

R. Paradise 421

Chapter 421: Fierce Battle

Su Xiao rushed forward, pointing his sword at King Bradley. He was testing the water as King Bradley's attributes were higher than his own, and even his swordsmanship was higher.

It wasn't that Su Xiao didn't have a chance to win since his passive abilities were stronger than King Bradley's.

The comparison of Attributes only defines general strength, but a fight depends on experience and instinct.

Su Xiao's sword continued forward until King Bradley moved his sword to block.

With a Clang, Su Xiao's sword passed above King Bradley's head.

Su Xiao didn't make such an amateurish mistake. He did this on purpose.

The metal wire quickly emerged around King Bradley, who knew it was too late to avoid it and thus struck his swords on the ground from both sides.

As soon as King Bradley dealt with the metal wire, he found a white ball rolling toward him, and without thinking, he drew back his swords and jumped back.

Boom!

The Alchemy bomb exploded, and fire blazed before King Bradley's face.

Su Xiao took a deep breath and rushed into the flames.

Dragon Flash pierced through the air and moved toward King Bradley's head.

This was Su Xiao's style, aim for the kill with every move.

King Bradley raised one of his swords to block, but Dragon Flash showed its sharpness as King Bradley's sword broke.

Losing a weapon in Melee combat was fatal, and although King Bradley had six swords prepared, he had to pay the price for the sword that broke.

King Bradley barely avoided the strike on his head by sidestepping, but his shoulder took the hit instead.

The Azure Steel Shadow's energy penetrated King Bradley's body and started burning his energy.

At this time, King Bradley's counter arrived.

A sword penetrated Su Xiao's shoulder, or precisely, it stopped at his collar bone.

Su Xiao's felt the numb, cold touch of steel in his flesh and knew he was injured.

King Bradley tried to drag his sword in an attempt to widen Su Xiao's wound, but the latter was quite familiar with that strategy and knew how to counter it.

He immediately brought his arm guard and slapped the sword away, while King Bradley wanted to draw back his sword, but it was too late.

The sword broke once again, while the broken part was still inserted in Su Xiao's body.

Both of them were injured, but they didn't scream. At most, they grunted once or so before returning to normal.

After this, Su Xiao and King Bradley just looked at each other without making a move.

They weren't resting since they didn't use much stamina in the last boot. Instead, they stopped because someone else was there.

Su Xiao looked sideways and saw several men and women standing in the corridor. All of them were new faces, and he could immediately tell they were contractors.

The contractors were looking in shock at what Su Xiao was doing.

King Bradley was considered a big boss to them, but here is the super boss fighting a contractor one on one and look evenly matched.

Su Xiao grasped the broken piece of the sword inserted in his collar bone and slowly pulled it out, making blood gush out and taint his clothes.

His defense wasn't weak, but the windbreaker wasn't armor. Although it was dark purple quality, I can't defend against King Bradley's attacks.

Since there are a few contractors, Su Xiao knew that he couldn't continue fighting King Bradley desperately. He needs to deal with the contractors first.

"This is... Bad."

"Boss, what should we do?"

"Do you have to ask? We will run!"

The contractors turned around and ran away.

It didn't take long for all the contractors to disappear from view. Su Xiao looked at King Bradley and said: "Let's continue."

Regardless of his wound, Su Xiao rushed forward toward King Bradley while King Bradley did the same.

Ding! Ding!

The clanging of weapons resounded all over the place, with sparks flying from time to time as the two continued their fight.

Since King Bradley knew that his swords couldn't take Su Xiao's sword directly, he no longer slashed at Su Xiao at full force, but he uses the motion of his opponent's sword and diverts his strength.

Even so, three swords were already destroyed, and the ones in his hands were more like a saw than a sword.

Seeing this, King Bradley made a decision and slashed with all of his strength toward Su Xiao, who blocked it.

The ground under Su Xiao cracked from the power as King Bradley wasn't holding back anymore.

With a click, the sword in King Bradley's hand cracked and may break at any time.

King Bradley slashed forward, and Su Xiao met him with his sword.

Ding!

King Bradley's sword broke, but he was mentally prepared.

He directly aimed kicked Su Xiao's lower abdomen. If that kick connects, Su Xiao's intestines will bust without a doubt.

Su Xiao instinctively brought his hand to block his stomach, but King Bradley changed the course of his kick toward Su Xiao's calf.

Su Xiao flew back five meters before landing smoothly, and although his calf was sore, it wasn't for nothing.

Blood ran down King Bradley's cheek as a wound appeared on his scalp that made his skull exposed.

"This battle is fun."

King Bradley chuckled, but his smile was fleeting. His expression rarely changed, and this chuckle was something unusual.

Su Xiao flicked the blood off his sword as he found an opportunity to defeat King Bradley. The latter didn't have a weapon anymore, while Su Xiao still had his weapon intact.

For a melee fighter, a good weapon was as important as his life.

Chapter 422: Loot Steal?

Blood fell on the ground as Su Xiao panted heavily with three broken swords on his body.

He fought against King Bradley for ten minutes. Both sides were injured, but his current state was worse.

Su Xiao directly took out a potion and drank it. It wasn't Alchemy potion since that lost its effect from continuous usage, and it would take a while for him to be able to take them again.

[TMT Potion]

Origin: A Certain Magical Index

Quality: Green

Type: Potion

Effect: Heal 30% Hp and gain +1 Strength, +1 stamina, and +1 Charm for 15 minutes.

Rate: 26

Description: A combination of Magic and Technology, contain no side effects.

...

Bob uses all of his skills, and he only had one battle of TMT Potion. The only potion remaining was Elf's Secret Potion.

[Elf's Secret Potion]

Origin: Reincarnation Paradise

Quality: Blue

Type: Potion

Effect: Heal 1% Hp every second for 2 minutes. Effect doubled in a forest area.

Rate: 70

Description: Although Elves are prideful, their craft is good.

...

The best way to use the Elf's potion is in the forest.

Even though Su Xiao's HP was at 40% after drinking the TMT Potion, he was dizzy due to the blood loss.

He directly took the Elf's Secret Potion and drank it. With the heal from the potion and the snow goddess aura, he was getting better.

Su Xiao drew all the broken swords from his body and dropped them while only one sword remained for King Bradley.

Su Xiao took the opportunity to cut King Bradley's hand previously, which was still bleeding.

He also injured him on the chest and stomach, and no matter how strong his body is, it can't withstand Dragon Flash's sharpness.

King Bradley coughed as he shut his Ultimate Eye tightly.

"Without that terrifying dynamic vision, you can't block my blade."

Although Su Xiao was smiling, his injuries were serious, as slashes covered his body.

There was even a scar on his throat that should've killed him if not for the potions.

"This eye is indeed important, but you can't defeat me even without it."

King Bradley seemed happy, although the energy of his Philosopher's Stone will soon be exhausted. He didn't care, as he only wanted to fight.

Su Xiao activated Mana Combustion as Su Xiao's sword flashed blue.

"This is the last move. No regrets, victory or defeat depends on this final attack."

At this time, Su Xiao felt the Nationwide Transmutation Circle activated.

Su Xiao didn't speak as he held his sword tightly.

Suddenly both of them rushed as fast as they could.

Clang!

Su Xiao and King Bradley passed each other and turned around.

Puchi!

Blood splashed several meters away as Su Xiao fell down from blood loss.

Several cuts appeared on his chest as his ribs were exposed.

Thud!

The sword in King Bradley's hands fell down as blood appeared on his nape.

“There is such a sharp sword in the world.”

After a few seconds, King Bradley's head fell down.

[You killed King Bradley, Wrath.]

[Wrath is a main character in the plot, you obtained 10.2% World's Origin, you currently have 38.5% World's Origin.]

[You devour talent is activated, 15 Mana points are permanently added, your current Max Mana is 989 Points.]

[You obtained Treasure Chest (Dark Purple)]

[Achievement Quest Conviction: (6/7)]

...

The Dark Purple chest fell beside Su Xiao, who didn't pick it up as he was on the verge of death.

His HP was 2%. If King Bradley didn't die previously, he would've been dead.

With the healing from the Elf's secret potion and Snow Goddess Aura, his Hp rose to 13% after ten seconds. While he was still injured, his bleeding stopped.

His Windbreaker was full of holes and cut marks, but if it wasn't for it, Su Xiao's injuries would've been more serious.

Although the Windbreaker was like rags, it was a dark purple item, and it can be easily repaired.

Equipment effect 3: Self Recovery (passive): after being damaged, consume Mana for repair.

Su Xiao directly spent a hundred Mana points and repaired the Windbreaker.

“Bob, come out.”

The fight ended, but Su Xiao still couldn't see where bob was.

After hearing his name, Bob ran toward Su Xiao happily.

The Dark Purple Treasure chest wasn't far away, but Su Xiao didn't pick it up yet.

...

Suddenly, Su Xiao heard the sound of applause from a young man coming out of the corridor.

He smiled and looked at Su Xiao.

“It was really a splendid fight. Unexpectedly, you killed King Bradley. I was so frightened.”

The young man looked at Su Xiao. Then he looked at the Dark Purple Treasure Chest with greed filling his eyes.

