

R. Paradise 491

Chapter 491: Get Down!

"Are you sure the Dark King is here?"

Su Xiao stood in front of a bottomless well, and the black mist inside the well was shrouded.

"Yes, the Dark King will only sleep in the source of the black mist. Where is my reward?"

The wild boar hid far away, seemingly afraid of the well.

At this time, Su Xiao had gone deep into the black forest for ten hours. Because of the wild boar leading the way, he did not encounter any danger along the way.

During this time, he saw the undead.

The so-called undead were some humans or beasts whose bodies had dried up.

Su Xiao tried to kill an undead, but he failed. Whether it was beheaded or crushed, it was useless to the undead.

Although breaking the bodies of the undead would lose their combat effectiveness, this did not mean that Su Xiao could kill them.

Perhaps only burning them with fire could eliminate the undead. Otherwise, even if there was only one finger left, the finger could continue to move.

The strength of the undead was very weak. Su Xiao could break out of the encirclement if the number were around a few thousand.

Once there were tens of thousands of them, he would be dragged down by the sea of people tactics.

Hesitating for a moment, Su Xiao took out five reincarnation marks, and the wild boar rushed forward excitedly.

"Wait."

Su Xiao did not give the reincarnation marks directly to the wild boar.

"Before I saw the Dark King, you couldn't get these marks."

The wild boar's excited look faded, and he nodded.

"Find a big stone and throw it down. Please give me the mark when you hear the scream. I must run as soon as possible. The Dark King can control my movements."

It seemed that the wild boar was not lying. Su Xiao found a big stone nearby.

He was a little hesitant. Would he be able to wake up the Dark King like this? Wasn't this kind of bridge in the movie usually removed first? Would it be too hasty to throw stones directly like this?

"Hey, brother, what are you thinking about? Throw."

The wild boar looked at Su Xiao doubtfully.

"It's nothing."

Su Xiao threw the big stone into the shaft, and the black fog surged in the shaft.

Dong.

The muffled sound came from the shaft, and after more than ten seconds, a furious roar came.

"Who threw the stone above?"

The corner of Su Xiao's mouth twitched. He awakened the dark King.

"Give me the mark."

The wild boar's body was shaking, and the pair of black eyes flashed with red light.

Su Xiao took out five reincarnation marks. The wild boar held them in one bite, turned around and ran. If he stayed for a while, he would be controlled by the Dark King.

Black fog surged in the shaft, and Bobowang looked down.

"Who threw the stone!"

A roar came from the bottom of the shaft.

"Woof, woof ---"

Bobowang was also clear about the current situation. Jumping into the well was a brain-dead act, and leading the Dark King up was the best choice.

Unexpectedly, the Dark King seemed to understand the meaning of Bobowang's cry.

"A dog? And it's a high-level creature. How can there be such a creature in the Black Forest? It can't be imagined."

The Dark King was silent, and his voice became cold.

"Come down and die!"

An invisible wave spread, Su Xiao's mind was in a trance, and he returned to normal after a few seconds.

Bobowang walked forward slowly, seemingly ready to jump into the well, and found this situation. Su Xiao rushed forward and kicked Bobowang's butt.

"Ow ---"

Bobowang woke up after a scream. He was almost controlled by the Dark King and jumped into the shaft.

"Woof."

A few seconds after, Bobowang let out a scream. A shout came from the bottom of the well.

"Come down."

The Dark King could understand the meaning of Bobowang. This made Su Xiao quite surprised. If he did not look at his eyes, he could not completely understand the meaning of the cloth.

"Woof..."

"Come down if you dare."

The Dark King was different from the 'Devil' in his imagination. He had no so-called villain style.

"Get out of the way."

Su Xiao held a big stone and came to the shaft.

He threw the big stone into the shaft under the happy eyes of Bobowang.

Boom!

A roar came from the bottom of the well, and the gravel sprayed out from the well and flew up dozens of meters high before falling.

"A weak person who only dares to throw stones."

The ridicule came from the well, but Su Xiao had a smile.

According to the description of the wild boar before, although the Dark King was not the boss of the black forest, he was also a commander level creature.

Now he hid in the well and did not dare to come out. It only showed one thing, the Dark King had just woken up and was very weak.

"Woof."

Bobowang looked at Su Xiao, "Master, I propose to pee in the well."

Su Xiao admired the idea of Bobowang and patted the head of Bobowang: "Not a bad suggestion."

Bobowang looked down at the bottom of the shaft, ensuring the Dark King would not come up for the time being, and began to fill the shaft with water.

More than ten seconds later, a tragic wail came from the bottom of the shaft.

"I want to peel off your skin!"

Ka.

The sound of climbing came from the bottom of the shaft, and black mist gushed out from the shaft.

Bobowang shrank his neck and quickly ran towards the big tree in the distance. After nimbly climbing up a big tree, Bobowang used his divine skill, 'You can't see me '.

Bang.

A big black hand patted the edge of the shaft. Su Xiao pulled out the dragon flash on his waist. The things after that were much simpler. Either he killed the Dark King, or the Dark King killed him.

A strong man with a black body and muscles climbed out of the shaft. The strong man was about three meters tall and bald. His whole body was floating with black mist.

There were thick iron rings around his knees and shoulders. The iron rings were inlaid with rivets.

The Dark King looked at Su Xiao and looked around.

"Where is the dog? Tell me, and I will spare you."

"..."

Su Xiao took it out and began to check the information about the Dark King.

The information was as follows:

Name: Dark King - Minas

[Type: Mutated Demon]

[HP: 70]

[Mana: 310]

[Strength: 50]

[Agility: 50]

[Vitality: 50]

[Intelligence: 31]

[Charm: 4]

Skill 1: Lord's Authority, HP +2000, Strength +16, Agility +13, Stamina +15.

Skill 2: Demon Soul, completely demonized. Attributes greatly increased, all attributes resistance +40.

Skill 3: Roar, Dark King, released a sound wave that could shake the enemy's brain. The enemy will suffer 300 points of damage and 2 seconds of stun.

Skill 4: Undead Leader can summon the undead and command all the undead. The number of undead is 675,000.

Skill 5: Ascending, Dark King, will jump high in the sky at the critical moment and then smash down with all his strength, causing the damage of $\text{Strength} \times 4 + \text{weight} \times 0.2 + \text{height} \times 0.6$.

Skill 6: Dark Meteorite, Dark King summoned a meteorite of 3 × 3 meters and fell from the sky, causing $500 + \text{Strength} \times 2 + \text{Intelligence} \times 5$ damage, and with the burning effect of the devil fire, the devil fire burned for 10 seconds, dealing 30 damage per second.

...

Su Xiao's heart sank after reading the information about the Dark King. If the Dark King fully awakened, although it would not be as terrible as Baham, it would not be weak. At least it would be no problem to kill him.

Chapter 492: Change Hands

"Where is that dog? I'll give you one last chance."

Dark King - Minas exhaled a breath of devil energy. There was yellow liquid dripping from his chin. It seemed that Bobowang was a little angry these days.

"Kill me, and it will appear."

Su Xiao slowly approached the Dark King. The strength of the other party was too strong. He had no chance of winning, but the enemy was already in front of him. He could not retreat.

"It seems that is your subordinate, Shortie."

The Dark King looked down at Su Xiao. Under the height of more than three meters, Dark King, Su Xiao's normal human height could not match.

Su Xiao rushed forward directly. Now there was no need to talk nonsense. Kill the Dark King and find a way to leave the black forest.

After that, find a place to pass the remaining time of the trial in the common area. If the black fog of the dark forest bell disappeared, then retreat to the Red Earth Region.

Su Xiao rushed forward quickly. Dark King clenched his fists. If its strength fully awakened, he could beat Su Xiao with one punch.

Unfortunately, the Dark King did not fully wake up. It was a dream to beat Su Xiao to death with one punch.

Keeping a distance of about two meters, Su Xiao held the sword with one hand and slashed at Dark King's neck.

Dark King stood still in the same place, neither attacking or defending.

Dragon flash cut through the air and made a sound, leaving a light blue chain in the air and slashing on Dark King's neck.

Ding!

The crisp sound of metal and metal spread far away. Su Xiao frowned. The other party used his body to resist his attack.

The rebound force was passed to his hand, and Su Xiao's right hand felt numb.

The Dark King's face was also not good because it was injured, a trace of blood appeared on the neck, and energy invaded the body, making it suffer unimaginable pain.

The Dark King used his hand to touch the blood on his neck and put his hand in front of him.

"You can hurt me. It is worthy of praise."

The wound on the Dark King's neck had already healed when he spoke.

Su Xiao took the opportunity to take two steps back. Just now, he had attached green steel shadow energy to the dragon flash and cut the opponent's vital point. Unfortunately, he could not cut off the opponent's head.

The sharpness of dragon flash and the swordmaster could only break the defense of Dark King. The reason was very simple. The Dark King's rank was much higher than Su Xiao's.

Although he had not fully awakened, the defense of the Dark King would not weaken.

