

R. Paradise 351

Chapter 351: Rushing to the top to kill him!

The Corners of Su Xiao's mouth twitched. He really experienced new things every day in The Reincarnation Paradise.

As Su Xiao reloaded his sniper Rifle, He looked back only to find two figures rushing into the bridge, and one of them was the cowboy.

Mad Milk and the cowboy quickly moved across the bridge to enter the Tower of Justice. Su Xiao directly aimed his Sniper Rifle toward them and directly took a shot.

Ding!

The gun hit the Sickle in Mad Milk's hand as he continued to move toward the tower.

There are already five people entering the tower, and Su Xiao didn't care. He can't stop all of the contractors from entering the Tower of Justice, he only tried to minimize their number, and furthermore, the Pluton's Blueprint is in his hands.

Su Xiao quickly fired at the other contractors crossing the bridge. Twenty bullets left the muzzle directly emptying the Magazine, and as a result, eight contractors fell, and the others entered the tower.

Reloading his Sniper Rifle, Su Xiao looked back and didn't see Kalifa, which meant that the CP9 were assembled.

Su Xiao looked around with the x8 scope, there wasn't any contractor coming toward the island, and other weaker contractors just stayed back without trying to cross the bridge as the benefits there can offset the mission penalty.

Ring! Ring! Ring!

Su Xiao heard the ringing of the alarm clock beside him and knew that the use of the sniper's skill is about to end.

There are still a few scarlet cards on the bridge, but Su Xiao didn't care about them for the time being.

Suddenly he heard the sound of footsteps behind him. It seems like someone came all the way here to kill him. In total, there were seven people, the ones that joined the Straw Hat pirates.

Su Xiao lit his cigarette and sat on the roof while taking out a white cloth and wiping Spider Queen's barrel.

He looked around but didn't found Bob anywhere.

He was stunned with how Bob could find somewhere to hide every time.

To be precise, Bob wasn't hiding. Instead, he was on top of one of the pillars in the Tower of Justice, while standing upright and standing motionless in a roaring position, like a sculpture.

Fortunately for it, there was no wind today, or his hair would expose him.

Bob's ways of hiding were topnotch. If Su Xiao didn't know him for a long time already, he would've believed that it was a lion's sculpture.

Bob didn't make a move an inch. He didn't even blink at all.

The footsteps downstairs became faster and faster as the contractors rushed to the top of the Tower. They had all kinds of weapons from melee to long-ranged ones, and one of them seemed like a healer. It was a girl that had some blood over her head.

The nurse looked at Su Xiao with eyes full of hatred, as he was the one who just headshot her lover.

"It's cool to snipe, isn't it, let's see what you will do now. You bastard!"

An old man looked at Su Xiao fiercely while holding a bow and an arrow. Before he could shoot the arrow, he was interrupted.

"Don't kill him yet, let's capture and torture him and ask him to hand over all of his equipment, especially that one."

"Yes, first beat him half dead and chop his hands and feet off."

The contractors surrounded Su Xiao, making him chuckle lightly. This was a scene he expected. These Contractors thought that he was a sniper and took the initiative to come close to him.

Putting away Spider Queen, Dragon flash appeared in Su Xiao's hands instead.

Dragon Flash cut through the air with a purple brilliance. Even from a distance, you can feel the sharpness of the sword; after all, it was a +8 purple quality sword.

"It seems like... Something is wrong!"

A contractor took a step back, as he asked himself: 'how could a sniper have such an aura?'

The healer was stunned; she was afraid and wanted to rush back and escape.

Su Xiao held Dragon Flash directly, making him release a very sharp aura around him while looking at the contractors with interest.

The skill, Qing Gang Ying (The Azure Steel Shadow), was directly activated, sending blue electrical energy on the sword's blade.

"There aren't many who actually wanted to fight me in close range. Your courage is really commendable."

Su Xiao slowly approached the Contractors, while the latter felt like the unluckiest dog in existence. Who was it that said snipers are bad at close range? Who said they were dead if someone got close to them? why did this suddenly become a sniper who is even more fearsome up close?"

The contractors looked around. There was no one else on the roof except a sculpture that looked like a husky.

"Didn't you want to fight me in a melee battle? Let's start."

Su Xiao stepped forward and rushed toward one of the contractors. The contractor was stunned and directly raised his weapon to block.

Su Xiao raised his sword high and directly swung it down, leaving a blue electric after image.

Ding! Puchi!

The weapon of the contractor broke upon contact, and his blood directly splashed on the ground as his chest was pierced.

A few drops flew toward Su Xiao, who directly evaded them along with an arrow at the same time instantly appearing beside another contractor.

Puchi!

Su Xiao swung his sword beheading the contractor before going toward another one.

The contractors were being bullied, and what was more aggravating is that they jumped into this with their own feet, they even rushed up so high that jumping away to escape meant death as well.

Dragon Flash continued cutting flesh with a 'Puchi' sound making the remaining contractors turn around to flee.

After three minutes, the roof was covered in blood as all the contractors facing Su Xiao perished except for the healer whose arm was cut off.

Cough!

The healer coughed blood as her body shivered. This sniper was a scam, she thought, he was obviously a close combat expert, and they unexpectedly rushed toward him themselves.

“Can you... let me off?”

Su Xiao came closer to the healer and looked at her: “Didn't you want revenge before? And now you're begging for mercy from the one you want to kill.”

“... I don't want revenge. I can give you whatever you want, Equipment, paradise coins, I can even accompany you to bed...”

Su Xiao's eyes flashed, making the healer's face turn slightly hopeful before she heard: “I refuse.”

Her hope was dashed as her a sword approached her stiffened face.

Massacring his last foe, Su Xiao directly waved Dragon Flash, cleaning it from the blood and creating a semi-circle in blood on the ground.

Su Xiao picked up two scarlet cards, out of the seven, only two dropped scarlet cards, which made Su Xiao sigh. When he got Spider Queen, he thought that his luck was finally better.

But now, it seems his luck was as bad as before.

On the opposite roof, the straw hats witnessed the scene of Su Xiao massacring the seven contractors.

Luffy and Zoro were serious, Sanji looked ugly, Usop hid in fright and Nami gagged from the cruelty.

Although they were pirates, they never saw such a cruel scene before.

Su Xiao touched Bob's head while looking at the Straw hats. He was not ready to fight them yet. It wasn't time.

Su Xiao sat on the edge of the roof. He was waiting now for an opportunity as all the ordinary Contractors were dealt with.

He also didn't forget about the offender waiting to be dealt with. He already knew his position, that guy was smart enough to not come to the Justice Tower.

Chapter 352: King Of Scapegoats

Su Xiao sat on the roof and smoked, while the straw hat pirates were looking at the CP9 and Spandam along with Robin and Franky.

Franky wasn't cuffed as he didn't have any chance to escape with the CP9 there.

With the current situation, The contractors will soon discover that Franky didn't have the Blueprint of Pluton.

Franky was already hesitating; he was imprisoned and didn't have any chance to escape currently.

“Mr. Tom, please forgive me.”

Franky took a deep breath and pressed his hand on the back of his waist, which silently opened, revealing a lock. He quickly entered the password.

As soon as his hand moved to grab the Blueprint, his expression changed.

“This is impossible, absolutely impossible!”

Franky didn't care about being exposed. He directly grabbed whatever there was inside and could only find a book, with an exposed girl on the cover.

There must be a mistake, he didn't recognize the words on the book at all, and this wasn't the blueprint of Pluton!

This was the Magazine obtained by Su Xiao from one of the scarlet cards. Su Xiao wanted to put a bomb instead of this book, but if the CP department discovered it before the battle starts, they would know that the Blueprint is with him.

It didn't matter if they knew after the battle starts, because that is inevitable.

Franky looked at the Magazine in his hands blankly before opening it. Inside the Magazine, pictures of girls in risqué clothes and poses were all of the pages, but Franky didn't want to look.

“This isn't right, where is the blueprint?”

Franky kept repeating this sentence. After all, he guarded the Blueprint for many years, but it suddenly disappeared.

