

R. Paradise 501

Chapter 501: Devour

Su Xiao had seen the horrible scene of Qing Gang Yin's energy invading the brain. When fighting against the sorcerer, Qing Gang Yin's energy went straight to the enemy's brain.

The enhanced intelligence attribute was to welcome the current situation. If the mana circuit in the brain was not strong enough, it could not bear the process at all.

The energy ball was more and more perfect, and it had built more than 60. This energy ball gradually produced a suction force.

There was a row of small holes on the energy ball, and the toilet was covered with patterns, and it would move with the rhythm of the heartbeat.

The composition is 70, 75, 80...

The entire construction process required concentration, and while constructing this energy ball, some of his things were constantly impacted, often causing him to be dazed for a moment.

The energy ball was very unstable in the construction process, and it would attack the creator's soul. This was why most of the shadow of the law of destruction failed.

Once the soul was broken, it meant death, and the soul was gone, leaving only a bag of skin.

After the construction of more than 95, the impact of the energy ball on the soul became stronger and stronger, giving Su Xiao a feeling that he was going to leave the body at any time.

Try to ignore this feeling as much as possible, and instinct told him that he had to build this energy ball perfectly. Otherwise, he would be dead.

A few minutes later, the energy ball was completely constructed. Before Su Xiao could breathe, he suddenly found that the energy ball was even more unstable.

Dong, dong, dong, dong...

The energy rhythm was getting faster and faster, and it almost began to beat in the end.

Boom!

The energy ball burst and Su Xiao thought it was over.

Unexpectedly, the energy ball burst seemed to be a normal situation. After the energy ball burst, it formed a large pale blue powder. After the powder floated in his abdomen for a while, it gradually absorbed together.

The temporary destruction was to be more stable.

Once again, the light blue powder constructed the energy ball, which was near Su Xiao's heart. The energy ball released a terrible suction and seemed to suck up the energy around it.

The energy ball absorbed crazily for a while and did not absorb any energy. The energy in Su Xiao's body was the same source as the energy ball, so the energy ball would not absorb it.

Su Xiao looked up and saw a blue sky above.

He swam up slowly, and soon Su Xiao swam to the pool's edge.

With a crash, Su Xiao poked his head out of the liquid green steel shadow energy and climbed out of the pool.

"It seems that you have succeeded."

Marvin Waltz looked at Su Xiao with a smile.

"Yes."

Su Xiao sat at the pool's edge and breathed in the fresh air.

He succeeded and obtained a strong support ability to the point of being somewhat abnormal.

Opening the skill list, new abilities appeared.

Skill 8

Devouring Core:

Skill effect: Able to absorb high-level creature energy to nourish the green steel shadow energy. Depending on the level and quality of the energy absorption, the green steel shadow will be upgraded.

...

The effect of this skill could be said to be simple and crude, that was, to absorb the energy of other creatures to strengthen Qing Gang Yin, but it could only absorb the energy of high-level creatures, and the energy in nature was not enough.

Qing Gang Yin was Su Xiao's core ability. It was a very practical ability, whether it was real damage, burning the enemy's mana values, causing pain to the enemy, and so on.

As for the energy of high-level creatures, Su Xiao thought about it after a short period of thought.

Chakra, thoughts, Reiatu, Haki, and so on were all high-level creatures' energy.

As long as he could absorb this energy, the level of the green steel shadow could be improved, and it was rapid growth.

Su Xiao thought of a few creatures. If he could take care of any of those creatures, the green steel shadow of Lv.13 might be directly upgraded to Lv.20 or more.

"How much has your nucleus of Devour built?"

Hearing the question of Marvin Waltz, Su Xiao was slightly surprised.

"Don't you want to construct 100?"

Marvin Waltz's mouth twitched, somewhat stunned.

"I didn't tell you that you can just crush energy balls after constructing 70?"

"Did you tell me?"

Su Xiao suddenly felt that Marvin Waltz was not very reliable. Last time, he did not tell him that the formation of the spirit shadow constitution would make people faint.

"Didn't I tell you?"

Marvin Waltz tried to recall in his mind because there had been no new shadow of the law of destruction for too long. He seemed to have forgotten to say this.

"In other words... You built 100, and the energy ball did not explode? Your soul was not broken!"

"It exploded, and it was rebuilt again."

Marvin Waltz went up and down to look and looked at a foreign creature.

"You use the Nuclei."

Su Xiao spread out his left hand, and light blue smoke floated on his palm. The horrible suction spread and his left hand became a black hole.

"Stop!"

Marvin Waltz shouted.

"This terrifying suction force can absorb the energy of other creatures as long as it comes into contact with it."

"Aren't the other shadow of the law?"

Under the carelessness of Marvin Waltz, Su Xiao accidentally obtained a very strong ability.

"99.9 of the shadow of the law of law is not. If I want to absorb the energy of other creatures, I have to defeat the other party first, and only after the other party has no resistance can I absorb it. Only the first shadow of the law has your terrible suction."

Su Xiao nodded and did not reveal a mood of ecstasy. He obtained this ability at great risk, and it was a matter of course.

"Don't be happy too early. You better absorb the energy of the other party after defeating other creatures, the pleasure of absorbing the energy of other creatures... You will understand in the future."

Marvin Waltz waved his hand at Su Xiao.

"The power of space is here. See you next time, but that should be a long time later."

The sense of teleportation appeared, Marvin Waltz shouted.

"Keep clear when absorbing energy. Don't become a blade demon. You can't go against it after becoming a blade demon. Remember, don't become a blade demon. You will regret it then. Could you not become the next me? Be a shadow of the law, and the blade demon has no future."

Marvin Waltz's words echoed in his ears, and Su Xiao was sent away.

Returning to the exclusive room, Su Xiao thought about Marvin Waltz's words.

What was the Blade Demon? Was it the risk needed to take when absorbing energy? Or another path to becoming stronger?

Listening to Marvin Waltz's tone, he seemed to be a Blade Demon, so it should be a branch of the Shadow of Extinction.

Su Xiao was secretly vigilant in his heart. Marvin Waltz should not lie to him. At least he never showed any malice.

The new ability was successfully obtained, and there was no chance to practice it for the time being.

The energy of high-level creatures was hard to find, and Su Xiao could only confirm a few kinds.

There were still three soul crystals left in his hand. His previous idea was to use them to strengthen Qing Gang Ying, but now it seemed a waste to do that. Qing Gang Ying had a better way to improve, and he needed to make use of the resources reasonably.

The soul crystal should be used to strengthen the swordmaster. Every level of the swordmaster needed 10 soul crystals. Now, the swordmaster was Lv.21. If he wanted to upgrade to Lv.30, he needed to consume 90 soul crystals. It was a headache to think about it.

Every level of the swordmaster changed once, and after reaching Lvl.30, Su Xiao's strength would reach a new height.

Su Xiao estimated that if the swordmaster reached Lv.30, he should have no problem fighting some of the middle generals in one piece of the world. No, perhaps it was much stronger than the middle generals, weaker than the general.

Su Xiao pulled out the dragon flash on his waist. The dragon flash was now purple in quality, and it began to feel weak when dealing with strong enemies, and it needed to be improved.

Chapter 502: The Most Rubbish Purple Weapon

The current dragon flash was purple in quality, and the sharpness of the blade was 67. If he wanted to upgrade to dark purple in quality, he needed to consume at least two purple blade-type weapons.

Su Xiao already had one purple blade-type weapon, a purple blade-type item with a score of 136 points.

In this way, he only needed to buy another purple blade-type weapon.

However, before upgrading the dragon flash, Su Xiao wanted to strengthen it.

It should be known that the cost of strengthening purple quality weapons and strengthening dark purple quality weapons was much worse.

There was a problem in front of him. After the dragon flash increased the quality, the level of enhancement would decline.

Before, when the blue quality was raised to purple quality, it did not decline, but that did not mean that the enhancement level would not decline when the purple quality was raised to dark purple quality.

During the previous upgrade, whether the level of enhancement was retained for a long time, Su Xiao estimated that this time, the quality of the dragon flash was increased, and the level of enhancement was very likely to decline.

This was a normal situation. The cost of strengthening blue quality equipment and strengthening purple equipment was not much different. It was possible to keep the enhancement level, but the dark purple equipment differed.

According to Su Xiao's observation, dark purple equipment was the strongest equipment that a small number of level one contractors could get, and the quality above that was not the level one contractors had the ability to get.

Su Xiao got a clear answer after trying to ask the reincarnation paradise and spending 500 paradise coins for the consultation fee.

If the quality of dragon flash were raised to dark purple, the enhancement level would be reduced!

Although this result made Su Xiao a little disappointed, this was something that could not be helped.

The next thing was much simpler. Buying a purple sword type weapon with weaker attributes first to improve the quality of the dragon flash.

The score was higher. At least it could increase the blade value of the dragon flash to more than 90.

Su Xiao still had 15750 paradise coins left, and 150,000 paradise coins were enough to upgrade the dragon flash and strengthen it.

