

## R. Paradise 481

Chapter 481: Jagged Man

The figure flashed, and the ice mage was just about to turn around.

Puchi.

The blood-stained tip of the blade penetrated the ice mage's chest, and the green steel shadow energy invaded the ice mage's body.

The green steel shadow energy was especially used to deal with mages, so this ice mage was a natural tragedy.

The green steel shadow energy first invaded the Ice Wizard's body through the wound. The pain made the Ice Wizard's eyes turn white, and his whole body twitched.

This was not the end. The green steel shadow energy rushed into the Ice Wizard's brain and destroyed the magic circuit in his brain.

"Ah!"

The Ice Wizard held his head and screamed. The staff in his hand fell to the ground, ignoring it.

The shadow could not be better at dealing with mages, especially since this ice mage was weaker than Su Xiao. This result was natural.

Su Xiao just wanted to pull out the long sword in the body of the ice mage, and a war hammer smashed against him.

The war hammer whistled. This hammer was strong and heavy, and if it were smashed, it would become a small cake.

Su Xiao pulled out the sword and jumped back. The ice mage sat on the ground with the help of the long sword, his eyes were dull, and his mouth was drooling.

The hammer was indeed unstoppable, but it also had a weakness: once it was smashed, it could not be stopped.

The hammer smashed down, but Su Xiao had already retreated a few steps, and the hammer hit the ice sorcerer's crotch.

Boom.

The strong hammer let the ice sorcerer experience the smashing of the egg once. The hammer with a diameter of half a meter ---Not only the egg but the entire bone of the ice sorcerer was smashed into meat paste.

"Ow ---!"

Another pain awakened the Ice Wizard in the blue steel shadow. He wailed and fainted. If nothing unexpected happened, this guy was dead for sure.

Hammer knew that he had accidentally injured his teammate. He stood in place and scratched his head.

The gloomy leader in the distance closed his eyes in despair. If the wet nurse + Hammer + Ice Wizard + himself, the four still had a chance, but now the Ice Wizard was accidentally killed by his teammate.

The gloomy leader thought too much. Even if they joined hands, they would not have a chance. From the beginning of the war until now, except for the archer's arrow, other people were no threat to Su Xiao.

Su Xiao had fought alone in the adventurous group, let alone this kind of group without organization and discipline, and they did not know Su Xiao, different from the women of the Red Lily Spider group.

If Su Xiao was hard to deal with these people, then he did not need to be a hunter.

Su Xiao, who was unscathed, looked at the sorcerer running away. He pulled out the black gun in the black and white gun at his waist.

These two guns had their characteristics, and the white gun was strong. The black gun's precision and shooting range was strong.

Bang, bang. Bang.

The three shots of 'light precision' were missed. Su Xiao frowned, his arm stretched flat. The aim was more precise.

Bang.

The sorcerer who was running away was shot in the back. The sorcerer let out a scream, gritted his teeth, and continued to run.

Bang.

Another shot missed. Just as Su Xiao was ready to continue shooting, the sledgehammer rushed forward. The hammer in his hand swung and smashed toward Su Xiao.

Su Xiao dodged sideways, the stone bridge under his feet was shaken, but he did not look at the sledgehammer and calmly continued to pull the trigger.

Bang.

With this shot, the wet nurse fell to the ground with a burst of blood on her calf.

However, the wet nurse did not give up. She knew that she would either be pressed to the ground and rubbed or killed after being blackmailed if she were captured.

The wet nurse struggled to get up, took a sip of milk for herself, and fled away with difficulty.

Su Xiao no longer paid attention to the wet nurse. The speed of the other party's escape was very slow. This period was enough for him to deal with the big hammer and gloomy leader.

"Big fool, go."

The gloomy leader motioned the big hammer to hold Su Xiao up.

"He is very strong, and I may die."

Big Hammer was hesitant, and the gloomy leader looked at Big Hammer.

"If I had your size and strength, I would be invincible. It would be a waste."

Big Hammer scratched his head. From his previous performance, it could be seen that this guy's IQ was not high, and he was even a little silly.

"Use Berserk"

"But..."

Da Chui hesitated.

"But what?"

The gloomy leader looked at Da Chui coldly.

"My body hurts after going berserk."

Da Chui's words almost made the gloomy leader faint.

"He's almost dead. Why do you care about the pain? That guy is as strong as a monster. You..."

As soon as the gloomy leader finished speaking, he felt a crisis.

Tu-tu-tu-tu-tu-tu-tu-tu.

The densely packed bullets tilted towards the gloomy leader, and the gloomy leader swung the iron rod in his hand to block.

Dingding Dingding...

The gloomy leader blocked the bullets a lot, but occasionally, there was a burst of blood bursting from the gloomy leader.

Dragon Flash was inserted beside Su Xiao's feet. He was holding the black and white double guns at this time and had activated the continuous shooting mode.

The sixty bullets were soon emptied, and Su Xiao immediately filled the bullets with mana value.

The interval between loading the bullets was ten seconds, and the loading time was two seconds.

Mana poured into the black and white guns, and each of the two guns produced 30 bullets.

He pulled the trigger and continued to shoot.

The black and white guns had very strong attack power. After all, they were purple-quality weapons, and the quality was the same as the Spider Queen.

After the 120 bullets were tilted, the gloomy leader fell to the ground covered in bullet holes, and blood spread out from his body.

Now, only Da Chui was left on the battlefield. He looked at the gloomy leader who had fallen to the ground. The other party had saved his life, so he had been following him.

In a low and muffled voice, Da Chui asked, "How are you?"

The gloomy leader's breathing was weak, and his body was already unconscious.

"Use... Berserk, kill... him, or else... all of you will die."

It was very difficult for the gloomy leader to say these words, and he spat out a few large mouthfuls of blood.

"Alright."

Da Chui closed his eyes and took a deep breath. The muscles all over his body rapidly expanded, and his height had broken by three meters.

"Idiot."

The face of the gloomy leader was dead, and he had no hope of victory.

There was a reason why the gloomy leader was so desperate. When Da Chui went crazy, Su Xiao had quietly come behind him.

Su Xiao held the sword with his right hand, and his left hand was against the end of the sword.

Puchi.

The long sword pierced through the back of Da Chui. Although he was much taller than Su Xiao, he knelt on the ground with his mouth wide open, so he was much shorter than Su Xiao.

The green steel shadow energy was raging in the body of Da Chui. This heavy man could not be Su Xiao's opponent, even if his attack were horrible.

The physical attribute of Da Chui was very high, and the heart was not dead after being hit by the sword but stood up.

At this time, the skin of Da Chui was red, and all the blood vessels in the body burst out. It should have been successful.

Just when Da Chui remembered his body, Su Xiao cut off the tendons of his legs, and the head fell to the ground again.

The tendons of the legs were cut, but the blade also flashed, and the arms of Da Chui were cut off in succession. He fell to the ground with a clang, and a small hole was smashed on the stone bridge.

"Kill, kill you..."

Su Xiao looked down at the kneeling Da Chui.

"This body shape, what a pity."

Being tall was sometimes an advantage, such as Da Chui. This guy belonged to the type of 'Innate Strength.'

However, this 'Innate Strength' was useless. With the cooperation of Su Xiao's sword skills and combat skills, Da Chui did not even have the chance to hurt him.

Dragon flash was raised high, and the sword was aimed at the neck of Da Chui.

Although the IQ of Da Chui was not high, he was an iron-blooded man. Knowing that he would die without a doubt, he raised his head.

Puchi.

The head flew up, and all the contractors who blocked the bridge lost their fighting power. Unfortunately, two people jumped off the cliff and escaped. At that time, Su Xiao had no chance to stop them.

Looking toward where the wet nurse escaped, Su Xiao quickly chased after her.

Su Xiao carried the wet nurse back to the stone bridge three minutes later. The wet nurse resisted, but under Su Xiao's careful persuasion, the wet nurse was shivering in her hand.

Su Xiao threw the wet nurse beside the gloomy leader.

"Treat him."

"What?"

The wet nurse looked at Su Xiao with astonishment. Su Xiao turned his head to look at the wet nurse. The wet nurse quickly picked up the staff and did it.

The golden light fell, and the gloomy leader who was dying recovered a little.

"What is your purpose in blocking the bridge?"

Su Xiao held a cigarette in his mouth and lit it slightly, tilted with his head.

"No comment. If you want to kill, kill."

The gloomy leader closed his eyes and looked like he was not afraid of death.

"Don't worry. With this nurse, you won't die in a short time. I can ask slowly."

Hearing Su Xiao's words, the gloomy leader's face twitched.

Chapter 482: Transportation

Just as Su Xiao was about to ask why the gloomy leader blocked the bridge, there was a slight sound on the other side of the stone bridge.

An archer covered in blood rolled down from the hillside. His chest was pierced by the spider queen bullet and almost pierced his heart. Now he did not even have the strength to get up.

"Bobo"

Su Xiao looked at Bobowang. Bobowang quickly ran forward and dragged the archer over. When he was close to Su Xiao, he found that the archer's lower abdomen was also pierced.

