

R. Paradise 561

Chapter 561: Apostle

[Lamure's core] was used to upgrade scouting equipment. This thing was a part of scouting equipment after it was dismantled. He didn't know where the violator got this thing.

[Yes/ No use Lamure's core.]

Hesitating for a moment, Su Xiao chose to use it.

Buzz ---

The Chip floated up, and at the same time, [Havana's Eye] also floated up.

The Chip gradually dissolved, turning into black liquid metal wrapped around Havana's Eye.

Ka ba, ka ba.

The internal structure of Havana's Eye quickly changed. Metal fragments flew everywhere. The main body of this fusion was not Havana's Eye. It was only a carrier, and the main body was the core of the apostle.

Reform, upgrade, Havana's Eye changed beyond recognition in less than five minutes, its size becoming smaller and smaller.

Not looking at the changes in this scouting equipment, Su Xiao took out the information he got from Orochimaru's lab and began to study it.

The more he studied these materials, and the more Su Xiao felt that Orochimaru was a genius. Although these materials were not Orochimaru's core research materials, the research on the first Hokage

At this time, Orochimaru had already realized the power of the Jinchuriki cells. The information mentioned a person, Zhicun Danzo.

Su Xiao suddenly thought, could this be the information Orochimaru helped Danzo obtain after fusing with the cells?

The more Su Xiao looked at it, the more certain he was. This was the information that Orochimaru got from Danzo as a test subject, and Danzo was unaware of it.

The cooperation between the two began a long time ago. After Orochimaru was driven out of Konoha, the cooperation between the two broke off for some time. Later, because of the position in the hands of Gang, Danzo Bro's village cadre was selected, and the cooperation between the two gradually became closer.

"Oh? The cells in the Pillar can temporarily enhance the body's vitality?"

After Su Xiao saw the words on the information, his eyes narrowed slightly. He thought of a possibility, could he bring the cells into the reincarnation paradise to study and integrate this ability that temporarily enhanced the body's vitality into the alchemy potion.

It should be known that the effect of the alchemy potion was to temporarily enhance the body's vitality and provide the corresponding nutrients, recovering the injuries without overdrawing the body.

Su Xiao felt that this method was very feasible, but where should he go to get the cells of the Pillar?

This idea was somewhat nonsense. Not mention that the Pillar Tomb tomb was in Konoha, it was unknown how many corpses were left in the pillar.

This group of people was a bit bitter. After they died, the tomb was visited by many people, such as Uchiha Madara, Black Zetsu, Orochimaru, Danzo, and others.

It could be said that they had been stolen repeatedly, and it was unknown whether the body was still there.

Even when Su Xiao was thinking, something floating in the air fell, and he raised his hand to catch it.

"Has it been modified? It was unexpectedly fast."

Su Xiao held a mechanical eye the size of a dragon in his hand. The structure of the mechanical eye was very precise, and it seemed to have a deformation function.

Looking at the attributes of the new equipment, Su Xiao's first light gold equipment appeared.

[- Eye of the Apostle]

[Origin: Lamure Technology]

[Rarity: Light Gold]

[Type: Scouting Equipment]

[Durability: 53/53]

[Equipment requirement: Intelligence: 20 points.]

[Equipment effect 1: Life Detection(Improved version): Able to detect and obtain information on any creature. The intelligence attribute of both parties determines the complete data.]

[Hint: Life Detection(Active). No consumption.]

[Hint: Life Detection(Active). Cooldown time is 5 minutes.]

[Equipment effect 2: Warning color(Active): Able to analyze the enemy's strength. Different colors will appear above the enemy's head according to the enemy's strength. This skill has no consumption and no cooldown time.]

[White: There is a great disparity between the enemy and me.]

[Green: My win rate is over 70.]

[Red: It is very dangerous for our side.]

[Black: Can not be resisted. The win rate is below 3.]

[Equipment Effect 3: Sky Guard(Active): The eye of the apostle floats in the air or the sky. The enemy will conduct a test within half a kilometer. Any suspicious creature that enters this range will be alerted by the eye of the apostle.]

[Hint: The Sky Guard(Active) consumes 120 points of mana each time he uses it. The effect lasts for 12 hours.]

[Hint: The Sky Guard(Active) can detect invisibility, perception shielding, underground stealth, magic shield, and other eighty-two hidden abilities.]

[Hint: The air guard(active) cooldown time is 24 hours.]

[Rating: 300]

[Description: This equipment combines detection, warning, and detection. With it, you can sleep in the dangerous wilderness.]

[Price: 97,000 Paradise Coins.]

...

Su Xiao was a little surprised. He guessed the pale gold equipment would be strong, but he did not expect it to be strong to this extent. Moreover, this was auxiliary equipment.

Not to mention other abilities, just based on the enemy's strength, the color of this ability. If Su Xiao met the enemy with the black light dots floating above his head, he first had to judge how to retreat instead of rashly testing the enemy's strength, which improved the possibility of his survival.

According to the strength comparison, the enemy with the black light dots floating above his head, Su Xiao, would die without a doubt when he fought with it. Su Xiao had encountered this kind of enemy twice. One was the mechanical bull of the Akame Ga Kill world, and the second was the gorilla of the steel-refining world.

With the strength of Su Xiao in those two periods, he would die against the two creatures.

Looking at the ability of the air guard, if Su Xiao rested in the derivative world, he could consume 120 points of mana to activate this ability so as not to be attacked by the enemy when he was resting.

Although [The Eye of the Apostle] did not enhance Su Xiao's combat effectiveness, the value of this thing was very high. In his opinion, except for the redemption of fate, this equipment was the most precious.

Just as Su Xiao was ready to experiment [The Eye of the Apostle], the space not far away from him appeared to rotate in a whirlpool shape.

[Drip, discovering unknown enemy approaching, approach method: Dimensional space transmission, distance, three meters.

[Analyzing, according to the information in the database, the name of the person is Uchiha Obito, in the analysis of strength, in comparison of strength...]

Su Xiao had only arrived in the town for about an hour, and the buyer of the blood eye had arrived.

"Ah la, isn't this senior Byakuya? I am Ah Fei."

A slightly playful voice came, and Obito, disguised as Ah Fei, appeared.

"You."

Su Xiao looked at the ring on Ah Fei's hand. It was the ring worn by Scorpion when she was alive.

"Well, I accidentally became an official member. Now I am in a team with Mr. Deidara, hahaha."

Obito, who disguised himself as Ah Fei, scratched his head, and his tone was full of pride.

"What are you doing here? Where is the leader?"

Su Xiao contacted the Heavenly Axiom, not Obito. If he directly contacted Obito, it would be too obvious.

"Well, I am here to take the blood eye in place of the leader."

Obito reached out his hand, indicating for Su Xiao to hand over the blood eye.

"Oh? What is the leader going to pay? This is my gain."

Obito was trying to get something from him. Of course, Su Xiao did not agree.

In the Akatsuki organization, two people knew the identity of Ah Fei, namely Nagato and Xiao Nan, but Obito now called himself Uchiha Madara.

"This is a bit difficult. The leader only asked me to take the blood eye. What should I do?"

Obito began to play dumb.

"Even if Payne is the leader, he can't spy on my finances."

Su Xiao took out the test tube with the blood eye and squeezed it hard. The test tube was full of cracks with a crack, and the solution inside flowed out.

The fist under Obito's cuff clenched, and the eye hole on the mask was dark.

"Since the leader is not sincere, then destroy it."

Su Xiao looked at Obito. The light spots on his head were red, not black.

"Wait, we can discuss it. Sure enough, we can't be greedy, haha."

Chapter 562: Deficiency

Obito smiled and stood not far from Su Xiao. To be exact, he was not talking to Obito at this time.

When he was young, the right side of Obito's body was smashed by a huge rock. To facilitate his daily movements, a whirlpool-shaped shell

The identity of Ah Fei was Zetsu in the shape of a whirlpool. Obito usually did not speak and only occasionally used his space ability to hide his identity.

"This..."

Swirling White Zetsu did not know how to continue the negotiation. Obito said these words in advance. Now that he had not obtained the blood eye, he was in a dilemma.

"Otherwise..."

"Shut up."

A slightly hoarse voice was heard. It was Obito's true form.

"Eh?"

Zetsu was very surprised. He didn't expect Obito to open his mouth.

Zetsu didn't know the significance of this blood eye to Obito. With this blood eye, Obito could use other eye techniques.

Of course, the eye techniques of the blood eye had a lot of burden on the body, but Obito was different. To help him recover his smashed body, Madara injected the cells in his body to restore his body so that Obito's vitality was extremely strong, which could greatly reduce the damage caused by the eye techniques.

If Obito wanted to seize Kakashi's blood wheel eye, he would have done so long ago. He didn't seize it because this eye was transplanted to Kakashi by Rin from his body. This was a symbol of his existence.

Moreover, Obito had already transplanted other blood eyes, and that blood eye could use the almost invincible skill of '--- Evil, Naqi' at the critical moment to save his life.

"Hand over that eye."

Obito's voice was low.

"What are you going to pay?"

Su Xiao held the handle of the dragon flash.

"I won't pay anything."

The space around Obito distorted and disappeared in a flash.

A sense of crisis came from behind. Su Xiao did not need to look to know that Obito was behind him.