Hu ---.

Dark King suddenly disappeared in front of him, and the sound of air breaking came from behind him. Su Xiao immediately bowed his head.

A black iron fist swept over his head. This fist was fast and urgent, and the strength was not to be picky.

Jumping a few meters away from the side, Su Xiao thought about countermeasures in his mind. His slash could break the skin of the Dark King, which was enough.

As long as he could hurt the enemy, the green steel shadow energy could invade the enemy's body and then burn the enemy's mana value. It could cause at least 50 real damage each time.

Using all the green steel shadow consumed 30 mana points per minute. Su Xiao had 1306 mana points left and could maintain the green steel shadow for 43 minutes.

Su Xiao looked at the Dark King. The other side was completely dark, like a strong man carved from obsidian, unable to cut through and smash.

If Su Xiao could not kill the Dark King within 43 minutes, he had no chance of winning, but considering the explosive effect of the magic power after opening the green steel shadow, Su Xiao had some confidence.

The green steel shadow would burn the mana values of the enemy while causing damage. The dark King had 310 points of mana values. After a few strokes, the dark King could not use any skills to use mana values.

After drafting a plan in his heart, Su Xiao decided to fight a battle of attrition with the dark King.

Su Xiao did not say a word. The dark King did not speak after the battle began. The two sides faced each other in silence.

A few seconds later, Su Xiao suddenly burst out and rushed to the front of the dark King with two big strides.

This time, Su Xiao chose the position of the arm. He did not attack the weak point of the Dark King. At this time, the difference between the weak point and the arm was not big.

The green steel shadow energy would invade as long as it could hurt the enemy.

The sword light flashed, and a blood mark appeared on the wrist of the Dark King. The light blue energy invaded the wound and disappeared in a flash.

The sword hurt the enemy, and Su Xiao did not retreat.

The Dark King gritted his teeth. Although it was a mutant demon, it also had pain. The green steel shadow energy hurt it so much that it was 'dying'.

The Dark King's iron fists ignored Su Xiao's hammer, and Su Xiao dodged sideways.

At the same time as he dodged the punch, the long sword in Su Xiao's right hand slashed at the chest of Dark King.

The Dark King grinned. The big dark hand flashed a shadow and directly grabbed Su Xiao's wrist.

Pa!

The Dark King grabbed Su Xiao's hand, holding the sword. The Dark King grabbed Su Xiao's hand holding the sword, and the pain came.

This was almost a certain death situation, but Su Xiao looked calm. He did not care that his right hand was caught by the Dark King.

One hand for one eye, it was worth it.

Although his right hand was grabbed tightly, he threw the dragon flash in his right hand, his left hand held the hilt, and the sword stabbed into the Dark King's eyes.

The Dark King had two choices at this time. One was to close his eyes and try to see if his eyelids could resist the straight stab of the dragon flash.

Two were to let go and retreat. Both choices were beneficial to Su Xiao.

The stab was only an instant, and the Dark King did not have time to think too much. It directly let go and retreated.

Zi ---.

The sound of the metal wire was heard, the figure of the Dark King retreated, and Su Xiao stabbed.

Puchi.

The long sword stopped after entering the eyes of the Dark King. The Dark King grabbed the blade of the dragon flash with his bare hands.

Su Xiao held the sword with both hands and pulled the dragon flash out of the palm of Dark King with all his strength.

Blood gushed out from the fingers of the Dark King, and at the same time, Su Xiao removed the boundary line wrapped around the Dark King's arm.

If the Dark King grabbed the boundary line, it would be troublesome, and the boundary line was connected to his arm.

Both sides retreated. Su Xiao held the dragon flash in his hand, and the sword's tip was dripping blood.

He raised his right arm, the wrist of his right hand was blue and purple, and the dark purple handprint was visible.

He tried to clench his fist. Although it was a little painful, it was no problem to swing the sword.

Dragon Flash was thrown back to his right hand. Su Xiao would not only swing the sword with his right hand. His right hand was just used to the hand.

His left hand could also swing the sword at the critical moment, which was equally accurate.

The Dark King covered one eye and gasped heavily. This was an angry gasp.

After two rounds of fighting, it lost an eye. It was true that the Dark King's recovery ability was very strong, but that was only for the recovery of its injuries.

It could not recover its broken limbs, let alone its eyeballs.

One of the Dark King's eyes was blinded. This was undoubtedly great news. Su Xiao had already looked at the other eye of the Dark King. If the Dark King were completely blind, then he would win.

Dragon Slash Void Slash, dancing a blade flower.

Su Xiao moved sideways and began to shift to the right side of the Dark King. The Dark King was blind in the right eye. This area became a field for the blind.

The Dark King calmed his emotions, and the contempt in his eyes disappeared. He realized that he had not recovered his strength. Before he recovered his strength, the enemy in front of him might kill him.

This was the price of a long life, and there was a period of weakness after each sleep.

Su Xiao and Dark King did not have the habit of talking during the battle, and there were only the footsteps of the two people moving on the field.

Su Xiao's body suddenly leaned forward and was about to rush forward. Dark King immediately became alert, but this was just a fake move.

From the moment the Dark King was blind, the rhythm of the battle was in Su Xiao's hands.

However, Su Xiao remembered one thing, he must not be caught by Dark King. Dark King could tear him apart with his bare hands.

Chapter 493: Dying

Su Xiao was extremely careful when fighting with the Dark King, always maintaining a buffer distance of three to six meters from the other side.

The Dark King was like an iron man that could not be broken, and his strength and speed were also terrible. If the Dark King used full speed, Su Xiao could only dodge.

Fortunately, Su Xiao did not fight with brute force. He moved sideways in front of the Dark King, and the Dark King could only follow Su Xiao's figure to move the perspective.

Su Xiao rushed forward again. Dark King's two dark big hands formed claws, waiting for him to come close at all times.

Su Xiao pulled out the black gun on the outside of his thigh with one hand and fired several shots at the Dark King's eyes.

Ding, ding.

Sparks splashed, the Dark King's hand was in front of his left eye, and the bullet hit his palm with sparks.

Su Xiao missed the clip of the black gun, and the black gun was put away. The meaning of this attack was not big.

He only had more than forty minutes, and the strength of the Dark King was gradually awakening, and he could not delay it.

Stepping on the ground lightly, Su Xiao rushed forward, and the long sword blocked in front of him.

The Dark King found that Su Xiao rushed forward, and it also rushed straight to Su Xiao because it could only be seen from a one-sided perspective.

If Su Xiao did not take the initiative to attack, it would not dare to take the initiative to attack.

The Dark King had lived for thousands of years, and he did not know how many battles he had participated in. If not for his body being a little slow when he just woke up, the opening would have never blinded him.

Quickly rushing forward, Su Xiao's figure suddenly accelerated and rushed directly to the blind spot of the dark King.

The long sword slashed forward, and the dark King could only block with his arm helplessly.

A blood mark appeared on the Dark King's arm with a swoosh. The green steel shadow energy seeped in, and the pain came. This sudden pain made the dark King's body stop for a moment.

Su Xiao originally wanted to retreat to stop, and the muscles of his right arm were bulging.

"Inch break."

Su Xiao slashed a few times at high speed, leaving a cold light in the air.

Puchi, Puchi...

Blood splashed, and there were cuts on the chest and arms of the Dark King. Although these cuts were not deep, they would invade a large amount of green steel shadow energy.

The Dark King's eyes were bloodshot, and he endured the unimaginable pain. At the same time, he stepped on the ground with one foot and made a roar toward the sky.

"Roar!"

A sound wave spread out, and Su Xiao's ears buzzed. This was the skill of the Dark King.

Skill 3: Roar, Dark King released a sound wave that could shock the enemy's brain, and the enemy would suffer 300 points of damage and 2 seconds of dizziness.

Just as Su Xiao was waiting for the dizzy judgment, the judgment in his imagination did not appear, and he found that the power of the Dark King's voice was not big, and it was far less than 300 points of damage.

With Su Xiao's experience, the extent of 300 points of damage was equivalent to stabbing his lower abdomen three times.

The Dark King roared, and a brutal smile appeared on his face. He stepped on the ground, and the soil splashed and rushed to Su Xiao.

Su Xiao stood still in the same place, and it seemed that he had entered a dizzy state.

The Dark King's big hand grabbed Su Xiao's face. If the head were caught, Su Xiao would die without a doubt, and it was possible to be twisted off the head by the Dark King.

The palm blocked Su Xiao's sight, and it was dark in front of him.

At this time, the Dark King suddenly felt that something was wrong, and there was a rapid sound of wind-breaking in the blind spot on its right side.

A cold light appeared in the Dark King's sight, it was the tip of a knife, and the Dark King felt cold.

Although the Dark King looked like a demon god, no matter how high it was, it was also in the category of creatures, so it also had the emotion of fear.

Puchi.

The tip of the dragon flash entered the dark King's left eye, and the dark King was completely dark in front of his eyes.

