal (medium)]

Quality: N/A

Type: Soul Concentration essence.

Grade: N/A.

Introduction: Soul crystal is rare; it can be used to enhance an ability or be traded with plot characters.

...

[Spiritual Impact]

Quality: Purple

Type: Skill Scroll.

Learning condition: Intelligence 30 points, stamina 10 points (Because of the Devil's physic, this skill can't be learned by the hunter.)

Effect: After three seconds of spiritual condensation, release a great spiritual impact. The one receiving this attack will have fear status if he was within ten meters, and it causes damage equal to Intelligence x 5.

Note: This skill cooldown time is one hour.

Note: Each use will consume 200 Mana Points.

Grade: 120 (Note: Purple items are graded from 71 to 150.)

Introduction: This is a secret skill of the Kara Natives when used, it will cause great damage, and if it used improperly, it would cause great damage to the brain.

...

Su Xiao looked at the last item in his hand in shock.

Chapter 274: Does she wants to die

[Montilla ore]

Quality: Special

Type: Rare consumables ore.

Effect: If used while strengthening equipment, the chance of failure is greatly reduced below +10, and in case of failure, nothing will happen to the equipment that failed to upgrade. One use only.

Grading: N/A

Synopsis: A Kara star unique ore, Kara natives have joined this ore in the spaceship core, the core is durable and sturdy, it can survive over 1,500 Years.

...

Su Xiao threw the Blackstone-like ore into his inventory.

This harvest is not small. Su Xiao already experienced how scares the soul crystals can be. If you have to use them and you don't have them, you will need to buy them at a high price from the market.

Soul Crystal(small) the price in 20,000 to 50,000 thousand Paradise Coins, and they aren't available all the time.

Soul Crystal (Middle) won't be sold by the contractors. If one was fortunate enough to have one, they would use them themselves instead of selling them. Nobody will sell, only if it has needed Paradise Coins for a life and death matter.

As for Montella ore, it's unique to this place, as only this Parasites world has it, and even if this world was to be captured, the Reincarnation Paradise will reset the world and prevent the Kara from appearing here.

Su Xiao did not dare enhance Dragon Flash, and if the + 7 failed, then it will revert back to normal, the strengthening needs 3000 Paradise Coins each time, which meant that the loss is 21000 Paradise Coins, the loss is serious.

Once the + 8 enhancement fails, Dragon Flash shatter..... That type loses Su Xiao unable to withstand, will cause his strength to wane quickly.

'Montella ore' can solve this situation, can guarantee after Dragon Flash + 8 fails, it won't break. Montella ore can only be used one time. After that, it will vanishes, regardless of strengthens successful or failure.

Su Xiao's harvest was sumptuous, but the Contractors are struggling hard.

The tangled warfare has continued for several hours, and the Contractor often had a casualty, the parasitic beast offensive actually hasn't weakened.

[Coordinate arrangements is successful, surplus time: 6 hours 03 minutes.]

In battlefield

God-king leader swung his sword, and the sword chopped the next parasitic beast head, the blood has splashed his whole body, he became full of blood. He has forgotten how many parasitic beasts he killed, his surrounding area was filled with corpse.

The corpse mountain appears to cause the Contractors to withdraw.

Even though the parasitic beast was really persistent and attacked without care, the contractors were mentally exhausted from the battle, after the baptism in the derivative worlds, they had a high mental fortitude.

The place was full of parasitic beasts, no matter how many they killed, there doesn't seem to be an end to them.

“These wild animals of Ahh! this crowd of no- brains. ”

God-king guild main tank erupted, his eye red as he attacked nearby parasitic beast with the shield, the parasitic beast attacked him immediately.

Tittering.

A strange weapon moved toward the main tank, this strike, if it hit an ordinary Contractor, he would be severely wounded, but this tank had only a minor wound.

“Calm down!”

God king's leader shouted at once, rear Healer healed the main tank and stabilized the fluctuation of the main tank's mind.

after the tank calmed down, his eyes reverted back to normal.

This frequently appeared on the battlefield, and Contractors are vivid humans; they aren't slaughter machines.

After Contractor tenaciously defends for one hour, he discovered that the parasitic beast offensive is clearly weakened.

“Ha, it seemed we're winning.”

“Kills them off!”

Laughter and curses rained down as the Contractors were getting happy.

Compared to these parasitic beasts, god-king and Adam and the others are worried about a matter.

If only then the parasitic beast attack is good, once there is a stronger lifeform to raid, that defense line will be in imminent danger.

This was considered thoroughly, the mainland of Asia is the domain of human alliance, Kara natives are weak here.

At the end of a war that lasted for two years, the kara natives were damaged by the weapons which were developed by humans; they were regaining strength and didn't dare come to Asia.

I have to say that the time when reincarnation Paradise chose to start the war is very sinister. It is the period when the Kara Star people are weak, and the humans are getting stronger

Kara native knows the existence of Reincarnation Paradise, but the human alliance didn't, this is the difference.

Once Kara natives are defeated, it is not so easy to layout the world coordinates. The Human Alliance will develop at a rapid pace, and the difficulty of capturing this derivative world will be greatly increased.

After half an hour of fighting, the parasites left thousands of bodies and retreated. The contractors ignored the blood on the ground and lay down to gasp their breath.

Some contractors trembled and took out bloody cigarettes to ignite, and smoked.

[The remaining time of the coordinate arrangement is 4 hours and 37 minutes, the Contractor casualty: 259 / 289.]

Almost one-tenth of the deaths and injuries have not been obvious from the figures, but if you visit the battlefield, you will find that it is bloody.

War is not a child's play. This is to put all the creatures in a meat grinder, and the last one to survive is the winner.

The god-king stood up hard, and he had already seen the tips in the war channel.

“Our god-king Guild can send out two people.”

“Brother's Society as well can send two.”

“Flash doesn't agree!”

Seeing the warnings of the war channel, Silver Flash seemed to disagree.

Su Xiao has a preliminary understanding of the character of the three heads. The character of the god-king leader is stable, and he can give up someone for the big picture.

Adam is very loyal, and the group is his brothers. Even so, he was willing to give some members.

Silver Flash was a female that used emotion more than thoughts.

When she accepted the last command, Su Xiao thought of that as a riddle.

This type of ,sexually harassing' the Arbiter almost frightened the god-king and Adam, the god-king and Adam.

Silver flash and even her vice-captain are like that, hey tried to bribe Su Xiao before and directly got banned by the Reincarnation paradise from the channel.

Still, having such a beautiful girl on the battlefield was helpful.

“Flash girl, you...”

God's king's leader was helpless. “This is good for us, and I suggested that sister silver flash consider again.”

Adam's tone is also very helpless.

