

## R. Paradise 611

Chapter 611: Fort

A train sped through the tracks. Several antelope near the ways were scared away. One of them was exceptional. Not only did it not escape, it also stared straight at the moving train.

Two seconds later, the antelope buried its head and rushed towards the train. With a bang, blood splashed, and the twisted body of the antelope fell near the railway.

...

After the train traveled for eleven hours, in the carriage, Su Xiao, who was taking a nap, suddenly opened his eyes.

He sat up with a whoosh. He did not know why, but he suddenly felt palpitation. This feeling appeared for no reason as if an invisible giant hand was pinching his heart.

Dong, dong, dong...

The heartbeat was getting faster and faster. Su Xiao's pupils contracted. This was the ability of the heart and instinct to warn him that danger was approaching. No, someone aimed a long-range weapon at him. Otherwise, there would not be such an obvious manifestation.

Directly pulling up the sleeping Bobowang, Bobowang was confused, but after seeing Su Xiao's expression, Bobowang immediately entered a fighting state. His nose twitched, and he began to look for suspicious smells. This was a tacit understanding that a man and a dog had developed for a long time.

"Let's go."

Dragon flash appeared in his hand. Su Xiao cut open the hide on one side of the train and jumped out of the carriage.

Emily looked at this scene in a daze. She was already scared, silly.

Su Xiao's action of cutting open the car skin caused the carriage to become a mess, and the howling wind poured into the carriage.

"Woof."

Bobowang called out to Emily and jumped out of the carriage. Emily was a little surprised.

"This is?"

Kenny's expression didn't look good.

"Brother, that dog wants me to leave the train."

"Can you understand what it means?"

"Yes, it is brilliant. It will use its eyes to express its meaning."

Kenny listened to his sister and looked at the hole in the carriage. After hesitation, he picked up his sister and prepared to leave the carriage first.

Boom! Boom! Boom! Boom!

An explosion was heard, and the entire train began to shake violently. Kenny had already thought of leaving the carriage. The moment the explosion sounded, he had already jumped out of the carriage.

Boom! Boom! Boom! Boom!

The fireball produced by the explosion rose, and thick smoke rose into the sky. The train was blown away.

The train exploded in mid-air. Not only the train but even the tracks were distorted by the explosion, showing the blast's power.

Many corpses were scattered around the tracks, burning with raging flames.

"Beautiful fireworks."

A man in a purple suit stood in front of the burning train wreckage. He took a deep breath. He smelled the unique smell of the corpse burning.

"Life is blooming."

The purple suit man raised his arms, and distorted faces appeared in the air. They were the train passengers who the explosion had killed.

"Come, if you hate me, come and snatch my body. I will give you a chance. If you fail, you will become my nourishment. This is a fair game."

Hundreds of faces pounced on the suited man, and the man and woman beside him subconsciously retreated.

"No matter how often I see him, I feel a chill run down my spine."

The woman spoke. She had heavy makeup on her face, and a sparrow was standing on her shoulder.

"Don't talk nonsense. Do you want to anger the boss?"

The man spoke. His figure was sturdy, his skin dark, and a horn was on his head. He looked like a rhinoceros horn.

"It's very impolite to discuss others casually."

The man in the suit tilted his head. The expression on his face kept changing as if a lot of consciousness was snatching this body.

A few seconds later, the man in the suit calmed down and burped.

"A big meal."

The man in the suit was the red clown. He did not know what method he used to grasp Su Xiao's whereabouts and set up an ambush in advance.

"Boss, that guy ran away."

The sparrow on her shoulder chirped non-stop as if it was delivering information to her.

"It doesn't matter—the person invited with 60,000 Paradise Coins. If Mr. Hunter can escape easily, then the brigade is too disappointing. She is a top second-level fort!"

As soon as the red clown finished speaking, a gunshot was heard.

This gunshot seemed to cause a chain reaction, and the gunshots were heard.

"That woman used an automatic rifle?"

Xi heard the continuous gunshots, and his expression was a little surprised.

"No, she used a sniper rifle, a 30mm caliber sniper rifle!"

The expression of the Yanyao was also a little strange. There was no need to talk about a sniper rifle with this frequency. Even an automatic rifle had a high firing rate. Wasn't it afraid of exploding?

"Let's go and welcome our' customer '."

...

At this time, in a desolate land half a kilometer away from the wreckage of the train.

The shrill scream continued.

With a clang, sparks flew, and the blade and the bullet collided.

Su Xiao split a bullet that shot at his head. He saw how exaggerated the size of the bullet cut in two was. This was no longer a bullet. Even if it were a small shell, people would believe it.

Bang!

The bullets cut in two disappeared into the soil, grass flying everywhere.

It would not be a big deal if there were only one or two bullets. However, there would be a few of these bullets every second. The speed of the shots was breakneck. Fortunately, the flying rate of these bullets was not abnormal. It was much slower than the Spider Queen's bullets.

Although this was the case, the number of bullets was too much.

After flying dozens of bullets in a row, Su Xiao's right arm began to numb. It could not go on like this. Even if he could bear it, the dragon flash could not withstand this high-intensity slash. The momentum of the bullet was too strong.

Su Xiao already knew the position of the enemy. Just one kilometer away, the dense gunshots exposed the enemy's position.

But he could not rush over at all, there seemed to be dozens of turrets, and they were blowing at him wildly.

As a result, it was easy to know who attacked him with his butt, except for the red clown.

Su Xiao used his extraordinary physical fitness to avoid a bullet, and the bullet whistled past his ears.

The pain in his right arm was always alert to Su Xiao, and he did not hack the bullet again.

An energy shield appeared in front of Su Xiao now, an energy shield with 300 points of strength.

Bang, bang, bang...

The bullet hit the energy shield and bounced off. The energy shield emitted a light blue light without any damage.

Although the energy shield blocked the bullet, the impact of the shot would not disappear out of thin air. Su Xiao could not help but take a few steps back.

After being bombarded for more than ten seconds, the gunshot suddenly stopped. At this time, Su Xiao's legs had fallen into the soil.

Su Xiao breathed a sigh of relief and signaled Bobowang behind him to hide and look at him for a while.

Bobowang disappeared with a whoosh. Did it escape? Of course not. Bobowang was squatting in the nearby log, waiting for Su Xiao's order.

The whistling sound came after the gunshot stopped for a few seconds, and a missile flew to Su Xiao.

He saw the missile from a long distance. The missile was at least one meter long, and the appearance was painted with a shark mouth pattern.

Before the missile landed, the muscles of Su Xiao's arm bulged and cut the sword light out of thin air.

Clang.

The blade cut the missile into two pieces, and an unexpected situation happened. The rocket began to split and turned into dozens of small projectiles.

Boom, boom, boom...

The explosion was deafening. Su Xiao blocked the energy shield in front of him, and his legs entered the soil.

A three-meter-long sniper rifle was set up on a small hill one kilometer away. The gun barrel alone was two meters long.

Behind the sniper rifle, a girl was in a half-squat position, observing the situation through the scope.

"Not bad. No wonder the clown was willing to pay 60,000 yuan to invite me."

The girl chuckled. Her hair color was scarce. It was blue. She tied her blue hair in two ponytails. These two ponytails were spread on the ground and looked about one and a half meters long.

Chapter 612: Strike

The girl looked at the situation on the battlefield through the scope. After finding that the missile did not kill Su Xiao, the girl pouted.

Crack, crack...

The clock sounded, and a pink timer was placed not far from the girl. It was counting down, three minutes and 23 seconds.

Glancing at the timer, the girl pressed the headphones on her ear.

"Clown, it's time."

The red clown who was rushing to Su Xiao stopped.

"So fast?"

"There are still three minutes left. No, no. I will withdraw after three minutes. Only by charging money can I become stronger. 60,000 paradise coins fighting for 10 minutes. This is the price we agreed on beforehand."

After hearing the girl's words, although the red clown had a smile on his face, his heart felt a bit hurt.

"The fee, another 10 minutes!"

After the girl received the 60,000 paradise coins, her eyes curved into crescents.

"Thank you for your patronage."

The girl pulled the gun, and a somewhat hot shell flew out.

Holding her breath, the girl pulled the trigger.

Bang, bang, bang...

The smoke spread out, and the girl instantly missed a clip. She waved her left hand, and there was no movement of reloading. An empty clip had already fallen under her feet, and a new pin was inserted.

There were dozens of magazines around the girl, waiting for her to use them.

On the other side of the battlefield, Su Xiao stood in the same place, the energy shield in front of him roared, and the large bullets were blown away.

He could not move at this time, and it was already the limit to ensure he was not beaten back. It was impossible to rush forward.

Although the profound dilemma, Su Xiao was very calm. He also used a sniper rifle, so he knew this caliber of bullets must not be cheap. He did not believe that the shots of the other party were infinite.

Sou ---

A bullet brushed past the energy shield and made a terrifying whistling sound.

"Mr. Hunter, we meet again."

A hail of bullets In the middle, Su Xiao vaguely heard someone talking.

Looking sideways, two men and a woman were strolling, and the red clown led the three.

The red clown smiled politely and did not attack immediately.

"What exaggerated firepower. To maintain this fire for 20 minutes, I spent 12 thousand paradise coins."

As the red clown spoke, cracks appeared on the energy shield in front of Su Xiao.

