

R. Paradise 521

Chapter 521: Cost

Boom!

The muffled thunder resounded through the sky, and the lightning tore through the dark sky as if the end of the world had descended.

The cold rain hit the outside of the cabin, and Su Xiao was in the slightly warm cabin, completely different from the rain outside.

His luck was not good. He encountered a storm on the first night on the sea. Fortunately, the scale of the storm was not large.

After taking off his clothes, Su Xiao sat on the bed. He had just gone out to sea for a day. The bedding was very dry, and there was no humidity.

There was no entertainment in the Naruto world. Su Xiao took out the two treasure chests in the storage space.

A blue and purple treasure chest appeared in his hand. Su Xiao was ready to open the box and find out if he could open Ninjutsu.

Even if he opened C-level or B-level Ninjutsu, the value was not low, and A-level Ninjutsu could make a fortune. As for S-level Ninjutsu, Su Xiao did not think about it.

He lit a cigarette and spat out the faint golden smoke.

He decisively opened it. He did not have much hope for this blue treasure chest. He just wanted to warm it up.

The sapphire light shone, and Su Xiao was stunned.

It flashed! This treasure chest that did not hold any hope gave him a surprise.

...

A scroll appeared in his hand. Su Xiao took the scroll, and his first thought was to get rich.

It was a special item. Every ninja mastered the cultivation method of chakra, so this thing had a chance to be opened in any ninja's treasure chest, but the probability was very low. He could open a small probability event.

Su Xiao had seen this thing once in the trading square. It was sold in less than half an hour for 200,000 paradise coins.

[Quality: Blue]

[Type: Consumable]

[Effect: After use, the body will change. It can combine body energy with spiritual energy to produce chakra.]

[Rating: 70]

Introduction: In fusing body energy and spiritual energy, the efficiency is slightly low.

...

This was the first treasure chest that Su Xiao opened in the Naruto world. This might be a sign that he was going to change his luck.

He suffered many setbacks in the Mist Village, was imprisoned, used, and chased. After leaving the Water Country, Su Xiao began to change his luck and directly got to the point.

Su Xiao was in a good mood. His eyes looked at the purple treasure chest.

"Huuuu ---"

The snoring sound came, it was Bobowang sleeping on the bed, and his saliva was flowing out.

Picking up the purple treasure chest, the blue treasure chest opened items worth 200,000 paradise coins. What about the purple treasure chest?

Su Xiao remembered the words of the first person in the university: If 98 is like this, then the 298 can't take off.

Opening the purple treasure chest, the smile on Su Xiao's face suddenly disappeared.

...

"That's all?"

Su Xiao picked up the purple treasure chest and fell. It was the first time he opened the 'empty box'.

Yes, it was an empty box. The treasure chest that only opened 1000 paradise coins was commonly called an empty box in the reincarnation paradise. This situation was rarer than flash.

Su Xiao opened the empty box with luck, and it was in the European Emperor state...

Although he was a little speechless, the fact was that he had to accept reality.

Putting it away, Su Xiao had nothing to do in the cabin.

Since he had nothing to do, Su Xiao began to think about an idea he had developed a long time ago.

His sword master had reached level 21, and he would also practice sword skills in his free time.

Su Xiao had been using the knife for a long time, and he had developed a lot of moves during that time.

It had to be said that it was very difficult to develop moves. He had developed more than 30 moves in total, and there was only one practical one, which was 'ring break'. The other moves were not reliable at all. Some of the moves would even flash at the waist if they were not used properly. It was extremely deceptive.

There was only one practical move, and Su Xiao was ready to develop this move to perfection.

There was no doubt about the power of the ring break, and it had been verified many times, no matter how to deal with a single enemy.

It was still very practical when there were more enemies.

The ring cut was somewhat similar to the drawing knife. It was not used to draw the knife. The ring cut was mixed with the knife light so that the ring cut could spread around, forming a circular killing range with a diameter of more than ten meters.

Drawing and cutting, the knife could only cut a small piece in front of him, and the ring cut was 360 degrees.

Su Xiao had used ring cut to kill contractors, but he always felt that the attack power of ring cut was not strong enough, and some strong enemies in front of him were slightly weak.

Su Xiao thought of a way to solve this problem, which was to mix the green steel shadow energy into the sword light and increase the power of the attack.

However, the sword light and the green steel shadow energy belonged to two attributes. If the green steel shadow was energy, then the sword light was a combination of spirit, sword comprehension, and other attributes. It did not belong to the energy body, which made it difficult to combine the sword light and the green steel shadow.

Su Xiao stood up from the bed, and the dragon flash appeared in his hand. He used the unprecedented slash. The small sword light flew out from the blade's edge and disappeared before it reached the cabin.

Su Xiao could now cut the sword light freely, almost becoming an instinct.

Su Xiao took a deep breath and returned the Dragon Slash to its sheath.

"Ring Break."

Zheng.

Su Xiao slashed forward, and a circle of light blue sword radiance spread out and disappeared after spreading one or two meters.

He deliberately suppressed the power of the move. Otherwise, this ship would be sunk by him, and he had to rely on this ship to reach the country of fire.

When he used the 'light ring break' just now, Su Xiao tried to integrate the blue steel shadow energy into the sword light. Unfortunately, he failed. The two could not be merged, and the large area of contact made the two very unstable.

The definition of the blue steel shadow energy was the energy consumed in close combat, and it had a rejection of most energy and matter. It was normal that it could not be integrated into the sword light.

He was a little disappointed in his heart. Su Xiao did not give up easily. He did not know how many times he failed in similar experiments.

"Unable to merge... then what about the package?"

Su Xiao suddenly had a new idea. Since the two could not merge, how about wrapping the green steel shadow energy on the sword light? It seemed to be a good choice.

If he wanted to do it, he would do it. Su Xiao returned the dragon flash to the sheath and concentrated.

"Package, wrap..."

Dragon flash-cut forward before the blade light formed by the ring cut spread. He immediately mobilized the blue steel shadow energy and wrapped the blue steel shadow energy on the blade light that was about to spread.

At this time, the change occurred!

Ka ---

There was a sound of an explosion. The ring blade did not spread around but directly changed shape, and the ring sword light gave birth to light blue spikes.

The ring sword light was just formed around Su Xiao, so the spikes more than half a meter long quickly stabbed at him.

Puff...

In less than a second, Su Xiao became a hedgehog. Those light blue spikes were extremely sharp, piercing his skin and muscles as easily as breaking a piece of paper.

Blood dripped on the floor, the circular sword radiance and spikes around Su Xiao disappeared, and he fell to the ground with a thud.

He almost died when he developed the moves. Although it sounded a bit ridiculous, more than one-tenth of the strong people died like this.

The moves used to kill the enemy were very dangerous and unstable during the development. This was the price of developing the moves, becoming stronger.

Chapter 522: Contact Platform

The smell of blood spread in the cabin, and the sleeping Bobowang woke up.

Seeing Su Xiao lying in a pool of blood, Bobowang immediately jumped off the bed and stood in front of Su Xiao. His nose twitched, looking for the position of the enemy.

After more than ten seconds, Bobowang did not smell the suspicious temperature. After looking at the sword in Su Xiao's hand and the surrounding sawdust, Bobowang vaguely guessed something.

The dog's face was full of helplessness and milk Su Xiao. This was not the first time, nor the last time.

His life value gradually recovered, Su Xiao's wound stopped bleeding, and he slowly woke up.

"Almost... dead, cough ---"

Coughing out a mouthful of blood, Su Xiao smiled on his face.

He ate a piece of recovery food, wiped the blood on his body, and bandaged it. Su Xiao's injury was a little more stable.

Although it was dangerous just now, he accidentally developed a very strong move. If the development were successful, the enemy stabbed by the dragon flash would not die or be disabled.

The ring cut was not perfect, but he developed another move, which was the spike produced by the green steel shadow wrapped around the sword light. The penetrating power of this spike was very strong. Su Xiao personally experienced it.

After Su Xiao stabbed the dragon flash into the enemy's body, he wrapped the green steel shadow on the sword light, and the spike stabbed out from the inside out of the enemy's body. It was sour and cool...

Without thinking, he knew that the enemy would instantly become a hedgehog, and the probability of immediate death was very high.

The killing blade in one hit? Su Xiao shook his head. This was not the killing blade in one hit, but the damage to the enemy was not small.

Su Xiao held the dragon flash in his hand and wrapped the green steel shadow on the dragon flash.

Su Xiao tried to gather the sword light on the dragon flash without making a slash with his eyes closed.

Shua!

A few light blue thorns were generated on the sword of the dragon flash and stabbed around. These thorns were half a meter long and as thick as fingers.

After using it a few times, Su Xiao was familiar with this ability.

Su Xiao thought for a while. Since this was an ability derived from the blue steel shadow, it was also good to call it a 'shadow thorn'. It was easy to understand.

