

R. Paradise 511

Chapter 511: Cellmate

[Main Mission: Choice]

[Difficulty Level: Lv.12]

[Mission summary: Join any force, Konoha, Hidden Cloud Village, Hidden Rock Village, Hidden Sand Village, Hidden Mist Village, Iron Country, and other forces.]

[Mission information: The choice of camp will affect the subsequent missions.]

[Mission deadline: 5 natural days.]

[Mission reward: 3000 paradise coins.]

[Mission penalty: Forced execution.]

...

The main mission of this open-world was generally continuous.

The first main mission was not difficult. There were too many forces in the Naruto world, and there were dozens of big and small villages. In addition to the village, there were also some other forces.

[Hunting Mission: Clean up 1,000 offenders.]

Mission summary: Use any means to clean up 1,000 offenders. 1,000 and 1 offenders are 2nd ranks, extremely dangerous.

Mission deadline: Before leaving this derivative world.

Mission reward: Silver Medal of Honor.

...

The hunting mission appeared. There was no hunting mission in the previous assessment world and survival trial. After Su Xiao advanced to the second rank, the hunting mission appeared again.

There was no need to consider hunting missions now but to determine the time.

Su Xiao was in the Mist Village. He roughly estimated the current time from the Snow Fog introduced by the world.

"Not good ah..."

If he guessed correctly, the time he was in was the most chaotic in the Mist Village.

A group of rebel groups, 'Xiao', controlled the Mist Village. The illusion controlled the fourth-generation water shadow.

The so-called Blood Mist represented a period, a very cruel period.

Ninjas would go to the Ninja School to learn basic knowledge when they were young. The other villages would use the 'examination' method to determine whether they would graduate or not.

The Mist Village was different. The students about to graduate would gather together and let them kill each other. The final survival rate was not more than half, and there was even a situation where only one person remained.

The name Blood Mist was not groundless. Whether it was the rule method or the external strategy, the Mist Ninja was extremely vicious.

Now Su Xiao was in the 'Dungeon' of the Mist Village. The crime was unknown. From the treatment, the crime should not be light. He was imprisoned in the deepest cell.

"Hello."

There was another shout from the next door.

"What?"

Su Xiao opened his mouth.

"I thought you were also dead. Is Chuanmu dead?"

The prison friend next door reached out from the gap in the iron bars. It was a scarred arm. There were faint teeth marks on it. It should be bitten by hunger.

"Dead."

"Great, give me one."

The sound of swallowing came.

Su Xiao sat in the cell, lit a cigarette, and ignored the 'prison friend' next door.

"Cold guy, how did you come in?"

"..."

Su Xiao still did not speak.

"I was trying to assassinate a woman. That woman is a top-quality woman, but she was too strong and almost burned me."

"Woman?"

Su Xiao was interested. He might be able to get some information from this tuberculosis friend.

"Yes, woman, even if I think about it now, I can't forget it, especially that figure, tsk tsk ---"

"Ninja?"

"Of course, not Ninja. I won't go to assassinate."

Su Xiao did not ask. In this dark cell, the chatterbox next door would take the initiative to say.

"Aren't you curious about who that woman is?"

"Not curious."

After getting Su Xiao's answer, the person next door was unhappy.

"That woman is called Mei Ming, a waste of the main school. I almost killed her. If not for the sudden appearance of Chang Shilang, I would win one on one."

Cold laughter came from the next door. Su Xiao raised his eyebrows. Mei Ming? The fifth generation of water shadow?

"Hey, what crime have you committed? You are imprisoned deeper than me."

"I don't know."

"Huh?"

Su Xiao was unclear; there should be someone coming to find him. Otherwise, this weird opening was too much of a trap.

"What's your name?"

After the chatterbox asked, Su Xiao, pondered for a few seconds and spoke.

"Byakuya."

"Byakuya? You are the madman who assassinated the fourth generation water shadow?"

"Huh?"

Su Xiao spat out a mouthful of smoke, and his eyes flashed in the darkness.

The identity that the reincarnation paradise arranged for him was to assassinate the four-generation failed assassin. As for how to judge his failure, of course, it was the current situation.

The reincarnation paradise would not arrange the identity casually. Thinking about it, Su Xiao indeed could kill the fourth generation water shadow.

According to strength, the strength of Su Xiao and the fourth generation of water shadows was much different.

The thoughts in his mind turned quickly, and Su Xiao thought of the possibility that the green steel shadow was very resistant to Chakra.

Su Xiao also thought of this situation before. If the Ninja did not have Chakra, they were some people with strong physical fitness.

The green steel shadow had characteristic, burning energy at that same time would cause the energy in the victim's body to go out, although this kind of rampage would only last for a few seconds to a second or so before disappearing.

Ninjas wanted to use Ninjutsu, and Chakra was the most important part. Without Chakra, not to mention Ninjutsu, even physical skills would be affected.

Thinking about it like this, the Ninja and the Mage had the same thing, but the fighting style of the two was different.

Su Xiao felt that the end would not be good if he injured the Ninja at close range.

Of course, some Ninjas were different, such as the blood limit.

The Ninjutsu used by ordinary Ninjas could be divided into several types. The attributes were wind, fire, thunder, water, earth, and the deeper attributes were yin and yang.

The blood limit was to combine the two attributes, such as the combination of wind and water attributes, to form an ice shield, which was the blood limit.

This was just the most normal blood limit. White-eyes, blood eyes, etc., were all blood limits.

It should not be difficult for Su Xiao to deal with ordinary Ninjas. The middle Ninja was not his opponent. If the upper Ninja fought desperately, it would not be a problem.

As for the shadow level, he would die if he pulled away from Su Xiao.

However, if Su Xiao got close to him, plus the sneak attack, he might die in his hands even if he was a shadow level. Combining the master of sword skills level, level 21, dark purple + 10 dragon flash was not easy to deal with, not to mention the green steel shadow that burned energy.

Su Xiao had some fate with the prison friend next door. One was the failure of the assassination of the fourth generation water shadow, and the other was the failure of the assassination of the fifth generation water shadow.

"How should I address you? To be able to assassinate the fifth generation water shadow, you should not be a nobody."

This time, it was Su Xiao who took the initiative to speak.

"Psh ---Fifth-generation Water Shadow?"

The friend next door sneered as if he had heard something very funny.

"That woman? Fifth-generation Water Shadow? What a joke!"

The person next door roared angrily, his emotions somewhat out of control. He punched the iron bars, and the iron bars roared.

After a long time, the chatterbox calmed down.

"Isn't she the fifth generation Water Shadow?"

"Of course, not now, and not in the future."

The prison fell into dead silence.

"How should I address you?"

Su Xiao opened his mouth.

"Ghost Lamp Waning Moon."

Hearing this name, Su Xiao knew why the other party had the strength to kill Mei. It turned out to be the Ghost Lamp Clan.

The ability of the Ghost Lamp Clan was water, and the other party was trapped in prison?

"Ghost Lamp Clan? I can't trap you here."

Chapter 512: Dangerous Criminal

"Of course."

Ghost Lamp Waning Moon answered with certainty.

"You can't turn into the water with a collar on."

In the next cell, a figure leaned against the wall with white hair and a mouth full of shark-like sharp teeth.

Ghost Lamp Waning Moon wore an iron collar around his neck, and there were several tubes on the collar pierced into Ghost Lamp Waning Moon's throat.

If Ghost Lamp Waning Moon used his Aqua-morph ability, the seal on the collar would be able to sense it and release a lightning shield.

If it were the past Ghost Lamp Waning Moon, this would naturally be nothing, but he was too weak right now.

There was a wise Ninja around the prison cell, and it was unlikely that they would be able to escape. How could the level of guarding an enemy who had assassinated the fourth generation Water Shadow prisoner be weak?

Clang.

The iron gate above the dungeon opened, and a strong light pierced into the dark dungeon.

A few ninjas wearing the Mist Ninja uniform walked in, a total of five people, two of them were superior Ninja, and three of them were middle Ninja.

The three middle Ninjas were a little nervous, and pairs of eyes in prison were staring at them.

The two superior Ninjas walked in front. They were also nervous. The prisoners here were all felons and outlaws, but the two superior Ninjas could not lose face in front of the younger generation. They could only pretend to be calm.

Seeing someone coming, the prisoners said one after another,

"Is the person who sent the food dead? No one came to deliver the food for two days."

"That white and tender boy, let me taste your meat. The dead meat is too disgusting."

"A bunch of trash. We will only follow the fourth generation. We will not acknowledge that woman, Mei Ming."

A dozen prisoners were imprisoned in the dungeon.

"Shut up."

A superior Ninja opened his mouth, his hands forming a seal.

"Is this guy going to make a move?"

"Kill me. I don't want to live anymore."

There were no prisoners in the dungeon who were afraid of death.

The two superior Ninjas frowned. These guys were harder to deal with than they had imagined.

Ignoring the prisoners, the five of them walked into the depths of the prison and soon arrived in front of Ghost Lamp Waning Moon's cell.

"Ghost Lamp Waning Moon, time's up."

The prison door opened, and Ghost Lamp Waning Moon was taken out of the cell.

"Hello, Byakuya."

