

R. Paradise 301

Chapter 301: Iceburg!

Su Xiao and Rob Lucci looked at each other for several seconds before looking elsewhere. Su Xiao turned to look at a cabin, which seemed like a reception.

Inside, there was a square table with a worker behind it.

“Hello, is the Galley-La company still recruiting?”

Su Xiao used all his effort to maintain his smile, which wasn't working out as he didn't use this method on plot characters before today.

“Un?” The worker just looked at him before continuing his work like it was nothing.

This was the power of his 5-charm attribute. The characters didn't interact well with him.

“Wait.”

Su Xiao sighed. He didn't excel in Negotiation.

He waited for several minutes for the worker to finish the papers in his hands, and finally, the latter took off his glasses, took a look at Su Xiao before he said.

“Origin?”

“East Blue.”

“Name?”

“Byakuya.”

...

The worker made the basic document for Su Xiao before saying: “You were caught in a shipwreck and ended up in Water 7... Ok, then.”

The worker put the document down and said: “Dock No.3 is in need of workers with good physical power, the pay will be 4,000 Berry a day, you can go there.”

His meaning was obvious, you will be working hard for the 4,000 berry, you're just a temporary worker, and that's if you're strong enough.

Su Xiao groaned a little before checking whether Rob Lucci was here or not, as he looked around, Lucci left already.

So he directly pulled an iron rod from a scrap pile and directly crushed it in his hand while the worker's eyes bulged out.

He continued to crush it until it was just like an iron ball. The worker looked with mouth agape at Su Xiao.

The Worker's attitude took a complete change, as he said.

“Come here, please sit down.”

The worker pulled a chair over and gestured to Su Xiao to sit down.

“How strong can you place yourself if you’re facing pirates?”

And of course, the best way to describe someone’s strength in this world would be the bounty system.

“Between 50 and 100 million.”

With Su Xiao’s power, it wouldn’t be hard to deal with pirates of that level, and he should be as strong as Zoro or slightly stronger now. (T/N: Of course, the Zoro of the timeline he was in, not the current Zoro.)

However, If the two were to fight, Su Xiao would win, because Zoro didn’t have what it takes to kill someone, he is one of the Straw Hat pirates, so he would kill his opponent, unlike Su Xiao.

Hearing this, the worker wasn’t convinced.

“This... Can I ask what is your fighting style?”

The worker asked Su Xiao politely, and his previous attitude disappeared completely. His strength completely erased the disadvantage of his lower charm.

Su Xiao directly drew out Dragon Flash from his Inventory, making it directly appear on his waist, then raised, indicating that he is a swordsman.

“Swordsman?”

In the world of One Piece, whoever has an edged weapon is a swordsman, and it didn’t matter if he had a Saber or a Sword. Su Xiao didn’t say anything as he nodded.

“Come with me then!”

The Worker gestured for Su Xiao to follow him toward the center of Water 7.

“Sorry, I didn’t introduce myself yet, my name is Angus, From the Galley-la’s Dock No. 1.”

Angus looked 30 years old wearing pants and the same shirt as the workers.

“Byakuya, what kind of position are you interested in?” Angus started chatting with Su Xiao and trying to tempt him.

What was the most valuable thing in this world, was it gold? Money? No, none of them can compare to strength, with power, you can truly be respected in this world. The strength he showed when he crushed the steel didn’t belong to the people in the first half of the Grand Line.

“What position... a guard, I suppose. I was an escort for a small country’s king in the East Blue, but that country was captured by the Revolutionary army.”

Although Su Xiao wasn’t someone who act, he didn’t assassinate a king and was familiar with the world, so he can lie as much as he wants.

He killed the king, but no one knew this, as the pirates were attacking the castle then, and most people would relate the king's death to the pirates.

What's more, even if his identity was exposed, he was in the Galley-la Company, and they weren't marines. They didn't delve into the identity of their employees, which is mainly the reason why Su Xiao didn't join the world government.

Angus leads Su Xiao while Bob followed.

“Is this your dog?”

Angus looked at Bob with surprise as he seemed eager to touch Bob's head, but seeing the bared fangs, he quickly retracted it.

“Yes, I raised it for a few years now, it's a hybrid between a dog and a wolf.”

Angus tried remembering someone with the same details as Su Xiao, someone in his early twenties, a swordsman, named Buakuya and has a very special dog with him. He used to be an escort for a king.

After running through all the bounties he could remember, he didn't find anything about Su Xiao. At least he didn't have a bounty even if he was a pirate.

Finally, Angus was satisfied, so he decided to introduce Su Xiao to someone.

The medium-sized Bull they were riding was quite fast. It didn't take them long before reaching the center of Water 7.

Finally, they reach the rare area that had land and no longer needed the Bull. This land was obviously artificial.

Those who lived here are the so-called nobles of Water 7. Their destination was the Mayor's office.

After entering the building, Angus directly led Su Xiao to the fourth floor.

Knock, Knock, Knock!

Angus knocked on the office door. After a second, both of them heard: “Come in.”

Angus pushed the door open. The office was quite big with all kinds of furniture around.

A tall, middle-aged man with blue hair and similarly colored lips, wearing a red and orange striped jacket over an unbuttoned orange shirt with a wide collar, was lying in a chair sleeping.

Su Xiao directly recognized this person, and he was Iceburg, the Galley-la company's president.

From the viewpoint of the anime, and the Straw Hat pirates, He was a good Character.

But was that really the case? Of course, it wasn't.

He may be a good person with a good personality, but the business he was involved in wasn't clean. He was selling ships to the pirates and helping them repair their ships.

In the world of One Piece, Ships was the main mean of transportation, so his business would not be unpopular.

And adding to that, Iceburg was the apprentice of Tom, the fisherman who built Gol.D.Roger's ship, which made the world government go after him, if it wasn't for his craftsmanship, he wouldn't have died.

As a direct Disciple of Tom, Iceburg was in control of Water 7, and the world Government allowed it, which is the problem as it wasn't something that would happen normally.

Chapter 302: Cowboy!

Iceburg's problems aren't limited to just these. At the end of Water 7 Arc. Lucci didn't kill Iceburg, which meant that the world government didn't want him dead and still left the governing of water 7 to him. This can describe Iceburg: Doing illegal business by helping pirates, holding to a high position, which is the Mayor, and getting rich with all the money he was getting.

Su Xiao wouldn't believe that this kind of person is a believer in justice. Moreover, the Galley-La's company recruitment didn't discriminate between pirates or normal people.

Thinking about this, Su Xiao already had a plan, and Iceburg is playing a major part in it.

Iceburg took off his blindfold and looked at the ones entering the office.

"Oh! Angus, what's the matter?"

Angus immediately bowed as he placed his right hand on his chest.

"Iceburg-sama, this is a new employee Byakuya."

"Oh." Iceburg was still in his chair as if he wanted to return to sleep.

"Byakuya can face pirates with 50 to 100 million bounties on their heads."

Iceburg, who was casually sitting down, changed his posture to a more upright one as he looked up and down at Su Xiao.

"Byakuya..." Iceburg said before looking at Angus.

Angus hurriedly moved forward and whispered something in Iceburg's ears, which made the latter nod his head.

Su Xiao stood bored beside the door as he thought about his plan.

Water 7 can lead toward Enies Lobby, and the main mission should be related to this Judicial Island.

Thinking about Enies Lobby, Su Xiao was excited. Although it was really dangerous, there were many opportunities over there.

Su Xiao was interested in the Soru from the Rokushiki (Six techniques of the Marine). The ability to approach the enemy at extreme speed is something he lacks right now.

After some time thinking, Iceburg's voice interrupted Su Xiao's thoughts.

"Hi, Byakuya. I'm the president of the Galley-la Company, Iceburg."

