

## R. Paradise 371

Chapter 371: Possessed by the King of Luck

The Purple Treasure chest flashed, making Su Xiao lean forward in anticipation.

Bb nearby did the same as he looked at the shiny light.

The Purple light continued shining for a long time before retreating, revealing two items.

Seeing the Items, Su Xiao's heartbeats accelerated.

At this time, a fruit that looked like a Banana with strange patterns was on Su Xiao's hands.

This is a Zoan Devil Fruit.

[You got Zoan type Devil fruit.]

[You got Devil's whisper]

...

[Ox-Ox Fruit, Model: Giraffe]

Origin: One Piece

Quality: Dark Purple

Type: Devil Fruit (consumable)

Effect: After eating the devil fruit, the user will be able to transform into half a giraffe or a full giraffe and go back to his human shape as he wished.

Hint: After eating the Devil Fruit, the user gains strength +7, Agility +8, Vitality +10, Intelligence +3, Charm +5.

Hint: Devil fruits are weak to sea-stone and seawater. If the user responded quickly and got out of the water, he won't be affected, but if 60% of his body was submerged in the water, he would lose his strength.

Rate: 259 (Note: Dark Purple items are rated between 151 and 260.)

Description: The power of a Devil? No, this is normal power.

...

Su Xiao looked at the Devil fruit and was hesitating. He didn't know if he should eat it or not.

After all, the devil fruit added 33 attributes points and is considered a huge sum for Su Xiao.

But Su Xiao didn't find anything else useful in this devil fruit except for the attributes.

Changing into a Giraffe? That wasn't Su Xiao's style at all.

After careful consideration, Su Xiao didn't eat the devil fruit. He didn't if this devil fruit conflicted with the Shadow of the Law or not.

If Su Xiao learned a skill that conflicts with Shadow of the Law, the latter would deconstruct the former directly, but devil fruits are different. Their power isn't Law, and the quality was as high, he didn't know if he would survive the Shadow of the Law chose to deconstruct it.

Su Xiao directly decided to sell the devil fruit. The enhancement of the attributes was very attractive.

The development of power can't be exploited easily. Eating something like a Devil fruit of the Zoan type wasn't the most advantageous.

Su Xiao stored the devil fruit and looked at the other Item.

[Devil's Whisper]

Origin: Unknown

Quality: Purple

Type: Consumable (1/1)

Effect: After using this item, you will obtain Passive Skill: Power of the Devil

Power of the Devil: Each attack causes 3 True Damage.

Rate: 150

Description: The power of the Devil is formidable.

...

[Devil's Whisper] was a black woodcarving, about 10 centimeters in length and the carvings on it seemed lifelike.

Su Xiao frowned. Even though the Power of the Devil's damage was very low, it was still true damage.

Using Devil's whisper, a new passive skill was added to Su Xiao's skill list.

Power of the Devil: Lv.1 (Passive Skill)

Skill Effect 1: Each attack causes 3 True Damage.

Skill Effect 2: You can offer to increase the level of Power of the Devil. The higher the quality of the Item, the stronger Power of the Devil will get.

...

[The hunter has learned a new ability: Power of the Devil]

[After checking, the Power of the Devil and Shadow of the Law is 89% compatible. Power of the Devil has been added to the list of the Shadow of the Law's Skill]

Seeing the new message, Su Xiao, was lost in thoughts. It seems that as long as Skill's compatibility was high with the Shadow of the Law, it will be integrated with it, or else, it will be directly deconstructed.

Su Xiao took up a White Quality Item and attempted to sacrifice it.

Black energy suddenly appeared out from Su Xiao's hand, giving him an ominous feeling.

Su Xiao Frowned.

In the meantime, the Azure Steel Shadow's energy suddenly rushed toward the black energy.

“Ah~.”

A pitiful ghost's shout rang out as the Azure Steel Shadow started devouring the Power of the Devil's energy.

“Shadow of the Law, You're an inheritor!!”

A loud voice entered Su Xiao's ears, but the latter saw nobody nearby.

“Good, the Shadow of the Law, has an inheritor. They weren't exterminated. Our Demon Clan is good friends with the Shadow of the Law inheritors. An inheritor actually gained our devil powers unexpectedly. This is a miracle.”

The sound seemed full of excitement and warmth as if the one behind it saw a family member.

“This second-rate Power of the Devil is too degrading to a Shadow of the Law Inheritor. The third generation of the Shadow of the Law was our demon clan's benefactor. I will give you the purest power of the Devil. It doesn't have any disadvantages.”

The voice beside Su Xiao's ears vanished, and the black energy suddenly became Blood red.

The Azure Steel Shadow's energy rushed toward the blood-red energy, which didn't resist and was gradually pushed out of Su Xiao's body.

The Blood red energy didn't dissipate; instead, it formed a blood-red cross on Su Xiao's hand like a red tattoo.

As if feeling that no other energy contended with it, the Azure Steel Energy returned to Su Xiao's body calmly and allowed the Devil's power to be stored on Su Xiao's body surface.

[Your passive Skill, the power of the Devil has changed and evolved into Devil's Mark.]

Devil's Mark: Lv.1 (passive Skill)

Skill effect 1: Causes 10 True Damage with each attack.

Skill Effect 2: You can increase the level of the Devil's Mark by sacrificing items. You have reached an equality contract with the higher demons.

...

Su Xiao didn't know what happened, but he knows one thing. The Shadow of the Law Inheritors didn't only have enemies, but Allies too. And those allies are extremely generous.

Su Xiao attempted to sacrifice a white quality item once again, and it quickly vanished.

After the sacrifice, The Devil's Mark increased to level 2 and the True Damage increased by 3.

Obtaining such a skill made Su Xiao happy and in a good mood. From now on, the equipment that he didn't need and didn't have much value can be fed to the Devil's Mark. And if each level can increase 3 True damage, then the True damage will be insane at a high level.

Chapter 372: Strange Sheep

Su Xiao sorted out the items in his inventory. He already opened The Scarlet Cards and Treasure Chests; now, he didn't have many things left.

Soul Crystal (small) x 1

Silver Medal of Honor x 1

Devil Fruit (Dark Purple) x 1

Scepter of the King (Green)

Paradise Coins: 29,900

Su Xiao's power upgrade is finished and now what's left is easy. He needs to sell items and activate the Alchemy pharmacy.

But before doing these, Su Xiao was going to use the Silver Medal of Honor.

The Honor store is a special store for hunters in The Reincarnation Paradise. To Su Xiao, this was the only benefit he had from being a hunter.

The Honor store is in the corner of the Exclusive room, and Bob didn't dare go there.

It looked like a vending machine. There two things that Bob didn't dare eat in this room, the first is Su Xiao, and the second is that vending machine.

Bob had thought about gnawing that thing, but the consequences would be dire.

