

R. Paradise 451

Chapter 451: The Chase

After the stone spear aboriginal self-destructed, the other indigenous people lowered their heads and remained silent. This kind of thing seemed to have been used to it.

The pungent smell of burning came, and Su Xiao vaguely smelled a sour smell in this burnt smell.

This tribe was more and more bizarre. If Su Xiao did not guess wrong, this stone spear native who self-destructed was the blood vine warrior that Old Baal talked about.

What was this blood vine warrior? A kind of painless transformation?

Su Xiao felt that it was unlikely. With the technology level of the Red-skinned natives, it was a fool's dream to transform people.

His eyes looked at the back mountain of the tribe. The secret was likely there.

It was not the time yet. Before getting the compass, Su Xiao would not fall out with these Red-skinned natives.

Old Baal must not have good intentions. This was not a matter to consider. However, if he wanted to know the secret of the back mountain and get the compass, he must pass through Old Baal.

The indigenous people in the back mountain gradually dispersed. Old Baal stood in the same place and blankly looked at the huge pit.

Su Xiao saw fear in the eyes of the other party. Not only fear but also madness in the eyes of Old Baal.

This old guy might also be the so-called blood vine warrior, who could self-destruct.

The difference between blood vine warriors and ordinary people was that there was no apparent pain, the expression was dull, cruel and bloodthirsty, and the combat power was extreme when there was a sun.

The last point was what Old Bar said. It was unknown whether it was true, but Old Baal did not show a dull and bloodthirsty expression.

As for whether there was pain or not, it was still unknown.

The back mountain, blood vine warriors, self-explosion, sun.

The clues became clearer, and Su Xiao had vaguely thought of something.

The time came to midnight, and just as Su Xiao was about to find a stone house to rest in, the hint of the reincarnation paradise appeared.

Su Xiao frowned, and his face became more and more ugly.

[Warning: There are already contractors who know the hunter's identity. The hunter needs to clean up by himself.]

[has formed a mark on the contractor 'Hunter (Blue)'. The hunter can sense the position of the hunter mark.]

[This identity exposed has nothing to do with the hunter. The contractor can infer it independently.]

[The hunter needs to clean up the insiders within 12 hours; otherwise, the hunter's identity will be stripped off.]

The following prompts made Su Xiao very surprised. Since he entered the survival trial, he had never communicated with any contractors. This prompt was inexplicable.

But the identity exposure was not a small matter. Su Xiao immediately perceived the 'chase mark'.

The mark's location was not far or close, about 30 kilometers away from Su Xiao.

It was more important to clear out the contractors who knew his identity. Su Xiao quickly walked to the side of Old Baal.

"Give me some food and water."

Old Baal, who was in a daze, woke up.

"What?"

"Provide me with some food and water."

"You want to leave the tribe?"

Although Old Baal's tone was flat, he did not want to let Su Xiao go in his heart. His plan had not been implemented yet.

"Yes, go out and do something."

Su Xiao looked at Old Baal. Old Baal also looked at Su Xiao.

"Okay, I will get someone to prepare the food."

After weighing the pros and cons, Old Baal did not stop Su Xiao from leaving the tribe.

Food and fresh water were quickly prepared. Su Xiao tied the things to Bobowang's body, turned over and rode on Bobowang.

Pointing in the direction, Bobowang quickly ran to the destination.

Although he was confused, Su Xiao guessed how it was exposed.

After thinking for a long time, Su Xiao still had no clue.

It was no wonder that he was like this. The black-bellied woman could guess Su Xiao's identity entirely by relying on a few accidental and super high IQs.

Even if Su Xiao wanted to break his head, he could not think that it was the Red Spider Lily adventurous group who guessed his identity.

It was not that Su Xiao exposed his identity but that his identity was guessed. What a bad thing.

Although Su Xiao was rushing, the identity exposure was no longer a dangerous situation for him.

First of all, he had grown up, and he was not as worried as before about exposing his identity and being besieged.

Secondly, even if his identity was exposed, there were only two kinds of people who came to attack him.

One was the violator, and the other was the person who wanted to kill him and replace him. The other should take up most of the people.

As for ordinary contractors, Su Xiao did not care about being besieged by those people. He had already experienced several derivative worlds, and it was rare for a large number of contractors to gather together.

Su Xiao did not want to expose his identity to prevent some inexplicable enemies from appearing.

For example, some contractors did illegal things, but they could not reach the level of being a violator.

After this kind of contractor learned of Su Xiao's existence, it was likely that they would come to besiege him.

Moreover, no one would form a team or cooperate with the hunters to eliminate all the contractors. This was something that could be imagined with one's butt.

Therefore, although the hunter's identity would not be fatal, it would be very troublesome and would seriously affect his future speed of becoming stronger.

...

The Red Earth Region. Night.

In a sparse forest, a figure quickly passed through the forest.

The figure had just rushed through the forest when a green afterimage suddenly appeared. It was a snake with a body of green, the thickness of a finger.

Kacha.

The poisonous fangs broke, and the green snake rolled on the ground in pain.

The charging figure stopped. Her body was covered with a layer of shield.

The cynical woman breathed heavily. There were no other teammates around, only her.

The cynical woman was the enchantment master in the team. The enchantment master was a large-scale control. Sometimes, where should be sealed and should not be sealed it needed a good view of the situation.

Unfortunately, the cynical woman had a high IQ, and the overall view was only average.

Looking at the two holes in the small enchantment, the cynical woman felt a burst of fear in her heart. If not for this enchantment, she would have died.

"This time, I got into big trouble. I know what I should not know."

The cynical woman regretted it very much. She should not speculate about the identity of the knifeman. It was okay to kill the other party, but it was impossible to guess its identity.

Now she had guessed the other party's identity, which brought about a disastrous result.

On the back of her hand, a blue mark was flashing. With the intelligence of the black-bellied woman, she immediately guessed what it was.

So the black-bellied woman shook off her teammates and resisted the penalty of all attributes -3.

"Not enough. This is not a dead place. Damn it. It is best if we can enter the black forest."

The black-bellied woman continued to go deeper into the center of the Red Earth Region. On the edge of the Red Earth Region were the red-skinned native and the Zerg, and various beasts occupied the center.

After running for a short distance, there was a soft feeling under the feet of the black-bellied woman.

On the grassland outside the Red Earth Region, Su Xiao was chasing in the 'chasing mark' direction.

The number of enemies was unknown, and the strength was unknown. There was no need to consider these things first. It was better to catch up first.

The night wind blew, Su Xiao chased behind, and the black-bellied woman fled in front. Both sides were not clear about the situation of the other side.

After half an hour of chasing, Su Xiao understood the other side's thoughts. The other side wanted to escape to the center of the Red Earth Region.

This meant that the other party had found out that he was being hunted, and he had a certain degree of understanding of Su Xiao.

Half an hour later, Su Xiao arrived at the edge of the central area of the Red Earth Region. When he arrived here, he would start to be wary of the beasts that appeared at any time.

A green python as thick as a water tank crawled not far away. This python had just eaten, so it was not interested in Su Xiao.

Encountering such a terrible creature was common in the central area.

Chapter 452: Destiny

At 4 o'clock the following day, Red Earth Region, Mountain Range Region.

Leng Yue and her team members hurried through the mountain range.

They had already found that something was wrong. The black-bellied woman suddenly left the team, making Leng Yue very confused.

Thinking of the words of the black-bellied woman before being blocked by the reincarnation paradise, Leng Yue felt a chill on her back and went against the reincarnation paradise.

"Have you found the trace of Xiao Hei?"

Tang Guo's expression was low. Before they found Su Xiao for revenge, there was a change in the team.

"Not for the time being, but it is in this direction."

Feng was tracking the location of the black woman.

"In front of us is the center of the Red Earth Region. What should we do?"

Feng looked at Leng Yue. Leng Yue was the leader, and Leng Yue made all the decisions in the team.

"Central District... It seems to be similar to what I guessed."

Leng Yue sighed. Although she wanted to find Xiao Hei, she had to consider the opinions of the entire team.

"Let's vote. The vote decides whether we should find Xiao Hei or leave the Red Earth Region as soon as possible."

There were only five people in the team now. If it were the former medium-sized adventure group, Leng Yue would directly decide to leave the Red Earth Region as soon as possible, ignoring Xiao Hei.

"I want to find Xiao Hei."

Tang Guo was the first to speak, which surprised everyone. With Tang Guo's weak character, he was the first to make a stand.

"I object."

Lona spoke. She only cared about Leng Yue. As for Xiao Hei, she was not familiar with him.

"I object."

Xue Meigui spoke. This made the others very surprised.

"You don't have to look at me like that. Xiao Hei decided to leave the team and go deep into the central area. She won't be happy if we go to her like this."

Xue Meigui was the most mature. Although she wasn't clear about the details, she could guess how Xiao Hei felt when he left the team.

"I agree."

Feng expressed that this was very consistent with her character.

Two against two, Leng Yue's decision was crucial.

Leng Yue took a deep breath.

"I..."

Just as Leng Yue opened her mouth, a burst of wind came from the top of the hillside.

A black and white creature crossed the hillside and jumped at least three or four meters high as if it were ready to jump from this hillside to another hillside.

"Stop, Dumbass, and there is someone down there!"

A shout came from the heads of the women of Red Lily Spider People.

The person who came was Su Xiao. He had been searching for more than five hours nearby. He had already found the hunting mark, but it was just a broken hand.