Kaba, Kaba.

The cracks became denser and denser. In less than a minute, the bullet would break the energy shield.

"Xi."

The red clown made a color to the rhinoceros on the side. The horned strong male rhinoceros nodded and quickly rushed in the direction behind Su Xiao.

"Yanyao, wait for an opportunity."

"It's clear, boss."

The body of the Yanyao gradually disappeared. It seemed to have entered the stealth state, but this was a higher ability than stealth.

The demon disappeared into thin air and disappeared in the perception of everyone.

Finding this situation, Su Xiao felt a chill in his heart. The ability of the other party was challenging to deal with.

"Horn collision!"

There was a whistling sound behind Su Xiao.

Sou ---

Almost in an instant, the strong man rhinoceros appeared behind Su Xiao.

A layer of energy shield with a strength of 200 points formed behind Su Xiao. The front was full of bullets, and he could not move now.

Boom!

The soil under Su Xiao's feet splashed like a bomb was detonated.

A strong force that could not be resisted came from behind, and Su Xiao was directly knocked away.

After hitting Su Xiao, the rhino fell to the ground and was seriously exhausted. The red clown instantly appeared next to the rhino and pressed one hand on the back of the rhino.

Purple energy poured into the rhino's body, and the already exhausted rhino stood up.

The red clown raised his head.

"Continue."

"En."

Xi took a deep breath, stepped on the ground, and flew out like a cannonball.

At this time, Su Xiao had not yet landed. His mouth was bleeding, and the energy shield on his back had holes. The strong black man hit this. This guy was like a black rhinoceros.

Although Su Xiao was in mid-air, the bullets flying at him did not stop. Because of the momentum, he was continuously flying and flying backward.

Just as Su Xiao was about to land, the rhino arrived!

It was still the same move, with the horn on his head.

Boom!

A wave of air spread, the energy shield behind Su Xiao was smashed, his internal organs seemed to be displaced, and he spat out a large mouthful of blood.

When everyone thought that Su Xiao would be blown away, he stopped in the air.

Not only did Su Xiao stop in the air, but the rhino's body suddenly flew forward.

A hard-to-detect metal wire wrapped around the horn of the rhino. He did not knock Su Xiao away but made himself stagger forward a few steps.

Collapse!

Because the boundary line could not withstand this force, a small part of the front broke, and Su Xiao rolled a few times on the ground. Although he was in a sorry state, he has not knocked away.

Zi ---

The broken line was wrapped around the neck of the rhinoceros, and just as Su Xiao wanted to cut off the head of the rhinoceros, the pain came from his chest.

Puchi.

The invisible weapon pierced Su Xiao's chest, and it was the beautiful yao that had been hidden in the dark.

Because the distance was too close, and Su Xiao was sitting in a sitting position, fighting back with a knife was impossible.

"Yan Yao, get out of the way!"

Xi roared. Behind him was a smiling red clown.

The skill that Xi used was powerful. This level of other ability could not be used continuously like this.

[Horn-crash Lv. 29(Innate Skill, Active) ]

[Skill effect: Use all the strength in your body to charge forward. When the charging speed reaches it's maximum, all the strength will be concentrated on the Barbaric Horn. This will hit the enemy. The impact damage will be  $300 + \text{Strength} \times 12 + 50 \text{ Horn Attack Power}$ . ]

[Hint: Horn Strike(active) consumes 20 HP. ]

[Hint: Horn Strike(active) cooldown time is 2 days. ]

[Hint: You will be exhausted for 5 minutes after using Horn Strike. ]

[Lv. 10 Additional Effect: Powerful flying. ]

Lv. 20 additional effects: Charge Speed.

...

Without a doubt, if the attack hit the contractor, who was a little thin, it could instantly kill him.

Xi's other abilities were not good, he specially made this move, and the number of contractors who died under this move was countless.

Usually, Xi could only use the horn bump once in every battle, but so far, he had used it twice, and it was ready for the third time.

There was no cooldown time, and it was not affected by the exhaustion effect. This must be related to the red clown.

With the roar of Xi, Yan Yao, who stabbed Su Xiao with a dagger, turned and retreated. Su Xiao's hand grabbed nothing.

Jumping up from the ground, Su Xiao just stood still. A bullet hit the energy shield, and the momentum caused him to stagger a few steps.

Xi rushed to Su Xiao with a whoosh, and there was only one belief in his eyes: to kill Su Xiao.

The third time Su Xiao suffered the impact, a long sword slashed at Xi just a second before the result came.

Zheng!

The bright light of the sword flew out, and a wound appeared on the shoulder of the current rhino. The damage spread to the chest area, and blood gushed out.

Boom!

The rhino collided with the energy shield in front of Su Xiao, and the security that blocked hundreds of bullets finally could not withstand it and shattered.

The powerful momentum surged, and just as the sharp horn was about to hit Su Xiao's chest, a layer of the golden shield had already wrapped him up.

The impact force had been reduced by more than half by the energy shield, and the appearance of the secondary invincible shield made the rhino's third impact sink into the sea.

Su Xiao's legs sank into the soil, and the ground behind him surged. He resisted and was not sent flying.

Staring at Xi, Su Xiao smiled.

"It's my turn."

The long sword slashed down. Su Xiao ignored the sound of wind breaking behind him and missed the light in the hands of the red clown in the distance.

He had to kill this guy. Compared to the distant turret, this guy was more threatening.

Chapter 613: Demon

Fresh blood dripped from his chin. Su Xiao held the long sword in his hand to form a slashing posture.

Fast, faster.

Seemingly feeling Su Xiao's desire, the long sword in his hand was a little faster, and dragon flash had already appeared in the eyes of others.

Puchi.

The long blade slashed down, and Xi's body froze.

A red line appeared on Xi's head, and half of his head began slowly dislocating.

"Drink, drink..."

Xi heard a strange sound, and two seconds later, he began to fall backward.

The invincible shield disappeared with only a \* \* \*, and a bullet was shot at Su Xiao's back.

Bang.

A 50 points strength energy shield was broken, and the bullet hit Su Xiao's back waist.

What was the feeling of being hit by a 30mm bullet? Su Xiao's body experience was like being hit by a hammer.

The first half of the bullet went into the skin. Fortunately, there was an energy shield to buffer. Otherwise, this bullet would have a hole in his body.

The sound of wind breaking came from the side, Su Xiao tried to turn his head, and there was a blood mark on his cheek. It was a demon.

Although the demon attacked, Su Xiao still could not find the other side's position, and the other side seemed not to exist.

Looking at the red clown not far away, this guy did not do much since the battle began.

There were two possibilities: the red clown was a support, and his combat power was not strong.

From the previous situation, the dry corpse asked the red clown for support, so the possibility of the red clown was not high.

Since it was not supported, there was only a second possibility. What was the other party preparing, and the red clown's breath was becoming more and more abnormal.

While thinking, Su Xiao created an energy shield with 300 points of strength to defend against the 'light cannon' in the distance.

The sound of breaking wind came in front of him. Su Xiao's left hand reached forward.

Puchi.

The sharp weapon pierced Su Xiao's palm, his five fingers clenched, and a muffled sound came in the air.

Caught!

Su Xiao grinned, and Yan Yao, who was in a transparent state, felt a chill after seeing this smile.

The long sword in his hand slashed forward. At the same time, when the blade was cut out, a sharp weapon pierced Su Xiao's chest, and Yan Yao used a two-handed weapon.

Ignoring the pain in his chest, Su Xiao cut down.

"Ah!"

A scream came, and a broken arm holding a dagger fell to the ground.

"Spare me..."

Su Xiao continued to cut the second, the third, and the fourth.

An 'invisible' arm gradually appeared in his hand when he cut out the fifth knife. He looked down and saw a woman's broken body under his feet.

Throwing away the arm, a long dagger ran through Su Xiao's palm. He bit the handle of the sword and pulled out the blade.

Spitting out the dagger, Su Xiao shook the blood on his left hand.

The gunshot had stopped for some reason. Su Xiao spat a mouthful of blood and saliva and looked at the red clown.

"Wonderful."

The red clown stood in the distance and applauded.

Su Xiao did not speak but slowly walked to the red clown.

"Finally completed. Xi, Yan Yao, I used to think you died. Today, you also died for me. Are you willing?"

The red clown closed his eyes and said, "Mr. Hunter, have you ever seen... a demon?"

Dark red flames rose from the red clown's body. There were two vague figures in the fire. The young man looked closely and found that they were the souls of Xi and Yan Yao. The two of them did not resist, as if they had already prepared for this moment.

The two of them were willing to die for the red clown. It could be seen that the red clown had a unique personality charm.

"Boss, thank you for taking in a heretic like me. Xi will become a part of you."

The dark red flame entered the body of the red clown, and his momentum began to change.

"Hellfire."

The red clown pointed forward with his index finger, and with a whoosh, a dark red fireball flew to Su Xiao.

The heat wave rushed forward, and Su Xiao jumped sideways to avoid it, barely avoiding the dark red flame.

The dark red flame drew a parabola and finally fell on a rock. The rock was instantly burnt out, and not only that, the ground that was burned by the dark red flame turned into magma.

"Finally succeeded, the accumulated results of the 10 derivative worlds."

