

R. Paradise 321

Chapter 321: I'm too young, please let me go!

Fire soared through the sky after the bomb exploded. The roof under Li and Lilith collapsed as a large shank of it fell down with the two of them toward the third floor. "cough!"

Smoke rose as Li and Lilith kept coughing.

"Didn't you say our opponent's weapon was a sword? First a gun... now a bomb... Damn it!"

Suddenly another bomb was thrown into the room, and the two of them directly took cover.

A few seconds later, the bomb didn't explode, which made Lilith sigh, but when she looked at Li, she found him hurrying toward the window as if something really bad was about to happen.

Without thinking, Lilith directly rushed forward as well and jumped through the window.

While they were falling, Lilith looked down to see civilians rushing away and a man holding a sword moving forward. This was the enemy.

Although she was still in Mid-air, she still could use her abilities. Directly blood surged from her wound and forming a sword in her hand.

"Li, restrain him."

Lilith shouted as she landed along with Li.

Sound of metal wire was directly registered inside Lilith's brain, as she suddenly felt severe pain as a thin metal wire struck on her flesh.

Su Xiao grabbed the wire that came out of the Gauntlet and pulled hard.

Puchi!

Directly Lilith was cut into several pieces, but weirdly no notification sounded, which made Su Xiao frown. Also, the amount of blood gushing out was just too exaggerated.

At first, Su Xiao rushed toward the building until he reached a few contractors that intercepted his way. But it was weird, these contractors were high in rank but weak in strength.

Although they were weak, they were extremely brave as they rushed toward him with everything they had, only to be killed in the end.

Su Xiao killed five people in about 1 minute, which made him puzzled. Why would these weak contractors provoke someone like Blueno and the CP9?

After thinking it through, he comes to the conclusion that the other two should be the main force. He directly locked them and used Broken Elf's special ability.

After shooting six times, these two laid down. Not dying after receiving these six shots directly made Su Xiao evaluate their power, because the six shots damage would've killed that person if he was as weak as the others.

Su Xiao didn't receive the notification, so he directly threw a bomb at them.

After it exploded, they fell to the third floor, and Su Xiao directly threw another bomb, but this time, he didn't detonate it directly.

He already guessed that they might jump out of the window, so he directly went toward the window waiting for them to land beside him.

Everything happens the same as Su Xiao predicted, they jumped out the window, so he didn't detonate the bomb, because it would be a waste.

When they landed, Roja used the Wire on the Gauntlets, and that's the whole thing.

Su Xiao retracted the metallic wire and stared at the pile of flesh on the ground, and the woman wasn't dead, he was sure of it.

As for the little guy, Su Xiao felt that he might be difficult to kill, so he decided on the woman first.

Blood gushed out, and every piece of her flesh changed to blood before curling into a ball.

The ball changed shape and revealed an adult form of a woman who was pale and gasped for breath.

“Little friend, we didn't do anything to you, no need to be so hard.”

Lilith stood in her place. She didn't care that she was completely nude, as she wanted that to affect her opponent.

“Let's talk about it.

Lilith moved closer to Li while the latter did the same.

“There is nothing to talk about. Your goal is Nico Robin or Blueno. There is no other possibility.”

Su Xiao approached the two of them with his sword.

“Don't be so ruthless.”

Lilith winked at Su Xiao as she started to 'touch herself'. This scene would make most people fly back with a fountain of blood spurting out of their nostrils.

“As long as you don't kill us, you can do anything.”

Lilith licked her lips, as Li whispered softly: “What a shameful skill.”

Lilith smiled and whispered back: “You can do it then, maybe you're his type.”

Li stopped talking and didn't dare approach, Su Xiao. He had a strong impulse to just turn around and run.

Their enemy was just terrifying, without even seeing him, they were defeated, Lilith even used her trump card to save her life.

“Come on, use your 36D pain on him, it’s best not to fight, although you will sacrifice yourself for the better good.”

“Shut up. I will never let any man touch me.”

Li froze and looked at Lilith in doubt.

“Then why did you attack me at night...”

Suddenly, he comes to a sudden halt as he thought of a possibility, he might’ve just discovered her secret.

Lilith twisted her body as her finger danced in the air in Su Xiao’s direction.

“Come here. I’m waiting for you.”

Su Xiao’s eyes changed color; at the same time, a warning appeared in the Reincarnation Paradise.

Su Xiao’s eyes were red as he moves forward toward Lilith as if he was controlled. But he could directly escape this skill at any time.

Su Xiao approached meter by meter. When he was three meters away, Lilith spoke.

“Can you put down that sword, it’s annoying. Do you have the heart to scratch my skin? I belong to you; every inch of my body is yours.”

Lilith directly pierced her palm with her nails. The blood directly formed a dagger.

“Of course, I can!”

The red color in Su Xiao’s eyes faded as he stepped forward, swinging Dragon Flash directly toward Lilith’s neck.

Lilith was stunned, she clearly saw the red color in Su Xiao’s eyes, and there was no notification about the skill being resisted at all.

The sword moved through the air toward her neck, leaving a white trail behind it.

Lilith directly raised her dagger, trying to defend herself only for the dagger to snap. Her neck was directly slashed.

Blood poured down as Dragon Flash penetrated her throat, but Su Xiao didn’t know why the sword stopped when it was two thirds inside her neck.

With Su Xiao’s pause, Lilith moved her body and directly got away from the sword, and her body was stained with blood.

Lilith didn’t use this opportunity to attack Su Xiao. She knew that no matter what she did, she wouldn’t be able to kill him.

Suddenly, the air around Su Xiao solidified, and a shield as transparent as glass appeared around him.

Su Xiao was trapped inside.

Su xiao looked at the young contractor, which he couldn't tell if he was a boy or a girl. This was the young one's doing.

“Runaway, he has at least 30 points in strength. I hope his agility isn't as high.”

Li directly turned around and started running, as he turned around to look at Su Xiao. But he was surprised because he couldn't see Su Xiao and only saw a Shadow rapidly approaching him.

“Is there anything wrong? And by the way, my agility is higher than 30 points.”

Tears come out of Li's eyes as he felt that he was too young and didn't want to die yet.

Chapter 322

Li could tell that something was wrong a few seconds after he started running. He felt himself being chased by a wild beast. “Li, we can't escape, we will be hunted.”

Lilith put a hand on her neck as blood leaked through her fingers. She was in pain as the Qing Gang Yang energy ran through her body, wreaking havoc.

Li stopped directly as he felt a long blade moving toward his head.

“Crystal barrier.”

Li stretched his hands in front of him, invoking a transparent barrier.

Su Xiao stuck with every bit of his power, which made cracks spread across the barrier before it shattered.

As the sword continued in its path toward Li's head, the latter's body shook as he stepped back in fear.

“Bloody Needles.”

Lilith directly shouted from the side as she launched a few needles at Su Xiao.

As the needles flew toward Su Xiao, he tried to avoid them to no avail, as one of them pierced his shoulder.

Soreness, numbness, he could no longer feel his hand as it fell limply.

His Hp was dropping rapidly, and if it wasn't for the Shadow of the Law's new constitution, he would be seriously injured after a short 5 seconds.

With the new constitution, his chances of survival increased dramatically. Now, this injury was only a minor one.

As strange energy invaded his body, the Qing Gang Yang energy directly moved against it taking away 20% of his Mana directly. The Qing Gang Yang energy was like a fierce Dragon facing someone who invaded its territory.