At the moment, he was on the verge of death.

Su Xiao looked at the gloomy leader and turned to look at the wet nurse.

"Treat him."

Although the wet nurse was reluctant, she could only do it.

"Because of what is blocking the bridge."

As the saying goes, if there is no profit, there is no early. These people will not block the bridge for no reason. Moreover, blocking the bridge is risky, such as now.

The archer lowered his head and inadvertently looked around, looking for an escape route.

"You want to know?"

The archer looked up. He had found the escape route, and his injuries had recovered to a certain extent. Now he only lacked one chance.

Su Xiao pulled out his sword without warning and cut off the archer's legs.

"Ah!"

A heart-wrenching scream came, and the archer's escape plan died in his stomach.

"Don't be noisy."

Su Xiao gently shook the dragon flash, and the blood on the blade was flung away.

"You..."

The archer had not finished speaking. Su Xiao kicked sideways and kicked the side of the other side of the face.

The archer rolled far away on the ground, twitched a few times, and stopped moving.

"Treat him."

One person might lie, but three people were different.

"I... I'll talk."

The wet nurse finally could not bear the pressure.

"Don't say it. If I say it, I will..."

The gloomy leader looked anxious. He knew that if he said it, he would die.

With a long knife, the head of the gloomy leader fell to the ground.

"Continue."

Today, no matter whether the three of them surrendered or not, they would die. There was no room for negotiation.

"We blocked the bridge because, because..."

The wet nurse struggled with her heart. She also knew that she might die if she said it.

"Forget it, and I'm not interested anymore."

Su Xiao walked slowly to the wet nurse.

"Hey?"

The wet nurse was stunned.

"I... We blocked the bridge for the reincarnation mark."

"Huh?"

Su Xiao looked at the wet nurse doubtfully.

"Reincarnation imprint?"

Su Xiao had never heard that the reincarnation imprint could be stripped away.

"Yes, the reincarnation mark. Our team was attacked before, and a contractor was bitten to death by a beast. When we searched for treasures on him, we found that the reincarnation mark could be stripped in the survival trial, but the probability of stripping was about 50."

Su Xiao pondered for a while and slowly walked to the corpse of the gloomy leader.

Pulling up the sleeve of the gloomy leader, the reincarnation mark on the arm of the gloomy leader was shining.

Su Xiao tried to touch the reincarnation mark, and the hint of the reincarnation paradise appeared.

Choosing to strip, the reincarnation mark on the arm of the gloomy leader gradually fell off and finally turned into a card.

Quality: Unknown

Type: Unknown

Effect: Unknown

Rating: Unknown

Introduction: None

Price: 1 of the source of the world or 1000 paradise coins.

...

The function of the reincarnation mark was similar to an ID card, which was something that every contractor would have.

The contractor's reincarnation mark was a circle with a five-pointed star in the center. Su Xiao's reincarnation mark was different. It was a black sword pattern.

A reincarnation mark was equivalent to 1 of the source of the world or 1000 paradise coins. One of the two could be chosen.

Su Xiao began to search the bodies of the contractors around him. With a total of twelve bodies, he found seven reincarnation marks total.

"How cruel."

Su Xiao was talking about the reincarnation paradise. To eliminate the weak, the reincarnation paradise took this kind of measure.

It could be imagined that the survival trial would become a big escape if this news spread.

But this was also a normal phenomenon. The reincarnation paradise needed resources to cultivate contractors. It was natural to eliminate the weak. There was no free lunch in the world.

"You will become the reincarnation mark in other people's hands sooner or later."

The archer lay on the ground and gasped with difficulty.

Su Xiao stopped, and the long sword in his hand stabbed into the archer's throat.

The only survivor of the bridge was the wet nurse.

"Don't, don't come over."

The wet nurse had injuries on her legs, and now she could not stand steadily. Su Xiao did not move and slowly approached the wet nurse. So far, he had not felt sympathy for the enemy.

Finding that Su Xiao was constantly approaching, the wet nurse gritted her teeth and began to take off her clothes quickly.

"You can do whatever you want, don't kill me."

The wet nurse crossed her arms around her chest, and a large expanse of white was faintly discernible. It had to be said that this wet nurse still had some beauty.

Su Xiao put the Dragon Slash back into the sheath. The wet nurse was thrilled when she saw this scene. She slowly took off her arms wrapped around her chest and exposed her entire body.

Su Xiao walked forward, and the hand that wrapped the metal bracer touched the wet nurse's shoulders and collarbone.

"Can we go to a place where there is no one?"

The wet nurse looked like she wanted to refuse, but she still welcomed him.

"No need."

The hand wrapped in metal suddenly grabbed the wet nurse's neck, and the wet nurse's pupils contracted.

"Please..."

Crack.

Cutting off the slender neck of the wet nurse, Su Xiao found that after the reincarnation mark of the other party dissipated directly, he threw the body of the wet nurse to the cliff under the stone bridge.

Su Xiao did not directly sell the reincarnation mark he got. These reincarnation marks could be sold before the survival trial ended. As for whether it was sold as the source of the world or paradise coins depended on the situation at that time.

More than a dozen bodies scattered on the bridge, and the battle ended.

Su Xiao began to clean up the battlefield. He walked to the three-row armored car.

The armored car was military green, with four wide wheels, the chassis was very high, and there was a row of big lights on the roof.

This cold armored car looked like a jeep, but it was much bigger than a jeep. Aside from the main driver and the front passenger seat, there were at least six people in the car, and it was not a problem to squeeze ten people.

After checking the damage to the armored car, although there were bullet marks on one side, there were no traces of being pierced.

Before, Su Xiao thought that this armored vehicle would disappear. This armored vehicle was not an object but between a summoned object and an object.

Su Xiao could not obtain the ownership of the armored vehicle, but this did not prevent him from using it in the survival trial.

Sitting in the armored vehicle, the oil meter showed that there was still half a box of oil left, and there were several large barrels of oil under the seat at the back of the armored vehicle, which was enough to be used.

Confirming that the armored vehicle was fine, Su Xiao threw the food, water, and other things behind Bobowang into the back seat, and Bobowang was much more relaxed.

Their food and water and the food and water of the contractors blocking the bridge were also plundered by Su Xiao.

These foods and freshwater can be used for five days, and there are a lot of chocolate, compressed biscuits, and so on.

Su Xiao was a little puzzled. How did the bridge team carry so many high-calorie foods? Was it okay to take so many things to parachute?

Don't think about this. Food and fresh water are sufficient. There are also substitute tools. The armored car is the best shelter at night. It can keep warm, safe, and comfortable.

Old Baal sat in the back seat of the armored car with a face full of surprise. It seemed that he had never seen an armored car.

#### Chapter 483: Suffocating

The armored car was as fast as lightning on a prairie, pressing out two ruts.

Su Xiao sat in the main driver's seat, his hand on the steering wheel, his fingertips holding a cigarette, and on the passenger seat on the side was Bobowang.

At this time, the window on the other side of Bobowang was open, Bobowang leaned his head out of the car, the strong wind blew up the lips on both sides of his mouth.

Bobowang was fighting with strong wind, his mouth kept biting and biting, and as a result, he accidentally bit his tongue and shrank back.

Su Xiao had been driving in the ordinary district for three hours. Compared to the Red Earth Region, this was heaven.

Breathing in the fresh air, Su Xiao was suddenly a little speechless. If the difficulty of other people's trial was Lv.10, then his was Lv.15 and above.

"How far is it?"

Su Xiao turned his head and patted the back of the chair. Old Baal, who had sleepy eyes, sat up.

"What?"

"How far is it still?"

Old Baal rubbed his eyes and took out a small piece of blood-colored vine from his bosom. He closed his eyes and sensed.

"We will meet up in two more days at our current speed."

Old Baal patted the window of the armored vehicle and said, "This thing is good, but it is too loud when it runs."

Su Xiao nodded. He was hesitating whether to drive the armored vehicle into the black forest.

Although the armored vehicle had a big target, it was also a good layer of protection. At least there was no need to worry about snakes, insects, rats, and ants.

These things had to be considered at the edge of the black forest. The first goal now was to find the two contractors.

The two contractors were from the camp of the Yang woman. The original plan of the Yang woman was to let the two people go deep into the black forest to die.

Su Xiao guessed that the two contractors could not be willing to go deep into the black forest, but they must find the two people. The two people had very important things on them.

Just as the armored car was driving on the grassland, Su Xiao suddenly heard the roar of an engine coming into the air.

Buzz ---.

A plane flew over from the sky. Su Xiao stuck his head out of the window and looked up.

The more he looked at the plane in the sky, the more familiar he was. Was this plane that sent him here? What was this plane going to do? Pick up, people?

"Uncle Mouse is here again today. Let the cubs celebrate. There is a surprise today."

There was a loud shout from the plane. This shout was heard from a loudspeaker. It could be heard from a distance.

In the nearby area, the contractor looked at the plane in the sky, his eyes full of greed.

The rear warehouse door of the plane opened, and a purple iron box in the right direction was thrown into the pestle.