The red clown looked at the hand that used the flame. It seemed that he couldn't believe that the ability just now was used by him. For the sake of this' bullshit 'demon bloodline, the red clown had sacrificed countless souls.

Because of his personality, the souls that he sacrificed had a chance to steal his body.

Even so, the red clown still got the devil's blood, which was extremely rare in the reincarnation paradise.

Su Xiao frowned. The current red clown's momentum changed significantly, giving him a sense of danger.

The two people confronted each other from a few meters away, and no one attacked first.

On the hillside one kilometer away, the blue-haired girl was observing the situation on the battlefield through a telescope. She put them away, whether it was the sniper rifle or the cartridge clip.

The girl called Vivian in the reincarnation paradise. The brigade number was 8, 16 years old. Although she was 16, her figure seemed to be under 14 years old. At least the chest area was like this.

Vivian held a long blue braid in her hand and swung it. Her feet were full of shells.

"Clown, the twenty minutes are up. Do you still want to pay? Let me give you a friendly reminder. Your enemy is called White Night. The No. 8 of the brigade lost to him once. It is said that his bladder has been punctured."

The red clown did not respond. Vivian curled her lips.

"Forget it. I don't want that guy to get close to me if you die. If I get close to him, I will die."

Vivian put away the telescope, whistled, and left. She could not get close to Su Xiao. Wei Ni knew this from the beginning and also remembered this.

120 thousand paradise coins fighting for 20 minutes. Besides the ammunition cost, Vivian earned 80 thousand paradise coins.

"Ah, bullets are so expensive, I envy close combat, but my small plastic physique can't grow into close combat."

...

Su Xiao and the red clown were in a confrontation on the field.

Su Xiao checked the hunting mission progress. It had been completed(4/5), and only the red clown was left.

[1 Potion] slipped out of his sleeve and used his thumb to open the shell on one side of [1 Potion]. A bright needle appeared.

[1 Potion] had two ways to use it. It could be used or injected.

Because the # 1 potion contained diluted cells in the column, the injection risk was a bit high, but the recovery function was more robust.

Su Xiao was confronting the red clown. The other party could not watch him drink the potion. The flaw of drinking the brew was too big.

He stabbed the needle of the # 1 potion into the neck, and Su Xiao pressed the injection button on the potion bottle.

Sizzle---

The medicine was injected into the body, the blood vessels on Su Xiao's face burst, and highly invasive cells invaded the body.

Turning mana into green steel shadow energy, the green steel shadow energy immediately eliminated the 'intruder'. A moment later, the situation in Su Xiao's body calmed down, and the cells in the pillar were consumed.

The wounds on the body quickly healed, the bullet at the back of the waist was gradually pushed out of the body, and the HP quickly recovered from 30 to around 98.

Although the injury recovered, the fatigue could not disappear. After blocking so many bullets and being knocked away twice, Su Xiao felt very tired.

But the enemy was right in front of him. The current situation was that either the enemy died or I died.

Two short knives, about 70 centimeters, were now in the hands of the red clown, and the dark red hellfire was attached to the two sharp knives.

"Mr. Hunter, let me reintroduce myself. I have renamed the hell clown and used to be an actor."

While speaking, the clown stepped on the ground and rushed to Su Xiao.

It was rare for someone to take the initiative to rush to Su Xiao. Kakashi in the Naruto world had done this, but Kakashi had become a treasure chest, and it was a treasure chest that had been opened.

Su Xiao lowered his body and stood with a sword in one hand, staring at the clown's pace.

The clown's pace was messy, and no one could guess where his next step was and which angle he attacked from.

Sou ---

The clown suddenly disappeared, he performed short-distance teleportation, and when he appeared again, he was already in front of Su Xiao.

Chapter 614: 4 Hits 1 and Was Counter-killed

Su Xiao instinctively formed an energy shield behind his back. Behind him was the place where space enemies liked to attack the most.

But who would have thought that the clown attacked from the front?

The two short knives rotated at high speed in the hands of the clown, seemingly turning into two electric saws.

The muscles of Su Xiao's whole body were slightly tight. The force began with the soles of his feet, passed his legs, then his waist, and finally transferred into his right arm.

A slash forward was Su Xiao's fighting style. He liked heavy slash, and the attack style was significant and prominent. Although this was the case, he rarely exposed flaws.

Dragon flash cut through the air and made a terrible sound.

The clown's face changed, the nervous smile disappeared, and he blocked the two short knives above his head.

Ding!

Two short knives blocked Dragon flash, and sparks flew. The devil flame and the green steel shadow energy eroded each other.

"Mr. Hunter, don't think I am a support fighter, do you?"

The clown firmly resisted Su Xiao's attack, don't underestimate this. This shows that the strength and agility attribute of the clown is not inferior to Su Xiao, and the melee ability is not weak.

Su Xiao did not speak but changed from one hand holding the knife to two hands holding the knife.

Pressing down hard, Su Xiao found that the devil flame on the clown knife was not suppressed by the green steel shadow but had the momentum to fight.

"Burn."

With a bang, the flame on the clown's double knives exploded, and Su Xiao was pushed back by the momentum.

The flame disappeared. Su Xiao looked around. The clown already did not know the end. This guy had the space ability and was very flexible. After hesitating, he activated the light gold brand on his sleeve.

Dong!

An invisible rush spread around, a muffled sound came, and the clown suddenly appeared in front of Su Xiao.

Of course, Su Xiao would not miss this opportunity. He raised his sword and slashed.

Pu ci.

The long sword cut through the back of the clown, the clown rushed forward a few steps, and his body leaned back to show pain.

"It hurts. What kind of energy is this? It can fight against the evil flame."

The green steel shadow energy climbed on the wound of the clown, and it was resisting some point in the clown's body, but it could not invade the clown's body.

At the same time that the knife hit the clown, Su Xiao immediately made a second cut.

The blade came, and the clown blocked a short knife behind him.

Ding.

After staggering a few steps, the clown turned to face Su Xiao.

Su Xiao moved sideways, and after a preliminary fight, he noticed that the opponent's melee ability was not weaker than his.

Su Xiao and the clown rushed forward at the same time.

With a clang, the ice blades collided, and the distance between the two was less than half a meter.

Su Xiao retreated half a step, and dragon flash continuously slashed, leaving a white line in the air.

The clown's reaction was not slow, and the two short knives blocked Su Xiao's slash.

Su Xiao's style was big. He used a long sword. The power of the slash was far more potent than the short sword. The clown was used to holding the sword with his backhand and rarely took the initiative to attack. He had been looking for opportunities.

There were dense slashes in front of the two people, and sparks flew. Su Xiao could not help but be afraid of the clown.

Zheng!

The blade flew over, and the demon flame rose. Su Xiao and the clown fought together. The grass chips in the vicinity flew, and a large area of the ground turned into magma because of the demon flame.

In the battle, Su Xiao saw the clown laughing. This guy seemed to like fighting very much.

Su Xiao did not care about this. Who asked him also to be happy.

"Ring broken."

"Flaming Tooth Evil."

The ring-shaped blade light collided with the two flame fangs, and the roar spread far away.

Su Xiao's clothes were a little burnt. Unknowingly, he had been fighting with the clown for nearly an hour.

"Hu, hu."

The clown gasped for breath, and his breath began to weaken. Although the strength and agility attributes were very high, the physical characteristics of the clown were not high, and it was impossible to compete with Su Xiao in endurance.

Su Xiao's attack power was extremely high, he was resistant to attacks, and the most shameless thing was that he had a shield!

With a shua sound, the clown disappeared into the same place. The primary space imprisonment could only last for 30 minutes, and the clown recovered the space ability.

In the distance, Bobowang was a little envious. This instant movement was so cool. If it had this ability, it could show off to Su Xiao: "Master, look at my instant movement. Am I handsome?"

Su Xiao did not have time to pay attention to Bobowang's blind thinking. At this time, there were energy shields behind him and on both sides, so he stared at the front.

There were only 200 mana points left, and Su Xiao's situation was not optimistic.

"Let's fight."

The clown laughed and suddenly appeared above Su Xiao. The two short knives stabbed straight into Su Xiao's head.

Su Xiao stood where he was and did not seem to notice that the clown was above him.

Two short knives came. Su Xiao suddenly emerged with a blood-red light on his body, and his blood suddenly lost a lot.

[Equipment Effect: Lord Ox-Head's Fury(Active). After activating this skill, Strength +15 for 10 seconds. ]

[Hint: Lord Ox-Head's Fury(Active) has a cooldown of 10 natural days. ]

[Hint: Opening the Fury of the bull-head Lord(active) requires 30 HP. ]

...

His strength suddenly increased, and Su Xiao's strength attribute reached a shocking 73 points from 58 points.

Taking a deep breath, Su Xiao held the sword with both hands and slashed with a simple and unadorned blade.

The face of the clown in the air changed considerably, trying to use the ability of teleportation by force. Su Xiao had calculated that this ability would be used once every 1 minute or 10 minutes, and the longer the distance, the greater the interval.

Puchi, blood splashed, the clown disappeared, and an arm and a leg fell in front of Su Xiao.

The clown's close-combat ability was not weak, but his endurance was not good.

The clown appeared more than ten meters away and fell to the ground with a thud. He looked at the broken arm and broken leg.

"The power attribute was crushed. I lost?"

The clown suddenly laughed.