As for tracking the smell of blood, it was impossible. There were often beasts fighting each other here. It was normal to bleed.

The other party was too good at hiding. Although after he paid 5 percent of the world source, the second 'chasing mark' had begun to form, it took time.

The formation position of the 'chasing mark' was random. Now that the enemy had lost one hand, Su Xiao did not believe that the position of the 'chasing mark' was still the four limbs.

The enemy could not forcibly remove the mark if it were the head or the torso.

The sky began to brighten. Su Xiao looked at the few people below the hillside. These were several female contractors.

The more he looked at the other party, the more familiar he was as if he had seen them somewhere.

"You are..."

Su Xiao stared at Leng Yue's cheek. This cheek overlapped with a mirror image in his memory.

Leng Yue and others were already stupid. Their previous idea was to deal with Su Xiao, but who would have thought they would meet Su Xiao now.

It was not a coincidence that the two sides met. What Su Xiao wanted to find was the black-bellied woman. Leng Yue and others were the same, so both sides circled the center.

Now no one wanted to go deep into the center of the red earth area. It was courting death.

However, someone had gone deep, and the person was lucky to survive. It was Xiao Yue.

"You are the leader of that flower group, called Leng Mou? or Leng whatever..."

Su Xiao only remembered what happened at the beginning. As for the specific name, he could not remember it.

"It seems that this is the will of heaven."

Leng Yue breathed a sigh of relief. The purple quality magic wand in hand began to deform and soon became two swords. The tip of the sword was inlaid with blue gems.

Leng Yue originally had three forms, Wind King form (Pseudo-mage), archer form, and silver moon swordsman form.

However, that was Leng Yue from several worlds ago, and now Leng Yue could also use the skills of Wind King form when he was in the form of a silver moon swordsman.

The new master, Tanrona, stood in front of them. Leng Yue and Xue Meigui, holding long spears, were on the left and right.

Feng quickly retreated. It seemed that they would find cover and prepare to shoot Su Xiao. Tang Guo stood on the opposite line of Su Xiao, separated by Leng Yue and others.

This was safe and could help Leng Yue and others to add status quickly.

Su Xiao looked at the few people present. Although the formation was good, Leng Yue and others were only the first rank contractors.

Su Xiao could deal with a second-rank contractor, not to mention the first rank like Leng Yue, and even if they were excellent in the first rank, it was useless.

Su Xiao jumped down from the back of the cloth and took out the pocket watch to check the time. There were seven hours left before the specified time, and he had to hurry up.

Dragon Flash came out, and the green steel shadow was opened to the maximum.

Su Xiao looked at the female sniper in the distance, and he decided to solve the other party first.

"Soru."

Su Xiao's figure disappeared directly into the same place, and there was a strong wind in the way.

Although the special Soru had a long cooldown, the speed of his hand and movement speed were fast enough.

"Feng!"

Leng Yue shouted. Before Feng heard Leng Yue's voice, it felt a wind pressure coming from the rear.

Clang.

Feng turned around, and a cold light magnified in the pupils of Feng. Feng's body was cold, and it subconsciously bent down.

Puff.

Two broken arms and sniper rifles flew up, and the blood splashed on the hillside. Su Xiao cut off the arms and sniper rifles of Feng.

Leng Yue, Luo Na, and Xue Meigui rushed to the hillside. Some used long-range means and Tang Guo's recovery skills were faster than these.

A green light and two layers of shields appeared on Feng. Feng's body was full of vitality, but the recovery effect was not obvious.

This was the new ability of Dragon Flash, which was not apparent before.

[Equipment effect: Shadow Dance (Passive): Every time the enemy strikes, the enemy's defense will be reduced by 8. The effect lasts for 20 seconds.

This effect can be stacked three times, reducing the defense of the enemy by 24.]

[Hint: Shadow Dance Break (passive). After the effect is stacked three times, the blood flow effect will be added.

(Blood Stream is like a note: The enemy loses 2 HP per second and reduces 30 of the healing effect.)]

The blood flow effect seemed inconspicuous, but it was extremely disgusting to have fewer healing effects.

Feng was a sniper. She was close to Su Xiao, and the result was already doomed.

Feng stared at Su Xiao stubbornly. The pain made her unable to move. There was too much green steel shadow energy invading her body.

The sharp tip of the knife pierced through the shield, pierced through the chest of Feng, straight to the heart. The heart was damaged, and Feng was dead.

Su Xiao held the knife with both hands and picked Feng, throwing her at the three people who rushed up the hillside.

Drops of blood streaked across the air, and Lona, at the front, subconsciously caught Feng.

Boom!

The explosion engulfed Lona.

A few seconds later, Lona, whose whole body was burned, rushed out of the fire. She felt her right ankle go numb after a few steps.

Lona fell to the ground with a plop. The grass flew, and the pain came from her ankle. She looked down and saw that her foot had fallen not far away. It had already separated from her leg.

Lona saw a metal wire flashing with lightning not far from that foot. There was also blood on it.

Although she had lost a foot, Lona was not flustered. She had suffered even more severe injuries. Her defense was not strong, but her recovery ability was powerful.

Chapter 453: Skills and Gap

Su Xiao looked at the enemy, who fell not far away. He did not rush forward. The opponent must be the main tank from the purple-quality shield in the opponent's hand.

The second main tank couldn't appear at the current stage. He did not even kill the sniper Feng.

After inserting the dragon flash beside him, Su Xiao pulled out the black and white double guns.

Tu-tu-tu-tu-tu-tu-tu-tu-tu.

The violent shooting began, and Leng Yue immediately returned fire, waving her sword to cut out a wind blade.

Su Xiao dodged the wind blade sideways and aimed the gun at Leng Yue at the same time.

The bullets tilted out, Leng Yue blocked the sword in front of her, and a wind barrier unfolded, blocking all the bullets.

After resisting more than ten bullets, cracks appeared on the wind barrier formed by Leng Yue.

"How long will it take?"

Leng Yue shouted.

"Three seconds."

Lona pressed one hand on her knee. Her severed leg had already connected, and with Tang Guo's skill, her injuries quickly recovered.

"I can't take it anymore."

The wind barrier formed by Leng Yue shattered, and the bullet came head-on. Leng Yue's pupils contracted, and she began to capture the bullet's trajectory.

Ding, ding, ding, ding...

Leng Yue cut off many bullets, but Leng Yue would occasionally burst into a ball of blood.

Su Xiao, who was shooting, suddenly stopped.

"A good sword skill."

Putting the black and white guns back into the gun holster, Su Xiao pulled out the dragon flash next to his feet.

As soon as he stepped on the ground, grass chips splashed, and Su Xiao rushed out to Leng Yue and others from a high position.

"Almost ready. Help me buy time."

Lona shouted, and Leng Yue nodded. Xue Meigui did not rush forward with Leng Yue but blocked the path of Su Xiao rushing to Tang Guo.

It could be seen that,

The Red Lily Spider adventurous group had grown a lot, whether in terms of tactics or strength.

Su Xiao was like a hunting falcon, rushing to Leng Yue.

Leng Yue stretched her arms straight to the ground, and the two swords emitted silver light.

When Su Xiao was three meters away from Leng Yue, his diving body began to fall.

The corner of Leng Yue's mouth was raised, and the moment he landed was an opportunity.

Su Xiao was about to land and Leng Yue's double-edged sword formed a cut. If it were cut, Su Xiao would be cut into two pieces.

Su Xiao's falling figure stopped. He inserted the dragon flash into the soil, one hand against the end of the dragon flash. The body was at least one meter high from the ground.

In this way, Leng Yue's slash was very embarrassing, it could not hit Su Xiao, but the dragon flash would block it.

Ding.

The two swords hit the sword of dragon flash, and sparks flew.

Su Xiao, who was in the air, did not idle and kicked Leng Yue in the throat.

Bang.

Leng Yue flew down the hillside and spat out blood, but this was not the end. Su Xiao instantly pulled out the dragon flash in the soil when he landed.

The muscles of his arm bulged, and he threw out the dragon flash with all his strength.

The dragon flash rotated at high speed in the air as if it turned into a knife wheel, shining with cold light.

Leng Yue, who was flying in the air, suddenly felt a numbness in her shoulder, and then she fell to the ground and spun.

A slender arm fell to the ground, and there was a sword in the broken arm.

The dragon flash was inserted near the broken arm. In the distance, Su Xiao made a dragging action, and the dragon flash suddenly flew up.

Retracting the boundary line just now, he tied the boundary line to the hilt of the dragon flash. Otherwise, he would not use such a move as throwing a knife.

Leng Yue stood up with blood on the corner of her mouth. She subconsciously raised her left arm, and the familiar feeling of lifting the arm did not appear.

Leng Yue looked sideways, stunned. Her arm was gone.

The second after a sharp weapon cut the arm off was not painful. This was related to the adrenaline secreted during battle.

Moreover, when the nerves were cut off, the first feeling was numbness, not pain.

The pain eroded Leng Yue. Before the pain of the arm appeared, the pain of the green steel shadow energy appeared first.

Fine blood vessels burst on the forehead of Leng Yue. Her body began to tremble slightly.

Lona recovered from her injury. She quickly rushed forward and blocked in front of Leng Yue. She said softly, "Leng Yue."

Leng Yue tilted her head, confusion in her eyes.

"Let's split up and escape."

Lona's words made Leng Yue somewhat unwilling. The other party meant that they would lose.