“No, I am not refusing completely, but have other ideas.” Silver flash spoke.

“Sir. Arbitrator. The situation in our regiment is somewhat special. The specific reasons are not easy to disclose. But I want to send to girls. Their charms are above 25 points. They are twin sisters, and they have their own Fighting power, no need for anyone to protect them.

Therefore, our Gold Flash guild wants to send two charm type. So, can, Sir. Arbiter, agree?”

This is an unexpected joy. God king’s leader or Adam knew that Su Xiao would accept it without thinking,

“...”

u Xiao replied with a blank in the war channel and did not make any statement. He did not want to waste precious opportunities because of this kind of thing.

Not saying anything is the same as accepting.

“Many thanks, Sir Arbiter.”

The fourth war zone, silver flash chuckled, while looking pensive.

“This Sir Arbiter... Probably is not fair, but I like this type not being unfair.”

Silver Flash nip the nail of her thumb, and continued saying in a low voice:

“It’s a riddle why the God-King guild was scared, and this can mean that the Arbiter can’t be provoked. Now he released information that in our interest... If that’s true, then we can win.”

Flash silver is not the same as her outer appearance may tell. She has been experimenting with Su Xiao’s attitude in a seemingly innocent way.

Su Xiao had discovered this early, and Silver Flash could try to find what she wants. He couldn’t make the words ‘I will help you win’ in the war channel. If he did, his arbiter status would be stripped, and he will also be punished.

Chapter 275: War Behemoth!

Six red dots appear on the translucent screen, which means that the contractor is close to the edge of the battlefield.

“Bubu, southwest.”

Su Xiao pointed out the location, and Bobtney quickly went to the designated location. After a few seconds, six contractors appeared in sight.

The six contractors are divided into three kinds of clothing, representing three guilds, and each of the Guilds, it seems that these Guilds are very disciplined.

The God-king Guild’s members were a combination of a man and a woman. The Brotherhood sent two men, one of whom is gentle, and the other is as muscular as a bodybuilder. The Gold Flash sent a pair of sinister little sisters.

The god-king sent out a husband and wife group. The charming specialty is a woman. At about age 30, it is as attractive as a ripe peach. Her husband looks cold.

The two of the Brotherhood had some spicy eyes, and Su Xiao temporarily referred to these two as the 'Kiyu duo.'

It's not that Su Xiao is guessing wildly. These two foundations are showing love, and the scene can't be described, spicy eyes!

The Flash Gold Guild sent a pair of sister flowers, very eye-catching, the two sisters are about fourteen or fifteen years old, the older sister has short pink hair, the younger sister has short blue hair, and the two bangs block one eye in different directions.

The two sisters showed one eye to each other, which is clearly the eyes of two people, but Su Xiao felt someone looking at him.

"Is this the arbiter, so handsome~."

The two sisters spoke at the same time, the voice was the same, the tone was the same, and the voice was very sweet.

The couple at the side of the group had a sigh of relief, and they only felt that the Arbiter was terrible.

The wife of the husband and wife group said: "Knowing that we are cooperating, I will tell telling you a message, the arbiter will basically not communicate with us."

The two couples are talking together and kissing each other.

"Hey, heresy." The two-person group opened the mouth, and the two looked at the husband and wife group.

"The Two gays." The husband in the husband and wife group spoke, the elements of the body overflowed; this is the name of the three masters.

"The opposite sex is only for the sake of reproduction. The love between the same gender is true love. You two know nothing."

The muscular man opened his mouth and said that he also smiled softly at the 'lover' around him.

"Good... so spicy."

The two sisters spoke at the same time, and each closed her sister's eyes.

"Don't say it, and I feel that the arbiter's eyes are not correct. Let's go quickly."

The young woman in the couple spoke, pulling her husband to walk quickly outside the battlefield, and the other two groups quickly followed.

The six people gradually approached Su Xiao, and Bobtney looked at the two sisters. His eyes were eager to try. It smelled sweet on the two sisters. It was the habit of the two sisters to eat sweets. Bubu might want to rob two sisters.

"That... that is the Hell three-headed dog, it seems to be eyeing me, my sister, I am a little scared."

The blue-haired sisters of the two sisters opened their mouths alone, and the two sisters' white hands clenched each other, and the palms of the hands ooze sweat.

The group at the side of the group said in a slang: "Don't talk, go down."

The two lowered their heads and walked forward quickly, and their faces were full of cold sweat.

Imagine a man wearing a black and white mask, riding a Hell three-headed dog, and floating a black sickle behind him. Whoever sees this dress is not illusory, and Su Xiao himself kills a lot of people, although he usually does not show murderousness. The momentum is never friendly.

[Warning: The contractor has a cross-border behavior, and the arbitrator needs to stop it immediately.]

Su Xiao was unmoved but turned to look at the backs of the few contractors.

[Warning: The arbitrator of this party has not done a blocking action and will dispatch the enemy adjudicator to clean up.]

[Contact the enemy arbitrators... The contact failed, and the enemy arbitrator has been killed.]

After getting this news, Su Xiao chuckled. It seems that his previous choice was correct. If the enemy arbiter is not killed, it would've been trouble.

Waiting for a long time, the reincarnation paradise did not appear again.

"The identity of the arbiter is unexpectedly good."

On the edge of the battlefield, Su Xiao observed the battlefield through the screen.

It has been more than an hour, but the Kara people have no movement. There are only two possibilities. One is that the Kara people have given up, which is obviously not big.

Second, the Kara Xing people are gathering strength and preparing to break the defense line of the contractor in one fell swoop. The Kara Xing people want to enlarge the trick or risk using some kind of weapon.

One of the three world coordinates can not be destroyed, one defense fails, and all lose.

The long wait began, and the world coordinates were gradually established.

[The coordinate arrangement succeeds in the remaining time of 2 hours and 05 minutes.]

In the last two hours, success or failure will take a look at this.

Boom.

The dull vibrations came from afar. There were no overwhelming parasites, and there was only one enemy.

Through a bird's eye view, Su Xiao knows what the enemy looks like.

The enemy is human, about ten meters high, and the whole body is gray, the body has traces of being stitched and welded to the steel, the muscles of the body are deformed somewhat, the stomach is very large, the two arms are long and thick, and the knees are lowered. The two arms are three meters in diameter, the palm of its hand is a bone sphere, and its two legs are somewhat like a piling hammer, and the upper muscles are raised.

The contractors also saw huge creatures coming slowly.

“This is a trough, and I want to go home.”

The weapon in the hands of a scattered contractor fell to the ground, and he had no interest in fighting against this behemoth.

The speed of the behemoth is not fast, and every time it walks, the ground will roar, the dust will rise to the top, and a row of big footprints will be left behind.