Iceburg stood and stretched his hand to shake Su Xiao's hand. It seems after Angus introduced him, Su Xiao's image in Iceburg's mind was that of wild strong rare man.

“Hello.”

Shaking his hand, Su Xiao could tell that Iceburg didn't have any kind of training before.

“I understand your situation, Galley-la is a company for shipbuilding and repairing, if you don't understand how to do that, it will be slightly difficult...”

Iceburg was thinking about where to appoint Su Xiao while Su Xiao wasn't worried that he wouldn't employ him.

“Well, in the next few days, you are responsible for the safety of Dock No.1. We often receive pirates there. Although the workers can maintain order, it would affect the efficiency of the work. I already considered hiring security before.”

“Ok.”

Su Xiao simply agreed, he just needed to join, there was no specific position he needed to be in.

“Good then, the Galley-la company welcomes you. Angus, help with Byakuya's paperwork and come in the evening too for his welcoming party.”

“Yes, Iceburg-sama.”

Angus took Su Xiao out of the office with enthusiasm. He was boasting about the beauties in Water 7.

Su Xiao went to complete the formalities, which was simple. He only needed to sign the documents.

Su Xiao noticed that Galley-la was actually like a branch of the World Government; it was self-governed. So the status it had was not exaggerated.

[You completed the Main Task: joining a faction. Faction Choice: Galley-la company (completed)]

[Complete the Main Quest: {Yes} {No}]

Su Xiao directly completed the Quest as a new one appeared.

[Main Quest: Reputation.

Difficulty: Lv.9

Introduction: Gain Reputation through the Galley-la company

Information: Current reputation: Neutral 70/400 (This give you the right to move freely in Water 7)

Duration: 15 days

Reward: The Reward is based on the Reputation Level

Failure Penalty: None

...

The current stage is for Su Xiao to move freely. During this period, he may encounter a mission or fight powerful enemies.

Su Xiao was pleased with this. Water 7 was a prosperous island and had many places to explore. There are mainly three things he wanted in this world: Famous swords, Rokushiki, Devil fruits. His chance to get a Devil Fruit is small, but once he obtains one, it would be his fortune. Having made up his mind, Su Xiao directly went out for a walk. Just as he was going out of the door, a man with a cigar appeared.

He looked like a thirty-something-year-old man. He held a cigar and cowboy's hat. A revolver around his waist, he looked very much like a cowboy.

Su Xiao and the cowboy both stopped.

The other party was a contractor, and Su Xiao was sure that he was strong.

Time froze as both looked at each other while staying five meters away from each other.

After a minute, Su Xiao put a hand on his sword, smiled, and walked forward slowly.

The other party had the experience, and it's impossible for him to get close so easily.

Sure enough, the cowboy directly put a hand on the revolver and stepped back slowly.

This scene caught the attention of the staff working there.

The cowboy retreated from the building while Su Xiao stepped out. Both didn't speak as Su Xiao directly walked away.

The cowboy spat the Cigar out of his mouth and stared at Su Xiao's back.

...

Su Xiao walked with a quick pace while glancing around as if he was looking for something.

Taking a long walk, Su Xiao reached a vacant shipyard, which was used as the Ship cemetery.

"You already followed me for so long. You can come out."

Su Xiao directly pulled out Dragon Flash and looked ahead.

A figure came out from behind a house. It was the cowboy from before.

"You are ready to kill me already?"

The other party was following him since they met. So Su Xiao directly chose a less populated place as a battlefield. It wasn't his style to avoid a fight.

"You killed Carl?"

As the cowboy spoke, Su Xiao frowned, Carl? From the Phantom Brigade!

Looking at the cowboy again, Su Xiao noticed the revolver, before he suddenly thought about Carl's words when they were fighting: "I have never seen anyone like you except the Crazy revolver, No.7 from the Phantom Brigade."

The cowboy before him was probably the guy Carl talked about.

Thinking about this, Su Xiao's heart sank. Carl was already so strong, and this guy is most likely stronger.

“Did you do it or not? The Brigade numbers may have little interaction with each other, but you have killed someone belonging to us, which would stain our reputation for some time.”

The Cowboy looked at Su Xiao with no hate in his eyes.

“If you're talking about the one playing with tarot, then yes, I did.”

Qing Gang Ying was directly activated. Today, Su Xiao might die!

Chapter 303: No Injustice or Hatred, Just because...

The Sun was shining above the sea as the cool breeze passed by blowing Su Xiao's black hair. Qing Gang Ying was activated while the blue energy was passing through Dragon flash and Su Xiao's whole body. Su Xiao's muscle tightened as he clenched Dragon Flash and directly jumped forward.

Su Xiao was like a cheetah as he burst out with power.

“I'm here today... Not for Revenge.”

The Cowboy spoke with a husky voice while Su Xiao didn't answer.

“It's inevitable to feel an itch when you meet someone strong. The sound of my bullets penetrating your flesh would be pleasant to the ears.”

The cowboy moved his hand around his waist, and he started doing the common cowboy clenching a fist and releasing it. It was the movement a Cowboy did when they were about to grab their guns and shoot.

If this continued, Su Xiao would be in front of this guy in just two seconds.

The Cowboy's hand stopped for a second before it blurred near his revolver.

Boom!

Three bullets were shot in an instant toward Su Xiao.

That's right. Three bullets were shot from one gun at the same time. This was a revolver and not a Shotgun, or a rifle. Shotguns can shoot small bullet-like things, but it mostly used from a close distance, while rifles would shoot several bullets in a short time. But this was a revolver, and the only explanation is that the cowboy was just that fast.

The cowboy can shoot very fast. It should've been 0.3 seconds for a shot or maybe even less.

The first two bullets directly hit Su Xiao's body, while the last one was blocked by his skill, Shield. He wanted to block all of them, but he wasn't fast enough to activate the Shield.

Su Xiao touched the ground with his hands as he stabilized his body. The Reincarnation Paradise's warning directly appeared.

[Tip: You took 23 real damage, due to your inability to resist the attack, the real damage doubled.]

[Tip: You took 24 real damage, due to your inability to resist the attack, the real damage doubled.]

Blood started pouring out of his abdomen while he felt as if he was being burned from inside.

Su Xiao directly plunged his fingers into one of the wounds and took out a silver bullet.

Green smoke was coming out of it. It was a poisonous bullet that would make the wound widen with time.

Su Xiao threw the bullet in his hand as he stared at the cowboy.

The latter held the revolver in his hand as he changed the magazine. Within seconds, he reloaded his gun again before the previous cartridge hit the flour.

Su Xiao took a deep breath. If he was hit by the two bullets before, half of his Hp would be gone, But now, his Hp was as high as a tank, these two shots didn't do much damage.

He was already back on his feet. Su Xiao no longer approached the cowboy in the same way, as he was thinking about his opponent's fighting style.

The cowboy's main weapon should be the revolver, which seemed to have an ability to deal with True damage along with a Judgement toward his resistance. If he failed the Judgement, he guessed that the damage could grow from 2 times to 10 times.

And he guessed that because the shield he activated was directly shattered after one shot, which didn't have any resistance at all.

Su Xiao's pupil contracted. He raised his dynamic vision to the limit as he wanted to capture the trajectory of the next bullet.

Su Xiao raised his sword as he moved forward slowly. The cowboy seemed to wait for something and didn't shoot immediately. Instead, he slowly retreated. It seemed as if he was afraid that Su Xiao would rush forward.

The distance shrunk after ten seconds, and Su Xiao could tell that the next shot is here.

Bang!

A crisp gunshot sound came along with a bullet. This bullet was longer, and it didn't seem like a bullet from a pistol.

The bullet flew through the air at high speed. Su Xiao's energy, spirit, and every part of his perception were on the bullet. He successfully captured the trajectory of the bullet.