After seeing the color of the box, the contractor's eyes widened.

"Purple air throw box, do you want to gamble on luck?"

"Did you forget about the blue box yesterday? How many people died?"

"Bullshit, yesterday there were three soul crystals in the empty blue box! There was also food, freshwater, and recovery products."

At this point, that contractor could no longer hold back.

The purple airdrop box was thrown down. After falling vertically for a distance, the parachute opened. The speed of the airdrop box slowed down. The signal bullet below the box flashed.

Even from far away, one could still see the dazzling light.

With the purple air tank as a circle, the dozens of contractors around him used various methods to approach the air tank quickly.

The armored vehicle sped on the grassland, mud, and grass. Su Xiao looked at the purple iron box that slowly fell in the distance. He was very interested in that thing.

After a few days of exploration, the contractor knew most of what was in the air tank.

Recovery products, food, and water were necessary items. If he were lucky, there would be rare items like soul crystals, skill scrolls, attribute strengthening drugs, and other rare items in the air tank.

There was one airdrop crate every day, and many contractors would snatch it every time.

...

Not long after, many contractors gathered around the purple airdrop crate.

However, these contractors were still a distance away from the airdrop crate, but they all had a goal, and that was to snatch it.

The airdrop treasure chest slowly fell. Looking at the distance, it would land about ten meters away.

Crack.

The parachute on the purple airdrop box broke. The airdrop box fell quickly. The dozen or so contractors looked around.

Now that everyone was enemies, they didn't dare to get too close to the airdrop box. They would become targets.

Buzz ---.

The engine's roar came, and an armored car with bullet marks on the side drove over.

A contractor just stood in front of the armored car. He was too focused because he was staring at the airdrop. When he found the armored car, it was already over.

Su Xiao did not intend to remove the brake, but he stepped on the accelerator.

Bang.

The contractor screamed and was knocked far away. He rolled on the ground more than ten times before getting up. He pressed his back with one hand behind his back.

Su Xiao drove the armored car to the bottom of the airdrop box. He also deliberately reversed the car and aimed at the position.

Clang.

The shock of the armored car sank a little, and the purple airdrop happened to land on the roof of the car.

Zi ---.

The boundary line popped out. Su Xiao used the boundary line to wrap the airdrop box on the car's roof. Then he stepped on the accelerator. The armored car drove away with the airdrop box, leaving the stunned contractor behind. All of this happened in two seconds.

"My purple airdrop!"

A strong man was furious. He took the shotgun on his back and fired several shots at the armored car.

The strong man and other contractors also used long-range abilities and bombarded the armored vehicle.

Su Xiao ignored these contractors. He did not want to participate in this chaotic battle because the number of recovery products was 0.

The armored vehicle drove away a few seconds later, and a woman contractor's mouth kept twitching.

"This is a suffocating operation."

The surrounding contractor stopped attacking, but the strong man holding the shotgun was still reloading. From this action, it could be seen how desperate he was.

"Let's disperse."

"What a disappointment. The airdrop box would be mine if we were to compete in strength."

"Luck is also a part of strength, but I will kill him if he dares to stop."

The nearby contractor gradually dispersed, and a few of them had cold eyes. They nodded to each other and found a group of contractors who had fewer people to follow.

The armored vehicle carrying the airdrop box quickly moved forward, and there was a red smoke behind its butt.

The airdrop box used all means to attract contractors, but who would have thought it would be packed away by Su Xiao before it landed.

Generally, the items in the airdrop box were divided by several contractors, and it was unlikely that one person could get close to the airdrop box, and he needed someone to cover it.

Su Xiao enjoyed the air dropbox alone, which was equivalent to monopolizing a few people's materials. More importantly, this air dropbox was a purple color that had never appeared before.

Uncle Mouse on the plane saw this scene through the sensor on the air dropbox.

"Haha, this kid is interesting. Tomorrow, the airdrop will be heavier, and the parachute will be removed. I want to see how you will receive it."

Uncle Mouse poured a few big mouthfuls of wine into his mouth, and the wine dripped down the beard on the corner of his mouth.

"You... you damned rat."

A weak voice came from the back of the plane.

"Shut up. You will only die if you want to escape from Devour Island."

Uncle Mouse pressed the button next to his hand. The cabin door behind the plane opened, and a strong suction force appeared.

"No, no, give me another chance. I won't run. I was wrong..."

A frightened shout came from the back of the plane.

"Goodbye, the unknown contractor."

A contractor with iron on his body was thrown off the plane, and there was a flash signal bullet tied to his head.

The contractor, who was below, noticed the signal bomb.

"Another airdrop is coming? Chase!"

A group of contractors swarmed over, and this was the bad taste of Uncle Mouse.

Chapter 484: Disappear in Front of My Eyes

The armored vehicle stopped next to a stream, and the red smoke finally retreated.

Su Xiao jumped off the armored vehicle, retracted the boundary line, and moved the airdrop box onto the ground.

Dang!

The airdrop box landed, and there was a red button above it. Pressing the button, the airdrop box opened like a flower, and several items were neatly placed inside the airdrop box.

Bobawang leaned forward, and it smelled the fragrance.

When the airdrop box opened, Su Xiao received a series of notifications.

[You have obtained a delicious roasted turkey. ]

[You have obtained the soul crystal(middle) × 5. ]

[You have acquired military rations ×10. ]

[You have acquired freshwater (6L each bucket) ×5. ]

[You have obtained Adrenaline. ]

[You have acquired combat boots (purple). ]

Different from opening a treasure chest, if the pleasure of opening a treasure chest was 5, then opening the airdrop was 7.

Su Xiao checked the items he got in turn.

[Delicious Roasted Turkey]

[Origin: Devour Island]

[Rarity: Blue]

[Type: Recovery type of food. ]

[Effect: Restore 90 of HP within an hour after consumption, 30 Mana, and remove the abnormal status. ]

Rating: 70.

Description: Devour Island's unique roasted turkey.

[Adrenaline]

[Origin: Reincarnation Paradise]

[Rarity: Purple]

[Type: Ability medicine. ]

[Effect: After using it, there is less than 70 pain. Attack and movement speed +20. Additional excitement effect can remove exhaustion. The effect lasts for 10 minutes. ]

Rating 127.

Description: Natural stimulant. Please do not underestimate it. When you are exhausted, it is your last hope.

[Tactical Boots]

[Origin: Reincarnation Paradise, Fifth Workshop]

[Quality: Purple]

[Type: Shoes (Black) ]

[Durability: 59 to 59]

[Equipment requirement: Strength 15, Agility 17, Constitution 5]

[Equipment effect 1: Crossing mountains and crossing waters (passive) reduces movement speed caused by 30 terrain obstructions (such as desert, swamp, etc.)]

[Equipment effect 2: Leap amplification (passive) increases 25 jumping strength and reduces the stiffness after landing.]

[Rating: 130]

Description: Excellent quality, has passed through layers of tests.

Price: 31,000 Paradise Coins

Su Xiao looked at several items and was very satisfied.

Food and fresh water were abundant, with five soul crystals (medium). He directly put them away, which could upgrade the green steel shadow or the swordmaster.

[Adrenaline] and [Delicious Roasted Turkey] were good consumables, especially Adrenaline.

As for the last [Tactical boots], Su Xiao took off the shoes on his feet and directly changed them into tactical boots.

After putting them on, Su Xiao found that these shoes were lighter than he had imagined, and after putting them on, he felt the jump strength increase.

Su Xiao jumped on the roof of the armored car and nodded with satisfaction.

These items were no different from the ones he picked up for free. Su Xiao was interested in the airdrop.

Unfortunately, the Common District was too big. Although there would be airdrop every day, the only contractor in a small area could snatch it. Rushing was a big problem. Even if there were a car, it would not work.

After eating some food beside the river and washing up, Su Xiao sat in the driver's seat and moved.

Driving was not an easy thing to do. It was just a small matter to focus on. It would be bad if they drove to the swamp or other bad terrain.

Su Xiao and others began to travel at full speed with sufficient food and water.

The ordinary district was different from the Red Earth Region. Although there were often beasts here, it was not difficult to survive as long as they were careful.

With Su Xiao's strength in the ordinary district, there was no need to worry about survival.

According to Old Baal's direction, Su Xiao drove the armored car straight ahead.

Along the way, he met many beasts or contractors. Some did not provoke Su Xiao, and some chose to block the way. His method of dealing with them was to pull out the sword directly and cut them.

If they could not cut them, they would kill them all. If they could not kill them, they would kill them all.

After Su Xiao had traveled for two days, the reincarnation imprint in his backpack changed from seven to ten. There was no shortage of food and water, and there was more.

"Are those two people nearby?"

Su Xiao stopped the armored vehicle and turned to look at Old Baal.

Old Baal held the blood vine in his hand and closed his eyes to sense it.

"Yes, it is nearby. Unless they are dead, they can find it."

Su Xiao jumped on the roof of the armored car and looked around. Today was the seventh day of the survival trial. Su Xiao was not clear about the other things about the contractor. At least he felt much more relaxed than before.

"How close exactly?"

