

R. Paradise 291

Chapter 291: The Origin of The Shadow of the Law

The Scroll turned into light particles and entered his head from between his brows.

Su Xiao felt that his head was splitting apart as he roared and suddenly lost consciousness.

Light gradually appeared in his sight again as he saw a sword floating beside him.

This sword was golden in color.

‘The way of the sword is to kill, the hard is firm and will is unbreakable.’

An old voice came into his ears, and Su Xiao saw something hazy.

Su Xiao saw a figure dancing in front of an old tree, while the four seasons passed.

Su Xiao worked hard to see the face of that figure. After a long time, the face of that figure became clearer and clearer.

It turned out to be himself.

Su Xiao’s eyes opened suddenly, he was sitting on the bed cross-legged, and Dragon Flash was in his hand without him knowing.

“It turned out that sword techniques were so endless.”

Su Xiao’s understanding of the sword technique was very different.

Su Xiao looks at the sword’s ability.

Skill effect: Increase the attack power of sword weapons by 45%, and greatly improve sword-based skills.

Lv.10 additional capabilities

The rhythm of All things: This ability cannot be strengthened in the reincarnation paradise, but can only be realized by the hunter himself.

.....

The original Sword specialization Lv.14 became the Sword Mastery Lv.10. Although the level dropped by four levels, the increase in attack power increased by 5%, which means that the potential of the Sword Mastery is much higher than that of the Sword Master Too much precision.

The rhythm of all things has also been enhanced, growing from the original intermediate to advance.

He felt different as he waved Dragon Flash. He felt that he can do much more with the sword now.

Picking up the pillow next to him, Su Xiao threw it in the air and chopped it up.

The blade edged across the pillow, leaving a silver chain in the air.

The pillow fell to the floor and was intact.

Su Xiao didn't will the sword to cut open the pillow. So as he cut the pillow without any intent to cut it, it wasn't cut and stayed intact.

He can cut anything or nothing whenever he wants.

No matter how sharp Cut Dragon Flash is, as long as Su Xiao doesn't want to cut that thing, Dragon Flash cannot cut it.

Dragon Flash was his weapon, just a weapon, so Su Xiao can decide what to cut and what not to.

Now that Su Xiao's sword technique was upgraded to sword mastery, it gave him further possibilities as he can get stronger in the future.

As long as the swordmaster is continuously strengthened, Su Xiao believes that he can stand shoulder to shoulder with Hawkeye and others even stronger than him.

Holding the long sword in front of him, Su Xiao smiled. His sword technique finally reached the next realm, and he can cut metal as if he was cutting paper.

Dragon flash moved through the air as if it was an extension of Su Xiao's arm.

Put away the long sword, Su Xiao has other things to do. He stays in the reincarnation Paradise for five days, which is a reward after the victory in the war.

Su Xiao picked up the Soul Crystal. In order to unlock the new ability of the shadow of the law, which required a Soul Crystal Medium + 5000 Paradise Coins.

Choosing to unlock it, Su Xiao spent a moment before he was teleported.

This made Su Xiao very puzzled. Why was he teleported to unlock a skill? What's happening here.

Looking around, it's vaguely familiar here, and he seems to have been here before.

This is a majestic hall. The hall has been around for a long time. There is a run-down area around it. There are six piles of rubble in the hall.

The more Su Xiao looked around, the more familiar he felt, as he tried hard to remember.

Suddenly, he thought of something. This place seemed to be the hall where he inherited the shadow of the law. Before this place was very majestic and neat, how could it be so ruined now?

He vaguely guessed a possibility. What he saw in the previous inheritance might be a fantasy. Now, this is what the hall looks like.

Oh.

One of the six piles of rubble was scattered, and a blue human figure floated out.

"Heir, you finally grew up, although not strong enough, but barely able to bear the inspiration."

Blue ghost said,

The Voice was loud. The figure in front of him held a wide-bladed sword, it was long, and although it was just a projection if he guessed right, it still looked very good, Su Xiao couldn't help feeling that he wanted to use the devour ability in his sword on it.

“Who are you?”

Although Su Xiao didn't feel the danger, he did not move forward because he was cautious.

“Hey ~, all of us, the Shadow of law before you, looked like this before. When we saw everyone, we felt that the other party was an enemy, and we were cautious of them.

As for who I am ... uh ~, I'm your master, I'm in good shape, I've perfected that ability once. “

The blue ghost chuckled slightly.

Su Xiao is the inheritor of the shadow of the low. Otherwise, the other party would not have such a good attitude.

Thinking of his physic, Su Xiao thought of a name, Marvin Waltz.

“Are you Marvin Waltz?”

Su Xiao asked tentatively.

“Well, you actually know my name, a good inheritor, respecting your teacher ...”

“Cough.” Su Xiao coughed gently and said, “Your name is written on the introduction to the Devil's physic.”

Marvin Waltz's face froze.

“I wrote that I am also your master ...”

Marvin Waltz gazed at Su Xiao, Su Xiao's scalp tingling for a while, this guy's strength during his lifetime must be terrifying.

As for why Su Xiao knew that the other party was dead ... Six stone statues were said to have been passed down, he still vaguely remembered.

“Shadow of the law ...”

Su Xiao made a sound.

“What the hell do we have against mages.”

This is what Su Xiao has been curious about.

“Oh, that? Because every mage will destroy the structure of the world every time he casts a spell, although it is very small, it does happen. In the past, we were known as the saint of rules.”

Marvin Waltz may think of those mages who explore the world with their mouths but are actually destroying the world. Mages can do anything for curiosity, just like a crazy scientist.

“Our lineage has been around for a long time. I don't remember just how long has it been when my master appeared.

At first, the mages were the one who chased us and wanted to kill us, later we became the ones hunting them. You could say we were enemies for a long time.”

The words of Marvin Waltz surprised Su Xiao.

“Don’t look at me like this. Now I am a pure energy body. I understand most of the world’s culture. This kind of wording is to make it easier for you to understand.

When I’m bored, I appreciate the film and television works of the earth, you earth people are geniuses in this regard. ”

Marvin Waltz was a murderous man before his death, but he became a little funny after death?

Su Xiao looked at Marvin Waltz dully, and he couldn’t connect the person in front of him with a sharp-breaker with a sharp blade.

Su Xiao has other questions, and now he finally sees other shadows of the law. He needs to ask.

“I understand that the ability of the Shadow of the law is to deal with the mage. How can such a powerful profession be almost extinct, and now I am the only one left.”

Marvin Waltz sighed at Su Xiao’s inquiry.

“Because we have a few people.”

“few people?”

“Yes, the qualifications needed to become a mage cannot be compared with the shadow of the law. The mage is too many to kill all of them. In the end, the six of us were besieged and killed.

Su Xiao nodded and continued to ask, “How many mages were besieging you.”

He wanted to ask how strong the shadow of the law, which had something to do with his future.

“How many enemies, I think ...”

Marvin Waltz thought.

“Probably ... tens of thousands. In the beginning, thousands of forbidden spells were bombed down. We killed about 30,000 or 40,000 mages. In the end, we were really powerless to fight again and were killed by the forbidden spell.”

Su Xiao is a little sluggish. These six shadows of the law ... seem... very strong!

Chapter 292

“Gossiping for so long is time-consuming, and we don’t have that, we should start now.”

Marvin Waltz floated in front of Su Xiao.

“You are fortunate. Unlike us, those who were born in troubled times, you have a terrifying backer, so be strong, let those mages recall the fear they once had, those who hide in the mage tower. Shivering scum. “

Marvin Waltz laughed.

“I ask you what the most important thing to kill a mage is.”

Marvin Waltz looked at Su Xiao squarely.

“Speed?”

“No, it is survivability. If you are not tenacious enough, you will be besieged to death sooner or later. Your current attack ability is far beyond survivability. This development direction is wrong, but this problem can be solved immediately.”

Marvin Waltz pointed at Su Xiao’s forehead, the blue light on his body dimmed.

“I’m your master, that is, your authentic teacher. You don’t need to call me a master. You have to remember that whenever you face a mage, you should take him down, and whenever one is arrogant, you should kick them in the face and ask them again if they would be arrogant in the future, if they said they won’t, kill them. “

Su Xiao frowned, and just wanted to speak, but suddenly felt the power of transmission appeared.

“Remember, balance is important, and don’t allow too much deviation in your body.”

Marvin Waltz’s voice echoed in his ears, and Su Xiao was teleported back to the exclusive room.

In the ruined hall, Marvin Waltz looked around.

“Here ... there are too many memories left. It is best to help you get inspiration here. Hey, I forgot to tell him that it is painful.”

Marvin Waltz gave a long sigh but smiled suddenly at the corner of his mouth.

“How many soul stones did my student use? The soul is so strong that he won’t eat that kind of luxury, hey ~, having a backer is good.”

Marvin Waltz looked as Su Xiao’s left.