[Hunter is welcome to the Honor store; please read the following conditions]

1: Items in this store can only be exchanged using the Medal of honor.

2: The Items from this store are locked and can't be traded with other contractors.

3: The Hunter is forbidden from mentioning the existence of the Honor store to anyone, or else he would be executed.

4: There are few commodities in the Honor store, and they are limited supply.

5: No exchange will be refunded.

...

There are more rules, but Su Xiao had read them already. The Honor store is indeed a store, but the items inside are from The Reincarnation Paradise.

Su Xiao used his hand to open the Honor store, and it directly changed.

[Hunter holds a silver medal of honor, which can be exchanged for the following items]

Soul Crystal (Medium) x 1

Price: Silver medal of honor.

...

Honor Recovery Medicine x 1

Effect: After use, restore full Hp and Mp in two seconds.

Price: Silver medal of honor.

...

Immunity to main Quest failure penalty.

Effect: May exempt the user from attribute or paradise coins deduction due to the main quest's failure, can't exempt the user from The Reincarnation Paradise's execution.

...

Body examination and Restoration (1 time only)

Effect: May conduct an all-round examination of The Hunter's body and fix any internal injury or disease and return the Hunter's body to the optimum condition.

Hint: This item can't be exchanged in any of the following attributes surpasses 50 points: Strength, Agility, Vitality.

Price: Silver medal of honor.

...

Four choices and Su Xia already removed the first. He had other methods to obtain the Soul Crystals; he didn't need to waste the Medal of Honor.

The other three were really tempting, as one can be used to recover from any injury on the battlefield in just two seconds, the other can remove the penalty from the Quest Failure, and the last one can restore the body to the maximum of its ability.

The Reincarnation Paradise already washed Su Xiao's body from all diseases when he first joined, but this wasn't removing the disease; it's restoring his body to the best shape it had.

Su Xiao's choice was hard; the three were good items. He closed his eyes and sensed his body, and to his surprise, he felt pain in his chest.

The Shigan (Finger Gun) Chaotic Tempest Kaku used in the end of the battle destroyed Su Xiao's internal organs, and if his body wasn't strong enough, he wouldn't have survived.

Although returning to The Reincarnation Paradise healed him completely, but he still felt the pain in his chest.

Not only that wound, even the wound he received in the Akame Ga Kill world, Attack on Titan world, and every world he visited and was injured inside left behind some alignments.

With a quick thought, Su Xiao made his choice.

"I want... the Body examination and Restoration."

Su Xiao knew that without a good body, he wouldn't have an easy road in front of him. Both swordsmanship and Shadow of the Law inheritance requires a strong body.

[Examining The Hunter's body... Examination Complete.]

[Restoring damaged spots, lung, liver, heart, vertebra...]

Su Xiao was stunned by the amount of damage his body had.

[A rib is seriously out of place...]

[Leg bone has three fractures not thoroughly healed...]

Various issues appeared in front of Su Xiao. His body really endured too much of a burden when he fought.

[Restoration about to start, asking the Hunter to take a break]

After The Reincarnation Paradise's last prompt, Su Xiao felt drowsy as his body relaxed.

[The recovery function is activated. 100 L water from the Fountain of Life has been collected.]

Su Xiao heard this and directly went into a deep sleep.

Large green water droplets emerged in the air and enveloped Su Xiao's body.

At this time, Su Xiao was dreaming; he was in a large Grassland shining due to the rays of the sun shining in the blue sky.

In the exclusive room, water from the fountain of life enveloped Su Xiao's body as all hidden diseases and wounds started healing quickly.

Su Xiao was immersed in his dream. He suddenly ran into a sheep on the grassland.

The sheep didn't know what's going on, so it's stuck its tongue and licked Su Xiao's face.

Su Xiao wanted to drive the sheep away, but for some reason, he couldn't move.

The Sheep sat on Su Xiao's face and continued licking his face.

Su Xiao opened his eyes, only to see a dog in front of his face. At this time, Bob was sitting on Su Xiao's chest and licking his face.

"I knew it was you."

Veins popped out of Su Xiao's forehead. Bob realized that he did something bad and directly hid under the bed.

Su Xiao stood up and immediately noticed the change in his body.

His body seemed like new; it's as if he washed it from inside out. He didn't feel any pain or anything else from his body. Instead, he felt relaxed.

Taking a long breath, Su Xiao did some basic exercises.

After an hour, he was sweating all over. He sighed in relief as his body was really healthy.

Once he checked his Status, he was surprised to see his attributes increased.

Strength: 38 (increased by 2)

Agility: 37 (Increased by 1)

Vitality: 33 (Increased by 2)

Intelligence: 36

Charm: 2

Chapter 373: 1 Paradise Coin

After taking a cold bath, Su Xiao brought Bob out of the exclusive room toward the market.

He will now sell the items he had, which are: [Scepter of the King (Green)], [Scepter of the King (Green)], and [Devil Fruit (Dark Purple)].

There weren't many items, but the devil fruit alone is enough to stir a storm in the market place.

Moreover, Devil Fruits were a well-known power system in the Reincarnation paradise, along with Haki from One Piece's world, Chakra from Naruto's world, and Nen from Hunter X Hunter's World.

Those four systems were sought after everywhere in the Reincarnation Paradise due to the high potential they had.

Nen had medium difficulty, but the full potential of that energy is unknown.

Devil Fruit and Haki were very different than ordinary power systems because Devil Fruit is only hard to obtain, while Haki is Hard to learn, but their potential was outstanding.

Spiritual pressure (Reiatsu) belongs to the Shinigami from bleach could be grouped with the other four power systems, but this one is the hardest to develop.

There was a contractor that once learned how to use Spiritual pressure. Unfortunately, he died in his third derivative world due to a lack of recourses to develop his Spiritual pressure.

Most people can't decide whether Haki was better or Devil fruits were better.

Devil Fruit was expensive, very expensive, while Haki was hard to learn.

The market was filled with contractors, and most of them were strolling around, waiting for an opportunity to make it big.

Su Xiao directly rented a stall and priced each item, [Scepter of the King (Green)] was 8,000 Paradise Coins and [Special Rope (Green)] was 3,000 Paradise Coins.

The Special Rope can be sold to the Reincarnation Paradise for 2,300 Paradise Coins, making it 3,000 For people is reasonable.

Even so, Su Xiao wasn't confident that anyone would purchase that Rope.

Su Xiao was having a hard time right now. He doesn't know the asking price for the Devil Fruit.

100,000 Paradise Coins? Too low, 200,000? Still too low, Su Xiao shook his head. Suddenly he had an idea.

After hesitating a little, he put the Devil fruit's price as 1 Paradise Coin.

Right, just 1 Paradise coin, but it can't be bought directly as the buyers had to bid. As soon as someone bids, a counter will start for the next ten minutes. If no one else bids, that item belongs to him.