Coming to the trading market, Su Xiao began to look for purple sword type weapons with lower grades in the trading market. After looking for a long time, a stall attracted his attention.

A contractor surrounded this stall. Su Xiao squeezed forward. The stall owner was a masked man who was negotiating with a contractor.

"The highest is 200,000 paradise coins. There is no more."

"Are you dreaming? You will pay 200,000 paradise coins for the Superman fruit?"

Hearing the dialogue between the two, Su Xiao raised his eyebrows. It seemed that this was selling the devil fruit, and it was a Super.

Looking at the devil fruit on the stall, it was a super-human transparent fruit, the fruit of Moonlight Morlaix. Su Xiao did not forget the specific name. He only remembered that the guy seemed to have seen Nami take a bath.

Su Xiao was not interested in the devil fruit. He also sold this thing.

Looking for it on the stall, Su Xiao smiled. He found the 'target', a very spicy purple knife-type weapon.

After searching for more than two hours, he finally found a suitable purple quality weapon.

[Origin: Pirate King]

[Rarity: Purple]

[Durability: 97/ 97]

[ATK: 27 to 37]

[Equipment requirement: Strength above 8 points, Agility above 12 points.]

[Equipment effect: Refinement, tempered, difficult to break and break.]

[Rating: 80]

[Description: A carefully crafted weapon. Unfortunately, the creator's skill is not high enough, but this blade is hard enough.]

Price: 11,000 Paradise Coins

...

This knife was not sharp, and the ability it had was average. It could become purple because it was not easily damaged. Its durability was higher than Dragon Flash, and the requirements to use it were low. It was suitable for newcomers.

An awkward problem appeared. The newcomer could not afford this knife, and the stall owner was priced at 30,000 Paradise Coins.

The real value of the equipment was not just the quality but the attributes.

For example, if he took it out to sell, Su Xiao's was no problem to exchange it for dark purple quality equipment.

The stall owner and contractor argued more and more fiercely. The contractor said that he saw that the Kenbunshoku Haki was the nemesis of the invisible fruit, so the value of this fruit was not high.

The stall was helpless and said: If you like to buy, then go away.

The two people happily talked about the deal. Su Xiao opened his mouth.

"This knife is cheaper."

Although the stall face was calm, he was secretly happy. Finally, someone liked this broken knife. This knife was not obtained simultaneously as the devil fruit, but he obtained it before five derivative worlds.

"30,000 is already very cheap. After all, it is purple quality..."

Su Xiao waved his hand.

"Forgive me for being blunt, and this is the spiciest purple weapon I have ever seen, no one else."

The stall owner smiled. Although he tried his best to explain, he agreed with Su Xiao's idea in his heart.

"Name your price."

"12,000 Paradise coins."

The corner of the stall's mouth twitched. He could sell this knife to the reincarnation paradise for 11,000 Paradise coins.

"20,000, no less."

Perhaps this knife had been in his hand for too long, but the stall did not use a knife, so the price was directly lowered by one-third.

Su Xiao no longer bargained and directly spent 20,000 paradise coins to buy this knife.

Su Xiao returned to his exclusive room with the purple weapon in hand. It was best not to be seen by outsiders.

Putting the dragon flash and the two purple weapons together, the black light flashed in Su Xiao's hand, and the dark light wrapped the two purple weapons.

Ka ---

The two purple weapons were crushed instantly, and a purple crystal broke out and was gradually absorbed by the dragon flash.

The purple crystal broke into the sword's body, and the purple light at the edge of the dragon flash was deeper and darker.

The purple light wrapped the dragon flash. Su Xiao knew that this was a sign that the dragon flash would upgrade to dark purple quality, and it needed some time.

Half an hour later, the purple light gradually receded, and the dragon flash appeared in front of his eyes.

A touch of purple light flashed from the edge of the dragon flash. Su Xiao nodded with satisfaction and shook his head again.

The sharpness +8 additional sharpness +2 attributes of the dragon flash had disappeared, and the strengthening level had dropped to +7.

Although this was the case, the dragon flash was much sharper. If the current dragon flash fought with the Dark King, although ordinary slashes could not cut off the limbs of the other party, it was no problem to cut a deep bone wound.

The additional ability of the two purple weapons appeared, and Su Xiao could choose one of them to replace Shadow Dance.

Choosing no, Shadow Dance could reduce the defense and reduce the enemy's healing capacity, which was a very practical ability.

Su Xiao checked the attributes of the Dragon Slash.

Dragon Slash +7

[Origin: Shadow of the Law]

[Rarity: Dark Purple]

[Durability: 91/91]

[ATK: 74 to 122]

[Equipment requirement: Shadow Slayer]

[Supreme Blade Effect 1: Sharpness +11]

[Equipment Effect: Shadow Dance Break: Every strike will reduce the enemy's defense by 8 for 20 seconds. This effect can be stacked 3 times, reducing the enemy's defense by 24.]

[Hint: After the Shadow Dance Break effect is stacked up to 3 times, the additional blood flow effect will be increased.]

[Additional +5 effect: Armor Penetration]

Rating: 180

Description: Lost, encounter, battle, new life, growth, legend.

Price: Unable to be traded.

...

Chapter 503: Reinforcement is Risky

The increase was very big. No, it should be said that this was the biggest increase in dragon flash.

The upgrade was not over. Su Xiao still had a huge sum of money from 137250 paradise coins.

"Bobo, let's go."

Su Xiao took a deep breath. He was ready to go to the equipment strengthening hall.

Every time he went to the Equipment Reinforcement Hall, he felt like rushing to the execution ground. It was perfect to describe it as being on tenterhooks.

When he arrived at the Equipment Reinforcement Hall, if he stood at the entrance for a while, he would be able to see the various stages of life.

Some of the contractor's faces were filled with joy. Some of them seemed to have lost their souls as they advanced step by step. Even some slapped themselves at the door, muttering that they would never strengthen their equipment again.

Although the risk of strengthening equipment was extremely high, the benefits were similarly great.

Walking into the equipment strengthening hall, Su Xiao tried his best not to look at the messages at the door. It was too horrifying.

Although the risk of strengthening equipment was high, this was the place with the most contractors outside the trading market.

The equipment is a strengthening hall of several thousand square meters. After each derivative world, a large number of contractors gathered here.

Under the convergence of this large scale contractor, some employees smelled the smell of paradise coins, so all kinds of strange business emerged.

Some sold strengthening techniques and some strengthened on behalf of others, thus collecting fees.

Su Xiao came to the equipment strengthening machine, and there were very few contractors nearby. It was relatively quiet.

"I will kill you."

Bang, bang, bang...

The sound of kicking came. A contractor looked crazy, holding some iron slag in his hand. He was kicking the equipment strengthening machine with all his strength.

Looking at the dark purple light emitted by the iron slag in the other party's hand, Su Xiao guessed why this friend was like this, and the dark purple equipment strengthened. The mentality must be explosive.

Although Su Xiao also came to strengthen the equipment, he would not risk the equipment being broken to strengthen. If not, he would not come to strengthen the dragon flash.

Quality: dark purple

[Type: Rare Material]

[Effect: Able to avoid the punishment of a failed upgrade. If successful, the Magic Stone will not be consumed.]

[Rating: 260]

[Description: Magical crystals from the void. Most of them are used to protect weapons and strengthen or punch holes.]

...

Su Xiao pressed his hand on the sensor of the equipment enhanced machine.

He put the dragon flash and the magic stone into the equipment enhanced machine.

Su Xiao grinned. Every 23,000 paradise coins, he might go bankrupt.

Bobowang, who was behind Su Xiao, sighed. 23,000 paradise coins could buy a lot of meat bones.

"Strengthening."

Rumble...

The equipment strengthening machine worked, and the momentum was amazing. It began to carry out complicated operations, and from time to time, the sound of electric currents could be heard.

Five minutes passed quickly, and the equipment strengthened machine gradually stopped working.

Chi ---.

Hot steam sprayed out, and the prompt appeared.

The additional ability of enhancement +8 recovered. Su Xiao pondered for a moment. The Fantasy Stone was still there. Even if the enhancement failed, it was nothing. At most, he would lose some paradise coins and a stone. Why not fight?

Su Xiao chose to continue.

The equipment strengthened machine began to run, roaring.

Five minutes of waiting began to be long. If the enhancement +9 was successful, there was the possibility of the enhancement +10.

Su Xiao had seen green equipment that was enhanced +10, which could only be described as very strong, but now the +9 was not successful, and it was too far for him to want to +10.

Chi ---

Hot steam sprayed out, Su Xiao waited for the result of the strengthening, and Bobowang, on the side, was also a little nervous.

It succeeded. Su Xiao took a deep breath. No need to think. He must rush to +10.

"Hey, look, someone is going to +10."

A loud shout came from behind Su Xiao. He frowned and looked back.

It was a round-faced little fatty. The little fatty's voice was very loud. When he shouted,

More than half of the equipment strengthening hall could be heard.