Thinking quickly, Franky directly remembered the time when he was unconscious on the sea train. He had been under surveillance and couldn't check the blueprint before.

Franky's face was ugly, and his eyes blank.

“Hey, what are you holding in your hand.”

Spandam directly grabbed the Magazine, and as soon as he saw what's inside, he smiled obscenely and narrowed his eyes. He directly hid it and was ready to criticize Franky, but...

“The Blueprint of Pluton is lost.”

Franky murmured, and Lucci Frowned. He noticed when Franky grabbed the Magazine, but when he looked inside, he ignored it.

“What did you say?”

Lucci grabbed Franky by the shoulder and asked.

“I lost Pluton's Blueprint.”

Franky said, his heart was full of fear. Although it wasn't good for the blueprint to be in the world government's hands, it is worse if it fell into a pirate's hand.

Once a pirate has something like Pluton, disaster would be like giving a nuclear bomb to a terrorist organization.

Hearing Franky's words, Lucci's pupil shrunk.

“Cutty Flam, do you think we are fools?”

Lucci didn't believe Franky.

“I didn't lie, I always carry the Blueprint with me, and put it here.”

Franky pointed at his waist, and Lucci directly moved to check.

“Kaku, was he lying?”

Kaku watched Franky's expression before saying: “There is an 80% chance... that he is telling the truth.”

Hearing Kaku's words, the CP9's face was not a pretty sight.

“After five years, you actually lost The Blueprint?”

Jyabura opened his mouth directly. This was a deceitful and cunning man. He ate the Zoan Fruit, Dog Dog, Model Wolf.

Jyabura's question didn't receive any reply, but Kalifa remembered something suddenly, the blueprint is most likely in that person's hands.

“In other words, we won't be able to get Pluton's blueprint?”

Suddenly, Spandam's expression turned grim, as his chance to get promoted slipped away.

Su Xiao, on top of the Tower Justice, saw this and know that it's almost time. He had been exposed unless Kalifa and Lucci were retarded.

He looked at Luffy and didn't know whether he would become the Pirate King or not, but he knew that he will be the scapegoat king right now.

Su Xiao suddenly lifted a hand, and from his wrist, a metal thread sprung forth.

The hook was stuck on the opposite roof, and with this, Su Xiao grabbed Bob and jumped.

Flying in mid-air, Su Xiao was somewhat fearful, because the hook may not be able to bear with both Su Xiao and Bob's weight.

Fortunately, they reached the opposite roof without an accident while the Straw Hats looked at him vigilantly.

“Don't worry so much, I won't fight you guys, for now, I will just give you something really good.”

Su Xiao pulled out a book and directly threw it at the Straw Hat pirates.

As the book fell, the Straw hat didn't move forward to grab it.

Franky's eyes flashed as he thought: 'Isn't that the Blueprint of Pluton?'

Noticing Franky's behavior, Lucci directly looked at the book.

“That must be Pluton's Blueprint, it was really with that guy, but why is he giving it to the straw hat pirates?”

Lucci stared at Su Xiao's back. He still didn't know what Su Xiao will do now.

Su Xiao picked up a scarlet card from the roof and looked at Luffy and the others.

“Don't you want it, that's something the world government wants, you can use it to your advantage.”

Su Xiao chuckled again before going down to the bridge because there were scarlet cards scattered there.

The Pluton's Blueprint he gave them is fake, but not entirely, as he tore the edges from the real blueprint and copied the rest on another paper.

As long as you're not a craftsman, you won't be able to tell it was a fake. 60% of the content was real, while the rest is something he made up.

Several people of the Straw Hat pirates looked at this dumbfoundedly. The book in front of them was very important. This could be seen from the CP9's reaction.

“Straw Hat Boy, we must keep the Blueprint, don't give it to the world government.”

Franky yelled and confirmed that it was Pluton's blueprint.

Luffy picked the book, and his eyes turned to Robin.

“Robin, We are here to save you.”

...

Ignoring everything that is currently happening, Su Xiao put away the last scarlet card that was on the bridge and hurried toward the offender’s position.

The moment Franky discovered that the Blueprint was missing is the moment he gets exposed, because the CP9 weren’t retards, and he would be the first suspect in this matter.

He can’t hide anymore, but he didn’t need to, as he made the Straw Hats the scapegoat directly.

Chapter 353: The Offender is 9/10 alien!!

Mad Milk, the cowboy, and the three brothers noticed that the Blueprint moved away from the Tower of Justice.

It’s almost impossible for Franky to be the one moving under the watch of the CP9, which means that someone had the blueprint.

A difficult choice was in front of them, leave the Tower of Justice, or stay.

The battle between the Straw Hats and the CP9 is about to begin, and the profit they could gain from the fight was immense.

If the failure’s penalty were stat points deduction, no one would hesitate to chase after the blueprint, but the penalty was a sum of Paradise points, which wasn’t as precious as the profit they could gain from the fight ahead.

While they were hesitating, Su Xiao already left toward the other island.

The contractors were puzzled, they still hoped to finish the main quest, but suddenly the Blueprint of Pluton started moving away from them.

Su Xiao was moving toward the train station without stopping.

The station was empty, but the Reincarnation paradise gave a warning out of nowhere.

[Warning: Contractor No.9740, Who violated the rules, is within 100 meters, stay vigilant.]

[Warning: Contractor No.9740, Who violated the rules, is within 30 meters, stay vigilant.]

Su Xiao looked around but still didn’t see anyone at all. He knew that the Reincarnation Paradise wouldn’t deceive him, so he directly shouted: “Come out, there is no point in hiding.”

Su Xiao stood in place and pretended to know his enemy’s location.

“Another one is here to die.”

The Dull sound of the contractor echoed from every direction.

[Warning: Contractor No.9740 is within 10 meters from the hunter. The Reincarnation Paradise verified that the Offender is 9/10 from an alien species and started deploying the space Barrier.]

A pale golden barrier suddenly appeared and ranged about 200 meters with Su Xiao in the center.

“It’s that damn Barrier again.”

A figure appeared not far away from Su Xiao. This person can't be called human anymore. It's more like a humanoid creature.

The Creature's body was covered with a dark green liquid. As he walked, the liquid dropped on the ground corroding it.

“You're a Hunter, Chyachyachya!”

The Creature laughed weirdly.

Su Xiao didn't speak. He had an ominous feeling about this guy. Even when he fought the cowboy, he didn't feel like this.

“I killed many humans like you, and now, you will turn into nutrition for my body.”

The Creature's green vertical pupils flashed with killing intent as his tongue licked his lips.

Su Xiao frowned. This Creature didn't look like a human, and he didn't feel like a contractor.

The only humanoid Creature Su Xiao saw before were the Kara natives he met in Parasite's world.

“A level 9 contractor like you dare to come after me. You didn't even pass the first order's test yet. Well, your courage is commendable.”

The Creature turned his gaze and looked at Su Xiao like a beast looking at its prey.

Wouch!

The Creature spat green smoke that filled the place.

[You are being eroded by an unknown toxin. 2 Damage is taken each second]

[You are being eroded by an unknown toxin. Hp recovery reduced by 50% (This affects Natural recovery along with items)]

Su Xiao held his breath, but his body was still being eroded.

Glancing around, Su Xiao couldn't see Bob, which means he found a hiding place.

“Let the hunt begins.”

Su Xiao directly activated the Qing Gang Ying (Azure Steel Shadow), pulled out several top grades' alchemy bombs, spreading them on the ground before attacking.

“Poison spit!”

The weird Creature suddenly spat a big mouthful of Venom at Su Xiao, who dodged readily.

Even though he dodged, Su Xiao felt extremely dizzy as he breathed in a fishy smell.

He can't be touched by this poison, or else he would definitely die.

This enemy was turning to be quite tricky. It was very difficult for Su Xiao to get close enough for a strike.

Since his surroundings were in his favor, Su Xiao had an idea.

With a thought, Su Xiao changed the Alchemy bombs into dozens of toads.

As the toads jumped around, Su Xiao moved forward really fast, once again trying to strike the Creature.

“Stupid human, if you want to fight close, then you got what you want. Remember, the one who killed you is Harbach!”