“If I meet a monster like you, I would usually run away or beg for mercy, but it’s a pity that you are on the verge of death now.”

The young man took a pistol and aimed at Su Xiao’s head.

“You’re such a powerhouse. Killing you is a pity. You can hand over your equipment and Paradise coins, and I won’t kill you.”

During his speech, the young man took half a step toward the Dark Purple treasure chest.

“One, two, three... Seven people, similar to what I sensed before.”

Su Xiao knew about the contractors, but he couldn’t stop his fight with King Bradley.

“Hey, I’m talking to you....”

The young man just wanted to pick up the treasure chest but found a sniper rifle in Su Xiao’s hand.

Bang!

Su Xiao wasn’t the one to shoot, but it was the young man who pulled the trigger of his pistol.

Blood splattered from Su Xiao’s shoulder. The shot was originally aimed at his head, but Su Xiao managed to avoid it.

With the sniper rifle in his hand, Su Xiao aimed without the scope and shot.

Bang!

A loud sound emerged, and blood dyed the ground.

Chapter 423: Spirit

The green-haired young man was shot in the head. Without a head guard, being hit by the spider queen would only lead to death. Even Su Xiao was no exception.

The headless body fell, and the green-haired young man died of greed and hesitation.

Su Xiao was indeed in a state of death before, but too many contractors were around. The green-haired contractor was hesitating whether to go forward or not.

When he made up his mind, the dark purple treasure chest was the first goal.

The green-haired young man was too greedy. He not only wanted to get the dark purple treasure chest but also coveted Su Xiao's equipment, especially the dragon flash in Su Xiao's hand.

If Su Xiao encountered this situation, he would kill first and then take things.

Everyone could be greedy. This was a very normal thing. Su Xiao also had times of greed, but he had to be self-aware before greed.

He had to distinguish between what could be greedy and what could not be greedy.

Su Xiao would get what he could get. If the risk were higher than the benefits, Su Xiao would leave.

After killing the green-haired young man, Su Xiao immediately turned the muzzle and aimed the muzzle to the left.

Bang.

In another shot, and contractor, who was looking around in the corridor, was shot in the head.

The Spider Empress was very strong at this distance. When the gunshot rang out, the bullet had already arrived.

"This guy hasn't entered a critical state. Run!"

After a loud shout, rapid footsteps came from the corridor around them.

But 'watch the play' for so long, he had to leave the 'ticket.'

Bang, bang.

Su Xiao fired two more shots in a row, one shot through the chest of a contractor, the contractor was dragged away by his companion, and the other shot hit the wall, scaring the nearby contractor to death.

When the footsteps disappeared, Su Xiao became thirsty and spat out a few mouthfuls of blood.

The Grand President's sword was very sharp. Su Xiao needed at least half an hour to recover from his current injury.

This was still under the effect of the elvish secret medicine and the aura of the goddess of ice and snow.

The effect of the elvish secret medicine quickly ended. The duration of the medicine was only two minutes.

If calculated according to the value,

Su Xiao should have recovered the elvish secret medicine and recovered 120 of his HP, but this was not the case.

A large amount of blood loss caused his HP to continue to decline. After the recovery effect of the medicine ended, his HP only recovered to 60.

Although it was not a complete state, Su Xiao already could continue fighting.

Rumble!

The ground suddenly began to shake, and red light poured out from the ground.

"This is?"

Su Xiao looked around, and soon he knew what had happened.

The Homeland Refining Formation was activated, and it seemed that the five human pillars had been gathered.

If one looked at Yamei from high up in the sky, one could see a circular formation that enveloped the entire Yamei.

The blood-red light from the formation dyed the entire country red. Countless black arms stretched out from the ground.

These arms were as soft and boneless as shadows, but their doors could grab the souls of humans.

There were fifty million people in Yamei. Doctors, workers, generals, farmers, and others all collapsed on the ground, struggling in pain.

At this time, there was no distinction between the nobility. Their souls were being extracted.

The only safe point of the Homeland Refining Formation was below the presidential palace, which the small and medium-sized people deliberately did in the bottle to protect the five human pillars.

Before the Door of Truth was opened, the small and medium-sized person in the bottle would not kill the human pillar.

Red light dots streaked across the sky all over Yamei. This was the soul of the people of Yamei.

...

Below the ground, the small and small person who had revealed his true body was laughing wildly.

Its true body looked very ugly. Its entire body was black and purple, like a human figure made of shadows. Its entire body was covered with eyes.

Tens of millions of souls gathered in the small and small body of the bottle, but the small and small person in the bottle seemed to be somewhat dissatisfied.

The souls gathered in his body had a total of twenty million. The remaining thirty million civilians' souls had not been successfully extracted.

The formation was not complete enough, and the timing of the activation was wrong.

But it had to activate the array. Otherwise, there would be no chance.

Until now, the small-medium bottle people still did not know why the plan that had been smoothly carried out suddenly stopped.

After staying underground for hundreds of years, the mind of the small-medium bottle people had solidified. In its cognition, humans = ant = energy = energy = No way to resist it.

The souls of twenty million people entered the bottle and transformed into the Philosopher's Stone. The small-medium people of the bottle began to grow quickly.

It broke through the presidential palace building and stood under the night sky like a giant. The moon in the sky had turned into a round black ball at some time.

The best time to start the country refining array was to eat all day, followed by night.

The size of the small person in the bottle continued to grow, and his purple-black arm reached into the sky.

"Oh ---, God!"

A dull sound came from the small person in the bottle.

"Respond to my soul, come on."

A white line appeared in the center of the black ball in the sky, and a rectangular door opened.

It was pitch black inside the door, and there was only a huge white eye with gray pupils.

This door was the Door of Truth, and it was the foundation of alchemy.

Black shadow tentacles stretched out from the Door of Truth high in the sky, intending to drag the small and small person into the Door of Truth. The small person in the bottle gathered five human pillars to activate the country to refine the array, which was similar to the nature of the human body.

If it were an ordinary alchemist, the Door of Truth could instantly drag the other person into it, but it was powerless facing the small person in the bottle who had twenty million souls in his body.

The small person in the bottle laughed wantonly. It grabbed the shadow tentacles extended by the Door of Truth and intended to pull the Eye of Truth into itself.

"I will drag you to the ground and become a part of my body."

The Eye of Truth was slowly dragged out of the door. White light enveloped the small person in the bottle, and powerful energy spread out.

Boom!

The energy swept over, and many houses in the Central City collapsed as if the world would collapse in this one.

...

Below the presidential palace, where Su Xiao was.

He stood up in confusion. Su Xiao was almost knocked out by the energy pulse just now.

Fortunately, he never thought about dealing with the small person in the bottle alone. Otherwise, he had no chance of winning.

The small person in the bottle has now become a 'god.' Of course, the god here is a false god, a god in the world of steel refining.

Or rather, the small person in the bottle dragged the 'god' into his body, and it became a container for the god, but this god has no self-consciousness.

The country had just finished refining, and the second refining array was already in preparation.

The small person in the bottle did not set up this refining array but Hoenheim.

He set up the Philosopher's Stone with hundreds of thousands of people in his body everywhere in Yamei, waiting for the small and medium people in the bottles to start the Land Refining Formation.

The second formation was similar to the Land Refining Formation, but it was reversed.

On the lowest floor of the presidential palace, the small and small person in the bottle sat on a steel chair with a relaxed expression, his lower body covered with a piece of white cloth.

Edward and the other five celebrity pillars woke up one after another.

"What is going on?"

"The Homeland Refining Formation has been activated."

"What"

The five stood together and looked warily at the small person in the bottle not far away.

At this moment, the small person in the bottle had already obtained a perfect body. His appearance was the same as when he was young.

"Everyone, you are already useless."

The small person in the bottle was expressionless, and most of his emotions had been separated.

Edward and the others wanted to use alchemy to attack the small person in the bottle, but they could not use alchemy.

"I have sealed Alchemy. Goodbye, everyone."

The small person in the bottle raised a hand. A red ball appeared in his palm. It was a small sun.

Edward and the others were stunned.

"You, that is..."

Hoenheim pretended to be surprised. He was waiting for the second formation to be activated.

"For me, who has already obtained a god, it's no problem even if I use my hands to make the sun."

Just as the small person in the bottle was about to destroy a few people, his eyes suddenly widened.

"This is?"

"Heh ---, the moment you obtained the god, you were destined to fail, you little human in the bottle!"

Hoenheim roared, and the second array was activated.

"Ah!!!"

Countless souls rushed out of the small and medium body of the bottle. After a short dozen seconds, the souls of the Yamei people in the small and medium of the bottle dissipated.

...

Su Xiao looked at the many souls rushing into the sky, and his heart began to beat faster.

Success. Although the small and small person in the bottle grasped the power of divinity, he lost the energy to use the power of divinity.

"It's time to clean up the unstable elements."

Because the Land Refining Formation was activated, all the contractors in the Steel Refining World hid under the presidential palace.

Su Xiao did not think that he could kill all these contractors. It was impossible, but at least he had to drive these contractors out. Otherwise, he might help others make a wedding dress.

There was only one step left to complete the promotion task.

Chapter 424: Clearance

In the dark corridor, Su Xiao leaned against the concrete wall, and the blood on his body left a large blood mark on the wall.

