

R. Paradise 61

Chapter 61

Su Xiao's eyes were slightly opened, the contractor in front of him was very difficult to provoke.

“Heee.”

A low humming sound came out of Queen, and Queen sat on the ground, wrapped in a layer of dark red energy.

This energy had no stable shape, like a loose coat.

The Knight sword that Queen took out had been thrown aside.

Queen's original idea was to drink the bottle of liquid to increase the attributes and then fight closely with Su Xiao, using the high amount of attributes to kill Su Xiao.

Unfortunately, Queen's bad luck did not let her pass the judgment and fell into a berserk state.

It could be seen from the blood red eyes that Queen lost her mind.

Now the person who is the closest to Queen is Su Xiao, and Queen was naturally staring at him.

On Queen's slender fingers there were sharp bones, and four canine teeth emerged out of her mouth.

Through the previous detection, Su Xiao learned that Queen's strength was 16 points, agility was 15 points, and her Vitality was too high to be detected.

Her strength was higher than his by 3 points, and her agility was 2 points higher than his as well. It was not impossible to cope.

Su Xiao took a deep breath and stared at Queen who was becoming a beast.

“Roar!!”

It was a threatening roar again. Although Queen lost her mind, the beast's instinct made her realize that provoking Su Xiao wasn't a good idea.

Su Xiao who entered the ghouls' world was not afraid of anyone. He even dared to fight with Takatuki Sen, not to mention a contractor who took some medicine.

He spent a lot of paradise coins in the [trial field] to summon the image of Koshiro, and his sword skills progressed a lot.

The practical skills that Koshiro taught him improved along with his strength. He had practiced sword skills for three years and had combat experience before entering the reincarnation paradise.

After Koshiro's training, his combat experience was more abundant.

Most contractors used the paradise coins to buy equipment or skills, while Su Xiao used the paradise coins to get combat skills.

“Come on, little fox.”

Somehow, Queen now gave the impression of becoming a fox.

“I will Kill you!”

Queen said this sentence word by word, did not know whether it was instinct or some of her consciousness.

Su Xiao stood in the same place, he did not choose to attack, the opponent lost 3% of her hp per second, but Su Xiao had a lot of time.

A green light flew out from the street and fell into Queen’s body. The hp bar of Queen increased significantly.

“Ha, see how long you can hold on.”

Su Xiao began to circle around Queen, always guarding against Queen’s attack.

After a few seconds, Queen seemed to realize that she was in danger, so she rushed to Su Xiao.

A red shadow passed, when Queen appeared again, she was already in front of Su Xiao.

Su Xiao’s eyes tightened, his right arm muscles tightened, and he slashed toward Queen.

“Snigger.”

The sharp dragon flash as if it had scratched the surface of a tire, only breaking the muscle tissue of the outer most layer of Queen’s arm.

This Vitality??? Sure enough, her Vitality was pretty high. According to Su Xiao’s calculation, Queen’s Vitality was 24 points.

When Queen used the ‘Mystery necklace’, the reincarnation paradise had a hint that ‘the physical strength of the opponent is 2.33 times of his.

Su Xiao’s vitality was 6 points. 2.33 times of 6 was 13.98, the display of attribute values will generally be rounded off, so Queen’s Vitality was 14 points.

After drinking the unknown bottle of liquid, Queen’s Vitality and the other two attributes gained +10, that means Queen’s current Vitality was up to 24 points.

After her vitality became more than 20 points, there had been a dramatic change, the sharp dragon flash couldn’t penetrate her defenses.

Queen’s arm was injured by Su Xiao, but the injury stopped bleeding within a few seconds, and it started healing.

“Hiss.”

A green smoke appeared in the wound, Queen’s wounds were healed.

Seeing this incredible change, Su Xiao’s mouth twitched, the opponent’s resilience was very abnormal.

After Queen was wounded, she was standing in the same place, as if she was thinking about something.

The bloody red eyes trembled. Two seconds later, the blood in Queen's eyes receded and turned clear.

“This damn judgment, it finally selected the strength attribute.”

Queen's third skill was activated again, and it seems she passed the judgment as she regained consciousness.

“Leaves, don't hide, come out, as long as I don't die, he can't hurt you.”

There was a 'mystery necklace' between Queen and Su Xiao, and Leaves got out from the alley.

Leaves was in excellent shape, although her body was not full, and she was somewhat flat, but her delicate face and the natural smell of her body gave Leaves a unique charm.

Queen walked to the knight's sword on the ground, stepping on the handle, the knight's sword flew up, and Queen grabbed the hilt of the knight's sword.

“Leaves, give me 'sacred healing', then proceed with plan C.”

Upon hearing Queen's order, Leaves were hugged in front of the air, and a large green spot was released from her body.

The light spots converged on the top of the leaves, forming two small birds, one green and one blue.

The two colorful birds flapped their wings toward Queen's head, each occupying a side, as they circled on the head of Queen.

With the flight of two elemental birds, emerald green and azure light spots fell into Queen's body.

Queen had only one-fifth of the hp left, and it began to grow at a rapid rate, three seconds later, Queen returned to full state and no longer lost blood.

It wasn't that the temporary passive of Queen disappeared, but because Queen was now recovering more than 3% per second.

“This feeling is really fascinating.”

Queen smiled, then she tilted her neck while looking at Su Xiao.

“Are you ready to die now?”

Queen confidently smiled while she proclaimed Su Xiao's death.

Su Xiao was obviously stunned and gave a bitter smile.

“Do you think that with your attributes suddenly becoming stronger, you will be my opponent?”

If Queen's strength or agility exceeded 20 points, Su Xiao may not be an opponent, because the force and speed would definitively crash him.

But Queen had more than 20 points of Vitality, not to say that the vitality was a weak attribute, but Queen had a temporary passive skill which made her lose hp each second, which offset the benefits of high vitality.

In addition to strength and agility that were a bit higher than his, Queen was not a big threat to Su Xiao. He just needed to pay attention to the skills that weren't detected.

In Su Xiao's view, it was very ridiculous that Queen who was a shield warrior fought with him using a sword.

Did Queen think that his "sword mastery: LV.3." was just a decoration?

Su Xiao spent most of his income in the one piece world on the "sword mastery".

Dragon flash had a clear sound, as Su Xiao rushed to Queen in a few steps, he wanted to let the person know, what is it like to battle?

The longsword clipped with the whispering wind slashing into Queen's head, and Queen subconsciously used the Knight's sword to block.

"Ding."

The crisp sound gold and iron colliding came, sparks were stirred between his sword and hers. Queen blocked Su Xiao's attack once which gave her some confidence.

But at this time, Queen suddenly felt pain in her lower abdomen, and her body could not help but fly backward.

When she was flying in the air, there was a burning feeling on Queen's face, and her face was bruised.

"boom."

After Queen rolled on the road for two laps, she immediately stood up and her eyes filled with vagueness. She did not know what just had happened.

Su Xiao lightly swung dragon flash to clean the blood and pointed it toward the ground.

"With that level in close combat, how dare you say that you can kill me? In battle, you can't hide behind a shield. Without the shield, you cannot fight at all."

Queen was puzzled by Su Xiao's incessantly attacks. She didn't know why she suddenly flew out.

After swallowing, Queen suddenly found out that the gap between her and that man wasn't just a gap of attributes and skills, but a gap in combat experiences.

"I don't believe that the ability to restore hp will always exist, and when it disappears, you will die."

Su Xiao's words made Queen looked bitter, as a fact, it was true.

"I don't believe you can escape this attack."

Queen stood in the same place, held the knight's sword in one arm and lifted it toward the sky.

"Holy Sword."

Queen's shout seemed very powerful. This was her most powerful offensive attack, which she used only in emergencies, now she finally used it.

The night wind blew on Queen's long hair, and nothing happened after she shouted.

Queen didn't know, her Mana point was 6 currently. She couldn't use any skills at all after confronting Su Xiao as most of her Mana was burned.

Now Queen who was raising her knight's sword high gave Su Xiao a very funny feeling.

Chapter 62

Queen held the Knight's sword high, but nothing happened.

There was no light and no skill activated.

“Holy Sword! Holy Sword!”

Queen was a little shocked, put down her arm which was raising, and looked at the knight's sword in her hand. The scene was very embarrassing.

“It's a 'powerful' attack.”

Su Xiao's ridicule made Queen angrier.

At this time, Queen just noticed the reminder of the reincarnation park that she had no Mana anymore.

Queen couldn't understand the situation. From the start of the fight to the present, she only used three skills. She was afraid that her Mana would be insufficient, so she bought a necklace that could increase Mana by 30 points.

Queen did not understand the situation, but Su Xiao knew that was his skill 'Qing Gang Ying' burning the opponent's Mana.

He did not understand its effect on sorcerers, but it had a miraculous impact against this shield warrior with low Mana.

After a few attacks, even if the opponent wasn't dead, that person would no longer use skills.

From a long time ago, Su Xiao doubted one thing that the occupation the shadow of the law, the name made him think that it only focused on fighting sorcerers, but how could he fight them?