It was no wonder that Lona would say this. Although she had only fought with Su Xiao for a short time, she felt a huge gap. The other party seemed to have no apparent weaknesses.

"No need, this guy is a thin blood high attack close combat, very fragile."

When the Red Spider Lily group fought with Su Xiao before, the sniper rifle could easily penetrate Su Xiao's body, and after they lost, Su Xiao was seriously injured.

"Is it very fragile?"

"Probably..."

Leng Yue was not very sure. After all, she had already passed several derivative worlds.

For Su Xiao to be very crisp, Lona had a skeptical attitude. The other party did not give her the feeling of having a thin body.

Although she could not see the apparent muscles on the other party, Lona had a feeling that the other party was not fragile at all.

Lona's guess was correct. With 44 points of physical attributes, the vitality of the spirit shadow physique, and the Mist trench coat defense, Su Xiao had no relationship with Cui Pi.

However, Lona's physical attributes were 47 points, three points higher than Su Xiao's.

Lona's survival ability was different from Su Xiao's. She held the shield and mastered several defensive skills.

Su Xiao slowly walked down from the hillside, and Leng Yue and the other four gradually gathered together. The driver seemed to be Su Xiao, who surrounded them.

"You were the ones who showed killing intent on the plane before. If my intuition is right, six people showed killing intent. Where is your other companion?"

Leaving the blood on the dragon flash, Su Xiao did not directly face the opponent. He was looking for a contractor who knew his identity, but he met Leng Yue and others along the way. This was too much of a coincidence.

It should be known that no contractor would approach the center of the Red Earth Region. Everyone could feel the ominous feeling emitted by the center area.

If not necessary, Su Xiao did not want to approach her.

"It seems that you have many enemies."

Leng Yue implied that there were only five of them.

"Then forget it."

Su Xiao stopped talking and stared at them. Once they started fighting again, he would not say a word.

"Get ready to fight. Lona is in the middle. Meigui is on the left, and I am on the right. Tang Guo is hidden. If there is a chance to control this guy, immediately focus the fire."

As soon as Leng Yue finished speaking, she was stunned to find that Xue Meigui had retreated.

"Meigui?"

Xue Meigui lowered her head and did not say a word.

The sound of an explosion came from the front. Leng Yue did not have time to care about Xue Meigui. She and Lona stepped forward.

Lona rushed ahead, and Leng Yue followed closely behind.

Su Xiao rushed to the front of the two people and did not choose to slash at Lona's shield. This purple quality shield was powerful at first glance, and there were traces of strengthening.

"Ha!"

Lona let out a furious roar, and a golden ripple spread out.

[You have been ridiculed by the Battle Roar, Physical Attribute determined.]

[Authentication passed. You are immune to the control this time.]

After using the roar skill, Lona subconsciously took two steps back. This was her usual action. Generally, the enemy would attack her without thinking when mocking the enemy.

At this time, retreating could make the enemy run two more steps, which gave her teammates more time to prepare.

Lona retreated, and Su Xiao slashed at Leng Yue.

Ding.

The long sword and the thin sword cut together, Lona on the side was stunned.

Chapter 454: Weeping Xue Meigui

Being close to Su Xiao was a horrible experience. At least Leng Yue felt this way.

The whistling blade passed by her ear, Leng Yue's black hair was cut off, and a trace of blood was on her cheek.

Leng Yue, who was good at using two swords, only had one arm left, and it was harder to block Su Xiao's attack.

"Shield Charge."

Lona rushed to the side, and Su Xiao did not look at Lona.

The long knife in her hand exerted force, Leng Yue's face was red, and she almost could not hold the sword in her hand.

The green light floated on Leng Yue, which was the healing skill of Tang Guo.

In front of Su Xiao, Leng Yue did not care, and Lona, who rushed to the side, did not care much. As for Tang Guo, he directly ignored it.

There was only one person present who gave him a sense of danger, and that was Xue Meigui, who had been standing not far away.

The deputy leader of the Red Lily Spider adventurous group, Xue Meigui, could be said to have not contributed at all in the battle just now but was suspected of selling her teammates.

Even so, Xue Meigui still gave Su Xiao a vague sense of danger. That guy was not selling his teammates but was brewing some moves.

First, deal with the two close to him, then deal with Xue Meigui.

After making up his mind, the red light on the arm guard on Su Xiao's left hand flashed, and he activated the [Bull-head Lord Gauntlets] skill.

[Equipment Effect: Wrath of Bull-head Lord (active). After activating this skill, Strength +15 for 10 seconds.]

[Hint: Wrath of Bull-head Lord (active) cool-down time is 10 natural days.]

[Hint: Activate Wrath of Bull-head Lord (active). Requires 30 HP.]

Su Xiao did not use this skill often. He planned to use it as a trump card before, but later, he found that this skill was not as good as he had imagined.

If suddenly deducting 30 of his HP in a relatively bitter battle was very dangerous, it might cause Su Xiao to fall into a state of death.

Su Xiao wanted to activate it when he fought the president before and finally gave up. The risk was too high.

The blood in his body was lost.

A red light appeared in Su Xiao's pupils.

His current strength attribute was 45. After +15, it was 60 points. Unfortunately, because he had not passed the first level trial, Su Xiao's attributes could only reach 50 points.

The surging power surged out from his body. Although it could only last for 10 seconds, it was enough.

The long sword in Su Xiao's hand pressed down, and with a puff, the dragon flash sank deep into Leng Yue's shoulder.

The bones near the arm were cut off, Leng Yue's right hand was weak, and the sword in her hand fell to the ground.

At this time, Lona rushed from the side with the shield.

Su Xiao grabbed Leng Yue's throat and blocked Leng Yue by his side. Lona, who was charging, was shocked.

Bang.

Su Xiao and Leng Yue flew up together. Leng Yue vomited blood in the air, and Su Xiao looked calm.

"Bastard."

Lona roared and rushed to Su Xiao again.

After landing steadily, Su Xiao grabbed the back of Leng Yue's neck and cut open Leng Yue's artery with Dragon Flash.

Leng Yue's blade swept past, and she knew that it was over in her heart. It was not that she would die but that Lona would lose.

Throwing Leng Yue to Lona, who was running, Lona's expression twisted. She was hesitating whether to catch Leng Yue.

The explosion just now was still vivid in her mind. She still had the body tissues of Feng.

Leng Yue, in the air, could not speak because her throat was cut, so she could only shake her head desperately, indicating that Luo Na should not pick her up.

There was no bomb on Leng Yue, and Su Xiao would not use the same move twice in a row.

The duration of the anger of the bull-head lord (active) was six seconds, and Su Xiao had to hurry up.

Leng Yue landed. Lona turned to look at Su Xiao and found that Su Xiao had disappeared.

Puchi.

The cold touch came from the back of the heart. Lona clenched her teeth and leaned to the side. The tip of the knife pierced from the position of Lona's collarbone. The knife did not pierce the heart.

Just now, Lona stared at Leng Yue in the air. Su Xiao had rushed to the back of Lona at full speed. Su Xiao's speed was not slow. The 45 points of agility attribute were not something that Lona, the main tank, could capture.

A large amount of green steel shadow energy poured into Lona's body, and Lona spat out a large mouthful of blood.

Leng Yue had lost her combat power. If she did not treat it in time, she would die from excessive blood loss.

Lona was not easy now. She was pierced through the trunk by Su Xiao with a sword, and Su Xiao was behind Lona. Lona couldn't turn around.

After completely piercing the dragon flash into Lona's body, Su Xiao loosened the blade's handle, his left hand grabbed Lona's neck, and his right hand grabbed the left fist, forming a guillotine.

The red metal arm clung to Lona's skin. Lona loosened the shield in her hand, pulled out a dagger, and stabbed Su Xiao.

Before the dagger was stabbed, Su Xiao raised his knee and smashed it on the spine of Lona's back.

Bang.

The spine was severely injured, and the dagger that Lona stabbed back was weak. The feeling of suffocation appeared simultaneously, and she began to feel dizzy.

Crack, the guillotine formed by Su Xiao became tighter and tighter.

A few seconds later, Lona's body was weak, and the dagger in her hand fell to the ground.

Leng Yue, who was not far away, saw this scene, but her arms were broken, her throat was cut, and the tendons of one leg were also cut off.

After trying to stand up several times, she failed. Leng Yue fell to the ground. She could not figure out why the enemy had become so much stronger.

Moreover, what was going on with Xue Meigui? She did not believe that Xue Meigui would betray her.

Su Xiao defeated Leng Yue and Lona, and he was not injured. This was not the crushing of strength and the gap between skill and combat experience.

Leng Yue's agility attribute was higher than Su Xiao's in terms of attributes.

His strength was more muscular than Leng Yue, and his speed was faster than Lona. This was the benefit of the development of the four attributes.

The attributes were like a car. This car could run a lot. It depended on how the driver-controlled it. The speed of 'hit the wall all the way' and 'drift past the bend' could not be compared.

Su Xiao continued to strangle Lona. Lona was about to enter the brain without oxygen, and the other party would be dead by then.

At this time, Su Xiao did not know why he suddenly let go and leaned his body to the side.

Woo ---.

A terrible sound came, and a blood-colored spear stabbed. If Su Xiao did not dodge, the spear would pierce his head.

Lona knelt on the ground and smashed her head to the ground.

One hand grabbed Lona's body. It was Xue Meigui.

"Sorry to keep you waiting."