It had been ten minutes since the person in the bottle got the power of divinity, and Su Xiao was cleaning up the contractor below the presidential palace.

These contractors were not soft persimmons, some of them were not too strong, but some were very strong.

There was a big gap between contractors of the same level. Some were very strong. Some were weak.

There was a kind of contractor that was very difficult to deal with, and that was the contractor who developed a single extreme attribute.

For example, some contractors who developed the strength attribute alone would put the strength attribute on the foundation that could bear the strength attribute and use this to increase the strength attribute quickly.

The corpse next to Su Xiao's feet was like this. He estimated that the strength attribute of this contractor was at least 45 points, and the attack power was strong, but it was also very fragile.

Su Xiao took out a metal rod in his left arm, and a bloody wound appeared on the wound.

Su Xiao had driven away at least ten contractors and killed two.

The steel refining world's scarlet card drop rate was very low. At least Su Xiao had not seen it before. In his opinion, this was related to the number of people he killed the contractor.

When Su Xiao was resting, hurried footsteps were in front of him.

Three contractors ran from the corridor before him and stopped after seeing Su Xiao.

"Friend, there is a madman underground who has been chasing another contractor. Do you know where that guy is?"

A young woman opened her mouth. The corridor was a little dark, and the distance was far. She did not see Su Xiao's appearance clearly for a while.

"Madman? Not clear."

Su Xiao clenched the dragon flash in his hand.

"Big sister, there is something wrong with this guy. He is wearing a black trench coat and using a knife-type weapon. Could it be... this guy is the madman! Run!"

A big-eyed girl turned around and ran. She had only run a few steps when she found that her companion was standing in the same place and did not move.

"Don't be afraid. This guy is seriously injured."

The young woman looked up and down, but she did not dare to approach.

The faint smell of blood came,

The young woman looked behind Su Xiao and saw a bloody corpse.

"That's right. It's this guy."

The young woman suddenly had the idea of retreating and winked at the two people beside her.

"I killed your teammates?"

Su Xiao heard a different meaning from the words of the three contractors.

"No."

After getting the young woman's answer, Su Xiao frowned.

"Then how do you know that I am chasing other contractors?"

Su Xiao was very curious about this.

"No comment."

The young woman turned and left. Su Xiao stepped on the ground and rushed forward.

...

Five minutes later, Su Xiao spat out a mouthful of blood. There was an arrow in his lower abdomen and chest.

Three contractors fell to the ground. Two of them had lost consciousness, leaving only the young woman crawling on the ground.

The young woman's lips trembled, her white cheeks stained with blood, and one of her legs was cut off.

"Answer my question."

Su Xiao glanced at his HP. There were still 26 of his HP left.

Contractor in the world of steel was different from the ordinary contractor he met in the past. These contractors would not be killed by him, even if his strength had been greatly improved.

He would not kill him, but he also fought with him for a few rounds. If the attack ability was not strong enough, under the cooperation of these three people, it was unknown who won and who lost.

The attacking ability was terrifying enough that they lost after consuming 20 of Su Xiao's HP.

At this time, the young woman's eyes were black, and she raised her head with difficulty to look at Su Xiao.

"Monster!"

The young woman had never seen a strong 'contractor' like Su Xiao. No wonder she was like this. Su Xiao was a hunter. If his ability to fight a contractor were not strong enough, he would have died long ago.

"Want to live?"

Su Xiao squatted in front of the young woman. The dragon flash in his hand was still dripping blood.

"If you want to kill, kill. I will not hand over the equipment or paradise coins."

The young woman took out a dagger and put it on her throat. She was afraid that she would be humiliated by Su Xiao.

"I'm not interested in your lousy equipment. I want to ask you a question."

The young woman was slightly surprised.

"What question?"

"How did you know of my existence? No, it's hard to understand. How did you know that I was cleaning up the other contractor?"

The young woman lowered her head, her eyes shining.

"You don't have a derivative world communication platform?"

"What is that?"

Su Xiao had never heard of a derivative world communication platform.

Su Xiao was puzzled, but the young woman was even more puzzled.

"The derivative world communication platform is the basic function. No, the first rank contractor does not have this ability."

Su Xiao nodded. He already understood what was going on. It seemed that it was the ability of the second rank contractor.

"I know you are on a promotion mission. How can the first rank contractor be so strong?"

The young woman looked at Su Xiao with burning eyes.

"Who knows, maybe I am not afraid of death, and I dare to carry out dangerous, high-risk, high rewards."

The young woman nodded and wiped the blood on her face.

"You are very strong. We are not opponents, but the probability of dropping the scarlet card in the world of steel refining is very low, so killing us will not benefit you."

The young woman took out two recovery items.

A bottle of blue quality medicine can restore 60 of life value and small recovery of body damage. The other is green quality recovery food, after use, restores 80% of its life value in 5 minutes.

"These are for you, and we will not seek revenge on you. We will return immediately. Our main mission has been completed, and we are only here to try our luck."

The young woman drew up a temporary contract. Su Xiao glanced at it and made the temporary contract.

He needed these two items, but he had cut down the two teammates of the young woman. Although they were not dead, their limbs were scattered all over the corridor.

Would there be no hatred in his heart after being cut like this?

Was it worth it to let the enemy go with these two items? The answer was not worth it. Since they had already become enemies, they had to eliminate the roots. Otherwise, they should not become enemies.

"Hey... Don't look at me like that. Didn't you ask me if I wanted to live? Now my answer is that I want to live."

"Indeed, no one wants to die, but I am only asking if you want to live. Did I say that I will let you live?"

The blade sliced across, and a red mark appeared on the young woman's neck.

"You... liar."

The young woman's pupils began to dim, and blood spurted out from the wound on her throat. It was useless even if she pressed her hand against the wound and used recovery products.

After dealing with the two teammates of the young woman, Su Xiao took out a few rolls of bandages and urgently treated the wounds on his body.

This was the last group of contractors in the vicinity. The presidential palace was connected in all directions, and Su Xiao did not clean up the places too far away.

The underground roar continued, and Su Xiao guessed that the five human pillars had already started a war with the small and medium people in the bottle.

...

Below the presidential palace.

The medium and small person in the bottle fought with the five human pillars. Edward and the others used some unknown method to restore the use of alchemy.

The battle between the alchemists was extremely intense, especially when the five human pillars did not need the formation diagram to activate alchemy. They only needed to put their hands together.

The medium and small people in the steel refining world who could use the power of divinity were almost invincible, but now the small and small people in the bottle had the power of divinity, but they could not use it.

Chapter 425: Conspiracy Behind A Conspiracy

"Impossible. How could the power of divinity reject me?"

The small and medium person in the bottle stood still, allowing the five human pillars to attack.

A layer of invisible energy wrapped around the small person in the bottle.

Continue attacking him. There is no longer a Philosopher's Stone in his body.

Although Hoenheim's words were a bit tongue-twister, Dehua immediately understood.

There was only the remaining Philosopher's Stone left in the bottle. The new Philosopher's Stone dissipated before it formed, and the tens of millions of souls had returned to their respective bodies.

Now, the power of divinity was the core of the small person in the bottle, and the Philosopher's Stone was the energy he needed when he used the core.

Without energy, he could not use the power of divinity. Not only that, the small person in the bottle had to use energy to suppress the power of divinity.

Not to mention attacking, even the small, medium person in the bottle had difficulty moving. All the blood vessels in his body bulged, and his face was ferocious.

Boom, boom...

The five human pillars used all their strength, but the small person in the bottle stood still.

At this time, the small person in the bottle was more anxious than the five human pillars. Although there was no new Philosopher's Stone to form, he could barely suppress the power of divinity with the Philosopher's Stone he had obtained before.

At the very least, he had to recover the ability to move freely.

It was impossible to create a sun with a lift of his hand, but the combat power of the small and medium person in the bottle was still far beyond the five human pillars.

The embarrassing thing was that the small and medium person in the bottle could not move yet. He activated an incomplete array and forcibly dragged the power of divinity into his body.

After painstakingly dragging the power of divinity into his body and obtaining the power of divinity, the twenty million souls in his body were released.

It had to be said that the small and medium person in the bottle had a very strong psychological quality, and he did not go crazy after encountering these changes.

This was just like the Immortal Cultivators in novels. After experiencing countless years of cultivation, they crossed the Heavenly Tribulation and ascended to the Immortal World. However, when they ascended to the Immortal World, they found out that they did not have enough authority and needed to recharge 889 before they could completely ascend. Their feelings were not just indescribable.

The attacks of Edward and the others continued, and the Philosopher's Stone in the bottle was quickly consumed.

A few minutes later, Edward clapped his hands on the ground and stabbed a thorn in the ground at the bottle.

The bottle of small and small people dodged sideways, which stunned the five human pillars. This guy could move and dodge attacks.

This meant that the energy in the other party's body was not much.

The young man in the bottle was extremely ferocious as he looked angrily at Hoenheim.

"Why? As my blood relative, you still have to stop me. Even at the last moment, I still haven't thought of killing you."

When the young man in the bottle refined the land for the first time, he put half of the Philosopher's Stone into Hoenheim's body, and then Hoenheim gained immortality.