Just before the dark King was completely blind, its big hand grabbed Su Xiao's shoulder, and its fingertips entered Su Xiao's flesh.

At the same time, the dark King knew that it was dead. Even if not killed by this human, other creatures in the black forest would kill it. It controlled the undead of the black forest, which many strong people watched.

"Human, let's die together."

The dark King tightened his palm, and Su Xiao's left shoulder was crushed with a click.

The dark King judged his position according to Su Xiao's shoulder, his right hand grabbed Su Xiao's shoulder, and his left hand grabbed his head.

The left side of the body was numb because of the broken scapula, and Su Xiao was in pain with cold sweat all over his face.

Looking at the big hand coming, Su Xiao's eyes jumped. If he was caught, the Dark King might bite him.

His body's green steel shadow energy burst out, and the dragon flash instantly became a bright electric blade.

The green steel shadow energy vibrates at high speed on the surface of the dragon flash, and thousands of mana values were consumed.

The left arm of the Dark King came, Su Xiao took a deep breath, and some of the surroundings seemed to have slowed down, the movement of the Dark King became slower, and the airflow around became slower.

The saber light flashed, and large amounts of blood sprayed out. A heavy arm flew up.

His arm fell to the ground, and his fingers twitched.

The Dark King opened his mouth slightly. Although he could not see what was happening, he could feel his arm cut off.

After cutting off Dark King's left arm, Su Xiao looked at Dark King's right arm, holding his shoulder tightly.

Because of his height, Su Xiao had been picked up by the Dark King, and his feet left the ground. He could regain his freedom as long as he cut off his arm.

The Dark King's expression became ferocious. Ignoring Su Xiao's attack, he picked him up and slammed him to the ground with all his strength.

Boom!

Large cracks appeared on the ground, Su Xiao was swung in the air by Dark King, and his back touched the ground first.

Blood overflowed from his mouth, Su Xiao's brain buzzed, and his eyes were dark.

When Su Xiao did not have time to catch his breath, the feeling of the world spinning appeared again.

Boom!

Su Xiao was picked up again and fell to the ground.

Although Su Xiao and Dark King's strength attributes were similar, the difference in size and weight was too much. Being grabbed by the Dark King on the shoulder, Su Xiao had no possibility of breaking free.

Su Xiao was picked up for the third time. Dark King did not throw him to the ground but bent his knee and threw Su Xiao on his knee.

Crack.

The side ribs on Su Xiao's back caved in, and several ribs broke into a V shape, piercing into the organs.

It was dark in front of him, and his body was numb and weak, but Su Xiao knew that he was doomed this time, and he was likely to die here today.

Fortunately, Su Xiao's physical attributes were high enough, and he had the bonus of the spirit shadow physique. Although he did not seem resistant to fighting, his actual survival ability was very strong.

The Dark King swung Su Xiao for the fourth time, and this time he fell to the ground.

The green steel shadow had destroyed Dark King's mana value, so there was no dizziness when he used the skills, but this did not mean that Dark King could not use all skills.

After Su Xiao's body fell to the ground, purple light flashed on the chest of Dark King, and a wave spread.

The Dark King maintained a still posture and pressed Su Xiao to the ground with one hand as if he was brewing something.

The darkness in front of Su Xiao gradually retreated, but his brain was still buzzing, and all the bones in his body seemed to fall apart, and no place did not hurt.

He was seriously injured, and his body could not move. This was already a desperate situation.

Su Xiao had a smile on his face. In addition to the battle with the president, Cerulean, he had not encountered this kind of crisis for a long time.

Woo ---

A whistling sound came from the high sky. A black meteorite of 3 × 3 meters fell from the sky, dragging a long tail flame.

Chapter 494: Blind

The meteorite's surface was wrapped in a layer of orange flame, which should be the demon flame.

"Is there a mistake?"

Su Xiao looked at the meteorite falling from the sky. If this meteorite hit him, he would be smashed into a meat patty.

The meteorite was getting closer and closer to the ground. After a long acceleration time, this meteorite clip had a horrible moving and whistling sound.

Dark King let go of Su Xiao's shoulder and punched Su Xiao in the chest. He punched his chest with a small fist, and then it jumped backwards.

Su Xiao spat out a mouthful of blood and almost fainted. When his vision recovered, the meteorite had filled his sight.

Dong!

Like a hydrogen bomb exploding on the ground, the meteorite smashed deep into the soil, and the powerful kinetic energy spread around, and a layer of the ground was blown away.

The smoke and dust spread around, forming a huge circle. The ground within several hundred meters cracked like a spider web.

The impact receded, and a crater several meters deep appeared. There was a circle of small soil at the edge of the crater. This was the characteristic of the crater.

Skill 6: Dark Meteorite. Dark King summoned a meteorite of 3 × 3 meters in size and 3 meters in the air, causing $500 + \text{Strength} \times 2 + \text{Intelligence} \times 5$ damage. It also has the burning effect of Devil Fire. Devil Fire burns for 10 seconds, dealing 30 damage per second.

...

At the center of the crater, under the burning of the demon flames, the soil here turned grayish-white and glass, like a fire extinguisher.

The Dark King stood near the crater, gasping for breath. A happy smile appeared on his face. Although his future fate would be very tragic, he had killed that human.

Ka ba, ka ba.

The glass ground in the crater's center was crushed, making a crisp sound.

A figure swayed from the crater, and there were no injuries or burns on his body.

"You were... laughing just now, right?"

Su Xiao held the dragon flash in his hand, and his left arm hung down softly.

Su Xiao would be dead if the dark meteorite had directly hit him, but he dodged the dark meteorite. No, he used an ability to block the dark meteorite. It was the ability of the dark purple scabbard.

[Special effect: Blessing of the Holy Spirit. After activation, it will produce a layer of Secondary Invincible Shield. The shield lasts for 1 second. Cooldown: 72 hours.]

The dark meteorite was very strong, but it was not strong enough to smash the Secondary Invincible Shield.

Although he resisted the dark meteorite, the demon flame on the dark meteorite was enough to burn Su Xiao to death. He could survive because of the skills of the equipment he wore—the shield ability he had.

[Protection: Quickly generate an invisible shield to defend against attacks. The shield's durability is equivalent to 80 of the user's maximum HP. Lasts for 30 seconds.]

[Hint: Activating the shield requires 10 Mana.]

[Hint: The shield cooldown time is 10 hours.]

The two shields saved Su Xiao's life. When he walked out of the demon flame, the shield on his body shattered, and the demon flame disappeared into the air after nothing was attached to it.

Blood flowed down the corner of Su Xiao's mouth. His left shoulder blade was crushed and fell three times by the Dark King. He also hit it with his knee once, and then he was smashed by the dark meteorite.

Su Xiao did not die. And his HP was 16, and the Dark King was blind. Although he still had the hearing, smell, and perception, it was useless.

Not far away, Bobowang jumped down from the tree. It had used its ability before. Otherwise, Su Xiao would be smashed to death by the Dark King.

"Woof."

Hearing this familiar dog barking, the veins on the Dark King's forehead bulged, and he immediately turned around.

Hurried footsteps came from behind the Dark King. It was already too late when the Dark King wanted to turn around.

The crisscrossing slashes appeared behind the Dark King. The Dark King grunted and staggered forward.

The thick one arm attacked Su Xiao. Su Xiao immediately jumped back to avoid it. After landing, he lowered his footsteps. He shook his arm and threw the blood on his body on the ground.

This way, Dark King could not capture his traces with the smell of blood.

"Woof."

Bobowang shouted again. Of course, our wet nurse, Bobowang, would not approach. It was responsible for attracting hatred.

"Bastard..."

Puchi.

The burning pain interrupted the Dark King's words. The veins on the Dark King's forehead bulged, and he waved his one-armed arm around wildly.

"Woof."

At the same time that Bobowang shouted for the third time, Dark King subconsciously turned around. Unfortunately, the attack still came from behind.

Su Xiao did not have the spirit of a knight, and the Dark King also did not. The core thought of the battle between the two sides was to kill the other party. It was so simple and crude.

"Gamma Tuna!"

In a moment of desperation, Dark King said all the abusive words of his hometown. If translated, it was similar to the meaning of the RANP.

Su Xiao didn't understand the devil language, but he was cutting very well. He would deliberately suppress the footsteps, let alone take the initiative to speak.

"If you have the guts, let's fight one on one!"

Dark King was also forced into a hurry. Generally, the style of the villain, who was full of arrogance, was fake. The current appearance of Dark King was the most realistic.

Su Xiao ignored the words of the Dark King. The other party was dead. He paid such a high price for the current situation. Who would fight the other party one on one? Was he retarded?

The moment the Dark King caught him, Su Xiao had already thought that he would be beaten badly and might die. The defense of the Dark King was too strong, and there was no room for him to make other choices.

"Woof!"

Bobowang continued to attract hatred, and Su Xiao took the opportunity to kill.

