

R. Paradise 51

Chapter 51

On the east side of the 14th district, in the Da Yuan auction.

“Ladies and gentlemen, this item must not be missed...”

With the introduction of the host on the stage, the bidders under the stage had called for the price.

It was daytime, so this was the world of human. Of course, it was inevitable that a few ghouls mix in during the day.

the two serious old men all look at the item and start to compete by calling for prices.

Su Xiao also sat under the stage, his focus was different from other people.

The size of this auction site was not small. At least hundreds of people are here to bid at the same time, the entire auction site had three exits.

They were: the main entrance, the back door, and the emergency door.

The emergency door will not open normally, it only opens when situations are urgent such as when there is fire, but there is also a need for a blockade.

If it is three exits, it is not possible to rely on Mado Akira alone. It seemed that it was necessary to dispatch other people from the branch.

Su Xiao got up from the crowd and went to the bathroom in the auction and take out the phone.

” Shinohara Yukinori, Byakuya speaking.”

Shinohara Yukinori should be on duty, and the voice on the phone was very noisy.

“What’s wrong, First class Investigator, Byakuya?.”

The name Shinohara Yukinori called Su Xiao shocked him, he surprisingly called him the first class. It seemed that the headquarters had helped him with his promotion.

“I found a large-scale gathering place that required lots of people to help.”

Su Xiao deliberately added ‘lots of people’ and wanted to clear the 14th district. It was difficult for only him and Mado Akira to do all this.

It was not that Su Xiao was not strong enough. To clear the 14th district, he needed lots of people to help block the route.

“How many people do you need.”

As a first-class search officer, Su Xiao had the right to mobilize people, but he could not mobilize too much.

“A lot, but the strength required is not strong, as long as they can block the road.”

Shinohara Yukinori on the opposite side of the phone thought for a while.

“The number of Investigators in the 14th divisions is not large, and the number of Investigator below the third level class is 80.

However, you should tell me your plan first.”

Su Xiao described his plan, and Shinohara Yukinori was obviously shocked after listening to it.

“Clearing the 14th district? This is not a simple matter. Although there are not many ghouls in the 14th district, they all hid. Do you have plans?”

“There is a way.”

Shinohara Yukinori was silent for a long time.

“Got it, if this thing is not done well, it may have a great impact on your future.”

Su Xiao chuckled, he didn’t care about the future.

“It doesn’t matter, I will act tonight.”

“I can’t catch up now, I will just send Juuzo Suzuya there. As for the men you want, they will arrive soon.”

Su Xiao prepared to hang up the call but was stopped by Shinohara Yukinori.

“Byakuya, you are promoted to the first-class Investigator, and the documents are in the branch. I will ask Juuzo Suzuya to bring it to you.”

“Ok.”

Su Xiao hung up the phone.

Just as he was about to leave the bathroom, he accidentally saw a mouse.

This mouse was a little special, the hair of its whole body was pale yellow, Su Xiao carefully checked it, it was a hamster.

There were mice in the bathroom that were not surprising, but why were there hamsters? Was it a pet brought by a bidder? It was not impossible.

The pale yellow hamster was not afraid of people. He stood upright on the edge of the sink, and the two front paws were holding something while eating.

“Ka, ka, ka.”

In the quiet bathroom, only the sound of the little hamster could be heard, this little thing was squeaking and chewing, it looked very cute, a pair of dark eyes, looking at Su Xiao with curiosity.

Somehow, Su Xiao suddenly felt like he was stared at as if this was not a hamster but a person.

“Squeak.”

The little hamster screamed, and the two front paws held a small piece of carrot, then it surprisingly handed it to Su Xiao.

That was very obvious, he wanted him to eat too.

Su Xiao smiled and turned and walked away. Except for this little hamster was too smart, there was nothing wrong.

After Su Xiao left, the little hamster ate the carrots and pat on satisfactorily its stomach.

In the dark eyes, a flash of blue light appeared. After doing some flexible jumps, the little hamster disappeared in the bathroom.

....

In a residential building 500 meters away from the auction, a girl in a light green dress suddenly opened her eyes.

“Sister, I found it.”

The girl in green dress looked pure and had a long hair that dropped on her shoulders. The being next to the girl could smell a scent of grass from the girl, it seemed to be the scent of nature.

“How, Is he as strong as cold fish said? The guy is cunning, he looked as if he was afraid of us, but he isn’t. If I wasn’t curious about him, I would have killed him.”

A tall female in a royal knight’s armor stood straight.

The equipment which wore by her weighted at least two or three hundred pounds, but it looked very easy to use for her.

“Cold fish may have lied. According to the perception of squeaking (the little hamster), the man strengthened three attributes, namely strength was 13 points, agility was 13 points, and intelligence was 12 points.

The individual attributes were similar to us, except that he was taking a balanced route. “

The green girl yawned, and her pretty face looked slightly tired. It seemed that it is not easy to control the hamster from a distance.

The knight’s eyebrows were wrinkled.

“I can understand the strength and agility. What is this intelligence? Is he a sword-warrior who actually strengthens his intelligence?”

The green dressed girl was lying on the bed, and the two white legs were tilted up and shook from time to time.

“Who knows, there are many weird guys every day, and there are so many today.”

After that, the green dressed girl giggled.

“Do you want to kill him.”

A slightly hoarse female voice came from the corner of the room. The corner of the room was dark, and only a woman in tight clothes could be seen.

If the woman didn't speak, no one would've noticed her.

The knight was obviously the leader of the three, she thought carefully for a long time.

"Of course, he was alone in a camp, it is absolutely not normal. The balance will be destroyed if we kill him. Then the derivative world will produce a lot of world sources.

The three of us use the exempted volume to enter the low-level world. There is no main task at all. If we don't do anything, we will lose a lot. This is an opportunity, a rare opportunity. "

Two other women in the room nodded.

"Mrs. Queen, when do we start."

The girl in green clothes yawned again, and she looked like she couldn't stay awake.

"Call me a queen, don't increase Mrs, it's too weird."

The knight stared at the green dressed girl.

"I know, Mrs. Queen."

A charming smile came from the corner of her mouth.

"Black-white, you are so naughty, but you're as flat as a board."

After hearing the word flat, the green dressed girl directly became angry and sat up from the bed.

"I am not flat. My 'milk volume' is super big. If it weren't for my 'milk amount', you've already been in the giant's mouth."

What the Queen suddenly thought of, showing a gentle smile.

"Yes, you are the nanny with biggest milk volume, jokes aside, we will start tonight."

Talking about serious things, the other two suddenly became serious as well.

"I am going to find the high point."

The woman who had been hiding in the darkness walked out, and the tight purple clothes outlined a plump figure. The long purple hair was tied into a ponytail while there was a heavy sniper rifle at least one meter long behind her.

"I will count on you, Byakuya."

In this way, the three women who were unknown, began to prepare to ambush Su Xiao, Su Xiao completely did not know about it, he was preparing to annihilate ghouls in the auction.

Chapter 52

Su Xiao walked out of the auction, and now it was daytime, and ghouls usually go out at night.

“Mr. Byakuya, hello.”

Some passive voice came from not far away, Su Xiao looked there, it was that little white-haired Juuzo Suzuya.

“This is the document.”

Juuzo Suzuya handed the document to Su Xiao and looked at him with a smirk.

At the moment of getting he received the documents, the reincarnation paradise gave a hint.

[You have been promoted to a first-class Investigator, contribution points: 525/2000.]

Su Xiao frowned when he saw the value of the contribution points required to get the next promotion.

The contribution points required to be promoted from ‘third-class Investigator’ to ‘Superior Investigator’ did not have a specific pattern, sometimes it went up by nearly ten times, sometimes nearly five times.

However, to gather these 2000 contribution points he needed to kill hundreds or even thousands of ghouls.

“Mr. Byakuya, what are you thinking about?”

Juuzo Suzuya looked at Su Xiao curiously.

“Nothing.....”

Su Xiao just wanted to talk, but suddenly he had a light feeling on the back.

It seemed as if someone was staring at him, and it was the same feeling as being stared at by the little hamster in the bathroom.

His eyes suddenly sharpened and he scanned surrounding in silence.

“Squeak, squeak, squeak.”

The subtle biting sound came and was mixed in the whistle of the car. In the conversation with the pedestrian, Su Xiao stared at the garbage.

On the trash bin, there was a small hamster standing upright and eating something.

This familiar scene made Su Xiao’s eyes tighten.

This hamster was weird, it was not right.

After Su Xiao’s eyes were concentrated on the hamster, the hamster immediately stopped eating and handed a small piece of apple to him.

Su Xiao’s consciousness just removed from his eyes, but suddenly he felt that there was something wrong.

After the hamster made this action, he left the bathroom and no longer doubted the hamster. Why is this?

Su Xiao gazed once again at the hamster. The little hamster's chewing action suddenly stopped. The two claws held the small piece of apple fell on the trash bin as it turned to run.

This little thing was watching him.

Su Xiao quickly rushed across the road and did not care about the passing vehicles.

The little hamster ran very fast and went straight to the alleys on the street side, but Su Xiao was faster and gradually approached the little hamster.