Su Xiao gave the style a very casual name. For example, the ring breaks, and the light blade of the ring cuts off the surrounding objects.

Although the ring break could also be called the 'star arc slash' or something like that, he preferred to be more practical. Even if it were called the 'star arc slash', the attack power of the ring break was not increased, so it was simpler.

Now, Su Xiao developed two more practical moves, namely

The development direction of 'light ring break' was to increase the power of the strike and the scope of the attack, and the use of 'light shadow thorn' was many, and it needed to be slowly explored.

Su Xiao had an idea: could he insert the dragon flash into the ground and then let the 'light shadow thorn' stab out from the enemy.

This idea was not reliable for the time being. Although the penetration of the shadow thorn was very strong and even surpassed the blade light, the shadow thorn was too short, only half a meter, and to increase the length of the shadow thorn needed to consume a lot of green steel shadow energy.

A new move was successfully developed, and the effect was still reflected in actual combat. Su Xiao wiped the blood on the ground, lay down on the bed, and slept.

...

On the fourth day after entering the Naruto world, morning.

The sea was blue, and a few seagulls glided over.

The large sailboat had been sailing on the sea for two days, and there was still more than a day left for the main mission. If Su Xiao had not joined a force, he would have been forcibly executed.

At this time, a strange sound came from inside the cabin.

"Woo ---, it hurts."

"Wait... wait a minute, woo ---"

The sound came from the cabin. After a long time, the red-faced singer, Naxu, walked out of the cabin. Her clothes were a bit untidy.

Please don't misunderstand. Su Xiao just helped Naxu to get the bomb. This singer has no hatred for him,

So he helped the other party to take out the bomb.

After sailing on the sea for two days, the land finally appeared before him, which was the country of fire.

The country of fire was the richest place in the Naruto world. It was spring all year round, there was no too cold weather, and there was no too hot weather.

There were many grass-type animals that could be found everywhere. There were several large rivers in the territory. Whether it was farming, hunting, or fishing, there would be food to eat as long as one worked. Even during wartime, the country of fire rarely starved to death. This place was too rich.

Being too rich caused the envy of other countries or villages. This kind of wealth was not without a price. The geography of the country of fire could only be described as bad in terms of war.

The west was connected to the country of sand, the north was connected to the country of earth, the east was connected to the country of thunder, and the south was the sea. Do not think that the direction of the sea was safe. The country of water was in that direction.

The four countries surrounded the country of fire. If not for the strong Konoha Village, the country of fire would have been gnawed into pieces by the other four countries.

The Sand Country on the left was full of yellow sand, so it had been spying on the Fire Country for a long time. The Thunder Country on the right was a group of warlike people. Even in peacetime, they would come to the Fire Country to catch the autumn wind.

The Earth Country above was ambitious, and it stretched out its claws to the Fire Country more than once. Only the Water Country was the most honest because it was busy with civil war. Otherwise, the country wanted to invade the Fire Country the most because it was too poor.

The Fire Country was still standing in the center of the map, showing its wealth and military strength.

...

The large sailboat slowly docked. Su Xiao jumped off the ship and stepped onto the territory of the Fire Country.

As soon as Su Xiao got off the ship, the sailing ship immediately set off and sailed into the distance as if it were for escaping.

Breathing the fresh air, Su Xiao was in a good mood. Now he only needed to find a force to join. He already had a goal.

It was unlikely to join Konoha. In addition to special reasons, Konoha rarely accepted foreign Ninjas, especially people like Su Xiao. Konoha only welcomed him in prison.

There were other forces around the country. With Su Xiao's strength, finding a medium-sized force to join was no problem.

Walking through the beach by the sea, Su Xiao came to a green grassland. On the grassland, low shrubs could be seen occasionally, some wild animals could be seen everywhere, and the birds chirped non-stop.

Before he took a few steps, Su Xiao's footsteps stopped.

Su Xiao was stunned. Before he advanced to the second rank, he had a hint that 'has opened the derivative world communication platform'. He had never known what this was.

When he was in the steel refining world, a second rank contractor he defeated mentioned 'derivative world communication platform' once. Because of this ability, all the second rank contractors in the final scene of the steel refining world knew that he was clearing the underground.

After hesitating for a moment, Su Xiao chose to open it.

A virtual chat box appeared in front of him, and there were lines of words on it.

God-Emperor: "Bastard from Blood Gate, I will wait for you in the outermost forest of Konoha."

Stan: "Wait, it will arrive in three hours at most. Whoever wins the demon-hunting ring will belong to who."

Gulu: "God Emperor, you will see your sister soon."

Jin Shisi: "Forest outside of Konoha? Count me in as a Barbarian Sky Adventurer Group."

Carlo: "Sit and watch the big shots fight."

Old Second Ma: "Is there a mistake? Is there going to be a big fight in the Naruto world? Are we still going to let people live?"

Mianxue: "Old Second Ma is so embarrassing. You can leave the group."

Chapter 523: Illusion

Seeing these records, Su Xiao finally knew why the contractor knew that he was clearing the steel refining world. It turned out that the contractor had this kind of information communication channel.

This kind of channel was very practical and could greatly encourage the contractor to form an adventure group. Those who passed the first level examination were not weak, so the reincarnation paradise let these contractors group up and reduce the casualties.

Not only that, but some items obtained in the derivative world could also be sold immediately, but this kind of deal had a high risk and needed to have double strength.

Su Xiao could speak five times in the derivative world communication platform. He found that the Emperor and others had spoken more than ten times when he looked through the record.

The other party might be a higher level contractor, or the adventure group leader had an increase in the number of messages.

Just as Su Xiao was looking through the 'derivative world communication platform', a new message popped up.

Huang Fen: "Recruiting members. Requirement: Any attribute exceeds 50 points. You have mastered the core combat skills. The nurse, mage, and the main tank take priority.

You need to be upright, have no love, abuse your companions, flirt with female members, and have all kinds of weird hobbies. And do not betray the bad guys of the adventure group."

...

The corner of Su Xiao's mouth curled up. The derivative world communication platform was very interesting. He would not speak for the time being. The God-Emperor and Gulu, and others all recognized him. It was better to keep a low profile.

Through the 'derivative world communication platform', Su Xiao got very important information. There were three large adventurer groups in the Naruto world, namely the God-Emperor, Blood Gate, and Man Tian. These were all large adventurer groups.

As for these adventurer groups, Su Xiao had heard before that they were fighting for the demon hunter set!

Three large adventurer groups were fighting, which were hundreds of second rank contractors and above. In such a scale battle, some weak contractors could only hide in a remote place and tremble.

"The forest outside the Muye Village is interesting."

Su Xiao hesitated, whether he wanted to join in the fun. Although there were many large adventurer groups, fighting with the contractor was his best thing.

Just as Su Xiao thought, the derivative world communication platform sent another message.

Stan: "Gulu, don't let me find where you are."

Jin Shisi: "Stan, is there a hole in your brain? Gulu escaped from your hands."

The Emperor: "This time, it's one hand. Next time it's the head, Gulu."

Gulu, "A bunch of dregs. The demon-hunting trap belongs to me. I will disappear from now on. Bye-bye ---"

Stan: "Gulu, haven't you always wanted to fight one on one? If you have the guts, come out and fight one-on-one."

Gulu: "Have guts? I'm sorry. I have a flat groove below me. I don't have hair. I can't have guts, silly."

...

Through this information, Su Xiao learned that the final winner was the little girl of the brigade, Coo, a little girl who liked to eat sugar and kill people. The One Ring was in the hands of the other party.

The situation in the Naruto world was getting more and more complicated. Now that Gulu was hidden, the three large adventurer groups would dig three feet into the ground to find her, especially the Emperor, who Gulu killed his sister.

These things had nothing to do with Su Xiao for the time being. He needed to join a group of forces as soon as possible. Otherwise, he would be forcibly executed.

After Su Xiao had traveled for two hours, a small town appeared in his sight.

Half an hour later, Su Xiao left the small town, and a map appeared in his hand.

"Tian Country, Chuan Country, Yin Village, River Country, Lie Country, Iron Country, Vortex Country, Rain Country."

These were the forces around the Fire Country in addition to Konoha, and Su Xiao ruled out several of them.

The first thing that was ruled out was the Yin Village. There was a snake there, and joining there would risk being dissected.

Tian Country, Chuan Country, Lie Country, and River Country, four small countries, were ruled out. These small countries were too weak, so weak that Su Xiao did not want to join.

Then there was only the Iron Country, the Whirlpool Country, and the Rain Country. The Vortex Country was not strong. It was a choice that had to be used as a last resort.

The Iron Country and the Rain Country were two choices. Su Xiao was more partial to the Iron Country because there were too many fierce people in the Rain Country.

Those people could destroy a large Ninja Village with their combined strength.

