Chapter 621: Shortie

The wind blew past, and the faint smell of blood wafted through the basin.

Around the basin were a few dozen pairs of eyes staring at the single-eyed monster below. These were all contractor who was waiting to reap the rewards.

However, no one had expected that the team fighting the single-eyed monster would be wiped out so quickly. Even the spiritual mage, the initiator of the battle, had not expected this.

The current situation was that the main tank was running away, and no one could resist the attack of the single-eyed monster head-on. Everyone could see that the single-eyed monster was in a seriously injured state. No one wanted to miss this opportunity, but too many contractors were around.

Mr. A lay on the hillside above the basin, his eyes full of anger and self-blame.

"I was too careless."

Mr. A thought that contractor would come to stir up trouble, but he did not expect that contractor could affect the mental state of a Lord-class creature.

Old Wolf, Mr. A, the young nurse, the archer, and the four people were members of a small team. After occasionally learning the traces of the one-eyed monster, Old Wolf proposed to gather other contractors.

The reward would not be significant if they gathered other contractors, even if they killed the single-eyed monster. Unless they killed outsiders and took the treasure chest for themselves, according to the four people's budget, the team could only recruit 20 people at most. If there were too many people, there would be unforeseen changes.

Mr. A originally disagreed with Old Wolf's proposal. It was difficult to kill other contractors, but Mr. A's idea changed after one contractor joined. That contractor was Stone.

After a period of planning and management, a small team was formed. Mr. A and Old Wolf played the opposing role in preventing other thorns from appearing on the team. Old Wolf alone was enough.

The archers were responsible for breaking into the inner circle of the contractor and forming a good relationship with the contractor. If the situation was wrong, immediately inform Mr. A.

The female nurse only had one mission: to kill the main tank rock when the one-eyed monster was about to die and cause the collapse effect.

Once the tank fell, the one-eyed monster could kill many unprepared contractors. After the one-eyed monster killed most of the unspecialized characters, Mr. A took it, and Mr. A could barely be considered a tank.

It was this segment that had a problem. At the last moment, the female nurse stopped using healing skills on the rock, but who would have thought that the stone that should have been beaten to death would be saved because of the Ice Snow Goddess Halo and escape from the chaos?

This was good. The tank ran away, the others were prepared, and the unspecialized character contractor was not dead.

With no other choice, Old Wolf, Mr. A, and the others could only choose to kill the one-eyed monster. If the one-eyed monster also ran away, money would be lost. Moreover, the main tank ran away midway, so the 20 profit would naturally belong to Mr. A.

The accident happened again, and the one-eyed monster killed the old wolf and crushed the archer. At this time, Mr. A tasted the taste of being trapped in a cocoon, and the young nurse on the side was somewhat dull.

"What should we do now?"

The wet nurse looked at Mr. A.

"What should we do?."

Mr. A's mood had calmed down.

"Eh?"

The wet nurse was very different.

"If we don't die, it is a big deal. Old Wolf and Big Head are just temporary teammates. Although we form two derivative worlds together, I will not help them take revenge. What about you?"

"Of course not."

The young wet nurse almost blurted out. The four people were cooperating.

"So, our losses are not as great as they seem. This is the reincarnation paradise. Only the winner can survive."

Mr. A heaved a long sigh of relief and forced himself to comfort himself. What would he feel if he knew that his plan had failed because of Bobowang?

Mr. A was very decisive. He directly gave up the one-eyed monster and began to watch the fun nearby.

The one-eyed monster paced in the basin. It seemed to want to go out but did not dare to go out. The contractor who was lying in the ambush was hesitating.

Sensing this situation, Mr. A sneered. The injuries of the one-eyed monster were gradually recovering, and the longer it dragged on, the less likely it was to kill the one-eyed monster.

[Note: contractor, No. 13013, has withdrawn from the temporary adventure group.]

After receiving this news, Mr. A was not surprised. The temporary team had a rule. After the death of more than 50 members, there was no punishment for withdrawing from the group.

"That sniper also wants to withdraw? It's too late. There must be many people coveting such a terrifying sniper rifle."

Mr. A shook his head, but his eyes suddenly widened at this moment.

Mr. A and the contractor around the basin were also very surprised.

"Does this guy want to die?"

"Who knows, or maybe he has gone crazy thinking about the treasure chest."

On the slope of the basin, a figure holding a long blade was slowly walking down.

The one-eyed giant monster also noticed the arrival. After sensing the person's presence, it let out an angry roar.

"Little Shortie, it's you(Dark Continent Language)."

The one-eyed giant monster spoke in a low and muffled voice, and its words were unclear.

"Shortie?"

Su Xiao spat a mouthful of smoke and blew away the cigarette in his hand. The wind blew the smoke away.

If not for the last resort, Su Xiao would not show up. Those contractors around him were all taking advantage of the situation. These people were not clear about the recovery speed of the one-eyed monster, but Su Xiao knew.

At this time, the one-eyed monster's HP had recovered to about 46. The bloody holes on its body were healed. At this time, there was no main tank in front, and the position had been exposed. Su Xiao was not allowed to spare the sniper rifle.

Dragon flash slowly came out of the sheath and put the dark purple scabbard into the storage space. Su Xiao rushed forward a few steps and jumped up. This jump was a few meters high. It was just a downward slope, so he ran to the one-eyed monster at high speed.

"Roar!"

The one-eyed monster roared and rushed forward with the giant wooden stick stained with blood.

The two sides were very close. When they were four meters apart, the one-eyed monster picked up the giant wooden stick and smashed it at Su Xiao, who was in the air.

Just when all the watching contractors thought that Su Xiao was dead, a metal wire shot out from the arm guard of his left hand.

The metal wire wrapped around the waist of the one-eyed monster. Su Xiao pulled hard, and his diving speed suddenly increased. He turned around from the armpit of the one-eyed monster and faced the back of the one-eyed monster.

Boom!

The giant wooden stick fell to the ground, and soil and gravel flew.

Su Xiao took back the boundary line and slid back with his feet, sliding about half a meter away. His right foot stepped on the ground, his feet stepped on the ground, and the force came from the soles of his feet. The long sword in his hand cut out a white mark.

Puchi.

Fresh blood sprayed out from the ankle of the one-eyed monster, and a deep bone wound appeared.

After being hit by this sword, the one-eyed monster began to stagger. Its physiological structure was similar to humans, and this sword cut off the ligament of its right leg.

The green steel shadow energy poured into the wound, and the one-eyed monster screamed, but its body was too big. The pain of the green steel shadow was not enough to make it lose its ability to move.

The one-eyed monster raised the giant wooden stick. It held the big wooden stick with both hands and smashed it on Su Xiao.

When the giant wooden stick was far from Su Xiao, his black hair was blown up by force. If it were hit this time, it would be half dead and half disabled.

A light blue energy shield appeared. Su Xiao formed the energy shield of 300 strength and slightly tilted the energy shield.

Dong!

The giant wooden stick hit the energy shield, and a visible air wave spread.

With a crack, a crack appeared on the surface of the energy shield, only one.

Because the energy shield was slanted to the left, the wooden stick in the hand of the one-eyed monster inevitably slid to the left.

Chapter 622: Chase!

The giant wooden stick fell to the ground, and the ground exploded like a bomb. The right leg ligament of the one-eyed monster was cut off, which made it lose its balance, and its whole body leaned on the energy shield.

Su Xiao suddenly withdrew the energy shield, and the vast body of the one-eyed monster came to him.

"Ring broken."

The blue light flashed, and a ring-shaped sword light spread out, and the sword light came out of the throat of the one-eyed monster.

The one-eyed monster itself was rushing forward, and with the attack coming at it, its throat was directly cut by one-third.

It had to be said that the one-eyed monster's vitality was very tenacious. Even if its throat was cut open and blood sprayed out a few meters away, it was still full of vigor.

The one-eyed monster covered its throat with one hand and intended to stand up. Its speed was not fast, and with the gun eyes all over its body, its rate was even slower.

At this time, Su Xiao was also not feeling good. He faced the one-eyed monster head-on. Although an energy shield was blocked, the momentum also hurt him.

A faint fishy and sweet taste appeared in his mouth. He ignored the faintly painful internal organs and rushed forward with his sword.

He took a few steps and rushed to the front of the one-eyed monster. At this time, the one-eyed monster was ready to stand up with one hand on the ground.

Su Xiao held the sword with both hands. The green steel shadow energy on it was a bit dazzling. He aimed at the thick arm and cut it.

The thick arm of the one-eyed monster was cut off, and the huge body fell.

After it fell to the ground, the one-eyed monster's eyes were filled with fear. The one-eyed monster opened its eyes wide, and just as it was about to struggle, its neck went numb, and then its entire body lost consciousness.

Fear enveloped the monster, and it remembered the experience of being weak for an hour. Tears appeared in its eyes.

A figure appeared in front of its eyes. The one-eyed monster recognized this human, and it was this human who had injured it.

"Spare... life(Dark Continent language)."