If Su Xiao didn't like the price, he could withdraw the Item he put for bidding by paying 500 Paradise Coins.

That was the auction feature, and most people don't use this option because it generally had no use if the item isn't valuable.

Su Xiao changed the stall's name to [High-Quality Booth], and finally, the stall was open.

Bob curled up between Su Xiao's feet. For some reason, he didn't like crowded places.

Su Xiao did nothing and sat still in the booth. Because this time, he needs to pay attention to the buyers.

A weak contractor wearing glasses walked past the booth, he didn't see the Devil Fruit clearly, but soon he stopped and went back.

As if he saw something unbelievable, the Contractor took off his glasses and rubbed his eyes before looking again, and it was still there. The Devil Fruit was still there, and the price was 1 Paradise Coin.

The Contractor was enveloped in Ecstasy. It was a once in a lifetime opportunity.

He immediately pressed buy but was surprised that it was a bid as the Reincarnation Paradise's Prompt appeared in front of him.

[You have successfully made a bid. If no one made another bid in the next 10 minutes, you would receive the item. 9 Minutes 59 Seconds remaining...]

The Contractor was stunned for a while. It was as if he won the lottery prize, but the money will go to charity.

"Friend, I bid 80,000 Paradise Coins for the devil fruit. Those are all my assets. Although the Devil Fruit is highly rated, it's a Zoan, it is the weakest Devil Fruit..." The Contractor tried to bargain with Su Xiao.

"I'm more inclined to have it auctioned."

This made the Contractor Speechless. He silently raised his bid to 50,000 Paradise Coins. Even then, it was still cheap.

Bob raised his eyes at the Contractor and sighed. Human beings are too greedy and naïve.

The temptation of a Devil Fruit was unstoppable. Ten seconds later, another contractor was attracted.

The Contractor stopped in front of the booth and saw a Devil fruit being sold at 50,000 Paradise Coins, but he noticed it's a bid as he was about to buy it.

The Contractor didn't choose to bid. Instead, he prepared to watch from the sideline.

“Fuck, Devil fruit bid...”

The Contractor yelled, catching every other Contractor's attention.

Quickly, many contractors swarmed Su Xiao's booth.

“Dark Purple Quality? What is that? Isn't the highest Quality purple?”

A newcomer looked at the Devil Fruit's stat with surprise as he drooled.

Dozens of contractors swarmed the booth as the surrounding became noisy.

“This is the first time I saw a Devil Fruit. This thing is powerful. It can add 33 Attribute points.”

“It's not something we can buy.”

“Ha, weak ducks, this fruit belongs to me.”

A contractor pushed the crowd away as he walked toward the booth. He didn't look at the Devil Fruit. Instead, he looked at Su Xiao, sizing him up.

After observing for some time, the Contractor shook his head and raised the bid to 58,000 Paradise Coins.

It noisy at first, but Su Xiao noticed that some contractors hurriedly left the area. They should be on their way to inform others.

More and more contractors arrived, and the price of the Devil fruit steadily rose.

Chapter 374: Auction

The news about the devil fruit traveled across the market, and as Su Xiao predicted, it became the center of attention of everyone in the market.

But he didn't expect the situation to be this exaggerated.

Most of the contractors or workers in the market moved their booths beside him, the place became crowded, and shouts of anger echoed from time to time.

“It's that bastard who touched my chest. You get up now.”

A female contractor turned red as she was molested.

“Don't step, hey stop, that's my face.”

A contractor fell to the ground and was stepped on by the others.

At this time, Su Xiao's stall was full of contractors, asking for the devil fruit's price and auctioning their own.

From 58,000 Paradise coins, to 60,000, then 65,000, 70,000...

It didn't take long for the price to reach 123,000 Paradise coins, and nobody could increase the price anymore.

The Devil Fruit was worth more than that, obviously, but nobody there had over 123,000 liquid money.

Suddenly, a few messages reached Su Xiao.

'We have found your location in the real world, hand over the Devil fruit, or you will die—Anonymous contractor.'

'Our Seven Star guild bid 160,000 Paradise Coins, close the auction and let's trade privately.'

'How about an exchange? I don't have Paradise Coins in hand right now.'

There were many threats and others who sincerely wanted to buy the devil fruit, but their price wasn't high enough.

Before long, the Devil Fruit's price reached 150,000 Paradise coins, and no one raised the price for two minutes.

After no one bid for about 5 minutes, a female contractor wearing a wizard robe squeezed into the booth.

The female breathed a sigh of relief with a helpless face. It was dangerous for her to squeeze into the crowd like that.

Su Xiao instantly felt the water element around the mage and concluded that she was a water mage.

She didn't wear heavy make-up, but she was still beautiful.

"I finally got here. Those people are crazy."

The female mage picked up the devil fruit and nodded in satisfaction.

Su Xiao's brows rose as he saw this. Being able to pick the devil fruit means that she was the one who bid 150,000 Paradise coins.

"This thing is very suitable for Old Scar; I don't know what will happen to him when he eats it."

The Water Mage smiled sweetly while several contractors were looking at her dumbfoundedly.

"Get out of the way, don't squeeze, where are you touching, you stupid big."

A man stepped forward. He was wearing a leather jacket with only two buttons fastened, showing his muscled chest. A few contractors followed behind him obediently.

The Water Mage's face changed when she saw this man. Her rival has come.

The Water mage looked at Su Xiao and wanted to talk to him, but suddenly her eyes widened, and her body froze.

In her perception, Su Xiao looked like a demon, her natural enemy even.

She had to suppress her instinct, or else she would've fled already.

“Cuì mò, you're here too.”

The man said in a frivolous tone as he couldn't hide the desire in his eyes when he looked at the Water Mage.

The Water Mage Cuì Mò chuckled. She can't control people's gaze, but she was still unsatisfied.

“Crow, do you want to fight with me?”

Cuì mò's voice was gentle, but you could feel her firm attitude.

“Of course, let me think about it. You bid 150,000 Paradise Coins already.”

Crow knelt and nodded at Su Xiao with a smile before sending a message.

‘Brother, let's cooperate in pitting this woman. She killed a good brother of mine before. It's a win-win situation.’

After sending this message, Crow remembered a movie he saw before and wanted to imitate that movie's main character.

Crow made his bid, which made everyone speechless.

Crow bid 150,001 Paradise Coins.

“Crow, what is the meaning of this?”

Cuì mò's smile disappeared. She instantly raised the price to 160,000 Paradise Coins.

Crow smiled in contempt and once again raised the price by 1 paradise Coin.

Cuì mò made a helpless expression.

“You win, you can take the Devil fruit.”

Crow didn't care about Cuì mò's compromise. He would be dreaming if he thought that 160,000 Paradise Coins could get him this Devil Fruit.

Su Xiao didn't say a thing from beginning to end. He is only watching those two perform.