In a house in 500 meters away, the green-haired girl lying on the bed suddenly opened her eyes.

“What a joke, how can the Lv.3 fraud not work.”

The lazy expression on the green girl's face disappeared, she looked a little nervous. The little hamster was her symbiotic partner, with three passive abilities, very precious.

“Leaves, what happened.”

The knight queen looked doubtfully at the green girl, leaves.

“‘squeaking’ was discovered by the man and was running away. Queen sister save squeaking right now.”

“How can it be?”

The queen felt somewhat unbelievable, and the little hamster was their most important source of information.

“I'm going now.”

The queen rushed out immediately, and the whole body armor collided, bursting out with a loud sound.

....

Su Xiao quickly chased the little hamster. After another 200 meters, there was a sewer. Once the little hamster ran into the sewer, he was unlikely to catch up.

The dragon flash appeared in his hand, Su Xiao turned dragon flash in his hand for two laps. After adjusting a little, he dropped it.

“Ding.”

The dragon flash accurately pierced the body of the little hamster. The blade was deeply immersed in the ground, but the handle was not moving. It could be seen how hard the blade of the dragon flash was.

Su Xiao quickly stepped forward and pulled out the dragon flash, he stepped on the hamster and the feeling of being monitored disappeared.

The reason why he was able to detect being monitored was because his intelligence was as high as 12 points, the intelligence attribute affected the perception, not only that but also because he practiced sword skills.

This little hamster was not easy to discover. Lv.3's fraud was enough to deceive people's vision. Otherwise, the green dressed girl will not let the little hamster appear obviously.

In the house 500 meters away, the Queen had not left the door, and she heard a scream behind her.

“Squeaking.”

The green dressed girl was saddened, and the tears fell instantly.

“Tick, tack.”

The nosebleeds drip to the ground, and the green dressed girl looked empty, lying on the ground softly.

“Leaves, leaves, what's wrong with you.”

The Queen raised leaves and looked nervous. It seemed that the relationship between the two was good.

“Oh, squeaking was killed, it was stepped on by something to death, I saw it in the shared vision.”

The leaves burst out crying.

The Queen looked serious, and the death of the little hamster was not a small loss for their team.

“Why was squeaking be discovered? It had a Lv.3 fraud? Sometimes I even subconsciously ignore that little thing.”

It seemed that the Queen was also wondering why squeaking was discovered by Su Xiao. This was something that the three did not expect.

The leaves' crying voice came.

“When the Intelligence is improved, the perception is also improved. Although the bastard has 12 points of intelligence, his perception can never be so sharp.”

According to the normal situation, the 12 points of intelligence did not have such a keen sense like Su Xiao, but Su Xiao was more sensitive because of practicing sword skills.

Koshiro's meditation helped Su Xiao in improving perception. Meditation had become the habit of Su Xiao.

“I can't just ignore this. I want to kill that bastard, now!”

Leaves stood up and walked out with anger.

“If you want to die, go alone and don't bother me and black white.”

The cold voice came, and leaves trembled.

Although the Queen was usually friendly after the Queen was serious, Leaves was inevitably somewhat fearful, after all, she is her leader.

The adventurous group where leaves stayed, defying the leader will have very serious consequence.

“Calm down, we will start tonight, black white has gone to find the high point, tell her to be careful, if ‘squeaking’ can be discovered, black white cannot escape the man’s perception.”

The Queen took out a pair of headphones and gently pressed it on the headphones to contact black white.

....

In the alley, Su Xiao held dragon flash while standing silently.

Before he was almost ignored this, but fortunately he found it in time.

This is a lesson. In the ghouls’ world, he was strong, and it was inevitable that he was somewhat reckless.

Su Xiao was now vigilant, and he must not relax in the derivative world.

The hamster that had become fleshy was not an ordinary animal. When the little hamster showed him well and made the act of giving food to him, his hostility will suddenly dissipate, and he will subconsciously ignore that little hamster.

This reminds him of skills in the reincarnation paradise.

He had met once in the real world and finally exempted by a keen perception.

Su Xiao thought for a while and asked the reincarnation paradise.

“Reincarnation paradise, whether there is a hint to check the enemies’ data in reincarnation paradise.

[1. Detecting equipment. 2. Evoking items. 3. Investigating skills..., insufficient permissions, cannot view the following options.]

The answer given by the reincarnation paradise made Su Xiao very satisfied. He secretly decided to wait for the end of the derivative world and immediately find a way to get one of the above three.

It was very reasonable to know the enemy before a fight.

At the very least, he must understand the various attributes of the enemy. From the level of each attribute, he could roughly judge the strength of the enemy.

Just as Su Xiao was preparing to leave the alley, the reincarnation paradise suddenly popped up a hint.

[Detected that the hunter rank is Lv.2, which is lower than the level of the derivative world, now open the temporary skills.]

[Temporary skills: basic detection, cost: 800 paradise coins. Buy Yes/No.]

[Hint: Temporary skills disappear after leaving the world,]

After seeing the [Basic Detection] function, Su Xiao was overjoyed, but after seeing the required expenses, he blamed it and thought the reincarnation paradise was really unethical in his mind.

Although the reincarnation paradise was robbing him, he did need this ability now.

Su Xiao knew clearly that the little hamster he stepped on must be related to the contractors.

The dangers in the derivative world came not only from various missions or plot characters but also from other contractors.

“Oh, the little hamster is dead, and the owner of the hamster is not far away.”

Su Xiao could not help but look forward to it. He hadn't played against other contractors yet.

Chapter 53

After Su Xiao paid 800 paradise coins, there was one more skill in the skill section. The emerging skill was an eye skill. Unlike other skills, the new skill was light gray, and the reason should be because it's temporary.

Basic detection (temporary) Skill level: Lv.2. Conditions of use: 10 points of Mana. Skill effect: Observing any biological creature's data, the degree of data seen is calculated according to the strength difference between the creatures' strength and the user.

Tip: Increase the data integrity by 5% for each level. Tip: This skill cooldown time is ten minutes. ... From a literal introduction, [basic detection] this temporary skill was not bad, but he was not clear what the detected information is. “Mr.

Byakuya?” Juuzo Suzuya walked into the alley and looked at Su Xiao with confusion. Seeing Juuzo Suzuya, Su Xiao frowned and used [basic detection]. [10 points of Mana has been consumed, the base detection is turned on, and the following information is obtained.] Name Juzo Suzuya. Third-class Investigator.

Life value: 100% Mana: 50 Strength: 7 Agility: 10 Vitality: 6 Intelligence: 5 Charm: 4 Luck: 1 Skill 1, masochistic (passive): Highly excited after suffering pain, and ignoring most of the pain. Skill 2, sadistic (passive): After showing a crazy side, it will have a deterrent effect on the enemy, increasing 8% damage. ... All the information about Juuzo Suzuya was displayed in front of Su Xiao, the person was weaker than him, so the information was comprehensive. [Basic detection] was quite a good ability, but unfortunately, this was only a temporary skill, and it will disappear after leaving the ghouls world.

Su Xiao had decided that after returning to the reincarnation paradise this time, he must get a piece of equipment for detecting strength or skills to detect strength. “Mr. White night, where are we going?” Juuzo Suzuya walked around Su Xiao as if he was not willing to stop for a moment. Su Xiao stood in the same place and was thinking, the appearance of this little hamster meant the contractors began to take action.

This made him somewhat confused. He felt that his progress in completing the main task was already very fast. Are those contractors of the ghouls' camp faster than him?

This possibility was not great. If contractors of ghouls' camp are really strong, the balance mechanism of the reincarnation paradise will not open. The reason why Su Xiao did wasn't alert of

the hamster at the beginning was because of this reason, maybe the person who monitored him was not a contractor of the ghouls' camp?

The reincarnation paradise was full of dangers. Now that the contractor who monitored him did not show up, and the thing monitoring him was also found and destroyed. He could relax a bit.

Even so, the enemy is still hiding, he had to complete the main task (2), then the enemy could not stay hidden. "Juuzo Suzuya, let's go back to the branch of CCG." Su Xiao decided to return to the branch of CCG temporarily. Juuzo Suzuya was different from Mado Akira. This little white-haired boy had some strength.

If the contractor of enemy appears, Juuzo Suzuya can at least delay them for a while. If contractors of the enemy are not strong, Juuzo Suzuya can even kill one or two contractors. The main task could not stop, he would not stop the task because there was a contractor monitoring him, which was the most stupid choice.

If there is danger, it is necessary to solve the source of that danger but not escape. This is Su Xiao's style. In the hall of the CCG branch, two rows of Investigators wearing suits stood in front of Su Xiao. "Things are roughly like this.

At nine o'clock tonight, we will gather here." After Su Xiao left this sentence, he went to the logistics department. After Su Xiao left, those ghouls investigators in the hall whispered and discussed it. Those ghouls investigators did not know the specifics of the plan, Su Xiao only told them the route they needed to block.

No one knows if there is any spy of ghouls in the branch of CCG, being careful will be better. After scheduling the plan for tonight, Su Xiao returned to the bedroom on the upper level of CCG. He had a feeling that there should be no a problem in the plan to clear ghouls in the auction today.