Venom surged out of Harbach’s body and rushed toward Su Xiao.

Su Xiao held Dragon Flash and slashed at Harbach without hesitation.

Smirking disdainfully, Harbach didn’t care about the attack coming toward him as he stretched his hands full of Venom toward Su Xiao’s chest.

Puchi!

The sword stabbed Harbach, splashing Venom around.

“What!!”

Harbach screamed loudly.

Suddenly sound waves spread all around them, directly cracking any glass window in range.

Su Xiao’s head buzzed, and his eyes saw everything in double.

Su Xiao shook his head and recovered from the headache. He looked at Harbach to see a blue mark appeared on his neck.

Su Xiao didn’t feel his sword penetrate a body; instead, he felt it pass through some liquid.

The reason for Harbach’s pain was the Qing Yang Ying’s effect that burns Mana. That pain caused Harbach’s eyes to roll back.

Su Xiao wouldn’t miss such an opportunity.

Puchi! Puchi!

Venom splashed around as two slash marks appeared on Harbach’s head and nose. Although it was the same as the previous slashes, Qing Gang Ying would hurt him immensely.

“You’re dead!! How dare you hurt me!!”

Harbach’s body stopped trembling as he looked at Su Xiao murderously.

“Very poisonous, Intangible, and intelligent, what kind of creature is this?”

Su Xiao was very puzzled now. The Reincarnation Paradise can add other species other than humans? This means that not all contractors he saw were humans.

Su Xiao started thinking about a strategy. His slashes can cause some pain, but it won’t kill his opponent.

“Poison of pain!”

Harbach’s hand moved to his mouth before he blew on it really hard.

Seeing a green glow coming toward him, Su Xiao wanted to dodge, but unfortunately, he was too slow.

[You are poisoned with The Poison of pain. 120 true damage is taken within 3 seconds, with the additional effect 'Pain']

Su Xiao looked at his clothing and saw a dark green liquid on his abdomen.

Suddenly a severe pain spread all over his body, making him sweat profusely and his Hp dropping dangerously.

“Bob.”

Hearing Su Xiao's shout, Bob barked and immediately started using his special ability to heal Su Xiao.

His bark gave away his location, which is above a steel pole on the street. He wasn't using his mouth or limbs to hang up there, instead, he curled his tail around the pole and hung upside down.

Not only was Su Xiao shocked, but even Harbach was shocked.

“What kind of weird specie is this?”

Hearing Harbach calling him weird Specie, Bob became angry and seemed to say: 'You're the weird specie, your entire family is weird species.'

Well, he isn't wrong...

Chapter 354: The beauty!

Spider Queen suddenly appeared in Su Xiao's hand while Harbach was distracted. Su Xiao aimed without the need for the scope and fired.

Bang!

A large hole appeared on Harbach's chest while Venom splashed around.

Su Xiao was confused, he just aimed at the heart, but Harbach wasn't affected at all, be it from the slashes or the bullets.

Harbach was glaring at Su Xiao right now.

Su Xiao directly hid Spider Queen in his inventory and once again held his sword.

He rushed forward and slashed Harbach on the chest again.

Harbach didn't care to dodge. A claw formed on his hand as he attacked Su Xiao's chest.

Three wounds appeared on Su Xiao's chest, and before blood starts gushing out, the injury was sealed by the Venom.

A large portion of Su Xiao's Hp dropped in an instant.

Su Xiao felt the pain on his chest, but he didn't stop. His sword moved quickly toward Harbach's chest.

Harbach just moved slightly, making the sword pierce his throat.

“Chyachyachya, No pain at all.”

Harbach smiled widely as Venom gathered in his mouth, preparing to spit on Su Xiao.

“Qing Gang Ying!”

Su Xiao shouted angrily, making the Mana on his body transform into Qing Gang Ying energy.

As soon as the energy passed from his sword to Harbach’s body, it exploded.

Boom!

The upper part of Harbach’s body exploded, and a large amount of Venom splashed Su Xiao.

Su Xiao’s Hp dropped down quickly, activating his sword’s skill.

[Fight in the blood (passive): When the user’s health is lower than 30%, the user gains +10 Vitality and +20% attack speed (this effect lasts for half an hour)]

As soon as Su Xiao’s Vitality increased, His resistance to poison increased, lowering its damage.

Dark green Venom tickled down Su Xiao’s cheek after being splashed by Harbach’s Venom due to the explosion.

Looking at the rest of Harbach’s body, Su Xiao saw a human head connected to the former’s lower body.

It was a severed head of a seventeen or eighteen-year-old man.

The boy had long black hair and looked quite handsome. Suddenly his eyelids trembled as he opened them.

As soon as he opened his eyes, he started to inhale clean air, but he no longer had lungs to breathe, which caused him to shed a few tears.

With a tear in his eyes, the body looked at the sunlight outside while Harbach’s body was recovering slowly. Su Xiao was holding a bucket of water to wash the Venom on his body. Otherwise, he would die.

“Are you a human contractor?”

The boy looked at Su Xiao and asked. Su Xiao didn’t say anything as he wanted to get rid of the Venom.

“Use saltwater, not a clear one.”

Hearing this, Su Xiao directly took out a salt bag and poured it inside his bucket of water. Sure enough, as soon as he used that water, the Venom melted away.

“Kill me! Please Kill me! It’s too much for me to live like this.”

The Venom was slightly wrapping around the head as it tried to struggle, but he could do nothing.

“Are you contractor No. 9740?”

Su Xiao asked the Teenager.

“Yes, that’s me, did the Reincarnation Paradise ask you to save me?”

The teen had a slight hope.

“No, it asked me to kill you.”

Hearing his answer, the boy smiled nonetheless.

“That’s fine as well. I can’t recover from this anymore, but remember it’s weakness is the slat, and it will die if you destroy my head...”

The head was wrapped in Venom, as Harbach recovered.

“This moron, it’s your honor to be my host.”

Harbach shouted angrily.

He didn’t think that the teen, with only his head, could wake up and disclose his weakness to his enemy.

Su Xiao put away Dragon Flash and took off his coat to get changed, which puzzled Harbach.

“let’s talk about this.”

Su Xiao ignored Harbach.

“Hey, I’m talking to you.”

Su Xiao narrowed his eyes slightly, and a muffled noise came from Harbach’s body. The latter’s expression changed immediately as he looked at his chest.

“I’m not interested in talking to a dead man.”

Previously, when the head was talking, a small toad jumped on his head, which was an Alchemy Bomb.

With a small blast, the Venom splashed once again, and this time, the head fell on the ground. The contractor was dead, but his face was full of smiles.

“How could this happen? I still haven’t evolved to the final form, and I haven’t restored my race yet...”

Before he could finish his words, a transparent chain came out of nowhere and impaled him.

“No, No, I hear your explanation, we can cooperate. I won’t ignore the quests again, please!”

The Reincarnation Paradise didn’t care about the bull he was spouting.

[Harbach is an external life form, no Reincarnation Paradise imprint is found on his body. Harbach is to be executed...]

The Chain was destroying Harbach’s body scaring him greatly!

“Stop, hey bastard, stop, I said we could cooperate!!”

Harbach’s body started breaking apart as he screamed profanities.

Ten seconds later, the last drop of Venom was decomposed as three crystals fell to the floor.

Su Xiao stepped forward and picked up the crystals without hesitation.

[You obtained Soul Crystal (medium) X3]

[Hunter has successfully killed the Offender; Hunter exclusive Question is complete.]

[The Quest was completed perfectly; the full reward will be given]

[You obtained Silver Medal Of Honor x1]

[Silver Medal of Honor]

[Description: This item can be used on the Honor store; it can be exchanged for other things. The Honor store is inside the Hunter's exclusive room.

...

Su Xiao learned his lesson last time. He should do his best to complete the Hunter Quests.

The identity he was given as the judge (Arbiter) in the Mission to the Parasite world was a benefit, but if he failed his Hunter Quest, he wouldn't have that kind of benefit.

The Reincarnation Paradise won't just let him fail a Hunter's Quest and then give him such a benefit when he participates in a war.