“The shadow of the law is not as simple as you think. Your qualifications are better than mine. Maybe in the future, there will be a one percent chance to carry that ability and destroy the ability of all realms!”

Marvin Waltz’s figure gradually disappeared, and the silence was restored in the ruined hall.

This hall in the void was once glorious. For the place to look like that, it seems mages used many forbidden spells to bring such destruction.

...

Su Xiao returned to the exclusive room. As soon as his consciousness returned, he found that the mana in his body was violent.

“This is ...”

Without waiting for Su Xiao to understand what was going on, a sharp pain came from all over his body. He fell to the ground in an instant, and his body kept shaking.

His pure mana began to merge into his blood, muscles, and bones.

After discovering Su Xiao’s anomaly, Bobtney started running across the sofa and hurried around Su Xiao anxiously.

The pain made Su Xiao dizzy, and in the end, he almost fainted.

He had never experienced such a severe pain before, and it was deep into his bone marrow and cells.

Half an hour later, Su Xiao collapsed softly and sweat-soaked his clothes.

“What kind of ability needs for me to feel so much pain.”

Su Xiao gasped, and the acute pain in his body subsided quickly. At the same time, he immediately felt abnormal, and his body showed amazing changes. A refreshing sensation filled him, and his body seemed much stronger in some way.

After carefully perceiving his body, Su Xiao found something. Before, his mana was stored in his brain, but now his mana has disappeared from his brain and was fused into his body.

The most fused in his blood, and some in his muscles and bones.

Attempting to mobilize the mana, Su Xiao suddenly found it easier than before and much faster.

Su Xiao took out Dragon Flash, Activating Qing Gang Ying, it was activated in an instant without the usual gap.

Su Xiao looks at the skill list. He wants to see what was the skill he unlocked.

Skill six

Shadow Spirit Constitution

Skill Effect 1: ‘Shadow Spirit Constitution’ is the core constitution of the Shadow of the law.

The mana which is saved in the brain supplement is scattered throughout the body and fused with the body because the mana of the Shadow of the law is extremely pure and can be perfectly integrated with the body, making it a skill for unique to the Shadow of the law inheritor.

Skill effect 2: With the mana merging with the body, the Hp of the body is greatly increased, Hp increased by 30%.

Note: The existing mana points are 753, and the Hp is increased by 226 points. This will continue even after the mana grows. The more mana you got, the more Hp you will have.

...

Su Xiao understood Marvin Waltz's meaning just now. It is the key to survive. It is not enough to have the ability to attack.

Seeing the effect of the "Shadow Spirit Constitution," Su Xiao was overjoyed.

And this ability will continue to grow. The higher the value of Su Xiao's mana, the more health he has, and the more resistant he is.

Increasing 100 mana is equivalent to increasing the Hp derived from 3 to 4 Vitality points.

Su Xiao probably understood why the reincarnation paradise thought that the shadow of the law was the most suitable profession for him.

Not because Qing Gang Ying will consume a lot of mana; in fact, Su Xiao's mana is idle most of the time. Increasing the mana won't increase his strength directly.

But now, the mana has been fully integrated into his body, and increasing the mana is equivalent to increasing the survivability.

The shadow of the law only showed its power in the early stage, but the more suitable it was for Su Xiao in the later stage.

Looking at the list of skills of the Shadow of the law, Su Xiao is more certain of this idea.

Skill 1: Qing Gang Ying Lv.9.

Skill 2: Sword Master Lv.10.

Skill three: Devil's physique.

Skill 4: Mind's Eye Lv.10

Skill five: Extreme Blade.

Skill six: Shadow Spirit Constitution.

Special Skill: Meditation Lv.1.

...

Su Xiao has seven skills. Only two of them were active skills. Only The Qing Gang Ying is activated during battles. The others are used to strengthen his body.

He doesn't have flashy skills, but each Sword attack adds these passive skills.

Compared to learning various flashy skills, Su Xiao is more interested in enhancing his power. His development method is stronger and stronger in the later stage, and each knife can be comparable to the skills of the enemy.

Even now, Su Xiao's slashing power is much stronger than other contractors at the same level. Perhaps his thrust damage can be comparable to other people's super attack. This is the benefit of passive skills.

Su Xiao is ready to continue on this road. One person and one sword are enough. No fancy ability is comparable to cutting off the enemy's head with one attack.

Su Xiao's development is becoming more and more balanced. This is due to the situation. He is a lone wolf and has several abilities that must be strong.

Attack power, survivability, speed, and all range capabilities.

Mastering the Shadow spirit constitution, Su Xiao is, even more, looking forward to the follow-up skills of the shadow of the law.

If he wants to continue to learn the ability of the shadow of the law, he needs his three main attributes to reach 50 points, and soul crystal $\times 10$.

This requirement is terrifying, but the power of the 'Shadow Spirit constitution' is obvious to all.

With the improvement of his skills, Su Xiao now feels strong, as he has become a lot stronger than before. If he meets Esdeath again, he has a high chance of winning.

Su Xiao took out a skill scroll: purple scroll, rate 120.

If he can't learn this skill, he will simply sell it, and then he will use the paradise coins to strengthen his equipment.

This scroll will definitely reach a high price in the trading market.

Chapter 293: Surprise

Su Xiao's attributes and abilities were enhanced. He was going to sell the [Spirit Shock] scroll in the market.

Although this scroll is not perfect, and it is risky to use, it is very powerful. Su Xiao personally experienced its effects.

"Bob, let's go ..."

Su Xiao was about to step out of the exclusive room, but he suddenly froze.

In the living room, a pile of cotton was scattered on the ground, and a big hole was bitten out of the sofa. Bobtney had disappeared.

Looking closely, a dog head appears in the center of the sofa!

This is the first time that Bobtney pierced a hole in the sofa, then drilled into it. His head was out while his body stayed inside.

At 15 o'clock, the sofa was sacrificed, Su Xiao did not reprimand Bobtney.

"It seems like I need more dumbbells."

Pushing Bob, who was reluctant to leave, out of the sofa, they both left the space.

Bobtney's Stamina was large, and it may be a bit boring in the exclusive room.

Before heading to the trading market, Su Xiao went to a shop opened by workers, which sells rations for various animals.

There are many summoning professions in the reincarnation paradise. If those summoning beasts are too hungry, and the charm of the contractor is not high, the beasts would bite their summoners, so it is important to carry 'rations' with them.

Although Bobtney won't bite his master, it is not worthy to sacrifice things each day. Today the sofa was sacrificed. Tomorrow may be the bed.

Upon entering the store, a female worker in a white coat greeted him.

"Guest, do you need anything."

The female worker was holding an orange cat in her arms. The orange cat was a bit fat, and Su Xiao suspected it to be a pig.

"Do you have any food that is more resistant to bites, like bones?"

After hearing Su Xiao's inquiries, the orange cat in the hands of the female worker looked at Bob's appearance and smiled confidently.

"Guests' dogs have the habit of destroying furniture, and I think I have another solution."

"Another solution?"

The female worker smiled at Bob, and the latter shuddered.

"sterilization."

"Wuu ~!"

Bobtney screamed, his two hind legs clamped, as he backed up in strange little broken steps. Obviously, Bobtney didn't want to lose his eggs.

"what."

Su Xiao was surprised to look at the female workers and then looked at Bob.

"Good Idea."

Su Xiao smiled at Bobtney, and Bob panicked.

"Then ..."

The female worker hasn't finished speaking, but Bobtney ran away. Su Xiao didn't stop him, and he was just scaring him.

"This....."

"You have bones for sale here."

"some."

"I need ten pounds, the best kind."

Of course, Su Xiao wouldn't let Bobtney lose his eggs. He just scared the dog now and to make him avoid going to the furniture in the future.

It cost 100 paradise coins to buy a pile of cooked bones. These bones have a lot of meat, which has been roasted and dried. It is the favorite food for dogs.

When walking out of the shop, Su Xiao found Bob waiting for him at the door. Even if he was scared, he didn't run far. His dog's head was drooping as he looked listless.

“then.”

Su Xiao tossed up a Bone, and Bob directly ran up three meters high, pinched the bone precisely, and ran to Su Xiao while shaking his tail happily.

Only then did Bobtney know that he wouldn't lose his eggs. Coming to the trading market, there are obviously more contractors here. The contractor has just returned from the derivative world. After the war ended, the Reincarnation paradise adjusted the time for the Contractors to return from other worlds to match the ones returning from the war.

Su Xiao used 10 paradise Coins to use a stall in the market temporarily.

Su Xiao took out the [Spirit Shock] skill scroll, looked at the scroll attributes, and fell into deep thought.

[Spiritual shock]

Quality: Purple

Type: Skill Scroll.

Learning conditions: 30 points of intelligence, 10 points of physical strength (due to the constitution, hunters cannot learn this skill).

Effect: After three seconds, a strong mental shock is released, which will cause a deterrent effect on enemies within 10 meters radius and cause intelligence × 5 damage.