The moment the dragon flash came out of the sheath, it rotated in his hand, and the long sword pierced through Su Xiao's armpit, directly stabbing Obito in the back.

The long sword stabbed, and there was no feeling of stabbing the physical body. Obito had already 'blurred' and directly passed through Su Xiao's body and came to him.

Zi ---

The broken line contracted and floated near Obito, and Obito could only continue to maintain his Hollowfication.

Su Xiao looked at Obito coldly, and the dragon flashed with a sword.

"Space system."

Obito stood not far from Su Xiao and regained his physical form.

"Oh? It seems that you know my ability very well."

The red light flashed in Obito's eyes.

"No, I just dealt with the more troublesome space system."

Su Xiao remembered a void race who could teleport. The ability of that guy was much more troublesome than Obito. When attacking, it could cut space. It could not defend itself at all. One punch was a hole.

"In that case, how will you defend against this move?"

"Wood Escape - Tree Realm, descend!"

Ka.

The trees grew wildly in the hotel room but stopped when they grew to one or two meters.

"What's going on?"

Obito was asking about Swirling White Zetsu. Wood Release was the ability of Swirling White Zetsu. Coupled with the first-generation cells in Obito's body, he was able to use Wood Release.

From the current scale of Wood Release, it seemed that there was someone ashamed of that one-meter-tall tree.

"Eh, I don't know either. Hahaha, it might be a problem of chakra rejection. Although our chakra nature is similar, there is also a slight repulsion."

"In other words, I can't use the wood style?"

"A simple wood style can do, such as the cutting technique, there is no need to think about the descent of the tree world."

The answer of Zetsu made Obito somewhat dissatisfied. He could use it before, but now he couldn't use it. This was a lie.

Obito's eyes narrowed slightly. He was ready to peel off the white Zetsu on the surface of his body shortly. After all, his right side had recovered.

Su Xiao put Dragon Slaying Flash in front of him and looked at the small trees with a frown. Was Obito here to make a fool of himself? When the other side shouted that the world of trees had descended, he was shocked.

"Ring broken."

Zheng!

The circular sword radiance spread around Su Xiao and instantly flew to Obito's neck, and Obito immediately disappeared.

Obito avoided this blow, but the buildings around him suffered.

The ring cut around, some taller buildings were cut off at the waist, and the screams were not Zetsu's ears.

Shua ---

Obito's figure disappeared from the spot and reappeared behind Su Xiao again.

The space vortex appeared, and Obito was ready to put Su Xiao into another space.

A layer of energy shield appeared. Su Xiao stepped on the energy shield and jumped back. Because the distance was more than one meter, the energy shield quickly dissipated.

Su Xiao just jumped away, and Obito appeared in front of him again, one hand grabbing Su Xiao's cheek.

Su Xiao stabbed forward with the sword, Obito immediately blurred, and the hand passed through Su Xiao's head without resistance.

Dragon Slash 'stabbed' into Obito's throat, and Obito's hand passed through Su Xiao's head, and neither side moved.

"I won."

Obito quickly turned sideways, and the invisible hand left Su Xiao's head and grabbed Su Xiao's throat. At this time, Obito was solid.

Obito could not touch him. Otherwise, he would be sucked into another space, and if he were sucked into another space, he would be dead. Being trapped there was enough to drag Su Xiao to death.

Just as Obito's hand grabbed Su Xiao's throat, a layer of energy shield appeared in front of Su Xiao.

Obito's hand went straight through the energy shield, which was no more than five centimeters away from Su Xiao's neck.

Just as Obito was about to activate the power of space, he stopped moving after blurring again. The reason was that the energy thorns were generated from the dragon flash, just piercing through his body. If Obito recovered his body at this time, even if he did not die, he would be seriously injured.

After Su Xiao and Obito confronted each other for a moment, Obito disappeared in place and appeared not far away.

"As expected of a guy who can suppress Jinchuriki in close combat. It seems that it is not wise to fight with you in close combat."

Look, Su Xiao seemed to be thinking about something.

"I investigated you, but I didn't find anything. You seemed to appear out of thin air."

While talking, the top of the house where the two people were began to tilt and gradually fell.

Rumble!

The upper half of the hotel fell on the street, and the room where Su Xiao was was already open.

Not only here, but the two surrounding buildings were also in the same situation. The incision of the three buildings was the same height, and the fracture was as smooth as a mirror.

"Have you investigated me? What's the meaning of this? You must know that I am not a spy from other villages."

In addition to the Rock Village and the Cloud Village, Su Xiao offended the other three big villages, and soon, he would offend another village.

"The two above, come down and surrender, or you will be killed without mercy."

The warriors of the famous mansion of the Fire Country arrived. The martial force around the famous was made up of warriors. Ninjutsu was a minority. The cost of cultivating Ninjas was too high, and the Ninja Village monopolized the technology.

Su Xiao ignored the warriors below but looked at Obito.

"It seems that you are interested in the blood eye? Ah Fei."

Chapter 563: Cell

Although Obito had already opened his mouth and fought with Su Xiao, Su Xiao was not stupid enough to call him Obito. If he did that, he would not stop until he died, and the deal was completely out of the question.

"What do you want?"

Obito knew he could not take the blood eye, and even if he fought with Su Xiao to kill Su Xiao, Su Xiao would destroy the blood eye before he died.

"Let's talk somewhere else."

Su Xiao stepped on the ground and wanted to rush out of the city.

"Stop, catch these two thieves!"

A large group of guards chased Su Xiao, some of the guards surrounded Obito, and as for our Bobowang, he had mixed in with the guards at this time, "chasing" Su Xiao with the guards.

Ten minutes later, in a ruin near the famous city.

This place was full of gravel, and among the gravel were dense weeds. One could vaguely see the former grandeur of the ruins from some of the building debris.

In the absence of law, if one wanted to trade, the strength of the two parties must be similar or similar. Otherwise, the deal must not be established.

There was no law in the Naruto world, and Senlin law was popular here. If one wanted to trade with Obito, not to mention trading with this blood eye, which was of great significance to Obito, it was a necessary process to fight.

Su Xiao waited in ruins for a few minutes, and a space in the vicinity turned into a vortex and appeared with soil.

"Continue with the previous topic. What do you want?"

Obito sat on a giant rock, and it seemed he was not ready to continue fighting with Su Xiao.

"What do I want?"

Su Xiao waved his finger: "It should be what you are willing to pay. It doesn't matter who I trade this eye with for me so that I will give you a price."

Obito hesitated for a moment.

"I can give you a secret technique."

Su Xiao raised his eyebrows. Obito was indeed very rich, and he used a secret technique when he opened his mouth.

"Not interested."

"Then what do you want to get."

Obito's eyes narrowed, and his killing intent surged.

"What do you want? Since you can use Wood Release... I want the most primitive cells!"

As soon as Su Xiao said this, Obito was stunned and seemed to think of something. He clenched his fists under his sleeves.

"Impossible, normal cylinder cells can be provided to you. As for the most primitive cylinder cells can only be obtained when Senju Hasirama is alive."

"Forget it. I will go to other buyers."

Su Xiao got up and wanted to leave. Of course, Obito would not allow it.

"Wait, I have the cells of the primitive column, but that thing is not something that can be exchanged with a blood eye."

Su Xiao was stunned. He was just a lion opening his mouth and bargaining stage. He saw this concept from Orochimaru's experimental data.

The cells of the primitive column differed from the first generation cells obtained from the body. The vitality of the cells of the original column was stronger and harder to control. The cells transplanted by Obito, Danzo, and others were ordinary first-generation cells, which were the cells obtained from his body after the death of the column.

The vitality of these first-generation cells was a little low, and because of this, the experiments of Yamato could only use the garbage wood style without any vitality because Yamato transplanted the cells of the column after the death of the column.

There was a human body that had fused with the cells of the primitive column. That person was called Yu Zhibo Ban. Because of this, his blood eye could evolve into the reincarnation eye.

The cells in the body before death differed from those in the body after death. Orochimaru thought of this, so he proposed the concept of the cells in the primitive column.

What Su Xiao did not expect was that Obito had the cells of the primitive column. He did not expect at all that the inheritance of the spots seemed very rich, so rich that it made people speechless.

"The cells of the primitive column can be given to you. As a price, you have to help me do something for the blood eye and the blood eye."

"What is it?"

Obito jumped down from the giant rock, and his lips opened and closed as he spoke a few words.

A few minutes later, Obito finished his request.

"Are you eyeing those two brothers?"

Su Xiao was a little puzzled.

What did Obito want so many blood eyes for?

--This is a gorgeous dividing line - -

[Novel: Please pay attention to the rest of your eyes for a long time. Recommended reading:

--This is a gorgeous dividing line - -

.

"No, I want to cultivate a chess piece, full of hatred and a strong enough flag. The elder brother can't be used among the two brothers, but the younger brother is easy to use. Help me do this. The cells in the primitive column are yours."

Su Xiao pondered for a moment and shook his head.

"I can help you with that, but I want the cells of the primitive column now. This blood eye can be given to you now."

"Yes."

Obito agreed, and Su Xiao was surprised again. He felt something was wrong but could not think of it for a while.

Between the

"Wait for me here."

The space around Obito spun and disappeared.

After waiting for half an hour, spatial fluctuations appeared, carrying earth. In his hand was a test tube. Inside the test tube was a kind of emerald green solution. These were the cells of the original column that had been specially processed and preserved.