As soon as the two clashed, the strange energy, which was apparently a blood poison, was directly obliterated.

Looking at Su Xiao standing in his place, Lilith sneered. The poison was her blood. Even if she was facing an undead creature, it would still affect it with one hit, even if the hit wasn't in a vital place, let alone a living being.

“His left hand is dead. Li, let's use the combo...”

Lilith stopped talking mid-sentence as her eyes widened.

“Why is he not affected by the poison?”

The reason for her surprise was, of course, Su Xiao, who was trying to move his disabled hand.

Although his hand was still somewhat numb, he could feel it again, and it won't take long for its return to normal.

If it wasn't for Qing Gang Yang energy, he would continue his adventure in this world with one hand.

The destructive properties of the blood poison can't be underestimated. It was a poison that blocked his blood from circulating toward the area it was hit in. If he wasn't cured now, his arm would be dead in no time.

Fortunately, it was cured now.

Su Xiao stood in the same place as he looked at the woman.

After some thinking, Su Xiao concluded that Li was the strategist as well as a scout and control type. He didn't have any attacking ability, but his chances of getting out alive from most situations were high.

As for the woman, she was using her blood to attack, and her vitality was high. He just struck her neck, but she didn't turn into blood again, and she was injured.

This means that ability was a life-saving skill she used, and she can't use it again for now.

If this was the case, then his first target should be the girl because Li can't attack, and with his barriers, it would be hard to reach him.

Although killing the woman would be somewhat a pain, but it was the best choice. Making up his mind, Su Xiao gazed at Lilith, directly making Li happy.

“Yes, she is your target now.”

Li directly started running as he wanted to abandon the woman and getaway.

“Li, if I die, someone will go to G city, TJ province, and kill that person.”

When Li heard this, his legs halted as he turned pale.

“You... Investigated me.”

“Face him with me, or everyone will die.”

It seems like they were in fighting, and Su Xiao wouldn't let this opportunity pass by without attacking.

Su Xiao runs toward Lilith while an Alchemy bomb appeared in his hand.

Lilith's gaze focused on the bomb that Su Xiao threw.

As the bomb flew to Lilith's side, she covered her head and stepped aside.

But the bomb just flew past her and didn't explode directly.

50% of Lilith's attention was on the bomb, which exploded as soon as it was slightly behind her and made her jump forward.

Puchi!

Lilith finally registered a tingling sensation on her chest. When she looked down, she found a long sword penetrating her chest.

At this moment, Su Xiao's movement stopped as a layer of Ice wrapped his leg. It wasn't actually Ice, but more like a barrier. Suddenly, a hint from the Reincarnation Paradise appeared in front of him.

The barrier spread across Su Xiao's lower body before stopping and trapping him in his place.

Su Xiao glanced at Lilith and decided not to use the Mithril Ring's effect to cancel the Control effect placed on him. It wasn't necessary anymore.

"I don't accept this. I still have the ability..."

Lilith's body started to lose strength, but due to Dragon Flash piercing her, she didn't fall down.

Her heart was pierced, and along with the Qing Gang Yang energy invading her body, she would certainly die.

Unfortunately for her, what Su Xiao can do best is fighting Contractors.

Lilith fell to the ground with a thud. She still had some abilities that she didn't use, but she didn't get the chance to try them. At a life and death battles, making a mistake can kill you.

One is down, another one to go. Su Xiao directly looked at Li, who was running away.

Chapter 323

Crack!The crystal barrier holding Su Xiao started cracking, and 2 seconds later, Su Xiao was free.

When Su Xiao was going to chase after Li, the latter was standing anxiously in his place.

"You're strong, I can't face you, but you won't kill me. I will go bankrupt this time."

Li took out a purple scroll. Su Xiao could feel spatial fluctuation surrounding the scroll, which meant that this was a space type scroll.

Getting over the shock quickly, Su Xiao rushed toward Li while wrapping the Metallic wire on Dragon Flash's handle before throwing it with everything he got.

Dragon flash flew toward Li's torso with astonishing speed.

Li held the scroll with both hands and directly opened it, releasing a blinding purple light.

“Crystal Shield!”

Li consumed all of his mana to use another shield until he teleports away.

Directly, Li was covered by a Crystal barrier from head to toe.

Crack!

Dragon flash directly pierced the Shield and penetrated Li’s body, but only a few centimeters of the blade pierced his body before it stopped.

The combination of the Shield and the scroll is annoying. It like someone having absolute survival.

But this came with a price, as Su Xiao could see the items that Li was wearing disappearing one after the other. It seems like the scroll would only activate by sacrificing items the user is wearing.

The spatial Fluctuation got stronger until Li disappeared from his place.

Just when Su Xiao was about to give up, the space behind him distorted slightly, and Li appeared behind him.

Su Xiao almost face faulted at this, what?

The crystal shield surrounding Li disappeared, and his first reaction was to look around.

“Finally, I got away. But why does this place seem familiar? Was I randomly teleported inside Water 7? Fortunately, I wasn’t teleported into the sea.”

Li didn’t know why it was so familiar until he looked at the buildings around him and saw the collapsed third floor.

The teleport Scroll properties were as follows.

Quality: Purple

Usage Requirement: 10,000 Paradise Coins, randomly offering 3 pieces of equipment that the user is currently wearing.

Effect: Teleport the user randomly to any place within 2 Kilometers.

...

“This time, it’s over.”

Li could feel Su Xiao coming from behind him. He didn’t turn around as he knew that Su Xiao wouldn’t show mercy at all.

“Please... Don’t cut off my head, that’s too ugly.”

Puchi!

A sharp sword penetrated Li’s heart. Li’s mouth opened slightly as his body moved forward. He knew that Su Xiao was coming toward him, but he didn’t do anything, he didn’t have any mana left, and if he resisted, it would just be more painful.

“It looks that you not lucky today.”

While speaking, Su Xiao pulled out Dragon flash. Li fell on the ground directly as his blood covered the ground.

“That’s useless, teleportation scroll... It teleported me 50 meters away...”

Li stopped talking after saying this. He was breathing no more. He didn’t die because of the scroll. He died because he tried to attack Su Xiao, who wouldn’t show mercy to his enemies.

Li had a habit of relying on others since he was a child. After entering the Reincarnation Paradise, he was injured in his first battle, and he didn’t like the pain. Therefore, he developed his ability to be a supporting character, so he wouldn’t have to fight.

After cooperating with Lilith, she made him her assistant.

Su Xiao killed them without much effort compared to others. He didn’t feel the excitement while fighting them.

There are three factions in the Main Quest. Each faction was hostile toward the other. This was a rule set by the Reincarnation Paradise.

Killing Seven contractors, Su Xiao got three scarlet Cards, one of them was from Lilith, and the other two were from two random contractors.

His mana increased by 48 points after killing all seven.

Su Xiao could tell that his Hp increased by 14 points due to the increased Mana.

Su Xiao sheathed his sword as the battle ended.

If Blueno was the one facing them, he would definitively lose. With Li’s ability to restrain the Soru and Lilith’s ability to poison the body and along with the other contractors holding Robin, he would’ve died.

“Bob, come out.”

Su Xiao looked around, but he still didn’t see Bob, he didn’t know where the latter hid.