There were still a few hours away from executing the plan, and he had to rest quickly. At nine o'clock that night, the branch of CCG was brightly lit, and many CCG vehicles gathered at the gate of the branch. Members of CCG were all fully armed while waiting here.

Su Xiao walked out from the branch, and Mado Akira got up and greeted him. "Byakuya, the staff is assembled and ready to go." Mado Akira was slightly nervous as this was her first time participating in this type of mission. "Let's go." Su Xiao got in the car, and the sound of closing the doors came one after another, with the dull engine sound, Su Xiao led a team of nearly 100 people to execute the task. With the identity of the first-class Investigator, it was impossible to mobilize so many people. This is the special approval of Shinohara Yukinori.

As for why Shinohara Yukinori allowed this, it was only because he was strong. Moreover, clearing ghouls in the 14th district had no small temptation to Shinohara Yukinori. The team arrived near the auction site after 20 minutes.

CCG members quickly got off the car and hid the vehicles quickly, then gradually surrounded the auction. These people had experience of expelling ghouls, they were silent in the dark night. "Mr. Byakuya?" The Bluetooth headset on Su Xiao's ear heard the sound of Juuzo Suzuya. "What is it?" "I have already arrived at the location.

There is no abnormality for the time being. Are we going to rush in?" Juuzo Suzuya's strange laughter came from the earphones. "Stay in place." Su Xiao switched channels and contacted Mado Akira. "Akira, report the situation." "No abnormalities, we are concealed well." Su Xiao continued to contact other people, and the three exits of the auction were all monitored by him. It was 9:30 in the evening, and it was more than an hour before the auction starts.

It was not the time for taking actions yet. "Byakuya, the mask you want." A member of the CCG wearing a black battle suit sent a mask. When CCG was executing tasks on a large scale, they all dress like this, the heavy battle suits could reduce the death and injuries. After taking the mask, Su Xiao put it on and went to the auction.

The main entrance of the auction house was locked, only the back door was opened. It was impossible for ghouls to hold an auction openly. Moreover, this is the 14th district.

Coming to the back door of the auction, Su Xiao took out a small can of spray and sprayed some on his clothes. This was a kind of spray that hid the scent so that ghouls could not detect his human identity. Most of the ghouls were sensitive, and if Su Xiao enters the auction directly, he will be discovered.

His plan to clear the auction was simple. He will first enter the auction alone. When the auction starts, he will give the order to block the three exits, followed by a feast of killing. "The sign." Su Xiao just walked into the back door of the auction, and a big waist-shaped ghoul stopped him. "Human blood T3.ST." After Su Xiao said this weird sign, the big man released him. "Don't cause trouble, or I will kill you." Su Xiao did not care about the threat of the big man.

He was here to kill ghouls today. Walking into the auction, this was different from the daytime scene, the appearance of the auction at night changed greatly. Before the auction of ghouls began, the rock music was played in the auction floor, and at the corner of the ceiling, a red light was temporarily installed.

Dim environment, glaring lights, and deafening music. These ghouls were really daring, were not they afraid to be discovered? It was actually smashed before the auction began.

Under the brilliance of the colorful lights, and the sound of the music, some women were over-excited, they even took off their shirts while shaking their naked upper body. Crazy, hysterical, this is how these ghouls made Su Xiao feel. These ghouls were living to the fullest as they didn't know whether they will live or die tomorrow.

Chapter 54

In the noisy music, time passed, and it was eleven o'clock now.

"Pat."

The headlights of the auction house lit up, and the music stopped.

The ghouls in the center stopped dancing, and some of them were dissatisfied as they gave a few mutters, but there was no ghoul that dared to make trouble.

"Ladies and gentlemen, the auction is about to begin, please take your seat."

A voice with a strange accent was heard, it was a host with a clown mask.

“Mr. Clown, do we have a surprise tonight, I am very dissatisfied with the last auction.”

A lady ghoul said.

All the ghouls present were masked, the ghouls could not be seen by humans. The same worked as well between ghouls.

If two of ghouls are enemies, one of them knows the identity of the other person and reports to CCG, the reported ghoul will be killed easily by CCG.

Most of the ghouls were like mice in the sewers, hiding in the dark.

However, there were exceptions. For example, there was a fancy girl named Takatuki Sen, who was both the leader of the Aogiri tree and a novel writer, exposed to the public.

“Not much nonsense, the item tonight will be absolutely satisfying, then...”

The host on the stage just announced the start of the auction, Su Xiao had pressed the Bluetooth headset.

“Begin.”

Su Xiao’s voice just fell, and several of ghouls around him watched him with vigilance and stepped back.

“You, what did you say?”

“He just said ‘begin’, this guy is weird, kill him.”

“is he an Investigator? I’m gonna leave.”

Only because of the word begin, the small area of the auction site boiled up.

It was no wonder they became vigilant about these things, these ghouls had been followed by CCG for many years.

The nervous emotions spread in the auction, and the host on the stage also found that things seemed wrong.

“Pat!”

All the lights in the auction house suddenly went out, and the place was dark.

Screaming, roaring, tables and chairs fell to the ground came one after.

Su Xiao was also in the dark, but he didn’t panic, and he was calm.

Suddenly there was an item like single eye glasses in his hand, and his vision recovered after he put it on his head.

Although there was only the vision of his right eye, and everything looked green, it could be regarded as restoring vision.

Su Xiao prepared the night vision device and issued an order in advance. As soon as the plan started, they needed to cut the power off.

Su Xiao took out the dragon flash and walked slowly toward a ghoul, placing the sword in front of the ghoul's neck.

The ghoul was unconscious, only stretching his hands. His body was slightly bent and touching blindly in the air.

Su Xiao was testing whether ghouls with red eyes had night vision function or not.

Obviously, ghouls did not have this ability.

Pulling the dragon flash, the blade flicked through his flesh and made a slight sound, blood spewed out.

The eyes of the ghoul suddenly widened, and the snigger sound came from his throat, the ghoul fell to the ground in a few seconds.

In the dark auction house, Su Xiao wearing a night vision device was like a hungry wolf mixed into a sheepfold.

Walking into the crowd of ghouls, dragon flash glimmered with several lights as he kept swinging it.

“Sniger, singer.”

The sound of a sharp weapon cutting off flesh came incessantly. Ghouls fell down one and another, and the blood invaded the road that Su Xiao had walked through.

The noisy sound in the auction masked Su Xiao's actions.

In just over a dozen seconds, more than 20 ghouls died under Su Xiao's knife.

The auction was a semi-enclosed building, and the rich bloody smell spread. Other ghouls found something wrong.

“What's going on, the smell of blood.”

“This is a trap of CCG, run.”

“I don't want to die, I don't want to die!!”

There was already a messy situation in the auction house.

More than a hundred of ghouls were running wildly.

Some of the temperamental ghouls directly released their kagune and waved whimsically, if ghouls dare to approach them, they will all be killed by mistake.

Now ghouls' deaths became faster, Su Xiao knew that there was not much time, and it was impossible for him to kill them arbitrarily.

Su Xiao walked through the crowd with no expression, one after another, ghouls fell incessantly.

Blood was stained on his cheek, but he didn't care.

Is there any mental pressure for him to kill ghouls? Maybe other people will have some but he won't.

In the reincarnation paradise, either they die, or he dies, between killing and being killed, Su Xiao chooses to wave his sword.

The bloody limbs splashed, and Su Xiao's eyes began to flash red light as he killed many ghouls.

"Pon!" A glass bottle was broken, and fire ignited.

The ghouls found a bottle of wine somewhere, after making the bottle of wine into a simple bomb, he threw it to the ground.

This may be the remaining drinks from daytime, as it was impossible for ghouls to drink.

The fire illuminates the entire auction, dispelling the darkness in the room.

"Drip, drip."

Blood dripped at the tip of the dragon flash's bristles, and all the gaze of ghouls gathered on Su Xiao.

At the side of Su Xiao, there were at least 30 ghouls lying on the ground randomly, all were cut off from their throat and died. The blood had infested the ground near him and formed a thin layer of blood lake.

"Snigger."

A B-class ghouls swallowed, and his eyes were full of horror.

After all, ghouls paid attention to Su Xiao, the first reaction was not to attack him, but to escape.

These ghouls quickly found that all the exits of the auction house were blocked.

This was Su Xiao's order. The people outside were just for the sake of blocking the escape routes. Even if he is the leader of the team, the ghouls that CCG members kill, won't give him many points.

Therefore, if Su Xiao wanted to be promoted the superior search officer quickly, his only choice was to kill them himself.

All the exits were blocked, through the gaps, those ghouls saw a large group of Investigators outside, which made the ghouls gradually mad.

"What to do, it's over, I will die today."

"Run, the guy with the sword is coming."

The scene was even more chaotic. Su Xiao smashed a throat of a ghouls, and his body fell to the ground.

Not all of the ghouls were fleeing, there were two S-class ghouls, one was the host wearing a clown mask on the stage, and the other was standing in front of Su Xiao.

A pig's head mask, obese body shape, S-class ghouls stood in front of Su Xiao, was a big fat man with at least three hundred pounds, the whole body was rolling, like a ball.