"Three."

Obito opened his mouth. Su Xiao immediately understood what he meant. This was because he feared his close combat ability and did not want to get close to him.

"Two."

This time, it was Su Xiao who spoke.

"One."

"One."

The two threw out the cells of the blood eye and the primitive column at the same time.

Su Xiao caught the cells of the primitive column, and the hint of the reincarnation paradise appeared.

[Rarity: Light Gold]

[Type: Material, Consumable, Bloodline type item.]

[Effect 1: Can be used for research.]

[Effect 2: Drink directly. Strength +20 after consumption, Agility +10, Stamina +30. After 300 seconds, the user will turn into a tree.]

[Effect 3: Inject into the body. The following situations will occur when the column cells are injected into the body.]

[60 chance of modification and death.]

[30 chance of obtaining +10 Strength, +10 Constitution, partial body modification.]

[6 chance of unknown mutation.

3 chance to obtain the physique of the Thousand Hand race.

1 chance to obtain Wood Escape Blood Limit.

Rating: 305

Description: The high concentration of activated cells of the Ninja God. Just the skin contact alone has the risk of being corrupted.

Price: 98,000 Paradise Coins

...

After checking the attributes of the cells in the column, Su Xiao's eyes trembled. What the hell was this 1 Wood Release?

"Ah Fei, how about we exchange it back?"

Obito was silent. After the space fluctuation appeared, it disappeared, and Obito ran away!

"Sure enough, this guy doesn't care about the cells in the column."

The cells in the original column were good things, but this was too dangerous. Obito only touched it once, and the result was that he was almost swallowed by the first generation cells, and then he was turned into a tree. If not for Zetsu helping him suppress it, Obito would have turned into a big tree before he left the mountain.

Su Xiao guessed that this 1 probability was prepared for those guys with special physiques. If he used the Pillar Cells, the strongest possibility was to cause the green steel shadow energy to fight with the Pillar Cells.

This bottle of Pillar Cells might be garbage in the hands of others, but Su Xiao was proficient in pharmaceuticals, and with the research materials obtained by Orochimaru, it was not impossible to transform the cells in the Pillar Cells.

He did not care about the Wood Release. What he wanted was the powerful vitality and recovery of the Pillar Cells. If he tried to get rid of the power of Wood Release, the rest was pure vitality.

This was not impossible to achieve. As far as Su Xiao knew, Orochimaru had succeeded.

Chapter 564: Xiao's Teeth

"It's troublesome. I just became hostile with that guy."

It was impossible to find Orochimaru at this time. After all, he had just searched the other party's lab.

Since Orochimaru could not do it, he could only go to Danzo, who had failed to run for village cadres. That guy was not good and evil, and there was a possibility of cooperation.

But before that, Su Xiao had other things to do: capture the four tails with the skunk team.

Just as Su Xiao was about to get up and leave, there was a fluctuation in the space ring. It was the long door calling him.

Looking for a concealed position, Su Xiao took it out and activated the air guard ability.

The eye of the apostle floated in the air, and the shape changed from a mechanical eye to a flying disk. The flying disk released dozens of wavelengths to scan the surrounding situation.

There were air guards monitoring the surrounding movements, and Bobowang was also patrolling nearby.

"Illusion Light Body Technique."

Su Xiao's eyes flashed, using Illusion Light Body Technique to consume mana. When he opened his eyes again, he was in a sealed cave. Gedo Statue had appeared, and he was standing on the fingers of Gedo Statue.

The members of Akatsuki captured Jinchuriki, and this was to begin to seal tailed beasts.

"Everyone is here."

The hands of Heaven made a seal, and the body of a female Jinchuriki floated up below.

"How many tails are these?"

Su Xiao was quite helpless. It was not good to join the Akatsuki. He needed to waste time sealing Jinchuriki.

"The second tail, I caught it. Where is the dog following you?"

Hidan opened his mouth and touched his cheek. He took the initiative to mention Bobowang. At this time, he and Kakuzu were the real bodies.

"Illusion light body, it is impossible for it to come."

"Is that so? Unfortunately, I still want to find it for 'revenge.'"

Hidan sighed. Kakuzu, on the side, turned his head. It didn't seem very comfortable to look at Hidan, but when Su Xiao saw Kakuzu, he wanted to laugh. It was said that this guy had fought with Zhu Jian, but the strength of the two sides was too much.

Could this guy be like the rumors, throwing a sword in his hand towards the pillar from eight hundred miles away...?

"Silence, the seal has begun. This seal will last for about two days."

"Two days? It seems like the seal has accelerated."

Hidan chuckled.

"Well, three-tailed beasts have been sealed. The golems will wake up a little, and the speed will certainly increase."

One tail was not the first sealed-tailed beast. There were two more in front, but Su Xiao had just joined the Akatsuki organization. Nagato did not tell him before.

At this time, looking at the eyes of the Gedo Statue, the nine eyes did open three.

Nagato and Obito personally captured the first two tailed beasts and then sealed them. After that, the two felt that the progress was too slow and began to recruit members to speed up the progress.

The boring and long seal began.

Two days later, Tiandao, who had not moved, opened his eyes.

"Very good. The seal is complete."

The corpse of the Two-tailed Jinchuriki fell to the ground. Just as everyone was about to leave, Tiandao spoke.

"We need to speed up the speed of capturing tailed beasts. The five great Ninja Village have already noticed our movements and will immediately send people to stop us."

After pondering for a moment, Tiandao looked at Weasel.

"Weasel, you, Byakuya, ghost shark, catch the four tails. It's still the original plan, but you must be fast."

"No problem."

Weasel nodded, and Tiandao looked at Deidara again.

"Deidara, you are in charge of capturing the Three-Tailed. Little Nan will tell you the exact location of the Three-Tailed."

"No problem, en."

Deidara's hands and feet had already been sewn together, and his combat strength had recovered. Moreover, he had a new teammate, Ah Fei, who was Obito.

"I will personally take care of the six tails. As for the remaining eight tails and nine tails..."

Tiandao looked at Hidan and Kakuzu.

"I will leave the eight tails to you two. Think about it after the nine tails. That's it."

The shadow of the Heavenly Axiom disappeared, and Su Xiao also removed the illusion light body and returned to his body.

Opening his eyes, Su Xiao lit a cigarette and took a deep breath.

"It seems that the matter of the tail has angered the long door and provoked all the people of Akatsuki."

If everything went smoothly, these tailed beasts would be sealed in ten days at most. Of course, everything would go smoothly.

In these teams of catching-tailed beasts, the future of Hidan and Kakuzu was worrying because the fourth generation thunder shadow of the Cloud Village was somewhat strong, and the two pillars who had already Mangekyo were almost kicked to death by the strong man.

The body strength of the thunder shadow was too high, and it was unknown whether Hidan could get the other party's blood.

Not thinking about this, Su Xiao wanted to seize this opportunity to catch the four tails. This was the last-tailed beast he could catch.

Su Xiao rode on Bobowang, and one man and one dog headed straight to the grass country at the border of the country of fire. Skunk and ghost shark was nearby.

...

Three days later, at the border of the country of fire.

Su Xiao sat on the edge of a cliff, playing the decryption game with a tablet in his hand. Bobowang stood on a towering rock and roared at the sky. He looked like he had awakened his royal blood.

"Stop howling. You keep howling in the morning."

"Ow ---"

Bobowang let out a wolf roar and looked carefree.

"This idiot."

Su Xiao did not care about Bobowang and continued to play the decryption game.

A few hours later, footsteps came. Su Xiao did not look back. He had already sensed who it was.

"Have you been waiting for a long time?"

The person spoke.

"It's just one day."

Su Xiao put away the tablet and stretched. It was Weasel, Ghost Shark, and Xianglin.

Looking at Xianglin, the red-haired girl was a little listless and yawned repeatedly.

"Even if I am a prisoner, the treatment should not be so bad."

Xianglin was seriously short of sleep and protested. Su Xiao and the other two obviously did not pay attention to Xianglin's protest.

"Where is the approximate location of the four tails?"

"Earth Country, near Da Chuan Valley."

The location mentioned by Weasel was barely accurate. The area of Da Chuan Valley was not small, and it was not easy to find the four-tailed Jinchuriki there, so he needed Xianglin.

"The four-tailed Jinchuriki affiliated to the Rock Village, named Laozi, stubborn. Because he was at odds with the fourth Hokage 2 days, he left the Rock Village in his early years but did not leave the Earth Country."

Su Xiao was clear about this information, but there was one thing he could not confirm.

"If we catch the Four-Tailed Jinchuriki, Big Onoki's hometown wouldn't make a move, right?"

The strength of the Third Generation Earth Shadow was unquestionable.

"It's no problem to move faster."

"Then let's go."

Su Xiao got up, and the team of four went straight to the country of the earth.

The country of grass was in the gap between the country of earth and the country of fire. Because of this, skunk chose to gather here.

The country of grass was very small, and they traveled at full speed, crossing the country of grass in less than a day.

The next morning, a towering rock wall appeared in front of them, and the country of the earth was in front.

More than half of the Earth Country was a desolate rock wall. The rocks of different heights blocked the traffic. The land was scarce, to begin with, and with the inconvenient transportation, the economy of the Earth Country could be imagined.

However, the third generation of the Rock Village, Onoki, was very capable. It was true that his country did not have resources, but he could plunder and support the small countries around him.