If he can get close to the sorcerer, he can continue to slam the sorcerer with the pain of the 'Qing Gang Ying' while burning their Mana, but how will he get close to the sorcerers?

The skills of this job that were not unlocked should solve this problem. Otherwise, the profession was not qualified to be called the 'the shadow of the law.'

It was still too early to think about these things. Now the first thing he needed to do was to kill the enemy in front of him.

After Su Xiao determined that Queen had no Mana anymore, he rushed straight away.

Even if Queen drank the unknown potion and suddenly became stronger and had more skills, she was still a tiger without teeth after losing her Mana.

As for the Knight's sword in Queen's hand, Su Xiao directly ignored it. Queen even did not know how to use the sword at all.

Su Xiao rushed and slashed Queen's throat.

The long sword-cut moved through the air as it created some shock waves.

Queen lifted her sword to defend, but she did not block anything but air. Su Xiao's sword already passed and cut a piece of her ear.

Her ear fell down while Queen felt a buzzing sound in her head.

Dragon flash was in the squatting position, and if he wants to attack again, he will need to accumulate energy again.

Su Xiao continued to rush forward, he got closer to Queen, raised his left knee and slammed into Queen's side waist.

He attacked just below her ribcage which was a very fragile location in the body.

While Queen still felt dizzy, she was hit hard, how she felt now could be imagined.

Su Xiao took a step back and jumped out about a meter away. Before he even landed his sword waved again, and Queen's chest was smashed, and the armor was cut open to reveal her white skin.

The blood overflowed, Queen felt a great pain again.

But this time, the energy bird above her head had the effect of reducing pain, so she had some strength to fight back.

Queen's consciousness was not strong enough. And experienced warrior could ignore most of the pain in the battle.

“You bastard, go to die!”

Queen tried her best to attack with her sword. Su Xiao did not confront her directly but jump out flexibly evading her sword.

Su Xiao just landed after jumping off then jumped out on the ground moving forward.

Queen's attack as avoided and her weakness was exposed to Su Xiao.

“Snigger.”

There was a slightly deep wound in the throat of Queen, which made her back off a few steps.

“Hooo, hoo.”

Queen gasped heavily, and she felt that her lungs were like a broken box, her every breath was extremely difficult.

“What, where's your confident expression?”

Su Xiao slowly approached Queen, from the start of the fight to the present, he seemed calm.

If it is a group of the shield warrior, the sniper and the support that besieged him, he will definitely not be so relaxed, but the most powerful person among these three was the one attacking, the sniper who was entangled by Juuzo Suzuya.

The shield warrior in front of him was very viable, but if she is in the close fight, she won't be Su Xiao's opponent.

Su Xiao discovered slightly one thing. If the development direction of the contractor is PVE, then his development direction will be PVP, this was what the reincarnation park did on purpose. He is a hunter and will often fight with contractors.

A tank that was good at defense, but confidently fought with a murder master, the result could be imagined.

“This is impossible. Whether it is attributes, equipment, or skills, I am stronger than you. Why is this? Something must be wrong.”

Queen had unwillingness in her eyes.

“Who knows, but the thing on your head seems to disappear.”

Su Xiao wasn't as relaxed as he seemed. The female shield warrior in front of him was very hard to deal with after her vitality reached 24 points. His sword couldn't easily break through her defenses. This was the first time he encountered this.

This gave Su Xiao a warning that if the gap of the attribute value is too big, even if his combat skills are superb, he may not be able to defeat his enemy.

However, Queen in front of him was obviously not in this list, and this person reached her current attributes after drinking a potion.

The two elemental birds on the top of Queen's head screamed at the same time, turning into light, and melted into Queen's body.

The healing effect ended and her hp was dropping rapidly.

Seeing this scene, Leaves' face turned pale, she didn't have much Mana left, and she could only maintain Queen's Hp for a few seconds.

According to Queen's order, her remaining Mana had other effects, which was the hope of their victory.

Just as Queen and leaves were desperate, Su Xiao had already rushed to Queen and slashed at her frequently with his sword.

At this critical juncture, Queen heard a voice which made her feel that her savior is here.

“Queen, I solved my opponent.”

Black white breathed heavily and coughed a few times.

“Did you kill Juuzo Suzuya?”

Queen was overjoyed.

“No, that guy is very difficult to kill, he finally escaped, but he was seriously injured.”

Although she did not kill Juuzo Suzuya, Queen did not care, because the main point was for her to help in here.

“I am fighting with you.”

Queen screamed and threw away the knight’s sword in her hand. She went to Su Xiao as if she was rushing for death.

Su Xiao was surprised. He thought her actions must have some reasons, so he subconsciously retreated.

But his sword entered Queen’s lower abdomen. Su Xiao tried to pull out dragon flash, but Queen’s hands held it without any thoughts of letting go.

Queen’s fingers were almost cut off, but she did not care. She still rushed at Su Xiao, and then hugged him tightly, just like a koala holding a tree.

It must be known that Queen’s current strength was 15 points, which was 2 points higher than Su Xiao. If Su Xiao wanted to struggle free from that, he would need some skills.

Su Xiao held the handle of dragon flash in both hands and moved it in Queen’s belly.

“Ah!!”

Queen’s tears almost came out, but she still didn’t let go.

“boom!”

A shot came from afar. Su Xiao had already noticed the danger. The weight of Queen herself with the armor was almost two hundred kilograms. His actions were very slow.

At the last moment, Su Xiao could only move slightly sideways, trying to avoid being hit.

A bullet with a small finger length entered Su Xiao’s abdomen, the power of the bullet did not decrease as it directly went through Su Xiao’s body, and penetrated to Queen’s body.

This gunshot directly caused Su Xiao to lose 70% of his Hp.

Queen’s body became soft, and her arm lost strength.

At this time, Leaves that stood in the distance used her hidden skill on them.

“Judgement!”

After Leaves said this, a huge energy cross emerged on the top of Su Xiao’s head.

The cross flashed with holy light and went toward Su Xiao.

“Dong!”

There was a buzzing sound in Su Xiao’s ear, and the energy cross broke.

[You are strangled by “Judgement”, your hp is less than 15%, and the executing effect is activated.]

[Ding, You have ‘Devil physique: Lv.MAX’, executing effect failed, immune to execution, the effect was converted to 9% Hp.]

Chapter 63

Cold sweat ran down from Su Xiao’s forehead, the hints he just received were really horrible.

In the reincarnation paradise, there was surprisingly such pervert skill that could execute.

The girl named Leaves was hiding in the distance not only to support but also for this blow.

After the cross that shined with holy light fell, the glow it produced made everyone close their eyes.

After three seconds, the golden light faded, and black white on looked through the sniper scope and looked inextricably nervous.

Leaves fell down softly, her face was pale, and her lips were trembling.

“How, how can he be still alive?”

Leaves was sitting on the ground, her eyes were full of disbelief.

The light receded, and Su Xiao stood still in the same place with some efforts. Smoke came out of his body.

There was a fist-sized wound in his lower abdomen. You even can look at the other side through this wound.

His upper body was full of blood, and blood dripped down along his chin, but Su Xiao was laughing.

In his hands, he was holding the woman, Queen’s long hair was held by Su Xiao, and Queen was blocking in front of him.

Queen was very beautiful, but this was not important to Su Xiao.

Queen and her two teammates ambushed him for no reason.

Since they were enemies, it was a safe choice to kill them.

Su Xiao took a bottle of medicine, [XT-12 vitality medicine] on his hand, the bottle of medicine could restore 15% of hp.

He opened the bottle and drank it.

The remedy was a bit bitter and had a pungent taste.

Two seconds after Su Xiao drank [XT-12 vitality medicine], his body reacted, and the terrible pain in his lower abdomen slowly faded.

The reason why the price of [XT-12 vitality medicine] was high was not only because of the 15% hp it recovered, but it was for the quick effect it had. As long as it’s not a broken limb or something similar, [XT-12 vitality medicine] could restore.

Su Xiao carried Queen who was like a rag bag. The armor on her whole body was damaged, and her body was soft and powerless. If she was not being lifted by him, she might have fallen to the ground.

“Now your partner is in my hands, let’s talk about it.”

Su Xiao shouted, his eyes flashed coldly.

“Just talk about it, what do you want, I can use the equipment plus the paradise coins to redeem Queen’s life.”

Black white stood in the roof and shouted.

Su Xiao's eyes dropped, raising his hand and cut off the only arm left for Queen.

"If you talk any more nonsense, I will dismember her until she dies."

Su Xiao's voice had no emotional fluctuations.

"Black white, what should we do?"

Leaves barely stood up in despair.

Black white hesitated and said:

"Queen had saved me. I must save her."

After that, black white disappeared on the edge of the roof, and it seemed that she will soon be in front of Su Xiao.

Soon, black white and Leaves stood side by side in front of Su Xiao.

"It seems that she is very important to both of you?"

When black white just wanted to talk, she saw the smile of Su Xiao's mouth.

"You....."

Black white hadn't finished her sentences. Su Xiao had released Queen's hair, held his sword and cut off Queen's neck.

A beautiful head flew up while Leaves stared at the head in midair with stunned.

"You are an asshole! I must kill you."