"You, you are a human."

The fat man's kagune was koukaku, kakuhou is in the shoulders, after the appearance of the whole kagune, the fat man was like wearing upper body armor.

This guy was a defensive type, his speed was not fast, but the skin was thick and coarse.

Su Xiao rushed forward with his sword, and the fat man screamed and rushed to him.

The two quickly approached, Su Xiao's pace was agile, the fat man was like a heavy tank, and the ground began to vibrate slightly.

"You die!"

The fat ghoulish man smashed his head and slammed into Su Xiao. Su Xiao's foot stopped.

He changed his footsteps, then he easily escaped the attack of the fat ghoulish man, and the long sword in his hand smashed the fat man's lower body.

"Snigger."

A fat leg fell to the ground, Su Xiao did not use much force, he used the fat man's power against him.

The pig-like screams came, and the fat man fell into the ground.

Su Xiao rushed forward a few steps, stepping on the back of the fat man, and the tip of the dragon flash was on the back head of the fat man.

"No, no, don't, please..."

The cold and sharp touch on the back of his head made the fat ghoulish man find it difficult to speak.

"Snigger." The Longsword pierced him, Su Xiao did not hesitate.

He stepped on the feet of the fat man and obviously felt that the person's body was twitching.

A pale green treasure chest floated on the body of the fat man, and when he saw this treasure case, Su Xiao frowned.

He was so lucky, by killing an S-class ghoulish man he surprisingly got a green treasure chest.

Putting away the Treasure Chest, Su Xiao's eyes focused on the second S-class ghoulish man on the field, the host wearing a clown mask.

After noticing Su Xiao's gaze, the ghoulish man wearing a clown mask said quickly.

"Wait, I am a member of Tsukiyama family. You can't kill me."

Chapter 55

The ghoulish man with the clown mask slowly retreated, his eyes were full of threats, he seemed to have confidence in the identity of the Tsukiyama family.

Su Xiao understood a bit about Tsukiyama family. The Tsukiyama family was very powerful in politics and business, with extensive contacts and abundant resources.

Ordinary people may be afraid of Tsukiyama family, but does Su Xiao really need to pay attention to the Tsukiyama family?

Don't mention a member of the Tsukiyama that was in front of him, even if it is the head of the Tsukiyama family stood in front of him, he will still kill him.

What's more, the most terrifying force in the ghoul's world was the CCG where Su Xiao stayed, but most people didn't know.

“Tsukiyama family, I am terrified.”

Su Xiao's tone was scornful, and the long sword gradually approached the ghoul.

The clown ghoul was wary.

“I will give you one billion yen, and you let me go.”

No wonder he was a member of Tsukiyama family. He was rich, and could easily give out one billion yen.

Su Xiao was still moving slowly. The clown ghoul was not stupid and immediately realized that Su Xiao was not going to let him go.

“If I don't die today, I use all of the family's power to kill you.”

The clown ghoul's kagune appeared which was a bikaku.

He had two Kagunes they seemed strong, but they were short.

all bikaku ghouls were relatively balanced, but they lack explosive power and strength in their lower body.

The clown ghoul tightened his fists and held it in front of him, making a fighting pose.

Ghouls good at using bikaku mostly mastered close fights, but the clown ghoul in front of them was obviously not in this list. At first glance, you could tell that this person was a spoiled kid, not very good at fighting.

From the gaze that kept looking around, it could be seen that the person could not concentrate even when fighting.

Su Xiao resolved everything in a minute as there were more powerful enemies waiting for him.

Most of the escaped ghouls in the auction house stopped and looked at him with killing intent.

Su Xiao used dragon flash to knock the ground, distracting the attention of the clown ghoul, and then rushed to the clown without warning.

The clown ghoul's body was obviously stiff, and he was a little helpless.

The bright sword's light appeared in front of the clown ghoul, and the clown ghoul screamed, as he subconscious blocked it using his kagune.

It was just a sham, Su Xiao used his free left hand and punched the clown ghoul's belly.

The hard fist fell into his lower abdomen, and the clown ghoul made a strange shout.

“Cry.”

A Cry came, Su Xiao was a bit stunned, this ghoul was actually crying? He was really a big child, how did he become an S-class.

The enemy cried, but he did not get any mercy from Su Xiao, and he kicked on the calf of the clown ghoul.

“Kapa.”

The bones were broken and pierced the muscles.

“Ah!!”

A scream like a woman came, and the clown ghoul was scared and subconsciously turned to run.

Not to mention that the auction house had been blocked, fleeing while in battle, was completely looking for death.

“Snigger.”

Su Xiao pierced through the back of the clown ghoul, and the action of the clown ghoul stopped.

The mask slipped, revealing a handsome face.

“I don’t want to die, I still have so much money.”

With a bang, the clown ghoul fell to the ground without dropping a treasure chest.

It was normal not to get a treasure Chest from this jerk, Su Xiao suspected that the person could not beat a B-class ghoul who had some experience in combat.

Su Xiao took out dragon flash, waved it to clean it from the blood, and took off the night vision device.

There was already a fire in the auction house.

Su Xiao turned and looked at the pile of ghouls that were gathered together.

“So, let’s have fun.”

Su Xiao was smiling, and his dark eyes flashed with red light caused by the fire.

There were almost a hundred ghouls in this place, most of them were B-class, and there were more than 20 ghouls were A-Class. If they rush into him together, he will be at risk.

“Kill him, even if we can’t escape today, we have brought him with us.”

“Yes, today’s business is the conspiracy of this bastard.”

Hundreds of ghouls showed their kagune and their eyes reddened.

Ukaku, koukaku, rinkaku, bikaku all were available.

There were a lot of enemies, Su Xiao could also destroy them in other ways, but it took a lot of time and efforts, and He won’t get much contribution points.

The CCG Investigators outside could rush in to support him at any time, this good opportunity was not common.

He wanted to test his limit now.

“Don’t talk nonsense, let’s fight, if you can kill me, maybe there is a chance to live.”

Hundreds of ghouls showed their kagune, this scene was very shocking.

“Let’s go, kill him.”

A ghoul took the lead and shouted, and all the ghouls followed.

Su Xiao took a deep breath and faced the ghouls.

“Clang.”

A sword cut off the waist of the ghoul who rushed in the front, the ghoul was closing by.

[Qing Gang Yin] was activated as he raised his strength to the maximum, and began to fighting using all of his power.

The light blue energy wrapped around dragon flash, making this top-rated white weapon even sharper.

“Snigger, snigger, snigger.”

Three strikes passed and three heads flew up.

Su Xiao looked directly at a ghoul, and the ghoul was surprisingly scared.

With a strike, he cut his throat. Su Xiao was looking for the next victim.

Suddenly, his back was hit hard, and Su Xiao took a few steps forward.

He was unable to check which ghoul hit him, but he had already perceived the attack because there were too many ghouls that attacked him at the same time, he could not avoid all of them.

The blood leached on the back of Su Xiao, and he simply pulled off his ruined shirt.

The attack just made him lose 6% of his hp. The injury was not serious.

Su Xiao was surrounded by a group of ghouls, but he was able to evade most of the ghoul’s attacks, and only fought back when he could not avoid the attacks.

His agility was 13 points which not only increased his speed but also increased his reflexes.

Compared with the injuries he suffered, the deaths and Injuries of the ghoul’s side were even greater. As long as they were caught by the long sword in Su Xiao’s hand, they were either dead or disabled.

Under the fear of death, all the ghouls were hysterical.

“This is the taste of human blood. He is human. His Vitality will be exhausted sooner or later.”

“He is hurt, don’t give up.”

In the battle, the ghouls surprisingly formed a temporary alliance.

Su Xiao just escaped a hit, he then grabbed the neck of a ghoul, a kaccha sound came, using the 13 points of strength, he directly broke the neck of the ghoul.

Su Xiao held the body of the ghoul in his left hand and used it as a temporary shield to continue fighting with ghouls.

Three minutes later, there were more than 70 ghouls on the field, and Su Xiao had 72% hp remaining.

Five minutes later, there were more than forty ghouls on the field, and Su Xiao had 46% hp remaining.

Ten minutes later, there were a dozen ghouls on the field, and Su Xiao had 28% hp.

Su Xiao gasped heavily, blood dripped down the corners of his mouth, and the siege of hundreds of ghouls was different from a single SSS class ghoul. It is completely different.

Besieged by hundreds of ghouls, there will be a blind spot behind him, and he could only avoid attacks with intuition and sound.

If hundreds of ghouls are attacking from the front, Su Xiao will never be in such a sorry state, he almost died during the fighting.

It was a first for Su Xiao to experience group fight, the experience was somewhat inadequate, and growing up in battle was a very fulfilling thing.

The remaining dozens of ghouls looked at Su Xiao with fear.

“No, don’t come over, we surrender.”

These ghouls were scared by Su Xiao, and they surprisingly wanted to surrender.

The battle had already reached this level, there was no possibility to surrender, there were only two results, if I’m not dead, then you are.

Su Xiao’s sword rushed forward, and after a burst of crying sound, the flesh was cut off, and the auction fell into a dead silence.