This was not an exaggeration. Someone in the Rain Country even had the strength to fight against a Ninja Village. Those eyes were also top strength in the later part of the plot.

In this way, the safest thing was to join the Iron Country. The warriors there also used knives and were good at knowing energy wrapping weapons.

Su Xiao rode on Bobowang. Bobowang's speed only took a few hours to reach the Iron Country.

...

In the forest far away from the Muye Village.

This place is very far from Konoha, and even if we fight here, Konoha won't be able to detect it for a short period.

"Palala---"

The trees were burning, and a red-haired man stood in the forest. There was a scar on his chest, and it looked like a wound caused by a dagger weapon.

The trees within a few meters of the man were all burnt black. When he came, there were two lines of black footprints on the road, as if the soil he stepped on would be burnt.

This man was called Huang Fen, the second in command of the Blood Gate Adventurer Group.

"Boss, I can't find him. That girl is too good at hiding."

"En got it. I'll leave immediately. The Emperor has gone crazy and almost died in his hands."

Huang Fen walked into the distance, leaving a path of fire along the way. It seemed that everything that approached him would be burned away.

Ten minutes after Huang Fen left, a white arm poked out from the scorched earth. A little girl emerged from the soil, a little dusty.

"It's so hot."

The little girl was so hot that she stuck out her tongue. The clothes on her body had traces of being burned. One arm was cut off, and other wounds were on her body. She was the Gulu that the three large adventurer groups were looking for.

"Damn, fireman, it's not good to go from there, but you have to go from my head..."

Gulu shook off the dirt on his hair and quickly took off his clothes. She looked at the broken arm that still had a small part left and seemed to be a little unhappy. She took out a long sharp dagger and cut it directly. Blood splashed out. Gulu not only did not scream but his face was flushed.

With one hand wrapped around the wound, Gulu took out a new set of clothes and put it on.

"It seems to have provoked public anger. Let's continue to shrink. No. 3, that muscular man, is unreliable. If there's a chance, we must kill him."

While speaking, Gulu's body gradually faded, and he walked out of the forest.

...

Near the border of the country of fire.

Su Xiao walked on a snowfield, and his face was not good.

An hour ago, he arrived in the country of iron and saw the leader of the country of iron, Sanchuan, showing his intention to join the country of iron.

Although Sanchuan was very polite, he refused Su Xiao's intention to join. The reason was that the Iron Country was established in China, and it was impossible to accept an assassin with a reputation outside.

Yes, Su Xiao had a reputation outside. The reason was to assassinate the 4th Mizukage and publicly attack the Mist Village. He was the top terrorist in the Naruto world.

Creak, creak. Su Xiao, who was stepping on the snow, began to think of countermeasures. Was he going to join the Sound Village? He should be welcomed there.

"It's a little difficult."

After moving forward for a while, Su Xiao suddenly felt something was wrong.

"Who, come out."

Dragon flash appeared in his hand. Su Xiao looked ahead.

"Oh? I have found it. This guy's perception is very sharp. It seems that it is not an undeserved reputation. What do you think, skunk?"

"Well, very sharp. A low-level illusion is ineffective."

The light and shadow in front of him were blurred, and two figures appeared in front of Su Xiao.

Chapter 524: Recruit

Seeing the two people in front of him, Su Xiao became alert, and a dragon flash appeared in his hand.

He had seen the two of them before, but in anime, they were Uchiha Itachi and Kisame Hoshigaki.

Su Xiao had some doubts in his heart. Why would the members of the Akatsuki organization appear here?

The so-called Akatsuki organization was an 'illegal gang' in the Naruto world. The members of the Akatsuki organization were all mixed up, and there were all kinds of people.

War orphans, old undying, diehard followers, loyal rebels, and young people who lacked love.

Such a group of powerful people with different personalities gathered together. Unity love had nothing to do with the Akatsuki organization. It was common to attack companions without a word.

Now, two members of the Akatsuki organization stood in front of Su Xiao, wearing a black windbreaker embroidered with red clouds.

"What's the matter?"

Su Xiao spoke with a smile on his face, slowly moving forward. If he fought with the two people, getting close was the only chance.

"If you get any closer, I'll leave you a beautiful cut."

Persimmon

Su Xiao stopped moving forward.

"You are Byakuya?"

Uchiha spoke. His tone was neither fast nor slow.

"Probably."

Hearing Su Xiao's answer, Weasel frowned.

"Someone wants to see you."

"Who?"

"Our leader."

Su Xiao narrowed his eyes. The purpose of these two people was very obvious now. They pulled him into the Akatsuki. After all, he had the record of assassinating the fourth generation Water Shadow and attacking the Mist Village. It was normal for the Akatsuki to come to him.

"If you have something to say, just say it."

He pondered for a moment and nodded.

"The leader wants you to join us. We can talk about the specifics later."

As he spoke, Itachi made a look at the Ghost Mermaid. Every time a newcomer joined, they would fight. After all, those who joined the Akatsuki were all unruly and unruly.

Ghost shark understood what Itachi meant and took off the ninja knife on his back.

"Don't let him get close to you."

"I know."

Ghost shark moved his muscles, but Su Xiao suddenly said: "I can join you."

"Huh?"

Ghost Shark, who was just about to make a seal, was stunned.

Seeing the confusion between the two people, Su Xiao said again: "I can join you."

Joining Xiao was a good choice. After all, he did not have many choices. Compared to Yinren Village, Xiao was a better choice, although it was also dangerous.

Moreover, there was a benefit to joining Xiao. There should be very few contractors in the Akatsuki organization, or it should be said that there were no at all.

"You agree?"

Ghost Shark was ready to make a move, but Su Xiao agreed.

"Before, I was ready to join the Iron Country, but unfortunately, I was rejected. Now someone has taken the initiative to recruit me. Of course, I have to go and see."

Su Xiao returned the Dragon Slash to its sheath. Fighting with Ghost Shark was a thankless thing. In his opinion, the battle that could not kill the enemy was meaningless.

"Is that so? Then let's go."

Itachi turned to prepare to move forward, and Su Xiao suddenly opened his mouth.

"Wait."

Itachi and Ghost Shark looked at Su Xiao.

"How is the treatment of your organization? What is the monthly salary?"

Su Xiao's question was difficult for the cold.

"The treatment is not bad, but the premise is that you can live."

"That's good."

Su Xiao rode on Bobowang's back and followed behind Itachi and the ghost shark.

Sou, Sou ---

Itachi and Ghost Shark accelerated. Bobowang also ran. The two were very fast, but they were not fast enough to shake off Bobowang.

As they ran, the two people in front of them whispered.

"Itachi, why did the leader invite him to join? This guy's strength..."

"He is very strong behind him."

The spy of the Mist Ninjas gave us detailed information. If he gets close to you, you may all die.

"Huh? So strong?"

"The premise is that he can get close to me."

"Understood, then he is a reserve member?"

"No, official member. There is also an empty ring."

"An official member?"

Ghost Shark was somewhat puzzled.

"Yes, he is responsible for controlling the human pillar in close range, which is very helpful for the plan to capture the tailed beasts. Now, no one in the organization dares to get close to the human pillar in addition to flying. He is responsible for filling this gap."

After getting a reply from Itachi, Ghost Shark understood the intention of their leader.

Previously, someone in the Akatsuki made up for this vacancy, which was Loquatten, but Loquatten hid and died in a battle. Although the other people in the organization were very strong, they were not strong enough to reach the human pillar. As for Fei Duan, although that guy would not die if he got close to the human pillar, he would be beaten very badly.

Scorpion, Deidara, Horn and others were not weak, but they have not meeled experts.

After Manchuriki became a beast, his close combat ability was very strong. The most appropriate way to deal with it was to hold him in close range. Others helped to attack. In this way, he could ensure that he could capture Manchuriki alive to the greatest extent. Otherwise, there might be a situation where he might accidentally kill the Manchuriki. Nagato had almost killed the Manchuriki and finally held back, causing the Manchuriki to escape.

...

Following Itachi and Ghostshark, Su Xiao pondered in his heart.

The Akatsuki invited him to join, but he did not know what they wanted him to do. It would be better if he went to capture the tailed beasts. Su Xiao's purpose was to absorb the chakra in the body of the tail-beasts to improve the green steel shadow.

If he looked for tailed beasts himself, even at the end of the mission, he might not be able to find a tailed beast.

Even if he found tailed beasts, it was still unknown whether he could fight, so joining the Akatsuki was a good choice.

If he could participate in the plan to capture the strength of the pillars, Su Xiao might be able to absorb two to more tailed beasts.

Although this was good news, he had to be careful of the few people in the Akatsuki organization.

The first person was Black Zetsu, who knew how many years he had lived. Although he had been doing nothing in the early, middle, and late stages, in the final battle, he discovered the boss's identity behind the scenes.