"Oh? So this thing also knows how to beg for mercy."

This was the last sentence that the one-eyed monster heard. A long blade pierced through its mouth and directly shot through its brain.

[You killed a Lord-tier creature, the one-eyed monster.]

[I found that the hunter killed a Commander-tier creature for the first time. Reward: 5,000 paradise coins + soul crystal(small) x3.]

[The single-eyed monster is a Lord-class creature. Obtained the Source of the World 13.5. Received a total of 13.5 of the Source of the World.]

[Your talent 'Devouring Spirit' is activated. Permanently increases 15 points of mana. The current mana is 1658 points.]

...

A light gold treasure chest fell to the ground. The bright color was alluring, and the contractor around the basin gulped.

Most of the contractor's faces were somewhat dull. He seemed not to dare to believe the scene in front of him. The one-eyed monster was one-on-one! This shocked contractor who was present. More than 30 contractors did not dare to show up.

Although fighting the one-eyed monster one-on-one seemed to be a bit exaggerated, the difficulty was not serious.

If the one-eyed giant was in his peak state, with the body size of the other side, Su Xiao could not win steadily. Still, three of the previous ten shots hit the joint of the one-eyed monster, which caused the melee ability to be significantly weakened, and the flaws of the attack were massive.

After removing the dragon flash from the one-eyed monster's brain, he wiped it clean. He picked up the pale gold treasure chest on the ground. This treasure chest was different from the treasure chest that Kakashi picked.

[Lord Treasure Chest(light gold)]

Without a doubt, the value of this thing was very high, especially when it was exclusive.

Looking around, he could feel pairs of greedy eyes.

"If you have the guts, come and rob."

As Su Xiao spoke, he put the treasure chest into the storage space and used the broken line to wrap around the body of the one-eyed monster, dragging the body out of the basin.

Don't underestimate this body. The one-eyed monster came from the dark continent. Some dark continents were too mysterious for the people of the six continents. This body had a high value, whether it was treasure or research.

On the hillside two kilometers away, the blue-haired girl with a long ponytail was lying in a piece of grass, holding a telescope in her hand.

"It turns out that this guy also uses a sniper rifle. It looks like the caliber is not more than 20 mm and is not to my liking. Only the sniper rifle is romantic."

Winnie thought for a moment and finally did not choose to shoot.

A few timid figures were lying on the hillside, half a kilometer from Su Xiao. These five people were the people who were ready to attack Su Xiao before. It was commonly known as the death squad.

At this time, the five people were full of cold sweat, and three were talking about something in a low voice.

"Big brother, what to do? It's that guy."

"Why don't we retreat? Big brother, we can't just go up and send ourselves to our deaths."

"En, second brother and third brother have a point."

"Alright, let's retreat. But big brother, isn't it embarrassing to retreat like this? Why don't we make a pose before leaving?"

"Second brother, good idea."

"Damn it, last time at the Judiciary Tower, and I was almost cut to death. Have you forgotten?"

The content of the conversation between the three people made the mouths of the two people at the side twitch. That's right, this group of three people was the three national brothers.

The boss liked to style. The second brother's mantra was, 'Big Brother is right. As for the third brother, it could only be said that he was a natural, silly person.

"Big Brother, if I don't style myself in this situation, I will feel uncomfortable!"

"Then... set one up? Many people are here, and that pervert is still dragging the monster's corpse. He should not be chasing us."

"Go!"

Hearing the above conversation, the other two members of the suicide squad were stunned.

"Guo Zu, what are the three of you?"

These two people were also a combination, but they were just a pair of brothers. The degree of teasing was comparable to the national foot.

"We are going to do something big!"

The third brother looked at the two brothers and smiled contemptuously. If others showed this expression, they would feel despised, but the third brother was different. No matter how he looked at it, his contemptuous smile was silly.

"Do you know that guy?"

The two brothers were still interested in the treasure chest.

"We fought once, and my big brother was knocked out of the f*ck..."

As soon as Old Third opened his mouth, his big brother quickly covered his mouth.

"It's a draw, a draw..."

The head of Guo Zu kicked the third, and the third scratched the back of his head with an innocent face.

...

Su Xiao dragged the body of the one-eyed monster to the top of the basin, and the surrounding contractor vaguely formed a circle.

Although there were many contractors, they were all scattered, no one was willing to be the first bird, and the scene was deadlocked.

They were unwilling to let Su Xiao leave, but no one was willing to take the lead. They all saw that Su Xiao had killed the commander-level creature. It could be said that the knife was bloody and clean. The first step was to die.

A mechanical eye the size of longan was floating in the air and checked the contractor's location. Su Xiao motioned Bobowang to approach him.

"One, two, three..."

Su Xiao roughly observed the number of the contractor. There were a total of 37 people, almost surrounding the nearby area. There were three suitable directions to break out.

"Bobo, get ready."

Su Xiao held the dragon flash and cut off the head of the one-eyed monster, keeping the head and riding on Bobowang's back. Bobowang ran away and ran very happily.

At this time, three people came out of the hillside not far away. Seeing these three people, Su Xiao was stunned. Wasn't this a big brother who could fight, resist, and milk?

Standing on the hillside, the big brother of Guo Zu looked at Su Xiao from a distance, seemingly a little weak, but he had calculated this distance.

"Long time no see, we are..."

Just as the national foot wanted to make a pose, a whistling sound of wind breaking came.

Bang, a bullet entered Guo Zu's second brother's chest, and his second brother was flipped several times.

"It's that blue-haired flat-chested woman. She is also in the world of hunters. Brothers, retreat!"

The foot of Guo Zu shouted angrily. He grabbed the hair of the third elder with one hand and the belt of the second elder with the other hand. Light flashed under his feet.

"Hey, big brother, wait, you are not going to use that, are you? Change to another place to catch... Ouch!"

"..."

With a whoosh, the three of them turned into afterimages and disappeared. They ran even faster than rabbits. However, the contractor, who was nearby, vaguely heard Third Brother's scream. He didn't know if he had misheard.

In the distance, Winnie saw this scene through the scope and was so angry that her teeth itched.

This sudden change attracted most of the contractor's attention, and Su Xiao had already ridden Bobowang on a strategic retreat and ran far away.

"Chase him, don't let him run away."

"Kill this bastard. The light gold treasure chest is obtained by those who are fated."

This time, all of the contractors showed great unity and splendidly chased after him.

Chapter 623: Mutual Pit

Many contractors ran at full speed, looking like they would swallow Su Xiao alive.

Su Xiao turned to look at the rear. The contractor had a lot of people, and he was injured after fighting with the one-eyed monster. It was not good to be surrounded at this time.

The shouting from the rear rushed to the sky, but when it came to Bobowang, the wind changed. This guy stretched out his tongue while running, and his two lips fluttered in the wind.

There were many pursuers, but the speed of the pursuers was not as fast as Bobowang's. Bobowang was not good at fighting, but he was first-class in escaping.

"If you have the guts, let's fight! Don't run!"

After a contractor found that Su Xiao was running further away, he let out an unwilling roar. From the moment he threw out the short axe, it could be seen how 'hopeless' he was at this time.

Bobowang ran too fast, so many contractors could only eat the dust behind him. This might be the legendary 'ran as fast as a dog'.

Five minutes later, Bobowang disappeared from many contractors, and the contractor people stopped one after another.

"Tsk, this guy runs fast."

"There is still a chance. He will stay in Youke Xin City."

Hearing this, several contractors sneered.

"So what if he stays in Youke Xin? Do you dare to find him alone? This guy is fighting against a Lord-class creature."

"Eh?"

The angry contractor did not say anything else.

"How about we ally?"

After a contractor spoke, he could not help but laugh. Although a light gold treasure chest was precious, it was not worth an alliance.

"Forget it. Take it as a show. I never thought of getting a light gold treasure chest."

The contractor and the others dispersed but stopped after taking a few steps.

"Are you still not leaving?"

"You haven't left either."

Everyone looked at the headless body of the one-eyed monster. This thing could be sold at a high price in the Hunter World. As long as one had money, they could participate in the auction and smoothly get through this derivative world.

The contractor and the others did not dare to run in the Hunter World. If they wanted to get money, it was best to use proper means.

The Hunter World was not a non-government world. There were five large governments here. What was more terrifying was that these five large governments were still in a united state. Some were similar to United Nations. The five large governments are collectively called V5.

V5 was a really terrifying existence. They controlled the advanced technology of the Hunter World.

The Embedded Ants invaded and occupied a small country in the following plot. The V5 forces did not show up at all. They just sent news to the Hunter Union. The Hunter Union immediately sent people to go there. In the end, the Hunter Union's president died with the Ant King.

V5 did not treat the Imbedding Ants from beginning to end as a threat. The Hunter Union was just a civil force organization recognized by the V5 forces and gave all kinds of privileges.

Therefore, as long as one had a certain understanding of the worldview of the Hunter World, they would not dare to do anything that was too eye-catching.