Xue Meigui gently placed Lona on the ground. Leng Yue, who was at the side, stared at Xue Meigui in a daze.

"What... what happened to you?"

Hearing Leng Yue's question, Xue Meigui chuckled.

"It's just a small skill."

Xue Meigui got up, looked at Su Xiao, and turned to look at Tang Guo.

"Don't just stand there. Quickly take the two of them away."

Tang Guo quickly ran forward and helped Leng Yue and the half-unconscious Lona up.

"Sister Meigui, your eyes..."

"I already said it was just a little skill. You guys should leave quickly."

In the current situation, as long as one's IQ is higher than 50, they would not believe Xue Meigui's words.

At this time, Xue Meigui's face was pale, and her pupils were dim. More importantly, a red mist floated out of her body and gradually evaporated into the air.

This was the ultimate skill that Xue Meigui mastered, called Weeping Xue Meigui.

[Weeping Xue Meigui Lv.3 (Ultimate Skill)]

[Usage requirements: Soul Crystal (Small) × 2, consume 90 mana.]

[Skill effect: After activating Weeping Xue Meigui, Strength +13, Agility +12, Stamina +10, Charm +10.]

[Hint: This skill can not be stopped after being used until the enemy is killed or their blood is exhausted.]

...

The concept of this skill was to either die or die. Except for Xue Meigui herself, no one knew that she had this skill.

"Good friend, goodbye."

Xue Meigui whispered to Leng Yue. Leng Yue did not hear what she said, and a lot of blood made her dizzy.

Xue Meigui turned to Su Xiao, with her back to Leng Yue.

There were not many emotions in those dull pupils. Since Xue Meigui dared to open the Weeping Xue Meigui, she dared to die.

Su Xiao noticed that the other party was in a powerful state. The other party's expression should be the same as the 'dragon power' potion.

But was the seed explosion helpful when there was a significant gap between the enemy's strength? The answer was that it was useless.

If the seed explosion were so helpful, then they would go to learn the seed explosion skill, which would still bitterly increase their strength.

Chapter 455: Glasses, Lipstick

Xue Meigui stood in front of Su Xiao, and Tang Guo helped Lona and Leng Yue to retreat.

Leng Yue would not say stupid things like life and death. Her teammates were fighting for time with their lives. If someone shouted to stay and fight together at this time, it should be to cut that guy.

Who was willing to die if they were not in a desperate situation?

Leng Yue knew this. Even if her heart was heavy, she still strolled to the distance. As long as she was alive, there was hope.

However, Leng Yue and the others did not go far. A creature like a wolf and a dog stood in front of them. It was Bobowang, who was yawning.

Bobowang followed Su Xiao. He had seen too many powerful enemies. These long-legged magnetic creatures were just a drizzle.

Now, Leng Yue and the other two only had Tang Guo strength, but with the combat power of Tang Guo, it was unknown if she could beat Bobowang.

"I can only fight."

Tang Guo released Leng Yue and Lona. If they didn't get rid of the cloth, they wouldn't be able to escape even if this dog was super likable.

"Ah!"

Tang Guo grabbed a wand in her hand, shouted bravely, and was about to rush forward.

A hand suddenly grabbed Tang Guo's leg, and she exclaimed in shock.

"Add yourself."

Lona lay on the ground, gasping for breath. She had almost died of brain death just now, and her spine had been damaged. She could not even think of her body now.

"Oh, oh, right."

Tang Guo quickly added a few states to herself, took a deep breath, and rushed to Bobowang.

Leng Yue looked at Tang Guo apologetically. This weak girl had paid too much for the team. All the other party's resources were used to enhance the healing ability.

Bobowang looked at Tang Guo, rushing over, and raised her hand with contempt.

Sharp claws stretched out. Every day, the snow was white, and the white teeth were bare.

Bobowang was lazy and did not usually fight, but didn't think that he had any combat ability.

The initial Bobowang was made from the 'elite creature fenrir' + 'combat type creature emperor weapon' and countless emperor weapons.

After that, Bobowang became a living creature through the dark purple scroll.

His combat strength increased once again.

Tang Guo's charging pace slowed down. It seemed that she could not beat this 'husky.'

Ignoring the battle between Bobowang and Tang Guo, it was apparent that the battle over there was not intense.

On the other hand, on Su Xiao's side.

The wind was raging, the soil was flying, and the ground was full of potholes.

Xue Meigui, who was covered with blood-red fog, held a long spear, and the long spear was a spiral shape, which was more conducive to penetration.

The strength and agility of Xue Meigui had reached 50 points, and the other attributes were not low.

The attributes were not just a string of numbers. The current Xue Meigui was more robust and faster, and her resistance to attacks was not weak.

The spear stabbed forward, and the sound came to Su Xiao's ears. Several of his black hair was broken.

Although this spear was very dangerous, it was still very far from hitting Su Xiao.

Holding the sword with both hands, Su Xiao slashed forward with all his strength.

Ding.

Xue Meigui used her long spear to block the dragon flash. It was very effortless.

"It seems that you are not as terrible as you think."

Xue Meigui laughed. She might be able to win today.

Su Xiao did not speak. He was waiting. It was meaningless to fight against her now.

From the smell of blood emitted from the other party, Su Xiao guessed that the other party's move was similar to 'Wrath of Bull-head Lord.'

The explosive power of this type of move was extreme, but most of them did not last for long.

Xue Meigui could only hold on for a few minutes. Even if she said more, half an hour was enough because half an hour was not worth fighting with the other party.

More importantly, Bobowang had already delayed Leng Yue and the others.

The long spear danced with blood, the spear light flashed, and Su Xiao among them dodged one after another, only when there was no escape.

A minute later, Xue Meigui's breathing became heavy, and her mouth spits out blood mist.

"Why can't I stab it?"

Her face was not very good, and her confidence had dissipated.

Su Xiao's sword technique master was at Lv.21. If someone at Lv.9 stabbed him, Su Xiao might as well find a piece of tofu and kill himself.

Xue Meigui's heart gradually cooled down. She vaguely felt that today, Red Spider Lily might be wiped out here.

No one would send them away again. The previous incident was a minor rule.

"It seems that I lost."

Xue Meigui stood straight and stopped attacking as if she was brewing something.

Su Xiao narrowed his eyes and thought in his heart: is finally coming.

This was Xue Meigui's last attack. Previously, the other party had wanted to use it several times, but they had all given up.

It should be because they were worried about something. Perhaps the price of using the ultimate move was too heavy.

Xue Meigui's legs were slightly broken. Her left hand was like a claw, and her fingertips were shrouded in blood mist. She made a move that stunned everyone.

Puchi.

Xue Meigui stabbed her left hand into her chest and accurately pulled out her heart.

Although it was so painful that she almost fainted, she did not fall.

"Hu ---, hu ---, it is also good to drag someone down before death."

Xue Meigui clenched hard. The beating heart was broken. She smeared the blood in the heart on the spiral-shaped spear.

The spear emitted a bloody light. The bloody light was threatening, and even Su Xiao felt the vibration.

She stepped on the ground.

Bang!

The earth burst, and after a big pit appeared on the ground, Xue Meigui disappeared in place.

The red spear tip appeared in front of Su Xiao's eyebrows instantly, but he did not dodge.

A golden shield appeared around Su Xiao's body. This was the ability of [Ray of Divine Spirit] scabbard.

Special effect: Holy Blessing (Active). After opening, it creates a layer of Secondary Invincible Shield. The shield lasts for one second, and the cooldown time is 72 hours.

Boom!

A layer of airwaves spread around, large cracks appeared on the ground, and smoke and dust rose.

A giant bloody rose formed by blood energy appeared in the air and did not disperse for a long time.

Although Su Xiao blocked the stab, the 'Secondary Invincible Shield' could not ease the impact. He flew backward.

Xue Meigui stood in the same place, holding a long gun and pointing to the ground.

Crack.

Cracks appeared on the long spear, and it cracked inch by inch instantly.

Not only did the long spear crack, but the arms and body of Xue Meigui also began to crack, like a broken porcelain doll.

"The strong will only get stronger and stronger. This is what I expected before. Forget it, and I am just one person. No worries, die."

Xue Meigui smiled at Su Xiao. Although her face was full of cracks, it was beautiful.

"Byakuya, I don't hate you at all. The reincarnation paradise is just like this. For us, this is hell. Maybe for you, this is paradise."

Su Xiao stood up in the distance and patted the dust on his body.

"Is it? Unfortunately, you are not strong enough."

Crack, crack.

One of Xue Meigui's arms was broken, and her whole body began to break.

Bang, her body was broken.

A smile appeared on Su Xiao's face, not because he killed Xue Meigui. He was laughing because he could meet all kinds of opponents in the reincarnation paradise.

Xue Meigui died, and Leng Yue and others had no hope of survival.

Tang Guo was very afraid, but she did not escape, although she had a chance to escape now.

When Su Xiao passed by Leng Yue, he stabbed through Leng Yue's heart without a word of nonsense.

"You will die a horrible death."

Lona roared, and what greeted her was a knife.

Puff, blood splashed, and Luo Na fell to the ground with her bloody throat. The sound in her eyes quickly dissipated.

Although Su Xiao was not a villain in name, he had the consciousness of a villain. He never spoke nonsense and did it.

He did not need to explain or hide it from anyone. He did not need others to understand.

Bang.

A figure fell to the ground, rolled a few times on the ground, and rolled to Su Xiao's feet. It was Tang Guo.