Ghost Lamp Waning Moon looked at the cell where Su Xiao was in.

"Huh?"

Su Xiao raised his head, and the two superior Ninja stared at him vigilantly. One of them even took out Kunai.

At this time, Su Xiao saw Ghost Lamp Waning Moon's appearance. This was a man about thirty years old and not tall.

"If you can go out and do something for me."

"I'm not interested."

Su Xiao was not familiar with Ghost Lamp Waning Moon, and he would not agree to the other party's request.

"Don't talk nonsense. Go quickly."

A superior Ninja pushed Ghost Lamp Waning Moon, but Ghost Lamp Waning Moon didn't care.

"If you can go out and tell Ghost Lamp Waning Moon, say that I'm already dead and don't need to come to me for revenge. As for the benefits of doing this... he will give it to you."

Leaving this sentence, Ghost Lamp Waning Moon was taken out of the dungeon, and the outcome could be imagined.

According to the conversation with Ghost Lamp Waning Moon, Su Xiao got the current time.

The 4th Mizukage might be dead, and the future 5th Mizukage Amaterasu was preparing to take the position.

This was not good news. The Mist Village was more chaotic than imagined.

But excluding the danger, there were too many things to do at this time, and many things happened.

Naruto, the plot's protagonist, had followed Jiraya for three years, and the Akatsuki organization was unusually active.

Su Xiao sat in the cell. He was thinking about whether to break out of the prison.

If the fourth generation of water shadows had died, he was not in danger for the time being. After the fifth generation of water shadows took power, the structure of the Mist Village would have an earth-shaking change. It was appropriate to describe it as a change of dynasty.

If the fourth generation of water shadows did not die, it would be difficult to handle. No, perhaps it was not too big of a problem. The fourth-generation water shadow of this period was controlled by the illusion of the blood eye and had no subjective thoughts.

The difficulty of breaking out of the prison was very great.

The perceptive Ninja was constantly monitoring Su Xiao's every move.

The prison was quiet after the five Ninjas left with Ghost Lamp Waning Moon. After a long time, the dim oil lamp was extinguished.

"Byakuya, Ghost Lamp Waning Moon is dead, and the next one is you."

"I have been unhappy with him for a long time. It is best if he is executed."

"He tried to assassinate the fourth generation, a reckless guy."

"If not for because I was hungry and had no strength, I would have thought of a way to kill him."

Waves of malice came from the surroundings. Su Xiao had a feeling that in this dungeon, other than the ghost lights that were taken away, everyone else wanted to kill him.

After three hours like this, Su Xiao knew that this could not go on. The situation was worse than he had imagined. He wanted to create an opportunity himself.

A special-class alchemy bomb appeared in his hand. The alchemy bomb surged and gradually turned into more than a dozen small white spiders.

This was a new form developed by Su Xiao recently. The frog form moved quickly, and the snake could entangle the enemy. The spider form moved quickly and could climb the wall.

After a while, the dungeon became lively.

"Damn bug, it's on my face again."

"Oh? You have bugs too?"

"I have one too. What's going on?"

"No, it's Bai Ye's explosion..."

The dozen or so prisoners all found that the situation was abnormal, but they were so hungry that their bodies were weak and dizzy, and their perception was greatly reduced.

"Explode!"

Boom!

A dozen spiders exploded simultaneously, and the fire illuminated the dungeon.

After the explosion, the dungeon became quiet. The air was filled with a burnt smell and the smell of blood.

Su Xiao killed all the 'Prison Friends'. The reason why he did this was to attract the attention of the Mist Ninjas. Otherwise, he did not know how long he would be imprisoned.

The second was that the malice of these people was not enough. It was Su Xiao's style to make the first move.

Although he did not know who these people were, he would let them die first since he wanted to kill them. It was so simple and rough that he would not ignore the threat.

The sound of rapid footsteps came, the dungeon door was pushed open, and a ninja in a dark green robe rushed to the prison. This Ninja was wearing a one-sided black blindfold, and there were two paper talismans on his earlobe.

"What is going on?"

The one eye of the Ninja was extremely sharp. After looking around, he locked his eyes on Su Xiao. More than a dozen Ninjas rushed into the dungeon in less than a few seconds.

"Lord Qing."

"Lord Qing."

When these ninjas saw the green-robed Ninja, they all lowered their heads to show respect.

"Go and inform Lord Mei, tell her that something has happened here."

"Yes."

A few Ninjas left in a flash, and Qing walked into the dungeon's depths.

Da, da, da...

There were only Qing's footsteps left in the dungeon. Dead bodies were lying in the cells he passed. These bodies had their heads blown up, and some of them were still burning.

Walking to the deepest part of the dungeon, Qing stopped and looked at the dark cell. He sensed that there was someone inside. This was the only prisoner alive, the most dangerous criminal.

"What's going on?"

Qing did not respond for a long time after asking.

"If you don't speak, I can order someone to execute you."

A pair of eyes opened in the cell.

"The fourth-generation died?"

Qing hesitated for a moment and nodded.

"Dead, he was seriously injured by your two blades, and then he died in battle with an external enemy to protect the village."

The fourth-generation water shadow might be true with Su Xiao's two blades. As for 'foreign enemies', this must be a ghost.

"Is it? How about we make a deal."

Qing frowned. This man did not belong to any Ninja Village. There was no chakra in his body, but such a person injured the fourth generation water shadow with a knife, although it was a sneak attack.

It had to be said that the identity arranged by the reincarnation paradise for Su Xiao was a little risky, but it depended on how to deal with it.

"Deal? I am very interested."

A female voice came from the door of the dungeon.

Chapter 513: Talk About Collapse?

Hearing this female voice, the youth in front of the cell lowered his head and stepped back.

There was a figure standing at the entrance of the dungeon. The dark dungeon made the sunlight particularly dazzling. One could only vaguely see the figure of the person at the door.

Her long brown hair appeared in a furry halo under the sunlight. From her plump figure, it could be seen that this woman was probably young.

Mei Ming is a female ninja. She is powerful and has mastered two blood limits. She is a mature and dignified woman.

Soon, she will become the fifth generation Water Shadow, the group's current leader.

At this time, the Mist Village was very chaotic. The fourth-generation Water Shadow not only was the Hokage, but he was also a pillar of the Sanbi.

Pillar strength, this kind of 'nuclear weapon' existence, every great Ninja Village paid a lot of attention. Most of the people in the village were closely monitored.

As a pillar of the Sanbi, Goji Yakura became the Hokage at the same time, which showed his ability.

Now, Goji Yakura was dead, but the three tails in his body were not dead, and he was in a state of returning to nature.

The Mist Village lost its three tails, which made the 'Battle Faction' even more dissatisfied. In addition to Mei Ming, the Mist Village was divided into two factions.

One of them was headed by Mei Ming, the 'owner and the faction'. This faction wanted to stop the internal strife of the Mist Village and open up external channels to trade with other big countries. Otherwise, the Water Country on the island in the sea was too poor.

The Water Country did not have any resources and did not trade with the outside world. This was an extremely strange country.

When the other four big countries were in chaos, it was in chaos. When the four big countries were at peace, it was also chaos when they were in conflict again. It looked like 'you fight, you fight, I fight myself, no one can stop me, no one can stop me.

Even in the third Ninja World War, the Mist Village would occasionally go out to fight. If there were benefits, they would sneak attack. If there were no benefits, they would retreat.

The natural geographical advantage meant that the other villages would not take the initiative to attack it. Moreover, it had been in chaos all year round, causing the Mist to have a strong combat power. Most importantly, the Water Country was very poor.

Who would be willing to attack a country that was both poor and powerful? The answer was no.

The Water Country is usually a country that does not want to provoke me. I am not easy to provoke, and I am very poor.

The impact of internal strife in such a country could be imagined. When Water Shadow was in position, it was fine, but now there was no shadow in the position.

In addition to the 'Island Lord Faction' led by Mei Ming, the Mist Village also had the 'Island Lord Faction'. These people also wanted to stop the civil war and take the initiative to rob other countries.

The idea of both sides was to stop the civil war, but the matter of which side was the sovereign could not be negotiated. The two sides did not give an inch to the position of Water Shadow, so the civil war could only continue.

Mei Ming's top fighting force was strong, and her fighting force was very strong. She also had Qing, Chang Shilang, and others to assist her.

The main fighting force had no leader. Their original leader was the fourth generation Water Shadow, and they or their fathers fought the name of Blood Mist.

Although these people did not have the full fighting force, they had many people, occupying 70 of the total ninjas of Mist Village.

Mei Ming was in a predicament because she had enough strength, but she did not have enough ninjas to support her. The Water Country was famous for the mountains and watching the tigers fight, and they did not interfere in the internal strife of the village.

Mei Ming could not kill all the people of the main battle faction. If she did that, the Mist Village would be unprecedentedly weak.

So, in this case, the force like Su Xiao, who did not belong to the Mist Village or other villages, had value.

However, Su Xiao had the 'glorious record' of assassinating the fourth generation Water Shadow, and it was natural for Mei Ming to be wary of him.

Su Xiao was also clear about this. If the two sides cooperated, it must be to use the relationship. He wanted to get rid of the current predicament as soon as possible, at least to leave the prison.