After a few minutes, Cuì mò seemed unable to stay down and bid once again. She raised the Price to 170,000 Paradise coins.

Crow followed suit and added 1 Paradise Coin again.

Cuì mò hesitated for a few minutes this time, the auction will end in ten minutes, and if she didn't raise the price, Crow would get the Devil fruit.

After nine minutes, Cuì mò raised the price to 175,000 Paradise Coins.

Crow smiled triumphantly and once again added 1 Paradise Coins and left a message to Su Xiao.

“Brother, after the transaction is successful, you have to share with me. This woman can pay at least 300,000 Paradise Coins. I will use 1 Paradise Coin to drag her down today.’

“Crow, are you looking for a fight?”

Cuì mò’s patience gradually wore down.

“You killed my brother, so don’t even dream about getting the Devil Fruit.”

Hearing this, Cuì mò’s face became cold. She waited till 9 minutes and 40 seconds before bidding 180,000 Paradise Coins.

Crow once again added one paradise Coin, which made everyone, including Cuì mò speechless.

Everyone knew that the one who will get it, in the end, is Cuì mò if this continues.

Just when Cuì mò was about to raise the price again, someone said: “Your acting is pretty good, you two.”

A man wearing a full-body armor stepped forward.

Crow’s mouth twitched as he was about to curse that man, but he was stopped by Cuì mò.

“Crow, it seemed we have been seen through, so our temporary alliance end here.”

Cuì mò turned around and left, ignoring Crow, who was opening and closing his mouth.

“We almost succeeded...”

Crow was upset as he looked at the Armored guy.

The man raised his chin and said: “You can take a look at the stall owner’s expression.”

Crow turned around and saw Su Xiao looking at him with: ‘Please continue your performance.’

Su Xiao was oblivious at first, but when Crow sent the message, he felt something wrong.

Moreover, the price they put seemed high, but it didn’t meet his expectation. The two were taking advantage of people’s greed.

Crow was responsible for acting as if he wanted Cuì mò to spend more money, and the latter was responsible for raising the price.

“Hey you, I will pay 180,000 Paradise Coins for the devil fruit, whether you want to or not.”

The ‘Whether you want to or not’ was spoken loudly by Crow. He was threatening Su Xiao. He was a ruffian in real life, and as he gained more power in The Reincarnation Paradise, his personality became even worse.

Chapter 375: Master, I Seem To Be Getting Handsome

“Do you accept a fight to the death in the Arena?”

Su Xiao instantly looked at Crow and asked.

“You...”

Crow didn't expect Su Xiao to be so ruthless and said.

“You watch out.”

Crow said this and left directly.

“I have 50,000 Paradise Coins, which is somewhat embarrassing, but we can talk about an exchange.”

The armored man took out two weapons and an item. Su Xiao inspected them, and his pupil shrank. They were three dark purple items.

Rate: 193

Description: Nothing is impossible. If there is something you can't do, then you lack material—  
Legendary Alchemist Kahn.

...

The three items quality was the best Su Xiao saw till now. The first item's attribute seemed simple, but Su Xiao knew that anyone who uses a spear wouldn't mind going bankrupt to obtain it.

The armored man took three dark purple items simultaneously, which means he wasn't ordinary.

"If I'm not mistaken, your Dog is a Teigu. It stuck to you even with your cold temperament, which explains everything."

The Armored man said with confidence in his judgment.

Bob laid on the ground without saying anything. Although he didn't show anything, Su Xiao, who spent all his time with Bob, could tell that he desired that New Life item.

Bob's wisdom was getting higher and higher, and he understood that he was a Teigu, just a tool. Even when Su Xiao put him away, he turns into a glass ball, which saddened him.

But Bob didn't show it, and now that the opportunity for him to gain flesh and blood arose, it longed to gain them.

Although Bob can eat normally, he doesn't have a sharp sense of taste. It was only one-tenth of normal creatures. He didn't even need to sleep, and the reason it did sleep was to pretend it was an ordinary creature.

"The New Life Transmutation Array for the devil fruit, how about this."

The Armored man suggested.

"The New Life Transmutation array, along with the windbreaker, and the devil fruit is yours." Su Xiao touched Bob's head as he said this.

"Two pieces for one, not good."

“The Devil Fruit has the potential to grow stronger.” Su Xiao Explained.

The Armored man nodded.

“Okay, deal.”

Su Xiao was taken aback that the other party agreed. This is something he never expected. Although the New Life Transmutation Array price and the Windbreaker are similar to the Devil Fruit, he expected more bargaining.

“But I have a condition.”

The armored man said, as Su Xiao instantly knew that it wasn't that simple after all.

“In the future, if you meet one of my men, even if you two are hostile, after defeating him or them, please let them live, just one. After this transaction, you owe me one.”

Su Xiao frowned as he didn't know who he was talking about.

“My name is God Sovereign. You fought my subordinate before.”

Su Xiao was shocked. This was Mad Milk's boss, the boss of the God Sovereign's guild.

After hesitating for a while, Su Xiao nodded.

“I will do it once. If I can defeat them, I will let them go once, but only once.”

“Yes.”

There is a reason why God's Sovereign guild could fight with the Brigades, and that is because of this person who kept them united. But if the Brigades were to unite as well, God's Sovereign guild would be done for.

But an organization like the brigade aren't fated to unite, they have few rules, and some members never met before.

After the transaction was completed, Su Xiao got the [New Life Transmutation Array] and the [Vorpal Windbreaker].

He instantly equipped the Windbreaker, which is the first dark purple item Su Xiao wore.

Su Xiao directly went back to the Exclusive room along with Bob. He sat on the bed and carefully checked the New Life Transmutation Array.

This thing will allow Bob to become a high-level creature, far beyond his current rank. Bob will also be able to grow stronger in the future after using this item.

“Are you sure you want to use it?”

Su Xiao placed at New Life Transmutation Array in front of Bob and asked. Bob has accompanied him for a long time, and he was loyal to the end and will be there when he needed him.

“Wuff!”

Bob barked. He already decided that he didn't want to turn into a glass ball anymore. Only by becoming a living being can he feel the temperature of his owner's body.

“Well, even if it fails, I will find a way to return to Akame Ga Kill world and repair you.” Bob directly bit on the New Transmutation Array.

A circular formation appeared around Bob while Su Xiao sat on the bed and waited.

The formation lasted for six hours before it disappeared.

A gray cocoon appeared in Bob's place. It was 3 meters high and 2 meters wide.

Kakaka... (Cocoon breaking SFX)

Cracks gradually appeared on the Cocoon as Bob rushed out of it. Su Xiao looked at Bob up and down, but he didn't find anything different except his presence.

He felt alive.

But looking at Bob's eyes, Su Xiao knew that Bob was still... Dumb.

Meanwhile, Bob was excited. He finally becomes a living being instead of an item.

Boom.