Bubbles suddenly started rising from the water. Su Xiao’s mouth twitched. Bob’s hiding places started to become strange.

Bob got out of the water and directly shook his body to dry himself.

“You hid underwater the entire fight? Great, no one would expect that.”

“Wauf!”

Bob barked in pride as his tail wagged quickly from Su Xiao’s praise.

“I didn’t know that you can hold your breath that much.”

Su Xiao took a piece of meat and threw it toward Bob. Although Bob caught it, he didn’t eat it.

Taking a closer look at Bob's belly, Su Xiao could tell that it was bigger than normal.

Su Xiao leaned down and touched Bob's belly. The dog enjoyed this and directly fell to the ground with his belly toward Su Xiao.

Bob's belly was inflated. He probably ate in the water, or he drunk too much seawater.

Su Xiao pressed on Bob's belly, which made Bob directly retch a few times while looking at Su Xiao with resentment. He seemed to say, 'Why are pressing my stomach so hard? You want me to vomit.'

Su Xiao smelt something that seemed like a fish and directly concluded that Bob just ate a few fishes down there.

Su Xiao was startled by this, this dog couldn't even catch a rabbit on land, but he could catch fishes in the water.

"Stand up."

Looking at Bob lying down, Su Xiao gestured.

Instead of getting up, Bob shook his body while making a cute expression known as puppy dog eyes at Su Xiao to pat his belly.

Su Xiao couldn't help it as he patted his belly for a while. Bob finally stood up satisfied as he circled Su Xiao.

"Byakuya, where are the enemies?"

Blueno ran toward him with blood-stained hands and a gunshot wound on his shoulder. It seemed that other people went to fight him. The shield wouldn't be able to hold Blueno. He had the Door Door fruit after all.

"I finished them off. The plan is unchanged."

"Finished? So fast?"

Blueno looked at the blasted building and hurried forward to take a look.

Not long after, Blueno returned with a new understanding of Su Xiao's power. He felt that Su Xiao wouldn't need his protection.

"The operation will start at night, Lucci is already preparing."

Blueno looked at Su Xiao.

"You should catch Iceburg directly. Your previous plan will be tiring."

If they followed the original plan, it would be troublesome, it would be okay if there wasn't any contractor in this world, but there are, and they knew the original plan.

That's why Su Xiao suggested that they directly deal with Iceburg.

They want Pluto's design, but they didn't know that Franky was the one who had it, not Iceburg.

The Rob Lucci thought about it, but he couldn't confirm it, he wanted to ask Iceburg, so they don't catch the wrong person.

Chapter 324

Su Xiao wouldn't tell Lucci that Pluton's blueprint is with Franky. First of all, they didn't inform him about their mission. Secondly, he won't be able to explain how he knew about the blueprints being there.

So he said nothing as the CP9 moved to find the blueprints of Pluton.

Their plan to make the Straw hats look bad is full of flaws, and with the contractors being there, it surely won't happen.

Su Xiao directly proposed to arrest Iceburg directly, but Kaku didn't agree with him. Still, Lucci agreed, and with him having the highest position along with Su Xiao, they can't disobey him.

The final decision was still in Spandam's hands.

Although Spandam was the leader of the CP9 officially, he got that position through connection, not with his ability.

And someone actually said that Spandam was good at making plans, that person definitively has mental problems.

Several agents were lurking in Water 7 for so many years and knew the place like the back of their hands, and with the trust of the people there, it wouldn't be a problem at all getting to Iceburg.

Galley-la company has three people who can fight, who are Paulie, Peepley Lulu, and Tilestone.

Even though they were somewhat strong, Lucci, or Kaku, can directly solve them in an instant.

The plan was for Kalifa to monitor Iceburg, Lucci, and the others deal with the Shipbuilders, while Su Xiao and Blueno arrest Robin. They would meet later at Iceburg's office.

The whole operation would take about half an hour like this, and they can leave easily afterward. All in all, everything would end in an hour.

Spandam's plan was too stretched, and it would take at least two days.

Two days against one hour, it was clear how good Spandam was with his strategy. But after Lucci reported to Spandam, the latter directly said that his plan was perfect, and no change should be made.

At that moment, Su Xiao wanted to kill him. A pig teammate wasn't the most terrible thing in a team, a pig leader was the real horror.

If they continue as planned by Spandam, Robin will attack Iceburg with Blueno tonight to make the straw-hats desperate, and later they would confront Iceburg, which would give a lot of time for retaliation.

Su Xiao won't allow that, if he didn't escort Robin to Ennis lobby, he would be directly forced out of one piece without even gaining much from such a world.

Su Xiao tried to contact Zero, and when Zero heard that the plan could be reduced from two days to one hour, and the situation in Water 7 wasn't calm, he was furious and directly went looking for Spandam.

It was unclear what Zero did, but in the end, Spandam contacted Lucci and told him he agreed with Su Xiao's plan, but he still threatened Su Xiao, because the latter interfered with his plan which he thought was perfect.

They started the mission at nine in the morning, Kalifa monitored Iceberg, Kaku, and Lucci directly dealt with the shipbuilders, and Blueno with Su Xiao arrested Robin.

Now that Robin was successfully arrested, Su Xiao only needed to watch the show.

The finishing touch would start at 7 in the evening. During the day, there are too many eyes, and they could be easily discovered. After the mission is complete, the main agents of the CP9 would leave, and the ordinary agents would clear the mess left behind.

Now all they had to do is wait for 7 pm.

In a private house that Blueno bought anonymously, Robin was sitting aside while Bob was guarding her, Blueno was tending to the wound on his shoulder. Su Xiao didn't order Bob to do this, but the dog volunteered.

Bob doesn't understand what love and care about the fairer sex means if he really cares, it would be about a female dog!

So if Robin was to dare do anything, Bob would bite her mercilessly. Su Xiao just leaned on a chair while holding a watch in his hand.

"I won't run, so I don't need a guard."

Robin spoke suddenly, with helplessness on her face.

Bob showed his fangs as if he was warning her not to speak.

"Bob isn't guarding you."

"Huh? Then what is it doing?"

Robin wasn't feeling well being stared by Bob.

"It took a fancy to your boots. You can take them off and give them to him."

Hearing his words, Robin, who was desperate, hesitated a little before taking the boot on her left leg and throwing them toward Bob.

Bob directly bit the boots. Then he looked at the other one on her right leg.

Robin sighed and took it off as well...

Su Xiao closed his eyes while still leaning on the chair, and after a few seconds, Robin's voice came.

"That... Byakuya-san, please don't let your dog stare at me, I don't have anything else to give to him."

Su Xiao opened his eyes a little as he was annoyed, but what he saw surprised him. He froze in his place at sight.

Robin was wearing a corset and a Miniskirt while she was curled on the bed.

Bob was staring at Robin's corset while torn clothes were under him.

"Bob, she is the quest objective, you can't do that."

Bob ran to Su Xiao's feet and leaned on his legs, seeing this, Robin was relieved.

The room turned quiet, and only breathing could be heard.

"Wuff!"

A bark was heard, Su Xiao looked up and saw both Robin and Blueno asleep, then he turned to Bob.

The days, the dog was having a nice time, he was happy. He ate very well, and he hid when a battle starts and sleep when he is bored.

Although it was simple, he was having fun.

Su Xiao started meditating. After a while, Blueno said.

"It's almost time."