Boom!

Su Xiao's face changed as he heard the explosion sound. The bullet exploded from its tail, causing a second acceleration.

The target of this bullet was Su Xiao's head. If this hit him, he won't come out alive.

And it's too late to dodge.

Still, Su Xiao didn't plan to dodge from the start. He believed in the sword he had and also believed in his skills with it.

The Sword moved toward the bullet that created a few airwaves on its path.

Ding!

Some sparks flew as Su Xiao's hands turned numb from the collision. But a smile appeared on his face as the bullet was split in half.

The cowboy was stunned as he looked at Su Xiao with surprise. Perhaps, this was the first time someone stopped his bullet in this way.

“Kenbunshiku Haki? Impossible, that advanced ability isn't something we can get at this stage.”

The cowboy pulled the trigger, which created the afterimage of his finger.

Bang! There was only one sound once again, and this guy's hand was so fast that he can make people go mad.

This time, five bullets were shot. This time, they formed a line, so there was no possibility of them being split.

Su Xiao could split a bullet, but five in a row was impossible for the current him.

Su Xiao rushed forward, and he met the bullets without blinking.

Puchi!

The five bullets hit Su Xiao, but the latter ignored the pain and continued forward.

He was two meters away from the cowboy, and he was in his range right now.

Directly, Su Xiao slashed at the cowboy. Blood splashed out as he cut at his shoulder.

Su Xiao's power made the cowboy terrified. He wanted to jump back immediately.

However, being approached by Su Xiao wasn't a trivial matter. It was impossible to retreat without a few slashes.

Dragon flash started dancing in the air like a net formed around the cowboy. Wounds kept appeared on his body, but lucky for him. He was wearing armor, a strong one.

The cowboy screamed as the Qing Gang Ying energy started burning his Mana. At this time, Su Xiao directly used the wires on his Armguard to entangle the cowboy.

But suddenly, Su Xiao was shocked as he hurriedly closed his eyes when he noticed a ball being thrown.

Boom!

A flash bomb directly exploded.

Su Xiao's ears were humming, and his eyes were in pain as tears flowed out. But even with this, he still held on to the wires around the cowboy.

The cowboy directly fell to the ground and rolled around. When he stopped, his revolver was already reloaded.

The cowboy didn't shoot Su Xiao immediately, and he just stepped back quickly. He made his mind. He would never allow this guy to approach him again.

At this moment, the cowboy was in a dilemma. His opponent could resist his attack, was fast and had great power as well.

Although he had great offensive power, his body wasn't tough. He would be chopped to death if Su Xiao was to get near again. Even for that short moment, every step he takes now left a red stain on the ground from the blood.

As the stinging feeling disappeared from his eyes, Su Xiao directly scanned his body for the damage he received. He wasn't heavily injured, which was good.

Putting the metallic wire away, Su Xiao once again moved toward the cowboy slowly, and the latter directly moved back.

Su Xiao can't be careless, because if he was to be hit in the head or heart, he would directly die.

It didn't mean much if his Hp was still high if his head is penetrated.

The Cowboy also knew this, so his gun was already aiming at Su Xiao's head.

Chapter 304: Men's Pain!

"It seems that Carl's death wasn't a coincidence. I should take this seriously." The cowboy stopped retreating and put two fingers in his mouth and whistled loudly.

A bald eagle swooped down from the sky and landed on the Cowboy's shoulder.

The eagle spread its wings and shook its body resulting in dozen or so feathers to fall down. These feathers glowed with white light before disappeared in the air.

As the feathers disappeared, the Cowboy disappeared as well.

Su Xiao looked around, he couldn't see anything, but he could still feel danger. He could tell that it wasn't a space ability; the cowboy just disappeared.

Closing his eyes, Su Xiao extended his senses and focused on hearing the cowboy's footsteps.

But his ears couldn't hear a thing.

Su Xiao suddenly rushed directly at the position the Cowboy was in before and slashed his sword.

He could feel the sword touching something. The Cowboy was really there, and he just turned invisible. What a terrifying ability!

Su Xiao directly narrowed his senses to five meters. In this range, he could feel anything, and even if the cowboy shot at him, he could still dodge the bullet.

Su Xiao immediately discovered something strange. All the bloodstains of the cowboy disappeared from the ground.

This is no longer invisibility because people can hide, but the blood they spilled won't disappear when they do.

The only explanation is that the cowboy blocked Su Xiao's perception of him. So at this moment, the cowboy isn't in his perception, not the sight, not the sound.

However, there is a loophole in this ability. Su Xiao's perception increased several folds when he narrowed his range. If the cowboy was within five meters of him, Su Xiao would be able to find him.

When Su Xiao was preparing to look for the cowboy, the wind behind him whistled. Su Xiao immediately turned his head around.

Wouch!

A bullet passed close to Su Xiao's cheeks and even cut a few strands of his hair.

Su Xiao's face was ugly. The bullet didn't exist in his perception only when it reached the five meters range.

The Bullets would turn invisible as well until it reaches his perception Range.

Suddenly, Su Xiao was in a tough spot, which left Su Xiao speechless. He could tell that the cowboy wasn't here to get his scarlet card or take revenge for Carl; he wanted to fight him simply. No wonder other people were afraid of the Phantom Brigade!

Su Xiao could tell that Carl was a normal person in the Brigade.

The battle continued, and Su Xiao couldn't let this pass. The enemy came to him, and the best way to deal with him is cutting his head.

The cowboy didn't shoot again, as he saw Su Xiao dodging his bullet. He just waited for a skill to finish its cooldown.

Su Xiao quickly moved around using his perception range to search for the Cowboy. The blood on the ground was the best guide for him.

Puchi!

Blood splashed from Su Xiao's back as he was shot.

Su Xiao moved his shoulder as he groaned in pain. As long as he didn't get shot on the head or heart, he wouldn't die. His Hp was high, and Bob's Aura kept healing him.

Su Xiao wasn't worried about Bob's safety as the other...

Suddenly, Su Xiao thought of something, the cowboy disappeared from his senses, but couldn't Bob see him?

Quickly, Su Xiao ran toward Bob, who quickly moved toward Su Xiao.

“Bob, can you see the enemy?”

Su Xiao's question made Bob startled. Bob was wondering why his master was circling around the enemy and turned a blind eye toward him, which resulted in his being shot once.

Puchi!

Suddenly, blood burst from Bob's hips as he screamed. The cowboy wanted to kill Bob.

Bob could see the cowboy, Su Xiao, was sure now.

“Bob, hide behind me.”

Su Xiao's intention was obvious. He would let Bob stand behind him and guarantee his safety while Bob would show him the cowboy's position and help him dodge the attacks.

Bob directly hid behind Su Xiao while the latter directly rushed toward the cowboy.

For a second, an arm with a gun appeared in his perception, he finally sensed him.

But at this moment, the arm disappeared again. Su Xiao's footsteps stopped, and Bob quickly ran behind him.

Su Xiao whispered a few words to Bob and took something to show him. Bob directly barked twice.

Su Xiao once again started moving around aimlessly as if it didn't matter if he was shot.

At this time, the Cowboy was confused. He didn't know what Su Xiao was doing, but he could smell a conspiracy.

“Biǎn máo (Flat Hair), how long can this continue?”

The Bald Eagle, Biǎn máo, made two sounds. The cowboy directly nodded his head. He understood what was said as his Animal Language was high.

Puchi!

Blood spurted again from Su Xiao as his Hp was in the red zone. The cowboy no longer shot toward his head as Su Xiao could avoid them. But the body was larger than the head, so it will be hard to dodge.

Just as two bullets hit Su Xiao, Bob barked twice.

Su Xiao was so happy for waiting for so long. Finally, the time for revenge is here.