Being targeted by the Hunter Union or the local government was a small matter. If he were targeted by the Hunter Union, not to mention the contract of the second rank, contractors below the fifth rank would die. This was a bloody lesson.

Under this restriction, getting a large sum of money in the world of hunters was not easy. Therefore, the contractor and the others all stared at the corpse of the one-eyed monster. This thing could buy a lot of money, and it would be no problem for more than a billion.

"This corpse belongs to me."

A big man just opened his mouth, and blood splashed. Someone cut off the arm of the one-eyed monster.

With this beginning, the scene became extremely hot. Some people dismembered the one-eyed monster, and some fought because of the body organs of the one-eyed monster. However, the contractor was relatively restrained. Everyone knew that it was not worth risking their lives for this thing.

Above the basin, two hooded figures were watching the scene below.

"Looks like the information is correct. This corpse is indeed a one-eyed monster. We are a bit late."

"What should we do? The higher-ups want that one-eyed monster. That thing can be given to V5 and obtain V5's favour."

"What else can we do? Chase the guy riding the wolf and kill him later. Can we track his scent?"

"No problem."

The two shadows flashed away and went straight in the direction where Su Xiao had left.

...

Youkexin City, in a room in a luxury hotel.

The sound of running water came from the bathroom, and the heat rose.

Su Xiao stood in front of the spray. Freshwater washed off the blood on his body, and he picked up a thick glass test tube beside him. The surface of the test tube was full of dirty blood.

He washed the blood on the surface of the test tube with fresh water, which was full of bright solution. There was a huge eyeball in the solution, and more than a dozen black pupils were on the eyeball.

Su Xiao knocked on the test tube, and the dozen black pupils on the eyeball gradually expanded, and the sound disappeared and returned to its original size.

This eye had no practical meaning. It might not be valuable in another derivative world, but the hunter world was different. There were many collectors with weird hobbies here, and they could pay a great price for a certain item.

From the monster's eyeball in the dark continent, and this eyeball could sense sound, it could be said to be full of gimmicks.

At first, Su Xiao did not know that the eye of the one-eyed monster had this special ability. He could not carry the whole body of the one-eyed monster and was forced to choose the head with higher identification.

After dismantling the head, only this eyeball had a collectable value, and the other places were given to Bobowang to eat.

At this time, Bobowang's face was green, his stomach was twitching, and he hurred from time to time and rolled his eyes.

Bobo had eaten all kinds of delicacies. His choice of food was already different from that of wild beasts. He did not eat raw food. It looked disgusting, suspicious creatures did not eat it, and he did not eat too salty food. It was easy to lose hair.

Under Su Xiao's "friendly" persuasion, Bobowang was satisfied and ate three big bowls with tears in his eyes.

At this time, hints appeared from time to time.

[Your follower Bobowang has devoured flesh and blood of high-level creatures, Strength +1.]

[Your follower Bobowang has devoured flesh and blood of high-level creatures, Agility +2.]

"It feels good. Do you want some more?"

Su Xiao ate a piece of raw meat with blood on his knife and fork. Bobowang subconsciously stepped back, and his eyes seemed to say: "Master, this thing tastes good, and it tastes great. Would you like to try it?"

This was the daily mutual pit of a man and a dog.

Su Xiao smiled, put the knife in his hand aside, and fell into deep thought.

Now there was no need to consider which side of strength to join. As long as this eyeball was sold, he could participate in the auction as a VIP.

Moreover, [Lord Treasure Chest(light gold)] was in his hands. He was waiting for him to open it. He had nothing to do, so he was ready to try his luck.

Just as he was about to take out the treasure chest, Bobowang, who was retching, suddenly raised his head.

"Woof!"

Bobowang called out. His voice was not loud, but the hair on his back suddenly rose, revealing a mouth full of snow-white fangs.

"A few."

"Woof."

"Position,"

"Woof."

Su Xiao, who was naked, suddenly stood up. Although he did not sense the enemy, the dragon flash appeared in his hand.

His ears moved, and there was a slight sound outside the room. The direction was not the corridor or the next room but outside the wall. It should be known that this was the 16th floor. Who would climb outside the wall?

Blue Steel Shadow energy clung to the dragon flash. Su Xiao restrained his breath and slowly walked to the wall.

Pachi. Pachi...

The slight sound of climbing came. Su Xiao would not hear this sound if not for the close distance.

The arm muscles bulged, and he stabbed out without warning.

With a shua sound, a dragon flash pierced the wall as if it had broken a piece of paper. With the touch of this sword, it stabbed the enemy. There was no scream. It might have stabbed the vital part.

Chapter 624: Sick Dog

Loosening the handle, Su Xiao opened the nearby window, and a fat man whose throat was pierced was lifted in the air. His limbs were weak and struggling, and his eyes were white.

Su Xiao's sword was without warning, and it was somewhat lucky to be able to pierce the enemy's throat.

"You bastar*..."

The fat man whose throat was pierced looked at Su Xiao, holding the blade of dragon flash with both hands in case he fell off the building.

The boundary line popped out and bound the other person, pulling the dragon flash out of the wall. As the boundary line tightened, the fat man was forcibly dragged into the room from the window, and the carpet was stained with a large amount of blood.

The fat man was lying on the carpet, and there were obvious knife wounds on his throat.

"What's the matter?"

Su Xiao stood in front of the fat man, and the other person sneaked near him in this way. Like he had bad intentions.

"My legs have lost consciousness."

The fat man held his throat, and his words were unclear. He waited for Su Xiao fiercely and crazily, "You know who you have offended. I am..."

Before the fat man finished speaking, Su Xiao cut down the long sword in his hand. The arm that pointed to him was cut off. The man held the broken arm and rolled on the ground in pain. The pain caused by the green steel shadow energy made him like a big shrimp after dehydration.

"I will give you a chance to reorganize your language."

"Wait... wait, I am the dark beast leech, a subordinate of the tenth old man. Let's talk."

The fat man was the dark beast leech killed by the Phantom Troupe in the original work. As to find Su Xiao, it was likely to be related to the one-eyed monster.

"Oh? What is the purpose of the tenth old man's subordinates?"

As soon as Su Xiao opened his mouth, rapid footsteps came outside the door. Hearing the footsteps, the eyes of the dark beast leech surged with killing intent. His partner came. He seemed to have seen the enemy's body full of leeches, struggling in pain.

Bang!

The door was smashed, and Leech let out a short scream. As someone rushed into the room, the scream came to a stop.

A skinny, afro-head man with a mouth full of sharp teeth rushed into the room. When he saw the situation in the room, his pupils contracted. The name was Sick Dog, one of the Ten Yin Beasts.

A head rolled to the foot of the Sick Dog. It was the head of the Yin Beast Leech.

"It's too late."

The sick dog kicked off Leech's head and looked at Su Xiao coldly.

"If you dare to kill the Ten-Yin Beast, don't even think about leaving Youke Xin. We will chase you to the ends of the earth."

Although the sick dog spoke harsh words, his footsteps were gradually retreating. Leech died strangely, making the sick dog afraid of Su Xiao.

"Yin beast is at your level?"

Su Xiao got up and down to look at a sick dog. The feeling that the other person gave him was not dangerous. As for the previous leeches, they were even worse. The reaction speed of the other party was only higher than ordinary people. It was impossible to avoid his stab.

Being beaten up by Su Xiao like this, the sick dog was a little scared and seemed to be targeted by the beast.

"Go."

The sick dog shouted, and the gang members with guns behind him swarmed forward. In an instant, dozens of people rushed into the room.

A metal wire suddenly tightened, and all the gang members who rushed into the room stopped.

Pata, Pata...

Broken limbs scattered on the ground, the strong smell of blood spread, and the blood-soaked the carpet. These gang members were just ordinary people, and the result of fighting with Su Xiao was obvious.

The sick dog at the door had disappeared. Su Xiao looked at Bobowang.

"Chase."

Bobowang rushed out of the room, and Su Xiao followed closely.

...

Five minutes later, in a dark alley.

With a bang, a figure covered in blood crashed into a trash can and rolled into the stinking ditch. This person was a sick dog.

Su Xiao walked to the front of the sick dog. A piece of meat was bitten off from his left shoulder. The strength of the sick dog was not strong, and its defence was not good, but it was extremely fast, and there was neurotoxin on its teeth that could paralyze the enemy. It would be very troublesome to resist neurotoxin if not for the Blue Steel Shadows.

"You bastar*... Ten older men will not let you go. Kill me if you have the guts."

The sick dog gasped for breath, pierced his lungs, and a sharp pain accompanied every breath.

"Strength is not good, but he has a backbone."

Su Xiao stood in front of the sick dog, frowning. It was a little troublesome to be enemies with the ten older men. These guys were local snakes, but leeches and sick dogs had come to the door. With the arrogance of the dark beast and Su Xiao's temper, the two sides would not have had a good result when they met.

The leeches had become a purple treasure chest +1, 2 of the source of the world +11 mana values, and the sick dog was soon.

"Beep, beep, beep..."