Tip: This skill has a cooldown of one hour.

Tip: Each use of mental shock consumes 200 mana.

Rating: 120 (Note: Purple items are rated from 71 to 150.)

Introduction: This is the secret technique of the Kara Natives. You need to be very careful when using mental shock. Improper use will cause serious brain damage.

...

The power of mental shock cannot be underestimated, but the mana that would be consumed is large. After hesitating for a while, Su Xiao put the [spiritual shock] for 100,000 Paradise Coins.

The reason is simple. Although it is a purple scroll, it has some disadvantages for its uses and a very harsh requirement to learn it.

The 30-point of Intelligence would dismiss most of the contractors, and the consumption of 200 mana is even more serious. Only a few contractors can buy this thing. Su Xiao intends to sell this thing as soon as possible.

The purple light flowed on the shaft of the spirit shock and soon attracted many contractors.

“Purple scroll! Hurry up and inform the boss.”

“Friend, how about 70,000 Paradise Coins, the cost of this skill is too high.”

“It turns out that the items above the blue quality are purple, good to know.”

The more contractors gather the more bargainers appeared, the more people ask about the source of this skill, as the Spirit Shock Scroll has no place of origin.

After sitting at the booth, Su Xiao remained silent. He would never shoot below 100,000 yuan. If it wasn't for the high requirement, he would directly set the price to 150,000.

The stall was quickly surrounded by contractors who had just returned from the derivative world. They had a good amount of Paradise Coins right now.

Half an hour later, a contractor bid 90,000. There is still a gap between psychological expectations and prices.

After these contractors had been around for two hours, the crowd gradually dispersed. After all, they didn't want to wait too long.

Finding the surrounding contractor dispersed, Su Xiao put away the scroll and looked at the remaining paradise coins, which weren't exactly that much.

He had 13023 paradise coins before. It took a lot to heal his injuries. It also costs more than half to upgrade the skills of the shadow of the law, and now only 1900 are left.

His mana has been restored to a total of 753 points. He is going to start manufacturing [Intermediate Alchemy Bomb] to sell them.

[Intermediate Alchemy Bomb] The material requires 100 Paradise Coins, which cost 30 Mana for each production. Because he didn't have the Paradise Coins needed, Su Xiao can make up to 19 pieces. After selling some, he can continue making them again.

The light flashed in his hands, and the [Intermediate Spiritual Bombs] spawned in Su Xiao's hands.

For some reason, it is much easier for him to make the [Intermediate Alchemy Bomb] today. In the past, it took about two minutes to make one. Today it only took about 40 seconds.

Soon, 19 [Intermediate Alchemy Bombs] appeared in his hands, and Su Xiao felt strangely good. This feeling of manipulating the mana was very refreshing.

It's like Su Xiao used to drive a van. After possessing the Shadow Spirit Constitution, the van was directly upgraded to a Bugatti Veyron.

Holding 19 [Intermediate Alchemy Bombs] in his hands, Su Xiao was surprised to find that the size of the [Intermediate Alchemy Bombs] has shrunk a lot, from the thickness of the thumb to the thickness of a little finger, and about two centimeters in length.

Looking at the specific attributes, the explosion range of the [Intermediate Alchemy Bomb] has been increased from 5 meters to 6 meters, and the explosion damage has been increased from 90 to 100.

[Intermediate Alchemy Bomb] improved along with his comprehension of mana, it became more portable, and its range and power both increased, which must be related to Su Xiao's special mana value.

Chapter 294: I Don't Believe I

The price of [Intermediate Alchemy Bombs] is 400 Paradise Coins, and today's [Intermediate Alchemy Bombs] is definitely worth the price.

The purple scroll [spirit shock] is very eye-catching. After the contractors were attracted to it, they found that the price was high, and they cannot afford it.

When these contractors were about to leave, they suddenly discovered that there was also an alchemy bomb on the booth. This alchemy bomb was extremely small and good.

Within an hour, 19 [Intermediate Spiritual Bombs] were sold out, and Su Xiao received 7,600 paradise coins With a net profit of 5,700 paradise coins.

He made another 6 [Intermediate Alchemy Bombss], and he didn't sell them as he reserved them for his own use.

See the list of skills in 'Alchemy'.

[Alchemy bomb manufacturing: Lv.3 (Proficiency 36/50)]

It will take 15 [Intermediate Alchemy Bombs] to reach the next level. Su Xiao guessed that after the upgrade of Alchemy bomb manufacturing from Lv.3 to Lv.4, there would be new formulas.

Although he was curious about what the new formula was, he now had only 3 mana left and couldn't any more bombs.

Su Xiao breathed a sigh of relief. Suddenly, the prompt of a reincarnation paradise appeared.

[Spirit Shock Scroll sold successfully, you got 100,000 Paradise Coins.]

Su Xiao Yi looked up and found a man in a black robe and black hood who bought the Psychic Shock Scroll and even bought it without bargaining.

Looking at the back of the hooded man, Su Xiao frowned, and the other side gave him a very uncomfortable feeling, a natural disgust.

“Dark mage.”

The Shadow of the Law hated mages, but what they hate the most were dark mages.

Many disasters were caused by the Dark Mages, and even though they won't destroy the structure of the world, they would destroy the world itself with their magic.

Of course, this has nothing to do with Su Xiao. He just disliked the guy because he was the inheritor of the Shadow of the law, he wouldn't just go and kill him.

“So ... equipment enhancement hall, here I come.”

Su Xiao got up with numb legs. He sat here for a long time.

Taking a deep breath, Su Xiao went to the equipment enhancement hall as if he was going to his death, which made many looks at Su Xiao with amazement.

His pace came steadily to the door of the Equipment Enhancement Hall. The derivative world had just ended, and there were many contractors entering and leaving this place.

Some people were red from anger, some were grumpy, and some were gritting their teeth.

There are more messages at the door.

'60 thousand paradise coins for + 5 blue equipment. '

'I failed 7 times! Ready to die in the next world! '

'If God gives me another chance, I will definitely choose to do it again. '

A large number of messages were written on the ground at the door. Su Xiao mourned for a few seconds for the one who failed in getting +7 equipment, He did not want to be in his place, or so he hoped.

Entering the equipment enhancement hall, with an area of several thousand square meters. The hall is golden and brilliant, and its ground is bright and flat, even showing Su Xiao's reflection.

A precision machine is placed beside the wall, and these machines are embedded in the wall.

There are many contractors in the equipment enhancing hall. Most of them are staring at the machine in front of them.

Moving to the corner, Su Xiao stood in front of a machine as if it was an enemy, and pressed his hand on the screen.

[Welcome, the No. 233 equipment strengthening machine, users have 107600 Paradise coins, please place the equipment that needs strengthening.]

Taking out his equipment, they were respectively:

Dragon Flash +5 (purple) primary weapon

Broken Elf (green) secondary weapon.

Mikasa's Heart (Blue) Necklace

Mithril Ring (Purple) Ring

Bull Head Arm Guard (Purple)

Destiny Redemption +7 (Blue) Decoration

Eye of Hawa (green) detection class

...

There are four items that need strengthening.

They are Dragon Flash +5, Broken Elf, Mikasa's heart, and the Mithril Ring.

Su Xiao is not ready to strengthen Destiny Redemption +7, and He would die if it failed. As for the eyes of Hawa, there is no value in strengthening it.

First of all, take out [Mikasa's heart] and place it on the tray of the strengthening machine.

[Mikasa's Mind]'s core skill is shield, Shield (active): quickly generate an invisible shield to resist attacks, the shield durability is equivalent to 70% of the holder's maximum HP, and its lasts 10 seconds.

Tip: It takes 10% of the mana to activate the shield.

Tip: Shield cooldown is 24 hours.

[Equipment review ..., the review is completed, and the cost of each enhancement is 3200 paradise coins.]

Su Xiao's eyes jumped, it was more expensive than when Dragon Flash was Blue quality.

“Start the Enhancement.”

[Enhancement starts, please wait five minutes,]

Rumble ...

The equipment-enhancing machine was operating with a loud sound. From time to time, an electric noise erupted.

Five minutes passed quickly, and the equipment strengthening machine gradually stopped working.

A hot stream of steam was released from the machine.

[Mikasa's heart +1 strengthened successfully, continue the strengthening yes / no]

Su Xiao chose to continue, at least it needs to strengthen +5 to have obvious changes.

The equipment strengthening machine continued to run, and another five minutes later, a steam burst.

[Mikasa's mind +2 fails, the previous enhancement disappeared, continue to strengthening. yes / no]

Su Xiao was felt numb, +1 to +2 failed again. He had this kind of experience before.

“Brother, What luck you have there.”

When he looked behind him, he found a strong-looking man that looked like Li Kui, the Black Whirlwind.

“Oh, this is normal.”

Su Xiao experienced this before, and in his view, this is normal.

“... normal?”

“Is that not normal?”

Su Xiao stared at the eyebrows in front of him.