Several contractors walked quickly. Some contractors did not move. How much others strengthened had nothing to do with them.

Ignoring the little fatty, Su Xiao chose to strengthen +10.

The equipment strengthened and the machine roared. This time, the enhancement was different from the past. The momentum was greater, and the operation was more complicated.

After ten minutes, the equipment strengthened machine was still working. Some nearby contractor was impatient and walked away.

Twenty minutes passed, and the equipment strengthened machine was still running. Su Xiao was a little uneasy. This thing would not be broken.

"Woof."

Bobowang shouted, and the equipment strengthened machine suddenly stopped working, which shocked Bobowang.

Chi!

Thick steam spurted out. Su Xiao vaguely saw a deep dark purple light in the white steam.

Success, it succeeded.

Su Xiao, who had always been unlucky, actually strengthened a dark purple weapon with +10 today. What a rare thing.

A slightly crazy idea appeared, do you want to continue strengthening?

I can do it.

This thought lingered in his mind, but Su Xiao shook his head after hesitating for a moment.

It was not broken, it could be taken out from the equipment strengthening machine, and it could be used in the future when it was strengthened.

Moreover, after the dragon flash was upgraded to a higher quality, the enhancement level would decline, and it would still need to be strengthened.

The enhancement of +10 was enough to deal with most situations, the success rate of strengthening +11 was reduced by six, and the success rate of strengthening +12 was 1.

Taking out the dragon flash and taking it out, Su Xiao carefully put it away.

The dragon flash was held in his hand, and a dark light occasionally flashes on the mouth of the dragon flash blade.

A void slash, a sharp sound of air breaking came, leaving a faint purple light in the air. This was the most significant feature of strengthening +10.

Looking at the attributes of the dragon flash, Su Xiao's pupils slightly contracted.

[Dragon Slash +10]

[Origin: Shadow of Law]

[Rarity: Dark Purple]

[Durability: 91/91]

[ATK: 84 to 134]

[Equipment Requirement: Shadow Slayer]

[Supreme Blade Effect 1: Sharpness +10]

[Equipment Effect: Shadow Dance Break: Ignore 25 of the enemy's defense. Reduces 40 of the enemy's healing effects after slashing the enemy. The effect lasts for five minutes.]

[+5 Additional Effect: Armor Penetration]

[+8 Additional Effect: Sharpness +2]

[+10 Additional Effect: Penetration] [Sharpness +4]

[Rating: 210]

[Description: Lost, meeting, battle, new life, growth, legend.]

[Price: Unable to be traded.]

...

After strengthening +10, the sharpness of the dragon flash increased, and more importantly, the ability of Shadow Dance Break changed.

Ignore the defense and greatly reduce the healing effect.

Although the ability was simpler than before, the effect was more than a few levels stronger.

Su Xiao sheathed the dragon flash and went straight to the arena. He wanted to try how strong the effect of the dragon flash was now.

After more than ten minutes, Su Xiao arrived at the arena.

There was an annotation below.

[Watching mode: Looking at other contractor competitions, you need to spend 5 paradise coins per hour to choose to watch the match.]

[The current match is 8354.]

[If you want to watch the top 100 competition in the arena, you need to spend 30 paradise coins per hour.]

If you want to watch the top 10 competition in the arena, you need to spend 100 paradise coins per hour.

If you want to watch the top three competitions in the arena, you must spend 300 paradise coins per hour.

...

"Choose the arena mode."

..

Individual battles were in 1v1 mode, team battles were in 10v10 mode, and the two ranking mechanisms would be calculated separately.

Su Xiao chose individual battles, and the match began.

Because the ranking was relatively low, Su Xiao did not wait for long.

Su Xiao in the restroom disappeared. When his sight recovered, he was already standing on a stage. The diameter of the stage was more than a hundred meters. Around it were stairs shaped audience seats. Around the stage, thousands of people were sitting in the audience seats.

The second level arena was indeed different from the first level. There were so many audiences in the 50,000 or so rankings.

Ignoring the shouts and discussions of the audience, Su Xiao pulled out the dragon flash on his waist and looked at the opponent in front of him. It was a female mage. From the violent fire elements around the opponent, it could be guessed that this was a fire method.

"Is there a mistake, +10 weapons dark purple?"

The corner of the female sorcerer's mouth twitched. She recognized the quality and level of the weapon in Su Xiao's hand.

"Soru."

Su Xiao rushed to the front of the female sorcerer in an instant, and the sharp sword light cut down.

Chapter 504: Rare Enemy

As the blade fell, the female mage's pupils shrank to the size of a needle. She had no time to cast a chanting skill at this time, so she could only use an instant skill to counterattack.

The female fire spell was a rank two contractor, and it was not the first time the enemy got close to her. In the past, she had encountered this kind of dangerous situation, but for some reason, she had a creepy feeling this time, as if she had met a natural enemy!

"Exploding Flame!"

The female fire spell shouted. The fire elements quickly gathered around her, compressed, and finally exploded.

Boom!

The strong thrust spread around. Although the protective film blocked the audience, the staff in the front row stood up subconsciously.

The flame seemed to explode in front of their eyes. This kind of stimulation was one of the reasons why they spent paradise coins to watch the competition.

The female mage in the flame breathed a sigh of relief. Her long hair fluttered, and she looked brave and heroic.

"There's something wrong with this guy."

The female fire magic immediately prepared her next skill. At this moment, a palm wrapped in metal broke out of the flames.

"This is impossible!"

The female fire magic subconsciously jumped back. Her defensive skill had not failed.

The metal palm grabbed the neck of the female fire magic, and in an instant, the female fire magic felt that her neck was going to be broken.

"Flame Protection."

A layer of the shield was formed around the female fire magic. Su Xiao's hand bounced out of the shield. This shield was the ability of the female fire magic.

After a few breaths, the one-meter-long staff turned over in the hands of the female fire magic. She was ready to use a big move. Otherwise, there would be no chance.

Woo ---

A whistling sound was heard. The female fire magic knew that this was the enemy's sharp blade. She did not care. Her shield had blocked the enemy's attacks countless times.

Clang!

The light blue blade light flew out diagonally and shattered the protective shield in front of the audience.

The arena was strangely quiet. The female fire magic did not release any skills again.

The flames subsided. After seeing the scene in the arena, a large group of spectators stood up.

"Is this over?"

"No way."

On the field.

The female fire spell fell to the ground. One arm and half of her body were cut off. The flame shield was like a broken eggshell. It was neatly cut open. Now it was slowly flowing.

The female fire spell stood up with difficulty. Her lips were trembling. She seemed to have forgotten that she was in the arena. The knife just now was too horrible. It made her mistake that she was in the derivative world.

A few seconds later, the female fire spell realized that she was in the arena and would not die.

With a weak smile, the female fire magic remembered Su Xiao's sword and the blood mask on his face.

"+10 weapons live up to your reputation. I admit defeat."

The female fire magic took the initiative to surrender. Su Xiao did not have a hobby of killing the enemy, so he accepted the surrender.

Hua ---

The sound of praise came from the audience like the tide.

"The one with the sword, well done."

Maybe it was because she beat Su Xiao, a golden woman contractor pulled up the clothes on her chest, and there was a whistle around her.

A sword flower danced. Su Xiao was very satisfied with the current dragon flash. A full 17 points of blade speed bonus made the dragon flash extremely sharp.

The most important thing for a sword was to be sharp enough, and the additional ability was secondary, at least Su Xiao thought so.

The opponent surrendered. After this competition, Su Xiao was sent back to the resting warehouse.

...

The ranking rose to around 200, and the opponent's ranking was not high.

If he wanted to improve his ranking quickly, the best way was to win continuously. Once he won more than ten times, his ranking would increase by leaps and bounds.

Su Xiao was very interested in the top ten rewards of the second rank, but he did not think that he could get into the top ten soon. This sentence was very suitable in the reincarnation paradise.

He had not lost in the arena. He was eager to match opponents who could defeat him. It was a good thing.

Su Xiao participated in the competition not only for the top ten rewards but, more importantly, to temper his fighting skills.

Choosing to continue to match, Su Xiao matched the second opponent in less than ten seconds.

It was still a traditional arena. As long as Su Xiao did not take the initiative to choose the opponent he matched, the arena was the default venue.

The opponent Su Xiao matched was still a woman, and she was a long-legged beauty, holding a whip in her hand and stepping on high heels.

Pa.

The sharp whip whipped the air, making a crisp sound.

Just as Su Xiao was about to rush forward to deal with the enemy quickly, the enemy's move made him stop rushing forward.

A snow wolf appeared out of thin air. Not only the snow wolf but also a three-meter-tall gray bear and a five-meter-long crocodile appeared one after another.

In less than a few seconds, dozens of beasts surrounded the long-legged leather pants beauty, and the combination of the beauty and the beast appeared.

This was a summoner, a very rare profession. Su Xiao wanted to understand the fighting style of the summoner.