Black white made a hoarse roar, took out her sniper and aimed at Su Xiao, but she was too close to Su Xiao.

Peace talks? It did not exist at all. From the beginning, Su Xiao wanted to use Queen to bring black white and leaves closer to him.

He was currently seriously injured. Only in a close fight, will he have hope for victory.

Su Xiao rushed at black white in two steps, his sword flashed with blue light.

"Ding."

Su Xiao attacked black white's sniper. Black white as a sniper had good strength and agility. The strength ensured that she could resist the recoil of the sniper rifle. The agility attribute developed the long-range weapon aim, and it improved her reflexes.

A deep sword mark appeared on the sniper rifle. The place that was attacked damaged the sniper, and it was unusable now.

Su Xiao did this deliberately. After Black White lost her sniper rifle, her combat power was reduced by at least 50%.

Black white sneered and gave up the sniper rifle, put her hands behind and pulled out two pistols.

The pistols were black and white, and the guns were very long, at least thirty centimeters.

“boom, boom, boom...”

The two pistols were actually used at the speed of a submachine gun by black white.

A rain of bullets was shot at Su Xiao, and if he is hit by these bullets, he will be seriously injured if not dead.

If these were sniper’s bullets, Su Xiao would not be able to escape, but the bullets of a pistol were different.

Su Xiao’s were used at their limit, and the speed of the bullets slowed down a little.

His muscles of the right arm raised, and dragon flash waved in the air leaving white light behind.

“Ding!”

Su Xiao cut through two bullets and opened a way out in the rain of bullets in front of him.

“Snigger, snigger.”

The sound of the bullets penetrating the flesh came, Su Xiao’s left arm and right chest were shot three times.

But it was that dangerous. He was close to black white now.

Su Xiao waved his sword. Black white’s arm which held the white pistol was cut off.

The light blue arc, which was the special energy of ‘Qing Gang Ying’, flew into black white’s body.

Strong and severe pain spread which made black white hardly conscious.

“Snigger.”

With another attack, the other arm of black white was also cut off.

“Snigger.”

Dragon flash cut through the black white’s busty chest, then immersed into her heart deeply. Finally, black white’s hp was quickly emptied.

After being fatally wounded, the value of the hp wasn’t useful anymore. The reincarnation paradise only provided semi-digitalization. After being fatally wounded, no matter how much hp the person still had, he will die.

“Higanbana adventurous group will not let you go!”

After that, black white’s head dropped down as she lost her life.

Higanbana adventurous group? I had never heard of it, even if I have, I will not hesitate to kill you.

After shaking his head, Su Xiao looked at the only survivor of the enemies group, the one that healed them, Leaves.

Leaves won’t be able to do anything without Mana, and she is in front of Su Xiao anyway.

“No, don’t come over.”

Leaves found out that Su Xiao was close to her, and when leaves stepped back, she stumbled and fell on the ground.

“Ha.”

Su Xiao smiled coldly and approached Leaves slowly.

When the group of three people was trying to kill him, Leaves was the one supporting them and healing them, what is the use of begging for mercy now.

She is an enemy, so she needed to die.

Even if the enemy’s appearance was good, and she was a woman, Su Xiao will still kill them.

The guy that couldn’t attack women and saved their lives wherever he went was not worthy of living in the reincarnation paradise, nor could he survive in the reincarnation paradise.

A woman who could survive in a reincarnation paradise was not just a decoration, as one was more dangerous than the other one.

Only dead enemies were good enemies.

Su Xiao had his own purpose, and anyone who blocked his path will have to face him.

Su Xiao stood silently in front of Leaves, except for the necessary provocations in the battle, he rarely talked nonsense.

Leaves was scared with a face full of tears.

That was how human acted. They were very ferocious when they hurt others, but they were very weak when they were hurt.

“I will give you all the things you want just let me go.”

The sword was waved at Leaves, and she fell, Leaves was unexpectedly weak.

After killing the enemy, Su Xiao sat on the ground powerlessly.

He could have extorted leaves and then killed her. There were many strange skills in the reincarnation paradise. Leaves used the Execution skill, he was very shocked. Who knows if Leaves was pretending to be weak, waiting for her Mana to be restored, then give him a finishing attack.

Though Su Xiao was a greedy person, he will choose the right time to be greedy.

Lying on the cold road, Su Xiao laughed.

This battle could only be described as fierce, a powerful damage dealer, the main tank, and support, which almost caused him to die for several times.

However, in the end, he became the winner.

Chapter 64

After lying on the road for a few minutes to rest, Su Xiao laboriously stood up.

His current Hp was about 16%, he was abnormally fatigued. Though [XT-12 vitality medicine] recovered most of his injuries, the potion could not restore all of his Hp and physical exhaustion.

Above Queen's body, a blood red card floated.

This card flashed with a red light in the night, which was particularly conspicuous.

Su Xiao could feel it far away. The card seemed to reek with a bloody smell.

Su Xiao picked up the bloody red card, and the remainder of the reincarnation paradise appeared.

[You get a 'scarlet card', Use: Yes/No.]

[Hint: 'Scarlet Card' is obtained after killing a contractor. After using it, an item will be randomly selected.]

[Hint: Each 'Scarlet Card' has three extraction opportunities, which will be randomly selected from the storage space of the dead contractor or the equipment the contractor wore.]

[Hint: The ghoul's world is a semi-peaceful world. After the contractor dies, there is a 50% chance of dropping the 'scarlet card'.]

....

Su Xiao did not immediately extract the 'scarlet card', but put it into storage space.

It was not safe now, he could not confirm whether there were other contractors present.

Su Xiao walked to the sleepy CCG members while leaving a trace of blood along the way.

After finding out the phone on the CCG member, Su Xiao recalled for a few seconds and dialed a number.

"Mr. Shinohara, the team I led, was attacked and needs support."

Shinohara Yukinori who was handling important documents in the office stood up suddenly.

"Is there any death or injury, where are you? I will rush over."

Shinohara Yukinori was a very reliable boss, and immediately rushed out of the office and began to mobilize people.

"The specific location is not clear. You can locate this phone. As for the death and pain, Juuzo Suzuya may have died, but I didn't see his body."

Hearing that Juuzo Suzuya might be dead, Shinohara Yukinori's felt pain in his chest.

But this was the fate of the ghoul's investigator. Shinohara Yukinori had not said anything.

"Byakuya, how are you doing now, it sounds like you are seriously injured."

"Nothing, I can still hang on, I will look for Juuzo."

Juuzo Suzuya was mobilized by Shinohara Yukinori, and Juuzo Suzuya gave a lot of help to him in battle. After hanging up the phone, Su Xiao began to look for Juuzo Suzuya nearby.

Not long after, Su Xiao found Juuzo Suzuya in a shop on the street. The smell of blood led him to Juuzo's location.

Juuzo Suzuya was in a dress store, facing down, with a large pool of blood underneath him.

Su Xiao turned over Juuzo Suzuya and checked his signs.

It had to say that Juuzo Suzuya was very fortunate. There were several gunshot wounds on the body. But there were not in fatal positions.

“Cough, cough.”

Juuzo Suzuya unconsciously coughed blood and opened his eyes.

Su Xiao squatted and took out a [salt rice ball] and stuffed it into Juuzo Suzuya’s mouth.

Juuzo Suzuya had no conscious at all and could not chew anymore.

It was not hard for Su Xiao. He put the index finger and the middle finger together and inserted it into Juuzo Suzuya’s mouth.

“Woooo.”

Juuzo Suzuya was mourning, and the [salt rice ball] was stuffed into his throat, and then it stuck.

Su Xiao saw that the body of Juuzo Suzuya was pumping, his eyes widened, as he looked at him with guilt.

“Rumble.”

The [Salt rice ball] was swallowed by Juuzo Suzuya, then he fell unconsciousness once again, perhaps he was not awake at all.

Whether the restorative food was effective on the plot characters or not, Su Xiao didn’t know. But Juuzo Suzuya helped him previously. He will try his best to rescue him. It is as simple as that.

It could be said that if he didn’t get help from Juuzo Suzuya, under the besiegement of Queen, black, white and leaves, Su Xiao would have been dead.

At first, Juuzo Suzuya stopped black white, which played a very important role.

After Su Xiao put [salt rice group] into Juuzo Suzuya’s mouth brutally, Juuzo Suzuya woke up slowly after five minutes, the restorative food was effective.

“Byakuya-san, am I dead?”

“No, you are still alive.”

Su Xiao sat on the side, lit a cigarette, and moved as little as possible, he had many injuries on his body, while he was also losing Hp slowly.

“The woman was really strong previously. I almost got a headshot, I’m so happy.”

Juuzo Suzuya wasn’t joyful because he got his life after almost dying, he just acted same as usual.

“But Byakuya-san, I feel sore in my throat, and my mouth is not comfortable.”

Su Xiao’s mouth twitched as he was ready to rest.

“You’re imagining it.”

“Is it? But there is a smell of food in my mouth. It seems like someone forcibly put something into my mouth.”

“That’s your imagination.”

Su Xiao looked very calm as he said without any expression.

“Is it? So strange.”