Mei Ming walked into the dungeon, her brown hair hanging down two strands in front of her chest.

"Nice to meet you. I am Mei Ming."

Mei Ming had only heard of Su Xiao and had never seen Su Xiao.

"Byakuya."

Su Xiao looked at the look from top to bottom. If this woman was close to him,

The one who died must be on the other side. The other side's melee ability is not too strong, which can be seen from the original work.

If he pulled away from a distance, Mei Ming could easily burn him to ashes.

At this time, Mei Ming was about three meters away from Su Xiao. If he suddenly pulled out his sword, it was very likely that he would kill the other party on the spot.

Of course, Su Xiao would not do this. Even if he could kill the other party, he could not leave alive.

"You..."

Qing suddenly stood in front of Mei Ming. He was a wise type. How Su Xiao looked at Mei Ming made him feel that something was wrong.

"Qing, don't be nervous."

Mei signaled Qing to move aside.

"Lord Mei Ming, he just..."

"I sensed it."

Mei narrowed her eyes. She knew how strong Su Xiao was in close combat. The knife wound on the body of the fourth generation water shadow was the best evidence.

"The purpose of your assassination of the fourth generation?"

Mei opened her mouth.

"Purpose? Entrusted by someone."

Su Xiao had already thought of the reason for the assassination of the fourth generation water shadow.

"Who entrusted you?"

"I'm not sure."

Su Xiao's answer made Mei a little dissatisfied.

"Since you don't want to say it, you can continue staying here."

Mei turned around and wanted to leave. Su Xiao in the cell laughed.

"You pay me the benefits, and I can help you kill people."

Mei stopped and looked at Su Xiao from the corner of her eyes.

"I don't need a killer. I need loyal subordinates. Forget it, I've been very busy recently, especially at night. I have to be busy until very late every day."

After saying that, Mei Ming and Qing left the dungeon. The door of the dungeon was closed, and it was dark again.

"Send more people and transfer two perceptive Ninjas. Da Ye, Mu He, you don't have to guard here anymore. There are other tasks."

Qing's voice came from outside the dungeon.

"Why? The bastard inside killed the fourth generation master. We have to guard here."

"Yes, we will never leave."

The sound of an argument came from outside the dungeon.

"Under your watch, that guy killed all the prisoners. Don't make a fool of yourself. For prisoners, we have no faction."

After a long time, it was quiet outside the dungeon.

Su Xiao sat in the cell. The negotiation seemed to have failed, but it had succeeded.

Around ten o'clock that night, Su Xiao opened his eyes in the darkness.

Dragon flash appeared in his hand, and the blade flashed.

Clang, clang.

The broken iron bar fell to the ground, making a crisp sound.

Su Xiao walked out of the cell. Bobowang followed him with a face full of surprise. His eyes seemed to say: Master, is it okay to go out like this?

There were more than a dozen Ninjas guarding outside, and some of them were perceptive.

Su Xiao walked to the dungeon's door, and the door of the dungeon was directly pushed open by him, not locked at all.

Walking out of the dungeon, the white moonlight shone on the earth, and the surrounding buildings could be vaguely seen. Su Xiao was in the back of the Mist Village.

More than a dozen ninjas stood on both sides of the prison door, these ninjas looked at the nose, the nose, and the heart, all of them became 'blind'.

Before, it could be heard from Qing's words that he had transferred the people of the main battle faction. At this time, the people who guarded the dungeon were all people of Mei Ming, and thinking about Mei Ming's words, the meaning of the other party could not be more obvious.

Su Xiao did not know exactly where to go, and someone would come to him soon.

Chapter 514: Shadows

Walking in the Mist Village at night, although it was only about ten o'clock at night, it was already quiet here. It seemed that the Mist Village did not have any nightlife.

After all, it was very poor here.

Sou ---

A black shadow suddenly appeared in front of Su Xiao. The way the Ninja appeared was always so elusive.

"Follow me."

The black shadow instantly disappeared from the place.

Around Su Xiao and look at, at least a dozen ninjas were monitoring them. The weakest of these ninjas were middle Ninjas, and most were upper ninjas.

Su Xiao walked in the direction where the black shadow disappeared. According to the guidance of the black shadow, Su Xiao came to an oval building.

There was a water word on the building, which should be where the water shadow worked.

The ninjas around him moved with Su Xiao. Someone wanted him to enter the water shadow office building.

Although Su Xiao seemed to regain his freedom, it was a dream to leave the Mist Village. There were too many ninjas here.

As soon as he entered the water shadow office building, a teenager stood before him.

"Follow me."

The person who spoke was called Chang Shilang, a teenager wearing glasses and carrying a pair of strange weapons on his back.

Ping Ping: One of the seven enduring knives, two handles, and a fish-shaped knife.

Although the teenager Chang Shilang was usually nervous, his face was calm now. Although he was still not confident, he faced the villain who assassinated the fourth generation water shadow. He was the guard of Mei Ming, and he had to protect Mei Ming.

Chang Shilang walked up the stairs and walked to the upper floor of the water shadow building. Su Xiao followed behind.

After a while, Chang Shilang stopped in front of the Hokage's office and knocked on the door.

"Come in."

Mei's voice came from the office. She was only missing the name of Water Shadow. She had the power of Water Shadow. If the main battle faction existed for a day, she would not be recognized by everyone.

When she opened the door, the room was bright. Mei was sitting behind a desk with a mountain of documents.

Su Xiao walked into the office. Mei looked up and smiled at Su Xiao.

"It seems that you understand what I mean."

"Well, tell me your request."

"Okay."

Mei went straight to the point and picked up a document next to her hand.

"Help me kill these people. As for the reward... I won't pursue the matter of you assassinating the fourth generation."

Su Xiao did not look at the document but began to look at Mei Ming.

Mei Ming did not care about Su Xiao at first, but after a minute, Mei Ming, who was holding a pen and reading the document, frowned.

A few minutes later, the pen in Mei Ming's hand made a cracking sound.

"It is very rude to stare at a lady's chest like this. What a bad man."

"Don't misunderstand. I am just guessing the color of your heart. It should be very dark."

Mei Ming looked up and looked at Su Xiao coldly.

"You can choose to refuse. In that case, you will be sent back to prison until you die in prison."

Su Xiao picked up the document on the table and looked through it. The document contained the information and photos of several people.

These were several superior Ninjas. This must be the leading figure of the leading militants.

"I will help you do things, and you will pay me. When you don't need me, I will disappear automatically."

He could not accept Mei Ming's previous proposal. What' didn't pursue the assassination of the fourth generation was complete to get rid of the donkey.

"You can't escape from the Mist Village."

A pen flipped in the hands of Mei Ming. She stopped reading the documents and considered Su Xiao's words.

"I know, but I don't want to die yet, so helping Water Shadow in the future is the best choice."

"Oh? You want to be my subordinate?"

Mei looked at Su Xiao with interest.

"That's impossible. I have assassinated the fourth generation water shadow, and it's impossible to appear in the open."

"It's good that you know."

Mei continued to read the documents, "What do you want?"

""

"Money, secret arts, Chakra conduction metal, high-quality ninja sword can be done."

Su Xiao sat in front of the desk. He knew that he could help him eliminate the dissidents. He could do anything that Qing and Chang Shilang could not do.

For example, if Mei asked Chang Shilang to kill a Mist Ninja, even if Chang Shilang agreed to do it, killing his nominal companion would make Chang Shilang unhappy, and sooner or later, there would be problems.

Su Xiao was different, and Mei only needed to pay the benefits.

Su Xiao's goal was to leave the Mist Village very clear. The reason was that this place was too poor, and there were no tail beasts. His ultimate goal was tail-beasts, nothing else.

"Secret technique? Chakra conduction metal? High-quality ninja sword? You are asking for too much."

"Money is also fine."

Hearing Su Xiao's words, Mei Mei frowned. The Mist Village was very poor. Money was not enough for military needs. How could they have money to give to Su Xiao?

"Money is also impossible."

"Then let's use advanced Ninjutsu."

"It's... not possible."

Speaking up to this point, Mei felt a bit awkward. This was the truth. Every village's high-level ninjutsu was a treasure. It could not be taught to outsiders.

"You want me to help you kill people for free?"

"En."

Mei answered very simply.

"Help me do three things, and then I will let you leave the Mist Village safely. What about it?"

This was a proposal given by Mei Ming, a very 'moderate' and dangerous proposal.

"Don't worry. I am very honest. My subordinates are here, and they will not follow a leader who has nothing to say."

Chang Shilang had been standing beside Su Xiao. This was to prevent Su Xiao from suddenly bursting out. He only needed to block Su Xiao for a moment. Mei Ming could solve Su Xiao.

"Three things..."

Su Xiao pondered for a moment.

"Two things."

"Three things. This is the lowest."

"Sure."

Su Xiao agreed, and Mei Ming smiled.

Su Xiao decided that he could not stay in prison for the time being. Before doing three things, he would find a way to leave the Mist Village. Mei Ming would kill him. The other party was the future shadow. Shadow had to consider the village's safety and would not be influenced by the emotions of the people.

The honesty in Mei Ming's mouth was only effective for her subordinates. Su Xiao was not a subordinate of the other party.