As soon as the Barrier disappeared, dozens of contractors walked out.

"You are... really a hotshot."

A beautiful young woman walked forward. She was wearing a long loose skirt while her legs were partly visible.

As soon as his eyes fell on that woman, Su Xiao's had the urge to jump on her.

This woman's charm stat was that high, or she had a charm skill.

"What's wrong? Do you want to snatch Pluton's Blueprint? You can choose if you want one on one or you can all come together."

The Beautiful woman stared at him.

"One on one?"

"Right, a duel with everyone here."

The young beauty revealed a toothy smile and said: "As long as the contractor had a brain in his head, he won't oppose someone like you. We all have seen what you did on the Tower of Justice. The sniper's deception was really terrifying."

The young woman arrived beside Su Xiao as if she doesn't fear him at all. She was an intelligent woman. She knew that if Su Xiao wanted to kill her, she would be dead no matter if she was ten meters away or one meter away.

She pressed her chest on Su Xiao's arm and said: "Hotshot, can you sell us a small part from the corner of the Blueprint of Pluton?"

The young woman smiled like a fox.

While Su Xiao was thinking about how good this opportunity was to get some Paradise coins.

The woman one again said: "Although obtaining a small piece of the blueprint won't give us the reward, but it may be able to exempt us from the penalty. Each of us is prepared to give 1,000 Paradise coins for a small piece. Moreover, only a few people know about this secret."

Su Xiao understood what's the Reincarnation Paradise could gain from. It was a circle, and if the strong always obtain the reward, they would get stronger, while other contractors would just get weaker.

Ability and guts determine achievement, which is fair in Su Xiao's opinion.

There were about 20 contractors here, which meant 20,000 paradise coins. Su Xiao was losing any money with this.

Chapter 355: Find Somewhere just for the two of us...

"What do you think about my proposal..." The beautiful woman asked, full of expectation

"1,500 Paradise coins per person." Although 1,000 paradise coins per person was a lot, the Blueprint can save them from paying 28,000 paradise coins. Even if Su Xiao said 3,000 per person, they had to buy it.

The woman looked at the other contractors to hear what their decision would be. She was only responsible for negotiating, after all.

"I agree, 1,500 paradise coins isn't much."

"I also agree."

Most of the contractors agreed. The few that were dissatisfied didn't dare voice their thoughts.

Su Xiao took Pluton's blueprint in front of all of them, which caused their eyes to flash with greed.

The reward for getting the Blueprint is five stat points + 14,000 Paradise coins.

Su Xiao tore off small pieces from the blueprint as big as a fingernail.

The contractors walked forward quickly to get their piece.

[Transaction Request.]

[You obtained 1500 Paradise Coins.]

[You obtained 1500 Paradise Coins.]

[You obtained 1500 Paradise Coins.]

....

The 23 contractors paid 1,500 Paradise coins to Su Xiao, so he gained 34,500 Paradise coins.

The contractors who got their pieces left hurriedly and full of joy. They could now avoid the penalty of the main quest. From the start, the thought of obtaining the blueprint never crossed their minds.

In each world, only a few people can compete for the main quest, and here they were Su Xiao, Mad Milk, Cowboy, and the three Brothers as well as the offender.

As the contractors left, the young woman stayed behind.

“Big Brother, how about we find a secluded place out of everyone’s sight?” The beauty asked Su Xiao as she took his hand and put it into her clothes.

This almost made Su Xiao’s nose bleed.

“Don’t think that I’m that kind of woman. I just feel that I like you.” The young woman blushed a little as she explained.

“For now, ... I have no time.”

Withdrawing his hand from her clothes, Su Xiao looked to the distance.

The woman was taken aback. She was surprised by Su Xiao’s refusal as she had 29 charm points.

“If I were you, I would escape immediately.”

Suddenly both of them heard footsteps. Su Xiao directly grabbed the [Strawberry juice] and drank it to restore 21% of his Hp.

The young woman looked at Su Xiao, kissed on the cheek to mark him as hers, and left.

“You can look for me if you need any information. My name is Zoe (T/N: her name is Shui Yuan, it will be easier for me to remember her like this).”

Zoe walked very fast as she was afraid of whoever is coming over.

A man suddenly walked slowly and leisurely toward Su Xiao. This was Mad Milk.

Although Mad Milk didn’t want to leave the tower of justice, he had no choice, as he only had 42 Paradise coins right now.

“You think you’re great? You cost me about 41 points in my armor’s durability.” When he said the last part, Mad Milk’s face was twisted in anger. He was already so pure, and now he had to use Paradise Coins to repair his armor.

“You came alone? Didn’t that cowboy come?”

Looking at the man not far away, Su Xiao could tell that he was very strong.

“That fellow’s goal is Kumadori. The blueprint doesn’t concern him much.”

Mad Milk directly held his scythe without saying any B.S like asking Su Xiao to hand over the Blueprint.

“Saying anything would be a waste of time, we should directly fight.”

Mad Milk took a deep breath, and his body started glowing.

“Take this.”

Mad Milk shouted, and a golden shockwave spread around him and pushed Su Xiao back.

Su Xiao directly thrust his sword onto the ground to stop his body from moving back.

Su Xiao concluded that the current Mad Milk couldn't be attacked, so he took the time to take more potions to restore his HP.

At this time, Mad Milk started shouting.

“Words of Down.”

“Angel's aura.”

“sacred revenge.”

“Purification.”

“Cleansing.”

“Guardian's Badge.”

“Call of Honor.”

...

Mad Milk used eight skills, 2 of them were healing spells, another 4 were protection spells, and 2 combined both.

As the golden light receded, a black fog suddenly surrounded Mad Milk's body.

Mad Milk was a particular priest. He didn't have any skill to heal his allies or strengthen them.

At this time, Su Xiao's Hp was already back to 80%. Although he wasn't back to full health, he could fight almost full power right now.

This fight was unavoidable, as he was sure that Mad Milk wouldn't accept getting a piece of the blueprint, and Su Xiao wasn't going to accept a failure in this quest.

“Let's fight. The winner takes everything.”

Soon, Mad Milk took a step forward and rushed toward Su Xiao.

Su Xiao held Dragon Flash tightly in his hands, while the alchemy bomb was scattered on the ground.

He hesitated a little, but in the end, he chose to use them later.

Mad Milk was clearly a close-range fighter, and his stamina is sure to be very high. Su Xiao decided to use the Alchemy bombs as a trump card.

Su Xiao stood firmly as he prepared to receive Mad Milk's attack.

Ding!

As their weapon connected, sparks flashed around them while an invisible shock wave spread around them, blowing Su Xiao's hair back.

“You actually managed to block that.” Mad Milk chuckled in surprise.

Su Xiao blocked the scythe without any apparent effort, which surprised Mad Milk.

Su Xiao changed from a single grip to a double one and pressed hard on Mad Milk.

Mad Milk's complexion changed as he used all of his power to resist.

“Holy... Ahh!”

Mad Milk wanted to use one of his spells but was stopped by a kick from Su Xiao to his lower Abdomen.

Mad Milk flew away and rolled on the ground before he stopped. At that time, Su Xiao was already headed toward him, preparing to slash down.

Mad Milk was a melee fighter, so, even though he was kicked, he recovered right away.

Most contractors would focus on their opponent's weapon and forget his other ways of attack, just like what happened with Mad Milk.

Crisp sounds of metal collision echoed one after the other as Su Xiao, and Mad Milk's fight continued.

In this fight, Su Xiao was aggressive. He didn't relent or wait for Mad Milk to attack before he sent his.

Mad Milk was constantly resisting Su Xiao's attacks with his scythe, but as soon as he dodged one of them, his face changed.

Su Xiao's sword actually cut the concrete wall like it was tofu without any resistance.

Mad Milk retreated some more to adjust himself, but suddenly felt something on his leg. Looking down, he saw two small snakes attacked to him.

“Explode.”

Hearing Su Xiao's words, Mad Milk knew that something bad was about to happen.

Boom!

A large surge of fire rushed toward Mad Milk, while Su Xiao put his arm in front of him while blocking the flying debris with his sword.