Suddenly a loud noise echoed through the room. Bob just hit the refrigerator and destroyed it.

Su Xiao's mouth twitched; this was the fridge he bought 3 hours ago.

Su Xiao ignored Bob and instead inspected his property for any change.

Bobtney (Servant)

Skill 6: You Can't See Me (Passive, used by choice): Bobtney can hide in any terrain. There is always a hiding place for Bobtney.

...

Su Xiao was stunned as he looked at Bob's property. Especially that Charm Stat. It's 13 times higher than his own.

However, Britney's core skills didn't change, but he was stronger.

Bob ran toward Su Xiao. His gaze seemed to say: "Master, I seem to be getting handsome..."

If Su Xiao was a Mage nemesis, then Bob was the girl's nemesis.

Su Xiao can't be affected by Bob's charm since he was the owner, but others didn't have that privilege. Bob is currently the most handsome Dog, probably in the world.

Chapter 376: Energy

Bob gnawed on a fleshy bone in the Exclusive room and enjoyed it greatly as he gained his new body.

Su Xiao sat on the bed with a piece of equipment in his hand. It was the Special Rope.

The Scepter of the King has been successfully sold at a Price of 8,000 Paradise Coins. Right now, Su Xiao had 37,890 Paradise Coins.

The Special Rope wasn't sold, and now, he had two options left. The first is selling it to The Reincarnation Paradise, and the second gives it to the Devil's Mark as a sacrifice.

In the end, Su Xiao decided to sacrifice it. The Devil's Mark level didn't change, but it wasn't far from Level 3 right now.

As the Alchemy Bomb manufacturing reaching Max Level, Su Xiao wanted to try making Sun God Wrath in The Reincarnation Paradise.

To his surprise, the materials needed for the bomb cost 80,000 Paradise Coins + Soul Crystal (small) + 500 MP.

Su Xiao instantly gave up making Sun God Wrath and tried making a Top-grade Alchemy bomb.

[The Hunter doesn't have sufficient materials and needs 300 Paradise Coins to get them.]

Su Xiao sighed in relief as the Top-Grade Alchemy Bomb didn't cost much compared to Sun God Wrath.

Without making a bomb, Su Xiao instantly changed to the Alchemy Potion Manufacturing.

[Alchemy Potion Manufacturing is locked]

[To Unlock Alchemy Potion Manufacturing, you need to upgrade Alchemy Bomb Manufacturing to level 10 and pay Soul Crystal (Small) x 1 + 10,000 Paradise Coins]

Su Xiao didn't hesitate and unlocked it.

[You have successfully Unlocked Alchemy Potion Manufacturing.]

Alchemy Level 2: Alchemy Potion Manufacturing.

1: Low-Level Alchemy Secret Potion: Requires 120 MP, Green Glow Glass, Life Essence, Pure Spring Water, Blooming Tree Fruit, Crystal Bottle.

...

The cost for the materials of the Low-Level Alchemy secret potion was 800 Paradise Coins + 120 MP.

The Paradise Coins were sufficient to create many potions, but he didn't have enough mana. When he got the Devil's Mark, all of his Mana turned into Asure Steel Shadow's Energy.

After dealing with everything, Su Xiao's mind was relieved.

With 27,890 Paradise Coins in his pocket (Inventory), Su Xiao left the Exclusive Room.

Before leaving the Exclusive room, Su Xiao looked at Bob and felt uneasy.

He was going to the Trial hall, and Bob didn't have to come with him, so he would leave him here alone.

"It should be... Okay, right?"

Su Xiao left the exclusive room directly after.

As his owner left, Su Xiao felt like a Boss in the Exclusive room.

He looked at 'his' territory, thinking about what to nibble first.

...

Su Xiao fought against metal dummies in the Trial Hall.

With his increased stats, he dealt with 300 Dummy before he got used to the change.

His vitality increased greatly, as well. He could even punch a dummy and feel nothing in his hand while the dummy would break.

After combat training, Su Xiao still has 20,000 Paradise Coins. Su Xiao thought for a while before leaving 7,000 Paradise Coins and used the others.

He used the Auxiliary Mode, and a prompt directly appeared in front of him.

[You picked Auxiliary mode, please choose the Mirror image level]

[Low-Level Mirror image] 100 Paradise Coins per Hour.

[Intermediate Mirror Image] 1,000 Paradise Coins per Hour.

[Advanced Mirror Image] 10,000 Paradise Coins per Hour.

Su Xiao hesitated whether to summon an intermediate or an advanced Mirror Image.

After some time, he decided to summon an intermediate Mirror image.

[You've picked intermediate Mirror Image, summoned Character: Uchiha Sasuke]

[Please choose how many Hour would you like to use the Mirror Image]

“18 hours.”

Su Xiao summoned Sasuke because the latter can help him with his Energy.

It seems the Sasuke that was summoned was already abducted by Orochimaru.

“We meet again. I want to continue where we left last time, attaching Energy to weapons.”

Sasuke nodded as he heard Su Xiao's words. It didn't matter to Su Xiao if this was just an intermediate Mirror image or not because all he cared about is the Knowledge he would get.

“The energy in your body is very strong, but what's more important is that you control it freely, even though you need some more development.”

Sasuke drew his Kusanagi Sword and added his lightning attributed Chakra into it.

As he looked, Su Xiao knew that Sasuke was very adaptable in controlling his chakra and adding it to the Kusanagi sword.

“This is one of your current issues, you wrap your Energy around the weapon unevenly, but you can overcome this quickly. Another problem you have is developing The Energy in your body.”

Sasuke started talking about how he developed his Lightning Chakra while Su Xiao listened carefully.

After a long time, Su Xiao nodded.

“You have borrowed the sharpness of lightning.”

Su Xiao sat on the ground and looked a little hesitant.

“Right, many had developed Lightning Attributed Chakra in a different direction, I took the path of Sharpness.

Su Xiao closed his eyes and started thinking, while Sasuke stood on the side without saying anything else.

“If I'm not mistaken, the density of Azure Steel Shadow's Energy is dozens of times denser than Sasuke's Lightning attributed Chakra and could decompose other types of energies. This is a bit difficult.”

The Azure steel shadow doesn't have any characteristics toward Sharpness, so Su Xiao could only rely on himself.

Suddenly, an idea flashed brightly in Su Xiao's head.

Chapter 377: Departure

“How about Vibrations?”

“Huh? Vibration?”

Sasuke was puzzled.

“The Density of the Azure Steel Shadow’s energy is very high, and I can now control it very well. I’m going to try and vibrate the energy to add a penetrative sharpness to it.”

Although it was a good idea, it was hard to execute.

“That’s feasible. I happen to know that there is a similar method in using Wind Chakra.”

Su Xiao started practicing according to Sasuke’s understanding of wind Chakra.