"There is a house next to the prison. You live there. You can't go out during the day. I will send someone to deliver daily necessities. You can only act at night, and it is in the case of a mission."

The deal was reached. On the surface, Su Xiao helped Mei do three things. The other party asked him to leave the already guarded Mist Village. Su Xiao had been monitored all the time. After doing three things, it would be his death.

Mei would not believe the words of a 'killer', and she would not trust this killer. She could become a water shadow. Of course, she was not a simple woman.

Ruthless, strong and rational, this was Mei Ming facing the enemy.

Mature, dignified, gentle, and friendly, she would occasionally lose her temper. This was Mei Ming, who was facing her subordinates.

It was obvious that Su Xiao was an enemy of Mei Ming. Just the assassination of the fourth generation of Water Shadow was destined that he could not continue to develop in Mist Hidden Village. Mei Ming would not let Su Xiao leave the dungeon if the situation were not too chaotic.

Su Xiao got up and was about to leave, but Mei suddenly spoke.

"You wanted to kill me just now, right?"

"How is that possible? You are thinking too much, fifth-generation Water Shadow."

Su Xiao walked out of the Water Shadow office. He just left, and Qing walked out of the room on the side.

"Keep an eye on him. Any suspicious behavior..."

Mei didn't continue, but Qing had already understood.

"Yes."

Qing Shun left. His transplanted white eye was very suitable for surveillance.

Chapter 515: Burn

The house next to the dungeon was a two-story wooden house with a Japanese style.

There was grilled fish, a rice bowl, and a bowl of turbid soup on the table in front of Su Xiao. This was the food sent this morning, which was his breakfast.

For Su Xiao, these things were not enough to fill the gaps between his teeth. Fortunately, there was food in his storage space.

Although he made a deal with Mei Ming last night, the first part of the main mission was not completed.

In other words, Mei Ming had no intention of recruiting Su Xiao, and that was to get rid of the donkey later.

Su Xiao did not want to become a donkey, so he had to leave as soon as possible.

If Mei took out a little sincerity last night, then Su Xiao would help the other party kill a few people so that the two sides could reach the initial cooperation.

Unfortunately, Mei did not want to pay a single cent to him. In Mei Ming's heart, he was a prisoner who could not leave the Mist Village and was trying to kill and struggle.

He could not cause any waves at all.

There was a premise for cooperation, which was the chips of both sides. In Mei Ming's opinion, Su Xiao had no chips.

Unfortunately, Mei did not know Su Xiao, and she did not know what kind of crazy things Su Xiao could do.

At this time, Su Xiao seemed to be safe, but he was not. Mei Ming would kill him just sooner or later.

Su Xiao was not ready to do anything for Mei Ming, let alone three things. Even if he died here, he was the kind of person who would risk his life if he was threatened. It was not his style to compromise.

Being surrounded, this was Su Xiao's current situation.

There are countless ninjas around. It is impossible to force out, as for the possible allies...

Unfortunately, the Mist Village now only has 'Lord and Faction' and 'main battle faction'.

Because of the assassination of the fourth generation water shadow, the 'main battle faction' wanted to swallow Su Xiao alive.

As for 'Lord and Faction', they had talked about it last night and could not become allies.

"Bobo, are you afraid of death?"

Bobowang, who was chewing on a whole roasted lamb, looked up.

"Woof."

It was obvious that Bobowang did not show any fear.

"Tonight, we will assassinate the 'target'. It is time to test your ability to run a lot."

Leaning on the chair, Su Xiao began to conserve his energy. Successor failure depended on tonight.

There was nothing he could do with the current situation. The plot characters were not fools. They all had their ideas. Su Xiao was destined not to be able to develop in the Mist Village from the beginning.

Fortunately, the glorious achievement of assassinating the fourth generation Water Shadow was beneficial to the plan's progress in the future.

It was a bad start, but as long as he lived through this opening, Su Xiao had the confidence to complete the plan after this.

...

At one o'clock in the morning, Su Xiao pushed open the door.

As soon as he went out, Qing, who was watching him nearby, immediately acted, and the five superior Ninjas disappeared into the night.

Su Xiao was a knife in front of Mei Ming, a knife that excluded dissidents, but the origin of this knife was unknown, and it was dangerous, and he had to deal with it after using it.

In the night, Su Xiao walked through the buildings, concealed his breath, and tried to avoid being discovered.

Qing took off the blindfold, the blood vessels on one side of his cheek bulged, and his eyes opened, constantly monitoring Su Xiao's movements.

The direction that Su Xiao was heading was the residence of a superior Ninja, one of the targets that Mei Ming asked him to assassinate.

This superior Ninja was already 69 years old, and his seniority was higher than Mei Ming. He was once the confidant of the third generation Water Shadow, and then he assisted the fourth generation.

In the Mist Village, which had been in civil war for years, 69 years old was considered a high age, but the bodily functions would be greatly reduced at this age. In addition, this superior Ninja was a physical technique type Ninja, so his strength regressed even more.

This was also the reason why Su Xiao chose the other party. The other party's home was at the edge of Mist Hidden Village. After killing the other party, he could escape immediately. This was a chance to escape from Mist Hidden Village. At least it seemed like this on the surface.

As for why he had to kill the other party first, this could make the observer relax their vigilance and take the opportunity to create chaos.

But was Su Xiao's escape plan only so simple? Of course not.

...

According to Su Xiao's route, Qing guessed who Su Xiao would assassinate.

"Is that so..."

Qing sighed and whispered a few words to a superior Ninja beside him. The superior Ninja changed his direction, and that direction was Mei Ming's residence.

"You two, go to the edge of the village and tell the guards to strengthen the alert."

As soon as Qing's voice fell, he suddenly found that Su Xiao in front of him had stopped and turned directly.

Qing was a little puzzled. The intention of the other party to escape was already very obvious. What did this mean now? And the other party had been eating non-stop from before. Did he want to eat his fill before he died?

Su Xiao no longer headed to the edge of the Mist Village but to the center of the village, which was the location of another target.

This made Qing very puzzled. The other party did not intend to escape? Or had he found something?

Su Xiao began to take Qing around the village. Every time he changed direction, he was in the direction of the target.

Five minutes later, Mei met with Qing.

"What's going on?"

Mei should have been woken up in her sleep, and she was still drinking while talking.

“That guy is a little strange. He has been circling the village.”

circling, where did he go?

“He went...”

After listening to Qing’s report, Mei Ming instinctively felt something was wrong.

“He didn’t go to assassinate the target?”

“He didn’t go. He usually stays near the target’s residence for a while before leaving. Is this a scouting terrain?”

“It’s possible...”

Mei lowered her head in thought and suddenly thought of something.

“How did he kill the other prisoners in the dungeon?”

Qing pondered for a few seconds and replied, “It should be an Explosive Talisman, but it has been used up. I checked with my eyes. There is nothing suspicious about him. There is only a knife and some fruits. Otherwise, I would not let him wander around the village.”

“Fruit... something is wrong. Stop him first.”

Mei jumped and rushed to Su Xiao.

At this time, Su Xiao stood on a street located at the edge of the Mist Village. He had been hiding his breath. Otherwise, he would have been discovered by the Ninjas in the Mist Village.

The Mist did not be very vigilant. After all, this was their village. They lived here every day. If these sleeping Mist Ninjas were vigilant, maybe they would have already found Su Xiao.

Su Xiao threw away a fruit core in his hand. This was a special fruit of the Mist Village. It was shaped like a mango. He had eaten all the way.

Taking out another fruit, Su Xiao had been eating it since the beginning of the day, and it seemed that he had a special love for this kind of bitter fruit.

If someone picked up the fruit core that Su Xiao threw away, he would find that every fruit core had holes bitten by teeth, and white objects could be vaguely seen inside.

Su Xiao was about to vomit, but he still wanted to continue eating. This was to avoid a certain eye that could only see-through.

After a burp, Su Xiao threw down another fruit core.

Pa.

Soft footsteps were heard, and Mei Ming had appeared on the roof not far away.

“What are you trying to do?”

Mei Ming’s gaze was unfriendly.

“It’s just to investigate the enemy, don’t be nervous.”

Su Xiao took a deep breath, and his strong stomach quickly digested the fruit meat he ate.

“What is the purpose of you throwing those fruit nuclei? Forget it. It doesn’t matter. Those fruit nuclei have been dealt with.”

“Is that so, then... you also dealt with the things inside the fruit nuclei?”

At this time, Su Xiao was wearing a Mist trench coat. He stretched out his arms, and dense white spiders crawled out from his sleeves. There were at least a few hundred of them.

Mei Ming’s pupils contracted, and he did not know why his heart was beating faster.

“Lava – Fusion.”

Mei formed a seal with her hands, took a deep breath and spat out a large amount of lava!

The overwhelming lava came to Su Xiao. Although Mei just suspected Su Xiao, she attacked the first time, and there was no-nonsense.

Mei’s judgment was correct, but her attack was too late. The best choice was to burn Su Xiao to death in that cell, and she should not let him out.

Just as the magma was about to burn Su Xiao to ashes, Su Xiao triggered the alchemy bomb.

Boom!