“Hey, hey.”

The huge creature stood in the distance, and the belly gradually bulged, making a strange sound.

The huge creatures sighed and spat three times, highlighting the three groups of dark green balls.

The dark green ball is like a cannonball. It is crossed by three arcs in the air and squats on top of the spacecraft.

Boom, bomb, and bomb.

Three deafening explosions sounded in succession, green juice splashed, and the metal layer on the top of the spacecraft was blown out of three shallow pits. The splashed green juice rusted the top of the spacecraft, and the sour smell spread.

“Block it.” The King of God screamed and led the members of the Guild to rush to the huge creatures.

Other Guilds also know that things are not good, following the god-king Guild.

The scattered people hesitated.

“People who retreat will die, idiots, look over there.”

Silver Flash pointed to the edge of the battlefield, Su Xiao stared coldly at the scattered people.

“It is the Arbiter who kills or fights with the monster. You choose it yourself. By the way, I remind you that the Arbiter can only be described as horrifying even in my perception...”

Silver Flash left this sentence and rushed to the behemoth. Those people hesitated for a few seconds and finally chose to follow her to meet the enemy.

Su Xiao found that all the contractors rushed to the monster and stopped approaching the battlefield.

Taking out the eye of Hawa, and Su Xiao preyed at the data of the huge creature.

[Hawa’s Eye] floats in the air and begins scanning large creatures.

[Comparing the intellectual property of both sides..., the comparison is completed, your intelligence is 2.8 times that of the enemy, and 100% of the enemy's information is obtained.]

The information is as follows:

Name: War Behemoth

Type: Parasitic animal type IV.

Health: 100%

Mana value: 100

Strength: 39

Agility: 12

Vitality: 40

Intelligence: 10

Charm: -7

Skill 1: War creatures (passive): Health increased by 20,000 points, no pain.

Skill 2: Biological bomb (active): The war behemoth can use the special organs in the abdominal cavity to form a biological bomb. Three biological bomb forms every 5 minutes, and the explosion range is 8 meters, causing 270 damages with a strong corrosion effect.

Skill 3: Bone hammer (active), the war giants smashed their arms and slammed the ground in front of them four times in a row, each time causing damage of strength x8, with the effect of broken armor and broken bone.

Skill 4: Poisonous (passive); the blood of the beasts contains acidic components and is highly corrosive.

Skill 5: Parasitic will (passive). The war monsters combine four parasitic beasts that help the war behemoths control the powerful and unstable body; destroying these parasites will cause a lot of true damage.

.....

Seeing the information of the war behemoth, Su Xiao's eyes jumped, this thing... seems to be a bit strong.

Chapter 276

The war behemoth is about to fight with the contractor, and the forefront is the main squad of each Guild.

In the face of this behemoth, several of the masters, with the shield, rushed forward.

Seeing this scene through the screen, Su Xiao was interested. The way the Guild fights is very different from him. It seems that these Guilds are going to start a war of attrition, and they will drag the war monsters to death.

But this has a premise, depending on whether these main tanks survive the attack of the war behemoth.

The war behemoth looked down at the human beings at its foot. These little things recognized that in the past, these little things were desperately running away from a distance after seeing it. Today it was somewhat unexpected.

The unwise head of the war behemoth cannot understand this situation, but it does not affect it to kill the enemy.

An arm like a piling hammer was lifted to the old high, and the war giants his strength. This horrible weapon, which was consisting of flesh and bones, hammered down.

Boom!

At the same time, a loud noise spread out, the bone of the war beast clung to the ground, and the master who was hammered by it had disappeared.

The contractors screamed.

The hammered person is the golden ghost of Gold Flash Guild, the brawny who eats iron.

The arms of the war behemoth were lifted up, and a shield is deeply embedded in the ground.
boom.

The shield flew up, and the golden ghost had only the head and an arm exposed to the ground, and the whole body was in the soil.

At this time, he was completely metalized. Although he was metalized, he had a big bag on his head.

“Fast heal, I am dying.”

The golden ghost did not die, which made everyone stunned. Everyone thought that he was hammered into a cookie.

The light of healing flashed in the golden ghost, and the blood of the golden ghost quickly recovered and struggled out of the soil.

“After the others retreat, I will come by myself, and you will be after me.”

The metalized golden ghost smashed the shield, and the other main squads retired and stood behind the golden ghost. They looked like support at any time. It seems that these masters are clear about the strength of the golden ghost.

Flash silver rushed to the battlefield, sticking out his tongue and rubbing his lips.

“Stupid, don’t try to take it head-on, or you will die.”

Flashing silver stood behind the golden ghost, controlling the mass of mercury-like material covering the golden ghost. The golden ghost’s body was quickly pulled up, and the eye-shaped shield grew to four meters. The door-sized shield was more like an arm shield.

The golden ghost of the incarnation of the steel man is laughing.

“Hot chest? I almost got hammered out.”

The golden ghost looked to God king's leader and Adam.

“Two, this time, we are blocked by the gold Flash, and the two subsequent coordinates are not hidden.”

God-King did not speak, and it seems to be the default, Adam nodded.

“Agree, just go.”

The golden ghost took off and jumped directly to the war behemoth. He was beaten with the war behemoth. The attacks of other contractors also arrived. Bullets and spells came together. The war monsters were like fireworks.

The war behemoth is ten meters high, and the golden ghost is four meters high. Although the two people's body shape is still somewhat disparate, the golden ghost is extremely resistant to fight, and the three or four hammers are continuously smashed. This guy is still alive and alive and bites the war behemoth...

The milk of the three Guild nurses add up, and the golden ghost will not die if it is not seconds.

Before these contractors did not do their best, they all have their own cards.

Su Xiao looked far away from the golden ghosts who were beaten by the war behemoths. As long as Gold Flash did not die, the firepower of more than two hundred contractors was enough to destroy the war behemoth.

In fact, Su Xiao, the first two world coordinates, isn't that worrisome. The third world coordinate is a problem. The position of that coordinate is on the edge of the Asian continent and will be attacked more violently.

The position of the world coordinates cannot be chosen casually. It is only arranged in a certain area. If you can choose whatever you want, the reincarnation Paradise will set the world coordinates in the human camp instead of this scorched earth.

The reason for that Su Xiao is not clear. What he needs to do is to set the world coordinates. It is not a good thing to know too much before his strength reaches a certain level.

It's more than an hour before the first world coordinate is completed.

Su Xiao sank for a while and decided to leave first to set up a second world coordinate. The defense here is basically stable. If there is no way to confront the enemy Su Xiao, the screen can watch the contractor's movement at any time. Any accident can be discovered in time.

“Bubu, let's go.”

Bunny screamed twice and ran in the direction with Su Xiao.