The sound came from the pocket of the sick dog. Su Xiao had already stopped stabbing because he saw the caller who showed half his handphone.

Taking out the phone from the pocket of the sick dog, the sick dog did not move, but its teeth were trembling. The knife had stabbed his skull, and the tip of the knife had even penetrated his skull. He would have already peed the cold touch without his strong mind.

The call on the phone was 'ten old men (main house)'.
The ten older men had ten leaders and ten Yin beasts. These Yin beasts had their bosses. This time, it was the boss of the sick dog.

Su Xiao picked up the phone, and an anxious voice came from the receiver.

"Brother, sick dog?"

"No, the sick dog is dying."

Hearing Su Xiao's words, the other side of the line was silent for a moment.

"What kind of price can let the sick dog live? How about five billion?"

One of the ten older men was generous and opened his mouth to say five billion. This undoubtedly revealed a piece of information: very few strong people in the ten older men's forces.

The yin beast was their biggest trump card, and there could not be any mistakes. Moreover, this was Youke Xin, the base of the ten older men. On the other side, he knew that the leech was dead and the yin beast was so important, but the other side did not mention anything about the leeches. This was very interesting.

"Do you want the sick dog to live?"

A thought suddenly appeared in Su Xiao's mind. The tenth older man had financial resources and urgently needed strong people to shock the situation. In this way, could he join the tenth older man's forces at a high price? As for the leeches he killed, as long as the tenth older man had a little brain, he would not mention this matter unless they wanted the sick dog to die.

"Of course, I don't know what your request is."

The tenth older man was determined.

"Let's not talk about this first." Su Xiao pondered for a moment and said, "I killed the leech."

"I have heard that your strength is extraordinary."

The tenth older man's tone was calm. No, he was boasting about the death of Leech.

"Leech is not your subordinate?"

"This is my secret. I can only say that for Leech's death, I am very 'regretful'."

Su Xiao smiled. Sure enough, it was the same as he imagined. The ten older men were the leaders of the gangs in all areas. How could the gangs be united? The reason why they were united was that they were weak.

From the original intelligence, it could be seen that the ten older men were relatively rich, but they were not strong enough. It was no wonder that the Phantom Troupe would target them.

"May I know which faction you are from? Hunter Union? Yamen Forest Trading Company? Or..."

"I'm just a wandering traveller. I have nothing to do and have to attend the Happy New Auction House."

"Traveler?"

The other side of the line fell silent. A long time later, the ten older men on the other side of the line spoke.

"Mr Traveler, twenty minutes later, I will invite you to the 30th floor of the Youke Hotel. We will talk about it and bring the sick dog."

"Yes."

Su Xiao hung up the phone and looked at the sick dog lying on the ground.

The sick dog did not say a word. He knew he would not die for the time being and was not stupid. He knew that it was better not to talk now.

However, being stared at by Su Xiao like this, the skinny, sick dog, was a little uncomfortable.

Su Xiao hesitated for a moment. An alchemy bomb appeared in his hand. He first punched the belly of the sick dog, and the sick dog snorted.

The alchemy bomb quickly broke down, and when the sick dog spat out the acid, it seeped into his body through the knife wounds on his body.

"You..."

The sick dog was very angry but should not have flared up.

"Stand up and take me to the Youke Hotel."

The sick dog looked up at Su Xiao and snorted. Just as he was about to stand up, he felt a tear on the side of his cheek. After a moment of numbness, the sick dog screamed. A bloody ear came out of Su Xiao's hand.

"You just... snorted?"

Su Xiao threw down the ear and was ruthless enough to these gangsters who bullied the weak and feared the strong. The blood of the sick dog was full of alchemy bombs, which could not make waves.

Chapter 625: Various...

One of his ears was torn off. Although the sick dog rolled on the ground in pain, the pain only slowed down after a long time. He was angry in his heart, but he did not dare to show it on his face. He had seen Su Xiao's brutality.

"Youke Hotel, don't let me repeat it for the third time."

The sick dog gritted his teeth and stood up shakily. The knife wound on his body spat out blood.

"Let me... change my clothes."

At this time, the sick dog was covered in mud. His status in the gang was not low, so it was very shameful to go out like this.

"Yes."

The sick dog breathed a sigh of relief. After walking out of the alley, he entered a clothing store at the corner.

Ten minutes later, the sick dog came out of the clothing store. He had changed into clean clothes, and his body and head were wrapped in white cloth. He was a pivot like a drug addict, and now he looked like he would die at any time due to blood loss.

"Youke Hotel is not far from here."

The sick dog had already seen the situation. Not to mention the metal wire that wrapped around his neck and cut off his head at any time; he was no match for Su Xiao in terms of strength. This had been confirmed just now that the neurotoxin he was proud of had no effect at all.

The sick dog walked in front, Su Xiao was behind, and there was an extremely inconspicuous metal wire in the middle.

Driving through the streets, not long after, a splendid hotel appeared in front of him. The hotel was more than 40 floors. According to the ten older men, he would wait for Su Xiao on the 30th floor.

There was a row of men in black standing at the entrance of the hotel. These people were dressed in suits and had a bulge on their waists. Each of them was armed with a gun.

There was a saying that offending the ten older men was offending all the gangs in the six continents. Although it sounded like a gimmick, it could be seen from the strength of the Yin Beast

that the ten older men's forces were not as terrifying as they had imagined. They were terrifying in the world of ordinary people.

If the Phantom Troupe did not have any other forces interfering when fighting the ten older men, then the Phantom Troupe would be able to defeat the ten older men's forces.

As for the Phantom Troupe, this bandit group was interested in the goods of the auction house, and it was inevitable that they would fight with the ten older men.

If he joined the power of the ten older men, he would be hostile to the Phantom Troupe, but so what? There were people in the adventurous group who could kill Su Xiao, but he was not strong enough to crush him.

Su Xiao was most afraid of four people in the adventurous group, Chrollo (the leader), Fei Tan, Xin Zhong, Fenkes.

The leader belonged to high IQ and troublesome ability, Fei Tan was too powerful, and the small sun could not resist.

Xin Long was extremely strong in one-on-one combat, and generally, the one-on-one ability of the sword was not weak.

As for Fenkes, this guy's ability to reverse the situation was amazing. The more his arms spun, the greater the strength of his punches. Although he might lose his arms if he circled too many times, if he turned dozens of times, he might die together with Su Xiao.

In addition to these four people, the others in the adventurous group were restrained by Su Xiao, or their abilities were relatively balanced. The risk factor was not high.

Shaking his head and not thinking about this, Su Xiao pushed the back of the sick dog and motioned to lead the way.

The sick dog was pushed and staggered. He did not dare to say anything. He took an ear and walked into the hotel.

The first floor of the hotel was a hall, and it was full of men in suits. It seemed that this was the deterrent method of the ten older men, or this was the gang's style.

Su Xiao ignored the gangsters, who were like a ruffian. If he let go of the killing, this place would become hell in two minutes. For ordinary people, Su Xiao was already a monster level. No, for most second-level contractors, he was a monster level. A long time ago, his strength was seriously not equal to the level of the reincarnation brand, which caused a virtuous cycle.

On the first floor, the elevator slowly rose.

Ding!

The elevator opened on the 12th floor, and the dragon flash in the sheath state came out of Su Xiao's hand.

The dark purple scabbard [the light of the G.o.d] was gorgeous. In addition to the simple and unadorned scabbard of the dragon flash, the two combined to form a strange beauty. Anyone who saw the dragon flash would think of this knife because it was impeccable in appearance and quality.

The elevator door opened, and three men stood outside the elevator. Su Xiao knew two of them, and they were the earthworm and porcupine of the yin beast.

"Sorry to disturb you."

Just as the porcupine was about to step into the elevator, Su Xiao put the tip of the sheath in front of it.

"Get out."

Just as the porcupine wanted to speak, he saw the sick dog who winked at him.

"Sorry to disturb you."

Porcupine smiled and left the elevator. During this time, he kept staring at Su Xiao with small eyes.

The elevator door slowly closed. Porcupine took out the phone and dialled, and the other side immediately picked up.

"He went up. He is very strong. From the results of the cash investigation, he is not from the enemy forces. As for which force he is loyal to, it is temporarily unknown."

Porcupine listened to the phone quietly and agreed to hang up.

"What did the Tenth Old Man say?"

The Yin Beast Earthworm that looked like a mollusc spoke.

"I didn't say much."

"Is the matter of Leech being killed just ending like this?"

There was dissatisfaction in the earthworm's yellow eyes.

"I hope we can forget about it. Leech was beheaded, and the sick dog was half dead. If we take revenge, who do you think should go?"

Hearing the porcupine's words, the yin beast earthworm's heart trembled.

Do you still need to ask? They were the strongest subordinates of the ten older men. Of course, they would go and die in the end.

"Then... I also hope to let it go like this."

"Well, now nine of the ten old men agree to stop this matter, try to reduce the losses as much as possible. Although we are gangsters, we won't fight against too strong enemies. That is stupid."