Su Xiao directly opened his eyes and looked at the watch, it was 6:30 pm, and the sky was getting dark.

"Lucci and the others should be here soon."

Lucci and Kaku will meet them here while Kalifa monitored Iceburg.

After half an hour, a knocking came from the door, and the knocking had some rhythm to it.

"Bar."

Blueno said.

"Rum."

Lucci's voice came from the other side of the door, Blueno opened the door directly letting Lucci and Kaku in.

Lucci put on the black suit, the black hat, and Hattori landed on his shoulder.

Lucci being here on time meant that the Shipbuilders were dealt with.

"Everyone is here; let's begin."

"Five years of hard work, finally the time to yield the result is here."

All the CP9 put on a black suit. Afterward, Blueno pressed his hand on the wall. Suddenly a stone door opened on the wall. As Blueno took the lead, Lucci and the others followed behind.

As Su Xiao entered, he saw a somewhat distorted space with cyan color. After Roing entered, the door was closed.

...

In the center of Water 7, inside an Office, Iceburg sat behind a desk while sketching. This was his hobby for many years now.

The door suddenly opened, which made Iceburg subconsciously look toward the door, but it wasn't open.

When he turned his head around, he found that a few people were inside his Office.

“Why are you guys here?”

Iceburg wanted to ask, but Kaku directly rushed forward and grabbed Iceburg's collar with one hand and directly pressed him down. Kaku held one of Iceburg's arms behind his back as his face touched the ground.

“Iceburg-san, I want to ask you something.”

Lucci was in a good mood. It's the moment they would rip the results of all the works they've done, and completing the task quickly and accurately was something he liked.

Chapter 325

Iceburg was pressed to the ground, the first thing that appeared in his mind was that Lucci and the others were bought and are now betraying him. “What are you guys doing?”

With what Kaku had said, it was clear that they were no longer his subordinates.

“It seems like you're still don't get it, Iceburg-san!”

Lucci fixed his hat and looked at Iceburg with a smile.

“Were you bought by some other company or a large pirate group? I didn't offend anyone, so it only leaves these two parties.”

After being stunned at first, he started thinking about his current situation.

“Pirate? We aren't that free. Time is running out; let's go straight to the subject.”

Lucci gestured for Kaku to release Iceburg, and the latter complied. Iceburg sat down on the ground and didn't get up. Three of the five people in this room were his close friends, but those three betrayed him which made him depressed.

“Iceburg, hand over the blueprints of Pluton, and your end won't be painful. We were after it for the past five years.”

Lucci directly threatened Iceburg, and when the latter heard the word Pluton, his pupil shrunk, and his mouth fell open.

“You guys weren't bought by other companies or pirates.”

Iceburg's clenched his fist as he trembled.

“Of course, well, you can tell us or die.”

Lucci paused a little before continuing.

“We know that you’re depressed now, but the deadline for our mission is approaching, and we need to complete it quickly, so don’t make it hard and resist.”

Iceburg’s face was ugly as he already guessed the origin of Lucci and the others.

“You should’ve heard about the Cipher Pol department, in short, the CP. the CP1 to CP8 are eight departments tasked with intelligence gathering for the world government.”

Lucci wasn’t talking nonsense. He was breaking any defense Iceburg had in his mind.

“I’ve heard about them. They use everything to get the information.”

Iceburg’s looked down as he knew where they were headed with this talk.

“Good, but we are the CP9, which no one knows about, we have some privilege compared to others, and our identity can’t be made public.

“Privilege?”

“Yes, we are working under the name of Justice, and we have the right to execute anyone who doesn’t cooperate with the government.”

Iceburg’s face paled.

“Who could accept someone who kills others in the name of justice.”

Lucci ignored this and continued: “You only have one choice, hand over the blueprint as the world government changed their mind, instead of fearing people would rebuild the Ancient weapon, they would just take the blueprint and build it to end this Era of chaos.”

Iceburg snorted.

“Impossible, if the weapon was to be built, then more power-hungry people would eye it, and it would only lead the world to even bigger chaos.”

“It seems like you don’t trust the world government, Iceburg-san.”

“I just know the nature of humans, kid.”

Lucci’s face calmed down as he slowly walked to Iceburg.

“Do you still think we are your subordinates?”

Before Iceburg could speak, Lucci kicked him directly.

Boom!

Iceburg hit the bookshelf making various books and papers fall down.

“I talk to you with some respect, and you think you’re our boss.”

“Lucci, there are still 16 minutes left, if you can’t do it, I will take over.”

Su Xiao spoke. He had an agreement with Lucci. After seeing Iceburg, Lucci had 20 minutes. If he couldn't make him talk, then Su Xiao would take over.

Several people thought about what Su Xiao proposed, and felt cold.

“Yes,” Lucci responded and looked at Iceburg.

“Iceburg, for the safety of your family, if you don't tell us about Pluton's blueprint, then hell will break loose.”

Blood flowed from Iceburg's nose and mouth, even though Lucci kicked him lightly.

“Do you think threatening me by talking about my family will work. Do you think that I'm just some Shipbuilder? in order to prevent Pluton from falling into the hands of wrong people, I don't care even if everyone I know dies.”

Iceburg said as he was prepared for anything.

At this time, the door was pushed open, Kalifa entered while wearing a tight-fitting dress, while her legs were covered with fishnet stockings.

Kalifa held a few papers and an old blueprint as she nodded at Lucci.

“That assumption was correct. Cutty Flam, also known as Franky, the leader of the Franky family.”

After saying this, Lucci smiled as the things became simple.

Iceburg's head dropped down, and his eyes were panicking, as Pluto's design was with Franky.

“Kaku test his heart rates.”

Kaku held Iceburg with his knees behind his back as he put his middle and index fingers to sense his heartbeats. Iceburg was powerless.

“Iceburg, we won't torture you; it would've been an insult to what we did for five years.”

Lucci directly looked at the time. He still had 11 minutes. They were enough.

“Iceburg, you're the disciple of Tom, the legendary shipbuilder, who has two disciples, you and the other one is Cutty Flam. Cutty Flam was killed in an accident eight years ago, and the government confirmed that our leads were interrupted.

But after years in Water 7, I suddenly felt that the name Cutty Flam was familiar, but I give it no more thoughts.

Until one day, Kalifa told me that Cutty Flam actually came to you. How could he suddenly appear, if not for Kalifa hearing about it, I wouldn't even know this.

Our first thoughts were that the Cutty Flam that appeared was just an imposter, so the eyes on you would lose their interest. But after some investigation, we found that Cutty Flam was renamed Franky and continued to live in Water 7.

If you wanted to hide Pluton's blueprint, you wouldn't hide it in your house, right? The risk is too high, and it's not safe.

But, if you just gave them to a person who is dead, and that said person doesn't have any grand ambition to use the design, it would be perfect.

Therefore, Pluton's Blueprint isn't with you, you gave them to Cutty Flam, no, he should be called Franky now."

At this point, Lucci finished talking, and Iceburg was already sweating, and his heartbeat accelerated.

All of the CP9 knew that their guess was correct this time, after all, they knew Iceburg for five years and knew what his reaction meant.

Chapter 326

"It's confirmed then, Franky has the Blueprint of Pluton. His reaction gave it away." Kaku said as the others were finally relieved as they completed their task.

Su Xiao was in a good mood. With his help, it took two days of planning and one hour of work to complete the mission.