Therefore, the small countries around the Earth Country suffered, such as the Grass Country, the Bear Country, and the Ghost Country.

These small countries were not strong enough. They could only grit their teeth and endure even if they were bullied. Under this policy, the economy of the Earth Country was not bad. Although it was not as rich as the Fire Country, it was much richer than the Water Country and the Sand Country.

The country of water was the most bitter, and there was no way to rob it. There were no small countries around, only fishing.

...

After a day in the country of the earth.

The strong wind blew. Su Xiao put his hand in front of him, and the small gravel was blown up by the strong wind, hitting his face with dull pain. This was the famous climate and rock rain in the country of the earth.

"There is Da Chuan Valley in front. Have you sensed the special chakra?"

Weasel asked Xianglin, who shook his head.

"I haven't sensed it."

Su Xiao walked to the side of Xianglin and held Xianglin's shoulder with one hand. Xianglin's body was very soft, and there was a faint fragrance. This fragrance was not perfume or somebody's fragrance that was said to be from some hearsay. It was a faint fragrance of special energy.

"It seems your treatment in the past few days was not good."

Xianglin shrank his neck and whispered, "It's... it's okay."

Su Xiao's sudden enthusiasm made Xianglin feel bad.

"Find the Yonbi within three days, or I will kill you."

Xianglin, who had been suffering for the past few days, had tears in her eyes. She did not dare to be lazy anymore and increased her perception range.

"Well... It seems that I have found it. I feel a hot Chakra, and the amount is terrifying. It is a Biju level."

Chapter 565: Magma

"Where is the specific location?"

The Yonbi can create and control magma, which is the Lava Shield, so the hot and huge chakra is very likely to be the Yonbi.

"This direction."

Xianglin pointed to the left direction, which was the center of Da Chuan Valley.

"The center of Da Chuan Valley?"

Weasel revealed a thoughtful expression and did not move.

"What's wrong?"

Ghost Shark and Weasel had been partners for a long time and immediately understood what he meant. He raised his hand and placed the shark skin in front of Xiang Lin's neck.

"There is a volcano under Da Chuan Valley, and the center is a magma lake. The 'river' in Da Chuan Valley represents the magma lake."

Su Xiao also understood the meaning. The four tails were good at melting shields. Lava shields could make and control magma. That kind of terrain was a natural advantage for the four tails Jinchuriki.

"That chakra has traces of movement?"

Su Xiao looked at Xianglin sideways, and Xianglin shook his head after sensing for a while.

"There is no trace of movement. That chakra is very close to the magma lake."

After listening to Xianglin's words, Su Xiao was silent.

It was a very stupid choice not to fight with the four-tailed Jinchuriki in the magma lake of Da Chuan Valley.

"The four-tailed Jinchuriki left the village because he disagrees with the third generation Earth Shadow. What is the specific reason? It is not a trivial matter for Jinchuriki to leave the village."

Su Xiao wanted to find an opportunity from the character weakness of the four-tailed Jinchuriki.

"It is said that it is because of the choice of the next four-tailed Jinchuriki. The third-generation earth shadow wants to train a teenager as Jinchuriki, but the old purple refuses Zetsu, and the fate of Jinchuriki is very miserable."

"Oh? That is to say, and the four-tailed Jinchuriki has some sympathy?"

"The general situation is like this."

A smile appeared on Su Xiao's face. His eyes looked at Xiang Lin. The ghost shark also thought of something and looked at Xiang Lin.

"Xiang Lin, how is your voice?"

Su Xiao hugged Xiang Lin's shoulder again, and Xiang Lin's body shook.

"It's... it's okay."

Xiang Lin felt that things were not good.

"Well, then shout until your throat is broken."

"Huh?"

Xiang Lin was surprised. Su Xiao grabbed Xiang Lin's clothes and pulled hard.

With a tearing sound, Xiang Lin's fair arm was exposed. This arm was full of teeth marks. Xiang Lin's special ability caused this.

Pulling out the Dragon Slash, Xiang Lin drew a bloody mark on Xiang Lin's arm, and Xiang Lin was completely dumbfounded.

"Now you can shout, lie on the ground, and shout."

"Oh? Oh."

Xiang Lin understood what Su Xiao meant.

Su Xiao and the other two hid in the distance. Xiang Lin took a deep breath.

"Help..."

Xiang Lin shouted weakly, ghost shark Kakuzu's eyebrows were trembling.

"Help ---"

Still weak, it seemed that he had not eaten.

A black pistol appeared in Su Xiao's hand, aimed at Xiang Lin's calf from a distance, and fired.

Bang, a bloody bullet hole appeared. Xiang Lin looked painful. Su Xiao aimed the gun at Xiang Lin's head.

"Help!"

The high-decibel female scream spread and her voice echoed in the valley for a long time.

Xiang Lin shouted and crawled forward with difficulty. Her acting was very realistic.

Was this acting? At that time, Xiang Lin knew that if she didn't work hard, a hole would be opened in her head.

After shouting for five minutes, Xianglin was out of strength. He lay limply on the ground, looking like he was going to kill.

Weasel frowned and seemed to want to stop this scene. After looking at Su Xiao in the distance, Weasel could only sigh.

Weasel was never a traitor. Although he was now a member of Akatsuki, he would try his best to avoid killing innocent people in the mission.

The current situation was not something that Weasel could stop. Just Su Xiao alone would not be able to pass.

Da, da, da...

The sound of stepping on rock came,

A middle-aged man with a fiery red beard, dressed like a cloud monk, walked out of the valley. It was the four-tailed Jinchuriki, Old Zi.

Old Zi was about 50 years old, dressed in tattered clothes. His fiery red hair was tied into short braids, and he wore a rock Ninja's forehead guard. There were no scratches on his forehead guard. This meant that Old Zi was not a rebel. He was incompatible with the third-generation Earth Shadow Village, but it did not mean that he was sentenced to Ninja Village.

"Little girl."

Old Zi walked to the front of Xiang Lin. Xiang Lin looked at Old Zi with tears in her eyes.

"You are the companions of those three people. You don't have to suffer anymore when I come out."

Old Zi's words stunned Xiang Lin, and he lowered his head.

"I... I am not their companion. Run. Even if you are Jinchuriki, you are not a match for those three monsters."

Hearing Xianglin's words, a gentle smile appeared on their face of Purple.

"You are a perceptive Ninja."

Xianglin nodded.

"Before I became Jinchuriki, I was also a perceptive Ninja. From the nature of a person's Chakra, I can sense that person's generally good and evil. What a kind little girl. Get up and stand behind me."

Purple patted Xianglin on the shoulder. Xianglin's face was even more ugly. She would rather the four-tailed Jinchuriki be a villain than such a kind middle-aged man.

Xianglin sensed that the old purple chakra was very peaceful. Although it was Jinchuriki, the chakra gave people a warm feeling.

"Get up, and those three people are coming."

Xiang Lin shook his head.

"Sorry, sorry."

"No, you want to live. I sensed what happened here before."

Old Zi stood up and looked around.

"Yonbi, it's time for us to move. We can't improve our tacit understanding."

"Tsk, whatever you want."

The Yonbi communicated with the old purple through his consciousness. Although the old purple was stubborn, he was a well-known ninja, so he was not qualified. The old purple knew that, so he threw away his identity as a ninja and became a cloud-traveling monk.

"Xianglin, you became one with the enemy so quickly. As expected of Orochimaru's subordinates."

Su Xiao appeared from the hillside behind the old purple and cut off the path of the old purple.

"Ghost shark, pay attention to using water to suppress it."

Weasel and Ghost shark came from the front two sides, just forming a triangle with Su Xiao.

"You are here to find me, and you are from the same organization."

Old Purple looked at Su Xiao behind him and turned to see Ghost Shark and Weasel in front of him.

Weasel's blood eye opened slightly, and Old Purple was stunned in place. Ghost Shark held shark skin and rushed forward. Weasel had already used an illusion just now.

Su Xiao stepped on the ground and rushed to Old Purple with Ghost Shark.

"Wait."

Weasel shouted, but it was already too late.

"Lava Shield - Rock Burst."

Old Purple's hands were flying. His hand seals were very fast. His lower abdomen expanded, and a large amount of lava spurted out his mouth. The lava was mixed with red-hot stones.

All the lava rushed towards Ghost Sharks. Ghost Sharks were stunned. Their illusion technique had been broken in seconds. This was something that had never happened before.

The lava rushed towards them. Ghost Sharks stopped in their tracks and casually inserted their shark muscles into the ground. They formed hand seals with their hands.

"Water Escape - Great Shark Bomb Technique."

The water rushed out from the foot of the ghost shark, forming a giant water shark that rushed to the magma.

The magma collided with the water shark. With a bang, the water and magma splashed. After the water touched the magma, it made a sound. The water vapor rose, and the surrounding became foggy.

Taking this opportunity, Su Xiao had already rushed behind the old purple and slashed toward the back of the old purple's neck.

The long sword cut through the air and made a sound. The green steel shadow energy on the body of the sword surged.

Chapter 566: Don't Eat Me!

Old Purple felt the chill after coming to him. He put his hands together, his whole body was wrapped in a Chakra suit, and his four tails intended to block Su Xiao's attack.

Clang.