Su Xiao carefully observed the surroundings.

"It's very close, probably..."

As soon as Old Baal's voice fell, Su Xiao heard the beast's roar, and then there was a roar.

"Quick, use your move!"

A crisp female voice was heard.

"Don't talk nonsense. Run, how can I beat hundreds of lions? Why don't you go?"

This time, it was a male voice.

"Do you have the heart to let a twelve-year-old little wet nurse fight these lions in close combat? Doesn't your conscience hurt? Although your conscience must be very flat, you have to talk with your conscience."

"Don't talk nonsense. Run if you don't want to die."

"I'll add a bunch of status to you for nothing. Wait for me, and my legs aren't fast..."

The conversation between a man and a woman came, and there was a series of beast roars at the same time.

"Found them."

A smile appeared on Old Baal's face.

"It's much weaker than I thought. The woman of the sun has been forced into a corner."

Su Xiao sat on the roof of the armored car and looked at the two people who were running for their lives in the distance. These two people were the people he was looking for.

The vines on the neck of the other party were the best proof. It was a kind of shackle. Otherwise, these two people would not listen to the woman of the sun and enter the black forest.

"She also summoned me before, but I refused."

Old Baal sneered. Although he was humble to the Yang girl, he looked for an opportunity.

Su Xiao was sure that if the Yang girl had any weakness, the first one to attack was Old Baal.

The two contractors who escaped found Su Xiao and chased them were lions, more than two hundred in number.

The number of lions was normal. After all, the common area was also a part of Devour Island. If the number of the groups was not large enough, it was a matter of time for them to die.

The male contractor running in the front had a face full of blood, followed by a little girl. The little girl was about twelve or thirteen years old. She was not injured, but she ran too fast to relieve herself.

"Brother, save me."

The male contractor shouted. He did not run directly to the armored car. If he did that, he might be attacked by Su Xiao.

Su Xiao jumped off the armored car and pulled the dragon flash on his waist.

"This guy..."

The pupils of the male contractor contracted, but he thought of something instantly and quickly ran to Su Xiao.

"Hey, are we going over? That person's temperament is a bit wrong. I have goosebumps after he pulled out the sword."

The little girl slowed down a little.

"It's fine. He should be the person the Daughter of the Sun asked us to find. I didn't expect it to be so fast."

Hearing the male contractor's words, the little girl quickened her pace.

"Save me."

Hu ---.

The wind blew past her, blowing up her black hair. Su Xiao had already rushed into the lion group.

Puchi, Puchi, Puchi.

Blood splashed, and the lion group screamed again and again. Ten seconds later, the lion group stopped running, and there were pieces of broken lion debris scattered around Su Xiao.

"Disappear in front of my eyes."

Su Xiao's breath burst out, the breath produced after killing thousands of creatures.

The lion group subconsciously retreated, and finally, under the roar of a huge lion, the lion group retreated into a sorry state.

Chapter 485: Assemble

The lions retreated, and Su Xiao's breath returned to normal.

"Overlord's domineering?"

The little wet nurse opened her mouth and looked at the scene in front of her in disbelief.

"I would rather that this is the domineering of a king."

The male contractor wiped the blood from his chin. When he raised his hand, he found that his hand was shaking.

"This guy has killed countless people. It is not easy to get along with him. If he has some special hobby, pray for yourself."

The male contractor patted the little wet nurse on the shoulder. The little wet nurse's cheeks twitched.

She was not afraid, but the male contractor took the opportunity to wipe the blood with her clothes.

"The two of you."

Su Xiao turned his head and looked at the two contractors.

"Yes."

Under Su Xiao's gaze, the little nurse shrank her neck.

"Take it out."

Su Xiao stared at the two contractors.

"What?"

The little nurse looked at Su Xiao doubtfully, and the male contractor took a few steps back.

"..."

Su Xiao stared at the two people without saying a word. The little wet nurse was a little confused. The male contractor hesitated and took out a Seed of Origin for a moment.

The four people all carried the Seed of Origin, but the seed that the male contractor took out was a seed that had not been dealt with by the Daughter of the Sun.

If this kind of Seed of Origin were not stored in a sealed container, it would attract many beasts.

The male contractor did not know where he got a Seed of Origin that had not been dealt with. This thing was very troublesome.

"I must take it with me."

The male contractor spoke with a determined look.

"The reason."

A rock fell from the sky and smashed beside Su Xiao, roaring.

"Ka ba"

A roar came from the distance, a tall humanoid creature came, and a big stone was thrown by it.

"Finally here."

The male contractor breathed a sigh of relief.

Su Xiao looked at the humanoid creature. This creature was about four or five meters in size, and its appearance was roughly the same as humans, but its nose was very big, bald, and it had a long black beard.

"This is... a giant?"

Su Xiao only thought of this possibility, and this giant seemed to come with bad intentions.

Su Xiao raised his sword and went forward. He would kill him if he dared to approach, even if it were a giant.

"Roar!"

The giant let out a roar, wearing clothes made from various animal skins, and a pair of brown, yellow eyes looked at Su Xiao.

"Wait."

The male contractor quickly ran forward, "I came to negotiate with him. This is the reason why I brought the Seed of Origin."

The contractor, the man with a face full of blood, stepped forward. The giant did not attack directly, and the boulder he threw before was just his way of greeting.

The man contractor looked at the giant. He was not sure if the giant could understand his language, but he was following the instructions of Daughter of the Sun.

"What the hell are you looking at?"

The giant stared at the man, contractor, and spoke in a low, muffled voice.

The male contractor was stunned.

"Hand it over."

The giant was very rude. He stretched out a big hand in front of the male contractor. The male contractor hesitated and handed the Seed of Origin to the other party.

The giant carefully pinched the Seed of Origin with his two fingers. This seed was too small, and his next move surprised everyone. He threw the Seed of Origin into his mouth.

Boom, boom...

A roar came from the giant's stomach. The roar stopped after a few seconds, and the giant burped in satisfaction.

The giant closed his eyes and enjoyed it for a while. Then, he took out a piece of animal fur from his pocket.

"Map."

Throwing the fur on the ground, the giant turned around and left. Every step he took made the ground tremble slightly, but the giant kept his head sideways as if he was on guard against something.

Su Xiao put the dragon flashback into the sheath. The giant no longer looked at them and began to stride forward.

The male contractor picked up the map on the ground.

After checking it, a smile appeared on his face.

"This is the map of the black forest."

Hearing the words of the male contractor, Su Xiao quickly stepped forward and took the map.

The black forest on the map was a circular ring wrapping the common area. The other side of the forest was the edge of the island.

If you want to leave the island, you have to pass through the black forest and cross it unless you can fly.

Although the black forest was a ring, the entrance and exit had a specific position. It was not possible to enter the black forest from anywhere. This was not an ordinary forest.

According to the map, there was only one entrance to the black forest from the common area. Entering from other directions was courting death.

When Su Xiao looked at the map, Old Baal and others leaned forward.

"Is this map accurate? Although the giant has a good reputation, this matter concerns life and death. I only have a general understanding of the black forest.

Some specific coordinates still need a map."

Old Baal pinched his chin, and the male contractor and the little nurse looked at him in surprise.

"This is the Yosenman?"

The little nurse looked at Old Baal's red skin and clicked her tongue in wonder.

"Yes, how should I address you two? Introduce yourselves to each other. After all, we will go deep into 'hell' together."

Old Baal pointed at Su Xiao.

"His name is Byakuya, and my name is Baal. This is..."

Old Baal looked at Bobowang.

"Bobo"

Su Xiao spoke.

"Yes, Bobo."

Bobowang raised his dog claws and greeted the two of them.

"So cute."

The little wet nurse came forward as if she wanted to touch Bobowang's head. Bobowang, who had been gentle before, bared his teeth. The little wet nurse quickly retracted her hand.

"My name is Xiao Mihu, a support nurse. My specialty is running fast."

The little nurse opened her mouth, revealing her neat little white teeth.

The male contractor took out a bottle of water and washed the blood on his face.

After the male contractor's face was clear, Su Xiao was surprised. Wasn't this Brother Wu San? This guy did not die?!

"My name is Sheng Dan, Main Tank. We have met before."

It was not surprising that Brother Wu San was Main Tank. If not for Main Tank, Brother Wu San would have died long ago.

"Well, hello, Brother Wu San."

The combination of Su Xiao and Bobowang was very conspicuous. It was not strange that Brother Wu San remembered them in mid-air before.

"Brother Wu San?"

Xiao Mihu looked at Brother Wu San in confusion.

"The past is unbearable to look back on. Sheng Dan is just a code name. Just call me Brother Wu San."

With the four of them here, it was unknown if it were a coincidence or heaven's will, but the combination of the four was not bad.

Su Xiao has a top-level dash, assassination, strong melee ability, and sniper.

Xiao Mihi: Nurse, better buff than milk.

Brother Wu San: Main Tank, no shield, extremely strong survival ability, the key point is very resistant to falling, falling from the sky, jumping off the cliff, not dead, bad luck.