"Blood relative? No, our existence is wrong."

When he heard Hoenheim's words, killing intent finally emerged in the eyes of the small, medium person in the bottle.

At this time, the small person in the bottle had recovered all kinds of emotions. If he wanted to become a complete existence, emotions were essential.

Zi ---.

The sound of a shrinking metal thread came, and the metal thread tied up the small person in the bottle.

The Philosopher's Stone in his body was almost exhausted. Other than suppressing the power of divinity, he could not use much energy.

The small person in the bottle stretched out his arms, and the boundary line broke with a bang.

Clang!

The blade light flashed from above, and the small and small person in the bottle's flying head was full of shock. He could not figure out why the 'mortal' could hurt him.

Red lightning flashed on the neck of the small person in the bottle.

"Well done!"

Edward's master, Izmi Cardis, clenched his fists. This knife was a divine brush. Whether it was the timing or the position of the attack, it was impeccable.

Su Xiao had been hiding in the hole above for a long time with this knife. He had arrived long ago, but he had not attacked.

Although the small person in the bottle had his head cut off, his recovery ability was very strong, and he could recover his head in a few seconds.

When he cut off the small person's head, Su Xiao fell to the ground, and as soon as he landed, he rushed to the small person in the bottle.

Rushing to the front of the small person in the bottle, Su Xiao did not continue to attack, and a small bottle with the length of a finger appeared in his hand.

[Magic crystal bottle]

Quality: None

Type: Mission Item

Effect: Use to collect divine power(fake)

Rating: None

Introduction: None

Price: Can not be sold.

...

Su Xiao held the magic crystal bottle and rushed to the front of the bottle.

Puchi.

Su Xiao directly inserted the [Magic crystal bottle] into the neck of the small person in the bottle. At this time, the head of the small person in the bottle had just regenerated half.

Suddenly, the recovery of the small person in the bottle stopped, standing in place like a sculpture.

[The power of God (pseudo) is being charged, 1%, 2%, 3% have been charged...]

The progress was neither fast nor slow. At most thirty seconds [Magic crystal bottle] would be able to absorb the power of divinity completely.

Without the battle with the final BOSS as he imagined, Su Xiao killed so many people to create people, and then what was the purpose of the alliance with Mustang and Olivia? The answer was to weaken the strength of the small person in the bottle.

He used the plot characters to deal with the small person in the bottle, and in the end, he 'picked the peach.'

[Magic crystal bottle] collected the power of divinity, and Su Xiao completed the achievement task.

Su Xiao did not have time to check the reward of the achievement task [commit crimes]. His eyes were fixed on the five celebrity pillars.

"Why did the person in the bottle suddenly stop moving?"

"I don't know. What method did Byakuya use."

The discussion between Edward and Hoenheim caught the attention of Mustang.

Mustang had been forcibly refined into a human body. The transportation fee was the vision, and he could no longer see anything.

"Who? Byakuya?"

Mustang's eyes were dull, but he could hear it.

"Yes, Byakuya suddenly jumped down from above, and then..."

Edward and Mustang narrated the situation. After hearing Su Xiao put a bottle into the bottle's small and medium body, all the hair on Mustang's body stood up.

The other human pillars did not find the abnormality. It was not that they were stupid, but they did not understand Su Xiao. Mustang was different.

He cooperated with Su Xiao and had some understanding of Su Xiao's style of doing things.

"Stop him!"

Mustang shouted. The other four human pillars were stunned and puzzled. Su Xiao stopped the small and small person in the bottle.

"Don't ask me the reason. That guy must have something up his sleeve. He probably wants to replace him as a god."

Several human pillars were shocked. When they were ready to attack Su Xiao, Su Xiao tightened the boundary line.

Before the boundary line was just a small cut, the boundary line was hundreds of meters long, and a small cut was just a small matter.

The boundary line was tightened, and a figure covered in blood was pulled down from the hole above.

This was a blonde beauty with a well-proportioned body wearing a blue military uniform.

Su Xiao held the woman in his hand, the blonde hair was loose, and her breathing was weak.

The attack that the human pillars were about to launch stopped. Edward subconsciously looked at Mustang.

"What's wrong? Attack him quickly, give me directions. I will come personally."

Mustang, who could not see, was very anxious.

"Colonel... Second Lieutenant Lisa Hawkeye was held hostage by him."

Upon hearing this, Mustang's biting muscles bulged.

"Pyromancer - White Night!"

Chapter 426: The Truth Behind the Truth

Su Xiao did not care about Mustang's roar. In Su Xiao's current state, he was not a match for the five pillars of people.

He was a little unlucky. He met the president as soon as he entered the lower layer of the presidential palace. Otherwise, the plan would be smoother. This was the so-called "people are not as good as the heavens."

Although his luck was not good, his goal had been achieved.

He took a tracking device from Lisa Hawkeye. The price of this thing was not low, and it could be reused.

[Advancement Quest: Steal the power of divinity(Completed)]

Difficulty Level: Lv.14

[Mission summary: Use the magic crystal bottle to seize the power of divinity.]

[Quest information: Divine power(fake) attached to the small person's body in the bottle.]

[Quest deadline: One month.]

[Quest reward: Promotion qualification.]

[Quest penalty: All attributes -10.]

...

[Advancement mission has been completed. The hunter will return to the reincarnation paradise in three seconds.]

Seeing this hint, Su Xiao was stunned. This return time was too short.

A familiar sense of heavy hit came from the back of his head. At the same time, Su Xiao felt pain in the back of his hand.

When he regained consciousness, he was already in a whole room. He was sent back as soon as the promotion mission was completed.

Su Xiao looked down at his hand. There was a row of teeth marks on the back of his hand. It must be the female sniper of Hawkeye who bit him.

[Transfer complete. Hunter returns to the deluxe room.]

[Exclusive room is safe. No one can enter except the hunter.]

[Hunter used to return to the reincarnation paradise and began to calculate the rewards of the derivative world.]

Derivative World: Steel Alchemist

Difficulty: Lv.10(Difficulty).

Obtained Origin of the World: 38.5

[Mission Completion: 1. (Achievement mission x 1.]

[Advancement mission is not counted in the evaluation.]

[Comprehensive evaluation: B.(Note: The rating is E-to S +. The comprehensive evaluation is calculated according to the sum of the source of the world and the number of completion of the mission. The promotion mission has no main mission. The lower evaluation is normal.]

[Beginning to collect the source of the world...]

The source of the world has been collected, and the rewards have been counted.

Reward: 16 attribute points(included in the derivative world), 1925 Paradise Coins.

(Hint: The hunter has not passed the first level assessment, and now the highest level can be upgraded to Lv.10.)

The settlement is completed, and the reward has been automatically deposited into the hunter mark.

...

[Hint: The hunter has completed the promotion task and is qualified to be promoted.]

[is allocating the trial area for the hunter. The distribution is completed. There is 500 contractor who participated in the promotion in the same batch.]

Su Xiao frowned after seeing the hint of the reincarnation paradise. He thought he could be promoted directly to the second rank after the promotion task. Now it seemed that it was not the case. He still had to participate in a trial.

[Trial will be carried out in three days. The content is for survival. This trial is an independent scene—no derivative world. Hunter, please prepare in advance.]

'Content is for survival.' After Su Xiao saw this, his heart tightened. If all the tasks were listed, the most difficult task must be survival-type tasks.

He would carry out a very short trial according to the trivial clues. There were two clues. The special world without a plot was at least not the derivative world. There were a total of 500 participants who also completed the promotion task.

It could be imagined that if the venue was not big, there might be a situation of contractors fighting in chaos.

Su Xiao now had three days. In these three days, he wanted to convert the benefits obtained by the steel refining world into strength and relax his body and mind to welcome the trial.

Just as Su Xiao was preparing to calculate the benefits he got, the hint of the reincarnation paradise appeared again.

[Hint: Checking to the hunter has completed the promotion mission. The reincarnation paradise will reward the hunter with a chance to consult. The permission level is Lv.50.]

Su Xiao was confused at first, then suddenly realized that it seemed that this was the preferential treatment of the hunter's identity. He could ask a high permission level question from the reincarnation paradise.

Su Xiao could not think of what to ask at the moment.

Suddenly there was a flash in his mind. Su Xiao thought of what he wanted to ask.

"What is the number of the people who killed my parents? What level are they?"

After Su Xiao asked this question, the reincarnation paradise gave a special answer.

[This question can't be answered.]

Su Xiao frowned. Was it because of the lack of permission?

"Why can't I answer?"

[Hunter's parents died voluntarily when an accident happened, and no one was suspected of killing.]

"What!"

Su Xiao stood up with a shout, his eyes wide open.

"An accident death? What a joke! Was being stabbed to death by a sharp weapon an accidental death?"

[Reincarnation Paradise can restore the hunter's past. Do you want to use the consultation permission?]

Su Xiao hesitated. He could not figure out the situation now.

"Use."

Su Xiao's tone was firm. Things did not seem to be what he thought.

[Checking the 'enemy' in the hunter's mind.]

[contractor: 10034(Already dead)]

[contractor: 1077(Already dead)]

[contractor: 11316(Already dead)]

[contractor 12479(Already dead)]

...