“Explode!” Su Xiao murmured.

Boom!

Several explosions sounded like the fire shot toward the sky. The impact spread around along with the fire. Su Xiao detonated exactly Seven Alchemy Bombs, all of which were in different directions.

This was their plan.

Taking several bombs from his inventory, Su Xiao covered them with his blood as he was shot and threw them on the ground.

When the Cowboy approaches the bombs, Bob will Bark.

Bob barked just now, which led to Su Xiao decisively Detonate the bombs.

The bombs exploded in an instant. The cowboy was falling down from the sky with a tattered armor and a blown arm.

After looking at where the cowboy was falling, Su Xiao's face changed. The Cowboy was falling into a water canal that leads to the ocean. It would be almost impossible for Su Xiao to find him if he falls there.

His current trajectory wasn't a coincidence. The bald Eager was flapping its wings and changing the direction of his fall.

Su Xiao couldn't give up, even though he was shot several times.

Wrapping the Wire from his armguard on Dragon Flash, Su Xiao directly spread his legs, and the muscles on his arm tensed.

Taking a deep breath, Su Xiao used all of his strength to throw Dragon Flash.

Puchi!

Dragon Flash directly penetrated the Cowboy's lower abdomen, exactly his male part. The Cowboy's Feature paled.

The Cowboy fell into the water, but before he fell, Su Xiao could hear a shout coming from him: "Men's pain!"

Su Xiao pulled on the Wire directly. This caused even further damage to the cowboy.

The Water started turning light red as the cowboy was going crazy as the energy from the Qing Gang Ying penetrated his genitals. What made him even crazier was that his mana was dropping for some reason.

Chapter 305: Controlling the Secret Agent!

When the cowboy fell into the water, Su Xiao hurried to the edge and looked. But He couldn't find anything as many buildings were submerged underwater.

Su Xiao suddenly saw the figure of the Cowboy moving away. The Guy was swimming awkwardly. His hand was on his lower abdomen as his legs swayed slightly while moving away.

Su Xiao gave it a thought. If he jumped, all the wounds on his body would sting due to the salt in the water, especially since they were gun wounds.

Su Xiao decided to jump. He took out broken elf and dived in. He aimed at the cowboy directly and shot.

Bang! Bang! Bang!

The bullets didn't make much sound underwater, which surprised Su Xiao. After moving several meters, the bullets sank down.

Su Xiao couldn't believe this, he shot another three times, but the same happened.

This made him puzzled before he remembered that he was underwater. The water resistance was high, and probably, he would need a skill that would let him shoot bullets underwater.

The cowboy disappeared into the buildings, which made Su Xiao give up his pursuit.

It's not so bad, actually. Since Su Xiao defeated the Cowboy today, the latter wouldn't appear in Water 7 for a while. Otherwise, he knows that Su Xiao would kill him.

Su Xiao couldn't sense him under the sea, but if that guy is close, Su Xiao would be able to feel the energy from his Qing Gang Ying.

Su Xiao closed his eyes and started looking for that energy, but it wasn't nearby. It seemed that seawater interfered with his senses toward that energy.

Confirming that his enemy fled, Su Xiao directly returned back to the ground and fell down, he could no longer hold on.

That explosion aroused the attention of the residents nearby, and they directly notified the mayor who directly sent some of the Galley-la company who were responsible for the safety of Water 7.

Iceburg directly brought Paulie and Kalifa with him.

Paulie was dressed as a sailor, he had nothing special about him, although he can fight with ropes.

The identity of the other person was a bit special. She was Kalifa, one of the CP9 while she was working as Iceburg's secretary while undercover.

CP9 was an organization under the world government that took orders only from them, unlike the Marine. They are like special forces whose task was mainly assassination and destroying whoever disobeys the world government.

Kalifa's power was just so so. Of course, if we are talking about someone like Paulie, then she could finish him in just three minutes.

These three were followed by a large number of workers who directly separated to investigate the situation.

Iceburg walked toward Su Xiao and looked at his body covered in bullet wounds.

“What happened?”

Iceburg's face wasn't good. Su Xiao just arrived today, and he already caused such a big explosion.

“A group of pirates sneaked in and wanted to take a ship from here.”

Su Xiao sat up and pointed at a ship in the cemetery.

“Someone comes to steal a ship? How many people?”

“Three people, two of whom I injured and fled.”

The bloodstain on the ground was a good proof for what he said. Su Xiao was now a member of the Galley-la company. With his explanation, it seemed as if he did his job by repelling the ship thieves.

If someone did something for you, but you interrogated him, no one would follow you anymore.

Iceburg groaned a little while thinking that Su Xiao just arrived today, it was unlikely for him to find enemies so quickly.

“Good work. Kalifa, help Byakuya deal with his wounds, he is losing too much blood.”

Kalifa came over, and when she looked at Su Xiao's wounds, her pupils shrunk. Being alive after receiving such wounds made her extra careful around him.

Su Xiao was shocked when he heard Iceburg telling Kalifa to deal with his wound. She was a CP9, and it wouldn't be smart for him to have her treat his wounds.

"Thank you, Iceburg-san, this is only a minor injury, I can handle it myself."

"Byakuya-san, please don't move, you're badly hurt!"

Kalifa pressed his shoulders, which made Su Xiao's face ugly. This woman was dangerous. He could feel her killing intent.

Finding that Iceburg already moved far away, Su Xiao whispered in Kalifa's ears: "So urgent to help with my wounds?"

Heat traveled until Kalifa's earlobes as she turned red.

"You – You... Pervert! Idiot!"

Kalifa directly tore off Su Xiao's jacket revealing ten gunshot wounds on his chest and back.

"Byakuya-san, don't move, I will treat your wounds."

Kalifa's voice was soft as if she was a good little nurse, but a tiny glass piece scratched her sleeve, which made her stiffen.

"What are you doing?" Kalifa's voice wasn't as gentle as before.

"What did I do?"

Su Xiao looked at Kalifa's finger and smiled.

"Don't be rude when treating a woman."

Although Kalifa's tone wasn't gentle, she didn't dare move. She didn't know when a metal wire was wrapped around her clothes. It wrapped her chest and lower abdomen. Kalifa clearly felt the cold metal on her body.

"Continue helping with my wound without any trick, ok?"

Su Xiao just entangled Kalifa with the wire from his armguard. If she dared to try anything on him, he would teach her a lifelong lesson. As long as he gently tightens the wire, not only her throat, every place in her body would be cut.

"Who are you?" Kalifa's finger pierced Su Xiao's back and directly pulled a bullet.

"A wondering Swordsman, my interest is killing, so don't provoke the S in me."

Su Xiao grinned as he intentionally scared Kalifa. He immediately tightened the wire, and Kalifa's face directly turned red, and her body trembled while her breathing quickened.

“Pull the bullets out with your fingers, and I will make sausage for you.” (T/N: This definitely has a perverted meaning!!)

Now that he was exposed, Su Xiao didn't care anymore. If he didn't do this to Kalifa, she would definitely poison him. The CP9 would kill the strong people who join the Galley-la company. This was what would've happened to him.

Even if it wasn't exposed, they wouldn't let him go.

Su Xiao looked at the Flushed Kalifa. Even in this situation, she was patient, and it seems she was afraid of being exposed.

The best thing out of this is that he easily controlled a CP9 Agent!

Chapter 306: You Can Eat a Free Chewing Gum

After taking out the wounds, she stitched his wounds and bandaged them. Kalifa looked very awkward as she helped Su Xiao treat his wounds. “Let me go. I feel like my chest is suffocating. If I have a scar on my skin, I won't forgive you.”

Kalifa looked at Su Xiao coldly.

“You can still yell and call me a pervert.”

“Don't you try and test my patience.” Kalifa shouted as she opened her jacket secretly. Su Xiao was really rude to her.