Because of a moment of distraction, Tang Guo was bitten in the throat by Bobowang.

"You... villain."

Tang Guo lost her breath.

On the hillside not far away, a figure struggled to stand up. She was wearing black-rimmed glasses.

It was a black-bellied woman. The black-bellied woman was not far away before, and she did not dare to go too deep into the central area.

Hearing the sounds of fighting nearby, the black-bellied woman quietly approached here because she heard familiar shouts.

The black-bellied woman witnessed Su Xiao and Xue Meigui's battle. Even when Su Xiao killed Leng Yue and others, she did not appear.

She wanted her companions to be free first because the subsequent death was too ugly.

"Byakuya."

The black-bellied woman stood on the hillside and shouted and waved at Su Xiao.

Su Xiao looked sideways, and he immediately felt that the other person was the person he was looking for.

After seeing the face of the other person, Su Xiao remembered that the other person was also a member of the Red Spider Lily.

The most important thing for a family was to die neatly; now, it just so happened that everyone was here.

"Mr. Byakuya, let's go to the underworld together. You are so strong, and you will be unwilling to die here."

The cynical woman was laughing. She held an empty glass bottle in her hand, and the object inside had already been poured out.

Boom, boom...

The roar came around. Su Xiao looked around, and this valley was surrounded.

"Don't think about escaping. You can't escape."

The cynical woman took out lipstick and a small mirror with her remaining arm and began to paint herself with lipstick.

The IQ of the cynical woman 156 was not for decoration.

Chapter 456: The Seed

The cynical woman squatted on the ground and put the small mirror on her knees.

The wind pressure came, and a figure appeared beside her. The cynical woman with lipstick licked her lips and nodded with satisfaction.

"Are you going to kill me? If that is the case, I will be grateful to you."

The cynical woman looked at Su Xiao with a smile on her face. She no longer cared about the roar and the slightly shaking ground around her.

"How did you do it?"

Su Xiao looked around. It was early in the morning, and the sky was just bright.

Around the valley, the overwhelming beasts rushed the valley like black waves coming from all directions. There were tens of thousands of beasts, and they were not the same species.

It was not normal for so many beasts to gather and not kill each other.

Could it be that the black-bellied woman controlled these beasts?

Su Xiao rejected this idea. That was impossible. If he could control such a scale of beasts, other than not being able to go deep into the black forest, most of the other positions could be crossed.

Hearing Su Xiao's question, the black-bellied woman smiled more brightly.

"I found a secret when I went deep into the Red Earth Region. As for what secret..."

The black-bellied woman looked at Su Xiao with a faint smile. The secret black-bellied woman would not say it.

The beasts around rushed closer and closer as if the target was the black-bellied woman.

"Roar!"

There was an angry roar in the distance. Under this roar, some of the beasts rushing forward had their legs soft.

Su Xiao had seen the giant centipede in the beast army when he first arrived on the island, which showed how bad the situation was at this time.

There was no way to escape from the surroundings unless Su Xiao could fly.

Unfortunately, the ability to fly was extremely rare. In addition to some bloodlines, the reincarnation paradise would not provide flying vehicles.

It was almost invincible to fly in some derivative worlds, so there were very few flying vehicles passing through the park's official license.

"Bobo."

Su Xiao called Bobowang to the vicinity.

"Is it possible to break into the enemy?"

Hearing Su Xiao's question, Bobowang raised his head, and the expression was no problem.

"Find a way to escape by yourself and meet up near the Assenman tribe."

Bobowang stood still in the same place.

"..."

Su Xiao stared at Bobowang. A few seconds later, Bobowang turned and rushed down the hillside. No matter the situation, it would not disobey Su Xiao's order.

"You let your dog die first, heartless guy."

The black-bellied woman sneered.

Su Xiao suddenly turned around and raised his hand to slash.

Puff, the head of the black-bellied woman, flew up, and blood spurted out from the broken neck.

The head of the black-bellied woman flying in mid-air was a little surprised because, in her opinion, those beasts still needed some time to rush up the hillside.

Su Xiao would talk nonsense with her for a while. At least, he would ask her about her precise plan, and she could despise Su Xiao with the advantage of IQ.

Unfortunately, Su Xiao did not have the habit of talking nonsense with the enemy. He asked once before, but the black-bellied woman spoke roundabout, and he chose to cut directly.

The headless body fell to the ground. Su Xiao quickly stepped forward and began to search for the black-bellied woman.

The sound of tearing clothes came. Su Xiao was not going to take advantage of the heat, and he was looking for why those beasts rushed madly.

After searching for a while, Su Xiao found several black seeds in the underwear of the black-bellied woman.

There were three black seeds in total, about the size of longan, and the surface was uneven.

With three black seeds in his hand, Su Xiao suddenly had a throbbing in his body. Looking at the information on the black seeds, there were not many clues.

[Seed of Origin]

[Rarity: Purple]

[Type: Unknown]

[Rating 1 to 150]

[Description: Faith of the Sun. Please grant us glory. Please burn all evil with flames.]

Su Xiao frowned. What kind of ghost introduction was this? It was the sun, burning all evil.

What was even more strange was the score. What did 1 to 150 mean?

Although he was confused, Su Xiao found that the eyes of the beasts rushing up the hillside began to be wrong. They were all staring at the [Seed of Origin] in his hand.

"Roar!"

A three-meter-long cheetah rushed up the hill first and rushed to Su Xiao regardless of safety.

This cheetah was not a powerful unit among the beasts, but it was not easy to provoke.

Su Xiao put away the black seed. It was useless to throw away these seeds now. A large group of beasts had surrounded him.

Su Xiao held the knife with his right hand and stared at the cheetah without blinking.

The cheetah's claws pierced into the soil and jumped at Su Xiao.

Su Xiao leaned low, took a deep breath, and slashed at the cheetah.

The blade of the dragon flash first cut the skin of the cheetah, and the skin was instantly cut open, followed by the muscles and bones.

Puff, the knife, cut the cheetah into two pieces. Su Xiao grabbed the upper body of the cheetah and threw it down the hillside.

Before being surrounded by the beasts, Su Xiao had found high ground, and the surrounding beasts had to rush to the hillside to attack him.

If there were no such favorable terrain, he would be dead.

But from the current situation, Su Xiao was also dead. Even if he could kill thousands of beasts, at least tens of thousands of beasts were surrounded.

The beasts in front of them were some beasts that ran faster. These beasts were not big and were easy to deal with.

Su Xiao kicked away a furry rabbit, and even a little rabbit came to join in the fun. It could be seen that this black seed had a fatal attraction to the beast.

A small animal like an antelope rushed to Su Xiao, and the sharp horns stabbed.

He slashed out a sword, and the horns that collided were cut off.

There were beasts everywhere, and Su Xiao was a little overwhelmed for a while.

Blood splashed, the limbs of the beasts were scattered everywhere, and Su Xiao killed all the beasts who dared to rush to the hillside.

A few drops of beast blood splashed on Su Xiao's face. Although he was in a desperate situation, he did not give up.

Su Xiao was waiting for a suitable beast to appear, and he had chosen the goal.

The sound of running, the scream of the beast, the sound of the sharp blade cutting flesh, the sound of blood gushing out.

After these sounds were mixed, Su Xiao's perception was affected. There were too many beasts around.

"Roar ---"

A low roar came, and a hot feeling and heavy pressure came from Su Xiao's back. A lion rushed to his back and stabbed his claws into his back. The lion's mouth bit his throat.

The dragon flash turned in his hand, and before the lion's mouth was bitten, the dragon flash had already pierced into the lion's mouth.

Puchi.

The sword directly penetrated the brain of the lion, and a green treasure chest fell.

Su Xiao did not look at the green treasure chest. The dragon flash had just been pulled out of the lion's mouth, and it was sent into the heart of another beast.

If this continued, Su Xiao would not be able to hold on sooner or later.

Throwing away the blood on the dragon flash, Su Xiao put the dragon flashback into the sheath.

The slash suddenly stopped, the surrounding beasts roared and rushed forward, more than a dozen beasts rushed to Su Xiao, and they bit him with their bloody mouths.

Su Xiao held the hilt with his right hand, and his breathing gradually calmed down.

The beasts surrounded Su Xiao. At this moment of crisis, a blue light flashed in the center of the beasts.

Clang.

A circular sword light expanded around, and those beasts were neatly cut off.

This was a move that Su Xiao came up with a flash of inspiration. Although it was not too strong, it was very useful in being besieged.

Chapter 457: From a War to a Horror Movie

He threw a few alchemy bombs on the ground, and the alchemy bombs split into many little white frogs on the ground.

Not long after, the little white frog was scattered all over the hillside. Su Xiao did not detonate the alchemy bombs immediately. He was waiting for an opportunity.

Kicking away a turtle that stretched out its head and bit his calf, Su Xiao, who was fighting in blood, was speechless. What exactly were these three seeds?

He could still understand if he absorbed some beasts, but rabbits and turtles, these gentle creatures, could be attracted, which confused him.

It should be known that these herbivores were very rare in the Red Earth Region. These were precious foods.

However, at this time, Su Xiao looked at this food, and it was more important to save his life.

The hippopotamus rushed forward. This behemoth was about four meters tall and seven meters long.

Seeing the hippopotamus rushing forward, Su Xiao was relieved.

At that moment, he was surrounded by the corpses of all kinds of beasts. Although the battle was not long, there were already hundreds of beasts that died under his sword.