Su Xiao staggered a few steps and almost sat on the ground. Four people besieged him, and he fought back with serious injuries to make a comeback.

The clown struggled to sit up, and the blade flew over. The clown groaned and fell back; his only arm was cut off.

Su Xiao walked forward and put the dragon flash on the neck of the clown.

"You lost the information of the violator."

"Haha, hahaha."

The clown with blood all over his face laughed.

"I lost? Really?"

Su Xiao frowned. Since the clown was not ready to follow the rules of the game, he would kill the other party directly.

"You won a game..."

Before the clown finished his words, the long sword slashed, the head flew up, and dark red flames ignited on the clown's body. A moment later, the body was burned out.

[You killed Solomon March, a low-level Abyss Devil. ]

Solomon March? Is this the real name of a clown?

Looking at the progress of the hunting mission, Su Xiao's face was a bit strange.

[Hunting Mission: Cleaning up the Gentlemen Alliance(completed 4/5) ]

Many signs showed that the clown was not dead, and this low-level Abyss Devil Solomon March was probably a scapegoat that the clown had used some method to get. If the demon bloodline died like this, it was not worthy to be called the five strongest survival bloodlines of the reincarnation paradise.

Although he did not kill the clown, Su Xiao was not disappointed. The clown had two arms and one leg cut off by him, and the possibility of recovery in the hunter world was not high.

Before the clown threatened to kill Su Xiao, now it was Su Xiao's turn to kill the other party.

After the battle ended, Su Xiao looked toward the previous 'fort'. It should be a contractor or a character in the plot, and he did not know where to leave on the way to the battle.

A few kilometers away, the young girl, Vivian, put away the tablet computer in the light.

"Sure enough, he is strong to the point of being abnormal. Four against one, two killed, one disabled. Fortunately, he slipped in time, and he had to stay away from this guy in the future. It's good to be alive."

Vivian chuckled, revealing her neat little white teeth. Su Xiao had been included in the top 10 of the list of 'not easy to mess with.

...

Bobowang walked out of the log, Su Xiao rode on Bobowang, and one man and one dog quickly left the battlefield.

One day later, in Youke Xin City.

At this time, there were only three days left before the auction began. The streets of Youke Xin City were full of pedestrians, and the roads were full of all kinds of stalls.

The goods on the stalls were strange. And some sold mobile phones, some sold antiques.

Don't underestimate these stalls. Sometimes, the goods bought by thousands of Commandments may be sold at hundreds of millions at the auction, so countless' gold diggers' gathered here.

Su Xiao walked into the crowd, his hands were wrapped in bandages, and his injuries were healed.

He bit the red apple in his hand, the juice was complete, and the mouth was sweet.

"It's lively, but this main mission is a bit strange. If it's not good, there will be a situation of contractor fighting."

After arriving in Youke Xin City, Su Xiao's first primary mission had been completed, and the freedom of the second primary mission was extremely high.

[Main mission: Free Man(Not activated) ]

[Difficulty Level: Lv. 16]

[Mission summary: Participate in Youke Xin Auction with any identity. ]

[Quest information: 9 months 1 day, 9 months 10 days, can not leave Youke Xin City. ]

[Quest deadline: 10 natural days]

[Quest reward: 3000 paradise coins, 2 attribute points. ]

[Quest penalty: All attributes - 3. ]

...

The main mission would be activated on the first day of September. Before that, he needed to have the qualification to enter the auction.

It was not difficult to participate in the auction. It was enough to join a special force or have enough nuns.

Su Xiao was inclined to join a specific force. The force chose nothing more than those few: ten old men forces(gangsters), Hunter Union, Phantom Troupe.

Chapter 615: Information

Walking on the busy streets of Youke Xin City, Su Xiao still had three days to decide how to participate in the auction, and there was plenty of time.

The auction was the theme of this derivative world, at least the theme of the second stage of the main task.

Whether there was a third stage of the main task, this possibility was not high. According to the development of the plot, if the main task had the third ring, it was likely to participate in the embedded ants incident.

The hunter world of that stage was difficult, and it was not something that ordinary second-level contractors could deal with.

According to the previous situation, the derivative world this time was probably the auction's theme.

Su Xiao squatted in front of a small street stall, and the booth was full of accessories.

Sir, these are all the treasures found from the

The stall owner was very enthusiastic and treacherous.

"A relic from 1700 years ago?"

Su Xiao picked up a string of bracelets.

"The real deal, this bracelet is 100,000."

"Really? There was a glass product before 1700 years ago?"

Su Xiao threw down the bracelet, and the stall owner smiled. He did not have the embarrassment of being exposed.

"That 500 Kenny? This handicraft is very exquisite. Sir, you see..."

From 100,000 to 500 was only an instant. Even if Youke Xin was a street stall, the water was intense.

Su Xiao got up and left. He was not interested in counterfeits.

Don't underestimate these stalls of Youke Xin. Before entering the Hunter World, he got a piece of information. As long as he was lucky and had good eyesight, he could buy equipment from these stalls. Once, a contractor spent 200,000 yuan in Youke Xin market to buy a light gold quality weapon, so he wandered in Youke Xin City and probably met another contractor.

Just as Su Xiao was considering which force to join, he found that the situation of the derivative world communication platform was a bit wrong and too active.

Mr. A: "Let me announce another piece of news to everyone. Strong creatures were found in the mountain valley 15 kilometers east of Youke Xin City."

Fierce Poison: "Mr. The information is true. A small adventure group has already been wiped there."

Flaming Sun: "Those who don't want to die, don't go. That is a monster that was summoned from the Dark Continent using a random summoning scroll after being chased to the Zetsu Realm. Assuming that the ant king is a B in the Dark Continent, the monster outside Youxin City is around Class C."

Margie: "A powerful monster? If we were lucky enough to kill it, wouldn't it drop a high-quality treasure chest?"

J. Moreton: "Of course. A conservative estimate is that it is a light gold treasure chest. Perhaps it is of a higher grade."

...

The discussion on the derivative world communication platform lasted for a long time. The most contractor was in a wait-and-see state, and he was also eager to seize this opportunity.

Mr. A: "The exact information has been obtained. The following information is part of the monster."

[Name: One-eyed Troll(Lord-tier creature) ]

[Type: Giant]

[HP: 100]

[Mana:???(Information hidden) ]

Strength: 70

Agility:???(Information is hidden)

Stamina:???(Information is hidden)

Intelligence:???(Information is hidden)

Charm: 4

Skill 1: Lord Creature(Passive), HP +3000, Strength +13, Agility +15, Stamina +10.

Skill 2: Unyielding(Passive)(Information is hidden)

Skill 3: Dark Creature(Passive)(Information is hidden)

Skill 4:(Information is hidden)

Skill 5:(Information is hidden)

...

As soon as this information came out, the derivative world communication platform was in an uproar, and the 70 points of Strength attribute were somewhat unique.

Mr. A, "I have grasped the weakness of the one-eyed monster and am ready to try to kill it. Because of a lack of manpower, I am recruiting a reliable contractor. Those who are interested can gather at the old Nike Restaurant(Youke Xin Restaurant).

Seeing this news, Su Xiao was silent.

Lord-class creatures were generally not easy to deal with, but the benefits gained were also coveted once killed.

Su Xiao had seen a lord-class creature once, which was a monster one level higher than a Lord-class creature.

In front of the overlord-level creature, Su Xiao felt for the first time what it meant to be powerless. In the face of such a level creature, not to mention fighting, the other party could kill him with a casual blow.

"Lord-level creature, contractor, gather. Interesting."

Su Xiao was very interested in this matter. There were still three days left to choose the camp, so it was good to join in the fun before this. He could not always build a car behind closed doors. It was also good to inquire about the average strength of the contractor.

He was going to the old Nike restaurant to investigate the situation. Mr. A should have grasped the information of the Lord-level creature entirely. Was it in the report before? It was not that he could not find out, but it was deliberately hidden by Mr. A.

Mr. A's meaning was self-evident. Only the people who participated in his temporary team could get the information. As for the one-eyed monster's weakness, they had to join Mr. A's team to know.

Su Xiao felt that this matter was fascinating. It was not as simple as a contractor working together to kill 'BOOM'.

But these were not important. Only the strength was enough to deal with the unexpected situation. There was no doubt that this matter was an opportunity.

Su Xiao felt that his strength was not insufficient, at least not weaker than most of the second-level contractors.

In this way, it was more necessary to participate. It should be known that Su Xiao got the highest quality treasure chest in the Naruto world. If he had the chance to get the treasure chest of the one-eyed monster, it would be a significant profit.

Su Xiao no longer hesitated. After asking the passers-by about the location of the old Nike restaurant, he went straight in that direction.

Half an hour later, in the old Nike restaurant.

The area of the old Nike restaurant was not significant; there were only a dozen tables. It was already full of people at this time, and the boss was busy sweating.

Su Xiao sat in front of a dining table. The surface of the food group was a little shiny and black. It seemed to have been polished. This was the oil that often dripped on the dining table. After that, it was wiped clean with a rag. This color would only appear after being repeated several times.

The signature food of the old Neck restaurant was the secret roasted sausage and crispy chicken. Su Xiao ordered a large table of food.

The dining knife cut open the secret roasted sausage, and the cut could see the delicate meat and white fat.