Seeing the big ranking list before him, Su Xiao was even more puzzled. Was this enemy who killed his parents? But these people all died in the reincarnation paradise without exception.

"His enemies are dead?" Su Xiao lit a cigarette with trembling hands. Although he did not kill these people, he was happy to get revenge.

Some people said that it was empty after revenge, but Su Xiao did not have this feeling. He was very happy now.

[Comparing the DNA data, the results are as follows.]

[Hunter and contractor - 12156(codenamed Blood Eagle), the contractor - 12157(codenamed Poisonous Orchid) - No blood relations.]

Seeing this hint, Su Xiao's first reaction was disbelief. His parents, who raised him since childhood, had no blood relations with him?

Is it a mistake in the reincarnation paradise? Is it possible? Of course, it is impossible. The ability of the reincarnation paradise is obvious. This is an extremely mysterious existence.

[In the projection, this is the hunter's childhood image.]

A screen like a surveillance picture appeared in front of Su Xiao.

On the screen was a dark, sealed space. A cave collapse should form this. There was a young man and woman and a baby in swaddling clothes. Su Xiao looked somewhat similar to the man with a dusty face if one looked carefully.

The woman in the picture was holding the baby in the cradle. The woman's eyes were full of tears.

"Honey, can we still go out? There is no signal on the phone, and it is getting more and more stuffy here. The oxygen will likely be exhausted soon."

The woman pressed her cheek against the baby's face in the swaddling clothes.

The man leaned silently in the corner. Even if he encountered such an accident, the man was still calm.

"There is indeed not much oxygen. If three people breathe simultaneously, they can only hold on for two hours at most."

The man raised his head and looked at his wife not far away. He smiled at his wife with a serious expression.

"Think of a way to live with your son."

As he spoke, the man took out a switchblade. The blade flicked out, and the man cut his throat without hesitation. This was a ruthless person, and his decisiveness was very strong.

If the oxygen was only enough for two adults to breathe for two hours, what about one adult and one baby? At least three to four hours!

This man was ruthless enough. For his wife and children to continue living, he chose to end himself. He knew clearly what it meant to be buried underground after the earthquake.

There was no rescue in a short time. Rather than living, it was better to leave more time for his wife and children to live.

The gushing blood scared his wife silly. She screamed and rushed to the man.

"Live, take your son out."

The man died after leaving this sentence.

The wife cried and shouted, but this could not save the man's life.

A few minutes later, the wife wiped the tears on her face. She was already heartbroken, but her face revealed a gentle smile when she looked at the baby in the swaddling clothes.

The woman picked up the baby with a few drops of blood on her face and began to breastfeed.

After the baby was full, the woman put the baby on the ground and used the surrounding debris to block the baby from hitting the baby, although the possibility of being saved was not high.

The woman looked at her husband, firmly picking up the bloody spring knife.

She did not know when rescue would be, but she knew that a few hours was insufficient. All she could do was try to make her child live longer so that there was a chance.

The most precious things were often the most ordinary things, such as air.

...

Su Xiao stared at the scene in front of him. The baby was miraculously rescued, but because of a large-scale earthquake, the information was chaotic.

The baby's identity was not confirmed, and he was finally sent to the orphanage.

Half a year later, a couple came to the orphanage with the purpose of adoption. After seeing the familiar appearance of the couple, Su Xiao was stunned. It was his 'parents.'

No, it should be foster parents.

The image continued. Su Xiao gradually grew up. His 'parents' did not tell him about adoption.

To be exact, his 'parents' adopted him with a fake identity to make it easier to hide among ordinary people. They seemed to be avoiding someone.

His 'father' was always kind in front of him, and his 'mother' was always gentle.

In Su Xiao's impression, his parents had never scolded him, not a word, not to mention beating and scolding. Was this normal? He did not notice it before, but now it seemed that this was not normal.

The video continued. In the video, Su Xiao had already gone to primary school, and his 'parents' were chatting at home.

"He has been adopted for many years. The child won't find out our identity, will he?"

"Lan, don't think blindly. The child is still very young, and we act as parents."

"But he will grow up eventually. If he finds out our identity..."

"Then deal with it. You and I can't have a child. The adoption of the child is to hide among ordinary people. The people in the Lingtian adventurous group are dogs. They will not let go even if they die."

"Deal with it... Although I can't bear to do it, there is nothing I can do when the time comes. However, this child has had a kind of cruelty in his bones since he was young. If he becomes a contractor, it may be very amazing."

"Who knows, maybe his parents are ruthless, but they are just ordinary people. There is no trace of the semi-digitized body of this child."

Xue Ying sighed and seemed to be worried about something. However, when he mentioned Su Xiao, there was not much emotion in his eyes.

...

The truth was always so unexpected. There were no powerful enemies in their imagination, nor were there any cliché stories of successful revenge after they became stronger.

When they traveled, a young couple encountered an earthquake and were buried in an underground cave, originally a scenic spot.

Although the couple was ordinary people, they had an unusual ruthlessness and decisiveness in their bones. It was this decisiveness that allowed their children to survive.

The death of the husband and wife bought more time. The child was rescued and sent to the orphanage. A pair the contractor and his wife adopted to cover up their identity to escape the pursuit.

...

Su Xiao put one hand on his forehead, a cigarette in his mouth, and green smoke rose.

There was no right or wrong in this matter. Although his 'parents' adopted him to hide his identity, they raised him after all.

The contractor team that killed his 'parents' had died, so there was no so-called strong enemy. Before he killed the black warlord, there was no contractor, which explained the problem.

Su Xiao had always been strange before. The reincarnation paradise gave out information that the talent ability could not be inherited. And if the two couples had the talent ability, the child born would have a smaller chance of getting the talent ability.

Su Xiao had understood all the problems with revenge. The burden that had been on his shoulders for a few years gradually dissipated. He had never been so relaxed.

"Bobo, let's go and have a big meal."

Su Xiao was not depressed because of the truth, but as if he had been reborn.

From now on, he was alone and only lived for himself.

Or, his journey in the reincarnation paradise was just the beginning. In the future, he only did what he wanted to do and was no longer controlled by revenge.

Chapter 427: Happy Life

Walking in the reincarnation paradise, Su Xiao took Bobowang to Xia's restaurant.

Su Xiao had wanted revenge before, but now he found that revenge seemed to be covering his eyes.

Revenge could be a belief, or it could become a weakness.

Inadvertently, Su Xiao clenched the hilt of the sword at his waist. This was originally just his means of revenge, but those enemies had died in the reincarnation paradise.

The moment, holding the hilt, Su Xiao suddenly had a different feeling. But he could not understand what this feeling was at the moment, but he had a feeling that his knife skills would improve a little soon.

After revenge, did Su Xiao lose the motivation to move forward? Of course not.

If Su Xiao was still an ordinary person, that was the case, and the emptiness after revenge would cover him for the rest of his life.

But he was in the reincarnation paradise, and there would never be empty or boring situations here.

One after another, high-risk derivative worlds, humanities scenes, and bloody battles.

What was the existence of the reincarnation paradise? What was its purpose? What was Su Xiao's position in it? These were all fog.

Before he figured out these things, Su Xiao would not lose the motivation to move forward.

"Let me see, how strong can I be as a human body?"

As he walked, Su Xiao suddenly smiled. There was no haze of the avenger in his eyes, and it turned into complete coldness and killing intent.

The swordsman was good at killing.

The contractor, who passed by Su Xiao, subconsciously moved away and looked at Su Xiao with lingering fear.

A sense of malice spread around Su Xiao, and the revenge would not change his character, only making him more determined.

Walking into Xia's restaurant, Xia Zheng was weakly lying on a table.

Eggplant 0.5 paradise coins a jin, cucumber 0.3 paradise coins, lobster 2.3 paradise coins, ah, lobster is so expensive.

Xia Tian was very depressed. Her restaurant had not opened for two days.

.

Su Xiao pushed open the door of the restaurant.

Xia was full of energy. Guests were coming.

"Welcome..."

Xia was happy to see Su Xiao because the God of Wealth was here.

"Hey, hey, what's with this horrible aura? The killing intent is almost solidified."

Xia's body trembled like a cat being thrown into a tiger cage.

"Killing intent? You mean this thing?"

Su Xiao's eyes slightly opened, and a horrible momentum spread.

"I have been suppressing this thing before, and now it is no longer necessary."

Su Xiao had forgotten how many people he had killed. If he released all his momentum, it would be the retreat of the living.

"It seems that you have changed a lot in the last derivative world."

Xia took the menu, and after the initial shock, she had slightly adapted to Su Xiao's breath.

"I just solved a 'weak point' and set up a new target."

"A new target?"

"Yes, aren't you curious about what the reincarnation paradise is? How does it work? And how did it order us to carry out the mission?"

"Yes... I am curious."

"If you are curious, you have to explore."

"But... I don't dare."

Su Xiao did not speak. He just lit a cigarette.

"I did not dare before, but I have nothing to fear after knowing something."

"You are not afraid of death?"

"Nonsense, I am afraid of death, but as long as I die to my heart's content, even if I die in battle, so what? One day, people will die and enjoy the process of life from birth to death. Otherwise, living is meaningless, just a walking corpse."