There were also bite and claw marks on his body. Under the siege of a large number of beasts, it was a dream not to get injured.

These were not ordinary beasts, and the beasts were in the center of the Red Earth area. If any meat-eating beast here was placed on Earth, it was a creature on the top of the pyramid.

A mechanical eye floated near Su Xiao. This was [Eye of Havana]

Through the detection of [Eye of Havana], Su Xiao learned information about the 'Giant Hippo.'

It wasn't a hippopotamus but a carnivore called a Man-Horned Beast. It had a strength of 42 and a physical strength of 45.

This kind of horrible beast, if met before two derivative worlds, Su Xiao would turn and run.

However, it was different now. His attributes were close to 50 points, and he was not afraid of this beast.

The beast rushed to Su Xiao, and its eyes were full of blood.

Su Xiao took out a [Seed of Origin] from his arms, and he threw the [Seed of Origin] to the bottom of the hill.

At this moment, all the beasts stopped roaring. They were like little dogs that saw meat bones, and their heads moved with the [Seed of Origin].

With a click,

The Seed of Origin bounced up high after hitting a rock and rolled for a few meters before stopping in front of a crocodile.

This Brother Crocodile was stunned. Happiness came too suddenly.

Brother Crocodile swallowed the Seed of Origin in one gulp and turned to run down the hill. However, there were too many beasts around it.

In addition, its territory was too low, and its legs were too short...

Five seconds later, Brother Crocodile was dismembered, and finally, there was only one tail left.

Just as a large group of beasts fought for the seeds of origin, Su Xiao detonated the alchemy bombs nearby.

Boom!

The fire wrapped Su Xiao, and the beast also screamed in the fire.

Su Xiao pulled up the collar of the Mist trench coat, covered his face, and rushed to the beast.

The fire retreated after more than ten seconds, but the savage beast let out a short scream before the fire retreated.

The fire retreated, leaving only the blood-covered savage beast and many beast corpses on the hillside.

The beasts could smell the seed of origin, so the seed of origin that Su Xiao threw out caused a series of bloody cases.

The dead brother Crocodile was only the first victim, and there were thousands of victims later.

Other wild beasts would surround all the wild beasts that had obtained the Origin Seed. In less than an hour, the hillside was already covered in blood.

Previously, the savage horned beast had fallen on the hillside, its body occasionally twitching. It looked like it wouldn't live long, but it wouldn't die in a short period.

The roars continued, and the corpses of the wild beasts on the hillside grew more and more.

A two-headed dog stood on the corpses of the wild beasts. Even in the central area, this two-headed dog was also an expert.

It looked at the barbarian horned beast not far away. This was its old rival, and today, the other party had fallen on this hillside and was on the verge of death.

The two-headed dog moved closer to the barbarian horned beast, its nose twitching as if it had smelled something special.

Suddenly, the hair on the back of the two-headed dog stood up. It smelled a special smell. Although it was very faint, that smell had a fatal attraction.

The two-headed dog bit through the abdomen of the barbarian horned beast, ready to stick its head in.

Puchi.

A long sharp knife pierced through the beast's abdomen, and the double-headed dog was caught off guard and pierced through the throat.

The double-headed dog was, after all, an expert in the central area. Although its throat was pierced, it still struggled back.

"Zi ---."

The metal wire wrapped around the two-headed dog and slowly dragged it into the belly of the beast.

"Woo, woo ---"

The two-headed dog let out a fearful sound, but it could not stop it from being dragged into the beast.

Pu, pu, pu, pu.

Blood spurted out from the abdomen of the savage beast. A few seconds later, a broken dog corpse was thrown out.

If one looked carefully around the body of the savage beast, there were many beast corpses of this appearance.

Hiding in the body of the savage beast, Su Xiao was covered in blood, and the remaining two seeds were put into the sealed glass test tube by him, emitting no smell.

Even so, the residual smell in his hand would occasionally attract beasts, which showed how great the attraction of the native seed was to beasts.

Although he was not clear about the function of the Seed of Origin, Su Xiao could be sure that it was a good thing. Something in his body was eager for the Seed of Origin.

This made Su Xiao have an impulse to swallow the Seed of Origin directly.

Reason told him that this was impossible. There was absolutely no good end if he swallowed this seed.

Su Xiao had already discovered that the woman with lipstick on the hillside before had a high IQ, and the other party's subordinates were at a dead end.

There were not only four seeds. If Su Xiao was not wrong, the woman might have obtained more than ten seeds of origin and scattered these seeds of origin nearby.

The area near Su Xiao was the Shura Field, and all kinds of beasts fought with each other. If not for being hidden in the beast's body, he would have died in battle.

The black-bellied woman never thought that Su Xiao could resist the first wave of the beast and quickly disabled the giant beast and hid in the belly of the giant beast.

At this time, the surroundings were full of beast corpses, so no beasts would come to eat the body of the savage beast.

Su Xiao exposed his head to check the situation around him. After observing for a long time, he sighed.

At least for a short time, he could not leave here, and the wild beasts around him were getting crazier.

The intelligence of the black belly woman was indeed not low. She had considered what Su Xiao would do if he did not die for the first time.

So she arranged a few seeds of origin in places where the beasts could not get so that they could smell the temperature of the seeds. In this way, the beasts would only fight fixedly and thus trapped Su Xiao.

Su Xiao withdrew back into the beast's body. Although there was no water, there was a lot of meat around. Although it was raw meat, it was no problem to maintain it for a few days.

Just when Su Xiao was ready to rest for a moment, the beast's body suddenly shook, and it seemed that there was a giant monster coming nearby.

The beast let out a cry and a roar. After that, Su Xiao, inside the beast, noticed the spinning feeling. He was almost thrown out of the beast's body.

After more than ten seconds, the spinning feeling disappeared. After a slight jolt, the surroundings calmed down.

Su Xiao looked out through the wound on the beast's abdomen, and the whistling wind came. At this time, the beast was in mid-air, at least a thousand meters above the ground.

Su Xiao was stunned, and a very bad feeling appeared.

Looking up, a pair of sharp claws appeared in his sight. The one holding the beast was a huge flying creature.

This was a completely orange-winged dragon. It could easily carry the beast and fly. One could imagine its size and strength.

Yes, it was a winged dragon. Su Xiao was not clear about the specific name of this monster, but the appearance of this monster was similar to a large winged dragon.

He took out the [Eye of Havana], and the results were mind-blowing!

Chapter 458: Su Xiao's Adventures

[Currently comparing the intelligence attribute of both parties... Compared to completion, my intelligence is the enemy?? Double, obtain 11 percent of the enemy's information.]

The information was as follows:

[Name: Baham (overlord rank creature!)]

[Type: Winged Dragon]

HP: 100 %

Mana Points: ???

Strength: ???

Agility: ???

Stamina: ???

Intelligence: ???

Charm: 51

Skill 1: Red Earth Overlord (Passive) : HP increases by 10,000, Strength +25, Agility +25, Stamina +30.

Skill 2: ???

Skill 3: ???

Skill 4: ???

Skill 5: ???

Skill 6: ???

Skill 7: ???

...

Su Xiao looked at [Skill 9: ???]. When he saw it, his eyes began to turn black.

He thought it was a lucky escape, but now it seemed that it was not the case.

Su Xiao did not know what the overlord creature was, but the effect of [Skill 1] was enough to make people scared.

When Su Xiao explored other creatures, the most scary situation was that there were a bunch of question marks. The more numbers asked, the greater the gap between his strength and that creature.

The sky overlord, Baham, began to lower its altitude after flying for a distance. Su Xiao breathed a sigh of relief.

If Baham took him to the black forest, then he might as well jump down from a thousand meters high to try his luck.

The place where Baham landed was a steep mountain.

This place was hundreds of meters high from the ground, and the peaks were almost straight on all sides. In addition to flying, it wasn't easy to climb the mountain in a climbing way.

At least most beasts could not do it.

There was an open space on the top of the mountain, and there was a huge cave beside the open space. There were claw marks around the cave entrance.

This cave was dug by the pterosaur, Baham.

Baham threw the corpse of the Man-Horned Beast on the empty ground in front of the cave and hummed a few times in front of the cave.

Two little guys about one meter long rushed out of the cave. They were two young Baham, so young that they could not fly.

Although they were terrifying existences when they grew up, they could not run steadily now, often falling.

It was worth mentioning that the vitality of the Man-Horned Beast was very tenacious. Even now, it still had breath. At least its heart was still beating slightly.

If not for still being alive, Baham would not have chosen to feed it to the cub.

This beast still had consciousness, and it shed tears.

The two Baham babies rushed to the front of the beast. In the face of this huge beast, the two babies Baham, did not care. They rushed forward and began to bite.

Their teeth were full of snow-white, and there were blood marks. They naturally showed the demeanor of an overlord creature.

The sound of gnawing came from the outside, and Su Xiao, inside the beast, had cold sweat on his cheeks.

He was sure that if he were exposed, he would die. In the face of the pterosaur Baham, he did not even have a one percent chance of winning.

The body of the savage horned beast was gradually gnawed through. Fortunately, the appetite of the two young Baham beasts was not large, and they only ate the essence of the savage horned beast.

Su Xiao, who was in the body of the savage horned beast, breathed a sigh of relief. The situation just now was very thrilling. He had already seen the teeth of the young Baham.

Fortunately, the other party did not find him.

The two young Baham began to play in the open space after eating. The adult Baham on the side looked at the corpse of the savage horned beast.