The second thing to be careful of was Uchiha Obito. His close friend killed this guy's unrequited love before him, and then he became extremely extreme.

In Obito's eyes, without Rin's world, it didn't matter whether it was destroyed or not. He could do anything to revive Rin, even if it meant destroying the world!

The third thing to be careful of was Uchiha Itachi. This brother complex was a spy, and his heart was determined to die. Later, he gave his brother a big 'package' and went to the west with a smile.

As for the others, although they were dangerous, they had their weaknesses.

Among the members of the Akatsuki, Su Xiao was most interested in a bomb madman. His alchemy bomb was similar to the other party's clay bomb, and he could exchange knowledge with each other.

Although the alchemy bomb was convenient, the power was great, making it too troublesome, and the cost was not low.

The ideal alchemy bomb could be made anytime, and the price was low and convenient to carry.

It was still too early to consider these things. Su Xiao wanted to join the Akatsuki as soon as possible. The time limit of the task would be over in 32 hours. At that time, he would only die, and even the hunter had no privilege.

Chapter 525: Rain Village

At the beginning of the lantern light, within the borders of the Country of Fire, there was a poor village.

This village was located at the edge of the Country of Fire. Because it was located in the forest, traffic was inconvenient. Most of the people here lived by hunting.

There was a restaurant, a tavern, and a grocery store. Every night, there would be drunkards here.

In the restaurant's corner, three men sat around a wooden table with simple food on it.

"How far is it?"

Su Xiao spoke. At this time, the atmosphere of the three people was a bit strange.

Ghost shark sat next to Su Xiao. The ninja knife rubber machine was placed beside his hand, ready to swing at Su Xiao. Itachi sat in a position far away from Su Xiao.

Ghost shark coughed. He finally knew why Payne invited Su Xiao to join. At this time, he was less than half a meter away from Su Xiao. The sharpness made him feel uncomfortable.

The man beside him was like a knife that could cut off his head, sharp and aggressive.

"Soon, if we travel overnight, we will arrive in eight hours at most."

Itachi did not show any expression on his face, but he began to doubt Su Xiao in his heart. The other seemed to be very eager to join Akatsuki. Considering his identity as a spy, Weasel did not mention this.

"Are you very eager to join us?"

Ghost Shark opened his mouth. Although a rebel, he was a very competent and loyal ninja. Ghost Shark was caught in the subsequent plot, and the enemy wanted a perceptive Ninja to get information in his mind.

Ghost Shark's choice at that time was admirable. After he broke free from the restraints and determined that he could not escape, he used the water prison technique to trap himself and summoned the shark to devour him, not revealing the information. Even the enemy admired this kind of cruelty and loyalty.

As long as Ghost Shark joined a certain force and agreed with this force, he would never betray that force.

"The Dark Group of the Mist Ninjas is chasing me. Otherwise, why do you think I want to join the Iron Country?"

"Oh? It seems that you joined us to avoid the pursuit of the Mist Village."

"Yes, I have some grievances with the current Water Shadow of the Mist Village. If there is a chance, I want to kill that woman. She also wants to kill me. The Dark Group of the Mist has already caught up with the Fire Country."

Hearing this information, Ghost Shark nodded. Previously, some people joined the Akatsuki to avoid disaster. In the eyes of outsiders, the organization was a war merchant.

The Akatsuki organization was a mercenary organization that did not belong to any country. They provoked some small wars and then used a low price to monopolize the war commission of small countries. They increased the scale of the war and then broke the Ninja system of the big country, monopolizing all the wars.

They had a few goals.

First, gather a large amount of money to prepare for the future.

Second, start a small-scale war, gradually expand the scale of the war and break the current system.

Third, capture tailed beasts, and use tailed-beast weapons to conquer and unify the world and bring peace.

This was the purpose of Dawn during the reign of Nagato. Nagato hated the war deeply. He knew that he needed to start a bigger war if he wanted to end the war. Only by breaking the village system could there be true peace.

Nagato's dream was very good, but unfortunately, as long as humans existed, the war would not stop.

Jealousy, hatred, discrimination, arrogance, interest, and too many things were enough to start a war.

Although the war was cruel, it was a crucial point for the progress of human civilization.

Knowing that the Mist Group was hunting Su Xiao, Weasel and Ghost Shark did not show anything. More than 50 of the members of the Akatsuki were being hunted by the various villages.

After a short rest after dinner, the three of them continued on their way. Their destination was the Rain Village in the Rain Country at the border of the Fire Country.

Although the Rain Country and the Water Country were similar in name, the two were very far apart, and the Rain Village was not related to the Mist Village.

The Rain Country was small, and it rained all year round. It was said that it never stopped.

Of course, the rain there would not stop because it was a large Ninjutsu barrier. After the enemy entered the Rain Country, they would be affected once the rain-drenched them.

Now, the Rain Village was the base camp of the Akatsuki organization, and the leader of the Akatsuki organization, Nagato, was also the real leader of the Rain Village.

In the current period, Dawn was evil, and if one had to define him, the Akatsuki in this period was an organization that used extreme means to create future peace.

In the future, after Nagato died, the Akatsuki organization fell into the hands of Uchiha Obito. At that time, Dawn was the real terrifying organization, acting for a person's will.

So, this period of Akatsuki was different from the later Akatsuki. Su Xiao would never join if it were for the later Akatsuki organization.

The three of them walked through the night because the three of them traveled too fast. The Mist Ninjas who chased Su Xiao could only sigh.

As for the Rain Country, how many of them died.

After traveling for eight hours, the sky lit up.

Unlike the previous morning, today's morning was particularly gloomy, and the sky was gray, which showed that they had arrived in the Rain Country.

Raindrops fell, and the rain became heavier and heavier as they moved forward.

The rain fell on Su Xiao, light blue lightning flashed, and the chakra mixed in the rain was instantly destroyed.

Itachi, who was running in front, turned his head and frowned after looking at Su Xiao. He sensed the feeling of energy devouring.

Su Xiao changed Itachi's perception. It was not only the sharpness before but also an inexplicable threat. There was a special energy in the other person's body.

Ka ---

The muscles of the ninja blade on the back of the ghost shark shivered, causing the ghost shark to change its expression.

"What's going on?"

Itachi thought that the ghost shark sensed the enemy.

"It's okay, and the shark muscle just sensed energy. Do you think so, Byakuya?"

"Who knows."

Su Xiao put away the green steel shadow energy, an instinctive reaction.

Now that Su Xiao had arrived near the Rain Village, Nagato must have sensed something.

The land area of the Rain Village was not big, the buildings here were very high, and the top was sharp, which was the result of the perennial rain.

The sharp cone-like roof could avoid the rain and noise of the roof to the greatest extent, reducing the cost of minor maintenance.

The whole Rain Village was full of metal pipes everywhere, similar to the heat supply pipes, and the specific function was unknown.

"We're here, and I'll take you to see the leader."

Ghost shark opened its mouth, skunk turned and walked away, its pace very slow.

"It seems that your partner's body is not very good."

Su Xiao looked at Itachi, who was walking far away. The breath of life of the other party was sometimes strong and sometimes weak. It seemed that he had overdrawn his body energy all year round.

"What do you mean?"

Ghost Shark had a good relationship with Weasel. The two had similar experiences.

"It's nothing. Didn't you see the leader?"

"Come with me."

...

In a room on the top floor of a metal building dozens of meters high in the Rain Village, the room was pitch black, and only the faint sound of breathing could be heard.

"Xiao Nan."

A voice called out, hoarse and tired.

The door was pushed open, and a blue-haired woman walked into the room.

As the woman opened the door, the dim light entered the room. There was an iron machine in the room, and on it stood a lean man with a pale face. The man's hands were connected to the machine. It seemed to be a simple control device.

The man had dark red hair. Because he was too thin, his ribs were visible. The most eye-catching thing was behind the man. There were black iron rods on his back, and there was a connection point behind the iron rod.

Chapter 526: Withered Wood

"Nagato, how is your health today?"

Konan looked at Nagato with a worried gaze.

"Fortunately, a new member has arrived. You and Yahiko will welcome him. He will be of help to our plans. However, we don't know where he is, so we need to observe him for a while."

Yahiko was a dead person, a corpse controlled by Nagato.

Nagato could control six bodies and give them different abilities. The six bodies were named Payne.

The six bodies were Heaven Path, Asura Path, Human Path, Animal Path, Hungry Ghost Path, and Hell Path.

The Heaven Path was made from Yahiko's body, while Yahiko was a former companion of Nagato and Konan.

"Well, which Ninja Village is this?"

"It's not a traitor, and it's an assassin. He tried to assassinate the 4th Mizukage. Be careful when you negotiate with him, don't get too close to him."

"Why?"

"According to the information, he rarely uses Ninjutsu. He is good at using ninja knives. His knife skills are comparable to Konoha's White Tooth.