The dark red tailed-beast suit was broken instantly, and Old Purple, who was confident enough to turn his head to look at Ghost Shark, was stunned.

Pfft.

Blood splashed, Su Xiao cut through the back of the old Purple, the ferocious knife wound appeared, and the pale spine could be vaguely seen in the wound.

The old Purple was a perceptive Ninja, so he did not feel the Chakra in Su Xiao's body. He only thought that Su Xiao was good at the sword, which made the old purple pay a painful price.

The old purple body leaned forward, the green steel shadow energy merged into his body, and his face was full of pain.

Hu ---

The sound of wind breaking came. It was Ghost Shark who brandished the shark muscle to slash at Old Purple.

With a bang, the shark muscle smashed on Old Purple's stomach, and the shark muscle absorbed a large amount of chakra. This ninja knife trembled excitedly, and its size increased.

"Oh? It made the shark muscle excited to this extent. It seems that it likes your chakra very much."

With a piercing sound, the bandage wrapped around the surface of the shark muscle was pierced, revealing black spikes.

Old Purple flew in the air, his hands instinctively forming seals.

"Lava Shield..."

"Raven."

Old Purple's ninjutsu had not been used yet, and the skunk not far away had already turned into a large flock of crows.

"Illusion technique!"

The four tails inside the body of the old Purple immediately released a large amount of chakra, dispersing the chakra composition inside the body of the old Purple, which could make the illusion break by itself.

Jinchuriki had a natural advantage: he would not be affected by most of the illusion techniques. Of course, this was related to the strength of the illusion technique. If the illusion technique were too strong, even Jinchuriki would not be able to break it.

Weasel's illusion technique was obviously very strong, and just when the old Purple thought that the illusion technique had been broken, many crows rushed towards him.

It was not the case. There was no crow, and the old Purple stood still in the sight of everyone, his hands forming a seal.

If you looked carefully at the eyes of the skunk, you would find that the blood eye of the skunk was already in the form of a kaleidoscope.

With the help of the skunk to control the old Purple for a moment, Su Xiao rushed forward. The blue smoke on his left hand rose, and he grabbed the back of the old Purple's neck directly.

The blue smoke filled the air, and a strong suction appeared. Su Xiao operated the nucleus of devouring to the maximum.

Weasel and ghost shark are still nearby, so the speed of absorbing the Biju Chakra is faster.

A large number of Biju Chakra poured into Su Xiao's body. Ghost shark and skunk witnessed this scene, but the two did not stop it because the naga had also absorbed the Biju Chakra.

"Who are you!!"

A roar that only Su Xiao could hear came. This was the voice of the Yonbi.

Su Xiao ignored the voice. Just as the four tails wanted to roar again, a blue smoke wrapped it.

The four tails tried to struggle, but the blue smoke wrapped it up, and it could not move.

The Biju Chakra absorbed by Su Xiao was stored in the energy ball near his heart. The Biju Krait began to transform as soon as it entered the energy ball, turning into colorless energy.

The colorless energy just appeared in his body, and the blue steel shadow energy in his body began to become active, almost instantly wrapping this colorless energy. The blue steel shadow energy began to become stronger after swallowing the colorless energy.

At this time, the four tails in Old Zi's body were wrapped in blue smoke, only revealing a head, and his expression was somewhat stunned.

"Humans absorbed me? No, this is absorbing my origin power!"

The four tails were different from the one tail. He did not beg for mercy but struggled with all his might, trying to break free from the blue smoke.

Old Zi's eyes suddenly opened in anger. He broke free of the illusion of skunk, but he could not even speak now.

The strength of the old Purple was not weak, but that was relative. In the original work, Ghost Shark alone fought against the old Purple, and now the old Purple was facing the siege of three people.

Su Xiao was responsible for close-range suppression, Ghost Shark resisted the attack of the old Purple directly and used water to restrain the melting shield of the old Purple, and Itachi was looking for an opportunity to use illusion on the old Purple.

If it were near the magma lake in the center of Da Chuan Valley, the old Purple might be able to resist for some time, but he believed in his strength too much, so he took the initiative to approach Su Xiao and the other two.

The long-term hard work caused the old Purple not to understand the outside world. He did not know that there was such an organization as Xiao, and he did not know much about Su Xiao and the other two. He rarely met opponents in the earth country, and his self-confidence became arrogance over time.

Under the siege of Su Xiao and the other two, the melee, tank, support, and long-range firepower, Old Purple was defeated before he could use his real strength.

If the three of them worked together to deal with a four-tailed Jinchuriki, it would be a fantasy.

After more than ten seconds, Su Xiao's eyes turned pale blue. Xiang Lin, hiding on the side, crossed his arms and his body trembled slightly.

"What is this feeling? This is not something that humans can do."

Xiang Lin whispered. Su Xiao's light blue eyes suddenly looked at her.

"Delicious stuff."

"Eh?"

Xiang Lin's throat was dry, and her eyes were full of horror.

Because of the large number of Bijū Chakra, a blue flame seemed to rise in Su Xiao's heart.

At this time, the body of the Yonbi was already thin. The light in its eyes began to dim. It was going to die.

"Byakuya, Byakuya!"

Weasel shouted twice. The pair of bloody eyes stared at Su Xiao, and he felt that Su Xiao was very dangerous now.

The blue light in Su Xiao's eyes gradually receded, and he tried to suppress that greedy desire. He could not be affected by that desire.

After a moment, Su Xiao let go of the old Purple, and the old Purple fell to the ground with a thud.

A faint burnt smell came. Su Xiao, who had recovered consciousness, looked at his left hand. The surface of the metal arm guard on his left hand was red, and the hand inside the arm guard was seriously burned. He had vaguely lost consciousness.

The old Purple used defensive ninjutsu before. The body's temperature was high, and Su Xiao's hand was seriously burned.

Although his hand was severely burned, he had gained a lot. Qing Gang Yin had upgraded to level 6. One must know that each level of Qing Gang Yin above level costs 10 soul crystals and 5000 paradise coins.

Fortunately, he could devour core. Otherwise, upgrading Qing Gang Yin and sword master would bankrupt Su Xiao.

The numbness came from his left hand. Su Xiao frowned. This would affect his battle.

Ghost Mermaid stepped forward. After confirming that Old Purple could not resist, he used shark muscles to lift Old Purple on his shoulder.

"The progress is smooth, but Jinchuriki's injury is serious."

The scar on the back of the old Purple was shocking, and he was losing a lot of blood.

"With Jinchuriki's vitality, this injury won't die. Just simply bandage him."

When Ghost Shark and Weasel dealt with the old Purple, Su Xiao walked to Xiang Lin. His left hand was seriously burned, and Xiang Lin just had the healing ability.

"It seems it is the right choice to bring you here."

Su Xiao approached Xiang Lin, who was already very afraid of Su Xiao and was slowly retreating.

"You... What are you going to do?"

"Your Chakra gives me a very special feeling. Maybe it can help me recover from my injuries."

Su Xiao raised his left arm, and Xianglin remembered the scene where the old purple chakra was lost.

"Don't eat me, just bite me."

Chapter 567: Good News

Xiang Lin pulled up the clothes on his sleeves, and his white arms were full of dense teeth marks.

Su Xiao looked at the teeth marks, and there was no desire to bite them. He opened the collar of Xiang Lin, and there were teeth marks on Xiang Lin's shoulder.

Su Xiao looked around. Xiang Lin's arms and shoulders were full of teeth marks. He could not bite the female characteristics of Xiang Lin. It was too dirty, but there were no teeth marks on Xiang Lin's white neck. He took a bite.

"Don't go there... Ah ---"

Xiang Lin's head was raised, and his face was flushed.

After biting Xiang Lin's neck, the rich life force was transmitted into Su Xiao's body. His left hand, already half-cooked, began to shed quickly, and he was reborn quickly.

Su Xiao let go a few minutes later, and Xiang Lin touched his neck. There was no blood, only a bite mark.

Su Xiao removed the left arm guard and poured the dead skin inside. His left hand was slightly white, and there was no other problem.

"What a convenient ability."

Su Xiao looked at Xianglin. Although the other party's ability was good, he could not use it many times.

In the original work, Xianglin had bitten Xianglin too many times, causing Xianglin's cells to mix into his body. In the end, the daughter of the two pillars did not look like her own wife. Instead, she looked similar to Xianglin. Xianglin's myopia was inherited from the daughter of the two pillars.

The injury recovered. The green steel shadow energy in Su Xiao's body poured into his left arm and quickly cleaned up the cells belonging to Xianglin.

Four tails capture complete, the hint of the reincarnation paradise appeared.

[Four tails capture completely.]

[You have obtained 6 of the world source.]

[You have obtained 1000 contribution points for the Akatsuki organization.]

...

Capture the Yonbi to obtain some World Sources. The amount can not be compared to when capturing the One Tail. Although this World Source is small, the Akatsuki has 1000 contribution points, 400 points more than catching the One Tail.

The reason was very simple. Although the last time they successfully captured the One Tail, it alarmed Konoha and the Sand Village. After completing Akatsuki's mission, the last mission was far less straightforward than this time.

Enter the Earth Country → find Jinchuriki → - lure Jinchuriki out → - defeat Jinchuriki → and retreat. The whole process did not last more than two days. During this period, no one was alarmed, so the contribution points of the Akatsuki were naturally higher than last time.