Chapter 56

Outside the auction, many search officers held rifles as they were anxiously waiting.

They had never received this kind of strange order, in the task of killing ghouls, they surprisingly only needed to guard at the exit.

The fighting sounds incessantly came from the auction which made these Investigators anxious.

Mado Akira was also anxious, pacing at the back door.

“What happened inside, Byakuya is really too imprudent, even if he is strong, he can’t fight with so many ghouls alone.”

Twenty minutes passed, the incessantly screams from the auction hall had become abnormally silent, which made Mado Akira feel a little worried.

Su Xiao’s tired voice came from the Bluetooth headset when Mado Akira was waiting anxiously.

“Come in, start cleaning the auction and put down the fire.”

Put down the fire? Mado Akira had some doubts, but she still brought people to open the back door of the auction house.

The back door opened, Mado Akira led a large group of Investigators and rushed in.

Just entering the auction house, Mado Akira smelled a strong bloody smell, and her beautiful eyebrows wrinkled.

Mado Akira’s footsteps became faster as she runs to the lobby of the auction house.

“Byakuya...”

The scene stunned her.

A large number of ghouls were piled up randomly, on the pile of ghouls a man with a cigarette sat.

This cruel scene made Mado Akira step back subconsciously.

Mado Akira had seen many bodies, but she had never seen this kind of scene before. This scene may only appear on the ancient cold weapons war.

When Mado Akira wanted to approach Su Xiao, she suddenly felt her foot was slipping and almost fell down.

Looking at the ground, the ground had been infected with a layer of blood.

“What are you doing, start cleaning the bodies.”

Su Xiao threw the cigarette in his hand and put away dragon flash which was cleaned.

“Yes.”

Mado Akira straightened her body subconsciously.

Those Investigators were also shocked by the scene in front of them, but their mental qualities were excellent.

Taking out a lot of body bags and starting cleaning the bodies.

Su Xiao moved his sore body. He had tested his limits in this fight.

If the number of ghouls was more than one hundred, I would’ve been hard for him to deal with. If the number of ghouls exceeded two hundred, he would die.

Before the lights in the auction hall went out, he used the night vision device to seize the opportunity to kill as many ghouls as he can.

And the two S-class ghouls did join forces to attack. If the two S-class ghouls led other ghouls to fight with Su Xiao, the result today would have been totally different.

The situation tonight seemed to be thrilling, but Su Xiao was not doing this without a plan. If he ordered, a large number of Investigators would rush into the auction place.

He was confident that he will persist for a long time under the siege of a large group of ghouls.

Su Xiao understood his advantages. His advantages were a strong power and combat experience. If he fights one by one, he most likely won't be injured.

However, if it is a group battle, because his Vitality was not high, and his defenses weren't that strong, he would be at a disadvantage.

There was no one perfect in the world. Su Xiao now balanced the development of three attributes. If he develops his Vitality, the speed of progress will slow down, and he would fall behind other contractors.

Su Xiao was a hunter, so he had to be stronger than other contractors at the same level, or else how can he hunt the targets?

Sitting in the vehicle of CCG, Su Xiao looked at those Investigators who were cleaning up the bodies.

It took a while to clean up the auction floor. He could take this opportunity to take a break and restore his hp. By the way, his hp was only 27% currently.

Taking out the [Golden fried rice], the restorative food was in a static form and needed to be activated before he could eat it.

Choosing to activate the [Golden Fried Rice],

The outer light of [Golden fried rice] broke open and dissipated in the air, and the golden fried rice was surprisingly steaming.

A strange smell came, Su Xiao could not help but swallow, this thing seemed to be delicious.

Taking out the chopsticks he prepared in advance, Su Xiao tried to take a bite.

The rice was wrapped in soft eggs, and the rice was slightly harder. Under the egg wrap, the taste was excellent. Because of the excellent cooking technique, the aroma of rice and eggs was mixed together.

After Su Xiao took a bite, he couldn't help but take a second bite.

This golden fried rice was extremely delicious. It was a food produced by Shokugeki no Soma world, and it was super delicious that can make people commit a crime just to eat it.

Su Xiao suddenly had an idea to kidnap a chef from Shokugeki no Soma world.

He was shaking his head with a wry smile, improving his strength was the most important thing, with strength, he won't be worried about delicious food.

Unconsciously, he finished the golden fried rice in his hand, there was no rice left, but he still felt satisfied.

After drinking a bottle of mineral water, Su Xiao sat down on the seat with satisfaction. What better than eating a meal after fighting?

The feeling of warmth in the stomach, his hp gradually recovered.

With the recovery of hp, Su Xiao's injuries began to heal quickly.

“What is this smell, it seems delicious.”

Juuzo Suzuya ran over, and his nose swayed.

“Suzuya, get on the car, let’s get ready to go back to the branch.”

Although Juuzo Suzuya was eccentric, he was still obeying orders.

“Are you eating something? Can you give me some?”

Juuzo Suzuya’s head came out from the seat and looked at Su Xiao with a smile.

“Tomorrow, I will give you a big meal.”

In the future, he still needed these people to follow him to clear the 14th district, and it was necessary to draw those people to his side properly.

He killed a lot of ghouls. There was a rule in the CCG that he could get a lot of money by killing ghouls.

This was very reasonable. The Investigator was a high-risk job, and the salary was so high that it made other people full of envy.

After promising to give Juuzo Suzuya a treat, Su Xiao began to sum up the gains and losses of this battle.

He got total of 372 contributions points in this fight, and his contribution points had become, [first-class Investigator, contribution points: 897/2000.], he still needed 1103 points of contribution so he could complete the task.

Harvesting a green treasure case, although he killed more than 100 ghouls, they did not drop any white treasure chests.

He began to wonder whether he was lucky or unlucky after this.

Through until now, he opened many chests, in addition to specific items, he did not get any good thing.

The dragon flash (white) was not from the treasure chest.

The soul crystal(small) was obtained because the gap between him and the monster was too large.

The roar of evil spirits (green) got from gecko’s Treasure Chest. But it is important to know that gecko an important character to the protagonist’s development. Killing gecko got a lot of ‘sources of the world’.

Even so, he only got a green ring with a score of 21.

“This ..”

Su Xiao sighed, he suddenly found out that he had the qualification of a leader.

Fortunately, he was not that unlucky, his luck is ordinary.

With a bitter smile, Su Xiao no longer thought about these things.

The bodies in the auction house were cleaned up at 1 am, and after those Investigators of the CCG assembled, the team returned to the branch.

This was undoubtedly a brilliant victory, they had no casualties, and killed all the enemies.

Many of the Investigators were smiling, as they looked at Su Xiao with awe.

The cars were driving on the street at midnight, with no one on the street, and it was particularly quiet under the dim light.

Su Xiao, who was sitting in the co-pilot, suddenly had an inexplicable stroke, as if he was in a deep valley and his body was still falling.

The danger was approaching from below!

Su Xiao did not hesitate to open the door, jumped directly, and rolled on the asphalt road to stabilize his body shape.

There was also a figure that jumped out of the car with Su Xiao, that was Juuzo Suzuya.

“Tuzzzz!”

The car suddenly exploded, it was blown up, and the whole car rolled for several laps before stopping.

There was a huge hole on the road, and the explosives were not hidden in the bottom of the car but hidden underground.

The fire was shining, and a strange scorching smell mixed with the smell of gunpowder came.

Su Xiao immediately discerned that this was the burning taste of ‘polyisobutylene,’ someone buried a C4 plastic bomb on his way.

There was a contractor who wanted to kill him, but if he wants to kill him by bombs alone, it will be too naive.

The dragon flash appeared in Su Xiao’s hands, and Su Xiao looked around vigilantly.

He had just rested in the car for more than an hour, and he recovered about 80% of his strength. His hp had been restored after eating restorative food three times.

Su Xiao had long guessed that there will be a contractor that will attack him, but he did not know the exact time.

When his Hp was very low, he did not hesitate to eat expensive restorative food, just in case.

It seemed that he was right, If he was in that weak state, he might have died.

Chapter 57

With this explosion, the cars of CCG stopped, and the Investigators holding rifles rushed out of the car, using the door to cover, and watched their surrounding with vigilance.

“Byakuya, are you okay?”

Mado Akira held her Quinque and ran toward him.

Su Xiao hid behind a car and signaled to Mado Akira that she should not come close.

The explosion just happened maybe just a test. The contractor wanted to try whether he can kill Su Xiao or not.

Now there were a large number of Investigator following Su Xiao. Unless the contractor was silly, he wouldn't fight right now.

The power of these hundreds of investigators was absolutely not to be underestimated.

Unless the contractor could solve them in a short time, he had no choice in killing him.

The street was surprisingly quiet, only the burning sound of the vehicle,

“It seems like someone wants to kill us, why?”

Juuzo Suzuya looked out with eagerness.

Just as Su Xiao observed and prepared to find out the general position of the enemy, the contractor surprisingly attacked him directly.

A green shockwave spread out suddenly, sweeping Su Xiao in a short time.

[You are attacked by “natural anger”, judging the intelligence attribute.]