Su Xiao sat in front of the table, holding his chin. He had been thinking about the trial for three days.

500 contractors who could complete the promotion test without thinking, the trial must be very lively.

Bobowang did not listen to the conversation between Su Xiao and Xia. It was looking at the menu attentively.

Bobowang gave Xia a look, and Xia Tian's ruddy mouth twitched.

Bobowang's furry claws patted on the menu and drew a circle on it. A few question marks seemed to float above Xia's head.

"This is?"

Xia was at a loss. She initially rejected a 'husky' coming to her restaurant to order. Moreover, this 'husky' often looked down on her.

"Are these dishes?"

Xia probed.

Bobowang glanced at Xia and rolled her eyes. She seemed to be saying, Bobowang gives you a look. You can experience it yourself.

Xia was both helpless and depressed.

"It will draw all of this."

Su Xiao ordered the menu, and Bobowang called and looked at Xia Tian.

Stupid woman, my owner knows me well.

Xia Xianqian clenched her weak fists. Including this time, she had been despised by this 'husky' fifteen times.

Xia's cooking skills were not low, but the shop's location was extremely deceptive, and the signboard was unique.

'Summer Season'

This was the name of the Xia restaurant. Although it was elegant enough, who could have thought this was a restaurant?

Su Xiao could find this place because Xia would go bankrupt soon and could only stand at the door to find guests.

When Su Xiao passed here for the first time, Xia suddenly rushed forward and roared, "Customer, do you want to eat? 20 paradise coins will give a 50 discount."

That expression did not want to give him a 50 discount but break Su Xiao.

...

A sumptuous meal was served, and Su Xiao and Bobowang began to eat.

After eating and drinking, Su Xiao left Xia's restaurant and returned to the exclusive room.

He wanted to calculate the benefits of the steelmaking world.

Sitting on the bed, Su Xiao pushed Bobowang to the side. This group began to grow fat after becoming a creature. The hair on its body was bright, and its body size was a circle bigger than before.

Bobowang slept after eating, but it would wake up soon. If Su Xiao remembered correctly, it would be Bobowang's most energetic time in a few hours.

Looking through the records of the reincarnation paradise, Su Xiao was looking at the reward obtained from the task of breaking.

The Sin Severing Quest was only completed(6/7). It was a pity that there was no time to kill Pride at that time.

There was no perfect thing in the world. To be able to complete(6/7) was already a stroke of luck.

[Sin Severing Quest has been completed. Completion degree(6/7), the contractor can choose one of the following options.]

[A: Sloth's Grip (Set 1/7), purple quality, careful selection of attributes is visible.]

[B: Arrogant Shadow(Set 1/7), Purple Quality. Detailed attribute selection is later visible.]

[C: Rage Flame(Set 1/7), Purple Quality. Detailed attribute selection is later visible.]

[D: Envoy of Original Sin, Purple Quality. Detailed attribute selection is later visible.]

[E: Perfect Harmony Potion, Enhanced Type Potion. After use, Strength +2, Agility +2, Constitution +2, Intelligence +2, Charm +2.]

...

There were five options. A, B, C, and D were all equipment. The first three were the original sin set. Although Su Xiao had already gotten two original sin sets, he would not choose the third one.

The biggest use of the original sin set was to sell it. This was a mage set. Even if he collected it, it would be useless. At most, it would sell for a sky-high price.

But before selling it at a sky-high price, collecting seven pieces of equipment would cost a lot.

The [original sin] option was a single purple piece of equipment. The attributes were unknown, but it would not be too bad.

As for the E option, Su Xiao directly chose it after seeing the E option.

What he lacked the most now were the attributes. The burden of the development of the four attributes was not small. He wanted to seize all the opportunities to improve his attributes.

[Perfect Harmony Potion] appeared in his hand. Su Xiao did not use this potion for the time being. He was ready to use it again when strengthening the attributes.

The increase of 10 attribute points was not a waste for Su Xiao to complete the Sin Break task(6/7).

It should be known that his profit of a derivative world was only 16 attribute points. The reward of this task was comparable to the attributes of more than half of the derivative world.

Chapter 428: Target, Goddess of Luck

[Perfect Harmony Potion] in hand, Su Xiao began to check other benefits.

The number of paradise coins was 62306, which was still under the condition that there was no equipment to be sold.

The free distribution of attribute points was 16 points.

Soul Crystal(Intermediate) × 1(Bobo Open Box obtained).

The unopened treasure chest has a purple treasure chest × 1(lazy) dark purple treasure chest × 1(dropped by the president).

Holding the dark purple treasure chest in his hand, Su Xiao got this treasure chest for the first time.

A kind of impulse to open this treasure chest appeared. If he wanted to do it, he would do it. Su Xiao first picked up the purple treasure chest on the side.

Of course, the dark purple treasure chest had to be opened last.

Bobowang, who was already asleep, suddenly opened his eyes. The gaze seemed to say: Bobowang smelled the treasure chest. Black Chief let go of the treasure chest and let Bobowang come.

Su Xiao looked at Bobowang with a smile on his face.

"You want to open your eyes? What do you mean by that look just now? I feel that you are mocking my luck."

Bobowang's dog body shrank. He raised his head and looked at Su Xiao with his two eyes shining. He looked up. The meaning was clearly:

Bobowang's expression was like an emoji pack!

Ignoring Bobowang, who was acting cute, Su Xiao took out the lighter of Fate Redemption. He had been inquiring how to improve Fate Redemption from blue to purple.

There were already some clues. He had previously seen the information of a prop that could raise blue equipment to purple. However, it was very expensive and rare.

Su Xiao lit a cigarette, the European Emperor's state was on him, and Su Xiao directly opened the purple treasure chest.

[You get 2000 paradise coins.]

A hint appeared, and the cigarette in Su Xiao's mouth fell to the ground.

"Is this over? The purple treasure chest = 2000 paradise coins"

Bobowang, who was on the side, was also stunned. He looked at Su Xiao with admiration and seemed to say: Master, you are so strong!

"Cough cough."

Su Xiao coughed out a wisp of smoke.

He picked up the treasure chest that had yet to dissipate and fell to the ground.

How powerless was this Black Chief's struggle? Nothing fell out of the treasure chest and gradually dissipated in his hands.

Perhaps after the darkness reached a certain level, even the European Emperor state could not be saved. Perhaps he could only rub the Luck Goddess on the ground to save her.

Although he was a little skeptical, the truth was right in front of him.

Su Xiao accepted this fact, but Bobowang could not accept it. It seemed that it could not understand how Su Xiao did it.

"Maybe it's a problem with the brand of the cigarette, cough ---"

The European Emperor state was still there. Su Xiao reached out to the dark purple treasure chest and hesitated. Today, the European Emperor's state was a little wrong.

In Bobowang's frightened eyes, Su Xiao grabbed the dark purple treasure chest. This was the first dark purple treasure chest he opened.

Taking a deep breath, Su Xiao opened the dark purple treasure chest.

[You have opened the dark purple treasure chest.]

[You have obtained 5000 paradise coins.]

[You have obtained the magic crystal.]

[You have obtained the blood of an artificial human.]

...

[Demon Spirit Crystal]

Quality: Purple

[Type: Material]

[Effect: Intermediate Forging Material.]

[Rating: 130 (Note: Purple item score is 71 to 150. The higher the score, the more precious the item will be.]

[Description: Any derivative world can produce, but the production rate is lower.]

[Quality: Purple]

[Type: Bloodline Item(Rare)]

[Effect: After use, there is an 80 chance of obtaining the artificial human bloodline. 15 chance of failure. 5 chance of producing an unknown mutation.]

[Rating: 150(Note: Purple item score is 71 to 150, the higher the score, the more precious the item will be.)

[Description: The artificial human does not belong to the human bloodline.]

Two crystal stones appeared in Su Xiao's hand, one was pink, and the whole was diamond-shaped. This was the devil crystal stone, the material for forging equipment.

The other one was blood red, with no specific shape. It was a pool of sticky red liquid.

A smile appeared on Su Xiao's face. Although there was no dark purple item, there was a blood type item.

There was no doubt that bloodline items were the most valuable items of the same level.

After opening the treasure chest, Su Xiao left the exclusive room. He still had many things to do. After all, there were only three days.

When he left, Su Xiao stared at Bobowang.

"Don't tear down the house!"

Bobowang looked innocent. It seemed that it had never torn down its home, but the feat of the steel refining world-destroying the tank was still vivid in his mind.

Leaving the exclusive room, Su Xiao went straight to the attribute strengthening hall.

He was already familiar with this place. After paying the paradise coins, he obtained the right to use a strengthening warehouse.

[Welcome to use the attribute strengthening warehouse. Your naked attributes are as follows.]

[Strength: 38]

[Agility: 37]

[Physique: 33]

[Intelligence: 36]

[Charm: 3]

[Hunter can freely allocate attribute points: 16 points]

[Drip detected that the hunter's main attribute is strength, agility, and intelligence. Please give priority to the three main attributes.]

Su Xiao looked thoughtful. Since he had decided to develop the four attributes, he might as well make the four attributes more balanced.