His name is White Night. Maybe he has some relationship with Konoha's White Tooth. Later, pay attention to observation."

Xiao Nan was shocked and nodded. Of course, she had heard of Konoha's White Tooth. It was a man who made many Ninjas scared with a ninja knife.

Xiao Nan left the room and walked downstairs with Tian Dao outside the door.

The long door controlled Tian Dao. Whether it was words or actions, this was a long door in a certain sense.

"Shall we go together?"

Xiao Nan asked.

"I won't show up. You and Ghost Shark talk to him."

Although the voice changed, it was Nagato who was talking.

Xiao Nan knew what Nagato meant. Nagato's going was a kind of deterrence to prevent Su Xiao from escaping after refusing to recruit him.

In the back alley of the Rain Village, in an underground room.

"Do you usually stay here?"

Sitting in the damp room, Su Xiao clicked his tongue in wonder. The treatment of the Akatsuki organization members was not good, and these rebels would not have any objections?

Ghost Shark leaned on the side, seemingly not caring about the humid environment.

"I am a traitor. I can't appear on the surface. Most of the time, we won't stay in the Rain Village. The Akatsuki organization will not restrict the actions of the members. We can complete the task when there is a task."

The door was pushed open, and a blue-haired beauty walked into the room. Although Su Xiao knew that this was Xiao Nan, he would not show it. It was courting death. The appropriate 'play dumb' was good for hiding himself.

Su Xiao would not be stupid enough to say to Nagato: "I know the future development. After your bold and powerful single-to-one wooden leaf village was forced to lower your IQ by a rich second generation with the protagonist halo, you were forced to die by mouth."

Su Xiao went up and down to look at Xiao Nan. It had to be said that the real Xiao Nan was a great beauty. She had a good figure and a unique temperament.

"This is the leader of Xiao?"

Xiao Nan had no expression. Su Xiao's current rebellious appearance was normal. If there were no such rebelliousness, he would not go to assassinate the fourth generation water shadow and almost succeeded.

"I am not the leader of Xiao, but I can represent the leader of Xiao."

Xiao Nan sat down, also looking at Su Xiao.

"You agree to join us?"

"Agree."

Xiao Nan was surprised by Su Xiao's straightforwardness.

"If I say I don't agree, can I leave alive?"

"No."

"No."

Xiao Nan and Ghost Shark said in unison.

"So, to keep my life, I am ready to join you. I have a requirement in terms of treatment. Otherwise, don't expect me to help you work hard."

Su Xiao had not revealed any flaws until now. He was entrusted by someone to assassinate the fourth generation water shadow, and now joining Xiao showed that it was for the benefit.

Of course, this is not a problem. What do you want? Ninjutsu? Secret arts? Money? Women? These can all be provided to you, but you have to show your value before that.

"

Su Xiao, who was sitting on the chair, sat up straight. If he wanted to join the Akatsuki, he could not only rely on his mouth and past deeds. He wanted to show his value so that he could get the trust of the Akatsuki organization and finally participate in the operation of capturing tailed beasts.

"Value... is what I can do and what I am good at?"

"Yes."

"Is that so..."

Su Xiao thought about it.

"I am good at assassination, explosion, intelligence, the assassination of the enemy leader, setting up complicated traps, camouflage, frontal attack, super long-range sniping. The farthest distance is 1.2 to 1.4 kilometers..."

Su Xiao said his speciality. The more Xiao Nan listened, the deeper she frowned. She thought that Su Xiao was talking big.

"You are also good at blasting? What should I pay attention to when it explodes?"

Xiao Nan seemed to be chatting with Su Xiao. This was not the case. She was inquiring about Su Xiao's information.

"Explosion is a bit complicated. It is mainly about the size, density, shape of the target, and the environment. There is..."

Su Xiao began to introduce the specific knowledge of the explosion to Xiao Nan. Xiao Nan was good at using the explosion talisman, but she was not a bomb expert. The method of using the explosion talisman could be simple and crude.

Xiao Nan could still understand what Su Xiao said at first. In the middle, she began not to understand it. As for the final mixing of the bomb and the countless chemistry formulas, Xiao Nan was confused, but she still had to pretend that she could understand.

"This is the basic knowledge of blasting, and there is still about four-fifths of it that has not been finished."

Su Xiao cleared his throat and was ready to continue, the ghost shark's eye on the side twitched, and he almost fell asleep from listening.

"Cough ---, let's talk about this later. Let's talk about treatment."

Through Su Xiao's understanding of blasting, Xiao Nan saw that Su Xiao was not talking big before.

"I won't ask for too much in terms of treatment. I am now being hunted down by the Black Group of the Mist Village. Although they can't do anything to me, it annoys me. As for the other benefits, we can talk about them later. After all, I have not made any contribution yet."

Su Xiao would not ask for too much. He did not have much time left for his main task. He had to find a force to join as soon as possible.

"How about this? We will help you solve the chase of the Mist. If you want, you can take revenge in the future, but in your personal name."

"Yes."

Su Xiao answered very simply, and the Heavenly Axiom outside the door walked away.

"Welcome to the Akatsuki, and you will not regret your choice today."

Xiao Nan reached out his hand, and Su Xiao also reached out.

"I hope so."

Su Xiao chose to submit, 3000 paradise coins were obtained, and the tips appeared one after another.

Difficulty Level: Lv.23

Mission summary: Help Nagato destroy Konoha.

Mission information: This is the final part of the main mission.

[Quest deadline: 60 natural days.]

[Mission reward: 50000 paradise coins, soul crystal ×10, 12 attribute points.]

[Mission penalty: All attributes -8.]

...

After seeing the main mission, Su Xiao was not good. He finally knew why the contractor rarely joined the Akatsuki organization. The reason was that the world's difficulty would be greatly increased.

What was the concept of level 34? This meant that Su Xiao might encounter an enemy that he could not fight against. The probability of death was very high.

This was the horror of the open world. The world's difficulty might be greatly increased because of one move.

Although level 34 was dangerous, as long as he was careful, he would not die. This was only the world difficulty, not the mission difficulty.

Su Xiao breathed a sigh of relief. From today on, he was a member of the Akatsuki organization. He was wearing a cool uniform to cut people.

Chapter 527: The Ring

[Successfully joined the Akatsuki, although the world difficulty has greatly increased, it is not without other benefits.]

[Hint: Hunter has joined the Akatsuki faction, faction store has opened.]

[faction store opened, current contribution value: 0.]

[Hunter can use contribution points to exchange items to go to the faction store.]

[Because the Xiao camp is neutral and chaotic, the favorability is friendly and neutral, and no improvement can be made.]

[Hunter needs to be careful, any suspicious behavior will lead the members of the Xiao to attack you.]

...

A series of notifications appeared. As a big force in the Naruto world, the Xiao organization naturally had camp stores, similar to the CCG contribution store in the ghouls' world.

The camp store was located in the Rain Village. Su Xiao already knew the specific location. As for getting contribution points, it should be the task issued by Xiao.

After Su Xiao joined Xiao, Xiao Nan walked out of the room and returned after a while, holding a black background red cloud windbreaker and a ring in his hand.

"There are not many rules of Xiao. When carrying out the task, one must wear these clothes, and this ring can not be taken off in any situation."

Su Xiao took the black background red cloud windbreaker and put it on the ring on his shoulder.

The ring was not particularly special. The ring was the size of a longan, and there was the word "Kong" on it.

The previous owner of this ring was called Orochimaru, and he had been persuaded by Weasel not long after joining the ring, so this ring had always been empty.

[Kong Ring]

Origin: Shadow Ninja

[Rarity: Purple]

[Type: Ring(This is a storyline item and has no conflict with the equipment in it)]

[Durability: 40/40]

[Equipment requirement: an official member of the Akatsuki organization.]

[Equipment effect: Illusion Light Body Technique(active). After use, you can build a phantom avatar in a specific position.]

[Hint: Phantom avatar can last for 36 hours at most.]

[Hint: Illusion Light Body Technique(active) consumes 100 mana values every time used.]

[Rating 101]

[Description: A standard item of the Akatsuki organization.]

[Price: Unable to obtain ownership, can not be sold or brought out of this derivative world.]

...

The members of the Akatsuki were distributed all over the world, generally not staying in the Rain Village. Nagato would use the

Not only the gathering, but Xiao Nan also used this technique to issue missions daily.

And there was one more thing, through this ring, he could sense Su Xiao's position. He could also sense the location of other members of the Akatsuki so that the members could find each other's positions.

This ring was equivalent to a remote communication device and locator. Without it, the Akatsuki organization was a pile of loose sand, and it was too inconvenient to contact.

"It's clear."

Su Xiao put the ring on his right hand. His left hand was wrapped in a red metal bracer, so it was impossible to wear the ring.