After repeating this more than ten times, the Dark King was already somewhat unstable. It did not want to die. It still had a deep hatred of the blood sea that had not been avenged. The green demon was still in the abyss.

The Dark King stood still and let Bobowang provoke him.

Orange flames emerged on the surface of the Dark King's body. This was the demon flame. It wanted to demonize forcibly. As long as the demon succeeded, its eyes could become the demon eye, and its vision would be restored.

"Ah!!!"

The Dark King roared to the sky. The demon flame rose high, and Su Xiao, in the distance, felt the burning sensation.

Pu ---

Gasps were heard, and Bobowang almost laughed out loud. His gaze seemed to be saying, "What a shocking fart!"

The demonic flames on the surface of the Dark King's body gradually subsided. Before it fully awakened, it could not demonize.

The Dark King fell to the ground with a thud, and the Dark King twitched on the ground twice and stopped moving.

Su Xiao pulled out the white gun and fired several shots at the Dark King. The Dark King's body squirmed and struggled for a long time without standing up.

"I... I lost. You can end me... or torture me, and this is the rule of the Demon Abyss."

Although Dark King, who was lying on the ground, was in a sorry state, he looked calm. If he lost, he lost. Even if his strength did not wake up, even if he could not use demonization.

Dark King did not mention these things. The current situation was that it was lying on the ground. The enemy still had the strength to hold a knife. It was an excuse to say more. Victory and defeat were the final goals of the battle.

Su Xiao stepped forward and stabbed at Dark King's throat.

The wound was not deep. The green steel shadow energy invaded Dark King's body. Dark King twitched twice and then remained motionless.

"..."

The Dark King looked up. It knew that the enemy was not torturing it, but its body defense was too strong.

"The defeat is really ugly."

The Dark King lowered his head, no longer making a sound, no begging for mercy, and no unwillingness.

Chapter 495: Trial is Over

Su Xiao aimed at the Dark King's eye socket. The long sword penetrated the dark King's eye that had been blinded and went deep into the brain.

The dark King was like a dead fish on the shore, twitching but unable to move.

The green steel shadow ability continued to be released. After more than ten seconds, the nerve system of the dark King collapsed, but even so, it still did not die.

Bobowang also rushed forward, biting and grabbing. Su Xiao slashed one slash after another.

Because the injury was too heavy, Su Xiao collapsed to the ground after a few cuts.

Two minutes later, Bobowang grimaced and retreated to the side. Dark King's skin was too hard, and it could not bite.

Su Xiao rested for a while and stood up. The dragon in his hand flashed with a blue light.

It had been ten minutes since the blue steel shadow was activated, and the effect of the explosion of mana appeared.

The sword was cut down, and with the addition of the real terrible damage, the sword cut the throat of the Dark King.

The hint of killing the Dark King just appeared, and Su Xiao felt a burning sensation on the back of his hand.

This was a blood-red cross mark, the ability he obtained after the end of the Water Capital.

Demon Seal: Lv.2

[Skill Effect 1: Additional 13 True Damage to attack.]

[Skill Effect 2: Able to increase the level of the Demon Seal by sacrificing equipment. You have reached an agreement with a high-level demon.]

The blood-red mark on the back of Su Xiao's hand flashed, and a wisp of black smoke floated out of the Dark King's body.

The smoke was pure black, and it seemed to be able to swallow all light. This was the purest devil power.

The devil's seal gradually swallowed the devil's power. The body of the Dark King quickly withered, and large cracks appeared on the hard skin.

Su Xiao was not worried about the change of the devil seal. This mark was on the surface of his body. The devil's power could not enter his body with the green steel shadow energy.

The devil seal stopped after upgrading five levels. If it were upgraded through sacrifice equipment, this level was enough to make Su Xiao bankrupt.

Looking at the attributes of the devil's seal, Su Xiao raised his eyebrows.

[Devil's Seal: Lv.7]

[Skill effect 1: Additional 28 points of real damage when attacking.]

[Skill effect 2: Can increase the level of the devil's seal by sacrificing equipment. You have reached an agreement with the higher demons.]

Lv.7 Demon's Seal was already very strong, adding a full 28 points of real damage. Although it required close combat to add real damage, Su Xiao's main ability, Qing Gang Yin, only caused 50 real damage.

According to Su Xiao's observation, the level of real damage was very high, and it had the characteristics of ignoring the body defense.

Su Xiao put away the demon box that Dark King dropped. His recovery was not much, and his injury was not as simple as recovering HP. He had to hide as soon as possible. This was the depths of the black forest.

Looking around, there were only trees and stones nearby. Su Xiao's eyes were locked on the shaft where the Dark King was previously.

This was the best hiding spot.

"Bobo, investigate."

Bobowang's face was embarrassed and quickly shook his head. His gaze seemed to say: "Master, I just went inside to pee."

"It's okay. We take refuge in the middle, such a deep shaft."

Bobowang reluctantly walked to the shaft and smelled the smell inside. There was no smell. After listening carefully for a while, there was no sound under the shaft.

Su Xiao threw the body of the Dark King into the shaft and cleaned up the traces of the nearby battle.

Standing in front of the shaft that was a few meters thick, Su Xiao thought for a moment. He cut off more than a dozen trees nearby and threw the thick trunk into the shaft.

Bobowang's expression relaxed a lot. Su Xiao pulled out the boundary line with his right hand and put Bobowang down.

"Woof."

The cry came from under the shaft, and Su Xiao also used the boundary line to enter the shaft.

Stepping on a tree branch with a diameter of about two meters, Su Xiao sat on the shaft wall. He needed to rest now. Many fractures and a lot of blood loss made him sleepy.

The shaft was a safe point in the black forest.

Dark King chose to sleep here, which showed how safe it was. The wild boar was lucky to find this shaft. Otherwise, it would be difficult for Su Xiao to find Dark King.

There was enough food and water. Su Xiao and Bobowang could hide under the shaft for a long time.

The sky was getting dark, and the black fog around the black forest got lighter and lighter.

Su Xiao was seriously injured, and he was often in a semi-conscious state in the shaft. If not for the Ice Goddess Halo and the scabbard skill 'Vitality', he might have died from serious injuries, and the ribs inserted into the organs were too fatal.

[Gift of the Ice Goddess: Create the Ice Goddess Halo and restore one ally's HP every second. The recovery effect is increased according to the intelligence attribute with no consumption.]

[Vitality: Recover 10 HP and 0.5 MP every minute.]

These two abilities kept Su Xiao seriously injured and not dead if he wanted to recover from his current injuries unless he could get a super-effective recovery item or return to the reincarnation paradise.

Time passed quickly. Su Xiao woke up for the fourth time in the well. Although his chest was stuffy and his breathing was not smooth, he was not in danger of dying for the time being.

Looking at the remaining time of the trial, Su Xiao was stunned.

"I have been unconscious for nearly three days. I thought I was dead."

Su Xiao looked at the status, and there were a few blood-red words under the status list.

He did not expect that the Dark King was so strong before. This was a lesson. He could not rashly enter the area above Lv.20 difficulty in the future, although it was very satisfying to fight the BOSS alone.

Looking at the hidden task, the hidden task showed the completion state. It could not be completed now. This was not the derivative world but the trial world. The reward of the hidden task would be settled after returning to the reincarnation paradise.

Su Xiao did not intend to go out. It turned out that although this shaft was located in the black forest, it was safe here.

The common area on the grassland.

At this time, it was very lively here. A large group of beasts were fleeing for their lives. The overwhelming number of undead poured out from the black forest. Not only the undead but several existences similar to the Dark King had completely awakened.

More than 90 of the surviving contractors escaped into the Red Earth Region. The common area had become the territory of the undead.

Three hours later, the undead completely occupied the common area, and there were wild beasts that had been eaten into bones everywhere. There were fresh bloodstains on the bones.

In the stone bridge between the red earth area and the common area, countless undead stood in front of the stone bridge, not daring to take a step further.

A pale older man walked out of the undead. The older man was bald and had no eyebrows and beards.

"Why do you not allow us to pass?"

The older man looked like a human, but this was not a human, but a void race. The dark King was wrapped in the ground, and the strong people in the black forest were all prisoners exiled to Devour Island in the void.

The big mouse man stood on the stone bridge. It did not make a move at all but just stood there.

"I said that it can't be allowed to pass, so it is not allowed."

The black fog around the black forest dissipated, and the difficulty of Devour Island was much more difficult than the trial, so the big mouse man stood up at the behest of the reincarnation paradise. Otherwise, the final surviving contractor would not exceed ten people.

The pale older man looked at Lord Rat.

"You..."

"Stop farting, and I'm just asking you."

Lord Rat squinted at the pale older man. He had seen this kind of scene too much.

The pale older man clenched his fists and was about to speak when he was interrupted by Lord Rat.

"You forgot..."

Lord Rat's voice became smaller and smaller, but the pale older man's body trembled, and his expression was a little frightened.

"You can attack the Red Earth Region in three hours. Now, go!"