Su Xiao started attaching a small amount of energy to the surface of Dragon Flash and manipulating it.

“Vibrate!”

The energy started twisting and, at some point, began drifting away from Dragon Flash.

In the end, the energy scattered, and the experiment failed.

While Su Xiao was experimenting, Sasuke was using his Sharingan to help Su Xiao.

“The Frequency seems wrong; the energy must be kept at the same frequency all the time.

To make Azure Steel Shadow vibrate in a constant frequency was harder than Su Xiao imagined.

But even though Su Xiao failed in his first attempt, he knew that his idea was correct. Although it’s challenging to execute, once he succeeds, it will significantly improve his power.

Su Xiao didn’t give up. He started trying again and again. Rome wasn’t built in a day, and power won’t just appear without hard work.

Eighteen hours passed quickly, and the Mirror image was about to disappear.

“Unfortunate, I’m just a mirror image.”

Su Xiao was taken aback by Sasuke’s words.

“You know that you’re a Mirror Image?”

“Of course, I do know that I’m Uchiha Sasuke simulated by the Reincarnation Paradise. It’s a bit difficult to explain, but if you happen to come to my world, remember to find me, we can cooperate.”

This made Su Xiao puzzled: “Why?”

“Because we both have the same purpose, Revenge!”

Su Xiao shook his head: “We aren’t the same. I don’t have a brother as kind as yours.”

Sasuke frowned. He still didn’t understand his brother or what he did for him. His brother was the main reason he is one of the strongest people in Naruto.

Although Sasuke was weakened in the following story, there is no doubt that he is one of the three strongest in that world.

In Su Xiao’s view, the strongest in Naruto’s world were Madara Uchiha, Naruto, and Sasuke in the late stage.

As for the cute beautiful woman Kaguya Otsutsuki, she wasn’t the strongest. She was just like a contractor gaining an amazing skill but didn’t have any fighting experience.

After leaving the Trial Hall, Su Xiao went back to the exclusive room and was stunned.

“Bob!”

Su Xiao glanced around, looking for Bob. It was because he was hiding using his skill: You can’t see me.

Su Xiao looked at the mess in the room and decided to find Bob no matter what.

At this time, Bob was hiding in the Chandelier. His eyes were flustered. It was exciting to play, but the room was already messed up when he came to his senses.

After searching for a whole hour, Su Xiao still couldn’t find Bob.

“Come out.”

Bob jumped out of the Chandelier. He knew that he did something wrong and acted cutely at Su Xiao.

But his 43 points of Charm were ineffective on Su Xiao.

Suddenly, a slipper appeared in Su Xiao’s hand.

Bob was frightened as he teared up but didn’t say anything.

After spending Paradise Coins to buy new furniture, Su Xiao purchased some snacks for Bob.

Bob was happy about the snacks, but he looked at the dumbbells from time to time. They can’t satisfy him anymore.

Su Xiao spent the rest of his time in the arena and making Alchemy bombs. He made 6 Top Grade Alchemy Bombs empty his Mana.

[The Hunter has reached the time limit of his stay in The Reincarnation Paradise.]

[The Hunter is about to be teleported back to his world, please keep the Reincarnation Paradise rules in mind.]

[You’re not allowed to reveal anything about The Reincarnation Paradise in the real world in any form or way. Otherwise, you will be warned, and ignoring the warning will cause immediate execution.]

...

[Start Teleportation: Destination: Real World.]

Su Xiao rubbed his head as he returned to his villa.

Since he may enter the Reincarnation Paradise at any moment, Su Xiao always kept his distance from other people.

When Su Xiao reached the real world, his eyes became cold. He was ready for his revenge as he was strong enough.

At this moment, Su Xiao felt something was wrong, but couldn't what was wrong.

“Wuff!”

A dog barked, but Su Xiao was puzzled. He didn't have a dog. But this dog's bark was familiar.

“It's impossible...”

Su Xiao turned around, and Bob appeared in front of him.

Bob was no longer a Teigu. He was a living being now, and when Su Xiao returns to the real world, as Su Xiao's servant, Bob will follow him to the real world.

“This...”

Su Xiao looked at Bob with a glow in his eyes.

He checked Bob's status and found out that his attributes were the same, and his Goddess Halo is still working here. His HP is recovering by one each second.

This was, without a doubt, good news. There are no potions in the real world, and if he gets injured, his only choice would be the Hospital.

But with Bob here, even if Su Xiao is severely Injured, he can recover gradually without needing the Hospital.

“Good, the plan will be smoother.”

Su Xiao picked his phone and dialed a number.

“Hello, Wei Dong speaking.”

“I'm Su Xiao.”

Su Xiao contacted the Scavenger, who were contractors working for the government in the real world. He wanted to go abroad and for someone like him, doing that wasn't easy.

He didn't want to be smuggled abroad. Since the Scavenger organization helped him have legal status, it wouldn't do him any good if he leaves without informing them.

“I want to go abroad.”

Wei Dong was taken aback, and his attitude changed. He was excited.

“Where are you going? I will help you arrange the fastest flight.”

Wei Dong was overjoyed, and he secretly thought: 'It seems like our previous investigation is correct.'

"I'm going..."

Chapter 378: Destination

"The flight will depart in half an hour, but it's three o'clock in the morning, and the airport is a bit far. Do you need someone to pick you up?"

"There is no need. I will rush over myself."

"Then, I wish you a pleasant journey, the passport is already being made, and someone will give it to you later."

Su Xiao nodded.

"I can do one thing for you after I come back, and we will negotiate the specific at that time."

"Okay. Mr. Su, you're refreshing."

Su Xiao ended the call. Su Xiao calling the Scavenger was entirely due to the time. If he went by himself, he would need ten days at least. But since there are people like the Scavenger to help him, he will reach it soon.

Su Xiao left the villa riding on Bob's back. He gave direction to Bob and asked him to rush at full speed.

Bob ran on the highway at high speed, leaving behind a shadow.

As Bob rushed forward, they passed a group of young men and women racing.

As they felt the wind, a girl sitting in a sports car was stunned as the cigarette in her mouth fell on her thigh.

The girl screamed as she felt the heat.

She shook her head after and thought she was hallucinating after staying up late.

The young people continued racing, while Su Xiao arrived at a small airport.

The people from the Scavenger Organization were waiting for him.

"Mr. Su, I've been waiting to meet you for a long time."

After greeting them, Su Xiao boarded the Special Plane.

Su Xiao underestimated the country because even with Contractors, it was still stable, showing how strong it was.

Moreover, the country became more and more prosperous in the past few years.

When they boarded the plane, Bob became listless as he hated transportation.

...

A day later, the special plane arrived at its destination.

When he got off the plane, Su Xiao felt the heat of this place. Unlike a seashore city, the country where Su Xiao was in now was hotter.

“Mr. Su, because of some problems, we can only drop you here, as for the currency issue...”