Juuzo Suzuya scratched his head, it seemed the several gunshot wounds on his body did not exist anymore. This may be related to the passive ability of Juuzo Suzuya (the masochistic), the strange ability will turn the pain into a sense of excitement.

It didn’t take long before the outside became noisy, it was Shinohara Yukinori who brought people here.

“Byakuya, Byakuya!!”

The shouts of Shinohara Yukinori came.

Without waiting for Su Xiao to shout, Juuzo shouted himself.

“Mr. Shinohara, we are here.”

After hearing the shout, Shinohara Yukinori rushed in.

“Suzuya, it’s so nice that you are fine.”

Seeing that Juuzo Suzuya was not dead, Shinohara Yukinori couldn’t help but smile.

“Byakuya, how are you?”

Shinohara Yukinori stepped forward, and after checking Su Xiao’s injuries, Shinohara Yukinori was surprised.

“Hurry up, call the medical staff right away.”

Su Xiao’s serious injuries caused Shinohara Yukinori panic as he ordered the Investigator behind him to go find the medical staff.

The medical staff quickly arrived. At this time, Su Xiao was about to faint. He lost too much blood. After [XT-12 vitality medicine] recovered his injury in his lower abdomen, the effect of the potion was greatly reduced, and other injuries didn’t receive much of the effect.

“Byakuya, Stay with us.”

After rushing to the scene, Shinohara Yukinori had already roughly got what happened.

Su Xiao completed the cleaning of the auction house, and the body bag scattered on the street was the best evidence.

From the scene of the explosion, the marks of the bullet, it seemed some enemies ambushed Su Xiao’s team.

At CCG, this kind of thing was not uncommon. When they were capturing ghouls, they also need to defend against attacks from ghouls.

Su Xiao was taken on the stretcher and rushed to the hospital of CCG for emergency treatment. In the same ambulance, Juuzo Suzuya was lying next to him.

Su Xiao was temporarily somehow relaxed, losing a lot of blood made him want to sleep, but he could not.

He didn't trust CCG. If the top management of the CCG suddenly ordered to transplant the ghouls' organs on him, he will lose a lot.

It sounded ridiculous, but it was not impossible. There was a precedent for this kind of thing, but it was only not exposed.

Therefore, during the whole process of medical treatment, Su Xiao remained awake, he refused to transfuse blood and refused doctors to help him inject anesthesia.

After the emergency treatment, his stopped losing blood and the injuries stabilized.

Lying in a warm and dry bed, Su Xiao gradually fell asleep. In CCG's hospital, at least there was no need to worry about the threat from ghouls.

Because of excessive blood loss, Su Xiao woke up after sleeping for more than ten hours, his Hp had recovered to 65%, although the injuries still hurt, he already has the power to fight.

Su Xiao sat up and leaned back in the hospital bed. After sleeping for more than ten hours, he felt energetic.

The room was now dark, and it was still in the evening.

The danger completely receded, Su Xiao smiled bitterly and sighed, even if it was the derivative world of Lv.2, it was still full of danger.

Nothing to do, he took out the 'green treasure Chest and the 'scarlet card' that he had previously obtained.

After hesitating, Su Xiao opened the 'green treasure Chest'.

[Open the Treasure Chest (green): Yes/No]

After choosing to open it, something different happened.

This time, the treasure chest was different from the past. The treasure chest slowly opened, and a shining green light appeared from the Treasure Chest which illuminating the entire room...

Chapter 65

The green light made Su Xiao close his eyes subconsciously.

“This is?”

He had already opened several green treasure chests but never had this kind of situation.

The light receded, and a heavy and smooth object appeared in his hand.

A reminder of the reincarnation paradise appeared.

[You get the ‘the flame of the goddess of fortune’.]

The flame of the goddess of fortune (Fine Quality)

Place of Origin: Tokyo ghoul

Introduction: Smoking is harmful to health? Are you sure?

Price: 3,600 paradise coins.

....

After checking this delicate lighter in his hand, Su Xiao was stunned.

He slightly touched the metal shell of the lighter which was engraved with a blue flame pattern.

Su Xiao’s hand was trembling, and his Luck which was the lowest attribute seemed to have a way to increase.

Although using this lighter to lit the cigarette will only add 1 point in the Luck attribute, for him, the Luck attribute will be doubled.

Although he was not clear whether the Luck attribute actually represented luck, it was still worth trying.

For example, when he opens a treasure chest, using ‘the flame of the goddess of fortune’ to light a cigarette, there may be unexpected gains.

From the evaluation of 30 points, this piece of equipment was very valuable.

Su Xiao chuckled, he lived after danger and was blessed in the end.

And he found something new about opening treasure chests, that is, if he obtained an ordinary item, the Treasure Chest would open directly.

If he obtains a high-value item, it will shine gloriously as he opens it.

Su Xiao temporarily called this phenomenon 'flash'. If the treasure box 'flashed', he would be very rich.

This was still opening a green treasure chest. If he opens a blue treasure chest and it flashes, he would obtain things worth ten thousands of paradise coins.

But it was not so easy to get the 'flash'.

After entering the reincarnation paradise, Su Xiao had opened many treasure chests, only this treasure Chest 'flashed', showing that the chance of 'flash' was not high or maybe even small.

In fact, his 'flash' was not a matter of luck.

After Su Xiao entered the ghoul's world, he killed hundreds of ghouls and even killed them by hand.

These hundreds of ghouls only dropped a few treasure chests, and the harvest of the treasure chests was very poor.

Su Xiao not getting many chests or one that flashes would be very embarrassing, so maybe the reincarnation paradise used the accumulation of all the kills he got to give him this chest.

However, with the lighter of 'the flame of the goddess of fortune', the chances of obtaining good things from the Treasure Chest in the future may increase significantly.

It was not just about treasure Chests. In some cases where he needs luck, he could also use 'the flame of the goddess of fortune.'

The only downside of 'the flame of the goddess of fortune' was that the cooldown time was 10 days.

As for the 500 paradise coins consumed by 'the flame of the goddess of fortune', Su Xiao directly ignored it.

The harvest may be completely beyond the cost, and the 500 paradise coins were just a small cost.

This ability required 500 paradise coins to be used once, which was quite normal.

Su Xiao seriously put away 'the flame of the goddess of fortune', this thing was definitely useful in the future.

Lying in bed, Su Xiao began to sum up the gains and losses from fighting with the three contractors.

The most obvious gain was the 'scarlet card' that could randomly give him three items or equipment from Queen.

However, Su Xiao just had a chest that flashed. His luck probably ran out, so he didn't plan to open it for the time being.

Queen was good at physical attributes, even if he took the person's equipment, the increase in combat power would not be large.

Secondly, after Su Xiao killed three people, the spirits eater did not activate. At that time, he thought that spirits eater could not obtain Mana from the contractors.

Later, he discovered that after he cleared the ghouls in the auction site, his spirits eater talent had already accumulated 100 points of Mana for him, which was the limit of every derivative world. Now his Mana was 253 points.

From this battle, Su Xiao learned that although the reincarnation paradise used semi-digitalization.

The battle here was a scene of flesh and blood splashing. The skill only assisted for judging the opponent's combat power, whether he was stronger or not depends on the fighter's experience.

It was like giving a nuclear bomb to a housewife. The biggest possibility was that the nuclear bomb became a pair of scrap iron, just for appreciation.

Even if the attributes were surprisingly strong, if the fighter was not strong enough, he will not use these attributes correctly.

Queen, black white, and leaves all had strong skills. Comparing Su Xiao's skills with them except for 'Qing Gang Yin' and 'Knife skills' other abilities were not strong enough.

However, in that battle, Except for Queen desperately clinging to Su Xiao which made him take a shot, Su Xiao beat up Queen during the whole fight.

Queen's fine shield skills did not cause much threat to Su Xiao. Instead Queen was played in the palms of Su Xiao, and finally became a hostage and was killed.

There were no weak skills or occupations. Instead, the power depended on the user himself.

The strongest part of Su Xiao was not what he had inherited, but he had a heart that dared to fight, and he was not afraid of death.

These were simple, but how many people could be completely fearless during a fierce fight?

However, in the reincarnation paradise, there was one thing above the equipment or skills, that was, attributes!

After Queen's vitality attribute reached 24 points, she could actually resist Su Xiao's attacks using her body defenses.

If Su Xiao's strength, agility, and intelligence reached 20 points or more, what changes will happen?

Undoubtedly, the high amount of attributes combined with his sword skills will be a sight to behold.

Su Xiao lit a cigarette and lied quietly in his bed.

Inadvertently, he thought about one thing.

When leaves used the executing skill on him, the remainder of the reincarnation paradise said he was about to be executed, but at the last moment, he faintly heard that a skill saved his life.

With a thought, Su Xiao opened his status, chose the skill option, and started to view his skills.

There was no change in 'Qing Gang Ying' and 'Sword mastery', but there was a line of text below 'Devil's Physique'.

Devil physique: Lv.MAX.

Skill effect: Unable to master or learn any magical skills.

Tip: When the devil's physique is attacked by Mana, the passive ability will be activated, check skill changes yes/no.

....

Su Xiao chose to view the changes in the skills of the devil physique.