The fire rushed to the sky, and the magma that sprayed at Su Xiao was blown away. Not only did an explosion happen near Su Xiao, but all the places he passed before exploded.

The fire was raging, and one-tenth of the houses in the Mist Village were blown up or ignited. The fire spread in a very short time, and the screams echoed in the night sky.

Chapter 516: Chase

The fire ignited, and the entire Mist Village was dyed red.

"Ah!!!"

A 'fireman' rushed out of the wooden house. He screamed and fell to the ground, but the fire still burned his body.

"Water - Water - Water - Formation Wall."

"Water Release: Water Flurry Wave."

...

One by one, water release was used. The fire had just spread for more than ten seconds before extinguishing. The Mist Ninjas were proficient in water release, and there were many Ninjas in the village.

Most of the Ninjas jumped onto the roof, and they still did not know what had happened.

"Gather."

"The enemy is in the back street."

"Prepare to meet the enemy."

The long-term internal strife made the Mist Ninjas have terrifying mobility. They extinguished the fire in less than ten seconds. In less than thirty seconds, they determined Su Xiao's general position. They gathered around forty seconds and began to chase Su Xiao.

Mei stood on a roof. She did not chase Su Xiao but was commanding the ninjas who had gathered together.

"The prisoner is at the edge of the village. He is an assassin who assassinated the fourth generation Water Shadow. I will deal with it in the village. You go to chase."

"Yes."

At this time, the village was attacked, and there was no division of factions.

A large group of ninjas disappeared into the night. Mei looked at the houses with smoke curling up from the corners of her mouth, and a smile appeared on her face.

Apart from a few 'victims', the Mist Village had almost no losses.

"Qing, get rid of him. He's already useless."

"Yes."

Qing flashed away. All of this seemed to have been planned.

After Qing left, Mei sighed. She also had no choice but to come up with this plan. In the beginning, she knew that Su Xiao would not help her do anything. If not for the plot, she would not let Su Xiao out.

"The organization named Xiao has been cleared out. As long as we stabilize the main force, peace is not far away. The Mist Village can no longer have a civil war."

It was interesting to say that Su Xiao and Mei Ming had been calculating each other, but the goals of both sides did not conflict.

Su Xiao wanted to leave the Mist Village, and Mei would break the current situation.

Now that the village was attacked, as long as he killed Su Xiao, the things after that would be completely clear. Even if he could not kill Su Xiao, it did not matter. Wu Ren would not believe the words of an assassin.

...

At the edge of the Mist Village, Bobowang ran at full speed. Su Xiao rode on Bobowang's back.

At this time, he had already escaped to the edge of the Mist Village. As long as he escaped from the range of the Mist Village, those Mist Ninjas would not be able to do anything to him.

Sou, Sou...

The sound of wind breaking came from behind. Su Xiao turned his head and looked. It was a group of Ninjas chasing.

The speed of these Ninjas was not slower than Bobowang, and some of the physical type Ninjas were even faster than Bobowang.

After running past a hill, Su Xiao knew that he could not go on like this, and he would be caught up sooner or later.

"Chase, the target is behind the mountain."

Qing's eyes were wide open, and the white eye was obvious. As long as Qing was there, Su Xiao couldn't get rid of these Mist Ninjas.

The lineup chasing Su Xiao was a bit strong. There were ten superior Ninjas and more than thirty middle Ninjas.

This was already a very exaggerated lineup. In addition to crucial moments, one had to know that ninjas could not leave the village on a large scale.

Pata.

A physical ninja broke a dead branch on the ground. He was far ahead of the team in front of the chasing team, more than ten meters away from Su Xiao.

"Water Style - Juwan."

As he ran, a water ball formed in his hand. The water ball contained dense chakra. He threw the water ball with all his strength, and the water ball flew to Su Xiao.

The water ball exploded when it flew near Su Xiao, and a viscous liquid splashed on the ground.

Bobowang just stepped on the liquid, and the soles of his feet slipped, and he staggered forward a few steps, about to fall.

If Bobowang fell, then Su Xiao would be left here.

At the critical moment, Bobowang's eyes widened in anger, his waist exerted force, his four claws stretched straight, and he drifted 360 degrees in the same place.

He didn't fall, and the old driver's demeanor was obvious.

The body technique ninja was stunned. He almost kept the enemy.

Su Xiao grabbed the hair on the back of Bobowang's neck, and Bobowang's drifting just now almost threw him down.

Su Xiao shouted at the enemy chasing behind him: "Continue to run, don't look back."

Bobowang shouted, using all his strength to run forward.

Su Xiao's hand was behind Bobowang, changing from the original riding to reverse, facing the Mist Ninjas chasing behind.

The broken line popped out. Su Xiao used the broken line to tie the body below the waist to Bobowang so that he would not be thrown down no matter what.

His hands regained freedom. Su Xiao took out a terrible weapon from the storage space and the nearly two-meter-long heavy sniper spider queen!

He was too close to the enemy. Su Xiao did not activate 'light

He did not use the black and white guns because the speed of the bullets was not fast enough, and the superior Ninja was very likely to avoid it.

The sniper rifle was different. As if the timing was good, the mid-range sniper rifle was more terrifying than other guns.

Avoiding the Kunai, Su Xiao held the Spider Empress flat before him and aimed at the physical skills of the Ninja who rushed at the front. This guy was the biggest threat.

Bang.

The gunshot processed by the silencer sounded, the Spider Empress' gun butt was on Su Xiao's shoulder blade, and a bullet was fired.

The bullet carried powerful kinetic energy that broke through layers of airwaves. In less than a second, the bullet drilled into the chest of the taijutsu superior Ninja.

Pa!

A ball of blood exploded from the chest of the taijutsu superior Ninja. His pale ribs were blown away, spinning and flying into the distance.

The taijutsu superior Ninja was stunned, and the numbness in his chest made him fall forward.

He fell to the ground in a flat sand style. The other ninjas ran past him and did not look at him. This was the style of the blood mist.

The physical body superior Ninja panted with difficulty. After spitting out a few mouthfuls of blood, he stood up. Although there was a big hole in his chest, this guy did not die immediately.

"This is... what weapon?"

His foot went soft, and he fell to the ground again, and his pupils gradually became lax.

Su Xiao, who was riding Bobowang, received a prompt.

...

Only killing a superior Ninja would get 2.1 of the source of the world. Although the open world was dangerous, many contractors soared through the open world.

The superior Ninja dropped the treasure chest, but Su Xiao did not have time to pick it up. It was more important to run for his life now.

Killing a superior Ninja with one shot, this kind of thing would only appear in specific circumstances, such as now.

These Mist Ninjas were chasing Su Xiao at full speed, and they could not avoid bullets while running at full speed. To be exact, they were rushing at the bullets. Although they could catch the trajectory of the bullets, it was impossible to avoid the bullets unless they stopped.

The sniper bullets used to kill the enemy from a long distance were flying very fast. Su Xiao was only dozens of meters away from the ninjas in pursuit. At this distance, even Su Xiao, who had a high reaction speed, could not escape the bullets of the Spider Empress.

Chapter 517: Very Revengeful

After Su Xiao killed a physical form ninja with one shot, the ninjas chasing him subconsciously slowed down and quickly dispersed.

The muzzle turned around. Su Xiao's second target was Qing. With this guy's eyes, he would not be able to escape.

Bang.

The bullet left the muzzle and flew toward Qing at high speed.

At this time, Qing stopped chasing, and his white eyes noticed that Su Xiao had already aimed at him. Although he did not know what weapon it was, he knew that it was very dangerous.

Qing directly fell to the ground, the bullet flew over his head, and a groove was plowed on his pointy-like hairstyle.

Qing, who was lying on the ground, swallowed his saliva. Just now, he almost had his head broken. He immediately realized that he could not continue to chase like this.

"Stop."

Bang.

In another shot, the target of this gun was still green.

At this time, Bobowang was running at high speed, and he had pulled a distance from the green. In addition, Su Xiao used aiming, and this gun only flew past Qing's arm.

Bang, bang, bang...

Su Xiao did not care about the consumption of bullets, and he had to kill Qing.

After seven bullets in a row, Qing finally got shot, and one of his legs exploded.

Just as Su Xiao guessed, the physical strength of the strong in the Naruto world was not high, let alone Qing, the superior NinjaNinja, and he was a wise type.

After breaking one of Qing's legs, Bobowang had already run a hundred meters away.

It was impossible to hit the enemy at this distance. Su Xiao decisively activated 'light.

Ka ba, ka ba, weng ---

From the spider queen's body, Su Xiao turned the crosshair to the green on the ground in the distance. Because Bobowang was running at high speed, the scope was a little bumpy.

Pulled the trigger and bang.

Su Xiao saw the soil beside Qing splashed from the scope, and the bullet hit the soil.

At this time, Qing had one leg broken, the leg was broken from the knee, and the broken part was uneven. It was impossible to dodge the bullet.

The NinjaNinja chasing Su Xiao was hit by a gun, and they had never seen a gun before.

Bang, bang.

Su Xiao recognized the target, and Mei Ming had been using him before. It was too unreasonable not to leave some 'gifts' for the other party.