Su Xiao is going to arrange the second world coordinates. When these contractors are successfully guarded, they will rush to the second world coordinates, unless they want to stay in the parasitic world forever.

A strong wind blew across his cheek, Su Xiao switched the screen to a map.

There is a green dot flashing on the map, which is where the second world coordinates are set.

Thirty kilometers away, Bobtney quickly reached the destination.

There is a mountain in front, and the second coordinate arrangement is surrounded by mountains.

Su Xiao stood on a mountain and looked around. The entrance was dark, and he didn't care about it. He was observing the tactical terrain here.

I have to say that the choice of the Reincarnation Paradise to set up the coordinate points here is due to the fact that it is easy to defend and difficult to attack, surrounded by mountains.

The coordinate point is two kilometers away, and when Su Xiao is ready to rush to the coordinate point, a black shadow runs through in the distance.

“This is... yak?”

Su Xiao fixed his eyes, where is the yak, it is a mutant rabbit, the hair of the mutant rabbit is very long, just like a yak. The ears on the head are upright, like a pair of horns.

This mutant rabbit is not small, running very fast, and ran out of sight in the blink of an eye.

Su Xiao continued to march into the valley. Su Xiao met hundreds of mutant beasts along the way, but he avoided it by feeling.

Time is life now, and he has no time to pay attention to those mutant beasts.

Although this road seems to be calm, Su Xiao has experienced several life and death situations.

This piece of waste soil is completely murderous invisible, and the radiation intensity of some locations is very good.

Not only that but also a variety of poisonous insects are hidden in the scorched earth. These poisonous insects are more terrifying after the mutation.

On the way to the mountain, Su Xiao saw a slap-up mutant mosquito sucking a house-sized tiger.

The mutant mosquito expanded from the original palm-size to the size of the house. In just one minute, the mutant mosquito digested the energy in the body and changed it into a palm shape.

Su Xiao just glanced at it. The mutant mosquito found him and chased him for more than ten kilometers before giving up. Bibtney was so scared that he could not stretch his tongue.

At the arrival point of the coordinates, the reminder of the reincarnation scene appears.

[The hunter has arrived at the coordinate setting point and can set coordinates within half a kilometer.]

Free choice of location within half a kilometer? Su Xiao looked around.

The terrain here is flat, and there is not even a covering. Although it is convenient to set up coordinates here, the difficulty of defense is not small.

In order to make the defense fail for a moment, it is almost impossible to break through the sky.

Su Xiao patrolled within half a kilometer, and soon, a terrain that was very suitable for defense appeared.

This is a mountain with a height of several hundred meters. The front of the mountain is a vertical rock wall. A position of the rock wall is recessed into the mountain to form a U shape.

This is a semi-open cave, about tens of meters high, six meters wide and ten meters deep.

If the world coordinates are set here, the contractor only needs to hold the hole.

As for the retreat, Su Xiao certainly does not leave the contractor, and the defense fails, there is no second choice.

Although the terrain here is good, there is a problem.

This good terrain is very suitable for sheltering from wind and rain, and even blocking the power of some nuclear bombs. It has become a nest of mutant beasts, more than a dozen crocodile-like creatures, in the cave, the smallest of these crocodiles are seven meters long, the largest one is ten meters long, the mouth is full of jagged teeth, the thick body of the whole body, it is not easy to deal with at first glance.

Although it is not clear why the crocodile became a land creature, these guys gave Su Xiao a very dangerous feeling.

You must first clean up these mutant crocodiles, and he can't give up this good terrain.

Su Xiao jumped from the back of Bobtney and looked at Bubtney. Bubtney's tail shrank.

“Go and bring out the crocodiles.”

Bobtney looked at the crocodiles, and it also noticed how dangerous the crocodiles were, and the owner's order, Boubutny, would obey.

Bobtney rushed to the cave and stopped a few tens of meters away.

“Wang Wang Wang...”

Bobtney succeeded in attracting the attention of the crocodiles, and a pair of cruel beasts looked at Bobtney.

The hair behind Bobtney was standing up as he turned and wanted to run, but suddenly he found that the crocodiles did not move.

The pair of cruel eyes seemed to say, ‘where did this stupid dog come from?’

Bubu Wang was angry and began to shake his head and taunt, but the crocodiles were like acrobatics, and they were more interested in Bobtney.

Bobtney ridiculed for more than ten minutes, but the crocodile did not move, which made Bubbao very disappointed.

After ridiculing for so long, Bobtney felt a sense of urinary rush, and it directly lifted his legs in this wilderness.

When the urine was half out, Bubtney found something wrong. The eyes of the crocodiles changed. More than a dozen crocodiles were fierce. They slowly climbed out of the hole and suddenly rushed to it. The four claws ran fast, and the ground cracked.

Bub was halfway through and was scared by this scene. He was scared and even urinated as he ran off.

Bubu's heart was bitter, as he was splashed by the urine while escaping ...

Chapter 277: 277

Bobtney turned and ran wildly in the distance. Its purpose was clear. Su Xiao was waiting for it in a certain position. More than a dozen giant crocodiles were chasing after him.

Bobtney is like a wild dog running, and the giant crocodile is far behind.

After a few minutes of escape, Bobtney ran to a valley. The valley was very narrow, with towering rock walls on both sides, and the gap was only about three meters. In ancient times, this terrain was called a Col, an extremely dangerous place.

Bobtney broke into the col, and its figure disappeared. After a few seconds, the group of giant crocodiles chased after him.

The threshold of the giant crocodile was col, as they didn't rush into the narrow gap. This is the instinct of the beast.

Su Xiao stood above the valley and looked down at the dozen or so giant crocodiles.

“Unexpectedly smart.”

In the col, he buried alchemy bombs, a total of four. In this narrow terrain, the power of the explosion will rise linearly.

Bobtney quickly ran to the mountain and came to Su Xiao.

A breeze blew, Su Xiao's brows were wrinkled.

“What is this smell?” Su Xiao looked at Bobtney, as the smell reached his nose.

Bobtney's head was low, and he dare not see Su Xiao.

“You were... scared while peeing?”

Su Xiao looked at Bobtney without words. The courage of this dog...

Bobtney turned his back and squatted on the rock, covering his face with his front paws.

“Go on and bait them again.” The crocodile IQ is not low.

At this time, those giant crocodiles are still squatting in the col, wondering if they have to chase in.

Bobtney stared at the crocodiles in an angry way.

A few minutes later, Bobtney ran to the other side of the col and shouted a few times.

The enemy meets his eyes with extraordinarily red eyes. For the beast, another beast that urinates in its territory, leaving their smell, was equal to a human catching his wife with another man.

The giant crocodile no longer hesitated and went into the col.