Lord Rat roared. The pale older man turned around and left, not daring to say anything. Lord Rat was not terrifying, but the person behind him was too terrifying.

Under Lord Rat's suppression, three hours quickly passed. In the chaos, there were a total of 36 people survived.

501 people landed on the Island, and 36 people survived. The survival rate of survival was less than one-tenth.

...

In a valley in the Red Earth Region.

Brother Wu San was leaning against a rock wall. Beside him was Old Baal, who had been dead for a long time.

"Cough, cough, cough, cough."

Brother Wu San coughed up a few mouthfuls of blood, his eyes filled with unwillingness.

"Little muddle-headed, so you are the one who hid the deepest."

Brother Wu San looked at the two broken arms and smiled bitterly. They went deep into the skeleton cave and should have successfully stopped the black fog from dissipating, but unfortunately...

...

In the vertical well of the black forest, Su Xiao was waiting for the trial to end.

Chapter 496: Unmasked

There was no sense of teleportation at the end of the survival trial.

[Announcement: All contractors must arrive at the boarding point in half an hour. There are 12 boarding points. the contractor can choose any one of them.]

[Announcement: The trial has ended. All contractors will be forced into a prohibited state.]

[Announcement: In three seconds, all contractors will receive a Domain level invincible shield, a high-level invisibility spell(only effective against creatures on the island). This effect will disappear after boarding.]

...

A layer of golden shield appeared, and white feathers floated on the edge of the golden shield.

Su Xiao looked at Bobowang. Bobowang was already translucent, and the surface of his body was wrapped in a layer of golden shield.

Now he only needed to return to the boarding point. There were twelve boarding points, two on the island's edge, three common areas, and seven Red Earth Region.

He struggled to stand up, and the pain came from his chest.

"Cough, cough, cough."

Su Xiao coughed out a few mouthfuls of blood, which shocked Bobowang.

"It's fine."

Su Xiao wiped the blood from the corner of his mouth. There was no need to fight now. There was the invincibility and stealth of paradise. No creatures on the island could threaten him.

The reincarnation paradise reduced the time to let the contractor board the plane as soon as possible.

Su Xiao climbed out of the shaft, and the source of the black fog eroded him. The golden shield shone, and the source of the black fog could not invade the invincible shield at all.

Riding on Bobowang, a man and a dog quickly rushed to the island's edge.

Twenty minutes later, a plane stopped near the beach and came into view.

The sound of the tide entered his ears. Su Xiao did not board the plane immediately but looked at the endless sea.

"What a coincidence, actually meeting here."

The crisp girl came. Su Xiao did not turn his head. He remembered this voice.

"Brother Wu San and Old Baal are dead?"

Su Xiao's words made the person stunned.

"Brother Wu San is not dead. Old Baal is unfortunately killed. It is all to protect us..."

"Ah ---"

Su Xiao sneered. The person narrowed his eyes and bit his white thumb.

"You have to believe me. Old Baal's death has nothing to do with me. He was poisoned to death."

Su Xiao turned his head and looked at the person. The person was a little confused about tattered clothes.

"You didn't kill your brother Wu San. Are you soft-hearted?"

Su Xiao ignored Xiao MiHu's words and seemed to be talking to herself.

"What are you talking about? I don't understand."

Xiao MiHu spread out her hands and smiled very pure. She jumped and ran to the plane.

Dragon flash appeared in Su Xiao's hand. Almost subconsciously, a dagger slipped out of Xiao MiHu's cuff.

"Oh no ---"

Xiao MiHu held onto a long dagger that flashed with dark purple light and stuck out its tongue.

"I forgot about the Invincible Shield and Forbidden Martial Arts."

The long dagger flew into Xiao MiHu's hands. No matter how one looked at it, Xiao MiHu did not look like a nanny.

"An assassin is going to learn the skills of a wet nurse. What a weirdo."

Hearing Su Xiao's words, Xiao MiHu pouted.

"It should be the wet nurse who learned the skills of an assassin. The one I want to kill the most is you, not that old man."

Just as Xiao MiHu finished speaking, it found that Bobowang was looking at her with a strange gaze, as if saying: Isn't it good to live? It would help if you came to die.

Su Xiao turned around and walked to the plane. He no longer went to chat with Xiao MiHu. At first, he did not find the abnormality in Xiao MiHu, but when he parted ways with the team, Xiao MiHu's action made him notice the abnormality.

At that time, Xiao MiHu looked at the wild boar with killing intent in her eyes for a moment. The wet nurse would not have that kind of gaze. It was a gaze that only people who often killed people would have.

Sure enough, the children in the reincarnation paradise were not normal. Otherwise, they would have been eliminated.

After Su Xiao boarded the plane, he casually found a seat and sat down. After a while, Xiao MiHu also boarded the plane, and she played with the dagger in her hand.

The two sides did not continue to talk. After the plane took off, there was only the engine's roar left in the cabin.

[The storage space has been removed.]

"It's easy."

Xiao MiHu raised her hands and seemed to be very happy.

Su Xiao raised his eyebrows, and the storage space could finally be used.

It was too inconvenient without the storage space.

Putting the spider queen, black and white double guns and the items obtained in the trial world into the storage space, Su Xiao was a lot more relaxed.

A few hours later, the plane gradually descended and arrived at the first island.

Several planes had already stopped and just arrived at the island. The sense of teleportation appeared.

[Teleportation complete. Hunter returns to the exclusive room.]

[Exclusive room is an absolute safety point. No one can enter except the hunter.]

[Hunter used to return to the reincarnation paradise and began to calculate the rewards of the derivative world.]

Survival Trial: Devour Island

Difficulty: Lv.14 --- Lv.20

Obtained Origin of the World: 36

[Mission number: 3(Hidden Quest ×3)]

[Comprehensive evaluation: None. (Survival mode trial has no evaluation.)]

[Discovered hunter to obtain the World Origin in the trial world.]

[Beginning to collect the World Origin...]

The World Origin was collected, and the rewards began to be calculated.

Reward: 14 attribute points, 18,000 paradise coins.

The settlement was completed, and the reward had been automatically deposited into the hunter mark.

...

There was no evaluation in the trial world. Just as Su Xiao was about to spend paradise coins to recover his body, the hint of the reincarnation paradise appeared again.

[Hint: The hunter has completed the second stage of the trial.]

[The hunter has advanced to the second stage.]

[The lowest difficulty of the derivative world in the future is Lv.10.]

[Hunter attribute shackles have been removed, attributes can break through 50 points.]

[Arena has been upgraded. In the future, the hunter will compete with the second rank contractor, and the Heavenly King Mark will be retracted.]

[Because the hunter has the Heavenly King Mark, the second rank arena ranking of the hunter is increased to 50,000.]

[has unlocked the new ability, the derivative world communication platform. This function is effective after the hunter enters the new derivative world.]

...

Su Xiao thought that it was true. As he imagined, there was no situation of upgrading to the second level. It was still the same attribute, strengthening hall and trading square with the first level contractor.

The biggest benefit of advancing to the second level was to break through the body limit, and the attributes increased to more than 50 points.

Not only that, from now on, the lowest difficulty of Su Xiao entering the derivative world was Lv.10, so he could enter some more complex worlds, such as full-time Hunter, Holy Grail War, and so on.

This is good news and bad news. The bad news is that the derivative world is more difficult, and the risk of death is higher. The good news is that the greater the difficulty of the derivative world, the faster his strength grows, and he can get stronger abilities.

[Checking to the hunter to complete the hidden task, a total of three rings, the difficulty is Lv.16, Lv.17, Lv.19.]

[Checking mission completion rate...]

[Mission completion rate is 89, evaluation excellent.]

[In the reward, the hunter can choose one of the following options.]

[A: 8 attribute points.]

[B: Soul Crystal(Middle) * 6.]

[C: Dark purple equipment(Random) * 1]

[D: Honorary badge(can be exempted from a failed mission punishment, including a forced execution.)

[E: Gan activated egg white(forging, strengthening and other key materials)]

[F: Random skill scroll(dark purple quality or above)]

...

Seeing the reward of the secret mission, Su Xiao was very confused. It was not that the reward was low, but each item was very generous. For a time, he did not know how to choose.

Chapter 497: Breakthrough, Breakthrough

After hesitating for a long time, Su Xiao finally chose A, 8 attribute points. The reason was very simple. Compared to other options, he needed attribute points more.

The development of four attributes at the same time was very difficult. Su Xiao wanted to seize the opportunity to get attribute points.

Although physical fitness did not mean that he was strong, this was a strong foundation. A weak body could not carry a strong ability. This was a lesson of how many people bleed.

"Activate."

As soon as the voice fell, Su Xiao floated in the air, and a green light appeared in the exclusive room.

The recovery began. The feeling of suffocation and pain in his chest gradually disappeared. Half an hour later, the recovery was completed. It cost a full 8,000 paradise coins! Su Xiao was very distressed.

It could be seen how serious his previous injuries were.

He moved his shoulders. The broken scapula had been perfectly healed, and the ribs broken into V shape were also repaired. After the recovery of the viscera, the vitality was improved.