Old Baal: You have control-type abilities, balance all kinds of abilities, and understand the black forest.

Bobowang: Hidden, investigation, collective aura can be inserted into the enemy.

Everyone was already here, and what followed was entering the black forest. It was already the seventh day of the survival trial.

Su Xiao entered the black forest voluntarily. Xiao Mihi and Brother Wu San were different. There was a very thin vine attached to their necks.

This was the method of the Daughter of the Sun controlling them, forcing them to go deep into the black forest.

After the initial contact, Su Xiao found that Xiao Mihi was the easiest to deal with. Perhaps it was also the hardest to deal with. This girl was not anxious.

She was trying to find ways to remove the restraint of the Daughter of the Sun. She would run as far as she could.

Brother Wu San was a little strange as if he was already in a state of acceptance.

Old Baal was still an old fox, but the other party's body was alchemy bombs.

Chapter 486: Xiao Mihi

"Since the few of us will move together, should we choose a captain?"

Old Baal put away the map. He naturally carried this map. He understood the black forest the best, and everyone remembered this map. It did not matter who carried it.

"I agree."

"Reconsideration."

Su Xiao looked at them. He suddenly recalled the scene in the ghouls' world. It was a new combination with Arima Kisho and Takatsuki Sen.

Old Baal and others were stronger compared with the four people, but the current combination was far more complicated than the original one.

The five people had five goals initially, which could be said to be full of ghosts.

Su Xiao was generally clear about the purpose of the three people now, and the most important thing to observe was little confusion.

Yes, it was a little confusing. Although the other party did not show any abnormalities, it still needed to be observed, only Su Xiao's caution.

Old Baal had been on Su Xiao's observation list. It was true that there was a bomb in the other party's body, but blind confidence did not have a good result.

As for Brother Wu San, it was a little hard to guess. This guy was surprisingly unlucky, and his survival was very strong.

"I suggest Byakuya be the captain."

Xiao Mihi had a smile in her eyes, and her eyes were like two small crescent moons.

"I choose myself."

Brother Wu San held his head high, his face full of confidence.

"Xiao Mihi."

"Xiao Mihi."

Su Xiao and Old Baal spoke almost one after the other. The two of them looked at each other.

"Hey? I am the captain?"

Xiao Mihi wrinkled her nose, and she smelled a conspiracy.

"Yes, you are the captain, ready to go."

Su Xiao got up, and Xiao Mihi also got up, as if she did not care about Su Xiao's command.

Bobowang looked at Xiao Mihi and sighed. It was a pity that such a cute girl died.

Brother Wu San also looked at Xiao Mihi. He had just thought of the current situation, so he elected her. After all, he and Xiao Mihi had rushed from the Red Earth Region, and it was inevitable that they would have some friends.

"A group of 'wolves,' pray for your good luck, Xiao Mihi."

Brother Wu San shook his head. He suddenly had a feeling that Xiao Mihi was like a little sheep among a pack of wolves. Right now, the two wolves were not hungry. When the two wolves were hungry...

Brother Wu San secretly decided that he would become a hedgehog.

When he walked near the armored vehicle, Xiao Mihi's eyes lit up.

"I'll drive it. Don't worry, and I often drive my family's sports car to race."

From this sentence, it could be seen that Xiao Mihi's family background in the real world was good.

"Up to you."

Su Xiao drove all the way and was also a little tired.

Several people got in the car, and Xiao Mihi sat in the driver's seat and muttered.

"Left foot is off, and the right foot is on the accelerator, the middle brake..."

"What did you say?"

Brother Wu San and the others also did not hear what Xiao MiHu was saying.

"Nothing, sit tight."

Xiao MiHu started the engine, stepped on the clutch at the rear, and stepped on the gas pedal.

Buzz ---.

The armored vehicle stopped after charging a distance, and their bodies swayed back and forth.

"You know how to drive?"

Su Xiao stared at Xiao MiHu. She smiled and said, "Yes."

"What car did you drive before?"

Xiao MiHu found that Su Xiao's eyes were wrong, and she stuttered.

"Is... is running a Kartrider car counted?"

"Get off the car!"

"Give me another chance. The road here is very flat."

Xiao MiHu operated randomly, and the armored car ran forward a few times.

"Hahaha, it's really exciting."

She Gripped the steering wheel tightly, looking excited.

"Stop the car, and I'll drive!"

Brother Wu San grabbed the handle of the car shed, his face ashen.

"This is not the road to the black forest. Turn around."

Xiao MiHu turned the steering wheel.

The armored vehicle almost drifted.

...

Two minutes later, Xiao MiHu sat in the back seat with a face full of innocence.

"Listen to me. I drove before."

"Shut up."

Su Xiao, who was taking a nap, opened his mouth.

"Oh ---."

Xiao MiHu lowered her head, and her white index finger drew circles as if she was drawing circles to curse Su Xiao. Su Xiao immediately picked her up from the driver's seat and almost scared her to pee.

The armored vehicle drove smoothly on the road. Su Xiao sat in the second row. Next to him was Bobowang. This guy was sleeping soundly.

"Byakuya."

Xiao MiHu opened her mouth, and Su Xiao turned his head to look at Xiao MiHu, who was in the back row.

"In battle, what attributes do you want? Strength, Sensitivity, Body, Wisdom. You can choose two types, but you should choose Strength and Sensitivity or Strength and Body."

Su Xiao raised his eyebrows. It seemed that Xiao MiHu was stupid, but the four attributes also increased in all aspects. It could be seen that Xiao MiHu's ability was not weak.

"Strength, Sensitivity can. Sensitivity and body can also, Strength and Wisdom are also so-called."

Su Xiao was developing four attributes to enhance either of the two attributes.

"Aren't you in close combat? What do you want the intelligence attribute for?"

"Increase mana value."

"Huh?"

Xiao MiHu was very surprised, but she did not ask in detail.

Although Su Xiao had 1363 mana values, his ability consumed many mana values. If the green steel shadow energy vibrated, it would consume thousands of mana values.

Not only that, but some skills attached to equipment also needed mana values.

The shield protection consumed 10 mana values every time it was activated.

Dispel the control skill requires 100 points of mana.

Each use consumed 30 points of mana.

Opening the mirror required 100 points of mana.

Finally, there were the black and white double guns. If he kept using the sweeping, the mana consumption was also a lot.

So, even if he had 1363 points, Su Xiao could not squander freely every time he fought.

"Well, understand, is the shield skill rejecting?"

Xiao MiHu was not investigating Su Xiao's information, and these questions were very reasonable.

"There is rejection, don't give me a shield."

"What about the acceleration halo?"

"No rejection."

Hearing that Xiao MiHu had a halo-type skill, Su Xiao nodded secretly. Perhaps Xiao MiHu's milk was not strong, but her gains could not be underestimated.

"Then..."

Xiao MiHu asked a few more questions in succession. After getting an answer, she took out a small notebook.

"Dual attributes, acceleration, tolerance, defense rejection. Well, there is a plan."

Just as Xiao MiHu was considering how to help Su Xiao, the armored car suddenly rang. Sparks flew. Brother Wu San and Xiao MiHu shrank in fear, while Su Xiao and Bobowang remained calm.

"Stop the car."

Brother Wu San hesitated for a moment before he stepped on the brakes.

Su Xiao opened the car door and rushed out of the armored car. His movements were very fast, but the little confused movements were also dissatisfactory.

"Holy."

"The echoes of rain."

"Power Spring."

"Eternal life."

"Rapid."

...

Before Xiao MiHu's state was finished, Su Xiao had already pulled out the black and white double guns and swept a boulder. He rushed forward at the same time.

Tu-tu-tu-tu-tu-tu-tu...

The stone chips splashed, and the three contractors behind the boulder were beaten so they could not raise their heads. This sudden firepower was too fierce.

Ka.

The bullets of the black and white double guns hit empty. Su Xiao put the black and white double guns back into the holster on his thigh and pulled out the dragon flash.

The light blue light blade cut through the air, the boulder was broken, the throat of a contractor was cut open by the sword light, and the blood rushed out.

Su Xiao rushed to the boulder with a sword, screaming repeatedly.

A minute later, after Su Xiao walked out of the boulder, the long sword was still bleeding.

Chapter 487: Black Forest

With a cloth in his hand, Su Xiao wiped the dragon flash clean and returned it to the sheath. He began to wipe the blood on his hand.

Brother Wu San stood in the same place awkwardly. He wanted to help before, but he did not expect the battle to end before he rushed to the boulder.

"See, the same buff. Why is he so fierce?"

Xiao MiHu did not care about the corpses behind the boulder. Although she was young, she was very clear about the cruelty of the reincarnation paradise.

"I am the main tank, the main tank, the main tank!"

Brother Wu San repeated the important words three times.

"Then you are the real tank."

"I haven't rushed over, and the person is dead."

Brother Wu San sat back in the main driver's seat.

"The driver is still more suitable for me, but is he the first rank contractor? Although I have seen similar scenes before, this is too strong."

Su Xiao threw some food and water on the armored vehicle. The reason why he quickly killed those contractors was not to show off his strength.