The bombs are arranged in the middle of the col. These giant crocodiles didn't sense danger. The territory represents food and mating rights for the beasts. The four-strong short legs of the giant crocodile were about to reach the bombs.

Su Xiao stared at the bottom of the Col as the giant crocodile was quickly approaching the bomb.

Ten meters, five meters, one meter!

When the giant crocodile stepped on the bomb, Su Xiao consumed four mana, and the alchemy bomb was detonated.

boom!

The deafening explosion rang through the valley, and a few echoes came.

At the moment of the explosion, Su Xiao clearly saw that three giant crocodiles had just stepped on the top of the bomb and were blown up on the way.

The impact of the explosion spread to the surrounding area. A large crack appeared on the mountain walls on both sides of col. The gravel rolled over, and there was a slight landslide in the col. More than a dozen giant crocodiles were buried in the gravel. The black and red blood was scattered above the gravel as it gushed out.

On one side of the mountain wall, a piece of white paste liquid slowly slipped, which is the brain of a certain crocodile.

The brain is blown out, showing the power of the alchemy bomb.

If it is in the open space, the alchemy bombs are not so terrible, but the power of the explosion is concentrated in the col.

Su Xiao's arm guard popped a thread, which was nailed into the rock wall by a hook. He jumped from the peak several meters down.

The wire on his wrist came with a violent friction sound. When the distance was a few meters from the ground, Su Xiao tightened the reel, and the left arm slammed hard. The hook that was nailed into the rock wall was caught, and the thread quickly contracted back. He landed smoothly.

The whole set of movements was synthesized, and Su Xiao was very satisfied with this guard arm.

Standing in front of the gravel pile, Dragon Flash appeared in his hand, and he walked slowly toward the stone pile.

It seems that someone is approaching, and the body of the giant crocodile in the gravel swings.

The gravel rolled down, a vulgarized giant crocodile appeared, and one of its eyes was blown up.

Those sharp fangs were blown from its right side as if it was hit by the train.

Although the eyes of this giant crocodile are ferocious, Su Xiao knows.

Raising the Sword slowly forward, he directly stabbed through the brain of the giant crocodile.

Piercing the head is not enough, Su Xiao forced Dragon flash to move sideways.

[You killed the mutant Malay crocodile.]

[Your talent 'Psychic' is launched, permanently adding 10 mana, the current mana is 638.]

.....

Su Xiaolu was surprised. The strength of the giant crocodile was unexpected, and it increased his mana by 10 points.

It should be known that the ability of the Devouring to increase the mana is based on the strength of Su Xiao, killing the creatures whose strengths are very low will not increase his mana.

There were 16 of these crocodiles. If they are all killed, he can increase 100 mana, which is the limit for each world.

Suddenly killing a giant crocodile, Su Xiao did not relax his vigilance, but he was more cautious and inspired to the limit.

In the face of these giant crocodiles, he can not be careless, more than five giant crocodiles can kill him.

If it weren't for the power of four alchemy bombs, plus the special terrain of the col to magnify the power of the bomb, Su Xiao would have to fight hard.

Walking on the gravel pile, Su Xiao suddenly stabbed the knife.

The weapon stabbed into flesh, and a few seconds later, the blood rushes out of the gravel.

Pull out the dragon and flash, and there was blood on the blade, two down.

Three were buried on the left and five on the right. The others were killed.

Su Xiao quietly walked on the gravel pile, and occasionally stabbed a sword into the gravel.

These giant crocodiles were stunned, and Su Xiao quickly harvested their lives.

[You killed the mutant Malay crocodile.]

[Your talent 'Psychic' is launched, permanently adding 12 mana, the current mana is 650.]

[You killed the mutant Malay crocodile.]

[Your talent 'Psychic' is launched, permanently adding 9 mana, the current mana is 659.]

.....

[You killed the mutant Malay crocodile.]

[Your talent 'Psychic' is launched, permanently increasing the mana by 11, and the current mana is 713.]

Su Xiao killed the last giant crocodile, and his phasing talent has reached the upper limit.

Su Xiao's energy has skyrocketed. Recently he discovered that his mana is different from mages. When mages cast spells, the Mana will more or less contain elements.

Su Xiao's talent made his mana extremely pure.

Whatever you lose, you will get something. Su Xiao can't learn the spell skills, but he got the pure mana.

This mana has many benefits, such as the power of the alchemy bombs that are made.

For this reason, Su Xiao's alchemy bombs are so popular, with great explosion damage and a wide range.

If it is made by others, the power will drop by a third.

Not only the Mages, but the mana of other people is more or less doped with various elements. Su Xiao's demon physique is a natural filter that filters out any elements.

Chapter 278

Su Xiao stood on the gravel pile and felt that although these giant crocodiles were in a coma, they must have some ability to shield their perception. He felt that the position of the other side was a little difficult.

The crocodiles were originally a hunter in the swamp, and the occult ability has already penetrated into the blood.

After sensing for a while on the stone pile, Su Xiao did not feel the breath of life again.

"It seems..."

Su Xiao suddenly felt the rubble under his feet, as if a certain giant was rushing out of the gravel.

Oh.

The gravel collapsed, and the old high, a ten-meter-long, two-meter-high giant crocodile pulled out from the gravel, was the biggest giant crocodile that Su Xiao saw before.

Su Xiao was jacked up by a giant crocodile, and his body flew in the air. At this time, his heart was very surprised. How did this giant crocodile escape his perception?

It is no longer meaningful to think about it now. There are many magical abilities. What is important is how to meet the enemy.

Compared with how to meet the enemy, Su Xiao should now consider how to escape the crocodile.

He has nowhere to borrow in the air, and the leader-level giant crocodile has leaped, like a big cut mouth open to 90 degrees, the jagged teeth are like a sharp dagger.

Su Xiao has already judged in the air that he must not be bitten, or he will die.

A rancid smell straight into his nose, the leader of the giant crocodile tried to bit Su Xiao.

A hook lock popped out of the red-red armor and was nailed to the side of the rock wall. Su Xiao contracted the thread, and his body was pulled aside.

At this time, the big crocodile's mouth like blood basin was closed.

Just like two wooden boards shot together, the giant crocodile took a bite. Su Xiao was full of cold sweat.

It is even more horrible to be hit by this bite without breaking a few bones. The follow-up attack of the giant crocodile biting the enemy is even more terrifying.

A pair of animal eyes stared at Su Xiao, brown, yellow eyes, black erect, cold, and ferocious.

The giant crocodile was burned in a large area, and the heavy leather armor was blown up to reveal a bright red muscle tissue.

Su Xiao's left hand clenched the thread and squatted on the rock wall, and his eyes stared at the giant crocodile.