Taking a deep breath, this was originally a very ordinary action, but before he could do this kind of action, a rib was deeply pierced into his lungs, and he had been coughing up blood for this reason.

As his body recovered, Su Xiao took a bath and felt refreshed.

Just as Su Xiao was about to strengthen his attributes, he felt dizzy. At this time, he realized that he had not rested for three days.

Half a coma did not mean sleep. Half asleep and half awake in that state, the brain could not get good rest.

Su Xiao fell asleep, and he did not have to care about other things. He needed to sleep well first.

After sleeping for more than ten hours, Su Xiao got up and let go of the water, and then he continued to sleep. He did not have a good rest in the ten days of trial.

He did not know how long he slept, and a dog barking came.

Su Xiao got up and looked sleepy.

"Woof."

Bobowang was very unhappy. That gaze seemed to say: -Master, do you want to starve me to death?

Just as Su Xiao was about to turn his head and continue to sleep, Bobowang rushed up and beckoned the husky to wake him up.

"Oh ---"

Su Xiao was woken up by Bobowang.

"Stupid dog, I am sleeping soundly."

"Woof."

Bobowang called the alarm clock at the bedside twice. Su Xiao picked up the special alarm clock. This was a timer. Every time he returned to the reincarnation paradise, he would set the time to 72 hours. This was the time he stayed in the reincarnation paradise.

The timer showed 22 hours and 39 minutes, which showed that Su Xiao had slept for a day and a night.

After getting up and washing up, Su Xiao took Bobowang to Xia's restaurant. Xia was still the same, his business was half-dead, but he did not change the place and was more stubborn than a donkey.

After a full meal, Su Xiao went straight to the attribute strengthening hall.

Strength: 43

Agility: 43

Stamina: 42

Intelligence: 43

Charm: 5

Luck: 1

22 attribute points could be said to be a huge sum of money. Su Xiao looked pensive. He remembered something.

To unlock the new ability of Qing Gang Yin, he needed three main attributes to reach 50 points. He could do this now. 22 attribute points were enough to strengthen Strength, Agility, and Intelligence to 50 points.

Hesitating for a moment, Su Xiao's distribution method was: Strength +7, Agility +7, Intelligence +7, Stamina +1.

Just as he confirmed the strengthening, the prompt appeared.

Su Xiao was stunned. What did this mean? Couldn't all three attributes increase to more than 50 points?

He dispelled this thought in a flash. It should be another possibility. He could not strengthen the three attributes to 50 points simultaneously. Otherwise, his body could not bear it and needed to be strengthened three times.

Distribute the seven attribute points to the strength attribute, and the strengthening begins.

A feeling of pain suddenly appeared, and Su Xiao almost fainted.

Ka ---

Su Xiao gritted his teeth. The blood vessels in his body burst, and his muscles and bones were changing.

If it were for a change in quantity before, reaching 50 points was a qualitative change.

It was a checkpoint. The body of an ordinary human could not be strengthened to this extent.

After a full hour, Su Xiao, who was already exhausted, leaned in the strengthening warehouse, and the skin of his whole body was red.

He almost died just by strengthening one attribute. Yes, he almost died.

If the three attributes broke through 50 points simultaneously, there was no doubt that he would die.

[A. Divine Power: Strength +10.]

[B. Muscle Transformation: Enhances the defense of the body.]

[C. Barbaric: Temporary addition of 12 points of corrections for the enemy's Strength authentication.]

[D. Aojun: Immune the control skill cast by the power attribute below 60 points. 50 chance of exempting the control skill cast by the power attribute below 65 points. 30 chance of exempting the control skill cast by the power attribute below 70 points.]

...

Su Xiao, who was somewhat exhausted, showed a smile. As he expected, the reward of 50 attribute points was amazing.

Su Xiao began to struggle between option A and option D. After hesitating for a long time. He finally chose option D.

The attribute points could be obtained in the future, and the chance to be immune to control skills only existed now.

Su Xiao made a choice, and the strengthening capsule ran again.

After a long time, Su Xiao opened his eyes, and an intuition appeared. The control skills of the strength determined greatly reduced his influence on him, and he could ignore the control skills to a certain extent.

After strengthening his strength, Su Xiao gritted his teeth and continued to strengthen his agility attribute. He still used 7 attribute points to strengthen the agility attribute to 50 points.

A strange feeling came from his body, which made him grimace.

He was more willing to endure the pain than this feeling just now. Fortunately, this feeling quickly ended.

[A. Blue Phantom: Increases attack speed by 20.]

[B. Chimera: Increases movement vision by 8.]

[C. Super reflex: Increases reaction speed by 7.]

...

Su Xiao was again in a dilemma. 'Dynamic vision' and 'nerve reflex speed' were both the golden attributes of close combat. Now he was facing the problem of two choices.

After thinking for a while, Su Xiao chose C. He prepared a way to go into the dark. The enemies in the future were stronger and faster. It was still a problem whether his eyes could catch it or the nerve reflex speed was more important.

After choosing, Su Xiao's nerve reflex speed increased again, and he was more sensitive to unexpected situations.

The role of the nerve reflex speed was as follows. For example, if the enemy slashed at him if the nerve reflex speed was fast enough, he could catch the enemy's attack in time, but he could also immediately counterattack.

The most important test was the reaction speed of the dense bullets. Su Xiao could hack away the fear of the sniper rifle. First, the physical fitness was strong enough, the level of the sword was high enough, and the reaction speed was also important.

Both attributes reached 50 points, and now there was still the intelligence attribute.

Su Xiao frowned: "I won't... die because of the enhancement."

Chapter 498: Smash the Hand

Although he did not know what would happen to the enhanced intelligence attribute, this was unavoidable.

Distributing 7 attribute points to the intelligence attribute, Su Xiao waited for the judgment of 'fate'.

The unbearable feeling in his imagination did not appear, but his brain became clearer.

The strengthening of the intelligence attribute only lasted for five minutes, and there was no pain and no strange feeling.

Thinking about it, with the small plastic bodies of those mages, if they were to suffer from the pain of strengthening their attributes, they would leave a lifelong shadow even if they did not die.

[A. Super Spell: Increase 150 Mana Points.]

[B. Sage: Intelligence +10]

[C. Blood Song Shadow: Willpower +12.]

...

Su Xiao was a little puzzled. What was willpower? Was it the meaning of literal understanding?

After asking about the reincarnation paradise, he learned that willpower was the endurance of pain, the resistance to charm skills, etc. It was an invisible attribute.

There were many functions of willpower, and the reincarnation paradise did not give all the information.

When choosing the attribute reward, Su Xiao found a trick. He had a reward of 50 attribute points because of the shadow of the law. Only the options with the word 'shadow' were generally not weak, and it rarely appeared.

He decisively chose C, and the attribute strengthening chamber began to run. The time of this operation was even longer than when he strengthened his strength.

After a long time, the attribute strengthening chamber stopped running. Su Xiao strengthened the remaining attribute point to the physical attribute.

Now Su Xiao's naked attribute was as follows:

[Strength: 50]

[Agility: 50]

[Physique: 43]

[Intelligence: 50]

Charm: 5

Luck: 1

...

Su Xiao coughed lightly, and the main attribute was already ten times that of the charm attribute. This gap was a bit big.

Fortunately, the charm attribute has reached the level of ordinary people. After reaching 5 points, this thing has nothing to do with appearance and ugliness, mainly depending on the temperament.

Although Su Xiao was not as handsome as the protagonist in various stories, it was not related to ugly, just that the temperament was too violent.

Su Xiao always had a feeling recently, because he had killed too many people, his charm attribute had the possibility of falling...

After considering for a while, Su Xiao decided to strengthen the charm attribute appropriately in the future. At least it could not be negative.

Taking Bobowang back to the exclusive room, Su Xiao sat on the bed and took out all the harvest of the trial world.

The harvest of the trial world was not small, which was related to his style of courting death. Others hid after enough food to pass the trial, but where he was dangerous, he was finally killed in the black forest.

Putting the harvest in front of him, his harvest was as follows:

Soul crystal x13.

Magical Fantasy Stone

Hard carapace

Crescent Claw Blade

Demon Box

...

Su Xiao wanted to open the treasure chest first, sell some items, and strengthen various abilities.

When the new arena opened, Su Xiao was ready to go to the new arena to experience it if there was enough time.

According to the convention, picking up the dark devil box, Su Xiao took out a cigarette and lit it with the Fate Redemption lighter.

Opening the Demon Box, an item appeared in his hand.

Burning Demon Heart

Quality: Dark Purple

Type: Consumable

[Effect: You can use this item to enter the IV Demon Transformation Center. The Demon Transformation Center can transform humans into demons.]

[Rating: 260]

[Description: The risk of transforming a demon's physique is extremely high. You need to master the Demon Language and trade with the demons of the IV Demon Transformation Center to pay the modification fee.]

...