The three of them took the dying four-tailed Jinchuriki and rushed to the border of Earth Country. This time, the seal's location was in Iron Country and was not close to the location of Earth Country.

Riding on Bobowang's back, Su Xiao looked thoughtful. He was thinking about how to kill the Meerkat as soon as possible. No, it should be to let the Meerkat meet with the two pillars as soon as possible so that the Meerkat would receive the bento. This would save more effort, and he had already agreed with Obito. He did not intend to break the agreement.

According to the situation's progress, as long as the Meerkat died, Nagato would soon attack Konoha, and Su Xiao's main mission would be possible to complete.

As for attacking Konoha alone, Su Xiao never had this idea. It was suicide.

...

There were no twists and turns along the way. A few days later, the three successfully arrived at Iron Country. Su Xiao injected several bottles of beginner alchemy secret medicine during this period into old purple to ensure that old purple did not die.

Iron Country was still covered in snow. The three people stood in front of a big snow mountain. Ghost sharks began to form seals. A rock wall under the snow mountain trembled, and the snow scattered. A cave appeared.

The three people walked into the cave. The cold wind blew in from the cave entrance, and the fire in the cave swayed. This was the place where the tailed beasts were sealed.

According to the original plan, four tailed beasts will be sealed together: three tails, four tails, six tails, and eight tails. Of course, this is the case of the plan going smoothly.

"It seems that someone has already come forward, and it is not a loss that he is the leader."

As soon as the Ghost Mermaid entered the cave, she saw the Heavenly Dao inside the cave. A Jinchuriki was lying beside the foot of the Heavenly Dao. It was six Jinchuriki and a handsome long-haired man. Su Xiao did not remember the specific name.

"The speed is good."

Tiandao nodded to the three of them.

"This way, we will wait for Deidara's and Kakuzu's team."

Su Xiao found a seat in the cave and sat down. The cave fell into silence.

This silence lasted for a whole day. Bobowang rolled around in boredom until the cave opened again. The cold wind blew in, and a behemoth was thrown into the cave.

It was the Three-Tailed, the Three-Tailed was in a wild state, and there was no Jinchuriki.

"Senior Deidara, we are so fast. We must be first."

"Of course, yes."

Deidara and 'Ah Fei' walked into the cave.

"Ah, ah, there are people who are faster than us. Disappointed."

Ah Fei lowered his head with his hands, looking defeated.

"It's all because of you. There is no use in the mission. Are you in charge of being funny?"

"Even this was seen through by Senior Deidara. It's no loss that you are a senior. Haha."

Deidara and 'Ah Fei' walked into the cave.

"The speed is too slow."

Heavenly Dao was somewhat dissatisfied. The Akatsuki organization was so crazy about capturing tailed beasts that the five great Ninja Village would be alerted.

"Now, we are only missing a pair."

Su Xiao sat cross-legged in the cave and maintained the dragon flash. Although the sheath of [Divine Twilight] had the function of repairing the dragon flash, it was necessary for daily maintenance.

"Don't wait for them."

The Heavenly Dao spoke.

"Huh?"

"Could it be..."

"It seems that the combination of the fourth generation Thunder Shadow and the eight-tailed Jinchuriki is worthy of its reputation. They killed the zombie duo."

Everyone thought that Hidan and Kakuzu had died in the hands of the fourth generation Thunder Shadow and the eight-tailed Jinchuriki.

"Kakuzu and Hidan died in the hands of a mysterious force. That force probably sent over a hundred people to besiege them."

Hearing this sentence, Su Xiao immediately thought of something. He opened [

"Oh? These guys are unexpectedly strong."

Through the words of the derivative world communication platform, Su Xiao saw who killed Kakuzu and Hidan. It was the Blood Gate adventure group.

Hidan and Kakuzu might have been targeted by the Blood Gate even before they found the Eight-Tailed Jinchuriki. The contractor understood their information, which caused half of Hidan's ability to be crippled.

As for Kakuzu, hundreds of second-rank contractors besieged him, which was enough to kill him, not to mention that the leader of the Blood Gate adventure group, Stan, was not only a second-rank contractor.

In the Naruto world, Su Xiao got benefits, and the Blood Gate people also got a lot.

Compared with the Blood Gate adventure group, the God King adventure group chose other ways to get benefits. It was said that the God King had already connected with Danzo and was working for Konoha.

As for Gulu, who everyone was looking for, this little girl who loved to kill and eat sugar disappeared into thin air, disappearing with a set of demon hunting, and the three large adventure groups hated him so much that their teeth itched.

The Naruto world was very big, and the main mission of each force was different, which greatly reduced the friction between contractors.

"Since everyone is here, then let's start. This time it will take at least four days."

The Natural Law summoned Gedo Statue, and the long and boring seal began.

If Su Xiao did not guess wrong, this was the last time he participated in the sealing of tailed beasts, and then his attention would be focused on skunk.

The three tailed-beasts were sealed together, and Tiandao noticed that the four tails were somewhat abnormal. After all, it was captured by the ghost shark, and it was barely normal for the tailed-beasts' Chakra to be absorbed.

However, the four tails were swallowed by Su Xiao a bit too fiercely, and they looked like they would die at any time.

"Byakuya, is this your ability?"

Tiandao looked at Su Xiao.

"Yes."

Tiandao did not say anything else. Su Xiao had helped the Akatsuki to catch two tailed beasts. Ghost shark looked at Su Xiao, the corners of his mouth curled up, and Weasel pretended not to see it.

Four days later, Su Xiao stretched. These four days could be said to be extremely boring. Bobowang began to chase his tail to play. He turned faster than a snail and did not stop until he almost vomited.

"Very good. In this way, there are eight tails and nine tails. These two tail-beasts will catch as soon as they have the chance."

Tiandao looked at Weasel intentionally or unintentionally. Weasel was silent. He had asked Tiandao before that the Kyubi was his target.

Xiao Nan spoke just as everyone was about to leave the free activity.

"There is an important piece of news. Orochimaru is dead."

Hearing Xiao Nan's words, Su Xiao smiled.

Chapter 568: You Can't Escape

"Orochimaru is dead?"

Deidara obviously could not believe it. He had fought with Orochimaru before and knew little about his opponent's survival.

"Who did it? Zetsu is not an ordinary person to be able to kill Orochimaru."

"I'm not sure."

Konan shook her head. She had only received the news of Orochimaru's death, but she did not know the details.

"Uchiha Sasuke!"

Black Zetsu suddenly spoke, his voice hoarse.

"Uchiha?"

Everyone present looked at Itachi.

"If I remember correctly, that's Itachi's younger brother."

Ghost shark and Itachi were teammates, so they knew more about Itachi.

"Itachi's younger brother?"

Nagato frowned. The sign would be very different if the Uchiha were a pair of brothers. If both brothers opened their Mangekyo Sharingan, then after transplanting the eyes of the other party, they would be able to awaken Eternal Mangekyo Sharingan. Above Eternal Mangekyo was Rinnegan.

Su Xiao had always had an idea. The two brothers of the Uchiha clan had to transplant the eyes of the other party to obtain Eternal Mangekyo. After possessing Eternal Mangekyo, the burden of

using the eye technique would be reduced, and there would not be a situation where their vision would decline.

What would happen if the two brothers exchanged eyes? Wouldn't there be two pairs of Eternal Mangekyo?

Of course, this was only Su Xiao's guess. Whether it was established or not, it was very likely that it was not established. Otherwise, Eternal Mangekyo would not be so few.

"Senior Itachi, your younger brother is also a rebel?"

Ah Fei suddenly spoke, but Itachi did not say anything.

"Senior Itachi, why don't you let your brother join Akatsuki as well..."

As soon as Hoodlum finished speaking, he discovered a pair of blood-red eyes staring at him. It was Itachi, who had already activated his Mangekyo Sharingan.

"Senior Itachi?"

"Amaterasu!"

Blood flowed out from the eye socket of Itachi, and Ah Fei, who was also Obito, narrowed his eyes.

"Shinra Tensei!"

Boom.

A strong repulsive force spread from the body of the Heavenly Axiom. This repulsive force was aimed at the flames of the Heavenly Reflection. Su Xiao and others were also affected.

An energy shield that consumed 100 points of mana was generated in front of Su Xiao. With a click, the energy shield had a small crack. He stood in place and did not move.

"Itachi!"

Tiandao looked at Itachi. He did not expect that Itachi would suddenly make a move, which was a ruthless method.

"Ah? What happened just now?"

"Ah Fei, you will die if you tease me like this."

Su Xiao opened his mouth, and Ah Fei laughed dryly.

"Sorry, sorry, Meerkat... Senior."

Itachi still did not speak and walked out of the cave in silence. The ghost shark hesitated for a moment and chose to leave with Itachi.

"Byakuya, spy on Itachi. Find an opportunity to kill him if you find something wrong."

Tiandao left this sentence in a low voice and left the cave with Xiao Nan.

"What a harmonious and beautiful scene."

Deidara smiled and left. It was normal for Xiao to have internal strife. There were too many rebellious and rebellious people gathered here.

Only Su Xiao and

"Does this mean he doesn't want to hide it anymore?"

Obito opened his mouth, using his voice.

"Who knows? Itachi's personality is unlikely. This might be a warning."

"A warning? There is indeed such a possibility." Obito pondered for a moment and said in a low voice, "I will leave the rest to you as a reward for the cells of the Pillar."