After firing five shots in a row, the head of the target was opened like a watermelon, and the eyes that had been broken fell to the ground.

...

A smile appeared on Su Xiao's face. The Mei Ming he saw was the real Mei Ming. A woman who could bear the position of Water Shadow. What he saw from the anime was only the tip of the iceberg of her character.

There were no simple people as long as one could be called a Shadow Ninja.

First of all, what was the Ninja Village? The Ninja Village was the military power of the big country. Ying was the leader of the Ninja Village. He was also the one who controlled the military power of a country. Would such a person have a simple mind?

A person with a simple mind could not become a Shadow. The other ninjas in the Ninja Village would not allow it, and the controller of the big country would not allow it.

Of course, this was also an exception. If that person mastered the crushing power and had a strong gay friend, no one could say anything about becoming a shadow.

The pursuit continued, but after Su Xiao killed two people in a row, the Mist Ninjas chasing him slowed down. They all knew that chasing like this was not the way.

"Notify the assassination unit."

The other Ninjas recognized a superior Ninja's proposal, and they all stopped.

It was not to give up chasing but to let the troops who were better at tracking go after Su Xiao.

The Mist gave up chasing, but Su Xiao did not stop shooting.

Aiming at the head of the Mist, Su Xiao pulled the trigger.

Bang.

The head of the Ninja exploded. This was a middle Ninja. Maybe he was too weak and did not get the source of the world.

Ninjas were difficult to deal with in the middle distance. Most of the Ninjutsu was released in the middle and close distance. When chasing Su Xiao, these Ninjas used at least dozens of Ninjutsu.

If Bobowang did not run fast enough, Su Xiao would have been left behind.

The enemy behind him gradually disappeared. Su Xiao put away the spider queen. Blood flowed down his arm. A long needle pierced him. This thing was called a thousand books in the Naruto world.

There was some dizziness in his brain. He did not need to think that these thousand books were poisonous.

Bobowang stopped after running for half an hour and came to a sparse forest.

Jumping down from Bobowang's back, Su Xiao took off his shirt and cleaned the wound at the fastest speed. The blue steel shadow energy had already destroyed the poison in his body.

Although he escaped from the Mist Village, Su Xiao was seriously injured. The alchemy bomb detonated at a close distance and hurt his internal organs, and then he was chased by the Mist Ninjas.

It was true that he was a little embarrassed, but he escaped from the Mist Village.

Continue to run? Of course, it was impossible. Being chased so miserably would be too bad if he did not leave something for the Mist Ninjas. And if he escaped like this, he would be chased to death. He needed to mislead the Mist Ninjas' judgment.

After dealing with the wound, Su Xiao cleaned up the blood on the ground.

"Go back."

Hearing Su Xiao's words, Bobowang was a little surprised. Shouldn't this situation escape immediately?

This was not the case. Although Su Xiao had already escaped from the Mist Village, the Mist Village would send people to continue to chase him.

Rather than waiting to be chased, Su Xiao wanted to take the initiative to attack and hit the Mist Village so that the other side did not know whether he had escaped or had been near the Mist Village.

Although it was a little crazy to fight against a Ninja Village alone, there was one thing that NinjaNinja could not match up to, and that was that he could kill people from a distance.

The purple grade sniper spider queen had a maximum range of 2.36 kilometers. Su Xiao's sniping ability was not strong, and the spider queen was very advanced. She could automatically calculate the wind speed, air humidity, etc. Su Xiao could kill the enemy from 1.5 kilometers away.

The distance here was a bit exaggerated, but this was the strength of the purple grade equipment.

Riding on Bobowang, Su Xiao approached the vicinity of the Mist Village.

There were guards at the edge of the Mist Village. According to Su Xiao's observation, the guards around the Mist Village were only a few hundred meters away from the Mist Village. It was no problem to kill the people in the Mist Village, bypassing these guards.

...

A few hours later, Bobowang came to the location one kilometer away from the Mist Village. During this period, it escaped the pursuit of many Ninjas.

Su Xiao rode Bobowang around the Mist Village, looking for favorable terrain.

At this time, the Mist Village was dealing with the house that Su Xiao blew up and with follow-up matters.

Mei ordered in an orderly manner, and she also arranged the plan, including sending people to kill Su Xiao and others.

Although her face was calm, Mei Ming clenched her fists in her sleeves. Her most capable assistant, Qing, was dead, which made her heart bleed, and she was very sad, but she did not show it.

Looking at the Mist Village, Qing's investigation ability was top-notch, not to mention that Qing was loyal to Mei Ming. Loyalty was something that could not be exchanged for anything.

"Elder Qi Jie, I will deal with the follow-up of this matter. The safety of the village is handed over to you."

Hearing Mei's words, an old Ninja was stunned. He was the core figure of the main battle faction, and he had a hostile relationship with Mei.

"This..."

Elder Qijie could not understand why Mei Ming was willing to let go of such an important position.

"We are all Mist Ninjas, and now thieves are trying to destroy the village. The internal conflict should be put down first."

"Well, you are right."

Elder Qijie led a few ninjas behind him and quickly walked to the edge of the village. Before taking two steps, a perceptive Ninja next to him pounced on him.

With a bang, the soil pit's size of a faceplate exploded.

"Enemy attack!"

The surrounding ninjas immediately assumed a combat posture, but they were vigilant for a long time. The surroundings were dead silent. They did not even know where the enemy was.

Chapter 518: Songstress

Standing on a towering water tower, Su Xiao observed the situation inside the Mist Village through the scope.

The Spider Queen's skill, 'light

By regulating, the maximum effect could reach 20 times the mirror, but there was no red detection in the case of 20 times the mirror.

Adjusting to this extent, Su Xiao needed to slow down the heartbeat of his heart and hold his breath. The breathing would make the vision of the 20x scope shake violently, and it was impossible to lock on the enemy.

Now the Spider Queen changed from continuous shooting to one shot, every shot needed to be calculated precisely, and it took 1 to 3 minutes to shoot.

Su Xiao was not careless when looking at the Mist Ninja, who was like a headless fly in the scope. The Mist Ninja would find him sooner or later, and he had to withdraw before he was found.

Two minutes later, the Mist Village was like a hornet's nest that had been stabbed. A large group of Ninjas rushed out of the village, and they must have been looking for Su Xiao.

At this time, Su Xiao was 1.4 kilometers away from the Mist Village. This was a straight distance, and the Spider Queen had a silencer function. It was not so easy to find Su Xiao.

...

Ten minutes later.

In the Water Shadow office, Mei Ming sat in front of the desk with a frown.

She succeeded. If everything went well, she would be the new Water Shadow in less than half a month. Before, she lacked a chance. Su Xiao's appearance made her see this opportunity, a chance to make the main battle nervous and reveal flaws.

A ninja wearing a mask and black suddenly appeared in the office of Water Shadow, holding a small box in his hand.

"Lady Mei Ming, Lady Qing has found the eye of the eye."

Seeing the small box, Mei did not have any emotional fluctuations. The eye might have been damaged. Otherwise, she would not have put it in a box.

"Damaged?"

"..."

The member of the Mist Ninjas lowered his head and did not speak.

"Qing's corpse is buried?"

"Not yet."

"Bury, arrange his family as a family member of the hero."

"Yes."

The Dark Group member was a little envious. The family members of the hero were indeed enviable. Just as he was about to leave, Mei Ming spoke again.

"White Eyes and Green were buried together,"

"Yes."

Mei was silent and said, "The Dark Group will find the thief with all their strength. By the way, announce his information to the other four countries. The specific strength..."

Mei stood up after knocking on the desk.

[Note: You can assassinate a Shadow Level...]

Before Mei Ming could finish her sentence, she suddenly turned sideways and jumped to the side. The glass window broke, and a dark bullet hole appeared on the desk. The desk was almost broken. Mei Ming stood up, her face not looking good.

"Like a ghost."

While she was talking, the assassin had rushed out of the window.

...

On a mountain on the edge of the Mist Village, Su Xiao pulled the gun bolt of the spider queen and pulled out of the magazine.

He fired four shots, three of which killed Mei Ming, but they all failed.

Su Xiao did not think that he could succeed. It would be strange if Mei Ming were so easy to kill.

"Woo."

Bobowang's cry came. Su Xiao looked sideways. Bobowang had two treasure chests in his mouth and mastered the divine skill 'You can't see me. The risk of Bobowang picking up the treasure chest was not big.

There was no point in staying any longer. Su Xiao was ready to leave first. His goal had been achieved. First, he wanted to take back the treasure chest. Second, he wanted to let the Mist Ninjas know that he did not escape. This way, he could reduce the intensity of the Mist Ninjas chasing him. He would look for him around the Mist Village.

He took two treasure chests. One of them was blue in quality. The physical body superior Ninja dropped it. The superior Ninja only dropped a blue treasure chest. His luck was a bit bad.

The second treasure chest was purple.

Qing dropped it.

Su Xiao was very curious about what these two treasure chests could open. Ninjutsu? Equipment?

If he opened Ninjutsu, he would be rich. Chakra was one of the most popular power systems in the reincarnation paradise, and the price of Ninjutsu scrolls was also high.

Now was not the time to open the box. He had to leave the Water Nation as soon as possible and then find a force to join.