A heart burning with orange flame was beating in Su Xiao's hand. This thing was a kind of ticket. After using it, he entered a demon modification center.

Su Xiao was not interested in becoming a black skin man that was more than three meters tall.

Moreover, he already had the shadow of the law. He did not need other bloodlines.

Leaving the exclusive room, Su Xiao went straight to the market. He had a lot of things to sell.

He came to the often used stall, but unfortunately, there were already people. He rented a stall next to him and placed several items on the stall.

The hard shell was priced at 4,000 paradise coins. This thing was a good forging armor material, and 4,000 paradise coins could be easily sold.

Crushing Elf +5 was priced at 18,000 paradise coins. The broken elf was the equipment that he eliminated. Although it was green equipment, the attributes were very strong, and it had been strengthened +5. This price was not high.

As for the burning devil heart, Su Xiao had no clue.

The price of this thing was not easy to judge, so he put a high price of 200,000 paradise coins and waited for someone to bargain.

The stall had just opened for five minutes, and the hard shell was sold, and 4,000 paradise coins were in the account.

After a while, a contractor stopped in front of the stall.

"This gun is 10,000 paradise coins."

This brother was an honest person, and he directly cut down almost half of the price.

"18,000, no bargain."

In addition to the burning devil's heart, there was no bargain. Su Xiao would not set up too high a price. It would be a waste of time. He was not a businessman.

"11,000, no higher. This is just a green quality gun."

"Forget it if you don't want to buy it."

Su Xiao no longer spoke. The contractor grinned and knew that 18,000 paradise coins were the lowest price.

"18,000..."

After hesitating for a long time, the contractor shook his head and walked away. It was not that the broken elf was not worth 18,000 paradise coins, but this equipment had reached the limit, and there was no possibility of continuing to become stronger. As for continuing to strengthen, only a fool would do that.

Half an hour later, more than a dozen contractors gathered in front of the stall. After all, dark purple items were very rare.

One contractor picked up the broken elf and put it down after a while. After a while, he picked it up again. It could be seen that the contractor liked the broken elf gun very much.

"This gun... Is it sold for 3000 paradise coins?"

Although Su Xiao's face was calm, he was speechless in his heart.

"The lowest is 18,000, and the strengthening fee is very high."

18,000 paradise coins were only the cost price, but an awkward problem appeared. Newcomers generally used green quality weapons, and ordinary newcomers could not take out the 'huge sum' of 18,000 paradise coins.

"Wait for me for half an hour."

That contractor hurried away, and it did not take half an hour. He came back in twenty minutes, and he should be going to sell the pot.

"170,000 paradise coins, no more. If not for there was no place to sell blood, I would have already sold the blood."

This Lv.5 contractor could be said to be desperate, wanting to increase his strength by relying on the broken spirit.

"Yes."

Su Xiao did not want to wait for the 1000 paradise coins, so he sold them directly.

There was only one left in the stall, and the awkward situation appeared. This time, there was no one to bargain with.

An ominous feeling rose in Su Xiao's heart. This thing would not be smashed in his hand.

After waiting for three hours, fewer people were watching this time. Only the contractor, who was passing by, occasionally glanced at it.

Su Xiao thought that it was over. He hit it in his hand.

"That... Can this heart be cheaper?"

A weak teenager stood in front of the stall. The teenager looked a little cross-dressing, and he was wearing neutral clothes.

"Of course."

Finally, the customer came. Su Xiao decided in his heart that 100,000 paradise coins could be sold, don't let the fake girl run away.

The weak teenager saw Su Xiao's eyes and subconsciously took two steps back.

"Big... big brother, I just want to buy something, don't... don't look at me like that."

Chapter 499: New Capabilities

"Don't be nervous, bid."

Su Xiao stared at the cross-dresser in front of him, and the gaze seemed to say: If you don't buy it, I will kill you.

"That..."

The fake girl swallowed her saliva, and her mood gradually calmed down. Su Xiao's gaze before was a bit scary, making him forget that he was in the reincarnation paradise. It was a safe zone.

Su Xiao just came out of the trial world. It was normal to have this kind of gaze.

"80,000 paradise coins?"

The fake girl tentatively made a bid.

"The lowest is 180,000."

The value was not high. If it could directly obtain the demon bloodline, not to mention 180,000, 800,000 could be easily sold.

Unfortunately, this was only a ticket. After entering the Demon Transformation Office, he still needed to pay the benefits to trade with the demon transformation masters there. Moreover, he also needed to understand the demon language. This point alone was enough to shut out more than 90 contractors.

As a treasure chest of the Lord, it was not that good things could not be opened, but Su Xiao's hand was black, helpless and desperate.

Now that things had come to this, there was no other way. The Heavens could not solve the problem. The most important thing was to make a move as soon as possible.

"One hundred and eighty thousand..."

The fake mother looked troubled.

"How about one hundred and twenty thousand?"

"Deal!"

Su Xiao immediately agreed, and the fake girl was stunned.

"Deal."

Su Xiao handed over the burning devil heart, a look of regret to kill you. The fake girl was a bit twisted. He always felt that he bought expensive things.

"You know the devil language?"

Su Xiao looked at the fake girl.

"I know a little."

"Then you earned it. The devil's bloodline is very strong."

"Really?"

"Well, at least the demon who fought with me is very strong."

The fake girl hesitated for a moment and finally spent 120,000 paradise coins to buy the heart of the demon.

The more the little girl thought about it, the more wrong she felt on the way back to the exclusive room. The previous person said that the demon blood was very strong, then where did this heart come from? The heart of the demon was the heart of the demon, so...

As the cross-dresser was about to enter the exclusive room, a beautiful figure walked toward him and suddenly patted his shoulder. The cross-dresser, in deep thought, exclaimed in shock.

"C-Captain, you scared me to death."

Seeing the timid appearance of the cross-dresser, his captain shook his head with a smile.

Although the cross-dresser was very soft now, his character would change dramatically when he pulled out the long sword at his waist. The cross-dresser had killed 32 contractors in a derivative world.

"What are you holding?"

The female captain looked at the demon heart in the hands of the fake mother.

"Good stuff."

The fake mother revealed two little tiger teeth, showing the attributes of burning the heart.

"This thing..."

The female captain's expression changed. "Can we return the goods?"

Hearing the female captain's words, the fake girl recalled the buyer who was covered in blood.

"I think... I can't."

The female captain's face was even worse.

"Then I can only wish you good luck. I have heard of the demon transformation facility. The survival rate of the transformation is only 60, but the demon blood is indeed very strong. It is a perfect power system, but the modification fee is high. It will probably cost about 600,000 paradise coins, and these paradise coins will be exchanged for soul crystals. Those demons only accept soul crystals."

As Su Xiao guessed, the demon heart was just a ticket, and the modification fee was the main event.

"600,000..."

The fake girl was stunned. Even if he had 600,000 paradise coins, the soul crystal was too difficult to buy.

"I can give you some team resources. Don't think about the soul crystal. It can probably provide you with 400,000 paradise coins. You can only eat soil in the three derivative worlds after that."

After listening to the words of the female leader, the fake girl looked at the demon's heart in her hand. This thing seemed to have smashed into his hand.

"Bastard ---"

The fake girl finally knew why the person before showed an expression of killing him without buying.

Sitting in front of the stall, Su Xiao looked at the 166,000 paradise coins in the reincarnation mark and was in a good mood.

The demon's heart almost fell into his hand. That thing was not worthless, and the investment in the early stage was too high, which would affect the development for a period of time.

Su Xiao did not leave the trading market immediately. He was ready to make a big deal, which was to make a large number of intermediate alchemy bombs to sell.

The cost of each intermediate alchemy bomb was 100 paradise coins and 30 mana values. The paradise coins were sufficient, and the mana values were also full. There were 1433 points, which could make 47 intermediate alchemy bombs in total.

The light in his hand flashed, and the intermediate alchemy bombs were made.

Why he chose the Intermediate Alchemy Bomb and not the 'Special Alchemy Bomb' or the 'Special Alchemy Secret Medicine' because the cost of the Intermediate Alchemy Bomb was low, the profit was high, and it was easy to make a move.

After a long time, Su Xiao spent 4700 paradise coins and 1410 mana values to create 47 intermediate alchemy bombs.

After a few previous attempts, the selling price was 380 points - each pill was the most suitable, and very few people bargained.

With the cost of 100 Paradise Coins and 250 points of net profit, this kind of business could be a steady profit without loss.

The stall opened again. There was a pile of intermediate-level alchemy bombs on the stall this time.

The contractor stopped in front of the stall from time to time, and the number of alchemy bombs quickly decreased.

As expected, intermediate level alchemy bombs were very popular, with few contractor bargains. Even if someone bargained and found that Su Xiao did not bargain, he would buy it after hesitating for a moment.

In less than an hour, 32 intermediate level alchemy bombs were sold, and there were 15 left.

A strong man passed by the stall and carefully checked the attributes of the intermediate level alchemy bombs, buying all the intermediate level alchemy bombs in the stall.