Looking at the dragon flash in his hand, Su Xiao hesitated and returned the dragon flash to the sheath, approaching the female summoner with his bare hands.

"What do you mean?"

The female summoner looked unhappy and put away her weapon clearly to look down on her.

"Nothing. I was afraid that I would accidentally kill you."

After listening to Su Xiao's words, the female Summoner had an angry face. After a moment, she laughed as if she was angry with Su Xiao.

But she did not know that Su Xiao was telling the truth because the second rank contractor was stronger, Su Xiao had used his full strength before, and the female fire method was cut into two by him.

This situation was not strange. Although the second rank contractor was strong, Su Xiao had become a lot stronger recently, and he was the shadow of the law. With one slash, the magicians with weak pain ability would lose their combat effectiveness.

Moreover, his current ranking was around 50,000. If he could not easily deal with the contractor in this ranking, he would die when facing the second rank violators.

Su Xiao rushed forward quickly, bare-handed!

The female Summoner waved the whip in her hand.

"Children, tear him apart."

A large group of beasts rushed to Su Xiao. A confident smile appeared on the female summoner's face. As long as she was given time to summon, her summoned creatures would appear continuously so that she would win this match.

Five minutes later.

Bang.

The female summoner fell to the ground, surrounded by beasts that gradually turned into light spots after being seriously injured or dead.

"You... What do you want?"

The female summoner no longer resisted, lying on the ground motionless.

"No other abilities? Only the effect of the beast going berserk and accelerating."

Su Xiao squatted in front of the female summoner.

"No, accept the surrender. I have already surrendered five times. A lot of people are watching. Can you give me some face?"

The female Summoner looked down and seemed to have no face to see people. It was not because Su Xiao beat her. It was not shameful, but she remembered her confident smile before.

"I thought you could summon a big guy. Forget it."

Two consecutive wins.

A line of light golden words floated up.

Su Xiao accepted the surrender and disappeared into the arena. In the audience, there were a large group of stunned workers. This kind of hanging situation was rare.

...

The benefits of a winning streak appeared. It was only two consecutive wins, and Su Xiao's ranking rose to more than four thousand.

Chapter 505: Strong Material

After ten hours in the arena.

The long sword in Su Xiao's hand ran through the enemy's throat, his hands exerted force, and the enemy was flung away in the posture of falling over his shoulder, smashing hard on the protective cover on the edge of the arena, and fell to the ground with a thud.

The sword that ran through the throat was fatal, and the enemy did not stand up again.

Su Xiao had been fighting for more than ten hours in a row, and his condition was somewhat declining.

A line of golden words floated up, and the audience was in an uproar.

The contractor, who gradually dissipated, was convinced. His strength was not weak, and he mastered the psychic ability, the strengthening system.

Su Xiao breathed a sigh of relief and finally entered the top 10,000.

Different from what he imagined, in the beginning, his ranking quickly rose, but at around 20,000, the jump rate slowed down, and it was more difficult to reach around 10,000, and the opponent was getting stronger and stronger.

It should be known that Su Xiao was only a Lvl.10 hunter. His opponents were all Lv.13 and above contractors who had experienced many derivative worlds more than him.

It was too difficult to fight the top ten, not to mention the top ten. Su Xiao felt that it was impossible to fight the top one hundred. At least he could not do it now.

The contractor, who was in the top one thousand in the arena, could pose a threat to him. The top five hundred had a chance to kill him. If he met a contractor in the top two hundred in the derivative world, he might die.

But this was only Su Xiao's guess, according to the current ranking.

Su Xiao was not surprised to get this result. He had just been promoted to the second rank for two days. It was already very good for him to have the current ranking. He could advance according to the original trajectory, which was to become stronger faster than others.

Su Xiao had already fought dozens of battles and was very tired. He dragged his tired body and left the arena.

Taking Bobowang to Xia's restaurant, Bobowang already remembered this road and knew that he had to go to eat. His footsteps were very cheerful.

...

.

Pushing open the restaurant's door, the restaurant was as quiet as ever. Xia was sleeping on a table. Bobowang glanced at Xia. It was a gaze of disappointment. Sleeping in the middle of the day, this broken shop would be finished.

"Woof."

Bobowang let out a high-pitched cry. Xia was startled and suddenly sat up.

"So it's this' husky 'of yours."

Xia leaned against the chair, her beautiful dream interrupted, and she seemed a little unhappy.

Bobowang called Xia a few times, and his gaze seemed to say, You are husky. Your whole family is husky.

Because they had been in contact for a long time, Xia already understood what Bobowang meant. After all, Bobowang's IQ was there.

"I know, I know. I am a husky. My whole body is black and white."

Xia chuckled. Bobowang was so angry that he exploded.

"Which page do you want to eat?"

Xia picked up the menu. Bobowang thought for a moment and called three times, meaning to eat all the dishes on the third page.

This strange way of ordering was unique to Bobowang. Xia got up and went to the kitchen to work. After a while, a table full of food was served. Su Xiao and Bobowang began to eat.

"How have you been? Your killing intent is getting more and more amazing."

Su Xiao chewed the food in his mouth and said vaguely, "Zhang Xing,"

Xia nodded. She did not want anything to happen to Su Xiao. The reason was that Su Xiao would become the only customer here.

"Have you heard? Something big has happened recently."

Su Xiao stopped chewing food. "What is it?"

"The God-Emperor Adventurer Group and the adventurous group are officially going to war. The kind that will not stop until one of them dies is very scary."

Xia showed an expression of lingering fear.

"En?"

Su Xiao stopped what he was doing and picked up a napkin to wipe his mouth.

"Is the God-Emperor crazy? He is not the kind of person who is irrational."

Hearing this news, Su Xiao was very surprised because he had contacted the God-Emperor himself.

"You know the God-Emperor."

"We have traded a few times. Why did the Emperor fight with the regiment?"

His sister, Sheila, died.

The sixth-place of the regiment killed her.

Su Xiao's eyes flashed. He had seen both Sheila and Gulu. Last time at the auction, he could see a grudge between the two. He did not expect that Gulu directly killed Sheila.

"The brigade is a group of madmen. There seems to be no one they dare not kill. I heard that the two sides had a conflict because of one of the demon-hunting suits."

The demon-hunting suit was a set of dark purple equipment with only three pieces. It was a dream set in close combat.

The dark purple set and the dark purple equipment were two different concepts. There was no comparison between the two.

"Gulu got it?"

"No, the ring of the demon hunter set is in the hands of the god Emperor adventure group."

Things were more complicated than imagined. Su Xiao lowered his head and thought about this.

"Hey, hey, you will not participate in it. Now the god Emperor, adventurous group, blood gate, black sail chamber of commerce, Man Tian, more than a dozen large adventure groups are involved, all for the demon hunter set, which must be a hot potato."

Xia said with relish because these things had nothing to do with her. She just said it as an after-meal thing.

"Hearing you say that..."

Xia nodded.

"That's right. It's good to be alive. Why involve yourself in that matter? You might die."

"I am more interested."

Su Xiao looked at Xia with a smile. Xia's mouth was slightly open, and her expression was slightly embarrassed.

"It's just a joke. Do I still have the qualifications to snatch it now?"

Su Xiao was self-aware. More than a dozen large adventurous groups were snatching that thing. Those people would use various props to track the world where the God-Emperor Adventurer Group was located. If he were involved, he would not have a good end.

What he needed now was to become stronger as soon as possible. Only by being strong could he have the qualifications to obtain the demon-hunting suit.

"Where did you get the information?"

Xia, as a worker, knew about this matter, but Su Xiao did not know it.

"Many workers know. How can I not know about this kind of big thing."

Su Xiao's eyes narrowed slightly. As a solo player, intelligence was a weakness.

Xia felt slightly different when he traded 100 Paradise Coins with Xia.

"I don't have that much money for food..."

Su Xiao waved his hand.

"If you have similar news in the future, let me know. I will pay you."

"Okay."

Xia laughed, his eyes narrowed into a crescent shape, like a little money-grubber.

"Let's go."

Su Xiao left Xia's restaurant, followed by Bobowang, who could no longer walk. His small eyes seemed to say: Master, slow down. I ate too much.

"Foodie."

After returning to his exclusive room and waking up naturally, Su Xiao looked at the timer at the bedside. There were still five hours left before he returned to the real world.

After getting up and washing up, Su Xiao was ready to go to the trial field to summon a mirror image proficient in sword skills. He still had 68500 paradise coins.

Leaving the sleeping Bobowang in the exclusive room, Su Xiao walked to the trial field.

He subconsciously looked at the surrounding stalls when passing through the trading square.

When passing by a stall, Su Xiao stopped. An item on the stall attracted his attention.

"This thing is cheaper."

Su Xiao picked up a broken weapon. This thing was a consumable item.

"50,000 paradise coins, no bargaining."

The stall owner's attitude was firm. No matter how Su Xiao bargained, the other party did not drop one paradise coin.

After hesitating for a long time, Su Xiao spent 50,000 paradise coins to buy the broken weapon.