After tasting a mouthful, Su Xiao raised his eyebrows. The fat and thin ratio was appropriate. The thick garlic fragrance mixed with the greasy feeling of meat. There was also the sweetness of some plants.

He picked up the thick soup beside his hand and took a sip. Su Xiao exhaled a breath of hot air. This was the adventure of the reincarnation paradise. He could not lack delicious food.

Su Xiao and Bobowang began to eat happily. If they looked around, they would find that the others in the restaurant were looking at who was on guard.

"Everyone."

A man in neat clothes and golden eyes stood up. The man was about thirty years old. No matter how he behaved or talked, he had a calm and sophisticated feeling.

"I am Mr. A."

As soon as Mr. A finished speaking, the restaurant door slammed shut.

With a crash, a large number of seats fell to the ground. Almost all the 'diners' in the restaurant stood up, and weapons appeared in their hands. There were all kinds of firearms, knives, swords, and halberds. Only a man and a dog were eating happily at the corner.

"Everyone, calm down. I mean no harm. It's better to keep our identities a secret, so it's better to close the door and talk about things."

Mr. A pressed his hands down, indicating that the contractor should calm down.

"If you have something to say, say it. From the information, it can be seen that you are not happy at all."

A strong man with a war hammer snorted.

"This brother is joking. Look at that friend. Isn't he very calm?"

Mr. A pointed in the direction of Su Xiao. This man and dog were still eating.

Chapter 616: Intrigue

"The monsters near Youke Xin City are not to be underestimated. It is better to announce the information to determine whether to leave or stay directly."

A skinny old man spoke.

"Yes, announce it."

"Since we want to cooperate, we should show some sincerity."

The smiles on Mr. A's face disappeared as a contractor, and the others agreed to the old man's words.

"Everyone, it is a form of sincerity for me to be able to announce the general information. What will you pay for it? Do you think that I, Mr. A, am a pushover? Do you want to take advantage of me?"

After listening to Mr. A's words, the corners of the old man's mouth curled up. He had done this to stir up the relationship between Mr. A and the contractor. Moreover, he showed the appearance of a public spokesperson and deliberately isolated Mr. A as a selfish person with ulterior motives.

To isolate and replace Mr. A and become the representative of this small group, in the eyes of the old man, this small group would be formed, and the benefits were there.

"Cheating for nothing? Mr. A, we can come here because we trust you. Isn't this sincere?"

The old man's words made the other contractor nod. This was related to their interests, so the old man just happened to speak up for them.

"Tsk, a mob of the rabble. Do you want to challenge a Lord-class creature with this kind of tacit understanding? Dream on!"

The strong man with a war hammer stood up, walked to the door, and opened it with brute force.

The strong man walked out of the restaurant, and the iron door fell with a clang.

The strong man's departure made Mr. A shake his head. What the other person said made sense.

"Everyone, can you listen to me?"

Mr. A raised his voice, and the contractor looked at him. The old man narrowed his eyes. Now it was his contest with Mr. A.

"As for me, I do have a selfish motive. If I succeed in killing the one-eyed monster, I want 30 of the items in the treasure box."

As soon as he said this, the cold laughter connected with a light scoff. The old man's eyes were a bit disappointed and self-mocking. He was disappointed because the small group could not be formed. He was mocking himself for treating Mr. A as an opponent.

"Looks like I made a wasted trip."

"Who said no? 30? The appetite is too big."

"You are too greedy. Let's go."

The contractor and the others walked out one after another. This small team that had not yet formed was about to disperse.

"I haven't finished speaking. What are you all so anxious for?"

Mr. A was very calm. Some of the contractors who had already taken a few steps stopped. Since they had already come, they were not short of this time.

"I have drawn up a temporary team contract. As long as you sign this contract, I will inform everyone about the one-eyed monster. Not only the information, but I will also explain the weakness of the one-eyed monster in detail."

The contractor and the others shook their heads. These two points were not enough to attract them.

"There is one more thing. The temporary team already has the Main Tank. 20 of the benefits are for this Main Tank. I only profit 10. Whether it is obtaining the information or looking for the cost of the One-eyed Monster's weakness, ask yourselves, I have to get 10. Am I greedy?"

Mr. A's words caused the contractor to be silent.

"What level is the Main Tank?"

Hearing someone ask this question, Mr. A smiled.

"Rank two arena ranked 1591. Physical attributes above 60 points. I can only announce this. This is personal privacy."

Hearing this ranking and physical attributes, the contractor was amazed.

"Only large-scale adventurer groups can cultivate this level of Main Tank, right? How can there be such a small group?"

"If there is a Main Tank with this strength, then we might have a chance."

"What do you mean maybe there is a chance? It is very likely. After reaching the second rank, who doesn't know that the status of the Main Tank is not lower than that of the Lord? Without the Main Tank blocking the front, the Lord is just a fragile one. Moreover, it is tough for the Main Tank to live past the first rank. The second rank Main Tank is also very extraordinary."

The situation had a shocking reversal. The contractor and the others, already preparing to leave, sat down on their chairs.

Seeing this situation, the old man's face did not look good. The opponent was more substantial than he had imagined.

"Mr. A, what are the rules of the temporary team, or what conditions are needed to join them?"

"It is best to let the main tank come forward. This way, we can be at ease."

Mr. A nodded.

"Brother Stone, come out."

The sound of steady footsteps came, and a strong man about two meters tall walked out of the kitchen. The strong man looked depressed as if he had a heavy heart.

"Stone? Could it be?"

"Barbarian Sky Adventurer Group No. 2 Main Tank? How could he show up in this way?"

This Main Tank called Stone was a celebrity and was recognized by several contractors as soon as he appeared.

"Mr. A, if the Adventurer Group involves this matter, then it would be better for us small fry to cool off to the side."

Mr. A waved his hand.

"Everyone, don't be agitated..."

Before Mr. A could finish his sentence, Stone suddenly spoke.

"There is no Man Tian left. I am just a member of the Gu family."

Stone casually found a chair and sat down. He grabbed the alcohol on the table and gulped down a few mouthfuls. He was very discouraged.

"Could it be that the Barbarian Sky Adventurer Group was wiped out?"

"Maybe, even a large adventure group can not guarantee that there is no risk in the Reincarnation Paradise."

"I did receive news before and thought it was false information. It is said that they were wiped out in the Naruto world."

The appearance of the main stone gave the contractor confidence.

"I will send the details of the temporary contract to everyone. Everyone considers whether to join or not, but not everyone can join. This time, killing the one-eyed monster is very dangerous. If the strength is not enough..."

Mr. A did not continue to speak and only announced the contents of the temporary contract.

The dining room was silent, and only the chewing sounds could be heard.

Mr. A and the old man looked toward the chewing sound. When they saw the man and dog eating happily, Mr. A narrowed his eyes, and the old man turned his head and no longer paid attention to them.

In the old man's eyes, such a person without vigilance would not live long in the Reincarnation Paradise.

Bobowang burped and touched Su Xiao with his furry front paws. His eyes seemed to say: "Master, we have to participate more in this kind of thing in the future. This scheming contractor is interesting."

Su Xiao smiled and did not speak. This small group had a chance to kill the one-eyed monster in the current situation.

But one thing, Mr. A was the contractor recruited in the derivative world communication platform. The other contractor who did not participate in the small group was likely to ambush near the battlefield and take advantage of the small group after the battle with the one-eyed monster.

Even if no one took advantage, the small group was unstable, such as the old man, Mr. A, and others.

These two were only unstable factors on the surface. There were 15 contractors, including Su Xiao, and there must be someone with evil intentions among these people.

Of course, it was best to cooperate, but what if there was internal strife after successfully killing the one-eyed monster? Su Xiao did not care. If someone provoked him, he would kill them directly. It was simple and crude. He was very good at dealing with a contractor.

While thinking, a temporary contract appeared. It was a temporary contract set up by Mr. A. The main content was: After signing the contract, everyone present formed a small group. This small group lasted until they killed the one-eyed monster and successfully divided the spoils.

During this period, they could not attack each other and could not do anything to damage the small group members. They could not leak the information. If there were a violation, they would deduct 50 thousand paradise coins and all attributes - 10 punishment.

The punishment was ruthless enough, but this was the necessary condition to form a small group.

#### Chapter 617: Harmonious Small Group

Not everyone could join this small group. They needed to meet two conditions. One of the attributes was above 50 points, and the other was an ability that surpassed Lv 20. With a purple-quality weapon, two of the three could be met.

Don't think that purple weapons were common. Most of the second-rank contractor's equipment was blue or purple, and there were not many purple weapons.

As for dark purple weapons, only a small number of experts in the second rank had them. There was no need to mention light gold, and only large adventurer groups had them.

But to Su Xiao's knowledge, the second-rank contractor should at least have a dark purple quality weapon, but he was wrong, wrong.

When a contractor took out a weapon with a purple quality +5, Su Xiao frowned. This thing was nothing, but the envious eyes of other contractors made Su Xiao wonder if this thing had any special attributes.

This misunderstanding was related to the comprehensive score when he experienced the end of the derivative world. Every time he dug deep into the derivative world, so the comprehensive score was very high, and the possibility of getting high-quality equipment was greater.

There were few people like Su Xiao who was not afraid of death in the Garden of Samsara. Most contractors had family members. They would act cautiously to avoid death in the derivative world and never see family again.