47 sold out, the cost was 4700 paradise coins, the total price was 16450 paradise coins, and the net profit was 1,750 paradise coins.

There was no need to fight, and the risk was different. 11,750 __coins in the hands of the park coins, which was undoubtedly a pleasant thing.

Closing the booth, Su Xiao walked to the exclusive room.

The three main attributes had reached 50 points. Su Xiao had a total of thirteen soul crystals. He could unlock the new skills of the shadow of the law.

The prerequisite for unlocking the new skills was very high, and the new ability should be very strong.

Su Xiao could not help but speed up and return to the exclusive room. Su Xiao sat on the sofa.
Crack.

The sofa suddenly sank. Su Xiao raised his feet and sat down on the sofa. He subconsciously looked at Bobowang.

Bobowang looked innocent.

"Woof, ao ---"

Bobowang was so anxious that he was about to speak, but unfortunately, he could not speak.

Su Xiao got up and looked at the sofa that looked fine, and the center had been hollowed out.

"How did you do it? I won't beat you up if you cover it up again."

Large slippers of 45 yards appeared in Su Xiao's hand. Bobowang's hind legs began to tremble, and his buttocks ached. It seemed that he had suffered a lot from these large slippers.

Bobowang looked at Su Xiao pitifully and said: Master, I didn't do it.

It had to be said that Bobowang was now full of tricks. His expression was very good. It could be said that his acting skills were off the charts.

"If you didn't eat it, then was it me?"

Su Xiao pointed to a row of teeth marks in the center of the sofa, the same as the teeth marks on the barbell on the side.

Bobowang was full of regret. It did not notice the teeth marks. Otherwise, it must be destroyed.

The slippers flapped in his hand, and Su Xiao slowly approached Bobowang.

Five minutes later, Bobowang squatted in front of the sofa with a pair of slippers on his head and repented. Su Xiao sat on the bed and unlocked his new ability.

Chapter 500: I See...

The difficulty of unlocking new skills was getting more difficult, but the new skills were getting stronger and stronger. It could be seen from the spirit shadow constitution.

"Unlock."

A sharp sense of transmission came. After Su Xiao saw the scene in front of him, he was not surprised.

"Here again."

Su Xiao stood in a majestic hall. There were six piles of gravel in the hall, which were originally six stone statues.

One of the piles of gravel trembled, and a blue shadow floated out. It was Su Xiao's enlightenment person, Marvin Waltz.

"Well? You came so quickly."

Marvin Waltz was surprised by the speed of Su Xiao becoming stronger.

"You have become much stronger than before. It seems that you are here to inherit that ability."

"What ability?"

Marvin smiled mysteriously.

"You will know in a while."

Marvin Waltz drifted to the depths of the hall. For some reason, Su Xiao had a bad feeling. He still remembered the feeling of being in so much pain when he obtained the 'Spirit Shadow Body'.

"I have a question to ask you."

Su Xiao followed Marvin Waltz.

"What question?"

"Have you heard of the Daughter of the Sun?"

Marvin Waltz stopped in place.

"Have you seen the vine at Devour Island? She didn't chase after you?"

"Yes, it can be considered a collaboration."

After listening to Su Xiao's words, Marvin Waltz was surprised.

"The black forest is rioting?"

"Yes."

Marvin Waltz seemed to know Devour Island very well.

"The Daughter of Sun? That was a long time ago. It seemed to be a few hundred years ago. When I went to the Red Earth Region of Devour Island to find a material, I encountered a vine. She called herself God and wanted me to worship her. After that, I 'discussed' with her about God."

Marvin Waltz was the shadow of the law that uprooted the Daughter of the Sun and swung it a few times in his hand.

"You didn't kill her?"

Although he hadn't been in contact with Marvin Waltz for a long time, his temperament could not be faked.

"That guy knelt on the ground and begged me not to kill her. I was in a hurry, so I let her go."

Su Xiao looked at Marvin Waltz in surprise.

"But I took something in her body."

"What thing?"

"More than 90 of the energy in her body, I wanted to take it after she recovered, but I didn't expect to be besieged by the mages after that."

Su Xiao thought that it was true. With Marvin Waltz's temperament, how could he let go of the Yang girl? It turned out that the Daughter of the Sun was a resource.

It was no wonder that the Yang girl did not dare to attack Su Xiao. It seemed that there was a shadow of the law.

"When you are strong enough, you can also go to her to take the energy. The plant energy is a good nutrient, nourishing the blue steel shadow energy."

Su Xiao was a little puzzled. The blue steel shadow could devour other energy? He had never found this.

"No need to be surprised. You can get this ability soon, and the premise is that you are still alive."

Su Xiao was more confused, and Marvin Waltz did not continue to explain.

The two walked to the depths of the hall. Not long after, a light blue pool appeared in front of them.

The pool was not water but a light blue liquid with electric arcs flashing on the surface.

"This is..."

Su Xiao squatted in front of the pool. He felt that the energy in the pool was very familiar.

"This is the purest green steel shadow energy. It can help you recover mana quickly."

Marvin sat in front of the pool and looked at Su Xiao.

"The ability you are about to master is the most core ability of the shadow of the law. Because of this ability, the shadow of the law of law can quickly become stronger."

After organizing his thoughts, Marvin Waltz continued,

In the words of the place you are in, one of the characteristics of the shadow of the law should be called the intelligence attribute. You should be very strange.

Qing Gang Yin is close combat. Why does it need the intelligence attribute?

Su Xiao nodded. The intelligence attribute did not have much use other than increasing mana and perception, but this attribute was the main attribute of the shadow of the law.

"The intelligence attribute is to carry the ability you are about to master. This ability is used to strengthen Qing Gang Yin's energy. Qing Gang Yin is the core ability of the shadow of the law. Of course, there is a way to become stronger quickly."

Marvin Waltz pointed to the 'pool' in front of him. The Qing Gang Yin energy density could only be described as terrifying.

"Jump down. If you climb up alive, you are the real shadow of the law, a person who makes the enemy horrified."

Su Xiao frowned. He felt that he might die if he jumped down.

"What is the death rate?"

"About 85, or why do you think the number of the shadow of the law is rare?"

This alarming death rate made Su Xiao very speechless, but he had developed the shadow of the law to the extent that it was impossible to give up.

"I wondered why the shadow of the law was so simple."

Marvin Waltz laughed.

"Do you think the value of that broken ring is equal to the shadow of the law? It is the shadow of the law that chose you. The inheritor of the shadow of the law is difficult to find. The most difficult thing is not talent but courage. You are not afraid of making enemies. After becoming the shadow of the law, all the wizards are enemies, and most of the inheritors will give up on the initiative."

Marvin pointed to the pool before him, meaning to jump quickly.

At this point, he could only choose to dance unless Su Xiao gave up the shadow of the law to choose a profession again. If he did that, he would not be far from death. He was a hunter, and he needed to fight against the violators.

"The shadow of the law was tricked like this. Accept your fate."

Looking at Su Xiao's tangled expression, Marvin Waltz remembered his former self. Before jumping down, he greeted all the shadows of the law in the vicinity.

But now, he did not regret jumping down, even if he was dead.

"I..."

Su Xiao jumped up, and not jumping was equivalent to a slow death. There was still some chance of survival.

"I forgot to tell you. This pool is very deep. It can suffocate people."

"F*ck!"

Su Xiao fell into the liquid green steel shadow energy with a splash.

Gulp. Gulp.

A bubble popped out, and the pool returned to calm. It seemed that no one had jumped down.

"So it really will pop up."

Marvin Waltz smiled.

"Disciple, don't die. 85 mortality rate is ordinary soul strength. With your soul strength, your survival rate is more than 50. Hey... seems to have forgotten to say something important."

Marvin Waltz closed his eyes and waited for Su Xiao to swim out or float up.

Su Xiao slowly sank into the pool, and his black hair fluttered in the pale blue liquid.

His eyes were closed, his body was motionless, slowly sinking, and his body was undergoing a tremendous change.

The mana values that had been consumed instantly recovered to full, and the recovered mana values quickly transformed into the green steel shadow energy.

The green steel shadow energy gradually formed a ball near Su Xiao's heart. This ball was not used to store the green steel shadow energy but had other functions.

The mana was quickly consumed and recovered. The newly converted green steel shadow energy continued to build the energy ball.

The mana value recovered and turned into the green steel shadow energy. The green steel shadow energy built the energy ball. This process kept repeating. The energy ball was more precise, and the energy contained was more and more terrible.

"Oh"

Su Xiao spat out a bubble. He was trying to control his body's green steel shadow energy not to burst. If the energy went berserk, he would die.

Su Xiao sank into the bottom of the pool. He still had 10 minutes. If he could not construct the energy ball during this period, he would float up instead of swimming up.

Floating up meant that Su Xiao was dead, which showed how difficult this process was.

When constructing the energy ball, his body's green steel shadow energy was very special. It needed to go through the brain. This was a situation that had never happened before.