“Don't you dare.” Su Xiao said calmly then continued: “The poison in your hand is only used by some secret organizations. How could a Mayor's secretary have it? Are you from the Marine? The Revolutionary Army?”

Kalifa's yelling stopped as she closed her jacket back.

“What do you want?”

Sure enough, Kalifa was more afraid of being exposed than Su Xiao. The latter at most would be expelled from the Galley-la company. However, if Su Xiao said she was a spy, even if Iceburg didn't believe him, he would still be cautious around her and may even investigate this, which she couldn't allow.

Su Xiao stood up and relaxed the tightened wire around Kalifa.

“Come with me.”

Su Xiao waited for Kalifa to respond.

Kalifa gritted her teeth and said: “Release me from this damn wire.”

“Are you dreaming?”

Su Xiao looked at Kalifa in amazement while the latter's heart sunk.

Kalifa stood up while hesitating before sighing. She won't be able to defend herself like this. Finally, she shouted.

“Iceburg-sama, I will take Byakuya to the Hospital for treatment. He lost too much blood.”

Iceburg was stunned as he looked at Su Xiao and Klaifa dumbly. They stood very close to each other.

Iceburg was puzzled, when did the relationship between these two become so good? Is it love at first sight?

“Go, you, young people have too much energy.”

Iceburg chuckled as he continued the investigation.

Kalifa moved forward while Su Xiao followed behind closely. As long as Kalifa tried anything, he would be able to respond instantly.

He was lucky that Kalifa was the one who approached him. While Kalifa didn't expect him to be so bold that he would capture her in front of Iceburg while he was seriously injured.

“What's your purpose? If you want to sleep with me, you will die, even if I die along, I won't be a cheap woman.”

Kalifa said with determination while Su Xiao frowned.

“I just want to have a ‘talk’ with you.”

Su Xiao relaxed the wire while he gestured for Kalifa to enter the alley.

Su Xiao looked at Kalifa inside the two meters wide alley and hesitated. He didn't know whether to ask about the Rokushiki from her or just kill her.

However, thinking about the consequences of killing her, Su Xiao shook his head. Rob Lucci and the others would hunt him down. The Galley-la company won't let him go, and the world government may participate as well. He can't kill her.

The risk is way higher than what he would get. So, he started thinking about other countermeasures.

Kalifa standing beside Su Xiao was full of cold sweat, she clearly could feel his hesitation, he wondered if he should kill her or not.

“Hurry up and kill me. If you do, you will be a pirate and won't be able to set foot on this island again, and people will start hunting you.”

Kalifa smiled scornfully, she seemed not to care whether she is alive or not, but in fact, she was afraid and wanted to live.

Su Xiao suddenly thought of a plan. Although it was a rough plan, it should be suitable for this situation.

“Miss Kalifa, do you like chewing gum?”

Kalifa froze, she felt something wrong.”

“I don’t like it. I hate it.”

“You don’t have the right to choose. I will give you one for free today.”

Su released more wires and directly entangled Kalifa.

She directly fell to the ground and couldn’t struggle as she was afraid of the metal wires.

Su Xiao directly moved beside Kalifa.

“You... What are you going to do?”

Kalifa stared at Su Xiao while she gritted her teeth. Su Xiao pressed Kalifa’s back while holding an object like chewing gum in his hand.

It was an Intermediate Alchemy bomb. The range of this bomb is 6 meters, and the damage dealt is about 100.

Su Xiao directly held Kalifa’s jaw and started opening her mouth.

Kalifa’s teeth wouldn’t budge. She felt her mouth tire out, but she still didn’t open her mouth.

After pinching her cheek for a long time, Su Xiao couldn’t open her mouth.

“Open your mouth.”

“Ho (no).” Said Kalifa while still closing her mouth.

Su Xiao sneered and pulled out Dragon Flash. He grasped Kalifa’s cheek and put the sword close to her. It seemed like he was going to open a hole in her mouth to make her eat the gum.

Kalifa was desperate. Her enemy was crueler than she thought.

When Dragon Flash was close to her red lips, Kalifa opened her mouth slowly.

After returning Dragon Flash, Su Xiao directly fed her the Alchemy bomb while his index and middle fingers pushed it into her throat.

Kalifa twitched, as tears rolled down her cheek uncontrollably.

Finally, the Alchemy bomb was swallowed by Kalifa while she was humiliated. So she directly bit Su Xiao’s fingers.

Su Xiao froze. This woman was really fierce, but being bitten wasn’t a problem.

Holding Kalifa’s jaw with his thumb, Su Xiao directly grabbed Kalifa’s tongue with his index and Middle fingers.

After biting him for a little, Kalifa let go. Su Xiao’s fingers were free. He directly wiped the saliva in Kalifa’s clothes.

“I’m going to kill you.”

Kalifa was never humiliated like this before in her life, and what made her even more desperate, she didn’t know what she just swallowed.

“Kill me? Stop dreaming. You can’t.”

Su Xiao directly started activating the bomb. The bomb started swelling before stopping when it reached a certain extent. This is to prevent Kalifa from taking it out.

Unless she performed a stomach surgery, she would never get rid of the bomb within a week. After that week, the bomb would already be corroded by the stomach acid and won't be effective anymore.

Su Xiao directly released Kalifa from the wire.

“What did you make me swallow.”

“Some dog Feces.”

“Blugg...” Kalifa tried to vomit it back as she saw a dog nearby. The alchemy bomb smelled strange.

“Stop it.”

Kalifa couldn't get the bomb out and directly yelled.

“Rest assured. I'm not that free. I just made you swallow a bomb.”

Su Xiao activated the bomb slightly, the surface of the bomb released high temperature, which made Kalifa fall to the ground while screaming.

“It's too hot!”

Cold sweat filled Kalifa's clothes as she stood up after some time.

“What is your purpose?”

Kalifa gasped as she realized she couldn't deal with Su Xiao.

“I don't have one. If you have companions, tell them that the water from a well can't stand in front of a river, so don't provoke me.”

Saying this, Su Xiao directly left the alley. The plot was in the first stage, and it wasn't time for problems yet.

Kalifa was standing in the alley while trying to vomit using her fingers, but when she realized that she wouldn't be able to get the bomb out, she collapsed to the ground.

Chapter 307: Wicked Plan

Kalifa appeared suddenly was bad news for him, but fortunately, he handled the situation well enough for now. As long as Lucci and the other don't want Kalifa to die, they won't provoke him. But there is a possibility that they would just sacrifice her.

If Lucci was really determined to kill him, he would risk their exposure, between just one person being exposed, or everyone being exposed, he would choose the latter.

What's more, Su Xiao's previous action would make it seem like he only suspected Kalifa because she was going to use it on him. Nothing about her plans or companions.

Now, it is even less likely for someone like Lucci to come after him.

He could use Kalifa right now, of course not the R B Q one, but as a bargaining chip.

Walking around Water Seven, Su Xiao was in a good mood, but for a while, he didn't know where to go.

Suddenly, a fragrant smell made its way toward his nose, and his clothes were grabbed. Bob was the one grabbing him.

Bob was sticking his tongue out and looking at a stall, which was surrounded by a large crowd. Su Xiao moved toward them and found that it was the specialty of Water 7, the Mizu Mizu Meat.

Su Xiao bought a few of the special jelly-like meat.

As he took a bite, Su Xiao's eyes widened, this really deserves its reputation.

Bark! Bark!!!

Bob turned in a hurry as Su Xiao threw a piece at him. The former swallowed it directly swallowed it.

“Wild Dog!”

Su Xiao continued to give Bob a few pieces as he walked forward. He was going toward Dock No.1. After all, that was his workplace now.