This thing could not be used for the time being, but it was an opportunity to become stronger, although it was quickly dangerous.

Chapter 506: Debt of Favor

There were only 1850 paradise coins left. Su Xiao's plan to go to the trial field died. He stayed in the trading square and began to make intermediate alchemy bombs to sell.

Five hours later, there were four more bottles in Su Xiao's storage space. There were only 1,200 paradise coins left, and the mana values were also exhausted.

.Rubbing the back of his head, Su Xiao sat on the sofa in the living room. He was in the seaside villa.

Bobowang rushed out of the door. He should go to the beach to catch crabs to play. This fool liked to swim in the sea or catch fish.

Bobowang's ability made it impossible to encounter danger in the real world. There was no other contractor nearby. At least Su Xiao did not notice that a contractor was moving nearby.

Leaning on the sofa, Su Xiao's tense nerves gradually relaxed.

There were no enemies, no danger that came at any time. The real world became the best place for Su Xiao to relax.

To become stronger, you have to pay attention to the degree of relaxation. If you keep being nervous, there will be problems sooner or later. For example, Su Xiao broke into the police station before, reckless behavior.

Buzz, buzz ---

The phone on the coffee table in front of him vibrated. Someone contacted Su Xiao, which made him a little surprised. There were not many people who could call this number.

Picking up the phone, Su Xiao frowned. The contact person showed Wei Dong. It was the people of Scavenger who served the country contractor.

Picking up the phone, Su Xiao did not take the initiative to speak.

"Mr Su?"

Wei Dong's voice was on the phone, and he could vaguely hear that Wei Dong's voice was somewhat tired.

"It's me."

Su Xiao had already guessed that the two sides had signed a contract before, and if nothing happened, Scavenger would not contact him.

The people of Scavenger had helped Su Xiao transfer a private plane abroad. This was a favor, and now Wei Dong wanted this favor.

"How have you been recently?"

It seemed that everyone liked to talk like this.

"There's no need for pleasantries, Team Leader Wei. Just say it directly. It's better to make a deal naked."

Wei Dong coughed dryly on the other side of the line. The assistant beside him was a little dissatisfied. When they contacted the contractor, the other party was always polite in the past.

The assistant opened his mouth and closed it. Wei Dong suddenly turned his head and looked coldly at the assistant. The assistant immediately stopped what he was going to say.

"It's like this. Recently, there have been 'outsiders' causing trouble. Many of us have died, and those guys are difficult to track. Moreover, we can't use large-scale destructive weapons in the city. More importantly, those guys are Tier 2."

The so-called 'foreigner' was the title of Scavenger, which was the foreign contractor.

It was very sensitive for a contractor to come out of the country. A foreign contractor was equivalent to a ticking time bomb.

It was not that the Scavenger could not deal with this group of the foreign contractors, but the area where Wei Dong was located did not have a strong contractor.

If such a small matter needed help, then Wei Dong's identity as a team leader would be impacted. Moreover, he would have to re-run recently.

"Second rank."

"I know that this matter is a little difficult to do..."

"You fought with them?"

"We fought. There are three of them."

Wei Dong gritted his teeth. One of his most trusted subordinates had died.

"Send some photos of the battle scene."

In response to Su Xiao's request, dozens of photos were sent. It was a collapsed abandoned factory with a raging fire.

Su Xiao was estimating the strength of the enemy. Although he owed Wei Dong a favor, the favour was not worth it for him to deal with the enemies he could not deal with.

"Time, location, it is best to have the clothes or belongings of those people."

"You agreed?"

"Yes, only this once. Last time, you guys helped me once. This time, I'll help you guys. It's very fair."

After the two-way negotiation was settled, Wei Dong hung up and heaved a long sigh of relief.

"Team Leader, who is this?"

The assistant looked at Wei Dong in confusion.

"Those foreigners are too arrogant, so I found a god to teach them how to behave."

Wei Dong smiled coldly.

He remembered the scene when Su Xiao pulled out his sword at the train station. The three outsiders did not have a good ending.

The debt of gratitude was the most difficult to repay. After helping Scavenger do this, he did not want to have too many connections with these people.

Su Xiao was not keen on power. He was keen on becoming stronger. There was no reason. He just wanted to become stronger. Becoming stronger was a very fulfilling and happy thing. There was no need for too many reasons.

Wei Dong gave Su Xiao an email and a contact number before hanging up the phone.

Taking out the laptop, Su Xiao logged into the email and began to check the information inside.

The three contractor nationalities were divided into three. The purpose of coming to their country was unknown. One thing was certain these three guys were very arrogant.

On the first day, the three came, and they stayed in a five-star hotel. The local scavengers came to find them. After all, this method of 'crossing into the country' was very unpopular. Moreover, they were suspected of having weapons with them.

That night, the three did not have any conflicts with the scavengers. They signed a contract and promised to leave the city within five days. Moreover, they would not leave the city they were in for five days.

Unfortunately, that night, someone could not control his lower body and dragged a young waitress from the hotel into the room. The things that happened afterwards were clear without saying.

In that guy's opinion, this happened because the waitress was too sexy, which was just a small matter. The scavengers would not fall out with the three of them because of this.

Was it absurd? It was indeed like this in a certain country's view.

The three of them did not expect that the scavengers would immediately come to their door, and the more they talked, the angrier they became. In the end, they fought.

The contractor, who usually maintained public security everywhere, was at the first rank. If he fought against three-second rank experts, the outcome could be imagined.

Now Wei Dong was in a special situation. If he asked the headquarters for help, it would be no problem to find dozens of second rank contractors, but he could not.

After checking the information, Su Xiao packed his luggage and left the residence with some money.

One day later, in the neighboring city.

In a residential building, this was a temporary stronghold of the Scavenger. The one who was responsible for receiving Su Xiao was an old guard. Who would have thought that this gentle older man with a face full of wrinkles was a contractor?

"Mr Su, this is the clue we have."

The older man handed a file to Su Xiao and opened the file. There were several pieces of information and a piece of rag inside.

Several pieces of information introduced the three 'outsiders' identities in detail. These three people escaped from the country after committing a crime. The three people set up an organization similar to a mercenary group. They took some 'dirty work' that ordinary people could not do and obtained a lot of money and resources.

The contractor was generally not short of money, but these three people were different. They could do a lot of things for money.

Su Xiao put down the information and thought about the purpose of the three people.

He did not want to investigate the three thoroughly but avoided getting involved in some incidents.

Kill these three people as soon as possible and return to the seaside villa to keep a low profile shortly.

He took out the rag in the folder. This was a fragment of an outsider's clothing. With this rag, things were much simpler.

Su Xiao put the rag in front of Bobowang. Bobowang smelled it and ran out.

Two hours later, Bobowang returned. It had locked on to the smell of outsiders.

It was noon now. It was not suitable to start, and he did not want to be too eye-catching.

...

Night, one o'clock in the morning.

Su Xiao wore a black suit and carried a knife bag with a sharp sword inside Tang Hong.

Going out in the night, Su Xiao followed Bobowang and walked quickly.

An hour later, Su Xiao arrived in a villa area on the city's edge.

Chapter 507: You are Surrounded

The villa area in the middle of the night was particularly quiet. The security here was tight. Of course, this was relative. For the contractor, the monitoring equipment was useless.

Su Xiao put on single-sided headphones and pressed the switch on the headphones. There was a quiet conversation in the headphones.

"I am Su Xiao."

Su Xiao spoke, and the headphones quieted down.

"Mr Su Xiao, are you ready?"

A few kilometers away, Wei Dong was sitting in a surveillance car. At this time, the villa area was full of scavengers and contractors.

"Evacuate the crowd first and close the monitoring equipment nearby."

Su Xiao wanted to make sure that there were no 'onlookers' nearby when he made a move, and the monitoring equipment must be closed.

"Half an hour."

As a violent mechanism, evacuating the villas on the city's edge was not a big problem, even if all the people living here were powerful.

Because it was one o'clock in the morning, the evacuation of the crowd did not make much noise, and the monitoring equipment was closed one after another.

"Find them."

Su Xiao looked at Bobowang, and Bobowang quickly ran to the villa area.

...

In the Villa area, the scavengers immediately evacuate the ordinary people, and there will be a battle here.

Three men with different skin colors and dressed up sat together in a three-story villa.

"Have you found the target? The scavenger is at his limit."

"I'm looking for it. I think I can find it in two days."

"Huh?"

In the darkness, a pair of bloodshot eyes narrowed.

"Trash."

The white Bach stood up like a strong polar bear. He looked coldly at the bearded Ah San. The bearded Ah San's skin was slightly dark, and he noticed Bach's gaze. Although Ah San lowered his head, his eyes were filled with unwillingness.

"Trash who can't control his desires."

Bach raised his hand and slapped Ah San. Ah, San was stunned.

"You..."

"If not for you, we wouldn't have had a conflict with Scavenger, let alone be like a dog, sh*t!"