Porcupine was right. The ten older men were gangsters, but in the face of Su Xiao's strength, the ten older men would choose to negotiate first and win him over. They had no choice but to cut off their flesh and hire powerful psychokinesis killers to kill Su Xiao.

The famous killer organizations in the world were not cheap. With the wealth of the ten older men, they would pay a shocking reward if they wanted to hire killers who could kill Su Xiao.

For the ten older men, if they did not fight directly, there was a possibility of peace talks between the two sides. As for leeches, the dead had no value. Blood for blood was not the style of the gang. It was just a gang formed in movies and television dramas.

The elevator gradually rose to the 30th floor.

Ding, the elevator opened.

Seeing the scene in front of him, Su Xiao raised his eyebrows. Bobowang's eyes widened, and the sick dog grinned.

The layout of the 30th floor was simple. There was a big screen on the inner wall, and only a big bed was in the room. The large room was inevitably empty.

But the 30th floor was not empty at this time. The room was full of women dressed in half-exposed clothes. There were hundreds of them, ranging from ten to twenty years old. Royal sisters, lolis, bunny ears, nurse uniforms...

"Hello, sir. Welcome to the Youke Hotel."

A large group of women bowed simultaneously, and some even took off their clothes to their shoulders.

Su Xiao looked at the big screen in the room. The image on the screen was a man with yellow hair, a square face, and a scar on his mouth. He looked to be about 40 years old.

"Friend, this is a small gift. Enjoy it. These women are all carefully selected, but how about putting a sick dog before enjoying it? After all, no one likes to watch it when doing it."

The man on the screen was one of the ten older men. The ten older men would not show up easily, especially when facing a dangerous person like Su Xiao. The ten did not come to the Youke Hotel because they did not dare to. If they did not even have this little caution, the power of the ten older men would have been destroyed long ago.

Chapter 626: Negotiation

The white and tender arms reached out to Su Xiao, and the sick dog subconsciously retreated to retreat into the elevator.

"Do you think these women can exchange the dog life of the sick dog?"

Su Xiao looked at the screen. At this moment, those women full of spring water began to retreat. This was their instinct.

The ten older men on the screen frowned. Women were not feasible in this aspect. Maybe the women he took out were not beautiful enough? With the other party's strength, he should have seen countless women. It was likely that he would not like these.

The ten older men coughed lightly. The woman in the room retreated, leaving only a woman in a black dress. This woman had been standing far away, different from those women.

This woman had a graceful figure. There was a large tattoo on her naked arm. It was a black rose.

"This is Black Mary. If we can negotiate, he will be your assistant."

Black Mary walked forward and pulled out a chair from the next room.

Su Xiao sat on the chair. In front of him was the screen. Snowflakes flashed on the screen, and the screen recovered a moment later.

At this time, the screen was a round table. Around the round table sat ten men of different ages and dressed differently. These were all the ten older men representing the gang forces of the six continents.

The short-haired man before spoke. He should be a representative of the ten older men.

"I am Bick. How should I address you?"

Bick habitually touched the scar on his mouth, and his eyes seemed to be thinking about something.

"Byakuya."

"Mr Byakuya, we don't talk in secret. There are two things this time. One is about the death of Leech, and the other is the eye of the one-eyed monster. Let's talk about the first thing first."

"Yes, let's talk about the leech's death first."

Another ten older men spoke, and this ten older man gnashed his teeth, wishing to skin Su Xiao alive.

"Ayr Thorpu, calm down."

Bick looked at Ayr Thorpu, the corners of his eyes twitched, and he hesitated for a moment but did not speak.

Seeing this scene, Su Xiao roughly knew what was going on. Ten Yin beasts and ten older men, this was not a coincidence.

One of the ten older men had a Yin beast under him. This was a mutual restriction between the gangs. The Yin beast under the ten older man, Aesop, was dead. This was a very passive situation.

"We can let bygones be about the leech's death, but..."

The ten older men with inch hair laughed.

"The vacancy of the Yin beast needs to be filled. Mr Byakuya, you understand what I mean."

Bick's meaning was already very obvious. He wanted Su Xiao to fill the gap of leeches and join the dark beast. On the side, a smile appeared on Aesop's face. Although a leech had died, it was like a pie falling from the sky to find a stronger subordinate. Although whether this subordinate was loyal or not still had to be tested.

Su Xiao lit a cigarette, looked at Bick, and then at the sick dog.

"What if I don't agree?"

As soon as the voice fell, all ten older men looked at Su Xiao.

"You don't agree? We still have eight Yin beasts."

"Ah, let them come out."

Su Xiao got up. Dragon flash came out of the sheath and put on the neck of the sick dog. The blade slowly cut, first cut the skin, then the muscles.

"Wait!"

Bick roared. Su Xiao did not care. The sick dog cut in the throat did not dare to move. The fear of death shrouded him. Even if Su Xiao released the sick dog now, there was no need for the sick dog to come to him for revenge.

"The eight Yin beasts are very strong? Let them come out and fight with me, or let them kill me, or I will kill them and go to find you. They dare not show up before me. This courage wants me to be your subordinate?"

The blade cut the muscles on the neck of the sick dog, and the faces of the ten older men were very ugly.

"Since Mr Byakuya is here, there is room for negotiation. I have offended you just now."

Bick changed the topic and suddenly became amiable.

"Of course, there is room for discussion."

The movement of Su Xiao's hand stopped and moved the dragon flash away from the neck of the sick dog. The blood slid down the blade's tip, and Black Mary trembled a little.

"I don't want to say too much nonsense. First of all, I will not be your subordinate. At most, it is a cooperative relationship, and you have to pay for everything you do."

The ten older men looked at each other and seemed to ask their own opinions. Their original plan was to pull Su Xiao into the gang and slowly control him.

The current situation was that this guy was temperamental, and he became hostile when he said he was angry, which was more extreme than the gang's style.

More importantly, Su Xiao put on an appearance of fighting with the ten older men, which gave the ten older men a headache.

They suddenly found that this was not a hired thug from heaven. This was a god of plague!

"I wonder what Mr Byakuya wants? Money? Rights? Women?"

"I don't like the women you provide. As for other things, I'm not interested."

"Then..."

Killing intent emerged in the eyes of the ten older men. Only people who did not covet anything had problems.

"I want rare treasures."

As Su Xiao spoke, he took out a few items: the world government commemorative coins, soul crystals(medium), white equipment, and potion No. 1.

"I want to be similar to these items, not in appearance, but nature."

The ten older men looked at the things in Su Xiao's hands. After a long time, these people shook their heads.

"I'm sorry, Mr Byakuya, the thing you want..."

Before Bick finished speaking, the ten older men beside him spoke.

"Isn't that the Eternal Crystal?"

The ten older men looked at the soul crystal(medium).

"Very similar."

"If it is not very similar, then it is."

"Well, this Eternal Crystal is not small. It can be sold at a sky-high price in the auction, but not many people are collecting it. Some people use it to make jewellery."

Su Xiao's eyes seemed to shine while listening to the discussion of the ten older men.

"I've decided. The cost of helping you is 'Eternal Crystal '."

Su Xiao guessed that the eternal crystal of the hunter world was the soul crystal.

"This..."

The ten older men looked at each other. For a moment, no one spoke.

"The price... is too high."

"How is that possible!"

"Absurd."

The ten older men rejected it very simply. It was not that they could not take out the soul crystal (medium) but that they were accustomed to using cheap money to make others work for them, even if it was the Yin Beast.

"Are you rejecting me?"

Su Xiao was laughing. He kicked the sick dog away, grabbed the black Mary dress on the side, and wiped the blood on the dragon flash with the long dress. Black Mary pressed her hands on her hips to avoid light.

"Since you refuse... then forget it."

Su Xiao got up and walked out. The ten older men did not know why they felt their hair stand on end. They knew in their hearts that there were two choices now. One was to send people to besiege Su Xiao, and the other was to continue to talk to Su Xiao.

The best result of besieging Su Xiao was to kill many of his men after death, or he might be killed out of the encirclement of Su Xiao. Once Su Xiao was killed out of the encirclement, the ten older men would have a hard time in the future.

As for continuing to talk, the ten older men were very hesitant. Who should pay the money?

"Why don't we hire him together?"

Bick's proposal was fully approved.

"Mr Byakuya, tell me about the cost of treating you to work. We will be partners."

For Bick to climb to such a position in a gang, of course, was a personal skill. The other ten older men were also the same. They all knew that although they had to pay a great price to hire Su Xiao, the auction was about to begin. With Su Xiao's fighting ability to beat the dark beast, this might be an opportunity.

"My requirements are not high. This kind of standard of eternal crystal stone, ten per day."

"Cough cough..."

"Ten"

Chapter 627: Negotiating the Rich 10 Old Men

The cost of ten soul crystals per day was unacceptable to the ten older men. This was cutting their flesh.

"Ten crystals per day is impossible. The number of eternal crystals is rare. It is no longer a problem with the price."