But one thing was on Su Xiao's mind, Iceburg. The latter should be suspicious of him now. As when he said that he fought a pirate, the reputation he had didn't raise, which means he didn't believe him.

Su Xiao walked around the Dock No.1 as he got there. As he saw the workers, Su Xiao directly pulled a chair and started watching them.

Su Xiao's work was maintaining order, which didn't require him to do anything unless a situation arises. He would be paid 600,000 Berry per month, which was equivalent to 35,000 RMB.

With his strength, the pay was quite low. It was the salary for his probation period after it ends, his salary would increase.

The workers looked at Su Xiao and didn't know he was sitting there, but no one come forward and asked, they thought that he was just a guest.

...

Kalifa came back to the old Shipyard where Su Xiao fought the Cowboy after they separated.

Iceburg froze as he saw Kalifa with wrinkled clothes, and his imagination was irked.

“Young people are really open-minded.”

Kalifa stood silently behind Iceburg, and the latter was surprised.

“I didn't expect you to have such an open side. Although Byakuya is a handsome young man, it's too fast.”

When Kalifa heard his words, her face darkened slightly before thinking about something, suddenly she smiled and said.

“I just fell down, don't get any wrong ideas.”

“Well, I'm probably not wrong, but you're not young either. Although Byakuya just joined, he isn't weak, and looks really promising.”

Iceburg said jokingly. He was less suspicious about Su Xiao now. He wouldn't stop the love between his employees. Although Kalifa was his secretary, the two were still his subordinates.

Kalifa didn't explain anymore. This subject was getting more and more out of hand. At the same time, she had a plan on her mind. Since Iceburg misunderstood that she was in a relationship with Byakuya, then she will drag the bastard down. Her plan would start in a few days. At that time, he wouldn't be able to gain a foothold in Water 7 and will be hunted.

The more she thought, the more she understood that Byakuya wasn't weak.

“Iceburg-san, when did Byakuya join the Galley-la company? How old was he?”

Kalifa's question made Iceburg startled. He was only half-joking about this before.

“Kalifa, you...”

Kalifa turned red as she played with her hair.

Paulie, at the side, looked at Kalifa in amazement. Kalifa's strategy was a success. As a secret agent, she had some acting skills.

Letting more people know that she was in a relationship with Byakuya. When would she complain and say things about him after a few days, who would listen to Su Xiao? No one will.

After the story spread through the workers, the gossip was like hot cake in the Galley-la company.

Su Xiao didn't know about this. If he did, he would've cut her tongue. That woman was really trying to drag his reputation to the ground.

Spending the afternoon in the No.1 Dock, no pirate came to cause trouble. The workers got familiar with him after knowing he was a new employee and the one who will protect them.

After it got dark, the workers got off work as Su Xiao's popularity increased by 40 points just this afternoon. This made him a little bit confused. Could introducing himself get him reputation points? That's too easy.

At about five in the evening, Angus approached Su Xiao. Before Iceburg told him that they would celebrate together in the evening, he didn't know what kind of celebration but it should be just a party.

Angus patted Su Xiao's shoulders as his face looked at Su Xiao's little envious as he said.

“You boy! You're good! Just one day, and you already have the heart of big beauty.”

Su Xiao was stunned. He didn't know what Angus was talking about.

“beauty?”

“Don’t pretend to be stupid. A lot of people in the Galley-la company already knows about you and Miss Kalifa. That cold beauty could actually fall in love...”

Hearing Angus words, Su Xiao’s face changed slightly. He could guess what’s going on.

Su Xiao immediately guessed that it was Kalifa’s doing.

“Is that so?”

Su Xiao followed Angus toward Iceburg’s home.

There was one possibility of Kalifa’s behavior. She wanted to Drag him down. At noon, he made her eat a bomb, and just in the evening, such rumor spread.

A smile appeared on Su Xiao’s mouth when they were on their way.

Although she wanted to drag him down and mess with him, this was a good situation. At least she helped him increase his reputation by 40 points.

Checking his popularity again, Su Xiao’s found another 30 points added, and it was still growing. It won’t take long for his reputation to reach 200 points.

More importantly, he was in control of Kalifa’s life. As long as he detonated the bomb, she would undoubtedly die.

The issue of raising his reputation is temporary resolved. He should start preparing now, as five days later, the straw-hat pirates would land on this island, and water 7 would become a mess.

It wasn’t necessary to consider everything now. He should focus on benefitting himself to the limit in these five days.

After coming to Iceburg’s house, he found that it was really a luxurious villa. Worthy of the Mayor of this village.

Entering the first floor of the villa, Su Xiao heard a sound along with smelling fragrant food mixed with alcohol. Several long tables were in the hall full of food, and many workers were loudly talking while drinking. It was a lively banquet.

Chapter 308: Shameless

Walking into the hall, Angus was directly pulled toward some of his colleagues. Before he left Su Xiao’s side, he said: “Enjoy the fun.”

As Angus left, A beauty came toward Su Xiao and held his arm.

“Don’t cause a commotion. Our relationship is ambiguous.”

Kalifa chuckled slightly, looking quite happy with her scheme.

“Really, but you seem to have forgotten something.”

Su Xiao and Kalifa were sitting at a table with a few people nearby.

“What is it?”

Kalifa took a sip of wine as she asked.

“How does it feel to have a bomb in your belly?”

Su Xiao watched Kalifa with interest. Since she was going to act, he would play along. He directly held Kalifa’s hand while eyes all around them looked at him with envy and anger.

Su Xiao’s reputation started rising at an alarming rate since this banquet was full of Galley-la company.

[Your reputation rose by +5]

[Your reputation rose by +2]

[Your reputation rose by +8]

[Your reputation rose by +12]

...

Notifications sounded one after the other as Su Xiao became bolder while Kalifa stiffened, but she was still smiled to hold up the act.

“Asshole! Let me go!”

Kalifa said with a low voice while she gritted her teeth through her smile. She didn’t want to blow her cover.

Su Xiao ignored her as his reputation would soon reach 400. He would let go of such a good opportunity, would he?

As long as his reputation rose to a certain level, Su Xiao would be able to move freely in Water 7, and he won’t need to defend Dock No.1 to raise his reputation anymore.

Su Xiao came close to Kalifa and said: “I heard that you’d been here for a long time.”

“So what.”

“I’m not curious about your purpose of being here. I can help you with the bomb, in return... I want something.”

Kalifa folded her hands over her chest while Su Xiao’s hands moved under her clothes. Kalifa was afraid that people would see this and felt quite strange. She wanted to kick Su Xiao away.

“Speak your deal and take your hand out!”

Su Xiao chuckled as he ignored Kalifa’s words. He was testing Kalifa’s patience while also feeling good.

“Your target should be something that Iceburg owns. I already have an idea of your identity. It’s like someone from the revolutionary army or the Marine.”

Kalifa pretended that her face changed, but she was relieved that he didn’t know. She was afraid that Su Xiao would know she was from the CP9.

“It can be seen from the way you handled yourself that you are a spy. Otherwise, you won’t endure so much provocation. I understand the way of the

revolutionary army. You seem somewhat different, so the only one left is the Marine.”

Of course, Su Xiao knew about her being from the CP9, but she didn't need to know that. He wasn't stupid to make the CP9 hunt him.

Kalifa's face was getting redder as she felt even more strange now. Kalifa didn't notice this at first, but even if her sensitive places were touched, she wouldn't have such a reaction.

“Drug... Drug?”

“No, even if I'm not bright, I'm not that insensitive as to give a woman some drugs.”

Kalifa yelled angrily and said: “Say, what is your purpose being here?”

Kalifa was frustrated. Not only was her plan a failure, but she also went to the tiger's den and was taken advantage of.

“Since you are a Marine, then you should know of the Rokushiki, I want to learn them.”