"Well, aren't you afraid that Itachi will kill his brother? After all, no one wants to die."

Hearing Su Xiao's words, Obito sneered.

"No, Itachi can do a lot of things for his brother. His thinking is very strange. For the village's peace, he can kill his own family, but he can't bear to kill this brother."

The space around Obito rotated and disappeared.

Su Xiao stood in the same place and lit a cigarette. Because of his action of joining Akatsuki, the original plot was basically in a half-collapsed state, such as Deidara did not go to find Sasuke.

The number of people in the Akatsuki organization was getting fewer and fewer. Originally, three of the ten main forces died, and the remaining people died or were on the road to death.

The team battle was fierce, so why did they have to send them one by one?

No, two to three members of the Akatsuki organization are already the limit.

Previously in the Scorpion team, the team had no less than five times internal strife. If ten people acted together, the enemy would not be destroyed, and the members would fight each other.

It was true that these rebels were strong, but everyone had independent thoughts and perseverance.

"This is going to break up."

Su Xiao spat out a mouthful of green smoke. He was not worried about whether Xiao San would break up or not. He had already swallowed the chakra of two tailed-beasts.

"However, where are the other contractor?"

Su Xiao slowly left the cave.

...

On the snow mountain of Iron Country, a woman in a single dress quickly ran on the snow, leaving a trail of footprints.

After running for a long time, the woman stopped, panting. She sat in the snow and faced the sky. Her red hair slid down her shoulders to her chest.

"Ha, ha, ha..."

The woman was somewhat unable to believe she could escape from the Demon Claw. She repeatedly confirmed whether the chakra in her body was stable or not and whether there were any signs of falling into illusion.

After several times of confirmations, the woman finally felt at ease. She indeed escaped, and tears fell from her cheeks.

"Finally, I don't need to see that demon again."

Xianglin had never been so happy because one of the Akatsuki organization's dead fish eyes, 'Shulik, 'unexpectedly escaped by luck.

"Oh? You don't need to see anyone?"

Su Xiao stood behind Xianglin with a cigarette in his hand.

Hearing this voice, Xianglin's eyes widened, his pupils shrank to the extreme, and his calves trembled uncontrollably.

"You, you, you..."

"Ha ---"

Su Xiao chuckled and looked down at Xiang Lin.

"How long do you think you can live? The alchemy bomb can be maintained in the human body for half a month. After half a month, it will explode because of the structure's instability."

Xiang Lin lowered her head. Of course, she knew a bomb was in her abdomen, but compared to staying in the Akatsuki. She would rather take the risk to escape.

Su Xiao squatted down and pressed Xiang Lin in the snow. Xiang Lin did not move as if she had been played.

"Blergh ---"

Xiang Lin made a retching sound, and she spat out a small alchemy bomb.

"This is... the bomb?"

Xiang Lin's face was full of disbelief.

"If it is not a bomb, can you lay eggs from the mouth?"

Su Xiao looked at the alchemy bomb full of saliva. The idea of recycling was dispelled. He took out a winter coat, threw it to Xiang Lin, and took out a map and food.

"Look here."

Su Xiao pointed to a spot on the map. Xiang Lin was stunned, and her brain could not think.

"This is where you are... If you dare to be stunned again, I will kill you."

Hearing Su Xiao's words, Xiang Lin nodded quickly. Although she did not know what had happened, the situation was that the other party was not ready to kill her.

"This is where you are."

Su Xiao pointed at a spot on the map. It was the border of the Iron Country, and Xiang Lin firmly remembered the shop.

"What did you do for the big snake pill before?"

"Look... look at the stronghold in the south."

"Go back and continue to guard it."

"Huh?"

Xianglin was even more surprised. Even if she could go back, it was already merciful for Orochimaru not to kill her.

"Don't worry, Orochimaru is already dead."

"Orochimaru sama is dead"

"Yes, remember every word I say, or the next time we meet will be the time of your death."

Xianglin wanted to cry, and she didn't want to see Su Xiao again.

Chapter 569: Why Don't You Go to the Sky

"Go back and guard Orochimaru's stronghold. Later, someone will come to find you, go with him, and tell him..."

"That... Wait a minute." Xianglin summoned up his courage and said.

"I am now your spy? What method will you use to control me?"

After Xiang Lin said this, he concentrated on observing the change in Su Xiao's expression.

Su Xiao went up and down look at. He suspected that this woman had persecution delusion. He did not hurt her much except by giving her a shot. Was he so terrible?

Although Su Xiao thought this way, the actual situation was that he was completely a big devil in Xiang Lin's heart.

"Spy? No, don't interrupt me."

"En, en."

Xianglin nodded quickly, like a chick pecking at rice.

"I told you to continue guarding Orochimaru's stronghold. If someone comes looking for you, you should go with him. Whether or not you become his subordinate, you can judge for yourself. You only need to tell him one thing."

"What words?"

"If you want revenge on Itachi, you can come to the Divine Bridge Mountain of the Fire Country to find me."

Xiang Lin organized his thoughts and finally nodded.

"The food is enough for you to use for five days. As for fresh water, you can eat snow a few days ago. After you leave Iron Country, you can think of a way yourself. If there is no river, drink dew."

"Dew..."

Xianglin wanted to complain. She was not a grasshopper, so why would she drink dew?

"Do you understand?"

"I completely understand. I will return to Orochimaru's stronghold and wait for someone to find me. Tell him that if he wants to find Itachi for revenge, he can go to God bridge Mountain to find you."

"Your understanding is good. I will not kill you next time we meet if you do this."

Xiang Lin calmed her emotions. Although her heart was full of doubts, she knew she would not be in danger for the time being.

"Still not leaving? Could it be that you want me to 'send you'?"

"Goodbye!"

Xiang Lin raised her leg and ran. She ran faster than a rabbit, and her speed was so fast that even Bobowang was surprised.

"Wouldn't it be too troublesome to do this? Wouldn't it be better to let your brother go to you directly?"

Su Xiao looked at a crow not far away. The crow looked at the distant phosphorus.

"Forget it. As a teammate, it is no problem to help you do this small thing. Don't forget to reward me after stealing your brother's eyes."

Su Xiao rode on the back of Bobowang, and Bobowang ran out of the snowfield. A moment later, Itachi appeared.

The Amaterasu before was because Itachi had already noticed Obito's identity. Although he was not clear about his specific identity, he knew that Obito was an Uchiha.

"That's no problem. After that, you can only rely on yourself, Sasuke."

A gentle smile appeared on Itachi's face. He had been waiting for this opportunity for a long time and had done many unwilling things for it.

...

Three days later, in a mountain range.

This mountain range was located in the territory of the country of fire. Because at the beginning of the day, the shape of a mountain peak was similar to a giant sitting cross-legged. This place was called the divine mountain by the locals. It would often pay respects until a rainbow appeared on the 'divine mountain' after the rain. This place was called the divine bridge mountain.

"996, 997, 998, 999... 1000!"

Rumble, Su Xiao threw down a boulder raised above his head, covered in sweat.

When he went to the river to wash his body, Su Xiao had already waited there for two days, conservatively estimating that he still had a few more days to wait.

Since he had nothing to do, Su Xiao opened the skill list. Before, he had not yet checked the level of Qing Gangying.

[Usage requirements: After opening, the hunter consumes 62 points of mana per minute. After the mana is less than 1, it will automatically close.]

[Skill effect: After opening, each close combat attack will burn the enemy with 130 points of mana values and cause the enemy to lose 9 of the real damage of mana values. The enemy will suffer sharp pain after the mana burns.]

Level 20 Additional Ability

Controller: Able to materialize the high intensity of the green steel shadow.

A total of three forms.

Form 1, Demon Hunter: This is the basic form of the green steel shadow: to burn the enemy's mana and cause real damage.

Form 2, Osha: This is a defensive form. It can generate any energy shield to defend against the enemy's attack. The strength of the energy shield is related to the consumption of mana. The upper limit of mana consumption is 400 points.

Form 3, Green Shadow King

...

The improvement of Qing Gangying was not small, whether it was the increase of burning mana or the actual damage to the enemy that had lost 9 of mana.

Although the extent of the improvement of the two was not small, the biggest one was the energy shield of the 'Song' ability.

Su Xiao was not clear about the concept of the energy shield with 400 points of mana. He was just idle and ready to test it.

He stretched out his palm, and a two meters wide and three meters high energy shield appeared.

This energy shield was light blue, and the color on edge was deeper. There seemed to be an energy line running on the edge. The entire energy shield was crystal clear, unlike an energy composition, but a light blue crystal sculpture.

Su Xiao raised his hand and knocked on the energy shield, making a crisp blocking sound.

His left hand clenched into a fist, and the fist wrapped in a red metal arm smashed on the energy shield.

Bang!

A wave of air spread out. Su Xiao grinned and maintained the action of punching motionless. His hand was very painful, although his fingers were wrapped in metal.

Bobowang, sleeping early on the side, was scared and woke up with a kick on his hind legs.

The sore little eyes appeared. Bobowang sighed and continued to sleep on the furry front paws.

Su Xiao found that his fist could not break the shield and pulled out the dragon flash on his waist.

The sound sounded, and Su Xiao used all his strength for every strike. After ten minutes of slashing with all his strength, Su Xiao was out of breath, his hands pressed on his knees, and the dragon flash inserted in his feet.

