

R. Paradise 35

Chapter 35

Su Xiao held the [dragon flash] while standing in the same place.

“Kuru.”

The difficult sound of swallowing broke the silence.

Xi lo lo looked at Su Xiao's back, her two big blue eyes were shining, and it was obvious that Xi lo lo recognized Su Xiao.

At this time, on the top of Su Xiao's head, Xi lo lo had automatically added a few labels, “strong man”, “super shelter”, “big guy”.

Xi lo lo suddenly regretted not asking his number last time, if she knew that Su Xiao was so strong, she could pay for his help when she encountered difficult derivative worlds.

“Who are you, why did you appear here?”

Gecko had no excitement on his face anymore, he looked at Su Xiao, and Kagune appeared quickly, wrapping around his arm.

Gecko's Kagune was a Rinkaku. The position of the Rinkaku was around the waist. The rinkaku has a strong, but its defense was weak.

There were four kinds of Kagune, which were Ukaku, Rinkaku, Koukaku, Bikaku. All types of Kagune had their own advantages and disadvantages. They had no fixed shape, and they were shaped according to the imagination of the ghoul.

At this time, the appearance of gecko's Kagune was formed based on his imagination and his fighting habits.

“Who am I? Well, you can call me Byakuya, your Kagune is good, I will take it.”

Su Xiao activated the shadow of the law, opened the [Qing Gang Ying] at the first time, his Mana was reduced by two, and it will continue doing that every minute.

After he turned on [Qing Gang Ying], he felt that some kind of energy in the body was activated, that is his Mana.

The Mana spread on his body, and after some time, new energy was formed.

This energy was first routed through the arm and then spread to the [dragon flash] in his hand. The surface of the [Dragon Flash] suddenly wrapped by that energy. If you look at it closely, there is a faint blue light wrapped around it.

That was not light, but the new energy which was the core of [Qing Gang Yin] that was formed by the transforming Mana.

[Qing Gang Yin] was an active skill. After Su Xiao turned it on, it consumed 2 points of Mana per minute. It didn't sound much, but if he fights for an hour, it will consume 120 points. He now had totally 153 points, it was enough for an hour.

The advantage of sufficient Mana could be seen here. It gave him the ability to fight for a longer period.

After opening [Qing Gang Yin], every attack of Su Xiao will burn 10 points of the enemy's Mana.

It was not that much, but if the enemy were attacked a few times, his Mana which will be burned would be enough to kill him.

Imagine if Su Xiao and the enemy fought fiercely, but the enemy suddenly found out that he had no Mana anymore. This was a desperate thing.

And [Qing Gang Ying] not only consumed the enemy's Mana but also caused the same amount of True damage.

Su Xiao once asked the reincarnation paradise what was real damage.

The reply given by the reincarnation paradise was: ignoring all defenses, even if the enemy's defense is strong, they will still be injured by him.

Su Xiao shook his shoulder and took off his shirt. His upper body appeared naked.

He had a habit when fighting, that was, he liked to take off his shirt, which will make his perception closer and sharper, perhaps it was an illusion, but this was his habit.

13 points of strength, 13 points of agility, 12 points of intelligence, Su Xiao wanted to test, what kind of combat power these attributes had.

Don't think that the intelligence attribute was useless in a close fight. The increase of intelligence attribute will not only increase the magic damage and Mana but also improve his perception. This was also a great help to close fight.

“So, I will just test it on you. You look rough and thick and you should not be easily smashed.”

Su Xiao slammed his feet on the ground and rushed toward gecko. The 13 points of Agility made his speed surpass anyone in this place.

Gecko just felt dizzy, Su Xiao's face suddenly appeared in front of him, while a long sword that bloomed in blue light smashed toward his neck.

Su Xiao's sword could be described as extremely fast, and the teachings of Koshiro had greatly improved his sword skills.

Holding the sword with both hands, Su Xiao's attack will soon smash on the neck of gecko. Although ghouls' resilience was extremely strong, if a ghouls' head is severed, they will still die.

At this critical moment, gecko screamed, using his arm to defend too late, but gecko's Kagune was close to his neck, and it immediately wrapped it.

“Snigger.”

The sound of the sharp blade cutting into the flesh came, but there was no trace of blood.

Su Xiao smashed his sword on Gecko's Kagune, and Su Xiao knew that rinkaku was not for defensive. Su Xiao immediately cut it off.

Gecko's face under his mask was twisted. What is this power? If his understanding is right, the opponent uses only a common weapon, not a Quinque made by Kagune.

Escape, he must escape immediately, the human beings in front of him was too strong, Don't mention him, even if they were SS-class ghouls, they would be cut into slices of meat.

Just when gecko wanted to retreat, he suddenly felt a sharp pain in the wound of the Kagune, and then some kind of energy in his body was burned. It was his Rc cell.

As the Rc cells were burned, Gecko felt a sense of pain that he never felt before.

Even with his endurance, he could not help but scream, the real damage after the Mana burn worked.

[Qing Gang Ying] Su Xiao had literally meant burning the enemy's Mana, but what if it was a creature was like a ghouls with no Mana?

The answer was to burn other energies. The principle of [Qing Gang Ying] was to consume Su Xiao's Mana to form a special energy.

The Special energy was attached to the weapon. After Su Xiao attacks, the special energy will invade the opponent's body, and the energy in the enemy's body will be annihilated, and finally, the effect of burning Mana will be achieved.

If there is no Mana in the enemy's body, then the special energy will choose to annihilate other energies, such as Rc cells, Chakra, Reiatu and so on.

Compared with Mana, [Qing Gang Ying] had a lower rate of annihilating of other types of energies, from 10 points to roughly 7 to 9 points.

The feeling that the energy in the body was burned was of course uncomfortable. Compared with the real damage caused, the kind of severe pain affected more in battle.

The skill description of [Qing Gang Yin] is: After opening (Qing Gang Yin), each close attack will burn 10 points of Mana of the enemy and cause the same amount of True damage, the enemy will bear a strong pain after his Mana is burned.

Su Xiao didn't care about the 'causing strong pain' previously, but now he could see gecko's expression. He understood that the feeling was not good.

After gecko screamed, Su Xiao's second attack had arrived.

The blade crossed the air, making a horrible sound, and the sharp edge broke open in the air.

“Snigger.”

One arm and a half of the ear flew at the same time, and Su Xiao's second sword strike also smashed into the head of Gecko.

But Gecko abandoned an arm to defend [dragon flash] for a moment, then fiercely swayed his head to avoid the fate of losing his head.

With only two attacks, gecko was seriously injured, and his kagune was cut off. The broken arm fell to the ground on the side, and the combat power dropped by at least 50%.

After seeing this scene, the beauty Rize felt a little numb and mourned at the same time in her mind. Are humans in the 20th district so strong?

He didn't use Quinque, and still could confront ghouls directly. No, this scene was not confrontation at all, its abuse.

Rize's first thought was also to escape, but a pair of sharp eyes had been coldly looking at her.

“Where do you want to go? Kamishiro Rize.”