From the attack of the giant crocodile to the present time, only five seconds passed. Su Xiao went to the gates of hell and back in these five seconds.

At the moment, Bobtney returned, and his head rushed to the giant crocodile.

The bulldog who really bites the enemy will not call, and the arrogant dogs are just...

“Go back, wait outside the valley.”

Although Bobtney ran fast, and the attributes were not low, the accompanying skills were doomed to be less powerful.

Bobtney turned his head and ran out of the valley without hesitation, looking for a pile of stones hidden, and its location just guaranteed that Su Xiao was covered by the Goddess Halo.

Su Xiao is seven meters away from the ground, and the giant crocodile is staring at him.

There are now two options to kill this giant crocodile or escape.

It is not difficult to kill this giant crocodile. This giant crocodile must belong to the big BOSS in the wild. It is conservatively estimated that the skills are more than three.

Su Xiao rejected the idea of escaping.

He is going to set the world coordinates in the nest of the giant crocodile. At that time, the giant crocodile will suddenly go back, just as the Kara Xing people are besieging the contractors...

Thinking of that result, Su Xiao began to look at the giant crocodile.

This giant crocodile is thick and fleshy and must be prepared for a protracted war.

Looking around, the width of this col is only three meters, and big scale techniques aren't an option.

He decided to leave here first, and this giant crocodile will surely chase him.

Su Xiaoyi smashed the mountain wall and leaped to the distance. The moment of landing, he rushed to the front of the col.

piiiich!

The impact sound came from the rear. Su Xiao couldn't look back and guess what the sound was. When the giant crocodile was running, the long tail swayed around the wall.

This road was not long. Su Xiao rushed out in a dozen seconds and ran straight into a basin.

Rushing to the center of the basin, Su Xiao quickly looked around, surrounded by a ring of short hills, the center is flat.

Su Xiao stood on the ground,

The reason why he chose to face the giant crocodile is to be on the safe side.

There are many variants on the waste soil, and the sound of the battle attracts other mutant beasts.

Su Xiao rushed to the open space, and the giant crocodile followed. There was no emotion of hatred in his eyes, and they were just cold, killing intent.

Killing Su Xiao and eating him, this is the thinking of the giant crocodile, which is the common disease of cold-blooded animals. They were without feelings.

Su Xiao holds the dragon Flash, and Qing Gang Yan has already been activated. He stands with the giant crocodile.

“Roar!”

The blood of the giant crocodile is angry and screaming like a dinosaur.

Su Xiao moved sideways and slowly circled around the giant crocodile. The flat and slender body of the other side made it difficult to make a turn in place.

Su Xiao's footsteps are getting faster and faster, and the giant crocodile is turned to his dizzy head. Finally, after five turns, the giant crocodile begins to be impatient, four thick and powerful short legs on the muscles bulge, a foot on the ground, a cry Rush to Su Xiao.

The huge black shadows are coming in front of each other. The speed of the giant crocodile is not fast, but its bites were.

At the moment when the giant Crocodile came, Su Xiao's body was low as he moved sideways.

A stench smell rushed into his nose, as the giant crocodile took a bite and missed Su Xiao.

Passively taking a beating was never Su Xiao's style. The giant crocodile had just passed by with him. He had already clasped dragon Flash in his hands, and lifted the sword over his head and slashed.

The timing of this sword can be described as extremely accurate. Although it is not in the torso of the giant crocodile, it can be smashed on the tail of the giant crocodile.

This attack used Su Xiao's full force. The sharpness of Dragon Flash and the high-level sword mastery directly cut down the Crocodile's tail.

The giant crocodile made a pained groan as a third of its tail was cut.

The giant crocodile saw red and desperately rushed at Su Xiao.

Su Xiao lifted his foot and kicked the tail. The tail flew at the giant crocodile. Surprisingly, the giant crocodile bit its tail.

The blood splashed, the tail is bitten into two by the hard bite, and the fracture is uneven. It is not so much broken, and it is more like being cut off. what a terrible bite force.

With the giant crocodile biting the end of the gap, Su Xiao has rushed with his sword forward, the silver chain crossed in the air, and the long sword smashed on the carapace of the giant crocodile.

Hey.

The blood spurted out, Su Xiao's attack deeply cut into the flash of the giant crocodile, even if the giant crocodile is a BOSS-level creature, it cannot stop Su Xiao's attack.

With a sword inside its body, the giant crocodile screamed pain.

Su Xiao can't easily give up when he succeeds. He jumps up on the back of the giant crocodile. The long sword in his hand slashed continuously.

Puchi!

A large piece of blood spouted and sprinkled Su Xiao's body.

In just a few seconds, Su Xiao attacked dozen of times and reached the Crocodile's bones.

Su Xiao was riding the giant crocodile, and it was a bit aggressive at the time. It could not attack its own back.

Chapter 279

The crocodile's tail can only sway from side to side and cannot swing up and down.

This kind of opportunity, Su Xiao, will certainly not miss it. His right hand held the knife as he slashed. He even took out Broken Elf and shouted at it.

Just as Su Xiao was attacking all the time, he suddenly felt black in front of him, and a huge force came under him. The power hedging caused his whole body to be numb, and he felt like he was in the clouds.

Su Xiao flew up and glided over a dozen meters in the air.

Su Xiao looked up, and there was a ghost in front of him. The skeleton of the whole body seemed to be scattered at any time. The soreness and numbness came from all over the body.

‘Combat experience seventy-eight: crocodile can not ride, especially the huge crocodile.’

Remembering this in his heart, Su Xiao climbed up from the ground and took out a bottle of medicine that quickly restored 18% of his Hp. The pain in his body subsided.

Su Xiao was uncomfortable, and the giant crocodile was also uncomfortable. On the back, there were more than a dozen wounds, and the flesh was rolled over. The scales at the torso were dyed red.

Suddenly flying, Su Xiao was dazed for a bit. He hit his head when he fell, and that caused some blood to flow out.

Tick.

The blood of the brilliant red dripped on the scorched earth, and a mountain breeze blew. Su Xiao and the giant crocodile did not move, and both sides were adjusting their state.

The haze in front of the eyes gradually disappeared, and Su Xiao clearly felt that there was a big bag on his head that was gradually rising, and there was a growing trend.

This giant crocodile is stronger than he thought, and he must not take it lightly, or he will die here today.

Take out [Hawa's Eye (Green)], Su Xiao looked at the information of the giant crocodile.

[Comparing the intellectual property of both sides..., the comparison is completed, our intelligence is 2.33 times that of the enemy, and 100% of the enemy's information is obtained.]

The information is as follows:

Name: Mutant Giant Crocodile (Headman Bio)

Health: 65%

Mana: 0/120

Strength: 37

Agility: 26

Vitality: 39

Intelligence: 12

Charm: 3

Skill 1: Ancient creatures (passive): Health increased by 3000 points.