For example, this time, if Su Xiao had getting detailed information about the one-eyed monster, he would not recruit people at all, and he would have killed Bobowang.

An ordinary contractor was different. They would take the lead in forming small groups, thus reducing the risk.

Assuming that this time a light gold treasure chest dropped, excluding 30 of Mr. A and Stone, the other 12 contractors would be divided into 70, and each person would at most be equivalent to a purple treasure chest.

Mr. A began to check the parts of the weapon information, skills, attributes, and others published by the contractor. Knowing that the one-eyed monster had 70 points of Strength, a contractor who dared to gather here was not too weak.

The old man was the strongest. He held a dark purple staff. Although this equipment only had a score of 160 points and was considered trash among dark purple qualities, this was also dark purple equipment. The passion in the contractor's eyes could not be faked.

"Old sir, there is no need to doubt your strength."

"You are also not bad. You have hidden a trump card. You don't need to call me old, sir. Just call me old wolf."

Although the old wolf was still a little unhappy, he did not raise any objections.

"I wish us a pleasant cooperation."

Mr. A stretched out his hand. Old Wolf hesitated for a moment and chose to hold it.

"By the way, you also take a look at this skill. It is convenient to command during wartime."

Old Wolf showed a skill, which was a public display. After seeing the level of this skill, the contractor exclaimed.

[Distortion LaserLv, 27(active skill) ]

"I understand. You will be at the core of the team during the war."

Mr. A seemed to be very satisfied, and he did not seem to be unhappy with Old Wolf at all.

"This friend, you are only missing yourself. You can satisfy two of the three."

Mr. A sat opposite Su Xiao. Su Xiao was hesitating about what identity to join the small group, close combat, main tank, or long-range sniper.

Melee's combat was obviously not good. If Mr. A saw the master swordsman LV. 23, it would be weird if the opponent could let him join the team. As for showing the green steel shadow to the opponent? Or maybe, it was better to let the opponent see the master swordsman.

Melee combat was obviously not good. As for the tank...

Su Xiao's energy shield was somewhat amazing. He had used the energy shield to block a kick from Seven Gates. And it was an energy shield with 300 points of strength. Now the limit of his energy shield was 400 points of strength. If he did not show the energy shield, he was not the main tank, so his identity as a tank was not good.

As for the long-range sniping ability, the max-level firearms were proficient in LV. 30 + Spider Queen, and he could probably get through it and not attract too much attention.

It was better to reveal his sniping ability than expose his close combat ability. Although his sniping ability was very strong, it was barely within the acceptable range of an ordinary contractor.

"This friend?"

Mr. A spoke again.

"Hm? Sorry, I was just thinking about a problem."

Su Xiao showed Mr. A part of the attributes of the gun proficient in LV. 30. This was not his core ability. It did not matter whether it was exposed or not.

"LV.30 "

Mr. A was shocked and went up to look at Su Xiao.

"How should I address this friend?"

"Byakuya."

"Well, Byakuya, what is the direction of your gun development? Don't misunderstand; it is related to your position in the team."

"Sniper."

"Sniper?"

Mr. A looked pensive.

"If it is a sniper, the attribute requirements can be reduced a little, but the quality of the sniper rifle must be announced. Mr. Byakuya, consider it."

Although Mr. A looked calm, his heart was beating faster. It was already fortunate that there was a wandering main tank. Now there was the wizard old wolf.

And now, there was a sniper in the team who was proficient in LV. 30. What kind of concept was this? The core configuration of some medium-sized teams was only so.

Hesitating for a moment, Su Xiao showed some of the attributes of Spider Empress.

[ Spider Empress]

Origin: Reincarnation Paradise

Quality: Dark purple

[Type: Heavy sniper rifle]

[caliber: 17 - 36 mm]

[Reloading: 10]

[Durability:???

Attack Power:????

Equipment Requirement:???

Equipment Effect 1:???

Equipment Effect 2: Precise Bullet(Passive), Accuracy by 17.

Equipment Effect 3:???

Rating:???

...

This bunch of question marks made Mr. A's mouth twitch, but when he saw a few keywords, he took a deep breath.

Dark purple, caliber: 17.36mm, equipment effect: 3.

All this information showed that this was a large caliber heavy sniper rifle, and the score was not low at least 200.

"Welcome to join, Mr. Byakuya."

Mr. A was happy. Tank and mid-range firepower were all available. It was no problem to take down the one-eyed monster.

When everyone joined the temporary team, Mr. A announced the detailed information about the one-eyed monster.

Looking at the information, Su Xiao finally understood why the one-eyed monster had a full 70 points of strength. Mr. A dared to have ideas about it. The reason was very simple. The agility attribute of the one-eyed monster was not high, only 34 points, the physical attribute was 59 points. Although it was not low, it was no problem for more than a dozen people to besiege.

As long as they could resist the frontal attack of this thing, it was time for the contractor to play freely.

"Mr. A, why is the position of the team leader empty?"

A careful contractor noticed this.

"Well asked, I am not suitable to be the team leader. I am a melee fighter, which is very unfavorable to the overall command. I recommend Old Wolf to be the team leader. He is a mage. After the war, looking at the whole battlefield, this is very good for commanding the battle, which can reduce the casualties of the members."

Hearing Mr. A's words, Old Wolf was stunned, and all contractor was stunned.

A young woman nurse flashed her eyes and looked at Mr. A with a kind look.

"Mr. A's the breadth of mind... 'Old Wolf sighed at himself."

The old wolf smiled brightly as if he was apologetic for his previous actions of forming a gang.

"It's nothing. Everyone has their own selfish motives, but our opponents are too strong. Everyone, our opponents are not just the one-eyed monster. You should understand this, right? Although we are gathering together for the sake of benefits, we have to be united. Otherwise, we are just a mob!"

"Mr. A is right."

The young nurse looked like she was supporting Mr. A, and the other contractor also agreed.

Su Xiao looked at everyone present. Mr. A(Melee), Old Wolf(Mage), Stone(Main Tank), Young Mistress Nurse, plus himself, was the core figure of the small group.

"This team lineup is it a coincidence..."

Su Xiao murmured. This small team seemed to be harmonious. Mr. A and Old Wolf abandoned their differences. Was it really like this?

Bobowang, on the side, was very excited. It seemed to have discovered a new continent. Today, it found out that the contractor, who was killed by his master, was actually so interesting.

Chapter 618: Troll

The temporary team was formed. Although Old Wolf was the prominent leader, Mr. A had more prestige in the group.

Of course, Old Wolf was clear about this. The previous events made him clear that now was not the time to be hostile to Mr. A. Moreover, he had become the nominal leader of the team.

"Everyone? What is our next plan?"

Mr. A spoke. Everyone in the restaurant looked at each other. Finally, everyone looked at Old Wolf. The meaning was clear he was the leader. He decided.

Old Wolf's eyes twitched. He did not know much about the one-eyed monster. Although he had seen the information, there were many details that he did not understand.

"This..."

Old Wolf thought quickly. A moment later, he devised a strategy that could satisfy both sides.

"Mr. A, I don't know much about the one-eyed monster so that you can arrange the pre-war operation. I am responsible for the wartime command. You will be the vice-captain if I am the team captain."

As soon as Old Wolf finished his words, a dry cough came.

Su Xiao held a glass of orange juice in his hand. He was choked. Vice-captain? There were only 15 people, and there was a vice-captain. These contractors were too good at playing.

Mr. A pushed the glasses on the tip of his nose with his middle finger.

"Sure."

The surrounding contractor was slightly different. Mr. A agreed.

Bobowang, who had a toothpick in his mouth, was dumbfounded. The content of the story was getting more and more colorful.

"Everyone, in my original plan, 1 o'clock this afternoon is the best time to attack. Now it is noon. Everyone can eat here. One hour is enough for us to prepare the plan."

Mr. A took out a map with the terrain near the single-eyed monster.

"The activity range of the single-eyed monster is near this area. After several confirmations, it will not easily leave this area even if there is an enemy provocation. The specific reason is unknown."

Mr. A drew a circle on the map, and the circular diameter was about a few kilometers.

"This is the team formation I drafted..."

Mr. A began to narrate his plan. The plan was not complicated. It was nothing more than the front, the back of the tank was the close combat, and behind the close combat were mages or nurses. The furthest were the sniper and also Su Xiao.

Su Xiao was arranged to be 9,000 meters away from the team. This distance was very safe. At least the one-eyed monster could not attack him.

"What objections do you have?"

No one spoke. Mr. A's plan was still considered thorough.

"Then, everyone, prepare to go."

Old Wolf held a staff in his hand. At this time, he was wearing a wizard robe, and the magical energy on his body was surging.

When he felt this magical energy, Su Xiao raised his eyebrows. Old Wolf's physical strength was more muscular than he imagined.

The team left the restaurant and went straight 15 kilometers away from Youke Xin City. There were no twists and turns along the way. When they arrived at the designated place, they found that it was a valley with a basin of terrain shaped like a bowl.

Climbing up to the high place on the edge of the basin, a contractor in front immediately bowed down.

"How is it? Is it still inside?"

Mr. A lowered his voice and was a little excited when he saw the contractor's reaction in front of him.

"It's still there, but..."

That contractor wanted to say something, but his face was a little ugly.