Although he escaped from the Mist Village, it was not easy to leave the Water Nation. The sea surrounded the Water Nation, and he needed to take a boat to reach a wider land.

The ships in the Naruto world were not very advanced. They were usually artificial or large-scale ships.

...

A day later, at the border of the Water Country, in a fishing village.

In some dilapidated wooden houses.

Da ---

An older man knocked on the long pipe in his hand. His blurry eyes seemed to be thinking about something.

"The distance from the Water Nation to the Fire Nation is far. It will take at least five days. This is under normal circumstances."

The older man looked at the young man not far away. He smelled a faint scent of blood on the other person. This was a normal situation in the Water Nation.

"Is there no faster way?"

Su Xiao's face was not good. He did not want to find a force to join in the Water Country. The Mist Village was the 'underground snake' here.

"There is a way, but it is a little difficult."

"What way?"

"Take a big boat. It will only take two days."

"Thank you."

Su Xiao took out a few notes and put them in front of the older man. This was the currency of the Naruto world. He exchanged some paradise coins in the reincarnation paradise.

The older man quietly accepted the money and did not speak again, as if he had never seen Su Xiao.

Getting up and leaving the house, Su Xiao put on his hood at the same time as he walked out of the house.

The Anbu of Mist had been chasing after him. If Su Xiao were not good at hiding, he would be found by those hounds several times.

It was impossible to leave the country of boiling water on a fishing boat. He needed to find a large sailboat. However, the Water Country was too poor. There were not many large sailboats. At least there was no one in this small fishing village. It was a problem for the people here to be warm and full.

The sky was gray, and it rained for a fifth of the time in the country of water.

As the rain fell, Su Xiao took out a map. He wanted to rush to a nearby big city.

...

Misty Rain Town.

This was a relatively prosperous town in the Water Country. It was comparable to some cities and was located near the sea.

This kind of coastal city should be developed for trade, but unfortunately, the Water Country did not advocate the trade. The reason why this place was prosperous was that it was rich in singers and dancers.

The singers in the Naruto world were somewhat similar to the singers and dancers in the real world. Unlike the actors, some singers had mastered the 'Ninjutsu' that had no lethality so that they could perform some very wonderful shows.

On a big ship by the sea of Misty Rain Town, this ship was preparing to set sail. The target was the Fire Country, followed by the Thunder Country, ready for the tour.

A delicate girl stood on the deck as if she had just woken up. She stretched, and her curves were exquisite.

"Mr Hino, when are you leaving?"

The singer, Naxu, could be said to be a natural beauty, and her big eyes were bright.

"Soon, at most ten minutes."

A short, fat middle-aged man smiled at Naxu with a flattering smile, and the meaning of flattery was obvious.

"Hey, over there, move the goods to the lower layer of the warehouse, don't randomly put them."

The short and stout middle-aged man glanced at a 'coolie' carrying a wooden box and ignored him.

The 'coolie' was very young, carrying a large wooden box.

"These things belong to dogs."

The short and stout middle-aged man suddenly opened his mouth and looked in the direction of Misty Rain Town. He was stunned.

"What did you say!"

The short and stout middle-aged man was instantly furious. He rolled up his sleeves and prepared to deal with this 'coolie'.

The short and stout middle-aged man and the singer, Naxu, were also very surprised. She did not expect a 'coolie' to have such a temper.

Sou ---

A figure wearing a mask suddenly appeared on the deck. This person stood straight with a ninja blade on his back.

"This is... the assassination unit!"

Naxu subconsciously retreated. The Mist Ninjas' assassination unit could be said to be notorious.

"Just you?"

That 'coolie' opened his mouth, and this stunned Naxu. Did the other party not want to live anymore?

"One of me is enough. Lord Water Shadow has ordered you to bring your head back."

The word "water shadow" made everyone on the ship shocked.

"Mei has become a water shadow? It's unexpected news."

'Coolie' took off the tattered linen clothes, revealing his strong upper body, and a long sword appeared in his hand.

The coolie saw Su Xiao in disguise. He was almost able to leave the country of boiling water by boat. Unfortunately, the assassination unit chased him, but it was not a big problem. After dealing with the assassination unit, he could leave on this boat.

Chapter 519: Ninja Village and Daimyo

Su Xiao looked around, and the people around him had different expressions.

The dull, short, fat manager, the beautiful singer slowly retreated, the timid coolie, and the silent Anbu.

The thoughts in his mind turned quickly, and Su Xiao secretly decided that he could not fight on the ship. He did not care whether he hurt the innocent or not. He did not care, mainly because he could not destroy the ship. Otherwise, he could not leave the Water Country.

A problem appeared. If Su Xiao left the ship, the people on the ship would immediately drive away.

Looking at the singer not far away, Su Xiao suddenly became angry.

In a flash, he came behind the singer. Su Xiao grabbed the neck of the singer with one hand, and an alchemy bomb appeared in the other hand.

"Holding the hostage?"

The Mist Anbu did not move.

"Let go of me, woo ---"

A white ball was stuffed into the mouth of the singer, and she struggled hard, but her soft body could not break free from Su Xiao's restraint.

"If you dare to sail the ship and leave, collapse."

Su Xiao stretched out his fingers and made a gesture representing the explosion. He slightly triggered the alchemy bomb when he let go of the singer.

Naxu covered her abdomen. The burning feeling in her abdomen made her squat down and nodded quickly, indicating that she would never leave.

At this time, Su Xiao looked at the Mist Anbu. The other party did not make a move. There were only two possibilities. First, the other party was very strong and thought that Su Xiao could not escape. Second, the other party was waiting for reinforcements.

Su Xiao guessed that it was the latter. The other party should not have found him for a long time. If he were not about to leave, the other party would not appear rashly.

As for destroying this ship, the other party did not dare.

This ship symbolized a famous mansion, which showed that the singer was helping the Water Country.

The Mist Village was indeed the military force of the Water Country, but the Mist Village did not dare to provoke the famous mansion openly. The village had to consume a lot of money and

resources. These were all provided by the famous mansion. The Mist Village could only go to the northwest if they offended the famous mansion.

The famous names of the Naruto world were very smart. They were somewhat similar to the chairman of the company, and the Ninja Village was the department under the banner.

The War famous mansion in the Ninja Village would not be involved. It was just a battle between the Ninjas, and every village had a rule that they could not assassinate the enemy.

The hatred between the villages had nothing to do with the fame. It was like the fight between the Mist Village and Konoha. The two countries might not necessarily be enemies.

Groups of Ninjas died one after another. Their names were still those few, and it was a hereditary system. This was the advantage of having money. Of course, the famous houses also had the corresponding force, but they never moved out.

This pattern ended after the fourth Ninja war, and only then did the villages start to develop their economy.

At this time, this Anbu was stalling for time, waiting for the support of his companions.

Thinking of this, Su Xiao rushed forward a few steps, stepped on the side of the ship, leaped to the dock not far away, and soon disappeared into the crowd.

The Anbu did not hesitate to catch up, and he did not want to fight on the ship.

"Set sail quickly."

The short and stout manager almost screamed.

"No."

The singer, Naxu, was breathing rapidly. Although she did not know what she had swallowed, she was certain that she would die immediately if she dared to sail.

"What?"

The short and stout manager's eyes widened, and his expression was somewhat distorted.

"I can't sail the ship, sail the ship... I will die."

"Huh?"

The short and fat butler was going crazy. When was this time he still did not escape?

The two people did not know that Su Xiao still had other tricks. For example, the big wooden box on the ship, Bobowang, was in the wooden box. Bobowang would break out of the box if he dared to sail the ship.

...

The Anbu quickly moved through the crowd on the dock, and the nose under the mask moved. This was a secret technique that he mastered that could lock on the smell of someone.

At this time, he locked on Su Xiao's smell, and it was because of this ability he could find Su Xiao.

In front,

No, have you found that the smell has been exposed? It's on the left side.

The Anbu walked quickly into the house near the dock. It was nine o'clock in the morning. There was almost no one in the house near the dock. Most of the people living here were coolies or fishers in the form of husband and wife.

The Anbu continued to track Su Xiao's smell. Just as he rushed past a corner, a sharp light stabbed at him, and the blade's tip was cold.

Puff.

Anbu was stabbed in the face, and his body twitched a few times.

Su Xiao frowned. The Anbu did not die. He pierced a water body.

The substitute technique and the water body technique are two low-level ninjutsu. The Anbu used two low-level ninjutsu to avoid this thrilling knife.

Fighting was not as simple as a skill collision. The ability to kill the enemy was good. It had nothing to do with level.

The water clone on the throwing knife turned into a puddle of water after falling to the ground. The original body of the Dark Group was nowhere to be seen.

"Water Escape - Mist Concealment."

On the roof of a house, the Dark Group formed a seal with both hands, and the surroundings gradually became covered in fog.

The fog was getting thicker and thicker. Su Xiao's vision was white and blocked. He closed his eyes and used his perception to check his surroundings. The result was not obvious. There was chakra mixed in the fog around him, which would affect his perception.

Sou, sou ---

The sound of wind breaking could be heard, and a quiet conversation could be heard within the thick fog.

"Very good."