Skill 2: Hunting (passive): After the mutant giant crocodile enters the hunting state, there is a 90% chance to block the intellectual perception below 40 points.

Skill 3: Whiptail (active), the mutant giant crocodile picks up the tail and beats, causing damage to the enemy by x5 (the skill power is reduced by 40% due to tail damage)

Skill 4: Death rotation (active), the mutant giant crocodile will bite the prey and will rotate its body, causing power $\times 2$ damage per second, and have a 30% chance to make a bite determination, such as the bite assessment passed, the mutation giant The crocodile will bite off the prey.

.....

Su Xiao slowly approached the giant crocodile. The comprehensive ability of this giant crocodile is directly chasing the war behemoth. The two are different in size, and the giant crocodile is even more difficult.

If Su Xiao chooses, he must choose to deal with the war behemoth, instead of dealing with this giant crocodile.

The arbiter is not so good, the war behemoth has more than 200 contractors to deal with, and this giant crocodile, Su Xiao has to be singled out.

For this incident, Su Xiao has no complaints, high risks, and high returns. This is fair.

The benefits that the contractor has to get rid of the war behemoths are absolutely many, but that is more than 200 points, even those heads can not take up too much.

If Su Xiao kills this mutant giant crocodile, the benefits are his own, and the two are not comparable.

Su Xiao and the giant crocodile squatted for a minute or so, spit a few mouthfuls of blood, and the feeling of sorrow in the chest disappeared.

The giant crocodile also recovered almost, and the two sides approached each other in unison.

Only one side can leave alive from this basin today.

Ten meters, five meters.

Rushed to the front of the giant crocodile, the latter tried to bite Su Xiao.

At this time, Su Xiao came directly to a sudden stop, stopping in front of the giant crocodile, its bloody mouth is in front of him.

In the palm of his hand, a thumb-sized white 'bubble gum' appeared in his left hand.

Su Xiao throws it into the big crocodile mouth Without the need to aim.

After doing all this, Su Xiao escaped the bite of the giant crocodile, and stepped back, the mouth of the giant crocodile was big, it seemed a bit strange why Su Xiao did not continue fighting with it.

“Important business is really bad, burst!”

Boom!

A muffled sound came from the chest and abdomen of the giant crocodile. The belly of the giant crocodile suddenly swelled, and blood was sprayed from the nose and mouth.

The giant crocodile was standing in the same place, and the black blood was found in the mouth, and the fragments of the internal organs could be seen.

With a bang, the giant crocodile squatted on the ground, and the two sides of the line were intertwined, and the appearance was a bit funny.

Su Xiao did not take it seriously, did not receive a killing prompt; this low-level mistake he would not commit.

Take out the broken elf, Su Xiao is a few shots at the head of the giant crocodile.

Although his shooting is not very good, now it is five meters away, and it is a still target that was dying. If he didn't hit it, it would be too much, even for him.

Several blood flowers burst on the head of the giant crocodile, and the giant crocodile laid motionless on the ground, and the two vertical pupils began to lose the light they had.

With six shots in a row, the giant crocodile still didn't die.

Su Xiao was still not close, and took out the last alchemy bomb and threw it over.

Just as the alchemy bomb was thrown in the air, the pupils of the giant crocodile suddenly condensed, and the sloping upper and lower jaws re-arranged into a row. The giant crocodile was pretending to be dead.

boom.

The explosion rang through the basin, and several mutant beasts that smelled bloody smells ran away. They were very afraid of the explosion, which was bombarded by nuclear bombs.

A large piece of fire envelops the giant crocodile, and the impact of the explosion spreads around.

Su Xiao left his hand in front of him, and his eyes fixed on the fire in front of him.

Call ~.

When the wind broke, some of the scorching large bodies rushed out of the fire and were mutant giants.

At this time, the crocodile's jaw was blown up, the eyes were blown up, and the bones were exposed in many parts of the body.

Even so, this giant crocodile is still not dead, the physical attributes of 39 points is not a display.

The giant crocodile rushed to his face, and Su Xiao immediately wanted to retreat.

He just got ready to jump, and there was a sting in the calf. The previous injury recurred.

When the pain subsided, Su Xiao thought that the withdrawal was too late, and the giant crocodile had already rushed to Su Xiao, and he was a bite to his head.

This is the habitual action of the giant crocodile, but it seems to have forgotten what it is, its jaw has blown up, it has forever lost the ability to bite.

Su Xiao smiled coldly, and the accident just scared him.

The left hand wrapped around the red-red metal arm guards, directly grasping the upper scorpion of the giant crocodile.

Su Xiao directly attacked with Dragon Flash as he thrust it into its throat

The body of the giant crocodile was spasming as if it was ready to die, but it still didn't. He at most had 3,000 Hitpoints at most.

Chapter 280

Su Xiao grips the handle and uses the dragon to flash in the chest of the giant crocodile to stir up the various organs of the giant crocodile.

The giant crocodile suffered from pain on his side, as his tail turned to Su Xiao.

boom.

This tail was slammed at Su Xiao's waist, and he directly flew sideways.

Su Xiao slanted to the ground.

“Cough~.”

A large mouthful of blood was coughed up. Su Xiao ignored the pain in his body, and the pupils showed red light. His hand held dragon flash as he rushed forward and stabbed it into the mouth of the giant crocodile. His arm did not enter the throat of the giant crocodile.

Su Xiao held the head of the giant crocodile in one hand, and the other hand held the sword in the chest of the giant crocodile. If there were other people present, he would be scared to death by his fierceness.

Su Xiao, in battle, is desperate, not afraid of death, and all enemies have to die!

The extent of the struggle was reduced, and eventually, the body of the giant crocodile went soft.

[You killed the mutant giant crocodile.]

Upon receiving this prompt, Su Xiao released the head of the giant crocodile, and he slammed into the ground.

Just now, Bubutney used the ability to protect the Su Xiao. Otherwise, Su Xiao would have died.

Loyal Guardian (active): Bobtney consumes 50% of the mana, and restores 50% of the health of the master in three seconds. The cooldown is 48 hours.

Sitting on the ground and breathing for a while, Su Xiao looked up at the body of the giant crocodile, and there was no such thing as a treasure chest, but the back of the giant crocodile glowed purple.

[This is a warlord level creature, Hunter can take the reward himself.]

This is the first time Su Xiao encountered this kind of situation. He took the sword to the back of the giant crocodile and touched it.

Su Xiao's eyes turned strange.

“... This is a good thing.”

In spite of the physical pain, Su Xiao used the dragon to cut off the back of the giant crocodile and began to dismember it.