Mr. A slowly walked up the hill. After seeing the scene behind the mountain, his jaw and muscles bulged.

In the basin below, a five-meter-tall monster was sitting in the center. This monster was similar to the human body structure; it had all four limbs and a head.

However, the monster's skin was dark purple, and a very short red horn was on its head. Its mouth stretched to its neck, and sharp fangs leaked out.

The most eye-catching thing about the monster was the one eye. The one eye was the size of a bottle, and the one eye was densely packed with pupils, at least a dozen.

This was the one-eyed giant monster. It was sitting on the ground barefoot, eating with a human leg in its hand.

Human beings were simply delicious for the one-eyed giant monster from the Dark Continent. The meat was soft, and there was no strange smell.

As a mid-level creature of the Dark Continent, it was a problem for the one-eyed giant monster to be warm and complete in the Dark Continent. However, when it woke up, it found that the strong enemies around it had disappeared, and there was no harsh environment to take its life at any time. There was clean water everywhere here, and there was countless weak prey.

Although it suddenly came to 'Heaven', the one-eyed giant monster did not dare to go too far away. This was the instinct to survive in the Dark Continent for a long time.

The one-eyed giant monster in the basin was eating blood everywhere, and it snorted a few times from time to time.

The contractor and the others on the hillside were eager to give the order.

"Stone, is there a problem?"

Mr. A looked at Stone. The main tank was silent most of the time.

"No problem."

Stone moved his shoulders, and a tower shield appeared in his hand. There was a flame diagram on the front of the tower shield, and there seemed to be a flame burning. A faint golden light flowed from the edge of the tower shield, which made the contractor and the others swallow.

Old Wolf's eyes were also attracted. This was the first time he was so close to the light gold equipment.

"Ah,"

Stone sneered. With a whoosh, flames ignited from the tower shield. Not only that, but the flames were also spreading to his body.

A moment later, Stone was like a child of the sun. He could feel the high temperature from a few meters away.

"Keep up."

Stone stepped on the ground and rushed into the basin. His speed was not fast, but each step was very stable.

"Pay attention to the formation."

The old wolf in the rear roared as soon as the stone rushed out, and all contractors advanced, except for Su Xiao and Bobowang.

Su Xiao slowly removed a blanket from the storage space and spread the blanket on the ground. He lay on it, and the spider queen appeared in his hand.

The distance was 900 meters, and Su Xiao adjusted the light.

Su Xiao was slow, but it was utterly different below the basin.

Stone took the lead and rushed to the one-eyed monster, leaving a flaming footprint on the ground where he stepped.

At this time, the one-eyed monster was eating, and suddenly someone disturbed it, which made it a little angry. It threw down the broken human torso in its hand and slowly sat up.

The five-meter-tall single-eyed monster had a visual impact. Although it wasn't the tallest monster among the monsters, it had muscles all over its body, and its single eye full of pupils gave people an inexplicable sense of fear.

"Little bug(Dark Continent Language)"

The one-eyed monster spoke in a strange tone, but the contractor and the others could understand that when entering the world of hunters, everyone had to pay a price of 100 paradise coins.

No one paid attention to the one-eyed monster. Stone had already rushed forward with a shield in his hand. When he was three meters away from the one-eyed monster, Stone stomped on the ground, and a flame ring spread out.

With a whoosh, the fire ring hit the one-eyed monster's chest. The dark purple skin did not react, and it seemed that the attack of the stone did not have any effect.

In reality, this was not the case. The one-eyed monster's eyes widened in anger as if it was enduring considerable pain.

"Roar!"

The one-eyed monster roared, and the one-eyed monster stared at the stone, its hatred pulling steadily.

Chapter 619: Charge

Stone held a heavy shield in his hand and stood in front. Behind him were a few cowering melee fighters, and tens of meters behind them were Old Wolf and another long-range firepower.

With the roar of the one-eyed monster, a stream of air spread out. The contractor, who was nearby, covered his ears, and his footsteps were a bit shaky. This was a skill of the one-eyed monster.

After roaring, the one-eyed monster bent over and picked up a 'wooden stick' from the ground. This was not a wooden root but a tree with a diameter of half a meter. This tree was about four meters long, and the upper half of the tree was bitten off, leaving only the trunk and the root part.

The trunk was a small head, and the root was a big head. The one-eyed monster held the trunk position and stared at the crowd.

Su Xiao saw this scene through the scope. He aimed the gun at the one-eyed monster.

He breathed steadily and slowly pulled the trigger with his fingers.

Bang!

The bullet left the muzzle and flew to the one-eyed monster at high speed.

Just as the bullet was about to hit the one-eyed monster, the one-eyed monster turned its head.

With a bang, a pit was on the face of the one-eyed monster, and a bullet was embedded in the pit.

"So durable."

Su Xiao stopped the fire, and the bullet was very expensive. He would not shoot until the critical moment.

As for the output value, the treasure chest belonged to the same category. He was not worried at all.

The reincarnation paradise did not have this mechanism. As long as the treasure chest fell to the ground, all contractors could pick it up. Without the ownership problem, the ownership power would only appear after he got it.

The gunshot stopped, the one-eyed monster was hit to the side, and the big hand holding the tree trunk burst out blue veins.

The one-eyed monster first looked up at the top of the basin, but unfortunately, it did not find anything. Its eyes turned to look at the 'shortie' in front of it.

At this time, Old Wolf and the others were sweating cold sweat. They did not dare to make a move, afraid of being hated by the one-eyed monster.

The one-eyed monster raised the giant wooden stick, and all the muscles in his body bulged. He aimed the stick at the stone and hit it.

The wooden stick cut through the air and made a sound. Hearing this sound, Stone's heart trembled.

Dong!

The giant wooden stick smashed into the tower shield, and the ground under the stone shattered into pieces.

Just as everyone thought that the stone would not be able to withstand the attack, the tower shield was covered in a fiery red color. It seemed to have activated a specific ability of the tower shield after receiving the attack.

An impact surged out from the front of the tower shield with a hum. The one-eyed monster was pushed back repeatedly and fell to the ground with a thud.

"Attack."

Old Wolf shouted. The staff in his hand flashed, and a pillar of light flew out of the staff and towards the one-eyed monster at a breakneck speed.

Boom!

The pillar of light exploded on the chest of the one-eyed monster, and the skin there was blown away.

Not only did Old Wolf attack, but the contractor, who was holding a bow and arrow, pulled the bow and shot an arrow.

A sharp arrow shot towards the One-eyed Monster's calf. The arrow seemed to hit an iron wall and shattered with a bang. White marks could be seen on the One-eyed Monster's calf.

"This kind of defense."

Old Wolf's expression was not very good. His spells were not wrong, and the others simply tickled the One-eyed Monster.

Spells, bows, arrows, automatic rifle bullets, and so on struck the One-eyed Monster. The One-eyed Monster roared in anger. Although these attacks could not threaten it, they were indeed very painful.

The one-eyed monster swung the giant wooden stick and hit the stone. He didn't know the stone's method to make the one-eyed monster hate him so much.

The main tank was a technical job. The reincarnation paradise was not a game. Most of the monsters here had wisdom, so it was challenging to pull hatred.

However, the main tank in the reincarnation paradise had a unique method, such as the flame of the stone. This flame had almost no attack power, but it would cause massive pain to the enemy.

Some main tanks were more coquettish, some main tanks mastered the restriction skills, some had cheap mouths, and all kinds of methods were available.

Stone was to give the enemy an intense pain and spirit induction, thus making the enemy hate him.

It was obvious that the stone succeeded. The one-eyed monster's eyes were red, and he was so angry that he jumped. He held the giant wooden stick in his hands and punched him hard, causing the soil to splash.

It had to be said that the stone was very resistant to hammers. He would have been smashed to death if it were any other contractor.

The formation stabilized, and Stone was in front. Mr. A and the other melee fighters took the opportunity to attack to prevent the one-eyed monster from breaking through the formation.

Old Wolf and others were dozens of meters behind Mr. A and others. These people often moved and had always been in the direction behind the stone. This direction was the safest.

Su Xiao was different from these people. He was lying on the hillside and did not need to move. Moreover, he only fired one shot. The urging of Old Wolf and Mr. A was directly ignored.

On the battlefield, Stone was beaten until his head was dizzy. Fortunately, the young woman wet nurse had some strength and added various benefits to him. In addition, the milk was good, and the stone would not fall for a moment.

Old Wolf and others were busy. The defensive power of the one-eyed monster was too strong. It would be discovered when its HP was revealed. The one-eyed monster still had 97 of its HP. In this half a day, the number of people fought three.

Moreover, although these people hid behind the rocks, they were not necessarily safe. Sometimes, the one-eyed monster would throw stones, and an unlucky guy would be shot in the head in close combat. Now, his body was almost cold.

Bobowang stood on the hillside, and this idiot seemed deep in thought. It seemed to have thought of something exciting and raised its head and howled.

At this time, the contractor, fighting hard at the bottom of the hill, discovered something simultaneously. A buff suddenly appeared.

[The Goddess of Ice and Snow has blessed you (halo). Recover 1 HP every second. ]

One second to recover 1 HP, one minute was 60 points, which was quite a considerable profit.

Stone blocked the tower shield in front of him, turned his head to look at the young female nurse in the team, and nodded.