Devil physique: Lv.MAX.

Skill effect: Unable to master or learn any magical skills.

Passive ability: (Devil), immune to 40% of the magical damage.

Hint: This passive ability has a very high priority, which can immunize real magical damage, holy magical damage, and execution magical damage.

We, disgusted with the magic that destroys the balance of elements, resist them with our souls. They shouldn't try to erode our bodies with magic — Marvin Waltz.

....

Closing the skill panel, Su Xiao breathed a sigh of relief and finally understood why his occupation was called the shadow of the law.

Chapter 66

Su Xiao was curious about one thing previously, that was how did the law of shadow fight with the sorcerers.

Now it seemed that 'devil physique' was an effective way for him to fight against the sorcerers.

In Su Xiao's understanding, the hardest part of fighting with the sorcerers was how to get close to them.

The sorcerers were generally fighting with opponents from a distance, and he was good at close fights, 'the devil's physique' gave him the advantage to get closer to the sorcerers.

After he approached the sorcerers, the battle would basically end.

Su Xiao noticed in the trading market of the reincarnation paradise that most of the sorcerers had thin arms and legs. After getting closer, the sorcerer would surely die!

There were two abilities of devil physique.

The first was not that good, he could not learn magical skills, and the second was to immunity of 40% of magical damage.

The inability to learn magical skills did not mean that he could not learn skills. There were many abilities in the reincarnation paradise not in the scope of magical skills.

Most passive skills were not magical skills.

And from the 'can't learn magical skills', Su Xiao could guess that it was a 'not able to learn the skills of sorcerers'.

It was true that he was a shadow of the law. If he uses those kinds of skills like throwing a fireball in the battle, it will be weird.

When he inherited 'the shadow of the law,' from the attitude of the six statues, they hated the sorcerers. That was why the shadow of the law could not learn the skills of the sorcerers.

But everything was relative, and he could get high magical resistance while he could not learn magical skills.

The next day.

Su Xiao got up very early, took off his clothes in the hospital and put on his usual clothes.

"Byakuya-san, why did you wake up so early? Lie back in the bed, your injuries are very serious."

A nurse wearing a white coat blocked Su Xiao quickly.

"Don't worry, I have recovered."

The nurse was serious.

"No!"

The nurse was very responsible, Su Xiao as a first-class Investigator would, of course, have specialized personnel taking care of him.

Su Xiao clapped on the nurse's soft shoulder and moved to come behind the nurse.

"Wait....."

When the nurse just wanted to talk, she was dragged by a colleague next to her.

"Anzu, forget it, the Investigators have their own missions, we only need to help them treat their injuries.

This was the report of Byakuya-san today, which had reached the standard to discharge."

Anzu obviously did not believe in it and had carefully checked the report.

"How is it possible, what kind of recovery power is this?"

....

Su Xiao walked out of the hospital door and immediately took out the phone and dialed Shinohara Yukinori's number.

"Shinohara-san, I was discharged from the hospital, and the plan of clearing the 14th district can continue."

Receiving Su Xiao's phone call made Shinohara Yukinori somewhat surprised.

"Is your body ok?"

"No problem."

“Well, first come back to the branch, you will have the same people with you, but the injuries of Juuzo didn’t recover yet, so he cannot participate in the 14th districts cleaning.”

Su Xiao took a taxi and headed to the branch.

Twenty minutes later, in Shinohara Yukinori’s office.

“The mobilization was completed. I don’t care where you get the information about the ghouls’ gathering place. I only need the final result, which is to make the 14th district become a safe area like the 20th district.”

The scope of the 14th district was not small. If the 14th district is cleaned up, it can help a large number of people to find a place to live.

“Yes.”

Su Xiao answered, and he was leaving the office.

“Byakuya, have you heard about it? Recently, the headquarters wants to make a big move on the 11th district.”

Su Xiao’s footsteps stopped.

The big action of the 11th district Shinohara Yukinori was talking about maybe the scene in which Kaneki Ken was arrested, CCG and Aogiri trees fought against each other.

“The 11th district is getting more and more chaotic recently. An organization called Aogiri Tree has actually publicly attacked the local ghouls’ Investigators. I will rush to the 20th district after four days. I don’t know who will be transferred to the 14th district to control the overall situation, so the plan to clear the 14th district should be done as soon as possible.

I could support you but doesn’t mean that others will support you. I could understand your hatred of ghouls. I had expelled ghouls with your father before.”

Shinohara Yukinori clearly misunderstood something, Su Xiao’s identity was forged by the reincarnation paradise.

However, this misunderstanding was beneficial to Su Xiao, and he will not correct it.

“Four days? I’ll try my best.”

After that, Su Xiao left the office.

There was not much time. If Shinohara Yukinori is transferred, maybe something will happen.

No one could guarantee that the next boss will certainly support his plan.

The people who participated in the clearing of the 14th district were already waiting in the lobby, and Mado Akira was standing at the forefront.

Mado Akira looked a bit different today, her eyes were dull, and her always brushed hair was tied casually today.

“Byakuya-san, the staff is assembled and ready to go.”

Mado Akira’s eyes were red, and you can tell that she was not concentrated.

“Let’s go.”

Su Xiao did not ask Mado Akira about her abnormality, he had no sympathy for girls, if it was normal time, he would care a little. However, the main task was more important.

According to the map marked by Itori, a large number of ghouls were often gathered in a rotten building in the suburbs, they were between 200 to 300 ghouls.

This was a loose group of ghouls, they had several leaders.

he didn’t choose to enter the building alone this time, there were too many ghouls, he needed to do what he could, using the power of CCG.

When Su Xiao sat in the co-pilot thinking about countermeasures, something wet touched his hand.

Looking at the side, Mado Akira who was driving the car, surprisingly burst into tears.

She noticed Su Xiao’s gaze, and suddenly shook her head aside and wiped her nose.

“In your current state, the survival rate in this mission does not exceed 20%.”

Su Xiao was sitting on the co-pilot.

“Wooo.”

Mado Akira couldn’t persist anymore and cried out.

“Byakuya-san, Is death the fate of ghouls Investigators?”

Mado Akira talked with a crying, tears could not stop falling.

“It’s fair that when ghouls Investigators kill ghouls, ghouls would also kill them back.”

Su Xiao roughly guessed why Mado Akira acted like this.

In the original book, Mado Kureo, Mado Akira’s father, died at the beginning of the plot.

It seemed now that Mado Kureo may have died.

The death of Mado Kureo, which represented the beginning of the plot, Kaneki Ken became a ghoul.

The current time was when Kaneki Ken just entered the coffee shop, Antique before he was caught.

However, gecko was killed by Su Xiao so Kaneki Ken may be caught, but whether he will be tortured or not was unknown.

There was the contractors’ existence on the ghouls’ side, as for the powerful combat power burst out after Kaneki Ken is caught, there is a high chance that it will still happen.

With the cry of Mado Akira, CCG's team came to the edge of the 14th district, which was near the ghouls' gathering place.

Chapter 67

In the edge of the 14th district.

The location here was excellent, and the scenery was beautiful, it was an excellent place to live.

The proliferation of ghouls could make a lot of people in this area move away, and gradually it became ruins.

Inside a building, Hundreds of ghouls gathered here to share information, sell 'food', or find a spouse.

"Have you heard, the auction house and the mutual eating district have been annihilated by CCG, those guys are really looking for death."

"How could you not hear that now all ghouls in the 14th districts know that there is a crazy gay in the CCG branch of the 14th district, and the guy seemed to be named Bya..."

"He was Byakuya, I was told by a friend. He used to stay in the mutual eating district and saw the guy with his own eyes..."

A student who was a ghoul said and stopped talking.

The surrounding ghouls were gathered.

"Talk about it, don't say half of it, what does the madman named Byakuya look like, if we see him in the future, we must hide."

The ghoul looked like a student put his hands on the waist looked at other ghouls with an expression which seemed to smile.

"Uhh, I'm starving. The threat from CCG becomes more and more stressed. I have been hungry for a half a month."

A few ghouls looked at each other and understood the meaning of the student ghoul.

"Tagawa, don't you still have some 'dry food'? Give him some."

"Why me, my 'dry food' is for an emergency. As for the madman who called Byakuya, I am not interested in knowing."

The gossips of several ghouls started, they looked at the student ghoul with unkind expression.

"You, will you tell us or not."

"I have a habit of mutual eating."

The student ghoul was not very old, and he was somewhat timid as he showed fear.

But it will be a bit shame if he gives in like this.

“I will Tell you, I am not telling you because of fear. Everyone is a ghoul, and it is not easy for us to live.”

A few of the surrounding ghouls looked at each other and smiled, they didn't dare to fight. They just scared the student ghoul.

“Homna, we understand, Tell us quickly.”

The student ghoul coughed slightly and began to narrate the information he knew, and the surrounding ghouls listened attentively.

.....

In the grass which was as high as waist around the building, large figures were slowly approaching.

“The first team left wing, second team right wing, third teams is responsible for the frontal raid, and the fourth team blocks the huge exit behind.”

Su Xiao leaned over the grass and began to approach the building.