Chapter 356: Fortune!

As the fire faded, Mad Milk stood in the same place, but his hair was burned while the black priest robe shone with purple light.

Mad Milk's upper body wasn't injured, but his legs were charred black. If not for his protection shields he laid before the fight started, his legs would've been destroyed.

Suddenly, a green light flashed from Mad Milk's body as he started healing himself. He didn't actually show great care about his legs. Instead, he looked at his robe in worry.

“Don’t break, please don’t break...”

Mad Milk was nervous as his robe’s Durability hit 0, which means that it will likely break.

It seems like Mad Milk was fortunate. The robe actually didn’t break.

Mad Milk quickly stored away from the robe and stayed shirtless.

“You almost threw me into poverty.”

Su Xiao was a little surprised. Did this guy actually care more about money than his life?

Without saying anything, Su Xiao rushed forward again, preparing to swing his sword at Mad Milk, who didn’t care and swung his scythe back.

Puchi!! Puchi!

Blood spurted out at the same time from two different directions. Su Xiao’s sword barely touched Mad Milk’s neck before a barrier blocked it, while the latter’s scythe cut Su Xiao’s shoulder.

Mad Milk wanted to trade injuries with Su Xiao. Su Xiao figured this out almost immediately.

If it someone else, Su Xiao wouldn’t mind at all, but this is someone who had various abilities to heal himself.

However, Su Xiao didn’t retreat. Even if his enemy could recover quickly, it is still unknown who will have the last laugh.

“Isn’t it good to be alive?”

Hearing Su Xiao’s voice, Mad Milk was surprised.

Su Xiao moved back and concentrated all of his Mana, which is 680 Mana points, into Qing Gang Ying (Azure Steel Shadow) and filled his body. This made Su Xiao’s pupil turn pale blue.

Mad Milk’s scalp tingled, he wanted to move back, but his legs couldn’t move. He could only raise his scythe to resist the next attack.

Su Xiao moved the Azure Steel Shadow’s energy into Dragon Flash, which in turn shone with blue light, and swung it down toward Mad Milk.

“This is my strongest move so far.”

Mad Milk was speechless. His opponent used his strongest without any warning. He could only prepare to resist this attack.

As the sword reached his scythe, Mad Milk’s heart ached as he looked at the Durability dropping at an insane rate before it broke.

Ding!

As the scythe broke, Dragon Flash continued forward, directly piercing Mad Milk’s Chest.

Puchi!

Blood splashed as the sword pierced all the way to Mad Milk’s spine before it stopped.

Mad Milk's mouth was filled with blood as he took a step back and looked at his HP, which dropped from 96% to 3%. If he didn't have Angel's aura, he would be on his way to hell.

“Luckily, he didn't touch my heart. Otherwise, I'd be dead.”

Mad Milk spat blood as he was really surprised as this is the first time someone almost killed him with just one attack.

“I always find strong people, but there are just too many of them today.”

Mad Milk sighed and grabbed two Soul crystal (small) in his hands.

Seeing this, Su Xiao's first response was to retreat. He didn't interact much with his opponent, but it was apparent that he won't surrender just like that.

Mad Milk forced the two crystals into his mouth and started chewing.

Su Xiao had an ominous feeling.

“Haha, that's the same thing I felt a moment ago.”

Mad Milk spat the soul crystal back into his hand, and now the soul crystals turned into an egg-sized light ball.

The ball gradually floated before Mad Milk shouted.

“Venus: Judgement!!”

With his angry roar, the ball of light floated and got bigger. It was the size of a basketball now, and it gave out a dazzling white light.

As the light shone on Mad Milk's body, he started recovering, but when it shone on anything else, that thing would start decomposing.

Seeing this, Su Xiao directly started running, which made Mad Milk laugh.

Su Xiao directly equipped Broken elf and directly started shooting while using its Piercing Gaze skill.

Each time he shot a bullet, Mad Milk would scream.

Su Xiao smiled as the white light wrapped around him before severe pain spread all over his body.

Om!!

After a few seconds, everything in the range of the white light was decomposed and turned to dust.

In the distance, Zoe's eyes flashed as she looked at this scene.

“I didn't lie, did I? He is a hotshot, but he always goes and kills people.”

A little girl said.

“He unexpectedly could fight to this degree with Mad Milk, and he even made Mad Milk use Venus. He is really a hotshot. It's a pity I can't hug him anymore.”

Zoe looked at the little girl before she said: “Congratulations, Xu Luoluo, you are promoted from a worker to a contractor.”

Xu Luoluo smiled widely, hearing this.

“I know that being a worker isn’t a long-term solution, but you should know that being a contractor brings many dangers, and if you lack the power to protect yourself, you will die out there.”

Zoe looked at Xu Luoluo with interest before she said: “How about the two of us forming a group?”

Xu Luoluo groaned.

“It’s not impossible, but will you be the front fighter?”

Zoe grasped Xu Luoluo’s shoulder and said: “Naturally, you’re the one who will fight in the front, how could I fight in the front line while I’m so beautiful.”

“You can go ahead and sell your body then, old-fart.”

Xu Luoluo directly struggled out of Zoe’s hold and started biting her with her two small canines.

“Are you dog!”

After ending their argument, Xu Luoluo pointed at the battlefield and said: “Look, the winner is over there.”

Mad Milk rushed out of the smoke while holding his broken scythe.

“Don’t chase me anymore. The blueprint is yours.”

Mad Milk ran as fast as he could, but he wasn’t that fast due to his legs injury, while Su Xiao chased after him with his sword.

Su Xiao chased after this guy just because he was pretending to be dead so he could run afterward.

“Although I’m uncomfortable with you chasing after me like this, let me ask if you’re interested in joining God Sovereign’s gui...”

Mad Milk stopped talking as soon as he saw Su Xiao draw his sniper, and directly jumped into the sea to escape.

Chapter 357: The Kiss!

Water splashed as Mad Milk started swimming away while Su Xiao didn’t relent as he shot at him with Spider Queen.

Bang! Bang! Bang!

Su Xiao fired shot after shot. While ordinary bullets would lose their kinetic energy in the water, Spider Queen’s bullets could travel in the water the same as in the air.

Mad Milk didn’t stop running. He knew that he didn’t have any chance to defeat Su Xiao. He was just too strong for him. While he was running away earlier, Su Xiao managed to land quite a few hits, but still, Mad Milk didn’t even stop or grunt as he ran faster and faster.

Su Xiao knew that he wouldn't be killing Mad Milk today, so he put away Spider queen and fell on the ground with a thud. Bob quickly rushed beside him to protect him from any attack.

Su Xiao's injuries were serious. He only had 11% Hp and 19 Mana points. His state didn't get this bad before.

He didn't have many portions left, and the only thing he could use was the [Elf's secret elixir].

[Elf's secret elixir]

Origin: Reincarnation Paradise

Quality: Blue

Type: Potion!

Effect: Restore 1% of Hp every second for 2 minutes (the effect is doubled when taken in the forest!)

Rate: 70.

...

Su Xiao hesitated, this thing was really precious, and it was a waste to drink it now. As for mana, he took a bottle of [T3 Potion], which could refill his mana completely.

Although this Potion can't be brought out of One piece's World, it was quite useful here.

Su Xiao looked at the [Elf's secret elixir] in his hand and still couldn't make up his mind. This was his life-saving trump card. He wasn't in danger currently, so using it was wasteful.

In the distance, Zoe's eyes flashed as she looked at Su Xiao and said: "Time for business."

"Hey, are you crazy? That guy is a monster." Hearing Xu Luoluo's words, Zoe chuckled.

"Who isn't one in the Reincarnation Paradise..."

Xu Luoluo took out a computer and started a video and showed it to Zoe. As soon as Zoe saw the scenes in it, she paled: "So cruel."

"Heh, do you still want to go now?"

Xu Luoluo took back the computer and said: "The reason why I asked you to take a piece for me from him is that I don't want to get close to him. If I wasn't lucky in the Ghoul's World, I would've been dead."

Zoe breathed out before she moved toward Su Xiao with a chuckled.