"Is everyone here?"

"Well, the five people have arrived, ready to use that."

Su Xiao stood in the thick fog and did not move. The sound came from all directions, and it was impossible to determine the enemy's position based on the sound.

According to the discussion of those dark groups, they had five people, but the actual number of people had to be verified. This might be a trap to increase the pressure on Su Xiao.

"Water - Water - Water Dragon Spell."

"Earth Release: Underworld Pond."

A water dragon rushed forward, and at the same time, the soil under Su Xiao's feet became soft. He was gradually sinking.

The cooperation of these two moves was flawless. The earth escape control action, the water dragon, caused an impact on Su Xiao, and at the same time, it made the swamp below harder to escape.

Boom.

Mud splashed, and a long knife flew up and finally fell to the ground.

"Did you kill it?"

"The aura disappeared."

"The weapon also fell to the ground."

The Mist Anbu had three people, and they were not the five people they were talking about.

The three people consciously distanced themselves from Su Xiao. They should understand Su Xiao's terrifying melee ability.

Zi ---

The sound of the threads shrinking came, and the three Black Mist Ninjas felt the danger simultaneously, all of them jumping up.

As soon as the three of them jumped up, one of them felt a sharp pain in his shoulder, and an invisible metal thread entered his shoulder.

If one looked carefully, they would find that the surrounding houses were covered with green threads, which were the broken threads.

Jumping down from a roof, Su Xiao hooked his finger, and a dragon flash flew up from the ground and landed in his hand.

He used the Mist Technique of the Anbu to cover him and used the broken line to set up the 'boundary' around him. In addition to killing him or cutting off the broken line, no one could walk out of this enchantment.

Ding.

A crisp sound came. It was the Anbu cutting the broken line. Although he could not hear the direction clearly, Su Xiao could judge the location from the vibration of the broken line. The five fingers wrapped in metal were tied to the broken line, and each finger represented a direction.

Chapter 520: I Don't Read Much, Don't Lie to Me

Su Xiao held his sword and walked forward slowly. Before, the Anbu trapped him, but now it was him who trapped him.

The Anbu, who could see the enemy clearly in the Mist Technique, found this. After Su Xiao appeared, the three people immediately attacked.

"Water Release..."

An Anbu's hands flew in front of him, and the speed of the hand seal was very fast.

"Soru."

A figure sped through the fog. When the Mist Ninja put his hands together and was ready to use Ninjutsu, Su Xiao's cold eyes had already confronted him.

Puchi.

Blood splashed in the air. Su Xiao's speed was too fast. The Dark Group Ninja did not have time to react at all. The head that was cut off was stunned.

After beheading Anbu, Su Xiao found that the physical strength of the Ninja was indeed not good.

After killing a Mist Ninja, Su Xiao stepped on the ground and rushed to another Mist Ninja.

It was too late to release Ninjutsu at this level. The Mist Ninja made a wrong move, and that was to pull out the ninja sword on his back.

Su Xiao slashed down, and the Mist Ninja raised his sword to block.

Ding.

Sparks flew, the Mist Ninja was very strong, and he resisted Su Xiao's sword without changing his expression.

Zi la.

The metal cut made a harsh sound.

Su Xiao kicked at the Mist Ninja's lower abdomen. The Mist Ninja bent one leg and blocked Su Xiao's direct kick with his lower leg.

There was a whistling sound coming from Su Xiao's side, and a large amount of water rushed over.

Crash, Su Xiao was in the rushing stream, most of his body was submerged in water, and the Mist Ninja was the same.

Chi Chi ---

The lightning spread in the water, and Su Xiao's body was numb.

The Mist Ninja beside Su Xiao fell to the ground. To kill Su Xiao, these members of the Dark Group did not care about their companions.

A handful of Kunai flew over, Su Xiao dodged sideways, and several black hairs were cut off.

Su Xiao pulled with his left hand, the boundary line around quickly shrank, and the two Dark Group Mist Ninjas were entangled.

Bang.

White smoke rose, and one of the Mist Ninjas turned into a wooden stake and escaped with a substitute.

With this gap, Su Xiao's body regained consciousness and slashed horizontally. The Mist Ninja, who his companions abandoned, was killed.

The fog gradually dispersed, Su Xiao retracted the boundary line, and a Mist Ninja wearing a mask stood not far away.

Su Xiao inserted the Dragon Slaying Flash at his feet and took out the black and white double guns. Bang, bang, bang, bang...

The dense bullets flew to the Mist Ninja. The Mist Ninja put his hands together, and with a bang, white smoke rose, and he disappeared.

The last Mist Ninja escaped, and the three chased Su Xiao, leaving two bodies.

"This is the Anbu? It seems that it is not good."

Dragon Slash returned to the sheath, and Su Xiao walked in the direction of the dock.

The ninjas of the Anbu may not necessarily be strong. There are detailed classifications in the Anbu, and some are good at fighting, and some are good at tracking.

These three Mist Ninjas belonged to the tracking type. Their combat power was between the middle Ninja and the upper Ninja. They could deal with Su Xiao in the middle distance, and behind them, they would be chopped into vegetables.

Returning to the dock, the big ship did not go out.

Jumping on the ship, the people on the ship exclaimed and retreated. Su Xiao's face was stained with a few drops of blood. It was the blood of the Mist.

"This... Sir, can we go out now?"

The singer, Naxu, stepped forward and looked a little afraid.

"Set sail."

The large sailboat slowly moved. The dock gradually disappeared from Su Xiao's sight a few minutes later.

Su Xiao did not relax his vigilance. It did not mean that he was safe when he arrived in the nearby sea. Ninjas could gather the Chakra from the soles of their feet and run at high speed in the water.

However, in this vast sea, the possibility of the Mist Ninjas chasing him was very small.

The big ship broke through the waves. An hour later, the blue sea was all in sight. The Mist couldn't catch up again.

Su Xiao leaned on the ship's side, the difficult start had passed, and the later situation would be much clearer.

After arriving in the country of fire, he could find a force to join.

But Su Xiao did not know that the Mist had already informed the other four countries of his information through special channels. Su Xiao had already become a villain who assassinated the fourth generation Water Shadow.

The other four Great Ninja Villages couldn't accept him. No one could guarantee that he would not assassinate another Shadow.

Of course, the Mist Ninja would make an issue, such as blaming the death of the fourth generation Water Shadow on Su Xiao.

After being stabbed by Su Xiao, the fourth generation Water Shadow suffered a stab wound to protect the village from foreign enemies, causing death. This was the information released by the Mist.

Once this information came out, it sped up Mei Ming's position. A Ninja Village could not be without a shadow.

The fourth-generation Water Shadow died strangely. No one knew the specific cause of death. After his death, the civil war in the Mist Village quickly stopped, and the village developed in a good direction.

...

Su Xiao sat cross-legged on the deck of the large sailboat, and Bobowang was lying on the side.

Su Xiao was meditating. Not far away, there was the sound of stepping on wooden boards. His eyes opened.

"That... Can I sit here?"

The singer, Naxu, stepped forward timidly, blinked her eyes, and her eyelashes were slender.

Naxu was very beautiful. Her beauty was not coquettish but pure and sexy beauty.

"What's the matter?"

"Well, well."

Naxu nodded quickly and said, "How should I address you?"

"Byakuya."

Su Xiao took out a cigarette and lit it. The slightly fishy and salty sea breeze blew, and the smoke was blown away.

"Lord Byakuya, what did you give me to eat before?"

This was the problem that Naxu had been worried about. She didn't even dare to drink water now.

"Muscle Bone Strengthening Pill, it is good for the health of the body and promotes the endocrine cycle."

"Huh?"

The corner of Naxu's mouth twitched. Bobowang, who was beside him, sighed.

"My... my body is very healthy, so please take that 'Shusuo bone pill.'"

Naxu was not stupid, and she knew that she must have swallowed some

"Where is your specific destination?"

Su Xiao did not talk about the alchemy bomb problem, he could not help the other party take it out before he landed.

"Fire Country, Konoha Village."

"Oh? Konoha?"

"Well, we are going to Konoha to perform. Konoha has a celebration recently, so they sent me to perform. I am very famous."

Naxu raised her plump chest as if telling her that she was not to be trifled with and that she was a celebrity.

"In two days, we will arrive at the Fire Country. I will help you take out that bomb."

"Bomb!"

Naxu raised her voice. Her eyes widened, and her eyes were misty. Although she had some courage, she was just a singer. When she learned that there was a bomb in her stomach, her legs felt weak, as if she was stepping on cotton.

"It's just a bomb. Don't make a fuss. Send me to my destination. I will take out the bomb."

Naxu stood rooted to the ground. After a long time, she reluctantly accepted this fact.

"Where is Lord Byakuya's destination?"

"The country of fire."

"Is that so? Then as long as we arrive in the country of fire, can you guarantee that you won't hurt me?"

Su Xiao calmly looked at Naxu. In the first few seconds, Naxu did not respond. After more than ten seconds, her face was covered in a cold sweat. In less than half a minute, she began to retreat slowly.

"Don't disturb me if you have nothing to do."

Su Xiao continued to meditate. He was not good at negotiating with the plot characters. After all, 5 points of charm were there.