The number of ghouls this time was huge. After using the heat detector, the number of ghouls in the building was at least 240.

If he rushes forward alone, he won't be their opponent, but with the cooperation of other Investigators, things will be different.

He took the lead, and other Investigators covered him. After a bloody battle, they will be able to kill all the ghouls here.

“The first team is ready.”

“The second team is ready.”

“The third team is ready.”

“The fourth team has arrived at its location.”

Dragon Flash appeared in Su Xiao's hand, and he tapped lightly on the Bluetooth headset.

“Action.”

With Su Xiao's order, the Investigators of the first, second and third teams raised the grenade launchers.

“Boom, boom, boom....”

Dozens of iron cans liked tear gas bombs were shot into the ruined building.

At first, Su Xiao wanted to use a grenade to bomb the ghouls directly. But it was strange that CCG's warehouse of weapon did not provide a lot of grenades.

According to the warehouse of weapon, grenades could not effectively kill the ghouls and may affect the innocents.

This made Su Xiao doubt, but also had a skeptical attitude towards CCG. They were killing in a place without civilians, what innocent people could get hurt?

It may also be CCG headquarters was taking care of some extreme Investigators, were they afraid that the Investigators would use weapons of mass destruction in downtown areas?

It was not impossible, but this reason was somewhat unreasonable.

Su Xiao did not want to go after the reason. His priority was to complete the main task.

The in-depth investigation of CCG now may provoke the higher-ups of the CCG, and the situation will not be easy to deal with, and his Main mission may also fail.

“Pala, pala...”

There was a muffled sound that came from the rotten building, and a white mist spread.

These white mists were not tear gas, but CRC gas.

When the CRC gas reached a specific concentration, it would cause a significant impact on the ghouls so the activity of Rc cells in ghouls' bodies will be low, and kakuhou will shrink they won't be able to release their Kagunes.

It was time, Su Xiao ran into the building with dozens of Investigators behind him.

Intensive gunshots, weapon collisions, and screams came in succession from the building.

The battle started straight from the beginning.

“C, CCG is coming, run away!”

The ghouls were nervous and collided together, the CRC gas that suddenly appeared made them unable even to release the kagune.

But the building was not an enclosed building, CRC gas was rapidly dissipating.

Su Xiao held the sword, and smashed incessantly, several ghouls fell, Su Xiao's attack created a road. The Investigators helped him defend the rear.

With the cover of these people, Su Xiao was obviously calmer in a group fight, and those ghouls incessantly died under his Sword.

....

Two hours later, Su Xiao sat on the floor full of blood.

Pulling a piece of clothes on the side belonging to a ghoul, he began to clean dragon flash.

The battle carried out for two hours, which was extremely fierce. During this period, the ghouls attempted to escape, but they were stopped by Su Xiao's people who were assigned to block those ghouls.

At that time, the CRC gas had been blown away by the wind, and the ghouls were utterly crazy and began to fight back.

Throwing away the cloth which was full of blood and minced meat in his hand, Su Xiao put away the dragons flash.

Looking around, there was a lot of bodies of ghouls lying in front of him, but there was no treasure chest.

Perhaps the flash of the previous chest emptied his luck.

Killing these ghouls, Su Xiao received a total of 367 points of contributions.

His task completion rate had become [first class Investigator, contribution points: 1264/2000.]

Although more than 200 ghouls were killed this time, not all of them were killed by him, a large part of them was killed by others. He could only get a small contribution.

Su Xiao had an idea that to get closer to once he finishes the task, he can get a lot of free time to do what he wants.

“Akira, reports the casualties.”

The death of Mado Kureo had a significant influence on Mado Akira.

But because of today’s mission, Mado Akira did not choose to take time off, this woman was powerful and stubborn.

“128 people came to this mission, 78 were slightly injured, 15 were seriously injured, 23 were dead, and the remaining 12 were only scratched.”

She was standing in the same place after the report, and she was slightly injured.

Su Xiao was not surprised to hear such casualties.

Killing the ghouls was not a simple matter. Sacrificing humans’ lives was necessary. Only 23 people had died. It can be said that it was their victory.

If Su Xiao wasn’t leading the battle, the death toll would even exceed half.

It sounded exaggerated, but this was the truth.

“Send the bodies to the headquarters, as for the seriously injured and slightly injured send them to the hospital.

How many people can fight? ”

Su Xiao was ready to clear the next ghouls’ gathering point, and there was not much time.

“About more than 50 people can continue to fight.”

“Specific number.”

In the killing and fighting, Su Xiao had a unique momentum.

“Fifty-three.”

Mado Akira stretched her body subconsciously.

“Fifty-three, it’s not enough, contact Shinohara Yukinori, and tell him that we don’t have enough people.”

Shinohara Yukinori and Su Xiao had talked about it before, Shinohara Yukinori could accept the casualties of clearing the 14th if it was less than 100. Exceeding this number, Shinohara Yukinori will forcibly stop the plan to clear the 14th district.

If he wants to expel a lot of ghouls, some people will definitely die. The battle without death was only in the stories. Su Xiao was not so naive, nor Shinohara Yukinori. Both of them were very clear about this.

Anyone preparing to kill has to be prepared to be killed back.

Chapter 68

In a large abandoned warehouse, a large group of ghouls was fighting with CCG.

“Breakout! Quick!”

“No, boss, the road is blocked.”

“Are these Investigators crazy?”

“Boom, boom, boom!”

Intensive gunshots came. Su Xiao stood behind a tall concrete column, the cement column was splashed with large pieces of smoke due to bullets.

He was fighting with a group of more than 100 ghouls, this group was very tenacious, and their leader was an S-class ghoul.

Unexpectedly, this group of ghouls surprisingly had a lot of firearms.

Judging from the current firepower, there were at least a hundred long and short guns in that group.

This was the third group of ghouls that he cleared after fighting in that building. It was also the last ghouls’ gathering place he could find.

“Byakuya-san, the group’s firepower is too fierce, we can’t get in there.”

Mado Akira stood next to Su Xiao.

The cement column hit by the bullets caused smoke, and the explosion of the grenades could be heard from time to time.

Su Xiao wanted to move his head out, but a sting came in his head.

He stepped on the ground, and brought Mado Akira next to him, and jumped to a nearby cement column.

This was a large warehouse with at least one hundred cement columns which had one meter wide.

“Boom!”

When Su Xiao just jumped off, he felt a heat wave came from behind him. The impact of the explosion pulled him for a few steps.

Mado Akira sat behind the cement column looked at the explosion unbelievably.

“Rocket, rocket launcher??”

Not only Mado Akira, but even Su Xiao did not expect that those ghouls surprisingly had rocket launchers.

Su Xiao raised an automatic assault rifle in his hand, and pointed at those ghouls and shot randomly. As for whether he hit the enemy or not, only the ghosts knew.

“Boom, boom, boom.”

After he shot randomly, the ghouls screamed two times, Su Xiao got a hint, and his CCG contribution increased.

This was completely based on luck. Su Xiao vowed that he did not aim at anything at all.

“Byakuya-san, good shots.”

It may be that Mado Akira didn't see Su Xiao's casual shots, she only saw the fallen ghouls.

“It's kind of okay.”

Su Xiao could not help but feel awkward.

Most of the time he always killed in close combat, but this time it turned into a gun movie.

“Boss, it can't work, our brothers can't hold on.”

A middle-aged Investigator, holding a bulletproof shield, rushed to Su Xiao.

Some Investigators who followed Su Xiao and had cleared ghouls' gathering places would call him boss, which shows their admiration.

“Itakura, where did you get this?”

Su Xiao was more interested in the bulletproof shield in Itakura's hands.

“I was in the back door raid, a ghoul took this thing after that he was killed by a grenade.”

The grenade is the only explosive that CCG was allowed to use.

Itakura smiled and handed the bulletproof shield to Su Xiao.

This bulletproof shield was black, about 1 meter four or so. There was a rectangular lookout in the middle and upper position, covered with bulletproof glass.

“Boss, this is FXF6-T explosion-proof shield, level 6 bulletproof! In addition to heavy sniper rifles, it can defend other guns.”

Su Xiao took the bulletproof shield, and he could feel that he can rely on this.

“Everyone pays attention, I'll create opportunities, let's get ready to annihilate these ghouls!”

Su Xiao held the bulletproof shield in his left hand and held the sword in his right hand as he rushed straight out from the cement column.

“Boom, boom, boom!”

Through the bullet-proof glass on the bulletproof shield, Su Xiao saw a large row of firearms from ghouls, as they shot bullets incessantly.

“Boom, boom, boom.”

A dense rain of bullets hit on the bulletproof shield.

The pace of Su Xiao rushed slowed down due to that.

The impact of a bullet was not weak, don't even talk about dozens or hundreds of bullets.

Seeing that Su Xiao rushed over with a bulletproof shield, the leader of ghouls was shocked.

He recognized Su Xiao, the man. In just ten seconds, he killed six of his subordinates.

The leader of these ghouls was dressed as a mercenary, and his shooting was extremely accurate.

“Stop him, never let him pass through.”

as if he suddenly thought of something, the corner of his mouth raised into a cruel smile, the mercenary ghoul looked for something behind him, raised a sniper rifle at least two meters long.