"You're throwing your life for money! meet me in the same place when you're finished." Before she left.

Xu Luoluo had many nightmares due to Su Xiao's cruelty in the Ghoul's World.

Su Xiao sat on the shore resting and sheathed Dragon Flash. Bob stood beside him as the dog part of him disappeared, leaving a wild wolf guarding Su Xiao.

The sea breeze blew at the man, dog, and sword, while Zoe was walking toward them.

Bob's cold eyes looked at Zoe, rooting her in her place before barking at her.

“Don't worry. I'm not a bad person.”

Zoe pulled out some food from her Inventory and wanted to feed Bob.

But the latter looked at her as if saying: ‘Are you mentally ill?’

This made Zoe stiffen as she became depressed by the disdain shown by a dog.

Bob would never eat anything someone other than his own hunt, or Su Xiao gave it to him.

Even before in the restaurant, Bob didn't eat when the waiter put down the tray of food. Instead, he waited for Su Xiao to give to him himself.

Su Xiao saw Zoe and directly picked up Dragon flash and strapped it to his waist before asking: “Are you here for the Blueprint?”

Su Xiao waited for her response. If she said yes, she would die instantly.

“No, No, No, I'm here to do business.”

“Doing business?”

Su Xiao's first thought that she is here to sell Potion to him at a high price.

This made Su Xiao directly draw Dragon flash from the sheath and start walking toward her.

“I'm not here to take advantage of you, look at this.”

Zoe directly showed him the description of a skill.

[Kiss of life]

Type: Active skill

Condition of use: Charm point 25, the user must be a female.

Effect: A long kiss between the user and a target of the opposite sex can heal 70% of the target's Hp (The target's vitality must be under 30 points). After a long kiss, the target would be in a state of “Love Daze.”

Love daze: Increases natural Hp recovery by 200% for 10 minutes.

Cooldown: No cooldown, but this skill is limited to two uses per World (2/2).

Description: An exchange of bodily fluid isn't just a pleasurable experience, but it also heals your injuries.

Su Xiao raised his eyebrows seeing this. He saw this skill before. A girl from the flower adventurer guild named candy had it.

“10,000 paradise coins.”

Zoe smiled slyly, but Su Xiao held his blade and moved toward her, making her afraid...

Two minutes later, Zoe was angrily sitting on the sand as her Kiss of Life's number of uses dropped to 1.

Suddenly a sound taunted her: "I have told you that it was a stupid behavior, getting out alive is good."

Vu Luoluo teased Zoe and took pleasure in her misfortune.

"I was indeed greedy, but how could he not have any pity at all. What angered me is that he walked away after healing himself, he said, 'it's nice doing business with you' before leaving."

Zoe was depressed as she almost gained nothing. Su Xiao just gave her 3,000 Paradise Coins.

...

Su Xiao rode on Bob's back as they moved toward the Tower of Justice.

At this time, the Tower of Justice was in chaos. When Su Xiao was about to enter the tower, a figure suddenly fell from the building.

With a bang, the figure fell not far away from Su Xiao, creating a big hole on the ground.

Seeing this, Su Xiao was extremely happy as he saw that figure as treasure chest + Source of the World + Mana points.

The one who fell is Fukurou of the CP9. If Su Xiao remembers correctly, Franky was the one who defeated him.

"Ah, you're that fellow named Byakuya."

Fukurou saw Su Xiao, and he seemed desperate.

"It seems like I'm not that late."

Bob ran toward Fukurou, who immediately tried to stand up, but he was too late.

Su Xiao's sword flashed as Fukurou's throat was slashed.

[You killed Fukurou.]

[Fukurou is an important character, giving you 5,3% source of the World. Current Source of the World 15,6%.]

[Your talent is activated: Your mana increased by 15 points permanently, your current mana is 843 points.]

[You obtained a treasure Chest (Blue)]

This a good example of the benefits from the fights in the tower of Justice.

Straw hat pirates won't kill CP9 members, they will only defeat them, and this was an opportunity for many to grab Source of world and treasure chests.

Su Xiao entered into the Tower of Justice while holding his sword in his hand and getting ready to face the cowboy and the three brothers if he encountered them.

Chapter 358: The Shiny Gold Coin of doom!

Su Xiao could hear crashing sounds of the fight from above as he entered the Tower of Justice.

The Tower of Justice was very high with dozens of floors, and each floor is the size of dozens of houses.

Su Xiao looked around for the stair before walking up. He reached the third floor when he suddenly heard the sound of gunshots.

He stopped in his track as he looked to his left only to find an unusual sight. There were two men and a woman, one of them man was lying on the ground. With a closer look, Su Xiao noticed that this was Kumadori.

The other two were Nami and the Cowboy, who were conversing normally.

That surprised Su Xiao because the Cowboy joined the World Government camp like him.

Mad Milk was with the Straw hats, the GuoZu three brothers joined the Galley-la comp, and Su Xiao and the cowboy was with the World Government.

Nami was talking with the Cowboy without any fear. The Cowboy should've defeated Kumadori.

In the cowboy's hand was a purple treasure chest. Since he killed Kumadori alone, then his reward should be good.

"If you have any problem later, I will help you."

The Cowboy said, and Nami nodded. The cowboy seemed relaxed, as if his goal was already achieved.

"Really? Thank you very much."

Nami smiled because she just won over a powerful ally.

Suddenly, both heard the sound of footsteps approaching and turned around hastily to look at the source.

Seeing Su Xiao, the cowboy instantly grabbed his gun and jumped out of the window to escape.

He just fought with Kumadori, and only 20% of his Hp remained. If he fought Su Xiao, he would die.

Nami stared at the strong ally she just made escaping as soon as he saw Su Xiao and cursed him in her mind.

"You... hello."

Nami backed away a few steps while forcing herself to smile.

Su Xiao didn't draw his sword because the straw-hat pirates were somewhat special. If he killed one of them, the source of the world he would gain would be astronomical, but they are now still too weak without the two years of training.

Nami now was just stronger than an average person. She mainly used her weather manipulation to fight. She was weak and couldn't compare with strong elite pirates.

Seeing Nami's smile, Su Xiao walked toward her before he stretched his hand to grab Nami's hand. But his hand just passed through Nami before she dissipated.

Su Xiao stared at the illusion and was surprised that his senses couldn't pick this trick. Nami ran away.

“Mirage.”

Su Xiao couldn't sense Nami, which means her Mirage can block sensors.

...

On the fifth floor of the Tower of Justice, Nami ran as fast as she could away from Su Xiao. She was sweating a lot as she panted.

“I was almost caught, and if I'm caught, I'm dead.”

Nami was frightened as she looked around then back at the room's entrance to make sure that Su Xiao wasn't behind her.

After several minutes, Nami felt safe.

Ding!

Nami heard a familiar sound, which made her ears erect.

“This sound...”

Nami stood up and wanted to go out, even though danger awaited her outside.

But that sound attracted her greatly, and she couldn't control herself. After an internal struggle with her logical side, she peeked out of the door and looked around.

A Gold coin appeared on the ground not far away.

The first thought Nami had was this is a trap, but after carefully analyzing the situation, she convinced herself that this belonged to some people who wanted to flee.

Her logical side was screaming at her, but she couldn't control her self as she walked toward the gold coin.

She hesitated a bit before picking it up and was filled with happiness because this was a rare Gold Coin.

She wiped it up, making it shiny as if she was taking care of her baby, but she noticed another coin at the entrance of a room.

She directly moved toward it, and when she picked it up, she discovered that a man was standing in front of her.

“That... This is the Gold Coin that you dropped... I was going... To return it to you.”

Nami threw the Gold coin down and wanted to run, but it was too late.

Nami was too close to Su Xiao, and what happened next is imaginable. Ten seconds later, Nami, with tears in her eyes, struggled inside the room.

“No, what is this, don’t put in my mouth, ugh...”

A cry of help sounded from the room as Su Xiao walked out while ignoring Nami.

“Ugh!!”

Nami repeatedly retched as she was forced to swallow a white ‘snake’.