[Intelligence attribute is higher than 10 points, immune sleep effect.]

[You are immune to the control of ‘natural anger’ and your vitality is restored to 100%.]

After the green shock wave, the ghoul's Investigators next to Su Xiao began to fall down one after another. These people did not die, they just fell asleep, and they slept very sweetly, and their bodies were full of green light.

Juuzo Suzuya next to Su Xiao seemed drunk, his body kept shaking. With a tenacious consciousness, Juuzo Suzuya surprisingly did not fall asleep.

Su Xiao grabbed Juuzo Suzuya's head and slammed it against the door.

“boom.”

A hole appeared on the car's door, a stream of blood fell along from Juuzo Suzuya's white hair.

Juuzo Suzuya's confused eyes gradually returned to normal, and he looked at Su Xiao with doubt.

Su Xiao still grabbed the head of Juuzo Suzuya.

“Did you wake up?” If Juuzo Suzuya is not awake, he is ready to do it again.

Juuzo Suzuya nodded, so Su Xiao loosened his hand.

“What happened, I want to sleep.”

Juuzo Suzuya was not angry. Instead, he approached Su Xiao.

“Suzuya, there will be enemies, try to help me block one or two, even if those people are not ghouls, you can still kill them, understand?”

Juuzo Suzuya nodded.

This is the reason why Su Xiao took Suzuya. This little white-haired boy had almost no concept of right and wrong. If it is Mado Akira, she will never accept this kind of order.

For the ghoulish investigators, there was a fundamental difference between killing ghouls and killing humans.

“You hide here and wait for my order.”

While Su Xiao talked, he took Mado Akira’s Quinque and threw it to Juuzo Suzuya.

Mado Akira was already asleep, and it seemed that she had no immunity to the sleeping effect.

Su Xiao stood up and took dragon flash out of the car. He concentrated to the limit.

The street was quiet, only those ghoulish investigators who had already fallen asleep were on sight.

The person came prepared. The person first used explosives to block the road, and then launch group control attack, weakening half of Su Xiao strength.

In an alley a few hundred meters away, the green dressed girl, Leaves looked at a piece of parchment in her hand. The parchment was full of mysterious patterns, very delicate, but there were large cracks on the parchment.

That was a green skill scroll that could only be used once.

“Queen sister, if the guy doesn’t drop the blood card, we will lose a lot.”

The queen’s red lips were lifted.

“It doesn’t matter, even if he does not drop the blood card, the follow-up ‘source of the world’ is enough to compensate for our losses, and it can make a big profit, and you will receive a healing staff.”

Leaves heard the word healing staff, and the two eyes immediately lit up, but she suddenly thought of something.

“Forget it, I want to resurrect ‘Squeaking’ first, it will cost a lot.”

The Queen’s face was dim, she knew the price of resurrecting ‘Squeaking’.

“Well, when this is over, we will resurrect ‘Squeaking’.”

Leaves was a little touched, she just wanted to talk, but the Queen raised a hand and interrupted her.

“The guy came out, black white, are you ready to attack.”

The Queen took out a metal shield which is as high as a door and was ready to fight with the enemy.

“Got it.”

On the roof of a building, black white lied on the edge of the roof, and a thick brown cloth was placed under her body.

The black-white spat out the gum in her mouth, the long purple ponytail was scattered behind her back, and her white fingers tapped on her temple.

“Buzz.”

The sound of precision machinery came.

“Squeak, squeak, squeak.”

A small piece of headgear appeared on black white’s head. A pair of detection devices appeared in front of her right eye. It was similar to night vision devices, but the mirrors shined with red light.

This was green equipment with night vision, thermal vision, ultrasonic detection, and many other functions. It was an ideal equipment for snipers.

Black white’s slender fingers were placed on the trigger of the sniper rifle, and the red cross shape in the scope was aimed at Su Xiao.

Black white had not dared to do this before, because Su Xiao’s perception was too sharp.

Su Xiao, who walked on the street, suddenly stopped, all of his hair straightened.

He was stared at by someone, and that person was aiming something at him.

Su Xiao began to perceive the source of danger by intuition, and soon he locked the approximate position, on his upper left.

Looking at the direction, he only saw a building.

Black white through the sight of the sniper rifle, seeing Su Xiao looked up, and was looking directly at her, she was a bit speechless.

“The hateful intelligence is too high.”

When she was talking, black white pressed the trigger...

Su Xiao still stood in the same place, the dangerous feeling reached its limit, suddenly, he felt that something will pierce his heart.

“Boom.” A gunshot smashed through the night sky.

A strong wind slid across his shoulder and brought a stream of heat. On the asphalt road behind him, a hole of ten centimeters in diameter was directly blasted, and the asphalt splashed.

Sniper!

Su Xiao could escape this shot. It was not that his speed was faster than bullets. Instead, he made a dodging action in advance. It was a pre-judgment.

Su Xiao, who had stood in the same place, suddenly rushed to the source of danger.

“Boom, boom, boom!”

Black white shot three shots, but only one shot broke Su Xiao’s sleeves.

The distance between the two people quickly became closer, from the original 700 meters to 400 meters.

Black white’s head was numb, as she had the feeling of being stared at by a beast.

Black, white fingers quickly pulled the trigger.

But Su Xiao seemed to be able to predict the trace of the bullet in advance, several shots were all avoided by him.

Between life and death, Su Xiao's perception was becoming more and more precise, reaching an unprecedented level.

Where the unknown sniper was aiming for the next shot, Su Xiao will have a vaguely sting in that position, which was the key for him to avoid bullets.

“Queen, this guy's perception is strong, I can't lock him, help me by some time.”

“No problem.”

Queen who hid in the alley nodded.

“Leaves, you continue to hide here, look for opportunities to add heal me.”

Leaves nodded, and before Queen left the alley, a green glow appeared in leaves' hand.

“Honor badge.”

Queen's body was wrapped by green light, and the muscles in her arms were obviously strengthened.

“I am going, check my hp.”

Queen screamed and rushed out of the alley toward Su Xiao.

Queen's physical attributes were her main attribute, her speed was not fast, but on the way to Su Xiao, her speed was getting faster and faster, and finally, she almost became a residual image.

Su Xiao noticed Queen who was rushing quickly, he could only give up the unknown sniper temporarily.

“Suzuya, go to the roof of the mall and solve the enemy above.”

Chapter 58

Queen held the shield and slammed it toward Su Xiao.

Su Xiao's body sank slightly as he stabilizes his center of gravity. This person was very fast, and it was too late to dodge.

Dragon flash appeared in front of him as he prepared to deal with the shield.

Queen was like a wild bison, directly hitting Su Xiao.

Su Xiao held the handle with one hand, and his other hand was on the back of the sword.

“Tuzzz.”

The two people collided together, the sharp sword touched the Shield, and the asphalt road under their feet suddenly cracked.

“Your Strength is not bad.”

Su Xiao put power into his hands and pressed them toward the Queen.

The Queen was a physically strong person, but her strength could not compare with Su Xiao, she was forced to compete with Su Xiao by using the assault skills.

Queen's pretty face became purple, she was pushed back by Su Xiao. The iron boots under her feet rubbed against the ground which made a few sparks.

“You will not have a chance to hurt my teammates if I'm here.”

She was not strong, but she was quite obdurate.

Su Xiao continued to exert strength into his hands. Queen could no longer support herself and squatted on one knee on the ground.

Queen will use the name 'Queen', which could be seen as an extremely strong woman, but now she surprisingly kneeled in front of Su Xiao, Queen certainly could not tolerate it.

“I must kill you, ah!!”

Queen tried to escape, but under the absolute power gap, she seemed very pale and powerless.

Su Xiao grabbed the edge of Queen's Shield with one hand and was ready to pull the giant shield aside.

He won't cut her shield. This was not a game. His strength was stronger than Queen. He certainly must use a brutal force to take off the shield, then he will cut her.

Queen's cheeks have been pumped, she may not have encountered this kind of enemy before. He surprisingly grabbed the shield with his hands. Shouldn't they have a fierce battle first?

Su Xiao pulled the shield in front of Queen, and dragon flash in his hand pricked into Queen's throat.

At the moment was about to strike, there was a vague stinging on his back.

It was the sniper, the time was too short, Suzuya had not rushed to the top of the building yet.

Su Xiao made a move and pulled Queen's shield to the back. Queen stunned and almost fell.

“boom.”

The bullet hit the shield, the shield sunk, and the bullet was embedded in it, the small area was even reddish.

Su Xiao's hand was a little numb because of the power behind the shot.

Taking this opportunity, Queen pulled the shield and separated from Su Xiao, she then took a few steps back.

This female shield warrior with strong physical strength had never encountered this kind of weird enemy before, he surprisingly robbed her shield as soon as they faced each other.

While Queen was feeling humiliated, she also felt a bit of awkwardness. She decided that after returning to the reincarnation paradise, she must increase her strength attributes in moderation. Otherwise, it will be too embarrassing when her shield will be taken away by her enemy.

If she did not desperately grab the shield, the shield would no longer be in her hands, and even if her vitality were extremely high, she would still be killed.

“cooperation between the shield warrior and the sniper, interesting.”