Su Xiao stated his purpose. Although it was possible to get the Rokushiki by killing her, but extorting it was safer.

“Impossible. Um!”

Kalifa gasped faster.

“Oh!”

Su Xiao pulled his hand out of her clothes, and the cold look on his face returned. Since the Negotiation failed, he would kill her secretly later.

Kalifa quietly sorted her clothes and looked around to find Rob Lucci looking at her.

His gaze was clearly asking her what's going on. Not only him, even Kaku and the others were the same.

Kaku's mouth was wide, and his nose was like Pinnochio's, which seemed funny.

Kaku was angry. He didn't believe Kalifa would fall in love or anything of this.

Kaku first thought that she betrayed them, but thinking about her character, he felt that it was unlikely.

Just as Kaku was getting angrier, Lucci came and whispered in his ear: “Kalifa is exposed. Don't contact her, don't look for her.”

Kaku knew what's going on. When he glanced at Su Xiao, he released a little bit of killing intent accidentally.

Su Xiao leaned on his chair silently as he lit a cigarette.

“Are you going to... Kill me?”

Kalifa always believed that she wasn't afraid of death, but knowing that Su Xiao would kill her, her throat was dry.

“Correct.”

Su Xiao's tone was unwavering. It didn't seem he was talking about killing someone, and it seemed to be just a job.

“You're definitively not a king's guard. It's impossible for someone who has such a strong killing intent to be a king's guard. Don't deny I it.”

Kalifa calmed down as she adjusted her mentality.

The banquet was filled with laughter, so no one could hear what these two were talking about. The life and death negotiation was still ongoing.

“It doesn't matter who I'm. What's important that I know your identity and will kill you if you don't accept the deal. There is nothing else to it.”

Kalifa's tone changed.

“Help me remove the bomb, and I will give you 30 million Berry, that's my bottom line.”

“Oh, do you think I care about money. I want to learn Soru from the Rokushiki, that's my bottom line.”

Su Xiao picked a piece of meat, which was strange. The meat in this world was just some meat attached to a bone, and it wasn't greasy and tasted very good.

Su Xiao started eating as he drunk a bottle of rum. He was very hangry as he didn't eat all day.

Kalifa lowered her head and considered something before her eyes flashed.

“I Can do it.”

Su Xiao put down the bottle and looked at her.

“Will you speak of it or write it?”

“I will write it.”

Su Xiao took a pen and a piece of paper from thin air, which caused Kalifa's pupil to shrink. She suddenly thought about how terrifying Byakuya was, and he planned everything from the start?

Of course, everything was planned, if it wasn't how would he be so calm after everything that happened.

After five minutes, a piece of paper with the method of training in Soru was handed to Su Xiao.

After looking at it for a few minutes, Su Xiao shredded the paper and threw it on the table.

“What are you doing.” Kalifa was a little angry.

“Last chance, if it is still fake, we'll end the talk now.”

Su Xiao continued to eat. Kalifa hesitated for a long time before picking the pen again.

This time, Kalifa wrote only a few dozen lines, but the Reincarnation Paradise's notification appeared.

[You got: Rokushiki: Soru training method (2/3).]

A smile appeared on Su Xiao's face, and Kalifa was more interesting in his eyes. He looked at her as if she was a moving cash machine.

“Write down the remaining one third. And I will remove the bomb.”

Kalifa moved subconsciously to the side as she felt that the current smiling Byakuya was more terrifying than when he looked cold.

“Yes, but you have to help me with the bomb.”

Su Xiao snapped his fingers, and directly the bomb reacted.

“Two-third of the bomb was dealt with, so keep writing.”

Kalifa gritted her teeth and wrote the remaining third and handed it to Su Xiao.

[You got: Rokushiki: Soru training Method (complete)]

Su Xiao's raised his hand and directly manipulated the bomb. The alchemy bomb directly disappeared from her stomach.

Kalifa felt the bomb disappearing from her stomach couldn't help smiling. But the next sentence from Su Xiao made her almost faint.

“The first bomb is removed, let's talk about the remaining two.”

Su Xiao's mouth was smiling, and Kalifa's mouth was twitching. The alchemy bombs were small and tied together, so Kalifa didn't notice this.

“You shameless dirty bastard!”

Kalifa was desperate, her enemy was sly, and she couldn't deal with him at all.

Chapter 309: Probing!

Looking at the angry Kalifa in front of him, Su Xiao didn't do anything. He was happy knowing that he had the method to use Soru now. “Don't get so excited. There are just another two bombs. You can find someone to help you remove them, but let me remind you that anyone touching them will cause them to detonate instantly.”

Su Xiao was, of course, not telling the truth. The bombs were in a semi-active state, as soon as he feels something wrong, he would just activate them.

This is just a precaution. There are four agents in Water 7. Three of them were from Galley-la and the other one who owned a tavern here as well.

The last one is Blueno, who is proficient in the Tekkai of the Rokushiki, and he ate the Door Door devil fruit that allowed him to create doors through anything he touches.

Su Xiao was worried about one thing if Kalifa went to Blueno, and the latter uses his fruit to take out the bombs.

For this, Su Xiao semi-activated the bombs, so as soon as something goes wrong, they will be detonated immediately as he was linked to them, he could tell if something was wrong. In the end, he wasn't lying completely.

If Blueno dares to take out the bombs, he would most likely die along with Kalifa.

Kalifa considered this and didn't dare to do anything. She clearly felt the bombs in her stomach, which was the reason she only drinks liquids instead of hard food.

“Then, detonate it, don't expect to take another one of the Rokushiki from me.”

Kalifa was determined, giving away the Soru is already violating the CP9 rules, but she was in Water 7 for so many years that she didn't want the mission to end up in failure.

“You got it wrong.”

“What?” Kalifa looked at Su Xiao with suspicion.

“Why am I hostile toward you? What caused the conflict? Think about it.”

Su Xiao's words made Kalifa think. Yeah, why were they hostile to each other while they didn't know each other before.

“Because of... The bottle of poison.”

“Yes. I'm not interested in what you're doing here or what is your status. I was drifting in the sea and arrived here and tried to recuperate. It was you who took the initiative to try hurting me. Don't talk about taking a few bombs, me not killing you directly is good enough.”

Although she felt that there is some truth to his words, she felt something missing. So she directly recalled all that happened after.

First, she was entangled with a metal wire, then she was pushed to the ground, then she was forced to eat bombs, and finally, now he harassed her.

The more she thought, the more she knew what was wrong, she was the victim all along.

“I won't believe your words. You're a liar.”

Su Xiao ate a lot and drank a lot as well. The food here was full of calories, so he felt that he was recovering faster.

“A liar? Whatever you want, but... Do the bombs in your stomach mean so little to you?”

The topic returned to the bombs, Kalifa was sad. She felt that if she didn't pay anything today, she would die.

She gritted her teeth and said: “Speak... What do you want?”

“Didn’t I tell you? I will charge a technique from the Rokushiko for each bomb.”

Su Xiao lit a cigarette and took a deep breath, which felt refreshing after a meal.

“Why cling to the Rokushiki and not other things?”

It seems like she won’t hand over another technique.

Realizing this, Su Xiao said jokingly: “You can come to my room and warm my bed tonight if you want.”

“I can do that.”

Su Xiao was stunned. He didn’t think Kalifa would agree.

“Don’t look like that at me. I can do the task and rest assured, I’m clean.”

Su Xiao waved his hand as he said.

“I don’t have the habit of forcing women to do this. If a technique from the Rokushiki can’t work... Then give me a Sword from the O wazamono series.”

O wazamono series: one of the most famous swords in the world that contain only 21 swords, each of them is well known.