Bick was determined. Ten crystals per day was a price they were unwilling to pay.

"At most every Monday."

One of the ten old men spoke, and the others nodded.

Su Xiao sat back in the chair. The ten older men did not completely refuse it. This meant that there was a possibility of negotiation. These guys were richer than he imagined.

Thinking of the business that was about to be completed, Su Xiao's heartbeat inevitably accelerated.

"The negotiation must be sincere. I can't see your sincerity for the time being."

"Every Monday is very sincere."

"Yes."

Hearing everyone's discussion, Bick picked up the cigarette on the table and lit it up.

"Every day... two!"

"Are you crazy, Bick?"

"I don't agree."

The other ten older men looked at Bick as if they were looking at a retard.

"Mr Byakuya, we need to discuss this internally."

Bick tapped his index finger on the table, indicating that he should cut off the video first. The image on the screen was cut off.

In an underground conference room in Youke Xin City.

"The auction is about to begin."

Bick looked around at the other ten older men.

"So what? The auction is held annually, and the security has already been set up."

"No."

Bick looked serious and said, "Just a few days ago, I received a piece of news that I have yet to find out whether it is true or not, and I haven't found the source of the news."

"If you have something to say, say it. Don't be so fussy."

"The news is that Spider is eyeing this auction."

"Spider?"

The other ten older men were initially confused but then shocked.

"Phantom Troupe? That bandit group?"

"Yes, a bandit group composed of psychic powers."

The ten older men were worried, but they did not look afraid. They did not know the strength of the Phantom Troupe.

"Everyone knows how powerful psychic powers are. That guy named Byakuya must be psychic. We might as well hire him to protect the auction."

"No, what if he also has his eyes on the auction?"

"Yes, if there is a traitor, it will be bad."

The ten older men began to discuss, and Bick had a headache.

If his eyes are on the auction, he will not appear now. Think about it carefully; many signs show his goal is the Eternal Crystal. Although it is rare and expensive, it is not easy to sell it. If he wants it, give it to him.

Bick's words made the ten older men stop talking.

"Although he said that, that guy threatened us..."

"Do you think he is joking? Or are we talking about business? You still haven't seen that this is a god of plague? He will come to kill us if we don't deal with it. Don't forget how Leech died. And the current sick dog, he is almost a dog."

Bick was angry. These ten older men were still considering their gains and losses, and they did not realize that they had provoked a god of plague.

"At most, I'll fight him to the death!"

A bald man slammed the table and stood up. The ten older men looked at him with disdain. Why would he risk his life if he could use the money to solve a problem?

"We have to cooperate. We can discuss what price we can pay the most. If Spider comes, this is a heaven-sent opportunity. If he doesn't come, we can treat it as a waste of money and avoid disaster. It is not long-term cooperation."

The ten older men began to explore the way.

Youke Hotel, on the 30th floor.

Su Xiao looked at Black Mary on the side and looked at the sick dog.

The sick dog fell to the ground at this time, his face was pale, and his body shook from time to time. He lost too much blood and let the sick dog be very cold.

It had to be said that although the sick dog looked like a drug addict, its life force was very strong. After being cut in half by Su Xiao, it did not die.

The eyes of the sick dog were a little dim. If he chose between being captured and dying, he chose to die quickly.

"You, bandage him."

Su Xiao suddenly opened his mouth, and the sexy sister, Black Mary, was shocked.

"Me, me, me?"

Black Mary pointed to herself.

"" ... "

Su Xiao did not speak, just quietly looked at Black Mary, thinking in his heart, are all the gang members so timid?

"This, that, I..."

Being stared at by Su Xiao was not a good experience. Black Mary was flustered. Although she was a gang member, she was only responsible for finance. The gang members usually respected her, and she also had an identity. She was the daughter of Ten Old Man Bike.

Bick was also ruthless enough to put his daughter next to Su Xiao at a critical moment.

"Yes, it's you."

Su Xiao suddenly felt that this woman was very interesting. Although she looked like a cold royal sister with a black rose tattoo on her arm, she was a little timid.

"Okay... okay."

Black Mary quickly ran forward, her high heels making a few crisp sounds as she stepped on the ground.

The sick dog sighed and swore in his heart that if he could survive today, he would stay away from someone. He was right!

Black Mary clumsily helped the sick dog bandage it. Just as she was bandaging it, the image on the screen recovered.

"Byakuya, have you thought about it? Two eternal crystals a day."

Bick spoke. After discussing the ten older men, he talked to Su Xiao as a representative. The ten older men had decided to take out a few at most.

Su Xiao looked at Bick quietly and seemed to be thinking about something.

"I don't know..."

Bick was interrupted by Su Xiao before he finished speaking.

"Five!"

Hearing this number, Bick's eyes twitched. He suspected there were traitors inside because their highest price was five.

"At least five."

The ten older men looked at each other. Although Su Xiao looked calm, he was very excited in his heart. Those were five soul crystals(medium) and five every day! What kind of concept was this?

If the ten older men could survive on the last day of the auction, including the previous three days, Su Xiao could get a total of 65 soul crystals(middle). This was simply a windfall.

"Mr Byakuya, there is one thing I have to say, our cooperation can only be maintained until the end of the auction, and then our grudges will be written off."

Bick's meaning was very obvious. Hiring Su Xiao at the end of the auction was to break the money and avoid disaster. Su Xiao would no longer look for them in the future.

"Sure, I just happen to be leaving Youke Xin after the auction."

Bick slapped the round table and laughed.

"It's a pity we can't shake hands directly, but I hope we can cooperate happily."

"Happy cooperation."

Su Xiao slowly returned the dragon flash to the sheath.

"Black Mary, go to the vault and get five eternal crystals."

Black Mary quickly came to the front of the elevator. Black Mary walked out of the elevator ten minutes later with a tray.

Holding the tray in front of Su Xiao, Black Mary slightly turned her head and found that she would feel fear if she looked at Su Xiao directly.

Su Xiao pulled the black cloth on the tray away, and five crystal clear soul crystals (medium) were placed on it, like the five purest diamonds. Holding the five soul crystals(medium) in his hand, the hint appeared.

[You have obtained the soul crystal(middle) ×5.]

The wealth of the ten older men was unexpected. Su Xiao finally understood why the Phantom Troupe came to rob these guys. These people were simply meat buns with thin skin.

"Next, let's talk about the one-eyed monster eyeball."

Su Xiao took out a thick test tube. He was not a subordinate of the ten older men. The two hair was in a cooperative relationship, so he had to use this eyeball to hit hard.

Chapter 628: Auction

Su Xiao just took out the eyeball of the one-eyed monster. He noticed that the expressions of the ten older men were a little strange. Those people were very greedy about this eyeball.

"Black Rose, is this eyeball very special?"

Su Xiao looked at Black Mary on the side.

"That... My name is Black Mary."

"I know. It's just that Black Rose is more smooth."

Black Mary opened her mouth and finally sighed.

"Alright, my name is Black Rose. As for this eyeball..."

Black Rose had not finished speaking when a ten older man coughed.

"This thing is a long-term acquisition by the V5 organization. If it can..."

"Cough, cough, cough..."

The ten older men coughed and looked at Bick fiercely. Their gazes were clearly: 'Hurry up and make your stupid daughter shut up.'

Bick had a splitting headache on his forehead.

"V5 Organization?"

Su Xiao grinned. 'Black Rose' was not only a little timid but also a little cute.

"Em,"

Black Mary did not say anything more. She already knew that she had let it slip.

"How about we make an exchange?"

Su Xiao suddenly spoke, and the ten older men were somewhat puzzled.

"Exchange?"

"Yes, exchange. This eyeball can be given to you. In return, I will choose one of the items in this auction."

"This..."

The ten older men looked at each other. Of course, they were willing to accept this deal, but the eyeball owner was a problem.

The ten older men were ten people, each with their selfish motives. If they could offer the eyeball to the V5 organization in their name, it would greatly benefit their future development. At least their status could be improved a few levels.

No one was willing to join a gang if there was a choice. For the V5 forces, a gang was just a 'leek'. When the 'leek' was lush, they would harvest a batch.

The ten old men forces were already very rich. According to the usual practice, the V5 forces would take action in less than three years.

Before they were harvested, these gang leaders sought a way to survive. Their only way to survive was to find a way to join the V5 forces, so the significance of this eyeball was indescribable.

"Exchange an item, agree."

"Sure."

"No problem."

The negotiations went smoothly. Su Xiao put the thick test tube on the ground.

"Byakuya, Black Mary will be your assistant and secretary in the future. If there is anything, we will let Black Mary inform you. As for the item, you can go to the auction to get it."

Black Mary lowered her head. Her father's orders could not be violated, and she had been like this since childhood.

"Let her follow me?"

Su Xiao looked at 'Black Rose'.

"She can serve your daily life..."

Bick looked normal. He had a total of six daughters and three sons.

"It's very dangerous to follow me. If she dies, remember to send someone to collect her corpse."

"No problem."