It was the first battle against contractors for Su Xiao, now he has a general understanding of the contractors.

The female shield warrior in front of him may only strengthen one attribute, only responsible for defense, and the main force of the attack was the sniper.

This was a good combination, and if there is another auxiliary occupation, it will be perfect.

Su Xiao was not afraid of the enemies, his power was great, other than his vitality he was stronger than the rest of them.

Other contractors were several people as a combat team, and Su Xiao was a combat unit.

“Leaves, switch to strength, don’t use vitality anymore, this bastard is grabbing my shield!”

Queen’s tone was somewhat helpless, and Leaves in the alleys was also stunned, but she immediately switched the aura, changing from the original vitality aura to a strength aura.

“Shameless, how dare you fight me.”

Queen held the shield heroically.

“I am curious about one thing, what is this changing aura in your body? Or, in addition to the sniper, do you have other teammates?”

When Queen heard Su Xiao’s words, her face was, as usual, there was no change.

At this time, if she reveals too much emotion, the presence of leaves may be exposed, Leaves is weak, and she even cannot fight with enemies.

“Stupid, this is the aura of this Queen.”

Su Xiao smiled.

“Really? let me guess, where is your third teammate?”

The Queen sneered, showing some disdain, but she actually was a little anxious.

“If it is me, where will I hide companions of the auxiliary, the roof? Buildings? Alleys?”

Su Xiao seemed to guess, but he was testing the female shield warrior in front of him.

He didn’t know how many people they had, he just guessed it. Giving the enemy mental pressure in the battle was necessary.

“Do not talk nonsense.”

Queen shouted and rushed to Su Xiao with a shield.

This time Queen was a lot smarter, slowing down her pace and pursuing stability.

Su Xiao just squinted at the female shield warrior in front of him, not ready to pay attention to her, he needed to solve the sniper first.

Su Xiao suddenly ran to other place and soon pulled away from the Queen.

The Queen was worried, the thing she was most afraid of happened. The man in front of her did not fight with her but was going directly to attack her teammates.

“Don’t think about leaving.”

Queen lifted up with one hand, and a silver necklace appeared in the palm of her hand.

The silver necklace was half transparent, it was as thick as the finger. One side was directly tied to Su Xiao’s arm and then combined together.

[You are bound by the ‘mystery necklace’, physical strength is judged.]

[The strength of the operator is 2.33 times of yours. You will not be able to leave 30 meters away from the operator.]

Su Xiao’s footsteps stopped. He did not stop by himself but was forced to stop.

Su Xiao looked at the translucent silver necklace on his arm, he tried to smash it, but there was no effect, the dragon flash directly cut in the silver necklace, this silver necklace was not a solid item.

The Queen had an item that could restrain the enemy.

“I said, you can’t go away.”

Since the beginning of the fight, the Queen had finally gained the upper hand, which made her inevitably a little excited.

The Queen believed in black, white shooting skills, as long as she could make Su Xiao stay, black white could kill the enemy with two shots.

Su Xiao looked at the Queen with killing intent.

“You really want to die?”

He had just killed hundreds of ghouls, so his eyes flashed with cold light, which surprised the Queen.

The Queen’s current thought was how many people this guy killed. Even in the derivative world, contractors kill a dozen or so people.

Even so, most contractors will suffer tremendous mental stress.

“Don’t bluff, my strength may not be as good as yours, but if you want to kill me, you are not qualified.”

Su Xiao moved his sore left arm, and cut the heavy battle suit and threw it aside.

He had to be serious, if he doesn’t kill this warrior, he will waste too much time.

The skill [Qing Gang Yin] was activated, the contractor's Vitality was not much, and the real damage attached to Qing Gang Yin will have a miraculous effect when fighting a contractor.

The light blue arc rushed on the blade of dragon flash, Su Xiao's feet slammed the ground, and his naked upper body rushed toward the Queen.

Before when he fought the Queen, he was not serious at all. He always wanted to get away from Queen and kill her teammates first.

Now that he was serious, the Queen felt great pressure.

Chapter 59

“Leaves, prepare to check my hp, this guy is probably a madman who kills people without blinking.”

After Queen felt Su Xiao's power at the moment, she suddenly regretted it. Maybe the three of them should not have provoked this man.

But with Su Xiao being alone in a camp, the benefits obtained after killing him was too great, the Queen as a Lv.6 contractor that entered the Lv.3 world, it was inevitable to act rashly.

Su Xiao squatted to the ground when he moved he was like an arrow leaving its string as he rushed toward the Queen.

Queen raised the giant shield in her hands and blocked in front of her.

Su Xiao held his sword. He did not choose to attack. Instead, he dragged the end of the handle with his left hand and stabbed the shield.

“Click.”

The tip of dragon flash was stuck in the shield. Although the dragon flash was a white top weapon, it was also white equipment.

Queen held a green shield with a rate of 26. If it is not because Su Xiao's attack power is high, it is impossible to break the shield.

Looking at the tip of the knife piercing into the shield, Queen's heart was bleeding, the cost of repairing this green shield will be too expensive.

In the early derivative world, few contractors developed physical attributes.

Staying in front to receive attacks, it was not something that ordinary people could bear.

Let's not say how painful it is. Just being beaten without fighting as you can only hold the big shield in her hand, it was frustrating and. But it has its advantages as the contractor grew stronger he will be able to block most attacks with ease, and the attackers will fall in despair.

Therefore, the shield warrior could only be specially cultivated. For example, some stable adventurous groups will cultivate a small number of contractors with shield talent.

Fortunately, there was not much need for the shield's warriors. The adventurous group of ten people probably had one shield warrior and another one in reserve.

After all, killing in the derivative world was the primary goal.

After dragon flash hit the shield, Su Xiao kicked on the shield.

“Boom.”

A muffled sound came, and the Queen took several steps back.

Su Xiao’s attack was to test the enemy’s defense. The enemy’s defense was beyond his imagination, and he needed to fight with strategies.

The snipers at the heights didn’t shoot for a long time, it seems like Suzuya had found her.

Queen did not receive support for such a long time, she also noticed an abnormality.

“Black-white, black white?”

Queen tried to contact black white, and there was a heavy gasp in her ear.

“Queen, I can’t support you for a while, some enemies found me.”

“Who?”

“The plot character, Juuzo Suzuya.”

Queen looked awkward after losing black white’s support. They didn’t have any way to take down Su Xiao now.

“Give me five minutes.”

Black white was very confident, and Queen seemed to believe in black white deeply.

“I try to fight for five minutes.”

Queen took out a bottle of medicine and drunk it. Although Leaves could treat her at any time, Su Xiao’s attacking power which could break the shield’s defenses each attack made her very wary.

Su Xiao had rushed forward again when Queen was talking to black white.

Queen immediately counter-attacked, the shield in her hand waved forward, and white glow spread on top of the shield.

“The Holy Shield raid.”

Queen shouted, then held the shield and rushed toward Su Xiao.

This attack could be said to be a heavy attack, as the shield rushed with the sound of the wind to Su Xiao.

Su Xiao was aware of the extraordinariness of this attack. This may be a skill.

The shield with the golden light flashed in front of Su Xiao, Su Xiao greeted it without hesitation.

Just as the shield was about to touch Su Xiao, he jumped up sensitively, stepping on the shield with one foot, and making a backflip with the help of the power of the shield.

After landing smoothly, the Queen’s skill was over.

Queen behind the shield, looked at Su Xiao with unbelievable expressions.

“How could you escape the skill?”

The Queen’s ‘The Holy Shield raid’ skill had already marked Su Xiao, This skill would certainly hit after it marked the enemy.

Su Xiao did not answer but gradually approached the Queen.

This contractor was very dependent on skills, but she did not know, skills were only used to assist during the fight.

In the battle, they need to adapt to situations and use the rich combat experience to fight with the enemy.

The reincarnation paradise was not a game, and the skills will change according to the situation.

The dodge action Su Xiao had just made was only based on his understanding of the battle.

“Skills do not matter.”

Su Xiao stepped on the ground and kicked at the shield.

Even if Queen had an aura to increase strength, she was still kicked and stepped back a few steps, her figure was unstable.

Taking this opportunity, Su Xiao’s figure moved, his agility allowed him to move behind the Queen directly.

From a one-handed sword to a two-handed knife, Su Xiao slammed the Queen’s back by all his power.

With a slapping sound, the dragon flash broke through Queen’s armor, and the long knife entered Queen’s flesh. The special energy of Qing Gang Yin invaded the Queen.

The hp on the top of Queen instantly decreased by 27%, this attack was extremely cruel.

The sharpness of the weapon itself added the strength of Su Xiao added the real damage of Qing Gang Ying.

The pain of burning Mana of the Qing Gang Yin made Queen scream and took a few steps forward.

This kind of good opportunity, Su Xiao certainly will not miss it, pointing at the Queen’s back of the neck, he made another attack.

Qing Gang Yin burned 10 points of the Queen’s Mana and caused 10 points of real damage.

The severe pain caused by Qing Gang Yin did not fade, and then another new pain came.

The two severe pains were superimposed, Queen’s face was pale, the excessive pain surprisingly gave her strange pleasure.