“Cover me.”

The mercenary ghoul showed a fierce face and the fingers were about to pull the trigger.

Su Xiao saw this scene through bulletproof glass and did not react much.

The dragon flash disappeared from his hand as he put it into the storage space. Su Xiao pulled off a fist-sized iron ball from his back.

“Kada.”

The crisp metal crash sound came, Su Xiao threw the metal ball near the mercenary ghoul.

Snigger, the iron ball rolled down to the feet of many ghouls.

“Bastard!”

The mercenary ghoul shouted and threw the sniper rifle, curled his body as a kagune appeared and wrapped his whole body.

“Boom!”

A fire spread across the large warehouse, and dust fell from the ceiling of the warehouse.

The intensive shrapnel hit the bulletproof shield in Su Xiao's hand and squeaked.

This was a high-explosive grenade. Su Xiao applied to the CCG headquarters twice, and the headquarters finally approve it reluctantly.

Most of the firepower of the ghouls' side stopped at this moment, and charred smell spread out.

With a bang, half of a broken leg fell in front of Su Xiao, a part of the broken leg was dark while still burning.

In fact, Su Xiao had long wanted to throw a high-explosive grenade. But the firepower of the ghouls was too dense. If he throws from long distance, the high-explosive grenade might explode in the air.

“Raid!”

With Su Xiao's order, the Investigators rushed out.

Su Xiao took the lead and rushed to the forefront.

The mercenary ghouls got up in a confused way and looked at his surrounding with a stunned look. His kagune was blown up, the blood spilled from his ear, he was in a state of shock.

Without waiting for him to recover, Su Xiao had already rushed to him, and he broke the ghouls' neck directly. After that, Su Xiao started looking for other ghouls without checking again.

The battle was reversed instantly, and the situation which was once balanced power from each side became a unilateral massacre in a very short time.

After half an hour, only humans could live in the warehouse.

Su Xiao sat on a broken chair to take rest, after experiencing severe gunfire. There were only three legs left in the chair, and it was uncomfortable to sit on it.

The Investigators began to gather the dead bodies of ghouls together.

“Byakuya-san, all the ghouls were cleaned up. The numbers of ghouls we killed are 147, and we...”

After hearing to the report of the situation, Su Xiao nodded and gestured to ask Mado Akira to deal with the follow-up issues.

Tomorrow Shinohara Yukinori will be transferred to the 20th district, and Su Xiao had killed all the ghouls he could find.

Itori wouldn't have thought that the map she painted casually was indirectly causing thousands of ghouls to die.

Su Xiao's contribution points were now [first-class Investigator, contribution point: 2053/2000. Get the promotion: Yes/No]

Su Xiao chose yes, and the remainder of the reincarnation paradise disappeared.

As long as the news of the CCG headquarters arrived, he could complete the main task.

This made Su Xiao sigh in relief; he did not want his fate to be held in the CCG's hands.

Just as Su Xiao felt relaxed, a reminder suddenly appeared from the reincarnation paradise.

[The hunters have expelled 95% of the 14th district, the hunter killed 34%, indirectly killed 46%, and only 15% escaped from the 14th district.]

[Because the hunter caused a large number of deaths or escapes in the 14th district, You got an achievement: Scavenger.]

[Achievement: Scavenger. (You need to personally expel more than 30% of the ghouls in an area, and cause more than 90% of them to die or escape from that area.)]

[(scavenger) Achievement reward: 1 point of attribute, 7% of the world's source.]

[You have a total of 14.3% of the world's source.]

Chapter 69

Seeing the achievement task: (scavenger), Su Xiao was surprised.

This was really a surprise, whether it was a 1 point of attribute or a 7% world source, they were excellent rewards.

Even completing this achievement task was more rewarding than his main task.

Lighting a cigarette, the smoke rose slowly.

Now that the conditions required for the main task (2) had been reached, he did not need to kill the ghouls.

Although killing the ghouls was a cruel thing, Su Xiao had his own purpose. For this purpose, he will use whatever means.

From the limit time given by the main task (2), he still had 12 days left, and the time was very abundant.

“Byakuya-san, what will we do next?”

In the past few days, Mado Akira had been killing with Su Xiao, she was exhausted as well.

“We'll head back to the branch.”

.....

CCG's cars team quickly returned to the branch. Just entering the branch, Su Xiao saw Shinohara Yukinori was coming with Juuzo Suzuya.

“Byakuya, Did you finish for today?”

Su Xiao was very famous in the branch of the 14th district, and now the entire CCG had heard his name.

In eight days, almost the entire 14th district was cleared. This achievement, maybe only 'that one' could do it.

Not only in CCG, but even more ghouls had heard his name.

Some ghouls will call him Byakuya, and some will call him Black Death because Su Xiao's hair and eyes were black, and he never let a person live, that's why the name of Black Death appeared.

Among the ghouls, almost all of the S-class and above ghouls had heard of Su Xiao. Even if they hadn't heard of Su Xiao, they definitely knew the black death of the 14th district.

“Completed, I basically cleaned up all the ghouls in the 14th district.”

Shinohara Yukinori smiled. The Special Investigator did not covet the merits, but he was happy that human beings had more space to live safely.

“I represent all the people in the 14th district to thank you, superior Investigator Byakuya!”

Su Xiao was stunned. Shinohara Yukinori surprisingly knew the news that he will be promoted to a superior Investigator.

“Don’t be so shocked, the news at the headquarters arrives soon. I am going to the 20th district to meet with other people today. The situation in the 11th district is even more serious than before. The Aogiri tree had attacked the 11th district, which had become ghouls’ land.”

Su Xiao frowned when he heard Shinohara Yukinori’s sentences.

The CCG branch of the 11th district was captured? This speed was too fast. If there is no influence from the contractors, Su Xiao would never believe it.

“It seems that a direct fight with Aogiri tree will take place soon. Is it convenient to disclose a specific time?”

Su Xiao wanted to inquire about the time of CCG, and Aogiri tree was going to fight, which had advantages for his actions.

“It is still not clear now, they just said to go to the 20th district to form a ‘special countermeasures class’.

But Byakuya, you will go with me this time. ”

Su Xiao looked at Shinohara Yukinori with confusion, is he also a member of the ‘special countermeasures class’?

“While you go to the 20th district, you won’t join the ‘special countermeasures class’. The leader had assigned you a more important task. Of course, it is also very dangerous.”

Su Xiao was interested.

“What mission.”

“Killing rats!”

Su Xiao was stunned.

“Killing rats?”

Shinohara Yukinori looked at Su Xiao with a funny smile, as if Su Xiao didn’t know ‘Killing rats’ was a bizarre thing.

“Have you heard of the 24th district?”

Shinohara Yukinori's expression became serious.

Su Xiao, of course, heard of the 24th district. If 1st district to 4th district were dangerous areas where a large number of ghouls gathered, the 24th district was restricted human zones.

There was a sentence in the CCG that the prospective Investigators did not even qualify for entering the 24th district alone.

The 24th district was not a specific area, but passageways that were excavated by ghouls in the underground of Tokyo, it spread all over Tokyo.

These passages were intricate and complex, and it was impossible to explore the 24th districts fully. Most of the investigators only dare to explore the periphery of the 24th districts.

Throughout the CCG, only one team dared to go deeply into the 24th district. The team was the zero team, and the captain of the team, named Arima Kisho, the strongest investigator in CCG's history, the unbeaten investigator.

Now, the order of CCG headquarters was to let Su Xiao go to the 24th district to 'kill rats'.

The degree of danger in the 24th district could be summarized in one paragraph.

That was, the A-class ghouls were all over the place, the S-class ghouls were as much as dogs, only the SS-class ghouls were a little rare.

However, this rarity was very risky as you won't know when you will face one.

That's right; this was the 24th district, the restricted human zone.

There, the mutual eating of ghouls was a certain matter, and ghouls there could not eat human flesh because there was no human being at all.

According to the information obtained by the zero team, in the depth of the 24th district, the number of ghouls there should be numbered in the tens of thousands.

"It's interesting, Do we kill rats outside, or inside?"

Su Xiao's question made Shinohara Yukinori feel a bit strange. It was inevitable that an ordinary person would feel scared after being transferred to the 24th district.

"You will be in the team with Arima Kisho, and with your strength, of course, you will go deep inside."

After understanding the general situation, Su Xiao and Shinohara Yukinori said goodbye to each other, as Shinohara Yukinori was about to rush to the 20th district.

His transfer order had not yet arrived. He will rush to the 20th district and meet with someone.

In the afternoon, Su Xiao received a transfer order from CCG headquarters and received a hint from the Reincarnation paradise.

[You has been promoted to the rank of the superior investigator, CCG contribution 2053/10000.]

The superior investigator was indeed not the end. On top of the superior, there were prospective special investigators and special ones.

However, the main task (2) only needed him to be a superior Investigator.

Su Xiao opened the task option.

[Main task (2): superior investigator. (Completed)]

Mission difficulty: LV.3.

Mission Description: Quickly improve your position in the CCG and prepare for follow-up tasks.