The deal was settled. The ten older men hired Su Xiao at a high price of five soul crystals daily. Su Xiao was responsible for making the auction start smoothly.

Of course, he also had to be responsible for the life and death of the ten older men. Now, these ten guys were the God of Wealth. At least they could not die during the auction.

The soul crystal(medium) would be endless if the ten older men did not die. If he wanted to upgrade the sword master to LV. 30, he also needed 70 soul crystals(medium). This was a good opportunity for them.

Thinking of this, Su Xiao smiled and found that sometimes killing the plot characters was not the biggest gain.

For example, he couldn't get 65 soul crystals if he killed the ten older men, but it was different in the way of cooperation.

"Black Rose."

Black Mary was stunned, and then she remembered that Su Xiao was calling her.

"Yes, what instructions does Lord Byakuya have?"

"Take me to the auction house."

"Yes."

Black Mary pressed the elevator button, and the elevator rose to the 30th floor. Black Mary, a little stunned in waiting, entered the elevator and subconsciously pressed the door button.

Bang!

One hand blocked the closed elevator door. Black Mary opened her red lips slightly and forgot Su Xiao.

The furry head went into the elevator. Bobowang looked at Black Mary and sighed. His gaze seemed to say, "This kind of national treasure level natural dumbness is rare."

Su Xiao entered the elevator. Black Mary shivered in the corner.

"Am I that scary?"

Su Xiao looked at the mirror in the elevator.

"Of course, no... no, I'm just afraid of taking the elevator."

Black Mary had never been so nervous. The man beside her was murderous, moody, and ruthless, so she panicked.

"Poor excuse, Bobo. Am I terrible?"

"Woof."

Bobowang shouted and rolled his eyes.

...

At night, in the central district of Youke Xin City, a black car was galloping on the road.

Su Xiao sat in the front passenger seat. The little secretary, Black Mary, was in charge of driving while Bobowang slept in the back seat.

The black car slowly stopped in front of a brightly lit building. This building had a total of ten floors and covered a large area. This was the auction venue because the auction was about to start. At this time, the number of gang members was so many that it made people speechless.

Ten older men managed Youke Xin City. The gang set the rules here. Although the gang management, Youke Xin's security was not bad.

If they dared to steal or rob here, once he was caught, he would chop off his hands and stamp his feet, and if he were caught, he would disappear from the world.

Su Xiao got out of the car and walked to the auction house. A dozen members of the gangs guarding the door became alert.

"Stop. The irrelevant people can't enter."

These gangsters did not recognize Su Xiao. Fortunately, they knew Black Mary. After some negotiation, Su Xiao entered the auction house.

The first floor of the auction house could be said to be dazzling. It was not unreasonable to call it the top auction.

Taking the elevator to the forty-first floor of the venue, the treasure house was on this floor.

After arriving at the forty-first floor, just out of the elevator, Su Xiao found that the number of guards here had increased dramatically, and these gang members were holding submachine guns, rifles, and so on.

It was not easy to open the treasure house. Black Mary negotiated with the person in charge of the auction for half an hour, and during that time, she repeatedly confirmed through the phone that the treasure house made of special metal was slowly opened.

The area in the treasure house was not big, but there were many things, so the items were all stored in the wooden box, and the wooden box was tagged.

"Mr Byakuya, you can choose any one of them."

The person in charge of the auction bowed slightly. He already knew Su Xiao's identity.

Su Xiao entered the treasure house and checked the labels. He directly ignored some antiques and picked out some rare weapons. These items were not all of the items in the auction house. The auction started three days later. Some precious items were not stored in the treasure house and would only be sent before the auction started.

Ten minutes later, more than a dozen wooden boxes were in front of Su Xiao. These were the items he chose which might be equipment or materials.

Opening the first wooden box, there was a golden broadsword inside.

[Pure Gold Execution Blade]

Quality:(undetermined)

Sure enough, as the previous information was the same, equipment might appear in the auction, but it required a certain amount of luck. He wanted to determine if this broadsword needed to return to the reincarnation paradise for equipment.

Chapter 629: Talent

He opened all the wooden boxes. There were weapons, unknown quality potions, armour, and so on.

Choosing for a long time, Su Xiao took a fancy to a knife.

Bloodshed.

Quality:

Su Xiao held a weapon that was similar to a dragon flash. This sword was called a blood blade because the edge of the blade was blood red.

The long sword slowly came out of the sheath. Su Xiao tried to cut a few times. The sharp sound of air breaking appeared. The attitude of the auction manager, who was already impatient on the side, changed greatly.

The sword suddenly appeared, and the long sword slowly returned to the sheath.

"This is it."

Su Xiao felt that the quality of this sword was not low. At least it could pass through the fair equipment of the reincarnation paradise.

"This..."

The person in charge of the auction looked embarrassed, and it seemed there was something difficult to say.

"What?"

"It's like this, Mr Byakuya, this knife has been reserved by someone, and the guest is willing to pay a high price..."

"Has it been paid?"

"No, but..."

"Shut him up without paying."

Su Xiao walked to the elevator with his sword. He was ready to stay in the auction house these days.

...

On the 20th floor of the auction house, there were many guest rooms. Su Xiao chose to stay here temporarily.

Now he was considered to have joined the ten older men's forces, and the two sides were in a cooperative relationship, so he was destined to be hostile to the adventurous group.

According to the original story, the adventurous group would come to rob the auction. The adventurous group and some contractors would also have ideas about the auction.

According to Su Xiao's preliminary investigation, the contractor had joined the ten older men's forces. This contractor did not have any conflict of interest with him. Although they were in the same camp, Su Xiao was not ready to contact this contractor.

Su Xiao, sitting on the bed, slowly opened his eyes. He completed his daily meditation.

Su Xiao took a long breath and suddenly thought that there were two treasure chests in his storage space that had not been opened. One was pale gold, and the other was purple.

"Let's try our luck."

Su Xiao suddenly felt a little guilty. After all, he had just obtained five soul crystals(medium). And in the future, he would have five of them every day. This kind of windfall must have consumed a lot of luck.

Taking out the Fate Redemption lighter, Su Xiao lit a cigarette with his mouth. After spitting out a light golden smoke, he was in the state of an Emperor. At this moment, he had a kind of self-confidence.

[Yes/ No Opening Treasure Chest(Purple).]

"Open."

[You have obtained 1200 paradise coins.]

[You have obtained 5600 paradise coins.]

[You have obtained 3400 paradise coins.]

[You have 9,500 Paradise Coins.]

...

Seeing this series of notifications, Su Xiao spat out a mouthful of green smoke. Overall, his luck was good.

He had just opened the purple treasure chest when the bathroom door opened. Bobowang walked out of the bathroom and shook the hair on his body. This guy loved to be clean. He would take a bath every day if there were a chance.

Finding that Su Xiao was opening the treasure chest 'secretly', Bobowang quickly ran forward. The small-eyed god seemed to be saying: "Master, why didn't you call Bobo for such an interesting thing?"

Bobowang squatted on the bed and watched Su Xiao open the treasure chest with interest because Su Xiao's expression changed the most when he opened the treasure chest.

Su Xiao took a deep breath and opened the light gold treasure chest. Because the recent harvest was not small, he already had too much hope for this treasure chest.

[You have opened the Lord's Treasure Chest(light gold)]

[You have obtained 20000 paradise coins.]

[You have obtained the Book of Talent(the second page).]

[You have obtained the Book of Talent(the third page).]

...

[Book of Talent(Page 2),(Page 3)]

[Origin: Reincarnation Paradise]

[Quality: Light Gold]

[Type: Consumable]

[Effect: A total of three pages. After gathering, it can become a Book of Talents(complete).]

[Book of Talents: A necessity to awaken innate talent(current innate talent: Devouring Spirit)]

[Rating: 310]

Introduction: Book of Talent can be exchanged with soul crystals(big). Each soul crystal(big) can be exchanged for a page of the Book of Talent.

...

Two pages with metal texture but a soft feel appeared in Su Xiao's hands. These two pages were full of strange words. He felt dizzy just looking at them.

"Paradise, what is awakening talent?"

Su Xiao's innate ability was the Psychic.

Killing talent(Psychic): After killing the target, it will permanently seize 1-15 points of mana values.

This innate ability is very simple and practical. As for what is an awakening talent, according to his guess, it should be an enhanced innate ability.

[Hunter level trial...]

[Review completed. Provide corresponding information according to the hunter's authority.]

[Talent has many different types of abilities. They are divided into ordinary talents, rare talents, special talents, killing talents, and so on.]

[Talent ability is level E, level SSS. There is no rank before the awakening of talent.]

[Awakening Talent requires the following conditions to be met: Any naked makeup attribute has reached 50 points(already achieved)]

[After awakening the talent, the talent will show the corresponding level and enhance the existing ability or develop new ability.]

[The awakening talent is extremely dangerous, more than 50 contractors can not awaken the talent.]