The scavenger member was a little embarrassed and pointed at the few big sacks on the plane.

“This is?”

Su Xiao was puzzled. Did the Scavenger put Money on those bags?

“Mr. Su, those are 400,000 ZWD each, which is equivalent to 10,000 Yuan.”

“What?”

Su Xiao was stunned. He was now near Zimbabwe. The target for his revenge is in Africa, near Zimbabwe.

“Zimbabwe’s currency has half-collapsed, and the currency of other countries doesn’t flow too smoothly here. You can guess the reason yourself, but don’t say it.”

Su Xiao had looked at the bags and started counting: “One... Two... Ten... One hundred million... ?!”

Su Xiao had about 200 Million ZWD.

It means that if he gambles, he can spend 100 Million easily without worry.

“Okay, I will go, and if nothing unexpected happens, I will return in a few days.”

Su Xiao directly descended from the plane and moved toward a city close by.

Here in Africa, the average income of the individuals was too low.

To the people from his homeland, eating a meal was expected, but it was a luxury here.

As Su Xiao made his way to the city, he saw children begging for Money, or so he concluded as he couldn’t understand them.

Those children were black-skinned, and each time they see someone with yellow skin, they would run forward to beg.

Su Xiao didn’t give them anything because sometimes, doing good will have bad results. He can’t let anyone know that he was rich.

Although Su Xiao was strong, he didn’t want a problem for no reason.

His destination is Zimbabwe’s border region. It was a location controlled by several military forces.

Su Xiao took some effort to find a Taxi, and due to the language barrier, Su Xiao spends a good while to describe where he wanted to go.

And in the end, he didn't need to pay with Money, instead, he gave the driver a bag of biscuits.

The little black brother smiled as he spoke as if he was rapping. It might be a racial talent.

After reaching the border, the driver didn't want to move forward no matter how much Su Xiao increased the price.

The black brother made a gun with his hand and pointed it at his head. He was trying to say that there were many guns there and he wouldn't go there no matter what.

He concluded that he was out of Zimbabwe.

There is no name for this place, but because diamond is produced here, some people call it diamond washing river.

Su Xiao got down the taxi and rode with Bob. After three hours, a small town appeared in front of him.

“Finally, we're here. I still don't know how Africans participated in what happened back then.”

This was something that Su Xiao still couldn't understand, but he found his goal.

Su Xiao entered the town into a market.

The items here weren't just fruits, clothes, and so on, but also firearms.

There are too many automatic rifles, but the Ak was the most common.

Bullets were all over the place, and even heavy machine guns were sold here.

Su Xiao passed through the market and stopped in front of a yellow clay cake.

He studied the clay cake for a while, and when the Owner noticed his doubt, he picked it up, took a bite, and started chewing.

It turns out the eating dirt exists; it wasn't a joke at all.

Su Xiao urgently needed a guide and a translator, but it wasn't easy to find one.

Su Xiao knew the approximate location of his target, but not the exact one.

## Chapter 379: Advance

In the border of Zimbabwe, Diamond Washing River town.

Inside a small restaurant, Su Xiao held a knife in his hand as he sat at a table with a greasy lamb leg in front of him.

Using the knife, Su Xiao cut a piece of the Mutton Leg and handed it to Bob.

He had been waiting for half an hour in this place, and after spending 50,000 RMB, he finally hired a guide.

Unlike Zimbabwe, Diamond Washing River has two currencies used here: RMB and USD.

The cause of that is the purchase of Diamond here.

A man in a suit suddenly entered the restaurant.

The man had a kind smile on his face, but he had a bulge in his waist, which was definitively a pistol.

The man looked at Su Xiao and said: "Hello, Mr. Su, I'm Xiao Lei."

This person spoke in Chinese with Su Xiao.

"Hello, there is something I wanted to ask of you."

Su Xiao put down the dagger in his hand and looked at Xiao Lei.

Suddenly, Xiao Lei felt his body shudder as soon as he saw Su Xiao.

Xiao Lei felt that this person was more terrifying than any warlord he knew.

Xiao Lei started wandering about Su Xiao's background. He was asking himself if this person was really someone from Huaxia? And since when does Huaxia have such cruel people?

"Mr. Su, please say what is it you need." Although he said this, Xiao Lei was already considering how to get out of this.

"I'm looking for a person, his name Samuel. He is my 'friend,' and we haven't seen each other for a long time. I lost my phone in Zimbabwe and couldn't find his number, so I can't contact him."

Su Xiao picked a bottle of white wine and filled the glass in front of Xiao Lei.

"Thank you for your kindness, Mr. Su. I don't drink."

Xiao Lei stepped to the side and started thinking of a plan to get out of here. Of course, he knew who Samuel is. It was a warlord with thousands of soldiers under him and all kinds of weapons. He even had three tanks.

"Although I really want to help Mr. Su, I have never heard about any Samuel."

Xiao Lei got up and wanted to leave without mentioning the previous deposit he received.

"Sit down."

Su Xiao's voice was high, but Xiao Lei couldn't even take a step forward as he sat back down.

"Drink this." Su Xiao pointed at the glass of liquor. Xiao Lei lowered his head in thought.

"Two million, two million, and I will drink a glass of wine."

Su Xiao smiled upon hearing this.

"We didn't meet today, and you have never heard of me. I will give you three million, enough for you to be rich when you return."

Xiao Lei's breath became heavy, and after hesitated for a while, he picked the glass of wine and drank.

"There are three million inside this card. The password is 888888."

Su Xiao handed out a credit card as Xiao Lei directly took his phone to check the money.

“Mr. Su, come with me.”

Xiao Lei walked out of the Restaurant with Su Xiao and arrived in an alley.

“Samuel, 67 years old, a black-skinned, a local warlord. He is the biggest warlord in this area, his address...”

Xiao Lei drew a map for Su Xiao, and after he handed it to him, he left directly. He was eager to return to Huaxia. He came here to make money, and since he just made a fortune, he was going back.

Su Xiao used the map to head toward his target while riding on Bob.

...

An hour later, Su Xiao laid on a sandy slope with a camouflage suit. Even if someone walked beside him, he wouldn't find out that Su Xiao was hiding there.

Su Xiao observed a castle half a Kilometer away using a Binocular.

That's right, a castle. Samuel's house is built like a castle. He was an African tyrant.

Su Xiao looked at the patrolling army around the Castle before moving toward the courtyard. Thousands of heavily armed troops were patrolling that courtyard. On the tower not far away, Su Xiao saw a few gun barrels sticking out.

There were at least ten snipers and 1,200 soldiers. This isn't even the whole number.

Su Xiao observed them for an entire day, waiting for an opportunity to sneak in.

He concluded finally that without becoming invisible, he wouldn't be entering that Castle. It's also impossible to pretend that he was a soldier, as the language barrier is a problem.