From the start till the end, the man didn’t speak, and she didn’t know what he wanted to do. And more importantly, he took away her Gold Coin.

Nami was very sad, she was forced to swallow a snake, and her money was stolen.

Su Xiao walked to the upper floors of the Tower of Justice deep in thoughts. His understanding of the Straw-hat pirates grew by his encounter with Nami.

When he baited Nami and stopped Nami’s struggle by punching her throat, rows warnings appeared from the Reincarnation paradise.

After seeing these warnings, Su Xiao understood why the contractors didn’t attack the Straw-hat pirates.

Before he arrived, The Cowboy and Nami were alone, and the former didn’t try to kill Nami at all.

If the contractors kill the protagonist or his crew in this case, the Reincarnation paradise won’t punish them, but the world’s difficulty would soar to the sky.

If Nami dies, the difficulty of the One-Piece world will reach Lv.36. Su Xiao won’t be able to deal with such a difficulty.

The Protagonist’s partners aren’t unkillable, but you need to be strong enough to do it.

Su Xiao even suspected that if he killed Nami, one of the weakest members of the Straw-hat crew, he would receive at least 30% of the world’s source.

After asking about it, Su Xiao found out that if Chopper, Nami, and the others died, the world’s difficulty would increase between Lv.30 and Lv.40. If Zoro and Sanji died, the world difficulty would increase between Lv.40 and Lv.60, and if Luffy died, the difficulty would reach Lv.80.

How terrifying was that?

Su Xiao’s face darkened, not to mention Lv.80, He won’t even survive in Lv.30 difficulty.

However, his goal from the start was not killing any of the Straw-Hat’s, since he didn’t have the power to face them at all, and killing them won’t be seeking riches while facing danger. It was seeking death.

After all, their background wasn’t something to scoff about. For example, If Luffy died, Garp, the hero of the Marine, one of the Yonko, Shanks, and the revolutionary army, Dragon would come

after his life. And he wasn't strong to face the Vinsmoke family behind Sanji. Even Usopp had Yasopp, the sniper of the Red-haired pirates.

Chapter 359: Fighting with Wisdom!

Although killing the Protagonist and his crew is not easy, Su Xiao's way was better. He had her swallow an Alchemy bomb, which would bring better results than mercilessly killing her.

As he moved toward the higher floors of the Tower of Justice, Su Xiao checked each floor, searching for the three brothers as they were the only threat left in the tower.

There were about 40 minutes before the Quest come to an end. As long as Su Xiao finish this Quest, the other contractors will fail.

Su Xiao took out a cigarette and leaned on the iron fence before lighting it up.

While Smoking, Su Xiao could hear the sound of a sword fight on the upper floor, and he was tempted to go and fight against another swordsman. He wanted to practice his swordsmanship, after all.

Even though staying away from danger was the best option currently, Su Xiao's mind was set on practicing his swordsmanship now.

“So be it, I will go and see.”

Su Xiao threw his cigarette away as he quickly climbed up the stairs.

As he reached the twentieth floor, Su Xiao was stunned as he saw a Giraffe quarreling with a wolf.

Both of these animals were standing upright while having some human characteristics.

They were two Zoan fruit users, Kaku and Jabra.

There were another two people not far away, which after a closer look, Su Xiao recognized them as Zoro and Usopp, who were strangely handcuffed together.

Zoro's face was ugly. He felt fortunate that the one with him was Usopp as both of them didn't have any devil fruit, or else, they would feel extremely weak right now.

Zoro raised the sword in his hand and tried to cut the handcuff.

Ding!

The handcuff was intact.

“Let's do rock paper scissor, and whoever loses will cut his hand.”

Zoro said to Usopp.

“Nooo!”

Usopp wailed, while Zoro was deep in thoughts before he said: “I have a solution.”

“What is it?”

“Hold this sword close to your chest with both hands.”

“Like this?”

Usopp held the sword in his hand like he was instructed.

Zoro grabbed Usopp’s belt, which made the latter’s mouth twitch: “Is it possible that you want...”

“Listen, Sogeking. You’re now a sword.”

Zoro was holding a sword in his left hand, a sword in his mouth, and Usopp on his right hand while Usopp held a sword in his own hands.

“I want a lawyer. I want to sue you.”

Usopp shouted in fright as his body trembled.

“Whatever you want. I will try this first.”

Zoro waved the unique sword ‘Usopp’ to adjust to the added weight.

“This must be a dream, no, a nightmare!!”

Usopp wailed.

“Swords don’t talk.”

Zoro rushed forward with Usopp in hand.

“Bastard...”

“Wait, you really want to fight like this? Stop, you bastard.”

Usopp was beyond shaken by the current situation.

“haa!”

Zoro jumped, and with a loud shout, he slashed at Kaku.

The Unique sword named ‘Usopp’ had a unique way as its own slash sound effect, which was: “Aaaaah!”

This made Zoro somewhat speechless.

Of course, this strange combination between Zoro and Usopp made it impossible for them to hit Kaku or Jabra. Kaku, while dodging, stuck a hoof at Usopp’s nose.

Usopp’s long nose was bent and twisted while blood flowed out like a fountain.

Boom!

Suddenly a bullet made its way toward Jabra, who dodged sideways.

“This guy is...”

Jabra looked at Su Xiao and quickly figured out who he was.

“Jabra, kill him, I will handle these two.”

Kaku shouted, if he wasn’t held here by Zoro, he would’ve rushed toward Su Xiao himself.

“I will suppress these two. You go at him.”

Jabra rushed toward Zoro, which was the safest course of action he could get.

Kaku didn't say anything after Jabra distracted Zoro, he directly rushed toward Su Xiao.

Su Xiao instantly flashed away from the room and went to another empty one.

A lot of equipment was inside the room. They were fitness equipment that a normal human won't ever dream of using.

Su Xiao stood in the center of the room with a green carpet under his feet.

Realizing that the battle was about to start, Bob shook his head before running away to hide. Ten seconds later, no trace of Bob could be found.

Kaku rushed into the room while holding his two swords. He entered the room using his human form because he just ate the devil fruit; he was not very familiar with using it yet.

In the show, Kaku was defeated because he used his Devil fruit directly after eating it, while he wasn't familiar with the power it had. Such power needs time and training for the user to grasp.

“Now, I will give a chance to state your purpose. Otherwise, I have the right as a Member of the CP9 to execute you right here, right now.”

Kaku raised his swords and pointed at Su Xiao.

“Kaku, you're not suited to be a spy.”

Dragon flash appeared in Su Xiao's hand while directly activating Azure Steel Shadow. Su Xiao knew that Kaku was proficient in using Soru, that's why he suppressed his senses to five meters around him.

Kaku stayed silent. He made a fatal mistake previously. He didn't kill Paulie, and because of that, he jeopardized their mission, which is a mistake a spy isn't allowed to make.

“If you don't want to talk, then I will kill you, then your goal wouldn't matter.”

Kaku's body bent down a little before he muttered: “Soru.”

Wouch!

Kaku disappeared without a trace.

Su Xiao's honed instincts and senses picked on Kaku's location and directly supplied the information to Su Xiao's brain almost instantly: Left!

Ding!

Su Xiao raised his sword just in time for it to meet with Kaku's blade blocking it efficiently.

“Unexpectedly, you could see through Soru. Ah, right, you also learned Soru.”

As his first sword was blocked, Kaku swings his other blade at Su Xiao's throat.

Su Xiao lifted his left hand, which was equipped with the purple quality armguard, and stopped the second attack.

Su Xiao didn't waste any time as he grabbed Kaku's blade with the intention of breaking it.

This made Kaku's expression change as he didn't have any other weapon now, so he used all of his power to separate the blade from Su Xiao's hand.

As soon as the blade left Su Xiao's hand, Kaku attacked again.

“Die!”

As the sword fell on Su Xiao's head, the latter didn't even attempt to dodge it. He merely pulled his left arm back.

Puchi!

A large amount of blood spewed out of Kaku's body as he screamed. Su Xiao tricked Kaku when he grabbed the sword with his armguard, and instead of breaking the sword, he used the metal wire of the armguard to wrap Kaku. And as soon as he tightened his hold on the Wire, it directly penetrated Kaku's skin.