Mission information: use any method to promote your status, eliminating ghouls, bribery or other means.

Mission reward: 1 point of attribute, 1500 paradise coins.

Mission remaining time: 12 days and 16 hours.

....

Su Xiao was now could complete the task anytime, and when he was ready to complete the main task (2), he suddenly thought of one thing.

If the task is completed now, what will happen to the remaining 12 days and 13 hours of the mission?

Being aware that the longer he stayed in the derivative world, the more opportunities to have benefits.

The needs of resources for Su Xiao to become stronger were all obtained in the derivative world. After returning to the reincarnation paradise, he did not have the means to get resources.

By asking the reincarnation paradise, Su Xiao learned that if he completes the main task now, the remaining time will disappear.

Su Xiao pondered for a while and decided not to complete the main task for the time being.

Now he stayed in CCG side. If he does not complete the main task (2), even if the contractors of the ghoul's side finish the main task (2), it will still be useless.

From the form of the current main task, the main task (3) was very likely to be a confrontation task. If he does not complete the main task (2), the contractors of the ghouls' sides can only wait.

He could complete the task anytime, anywhere, which was a big advantage.

The time limit was not reached yet, Su Xiao's main task (2) will not fail, that was to say, he had 12 more days to act freely.

Now CCG headquarters sent him to the 24th district to 'kill rats' with Arima Kisho, which was undoubtedly an opportunity to get benefits.

A place with more ghouls has a higher chance for him to get a Treasure Chest.

Su Xiao was unlucky, but he didn't believe it that so many ghouls won't drop treasure chests.

Chapter 70

In the 11th district, inside the Aogiri tree's building.

“Ah~!!”

Painful screams spread throughout the old buildings.

On the first floor of the building, many contractors gathered here. The previous scream was from the original protagonist Kaneki Ken.

Those contractors to increase their own strength and let the plot continue normally cooperated with Kirishima Ayato and captured Kaneki Ken to the Aogiri tree.

They were different from Su Xiao. Su Xiao did not care whether the plot continues or not. As long as he could complete the task, even if there is no plot guidance, the difficulty of completing the task will be slightly higher, Su Xiao did not care as well.

Being powerful was the only important thing, overly relying on the plot will have some problems sooner or later after the plot collapses.

“Is this, really, not a problem, hot.”

Cold fish was talking, the painful incessant screams made him scared.

Cold fish guessed in his mind that what Kaneki Ken had experienced for him to make such a painful scream.

“It should be no problem. In the original book, Gecko tortured Kaneki Ken. Now it is changed to Nico. The way this guy tortures people is almost the same as Gecko.”

That incessant screams even made hot flustered.

“Tell me, tell me, tell me! One thousand minus seven is equal to what.”

A shouting scream was heard above many contractors.

“Will Kaneki Ken die?”

Hot swallowed.

“Probably not, that is the protagonist after all.”

Hot and cold fish were silent.

A little girl behind many contractors, Xi lo lo who had traded with Su Xiao, the little girls dressed like Kanna.

Xi lo lo's now, was being ignored attitude by the others, she should be in a low position in the cold fish adventurous group.

“Did the pervert in the CCG camp made any actions recently?”

Hot asked, but cold fish was shocked after listening.

“Nothing happened.”

When cold fish talked, he secretly used the brand to pass hot a line of text.

‘The guy cleared all the ghouls in the 14th district.’

Hot's body stiffened, while there were waves of turbulence in his mind, what is the concept of clearing all the ghouls in a district?

Hot understood why cold fish did this. The less contractors knowing this, the better because it will hit the fighting spirit of ghouls' camp.

Cold fish and hot controlled this point, they made sure that the contractors besides them knew as little as possible.

The precedence of knowing information could consolidate the status of their leaders, and they could also get more benefits.

People were selfish, not to mention that cold fish and hot set up a temporary adventurous group, instead of a permanent adventurous group.

Exploiting the contractors in the temporary adventurous group was almost unspoken rule by all the leaders in the adventurous group.

Those exploited contractors knew it actually, but they had no choice but to join the temporary adventurous group. They were not sure that they could live through the derivative world.

“Now the confrontation task has not yet begun. How is the main line task on your side completed? I have completed more than 50% of this.”

Hot changed the topic of the conversation.

“It's just ordinary. It's too hard to find an investigator. There are few scattered ones. The people on my side are probably finishing about 40%.”

After today, the mission time limit would be 12 days, and the plot of the 11th district would start immediately. It was an excellent opportunity. ”

Cold fish sighed.

Su Xiao's mission was to kill the ghouls, while cold fish and other people were killing the investigators.

Of course, compared to killing ghouls, the number of investigators they needed to kill was much less, each of them only needed to kill five Investigators.

If the number of Investigators required to be killed was the same as that of the number of ghouls, then even if all investigators in Tokyo are killed, they will not be able to complete the task. The number of investigators was much less than ghouls.

Xi lo lo heard the discussion between the two people, she felt bored her mind.

She had already paid the money, but cold fish did not care about her task completion.

By now, the number of killing by Xi lo lo was still 0. The original words of cold fish were, don't worry, there will be plenty of opportunities in the future.

Xi lo lo felt that cold fish may want to cheat her.

Although she paid the money and signed a contract with cold fish, if she encountered some people with ill intentions, her contract could not be a save her.

The contract only ruled that cold fish should help her complete the task and try to protect her.

This was to have other ways to escape.

As long as Xi lo lo dies, the contract will be void, and cold fish will lose some of the park coins. The number of park coins was also acceptable.

The meat hurt, but it didn't hurt the bones, otherwise cold fish won't sign the contract.

If it was a normal situation, cold fish would not do things like this, but the existence of Su Xiao made cold fish feel great pressure.

Cold fish had no interest in Xi lo lo's park coins. As for her life, cold fish even did not care.

Strong enemies were outside. Perhaps even if cold fish and hot were already in a team, they were still calculating behind each other's back.

In the 20th district, inside the CCG branch.

After receiving the transfer order from the headquarters, Su Xiao rushed to here. The two districts were not far away. The 14th district was next to the 20th district and could be reached quickly by car.

Standing in front of the building of the branch, Su Xiao stretched himself.

He was pressed by the main task previously, he had been in a tight state, and now he could complete the main task at any time, which made him relaxed.

It was five o'clock in the afternoon, the sunshine was soft, and the surrounding environment turned into a warm pale yellow.

The clouds on the horizon were connected together. In the park next to the branch, some old people were drinking tea or chatting.

“It's really a good day to train.”

After entering the ghouls' world, Su Xiao had been fighting in high intensity.

If he was learning combat skills in the reincarnation paradise, it is actual fighting now.

After fighting through irons and blood, Su Xiao felt that his sword skills slightly improved, and the feeling that the blade became an extension of his arm like koshiro said became more and more obvious.

“Byakuya-san.”

A white shadow quickly approached, Su Xiao subconsciously wanted to take out dragon flash, but he saw a familiar person.

“Juuzo.”

Su Xiao chuckled, he had a good impression of Juuzo Suzuya. The two men fought together and had some friendships.

The friendship gained from the battle was far superior to the others.

“Byakuya-san, why are you here?”

“Come to find someone, and don’t call me with san, Byakuya will be fine.”

Although he was looking for someone, Su Xiao did not know who he was looking for.

“I was lost before, this is the 20th district’s branch, right? I was looking for it the entire afternoon.

Byakuya-san, Byakuya, do you know where is the conference room of the branch?”

Su Xiao nodded and walked into the branch with Juuzo Suzuya.

Just entering the building, Su Xiao felt that something was wrong. Wherever he goes, people would look at him, as if looking at rare creatures. Some female investigators even secretly took out their mobile phones to take pictures.

At this time, in the conference room.

Marude Itsuki, the special Investigator, was hosting a meeting.

There were dozens of investigators sitting in the conference room, without counting MarudeItsuki, there were two special Investigators.

This kind of scene had always been rare in CCG’s history.

Although Marude Itsuki was a special Investigator, he generally did not participate in the battle. His commanding ability was far superior comparing to his combat ability.

Only CCG had large-scale combat missions, which were conducted by Marude Itsuki.

Marude Itsuki was the commander of CCG in the battlefield, he was especially good at large-scale battles.

In the exciting tone of the Marude Itsuki, the fighting spirit of the people in the meeting was aroused.

“This is a war between humans and ghouls. So, give me your life for the time being.

By the way, this is an order. You have no right to refuse!

Here, I declare that ‘Special countermeasure class’ in the 11th district is officially activated...”

It was also a summary of his previous big words. This is the battle declaration which he prepared for this occasion.

The mobilization before the fight was very important.

“boom!”

The door of the conference room was pushed without warning, and some Investigators were shocked.

“Sorry, I am a Juuzo Suzuya, a subordinate of Mr. Shinohara. I am late because I was lost.”

Juuzo Suzuya stretched his hand in front and pushed the door.

At this time, Su Xiao was behind Juuzo Suzuya. His eyes just saw Marude Itsuki who he had seen from the video call and his face was stunned.

There was a deadly silence in the conference room, it seemed that the little angel Juuzo was in trouble.