"So... what do I do after that?"

He had just entered the Akatsuki, and the organization would let him hand over the 'pledge', meaning to do something 'bad' to show his loyalty.

"Go find your partner."

"Partners?"

Su Xiao was a little confused. There were three teams in the Akatsuki organization, and these three teams were two groups.

The combination of Itachi and ghost shark, scorpion and Deidara, the horns and the flying section.

"Yes, they are in the Land of the River."

The Country of River was located between the Country of Fire and the Country of Sand. This was a medium-sized country that stood aloof from worldly affairs.

Because it was located at the border of the Country of Fire, the Country of Sand was separated. The Country of Fire would not allow other countries to invade this country.

Su Xiao did not ask more. If there were members of the Akatsuki organization in the Country of River, he could sense them through the 'Space Ring'. He was a little curious about who this unknown partner was.

At the end of the negotiation, Su Xiao seemed to be an official member of the Akatsuki organization. This was not the case. Xiao Nan arranged him into a two-person team and became the third person in the team. The meaning was very obvious, let the other two monitor and observe Su Xiao.

Although Su Xiao's information had been investigated, it was necessary to observe for some time.

Xiao Nan got up and left the room. When he walked to the door, he suddenly thought of something.

By the way, you can't leak the information about the organization. Also,

Be careful of your two partners. Don't be killed by them.

Xiao Nan sighed and left the room. Originally, there were many reserve members in the organization, but after the official formation, many later members were killed, and the horns made a huge 'contribution' to Scorpion.

Especially Jiaodu, the few people who had formed a team with him were killed one after another until Jiaodu met that weirdo Fei Duan. After many attempts, Fei Duan was still alive and kicking, but Jiaodu lost two hearts.

After Xiao Nan left, Ghost Shark also left, leaving only Su Xiao and Bobowang in the room.

Bobowang lay on the ground, his face was calm, but he had given Ghost Shark and Xiao Nan their respective nicknames in his heart. In Bobowang's heart, Ghost Shark's nickname was dried fish, and Xiao Nan was a long-legged female creature.

Su Xiao lit a cigarette, and the green smoke was endless. His eyes narrowed as if he was thinking about something.

The first stage of the main mission had been completed. As for destroying Konoha, Su Xiao would not participate in that matter for a short time.

Nagato would go to Konoha sooner or later, but when a person was alive, Nagato would not destroy Konoha, and that person was Itachi.

When Itachi joined Nagato, he had an agreement with Nagato. He promised to help the Akatsuki, and in return, Nagato could not attack Konoha and capture Kyubi.

With Itachi's current physical state, it was no problem to hold on for a few more years, but soon after, he chose to die for his brother before his eyes were completely blind.

Now that the strength of Itachi was greatly weakened, it was true that the Mangekyo Sharingan was powerful, but at the same time, it constantly eroded the vision and body of Itachi.

Now, Itachi looked at things more than ten meters away and began to blur. As for things further away, it was impossible to see clearly.

Family and village, Itachi chose the village. Between the younger brother and the village, Itachi chose the younger brother.

So, before Itachi died, Nagato would not attack Konoha. Even Nagato was afraid of the angry skunk.

Su Xiao did not need to think about these things first. Nagato would attack Konoha within two months. Otherwise, the difficulty of the task would be greater.

Su Xiao wanted to clean up the offenders and the hunters before attacking Konoha.

Of these two things, he chose to hunt the pillars first, which would greatly increase his strength so that he could easily solve the offenders.

Before hunting the pillars, Su Xiao had to do one thing: get the trust of the Akatsuki organization.

In his mind, he thought of the progress of the matter: to get the trust of the Akatsuki organization → - hunt tail-beasts → - kill the offender → - assist Nagato in destroying Konoha.

There was another thing besides this order, which was the big fight between the contractor and the demon-hunting suit.

After weighing the pros and cons, Su Xiao decided not to take the initiative to participate in this matter. If he happened to encounter it, he could try to rob it, provided that the three large adventure groups did not besiege him.

Not to mention being besieged by three adventure groups, he might die if he was besieged by one of them.

If not for the three adventure groups fighting before, he would not have the idea to participate in this matter. He had this idea before he intended to fish in troubled waters, and Gulu succeeded, so he decisively gave up.

Chapter 528: Faction Store

Su Xiao walked on the street of the Rain Village. There were few pedestrians here, and the passers-by were in a hurry.

The Rain Village was the nest of the Akatsuki organization, and it was heavily guarded.

The subordinates were not allowed to leave the Rain Village and cut off contact with the outside world.

Su Xiao's destination was the back street of the Rain Village. There was a tall building where the camp store was located.

The camp store was a very special department. Su Xiao had checked out once in the ghoulish world.

This time, the camp store was different from the last time. The Naruto world was an open world, and it was not comparable to the ghoulish world.

Coming to the iron building of the camp store, this building was sharp and thin, and it was dozens of meters high.

As soon as he entered the building, Su Xiao immediately felt a few eyes looking at him. There were many ninjas guarding the building.

Su Xiao guessed that this so-called camp store was the logistics of the Rain Village. Not only could he come to trade for items, but other members of the Akatsuki could also.

Da, da, da...

Su Xiao walked on the special stairs. The higher he went, the more ninjas he monitored. After he reached more than ten floors, a ninja secretly monitored him every few meters.

Coming to the twenty-first floor, it was very cold. A window similar to a grocery store appeared not far away.

A thin older man sat behind the window listlessly. Su Xiao vaguely saw a black metal ring on the wrist of this older man.

This kind of metal was similar to the metal stick stuck in the six bodies of Payne, and this older man was an ordinary person, not a ninja.

"You are?"

The older man went up and down to look at Su Xiao. After seeing the ring in Su Xiao's hand, the older man was shocked. Because of the Ring of Air, Su Xiao could arrive here.

Otherwise, he would have been stopped by the ninjas he met on the road.

These ninjas were the confidants of Nagato and Xiaonan. The ring represented Nagato, which was Payne.

Payne was the god of the Rain Village, and Xiaonan was the god messenger. Even so, the members of the Akatsuki still acted low-key in the Rain Village.

"What do you want to buy?"

As soon as the older man finished speaking, a large list of items appeared in front of Su Xiao.

Seeing the items in the first place on the list of items, Su Xiao's pupils shrank.

The contents on the list were:

[Origin: Shadow Ninja, Vortex Clan.]

[Rarity: Light Gold]

[Type: Embedded type secret rune.]

[Effect: Able to be branded somewhere in the equipment or body. After being branded, the ability will be obtained - Beginner Spatial Imprisonment.]

[Beginner Spatial Imprisonment: Able to seal spatial fluctuations within 50 meters. Space skills below Tier 5 in this area are ineffective. The effect lasts for 30 minutes. Cooldown: 2 natural days.]

[Rating: 285]

[Description: A secret rune produced from the Vortex Clan. When branded, there is a certain chance of failure. The consequences of failure are severe. Please consider this carefully.]

[Price: 3000 camp contribution points.]

...

[Origin: Naruto world]

[Rarity: Dark purple]

Type: S

[Effect: A large amount of water is instantly fixed to form a huge oval water prison, wrapping itself and the enemy. The water prison will move with the caster as the center.]

Rating 240

[Description: This is an S -- rank ninjutsu, but it requires Chakra. Members of Akatsuki have no interest in this ninjutsu.]

[Price: Needs to trade with persimmon]

...

Quality: Purple

[Type: Prop.]

[Effect: Unable to grasp Puppet Manipulation Technique, Unable to view.]

[Rating: 132]

[Description: Puppet created by a scorpion.]

[Price: Requires bartering with a scorpion.]

...

Fire Escape - Majestic Dragon Fire Technique

[Origin: Naruto world]

Quality: Purple

Type B

[Effect: Gather the Chakra in the back of your throat and spray it like a big fireball. The lethality is strong.]

Rating 129

Introduction: Ninjutsu that the Uchiha clan is good at.

[Price: Needs to barter with Yu Zhibo Weasel.]

...

[Water Escape - Water Dragon Spell]

[Origin: Naruto world]

[Rarity: Purple]

[Type: B -- Class Fire Release Ninjutsu]

[Effect: Inject Chakra into the water, condense water into a dragon form to attack the enemy, or directly shoot water pillars in the shape of a water dragon from the mouth to attack the enemy. The attack range changes according to the amount of Chakra.]

[Rating: 98]

[Description: A widely circulated ninjutsu developed by the 2nd Hokage.]

[Price: 75 points of camp contribution points.]

...

There were dozens of items on the list of items. Most of them were low-level ninjutsu. The items that belonged to Nagato could be exchanged with camp contribution points. The items that belonged to other Akatsuki members needed to be bartered.

There were two things that Su Xiao wanted to get the most among these items.