“You luck, this piece of equipment can be strengthened to +5, and I will eat Feces on the spot.” Said the browed man as a joke, very optimistic about Su Xiao.

Su Xiao stopped talking and chose to continue strengthening.

[Mikasa’s heart +1 success.]

[Mikasa’s heart +2 success.]

[Mikasa’s heart +3 success.]

[Mikasa’s heart +4 success.]

[Mikasa’s heart +5 success!]

Success five times in a row, exactly the same as before when strengthened the lucky flames.

“[...]” exclaimed voice came from behind.

Su Xiao looked sideways, the eyebrowed guy’s eyes widened as he looked very funny.

He laughed aloud.

“Good, you can eat the feces now ~.” A contractor who looked excited at this said.

The expression on the eyebrowed guy was not very good, and after hesitating for a few seconds, he started to unfasten his belt, and those around him were shocked.

“Hey, Mad Cow, what are you doing?”

A frowning friend quickly stopped him. There were three people in total.

“Mad cow there said it. I didn’t.”

Mad cow struggled hard, his face flushed, and looking at his posture, he was really ready to eat, and it was the kind of “self-produced and sold”.

Several friends of the Mad Cow smiled apologetically at Su Xiao, pulling hard and pulling the Mad Cow out of the equipment enhancement hall.

Although Mad Cow’s behavior is ridiculous, he was a man who acts on what he said.

Chapter 295: From Today on, You can call Me the Luck Emperor

Su Xiao took out [Mikasa’s heart +5] from the equipment strengthening machine. +5 is enough. It is not worth the risk.

The skill effect of Mikasa’s heart should increase as it reached +5.

Shield (active): Quickly form an invisible shield, the shield durability is equivalent to 80% of the holder's maximum HP (+5 increase effect by 10%), and the shield can last for 30 seconds (+5 Increase the duration by 20 seconds).

Tip: It takes 13% of mana to activate the shield. (+5 increase mana consumption by 3%)

Tip: Shield cooldown is 10 hours. (+5 decrease cooldown by 14 hours)

...

Mikasa's heart ability, Shield, increased significantly as it reached +5. Su Xiao directly removed it from the machine and put Broken Elf inside.

[Equipment scan ..., the scan is completed. The cost of each enhancement is 1200 Paradise Coins.]

Su Xiao chose to enhance it again.

He was surrounded by several contractors who wanted to see if the enhancement is successful, but they couldn't see the item's information.

[Broken Elf +1 success.]

[Broken Elf + 2 succeeds.]

[Broken Elf +3 fails.]

...

The paradise coins were used as if they were stone by the side of the road, after ten times, The broken elf was successfully strengthened to +5, and the accompanying skills also changed.

Equipment effect: Gaze fire (active), After activating, you need to stare at the enemy for 3 seconds (+5 reduced the time by 2 seconds). During this time, the user's movement speed is reduced by 50%. After 3 seconds, six bullets are shot with quick succession. If all six bullets hit the enemy, the damage is increased by 40%.

Tip: After the 3 seconds of staring at the enemy, the latter will be locked, and the bullet will track him.

Tip: Gaze fire costs 50 mana.

Tip: Gaze fire (active) cooldown is 12 hours (+5 reduces cooldown by 12 hours).

...

The time required to stare at an enemy is significantly reduced, and the additional effect of is good, the 12000 Paradise coins used weren't gone in vain.

At present, only the [Mithril Ring] and [The Dragon Flash] are not enhanced.

You can see the purple quality of the Mithril Ring. He did not put the Mithril Ring in the equipment strengthening machine but first put the Dragon Flash into it.

[Equipment Scan ..., the scan is completed. The cost of each enhancement is 12,000 Paradise Coins.]

Su Xiao took a deep breath of cool air. Each time he wanted to strengthen the Dragon Flash, it would cost him 12,000 Paradise Coins.

Now that he has 73,200 paradise coins left, it seems that [Mithril Rings] cannot be strengthened for the time being, as the skills attached to [Mithril Rings] are not urgently needed to be strengthened.

Sacred Heart (Passive) + 10% skill cooldown reduction.

Equipment effect: Mithril Burns (active). Use this skill to release the control effect on the wearer. (the user of the Control skills must have below 35 intelligence for it to take effect)

Tip: Mithril burns (active), consumes 100 mana.

Tip: Mithril burns (active) cooldown: 18 hours.

...

The role of the Mithril Ring is used against control skills. The gain from this ability enhancement won't be that great.

Made up his mind, Su Xiao wore all the items back, but only the Dragon Flash was not strengthened as for the [Mithril Ring] He will not strengthen it for a short time.

Now that Dragon Flash is +5, Su Xiao is preparing to at least get it to +7.

After hesitating for a while, Su Xiao chose to strengthen.

Rumble ...

The equipment-enhanced machine started to run, and five minutes passed in an instant, and the machine stopped working.

[Dragon Flash Enhancement +6 failed, and it dropped to +4.]

12,000 paradise coins gone just like that, this was like a heavy hammer hitting Su Xiao's chest.

Strengthening is risky; unlucky people like him needed to be cautious.

After calming down, Su Xiao chose to continue.

[Dragon Flash Enhancement +5 success.]

[Dragon Flash Enhancement +6 success.]

[Dragon Flash Enhancement +7 Success!]

Success three times in a row,

The gloom in Su Xiao's heart was swept away As if he just met the goddess of fortune.

Su Xiao began to hesitate whether to continue or not. It is very good to reach +7. If he failed to reach +8, Dragon Flash might break.

Whether to continue or not.

After thinking about it for a few minutes, Su Xiao took out an ore from the storage space and put it in the machine. He also took out 'Destiny Redemption +7', and used it directly as it was already charged.

A cigarette was lit, as Su Xiao took a deep breath, then exhaled a light golden smoke two seconds later.

now!

Su Xiao chose to start strengthening, the equipment strengthening machine began to operate, and his heart accelerated at the same time.

The ore he just put into the strengthening machine is called [Montalaya ore]

[Montalaya Ore]

Quality: Special

Type: Rare consumable ore.

Effect: If you add 'Montalaya ore' when strengthening equipment, it will greatly reduce the chance of failure as well as negate damage to equipment if the strengthening fails while the equipment is below +10.

Rating: None

Brief introduction: A unique ore on Kara star, the Kara star added this ore to the core of the spacecraft, and the core became strong and durable, which can last more than 1500 years.

...

With this piece of ore, even if the Dragon Sword's strengthening fails, it will not be damaged.

Failure of +7 to +8 will cause equipment to break, which was really to nerve-wracking.

The machine was running, and Su Xiao's heart couldn't calm down. These paradise coins were all obtained the hard way.

But there is a law of reincarnation paradise, and it was either become stronger or die. You can only choose one of the two.

The five-minute wait was long for some reason, the equipment strengthening machine gradually stopped, Su Xiao's heart was beating fast.

Alas, a large stream of steam was released.

[Dragon Flash Enhancement +8 Success!]

There was a breath of cool air coming from behind, as it was extremely rare to strengthen +8. Funds and luck were indispensable.

Su Xiao's luck is pretty good today. The strengthening of Mikasa's heard was smooth, but the broken Elf needed ten times.

Dragon Flink has been strengthened five times from +5 to +8, costing 60,000 paradise coins, which can be used to purchase a superb blue equipment.

Take the Dragon Flash from the machine, Su Xiao turned around and left.

The nearby contractors looked at him coldly. Strengthening a weapon to +8 caused greed to fill these people.

Su Xiao didn't want any meaningless trouble, but just glanced at those greedy covenants and turned away from the equipment enhancement hall. Those covenants were rigid, and no one dared to talk to Su Xiao.

Back in the exclusive room, Su Xiao took out the Dragon Flash.

A glimpse of purple awn appeared, and the entire long sword was cold, exquisite, and the brilliance of the blade changed from the original lilac to dark purple.

Looking at the attributes of the Dragon Slash, Su Xiao was stunned.

Dragon Slash +8 (0% for next upgrade)

Origin: Shadow of the law

Quality: Purple

Durability: 80/80 (up by 5 points)

Attack power: 54 to 97 (up by 11 to 13 points)

Equipment requirements: Shadow of the law Inheritor

Rating: 100

Extreme Blade Effect 1: Sharpness +7

Extreme Blade Effect 2: Bloody Battle (Passive): When Hp is below 30%, the Vitality is increased by 10, and increase the attack speed increased by 20% (the effect lasts for half an hour).

+5 additional effect: increase penetration

+8 additional effect: sharpness +2

Introduction: Lost, met, fought, reborn, growth, legend.

Price: Untradeable.

...

The enhancement from +5 to +8 made a qualitative change for the sword.

The changes in the skill 'bloody battle' (passive) were not small. More importantly, the sharpness has been increased by 2 points.