“Tekkai!”

The Wire stopped penetrating Kaku's body as Su Xiao felt the resistance soar up with Kaku using Tekkai.

Su Xiao jumped back and grabbed the wire with his left hand, and pulled with all of his power.

“Ahh!”

The pain made Kaku's eyes red as he swung his sword toward the wire, but to his bewilderment, the Wire wasn't cut, except for the pain he felt when he hit the wire, nothing happened.

Su Xiao suddenly had a bright idea, if I can channel Azure Steel Shadow through Dragon Flash, couldn't I do the same with the Metal Wire?

Chapter 360: The Nemesis

Light blue energy spread through the metal wire, which became easy to notice.

An even more intense pain assaulted Kaku as his energy dropped at an alarming rate while dealing true damage to Kaku's Hp.

It was a great idea to channel the Azure Steel Shadow's energy through the wire after trapping someone in it.

He can't do this before trapping someone, or else, the metal wire will be in plain sight, and no one would be stupid enough to let it wrap around himself.

Kaku could do nothing in his current situation; the metal wire was just too strong for him to break out from.

Su Xiao kept on channeling the Azure Steel Shadow's energy down the metal wire, and after a while, the metal wire sank even further into Kaku's body, almost reaching his bones.

Su Xiao wasn't finished as he took an alchemy bomb and changed it into a snake before making it climb Kaku's body and coil around him.

“Explode!”

The Top Grade Alchemy bomb swelled and turned red before it exploded.

Since Su Xiao was so close to the explosion, he was slightly affected by the shock wave is sent.

As the fire of the explosion faded, Kaku's whole body appeared full of burns, his nose was blown away, and charred blood covered the ground around him.

“Puff!”

Kaku spat out a mouthful of blood as his body almost lost all its strength.

“Huh, huh,…”

Kaku gasped violently and raised his head to look at Su Xiao. He knew that today is the day he dies, his carelessness at the start of the fight cost him his life.

Kaku suddenly made an unexpected move. He threw the sword in his left hand onto the ground before holding the other one in his right hand.

His left hand trembled as it moved and held the sword in his right hand, and immediately as he saw this, Su Xiao tried to tighten the metal wire even further.

“Let's go to hell together!”

Kaku lifted his left hand and wrapped the metal wire around his forearm.

Blood gushed out from his forearm, but Kaku didn't care. He wanted to wrap the metal wire around him so that Su Xiao wouldn't escape.

As long the power gap wasn't big, Su Xiao wasn't afraid of anyone up close, so he directly held Dragon Flash and rushed forward.

The Metal wire connected the two, and the outcome should be decided quite fast.

Su Xiao raised Dragon Flash and dropped it down on Kaku's head.

“Tekkai: Steel Head!” (T/L: Normal Tekkai, but the author named it cause Kaku used it to strengthen his head.)

Dragon Flash could only pierce a few centimeters of Kaku's head before it stopped.

Kaku's eyes were full of rage as he instantly used his everything to slash at Su Xiao.

Su Xiao was wounded, but he didn't even take a step back.

The close combat between the two was extremely fierce, and after a few attacks from Kaku, the latter started to lose his strength. He lost too much blood, and his body was filled with wounds due to the explosion.

Su Xiao took a deep breath as blood dripped down from his chin. He quickly kicked Kaku's Abdomen and waved Dragon Flash.

Puchi!

Kaku's right arm was severed, and fell down while still clutching the sword. He was extremely frustrated. He was proficient in the Rokushiki, but he couldn't use Soru or Geppo to get away due to the Metal Wire.

“Rankyaku: Amane Dachi!”

Kaku angrily roared as his left hand supported his body and lifted him while his legs rotated quickly, sending out compressed Air slashes.

Su Xiao knew that the current situation wasn't great for him, but he wasn't flustered. He directly tightened the Metal wire even further, stopping Kaku's rotation.

Su Xiao didn't stop there. He directly landed a dropkick between Kaku's legs. As soon as the kick landed, Su Xiao imagined two eggs cracking.

Kaku's body started spasming. But even though he just had a Descendants Ending Kick, he still had the ability to fight.

“Shigan: Chaotic Haze!”

Although the other attack was stopped, Kaku used another attack that Su Xiao wasn't familiar with. He directly inserted a finger into Su Xiao's chest.

Su Xiao's mouth was filled with blood as he looked at the finger in his chest.

“What is that attack?”

This attack Kaku used was a combination of Rankyaku and Shigan. His finger could send the same compressed Air slashes, and since his finger penetrated Su Xiao, those attacks damaged Su Xiao's lung and liver, and nearly cut his heart.

“Although I don't how you come to know my combat style, this skill is unique, and I never used it before.”

As Kaku wanted to bring his finger out of Su Xiao's chest, he felt pain, extreme pain that he never felt before.

Looking down, he saw a sword piercing his chest.

“When... Did you?”

Kaku's body became weaker each second, as the sword passed through his heart.

“When you were relaxed, I took advantage of your satisfaction.”

Su Xiao twirled Dragon Flash inside Kaku's heart before drawing it out. Kaku kneeled on the ground, and before he could look at Su Xiao, his head flew in the air.

[You killed Kaku]

[Kaku is a main plot character; you obtained 7.8% Source of the World. You currently have 23.4% Source of the world.]

[Your devourer talent is activated: Increasing 10 Mana points permanently. You current Mana point is 853.]

[You obtained a treasure Chest (purple)]

...

Seeing his devourer talent add only 10 points, Su Xiao looked in doubt, as Kaku was a strong opponent, so his Mana should've increased more than 10 points.

After looking further into it, Su Xiao finally understood why he only obtained 10 points. It seems like he reached the limit of 100 Mana points in this world.

Su Xiao was smiling widely as he picked up the Purple treasure chest. This Treasure Chest may even contain Kaku's devil fruit.

Even though Kaku's fruit was just a normal Zoan fruit, with a Giraffe shape, and may not have strong power, it certainly can be sold at a high price.

But now wasn't the time for Su Xiao to think about it.

"Come out!"

Su Xiao looked at the door and shouted. While he was fighting Kaku, some people hid outside the room, waiting for a good opportunity to finish whoever emerges victorious.

"Big Brother, what should we do? He discovered us."

"Do you still need to ask? Of course, will fight him, he is seriously injured after all."

"Big brother is wise."

The three Guozu brothers entered the room wearing some strange armor.

"Brothers, Attack!"

The big brother angrily roared as he charged toward Su Xiao, in his hand was a blue quality baseball bat. The same weapon was being wielded by the other two brothers.

Su Xiao knew that fighting those three wasn't good right now, as he was just finishing another fight himself.

Su Xiao lifted his sword to stop the bat from hitting him. He was surprised by the lack of power behind the attack and concluded that this guy's strength stat wasn't even above 15 points.

A smile suddenly reappeared on Su Xiao's face as he understood these brothers' strategy. They were holy knights, they had an extremely strong defense and had healing skills, but their attacks couldn't overpower a chicken.

Su Xiao no longer remained defensive. Instead, he took the initiative to attack, which made the eldest brother really anxious.

Dragon Flash was raised up before it fell down on the guy's armor, directly piercing it.

With a pitiful shout, the eldest brother started crying.

“This is good. This fellow’s attacks deal true damage.”

Seeing his big brother wounded, the second brother directly started healing him, and a golden light enveloped the two of them.

Su Xiao didn’t care about them healing his target; instead, he continued to attack.

The little brother joined his second brother in healing their eldest brother.

The eldest brother was crying. Although he wouldn’t die easily, it was just too painful.

“Please forgive us, we are wrong.”

The eldest brother begged for mercy, but Su Xiao didn’t pay attention.

After a few dozens of attacks, Su Xiao stopped attacking the eldest brother as he shouldn’t have any Mana left before he went to attack the others.

It’s true that they had strong defense and Vitality and even stronger healing ability, but Su Xiao didn’t believe that they have unlimited Mana, and once they don’t have any Mana left, they would die.

Su Xiao was the nemesis of the GuoZu brothers!