After those guys found that the bullets were ineffective, they immediately took out a blue quality rocket launcher. Although those contractors felt very painful, they still intended to blow up the armored vehicle.

The armored vehicle was very important and could not be damaged temporarily.

After this small episode, Su Xiao confirmed that the small confusion was very useful. If there was no buff from the other party, he could not kill those contractors in such a short time.

The value of the small daze had already been reflected. Brother Wu San, sitting in the driver's seat, was not nervous. After entering the black forest, it was his home field.

The armored car drove at high speed and stopped for a few hours.

A forest appeared in sight. This forest was very dense, completely blocking the sunlight. More importantly, the trees and branches of the forest were dark.

They arrived at the black forest, and the entrance to the black forest was in front of them.

"Drive in?"

Brother Wu San looked at Su Xiao and others. Although Xiao MiHu was the captain, all actions were made by several people at the same time.

"Don't drive. We might die if we drive-in."

Su Xiao decided to give up the armored vehicle. Before, he also wanted to drive the armored vehicle into the black forest. Now it seemed that it was not the case at all.

Just standing outside the black forest, Su Xiao felt that it seemed to be a giant beast waiting to swallow all creatures who dared to enter.

"What about the supplies? We need a lot of food and water."

Xiao MiHu picked up a small backpack, which was food and water. Her physique could only support her daily needs.

"I'll do it."

Old Baal carried a big bag on his back. Brother Wu San did not speak. He could not carry weights because he would walk at the front of the team. This was the dignity of the main tank.

Su Xiao also could not carry weights. He was also at the front line if there was a real danger. He would either not cooperate. It was not his style to stand in the back after cooperation.

"I'll scout the way."

Brother Wu San signaled several people to keep up. Although he was the main tank, he did not have a shield. Instead, he was wearing a pair of heavy metal gloves.

The gloves wrapped to the forearms. Each glove was as thick as a person's torso.

Brother Wu San did not need a shield at all. Two boxing gloves were a shield in front of him, and the boxing gloves were much more flexible than the shield.

Steam rose from the boxing gloves, and Brother Wu San's entertaining style disappeared. He walked cautiously in front.

At this time, they had not entered the black forest. Su Xiao was a little puzzled. Why was this the only entrance? This place was no different from the other places.

After approaching the black forest, Su Xiao understood why. The edge of the black forest was filled with a layer of black fog.

This layer of black fog could not be seen from a distance. He could only see it when he walked in.

Picking up a branch, Su Xiao threw the branch into the black fog.

The branch flew in the air, and just as it entered the black fog, the branch was instantly broken down, turning into a wisp of smoke and dust that drifted away.

Su Xiao frowned. With this black fog, the black forest was like a cage, and it could only be entered from the entrance.

That was the truth. The black forest was a cage, and terrifying things were imprisoned inside.

On the tenth day of the trial, which was also the last day, the black fog would disappear, and the things inside would come out of the cage.

The black fog they saw now was very thin. If it were a few months ago, the black fog here was a wall, and they could not see the situation inside the black forest at all.

The so-called entrance had black fog, but the black fog here was very thin.

"How do we get in?"

Su Xiao looked at Old Baal. The Daughter of the Sun must have told Old Baal the way to get in. The two brothers also had a way to get in, but the price of that method was too high.

"One minute."

Old Baal took a deep breath, and his eyes became red.

A wisp of flame was spat out from Old Baal's mouth. The flame turned white and rushed straight into the black fog.

Pa...

It was as if the firecrackers had been lit, and there were bursts of explosions coming from the black fog.

After spitting fire for a full minute, the thin black fog at the entrance burned a hole.

"Quick, it can only last for more than ten seconds."

Old Baal looked dispirited, but he took the lead and rushed ahead.

Finding that Old Baal rushed forward, Su Xiao also followed behind. Several people rushed into the black fog and officially entered the black forest.

They had just entered the black forest, and the black fog at the entrance surged and gradually healed.

After entering the black forest, Su Xiao found that the trees here were not black. The black that he saw before was why the black fog was shrouded.

Unlike the dead and dull scene in his imagination, the black forest was full of birds and flowers, and the clear air even had a faint sweet smell.

Su Xiao took out a processed Seed of Origin and gently pinched it. The green and small vines grew from the Seed and climbed on his clothes. The erosion disappeared.

No wonder Old Baal said that the Seed of Origin was a ticket to the black forest. If there were no Seed of Origin, he would die even if he took drugs for half an hour.

Brother Wu San sighed at the green around him, "This is the black forest? It is different from what I imagined."

He walked in front and looked around vigilantly.

"Don't move."

Su Xiao shouted and slowly approached him. A dagger slipped out of his sleeve.

"Poison?"

Brother Wu San did not move. His eyeballs turned to look at a red insect on his shoulder. It should have fallen from the tree.

Brother did not sense it, but Su Xiao also did not sense it. He saw it with his super-strong eyesight.

"It should be poisonous."

Su Xiao raised his hand, and a shadow flashed in the air. He used the dagger to pick up the little insect on Brother Wu San's shoulder.

When he picked up the little insect, the dagger's tip cut the insect's skin.

Chi Chi ---.

Green smoke came out from the dagger's tip and quickly corroded down. Su Xiao immediately let go. The dagger had already corroded thousands of holes before it fell.

"This..."

Brother Wu San's face was not good, and the black forest was more dangerous than imagined.

"Let's decide the route."

Su Xiao did not look at the bug. He had experienced too many similar situations.

Old Baal took out the map.

"Our location is here."

Old Baal pointed at a corner of the black forest.

"We have to pass through half of the black forest and finally arrive here."

Old Baal pointed in the direction opposite to where they were. If they wanted to reach there, they had to pass through half of the black forest, and the route was a semicircle.

"It's too far. We only have twelve hours. We need to return here later to Devour Island. It's impossible to reach there."

Brother Wu San's face was as dark as water. The Seed of Origin he carried could only last for 24 hours.

"If we succeed, we can leave from that side. Also, don't link the area of the black forest to Devour Island. I don't know the specific reason, but there must be enough time. As long as we don't die on the road."

Old Baal's words were shocking.

"This is different from what the Daughter of the Sun said."

"Ha ---, she only dares to hide in the Red Earth Region. Throughout history, it was us Asians who were responsible for going deep into the Black Forest. Where do you think this map came from? Can the giant's thick fingers draw such a detailed map? If not for the crisis, a Seed of Origin would not be able to exchange for this map. This map is the result of my ancestors. Legend has it that the Daughter of the Sun used it to curry favor with the Giant Tribe. I previously thought it was just a rumor."

Chapter 488: Dark King

Old Baal held the map made of animal skin with both hands. His ancestors had exchanged their blood and lives for it.

This was not the first time the black fog around the black forest had subsided. During a specific time, the black fog would disappear for some time, at least three to five days, or at most half a month.

The interval between each time the black fog disappeared was very long. In addition, the civilization of the YosenmanTribe was falling behind, causing the loss of information.

In the later stages, it was passed down word by word. In addition to the appearance of the Zerg, the lifespan of the Yosenman people was rapidly shortened.

Therefore, in Old Baal's generation, the situation in the black forest was only half clear.

Cold Disaster, Undead, Dark King, Assimilation. This was all the information that Old Baal knew. However, the terrain of the Yosenman Tribe in the black forest was very clear.

"We are not in danger for now,"

Old Baal said.

"No danger?"

Brother Wu San looked at the dagger riddled with holes on the ground with an expression that said, "Are you kidding me?"

"Relatively speaking."

Old Baal's words made Brother Wu San and Xiao Mihu's hearts tighten. If this was not considered dangerous, what would they encounter in the future?

"Roar!!"

Just as they were discussing, a roar came from the distance.

"What... is this thing?"

Xiao Mihu swallowed with difficulty, and the usually cheerful Bobowang also picked up its tail.

"If I'm not wrong, this should be the roar of the undead. Let's go, and then we'll have to face it."

Old Baal lowered his eyes. He knew the black forest better than everyone else, so he was prepared to die.

Although Brother Wu San was a little guilty, he still walked at the front, which was the responsibility of the main tank.

Su Xiao was behind Brother Wu San, followed by Xiao Mihu, Bobowang, and finally Old Baal.

The team quickly went deep into the black forest. It was very dangerous to move forward quickly, but they did not have a choice. Although Old Baal said that there was enough time, they were not afraid of ten thousand.

If the Seed of Origin could not leave the black forest before it was exhausted, even Su Xiao would die. After being eroded for half an hour, he would die every five seconds. What a desperate situation it was.

The team stopped after ten minutes. The reason was that a group of 'Rhinos' appeared ahead.

Although he was not sure if this was a rhinoceros, the appearance of this animal was similar to that of a rhinoceros, but its size was bigger.

There were more than 300 rhinos gathered together. These rhinos were eating the grass on the ground. They looked up from time to time to observe the surroundings, and their ears stood up.

The more Su Xiao looked at this group of rhinos, the more he felt strange. Rhinos have few natural enemies, so they always showed a lazy appearance, but the rhinoceroses in front of him were different.