Chapter 296: Picking up a Treasure

Time passed quickly, and the five-day in Reincarnation Paradise was passed quickly, and Su Xiao returned to the real world. Lying in the bathtub, Su Xiao raised his head and closed his eyes.

With his strength now, he can sneak into that place.

Picking up the phone, Su Xiao dials a number, and he wants to determine the truth of something, although he can also contact the "Scavenger" who works for the country, Su Xiao is not prepared to do that, he didn't know whether to trust them or not.

After dialing this number, Su Xiao waited for a long time.

Toot ... toot ...

After a long wait, the call was answered.

“Yes ... Su Xiao? Is this your number?”

A woman’s voice replied. The woman’s voice is a bit lazy. It seems like she is indifferent to everything. The laziness in her voice was apparent, but lazy people can be aggressive at times.

“it’s me.”

It took time for her to answer Su Xiao.

“Contact me ... Explain why you still have to go there. We should use the law ...”

Women seem to know Su Xiao’s identity and his want for revenge.

“Laws are only used in their own country, and the people there are not lawful. They only believe in bullets, armored vehicles, and tanks.”

Su Xiao’s words silenced the woman on the other end of the phone.

This woman used to be Su Xiao’s lawyer, named Mu Yun, who is well connected in the capital. She helped Su Xiao handle his parents’ case. Unfortunately, the case was too complicated and involved a lot of people.

A few of them were arrested, and most of them pleaded guilty for various valid reasons, or there was no clear evidence, and they were set free, but they were really guilty.

Those people have nothing to do with Su Xiao’s parents, which is also something Su Xiao has been puzzled about.

His parents were just ordinary people who set up a small shop to support their livelihood, but they were killed suddenly one day.

Of course, the police will not let it go. Several fugitives were arrested, and those fugitives are already in prison now.

If the case is closed, as usual, Su Xiao won’t become an avenger.

It may be that under pressure, one of the fugitives said a name, a businessman’s name, during the trial.

After investigation, the businessman was indeed suspected but only suspected.

In the tragic death of the husband and wife, there are no clues in this case. The police didn’t let go. After the businessman entered the sight, things became more and more complicated, and more and more personnel was implicated.

One day, the police investigation stopped abruptly, and it seemed that they couldn’t investigate anymore.

Until now, Su Xiao still remembers the helplessness of the police captain's face.

That was a rigid and fair-minded policeman. He grabbed Su Xiao's arm and said five words.

‘Sorry, I am... sorry.’

Su Xiao, who was still ignorant at his age, only understood what happened vaguely, but now he fully understands.

It rained that day, and it was so heavy that he couldn't see his parents' tombstones.

Since that day, Su Xiao has understood one thing, justice may exist, but it will not stretch by itself. Everyone has his view of Justice, and everyone should get him with his hands.

Su Xiao was sober from the memories, and the conversation with Mu Yun continued.

“Hello, are you listening to me? Hello.”

“I'm listening.”

Mu Yun fell into silence for some reason.

In a law firm in the capital, a mature woman in her late thirties is sitting in the office and holding a mobile phone. She is Mu Yun.

Mu Yun was wearing professional clothes, wearing red-rimmed glasses, and her sexy lips opened and closed several times. She seemed to want to say something.

“I.....”

Mu Yun spoke again but was interrupted by Su Xiao's voice.

“I called this time just to ask the authenticity of those data.”

Su Xiao lit a cigarette and took a deep breath.

Mu Yun did not answer Su Xiao but asked:

“It's been a few years. All the merchants and lawyers involved in that case are dead. Did you ... do it?”

Mu Yun's throat was a little dry after questioning. If she really imagined it, the person talking to her would no longer be the ignorant teenager, but a sly and brutal murderer.

“Perhaps retribution, who knows, but thanks for the information you provided to me, it seems that the information is true.”

Su Xiao hung up the phone, and Mu Yun at the other end of the phone looked blank, she said nothing.

No need for her say it, Su Xiao has already got the information he wants to know from her. Mu Yun is not comparable to those cunning people ...

Mu Yun took the coffee next to her hand, moisturized her throat, and remembered something in her head. The police investigating the case said:

‘He doesn’t know if the merchants are guilty, but this boy will definitely commit crimes in the future, as his eyes are very close to those of a murderer. ‘

Mu Yun’s white hand trembled for some reason. If she really imagined it, the man talking to her just now is a serial killer.

Thinking of this, Mu Yun was even more afraid and took a few sips of coffee.

“He won’t come to me ...”

...

Su Xiao was lying in the bathtub silently. He was going to leave here to go to a war-torn country and kill a person he could never reach before.

“Oh ~, I let you live for so many years, and when it comes to paying off debts, blood debts and blood repayments are justified.”

A red light appeared in Su Xiao’s pupils, and he was preparing for some action.

Su Xiao began to plan the next plan. In the real world, there is no equipment bonus, and he can only rely on personal attributes to fight.

It takes time to rush to that country. Su Xiao doesn’t think that revenge can be completed within seven days, he would need to go to a few more world before he reaches there.

Su Xiao doesn’t need to buy a hot weapon, and he just needs to go out of the country with his sword. With the temporary inventory, he could bring his sword with no problem.

In addition to the sword, he also needs one thing, that is, money, you can buy everything with money.

Out of this villa that has been living for a while, Su Xiao suddenly felt a little bit reluctant.

He had contact with his neighbors nearby. A pair of old people impressed him. The old man sometimes played chess with Su Xiao at the beach.

He will come back here after completing his vengeance as this place was relaxing.

Three days had passed shortly before the preparation, and when Su Xiao was about to go to the airport, a reminder of the reincarnation park unexpectedly appeared.

[Hint: As the hunter participates in the world of war, there is a deviation of time for the contractors. This time, you will enter the new derivative world in advance to maintain the timeline.]

It is not surprising that Su Xiao received this reminder. The length of his stay in the real world is not fixed, sometimes one week, sometimes ten days.

[A new derivative world is about to open. The hunter will return to the Reincarnation Paradise, and please make sure there are no witnesses nearby.]

[Transferring ... Transfer is complete.]

When his consciousness restored again, Su Xiao was already in his exclusive room.

The revenge plan was temporarily suspended because of this accident. Su Xiao was not frustrated. The more he gains in another world, the stronger he would become, and the more secure his revenge plan would be.

Checking the remaining paradise coins he had, Su Xiao found a total of 13,200 points, and these paradise coins would be used on potions and restoration items.

Coming to the trading market, it is very hot here, because the timeline has been unified, and the contractor must enter the derivative world at this time.

A large number of workers are setting up stalls, and some of them were contractors.

Going around a few times, Su Xiao bought two bottles of medicine.

[Strawberry Juice]

Origin: Toriko

Quality: green

Type: Restoration

Effect: Quickly recover 21% of HP.

Rating: 15

Introduction: Maybe another bottle after this one?

...

[Strawberry Juice] A bottle cost 2600 Paradise Coins, it can be consumed continuously. Su Xiao has bought two bottles.

Just as he was going to continue to his purchase, a booth caught his attention, with a torn drawing on it, which had been burned and was mostly incinerated.

Looking at the properties of the drawing, Su Xiao's pupils tightened.

“This thing ... I want it for 6000 Paradise Coins.”

The stall owner is wrapped in black mist. This is an incidental function of the stall. Few people will open it, most of them are newcomers.

“No, at least 7000 paradise coins.”

The stall owner was resolute and refused to give up.

Su Xiao didn't bargain anymore and bought it directly. The price was 7000 paradise coins, and the stall was obviously stunned.

This thing is extremely rare, although the quality is not high, if it is sold to a guild, it can definitely sell for more than 20,000 paradise coins.

This thing has only one function, which allows people to enter a specific derivative world.

“My current strength is already qualified to venture in this derivative world.”

Chapter 297: Gathering of the strong

After the purchase is completed, Su Xiao waits for the prompt of reincarnation in the trading market.

Because the derivate world he will enter was modified, The Reincarnation Paradise didn't prompt information about it.

Su Xiao took out the tablet and looked up the information about the next derivative world.

“Huh? That kind of ability is very suitable for me. It is slightly more difficult to obtain, but it seems to be planned.”

After looking at the information, there was still one hour to enter the new world, and he just checked his supplies.

Life supplies have been brought together, and items were repaired. Thirty-one intermediate-level alchemy Bomb was placed in the corner of his Inventory.

Alchemy bomb manufacturing reached the full proficiency, but Su Xiao did not rush to raise its level.

Although there are surplus Paradise coins in his hand, and his mana has been restored, Su Xiao will never create an alchemy bomb before entering the derivative world, because it is very irrational.

The derivative world is full of dangers, and it is necessary that he entered with his full power.

The long wait started, and after completing a few puzzles, the nearby contractors clamored.

“Coming, It's a new derivate world. I hope we can come back alive.”

“Are there anyone who will enter the world of Date A Live, I'm a worker seeking protection?”

...

Noisy shouts came at the same time as a reminder of The Reincarnation Paradise appeared.