Su Xiao picked up an army bag and said: “Bob, go to the other side and attract their attention.”

Su Xiao took out a bomb from his bag. Buying bombs here was easier than buying food.

“The red button will detonate it. Immediately run away after biting it.”

Bob lifted the bomb quickly and ran. Five minutes later, the bomb exploded.

The army beside the Castle hurriedly started receiving orders to check out the situation, but most of the soldiers were still on guard.

Although Su Xiao knew this would happen, he had a headache.

“It seems like I can only breakthrough.”

A long sword with a sheath appeared in Su Xiao's hand. This was Su Xiao's family sword.

Su Xiao put on the backpack and leaned forward.

His regular equipment was unusable in the real world. They were all put inside the Inventory as soon as he gets here. As for skills, he couldn't only use passive ones.

His current attributes were:

Strength: 38

Agility: 37

Stamina: 33

Intelligence: 36

Passive skills:

Sword Mastery: Lv.18

Absolute Magic Constitution: Lv. Max

Mind Eye: Lv.10

Spirit Shadow Physic: Lv. Max

Devil's Mark: Lv.2

...

Su Xiao was very strong in the real world, but not strong enough to face an army.

Su Xiao rushed forward with great speed toward the courtyard.

Boom!

A dull gunshot sound echoed, and Su Xiao's pupil shrunk.

Su Xiao was familiar with this sound. It was Xm-109 Sniper Rifle.

The bullet flew by Su Xiao's air as he dodged, and his black hair fluttered around.

Boom!

The bullet touched the sand and created a face sized pit behind him.

Chapter 380: Going In

Boom! Boom! Boom!

All ten snipers aimed their muzzles at Su Xiao. Bullets hit the sand, making it fly in the air from time to time.

Su Xiao activated a bomb in his bag with the sand cover and threw it toward the tower.

Boom!

Several tens of meters were caught in the explosion's radius, and a large part of the tower crumbled down.

Su Xiao drew a pistol from his waist and aimed at the nearest tower. After a few bullets, one of the snipers was hit, reducing their number from ten to nine.

Just as Su Xiao was about to move forward, a tingling pain appeared on his shoulder. This tingling occurred when someone aimed a gun or a rifle at his body, and the tingling location is where the bullet would hit him.

Su Xiao immediately turned to the side, and a bullet whizzed to the side.

He quickly rushed toward a low concrete wall and hid.

The castle was ten meters away, but those ten meters weren't easy to pass.

Heavy machine gun roared as the wall where Su Xiao hit crumbled down.

“Misa moto! (Stop the Fire!)”

A small leader of the army ordered them to stop the fire, and at this time, a black-skinned man poured water on the machine gun's muzzle.

“Dangsin-eun nugu-ibnikka” (Korean)

The leader actually spoke in Korean as well.

“dare desu ka!” (Japanese)

This time, the language changed to Japanese again, and after finding that Su Xiao still didn't answer, the leader frowned.

“Who are you, and why did you attack us.”

Su Xiao understood.

“Who am I? I'm a lost traveler.”

The fluent Chinese made the leader stunned. How could people from that place attack them? They cooperated for a long time.

The leader stopped talking. He pointed the sniper rifle in his hand toward the concrete wall and fired.

Boom!

Debris flew as a hole appeared very close to Su Xiao.

Su Xiao clearly knew that he wouldn't be able to block a sniper rifle's bullet. If he is shot in the head or heart, he will die. He wasn't strong enough to ignore fire weapons.

Su Xiao took out a small mirror to check the situation beyond the wall, and to his surprise, four tanks moved out of the castle.

The Cannons on the tank changed direction toward Su Xiao slowly.

Su Xiao directly threw two smoke bombs not far away.

As soon as the tanks fired, the place was filled with smoke.

Su Xiao was grateful for this smoke, or else he would've died.

The thick smoke enveloped the tank and the soldiers who directly started shooting in the smoke.

Su Xiao pulled his sword from his waist as he blocked the bullets one by one.

A sniper bullet grazed Su Xiao's back, but he was lucky that it didn't cause severe damage.

Su Xiao didn't care about the pain at all. He could endure this pain without a problem.

Su Xiao rushed forward toward the tank with the smoke blocking their vision as it moved back, trying to get out of the smokescreen.

Su Xiao reached the tank with his sword in both hands in a few steps before he slashed at the barrel.

The steel barrel fell as Su Xiao slashed once again.

Su Xiao's sword mastery was level 18, so cutting steel was easy.

The driver of the tank was dumbfounded as the power disappeared from the tank. He wasn't familiar with this thing and could only find someone to repair it when it stops working.

The driver suddenly felt severed from his neck.

...

Su Xiao stabbed the tank a few times until he saw blood on his sword.

The smoke was getting thinner, so Su Xiao rushed toward the castle.

As soon as he entered the castle, Su Xiao was greeted by a Heavy Machine gun.

Bullets rained on down on Su Xiao as he rushed to the side.

As he entered the room on the side, Su Xiao leaned against a wall as several bloody holes appeared on his chest.

Su Xiao pulled out an orange bullet stained with blood putting his finger into one of the holes.

He threw the bullet down as the fire stopped outside.

In a room on the castle's top floor, a shirtless black old-man looked at a large screen not far away, which was divided into four. It was the monitoring system of the castle.

The black old-man was Samuel, Su Xiao's target.

Two people were in the same room as Samuel, a white man, and a yellow man.

"Mr. Samuel, it seems that there is an accident in the transaction, so let's terminate it."

The yellow man got up as he didn't want to participate in this mess. He was here only for the diamonds Samuel is selling, after all.

"Okay, Mr. Wang, sorry."

Samuel spoke fluent Chinese as he came in contact with them often here.

"There will be a chance to cooperate in the future."

Although there were explosions outside, the Chinese man's expression was calm. After all, he was here for a transaction, nothing else.

Unlike the others, the white man looked at the screen blankly.

“God, is this really a human? Did he use a cold weapon to smash bullets? I must be dreaming.”

Samuel glanced at the white man and shook his head. If anyone can save him today, it's the one who left. But their relationship wasn't deep, and he won't participate in this mess.

“Mr. Statham, you can leave too.”

Samuel said lightly without any change of expression.

“No, how can I leave without discussing our transaction...”

Samuel waved his hand.

“I don't need the batch of weapons. You can go.”

Statham's expression changed.

“Samuel, what are you saying? The weapons are already on their way.”

Statham was angry.

“You said the same thing twice before and demanded advance payment.”

Samuel looked up at the screen, which was now white as the camera was destroyed.

Statham no longer maintained his gentlemanly demeanor.

Boom!

Suddenly the door was shattered as Statham shook.

The smoke and dust enveloped the place, and when they dissipated, a bloody man with a long sword walked into the room.

Many corpses were scattered on the corridor behind him, and the walls were covered in blood.