It had eaten a forest python along the way in the black forest, and now it had no appetite.

The adult Baham easily grabbed the beast's body and threw it gently with its claws. The beast weighed in and was thrown off the cliff.

After a while, there was a dull thud from the bottom of the cliff. It was the beast that fell into the meat paste.

The adult Baham was lying on the space on the top of the mountain and fell asleep after a while.

On the cliff on the mountainside, Su Xiao was hanging on a rock, his fingers like hooks.

He had long thought that the body of the savage horned beast was thrown off the cliff or eaten by adult Baham.

If it were the latter, it would be dead, and the former still had hope of survival.

After experiencing many misfortunes after the hunter's identity was almost exposed, encountering enemies, being besieged by wild beasts, being taken away by Baham, and so on, Su Xiao was finally lucky once that adult Baham did not eat the savage horned beast.

Although the current situation was still dangerous, he hung on the cliff hundreds of meters high, but Su Xiao had left the tiger's mouth and arrived at the position of the tiger's claw.

He could not relax now. Baham was above him. The perception of this kind of overlord creature must be very strong.

So from before to now, Su Xiao only moved when he jumped out of the beast and stayed still at other times. He even slowed down his breathing and slowed down his heartbeat.

It was not that Su Xiao was timid, but he would die in the current situation if he were not cautious.

Quietly poking out the boundary line, the hook lock hung on the mountain, and Su Xiao began to stay still.

There was a raised stone above him so that even after Baham flew, he could not see him. This was a good hiding place.

The long wait began. Six hours later, Su Xiao began to feel the hunger in his stomach.

Ten hours later, Su Xiao was hungry and doubted life. He used too much energy during the battle before and urgently needed to replenish it.

If he did not fight, it would be no problem for Su Xiao to be hungry for four or five days, but that would lead to his combat strength becoming weaker and weaker.

Although he was very hungry, Su Xiao could only continue to endure.

An hour later, Su Xiao's patience did not get any results. Another adult Baham, flew back. The top of the mountain was where the four families lived.

After that, Baham was bigger and more colorful. Its whole body was orange-yellow, its wings protruded, and there were black patterns naturally formed on its body.

He did not wait for the adult Baham to leave at the top of the mountain but came back for a while. Su Xiao was quite helpless.

How long would a creature like Baham find food once? If it were once every ten days or half a month, Su Xiao would be exhausted.

However, hanging here could also pass the survival trial. As long as he did not die of thirst or hunger, Su Xiao could ensure that no other creatures dared to approach here.

The scene of Baham not going out for ten days and half a month did not appear. Two hours later, two Baham adults hissed a few times and flew away from the top of the mountain.

Su Xiao breathed a sigh of relief. Just as he was about to climb down, an idea appeared.

Pterosaurs were also dragons. It was said that dragons had the habit of collecting treasures. Perhaps there was something good in the cave at the top of the mountain?

Su Xiao looked at the two adult Baham who had already flown far away. At least they could not come back in a short time.

Climbing to the top of the mountain, Su Xiao walked quickly to the cave.

Pachi, Pachi, Pachi...

The sound of fast running came from the cave, and two baby Baham ran out.

The two little guys looked at Su Xiao in confusion. They seemed to have never seen human beings, but they were the descendants of the overlord creatures. They dared to surpass ordinary creatures.

The two baby Baham rushed to Su Xiao. Su Xiao kicked them one by one and kicked them aside.

The two little guys turned into rolling gourds, and the slightly bigger one became a single eye.

The two little guys were stunned and did not dare to approach Su Xiao for a while. The four small black eyes seemed to say: You waited for my dad to come back.

Su Xiao chuckled. He was not a match for adult Baham, but he could easily deal with baby Baham.

Facts proved that even the most powerful creatures were fragile in their infancy.

Su Xiao could kill two Baham babies, but he did not intend to. It was courting death.

On an island, what was the concept of childish killing creatures with flying ability, which was the most stupid choice.

Su Xiao walked quickly into the cave, but he came out of the cave in less than 30 seconds.

The pterosaur and dragon may not be the same species, and there was nothing in the cave except a lot of hay.

As soon as Su Xiao walked out of the cave, he saw two baby Baham squeezing in a rock gap to grab something.

Chapter 459: Put Away Your Bold Ideas

The two baby Baham squeezed in a stone crack and squeezed together, not making threatening noises.

Su Xiao, ready to leave, stopped and looked inside the stone crack.

The two baby Baham completely blocked the stone crack. Su Xiao pulled out the two baby Baham one by one.

Suddenly pulled out from the stone crack, the two baby Baham subconsciously turned to bite Su Xiao.

...

A minute later, two young Baham with black and blue faces snuggled together, and one was still twitching with a grievance.

Ignoring the two young Baham, Su Xiao quickly came to the stone crack, and a clear fragrance drifted into his nose.

Looking carefully, there was a smooth slate inside the stone peak. The slate seemed to be frequently licked, and the surface was smooth.

At this time, the saliva left by the young Baham could still be seen.

The clear fragrance came from this stone slab, but two young children had already licked the object that emitted the clear fragrance.

Looking around, this was just an ordinary stone crack, nothing special.

."

A drop of golden liquid dripped on the stone slab, and a rich fragrance appeared again.

Smelling this fragrance, Su Xiao had a more smooth feeling of breathing, and his spirit was much more excited.

Two young Baham children were anxiously pacing, not far away, as if they were about to be robbed of some treasure.

Su Xiao looked up, and a red vine as thick as a finger grew out of the mountain rock. In the middle of the vine, there was a fist-sized fruit.

This fruit was oval, completely golden, and had a gap under the fruit. The golden liquid that had dripped before was from this fruit.

Su Xiao swallowed his saliva. After seeing this fruit, he only had one thought: to eat this thing.

No one was sure when the two adult Baham would return, so he could not eat it now.

Although he could not eat it, Su Xiao could pack it up and take it away.

The broken line popped out, and the golden fruit was already very mature, falling with a little touch.

Catching the golden fruit,

Su Xiao found that this fruit was soft, and he could crush it with just a pinch.

It was not good to carry this fruit with him, and it was easy to squeeze. He took off the backpack, and the storage space could not be used. The backpack became a necessary item.

Taking out an iron box containing a secret alchemy medicine from the backpack, Su Xiao put the golden fruit into the iron box and placed the iron box in the upper position of the backpack.

Carrying the backpack, Su Xiao found that two baby Baham was blocking in front of him, looking like he was returning his treasure.

Still on one foot, Su Xiao quickly rushed to the cliff.

In the screams of the two baby Baham, Su Xiao jumped down from the mountain peak.

Zi ---, ding!

The boundary line was put to the longest length, and Su Xiao hung in the high sky hundreds of meters away.

The left-arm exerted force, and the hook lock at the tip of the boundary line bounced off. Su Xiao continued to fall.

After falling a distance, he immediately pulled out the dragon flash and stabbed it into the body of the mountain.

With a bang, because of the powerful downward force, the stone layer that the dragon flash stabbed into was broken, and Su Xiao continued to fall.

Because the mountain was too steep, Su Xiao could only rely on the dragon flash and the boundary line to fall.

Ten minutes later, Su Xiao jumped down from a rock a few meters high from the ground.

His feet landed on the ground, his knees bent, and his body floated down naturally. The gravel on the ground was stepped into two shallow pits.

Finally safe, although it was not completely safe, overall, he was out of the situation where he would die at any time.

The contractor who knew his identity had been silenced, and he also solved the Red Spider Lily adventurous group by the way and successfully escaped from the Baham.

From the information that Su Xiao already knew, there should be no enemies of his in the survival trial, probably no.

After all, he had a lot of enemies, not him seeking revenge on others, but others coming to him for revenge...

Having enemies was also interesting because it would never be lonely.

Su Xiao only needed to complete the survival mission in the current situation. Of course, he was not ready to only complete the survival mission.

He wanted to explore the secrets of the Yosenman tribe, the Seed of Origin, and other things.

Su Xiao's strength was not without reason. He would explore the secrets of the world while completing the mission. Although it was dangerous, it could make him quickly become stronger.

He had a feeling that there might be a connection between the blood vine warriors of the Yosenman tribe and the Seed of Origin.

Old Baal had asked Su Xiao before if he found the soul crystal and a black seed when he killed his brother Barry and others, and that seed might be the Seed of Origin.

So Su Xiao wanted to return to the Yosenman tribe, not to mention that Bobowang was still waiting near the tribe.

Walking in the central area of the Red Earth Region, Su Xiao looked calm and was not worried about encountering beasts at all.

It would be strange to meet them. In addition to the powerful and terrifying creatures like Baham, more than 99 of the beasts in the central area went to rob the Seed of Origin.

Su Xiao took out a compass with rough workmanship. This was not the compass pointing to the cliff stone bridge but the compass of the Yosenman tribe, which Old Baal provided for free.

Walking in the central area for more than an hour, Su Xiao did not encounter any beasts. Not to mention beasts. He did not even see insects.

According to the direction of the compass, Su Xiao began to approach the Yosenman tribe.

"Crash."

The sound of water flowing came from the front, the surrounding air felt wet, and the river water mixed with the soil produced a fresh smell.

A rapid river appeared, Su Xiao picked up a pool of river water to observe, and after a long time, a smile appeared on his face.

He took out a straw as thick as a thumb. The straw was thin and thick and inserted the thick end into the water, Su Xiao began to suck the end of the straw.