[It's about time to enter the derivative world: One Piece. It is an open world.]

[The space coordinates are stable, and the power of time and space is 0.021 ounces.]

[According to the time and space consumed, the contractor's lowest evaluation in the world needs to reach C-level.]

[Open world: Hunters can encounter very powerful enemies in this world, please be careful.]

He was about to be teleported again. Su Xiao stroked his head; he was desperate and could do nothing.

Just when Su Xiao was ready for the familiar dizziness, it did not appear.

[Preparing for Open World Teleportation... Be ready]

Ready? Su Xiao's brow froze. He suddenly thought of a possibility. The open-world might refer to some larger derivative worlds, and the transmission would be more difficult.

Su Xiao's face froze. "It can't be..."

Bang

Su Xiao was hit suddenly. If the previous feeling was just dizziness, then what he just experienced was like a big hammer hitting his head.

The force of space surging, the reincarnation paradise's transmission is complete.

...

Inside a planet in the void, which wasn't an area of the Reincarnation paradise.

It is a small planet that inhabits hundreds of thousands of creatures, and it held a race that was similar to the Kara star people.

This race is not the same as the Kara natives; they look like Orcs and will plunder other races in the void.

At this moment, the scene on this planet was complete hell, the place was full of corpses, and the blood flows into rivers without exaggeration.

The sky had turned red. There were several kilometer-long cuts on the sky, and the atmosphere weird.

It can be seen that this cut was made from the outside of the planet, and it directly cut through the outer energy shield and the atmosphere of the planet. The entire planet was cut by a third as if it was an apple.

"Wha ... what did we do wrong, and why did you slaughter us?"

A three-meter-high half-orc laid on the ground. It is the leader of the planet. It is extremely powerful and infamous in the nearby galaxy. At this time, his body is covered with sword marks.

"What did you do wrong?"

The voice of a man came, and the man was sitting on the towering corpses. The corpses were dried as if they were drained.

The man sat on the corpse and drank alcohol while the smell of blood lingered in the air. Inhaling this bloody smell can even kill.

"Someone asked me to destroy Trang Star."

After speaking, the man drunk again,

The wine is full of fragrance, even in the void, this is the best wine. "T ... Trang Star?"

The leader of the planet was dull, and the murderous half-orc shed tears.

“We are the Kaba Star! Trang Star is ten light-years away, although it is very close and lives the same race, but here is not Trang Star, not Trang Star!”

The planet leader cried with a headache.

“Oh ~, not Trang Star?”

The man on the corpse was slightly surprised and took out a star map to check.

“On the left, thirty-five degrees ... Um ~, it really isn't. It's wrong. Throwing your shoes to find the way really doesn't work.”

The man stood up with a nervous smile on his face.

“Since you made a mistake ... then let me get you out of the way. Such shameful things must not be spread. I originally thought that there were tens of thousands left. Forget it.”

The planet leader is desperate. This guy was vicious.

Suddenly, the man's face changed while he stood on the corpses and holding his sword.

“Someone's home again, right.”

The man closed his eyes and opened them after a long time.

“That turned out to be the case. It seems that the original contract was still valid.”

...

The force of space wrapped Su Xiao, and it took a while for him to feel the wind again.

Su Xiao suddenly opened his eyes, and the oncoming wind made him want to close his eyes subconsciously.

He was falling, falling down.

Below it is the azure ocean, sparkling.

He directly hit the water as he took a few mouthfuls of the salty water while the bubble formed around him.

Su Xiao directly swam up to the surface of the water.

He burst out of the water, wiped the seawater on his face, and panted.

Although he came to the One Piece world, it didn't have to throw him directly into the sea.

Looking around, he looked around and found that he was in the middle of nowhere, it was the endless sea.

The reason why Su Xiao was teleported to mid-air and eventually fell into the sea was the protection measure for the contractor in the reincarnation paradise.

If Su Xiao is teleported with the contractors, it would be very dangerous in this open world.

In the open world, the contractor has a 60% chance of dropping a scarlet card, so it is also called hunting ground, and that's the name for the strong, as for the weak, it's hell.

Those who are confident in their powers can't wait to enter such a world, and others would be too afraid of it.

At this point, Su Xiao didn't know what his mission was and where he was.

[World: One Piece]

World difficulty: LV.3?? (Open world's different regions have different difficulties)

Source of the World; 0%,

World briefing; wealth, fame, power, the vast sea is full of Marines and pirates, Haki, Devil fruits, and many other powers.

Haki: An advanced technique for the development of the body.

Devil Fruit: A secret treasure in the sea. After eating it, you can get magical abilities, and it has a weakness toward seawater and Kairoseki (sea stone).

World Government: This is the world's largest organization, which has led the world for more than 800 years.

Marine: The largest armed force organization under the world government, responsible for security.

Pirates: adventurers on the sea, explore the world, burn and plunder, and vicious.

Main mission: Go to Water Seven(You're in an Area near Water Seven).

Hunting mission: Kill the offender No.9740.

Tip: The offender No. 9740 is strong, the hunter must be cautious.

Tip: When the hunter enters within one kilometer of the offender, the hunting function will be automatically activated.

Warning: Do not mention anything about the Reincarnation Paradise. If the warning ignored, execution will be forced!

Tip: It is detected that the hunter does not master this world language, and will automatically consume 100 Paradise coins to master this world language.

World, start!

Chapter 298: Victims

“Am I really near Water Seven? It doesn't look right.”

Su Xiao was very upset at this time. The scroll did have some instructions. The place where he should be at was Water Seven, and the plot started six days ago.

But he wasn't teleported to water seven. Instead, he was teleported in the sea beside it.

Compared with other time points in One piece world, the current time was perfect for Su Xiao. There are no Logia Devil fruit and no enemy that is too strong for him.

Although Qing Gang Ying may be able to hurt the Logia Type, that kind of enemy is not what he can deal with now.

For example, in the case of Akainu, Su Xiao has no chance of winning against enemies of that level.

Su Xiao moved up and down the sea, and he received the approximate location of Water Seven.

Although he was a little speechless, Su Xiao thought of it as a way to protect him, and his mood gradually improved.

His trial world was One Piece. At that time, he was too weak and could only use conspiracy to complete the task.

If current Su Xiao was there, he would go kill them directly. This is not unwise. Why is it so troublesome if he already has the strength?

Isn't strength what is needed to complete tasks easier? If you have the strength and still hold back, it doesn't make sense to become strong.

Swimming in the clear sea, a fire was lit in Su Xiao's heart as he roared in his head: 'One Piece World, I Su Xiao, I'm back!'

After swimming for a long time, He still couldn't see the land, which would most people feel helpless, But the Reincarnation Paradise indicated that he was close to the shore.

Taking a deep breath, Su Xiao continued to swim toward Water Seven. In the sea, he has always been vigilant. The sea in Pirate World is not safe, and various giant creatures coming to swallow you is a common thing.

...

The sun was shining, white seagulls flew over the sea, and a ship was sailing moving forward.

The Ship was wooden and about 20 meters long. This is a fast boat. The only ones who use this type of boat are pirate!

This type of fast ship has extremely poor carrying capacity but can be extremely fast, which is ideal for chasing cargo ships.

The sea breeze blew the black sail. The black sails were full of holes. These holes were as thick as a finger and were densely spread on the sails. They should be holes left by the bullets.

This pirate ship was sailing very slowly at sea, the hull was covered with scars, and the whole ship crunched and creaked and seemed as if will fall apart at any time.

This group of pirates has been fighting for a few days, some parts were roughly repaired, and the sails were patched, so the boat moved slowly.

On the mast, which is the highest point on the boat, a one-eyed pirate opened the telescope in his hand and looked into the distance with the narrow and ferocious one-eye.

"... Captain, how long will it take to reach Water Seven? The evil wolf can't hold on."

One of the pirates on the lower deck asked timidly, and there were dozens of pirates standing near him, all eyes were full of expectations. These pirates were dressed differently, but they all had a characteristic, their skin was yellow, they were all wounded, and a few of them had some missing limbs. Some pirates' wounds are started to be infected, and their only solution to that was cutting the flesh around the wounds.

“Shut up.”

The one-eyed captain's voice was low, and his throat must have been hurt.

The one-eyed captain opened his mouth, and the pirates recoiled, their heads dropped immediately.

To become a captain requires strength, or extreme brutality, or charisma.

The one-eyed captain obviously belonged to the former. He ruled the ship with brutality. He would look much more like a pirate if he added a hook in his hand aside from the eye patch.

Eight days ago, the 'Hungry Wolf Pirates' met another group of pirates at sea. The two sides directly greeted each other with artillery shells without negotiation. This is the etiquette of the pirates.

After the launch of the 'friendly' fires, the Hungry Wolf Pirates didn't want to take its chance to engage. So, they directly fled.

The Hungry Wolf Pirates successfully escaped and started drifting on the sea.