There are three such sword series in the world or as they’re called Meito. The first one is Ryo wazamono series which contain 50 swords of high quality, the higher grade are the O Wazamono sword series, which contain 21 swords which are one of the best in the world, and last. Best are the Saijo O Wazamono sword series, there 12 swords in this series and they are the best swords known in the world.

The possibility of getting one from the Saijo O wazamono is close to none. But one from 21 swords is very difficult but still possible.

“Are you kidding me?” Kalifa looked dull after hearing his request.

“Why?”

“Each of the 21 swords of the O Wazamono series is a rare treasure. I’m just a spy. It’s impossible for me to get my hands on one. It is easier for me to sleep with you in this case.”

Su Xiao almost slipped. Does this woman want to sleep with him so much? Although she was a very sexy secretary type, she is still a poisonous flower.

“Since I can’t get one from the 21... I want one from the Ryo wazamono Series.”

Kalifa wanted to say another thing, but Su Xiao interrupted her.

“In four days, I want one of the Ryo Wazamono swords in front of me. And remember, I want one the size of my sword.”

Su Xiao pointed at Dragon Flash. After all, he didn’t want a sword that would change the shape of his sword, if Kalifa brought one without him saying this condition, he would be embarrassed.

“Why should I believe you?”

“Do you have a choice?”

“I... Will do my best.”

After receiving Kalifa’s request, Su Xiao put out the cigarette as he thought that he made the right choice not to kill Kalifa. She is more useful alive.

“As a bonus, you’re allowed to eat today.”

Su Xiao snapped his finger, and the bomb returned to a smaller size.

“Shameless...”

Kalifa gritted her teeth as she took the meat in front of her and bit it while imagining it was Su Xiao.

“A****|e.”

Kalifa murmured.

“What?”

Su Xiao looked at Kalifa.

“Nothing, I said you’re handsome.”

Kalifa felt a pang of slight guilt as she really said something offensive.

“If I hear something similar next time, you will be invited to eat another free chewing gum.”

Kalifa was stupefied. She could tell that he meant bomb.

Why do I have a bomb in my stomach that could explode at any moment? From today on, Kalifa’s most hated color is white, the color of the ‘gum’ she ate.

The banquet came to an end with Su Xiao in a good mood.

The workers sang loudly as Su Xiao left with some food and drinks.

Outside the villa, Kalifa waited in a dark corner waiting for her companion.

“What happened?”

A man came behind Kalifa and asked in a cold voice.

“I swallowed three bombs, one is dealt with, but there is still two more in my stomach.”

Kalifa sighed.

“Can you dissolve the bomb?”

“No... Not sure.”

“Go find Blueno. He can do it.”

The man that showed up was Rob Lucci.

Chapter 310: Explosives!

At night, inside a tavern, you can find a tall man with a rough face and horn-shaped black hair as if he was a bull. This was Blueno. Blueno was wiping a glass in his hand while staring straight ahead as if he was in deep thoughts.

Ding!

The door of the tavern opened, making a jingling sound while someone stepped inside.

Blueno didn't look up as he knew who was here.

“You're here, Kalifa.”

Blueno's voice was dull, but his presence was quite overbearing. This was a master of Tekkai.

“I had an accident.”

Kalifa didn't explain anything much, just the fact that she had a bomb in her body.

“Lock the door.”

Kalifa locked the door before finding a chair and sitting down.

“Where is the exact location of the bomb?”

“In my stomach, here.”

Looking at where she was pointing, Blueno nodded.

“Human Door.”

Blueno put a finger inside Kalifa's body, and something inexplicable happened.

A small door opened on her stomach without any blood leaking out. This Door Door Devil Fruit doesn't harm the Human body.

The inside of Kalifa's stomach appeared in front of Blueno, who directly picked a bottle of alcohol and poured it on his hand then directly opened another door in her stomach.

Blueno looked inside, and his pupil shrunk after seeing what's inside.

“Can you take it out?”

Kalifa's voice was urgent.”

“It's difficult, very difficult.”

“What happened?”

Kalifa looked down inside her stomach, and what she saw made her face dull.

In her stomach, two white gel-like substances formed tentacles that clung to her gastric mucosa as if they were roots of a tree.

Blueno tried to touch them, but as he did, the white things started heating up as Kalifa felt the pain.

“This thing is clinging to your gastric mucosa, with a slight touch, it will explode... Who did you meet?”

Blueno’s face wasn’t good. This unknown enemy was cunning and planned for every scenario.

After groaning for a while, Blueno said: “If you want to take the risk, the chance is 10% or below.”

Kalifa collapsed in her chair as if she was thinking.

“Take it out!”

Kalifa made a hard decision, and she didn’t want to be controlled like this.

“Then, I will try.”

Blueno took a deep breath and slowly pushed the tweezers inside, and as soon as it touched the bomb, the bomb turned red. Blueno stopped as if waiting for the bomb, calm down.

After a long time, the bomb returned to its white color as Blueno continued gently.

One of the Tentacles was cut, which surprised both of them.

“Tekkai Go!”

Blueno immediately used his Tekkai and turned as hard as iron while Kalifa was desperate.

The explosion didn’t occur as the bomb returned to the normal white color.

“It doesn’t seem as sensitive as you think.”

Blueno put the tentacle cut from the bomb on the table, it directly exploded.

Boom!

As it exploded, the table was directly shattered as splatters flew everywhere. Blueno stood in front of Kalifa.

Bang! Bang! Bang!

The splatters hit Blueno’s body as if they were bullets while he used Tekkai Go. He was unharmed, but he was still pushed back.

The explosion subsided. Kalifa’s face was white, and her clothes were sweaty while she felt like collapsing down.

“This is...”

Blueno was puzzled. The bomb didn’t seem like it will explode before.

“I think this bomb is remotely controllable.”

“It can be controlled from far away?” Blueno said dumbly.

“Yes.”

The extraction failed. Blueno deactivated his ability, directly returning Kalifa’s body to normal.

“You can only deal with it yourself.”

Blueno directly returned to the bar and threw a bottle of wine toward Kalifa.

Kalifa directly took it and drunk a little.

“If I die, don’t look for revenge, it isn’t worth it.”

Kalifa left after saying this. After confirming that no one was following her, she took out a den den mushi and made a call.

After a while, the call connected.

“Here is Jabra, is this you Kalifa? Aren’t you on a mission?”

A sly voice came from the other side of the Den Den Mushi which was making a wolf-like expression.

“It’s me. I have a request.”

“What is it?”

“If I remember correctly, you got a good sword from the Ryo Wazamono series on a mission 6 years ago. I want it.”

Kalifa’s demand made the Jabra speechless.

“When did I get that?”

“Don’t try to deny it, I saw it with my own eyes.”

Kalifa rolled her eyes. She couldn’t understand this person’s character.

“Well, I already gave it to our superior.”

“Oh? Really?”

“Of course, do you think I’m lying?”

Jabra was apparently impatient.

“Thirty Million Berry, I will buy it.”

“I said...”

“I can still go ask that superior?”

“It’s a deal, will you come to pick it or do I send someone? When did you switch to using swords?”

The voice from the other side of the call was treacherous to the extreme.

“Send someone to deliver it. It must be delivered tomorrow.”

“This...”

Jabra seemed embarrassed suddenly.

“Come here by train. I will pay for it.”

Kalifa was helpless. That money grabbed was just too much.

“I will tell you first. This stays between us, don’t tell anyone.”

“No problem.” Kalifa agreed.

Hanging up the phone, Kalifa leaned against the wall, full of frustration.

“Just you wait, no matter what it is, whether the Rokushiki techniques or the sword, everything will be returned, along with your life, Byakuya!”

Kalifa didn’t give up so easily, she encountered a lot more difficult things before, and she still came on top.

Kalifa wasn’t the strongest in the CP9, but her patience was the best out of all of them, which led to her being the only female member of the CP9.