Bach took a deep breath and tried his best to restrain the urge to kill Ah San.

"The two of you, don't be so agitated. We are temporarily safe."

A voice suddenly came from the darkness. A set of white teeth appeared out of nowhere. It was a little black man.

"Old Black, shut up."

"Who are you calling Old Black? Say it again."

The little black man who had been smiling earlier was furious.

"I'm talking about you."

Bach looked at the little black brother. The little black brother looked at him with his middle finger. Bach could not do anything to the little black brother, so he angrily looked at Ah San.

"Hu ---"

Bach let out a long sigh of relief.

"I won't pursue the previous matter. From now on, we will act according to the plan, especially you, Lahar."

Bach glared at Ah San, and the few people in the room did not speak.

The little black man with the night cover spoke a few minutes later.

"It's so quiet around here."

The little black man closed his eyes and sensed his surroundings.

"It's early in the morning. It's normal to be quiet."

"No, I sensed that all the breathing sounds around have disappeared. There is a faint breathing sound next door. It should be a woman."

The little black man stood up and sensed his surroundings uneasily.

"Someone is approaching, so fast!"

As soon as the voice of the little black man fell, the whistling sound of wind breaking was heard.

Boom.

The villa door was broken, and the cement walls on both sides of the door were broken, forming a broken door hole. The security door flew to the three people and smashed in front of them with a clang.

Kacha, Kacha...

The sound of footsteps came from outside the door. It was the sound of the soles of the shoes stepping on stones.

Clang ---

The sound of a knife being pulled out was not loud, but it was obvious on this quiet night.

A man in black walked into the door hole.

The moonlight shone into the room from the door hole, and under the moonlight, only a man could be vaguely seen.

"Then, the three of you came to our country to behave atrociously."

Su Xiao blocked the door with a long sword, and the three people in looked at the room.

"Friend, calm down. You are a scavenger. We had some misunderstandings before."

Bang.

The sound of gunfire rang out, and the smell of smoke spread out.

Ding.

The bullet was sent flying, and Su Xiao stood motionless at the door.

"Bach, no, he wants to kill us. No need to explain."

The little black brother was a wise type, and Su Xiao's strong killing intent was obvious.

"Lahar, test his background."

Bach looked at Ah San.

"Why me?"

Lahar blurted out in dissatisfaction.

"Sh*t, if you don't have the guts, then don't develop in the direction of the main tank. How many party resources did you eat?"

Ah San curled his lips and said, "I don't have a shield."

The black man picked up the twisted anti-theft door on the ground.

"Use this."

Lahar reluctantly took the security door. After hesitating for a moment, he slowly approached Su Xiao. He was forced to do this for the sake of future benefits.

The unity of Ah San Lahar would be displayed to the extreme. There were many small adventurer groups in the reincarnation paradise. Some contractors did not dare to go alone, and the large adventurer groups looked down on them.

Therefore, he could only find a contractor of the same level to form various adventure groups. They did not trust each other, and under the constraints of the adventure group, they could not stab each other in the back.

Looking at Ah San, who was walking slowly, Su Xiao smiled. He used to think that the three were very strong, but now it seemed that it was just the attribute that crushed the contractor and that poor pace was nothing in his eyes.

Su Xiao's combat power in the real world was very strong. In the real world, active skills could not be used. The equipment was forcibly stored in the storage space, and he could only fight with passive skills and physical fitness.

Su Xiao's four attributes developed, and he had a lot of passive skills.

Stepping on the ground, Su Xiao quickly rushed to Ah San.

Hu ---

The sound of wind breaking came. Ah San's heart was cold. The enemy's speed was too fast.

Clang!

The shining knife light was particularly conspicuous in the dim villa. The twisted security door was cut off, and at the same time, Ah San's arms were cut off.

"Ah!"

A scream came. A girl hiding in the wardrobe in the next villa covered her ears, and fear enveloped her. She should have been evacuated, but the scavenger had been negligent.

Su Xiao gently shook off the blood on the long sword. He looked at Ah San, whose arms were bleeding. The physical strength of the other party was good, but the combat experience was too spicy. Without thinking, he knew that this was a contractor who relied on equipment and active skills to fight.

"Bach, medicine, quick."

Ah San's body twitched. The pain of his broken arm made his lips turn pale.

"How can I make medicine in the real world?"

Bach was a little disappointed with Ah San. The enemy was unexpectedly strong.

"You are... what rank contractor, third rank?"

Su Xiao did not speak and rushed to the three people quickly.

Bang, bang, bang...

The black man with two pistols opened fire, and every bullet shot at Su Xiao's vital point.

Ding, ding, ding.

Su Xiao, rushing forward, slashed with his long sword, and all the bullets were smashed away.

Looking at Su Xiao rushing over, the three people put on a fighting posture. Although they could not exert all their strength in the real world, Bach was not a meat persimmon. He pulled out a Netherbar Saber from the back and rushed to Su Xiao.

The little black brother quickly shot the bullets in the karate gun, and these bullets made Su Xiao's forward pace slower.

Su Xiao rushed forward, and the first to be unlucky was Ah San.

"Save me..."

Ah San stepped on the ground and jumped back.

Su Xiao waved his left hand, and a near-transparent wire flew out of his sleeve. The front end of the wire was tied with a hook lock.

The wire was wrapped around Ah San's waist, and Ah San, who had already jumped in the air, was forcibly pulled down.

Ah San's eyes widened, and a light blue light covered his sight.

The light blade was not an active ability, so that it could be used normally in the real world. This was good news.

Chapter 508: Brain Hole Girl

Puff!

The saber light pierced through Ah San's waist, but it did not slow down. It directly cut through the villa wall and disappeared into the night sky.

Ah San's upper body fell to the ground, and blood and intestines spilled on the ground.

"Ah!"

Ah San let out a long howl. Bach and the little black brother holding an M16A4 automatic rifle were stunned.

"Sword... sword energy."

The little black brother swallowed his saliva and even forgot to pull the trigger. He knew what it meant to be able to slash out sword energy. It was an ability that only appeared when the sword or the sword reached Lv.20.

Ah San's cry came far away. Su Xiao stepped forward and stepped on Ah San's head.

Crack.

Ah San's head was crushed, and Su Xiao looked up at the other two people.

"Run!"

Bach shouted and turned to run.

Tu-tu-tu-tu-tu-tu-tu-tu-tu...

The black man with the M16A4 automatic rifle pulled the trigger, and bullets flew out of the muzzle.

When he heard the gunshot, Bach slowed down his steps.

Su Xiao waved his long knife to cut away bullets, sparks flew, and he gradually approached the black man.

The black man in the gunfire nodded to Bach.

"You saved me once. I'll return it to you."

The black man grinned and showed his white teeth. Although he often quarreled with Bach, the relationship between the two was good. They were friends of life and death.

Bach's face twitched. He turned around and continued to run. He didn't say anything about staying with the black man.

Bach smashed through the villa's back door and fled out of the villa in a sorry state. At the same time, the gunshots stopped.

The three people relied too much on equipment and active skills. This was also the problem of most contractors. They could crush ordinary people in the real world, but they had no way to deal with Su Xiao, who had a bunch of passive skills.

Bach knew that the little black brother was dead when the gunshots stopped. There was no suspense.

Clang!

The light blue blade was extremely bright in the night sky.

The scavengers surrounding them were stunned. Some of them opened their mouths slightly as if they could not believe what they were seeing.

Clang, clang.

Another two blade lights rushed out of the villa, and Bach fell to the ground, barely dodging a blade light.

"This guy must be the third rank. A first rank and a second rank can't be so strong in the real world."

Bach quickly got up from the ground. Just as he was about to continue running, a black shadow rushed out of the villa.

The sound of wind breaking was heard. Bach subconsciously turned around and blocked the Nether Saber in front of him.

Ding.

Sparks flew. Tang Hong was not as sharp as the dragon flash, but with the bonus of the master of knife skills level. The long knife was deeply inserted into the Nepal Army Saber and almost cut the knife directly.

Bach held the knife with both hands. His strength attribute in the real world was 45 points, and with the addition of several pieces of equipment, his strength attribute in the reincarnation paradise was 56 points.

This was the difference between Su Xiao and Bach. Bach generally chose equipment that increased attributes, while Su Xiao chose functional equipment.

There was no equipment bonus, active skills were not available, and Bach's strength was equivalent to the reincarnation paradise's first-level contractor. At most, the first level was stronger.

The long sword in Su Xiao's hand pressed down, and Bach bent his knees, his face red and purple.

The two began to fight, and Bach was obviously at a disadvantage.

The long sword gradually approached Bach's neck. Bach knew that he would die if this continued, so he immediately used emergency measures.

A grenade rolled out of Bach's clothes, and the pin of the grenade had been pulled open.

"Die."

Bach clenched his teeth. Su Xiao's strength and agility were very high. In his opinion, Su Xiao's physical attributes must not be high. He was an assassin type enemy.

The moment the grenade rolled down, the strength in Su Xiao's hand slowed down, and Bach was about to kneel on the ground.