After thinking for a long time, Su Xiao's final distribution method was strength +2, agility +3, physical strength +7, and Intelligence +4.

After the distribution of attributes, the strengthening capsule began to run.

This time, the reincarnation paradise did not hint at anesthesia function. Perhaps it was because Su Xiao had refused too many times.

In the future, he would not take the initiative to ask, and the reincarnation paradise would not show this function again.

Su Xiao sat cross-legged on the ground, and the pain came from all parts of his body. Su Xiao forcibly ignored the pain. He was feeling the process of strengthening.

Mysterious energy filled his body. His muscles, bones, and skin were gradually becoming stronger. This fast process of becoming stronger produced the pain of strengthening.

Su Xiao did not resist this process but carefully experienced this process.

The process of gradually becoming stronger was very straightforward. Perhaps he had already experienced several enhancements. Su Xiao not only ignored the pain but also began to enjoy this process of gradually becoming stronger.

Just think about how happy it was for a mortal to improve to extraordinary gradually. The heavy things that could not be picked up could now be easily waved, and the original solid wall was now broken with a punch.

After an unknown period, the strengthening chamber stopped running. Su Xiao opened his eyes, and the muscles in his body were not obvious.

The surging power surged out of the body.

"This is the feeling. This is the power I pursue, the power that can dominate the fate, the power that can follow the heart and desires."

The surging power receded a little. This was Su Xiao had adapted to some of the stronger bodies.

Taking out a bottle of pale yellow potion, the potion under the light emitted a gentle light.

[Perfect Harmony Potion], five attributes +2.

Su Xiao opened the mouth of the potion and drank it.

Boom!

There seemed to be a muffled sound in his body. Su Xiao clenched his teeth and drank the potion. This time was a bit violent.

As the upgrade continued, Su Xiao's breathing became heavy, and his sweat-soaked clothes.

This was the first time Su Xiao drank this kind of violent potion, and a feeling of fire came from his body.

[Perfect Harmony Potion] seemed to turn into a fire in his body, constantly refining his body.

Su Xiao's skin began to turn red, and the air he breathed out began to burn.

Chapter 429: Your Sister~

After half an hour, the burning sensation in his body receded, and Su Xiao calmed his breathing.

Su Xiao opened his personal information. The information was as follows:

Contractor 13013. (To protect the hunter, this is a wrong number, no means can lock the hunter.)

Name: Su Xiao(hunter)

Level: LV.10.(1 rank). Each level is a rank. The level promotion has no attribute bonus.

It corresponds to the hunter's authority in the reincarnation paradise, the difficulty of the world, the task, etc...

Life value: 100. (This attribute can't be completely digitized, changing according to the degree of injury)

Mana value: 1063(Intelligence ×10, current mana recovery speed is 26 points per hour.)

Strength: 42

Agility: 42

Stamina: 44(2) Heavenly King bonus

Intelligence: 42

Charm: 7(2 points Heavenly King bonus)

[Luck: 1(related to items opening and manufacturing, this attribute is extremely difficult to upgrade. Please cherish the opportunity to upgrade)]

[Note: The standard attribute of an adult male is 5 points, and luck is 1 point.]

The naked charm attribute finally reached the level of an ordinary person, which was 5 points. But compared to other attributes, the gap was obvious.

After checking the attributes, Su Xiao opened the skill list.

Skill

[Green Steel Shadow: LV10(active skill)]

[Effect: Consumes 1 to 30 points of mana every minute after activation. A melee attack burns 5 to 50 points of mana to deal the same amount of actual damage.]

[Skill 2]

[Saber Master: LV 18. (Passive)]

[Effect: Increase saber-type weapon attack power by 7.]

Skill 3

[Demon's Constitution: Lv. MAX(Passive)]

[Effect: Unable to master and learn all magic skills. Immune to 40 magic damage.]

Skill 4

[Eye of the Heart: Lv.10 (Passive Skill)]

[Effect: Greatly increases perception. Perceiving the enemy's attack and catching flaws.]

[Skill: 5]

[Supreme Blade: Lv. AX(Special Skill)]

Skill 6

Spirit Shadow Constitution: Lv. M. X(Passive)

Skill Effect 1: Modify the body, scattering the mana stored in the brain to all parts of the body.

Skill Effect 2: There is a great change after the fusion of mana and body. Mana and HP form a good cycle, and HP will be greatly enhanced, increasing the amount of mana by 30.

[Note: Current Mana Points: 1063 points. Increases HP by 318 points.]

[Skill 7]

[Devil Seal: Lv.2(Passive Skill)]

[Skill Effect 1: Additional 13 True Damage when attacking.]

Skill Effect 2: You can upgrade the level of the devil seal by sacrificing equipment. You have reached an agreement with the higher demons.

Two skills were not included in the skill list of the shadow of the law, namely Soru and the meditation of the heart.

Su Xiao's current fighting style had been completely finalized. From the level of the master of the sword technique, it could be seen that the sword technique was his most important combat method, and other abilities were only auxiliary.

Alchemy was a good ability, but Su Xiao did not put too much effort. The stronger ability now was only the superior level alchemy bomb.

This was enough. The main function of alchemy was to save the expenses of paradise coins and use the rest of the paradise coins to strengthen other abilities.

Otherwise, there would be a lot of paradise coins to buy explosive things and potions every time.

This time, Su Xiao gained not many soul crystals, and there was no ability to improve. Su Xiao only needed to sell the equipment and convert the paradise coins he got into strength.

Su Xiao returned to the exclusive room very quickly, leaving Bobowang alone in the exclusive room. He was somewhat uncertain.

Pushing open the exclusive room, the corner of Su Xiao's eyes twitched.

Bobowang's posture was a bit strange. His butt was tilted, his head was facing the sofa, and his mouth opened as if he was ready to eat the sofa!

Hearing the sound of the door opening, Bobowang had a flash of inspiration in his mind, and the action of biting immediately changed to licking.

Licking the sofa to ease the awkward atmosphere, Bobowang turned his head, and his eyes were somewhat unwilling.

It had been unhappy with this black sofa for a long time, and it had not found an opportunity before.

After Su Xiao left, Bobowang had been struggling between gnawing and not biting. If he bit it, he would be 'baptized' by the large slippers of 45 yards. It did not bite, and it was very unhappy to see this sofa.

When Bobowang decided to resist the baptism of slippers and gnaw on the sofa, Su Xiao came back. Bobowang was so scared that the whole dog was not good. It did not dare to bite the sofa in front of Su Xiao.

"Bobo, it seems that I have disturbed your good thing."

Su Xiao sat on the sofa and checked if the sofa was damaged. Bobowang was very panicked.

Kacha!

The short wooden legs of the sofa were broken, and the broken short wooden legs rolled to Su Xiao's feet. The row of small teeth marks on it complained about its misfortune.

Su Xiao stood up from the sofa. The black shadow shrouded Bobowang, and Bobowang trembled.

Two minutes later, Su Xiao sat on the bed. Bobowang was lying on the ground. There was a broken wooden leg in front of him. It seemed to be apologizing.

But Bobowang's eyes glanced at the sofa from time to time. His eyes clearly said: You wait for the master to be absent.

Ignoring Bobowang, Su Xiao began to organize the items in the storage space. There were a few items that needed to be sold.

[Gluttony Mask(Set 1/7), Purple Quality.]

[Suffering of Jealousy (set 1/7), purple quality.]

[Magic spar, purple quality.]

[Anthropomorphic Blood, purple quality.]

There were not many items obtained in the steelmaking world, but each was of the best quality. After all, this was a derivative world of Lv.10.

Taking Bobowang away from the exclusive room, Su Xiao went straight to the trading square.

"Recovery products, complete materials."

"New blue equipment, poor."

"Purple quality firearms, no bargaining!!"

"Buying soul crystals(small), no limit to the quantity."

The trading square was still the same as before, crowded with people, and the sounds of contractor hawking and bargaining were endless.

In front of a stall, perhaps it was a negotiation between the two sides. A few contractors greeted the stall owner, and the stall owner's immediate female relatives were all greeted.

Su Xiao found a booth with fewer people. He did not need to squeeze into a crowded place.

After paying the paradise coins, Su Xiao got the right to use a booth.

[Gluttony Mask(Set 1/7)] was priced at 150,000 paradise coins.

[Devil Spirit Crystal] was priced at 30,000 paradise coins. This thing was material, but it was very rare. The price was not high.

As for the [artificial human bloodline], Su Xiao hesitated for a while and finally marked the sky-high price of 350,000 Paradise Coins.

Out of the three items, Su Xiao wanted to sell only [devil crystal stone], and the other three items were not likely to be sold directly.

After bidding the price, Su Xiao's stall opened, and it was still the name of [boutique].

After setting up the stall, Su Xiao contacted a person through a fake number.

"There is good stuff. Come to the trading square quickly."

Su Xiao originally wanted to leave a message, but he did not expect the other party to reply immediately.

"What good stuff? I am not interested in anything below purple. Recently, there are members of the first level of the team, and they are very busy."

Su Xiao raised his eyebrows. There was also a contractor who participated in the first level trial in the God-Emperor adventure group. He did not know if he could meet her.

He sent the information about the two pieces of equipment [Gluttony's Mask] and [Envy's Suffering] to the God-Emperor, and the other person replied after a few seconds.