"So, we..."

Lucci was about to speak, but he suddenly felt killing intent from behind him. The CP9 were immediately alerted. Iceburg looked at the person releasing the killing intent; he felt like this person with a dog is the leader of the group.

As they looked at Su Xiao wondering what's going on, the latter spoke.

"Someone is here, five of them."

Su Xiao's face was ugly. He felt the familiar presence, and he knew one of them.

Carefully sensing them, Su Xiao immediately knew that one of them is Paulie.

"You didn't kill the three Shipbuilders?"

Su Xiao coldly looked at Lucci and Kaku. Lucci directly froze, he killed two of them.

"Paulie won't wake up for a while."

Five years working here made Kaku soft, as he couldn't kill Paulie.

"Then tell me who is the one coming here now."

Su Xiao directly looked at Kaku.

With a bang, the door was smashed open to reveal Paulie with a face full of blood as he was seriously injured.

"Say, Who is this?"

Su Xiao pulled Dragon Flash as he looked at Kaku coldly while Kaku lowered his head.

Su Xiao walked toward Paulie slowly, and when Paulie wanted to resist, his body couldn't respond, as a metallic wire was wrapped around him.

“What?!”

Paulie shouted as blood poured from his wound.

“Stop!”

“Stop!”

Iceburg shouted, but someone else also yelled from outside the room.

Puchi!

The Wire tightened as Paulie's body struggled a few times before he lost his voice.

A blue treasure chest fell to the ground. Su Xiao directly put it into his Inventory. This was his first Treasure chest he got from One Piece's world.

The floor was dyed red with blood as four people stood outside the door and stared at this.

These four were

The Protagonist: Monkey. D. Luffy.

Swordsman: Roronoa Zoro!

Navigator: Nami!

Doctor: Chopper!

These four appearances here had something to do with Paulie, who was just killed.

When Luffy saw Paulie dies, his brain couldn't accept it for a while, Zoro looked cautiously while Nami put her hand over her mouth with eyes filled with fear.

Su Xiao closed his eyes as he started spreading his perception. No other contractor appeared, and the situation wasn't serious. Kaku's action caused some trouble for them.

“This is Kaku's mistake, and I apologize for it.”

Lucci said as he would take care of this personally.

“It doesn't matter. This is just a small problem, and we can deal with it later, our priority is to deal with our enemies right now.”

Monkey. D. Luffy was the protagonist of the story and the one who could defeat many enemies far stronger than he is. Su Xiao could swear that his Luck Attribute was above 50.

He wasn't exaggerating. He was totally different from most other Protagonists.

“Good then, Kaku, Kalifa, Blueno, be ready to fight.”

Lucci was relieved, Su Xiao didn't do anything to Kaku.

Just as they were about to start, Robin, who was silent, suddenly spoke.

“There is no need to use force. They are coming to me.”

Robin stood in front of the CP9 and looked directly at the Straw-hats.

“Robin, we finally found you, why did you disappear so suddenly?”

After seeing Robin, Luffy smiled as he was already worried about Robin.

“Monkey. D. Luffy, aren't you mistaken about something?”

“What?” Luffy froze.

“First of all, I didn't say I want to join you. I just stayed on your ship for a while, so it doesn't matter where I go.”

Robin's harsh words made the four stunned. Tears rolled down of Chopper's face as he always considered Robin to be his Companion, but she just...

“Impossible!”

Luffy shouted.

“You are my companion. We have gone to many adventures together.”

Robin clenched her teeth. She had to do this to protect them. There is a fierce man in the room along with the CP9, and a bloody corpse.

“Don't you understand, I want to reach my dream, and I can't do that while I'm with you.”

Robin wanted to sacrifice herself to protect the Straw-hat pirates. Water 7 was filled with CP9 Agents, if they fight them, they won't be able to survive, and they would offend the world government in the process. This wasn't something Robin wanted to see.

“So stop with this meaningless farce, I need a strong backer, and that backer is the world government.”

After speaking, Robin stood beside Su Xiao.

“Being with you, poor pirates are not helpful for me, so please get out of my sight. We aren't companions, and never were.”

After Robin's remark, all of the Straw-hats were silent.

Su Xiao was now considering whether he should deal with them now or not.

Although this idea is tempting, it wasn't reliable. His Quest is a top priority. After Robin arrives at Enies Lobby, the Straw Hats and the Contractors will gather there.

“That's not true, Robin, you're lying.”

Luffy lowered his head.

Luffy's tone almost killed Robin.

“Get out of my sight. I don't want to see you anymore.”

Robin turned around as if she didn't want to look at them anymore. She was suppressing the urge to leave with them. She wanted to be with them, but she couldn't.

“Robin.”

Chopper called softly, and Robin's shoulders shook, Robin really liked the adorable Chopper.

“Three, Two, One.”

Su Xiao suddenly started the countdown, and the members of the CP9 immediately understood what's going on.

“Jump.”

Su Xiao grabbed Robin and jumped out of the window.

Su Xiao directly made five alchemy bombs explode inside the room.

Just before the bombs exploded, Luffy and Zoro felt the danger, and directly Zoro roared.

“Luffy!”

Luffy directly understood Zoro's intention.

Chapter 327

“Gomu... Gomu no, Balloon!”

Luffy inhaled with all of his strength, and his whole body suddenly enlarged like a balloon. He pressed Nami and Chopper under his body, while Zoro didn't need his protection.

Zoro ran toward Luffy and grabbed his body to prevent it from flying.

They were aware that something was about to explode in the room, but they didn't know what it was.

Nami and Chopper didn't struggle under Luffy.

Boom!

A deafening noise reached their ears as Nami yelled and covered her ears. She felt dizzy.

The impact and fire hit both Luffy and Zoro, but they didn't budge from their places, because if they moved, Chopper and Nami would die.

Bang!

Iceburg's home was directly destroyed. Iceburg wasn't protected and was directly crushed under the rubble.

Su Xiao, who jumped out of the building into another one, suddenly received a prompt.

He was surprised since he didn't expect killing Iceburg would actually get him some world's source. It seems like the source of the world can be obtained from special characters in the world, not just strong ones.

However, such people aren't easy to kill. If Su Xiao wasn't a member of the CP0 currently, the world government would be after him.

Although Iceburg gave him a few percent sources of the world, Su Xiao confirmed that he didn't drop a treasure chest.

In the room, Luffy looked ragged and blood dripping down his arms and forehead, miraculously, his straw hat was intact.

Zoro's situation was even worse. He had burns all over his body. He helped Luffy by receiving most of the damage. Otherwise, Luffy would be much worse now.

Nami and Chopper looked up only to see blood dripping from Luffy.

"Luffy, are you alright?"

The chopper was terrified as he hurried to Luffy's side.

"I'm okay, go look after Zoro."

The moment the explosion went off, Luffy clearly saw Zoro blocking it in front of him.

Chopper ran directly toward Zoro only to be surprised; the burns weren't serious, but a leg from a chair was embedded into his abdomen.

"Zoro!!"

Chopper was anxious. He didn't have anything on him to help, not even bandages.

"Zoro must be taken back to the ship. He must be treated immediately."

Chopper and Nami directly started searching for a first aid kit in ruins or even a clean cloth.

Luffy staggered toward Zoro and saw the chair's leg inserted in his abdomen. He directly pulled it.