He sucked fresh water into his mouth. He drank a dozen mouthfuls before the feeling of thirst disappeared.

Of course, Su Xiao would not drink the river water casually. It was courting death in the Red Earth Region.

He dared to drink the river water of this river because this river was the relatively safe drinking water in the Red Earth Region.

What's more, he didn't directly drink the river water. The straw he took out just now was called the 'outdoor water purification pipe.' The river water passing through the straw will be filtered layer by layer.

The straw has a built-in hollow fiber membrane, activated carbon, double-layer textile mesh, etc. This straw circulates widely in water-deficient areas.

Su Xiao, who was already full, lay on the ground and breathed a sigh of relief, a feeling of coming back to life appeared.

"Hahaha."

Su Xiao lay on the ground and laughed. When Baham in the beast's body captured him, he was ready to die.

Su Xiao, lying on the ground, took out a few alchemy bombs from his clothes. This was what he prepared for Baham, and now it seemed useless.

After lying down for a while, Su Xiao got up. Since he did not die, he had to continue to complete the survival trial and become stronger.

Only by becoming stronger would this kind of situation not happen. If he were strong enough, the two Baham would be his dinner.

Looking at the Baham nest in the distance, a bold idea appeared. What reward would he get if he killed the two adult Baham?

Putting away the bold idea, Su Xiao walked quickly in the direction of the Assenman tribe.

Although he did not feel that he had flown for a long time after being grabbed by Baham, it was not the case. He was very far away from the Yosenman Tribe.

After traveling for thirteen hours, the sky was already dark. This was the night of the third day, and tomorrow was the fourth day of survival training.

Su Xiao found a hillside to avoid the wind to rest. He had already left the central area.

[The remaining survival time is 171 hours, and the number of contractors who survived is 402]

Chapter 460: Meet

At the foot of the hill, Su Xiao sat in the darkness of the night, and he could not see his fingers in the surroundings.

He did not choose to start a fire, and there was no cave type of shelter. Making a fire in the Red Earth Region was courting death.

Although he had a stomach full of water, his stomach was still hungry.

After taking the backpack, there was only a small piece of jerky in the backpack. After Su Xiao finished the jerky, the hunger did not subside, but it was even stronger.

Taking out the iron box containing the secret alchemy medicine, Su Xiao carefully took out the golden fruit. He was in a hurry before, and he did not check the attributes of the golden fruit.

After looking at the attributes of the golden fruit, a feeling of being hit in the head appeared.

[Sun Gift Fruit]

Quality: Dark purple

[Type: High-grade plant fruit, materials, recovery type food, strengthening type items.]

[Hint: This is a rare item. It can be exchanged for the source of the world.]

[Usage method 1: Directly eating this fruit will obtain the following permanent strengthening effect. HP +100, Mana +100, Fire Resistance +15, Cold Resistance +15.]

[Usage method 2: This item can be refined into strengthening type items.]

[Hint: After consuming or mixing the potion through the previous two methods, 100 HP and 100 Mana Points will be restored within a minute.]

[Hint: This fruit will dissipate after leaving the main body for two days.]

[Rating: 260]

[Description: There will be powerful creatures building their nests nearby where the Sun Fruit is located. Many powerful creatures will feed their cubs with the juice of the Sun Fruit. That will make their cubs stronger and grow faster.]

...

Su Xiao took the [Sun's Gift Fruit] and fell into deep thought. The effect of this fruit was very strong.

If it were eaten directly, it would have the effect of HP +100 and Mana +100, and it could also increase the resistance of fire and ice attributes.

More importantly, the initial material had not been mixed, and the effect after the mixing was stronger.

It was convenient to eat this fruit directly, but it was a waste of a treasure.

Su Xiao's alchemy pharmaceutical was at least Lv.20.

He was only obsessed with alchemy and was too lazy to continue to develop alchemy, but this did not mean that he did not know alchemy.

On the contrary, Su Xiao knew a lot about pharmaceuticals. He had a lot of knowledge about pharmaceuticals in his mind.

Now his position was not suitable for making potions. He needed to find a cave, and he needed to find a trustworthy guard. He needed to concentrate when he made potions.

Of course, there were trusted guards. Although that guy was very stupid, the guards were far from Su Xiao's position.

After putting away the [Sun's Gift Fruit], Su Xiao got up and continued to move forward. At least he had to meet up with Bobowang.

Although that idiot had a well-hidden ability, his combat power was touching. At least Su Xiao thought so.

After traveling for five hours, Su Xiao arrived near the Yosenman Tribe. He had vaguely seen the fire of the Yosenman Tribe.

Su Xiao did not enter the tribe directly, and Bobowang was not in the tribe. He said that he would meet near the Yosenman Tribe.

Old Baa was not trustworthy. Su Xiao returned here to explore the secrets of the Yosenman tribe and get the compass.

Su Xiao took a thin wooden stick and found the bones of an animal nearby. He began to beat the bones with a wooden pipe regularly.

Dong ---, dong, dong...

After knocking for about ten minutes, the sound of the chain appeared. A sneaky figure came over. Bobowang came from the ground.

It had already experienced how terrible it was, not as terrible as Su Xiao in the nearby Red Earth Region.

Because the sky was too dark, Su Xiao could not see the appearance of Bobowang. But after Bobowang came up happily, he found that the color of Bobowang had changed.

At this time, the original black and white color of the Bobowang was turned into black. This was not a change of color but a layer of mud on its body.

"Woof ---"

The dog cried excitedly, shaking its head and walking around Su Xiao, its eyes were full of expectation, and it seemed to say: Master, is there anything to eat? I am already hungry.

Unfortunately, Su Xiao was also hungry.

Su Xiao had dried blood all over his body, Bobowang was covered with mud, and both of them were hungry in the front and back.

After successfully meeting with Bobowang, Su Xiao decided to solve the problem of hygiene and food.

Letting Bobowang wait in the same place, Su Xiao walked to the Yosenman Tribe alone. Ten minutes later, he came back with a 'big pot.'

The quality of this 'pot' was rough, and in a sense, this was not a pot, but a round shield made of metal ore, but it was shaped like a pot.

When Su Xiao met with Old Baal, he declined the food. He and the Yosenman Tribe were only partners.

Food was very precious in the Red Earth Region, not to mention that the food of the Yosenman Tribe was very 'suspicious.'

There was a mountain spring near the Yosenman Tribe, and with the pure water, it was not difficult for Su Xiao to get food with his ability to survive in the wild.

Tomorrow would be the time for the battle between the Yosenman Tribe and the Zerg. He had an agreement with Old Baal.

After the battle, he went deep into the nest of the Zerg with Old Baal. The return was the compass pointing to the cliff stone bridge.

So tonight, he had to adjust his state. From tomorrow on, Su Xiao will start to explore the secrets of the Yosenman Tribe.

Looking at Su Xiao coming with a 'pot,' a row of question marks seemed to float above the head of Bobowang. The big eyes of the water king looked at Su Xiao, somewhat helpless, and seemed to say: Master, I am just a hobby. I don't eat iron.

"Let's go. I'll take you to have a big meal."

Su Xiao came to the mountain spring with a puzzled face. A clear mountain spring flowed down. Su Xiao stood under the mountain spring to wash his body.

After washing off the dried blood on his body, Su Xiao felt more refreshed.

Bobowang was forced to stand under the mountain spring. It did not want to take a bath because the mountain spring was too cold.

After the clear mountain spring water rushed to the body of Bobowang, it became black. After a while, Bobowang returned to his previous appearance, and the bright black and white hair appeared.

After taking a bath, Bobowang looked at Su Xiao and found that Su Xiao had disappeared. Bobowang could only wait in the same place.

Half an hour later, Su Xiao returned with a big bird and several kinds of green plants.

This big bird was half a meter long. This was not a bird flying in the sky but running on the ground. This thing ran fast. It was Su Xiao who set up traps to catch it.

He made a fire and cooked a pot of boiling water with the big pot-like shield. Su Xiao put the chopped bird meat into the pot, and he threw in a few mushrooms and some green vegetables.

An hour later, a big pot of delicious mushroom and vegetable soup came out. Although only salt as a seasoning, Bobowang ate half a pot.

After drinking the last mouthful of soup, Bobowang lay on a rock with satisfaction. After leaving with Su Xiao, it was very confused in the Red Earth Region.

It did not know where to go. It did not dare to run around. There was no food and no water to drink. During the journey, it also fell into a swamp. The swamp almost swallowed Bobowang.

After taking a bath and drinking half a pot of meat soup, Su Xiao's physical strength quickly recovered.

He was in the vicinity of the cloth, and the aura of the goddess of ice and snow began to speed up the recovery of his injuries.

"It was dangerous to this extent a few days ago. Are the other contractors in the Common District? A group of lucky guys."

Su Xiao guessed right. Among the surviving 402 contractors, 380 were in the common area.

Some contractors who jumped into the black forest died half an hour after landing. The Red Earth Region was better.

The strong could survive here, but many weak contractors were eliminated.

He found a cave in the Yosenman tribe, and Su Xiao sealed the cave entrance.

The fire lit up the cave, and Bobowang sat at the cave entrance, and his ears stood up as guards.

There were several empty test tubes and some simple containers in front of Su Xiao. These empty test tubes were left after drinking the secret alchemy medicine.

Su Xiao would throw them away in other derivative worlds, but not now.

Su Xiao took the [Sun Gift Fruit] and thought about how to mix it.