This strike caused the Queen to lose 31% of her Hp.

If this continues, the Queen will die in the next four attacks.

Su Xiao’s third strike arrived when Queen had not adapted to the pain on her body.

Dragon flash cut through the air, making a horrible sound.

After the Queen heard the sound, she tried her best to bite the medicine in the mouth and swallow it together with the broken glass.

“Snigger.”

The blood rushed out, this attack was even harsher, and the Queen lost almost 34% of her hp.

After three consecutive attacks, the Queen felt that she was going to die. It was not that she suffered multiple pains, but the pain that spread in her body almost crashed her.

The terrible part of Qing Gang Yin appeared. As long as an attack connects unbelievable pain will be felt because of the Mana burning, and if he can't bear that pain, there was no way he will survive against Su Xiao.

The Queen seemed desperate as Su Xiao's fourth attack arrived.

Her armor was the same as papers in front of Su Xiao. The true damage of the Qing Gong yin was doing its job.

After the four consecutive attacks failed to kill the enemy, Su Xiao was surprised. The shield warrior was exceptionally resistant.

Gecko couldn't live after four attacks.

“Snigger.”

A slender arm flew up, and the large shield was still on the arm. The arm with the shield still on was cut off.

This attack because it was aimed at the body it only eliminated 16% of Queen's Hp.

If Queen didn't have that medicine, she would be dead by now.

That was it, The Queen had only 19% of her life value.

When Su Xiao was going to make his fifth attack, a green ball of light suddenly flew from the distance and entered the Queen's body.

Queen's Hp had quickly recovered, from the original 19% to 34%, and it continued to climb up.

“She finally appeared, your third teammate.”

Su Xiao slashed at the Queen, but she had recovered from the pain because of the green light ball.

She rolled and escaped Su Xiao's attack.

“You, you are a pervert!”

Queen gasped heavily and leaned forward, supporting herself with one hand, and her blood dripped on the road.

She said that she had to resist for five minutes, but now only 30 seconds had passed, she almost died under Su Xiao's attacks.

If it is not leaves' giving her a heal, she would already be dead.

Chapter 60

Under the dim light, a large group of flying insects gathered.

In the street at midnight, a gunshot smashed the silence of the night sky.

Su Xiao looked at the position of the gunshot. It should be that Juuzo Suzuya was fighting with the contractor. He pressed the Bluetooth headset on his ear.

“Suzuya.”

No one answered it may be that Juuzo Suzuya accidentally dropped the Bluetooth headsets while fighting.

Su Xiao did not understand the strength of the sniper, but stopping the person should not be a problem for Juuzo Suzuya.

The first important thing was to solve the female shield warrior in front of him.

After getting a heal from Leaves, Queen’s blood volume returned to 67%.

It has to be said that Leaves healing powers were great.

Queen looked at Su Xiao with vigilance. She had already picked up the shield on the side, but because her arm was cut off by Su Xiao, her posture of holding the shield was a bit awkward.

“Even if the three attributes are balanced, it is impossible to have such terrible power, and there is also a blue light that leaves that terrible pain behind. If I’m not wrong, you already have a job.”

Queen had experienced three derivative worlds and had seen far more than others.

“Who knows.”

What Su Xiao wanted to do now was to solve the support contractors in the dark.

Because of the fettering of the ‘silver necklace’, he couldn’t get away more than 30 meters from the Queen.

This was undoubtedly a very disgusting skill. This female shield warrior was very resistant to attack, with the support contractor hidden in the dark, he could not kill her for a while.

The situation of Juuzo Suzuya was not clear, but it was still better to finish it fast.

Su Xiao rushed to the front of the Queen in a few steps, turned the long sword in his hand, and hit the shield with the sword’s handle.

“Boom.”

A muffled sound came, the Queen’s arm was under great pressure.

For enemies with shields, blunt attacks were far more effective than slashes.

The Queen gritted her teeth as she struggled against Su Xiao.

Su Xiao did not resist. He also suffered some minor injuries since the battle started. When he used a shield to escape bullets, his Hp dropped to 85%.

He avoided sideways, his arm rolled, and his left hand grabbed the edge of the shield.

The Queen couldn't help but scream, and sighed and yelled "Again!" in her mind.

Grabbing the edge of Queen's Shield, Su Xiao's eyes drooped, a smile emerged from the corner of his mouth.

"As a shield warrior, you can't even hold a shield. It's better if you die."

Su Xiao's left hand dragged backwards, and dragon flash on his right hand smashed forward.

Queen now had two choices, the first was to give up the shield, and the second was to be pierced by Su Xiao.

If she gives up the shield, she will be completely exposed to Su Xiao. The powerful attacks of Su Xiao made the Queen somewhat desperate.

But if she doesn't give up the shield, she will be stabbed by Su Xiao.

In the end, Queen chose to give up the shield and step back to avoid Su Xiao's long sword.

After getting Queen's shield, Su Xiao threw the shield into the distance.

When he threw it, the door-sized metal shield broke into a shop on the street, the shop was a mess, as the shield was inserted obliquely on a row of shelves, and a few bottles of shampoo rolled on the shield.

Queen stood in silence, thinking for a few seconds, and said:

"Today we were the one to provoke you, so I'm willing to pay 10,000 paradise coins as compensation. Let's just stop this, we may both suffer great losses if we continue."

After discovering that Su Xiao was not easy to fight with, the Queen chose to pay to leave.

"Pay the money first."

Su Xiao intended to cheat on her.

"Okay."

The hint of the reincarnation paradise appeared in front of Su Xiao.

[The number* contractor applies to you for a temporary contract.]

[In this derivative world, you will not be allowed to attack members of the * team.

And members of the * team must not make any behavior that is detrimental to you,]

[After this contract is set up, the * contractor will pay 10,000 paradise coins as a contract award.]

[Hint: This contract is notarized by the reincarnation paradise, and no one can violate it.]

[Hint: The contract is written by the initiator. Please read it carefully. After signing the contract, if the contract is violated, the reincarnation will give punishments.]

[Breach of contract punishment: deducting 300,000 paradise coins.]

[Sign the contract: Yes/No.]

Su Xiao was surprised as he read the contract, the reincarnation paradise surprisingly had this function.

Through questioning, he may also write a contract, but it cost 50 paradise coins.

The contract issued by Queen, Su Xiao certainly chose to refuse, he originally wanted to cheat her, but he did not expect the reincarnation paradise surprisingly had a function of setting up contracts.

Since those enemies chose to attack him, he must not let them go.

After discovering Su Xiao refused, the Queen's face changed.

“What do you mean.”

“What do you mean? I, of course, want to kill you.”

Su Xiao took out a salt rice ball and swallowed it directly into his mouth. The salt rice ball could restore 10% vitality. It was a good supplement.

“Don't force me.”

Queen's voice was a bit cold.

“Oh, hahaha~.”

Su Xiao, who is holding a sharp blade, suddenly laughed.

“Burying a bomb on my way, you surprisingly said that I should not force you? Today, if I don't cut off your head, the battle will not end.”

Su Xiao's eyes turned and looked at an alley in the street.

“You can hide there well, after I smashed her, the next one is you.”

Su Xiao now could be described as fierce, leaves hiding in the alley was scared.

Leaves as a support, she couldn't fight, so her guts were somewhat small.

Queen also knew that she was wrong and stopped talking, but she had a test tube in her hand and a knight sword.

There was a bright red liquid in the test tube, and the bright red liquid was somewhat viscous.

“Leaves, check my Hp from time to time.”

Queen yelled, she then raised her head and drank the bottle of medicine.

“Uh, it tastes disgusting.”

After Queen drank the unknown liquid, several marks appeared on her face, and dark red energy appeared on the surface of her body.

“The power is constantly emerging.”

In just a few seconds, Queen’s big dark eyes had turned into bloody red beast eyes.

An extremely ominous feeling appeared, Su Xiao did not immediately rushed to the front but used [basic detection].

[10 magic values have been consumed, the basic detection is turned on, and the following information is obtained.]

Contractor: 11740. (mad state)

Strength: 6+10

Agility: 5+10

Vitality:???

Intelligence: 5

Charm: 6

Skill 1: mad state (temporary passive), loss of 3% of Hp per second, after the life value is less than 5%, the mad state forcefully lifted.

Skill 2: Inferior blood of the fox spirits (temporary passive), strength, agility, Vitality +10.

Skill 3: Judgement (temporary passive), a random attribute is chosen to be judged, if it wasn’t one of the three strengthened attributes, the user will fall into a berserk state. (The random attribute’s judgment will be reset every 10 seconds.)

Skill 4:???

Skill 5:???

Skill 6:???

....

Su Xiao’s mouth twitched, what did this woman drink, it surprisingly made a passive skill which can add ten points in power, agility, physique attributes appear.

Although the woman’s combat power soared, it was not good to bear, losing 3% of her life value per second, which meant that the woman will die after 34 seconds.

Of course, there was the support which was in the distance, and this time will be extended.

“Roar!!”

As soon as the roar came, Queen was somewhat unlucky. The third skill was activated, and the attribute chosen was Charm, she didn’t pass the judgment.