Blood spewed out like a fountain as Zoro's eyes rolled in pain.

"You idiot!!"

Zoro was speechless, and Luffy knew he did something wrong. He directly inserted the chair's leg again to stop the bleeding.

It was accurately inserted into the wound, but Zoro's eyes rolled, and he fainted.

Chopper hurried back with a clean cloth.

"How did Zoro faint, he was awake."

Chopper looked puzzled.

"Ah, this, it was me."

As he talked, Luffy held the chair's leg and waited.

“Stop!”

Chopper rushed forward and stopped Luffy from pulling it out.

“If you pull this out, he will lose too much blood.”

“Yes, when I pulled it out, blood was going out like crazy, so I put it back.”

“Put... Put it back?”

Chopper didn't know what to feel right now, he just angrily yelled. “How can you do that, hurry up and carry him back to the ship.”

After Chopper helped bandage Zoro, Luffy picked him up and, with Nami, walked back toward their ship.

If Zoro and Luffy were the ones facing the explosion, they wouldn't be in such a sorry state, but Nami and Chopper needed protection.

As they moved, a man dressed like a cowboy was watching.

His face was pale, and he seemed injured.

“It seems like you accelerated the plot. I will see you in Ennis Lobby!”

This guy was the revolver guy that fought Su Xiao. After the fight, he directly went to see a doctor, and even though he was in a lot of pain when he took a leak, his fighting power didn't weaken.

He held a dozen of scarlet cards in his hand. Those who wanted to form a contract with him turned into scarlet cards.

“The emperor's Mad milk is also here, and there are also the three hooligans are here as well. Things are getting interesting.”

The cowboy laughed. Ennis Lobby will be full of chaos.

“Who are you calling Hooligans.”

“Brother, can I kill him.”

“Forget it, that would create problems with the brigade.”

Three muscle men wearing the same style of armor walked by the side as they each held hand and formed a circle and said.

“Three Hooligans.”

The cowboy shook his head as he looked at three with amusement.

“We are a perfect team.”

“Full of manliness!”

“The Three Brothers are here.”

The cowboy's eyes twitched as he felt embarrassed, talking to these three.

“A group of mentally unstable people.”

A loud voice came from a man wearing a priest's robe and carrying an iron war sickle on his shoulder.

“Mad milk, I didn't expect you to be in Water 7. I thought that you'd be in Ennis Lobby.”

The cowboy said.

“Coming to an open world like One Piece, of course, I would kill a few people first. But I'm curious about one thing, who hurt you so badly? I heard that your bladder was punctured?”

There was sarcasm in Mad Milk's words.

“Well, it's better than a mentally retarded healer who learned the wrong initial skills.”

Hearing this, Mad Milk turned black, he wanted to develop his skills as a healer, but he didn't expect that he learned the wrong initial skill, which resulted in him going toward combat, not support. Although his healing ability was amazing, he never healed his teammates. For him, his teammates only need to comment 666 and cheer for him.

“That is the will of the holy spirit.”

“Holy Spirit? I think it's an evil god.”

“What did you say?”

“I said, your emperor's cult, no, I shouldn't insult the cult, it's full of scheming.”

Mad Milk released the sickle on his back as his eyes turned red.

“I have long since wanted to kill you since you interrupted the baptism. We'll settle it today.”

Mad Milk held the sickle in his hand, and a golden light gleamed out of his body.

The cowboy sneered.

“Although I'm not a good person, I will not watch hundreds of children being sacrificed alive. Children are innocent, they can't take justice, but I can kill those who try anything on them in their stead.”

The cowboy started moving his fingers. This made Mad Milk to become cautious. This wasn't their first time-fighting.

“What do you know. I'm going to baptize them with purgatory flames. They're all... Forget it, I won't explain to someone like you, and I won't explain what I do.”

“You’re cheating ghosts, you fake priest.”

“Believe it or not, but I want to kill you right now. Although God says that we shouldn’t kill, if it’s an evil guy like you, it should be okay.”

The cowboy and Mad Milk were about to compete against each other. Only the divine guild could fight against the brigade. The first was a place for the devout believers and fanatics to gather, and the second was a place for crazy people.

The three Hooligans sat by the side as they watched with cola and popcorns in hand.

“Brother, who do you think will win.”

“Whoever wins, we will attack after they exhaust themselves.”

“That’s not good.”

“Nothing is bad. Neither is anything good. It’s us who decide whether it is good or not. And there are enemies to our regiment.”

“Brother, we are a football team, we don’t have such a regiment.”

“We just did. Do you want to say something?”

“Brother, we didn’t know that.”

During their discussion, two pairs of eyes were looked at them coldly.

“Brother, let’s run.”

“Good suggestion, whoever runs the slowest will do extra exercises later.”

The three of them started running as fast as they could, although they were fast, they run like wild dogs.

Chapter 328

Near Iceburg’s residence!Boom!

A loud gunshot sound reverberated, and if Su Xiao was nearby, he would recognize it.

The cowboy’s gun was unique, as he could shoot multiple times with just the sound of one shot.

After ten seconds, a big ten meters tall sledgehammer appeared and was coming down. The hammer was coming down toward Iceburg’s residence!

Boom!

The hammer fell on the house and directly smashed it.

Bloodstains could be seen on the ground, but the cowboy and Mad Milk were nowhere to be seen.

...

At 7:29 Pm, inside Franky’s home.

At this time, Franky’s house was already destroyed, with Su Xiao standing on the ruins with no one else there.

He didn't cause this; this should be when the straw-hat pirates came here.

A few of Franky's underlings injured Usopp and took about 200 million berry from him when he came to ask them to repair their ship. This caused Luffy, Zoro, and Sanji to come here and take revenge for their comrade.

With Franky not being here, his underlings weren't the Straw Hat pirates opponents.

Su Xiao sat on the rubble and lit his cigarette.

“Lucci, when will Franky be back?”

Lucy took out his pocket watch and looked at the time.

“He would be here in 10 minutes at most. According to the reports, Franky went to the nearby island to buy some Adam Wood. He will return after ordering the wood because it would take days to it to be delivered.”

Su Xiao puffed a cloud of smoke. Franky wasn't a normal thug. His identity was prominent in water 7.

Franky provides the wood used by the Galley-la company. The wood business in Water 7 was a big catch for most people.

Which is why Franky wasn't weak if he could be in that business here. Both Franky and Iceburg were the ones trying to make Water 7 float. Otherwise, the cost wouldn't be affordable by normal people.

The world government said that Iceburg should only be killed if necessary, but Franky shouldn't be killed at all.

Many people could take Iceburg's position, but Franky was irreplaceable, he was the disciple of the legendary Shipwright Tom.

If Iceburg inherited Tom's ability to build ships, then Franky inherited his ability to make weapons.

Franky was a genius. It was apparent from the Coup de Burst cannon, which was a downgrade version of Pluton's cannon.

Franky didn't understand the ancient language, he only saw some sketches and cracked them down. If he wasn't a genius, who was.

Su Xiao looked at the darkened sky and then looked at Robin while Lucci and the others were at a distance.

“Do you think you can die for the Straw Hat pirates?”

Hearing Su Xiao suddenly talking, Robin was stunned.

“What?” Robin looked at Su Xiao in surprise.

“I said you are stupid.”

Robin heard him and frowned.

“Whatever you say, I’m your captive right now.”