Su Xiao raised one foot and kicked forward. He kicked Bach in the abdomen.

Bach's body was bent like a shrimp. He spat out the acid from his mouth, and his body flew out uncontrollably.

Boom.

The grenade exploded, and the shrapnel flew everywhere, hitting the outer wall of the villa with a bang.

Bang.

Bach crashed into the wall of the next villa, smoke and dust rose, and it was unknown whether Bach was dead or alive.

The fire explosion receded, and Su Xiao walked through the crater on the lawn and slowly walked to the villa with a big hole in the wall.

Bach was about to stand up in the smoke and dust when a figure broke through the smoke and arrived in front of him.

The long sword fell, and the sword stabbed at Bach's head.

Ding.

Bach dodged the knife, the long knife stabbed into the precious marble floor, and stone chips splashed.

A foot stepped on Bach's back, and with a crack, several ribs were broken, and his body was close to the ground.

"What benefits did they give you? I will pay ten times."

Bach said this very quickly, and what greeted him was the blade.

Puff, a head flew up, and blood stained the marble with clear lines.

"Ah ---"

A short scream came, and the sound of tables and chairs falling in the bedroom of the villa.

Su Xiao frowned. In the real world, in addition to the professional sensing type contractor, other contractors' perceptions would be suppressed to a certain extent. The elements in the air in the real world were too thin. Not only the elements, but there was also unknown energy that was very thin, so the perception could not spread far.

Su Xiao could only clearly perceive the situation within a few meters, such as the bullets flying. A few meters away was very vague.

Picking up a towel on the living room tea table, Su Xiao wiped the blood on Tang Hong and walked slowly to the bedroom.

Pushing open the bedroom door, a slight sound came from the wardrobe beside.

Su Xiao stood in front of the wardrobe. There was a girl hidden in the wardrobe.

The girl was the daughter of the owner of the villa. Her name was Li Murui, 17 years old and she was a girl in the rebellious stage.

Li Murui was both afraid and excited at the moment. She had always wanted to be an extraordinary person, so she loved supernatural movies and anime. Although she was a rich man's daughter, she was also a female otaku.

Just ten seconds ago, she saw a man in a black windbreaker holding a long knife cut off another person's head. For the first time, she knew that the blood of the person who was beheaded would spray out a few meters, and the person who was beheaded would not die immediately. The headless corpse twitched instinctively.

Li Murui's first thought was to meet a supernatural being, and they were two hostile superpowers.

However, both sides did not use superpowers like fire or ice. Li Murui's heart was converted from the battle between superpowers to martial arts movies. She had to admire this girl's imagination.

The man with a long knife was standing outside the wardrobe. Li Murui heard footsteps.

This is an opportunity. Maybe I can become extraordinary too.

The scene of the murder scared Li Murui to the point that her legs went soft, but that kind of yearning for mystery made the fear in her heart lessen a little.

Gathering her courage, Li Murui shrank into the depths of the wardrobe ---

There were dead people outside. No matter how much she wanted to have supernatural abilities, she was a 17-year-old girl, and it was inevitable to be afraid.

Su Xiao opened the wardrobe and looked at each other.

"Take me as a disciple. I can bear hardships. Maybe I have a good understanding."

Li Murui was wearing silk pajamas and knelt in front of Su Xiao with a thud, her forehead touching the ground.

Su Xiao's cheeks twitched.

Two minutes later, Li Murui, whose hands and feet were tied, squirmed on the bed with tears in her eyes with a towel stuffed in her mouth.

Su Xiao pressed the headphones.

"There are witnesses."

"What!"

A cry of surprise came from the headphones.

"I'm thinking about whether to kill him or not."

Su Xiao looked at Li Murui. Li Murui's eyes widened, and she stopped struggling.

"Woo ---Woo ---"

Li Murui struggled even more violently.

Chapter 509: New World Opens

"Wait, wait, send me a photo."

Wei Dong's tone was anxious. Their responsibility was to have a witness, and the scavengers were not clean.

After hesitating for a moment, Su Xiao took a photo of Li Murui with his mobile phone and sent it to Wei Dong.

Dozens of seconds later, the phone in Su Xiao's hand vibrated.

"Mr Su, you didn't kill her, did you?"

Wei Dong, who was on the other side of the line, was covered in a cold sweat.

"Not yet. She has nothing to do with this matter."

"That's great. Did she see your face?"

"No."

Su Xiao was wearing a half-face mask. Of course, he would cover his face. Otherwise, the witness would be killed by him immediately. Wei Dong did not even have a chance to know.

"The identity of the girl is a little special. It is..."

After Wei Dong said a name, Su Xiao's eyes narrowed slightly. It seemed that he could not kill him. Otherwise, an older man in the military would retaliate crazily.

Although he could not do anything to him, it was very troublesome. He still wanted to relax in the real world.

Besides, it was not good for him to kill her. It would only increase the trouble.

"How about we deal with this matter?"

Su Xiao thought for a moment and shook his head.

"Find this girl's family. One hour is enough."

Su Xiao would not let Scavenger help him deal with this matter, which would leave a hidden danger.

"Okay."

The phone hung up, and Su Xiao cut the wire on the girl's hands and feet.

"Don't move without my permission, don't talk, understand?"

Li Murui nodded quickly.

...

In a private room of a high-end clubhouse, although it was already the middle of the night, the atmosphere in the private room was warm. Some middle-aged men and women were toasting each other.

The first middle-aged man picked up the wine glass on the table. His face was square, giving people a sense of righteousness and reliability.

"Thank you for your help this time. It's so late..."

The middle-aged man was talking when the phone in his hand rang. He turned his head to look at the number on the phone. His face became serious, and he put down the glass in his hand simultaneously.

After picking up the phone, the middle-aged man's face changed dramatically a few seconds later.

"Darling, what's wrong?"

A noblewoman also put down her glass. She rarely saw her husband show such an expression.

"Excuse me, everyone."

The middle-aged man winked at his wife, and the two hurriedly left this very important dinner.

...

A luxury car was driving at high speed on the road. The middle-aged man put his hand on his knee and patted his pants lightly. He seemed a little uneasy.

"Darling, what's wrong?"

The middle-aged woman said gently. Although she was over forty years old, she still had the wind.

"Rui Rui had an accident and was kidnapped."

As soon as she finished speaking, the middle-aged lady's eyes became watery, and her body became cold.

"Rui Rui is injured. Have you found the kidnapper? The kidnapper..."

The middle-aged man waved his hand.

"The kidnapper is in our house."

"Ah?"

"It's very troublesome. Contact Dad immediately. The other party will only give us an hour."

"This is..."

"Don't ask too much. Let Dad negotiate with you. Don't say anything. We can't afford to offend that kind of person."

This middle-aged woman pair was very unfamiliar because she was the general's daughter.

...

Su Xiao sat in the living room of the villa. There was a headless body nearby. The girl was curled up on the sofa. The smell of blood in the room made her more honest. She did not dare to breathe.

Creak ---

The ear-piercing sound of the brakes could be heard. A group of people hurried towards the villa. The leader was an older man. Although the older man had a head full of white hair, he had a sense of dignity without anger.

The older man walked into the villa, followed by a middle-aged couple.

The headless corpse and the smell of blood in the room made the middle-aged couple look bad. The woman covered her mouth and forced herself not to vomit.

A figure sitting in the shadow of the living room spoke.

"We meet again, Mr Fang. What a coincidence."

Su Xiao looked up at the older man.

"This may be the will of heaven. I probably heard about it. There are too many coincidences."

The older man sat opposite Su Xiao and handed him a cigarette.

Su Xiao took off the mask on his face, took the cigarette and lit it up. The other party had seen his face, and he knew it with his butt.

The scavenger and the others would provide his information to the older man. They were good people inside and outside, and they did not offend each other. This was also the reason why Su Xiao personally handled this matter.

The last time I saw you, I was still in prison. To catch you, I sent many people. Unfortunately, the prison guard was not tight enough. How did you escape?

Su Xiao did not answer the question of how he escaped. It was completely dog shit luck. He suspected that that time made his luck seriously 'overdraft'.

"Those people under you are very capable."

Su Xiao remembered the scene of escaping from an ancient forest. The soldiers of the special forces were extraordinary. When he was still an ordinary person, he was not a match for several people.

He once killed someone because of revenge. Of course, the police would arrest him. Once, he escaped into an ancient forest, so the military moved out. That was the only time he was caught.

"You could have watched me bleed to death. Why did you save me?"

Mr Fang lit a cigarette, and the woman behind him opened her mouth and finally did not speak.

Mr Fang took a drag on his cigarette and seemed to enjoy it. It seemed that he had not smoked for a long time.

"I am only responsible for catching you. Whether you are guilty or not has nothing to do with me. It should be the court judge."

After listening to Mr Fang's words, Su Xiao stood up, Tang Hong returned to the sheath, and he walked out of the villa.

Walking to the door of the villa, Su Xiao stopped.