"I will let Sheila pull it over immediately."

Sheila was the second character of the God-Emperor adventure group. She was a beautiful and suffocating female mage. This set was very suitable for the other party.

"Are you kidding?"

Su Xiao felt that it would be a miracle that the two of them did not go to the Life and Death Ring if Sheila came alone.

"Hey ---, that's right. I will go with her and won't let her talk when the time comes."

It was torture to communicate with her, and the other party could talk to her to death within three sentences.

A few minutes after the stall was opened, some contractors gathered around the stall and talked about it.

"If you don't want to buy it, it's useless. If you have time, you might as well go to the trial field to enhance your strength. Recently, the contractor's death rate has increased a lot."

A crisp voice was heard. Although the person was very polite, the words he said were embarrassing.

All the male contractor's eyes were focused on the newcomer. The eyes of these male contractors were even fiercer than when they looked at [Artificial bloodline] is even hotter, and Sheila's beautiful appearance and S-shaped figure are simply criminal.

However, Sheila was a conservative woman. She did not reveal her chest, but her black and blue robe outlined her excellent figure, giving people a mysterious and beautiful feeling.

"Sheila, don't talk."

The Emperor had a headache.

"Boss, you still owe me 3621.52 Paradise coins. Considering that it is already past twelve, according to the agreed interest, it is..."

"Stop, stop, stop, wait, wait, wait, when do I owe you Paradise coins?"

"Last time you were drunk and got a girl in Blue Sea Blue Sky..."

"Shut up!"

The Emperor was embarrassed.

"Even if I shut up, it is a fact. The paradise coins I paid for you can not be offset. Even if you are the boss, you have to consider the financial situation of your subordinates. After all, that kind of thing..."

The Emperor took a deep breath. If not for his sister, he would kill the other party. How could he say something like a big guarantee? Although he did go.

Chapter 430: Holy Spirit

"This is the boss of the God-Emperor Adventurer Group? It is different from what I imagined. There is no dignity."

"You may not have seen his boldness in the derivative world. This is the leader I want to follow the most."

The surrounding people discussed. The God-Emperor coughed. Fortunately, he was wearing full body armor and a helmet.

"I recognized the wrong person. I am not the God-Emperor you have heard of, a double name, nothing more."

The Emperor's explanation was so weak that Sheila's red lips were slightly open as if she still wanted to speak.

The eyes under the Emperor's metal helmet were wide open, staring straight at Sheila.

"Cough, I didn't want to talk about you going to the Health Care."

Sheila's simple words almost made the Emperor faint from anger.

"Don't worry. I won't tell anyone else about that."

The Emperor clenched his fists, and now he knew everything.

"Killing intent, brother, you have a lot of good stuff here."

Sheila probably forgot Su Xiao's name and casually gave Su Xiao a name.

"Huh?"

Su Xiao looked up at her.

"Although I don't know the reason, don't look at me like that. It's very scary. What is your profession, a mage hunter?"

"Shut up, Sheila. I said before. I will negotiate."

"Alright, alright. I'll shut up, but remember to spend money."

"I know! I know!"

The Emperor gritted his teeth. He was also very helpless to have such a stupid sister.

"Brother White Night, please excuse me. Let's talk about business."

The Emperor looked at the four items on Su Xiao's stall. After seeing the original sin set and the artificial human bloodline, the Emperor nodded, satisfied.

After seeing [devil crystal stone], the Emperor's eyes lit up.

"Eh ---, devil crystal stone, dark purple treasure chest?"

The Emperor was very knowledgeable,

He could tell the origin of [devil crystal stone] at a glance.

"Interested?"

"Very interesting. How about 25,000 paradise coins?"

"The purple material is at least 30,000."

The bargaining began. The Emperor bought the [devil crystal stone] with 27,000 paradise coins a few minutes later.

A large adventure group like the God-Emperor Adventurer Group would nurture a blacksmith.

The first business deal was completed, and the atmosphere between the two sides was more harmonious related to Sheila's silence.

It was necessary to cooperate with such a large adventure group as the God-Emperor Adventurer Group. At least the profit gained in the derivative world could be quickly dealt with.

If he got a lot of benefits in the derivative world, it would be bad if the contractor's purchasing power was not enough to fall into his hands.

"Brother White Night, let's talk about these two original sin sets."

Behind the God-Emperor, Sheila clenched her fists. She had already obtained three pieces of the original sin set, and with these two pieces, one of the set's attributes would be activated.

Although the original sin set was seven pieces, she could unlock one set attribute when she gathered three or five pieces.

Set effect 1: original sin(passive) increases magic damage by 60.

This was the set effect after gathering seven pieces. The power of the spell was increased by 60.

What kind of concept was this?

"I heard that Sheila has gathered three original sin sets. Congratulations."

Hearing Su Xiao's words, the Emperor narrowed his eyes and looked at the girl behind him.

"Why are you looking at me? You told him this."

"What? I said it before?"

The Emperor didn't believe it.

"The last time you two drank at 'Brilliance,' when you bought the devil fruit."

The Emperor felt regret in his heart. This was one of his shortcomings. He liked to drink and often did some ridiculous things after drinking, for example, bringing hundreds of his subordinates to protect him.

Without a perfect person, the Emperor being able to support such a large adventure group already showed his ability.

"Brother White Night, don't tell me you will take advantage of me."

"Of course, I will."

Su Xiao's straightforward answer made Bobowang roll his eyes.

At this time, there was no need to cover it up. With three pieces of the original sin suit collected by Sheila, these two pieces of the original sin suit were determined to be obtained.

"It is your style, so straightforward."

The Emperor felt a headache coming on.

"Let's go. We can't eat these two."

Sheila pretended to leave. She was not trying to bargain but wanted to leave. It was true that she was the God Emperor's sister, but she could not use the team funds for personal reasons. The people below would be dissatisfied.

The God-Emperor was also aware of this, but he did not get up.

"Two sets of equipment + artificial human bloodline. I will exchange them for one piece of equipment."

The God-Emperor took a deep breath and seemed reluctant.

"What equipment? Take it out and have a look."

Su Xiao was interested.

Sheila seemed to think of something and whispered in the ear of the God-Emperor, "Brother, you are crazy."

The God-Emperor chuckled and shook his head.

"It doesn't matter. That bloodline is also very important. It is very suitable for Tandu, that guy."

The god Emperor took off the knight's sword at his waist and took the sheath of the knight's sword.

This was a black and red sheath. The sheath gradually changed shape in the hands of the God-Emperor and turned into a sheath in the blink of an eye.

The attributes of the sheath were displayed in front of Su Xiao.

[Divine Twilight]

[Origin: Zone 17(Tier 2 battlefield), Moya weapon forging workshop.]

[Rarity: Dark Purple]

[Type: Weapon Sheath(All)]

[Durability: 82 to 82]

[Equipment requirement: Strength: 10, Agility: 10, Stamina: 10, Intelligence: 10.]

[Gem Embedded: Dark-purple Gem(Vitality)]

[Equipment Effect 1: Strength +3, Agility +3.]

[Equipment Effect 2: Recognition(Passive) can be changed into any weapon sheath.]

[Equipment Effect 3: Restore(Passive), slowly repair the weapon's durability, the damaged weapon can not be restored.]

[Special Effect: Holy Spirit Blessing(Active), after activation, creates a layer of Secondary Invincible Shield. The shield lasts for 1 second, cooldown time of 72 hours.]

[Embedding Effect: Vitality(Passive), recovers 10 HP and 0.5 Mana points per minute.]

[Rating: 260 +(Note: Dark purple equipment scores from 151 to 260. Dark purple equipment with 260 points will have additional special effects. Additional special effects: Holy Blessing.]

[Description: Made from the soul of a fake god.]

[Price: 71 paradise coins.]

Su Xiao's pupils contracted slightly. There was no doubt that this was the strongest equipment he had ever seen.

The gains were Strength +3, Agility +3, Automatically recovering the weapon's durability for a long time, an invincible shield for a second, HP, and mana recovery.

Especially mana recovery, if he recovered 0.5 points of mana every minute, it would be 30 points per hour, and he could recover 720 points of mana in 24 hours, which was faster than his self-recovery speed.

Su Xiao's mana recovery speed was 26 points per hour, and 24 hours was 624 points.

His mana values were a total of 1063 points, and if he had this scabbard, he would only need 19 hours to recover all the mana values consumed.

"Hurry up and trade. I'm afraid I'll regret it."

The Emperor lowered his eyes. Su Xiao did not say anything and traded the original Sin set with the artificial human bloodline to the other party. At the same time, he got [The Twilight of the Goddess].

When the dragon flash and the [light of the god's afterglow] touched, the [light of the god's afterglow] immediately changed its shape and the scale suitable for the dragon flash.

Zheng.

The dragon flash rubbed the new scabbard and let out a light cry. The milky white energy wrapped the dragon flash inside the sheath, and some invisible damage on the blade began to repair.

Although he did not get too many paradise coins after dealing with the four items, Su Xiao was very satisfied.

This sheath was simply made for him. Not to mention the recovery of HP and mana, the secondary invincible shield of that second was also very strong.