Food and water have long been consumed,

Even more frightening was that the captain's room had been blown up, and the preserved food was stored there.

What is most important at sea? The answer is freshwater and food.

Freshwater comes first, and food comes second. If they couldn't eat for some time, they would die, and they mostly need vitamin C right now.

Vegetables and fruits contain vitamin C, but vegetables are not easy to preserve, and their price is high, so pirates will choose to bring fruits, apples, and oranges are good choices.

At this time, the hungry wolf pirate group fell into this situation, and their wounds were infected, they didn't have fresh water, no fruit, no bandages, and insufficient medicine.

Fortunately, they were not far away from the Seven Waters, which kept the pirates from rioting. Otherwise, even the one-eyed captain couldn't hold back these pirates.

The life of a pirate wasn't good, let alone if they were in this kind of situation, the ship was like a piece of cheese full of holes, it would fall apart with even with a slightly strong wave.

Several pirates came out of the cabin with blood on the corners of their mouths.

“Captain, we found someone.”

A shout drew the attention of all the pirates on board.

“Men or women?”

The one-eyed captain said both men and women have a role in the current group of hungry wolves and pirates. If it was a man, they would eat him, and if it was a woman, she would have a greater role.

“It’s a man, about twenty years old, without a weapon.”

“A man ...”

The one-eyed captain’s tone was a little disappointed. The only magnetism he saw when he went to sea for a month was a news bird delivering a newspaper.

“Pick him up and put him in the cabin. They didn’t have much food. And they didn’t know how much it would take them to reach Water Seven. They were in the right direction, but they didn’t know how far they were.

The man would be their emergency food, while women would be played around with and later become emergency food as well.

These pirates will eat people when they are hungry, to be precise, they are now eating, eating those who are more injured.

In the sea, Su Xiao was still swimming forward with all his strength. Suddenly, he felt a presence behind him. Turning his head, a ship was approaching him.

After seeing the flag, Su Xiao’s face changed, black flag, pirates.

The strength of the other party is unknown for the time being, but one thing is sure for him, they didn’t come to him with goodwill.

Su Xiao took a deep breath and sank into the sea.

The scene changed, the surrounding area was blue, the seawater was clear, and occasionally fishes passed by.

The bottom of the sailing boat came into view. After hesitating a little, Su Xiao did not choose to destroy the ship. This was a good ride, although it was a bit shabby.

On the pirate ship, several pirates stood on the side of the ship and looked down. They seemed to be looking for something. They were holding long hooks. These people were going to use this thing to hook Su Xiao to the boat. Did they want to kill him directly?

“Did you kill him? Did he get crushed by the boat?”

“No, the boat is not fast, at most he will be knocked out, we should leave him alive, dead meat is not fresh and tastes bad.”

These pirates can no longer be called humans. They were beast. Maybe even beasts would feel humiliated by comparing them to these humans.

Just as the pirates searched for Su Xiao with an iron hook, a hook lock suddenly broke out of the sea and was firmly nailed to the side of the ship.

In the sea, Su Xiao tightened the threat from his armguard, his body was pulled upwards, and the Dragon Flash appeared in the hands, and Qing Gang Ying was directly activated.

The strength of the enemy is unknown, so caution is a must, this is One Piece's World after all.

Su Xiao rushed out of the sea and boarded the ship directly. He grabbed the outside of the ship with one hand and turned over to jump on the ship.

"Quick, this guy is not easy. Kill him!"

A pirate roared, and dozens of pirates swarmed forward carrying swords pointed at Su Xiao.

Chapter 299: The Wicked Pirates

Stepping on the deck, Su Xiao stared at the pirates in front of him while holding Dragon Flash.

Dozens of pirates gathered around this. This is small to a medium pirate group. From the ragged clothes and yellow complexion, anyone can see that they were out of a fight and with a loss at that.

"Drop your weapon and lay on the deck."

A pirate pointed at Su Xiao with a gun and swallowed subconsciously. There was not much 'meat' on the boat, and the rest of his companions had weapons on them, which meant they couldn't be eaten.

Su Xiao looked around, and a strong smell of sweat hit his sensitive nose.

A one-eyed man wearing a black headscarf stepped out of the crowd, while the pirates made way for him. This was the captain.

The one-eyed captain looked up and down Su Xiao, and his eyes finally stopped Dragon Flash in Su Xiao's hand, and greed filled his eyes.

"What do you think you're doing, our 'Breaking Wave Pirates' never hurt innocent people, put away weapons."

The one-eyed captain snapped, and the pirates immediately drew up their weapons and tried to show a friendly smile on their faces. Their hungry wolves' pirates became the 'Breaking Wave Pirates' again. This situation has been staged several times.

"Sorry if we scared you just now. The hull is damaged and cannot control the direction. You aren't hurt, right?"

The one-eyed captain took off a small bucket from his waist and threw it to Su Xiao, which contained freshwater.

"Drink some water and rest for a while, and we are rushing to Water Seven."

Bang, the barrel fell on the deck, Su Xiao didn't even look at it.

"Don't be ignorant, only a few pirates like us speak to people in goodwill."

A pirate looked unhappy.

The one-eyed captain turned his head, and when he looked at the pirate, his eyes were extremely cold, and the pirate quickly apologized and smiled.

“It is good to be vigilant, but we are not malicious.”

The one-eyed captain waved and motioned for the pirates to step back.

It's normal for pirates to bully the weak. Su Xiao knew what the one eyes captain wanted, and he saw him look at Dragon Flash in his hand and knew he was scheming to take it, he thought that Su Xiao was just another youngster who faced a storm in the sea and his boat was destroyed. He thought that Su Xiao was easy prey.

“Really, I happen to be going to Water Seven as well.”

Su Xiao secretly thought about how to dispose of the captain. But it looked like the other party wants to attack now.

“Then we have the same destination. It is fate to meet in this vast sea, but ...”

Captain Cyclops turned sharply, his eyes narrowed.

“Although we don't take the initiative to hurt civilians, we still have to get out pay for a ride on our boat. It's better that you give out 1 million Berry. We will take you to Water Seven. You can't swim to till there as you don't know how far it is.”

Su Xiao sneered in his heart. He had already guessed what the other party would say now. He will say that he had no money, and he should use his sword to pay for the ride or pay the money...

“Unfortunately, I have no money with me.”

Su Xiao clenched the handle of the Dragon Sword, and he was about to start.

“It's hard to do. Maybe you can use your sword as pay ...”

The one-eyed captain stopped talking and looked at Su Xiao's left hand blankly, his eyes to turn green with greed.

Su Xiao was holding a meaty bone in his left hand, which was a snack for Bobtney.

“Bring that meat here right away!”

The one-eyed captain no longer continued his act in front of the temptation of food.

“I was really hungry.”

Su Xiao threw the flesh and bones in his hands into the distance, and the eyes of dozens of pirates moved with meat and bones.

As it fell on the distant deck, the pirates swarmed upon it.

“It's mine, and it's mine.”

“do you want to die?”

“Ah !! Don't bite my hand.”

The pirates were in a mess, just like a group of hyenas who were attracted to meat, gnawing at each other, kicking each other, and someone even used his sword.

Captain Cyclops' face changed dramatically, although he also longed for food, his status as a captain was more important. "Stop it now!"

The one-eyed captain roared, but it had no effect.

boom!

The dull gunshot sounded, and a pirate was directly shot in the head.

Smoke was blown away by the sea breeze, which came from the captain's gun.

"Stop now, or I will kill all of you!"

The one-eyed captain raised his gun and shouted; the muzzle moved towards the heads of dozens of pirates.

"Captain, behind you!"

A pirate showed horror, as he yelled, but it was too late.

Alas, the one-eyed captain's body was leaning forward, his eyes widened, his pupils tightened, his mouth wide as gasped for breath.

He looked down, and a blood-stained blade was sticking out of his chest, and the blade was dripping with blood.

"When....."

Captain Cyclops fell to the deck, and Su Xiao pulled dragon Flash out, stepped on the head of the one-eyed captain, and cut open the artery on his neck.

The blood flew a few meters away, and Su Xiao ducked sideways, stepping on the head of the one-eyed captain while looking up at the pirates.

"Who wants to be the next."

The pirates were silent, and all bowed their heads.

"Brothers, we ..."

A pirate pulled out a sword from around his waist, but at this moment, more than a dozen swords were drawn.

Puchi! Puchi...

The sound of swords cutting through flesh was heard. After ten seconds, the pirate who talked was pierced by many swords.

"This young swordsman, we didn't want to do this, we wanted to kill that captain for a long time already."

"Yes, he cut my arm just because I bumped him while looting the village."

“You have to go to Water Seven. We have the same purpose. Even if you have the power to kill us, you can’t drive the ship alone.”

Unlike the brainless background characters in the anime, these pirates have some logic in them.

Su Xiao groaned for a while and nodded.

“Yes, you are responsible for driving the boat, but don’t even think about trying anything.”