"You have never seen me before."

"Yes, never."

Elder Fang nodded.

"If there is any news, I will come to 'pay you a visit again."

Su Xiao walked out of the villa and disappeared into the night.

"You are not allowed to spread what happened today. It is a matter of life and death. Do you understand?"

Elder Fang looked at the middle-aged couple and the girl with a serious face. Even if this were his daughter and granddaughter, if the news were spread, they would not have a good ending if that person came again.

"That..."

Li Murui ran to Elder Fang in small steps. She knew that her grandfather loved her very much.

"Don't mess around! Some people are different from us. The law can't restrain them. If not for a coincidence, today's matter wouldn't have ended so simply."

Elder Fang's tone made Li Murui shrink back.

"A lunatic full of vengeance has become that kind of person. This might be the craziest kind of person."

Mr Fang sighed and looked at the headless corpse. He could stay away from the other party and never see the best choice.

...

A few days later, on a white beach.

Su Xiao sat on the deck chair with a fishing rod in front of him.

It had been a few days, and there was no news after that. The people of the Scavenger never appeared again.

After this incident, Su Xiao had nothing to do with the Scavenger, and the debt of gratitude had been paid off.

Life was like a play, and there were too many coincidences. For example, he met the girl, which resulted from many coincidences.

At this time, Su Xiao was fishing. He found that fishing could relax his mind, although he did not catch even a hair in five days.

Looking at Bobowang, who broke out of the sea not far away with a big fish in his mouth, Su Xiao lost some confidence in fishing.

"He must have bought fake bait, a profiteer."

The sense of transmission appeared, and Su Xiao returned to the exclusive room of the reincarnation paradise.

The new derivative world was about to begin. Su Xiao was a little eager to try. He was much stronger than before, and this time he had ambition. If 'that thing' was successful, his strength would increase greatly. Although he could not reach the top of the second rank, it was no problem to get into the top 50 of the arena.

Su Xiao did not leave the exclusive room. His recovery had been prepared and could only arrive in an hour.

"Come on. I can't wait."

Chapter 510: Familiar and Bad Start

Everything was prepared. Su Xiao waited for the new derivative world to open.

Every time he returned to the reincarnation paradise, there was an hour to prepare. The higher the level, the sooner he got the information about the next world.

Now Su Xiao's level was Lv.10, and he could understand the information of the next derivative world 50 minutes in advance.

He guessed that after the level reached Lv.12, he could get the situation of the next derivative world when he returned from the real world to the reincarnation paradise. This way, there was more preparation time.

Ten minutes passed in a flash, and the hint of the reincarnation paradise appeared.

Su Xiao did not care about this hint. He would not enter the big sword world at all. He was ready to use the props he bought with 50,000 paradise coins before.

The force of the big sword world was not low. It was very dangerous. Some of the seemingly weak plot characters often exploded.

There were some derivative worlds in the reincarnation paradise that were more popular. The power system was complete, and the pattern was big enough.

Su Xiao was most afraid of entering a kind of world, the mysterious world of the power system, such as the 'melancholy of the spring day' in the derivative world, which was the super unpopular derivative world. How many powerful contractors died there.

The beautiful girl who ignored the rules and force could be called a contractor's nightmare.

Fifty minutes later.

"Use."

Su Xiao was ready to enter a high-level world. He wanted to plot a 'thing' in that world. If the plan succeeded, his strength would be greatly enhanced.

He took out a broken broadsword. This broadsword was the size of a door, and Su Xiao held the blade's tip in his hand.

Quality: Purple

Type: Consumable

Effect: After use, it can change the derivative world that is about to enter.

Rating: 150

Description: 170,000 Paradise Coins

...

The blade's tip broke in Su Xiao's hand, and the space around him surged.

Su Xiao was ready to enter the Naruto world. He had thought about whether to enter this world for a long time before.

According to his guess, the Chakra of the Naruto world was a type of energy. The blue steel shadow had more than 90 chance of burning this energy. In other words, when some stronger Ninjas fought with him, he was not unable to resist.

It was true that ninjas were very strong, but most of the ninjas' physical strength was not high. Even in the later stage, those ninjas who had reached the semi-god level were still not strong.

In this case, with the blue steel shadow burning the energy, the chance of Su Xiao defeating the ninja was very high.

As for illusions, he was not worried. The higher intelligence and spiritual resistance made him immune to illusions that were not too strong. Of course, there was no way to deal with them.

And there was another more important reason for entering the Naruto world, which was the ability that Su Xiao had just obtained, the Nuclei.

Skill 8

Nuclei:

[Skill effect: Able to absorb high-level creature energy to nourish the green steel shadow energy, increasing the level and quality of the green steel shadow according to the absorption level and quality.]

...

At the same time that he obtained this skill, the first creature that Su Xiao thought of was a tailed beast. If he could absorb the tailed beast's Chakra, then Su Xiao's green steel shadow level could rush from Lv.10 to Lv.20.

If he could absorb two tailed-beasts...

The green steel shadow was the core energy of the shadow of the law, and when it reached the level of Lv.20, there would be a qualitative change. At least the master of the sword would be like this.

It was difficult to plot for tailed beasts, but it was not impossible to have Mengxiao.

What Su Xiao was most worried about now was the time to enter the Naruto world. It would be a big joke if he entered the Warring States Era.

That was the most difficult period of the Naruto world. There were many superior Ninja-like dogs, and the shadow level was everywhere. Only the 'Super Shadow' could shake, and he would die if he did not shake. For example, if he encountered the first generation of flame pillars, or Long Aoban and others.

During the Warring States period, it was not very good, and the 4th world war period was also not very good,

At that time, the possibility of seizing the tailed beasts was not high. Su Xiao did not think that he could be strong at the hands of Obito or Yu Zhibo.

Su Xiao was not clear about the specific period. This could only be left to fate.

Su Xiao's mouth twitched, and the scene of entering a one piece world was still vivid in his mind.

"Ow ---"

Bobowang wailed and looked at Su Xiao pitifully.

"As long as you get used to it..."

Bang!

Su Xiao's eyes were dark as if he had been hit in the back of his head by a big hammer.

The power of space surged, and the transmission of the reincarnation paradise was completed.

...

After an unknown period, Su Xiao woke up slowly.

Dim, damp, the smell of mud mixed with the slight rotting smell of corpses entered his nose.

Su Xiao opened his eyes, and some familiar scenes appeared. It was an iron bar, an iron bar used for prison cells.

Standing up, Su Xiao rubbed the back of his head around looking.

He entered a prison again, similar to the treatment of the steelmaking world, but the treatment was worse this time. There was a body three meters away from him.

This body had just died not long ago, and there were obvious wounds on its body. The chest and abdomen were wrapped with bandages full of blood, so it should have died of bacteria infection.

Walking to the iron bars, it was a little dark outside, and there was an oil lamp on the wall. The flame swayed and emitted a dim light.

The entire prison had more than ten cells side by side, and Su Xiao was in the innermost cell.

The prison air was wet, and with the dark environment, Su Xiao guessed that this was a prison located underground, commonly known as the dungeon.

"Hello, next door."

The voice came from the next cell. Because of the stone wall, Su Xiao could not see the situation next door.

"Did you hear that?"

The voice was very weak, but the tone was not good, and it was not easy to hear.

Su Xiao did not speak. He turned his head and saw Bobowang. As his follower, Bobowang was naturally in the same cell as him.

At this time, Bobowang was a little depressed, his furry claws pressed to the back of his head, and his resentful eyes seemed to say: 'Master, are you going to be beaten if you spend 50,000 paradise coins?'

As soon as he appeared, he was helpless to meet the current situation. It was not good to use the world key to enter the derivative world. The location depended on luck. The identity arranged by the reincarnation paradise needed to be explored slowly, and this kind of identity was extremely deceptive.

"Hey, I'm talking to you."

The hoarse voice next door spoke again.

"Is Chuanmu dead? If he is dead, give me an arm, and I will starve to death."

From this sentence, one could tell how bad the situation in this dungeon was. Devouring corpses was already normal.

[Location: Mist Village]

[World Difficulty: LV1.3 ---?]

[Source of the World: 0.]

[World Description: This is the world of ninjas. There are endless wars. Hatred produces even more hatred. The five villages often have conflicts. Ninjas are the best tool for war.]

Chakra: A type of energy produced by the perfect fusion of spirit energy and body energy. Generally speaking, it is used for Ninjutsu. Simply put, it is the necessary energy to use Ninjutsu.

Main mission: Choice.

Hunting mission: clean up 1000 + offenders.

Hint: 1000 + offenders are stronger, so the hunter must be cautious.

[Hint: When the hunter enters within a kilometer of the offender, the hunting function will automatically be activated.]

[Warning: Please do not mention 'Paradise' in this world. If the warning is invalid, the execution will be forced!]

[Hint: Detected that the hunter has not mastered the language of this world, using 100 paradise coins to master the language of this world automatically.]

[World, begin!]