[The awakening talent has great significance. The killing talent must be awakened. The reincarnation paradise will release a critical mission after the hunter reaches the third rank. The higher the level of the hunter, the higher the difficulty of awakening the talent. The talent awakening mission will be higher than the hunter LV. 10(If Su Xiao is LV. 14, the talent awakening mission is LV. 24).]

[The clearance is insufficient. The following information can not be checked.]

[Warning: Hunter can't reveal anything related to awakening talent.]

...

After reading the information provided by the reincarnation paradise, Su Xiao was silent.

A concept that he had never heard of appeared, awakening talent ability. Many situations showed that awakening talent was a good thing.

Not to mention whether he could get a new ability, he was eager to strengthen his current talent ability.

The Blue Steel Shadow ability consumed too many mana values, and each derivative world could not satisfy him by seizing 100 points of mana values.

From the literal meaning, it could be seen that awakening talent was very difficult, and this was an extremely hidden matter. This time, he coincidentally opened two pages of the Book of Talent. Otherwise, it would be impossible to know the concept of awakening talent.

Awakening talent requires four points, and a type of naked makeup reaches 50 points.

According to the information provided by the reincarnation paradise, Su Xiao had to meet the first three conditions before he could activate the talent awakening mission.

The talent awakening mission was different from the promotion mission. The talent awakening mission could be executed in any derivative world. If Su Xiao could collect the talent book in the Hunter World, he could immediately activate the talent awakening mission.

Unfortunately, not to mention that Su Xiao could not complete the talent awakening task, and the possibility of getting the talent book(the first page) in the Hunter World was not high. There was no such coincidence in the world. With Su Xiao's luck, it was impossible to have someone send him a pillow when he dozed off. If he "dozed off", he would only be attacked.

"The talent awakening... is ten levels higher."

Su Xiao felt that the talent awakening task would be completed as soon as possible. It was best to complete it between the second and third levels, which was the least risky.

Putting away the two pages of the talent book, there was no need to consider the talent awakening in this derivative world. He still thought about how to deal with the adventurous group.

Chapter 630: 1st September

Time passed quickly, and Su Xiao received another ten soul crystals. After that, it was time for the auction to start.

1st September, morning.

Youke Xin City was even more lively, the traffic in the central area was blocked, and the car honks that came in succession disturbed Su Xiao's morning sleep.

"These broken cars."

Su Xiao sat up. The quilt slid down and revealed his upper body, which was not strong but full of strength.

Bobowang sat at the dining table, holding a cup of hot milk with both hands, and drank slowly.

These two people and a dog were very unrestrained. Five soul crystals were collected every day. In name, they were protecting the security of the city of Youke Xin. They were eating, drinking and playing. They walked through several food streets.

"Woof."

Bobowang called out, his eyes clearly saying: "Master, where are we going to eat, drink, and play today?"

"The auction is about to begin. We can't be as leisurely as before."

Su Xiao got up, and at this time, the door was pushed open. Black Mary pushed the dining cart into the room. After seeing Su Xiao, who was naked, Black Mary lowered her head.

"Breakfast is ready."

Black Mary secretly looked up at Su Xiao's shirtless upper body. The thrilling scars made her a little speechless.

Su Xiao walked to the dining table and sat down. At this time, Bobowang was playing a mobile game.

"Don't play, eat."

Black Mary brought a sumptuous breakfast to the table. Su Xiao, who was chewing the food, looked at Black Mary.

"When will the auction start?"

"Six o'clock late."

"Be more detailed."

Black Mary began to introduce the situation of the auction. Today is 1st September. The auction would start today, but it would start at 6 p.m. During the day, it would only be the opening ceremony, such as inviting famous singers to sing.

With the wealth of the ten older men and the good reputation of the gang, the opening ceremony during the day was vast, and the actors and singers invited were all very famous.

At 6 p.m., the first round of the auction began. The first round was semi-public, and the participants in the first round were all gang members. The auction owner of that day would show the wealth of those gang members to show his face to the ten older men.

The first auction would end at 8, and the second round would begin at 9. This time, it would be the highlight and last until noon.

From 1st to 2nd September, there is an auction every night. As long as one had enough money, one could participate.

In the original work, the auction was destroyed before it was even held. Su Xiao certainly would not allow this to happen. He still hoped to continue collecting soul crystals(medium).

So, the adventurous group coming to make trouble was equivalent to cutting off Su Xiao's road of wealth, and the broken one was a windfall. Of course, he had to risk his life, the kind that would not stop until he died.

Dang!

Su Xiao inserted a steak. He did not have a chance of winning against the adventurous group. The people of the adventurous group had a habit. Most of the time, they would not attack the enemy. It was generally in a one-on-one form. Sometimes, even if the members died in the battle, others would not attack. It was just that after the member died in the battle, other people continued to fight against the enemy.

This undoubtedly gave Su Xiao a chance. There were too many people in the adventurous group, and he was not the opponent when they attacked together.

Thinking of this, Su Xiao suddenly remembered the contractor, who joined the power of the ten older men. These people had already revealed the attack of the adventurous group to the ten older men in various ways.

However, it was useless. The ten old men forces did not care about the adventurous group. The adventurous group was just a group of bandits with psychic ability in their eyes. The dark beasts were all-powerful.

Su Xiao had long thought of the attitude of the ten older men, so he did not mention the adventurous group at all. He just needed to follow the plan.

...

At five o'clock that night, on the first floor of the auction house.

At the beginning of the evening lights, a large group of gangsters gathered in the banquet hall on the first floor. These people talked with each other and compared their achievements in the past year. These people had a lot of status in the gang. The auction at six o'clock was prepared for them.

On the roof of the auction house, the night wind blew. Su Xiao used the sniper rifle's scope and the apostle's eye to detect the surrounding situation.

According to the original plot, the adventurous group would attack the auction tonight to rob all the items.

From the current situation, no members of the adventurous group appeared, and the nearby monitoring equipment did not catch a trace of the adventurous group.

"Did the adventurous group change their plan?"

Considering that contractor was there, it was normal for the regiment to change their plan.

Just as Su Xiao was looking for the trace of the regiment, there was a slight noise in the basement of the auction house.

Bang, bang, bang, a large crack appeared on the wall of the basement. Finally, a big hole appeared. A tall, strong man with long ears poked his head out of the hole.

"If the position is right, it should be here."

The tall figure drilled into the basement from the hole in the wall. Although the hole on the wall was not small, it was still a little difficult for him.

The tall figure was called Franklin, a member of the Phantom Troupe. The regiment was number 7 and released the ability of the system. After the ten fingers were opened, it could launch a psychic bomb. The character was mature and steady, and it was the peacemaker of the regiment.

"This time, it can't be wrong. I shouldn't have let the small drop take the map."

A slightly hoarse voice came from the black hole. A short figure jumped from the hole into the basement. The hole that Franklin could barely enter was very easy for the man.

The man was about 1.5 meters tall, with thin dead fish eyes and a black trench coat. The trench coat collar was very high, blocking his face's lower half.

This person was called Flying Tank, a member of the Phantom Troupe. The brigade number was 2, the ability to change, the character was cold, and the hobby was to torture the enemy.

"I accidentally lost the map, sorry."

A weak voice came, and a dull glasses girl jumped into the basement. Her name was Little Drip, a member of the Phantom Troupe. The brigade number was 8, and she could materialize thoughts. She was a new member of the Phantom Troupe.

The three people of the brigade entered the basement. At this time, another figure jumped out of the hole.

"Too slow. If you delay any longer, I will kill you."

Seeing the person who came, Flying Tank's eyes were extremely cold.

"Sorry, I am a little nervous."

The person quickly apologized, his fear obvious.

"Tsk."

Seeing this person's expression, Flying Tank was very unhappy. Without their leader's instructions, this person would already be a corpse.

The fourth man who entered the basement was wearing a black robe. Although he could not join the regiment, he used a special method to find the regiment leader, Ku Luolu, three days ago. He claimed to know the power of the ten older men.

This guy was the contractor, the lucky contractor.

"The auction is about to start. Hurry up."

Flying Tank took the lead and walked to the upper level of the auction. Little Drip and the others quickly followed. That contractor took a deep breath. He was still a little nervous. No doubt, cooperating with the regiment was asking for the tiger's skin, but this was an opportunity.

"Wait."

When the contractor spoke, Flying Tank and the others stopped and turned to look at the contractor.

"Everyone, according to my information, now is not the best time to attack the auction. If you want the item, we better wait until the auction begins. Then we will have the opportunity to get the item."

This contractor understood the plot of the hunter world. Of course, he knew that the Yin Beast had transferred the item. If he attacked the auction now, he would only alert the enemy. His main mission had changed because of the contact with the regiment. He needed to help the regiment steal the item. Once he succeeded, he would get extremely generous rewards.

"Attack the auction?"

Flying Tank narrowed his eyes, a sneer appearing at the corner of his mouth.

"How did you know we were going to attack the auction?" "The captain only told us to sneak into the auction. When he told us the specific plan... you were not there."

Franklin looked at the contractor coldly.