These pirates make sense, without them, Su Xiao could not sail with a normal boat, not to mention this broken ship that could fall apart at any time.

Pirates breathed a sigh of relief, but did not relax, and remained vigilant against Su Xiao. Su Xiao could quietly approach behind their captain and had already demonstrated his strength.

Pirates threw the body of the one-eyed captain into the cabin, as some of them would go in and kick him a few times.

This is the disadvantage of using his brutality to rule over others, if someone found him when he is weak, they would kill him without mercy.

Su Xiao no longer cared about the pirates. This broken ship will fall apart at any time. He does not believe that the pirates would be able to turn it around now. The direction is guided by the ‘Eternal Pose. This is a specialty of the pirate world, similar to a normal compass, and it can only point to a fixed direction.

The pirates returned to their posts, controlling the sails. Even though the ship moved slowly, it was still faster than Su Xiao swimming pace.

Su Xiao walked toward a cabin with a hole that was patched up with wooden boards. This is the captain’s room. He will see what was inside it.

Just entering the captain’s room, a burnt smell greeted him. The area of the captain’s room was small, about ten square meters long.

One of the walls of the captain’s room was black, and the ground was very humid. It seemed like it caught fire and they extinguished it with seawater.

The captain’s room is simple in structure, with a display rack, a wooden table similar to a desk, and a bed.

Su Xiao first searched on the display rack, but after searching for a long time, all he found were bottles of inferior wine. One of them was the most conspicuous, transparent wine bottle with something moving inside of it.

Chapter 300: Chance Meeting

After looking through the boxes for a while, Su Xiao finally found three cold coins.

The currency in this world was berry, and only a few thousand of berry can buy you a meal, these pirates were really poor.

But the three gold coins are very good. The three gold coins are made of pure gold. The surface pattern is five linked balls, one ball at each corner of the gold coin, one in the center, and text under the five balls. It is a pattern of world government flags.

[World Government Commemorative Coins × 3]

Origin: One Piece, World Government Manufacturing Plant.

Quality: green

Type: Precious

Rating: 12

Introduction: It can be sold to reincarnation paradise or gifted to plot characters. If the gift is given in a proper way, you will get the favor of that character. The increase in favor is related to charm.

Price: 900

...

This is a good thing. Su Xiao was not in a hurry to sell it, so he saved three gold coins into his inventory.

After confirming that there were no other items in the captain's room, Su Xiao gave up searching and rested on the seat.

Not long after that, a noise came, Su Xiao quickly walked out of the captain's room, and a beautiful island appeared in front of him.

This island was not small. The entire island was full of buildings. After these buildings are brought together, the entire city of Water Seven formed an iron tower shape, and seawater gushed from its tip, like a fountain. There are several water routes that flow back into the sea.

The magnificence of Water Seven is beyond imagination. It was an island that started sinking, which people build again after it was submerged.

The residents of Water Seven didn't relocate but continued to build on the basis of the original building so as to rise above the sea.

The thousands of years of cumulative construction have made Water Seven without land. The entire city seems to be built on the sea. One can even rent a room and fish from the window.

The pirate ship that Su Xiao took was slowly sailing towards Water Seven.

Although Water Seven welcomed pirates, pirates can't enter from the front door. It would be a provocation to the rules.

Entering from the back, the ships sailed between the houses. The water channel between these houses was very fast, tens of meters in length. No one cared about Pirate ship that was wrecked as it was common in here.

Finally arriving, Su Xiao stood on the ship's side and jumped toward a house.

The houses in Water Seven are built in rows and were very tall. Most of them are more than ten stories high. Each row of houses has a road for pedestrians to pass through.

Su Xiao left the pirate ship directly as the pirates felt relieved.

The good and evil of these pirates have nothing to do with Su Xiao. The other party took him here, and he spared those pirates' lives. It was that simple.

Stepping on the road, the prompt of the Reincarnation Paradise Appeared.

[The hunter has arrived at Water Seven, the main task is activated]

[Main Quest: Faction Choice]

Difficulty level: Lv.7

Mission description: Galley-La Company, World Government, Straw Hat Pirates.

Mission information: Faction selection will affect the next missions.

Task duration: 3 natural days.

Quest reward: 2000 Paradise Coins.

Quest Penalty: All Attributes -3 and forced teleportation to another world.

...

The main task was not difficult, and it is nothing more than choosing a party to join.

Su Xiao preferred to exclude the straw hat pirate group, and the reason is very simple, disagreement, the straw hat pirate group, will not accept his style. He also does not agree with the straw hat pirate's style.

He will kill his enemy to prevent a future problem, Luffy doesn't kill. If Luffy's family wasn't stronger, his loved ones would have died long ago. Dragon, Garp, Ace, Sabo, and others, Su Xiao, shook his head. It is likely that Luffy is the weakest in their family.

Excluding the straw-hat pirates, the rest is the world government and Galley-La Company. It is also difficult to join the world government.

The charm of Su Xiao's is 5 points, with his temperament, he will be kicked out.

It seems that there is only one party left, the Galley-La Company, and the president's name is Iceburg.

Galley-La Company is the largest force in Water Seven. It is called a shipyard, but it actually controls Water Seven. It has won the hearts of the people, and even the Marines cannot do anything.

Water Seven has only a few Marines stationed here, and that is for emergencies.

There are too many legendary events here. The ancient weapon Pluto was built here, so the world government has always maintained an ambiguous attitude towards Water Seven, neither attracting nor alienating them.

The special geography and special status have created a special culture here. Both the Marines and the pirates can come here to buy or repair ships. Both sides will exercise restraint after entering Water Seven.

As for the mayor Water Seven, he the same president of Galley-La Company, Iceburg.

With this in mind, Su Xiao made up his mind to join Galley-La Company. This is good for future actions. Galley-La Company is a mixed bag, and no one would care about his origins. It is common for pirates to work here.

Although Galley-La Company is the easiest to join among the three forces, it is also the most dangerous one.

Galley-La Company has spies, CP9 members, whose strength cannot be underestimated.

It would also be normal that there a few contractors join Galley-La Company. But it shouldn't be attractive for most Contractors, as the three spies would kill them if they found anything.

The world government is different from the Straw Hat Pirates, because more than 90% of the contractor may go with the Straw Hat Pirates.

Walking slowly in the city, Su Xiao noticed that something was wrong here after a few rounds. Many of the roads were a dead end. He would need to jump a few meters to reach the next Road.

The house separates the water routes, but there should be a bridge in between. If he continues like this, it will take him a long time to reach the Galley-La Company.

Su Xiao thought about a means of transportation in Water Seven. It is a kind of creature named Bull, which is a horse-like creature that can move in the water and can be equipped with a wagon on its back for an easier ride.

Looking around, Su Xiao found several shops that rented bulls, so he rented a Bull just for 2,000 Berry.

Bulls' faces were full joy, its mouth full of flat teeth as if it is laughing, a very gentle creature.

Su Xiao was sitting in the boat behind his rented bull, holding in his hand the map presented by the bull renting shop.

“It doesn't look far.”

Su Xiao tried to communicate with the bull, and the bull made a Yi Yi sound as if he could really understand.

“Do you know where Galley-La Company is?”

“Yi ~.”

The grinning bull nodded and moved his fins to swim quickly, walking between the houses Water Seven.

After seeing the Bull, Su Xiao thought of bob, and it should be released after being so tired of so long.

As he called Bob out, The boat started to sink, as bull's head shrunk as if he was a little afraid of Bobtney.

As soon as Bobtney came out, he spread his legs in joy. But the space of the boat wasn't that big, and Bibtney directly fell into the sea.

An extremely authentic dog swimmer appeared, even though Bobtney was not afraid of the water, he was still splashing around as he swam.

Su Xiao patted his thigh and suddenly thought that he might have just wasted 1,000 Berry.

“come back.”

Hearing Su Xiao's shout, Bob climbed into the boat and started shaking as he dried himself.

But soon, he saw the water splash Su Xiao and a whimper as he lay flat on the boat.

Su Xiao didn't get angry. Bob saved him in the whale's stomach last time, and if not for him taking two punches from Dika, he would be still laying inside the whale and never leaving.

Galley-La Company has several shipyards, and Su Xiao Was heading for Dock No. 1.

Half an hour later, Su Xiao arrived at Dock No. 1.

Many workers were sweating in the open space, some were building ships, and some were maintaining the artillery.

A boatman in a white undershirt and bowler hat with curly hair caught Su Xiao's attention. The boatman had a special beard and a white pigeon standing on his shoulders.

Rob Lucci! One of CP9's agents in Galley-La Company.

Rob Lucci is carrying a heavy wooden board and is constructing a ship. On the other side, Su Xiao faintly smelled blood. Perhaps some contractor has tried to join Galley-La Company. I can imagine their end.

Inadvertently, Rob Lucci looked at Su Xiao, and their eyes met. Rob Lucci stopped his work as if he could feel Su Xiao's power.