"Should we go around? This number of rhinoceroses is a little troublesome."

Brother Wu San's suggestion was very reasonable, but Su Xiao directly walked out of the hiding bush.

All the rhinoceroses looked up at Su Xiao and stopped eating. Their big eyes were full of panic.

Su Xiao continued to move forward. If this was Earth, the rhinoceros herd might rush forward.

Unexpectedly, the rhinoceros herd ran away like a frightened deer and had no intention of fighting with Su Xiao.

Su Xiao did not draw his sword or release his breath. He stood in front of the rhinoceros herd with the aura of an ordinary person.

"These rhinoceroses are so timid."

Xiao Mihu also stood up from the bushes with a few leaves on her head.

"These are probably the animals at the bottom of the food chain, similar to rabbits and deer on Earth."

This was not good news. This abnormal ecological environment showed that this place was very dangerous.

After advancing for half an hour, the trees around them gradually became sparse, and a tall stone wall appeared in front of them.

The stone wall was grayish-brown, and the surface was uneven. This stone wall was built by intelligent creatures, and it had only become what it is now after years of corrosion.

This was a ruin, a circular stone pillar half-collapsed and covered the ground.

Walking into the ruins, the few split up to check their surroundings.

"Come this way."

Old Baal shouted, and the few of them moved closer to Old Baal.

Old Baal squatted in front of a low stone tablet. Words could be vaguely seen on it. These words were too blurry, and only a small part could be seen.

"What is written on it?"

Although Su Xiao did not recognize the words on it, he had seen this kind of word. This was the language of the Asians.

"The thirteenth star, cold, experiment, failed..."

Old Baal shook his head, "The handwriting is too vague. I can only recognize these."

The information was useless, and the few of them dispersed again.

Five minutes later, the few of them gathered at the other end of the ruins and continued to head deeper into the black forest.

"What information can I share?"

Brother Wu San was still walking in front, and the boxing gloves on his hands were steaming.

"No."

Su Xiao was always on guard.

"..."

No one spoke from behind.

"Xiao Mihi, Xiao Mihi!"

Brother Wu San called out twice.

"Huh?"

Xiao Mihi lowered its head and looked at Brother Wu San in confusion.

"Did you find anything?"

"No."

Xiao Mihi scratched his head and smiled apologetically.

"Woof, woof ---."

Bobowang barked a few times, and Brother Wu San and others did not understand what it meant.

"It said that it smelled a strange smell."

Su Xiao did a translation for Bobowang, and Brother Wu San and others looked at Bobowang and looked at Su Xiao.

"Why do you hear it 'talk'? No, it calls for meaning."

Brother Wu San and others clicked their tongue in wonder.

"Eyes."

Su Xiao's expression was calm. The meaning of Bobowang was very easy to understand, but this needed to be spent a long time together.

Old Baal, who was at the team's end, shook his head to show that he had not discovered anything.

The small team became unusually quiet. Other than the sound of stepping on dead branches and rotten leaves, there was no sound.

Unlike the dangers they had imagined, the few had not encountered any danger except the first poisonous bug.

At first, they could still hear the roars of animals, or occasionally wild beasts were running around. These beasts had a characteristic: they could not be eaten. They could survive under the corrosion of the source of the black fog, and there were more or fewer toxins in their bodies.

After traveling for four hours, the surroundings were even quieter. There was not even the sound of the wind. It could only be described as a pin drop. In this quiet situation, Su Xiao could hear everyone's breathing.

The veins on Brother Wu San's forehead bulged. The current situation was not as good as one or two beasts attacking. At this time, he was under great psychological pressure.

"F\*ck."

Brother Wu San cursed in a low voice, his eyes full of blood.

Under this kind of torment, the team went deep into the black forest for five hours.

"More and more."

Su Xiao suddenly opened his mouth, and the little confused behind him shrank in fear.

"Scared... scared me to death. Don't speak suddenly."

The little confused wiped the cold sweat on his forehead and pressed his chest with lingering fear.

"What things are getting more and more?"

Brother Wu San looked at Su Xiao with blood in his eyes.

"The things around us are following us. Otherwise, why do you think it is so quiet? It is those things that scared away the beasts."

Su Xiao pressed one hand on the hilt. His perception was the weakest, so he was the first to find the abnormality around.

Chapter 489: Wild Boar

"Where are those things? Do you want to fight with them?"

Brother Wu San needed to vent now.

"No, continue walking forward. Although I don't know the reason, those things seem to be afraid of something, so they don't dare to approach us."

The more he knew, the greater the pressure in his heart. Su Xiao was the person who suffered the most pressure in the team.

Before, there were probably hundreds of things around, and they were following from a distance. Su Xiao thought about fighting with them, and it was extinguished as soon as this idea appeared because the number of those things soared to thousands in a few seconds.

The current situation was the way out ahead. Without that thing, the other directions were all surrounded, so he could only go forward.

Su Xiao opened the mission list, and new tasks had already appeared.

Difficulty Level: Lv19

[Mission summary: Destroy the Dark King before he completely awakens. ]

[Mission information: The Dark King is located in the depths of the black forest. ]

[Mission deadline: None]

[Mission reward: This is a chain mission. The reward will be given according to the completion rate of the mission. ]

Mission Punishment: None

The secret mission had soared to the terrifying level of Lv.19, and there was a possibility of upgrading to Lvl.28 at any time.

If the so-called Dark King completely woke up, Su Xiao would be dead. Now there was no way out. He could only move forward.

Just as they were moving forward, a noise came from the forest in front of them.

They looked closely and saw that it was a wild boar.

This wild boar was completely black and was the size of a bull. Two tusks were protruding from its mouth, and the tusks had a faint metallic texture.

"What is it eating... so disgusting."

Brother Wu San frowned. The scene in front of him was really hard to accept.

The beast was biting a human arm in its mouth. Its arm was already a little dry, and more than half of it had been eaten.

The arm in the wild boar's mouth was still struggling with all its might. It used all its strength to pinch the two nostrils of the wild boar.

The wild boar snorted unhappily, threw its arm on the ground, stepped on it a few times, and chewed it.

As if it sensed the footsteps of a few people, the wild boar turned its head.

"A living person?"

The wild boar spoke the human language. More importantly, everyone could understand the language the wild boar spoke.

"The... wild boar is talking."

The sudden appearance of a talking wild boar in the current environment was a great shock to everyone.

"Who are you calling a wild boar? You little bastard."

The wild boar looked up. Everyone saw that the wild boar's eyes were pitch black, without any pupils or eyes.

Brother Wu San was rendered speechless by the scolding. He hesitated for a long time, not knowing whether he should scold back or not.

"Is the survival trial still to complete the mission?"

The wild boar sat on the ground and did not seem hostile.

"You are?"

Su Xiao went up and down to look at the wild boar. The other person gave him a familiar and strange feeling.

"Your seniors, many of the contractors who participated in the trial before, a fool who failed to get benefits in the black forest."

As expected, from the words of the 'boar', one could tell that the other party was from Earth.

"Then what do you look like now?"

Brother Wu San felt a chill run down his spine. This contractor had become like this, which meant they might be the same.

"Why should I tell you that you have been surrounded by the undead and are dead. I advise you to celebrate before you die. Coincidentally, there is a girl in your team. Although she is young, she can be used."

Wild Boar sneered and looked at the others who were more interested.

"I will negotiate."

Su Xiao walked past Brother Wu San and walked slowly to the wild boar.

"Want to fight? Although you have become neither human nor ghost now, your strength has increased too much, not your first rank..."

Clang!

The saber light slashed out, and the wild boar quickly fell to the ground. The half-meter thick tree behind it was cut off.

The diagonal cut was smooth.

"Hey, this is the saber light. How can a First Order contractor use this?"

The wild boar looked at the slowly falling tree with a lingering fear.

Finding that Su Xiao had already made his move, the umbrella brother rushed forward quickly. Xiao MiHu put a few states on Su Xiao, while Old Baal turned his back to several people in case of the danger behind.

"Wait."

Beast shouted, but Brother Wu San and Su Xiao ignored each other and rushed directly to the wild boar.

"Hmph, it's amazing to be able to cut out the blade light. I was also standing at the top of the first rank when I was alive."

The wild boar kicked off the ground and rushed to several people at full speed.

Brother Wu San stopped rushing forward and was stuck in a very good position between Su Xiao and the wild boar.

Brother Wu San lowered his body and stretched out his arms. When the wild boar rushed in front of him, his fists were covered with steam, and he accurately grabbed the head of the wild boar.

Boom!

Like a high-speed train crashing into a rock, the wild boar was firmly grabbed by Brother Wu San in the head.

The soil under Brother Wu San's feet splashed, and large patches of dead leaves splashed behind him. His legs went deep into the soil, and his body remained leaned forward.

A fine crack appeared on Brother Wu San's shoulders, but he did not retreat a single step. Only the main tank, which the hard steel had killed, did not escape. Otherwise, he was not worthy of calling himself the main tank. At least Brother Wu San thought so.

"Not bad."

The wild boar sneered, cold air overflowing from its body.