Two minutes later, Su Xiao, who was covered in crocodile blood, held a large piece of crocodile meat in his hand. The piece of meat had at least 20 pounds.

The crocodile meat has a clear stripe and a pale pink glow. Su Xiao looks at the properties of the piece of meat.

[variant giant crocodile meat]

Quality: purple

Type: Consumables.

Effect: After eating this piece of fine meat, the Vitality is permanently increased by +6, and the health value is permanently increased by 100 points.

Tip: This item cannot be sold, only the killer can eat it.

Grading: 150 (Note: Purple items are rated from 71 to 150.)

Description: The mutant giant crocodile is inedible in other places. Only this piece of fine meat is edible. In the human alliance, the meat of the mutant giant crocodile is the top luxury.

Note: The consumption of this meat is perfect and does not cause genetic side effects.

Tip: The gastrointestinal function of the consumer must be excellent.

.....

Looking at the big piece of crocodile meat in his hand, Su Xiao is a bit stunned, and happiness came suddenly, which is more valuable than getting a piece of 150-point purple equipment.

Let's not talk about the 6 points of physical attributes; the 100 points of life alone is mouth-watering.

Su Xiao's attack ability is strong, but his bare body has only 12 Vitality attributes, which means his resistance and endurance are not strong.

A detailed look at the properties of the "variant giant crocodile meat", and repeatedly confirmed that no problem, Su Xiao couldn't help smiling.

At the end of the battle, Bobtney ran to Su Xiao and squatted on the ground, indicating that Su Xiao was riding on its back. Bob found that Su Xiao could not hold on.

Bobtney is wearing a small saddle behind him. This was custom made in the reincarnation paradise. It is very tiring to ride on Bobtney's back for a long time without this thing.

Su Xiao put the [variant giant crocodile meat] into the inventory, he needed to leave quickly as the smell of blood was too strong, he directly jumped on Bob's back

Bob directly ran into the Crocodile's cave, it was the safest place, and other beasts won't go there.

Su Xiao was very weak. Although his health has recovered a lot, the injury is still serious, and this fight with the giant crocodile made him consume a lot of Stamina.

Coming to the semi-open cave, Su Xiao took off the blood-stained clothes and stored them. He took out a few buckets of water and began to wash the blood.

When Su Xiao flushed his body, Bobtney also came over and rinsed Su Xiao's waist with water.

Handling the wound, wrapping some medical bandages, Su Xiao put on a new piece of clothing.

The wound is still faint, but with the halo from Bob, he would recover fast.

Su Xiao took out [variant giant crocodile meat], how to eat this thing? Eat raw meat?

After asking about the reincarnation park, Su Xiao dispelled this barbaric thought and could eat it with a little baking, but could not add any spices.

Raising a pile of fire, Su Xiao baked crocodile meat near the giant crocodile nest.

The fleshy fragrance drifted away, and Su Xiao's vigilant observations were around.

After roasting the giant crocodile meat, Su Xiao treated the traces he had come and took the barbecue to the giant crocodile nest in the distance. The taste of the barbecue would soon lead to the mutant beast, or it would not be wonderful.

When he came to the nest of the giant crocodile, Su Xiao sat on the rock wall and cut off the meat in his hand. After eating it, he could achieve the best effect, and he could not eat more.

Throw the remaining ten pounds to Bobtney, and I don't know if it will increase the property if it is eaten.

In the introduction, the killer is effective, and Bubtni is his follower. It also played a role in the battle and should have an effect.

Su Xiao ate the crocodile meat. This thing has no taste. The meat is too thick, not cooked well, and the taste isn't good.

After eating a large piece of meat in his hand, Su Xiao closed his eyes and laid against the rock wall, his stomach heated a little, and the warmth gradually spread around his body.

Su Xiao is like a bubble in the hot spring, his whole body is warm and warm, he is even a little sleepy, and Bobtney is at the foot of Su Xiao, and he is also a happy expression.

In this comfortable and strong, the time passed quickly, and it took more than forty minutes.

The feeling of warmth disappeared, Su Xiao's eyes opened, and a bunch of unchecked tips appeared.

[Your Vitality increased permanently by 1.]

[Your Hp is increased permanently by 16.]

[Your Vitality increased permanently by 2.]

[Your Hp increased permanently by 29.]

.....

.....

A dense line of tips, Su Xiao, calculated a bit, he had increased the physical strength of 6 points and 102 points of life, slightly different from the introduction, after all, each person's physique is different.

Deeply took a breath, Su Xiao clearly felt the increase in lung capacity, the previous feeling of general weakness was gone, it was refreshing.

The feeling of increasing physical strength is far better than that when the attributes such as strength increase. After all, Vitality attributes represent Stamina, endurance, and health.

Su Xiao looks at the Vitality attributes, and now it has become 20 points.

Although the Vitality attributes are lower than other attributes, Su Xiao's survivability is greatly improved.

He suddenly found one thing, except for the charm attribute, all his attributes are very high.

Although it is a balanced development, his development speed is not slow, this is a good thing, as for the charm attribute, He will not consider it for the time being, and the simultaneous development of the four attributes is his limit.

Su Xiao got up and prepared to arrange the world coordinates, but his stomach suddenly came with colic, and his face was black.

Oh~.

Su Xiao bent over the cave and rushed out of the cave. Bubby looked at Su Xiao inexplicably.

After two seconds...

Bubby's dog's face was tight, and he ran to the cave with his tail.

After he hadn't run far, Su Xiao couldn't hold on. After choosing 'internal emissions' and looked for a location nearby.

Half an hour later, Su Xiao returned to the cave, and his face was a little blue. He remembered the sentence on the introduction of the variant giant crocodile meat: 'The gastrointestinal function of the consumer must be excellent. '

Fortunately, it is only diarrhea once, and it is a detoxification phenomenon, which is very beneficial to the body.

Su Xiao came inside the cave and took out the arrangement of world coordinates from the savings space.

This is an iron column with a long arm. The bowl is thick and covered with blue stripes. It is very technical.

Putting the 'World Coordinate Layout Device' on the ground, the thing gradually sinks into the ground and disappears, and the countdown appears.

[The coordinate arrangement succeeds in 12 hours remaining.]

[The contractor has completed the first coordinate guard, they are already on the way to the second coordinate, is expected to arrive in 10 minutes later.]

Su Xiao left the cave and waited at the top of the mountain where the cave was.

About ten minutes later, more than 200 contractors arrived, aiming at the cave, but at this moment, an angry and roar came.

"I am jealous, and I stepped on the vomit, who did it, damn mutant beast!"

After a dozen seconds, it was another roar.

"Hey, I also stepped on it. It's a big pool of vomit ~."

The big one is Bob's~.