The young female nurse was a little confused. This was not her buff, but she was the only healer in the team, which had been confirmed.

"This halo is good."

"It can save a lot of recoveries."

During the battle, the contractor was happy. Bobowang's halo was indeed powerful.

As for why Bobowang opened up the halo effect? To defeat the one-eyed monster? Even if the contractor defeated the one-eyed monster, no one would give her any benefits. At most, she would provide Su Xiao a single share. In the contractor's eyes, Bobowang was just a big dog.

Please don't ignore Bobowang's IQ. After witnessing the contractor's intrigue, it was found that it was good to compete with these contractors.

When everyone enjoyed the aura of the goddess of ice and snow for free, this aura suddenly disappeared, and a hint appeared.

[Yes/ No activate the gift of the goddess of ice and snow at the price of 10 paradise coins per minute(halo). ]

10 paradise coins per minute. In the current situation, the battle lasted for half an hour at most, which was 300 paradise coins.

In this half an hour, the gift of the Ice Goddess(halo) could restore 1,800 HP, which was a huge amount of recovery.

Everyone knew that this was a profitable business, so ten contractors chose to pay.

However, these ten people looked at the wet nurse angrily. The damp nurse knew that she had taken the blame, but she was focused on the state of stone and could not be distracted.

Old Wolf also spent money to open the halo. His eyebrows were furrowed, and he looked around but did not look at the wet nurse.

Chapter 620: Invincible

"Woof."

Bobowang called and showed Su Xiao the temporary contract it had drawn up.

Su Xiao was stunned. The temperature nearby was not low. How did this idiot unlock his IQ? The Ice and Snow Goddess Halo cost 10 paradise coins per minute. This was a very commercial mind.

"Not bad."

Hearing Su Xiao's praise, Bobowang shook his tail and took the initiative to give Su Xiao a share, a full sixty percent.

Su Xiao observed the situation below through the scope. At this time, the condition stabilized. After preliminary cooperation, the contractor gradually had a tacit understanding.

However, the one-eyed monster's defense was too strong and had always been a hidden danger. It had been five minutes since the battle, and the one-eyed monster's HP was still 91.

Finding that the progress was so slow, Su Xiao decided to shoot. Although one bullet was 150 paradise coins, Bobowang's share barely made up for this loss.

Su Xiao's breathing slowed, and just as the one-eyed monster was preparing to smash the stone, he pulled the trigger.

The one-eyed monster's facial bones blocked the last shot, and it did not cause too much damage to the one-eyed monster. With the precedent, the bones stopped the position of Su Xiao's shooting this time.

Bang!

A ball of blood exploded from the abdomen of the one-eyed monster, and a bloody hole with the thickness of an arm appeared.

This particular attack not only made the one-eyed monster scream but also made the old wolf stare with big eyes. His back was cold, but the old wolf felt a bit more at ease thinking of the temporary contract.

Bang, bang, bang.

Three gunshots were coming from the top of the basin, and it was Su Xiao's three consecutive shots.

At the same time, blood burst out from the shoulders and chest of the one-eyed monster, and there were three bloody holes.

This was not the end. Su Xiao pulled the trigger again. Bullets hit the one-eyed monster. With the contractor's control, the one-eyed monster did not even have a chance to dodge. It could only be knocked back.

Ten bullets missed, and the gunshots stopped. At this time, the old wolf checked the one-eyed monster's remaining HP through the reincarnation mark's ability.

The one-eyed monster's remaining HP was 34.

Although the attack power was a bit exaggerated, for the heavy sniper rifle, this attack power was barely acceptable to everyone.

If you want to use a heavy sniper rifle, you must develop at least two attributes simultaneously. That is, strength and physical characteristics—the more substantial the power of the sniper rifle, the greater the recoil. If the strength and physical attributes are not high enough, you can't withstand the heavy sniper rifle's recoil.

The strong defense of the single-eyed monster has been broken, and those bloody holes are the best place to attack.

The momentum of the old wolf changed, and the light of the staff in his hand was even more dazzling.

On the hillside, Su Xiao inserted the clip and just fired ten bullets, 1500 paradise coins became several bloody holes and ten shells.

"Bobo, prepare to watch a good show."

Su Xiao looked down through the scope, and he did not need to shoot.

Just as Su Xiao expected, after he broke the defense of the one-eyed monster, those contractors attacked the wound of the one-eyed monster.

Although the one-eyed monster was very strong, its IQ was a hard injury. In the face of a contractor who was united, its fate was doomed.

Twenty minutes later, the stone with blood all over its face gasped for breath. The one-eyed monster was in an even worse situation, and its vast body was on the verge of collapse.

The fear of death suppressed the anger in its chest, and the one-eyed monster turned around and fled.

A few rays of light appeared from the contractor's team. The one-eyed monster paused, and many control skills barely restrained it.

For a Lord-tier creature like the one-eyed monster, the contractor's control skills were just a tickle.

"Surround it, and it's the final stage!"

The old wolf shouted angrily. Contractor, and the others hesitated. The one-eyed monster was too dangerous, and they did not want to get close.

The situation was a dilemma. It was confirmed that the stone could block the one-eyed monster, but he alone could not keep the one-eyed monster.

Bang!

The sound of gunfire could be heard, and blood burst out from the leg of the one-eyed monster, and the one-eyed monster fell to the ground.

Old Wolf's face was hideous. He seemed worried about something, but his movements were not slow, and he rushed toward the one-eyed monster.

Seeing this situation, the other contractor was somewhat tempted. Old Wolf and a mage rushed forward. What were they afraid of?

When the wet nurse followed Old Wolf and rushed forward, everyone began to approach the one-eyed monster. More than a dozen contractors surrounded the one-eyed monster, and the one-eyed monster was already spent.

However, the contractor and the others were very cautious and kept a safe distance from the one-eyed monster.

"Everyone, victory is in sight. Don't let your guard down!"

Mr. A shouted. One of his arms hung down. This guy was not dead after being kicked by the one-eyed monster.

Many long-range attacks bombarded the one-eyed monster. The one-eyed monster lay on the ground and hugged its body.

The more contractor and the others fought, the more courageous they were. No one noticed the ice-cold eyes of the one-eyed monster. Just when everyone thought that the one-eyed monster was about to die, the body of the one-eyed monster suddenly straightened up.

With a big hand on the ground, the monster from the Dark Continent was furious!

A part of the wound on the one-eyed monster's body quickly healed, and its HP, which had fallen to 15, recovered to around 40.

The main stone did not attract the hatred anymore but silently retreated.

The one-eyed monster looked at the old wolf with its fierce eyes. The old wolf quickly retreated as if an invisible hand was holding his heart.

The one-eyed monster raised the giant wooden stick and smashed it at the old wolf.

Boom!

Smoke and dust rose everywhere. A light yellow shield blocked the giant wooden stick, but it only stopped for a moment.

The one-eyed monster raised the giant wooden stick again and swung it at the old wolf.

With a crack, the old wolf's body was smashed, and pieces of meat flew everywhere.

The one-eyed monster grinned and brought the stick full of meat to his mouth. He stretched out his tongue to lick the meat on his face.

"Old Wolf!"

Mr. A shouted at the top of his lungs. His eyes widened as if he could not believe what he was seeing.

Before Mr. A had time to prepare, a scream was heard, and the single-eyed monster caught the archer in the team.

"Big Head."

Mr. A's face began to pale.

With a poof, the archer was crushed by the one-eyed monster, and a broken leg was stuck between the fingers of the one-eyed monster.

The one-eyed monster that was on the verge of death just now suddenly showed its power. In an instant, only five people were left on the field, and the broken bodies were scattered nearby.

The reason why so many people died was because of the strike of the main stone.

Stone was at the edge of the battlefield at this time. The reason why he retreated was that the healer in the team suddenly stopped healing without any warning. This caused the situation the collapse deliberately.

Unfortunately, because of Bobowang's Ice and Snow Goddess Halo, Stone resisted the single-eyed monster's staff and escaped from the battlefield in chaos.

The main tank escaped. Besides the main tank, no one in the battle group could resist the one-eyed monster's attack, so there was no point in having a healer.

"A, let's retreat. The old wolf is dead, and the big head is dead. If we don't retreat, we will all die here."

The wet nurse with blood on her face shouted, and the veins on Mr. A's forehead bulged.

"How could this be? The information didn't say that the single-eyed monster would go berserk."

A thought flashed through his mind, and Mr. A thought of a possibility. The one-eyed monster's berserk might have been man-made.

After the one-eyed monster got rid of the siege of the contractor, it did not chase after Mr. A and the wet nurse. Instead, it rushed to the top of the mountain and prepared to kill the person who injured it the most.

Although the one-eyed monster did not have a high IQ, it knew that there was a shortie on the hillside that smashed it with a 'piece of metal' from a long distance.

The roar gradually approached. Su Xiao had long found that the one-eyed monster rushed to him. At this time, the one-eyed monster was full of scars, and he was not afraid of the other side.

The dragon flash Su Xiao was in his hand, putting away the spider queen.

The one-eyed monster that ran up the hill suddenly stopped and looked at Su Xiao from far away. This 'shortie' seemed not to be easy to provoke.

Two hundred meters behind Su Xiao, several contractors ready to attack him quickly lay on the ground.