One was light gold quality, and this was the quality above dark purple. This grade of items had already begun to touch on space, and there was no doubt about its strength.

Although the open world was dangerous, the possibility of obtaining benefits was higher.

Although the level was not enough to block the space transmission of the reincarnation paradise, it was no problem to block space Ninjutsu like Hiraishin.

If there was this thing, even Uchiha Obito might be defeated, but there was a high risk when this thing was branded, and the owner did not use it, so he needed to consider it carefully.

The second item that Su Xiao wanted was that although this was only a B-level ninjutsu, it was very powerful, and the speed of release was very fast. The price in the reincarnation paradise was not lower than some A-level ninjutsu.

The difficulty of obtaining this thing was not low, and it needed to be bartered with Itachi.

After checking the camp store, Su Xiao directly left the Rain Village. Although the mission time was two months, there were many things he had to do

He had a vague feeling that other contractors' stay time might not be so long, and the main mission of different camps was different. It was best for him to determine the rest of the contractor's stay time.

If the other contractor's stay time were not as long as his, then the pressure would be reduced in the later stages, and there was no need to worry about other contractors coming out to stir up trouble.

...

After leaving the range of the Rain Village, Su Xiao put on Xiao's uniform and the ring of air on his finger. If the contractor saw Su Xiao now, he would be shocked.

The edge of the Kingdom of Rain was the Kingdom of River. As long as they arrived at the Kingdom of River, the Ring of Air could sense the position of the nearby members of Akatsuki.

After confirming the direction, Su Xiao rode on Bobowang.

After a few hours of travel, the ring on Su Xiao's hand emitted a special fluctuation.

"Bobo, stop."

Bobowang immediately braked and made a drift. This idiot recently felt that this action was very cool.

Su Xiao was sensing the fluctuations on the ring, and Bobowang's sudden drift directly threw him out.

Adjusting his center of gravity in the air, Su Xiao landed smoothly. Bobowang felt that things were not good and slowly retreated.

"The drifting is handsome."

Su Xiao stared at Bobowang, and a gentle smile appeared on his face.

"Woof."

Bobowang looked at Su Xiao pitifully, and his gaze seemed to say: Master, put down the slippers. Let's talk about it.

Just as Su Xiao was about to deal with Bobowang, the fluctuation on the ring was more intense. It was the signal released by Nagato. This was only one possibility, and that was that Nagato had something to ask him.

"Illusion Light Body."

Although Su Xiao did not have Chakra, this ring was equipment certified by the reincarnation paradise. He could use this skill by consuming mana.

Chapter 529: Insight

Su Xiao was dizzy for a moment, and when his vision recovered, he had come to a closed cave.

The cave area was not big, and there was an oil lamp hanging high in the center, which made the cave not dark.

Su Xiao's body was somewhat transparent, like an image projected by a projector, shaking slightly with the swaying of the fire.

There was only Su Xiao in the cave, and not long after, two projections appeared.

"I say, why are we gathering again? Didn't we gather three days ago?"

A somewhat dissatisfied voice was heard.

"Shut up. If you speak any more nonsense, I will kill you."

"Ha? Kill me if you have the ability."

"Tsk."

The two people who spoke did not need to think about who it was.

"Who is this guy?"

The illusion of the flying section looked at Su Xiao.

"Newbie."

Another projection appeared. This time, it was the Heavenly Axiom in Payne. He was the leader on the surface of Xiaoming.

"Newbie? It's been a long time since a newcomer has arrived."

After looking at Su Xiao from an angle, he no longer spoke.

"Hey, the newcomer over there."

Look at who was more interested in the flight section, Su Xiao.

"What's the matter?"

"Of course, are you interested in joining the Cthulhuism Society, Cthulhuism Society..."

Fei Duan began to chatter about the Cthulhuism Society. He wanted to pull Su Xiao into the school. Every time there was a new member, he would do this, but without exception, he would fail.

"I'm not interested."

Su Xiao acted a little cold, which was very consistent with the style of the Akatsuki organization.

"What? Are you looking down on the Cthulhuism Society? Where are you? Tell me. I will kill you."

Fei Duan's character was relatively lively in Xiao. His biggest feature was that he was bold, long-winded, and arrogant.

"Retard."

Su Xiao no longer looked at Fei Duan. This guy could be called a living treasure, incompatible with Xiao's serious style.

"What!" I'm so angry. Where are you? I have heard the order of the evil god. I must kill you! "

Fei Duan shouted in anger. This guy did not want to kill Su Xiao, but his character was like this.

"I heard you shouting as soon as I came, zombie duo."

Ghost shark's voice came, and he and Itachi arrived.

"Who are you calling a zombie duo?"

He expressed his dissatisfaction, his green eyes filled with killing intent.

"As always, we are united, en."

A slightly smiling voice sounded, and Deidara and Scorpion arrived as well.

"Dead Fish, who did you call the zombie duo?"

"Eh? Dead fish?"

Ghost shark -- and Horned were already unhappy with each other for more than a day or two, and the two of them had long wanted to fight.

Perhaps only the Akatsuki organization would appear in this scene. After their companions met, they would kill each other with three sentences.

Xiao Nan, who was standing beside Heavenly Path, had a headache. The scene before him was the daily life of the Akatsuki organization.

"Dead fish, I heard that you failed the last mission?"

"It was not a failure. It was just a long line to catch the big fish."

"Is that so? I heard that the target has already run to the Kingdom of Thunder. Is the line too long?"

Ghost Shark stared at the green eyes of dead fish and horns. Su Xiao seemed to see electric sparks in the air. Unfortunately, Bobowang did not come. Otherwise, Bobowang would take out the fried rice flour.

"Stop arguing."

Heaven's Will spoke. Jiao Du and Ghost Shark no longer argued. Xiao's leader was not selected, but the strong were respected.

"What is going on this time? Is the plan going to start? The tail is..."

When Heavenly Dao raised his hand and interrupted, Deidara was just about to speak.

"No, there are only new members joining this time."

Everyone looked at Su Xiao.

"Byakuya, new member."

Su Xiao opened his mouth and only said his name.

"Is this the only thing?"

"Yes, Jiaodu has to hurry and prepare the money,"

The expenditure recently is not small.

Heavenly Path looked at Jiaodu.

"No problem."

"Very good. Itachi, go and observe the movements of the big snake pill. He understands our plan. It's best if we can get rid of it."

"Yes."

Weasel did not say anything after answering.

"Scorpion, stay. The others leave."

Su Xiao removed the illusion spell. Light flashed before him, and his consciousness returned to his body.

The illusion spell was very practical. Nagato decided the location of each gathering. The other members did not know where they were, so there would not be any information leaks.

"Is it going to start?"

A smile appeared on Su Xiao's face. If he remembered correctly, the plan to capture the column was to start from one end, carried out by Deidara and Scorpion.

Continuing to travel to the Kingdom of River, Su Xiao had to gather with the two unknown partners as soon as possible.

Although he vaguely guessed who the two partners were, Su Xiao could not be completely sure. Among the three teams, the one he least wanted to join was the undead duo because these two guys were the busiest and received the most commissions. Moreover, the guy in the Horn had to go to the black market to exchange his body for money and often ran to the toilet.

...

A day later, near a suspension bridge in the Land of the River.

Under the suspension bridge was a rapid river. This bridge was called the Bridge of Absolute Mo... Although it looked simple, there was a big incident here.

During the second Ninja War, there was a medium-sized battle here.

At the beginning of the battle, Konoha's White Tooth killed Scorpion's parents. Chiyo was crazy and then launched this medium-sized battle with Konoha, which was why it was named the Bridge of Absolute Mo...

Sitting on a big stone next to the suspension bridge, Su Xiao took care of the dragon flash.

The breeze blew, and a few leaves were blown up.

Kalala.

The friction of hardwood came. Su Xiao put away the maintenance equipment and put the dragon flashback into the sheath. The person he was waiting for might have arrived.

A tall figure with four limbs on the ground crawled over. The person was very strange. A man was wearing a black cloth mask, a bald head, and an Akatsuki uniform.

"Waited for a long time? Sorry, there was a delay on the road."

A low and hoarse voice was heard. It was Scorpion. Its current appearance was not Scorpion's actual appearance. This muscular man with four limbs on the ground was a puppet. His name was Hiruko. Scorpion's main body was hidden inside Hiruko.

Because of this, Hiruko moved forward on all fours, or the scorpion inside would lie on its back.

There was a reason why Scorpion apologized as soon as he appeared. He did not like to wait for people or others to wait for him. Today, he was rarely late.

"It's okay. Does it seem that you are my partner? Mr Red Sand Scorpion."

"Yes, although Xiaochi is a two-person team, the leader considered that your situation is special and has an important role, so he gave you a temporary formation."

Hearing Scorpion's words, Su Xiao's heart tightened.

"Important role?"

"After that, you will know that I will take you to see another partner."