“Captive, huh.”

Su Xiao chuckled as he placed his hand on Robin’s shoulder, who stiffened.

“If you’re a captive, then I can do whatever I want.”

Robin’s expression stiffened, but she quickly calmed down and felt something wrong. Thinking for a bit, Robin moved toward Su Xiao, close to his arm.

Lucci and the others saw this and said nothing.

“What do you want to say. You’re different from the CP9.”

Robin looked around. Although Su Xiao killed before, Robin felt this was an opportunity for her.

“In addition to mastering the Ancient Language, what else is coveted by the world government? Don’t tell me it was only for it, because some of the old Celestial Dragons should be able to read that language.”

Robin remained silent, and Su Xiao continued.

“Just a day ago, I wasn’t someone from the world government.”

“Then you are...”

Robin looked at Su Xiao suspiciously, but her eyes revealed her confusion.

“The world government want my ability to make bombs, the kind you saw earlier. Don’t look at me like that. The Straw Hats are alive. If they died so easily, they wouldn’t have the ability to reach Water 7. I helped you before, if it wasn’t for me throwing that bomb, Lucci and the others might have killed them. You should thank me for that.”

“Er.” Robin looked at Su Xiao. She always felt that something was wrong.

“I should thank you? Are you kidding me?”

“Yes, you should thank me.”

Su Xiao though quickly. He thinks that Robin might have the cotard Syndrome.

The so-called cotard syndrome is a mental state which can easily be identified. If someone asks you, have you died, and your instinctive answer is yes, then congratulations, you suffer from cotard syndrome. But don’t worry, it’s not that hard to treat it. All there is to it is adjusting the state of mind.

The biggest problem of the cotard Syndrome is that the one suffering from it is always denying that he should be alive, and only those who have a near-death experience or are demanding death would have it.

This is Robin's case today, and this syndrome comes with another condition, which is a mild delusion, and the person would be slightly an M.

Of course, Robin wasn't actually an M. She just carves death and, at the same time, carves for others to hurt her, and as soon as her cotard syndrome disappears, the M characteristic would as well.

Su Xiao studied Psychology before, and he could tell that Robin was determined to die without thinking about anything else, which dropped her IQ significantly.

Robin said: "I'm going to die. What do you want to do?"

Su Xiao's smile was getting brighter and brighter. Bob looked at his master's smile weirdly.

It's the first time he saw his master smile like that, and he felt that the woman would definitely be cheated somehow.

Ignoring Bob, Su Xiao whispered in Robin's ear: "We all have something that the world government wants, but why are you here?"

Robin bowed her head in contemplation. Her eyes brightened after some time.

"Because... I have weaknesses."

"Yes, you have weaknesses, the straw hats. By the way, I will tell you something. You see them now paying respect to me now, but when I arrive at Enies lobby, I wouldn't be able to leave again."

Su Xiao clearly knew that Lucci and the others are respecting him for his power and because of the orders.

But as soon as he gets to Enies Lobby, the world government would try to take the alchemy bomb technology from him, and only when they can't reproduce it will he deserve his status.

But even then, he won't be able to leave Enies lobby because the world government won't permit it.

Su Xiao didn't care whether or not he can leave Enies Lobby. Instead, he cared about whether he can move as he wants there or not.

Chapter 329: Sea Train

"You said that you weren't with the world government before, and you have what the world government wants."

Robin sorted her thoughts as her syndrome receded temporarily.

"Yes, but my treatment would be different compared to yours. You will be imprisoned by the world government, and rest assured, they won't let you die. They will use every means of torture to get information out of you."

Robin turned her head as she seemed not to care about torture.

"I'm not afraid of death, let alone torture."

Su Xiao wasn't dumb. He could tell that she didn't see anyone getting tortured before, or else she wouldn't think that torture was easier than death.

“So, imagine how it would feel when someone peels off your skin slowly.”

Robin's face changed.

“I'm not good at torturing, but I know something about it. With your determination, you would be able to persist for two hours, and that would be a miracle in itself.”

Su Xiao continued to introduce torture to Robin, which made her become pale. She was likely to experience some of these methods for the knowledge she had. But she can never tell the world government what her mother and the others in O'hara traded with their lives.

Robin also knew the whereabouts of the ancient weapon Pluton, not just a drawing, but an actual built one.

That was easier for the world government instead of building another one.

Not only that, but Robin knew many things about the celestial dragons.

After listening to Su Xiao as he described the torture methods, Robin was afraid. She couldn't think humans could be so evil.

“Will I really experience something like that?”

Robin wasn't stupid, and she was already suspicious about Su Xiao.

“No, you won't.”

Robin relaxed a little.”

“You will experience even worse than that.”

Su Xiao looked at Robin with a smile. He and Robin were in similar situations. The moment he met Kalifa, he knew that he would be in contact with the world government.

Su Xiao used a very clever strategy and finally got a semi transaction deal with them.

Robin's approach was somewhat unwise. She first gave up the will to live and then revealed her weaknesses.

If it was under normal circumstances, Robin wouldn't make such a mistake, but maybe the encounter of Aokiji stimulated this.

“Franky is near. We don't have much time.”

Su Xiao looked at Franky, coming from the distance. He had a plan, and if he succeeded, he would gain a lot, and if he failed, it wouldn't cause him many losses.

“We?” Robin captured the difference in Su Xiao's words.

“Yes, we. If you don’t want to be forced to reveal what you know, you can only cooperate with me.”

Robin lowered her head to think. Previously, the most her mind could think of was her execution when she reached Enies Lobby, but now she knew about the torture.

Robin became pale again, thinking about it as she felt fear.

“What do you want to do, what is your purpose.”

Su Xiao took an alchemy bomb and quietly handed it to Robin, and to her how to use it.

“I’ve given you this, and even the Cp agents can’t find it, as for where to hide it, you have many places you can use.”

The alchemy bomb was of great importance to Robin right now. Because when she gets to Enies lobby, she would be handcuffed with Kairoseki (Sea stone), rendering her weak. That’s why the alchemy bomb would be her life-saving card.

“Why help me.”

Even now, Robin could tell that Su Xiao wasn’t a good person.

“Being in the same world, we should help each other.”

Robin didn’t say anything, but Bob was surprised by Su Xiao’s words. He couldn’t help look at Robin with sympathy. This was his owner’s style, that female is unlucky.

Robin hesitated for a while before hiding the alchemy bomb.

Su Xiao sat aside and stopped talking.

It didn’t take long for Lucci and the others to get Franky, who wasn’t their opponent at all.

“Let me go. I’m not Cutty Flam. You got it wrong!”

Franky was injured, but because of his semi-mechanical body parts, he still could fight.

“Not Cutty Flam? Then you’re not Tom’s disciple?”

Lucci’s words left Franky speechless. He could admit that he wasn’t Cutty Flam, but he couldn’t say he wasn’t Tom’s disciple.

The Fishman raised him and taught him everything he knew.

“You’re from the world government?”

“You don’t need to know.”

Kaku pushed Franky, making him stumble forward.

Su Xiao got up and moved toward them, followed by Robin. Currently, Robin believed in Su Xiao more than before.

“We are ready to leave. Our objectives are completed.”

Kalifa chuckled and looked at Robin and Franky. Both targets were captured.

A group of people escorted Franky and Robin to the sea train station in Water 7.