Looking up, the energy shield in front of him was as bright as new, but because ten minutes had passed and the strength had decreased, this thing would be strong enough to make the enemy doubt life.

Su Xiao removed the energy shield. He had been thinking about how to develop the energy shield, but he had no clue for a while.

His initial idea was to step on the energy shield to perform a second jump or even more jumps so that he could achieve a similar effect of flying.

This idea died in the womb, and the reason was that the energy shield was centered on him, so Zetsu couldn't jump on the ability shield, jump on the energy shield. Just like stepping on the right foot to the sky on the left, Su Xiao shared the gravity of the energy shield.

As for other development methods, although there were some clues, they needed a lot of experiments.

His energy shield needed to be developed for defense and ability, and it was enough to attack with the sharp sword in his hand.

After studying the energy shield for a while, Su Xiao began to practice the sword skills again. Although the sword skills had reached the current level, it was very difficult to improve through practice, but he never stopped practicing by himself.

He was tired and slept. He woke up and continued to practice the sword skills. Just like this, five days passed in the blink of an eye.

Although the time in the derivative world was precious, he could not leave now.

Until the morning of the sixth day, the air guards found that humans were approaching.

Chapter 570: Stupid 2 Pillars

"It's finally here, wasting a few days of my time."

In the past few days, Su Xiao got a piece of news through [derivative world communication platform].

Large adventure group: Barbarian day adventure group was wiped out in Rain Village. Nagato destroyed it. Not only was the Barbarian day adventure group wiped out, but Jiraya stayed in Rain Village forever and was killed by his disciple.

Jiraya was also a sad person. He was born in his bachelor days, and his life was not smooth. His life was almost everything. He almost got together with the goddess. He almost saw his disciple become the 7th Hokage,

Before Jiraya went to the Rain Village to investigate, during a drinking session with Tsunade, Tsunade revealed that she was going to marry him this time.

Jiraya also believed that he would go back to his hometown to get married after investigating the Rain Village, and as expected, he knelt in the Rain Village.

After killing Jiraya, Nagato was even more extreme. He had reached the level of a devouring master. He didn't know how Nagato, who was in this state of mind, was convinced by his mouth. The power of the world?

Su Xiao felt this was nonsense, but it had nothing to do with him. He just needed to destroy Konoha. What happened next had nothing to do with him.

Nowadays, Itachi was the biggest resistance to destroying Konoha. The person who could kill Itachi had appeared.

Su Xiao did not have the idea of fighting Itachi. It was likely that he would die. The combat power of skunk was not only displayed by Zetsu when he fought with Sasuke.

Sasuke and the other four climbed the mountain and vaguely saw the figure in the distance.

"It was that person?"

Sasuke's expression was indifferent, and looked like a cold and aloof man.

"Yes... Yes, it's him."

"Hey, hey, don't be so exaggerated. You just stuttered when you spoke."

Suigetsu laughed at Karin.

"You child, do you know how terrible that guy is? I still remember the miserable appearance of the four-tailed Jinchuriki until now. If not for capturing Jinchuriki, I suspect he might have cut the four-tailed Jinchuriki into two pieces and eaten the four-tailed. Can you imagine how terrible the scene is?"

Karin stared at Suigetsu angrily.

"Eat the four-tailed? What do you mean?"

Sasuke frowned. He was ready to subdue Su Xiao and force the information.

"Even if I eat it, this... I can't describe it. It's just like light blue smoke."

Sasuke was confused.

"How long are you going to stand there? The breakfast is going to be cold."

The voice came from the top of the mountain. Sasuke's pupils contracted.

Su Xiao looked at the four people hiding at the foot of the mountain and turned to walk to the flat ground on the top of the mountain.

A moment later, the four people came to the top of the mountain. Su Xiao sat cross-legged beside the fire, and there was an antelope roasted on it.

Click, Su Xiao took a bite of the apple in his hand and looked at the four people.

"If you come two days later, I will be ready to leave."

The dragon flash in the sheath leaned against Su Xiao's leg. He seemed to be relaxed, but in fact, he could kill at any time.

"Where is Itachi? If you don't tell me..."

Although Sasuke had a tough attitude, he felt a little guilty in his heart. This man knew they would appear at this time, and the food was prepared for five people.

"Somewhere in the ruins of the Uchiha clan."

Before Sasuke could threaten him, Su Xiao had already told him where Itachi was.

Sasuke was even more puzzled and frowned. He was not sure if he should believe Su Xiao.

Su Xiao threw down the fruit core in his hand, cut off a piece of mutton with a dagger, ate slowly, and tore off a lamb leg for Bobowang, one man, and one dog as if no one else was there.

Sasuke stood in the same place and did not intend to eat breakfast. The pair of three-hook red eyes turned.

Su Xiao's hand paused and looked at Sasuke.

"Genjutsu? It is much worse than Itachi."

Under the somewhat dull eyes of Uchiha Sasuke, Su Xiao cut off a piece of roast mutton and continued to eat.

Su Xiao had a high resistance to spirit-type skills, and his intelligence attribute had reached 50 points. If he were controlled by the illusion of Uchiha Sasuke's three eyes, he would have died in Naruto world.

"Sure enough, you know a lot about Itachi."

Sasuke took a few steps forward and pressed his hand on the hilt. He still wanted to find out where Itachi was in an interrogation method.

Su Xiao stopped chewing and looked sideways at Sasuke.

"Uchiha Sasuke, even skunk does not dare to take the initiative to approach me."

"I am different from him."

Boom!

Su Xiao stepped on the rock under his feet, gravel flew, and dragon flash came out.

Ring break!

Clang, the circular blade light instantly appeared in front of Sasuke's neck. Sasuke tried to dodge sideways. A few black hairs were cut off.

Su Xiao rushed forward in front of Sasuke. He cut out three blade lights to suppress Sasuke.

Sasuke pulled out the sword. Ding, ding, ding, three crisp sounds, sparks flew, and Kusanagi sword blocked the three-blade lights.

Sasuke just wanted to hold the sword and slash at Su Xiao. The cold and piercing feeling appeared. The tip of the dragon flash was against the lower jaw of Sasuke. Sasuke raised his head slightly. His sword was at least one meter from Su Xiao's neck, and he did not dare to move.

"I said, even if Itachi didn't dare to take the initiative to approach me."

Not to mention Sasuke, even if Jiraya came close to Su Xiao, it would not end well. Right now, Sasuke is not their opponent Jiraya.

"Sasuke."

Suigetsu and others wanted to come forward to help, but Sasuke's life was in Su Xiao's hands.

Su Xiao moved the dragon flash away. The long sword returned to the sheath. Sasuke was expressionless. He did not seem to care about what happened just now, but he did not feel this way in his heart. The other party wanted to kill him for a moment. Sasuke felt it.

"Come with me. I will take you to see Itachi. Don't worry. I will not participate in your battle."

Su Xiao rode on Bobowang's back. Bobowang ran down the mountain. Sasuke hesitated for a moment and chose to catch up.

The hatred shrouded Sasuke at this time, but there was a bigger 'surprise' waiting for him.

The man who hated for more than ten years finally thought for himself in every way. He was willing to sacrifice his life for himself. What kind of thing was this? The three views of the two pillars did not collapse. It was already a mental fortitude.

After Bobowang ran for two hours, Su Xiao came to a forest.

Bobowang just stopped, and several figures appeared behind him.

"This is..."

Sasuke vaguely felt that this forest was somewhat familiar.

"This is the stronghold of the Uchiha clan."

Su Xiao said as he took out a scroll from his pocket and opened it.

Bang.

A crow flew out of the scroll, landed on Su Xiao's shoulder, and looked at Sasuke.

"Tell Itachi that I brought the person."

Sasuke and the other four made a fighting posture when Su Xiao said this.

The crow nodded and flew into the depths of the forest. This was a psychic beast of skunk.

A moment later, the crow flew back with a note in his mouth. Su Xiao tore the note after reading the content of the note.

"There is an underground entrance in that direction. Go in from there."

After ensuring there was no danger around, Sasuke and others walked in the direction Su Xiao pointed and were very vigilant.

"Did I say that you can all go there? Uchiha Sasuke can go in, and others can stay."

"Ah?"

Suigetsu was a little unhappy and took off the beheaded blade on his back.

Sasuke did not say anything and just walked towards the underground entrance alone.

"Wait, Sasuke, that might be a trap."

Karin's worries were not unreasonable, but Sasuke's footsteps did not stop. If it were for the trap, Su Xiao would not stop here.

Ignoring them, Su Xiao jumped on the branch of a big tree, leaned on the trunk, took out the tablet computer, and began to play the decryption game.

"It seems that he is not ready to stop us."

Suigetsu chuckled and was ready to support Sasuke.

"He really won't stop you, but I will."

Hoshigaki came from the distance, blocking the way of Suigetsu and others.

The space near Su Xiao had a whirlpool-shaped fluctuation, and soil appeared.

"We are even."

Su Xiao did not look up. He was not interested in the battle destined to be the result.

"Yes, we are even."

Obito was sitting on a tree nearby, ready to watch the battle.

"How lively. Who do you think will win the fight between the Uchiha brothers?"

Black and White Zetsu came out from the nearby tree trunk. There were three spectators, no, four. Bobowang had already prepared Popcorn and Cola.