Scorpion controlled Hiruko to climb out in a direction, but Su Xiao did not move.

"Is this a test?"

Su Xiao looked at a forest in the distance, where people were following.

"Whatever you think, I hate waiting for people, so as soon as possible."

Scorpion stopped in place and had no intention of making a move.

"Yes."

Su Xiao got up and directly used Soru to rush to the forest. The stalker in the forest was shocked and turned around to escape.

Buzz ---

The sound wave spread in the forest, the leaves splashed, and the sword light crossed. The battle stopped in less than five minutes.

Su Xiao walked out of the forest with a half-dead man. Blood dripped from the man, and Su Xiao walked slowly to Scorpion.

The man's limbs in his hand were all broken, his chest was full of knife wounds as if he had suffered unimaginable pain, and the man's eyes were white.

The Scorpion in Hiruko narrowed his eyes slightly. He had a rough estimate of Su Xiao's relative combat strength.

Su Xiao threw the stalker in his hand to Scorpion.

"This is a greeting gift."

Scorpion looked at the dying stalker with some doubts. He did not understand the meaning of the greeting gift. This was just his test of Su Xiao, but Su Xiao quickly solved Scorpion's doubts.

"If I am not mistaken, this is a ninja from the Sound Village. He has a sense type, and his strength is probably between the middle and upper Ninja. He can block other people's perceptions. The preliminary judgment is a weak blood limit, and there are signs of being transformed. According to the current division of forces, this is Orochimaru's people. He sent people to follow you. Do you hold a grudge against him?"

After listening to Su Xiao's introduction, Scorpion showed a smile.

"It seems that there is a reliable partner. Come with me and take you to see another partner. That guy went nearby to collect clay."

Chapter 530: Bomb 2

Su Xiao came to a camp in the wilderness. From the pile of charcoal that had been extinguished, it could be seen that Scorpion and Deidara had stayed here for at least two days.

Ninjas had superficial glory and could also be said to be eating and sleeping during missions.

"Have there been any missions recently?" Su Xiao asked.

"There is a more troublesome task, to intercept the name of the country of the river."

Scorpion was somewhat dissatisfied. He hated this kind of task that appeared.

The Akatsuki organization could be said to be lawless. Every Ninja Village had a rule that they could not assassinate the name of other countries.

The name of a medium-sized country like the country of the river was naturally included. Moreover, the country of the river and the country of fire bordered the country of wind. Typical villages would not dare to touch the country of the river.

The Akatsuki organization would not care about these things. They would dare to accept it as long as there was a commission. They did not care which country it was. As long as there was enough price, they would even dare to assassinate the famous name of the country of fire.

Nagato dared to challenge Konoha alone, not to mention assassinating the famous name of the Fire Country.

"Just waiting here?"

"Yes, according to the information of the spies, the great guild of the River Country is passing through here. We have been waiting for two days."

The Akatsuki organization was not completely lawless. Otherwise, they would not have chosen to kill in the wild.

"At that time, you will be responsible for delaying the guards."

"I can shoot from a distance. I don't need to get close and reduce the risk of exposure."

"Huh?"

Scorpion looked at Su Xiao, and there was some confusion in his eyes.

"At that time, you will understand that if the guards are not strong, they can kill the enemy one kilometer away."

Su Xiao lit the fire again and took out some food to roast.

"One kilometer... Well, I hope there is no accident."

Scorpion also wanted to understand Su Xiao's ability. After all, the three of them had to cooperate in the future.

Hu ---

The sound of wind breaking came from the sky, and a big white bird with a wingspan of about three meters flew nearby. This big bird seemed to be made of white soil. It was Deidara who went out to collect clay.

The big bird swooped down, and a young blond jumped off the big bird.

The blond teenager had a short braid, and his left eye was blocked by the golden hair hanging down. He wore a Rockman's forehead guard, and there was a scratch in the center of the forehead guard, which was the sign of the Rock Ninja.

Deidara, who was collecting clay, came back. Although Deidara was a [S] class rebel, he was only 19 years old. To be exact, if the original plot developed, Deidara was 19 years old.

"Isn't this newcomer? Yes."

Deidara walked forward and looked up and down. When he spoke, he would say yes, as if to emphasize and confirm something.

"Yes, he will act with us in the future."

Scorpion looked up at Deidara. Although the two of them were teammates, their ideals were different. No, their understanding of art should be different.

Scorpion pursued the art of eternity. Deidara pursued the art of instant, the moment of explosion.

"I am Deidara."

Deidara greeted Su Xiao. If not for the fact that he was a straightforward teenager in the battle, he became a traitor mostly because of the clay explosion ability, but there was one thing that could not be denied. There was a cruel element in his character.

"Byakuya."

Su Xiao nodded to Deidara.

Deidara sniffed and squinted at Su Xiao.

"You have a smell of gunpowder... No, it is a very strange smell, bomb?"

Bobowang looked at Deidara, who seemed to be looking at the same kind of eyes.

"Bomb."

Su Xiao raised his arm, and white spiders crawled out of his sleeve. Scorpion was a little surprised, and Deidara jumped back.

"Do you know the old man Onoki?"

Deidara stared at Su Xiao with vigilance. Su Xiao's alchemy bomb was too similar to the clay bomb.

As for the third generation of the earth shadow Onoki, that was Deidara's master. If Deidara did not sentence him out of the Rock Village, he might have become the fourth generation of earth shadow.

Compared to Deidara, Onoki's granddaughter's black earth talent was much worse. If Deidara continued to develop in the Rock Village, the fourth generation of earth shadow would not have anything to do with the black earth.

Onoki taught Deidara very strictly, and the lawless Deidara was afraid of one person, which was the third generation of earth shadow Onoki.

"Never seen it."

Su Xiao held a white spider made of alchemy bombs in his hand. A few seconds later, Deidara frowned.

"This is..."

Walking forward slowly, Deidara did not touch the alchemy bomb, but he vaguely found something.

"This is another kind of bomb, similar to the clay bomb, and the texture is very different."

Deidara relaxed his vigilance. He previously thought that Su Xiao was related to the Rock Village.

"How did you make this thing?"

Seeing the alchemy bomb in Su Xiao's hand, Deidara was interested in it.

"65% of the gunpowder, 25% of the rare soft metal..."

Su Xiao and Deidara briefly introduced the composition of the alchemy bomb.

"Metal? The bomb can also be integrated into metal?"

"Yes, but it needs energy synchronization, and the nature of the metal has to be soft and unstable. This can increase the power of the explosion."

"Well, it makes sense, but clay is a better choice. This type of metal is too hard to find, and it is not convenient to replenish."

Su Xiao and Deidara discussed the experience of bombs for a while, and the core knowledge of both sides was not revealed.

Scorpion looked at the two people and decided in his heart. In the future, he had to be careful when carrying out missions. A bomb madman in the team was dangerous enough, and now there was another one.

"Here you go."

Su Xiao threw out an intermediate alchemy bomb. Deidara hesitated for a moment and caught it. The two were very close, and Su Xiao could not detonate the bomb.

"What is the use of this thing?"

He pinched the alchemy bomb and was very interested in the alchemy bomb.

"You can also control it after you integrate the spiritual force."

"Oh?"

Deidara did not seem to believe it. No one else could control his clay bomb.

The alchemy bomb changed its shape in his hands, turning into a snake or a bird.

"Controlling is much easier."

Deidara looked at Su Xiao with fire in his eyes, which seemed to want to blow Su Xiao half to death, and then force out the formula of the alchemy bomb.

Su Xiao looked at the white bird flying in the air. This was a bird made of an alchemy bomb. He tried many ways but still could not fly.

"How did you do it?"

"What?"

"Let it fly."

Deidara smiled and did not speak. Su Xiao did not ask. After all, it was the first time they had met. It was impossible to exchange the knowledge of bombs. There was no trust in each other. There might be a possibility of exchange after cooperation for some time.

"Here it is. The name of the Kingdom of River passed here half an hour later."

Scorpion's low and hoarse voice came, interrupting the discussion between Su Xiao and Deidara.

Although Su Xiao and Deidara met for the first time, and their temperament was different, there was no sign of hostility.

"Show your long-range hunting ability, and I am very curious."

Su Xiao nodded and looked around, looking for a high point.

"What are you looking for?" Deidara opened his mouth.

"High ground."

"High ground? High ground?"

"Yes."

Deidara put his hand into a pocket on his waist, which contained the specially processed clay. He bit off a piece of clay and slowly chewed.

After chewing for a few seconds, the mouth of Deidara spat out a clay golem that looked like a bird.

His hands formed a seal, and white smoke rose with a bang. The palm-sized clay bird turned into a big bird with a wingspan of five meters.

Deidara jumped onto the big bird, and the big bird flew up a little.

"There is no place higher than flying in the vicinity."