As the name implies, it was a train that moves above the sea on a floating rail. The train’s speed was at least ten times the speed of a normal ship.

The journey wouldn’t take long for them to reach Enies lobby using the train. As soon as they reached the station, they found a train waiting.

Because it didn’t take much for the operation to end this time, nobody interrupted them. And like that, Su Xiao was about to leave water 7.

“I was waiting for a long time, everybody.”

An agent from the CP8 came forward.

“No surprises.”

Lucci acted cautiously. If he wasn’t cautious, he wouldn’t be able to live for five years in Water 7, after all.

“No accidents.”

“That’s good. We’re ready to go then.”

The sea train was similar to a normal train. Su Xiao entered the third cabin, which was the V.I.P cabin. The seats there were wide and comfortable.

There were only seven people sitting inside the Cabin. Su Xiao found a seat and sat down. He took out his tablet and started playing puzzle games.

“Let me go, do you think you can keep me tied?”

Franky was very upset. He saw that Robin was also a captive and directly sat down beside her.

“Of course not.”

Kalifa’s answer satisfied Franky.

“Come here, tie him up, and throw him in the back.”

Franky’s expression froze. The three agents rushed forward and tied him with an iron chain then put him in a cloth bag tied the back from outside.

“Hey, you bastards, don’t treat me like this.”

Franky was quickly taken away while the bag wriggled.

Chapter 330

The sea train slowly started to move as black smoke rose into the sky. It started raining outside. The clouds were black as lightning flashed from time to time.

Even though it was raining, the inside of the train wasn’t cold, and it was a comfortable temperature, and the music was playing.

Stretching a bit, Su Xiao rose from his seat and went toward the fourth Cabin.

“Byakuya, what are you doing here?”

Lucci directly inquired. Su Xiao’s eyes flashed. They were getting near Enies lobby, which made Lucci and the other change from bodyguards to guards.

“I am going to run away.”

Kalifa, Kaku, and Blueno stood up directly.

“This isn’t funny.”

Lucci’s eyes dropped as the pigeon on his shoulder flew back.

“I’m just going to bed, don’t worry. Why... you want to join me?”

Su Xiao opened the door and walked into the fourth Cabin, but Lucci and the others didn’t follow him.

“What do we do? He was indeed helping us before, but I always feel like he is plotting something.”

Kalifa was always hostile toward Su Xiao. He even touched some parts of her body.

“He must be plotting something, which is unquestionable, but he won’t run away until we arrive at Enies Lobby. If he wanted to escape, Blueno wouldn’t be his opponent when they went to capture Nico Robin.”

Lucci was still calm, but he looked at the three with displeasure.

“You were too impulsive just now.”

“Sorry.”

The conversation between The CP and Su Xiao was heard by Robin. She could now confirm that Su Xiao was indeed in the same situation as hers. She pressed her hand on her chest, where she put the Alchemy bomb.

Entering the fourth cabin, Su Xiao pushed a door in a corridor and went inside a room that contained a bed.

Su Xiao stood in front of the bed and expanded his senses all over the train.

“Three guards in the seventh cabin.”

He opened his eyes and looked at Bob.

“Bob, Lie down on the bed on your side.”

Bob whimpered twice and stepped back. His eyes were watery as he clearly wanted to say: “Lord, I’m dirty, what do you want to do...”

“Woff!”

“You learned to talk back now? I said, lie down, so you do just that.”

Bob looked sad as he gave Su Xiao a sad look while thinking: “I have always regarded you as a master, but you fell in love with me.”

Bob laid down on the bed and was directly covered with a quilt by Su Xiao.

“Relax and sleep.”

Bob looked suspiciously at Su Xiao.

“Just sleep.”

Although Bob was puzzled, he fell asleep in just two minutes.

Five minutes later, saliva was coming out of his mouth as he snorted loudly.

Seeing this, Su Xiao nodded and stood still.

Seeing this, Su Xiao nodded and stood still.

It didn't take long for someone to come and stand in front of his door. If it weren't for Su Xiao's keen senses, he wouldn't be able to know that.

The person put an ear on the door and heard snoring sound, nodded, and directly knocked on the door.

When the person knocked, Su Xiao didn't respond immediately. After a few seconds, he covered Bob's mouth and asked: “Who.”

“Byakuya, do you want dinner?”

It was Kalifa's voice.

“No, I want to sleep.”

After that, Su Xiao let go of Bob's mouth, who was terrified and directly ordered him to go back to sleep.

Bob sighed.

It didn't take long for Bob to fall asleep again and start snoring loudly. Kalifa went back after listening for ten minutes.

Su Xiao took off his clothes and put on black ones. Bob woke up and looked at Su Xiao, who just looked at Bob. Bob sighed again and continued to sleep.

Su Xiao took out some tools and removed the glass from the room's window.

Putting the glass aside, Su Xiao leaned out and looked outside.

Su Xiao climbed out and directly stood on the roof.

The strong wind blew against his body while the rain was pouring over him.

Su Xiao walked slowly on top of the train, and because he didn't wear shoes, his footsteps didn't make any sound even though he felt cold.

Cabin 5, Cabin 6, Cabin 7.

Su Xiao laid down over the edge of the Cabin, and his upper body wasn't touching the roof, which was really dangerous. He could fall down if he weren't careful.

Su Xiao took out a mirror and used it to check what was going on inside the Cabin.

“You bastard, let me go, you should give me Cola, Hey!”

Franky kept arguing with the three black-clothed agents who were annoyed.

One of them couldn't bear it any longer and took his shoes and socks and wanted to put it in Franky's mouth.

Blurrghh!

The sound of two agents retching filled the cabin.

“Put back your shoes. Your feet stink, my eyes hurt from the smell, Blurrghh!”

An agent vomited again, which made the agent who took Franky's shoes embarrassed.

“I won't shout again, put your shoes back.”

Franky blinked as he felt his eyes sting.

“If you shout again, I will put this sock in your mouth.”

The agent smirked and didn't care about his colleagues.

“Put on your shoes.”

The agents couldn't stand it anymore.

“Here, I put them on... Hey!!”

The agent currying his socks was confused.

Thump... Thump...

The three agents fell to the ground one after the other while Franky felt sluggish. For the first time in his life, he saw someone kill people with the smell of his feet.

“No, there is...”

Franky wanted to yell, but couldn't. Blackness filled his eyes as he fainted. Franky maybe half a robot, but the main organs were still there.

Outside, Su Xiao saw them fall down and threw a small can he had in his hand as he started checking the other cabins.

After confirming that no one was coming there, he directly went toward the window.

It was harder to remove the glasses from the outside as it took him 5 minutes to take it off without damaging it.

Su Xiao took off his clothes and changed into dry ones as he entered while drying his hair and feet with a towel. After that, he threw the wet clothes and the towel into the sea.

Although his new clothes started to get wet, they weren't wet enough to drip on the ground.

Quietly jumping into the seventh Cabin, Su Xiao could smell something strange.

Fortunately, the window was open; otherwise, the smell would make anyone vomit.

He walked toward Franky gently. He moved his finger toward his body. There was a treasure inside Franky's body, and it was worth it for Su Xiao to move even while many CP9 were around.

The contractors now won't be able to get to the sea train. Su Xiao's goal wasn't Robin, Luffy, Kalifa, or Iceburg, but something in Franky's body. He joined the Galley-la Company just for this.