Puchi!

A long saber pierced through the wild boar's ribs. The wild boar was stunned and felt a sharp pain at the same time.

Dragon flash penetrated the body of the wild boar. Su Xiao pressed forward.

Bang.

The wild boar collapsed to the ground, dead leaves flew, and the body was completely penetrated by Dragon flash.

"Pain? This is a pain, hahaha. How many years has it been? How many years have I not felt pain?"

Although the wild boar was pierced through its body, it laughed wildly.

Su Xiao pulled out the dragon flash. At this time, Brother Wu San was holding the head of the wild boar.

The dragon flash turned in his hand, from the right hand holding the knife to the reverse grip, the right hand holding the knife, the left hand against the end of the handle, Su Xiao stabbed the head of the wild boar.

Puchi.

The long sword pierced through the brain of the wild boar, and the umbrella brother just wanted to let go.

"It is not dead."

Su Xiao clenched the hilt and looked down at the wild boar.

"How did you do it? It made me feel pain."

The wild boar, whose head had been pierced, spoke calmly, without any sign of death.

Su Xiao pulled out the sword, and the dragon flash changed to holding the sword in his hand. He was ready to cut off the head of the wild boar.

"Wait, wait."

Su Xiao ignored it, and the long sword was still cut down.

"Do you want to see the Dark King? This was my purpose when I was alive. You should be looking for the Dark King."

The long knife stopped a few centimeters away from the wild boar's neck, and the sharp knife light cut off the wild boar's hair.

"You have seen the Dark King."

"Of course, I became like this is its masterpiece."

The wild boar looked at Su Xiao.

"If it is the Dark King in a semi-awakened state, you may kill him. I can help you lead the way."

Su Xiao shook his head.

"I don't believe it. It is more reliable to chop you up."

Su Xiao pretended to wave his sword.

"It is useless to chop me up. Even if you chop me into more than ten pieces, I will not die. Don't worry. With my current appearance, there is no benefit in lying to you. To be exact, I am already dead."

Wild Boar sighed helplessly. His completely black eyes had no emotions such as desire and greed. Instead, he wanted to die.

Chapter 490: Conspiracy, Conspiracy

"Kill Dark King, and then kill me. This is my wish."

Brother Wu San sneered when he heard Wild Boar's words.

"You don't believe me?"

"I don't believe who wants to die."

Brother Wu San still pressed the boar to the ground.

"I died a long time ago. Just now, you have pierced my brain and heart, but I can still speak."

"Bullshit, there are many similar abilities."

Brother Wu San still did not believe it.

"Maybe, but before I met you, I had not felt anything for decades."

The wild boar looked at Su Xiao.

"How did you make me feel pain? Again!"

Su Xiao ignored the boar. He considered the information in the other party's words, some very obscure information.

"Let go of me. I don't want to be gay. There is no point in holding me down. Besides, you are surrounded by the undead. No matter how strong you are, you will be killed by them."

The wild boar struggled on the ground. It seemed very uncomfortable to be held down by Brother Wu San.

"Let him go."

"Huh?"

Brother Wu San looked at Su Xiao doubtfully.

"We are indeed surrounded by something, but I didn't expect the number to be so exaggerated."

After hesitating for a moment, he let go of the wild boar.

"You are lucky to meet me. If you meet the guy riding the horse, he will try to kill you."

The wild boar shook the leaves on its body and wagged its tail.

"Zoma? There are other existences like you?"

Su Xiao returned the Dragon Slash to its sheath. From its looks now, the other party should not be hostile. Instead, it was an opportunity. It was not an opportunity for the others but an opportunity for him.

"Of course there are. There are a total of five people like me in a similar situation. Three of them ran into the black fog and committed suicide, leaving only me and Zoma alive stubbornly.

However, that idiot has already reached the brink of collapse and been committing suicide recently."

The wild boar laughed as it spoke.

"Can you imagine that a two-meter-tall strong man was turned into a bastard, a hard shell bastard, hahaha."

The wild boar laughed for a while and found that everyone was looking at it expressionlessly.

"I don't have a sense of humor. If I want to stay in this damned place and not collapse, I can only have fun."

The wild boar sighed and looked at Su Xiao.

"Hey, the one with the knife, did you use all your strength just now?"

"No."

"That's good. You are still not a match for the Dark King with your strength just now. As for the other few... Except for the old man, the others will die very quickly."

The wild boar had already judged Brother Wu San and Xiao Mihu as dead people, while Old Baal was half dead.

"Give me something to eat."

Wild Boar looked at the package behind Old Baal. Su Xiao frowned. Since the other party was already dead, he should not need food. Moreover, when they met, the other party was eating.

"Don't look at me like that. My body structure is special now, and I rely on eating the undead to survive. As for why I asked you for food..."

The wild boar lowered its head and did not continue.

Old Baal took out some hardtacks and handed them to the wild boar. The wild boar chewed and chewed. As it ate, black liquid flowed out of its eyes. Perhaps it was his tears.

"This might be the feeling of being alive. Dark King, I..."

After the wild boar greeted all the women in the Dark King's family, it spat out the food in its mouth.

"Follow me. If you fall behind, you will die."

The wild boar ran wildly. Su Xiao looked at Old Baal, who understood the black forest.

"Our target is not the Dark King, it is the skeleton cave, and there is no need to provoke the Dark King."

Hearing Old Baal's words, Su Xiao narrowed his eyes. He would not go to the so-called skeleton cave at all.

The purpose of the Daughter of the Sun had nothing to do with him, and he never thought that she wanted to save Devour Island. It could be seen from her behavior.

He was not a selfless guy.

"In other words, he is indeed looking for the Dark King?"

"Yes."

Old Baal confirmed that he seemed to have guessed Su Xiao's purpose and wanted to separate from Su Xiao.

Su Xiao rode on Bobowang.

"Then we will part here. Take care."

The purpose of Su Xiao and Old Baal was different from the beginning. Old Baal also knew it.

"Well, be careful on the road. It is said that the Dark King is very difficult to deal with. Thank you for escorting me here."

"You help me enter the black forest, and I will help you clear the obstacles."

Su Xiao nodded to Old Baal, and Old Baal threw a big bag of food and water.

"This..."

Xiao MiHu looked at the two people in shock.

"Aren't we in the same group?"

Xiao MiHu had yet to react to what was going on, but she felt that her future was hopeless. The big thick leg that had already hugged tightly mercilessly threw her on the wall, and she could not even pull it out.

"Never."

Brother Wu San patted Xiao MiHu's head. When he heard Su Xiao ask the Dark King, he knew that the two sides had different purposes.

"Are you coming or not?"

Beast shouted in the distance.

"Let's go."

Bobowang quickly followed the wild boar. Old Baal waved to Su Xiao and seemed to be very happy.

After Su Xiao left, Xiao MiHu looked a little down.

"What, have you taken a fancy to that ruthless person?"

Brother Wu San teased, but Xiao MiHu was not in high spirits.

"What do we do later? Can the three of us succeed?"

"I don't know, but I know that relying on others might be able to live for a while, but not for a lifetime."

Brother Wu San was not depressed. He would not give up hope as long as he was not dead.

"Don't be discouraged. Although Bai Ye has left, my strength has already adapted to it."

Old Baal spoke. Brother Wu San and Xiao MiHu were somewhat puzzled.

"Are you surprised? This is the second time I have cooperated with Bai Ye. I will die if I go all out, but he won't live."

Old Baal smiled confidently.

"Then before you..."

"He set up tens of thousands of bombs in my body. It is good to be low-key. Let's go!"

Old Baal walked to the front of Brother Wu San, the heat waves rolling on his body, and the leaves under his feet were burnt.

...

Bobowang walked through the black forest, following the wild boar in front.

It had to be said that Su Xiao's luck was good. He could meet this wild boar. Otherwise, he needed to travel with Old Baal and others. Whether he could find the Dark King was still unknown.

No, this might not be luck. Su Xiao guessed that the wild boar might have taken the initiative to find him and was waiting for him there.

The pace of the wild boar slowed down and maintained a level with the cloth.

"Did you agree to my previous proposal? Although it is very obscure, you must understand it."

The wild boar spoke.

"Help me find the Dark King and give you the reincarnation mark. It is a very fair deal, but you can still restore the contractor's identity? You revealed the information of the reincarnation paradise to the plot characters before."

Su Xiao looked at the wild boar.

"This is not the derivative world, so it is not a big problem. And the older man's identity is special. He already knew the existence of the reincarnation paradise. Maybe he has already signed a contract with paradise. As long as I can restore the contractor's identity, I will not hesitate. I need at least five reincarnation marks. I have stayed here for too long."

Su Xiao nodded. Five reincarnation marks were equivalent to five percent of the source of the world. This deal was very reasonable.

"I like to cooperate with smart people. Finally, I don't have to stay in this ghost place. As long as I return to the reincarnation paradise, there must be a way to recover. There must be a way."

Wild Boar grinned. After he felt the aura of the reincarnation mark on Su Xiao, he had been vaguely revealing information to Su Xiao.
